

Mystery Surrounds Death of Chinese Engineer

By PATRIK HARDEN
THE HAGUE (UPI)—The man with the Oriental features might have been a hit-and-run victim.

That was what businessman S. P. van der Veer thought when he saw the blood-covered body on the sidewalk in an expensive residential section.

Van der Veer called the police and broke open a bizarre story of mysterious death, espionage and diplomatic double-dealing rebounded from Peking to Washington.

It was a cloudy Saturday just a year ago, July 16, 1966 when

Hzu Tzu-tsai lay dying on the sidewalk. The 42-year-old engineer, member of a Communist Chinese delegation attending an international welding conference, was rushed to a hospital for emergency treatment.

Kidnap Mystery Man
But as he lay on an X-ray table, watched over by a nurse, four Chinese silently entered the room. They grabbed the helpless man and hustled him outside to a car with diplomatic plates.

The abduction was over in minutes and Hzu was behind the

locked doors of the Chinese legation before police could intervene. The next day the legation announced without comment that he had died of his injuries.

By this time the Dutch government was concerned, and when Hzu's body was released for cremation a couple of days later, security agents seized it for an autopsy.

Hzu died of a fractured skull and spinal injuries. But no one knew—or would say—how he was hurt.

The Dutch demanded an explanation, and when Charge

d'Affaires Li En-chiu ignored the demand, he was tossed out of the country. In the meantime, Hzu's eight welding colleagues disappeared into the legation building at No. 7 Acrian Goekooplaan and refused to come out.

In Peking, the Chinese government declared Holland's representative, G. J. Jongejans, persona non grata but ordered him to remain in China until his government "released" the eight welders.

The Chinese declared in a statement that "United States

secret agents and their associates incited Hzu to defect."

The New China News Agency reported in a Peking despatch that "Betrayer Hzu, in an attempt to escape, jumped from a window of the house where he was staying . . ."

Police ringed the legation building to grab the welders if they tried to sneak out.

Police promised to grant diplomatic immunity to all the welders — illegal immigrants since August when their visas expired—if they would just answer a few questions. They refused.

October slipped into November, then came December and snow. The Chinese stayed snug behind the solid walls of the legation and Jongejans counted the dismal days in Peking.

The break came in the last days of the year. After intense diplomatic pressure the welders met with Dutch legal and foreign office officials and gave a version of the story. It has still never been released.

On Dec. 30, the eight Chinese, surrounded by police and security agents, were rushed to Schiphol Airport and put aboard a Russian airliner for Moscow.

In Peking, Jongejans was told to get out of China immediately. He crossed to Hong Kong Jan. 1.

Lost in the diplomatic maze was the question: How did Hzu die?

Was Hzu a simple welder? Or was he, as some people believe, a highly skilled engineer with valuable information for the West.

The Dutch Foreign Office meets inquiries with the comment, "The matter is now considered closed."

Beware of him who promises something for nothing. — Bernard Baruch, advisor to U. S. presidents.

Rail Unions Ignore No-Strike Plea

'TIS THE SEASON — Mike Heiskell, son of Mr. and Mrs. Claude A. Heiskell who live south of the city, is out to make a big splash at the Municipal Swimming Pool. For a report of the city's pools see story on page 3.

Panhandle Area May, May Not Be Affected

WASHINGTON (UPI) — Six shopcraft unions, ignoring warnings by the White House and Congress, prepared early Sunday to stage selective strikes against the nation's railroads. At least 10 railroads were to be struck at 6 a.m. local time. Administration officials saw no hope to prevent a walkout.

WASHINGTON (UPI) — Six shopcraft unions, ignoring warnings by the White House and Congress, prepared to strike just after midnight Saturday. Administration and union officials said they saw no chance to avert a nationwide walkout.

Although no strike order was issued, the unions informed local lodges that they were free to stop work at 12:01 a.m. Sunday. It was expected that some would strike at that time, but most were expected to leave their jobs at 6 a.m. Monday, when the railroads begin their first shift.

A complete walkout by the six unions would shut down 95 per cent of the nation's rail facilities and—according to the administration—seriously impair the Vietnam war effort and damage the U.S. economy.

But the unions were expected to strike at only selective points with walkouts anticipated particularly on the Pennsylvania, New York Central, Southern Pacific, Santa Fe, Great Northern and Union Pacific Railroads.

As of late last night no strike was expected at the local Santa Fe Railway Co., according to agent Aubrey Sprawls.

"We don't know if there will be a strike or not," Sprawls said. "It's a hit-and-miss affair, affecting different areas."

Sprawls explained that none of the unions due to have gone on strike across the nation at 12:01 a.m. today had members at the Pampa office. A number of them, though, are present at Amarillo.

"Picket lines may be thrown up," Sprawls said, by union members from Amarillo. "If so many of the employees may not cross the lines."

If the unions go on strike in Amarillo, Sprawls said, "It would probably tie everything" (See STRIKE, Page 3)

School Lunches To Be Raised in Grade Schools

To help offset the \$18,061.13 deficit in Pampa cafeterias and snack bars last school year, elementary school children here will have to pay a nickel more for a school lunch than they did last year.

After Pampa school board members learned Thursday that only two of the 10 Pampa schools made a profit last school term, they voted to raise the 30-cent elementary school lunch to 35 cents, and decided elementary school teachers would pay the same as other teachers, 50 cents a plate.

Other fees, junior high schools, 40 cents, and high school students, 50 cents, are the same. Guests pay 75 cents each, except during special, all-school events when the fee is reduced to 50 cents.

School Superintendent Dr. John Damron explained the smallest participation in cafeteria attendance has been at Pampa High School and Pampa Junior High School, and the greatest number in the elementary schools.

Board member John Gikas said he knew "in business if you have to increase your prices, you increase them in your best seller. Since the greatest participation has been in the elementary schools, it's better business to increase the price there."

He added, and other board members agreed, they "hated to increase the elementary school price to make the high school price look better."

UN TRUCE OBSERVERS DUE

Egyptians Strike Sinai

By United Press International
Russian-built Egyptian air force jets knifed into occupied Sinai Saturday and bombed Israeli positions in Cairo's first admitted air strikes since the shaky Mideast cease-fire began five weeks ago. Fierce dogfights blazed over the desert and artillery and tanks battled across the Suez Canal.

The United Nations made last-minute preparations to rush

truce observers to the Suez front in an effort to prevent fighting from erupting into all-out war as both sides claimed heavy losses in two days of intensifying combat. Snags delayed posting of the U.N. teams, but it was hoped to get them on the line by Sunday.

There was speculation that the fighting resulted from a campaign by both sides to improve their positions along

the canal before the U.N. observers begin operations. Both nations have agreed to permit observers in the tense area.

Adding to the gravity of the situation was a report that Jordanian and Israeli forces traded shots Saturday for the first time since the end of hostilities on that front last month.

In reporting its air attacks against occupied Sinai Saturday, Egypt claimed MIG21 jet fighter pilots shot down three Israeli planes without losing any of its craft. Israel reported the loss of one of its French-built Mirage jets in the dogfights, but said the pilot was rescued and claimed destruction of two of the super-sonic Egyptian MIGs in the dogfights.

Both sides accused the other of starting new artillery duels across the Suez Canal Saturday along a 120-mile front from Port Said at the northern end of the waterway to Port Suez at the southern terminus.

At least 107 persons, including 22 Egyptian civilians, were reported killed or wounded in the two days of air land and sea attacks. Jordan claimed three Israeli soldiers were reported killed in the Saturday gunfire across the River Jordan.

Twelve Soviet warships steamed in the Suez area on the Mediterranean Sea earlier this week in a show of Kremlin support for Egypt. None of the Russian vessels was reported involved in the fighting.

Trooper's Wife Is Killed by Burglars

ABILENE (UPI)—Two men hid in the bedroom of a Texas highway patrolman's home early today and attacked him and his wife with a pipe and chains when they got back from a movie.

Joyce White, 38, died of the savage beating and the patrolman, Alfred P. White, 37, veteran of nearly 14 years with the Department of Public Safety, was severely beaten. He was treated at a hospital, where X rays showed he had no broken bones, and then was released to his home, leaving the hospital by wheelchair.

Two men matching the description of the attackers tried to stop a newspaper route delivery man hours later for a ride on a highway near Rule, 45 miles, northwest of Abilene. The route man refused to stop

and the men fled so quickly that officers checking the area soon afterward could not find them.

The men either got another ride or found hiding in a farm house in the area, officers theorized. Route man Joe Dillard said two men lying in a ditch jumped up and waived to try to stop him, but he saw something in the hand of one of the men and sped up instead. He stopped later and told police.

White told police he and his wife got home early today from a movie and she walked into a bedroom and turned on a light.

"Then she screamed," he said. He said he went to help her and somebody hit him with an 18-inch length of pipe wrapped with adhesive tape.

Man Killed, Child Hurt in Riots

NEWARK, N.J. (UPI)—A man was shot and killed Saturday by police outside a liquor store threatened by looters even as community leaders struggled to head off a fourth night of rioting by Negroes who make up 60 per cent of this city's population.

Police reported renewed sniping and looting in the 20-block riot area in the Central Ward west of the downtown business section.

A man was killed and a 10-year-old boy was reported wounded by a police shotgun blast outside the liquor store.

Two men were rushed seriously injured to Newark City Hospital. Officials said they were snipers cut down by police and National Guardsmen shooting live ammunition, during this riot period, for the first time in a civil disturbance in New Jersey.

After three nights of bloody violence and looting, 16 persons were dead, 1,000 persons injured and 1,012, including Negro playwright LeRoi Jones, arrested.

If it comes from a Gunstore we have it. Western Motel. (Adv.)

FAMILIAR PICTURE is repeated in Newark, N. J. Policeman and bleeding Negro leave a building near Springfield Ave., center of the rioting ripping New Jersey's largest city.

Garrison Claims JFK Killed by 3 Assassins

NEW ORLEANS (UPI)—Dist. Atty. Jim Garrison told a national television audience Saturday night that President Kennedy was shot by at least three assassins who belonged to a conspiracy to kill him for his Cuban policy.

Garrison indicated—but did not say so specifically—that the assassins wanted Kennedy out of the way because he would not sanction another attempt to invade Cuba.

Garrison, appearing in rebuttal to a National Broadcasting Company special program, called the Warren Commission's report and its conclusion that Lee Harvey Oswald alone killed Kennedy "a fairy tale."

He said powerful forces in the

federal government and the nation's news media were trying to cover up the truth.

"The conclusion of the Warren Report that President Kennedy was killed by one assassin is a fairy tale," Garrison said. "The conclusion that no conspiracy existed is a myth."

Soviet Ship Hit By U.S. Bombs

MOSCOW (UPI)—The United States admitted in a diplomatic note made public Saturday that American planes may have bombed a Soviet ship in North Vietnam, but it refused to guarantee the safety of Russian vessels delivering war material to the Hanoi regime.

The note said the United States regretted any damage it may have caused to the vessel Mikhail Frunze at Haiphong port on June 29. But it added: "The U.S. Government regrets that it has been impossible to eliminate completely the risk that foreign vessels entering or remaining in an area of active hostilities may sustain unintentional damage as a result of the actions of one or the other side."

The note amounted to a warning that Soviet ships bring arms and other supplies to North Vietnam at their own risk. The note was delivered to Moscow Thursday.

This Lady Is Really No Lady

NEW YORK (UPI)—The motorist who stopped early Saturday to pick up a hitchhiker fetchingly clad in a miniskirt, go-go boots and a flowered blouse got a rude surprise. The "girl" turned out to be a man with a knife who robbed the driver of \$110.

Ralph Charriez reported his loss to detectives, who found 26-year-old Anthony Selmar hiding behind a building about a block from the scene of the robbery. Selmar was charged with assault and robbery, possession of a knife and impersonating a female.

Space Veterinarians Given Goal of Germ-Free Animals

By CHARLES JACKSON DALLAS (UPI) — An agreement signed two years ago by nations involved in space exploration has given veterinarians working in the U.S. space program another goal — the development of "germ-free" animals.

The agreement calls for non-contamination of extraterrestrial areas, Dr. Donald B. Gisler, associate professor and director of laboratory animal medicine at Ohio State University, said in a United Press International interview.

Dr. Gisler, a former 11-year Air Force veterinarian, was instrumental in experiments and tests on the first animals used in Project Mercury, the nation's first space series. "He was involved with concepts and hardware design," Dr. Gisler said.

"We sent the animals up and brought them back making sure man could tolerate certain conditions while on space flights."

An Involved Problem

Dr. Gisler said the first instruments and experiments used in the program were "very crude compared with the sophistication of those that have become common place today. The producing of germ-free animals or gnotobiotics becomes very involved," he said.

He explained that heretofore the animals used on the same 24 biological payloads were conventional animals — "raised in an ordinary environment."

These payloads, he said, were not designed to land on any extraterrestrial areas, but used to gain information about space conditions.

He said that once payloads began landing on planets "everything in and on the rockets, right down to the intricate wiring, must be sterilized. It costs

Controversy Continues Over 'Uncle Sam' Origin

As much to sterilize a rocket as it does to build it," he said.

How It Starts

The raising of gnotobiotics begins with a Caesarian section of a mother at the end of the gestation period, Dr. Gisler said. "The exact date of birth must be pinpointed," he said, "so that no complications may arise."

The animal is born within a germ-free isolator. The veterinarian, working with gloves places the isolator over that portion of the mother's body where the incision for the Caesarian section is to be made, he explained.

The incision is made cutting through the bottom of the isolator. "The animal," Gisler said, "must be born and raised to an adult without ever being allowed to breathe normal air."

Sterilization Stressed

The gnotobiotic is raised in the isolator which is equipped with apparatus that filters the air. "Everything the animal eats or touches must be sterilized," he said. "These animals born in this manner are then mated to reproduce other gnotobiotics."

ARRLINGTON, Mass. (UPI)— Bewhiskered Uncle Sam is typically American. So is the controversy about his origin.

Some say Uncle Sam was born Samuel Wilson Sept. 13, 1776 in Menotomy, now Arlington, Mass. But he gained such fame that four states vie for the honor of claiming him as a native son—Massachusetts, New York, New Hampshire and Indiana.

The chamber of commerce of this Boston suburb proudly calls this the birthplace of Uncle Sam and has the baptismal record of the First Parish Unitarian Church of Arlington to prove it.

Intending to keep alive the tradition that Sam is everyone's uncle, Troy, N.Y., agrees with the Arlington birthplace but insists that on July 31, 1854 Sam died at Troy.

Indiana disagrees, saying Sam was born at Wilmington, Del., moved to Pennsylvania and was buried at Merian, Ind.

Nevertheless, it was in Troy that Sam Wilson became America's legend. He and his brother Ebenezer opened a meat packing business there in 1793. During the war of 1812, the business received a contract from Elbert Anderson Jr., of New York City to feed U.S. troops.

Symphony Stars Play Under Stars

The Amarillo Symphony under the direction of Dr. Thomas Hohstadt will have three concerts under the stars in the beautiful Pioneer Theatre in Palo Duro Canyon this summer.

The concerts will all be on Tuesday nights when the show "Texas" is not playing. The concert dates will be July 18, July 25 and August 1. "Texas" plays every night except Tuesday.

Concert time will be 8:30 p.m. (CDT).

Tickets for the concerts will be available at the "Texas" box office in Canyon or at either Cooper & Melin Store in Amarillo. Mail orders should be addressed to Starlight Concerts, Box 2552, Amarillo. Prices are \$3.50 or \$2.25 for reserved seats and \$1.50 for general admission. Children's tickets are \$1.50 for reserved seats or \$1 for general admission.

The Starlight Concerts will feature good, pleasant music of the family entertainment type from the popular classics to the top forty.

Each concert will feature two soloists, making use of the sensational lighting effects along the 600ft. high canyon wall and the exciting sound effects available through the complex sound system in the Pioneer Amphitheater.

The concerts in the canyon are 'come as you are' informal pop concerts. Barbeque dinner will be available in the park before the concerts.

REAL PIONEERS — New officers for the Top o' Texas Pioneers club were installed Thursday night in Lewis Buffeteria. The ladies, all employees of Southwestern Bell Telephone Co. in Pampa, have a total of 112 years of service.

Five Injured in Car Accidents

Pampa police went ten days without investigating an accident where a person was injured. Tuesday night the happy days ended.

Tuesday night through Saturday evening a total of five persons have been injured in a rash of accidents, two of them children.

The latest happened about 10:30 a.m. Saturday at the intersection of 21st and Hobart, where two children, both passengers in a car driven by their mother, Mrs. Nancy Canning Helm, 1117 Seneca.

Mrs. Helms was involved in a collision with Gary Cecil Todd, 100 W. 26th St. Neither Mrs. Helms nor Mr. Todd were injured.

Aubry Helms Jr., 8 and David, 6, both children of Mrs. Helms were taken to Highland General Hospital, by Dukenel ambulance.

According to investigating officer John Thomas, report, Todd was traveling south of the Perryton Parkway and Mrs. Helms was going east on 21st St. when the cars collided in the intersection.

Mrs. Helms was cited for failure to yield right of way. Damage to Todd's car was estimated at \$350 and to the Helms' vehicle \$450.

Two accidents occurred late Friday night. According to Pampa policeman Joe Brewer's report, three cars were in collision in the 800 block of W. Foster at 10:06 p.m.

Rohna Trimble, 1203 Rham, a passenger in a vehicle driven by Robert E. Hartley, 27, of 1228 S. Barnes, was taken by ambulance to the hospital.

According to the report, Hartley and a car driven by Paul Jean Ramsey, 16, of 1909 Coffee, were both stopped for a red light on Foster when a vehicle driven by Pat Woodall, 16, of 2309 Aspen, going west on Foster struck the rear of the Hartley car causing it to hit the Ramsey vehicle.

Damage to the Ramsey vehicle was estimated at \$40, to the Hartley vehicle \$275 and to the Woodall car, \$275.

About 11:52 p.m. Friday a car driven by Roy Dale Holcom, 16, of 709 Timmers, was, according to policeman Freddie Brown, traveling south in the 100 block of S. Hobart, jumped the curb, struck a light pole and then a telephone pole.

Holcom was taken to Highland General Hospital. Damage to his vehicle was estimated at \$500.

Tuesday, when this new rash of accidents began, one man was taken to Highland General Hospital and didn't have far to go.

A three car accident occurred in front of the hospital in the 1200 block of N. Hobart.

According to officer Ronnie O' Dell Reeves, Norman Ray Stone, 21, of 2100 1/2 Coffee, was cited for failure to control speed to avoid an accident.

Stone was released from the hospital where he had been recuperating from a concussion and chest injuries.

According to the report a car driven by Jerry Don Potter, 18 Skellytown, and a vehicle driven by former sheriff G. A. Harry Kyle, 65, Star Route 2, were

Business Brisk At Two Swimming Pools in City

No one has put a wet blanket on the activities at the city swimming pool.

Morgan Edwards, manager of Pampa Municipal Pool, and Jessie Austin, manager of Marcus Sanders Memorial Pool, both report brisk business.

Daily attendance at the two pools is averaging 270 paid swimmers. This figure does not include American Red Cross and Summer Recreation Program swimmers.

Each morning Red Cross swimming instructors teach about 160 swimmers. During the first two weeks of classes daily swimming class attendance averaged 140, according to Liberty Shotwell, executive secretary of the Gray County American Red Cross Chapter.

An estimated 95 Summer Recreation Program swimmers use the city pools each day. Both the Red Cross and Summer programs last for the first six weeks of summer.

Water Bill

Experts on not only importation of water but on conservation and more efficient use of existing supplies, desalting, weather modification and waste water purification and reuse.

The Commission will work closely with already existing river basin commissions, with other Federal and State agencies and is intended to provide a broad framework for seeking solutions to regional water problems and assist the Water Planning Act in overall water resources planning.

An authorization for a \$5 million appropriation for the Commission was included in the bill. The life of the Commission is limited to five years.

both stopped at a red light, when Stone struck the Potter car causing it to strike the Kyle car.

Damage to the Stone car was estimated at \$750, to the Potter car \$300 and to the Kyle car, \$250.

Annual Picnic Is Set For Exceptional Children Group

The annual picnic for exceptional children from Pampa and Borger is scheduled for Wednesday at Thompson Park in Amarillo.

Four Pampa Girls To Compete in State 4-H Show

Four Pampa girls were among 12 high-point individuals selected in District 1, 4-H Horse Show competition Friday at Recreation Park to compete at the State 4-H Horse Show at Odessa Aug. 10-11.

The girls are Brenda Winters, Janell Johnson, Denise Roach and Jane Price.

Jerry Light of Amarillo was named as top 4-H showman from over 100 contestants entered in the show. Wanda Greene of Spearman was selected as overall high-point individual. Both were presented horse feeders by Paymaster Feed Mills of Amarillo.

Light also had the reserve champion mare, and Miss Greene won first in western pleasure.

Charles Taylor of Wellington had the grand champion mare and Sharon Johnson of Dumas had the grand champion gelding. Bo Dunn of Wheeler had the reserve champion gelding.

Other top winners, all having first places, were Emma Bachman of Dalhart, reining; Trista Ford of Dumas, pole bending; and Alice Edmiston of Dalhart, barrel race.

Other high-point individuals were Pam Patterson, Wellington; Becky Felts, Masterston; Laura Doshier, Farwell; Kay Ford, Dumas; Marcha Ripple, Dumas; Georgia Brown, Channing and Linda Williams, Wellington.

All the above winners will compete at Odessa. Trophies were presented to winners in all classes through third place, and ribbons through sixth place.

The Top o' Texas 4-H Riding Club, with Mr. and Mrs. Alvin Reeves as sponsors, hosted the event. Judges were Johnny Rex McClellan of McLean and Jim Garland of Goodnight. Don Jackson of Pampa and Dick Strong of Amarillo were announcers.

\$375 Vase Stolen From Cemetery; Vandalism Occurs

A California black granite vase, valued at \$375, was removed from a monument at Fairview Cemetery late last week, reported Edward Foran, superintendent.

The vase, which is estimated to weigh 100 pounds, was one of two at the base of a grave monument in the center of the cemetery. It was discovered missing Friday.

Foran reported that during the past few weeks, other vases have been overturned and broken, flowers removed, and other acts of vandalism have occurred.

Cemetery officials will meet later this week to pass an ordinance preventing youngsters 12 or under from entering the cemetery without an adult. Other action will be taken later to contend with older violators, Foran said.

Police are expected to inspect the cemetery grounds during the night, Foran added.

Sixty children and approximately 20 parents from the two cities will attend the event sponsored each year by the Top O' Texas Life Underwriters Association, according to Joe Cree of Pampa, president.

The children, parents and sponsors will leave Pampa by bus from the north side of Coronado Center at 9 a.m. Wednesday.

Life Underwriter Association members who will accompany the children include Cree, Myron Marx, Jerry Black and Peggy Ormson from Pampa, and Bill Barringer, Charles Amber, Roy Hudson and Paul Mainer from Borger.

The children will enjoy the Wonderland Amusement Park area and then have a picnic lunch, the food for which will be supplied by Pampa merchants.

Following the noonday lunch the children will be taken on a tour of an Amarillo industry.

Glenn Cox is president of the exceptional children organization.

ON THE MOVE — Pampa's Delmar Watkins (left) and Jack Russell watch as Levine's assistant vice-president, Harold Pink of Amarillo, signs the contract for Levine's new building to be located south of Gibson's on N. Hobart.

Levine's Plans New Location

After 41 years in the same location, Levine's Department Store is planning a move to a new building.

Harold Pink, assistant vice president of the Levine's chain of department stores, and Delmar Watkins, owner of Gibson's and builder of the new Levine's building, signed a contract for the new building Friday.

Jack Russell, manager of the Pampa Levine's store, said the building will be a one-level facility with 12,000 square feet of shopping space. The present building is two-levels with 8,000 square feet of space, located at Cuyler and Foster Sts.

The new building is being constructed on N. Hobart just south of Gibson's parking lot and is expected to be completed in 90 days.

Watkins said that the free parking area is being expanded to accommodate Levine's shoppers.

Levine's came to Pampa in 1926. The Pampa store was the fourth of 120 stores in the chain.

California Man Fined \$50 on Two Charges

A 65-year-old California man was charged with drunkenness and disturbing the peace Saturday morning and fined \$50 for the two charges after spending Friday night in Gray County jail.

Alfred Joseph Bonnin reportedly pushed his wife, Agnus, out of their car five miles east of Groom on Highway 66 late Friday evening. He then ran his car through a yard at the residence of Walter Frazier of Groom.

Frazier, apparently dismayed at his yard being torn up, held Bonnin at gun point until help from Sheriff R. C. Parker of McLean arrived at the scene.

Bonnin was charged as a drunk pedestrian because he was lying on the ground when Parker arrived.

Parker then escorted Bonnin to Pampa, where Sheriff Jordan provided him with a jail cell to spend the night.

Mrs. Bonnin suffered a slight cut on her face and a skinned knee. Bonnin was released after payment of his fine yesterday morning.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license, nor anarchy. It is control and sovereignty of oneself. No more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

SUNDAY MORNING GRIST

From the Editorial Mill

OVER THE next few months local school boards and school superintendents throughout the nation will find themselves confronted with an appalling but necessary piece of homework, says a copyrighted article in the current (July 15) issue of Human Events. The article is of particular local interest because the Pampa school board now is juggling the problems dealt with in the Human Events treatise by James J. Kilpatrick of The Washington Star. Local school officials in Pampa and everywhere across the land will have to wade through the portentous opinion of Circuit Judge J. Skelly Wright in the case known in the District of Columbia as *Hobson vs. Hansen*. Hansen is Carl J. Hansen, District of Columbia school superintendent. A Hobson is Julius Hobson, a militant civil rights leader, who filed the original suit which may lead to drastic loss of local school control.

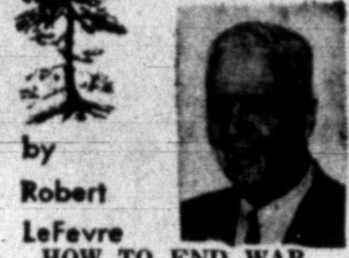

IF THE bizarre principles laid down in the judge's opinion win acceptance in the U.S. Supreme Court, says the article, every school district in the country may find itself compelled to take revolutionary steps toward the further integration of its public schools. And "integration" in Judge Wright's desire, does not mean racial integration only (to which there is no objection); it means socio-economic integration also, white with Negro, rich with poor. The D.C. judge's ruling could bring an end to neighborhood schools. That's one of the main issues in Pampa. Teachers will be integrated into the Carver All-Negro school this fall. The school board has said it will decide by Jan. 1 what to do about either inter-changing white and colored pupils at Carver, or closing Carver School down completely.

PAMPA NEGRO leaders say they do not want Carver school closed. They do not wish to have to abandon an easily accessible facility and transport their children to other schools in the city. But, it makes no difference what they want. The Education Office of the U.S. Department of Health, Education and Welfare says Carver school will have to be closed by the beginning of the September, 1968, school term or the Pampa school district will lose its federal aid. In other

THE GUEST PEN: Kicks In The Teeth

By ROSALIE M. GORDON
The time has come—actually it is long past due—according to a good many economic and fiscal experts, for a long, hard look at the manner in which we allow our government to fling our tax dollars around the world. In fact, the wonder in all this profligate waste of so much of our substances is that the American people have not risen up to demand some sort of sanity in the foreign-giveaway programs, especially in the face of the kicks in the teeth administered by the United States to certain recipients of our largesse.

PINE TREE FEATURES

Robert LeFevre HOW TO END WAR

In reading up on the history of various countries and the spasms their respective governments have made, I've noted one interesting fact. Whenever a nation finds itself under a foreign ruler, the people of that country tend to resent the ruler and rebel against him. Now the foreign ruler could be calm and well-intentioned, but people will distrust him because he is an alien. Curiously, they could obtain a real local tyrant filled with selfish ambition and cruelty. But they will tend to trust the local yokel, however vicious, and to distrust the foreigner, however kind and gentle.

The Romans learned this, and in their program of subjugating various provinces they abandoned the idea of bringing in a Roman government to head a conquered state. Rather, they sought a Quising, someone within the province who would take orders from Rome. That convinced the people that all was well.

I'm not trying to argue that this is an unvarying rule. But distrust of foreigners and trust of neighbors is sufficiently prevalent so that one can guide his steps accordingly. So it seems to me that if we want to encourage people to stand on their own feet and stop leaning on governments for decision making, one of the most practical first steps might be to swap LBJ for the head man of some other country. Kossygin, maybe, or Mao Tse Tung. It is certain that the Russian or the Chinese people would never trust Mr. Johnson. They'd stop expecting their government to do work for them and they'd dig in trying to mind their own business. Meanwhile, it would be certain that we'd never trust Kossygin or Mao. With men like these in charge of things, we'd stop looking to Washington for money or advice or special privilege. The countries experiencing the swap would benefit enormously. In fact, if we could get it started, it's quite likely that a general swapping of political leaders could be encouraged as a way to stop war generally.

We could let the North Viets, the Cong, have General Ky, and the South could get Ho Chi Minh. One-eyed Dayan of Israel could go over to organize Egypt and the Israelis could have Nasser. You can just begin to glimpse the enormous distrust of government that would follow exchanges of this sort.

It gives me an idea of a useful function the UN could perform. I've been studying that organization for years and have not been able to detect anything about it that is useful, but now its potential utility is revealed. Every elected or hereditary head politician (or even those who seize power by military means or by bribery and corruption) could make an appearance at the UN. He could make a speech and after that it would be easy to spot those who liked him the least. Then a trade would be arranged in which those who were most sure in the dislike column got him, and their own head of state would gravitate the other way.

This could actually put an end to war. And that is what the UN was supposedly organized to do, so the idea has its practical as well as its humane side.

Some have come forward suggesting that the way to stop war is to require all the politicians who voted in favor of the hostilities to be in the front ranks when the shooting starts. That idea has merit, too. But it does require a certain amount of bloodshed in order to make the point, and I am a peaceful man. My idea ought to breed enough distrust right from the start so that no shooting of anyone would be necessary.

The only people we ever shoot are those our own politicians tell us are our enemies. And I'm counting on Mr. Johnson having enough basic loyalty so he'd never order Russians or Chinese to shoot his own countrymen. And certainly we can count on similar attitudes in the hearts of our political counterparts, were they to take up residence at 1600 Pennsylvania Avenue.

She set up a free enterprise system, but that we are desecrating of being blasted because we do not shore up her socialist system more than we are already doing.

Peace In Our Time?

Pull Up A Chair

By FRANK JAY MARKEY

Live pigeon shooting, one of the most difficult of all competitive sports, is fast gaining popularity in this country. It originated in Europe more than a century ago and Europeans are still the acknowledged masters. Italians are considered the world's best. However proficiency is now gaining in other countries, notably Mexico, France, Australia, Spain, Belgium, and Venezuela. Enthusiasts use 20 gauge shotguns and slowly swing the muzzle back and forth over five small metal boxes arranged in a shallow arc. At the command "Pull" the referee releases a pigeon from any one of the boxes and as it flies off in a spectacular zigzag flight at a speed of 50 feet per second the shooter fires twice. He must drop the pigeon in a marked ring to score. A perfect score of 25 perfect drops out of 25 shots is almost unheard of in world championship tournament.

Today's smile: A mother drove her youngster to summer camp and told the counselor: "Little Georgie is a very sensitive youngster. Don't punish him. If he gets out of line slap the boy next to him. I'm certain that will frighten him enough."

Notice that all Somerset Maugham books have a particular and unusual design imprinted on the binding, the cover, fly leaf and title page. We just discovered it's of medieval origin and was supposed to dispel the Evil Eye. Maugham claimed it as his own very early in his career and it became a fetish with him to have it inscribed on his family dinnerplate, his stationery, an even on his playing cards. Maugham always maintained he was not superstitious, but that knowledge sort of makes you wonder?

Thoughts while shaving: A survey by the jewelry industry reveals that diamonds are the most popular gem for engagement rings, as you already knew, but a lot of gals prefer sapphires and rubies in that order, too. Emeralds also rate highly with the fair sex when in love. The word NEWS has been in use about 400 years. Before that tydings (spelled that way) meant a condensation of the current happenings, and it was frequently bellowed out for everyone to hear by the town crier. Incidentally, the word NEWS was at one time prefixed in the shape of a cross on newspapers to show that they obtained information from all points of the compass. Although it is generally believed that total darkness reigned in that part of Alaska within the Arctic Circle for six months of the year, it is an erroneous belief. A sportsman friend, who spent considerable time there hunting polar bears, tells us bright moonlight on the snow and refracted sunlight brighten the landscape. He adds, the number of hours in a year when printing may be read out-of-doors is as great in the Arctic as in the tropics. Sigmund Romberg's durable opera, *The Desert Song*, has probably been produced 500 times by professional companies and schools, since it made flash.

President's Indirect Messages to Red China, Through Romania And Others Aimed at Lessening Hot War Danger's in Vietnam

ROBERT ALLEN

WASHINGTON—Those friendly overtures that President Johnson sent to Communist China were designed to lessen the tensions building up over Vietnam between the two governments.

The President's message, stating a desire to improve relations, was delivered through Romania's Premier Ion George Maurer after Washington and Peking had exchanged stern warnings on expanding the Vietnam war.

In their most recent periodic conference in Warsaw, Peking's diplomats cautioned those from the U.S. that an invasion of North Vietnam by U.S. forces operating near the Demilitarized Zone would bring Chinese troops into the battle.

U.S. diplomats countered with a warning that the continued use of Chinese Communist bases by North Vietnamese fliers could lay those fields open to future U.S. air attacks.

The latter warning resulted from U.S. intelligence estimates that nearly all of North Vietnamese aircraft were now operating from bases inside Communist China.

Since the U.S. began bombing the North Vietnamese Mig airbases at Kep, Hoala, and Kienan, Navy and Air Force reconnaissance pilots reported the Red jets on these fields were moved across the border into southern China.

The Doctor Says:

Oral or Salve Nystatin Is Ringworm Treatment
Q—My doctor says I have a yeast infection in my vagina. What brought it on? Can it be cured?
A—You probably have candidiasis. As is the case with ringworm, the causative yeast or fungus is widely disseminated in our environment and it is hard to tell when or where we pick it up. When we do, however, it thrives on skin areas that are warm and moist and on mucus membranes. The antibiotic, nystatin, which can be given by mouth or applied locally in a salve, powder or suppository, is the treatment of choice.

H. L. Hunt YOUTH ON THE FIRING LINE

Our young people are the target of educators from about the age of five. During these present summer months, youngsters have a glowing opportunity to turn things around and do some educating of their own through involving themselves in the Youth Freedom Speakers movement.

Anybody can find plenty to complain about in today's world. The cause of freedom is being pressed hard from many sides. It is easy to conclude that the anti-freedom forces cannot be withstood. This is exactly the conclusion they want us to reach. They want freedomists to give up without a struggle.

The energy and verve of American youth can be a strong force of freedom. The Youth Freedom Speakers operate on the principle that patriotic education can do much more for the cause of liberty than can be accomplished by political action. Knowing that freedom's enemies are wreckers and freedom's advocates are constructive builders, they speak their minds in fair, reasonable and earnest terms.

This assault force, consisting of several thousand Marines, was used earlier this year for a successful landing behind enemy forces operating in the southern section of the Demilitarized Zone.

U.S. military authorities regard Peking's warning as an effort by Hanoi to obtain new White House assurances that there will be no landing such as MacArthur executed in Korea behind their 30,000 troops operating in North Vietnam's southern panhandle.

A landing on the coast above Vinh — which is only 35 miles from the western border of North Vietnam in the Annam mountain range — and a quick dash to the mountains would cut off this enemy force now being used to attack across the Demilitarized Zone.

A successful U.S. invasion also would close the Keu Neua and Muga passes leading to the Ho Chi Minh trail in Laos, over which most of North Vietnam's supplies go to South Vietnam.

Q—What is pulmonary monilliasis?
A—Monilliasis is another name for candidiasis. When it involves the lungs it behaves very much like tuberculosis.

Q—What causes poor circulation in my hands and feet? They get clammy even when the weather is not very cold.
A—The commonest cause is nervous tension. In persons who are past 50 sluggish circulation may be an added factor. Other causes include Raynaud's disease and other diseases of the arteries and veins. Since no single treatment is beneficial in all types, your doctor should discover the cause and try to eliminate it.

Q—I was told that I have static in my body. What are the effects? Can it be cured?
A—If you mean static electricity, it will have no effect on your health. You can get rid of it by touching another person or a metal object and you can prevent it by not dragging your feet when you walk across a carpet.

If you mean stasis (grinding to a slow halt) I would have to know whether you have biliary stasis (no bile flowing through your gall bladder into your digestive tract), intestinal stasis (constipation) or venous stasis (usually caused by varicose veins). All in all, a set of unrelated conditions.

Q—My doctor has prescribed Doriden to help me rest at night. What are its side effects? Is it habit-forming?
A—Glutethimide. (Doriden) may cause nausea and a skin rash. Anyone who is taking this sedative should have a periodic blood count. Although it is not habit-forming in the usual sense, prolonged use may result in dependence on the drug and unpleasant symptoms if it is withdrawn.

World Almanac Facts

In late 1966, about 15 per cent of the civilian labor force in the United States was employed by federal, state or local governments, says The World Almanac. This amounted to 11.5 million persons, of whom 4.4 million were employed in education.

Frazier Doesn't Mind Not Fighting Cassius

KIAMESHA LAKE, N.Y. (UPI)—Out of sight, out of mind, and that's about the same way Joe Frazier writes off Cassius Clay.

It may come as a blow to his feelings, but Clay has become virtually a forgotten figure in these parts where all those around Frazier like to think they're looking at the next world heavyweight champion. Frazier doesn't talk about Clay unless someone else does first.

"He's a good fighter," concedes Frazier matter-of-factly. "In other words," someone

pressed him, "you don't think he's the greatest?"

"He's one of the finest," Frazier answered slowly. "Besides myself."

Frazier, putting on the finishing touches for his 12-round bout with George Chuvalo at Madison Square Garden Wednesday night, naturally feels he'll score his 17th straight victory without a loss. He also feels he'll go on from Chuvalo to win it all, and if he does, he'll do it with a completely uncluttered mind.

Floyd Patterson, currently

involved in the WBA's heavyweight elimination tournament which Frazier declined to enter, says he'll never really believe he's champion until he beats Clay. That could be the day after forever.

Frazier doesn't go that route. "If I became champ," he said, "it would not bother me none at all. I'd still feel I was really the champion. They've taken the man's title away. He was the one responsible, not anyone else. That's the way things go. Why should I let what happened to him bother me?"

In his own mind, Frazier has figured out he's a better fighter than Chuvalo because of what they both did with Oscar Bonavena. The stocky, hard-hitting Argentinian beat Chuvalo and then was licked by Frazier last September.

"I saw Chuvalo against Bonvena and Oscar whupped him," said the 23-year-old Frazier, nonchalantly chewing gum while sitting in one of those big sofas in the lobby of his Concord training quarters here.

"If Oscar beat him and I beat

Oscar, then I have to say I should be able to beat Chuvalo. That's the way it should work out anyway."

"It doesn't always work out that way," said Eddie Futch, who handles Frazier along with Yancey Durham.

"I know it doesn't," Frazier agreed, "but I'm just saying that's the way it should work out."

No matter how it works out, Frazier doesn't seem at all worried about what will happen Wednesday night.

"The closer I get the better I feel," he says. "When it's all over, what I'd like to do is relax. I'm gonna go home, see mama and play dead for awhile. I wanna rest."

Frazier kept chewing his gum and appeared unmindful that Durham already was talking about a possible future title fight with either Patterson or Karl Mildenerger, the German southpaw who's also in the WBA's tournament for Clay's vacated throne.

Nothing bothers Frazier a whole lot.

Chuvalo trains only a few miles away and the other day, for example, he and Frazier were brought together for one of those pre-fight exams. There wasn't much conversation between them and what there was went like this:

"How you doing, Joe?" Chuvalo opened.

"I'm doing all right," said Frazier. "How you doing?"

"Fine."

And that was it. There really wasn't much to talk about.

THE SURPRISE of the baseball season has been the Chicago Cubs. They've received a number of outstanding individual performances. Top Billy Williams, left, and Adolfo Phillips. Below, from left, manager Leo Durocher, pitcher Ferguson Jenkins and catcher Randy Hundley.

Clendenon's Hit Lifts Pirates by Cards 6-4

Drysdale Halts Cubs For Dodger Victory

ST. LOUIS (UPI) — Donn Clendenon singled and scored the winning run on an infield out by pinch-hitter Jose Pagan in the eighth inning Saturday night as the Pittsburgh Pirates beat the St. Louis Cardinals 6-4.

Bums 5, Cubs 1
LOS ANGELES (UPI)—Don Drysdale struck out 10 men and held the Chicago Cubs to five hits Saturday in a 5-1 victory by the Los Angeles Dodgers.

Dick Schofield, normally a powder puff 230 hitter, got a double and two singles and scored the first Dodger run in a big third inning during which Lou Johnson batted around. Lou Johnson contributed a two-run homer during that inning and Len Gabrielson later belted a solo job into the rightfield bullpen for the fifth Dodger run.

Braves 5, Phils 2
ATLANTA (UPI)—Pat Jarvis fashioned a three-hitter backed by homers by Joe Torre and Clete Boyer Saturday to give the Atlanta Braves a 5-2 victory over the Philadelphia Phillies.

Jarvis and Chris Short had a 2-1 pitchers' duel going into the bottom of the eighth when Short was relieved by Dick Hall. The Braves promptly leaped on Hall for three runs.

Giants 3, Astros 1
SAN FRANCISCO (UPI)—Mike McCormick joined teammate Juan Marichal as the National League's only 12-game winners Saturday in pitching the San Francisco Giants to a 3-1 victory over the Houston Astros.

McCormick, who thought he should have been named to the NL All Star team, gave up seven hits and extended his shutout string to 20 2-3 innings before the Astros broke through in the eighth for their only run.

Yanks 4, Tribe 1
NEW YORK (UPI)—Erratic Steve Barber found his old form in a new uniform Saturday, pitching a four hitter to give the New York Yankees a 4-1 victory over the Cleveland Indians.

Twins 3, A's 2
MINNEAPOLIS-ST. PAUL (UPI)—Harmon Killebrew hit his second homer of the game and Tony Oliva followed with another homer on the next pitch

TIM McCARVER of the St. Louis Cardinals is one of the National League's leading hitters. Since he's on base so often, Tim scores his share of runs, too. Like this one.

FABULOUS, FANTASTIC De Vincenzo Wins British

HOYLAKE, England (UPI)—Roberto De Vincenzo of Argentina, calling himself "an old man with a big nose," fulfilled a lifelong ambition Saturday when he fired a two-under-par 70 to win the British Open golf championship by two strokes over Jack Nicklaus.

The banting, 44-year-old Argentine, who first sought the British crown in 1948 and twice

Bosox 5, Birds 1
BOSTON (UPI)—Third baseman Joe Foy started a triple play in the first inning and hammered out a single, double and triple Saturday to lead the Boston Red Sox to a 5-1 victory over the Baltimore Orioles.

Foy gloved a hard line drive off the bat of Paul Blair to start the triple play after Gary Waslewski walked Luis Aparicio and Russ Snyder to start the game. Foy threw to second baseman Mike Andrews for the second out and Andrews relayed the ball to first baseman George Scott to complete the triple play.

by Jack Aker at the start of the ninth inning Saturday to give the Minnesota Twins a 3-2 triumph over the Kansas City Athletics.

before shared the lead after three rounds, finished with a total of 278, 10 under regulation figures and only two short of the all-time Open record of 276 set by Arnold Palmer at Troonville in 1962.

"It's fabulous, it's fantastic, this is the greatest day of my life," De Vincenzo blurted out after struggling with his emotions. "It's my crowning ambition. My reception here made this possible. The crowd was with me all the way. In return, I hope to bring this cup back next year and hand it to some young British pro."

Nicklaus, the defending champion, started the final round in third place, three strokes off the pace, and was unable to make any appreciable progress until it was too late. Trailing by four strokes with four holes to play, burly Jack birdied the 16th and 18th to equal his best previous round of 69 and finish with 280.

Gary Player of South Africa, second by two strokes after the third round, skied to a 74 with five bogeys to share third place with 22-year-old Clive Clark of England. Clark, after losing three strokes to par on the first two holes, finished strong with three birdies on the back nine for 72.

Tony Jacklin, another promising young Englishman, closed with a 70 to take fifth place at

285. Tied for sixth, another stroke back, were Harold Henning of South Africa and Sebastian Miguel of Spain.

Other than Nicklaus, the United States contingent fared poorer than expected and finished far out of the picture. Dean Beman, touted highly by Nicklaus himself as a possible winner, followed his 66 of Friday with 73 for a 289 total and Doug Sanders, who tied for second behind Nicklaus at Muirfield last year, also shot 73 for 290.

Saturday Anderson won the century in the State meet, held here. Anderson stepped off the 100 yards in 10.5. He had run a 10-flat century in the preliminaries.

Anderson also won the 200-yard dash, doing the distance in 22.8.

Glenda Webb, daughter of Mr. and Mrs. S. E. Webb, finished third in the girls 100-yard dash in the time of 13.5.

Another Pampan, Dwayne Glover, son of Mr. and Mrs. H. E. Glover, was fifth in the 50-yard dash.

Young Ball Players in Spotlight In Pampa With Babe Ruth Opening

The youngsters, baseball players all, will be in the spotlight in Pampa, beginning Monday evening on Optimist ball parks.

The West Texas State Babe Ruth tournament will get underway with the first game set for 6:15 p.m. and the second contest for 8:30 p.m. on Optimist Club large diamond.

There will be two games nightly, Monday through Wednesday and single games scheduled Thursday and Friday in the double elimination tournament.

Pampa's National League All-Stars are the host team and will be joined by Weatherford and three other teams.

Also Monday and running through Saturday the Pampa Little League City Tournament will get underway with 20 teams participating.

Monday at 6 p.m. FWA and Moose will play on the American League Park while Rotary and Celanese meet on the National League Park.

The 8 p.m. games find Windsor and McCathern of the American League park and VFW and Producers Chemical on the National Park.

Tuesday's 6 p.m. games has Duncan and Flint Rig on the National park and Bruce & Son and Hi-Land Pharmacy on the American League Park.

The 8 p.m. contests has Coronado and Hoover Oil playing in the American League Park and Cabot and One Bull on the National Park.

Wednesday one 6 p.m. game has Holmes and Harvester Bar-b-q at the National Park and one 8 p.m. contest has Hunter Dec. and Dixie Parts at the National Park.

recognition as a world record, won the qualifying handily with a toss of 66-7 1/4, but another athlete who-like Matson—won both the AAU and the NCA titles failed to make the team.

He was Delmon McNabb, the Louisiana State javelin thrower who after taking both national crowns, could do no better than third in the Pan American trials with a heave of 242 feet. Frank Covelli of Long Beach, Calif., led with 252-2 and Gary Stenlund, Athens, Ohio, got the second spot with a 244-3 toss.

One national champion, the AAU and NAIA 100-meter title holder, Jimmy Hines, failed to show up for the trials because he had lost his job on account of absenteeism while competing in other meets and needed to look for work.

Cowboys, Cowgirls, Bulls and Horses

Rodeo, as colorful as it is, will come to Pampa for four nights in the Top O' Texas Rodeo arena, July 26, through 29.

With many cowboys able to commute from Pampa to Amarillo to Cheyenne via airplane to Cheyenne via airplane the roster for this year's show will read like "Who's Who in Rodeo."

Last year a total of 127 big-hatted athletes hustled after a payoff of \$6,800.

Lion's share of the loot was won by Larry Mahan, 23, Brooks, Ore., who went on to win the coveted All-Around title for the year, with a whopping \$40,358, to become the fourth man in the sport's history to top the forty-thousand plateau.

Larry "owes" Pampa

\$1,017 of this staggering total, picking it up by winning both the saddle bronc and bare back riding and being named the All-Around cowboy.

Other big winners here were Jack Riggs, 40, Sanderson, who collected \$554 in calf roping; Don Brooks, Gruver, who collected \$519 steer wrestling and Billy Minick, Medora, N. D., who captured the bull riding and \$522.

Minick made the "commute" from Cheyenne well worth while because there he pocketed \$1,262.

Hometown "treats" at Pampa are always the Cockrell brothers. Lee, 34, who gets his mail at Panhandle, has for years been one of the calf roping threats any time he's entered, which isn't as often as those who annually

top the list. Lee, one of the greatest collegiate ropers, won last year's National Finals calf roping. A man has to be great to handle those eight big, rank calves and beat the best ropers in the country.

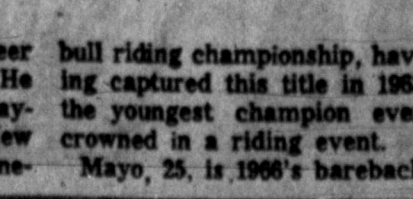

Younger brother Buddy, who doesn't rodeo very much, could be one of the top steer bull riding championship, having captured this title in 1963 the youngest champion ever crowned in a riding event.

Mayo, 25, is 1966's bareback

ONE'S REALLY SAD — Jack Nicklaus, left, was happy over the way he played in the British Open, but Gary Brewer wasn't. Brewer failed to make the cut while Nicklaus finished second.

Big 33 Backfield May Use Classic For Jump to Fame

LUBBOCK (UPI) — Some of the top rushing stars in the Southwest Conference used the Texas-Pennsylvania Big 33 all-star grid classic as a springboard to fame.

And from the looks of the 1967 Texas backfield, the string will not be broken this year. Some of the most highly publicized and sought-after backfield talent in Texas prep history are due to do battle with the Keystone State contingent Aug. 12 in Hershey, Pa.

Headling the list is all-anything Steve Worster, the University of Texas-bound tailback who led Bridge City to the state Class AAA title last fall.

His three-year high school record of 5,422 yards rushing and 512 points scored earned him more than 80 scholarship offers, nationwide television exposure and writerups in several national magazines.

But on the basis of high school performances, Worster won't be the only shot in the Texas arsenal.

Harper, Garrison Due Starting Roles With OCC Rangers

Two of Pampas' students at Northwestern State College, Alva, Okla., have been named members of the 1967 Ranger football team.

They are Jerry Garrison, son of Mr. and Mrs. G. D. Garrison, 529 North Nelson, and Roy Harper, 901 East Campbell. A sophomore at Northwestern,

Harper is a returning letterman and is slated to see action as a defensive linebacker. Also a returning letterman, Garrison is a defensive back and listed as a likely starter.

Coach Bill Schnebel expects 60 men to report for football workouts when the new season gets under way officially Sept. 1. Among those players he must find replacements for 18 lettermen lost from the squad of a year ago.

Sixteen graduated seniors among that group include the 1966 top ground-gainer and scorer, fullback George Chastain, and the top pass receiver, end Chip Myers. Nineteen lettermen will be back.

The Rangers will open their season Sept. 16 when they play Sam Houston State in Huntsville, Tex. Their first home game will be a Parents' Day contest Oct. 7 against Southeastern State College. The Rangers posted a 6-3-1 record in 1966.

FORMER OLYMPIAN

Morrow Can See Faster 100 Dash

HOUSTON (UPI)—Thousands cheered as pigeons fluttered from their cages at the opening ceremonies of the 1956 Olympic Games in Melbourne.

But while the world's greatest athletes marched in review, one of the lesser known contestants, Bobby Joe Morrow, now a Houston banker and track coach, slept.

Morrow awoke from his energy-saving sleep and was to go on and win three gold medals in those 1956 races, catapulting the lean runner into world renown. His performance also made the track world take notice of a little school in West Texas, Athlete Christian College, which Morrow turned into a track power.

Morrow was 20 then. Now 31 and a bank official, he lives in Houston and continues to coach track.

What he did in those 16th Olympic Games in Australia remained the high point of his career.

Oiler Veterans Due in Camp

KERRVILLE, Tex. (UPI) — The last 15 Houston Oilers veterans were expected to arrive in camp today, bringing the training roster to 71.

The Oilers held two practices again Friday, with Coach Wally Lemm using mostly rookies.

Lemm said there had been no major injuries during the first three days of training.

Lemm made one position switch, changing rookie LeRoy Hardy of Alcorn A&M from defensive back to flanker.

Only one workout was planned today and the Oilers will have Sunday off.

Read The News Classified Ads

On the day of the race, Morrow knew he would be competing against some top sprinters, including his own teammates, W. Thayne Baker, Andy Stanfield, and Ira Murchison and Australia's Hector Hogan.

Despite running into a cool strong wind Morrow qualified in the 100-meter preliminaries and semifinals. He returned to the finals almost two hours later and topped the field in 10.5, becoming the second youngest person ever to win a gold medal in track and field.

But receiving the medal and standing at the victory stand while the Star Spangled Banner played, Morrow says, provided an even greater thrill than winning the race.

"There was dead silence. You could hear a pin drop as the American flag rose to the top of the flag pole. It is too hard to describe my feelings, but I will never forget it," recalls Morrow, now vice president of the Medical Center National BANK in Houston.

The following day was not any easier. Instead of the weather, Morrow had to combat an injured groin muscle. But Morrow ran with a taped leg and clocked 20.6 to win the 200 meter dash.

For an encore then 6-2, 185-pound sprinter anchored the winning 400 meter relay team to 39.5 to capture his third gold medal.

Today Morrow is still thinking about the Olympic Games. As coach of the only track club in the Southwest, the Houston Striders, Morrow spends part of his spare time getting runners together to train for the 1968 Olympics in Mexico City.

And training for next year's Olympics will present more problems for the distance men than sprinters, Morrow says, because of the lower air resistance in Mexico City.

But is training responsible for the great assault on today's track records?

"It is not so much in training, it is more in the mind. There was a great mental block in running the mile before the four-minute barrier was broken," he says, referring to 1954 when a medical student at Oxford University named Roger Bannister ran the first sub-four-minute mile in 3:59.4.

Since then, distance men have run under four minutes time and again.

However, the world's top sprinters have not been able to dip under their barrier, the 9-second 100-yard dash.

Morrow is confident that mark will be broken in the near future.

"The new rubber tracks will have a lot to do with it. The biggest improvement will come in the sprinter's spring," he says.

"The sprinter will feel how will want to get out and run."

VACATIONING in Ireland, Mrs. John F. Kennedy takes a first-hand look at the colorful Irish Derby. Mrs. Kennedy, a riding enthusiast, also a good eye because she picked the winner in the race.

YACHTING CHAMP HANKOE, Norway (UPI)—William Withnall of Marblehead, Mass., reigned today as the world champion yachtsman in the international one design class.

Source Says Athletics On Way to Wisconsin

MILWAUKEE, Wis. (UPI)—The first source to authoritatively report the Braves would leave Milwaukee said Friday that the Kansas City Athletics might be bound for this baseball-starved city.

But it drew denials all around. "There's absolutely no truth in the gentleman's statements whatsoever," A's owner Charles O. Finley said of a story in the Sporting News. Editor G. C. Johnson Spink wrote that Finley was negotiating to move to Milwaukee.

Bud Selig, head of Milwaukee Brewers, Inc., which is trying to regain a major league franchise here, said there never has been any contact with Finley about such a move. "We haven't any plans to contact him either," Selig said. "I only wish it was true."

Said Milwaukee County executive John Doyle, "There's been a lot of talk about this, and I've heard similar things before. But

Finley hasn't seen him and I haven't seen him."

But while denying the report, Doyle urged the county board to promptly approve the \$1.8-million rental package for Milwaukee County Stadium which Doyle proposed two years ago to attract a baseball tenant.

The proposal was sent to the board's sports committee and never has received final action. Spink, who came up with the firmest word three years ago that the Braves would move to Atlanta, reported Finley has soured on moving to Oakland, Calif., because of lack of a television channel for baseball.

Spink said Finley now has turned his sights to Milwaukee, where the Jos. Schlitz Brewing Co. "would help finance the A's transfer . . . by offering Finley a \$500,000 TV contract."

Finley, whose lease at Kansas City expires after this season, has refused to say whether he will remain there.

Wall Beaten in Another Sudden Death Playoff

KIAMESHA LAKE, N.Y. (UPI)—Sudden death playoffs and Art Wall just don't go well together.

History repeated itself for the second time in three weeks Friday when Wall lost again in an extra session, this time to Tommy Bolt in the concluding session of the third annual 36-hole Concord Invitational Golf Tournament.

Before that, Wall was beaten by Billy Casper on the first hole of the playoff at the \$200,000 Canadian Open.

Wall, who fired a 69 which included a hole-in-one on the fifth hole, blew a two-stroke lead. He missed a 30-foot putt on the extra hole, giving Bolt the victory.

The ace of the 154-yard fifth hole was the 38th in the Honesdale, Pa., professional's career.

Bolt of Sarasota, Fla., who fired a 70 Friday to go with his opening round 72, won the tournament for the second time. He was also the winner in the 1965 inaugural event. Wall had a 73 in Thursday's first round.

NATIONAL LEAGUE ROUNDUP

Mathews Glad To Join Babe Ruth's Select 500 Club

By United Press International In 1952, Eddie Mathews arrived in the National League billed as the man to break Babe Ruth's home run record. Today, 16 seasons later in the twilight of his career, he is happy just to join the Babe's club.

home runs both seasons. Mathews joins Ruth (714), Willie Mays (555), Jimmy Foxx (534), Ted Williams (521), Mickey Mantle (512) and Mel Ott (511) in the group of players who have hit 500 or more home runs in their major league careers.

Elsewhere in the National League, St. Louis edged Pittsburgh 2-1, Cincinnati blanked New York 1-0, Atlanta downed Philadelphia 4-2 and Los Angeles tripped Chicago 5-2.

AMERICAN LEAGUE ROUNDUP

Stanky, Rigney Use 48 Players

By United Press International Eddie Stanky and Bill Rigney were trying to outthink each other Friday night but Pete Ward's bat proved to be even more effective than brainpower.

the pennant but is still in first place, now leads second place Minnesota by 2 1/2 games and third place Detroit by 3 1/2 games.

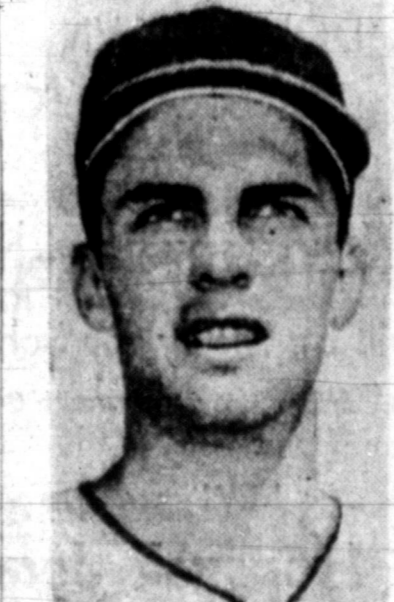

Ed Mathews

reported to the then Boston Braves in 1952 with only three seasons of professional baseball behind him but an impressive total of 56 home runs for the three years.

His raw power at the plate made him an instant sensation in the Braves camp and Hall of Famer Paul Waner, assigned to instruct the youngster in batting fundamentals, simply gave up.

Mathews, who won the third base job despite a reputation as an atrocious fielder, hit 25 homers in his freshman season with the Braves. When the Braves moved to Milwaukee the following season, Mathews hammered out 47 home runs to lead the National League in that department.

He hit 46 homers in 1959 for another league title and only last season, after 15 years in the majors, did he sink to his career low of 16 homers. His previous lows were recorded in 1963 and 1964 when he hit 23.

MOUND STARS for the Minnesota Twins, righthander Dean Chance, (11-7), left, and San Francisco Giants' righthander Juan Marichal (12-7).

Minnesota 3-2, New York swept a doubleheader from Cleveland 2-1 and 2-0, Boston whipped Baltimore 11-5 and Washington beat Detroit 3-1.

Singles Decide Game

Winning pitcher Chuck Dobson and John Donaldson hit rousing singles in the fourth inning to give Kansas City its triumph over Minnesota.

With the score tied 1-1, Dick Green led off the fourth with a single, moved to third on Phil Roof's single and scored on Dobson's single. Donaldson then singled in what proved to be the deciding run off starter and loser Jim Kaat.

But in the second game, Ward's two-run homer capped a five-run second inning that turned the game into a rout and Stanky used just 11 players to chalk up an 8-0 victory—and Rigney again used 15 to no avail.

Stay On Top

The split, however, turned out to be profitable for the league-leading White Sox since their two closest opponents, Minnesota and Detroit, were both beaten. The White Sox, the team everyone insists can't win

Fritz Peterson and Al Downing both pitched five-innings to give New York its first doubleheader sweep of the season as the Yanks downed Cleveland. Elston Howard hit a wrong-field homer in the fourth inning of the opener to enable Downing to boost his record to 10-5 while beating Jhn O'Donoghue.

In the second game, Peterson's shutout gave him just his second win against eight losses while Sonny Siebert, who left the game in the first inning after complaining of dizziness, took the loss, Mickey Mantle's sacrifice fly in the opening inning decided it.

Carl Yastrzemski drove in two runs with a single, double and his 20th homer as the Red Sox whipped Baltimore to give Jim Lonborg his 12th victory. Yastrzemski's surge boosted his average to .325.

Paul Casanova bloomed a two-out single in the eighth inning to drive in two runs and hand Washington its triumph over Detroit.

A Brief History of Babe Ruth Baseball...

By RON CROSS

Babe Ruth baseball, named after the immortal Herman "Babe" Ruth, was organized 15 years ago with just one league, consisting of 10 teams and 150 boys. Pampa's Optimists started Babe Ruth baseball here five years ago with one league and four teams. There are now two leagues and eight teams.

Nationally there are 1,700 leagues and over 160,000 youngsters in the program.

The strength of the Babe Ruth League lies in its simplicity and democracy. The rules and regulations of the organization are based on continuous surveys of its officials and affiliated leagues.

Each Babe Ruth league chartered by the program is an autonomous organization with authority to administer its own program.

If you ever have the opportunity to stroll into centerfield at Yankee Stadium you will find that one

of the plaques grouped behind the flag pole is in memory of Babe Ruth.

The baseball hall of fame has a whole floor of mementos of "The Babe". There are many volumes around about George Herman Ruth and his career.

But none of these can pass on to present and future generations the living vibrant story of Babe Ruth and what his life and career did for baseball and boys in America.

The best lived and best-known figure in the history of America's National Game has more than 160,000 tributes to his greatness.

Babe Ruth baseball was started for this great American and has grown and grown.

The Pampa Optimist Club has kept it growing in Pampa, thanks to the warm and friendly hearts of the citizens of Pampa who have given their time and money to provide clean activities for their youngsters.

Panhandle Water Conservation News

By FELIX W. RYALS
 Researchers at the privately endowed agricultural experiment station at Half Way and Department of Agriculture stations at Lubbock and Bushland are constantly searching for plants to produce as much or more than currently irrigated grains. They are optimistic, and before too many more years can be expected to come up with a break-through on the plant to do this.

Current experiments going on in Arizona have already shown irrigation cotton farmers can actually make more money by termination of irrigation, with out waiting on the top crop on stalk of cotton, which also cuts watering costs and costs of killing out the late weed crop.

This also aids in controlling insect production and disease control, and yet gives the cotton farmer more profit per acre. A profit increase is the reason for irrigation in the first place.

Cotton in one county in Arizona, where the tests were conducted and where irrigation was terminated Aug. 2, produced 3.8 bales of cotton per acre for an overall gross profit of \$240 per acre.

In those test plots where Aug. 20 was the cutoff date, the yield was 3.89 bales per acre. But the overall gross profit declined to \$233 per acre. In plots where irrigation was continued until Sept. 2, 3.78 bales were produced per acre with a drop in gross profit to \$195 per acre.

During the past year we have heard a great deal about plans to bring in extra water we are going to need in West Texas by the year 1980 to head off the decline in our underground water supplies, along with a like decline in agriculture and agri-business.

The North American Water and Power Alliance plan is one of those being pushed. An immense study has been carried out by Parsons Company of California. Representatives of that company have been assisting in preparing the Texas 2020 Water Plan.

Water Plan
 The North American Water and Power Alliance, commonly referred to as NAWAPA, will cost billions of dollars but will increase income along its route will repay the cost many times over.

The biggest obstacle to this plan is it must cross Canada, and thus is involved in international politics. Efforts are in progress to cut through the red tape involved, but we can expect this to take several years.

West Texas cannot wait. We must look to other sources in the meantime. If water comes from the Mississippi River several accompanying problems must be solved ahead of time. The problem of recharge of

Ogallala formation must be taken care of, and studies will be conducted in this field.

Economic Aspects
 The NAWAPA plan has released some interesting economic aspects. We will list some of these for the reader's consideration.

Backers of NAWAPA point out this plan is a continent-wide development of natural resources on a long-term basis for eventual benefit of all. They say it is conceived on sound economic and moral principles. No area will have water taken from it except that which is now, or in the foreseeable future going to waste.

Most of the water to be used under the NAWAPA plan now runs unused into the Pacific and Arctic Oceans. In return for its water, the supplying area would be widespread, because tritic power or some other tangible source of revenue. Income from sale of surplus power not used for pumping will keep water rates reasonable.

Political Backing
 Political backing of the plan would be widespread, because 33 states in the United States would benefit directly from water made available. Canada would also receive great benefits to seven of its provinces and one territory. And finally Mexico, south of the U. S., would receive water of untold value.

Citizens of the United States who have visited in Mexico and have seen the abject poverty of people in three of its largest and most arid states, will support all efforts to get water to these people. Water will definitely make the difference between poverty, and plenty.

The heart of the NAWAPA system will be a 500-mile long storage reservoir in Canada. This will be located in what is known in Canada as the Rocky Mountain Trench. Here is one of the plans biggest problems. The elevation is 3000 feet. Its engineers, who have studied the problem, remind us they have the engineering know-how and peaceful use of atomic power is at hand.

The system will not only generate its own power for the necessary lift stations but will have a saleable excess. It's backers point out electrical power to be generated will be able — when needed — to revolutionize the transportation industry and also cut down on some fuel use pollution.

County SCD News

By LYNN McDANIEL
 We are finally getting the moisture. I hear several complaints that farmers wish it would quit raining so the rest of the maize could be planted. Several fields located over the county still haven't been planted. Lots of the wheat-land has not been plowed.

Rain is one thing we cannot turn down. This is the item we need most in Gray County to increase production of our cropland and rangeland.

We should be trying to keep the rain on the ground where it falls so we will have moisture to produce grass and crops. Cover, whether dead or alive on top of the land is the best protection we can provide the soil.

The sloping cropland should have cover and much of it needs terracing also. Terraces hold moisture on the land longer and give soil more time to soak up moisture. Terraces also break up concentration of water. This eliminates large volumes of water from washing the land.

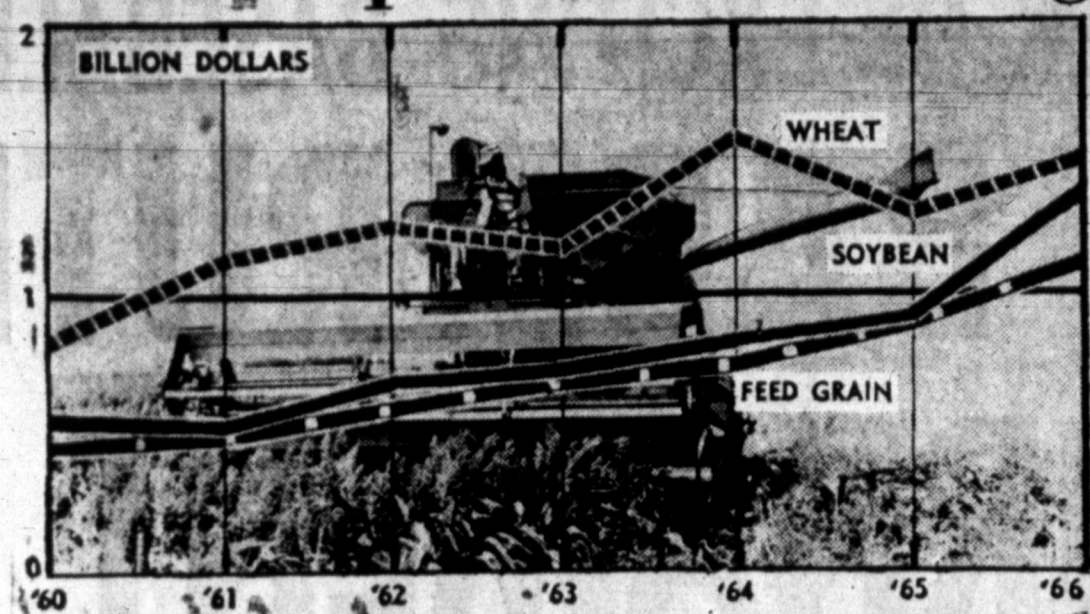

Instead of wishing rains would stop, more thought should be done about how we can keep all the moisture that falls and store it in the soil for future use.

Breeders Association Plans Summer Dinner
 Top O' Texas Hereford Breeders Association will hold their summer banquet at 8 p.m. Aug. 24 in the Starlight Room of Coronado Inn, according to Gordon Whitener, president.

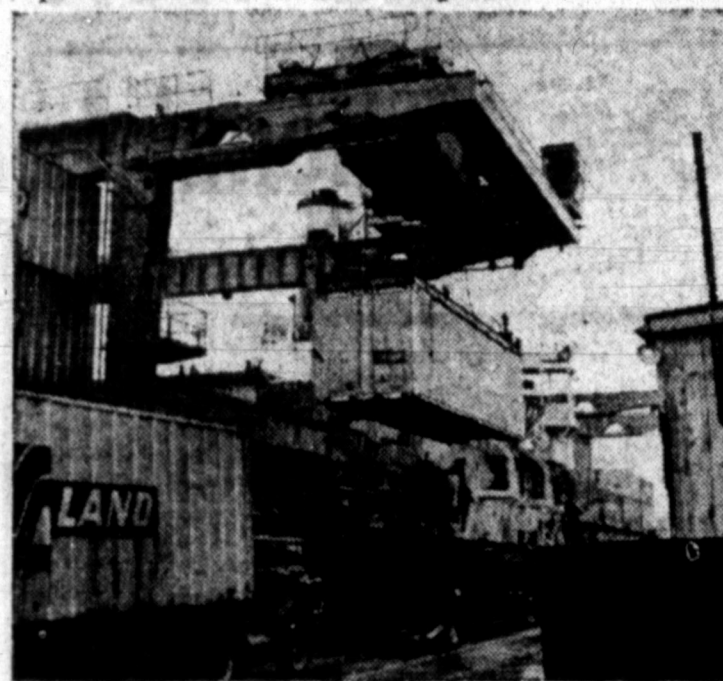

The program will include variety acts by area talent and a speech on "What's New in the Hereford Business" by Jake Hess of McLean.

Food for Foreign Families

Farm Exports Still Growing

Breadbasket for the world is still the United States, from which farm product exports for the 1967 fiscal year are expected to total \$7 billion or more, a near-record. U.S. foods line grocery shelves in 150 countries such as the Japanese supermarket at right, and exports account for about 17 per cent of farmers' marketing income.

FARM PRODUCTS contribute significantly to the U.S. balance of payments. At a Baltimore wharf, at left, trailer trucks filled with U.S. farm products are driven to the ship and the entire trailer is hoisted aboard for shipment overseas. Above, a Chinese family in Hong Kong partakes of American chicken "drumsticks".

Agriculturally Speaking

By FOSTER WHALEY
 At the time of this writing we are getting set for the annual district one 4-H Horse Show. Had it not been for Mrs. Dora Reeves and Ben Johnson, assistant county agent, things would have been in a big mix-up by now. Dora has spent most of this week in our office setting up files and doing preliminary work for this horse show.

Some of the nicest trophies I have ever seen at any livestock event will have been presented to 4-H youngsters over the Panhandle. Over 100 members from the 22 Panhandle counties competed here Friday. The top 20 individual winners will represent this district in the state contest about one month later.

Professor Offers Sure Way to End Hay Argument
 COLLEGE STATION. — There is one sure way to settle the "my hay is better than yours" argument.

Have it tested. Farmers have a great tendency to over-estimate the quality of their hay, says Al Novosad, extension pasture specialist at Texas A&M University. There are imposing differences in quality and feed value of forages, according to figures from the A&M Forage Testing Service.

For instance, the high sample of coastal bermuda grass tested last year had over 19 percent crude protein. The lowest sample tested only 3.7 percent crude protein. Average was 8.7. Forage sorghum cut for hay ranged from a high of over 12 percent to a low of 1.9 percent and an average of 5.2 percent crude protein.

Crude fiber, digestible protein and TDN (total digestible nutrients) showed the same wide variation, says Novosad. A relatively new figure is being included in the A&M forage analyses — net energy. Novosad says net energy is a more accurate indication of the worth of a forage to an animal than crude or TDN.

It is figured by subtracting the various energies lost in the digestion process from the gross energy in a feedstuff. Novosad says there are several items influencing hay quality. Among the more important are the amount of fertilizer the hay got and the stage of maturity at which it was cut.

4-H Benefits
 Working with animals seems to build character, but not much money can be made in just the ownership of a horse. One woman aptly stated it several years ago. She was a widow and had a boy who was planning to feed a calf for the local livestock show.

The county agent advised her he wouldn't make much money feeding just one calf. Her reply was, "I am not trying to make money out of this project, I'm trying to make a man out of a boy."

Too often in 4-H club work we tend to over-emphasize economics and under-emphasize what our real goal should be... making a man out of a boy, or a lady out of a girl.

10 60TH YEAR

Junior Association Schedules Field Days

COAHOMA, Tex. — The Texas Junior Hereford Association will hold three big state-wide field days on July 24, 25, and 26 according to Mark Barr, Coahoma, president of the junior association.

The first field day, Monday July 24, will be held at the Alex Born 1 Sons Ranch, near Fallet. The second event, Tuesday July 25, will be at the Sweetwater Coliseum with the Sweetwater Hereford Association serving as host. The finale of the three field days on Wednesday, July 26, will be at the Roy R. Largent & Sons Ranch, near Fort Davis and sponsored by the Highland Hereford Association.

All adults and juniors interested in good Herefords have been invited to attend one or all of these three big field days, Barr said.

The three field day programs are located in different areas of the Lone Star State so that as many boys and girls and their parents as possible will be able to conveniently attend at least one. The three hosts are making extensive preparations to accommodate large crowds and will be serving a free lunch at each field day.

A special invitation has been extended to all county agents and Future Farmers of America

teachers to attend and bring judging teams and individuals for the judging contests planned for each event.

An array of prizes will be awarded to winners at each event. The big prize at each field day will be a registered Hereford heifer, awarded by the host, to the high individual judge in the judging contest who is a member of the Texas Junior Hereford Association, according to Barr.

A number of nationally known out-of-state Hereford breeders, as well as several recognized beef cattle authorities from Texas, have been contacted to participate in the three educational field day programs.

Members of the official judging committee are Alfred Meik, Taylor, Neb.; Mac Suthers, Arnett, Okla.; and Jack LeForce, Springerville, Ariz. Marshall Sellman, American Hereford Association director from Watrous, N. M., will be the keynote speaker at all three field days.

Demonstrations on selecting, grooming, and showing Herefords will be given at each event by exhibitors with years of experience. Each field day program should be both educational and entertaining for adults and junior cattlemen, Barr said.

Miss Christie, R.K. Thrasher Exchange Wedding Vows in Double-Ring Ceremony

Mrs. Ronald Keith Thrasher
...nee Kathryn Ann Christie

Miss Kathryn Ann Christie and Ronald Keith Thrasher, both of Pampa, exchanged wedding vows in a double-ring ceremony at 8 p.m. July 14 in Central Church of Christ.

J. M. Gilpatrick, minister of Olsen Park Church of Christ in Amarillo, officiated for the ceremony.

The bride's parents are Mr. and Mrs. Ernest M. Christie of 807 E. Craven. The bridegroom is the son of Mr. and Mrs. Bob L. Thrasher of 1609 Williston.

BRIDE

Escorted by her father, the bride wore a floor-length gown of angel silk. The lace bodice of her dress had a rounded neckline and sleeves which extended in petal points over the hands and fastened with eight tiny buttons.

Lace inserts accented the hem of her full skirt, which swept into greater fullness at the back. Her angel silk cathedral train was overlaid with lace and attached at the shoulders.

A shoulder-length veil of white tulle draped down the back from a crown of seed pearls. Atop a white Bible, she carried a bouquet of white roses and stephanotis, tied with white streamers.

ATTENDANTS

The matron of honor, Mrs. Ernie D. Christie of Lubbock, wore a formal gown of turquoise peau de soie designed with a rounded neckline, short sleeves and bell skirt. She carried a cascade bouquet of white Majestic daisies tied with turquoise ribbon.

Mrs. Keith E. Christie, bride's

matron, of Pampa, was dressed similarly to Mrs. Christie and carried an identical bouquet.

Bridesmaids were Miss Ann Curry of Midland and Miss Carol Thrasher of Pampa, a sister of the bridegroom. They wore similar formal gowns.

Bridal attendants' costumes were completed with turquoise peau de soie hats, with matching veils held in place with tiny seed pearls.

Gary Thrasher, 6, son of Mr. and Mrs. Ronald Thrasher of Pampa and a brother of the bridegroom, was ringbearer. Patricia Baker, 6, cousin of the bride and daughter of Mr. and Mrs. G. F. Baker Jr., of Pampa, was the flower girl.

Candlelighters were Jan Truby and Ann Truby daughters of Mr. and Mrs. John Truby of Pampa. The girls wore street-length dresses similar to the

bridesmaids' costumes.

Best man was the bride's brother, Ernie E. Christie of Lubbock. Groomsmen were Don Nichols and Monty Gordon, both of Pampa, and Keith Christie of Lubbock, brother of the bride. Nichols and Keith Christie, were also ushers.

The church was decorated with a seven branch candelabra, baskets of majestic daisies and greenery placed before the rail in front of the auditorium.

Music was provided by a quartet, which included Mrs. Eddie Reed, Mrs. Howard Holt, Ronald Gordon and Keith Cobb. Wedding music selections were "The Twelfth of Never," "Whither Thou Goest," "Faithful and True," and "Sweethearts Forever."

The bride's mother wore a two-piece aqua crepe dress with white accessories and wore a white daisy corsage. The

bridegroom's mother chose a two-piece blue suit with beige accessories and a daisy corsage.

RECEPTION

For the reception at Black Gold Restaurant after the wedding ceremony, the bride's table was covered with a white lace tablecloth over turquoise. Table decorations were an arrangement of Majestic daisies and a silver candelabra holding three turquoise candles.

A crystal punch bowl was placed next to a five-tiered wedding cake, which was topped with a miniature bride and groom.

Mrs. Dirk Stiggins of Leveland assisted with serving punch. Mrs. Henry Northcutt of Canyon served cake, and Mrs. Harold Boatman of Pampa assisted at the guest register.

Others who assisted with (See MISS CHRISTIE, Page 14)

Miss Dukes, David Zybach Say Nuptial Vows in Allison Church

Miss Becky Dukes of Allison and David Zybach of Briscoe repeated marriage vows July 14 at 5 p.m. in the Church of Christ at Allison.

The double-ring ceremony was officiated by Clyde Dukes, Church of Christ minister and uncle of the bride. Nuptial vows were exchanged before an archway decorated with entwined jade leaves and two floor candelabras holding votive cups also entwined with jade leaves. Chains of draping white roses connected the arch and the candelabras completed the setting. Pews were marked with white satin bows.

Parents of the couple are Mr. and Mrs. Joe Dukes of Allison, and Mr. and Mrs. Elbert Zybach of Briscoe.

Mr. and Mrs. Garth Latham of Breckenridge, and Mr. and Mrs. Joe Latham of Amarillo provided nuptial selections of "I Love You Truly," "With This Ring," "The Bridal Chorus," and "Walk Hand in Hand."

BRIDE

Given in marriage by her father, the bride was attired in a formal length gown featuring a fitted bodice of delicate chantilly lace styled with long tapering sleeves and a scalloped neckline, above a skirt of white peau de soie.

Sequined appliques adorned the front, sides, and back of the graceful bell-shaped skirt, sweeping into a flowing cathedral train, which was attached at the waist.

Her fingertip veil of Bridal Illusion draped away from a tiara highlighted by crystals and seed pearls. She carried a white orchid atop a white Bible showered with white satin ribbon streamers tied in love knots and forget-me-knots.

ATTENDANTS

Attired in formal gowns of a turquoise rayon dacron blend styled with sleeveless lace empire bodices and rounded necklines, bridal attendants were Miss Adeline Dukes, cousin of the bride, as maid of honor, Miss Karen Jones of Pampa, and Miss Mary Diane Zybach of Briscoe as bridesmaid. Each carried a colonial bouquet of turquoise frenched carnations with tulle and white satin streamers tied in love knots. They wore a cluster of matching flowers on their short veils.

Kathy Hall of Amarillo was a flower girl and wore a dress and headpiece identical to other attendants. Flower boy was Steve Zybach of Briscoe. Garland Dukes and Kent Hall were ring bearers.

Howard Lohberger served the

bridegroom as best man with groomsmen as Tommy Hays and Wayne Zybach. Bevard Dukes and Mike Goad were ushers.

For her daughter's wedding Mrs. Dukes chose a two-piece blue rayon and silk adorned with seed pearls and sequins. She wore white accessories and a corsage of white carnations.

Mrs. Zybach selected a light blue rayon chiffon shift with a jacket of ribbon-embroidered acetate and nylon lace. She also wore white accessories and a corsage of white carnations.

RECEPTION

Following the ceremony, the bride's parents were hosts at the reception in their home at

Allison. The bride's table was covered with a white lace cloth over turquoise and was centered by the bride's bouquet.

A five-tiered cake featuring a winding staircase was adorned by dainty miniature figurines representing the wedding party. Miss Melody Zybach of Briscoe served cake and Miss Patricia Messer of Allison ladled punch.

Presiding at the guest registry was Miss Linda Reynolds of Allison.

For a wedding trip to Colorado Springs, Colo., the bride chose a turquoise dress of dacron knit with white accessories.

The orchid lifted from her bridal bouquet completed her travel (See MISS DUKES, Page 14)

Mrs. David Zybach
...nee Becky Dukes

Former Pampans' Daughter Says Wedding Vows Here

Miss Terry Edmondson, daughter of former Pampans, Mr. and Mrs. L. J. Edmondson of Canyon, became the bride of Eddie Dean Langwell, son of Mr. and Mrs. J. D. Langwell of 321 Dwight, at 8 p.m. July 1 in First Presbyterian Church, Pampa. The Rev. Martin Hager, pastor, officiated at the double-ring ceremony.

BRIDE

Vows were exchanged before nine-branch tree candelabras entwined with garlands of salad foliage. Yellow tapers covered by lamp globes were placed in the candelabras. Floor baskets of yellow gladioli and majestic daisies flanked the kneeling bench.

Given in marriage by her father with the "her mother and I" avowal, the bride wore a floor-length dress of white crepe with a rounded neckline and a straight skirt with an empire waist. The elbow-length bell sleeves were of imported venice lace, and the chapel train was edged with lace. Her shoulder-length white illusion veiling fell from a white crepe headpiece trimmed with venice lace and a double bow. She carried a bouquet of white orchids and stephanotis on a white Bible.

ATTENDANTS

Attending the bride, as matron of honor, was her twin sister, Mrs. Jerry Allen of Pampa. She wore a floor-length pale yellow crepe dress with a rounded neckline and bell sleeves. The empire waist was accented by small white daisy trim. She carried small yellow pom-pom mums.

Bridesmaids were Mrs. Dorothy Edmondson of Lubbock, sister-in-law of the bride, and Mrs. Gwen Cornett of Canyon. Junior bridesmaids were Miss Dana Kelson of Seagraves, bride's cousin, and Miss Debbie Langwell of Albuquerque, N.M., niece of the bridegroom. All wore dresses identical to the

Pampans' Daughter Attends Scout Camp

Debra Brumfield, daughter of Mr. and Mrs. Luther Brumfield, 113 S. Sumner, will attend a week of Girl Scout camp at Camp Kiowa beginning today. She is a member of Cadette Troop 214 directed by Mrs. O. C. Cox Jr.

matron of honor's gown. Curtis Johnston of Port Arthur served as best man. Groomsmen were George Bullard and Larry Mills, both of Amarillo. Serving as ushers were Gary Don Langwell, brother of the bridegroom, and Eddie George Reames, both of Pampa.

Mrs. Nancy Brown of Canyon sang "Whither Thou Goest" and "The Wedding Prayer." She was accompanied by Miss Ruth Porter at the organ.

The bride's mother wore a light beige brocade suit and the bridegroom's mother wore a light beige two-piece suit. Both wore corsages of cymbidium orchids.

RECEPTION

Following the ceremony, a reception was held in Fellowship Hall of the church. Miss Judy McNeil of Dalhart assisted at the punch bowl, and Miss Nancy Nixon of Dalhart served cake. Miss Carol Haigler of Albuquerque registered guests.

For her traveling costume, the bride chose a three-piece knit suit of yellow, navy blue and white. She wore a white orchid corsage lifted from her bouquet.

The bride is a senior elementary education major at West Texas State University in Canyon. The bridegroom is a junior business major at WTSU. They will reside in Amarillo.

Mrs. Eddie Dean Langwell
...nee Terry Edmondson

Nuptial Vows Unite Miss Neal, Kenneth Woody

GROOM — Miss Glenda Sue Neal became the bride of Kenneth Mitchell Woody in a double-ring ceremony performed at 3 p.m. June 11, in the First Methodist Church in Groom with the Rev. M. W. Reynolds of Rule officiating.

Miss Neal is the daughter of Mr. and Mrs. A. D. Neal of Groom and the granddaughter of Mrs. S. J. Whatley. Parents of the bridegroom are Mr. and Mrs. A. S. Woody of Abilene.

Vows were solemnized before an altar decorated with baskets of yellow gladioli, carnations and mums with green palms and yellow candles. Prior to the ceremony, Gene Carter sang "Whither Thou Goest", and following the ceremony "The Wedding Prayer." Mrs. Gene Carter, organist, provided traditional wedding marches.

BRIDE

Escorted to the altar and given in marriage by her father, the bride wore a candlelight satin A-line formal length wedding gown. The yoke and

sleeves were of chantilly scalloped lace, also a chapel train which was attached to the yoke. Her tiered veil of tulle was secured by a wedding flower, and she carried a bouquet of white carnations centered with a gardenia. To carry out bridal tradition, the bride wore a blue garter. For something old she wore her grandmother's wedding band.

ATTENDANTS

Attending her sister as maid of honor was Miss Joan Elaine Neal of Groom. Bridesmaids were Mrs. Tommy Gleaton of Denver, Colo., sister of the bride and Mrs. Ted Rush of Clovis, N.M.

Feminine attendants were dressed identically in floor-length, deep yellow satin dresses with chantilly lace yokes designed along empire lines, complemented with Dior bows. Each carried bouquets of yellow chrysanthemums and split carnations, and wore opera-length white gloves.

Tommy Gleaton of Denver, brother-in-law of the bride, served as best man. Groomsmen were Frank Neal of Denver, a cousin of the bride, and Ted Rush of Clovis. The ringbearer was Don Ray Gleaton of Denver, nephew of the bride. Ushers were Bobby Woody of Decatur, Colo., and Ed Bell of Plainview.

RECEPTION

Following the ceremony, a reception was held in Fellowship Hall of the church. Guests were registered by Mrs. Ed Bell of Plainview. The bride's table was laid with a yellow cloth covered with white nylon net and yellow ribbon.

A silver punch bowl, candelabras and tea service with floral arrangements of yellow and white flowers completed the table arrangements. The all-white cake was decorated with yellow roses and was served by

Mrs. Frank Neal of Denver. Mrs. Orville Neal of Spearman presided at the tea service and Mrs. Scottie Billington of Amarillo presided at the punch bowl.

The bride is a graduate of Groom High School and attended McMurry College in Abilene and Southwest Business College in Plainview. She is employed in the office of a Plainview agency. The bridegroom is a graduate of St. Joseph's Academy and of the Southwest Medical School of Radiology Technology. He is employed at Wood, Johnson and Smith Medical Clinic in Plainview.

The bride chose to travel in a yellow blouse suit with white accessories. The couple will make their home in Plainview. Pre-nuptial courtesies included a shower given May 27 by Mrs. Jim Hermesmeier, Roy Fredericksen, Joe Davis, Melvin Ashberry, Crim Gooden, Ruby Denton and Miss Boudin Shockley.

DOUCETTE-WARREN

Miss Avril Doucette

The betrothal of Miss Avril Brickley Doucette and James Bruce Warren was announced by the bride-elect's parents, Mr. and Mrs. Albert P. Doucette, 2424 Mary Ellen, at a tea held yesterday afternoon in their home.

Warren is the son of Mr. and Mrs. Hart Warren, 2233 Chestnut.

An Aug. 26 wedding is planned in St. Vincent de Paul Catholic Church.

The bride-elect and her fiancé are juniors at the University of Texas at Austin.

Miss Doucette is the granddaughter of Mrs. A. H. Doucette of 500 W. Browning and the late Mr. A. H. Doucette.

Miss Christie

(Continued from Page 13)

reception were Mrs. Ervin Baker, Mrs. Bob Eastham, Mrs. Mrs. Edwin Southard and Mrs. Frank Green, all of Pampa, and Mrs. J. M. Gillpatrick of Amarillo.

For the honeymoon trip to Colorado, the bride traveled in turquoise sheath dress with a self belt, matching jacket and beige accessories. Her flowers were the white roses lifted from the bridal bouquet.

The couple will live in Lubbock. The bride was an honor graduate of Pampa High School and will be a January, 1968, graduate of Texas Technological College. She is studying for a B.S. degree in home econom-

POLLY'S POINTERS

Organization Eases Housework Headaches

By POLLY CRAMER

Newspaper Enterprise Assn. DEAR POLLY — I am answering Lucille who wants to know how to organize her work and time to the best advantage. I do not like housework so I try to take out as much of the work as possible. At our house everyone makes his own bed immediately on arising. The children's sheets, blankets and so on are tucked in back and foot against walls so all they need do is to smooth toward the head and side. Even the smallest child can make his own bed.

Every item in our home has its place. If mother is sick, she can tell anyone where to find a needed item. We keep odds and ends off the floor and in their proper places, newspapers and magazines in racks and dirty clothes in the hamper. I have had people comment on the cleanliness of my home when I knew it was dirty. But because there was nothing on the floor or furniture, people thought the house was spotless.

My washing is done on Monday morning, iron that afternoon or Tuesday morning. Of course, with babies in the house it is necessary to do it more often. Vacuuming and baking are done on Saturday.

After breakfast I put out the meat that is to thaw for dinner. I also make desserts early in the day so that the afternoon is not such a rush getting everything done at once. I work a 1/2 way from home so everything

must be organized. —LEOINA

Polly's Problem DEAR POLLY — Do you or any of the readers know something that could be done with napkin ring holders? People do not seem to use them for holding napkins any more. There must be some other use for them. I want to thank you for the wonderful pointers I have gotten from the column. —MRS. J. W. M.

DEAR POLLY — I started my own war on rising prices. To do this I keep a "one-size larger" drawer for my boys. Into it I put articles of clothing that are bought at bargain prices at the end of a season. When buying for the next year I allow for their growth and shop for things one size larger. By the time winter comes again my boys will have a varied wardrobe, bought at half the usual cost. —PHYLLIS

DEAR POLLY — Many times I have taken a plastic or patent handbag out of the dresser and found indentations in the material made by pressing against something else. It's a simple thing to remove these marks by placing the bag in front of a heat register or warm oven. The marks disappear in minutes. —MRS. C. M. L.

Miss Leota Carole Lane

Parents Announce Daughter's Engagement to D. K. Malcolm

The engagement of Miss Leota Carole Lane of College Station to Daniel Karl Malcolm of Canadian is announced by her parents, Mr. and Mrs. David M. Lane of St. Louis, Mo.

Miss Lane, a native of Fayetteville Ark., is a 1963 graduate of the University of Arkansas, and is now employed as specialist in Family Life Education with the Texas Agricultural Extension Service in College Station. Prior to this time, she has served as assistant Smith County home demonstration agent in Tyler.

Malcolm, son of Mr. and Mrs. Paul B. Malcolm of Canadian, is a graduate of Texas A&M University where he received his bachelor of architecture degree in 1964 and his master of architecture degree in 1966. He is currently working toward a Ph. D. degree in education at Texas A&M.

Wedding vows will be exchanged Aug. 5 at Peace Chapel, Lakeview Assembly in Palestine. Following the wedding, the couple will live in College Station, where Malcolm is presently employed.

Miss Monnie Gill Celebrates 40th Year With SWB

The Telephone Pioneers and other Southwestern Bell Telephone Co. employees awarded Miss Monnie Gill a 40-year service pin recently. Miss Gill has been employed with the company since 1927. In 1946 she was made chief operator in Shamrock and is service assistant here in the traffic department.

A resident of 445 Jupiter, she moved here in 1959 and is a member of Telephone Pioneers of America.

Miss Monnie Gill

Weatherford. He plans to teach this fall at Calumet, Okla.

Personnel Office Supervisor Talks To American Business Women's Group

The American Business Women's Association here heard Mrs. Donald Michaels, personnel office supervisor for Cabot Corporation, as guest speaker at the Tuesday evening dinner meeting at Jackson's cafeteria.

Members also elected a new executive board, which was installed during the meeting by outgoing president, Mrs. Vernon Graham.

New executive board officers are Mrs. T. A. Mastin, president; Mrs. C. P. Redd, vice president; Mrs. Ben Organ, recording secretary; Mrs. James Culppeper, corresponding secretary and Mrs. Bob Hudson, treasurer.

Mrs. Mastin, program chairman, introduced Mrs. Michaels who explained the duties of a personnel office supervisor.

Mrs. Michaels said she interviews both men and women and must consider how capable a person is, how well he will fit into the position, and how well he will work with a supervisor. She must also know if he can accept the responsibility the job demands, if his family situation would fit the job's demands and if the person can express himself clearly.

Mrs. Michaels and her family moved to Pampa five years ago and live at 1813 Duncan. Her husband is retired from the U.S. Marine Corps and is attending West Texas State University studying computer science.

Mrs. Hudson, who is employed with a Pampa realtor, gave the vocational speech. She attended the Stephenson Realty School in Yuma, Ariz.

According to Mrs. Hudson, it is only in recent years the realty field has been opened to women and studies show that in

the purchasing of a home 95 percent of the decisions are made by women.

Mrs. Maude Voyles, sponsored by Mrs. Mastin, was installed as a member. Mrs. Allen Buske won the door prize. Mrs. J. A.

Redus of Abilene, mother of Mrs. O. G. Redus was a guest. Members attending were Mrs. Cecil Davis, O. G. Smith, Alta Mae McIlreath, Eugene Franklin, James Quarry and Misses Maxine Nabors and Barbara Smiley.

NEW DIRECTORS—American Business Women's Association has named these five women to serve as new directors for the association's executive board. Front row, left to right, are Mrs. Bob Hudson, treasurer, and Mrs. Ben Organ, recording secretary. Back row, left to right, are Mrs. James Culppeper, corresponding secretary; Mrs. C. P. Redd, vice president, and Mrs. T. A. Mastin, Sr., president.

Miss Susann Davis

Wedding Planned For Davis-Evans

Mr. and Mrs. Eldon L. Davis of Mulsehoe announce the engagement and approaching marriage of their daughter, Susann, to Richard P. Evans, son of Dr. and Mrs. J. Ellwood Evans of Dallas.

Miss Davis is a graduate of West Texas State University and is employed by the Richardson Independent School District of Dallas.

Evans is a graduate of North Texas State University and of Dallas Theological Seminary. He is pastor of a church in Tonkwa, Okla.

The bride-elect's mother is the former Elaine Murphy, a native of Pampa. The maternal grandparents of the bride-to-be are Mr. and Mrs. W. B. Murphy, 621 E. 18th.

The wedding will be performed at 8 p.m. Aug. 12 in the First Baptist Church in Earth. Evans' father will perform the ceremony.

In every style, newly developed leather soles hold their shape—and the shape of the shoe—for as long as you wear them. Flexible and rugged, they won't ravel, fray or bulge at the edges. Leather Ind. of America reports.

MOORE-ELLIOTT

Miss Wanda Kay Moore

SKELLYTOWN — Mr. and Mrs. Howard J. Moore of Skellytown announce the engagement and approaching marriage of their daughter, Wanda Kay, to Archie Randall Elliott, son of Melvin Neil of Skellytown. Wedding vows will be repeated July 29 at 2:30 p.m. in the First Baptist Church with the Rev. Muriel Rogers officiating.

Long or short, hair looks soft and uncontrived, yet very pretty. The large bushy head is out. So is the little curl. Ditto for stick-straight hair. So says Kenneth, New York hair stylist. He's for the small head with bouncy lines, says it looks modern, graceful, free.

A portable weekend rotisserie grill folds away and closes like a suitcase. It has fold-n-lock aluminum legs that can be used as a handle for pushing, pulling or hanging grill.

Drop Self Accusations To Answer LSD Problem

By MRS. MURIEL LAWRENCE

By MURIEL LAWRENCE discuss his LSD interest with Newspaper Enterprise Assn.

DEAR MRS. LAWRENCE: My college student nephew is causing his parents terrible anxiety because of the approving way he spoke of LSD when he was home at Easter. When his father asked him outright if he has used, it he said that this was his "business." But he admitted that several of his friends were using it. He has always been unusually close to his father and mother but they feel they have now lost all his confidence. In God's name, if you know how to deal with this dangerous situation, please...

ANSWER: We deal with it by removing all our own self-accusation from it.

Because the probability is that we have dominated the child who uses or is tempted to use LSD. For his interest in it is a violent statement of his right to difference from us. Thus, the child in whose "closeness" to us we have taken great pride is apt to be the one who must violently declare that he wants distance from us... to be free to disagree with us about everything from religion to sex. And he may use LSD to assert his right to this disagreeing distance.

If we can't know that our pleasures in his "well-adjusted," agreeable "closeness" to us has added up to domination of him, we're in trouble. We'll be in trouble the moment we start hating ourselves for dominating him. Unable to bear our self-accusation, we'll transfer this condemnation of ourselves to the child and resent him instead of perceiving what he's up to. So we won't be able to quietly

discuss his LSD interest with him. We won't be able to listen when he tells us what wonderfully spiritual experience the drug provides. We won't know we're being told that our child is concerned with spiritual experience. So we'll be unable to give him grateful appreciation of this concern. Unable to listen to his different notions on how we human beings acquire spiritual experience, we won't be listened to when we say mildly: "What you say sounds fascinating. However, darling, we know a chemist who believes that LSD can cause brain damage. Would you mind if we invited him to dinner so that we could explain his reasons for believing this to all of us? What he says is fascinating, too. And after all, discovering God is hard enough without trying to do it with a damaged brain."

If you people can't pull free enough of self-accusation to grant the boy his different notions, dangerous though they seem to you, then you must persuade him to see a psychiatrist.

A new portable covered cooking grill is shaped like a pig. It has two grids and removable firepans, cast iron legs and chrome handle.

Just what you've always wanted — a disposable dustpan. Its throw-away cleaning pads are maximum dirt retrieval and a unique shape for easy use in every area of the home, the manufacturer reports. They are made of non-woven, spun cellulose which picks up not only dirt and dust but hard to get at thread and hairs.

15 Skellytown Women Honor Mrs. Carter

SKELLYTOWN — Mrs. Kenneth Carter, Skellytown, was honored recently with a "surprise kitchen shower" in the home of Mrs. R. S. Marlar with Miss Billie Woodward and Miss Donna Huckins as hostesses.

Mrs. Carter was presented a "Kitchen Corgage" fashioned of small kitchen gadgets.

The serving table was covered with a lace cloth and centered with a white sheet cake decorated with a blue arc and rose buds as a border.

Refreshments were served to Misses Connie Woodward, Beth Eason, Novelene Huckins, Sandra Looer, Linda J. Elliott, Vicki Tollison, Yolanda Tollison, Betty Johnson, Reva Gail Barnett, La Donna Russell, Jeanne Allen, Mrs. R. S. Marlar and Mrs. Larry Marlar.

Miss Solly June Banks

SKELLYTOWN — Mr. and Mrs. John F. Banks of Skellytown, announce the engagement and wedding plans of their daughter, Sally Jane, to Larry Allen Michele, son of Mr. and Mrs. Kenneth W. Michele of Commerce. The wedding is planned for 8 p.m. Sept. 2 in First Baptist Church here.

Cereal Snacks Are Appetite Teasers

Cereal snacks are just what the munching set needs at the outdoor grill while waiting for those steaks or burgers to cook. Not only do they make good appetite teasers, but cereals are also economical sources of food energy, protein, minerals, and the B vitamins. In this buttery curry and garlic seasoned recipe puffed oat cereal and bite-size shredded corn are tossed with small pretzel sticks and tailed peanuts. The flavor is so intriguing, you may want to double the recipe. Cereal snacks remain crisp for days stored in airtight containers.

CURRIED CEREAL SNACKS
1/2 cup butter or margarine
4 cups puffed oat cereal
1 cup small pretzels
1 cup bite-size shredded corn
1 cup salted peanuts
1 teaspoon seasoned salt
1/2 teaspoon curry or chili powder, optional
1/2 teaspoon garlic salt

Melt butter or margarine in large skillet. Add remaining ingredients; stir over low heat until cereal is hot and coated evenly with melted butter or margarine, about 5 minutes. Yield: 6 cups.

BETROTHED

Miss Frankie Foye Bienroth

Mr. and Mrs. Frank A. Bienroth of Borger wish to announce the engagement and approaching marriage of their daughter, Frankie Foye Bienroth of Dallas, to Jerry Garfield Hildenbrand, of 2505 Rosewood.

The prospective bridegroom is the son of Mr. and Mrs. Abe Hildenbrand of 2505 Rosewood. An August wedding is planned but the location and date have not yet been selected.

by Abigail Van Buren

DEAR ABBY: There is a very nice-looking well-to-do gentleman in this town whose wife is dying of cancer. No one knows how much longer she'll last, but she's in the hospital now, so the end is probably near.

This gentleman would make a fine husband, and I know that the minute his wife dies there will be a rush of widows and divorcees at his doorstep.

I would like to beat the traffic, but I don't know how to go about it without being obvious. Got any ideas? Would it be O.K. to invite him to my apartment for dinner some night? Or would it be more subtle to fix a nice hot meal and send it over to his house? Any advice you have on this subject would be appreciated. Keep my name and city confidential, please.

WIDE AWAKE WIDOW
DEAR WIDOW: Sorry, I cannot help you 'beat the traffic,' but since you've asked for advice on the subject, quit scheming! You'd fool no one. Least of all the gentleman.

DEAR ABBY: I am a nurse. My boy friend is an X-ray technician. We date week-ends, but see each other daily at lunch during coffee breaks.

Until recently, we both smoked, and this is my source of trouble. My boy friend decided to quit smoking last month. He said it would be easier for him if we didn't meet for coffee breaks since the proximity to someone smoking might be more than he could withstand.

On our week-end date, I smoked a cigarette during a dance intermission. He did not say anything, but he looked pained. When he said good night he acted cool, and his good night kiss was cooler.

Since then I learned that he has been dating some little student nurse who doesn't smoke! I am so mad I could burn. I don't want to lose him. Any ideas?

STILL SMOKING
DEAR STILL: If you haven't already lost him, quit smoking, or that cigarette you're holding could become a torch.

DEAR ABBY: If a man is married to a woman who is "cold," or always "too tired" to satisfy her husband's physical needs, he gets a lot of sympathy. And if he should go elsewhere for what he's missing at home, no one blames him. But how about a woman? She can be love-starved for years, and if she so much as looks at another man, she's considered a tramp.

Well, I'm not a tramp, Abby. I'm a decent, normal woman who has been married for 16 years to a man who has given me a fine home, children, financial security, and companionship. But for the last 4 years his interest in sex has diminished to nothing.

We are both in our early forties, and I think we are much too young to consider the physical side of our marriage finished. Or am I wrong? I've tried everything to revive his interest in me but it's hopeless. He refuses to discuss it, and he won't

see a doctor. Meanwhile I'm left frustrated.

I've never been unfaithful in my life, although I have had chances. I am attractive, look younger than my years, and lately I have been wondering if perhaps an affair on the side would save my husband's face, and our marriage? Or am I rationalizing? Woman to woman, what do you think?

ONLY HUMAN
DEAR ONLY: Woman to woman, I think you ought to tell your husband that if he values his marriage he had better see a doctor for a thorough check-up. He could have a physical disorder which he ought to know about.

TO WED

Miss Kathryn Dell Larsen

A September wedding is scheduled for Miss Kathryn Dell Larsen, daughter of Mr. and Mrs. Glen R. Larsen of 1208 Williston. Wedding vows will be exchanged with John W. Love of Lubbock Sept. 2, in the First Presbyterian Church here.

Miss Larsen's fiancé is the son of Mrs. Emma Lee Love of Cleburne and has attended Texas Technological College, where he was affiliated with Alpha Tau Omega social fraternity and Saddle Tramps. He is employed with an insurance company in Lubbock.

GIVENS-HEIL

Miss Glenda Arlene Givens

The engagement and approaching marriage of Glenda Arlene Givens to Dannie Jackson Heil, both of Pampa, has been announced by the bride-elect's parents, Mr. and Mrs. James W. Givens of 1402 E. Francis.

Heil, son of Mr. and Mrs. Willie Heil of 1408 E. Francis, is a 1964 graduate of Pampa High School. He is a senior student majoring in data processing at West Texas State University and is employed here with an auto supply store.

Miss Givens, a 1967 graduate of Pampa High School, is employed with the Gray County Tax Assessor - Collector's office and plans to attend West Texas State University next fall. The wedding is scheduled for Sept. 1, at Mary Ellen and Harvester Church of Christ.

Astrological Forecast

By CAROL R. RIGTER

FOR SUNDAY, JULY 16
GENERAL TENDENCIES: A beautiful day and evening for you to delve into whatever school of thought or philosophy of life under which you would most like to express in the future and for analyzing deeply your present position and seeing what you can think out for its improvement and greater success and well-being.

ARIES: (Mar. 21 to Apr. 19) — If you explain specifically what you have in mind, you get allies to go along with your ideas with alacrity. Follow your intuition and you handle those who irk you wisely. Do not lose your temper and get into trouble.

TAURUS: (Apr. 20 to May 20) — Make this day for reconciling with kin and associates; friends, no matter how small the misunderstanding, or large. Make your life infinitely more ideal, happier. It is all up to you; change your attitude.

GEMINI: (May 21 to June 21) — A word of encouragement to close ties, some favor to those with whom you work can make this a happy day for them and you as well. Plan how to get your regular job operating more efficiently. Be more systematic.

MOON CHILDREN: (June 22 to July 22) — Show others that you are a delightful person and bring happiness into the life of those you love. Getting amusements that are different can bring you much joy. Get into the spirit of things.

LEO: (July 23 to Aug. 23) — Showing others that you are highly devoted to kin will give them fresh inspiration as well as help your own life to flow more smoothly. Find ways to add to your success in the near future. Read your paper.

VIRGO: (Aug. 24 to Sept. 23) — Ideal day to get out to meetings, philosophical studies, etc., that will give you the information you need. Whatever you hear or see should be well analyzed. Accept only that which is adaptable to your needs.

LIBRA: (Sept. 24 to Oct. 23) — You have gotten into a set groove and this is why you do not command a greater income, as you subconsciously wish to do. Study into and hit on the right course now. You have talents you seldom use.

SCORPIO: (Oct. 24 to Nov. 23) — You get wonderful results if you are charming and thoughtful with others, entertain them as they may prefer. Some fine talent you have can make an excellent impression on them. Show that you have poise.

SAGITTARIUS: (Nov. 24 to Dec. 23) — Quiet meditation is necessary and you find that you soon have the right answer to certain problems and situations that are puzzling. Be helpful to others as well. Appreciate what they are going through.

CAPRICORN: (Dec. 24 to Jan. 23) — Contacting fine individuals with excellent character and talking over your aims can bring just the right ideas, advice, and reward. Social life brings new and interesting friends into the fold. Be clever, attractive to others.

AQUARIUS: (Jan. 24 to Feb. 19) — Make social and civic life today very successful, satisfying. Impress others with your penchant for accomplishment. Do nothing that will make you a mate for others.

PISCES: (Feb. 20 to Mar. 20) — Now you have a far better picture how to advance as you work in the days ahead. Take this holiday opportunity to increase your circle of friends. Be sure they are of the highest type to do you the most good.

IF YOUR CHILD IS BORN TODAY...
...he or she will be one of those rare persons with a determined mind and strong will that cannot be wrenched once set upon a certain course, so be sure to give early the finest training in ethics and right action so that this child becomes an inspiration to others, a boon to humanity.

FOR MONDAY, JULY 17
GENERAL TENDENCIES: You can go directly to whatever important men you know now and let them know that you also you worked out over the weekend and can get their advice or assistance

...such more readily to make such a plan workable. Think big and you find that your whole perspective becomes far more aware of potential advantages.

ARIES: (Mar. 21 to Apr. 19) — Elevating your consciousness to whatever is more modern, up-to-the-minute, can bring you excellent results, give you more success. Get in touch with those at a distance who can assist you to gain whatever you most want.

TAURUS: (Apr. 20 to May 20) — Contact right people who can assist you with modern methods as well in such. Make can also be persuaded to go along with your ideas. Use the right kind of psychology.

GEMINI: (May 21 to June 21) — A talk with powerful associates you have will result in getting new ideas to work that will make all of your operations more successful. Then labor with vim and vitality. Out to amusements you like in P.M.

MOON CHILDREN: (June 22 to July 22) — Add new and fascinating outlets to those you now have, since these could prove to be quite remunerative. Talk them over with co-workers. It may be that they will join their effort to yours in spare time.

LEO: (July 23 to Aug. 23) — Do not waste a single moment of this fine day, or evening, in putting your most creative ideas into words. Then be very anxious to meet with others. Gain their views in this way and you accomplish a great deal.

VIRGO: (Aug. 24 to Sept. 23) — Doing whatever will improve relations with kin is most of your operations now. See to it that they are more financially secure. Take care of other fundamental affairs most intelligently. Show that you have wisdom.

LIBRA: (Sept. 24 to Oct. 23) — Come to a better understanding with allies by being more willing to cooperate with them. Communication comes easily now that men plan to add to your income, even if your present position is now quite confining. Take advantage of opportunities afforded you. Listen to what a cleverer person in business has to suggest.

SAGITTARIUS: (Nov. 24 to Dec. 23) — You have more personal talents that are attractive to others, so be sure to use them. Get out in the social whirl as much as you can. Associate with the right type of people and all is fine.

CAPRICORN: (Dec. 24 to Jan. 23) — Be very cautious in going after whatever is closest to your heart and show that you are able in getting rid of problems. Be of service to one who is having a difficult time. Show that you really care.

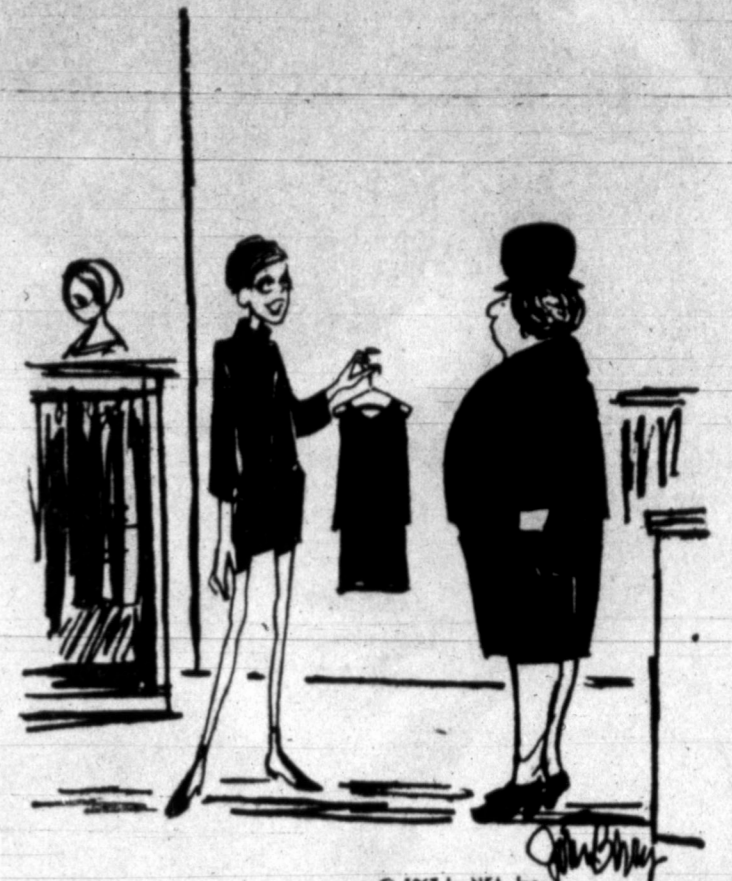

AQUARIUS: (Jan. 24 to Feb. 19) — Partners and friends are all in the mood of affability if you show that you are truly devoted to them. Get some social debt repaid that has been bothering you. Making the right new contacts can bring greater prosperity.

PISCES: (Feb. 20 to Mar. 20) — Being sure to follow every regulation that pertains to you and your operations will gain you prestige of higher-ups. Some civic work can be infinitely helpful to you. Avoid persons who are wishy-washy.

IF YOUR CHILD IS BORN TODAY...
...he or she will be one of those strong-willed persons whom others may resent because they feel controlled do not understand that your progress in trying to be helpful, strict. Teach early to put all that energy into helping himself, or herself, instead and you have already started him or her on the road to success.

A new super suction vacuum for autos plugs into the car cigarette lighter for on-the-spot cleaning. Its miniaturized high-speed motor outdistances most home vacuums, the manufacturer reports.

Survey Measures Consumer Prices

When you read or hear the Consumer Price Index has fluctuated, do you wonder exactly what "Consumer Price Index" means? If this question has puzzled you, understanding the index will help you be a better informed shopper, according to Miss Jimmie Lou Wainscott, Gray County home demonstration agent.

Consumer Price Index is a measure in prices of approximately 500 goods and services a family uses—food, rent, clothing, transportation, medical services, and many other topics, surveyed in 46 cities monthly. They are computed and published by the Bureau of Labor Statistics in Washington, D. C. This index tells you what has happened to the average cost of living.

"Prices on goods and services are important in family living. Some of the 80 items that go into the cost of living index are round steak, hamburger, bacon, frying chicken, fresh milk, eggs, apples, bananas, potatoes, head lettuce, canned tomatoes, frozen orange juice, coffee and sugar. Also considered are restaurant meals away from home, she said.

Instead of publishing actual dollar and cents changes in the price of foods, the bureau makes up a price "index." This index measures the percentage of change from a previous period, Miss Wainscott said.

The base period, which is the average for the year 1957-1959, is always equal to 100.

DRESS REVUE CONTESTANT — Miss Phyllis Atwood, daughter of Mr. and Mrs. Ted Atwood of 2500 Mary Ellen, models her entry in the state 4-H Dress Revue slated in Dallas Oct. 7, during the Texas State Fair. The entry is a slim-fitted green wool coat, trimmed in gold cuffs and collar, and worn over a gold "skimmer" sheath.

About to paint a high ceiling? Follow these hints from the National Paint, Varnish and Lacquer Association. Rig a raised platform by putting a plank on the rungs of two sturdy stepladders. Allow the plank to extend at least a foot beyond the step of the ladder on which it rests. Make sure that the ladders are fully open and locked in position before you begin.

United Press International
To make walls in kitchen, bath room, and children's play areas easier to keep clean, give them a coat or two of semi-gloss enamel.

To season French fried potatoes, try celery salt.

Student Receives Academic Honors

Miss Glenna F. Brown, 19, of 938 Brunow is a freshman Spanish major at Texas Woman's University and has been named as one of the TWU students honored for a high grade average.

Miss Brown received a card of congratulations from Dr. John D. Williams, vice president for academic affairs at the university.

Students who achieved a 2.3 average out of a possible three points have been placed on the

Miss Glenna Brown

vice president's honor roll. Miss Brown is the daughter of Mr. and Mrs. Leon Brown of 938 Brunow.

When buying furniture, inspect it. Try doors, drawers and all movable parts. Sit in sofas and chairs. Check inside, underneath and backside for construction details. Rock furniture to test sturdiness.

Pampans' Daughter to Compete in State 4-H Dress Revue

Miss Phyllis Atwood, 17, daughter of Mr. and Mrs. Ted Atwood of 2500 Mary Ellen, has proven she can stitch a fine seam, for she has been selected to enter the state 4-H dress revue Oct. 7 during the Texas State Fair in Dallas.

She is one of four district 4-H dress revue winners who will compete for the all-expense paid trip to the national 4-H Club congress in Chicago. First and second place individuals showing all cotton garments in the state contest will win \$50 and \$25 respectively.

Each state winner will also receive a leather cased scissor set. National dress revue is not competitive, according to Mrs. Gail Nunez, Gray County assistant home demonstration agent.

Melinda Spearman, daughter of Mr. and Mrs. John Spearman of east of city, was the Gray County junior winner, and modeled her entry in the district event, Mrs. Nunez said.

Miss Spearman designed a cotton shift with a self ruffle at the hem. She included a matching babuska, purse and pink canvas shoes in her costume.

Mrs. Nunez was practice and modeling committee chairman for the district event, which was held in Amarillo July 11.

Theme of the district revue

was "4-H Musical Notes of Fashion." Mistress of ceremonies was Miss Judy Finsterwalder of Wheeler, who is vice chairman of district one council.

Commentator of the 19 senior models was Connie Reimer of Ochiltree County. Three other winners who were also selected to enter the state dress revue were Marilyn McLeroy of Castro County, Marsha Wedell of Dallam County and Cynthia Hanna of Deaf Smith County.

Miss Atwood will represent

Gray County. For her entry, Miss Atwood designed a tailored slim-fitting wool coat and a gold spun rayon-skimmer. The dress has green hand-stitching around long darts, the neckline and the hem line.

"The green wool coat has tiny gold flecks which are picked up by a gold collar and cuffs on the bracelet-length sleeves," Miss Atwood said.

In the seven years she has been a 4-H member, Miss At-

wood has won several clothing awards including six blue ribbons and one red one in county dress revues, won two blue ribbons and one red one in district dress revues and was first alternate to a state dress revue two years.

In food project contests, she has won seven blue ribbons in county events, a blue ribbon for judging a county better bake show and a red ribbon on a district level food show.

She also has been named as

a county and district Baking Queen and received a \$100.

As a junior 4-H leader, she has taught food preservation, sewing, cooking, and parliamentary procedure and won other 4-H awards in parade floats and landscaping plant identification.

Other 4-H projects included riding in rodeo parades, keeping financial records, studying gardening, electricity, bedroom and home improvement and basic automobile mechanics and maintenance.

Boaters Advised To Watch Safety Rules

Safety measures to prevent boating accidents this summer were urged today on the boat users of Gray County by the Gray County American Red Cross.

"Only about half the nation's 40 million boat users can swim well enough to save their lives if they fall into deep water," said Pete Erwin, the chapter's chairman of Safety Services. "That is why it is vital that small craft safety rules be carefully observed."

In order to reach more people with boating instruction and safety information, the Red Cross is seeking to expand its small craft training programs in camps, schools, and colleges, and has revised its methods of instruction so that the theory content of its courses in sailing and outboard boating can be taught in classrooms in the winter months followed by practice sessions on the water in spring and summer.

"The Red Cross recommends that everyone who uses the water learn to swim," Erwin said. "But beyond this, there are safeguards against trouble that every boat operator and passenger should observe."

These were his rules for safe boating:

1. Carry a Coast Guard-approved life jacket for everyone aboard. Insist that weak swimmers and non-swimmers wear jackets at all times; that others wear them in hazardous weather conditions.
 2. Don't overload. Keep passengers down to a safe number. 3. Don't overpower your boat. Your dealer can tell you what horsepower motor it can take.
 4. Don't smoke while refueling.
 5. Don't let passengers of a small boat stand up, or sit on the gunwales, while you are under way.
 6. Equip your boat with essential gear—anchor, oars, boat hook, extra line, fire extinguisher, tool kit, and first aid kit. Running lights are a must for nighttime operation.
 7. Check weather bureau forecasts before taking boat out on open water. Take a transistor radio along to keep posted on changing weather conditions.
 8. Most boats, if swamped or capsized, will stay on the surface, so stay with it till help arrives—don't swim away unless you are in dangerous or extremely cold water.
- Erwin listed these basic rules of the waterways:
1. When boats are meeting in or nearly in, a head-on position each should keep to the right.
 2. When boats are in a crossing situation, the one on the right has the right of way.
 3. Power boats should give way to manually propelled boats or sailboats unless the sail boat is overtaking a power boat. Small sailboats, when sailing in a channel, should give way to power boats which cannot operate outside the channel.
 4. Gailboats on the starboard tack have the right of way of sailboats on the port tack.
 5. Sailboats to windward must keep out of the way of sailboats to leeward.
- "All safety conscious skippers make a point of knowing the swimming capabilities of those on board," Erwin said. "If a person goes accidentally overboard, rescue procedure is based on the ability or inability of the person in the water to help himself."
- "If the man overboard can swim, a lifesaving device can be tossed to him. The boat should stop, and the victim can swim to it."
- "When a weak or non-swimmer falls overboard, first swing the stern away from the side from which he fell. Then toss him a lifesaving device and promptly maneuver the boat back to him. Keep a close watch on him at all times and make the approach as you would a mooring at reduced speed and slightly to windward if possible feet of the victim and bring him into the boat."
- Erwin said all boatmen should know first aid, including how to give artificial respiration, since boats often operate far from medical attention.

NEW KENNEDY

BOSTON (UPI)—Joan Kennedy and her day-old son were "doing fine" today at St. Elizabeth's Hospital.

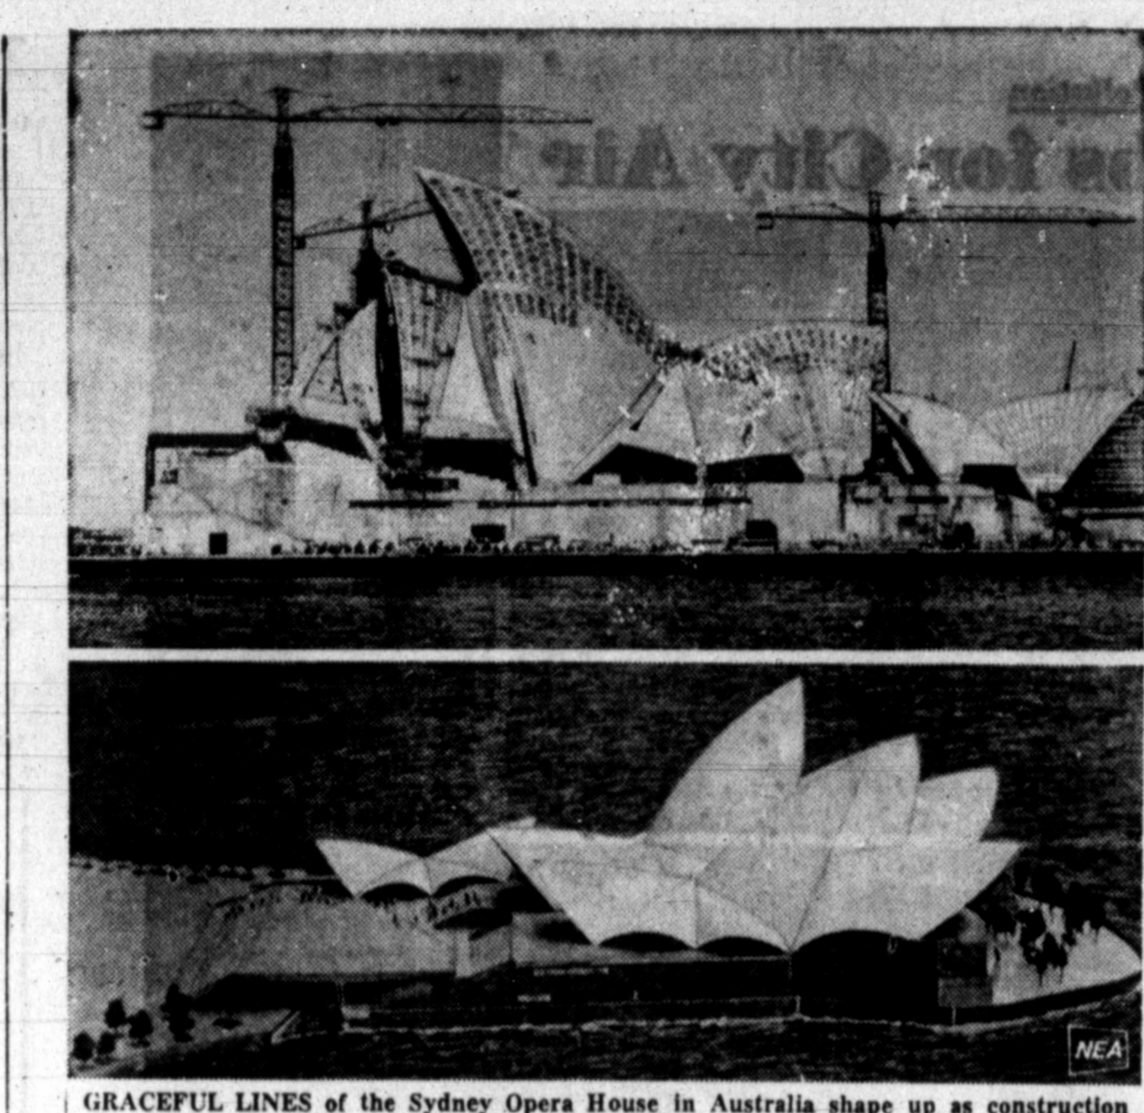

Sen. Edward M. Kennedy, D-Mass., said he and his attractive blonde wife had not yet decided on a name for the boy. Mrs. Kennedy entered the hospital Thursday night and the baby was born at 2:31 p.m. Friday.

The Kennedys have two other children, Edward "Teddy" Jr., 6, and Kara, 7.

QUADS PROGRESS

MELBOURNE (UPI)—Australia's Jones quadruplets are progressing "favorably," St. Andrews Hospital officials said Saturday.

The three girls and a boy were born July 13 to Mrs. Joanne Jones, who took fertility drug last year. She is the wife of a Melbourne detective.

GRACEFUL LINES of the Sydney Opera House in Australia shape up as construction continues on the controversial project, above. White tile being placed on the shell roofs are aimed at the flowing effect shown below. Construction costs are estimated at nearly \$36,000,000.

Teens' Music Lessons 4 Cheerleaders Take on Popularity

More teenagers are taking music lessons today than ever before in the U. S.

The reason: rock 'n' roll. In today's rock 'n' roll world you can forget about the legendary youth whose mother drags him out of a baseball game to practice his music lessons.

Now it's more apt to be the other way around.

Rock 'n' roll has stirred up small fry and teenage interest in music to the point where music lessons are "in" and the music teacher's job was never easier.

William R. Gard, executive vice-president of the National Association of Music Merchants.

The result is that these days it's probably the small boy who insists on practicing his music—and his mother who shoos him out of the house to play a little baseball for a change.

It's a real rock 'n' roll revolution in music teaching, and its far-reaching effects will be very much in evidence when the nation's music merchants gather in Chicago for the big NAMM sponsored Music Show June 25-29 at the Conrad Hilton Hotel.

One of the big features of the show, in fact, will be a demonstration of rock 'n' roll music teaching.... showing music instruments dealers what's going on in the worlds only rock 'n' roll music studio, operated by John Caruso in New London, Conn. The demonstration by Bill Palmer and Bill Hughes, will be sponsored by Alfred Music, publisher of a series of books and records for rock 'n' roll teaching—for the guitar, organ, drum, piano and accordion which are being used in the New London studio.

But actually that's only one aspect of the rock 'n' roll revolution. Even diehards who would challenge the idea that rock 'n' roll can be taught—let alone should— are feeling its effect, and reveling in it.

"What's really important is that the younger generation, from teenagers on down, have gone for rock 'n' roll in a big way, and it, in turn, has effected their attitude toward making music of any kind," Gard explained.

"They're not content merely to listen to rock 'n' roll. They want to produce it themselves. And this, in turn, makes them more receptive to music lessons than any previous generation of youngsters—even when the lessons themselves are cut from a more classic cloth. Apparently they figure that they can master the basics, through orthodox lessons and move on to rock 'n' roll on their own."

"And besides, they're simply

Here's How Things Shape Up for 1967 Second Half

By ROGER BABSON STAFF

At this outset of the second half of 1967, a look at prospects for the remainder of the year seems in order. There is a good deal of hope that the private sector of the economy can do better in the third and fourth quarters of 1967. It was the softening in this sector which caused business to crest over during the first half of 1967. However, there are many important question marks which make it unwise to go all out and conclude that the months ahead will be trouble free.

The economy is now in an awkward phase wherein the soft spots are very much in evidence, but later in the year these should change over and begin to contribute some strength to business. For example, demand for consumer durable goods is still poking along; the realignment of inventories has not yet been completed; and business capital spending is drifting slightly below peak levels. Moreover, while employment is encouragingly high and while personal income

remains at record rates, it must be noted that overtime work has been cut back. As we move closer to the end of the year these soft spots should improve.

Most of the betterment, however, may not occur until the fourth quarter of 1967. The third quarter is likely to reflect vacation lulls and the model-year changeovers of the automobile industry. Hence it is a good possibility that the low point in business for the year may occur in the third quarter.

At this juncture, an unknown factor which could alter the timing of things is the upcoming head-on collision between labor and management in the automobile industry. A protracted dispute could retard any real revival in business until well into the fourth quarter. But there are other "iffy" aspects as well. All bets would be off if the Vietnam War should unexpectedly come to an end; or if the fight between Israel and the Arab states should flare anew and escalate. Neither can we rule out a disruption due to a tighter-than-expected credit pinch.

Western Dress Requested Of Businessmen

Many Pampa business employes have been asked to "dress Western" during the week of July 24-29 to put the city in the proper spirit for the 23rd annual Top o' Texas Rodeo and Kid Pony Show, according to Bill Tidwell, president of the Top o' Texas Rodeo Association.

Arrangements are being made for some of the champion cowboys to be in Pampa stores on that Friday afternoon to give autographs, Tidwell said.

Merchants' tickets are still available at the rodeo headquarters in the Chamber of Commerce office. These tickets will be used for employes and customers.

Reserved seats will go on sale in the rodeo office at 8 a.m. July 24.

The Judy Lynn Show, direct from Las Vegas, will be featured during the rodeo performances. She and her band will appear nightly at the rodeo and will play for dancing in the National Guard Armory.

MILITARY INTEGRATION

WASHINGTON (UPI)—The Pentagon says that all operators of multi-unit housing and trailer courts in the vicinity of Patuxent River Naval Air Station in southern Maryland have agreed to rent to Negroes.

The announcement from the Defense Department Thursday added that all but one operator had agreed to rent to Negroes in the vicinity of the naval training center at Bainbridge, near Havre De Grace, Md. Segregated housing in both areas recently was declared off-limits to servicemen.

New Devices to Fight Air Pollution

Wash Jobs for City Air

The time-tested method of cleaning anything soiled by scrubbing it is being applied to the air-pollution problem, according to some exhibits at the 60th annual Air Pollution Control Conference in Cleveland recently. Several of the devices swirl harmful fumes containing chemicals and dusts from industry and automobiles through liquids for a quick wash job.

THIS SCRUBBER works on a centrifugal principle for wet removal of fumes and dust from air streams.

NOT A WASHER, BUT A WATCHDOG is the mobile test station, above, for measuring automobile emissions. Such stations will be needed for surveillance of in-service performance of exhaust control devices, as shown top center, required by federal law on all new cars starting with 1968 models. Top left is a machine that washes dirt from the air by means of water squirting from pinjets. At left is a unit that draws acid fumes through ducts and scrubs them in a water and caustic solution combination.

DEFENDS POWELL

WASHINGTON (UPI)—Now that the tumult and the shouting have died down, the House should admit it erred in depriving Adam Clayton Powell of his seat, a Negro lawmaker said Thursday.

Rep. Robert N.C. Nix, D-Pa., told his colleagues the American people have had time to think about Powell, and he was sure they would say to Congress that the Harlem preacher-politician did not receive a fair trial and that Congress was "honor bound to admit its error, and to correct its wrong."

Foreign Commentary

By PHIL NEWSOM UPI Foreign News Analyst

Notes from the foreign news cables:

NEW STRAINS:

Soviet cancellation of the scheduled appearance in America this month of 200 Soviet singers and dancers is expected to be only the first of new strains on the American-Soviet cultural exchange agreement. The entertainers were to have performed under a contract negotiated last year. Despite the fact the Russians will have to pay substantial damages they broke the contract ostensibly because of the strained political situation.

DEAD ANYWAY:

Until recently most China watchers in Tokyo and Hong Kong were reasonably certain that China's so-called cultural revolution was proceeding in fairly bloodless manner. But in the last few weeks, intelligence agencies have been receiving reports of fighting all over the country with heavy casualties. Most of the casualties come in Pier 9-type brawling between

BRAIN WASH:

Japan's leftists, particularly the socialists, are angry over Prime Minister Eisaku Sato's planned visits to the United States and a dozen Asian nations, including South Vietnam. They fear the visits could result in Japan's being budged from its firm position of neutrality. And they apparently fear that might happen if Sato sits down to parley with President Johnson, a recognized master of political persuasion. In Japan, the political forecast is stormy weather ahead.

TROOP REDUCTION:

West Germany's decision to cut its troop strength to save money and President Johnson's disclosure that additional soldiers will be sent to Vietnam means that more troops will be pulled out of Germany. High ranking Army officials say privately that troop cuts will be greater than the 30,000 announced recently. Officials believe that as many as 50,000 out of the 225,000 man force will be withdrawn.

New Books on Shelves At Public Library

"Case of the Queenly Contestant"—Erle Stanley Gardner; an imperfect past leads to a highly uncertain future—as Perry Mason soon discovers.

"The Rival Doctors"—Elizabeth Seifert; the story of tension, rivalry and the loves of three doctors who work in the same small town hospital.

"The Gold of Malabar"—Berkeley Mather; based on the legend of some never recovered gold ingots worth hundreds of millions of dollars, lost during the World War II in the jungles of Malabar, the story involves the search for the sketchy chart showing the where—abouts of the gold and the search for the gold itself.

"Face to Face"—Elery Queen; Elery Queen faces a real challenge when Glory Guild, a wealthy, aging songstress is found murdered and near her the letters "face", painfully scrawled as she was dying.

"Get in the Game"—Bill Glass; the viewpoint and life story of the great defensive end of the Cleveland Browns, who is now an evangelist.

"No Man's World"—Martin Caidin; a scientifically accurate suspense drama that documents a stunning and timely truth about men in space; the fact that the new space settlers cannot leave their human emotions, weaknesses and conflicts behind on earth—but must carry them into orbit—and beyond.

"The Magic of the Mountains"—Max A. Wyss; a photographic essay on the Swiss, German, Austrian and Italian Alps.

"The Intelligent Woman's Guide to Successful Organization and Club Work"—Barbara Solli-Ver; recommended reading for every club member, whether member or officer.

"Gideon's Wrath"—J. J. Marris; Commander Gideon of Scotland Yard is confronted with a series of baffling threats to London's most venerated churches and cathedrals.

ASK DAMAGES

WASHINGTON (UPI)—Israel is going to get a bill from the United States for damages and compensation for deaths and injuries in the Israeli attack on the U.S. communications ship Liberty during the Middle East war.

Secretary of State Dean Rusk informed the Senate Foreign Relations Committee of the move Friday, adding that inquiries into the Israeli air and sea attack on the vessel indicate it was "in no way justified." The Israeli government already has told the State Department it is willing to compensate the United States for the incident.

AMBASSADOR RETIRES

WASHINGTON (UPI)—President Johnson received a farewell call Friday from Greek Ambassador Alexander Matsas, who is retiring from his country's diplomatic service.

Health reasons have officially been given for Matsas' retirement, but it is believed that policy differences between him and the Greek military junta ruling the country are behind his departure.

BIDS RESTRICTED

WASHINGTON (UPI)—The Soviet Union is not going to be allowed to bid on three new turbine-generators for the Grand Coulee Dam in Washington state.

Interior Secretary Stewart L. Udall announced Friday bids on the first three units—expected to cost about \$30 million—would be limited to American manufacturers. But he said this did not necessarily rule out foreign bids on another nine units to be installed in the dam eventually.

Texas' Gross Oil Income May Top \$9.5 Million

DALLAS (UPI)—Daily gross of income of nearly \$9.5 million is expected by the Texas oil industry because of near-record levels of allowable production.

In an emergency move to avert possible world shortages because of the Middle East war, the Texas Railroad Commission boosted the state's oil production to a market demand factor of 48 per cent of potential this week—the highest since the full tilt production after World War II.

The commission estimates actual production this month at 3,166,000 barrels daily, which would be worth \$9,498,000 under the current price for crude of about \$3 a barrel.

The spokesman said production was expected to be lower than the 1957 level because Texas wells had 18 producing days then, and will have less than 14 this month.

The revised allowable for July is 3,830,560 barrels per day, but it previously was set for 3,512,042 barrels. June 23 the commission set the July allowable at 42.9 per cent, but Wednesday raised it to 48 per cent after a "summit meeting" with executives from four major purchasing companies.

Commission Chairman Jim Langdon has warned several times against the repeat of the problem that arose following the 1956-57 Suez crisis when state oil allowances were boosted.

U.S.-Trained Physicist Key To Red Bomb

NEW YORK (UPI)—Two Chinese scientists virtually hounded out of the United States during the late Sen. Joseph McCarthy's investigations into Communism played key roles in the development of Red China's A-bomb and rocket technology, it was reported Monday.

An article in the current issue of Look Magazine said the man mainly responsible for the development of Red China's atomic and hydrogen bombs was Chao Chung-yao, a nuclear physicist trained at the California Institute of Technology. It said the man now perfecting China's nuclear missile delivery system is rocket expert Tsien Hsue-shen, also a Caltech alumnus.

The article, said Chao and Tsien defected to Red China along with 80 other Chinese scientists studying and working in America during the peak of the McCarthy "witchhunt." It quoted scientists as saying the American-trained scientists advanced Red China's nuclear technology by at least 20 years.

Look said no evidence was ever produced that Chao, who worked at Caltech until the spring of 1951, was a Communist. Tsien had mingled with members of a Communist party cell in Pasadena in 1948 when he was a professor at Caltech, but he considered the meetings "harmless."

Tsien was stripped of security and lost his post after his alleged link with Communists was made known. Tsien was deported but Chao left voluntarily.

Dan A. Kimball, then under secretary of the Navy, was reported to have tried to prevent Tsien from leaving the country.

"I'd rather shoot him than let him leave," Kimball was quoted as saying. "He knows too much that's valuable to us. He's worth five divisions anywhere."

Official Suspended By NAACP Head

BOSTON (UPI) — Cecil Moore, president of the North Philadelphia branch of the National Association for the Advancement of Colored People (NAACP), was suspended today for alleged "continuing" misconduct and using his office for personal gain.

In suspending Moore, Roy Wilkins, executive director of the NAACP, said "I am satisfied that there is danger of irreparable harm to the NAACP and that immediate action is necessary."

"I am therefore suspending you as an officer of the NAACP in Philadelphia and specifically as president of the North Philadelphia branch pending a full hearing... such suspension is in effect immediately," Wilkins said.

Wilkins said Moore had 15 days to file an answer to the complaints lodged against him.

Easter's

Center Wrap-Up

George Smith, Director
Pampa Youth and Community Center

SWIM LESSONS — The Center is now in the process of teaching swim lessons to both adults and children. These classes are taught in the morning hours between 9 and 12. Classes run for one hour in length and all are taught by qualified Red Cross Swim Instructors.

There are several swim sessions this summer so each parent should take advantage of at least one session. Sessions are July 17-28 and July 31 to August 11. Other sessions are already been taught. Classes remain.

TEEN DANCE — The Center is still sponsoring the summer dances for the young people and several top bands are still to come. The Center has just booked the Frantics from Billings, Montana and who are advertised on KOMA. The Frantics have just finished a tour with the Young Rascals and will start another tour with the Jefferson Airplanes in August. The Frantics will play here on August 1 and admission will only be \$1.50. They feature a Psychedelic Circus the last hour of the show.

The Schedule is: July 18 The Tiaras; 21 The Shanz; 25 Velasquez Brothers; 28 The Casuals; August 1 The Frantics; 4 Jekyl and the Hydys; 8 Beat Merchants; 11 Rockin - Mods; 15 the Tiaras; 18 The Cords; 22 Velasquez Brothers and 25 the Casuals.

CENTER MEMBERSHIPS — The Pampa Youth and Community Centers activities are run through a membership plan. Memberships are available the year round and each membership runs for a full six months or a year according to the purchase. The Center does not have a fiscal year as related to memberships but run from date of purchase so you get full advantage of your membership no matter when you purchase.

By purchasing memberships you are entitled to swim free of charge, take swim lessons free as scheduled, use the large recreation hall which houses the pool tables, ping pong tables, juke box and other quiet games and use of the gym and dressing room facilities.

There are two types of memberships, a family and an individual. The family membership includes all members of the family living at home or in col-

lege no matter how many. This membership sells for \$20 per year or 12 for six months. The individual membership is for those 8 years of age or older and sells for \$8 per year or \$5 for six months. Children under 8 must be carried on a family plan.

Income Tax Questions, Answers

EDITOR'S NOTE — This column of questions and answers on federal tax matters is provided by the Pampa office of the U. S. Internal Revenue Service and is published by the Pampa News as a public service to taxpayers. The column answers questions most frequently asked.

Q — My wife and I both work. Can I claim her exemption for income tax withholding purposes?

A — Yes you can if she does not also claim her exemption. The law does not permit two taxpayers to claim the same exemption.

Q — Do I have to keep track of the value of our wedding gifts for tax purposes?

A — No, these gifts won't be taxable to you.

Q — Are there any booklets that explain the federal tax on trucks?

A — The highway use tax on motor vehicles is explained in Publication No. 349, Federal Use Tax on Trucks, Truck Tractors and Buses. Send a post card to your IRS office for a free copy.

Q — I moved my business to

a new location last spring but I'm still getting tax forms showing my old address. How can I get this changed?

A — When you file your next return use the pre-addressed form, but draw through your old address and write the new one in its place. This will enable us to identify the mailing information we have for you in our files and to bring it up to date.

Q — My girl friend told me that I have to pay Social Security tax on any tips I make waiting tables this summer. Is that right?

A — Tips have always been considered taxable income, but until last year they did not count for Social Security purposes. Congress changed the law on tips and starting Jan. 1, 1966, tips have had to be reported to the employer for withholding purposes when they are \$20 or more a month.

Q — We have agreed to take a disturbed child into our family. The agency placing her is giving us a small amount each month for her food and clothing. Is that considered income for us?

A — These payments do not have to be reported as income unless they exceed the support you provide. You can claim the child as a dependent if she is a member of your household for the entire year, you provide more than half her support and certain citizenship or residence requirements are met.

A BETTER MIX
MADISON, Wis. (UPI)—William J. Champion was nursing a broken leg today, all because he thought he knew how to mix a better Manhattan.

Champion said after he told a bartender the finer points of mixing the drink, the manager of the Cardinal Hotel bar hit him with a club and threw him out the door.

BROKEN LEG couldn't separate Karen Donaldson, 8 of Phoenix, Ariz., and her pet pony, Sugar. Sugar was fitted with an artificial leg after the break and an amputation.

Basic color of a zebra is white; his stripes are black. Monkeys can swim, but water is distasteful to them.

County Red Cross News

By LIBBY SHOTWELL
Executive Secretary

The Red Cross swimming season is gradually coming to a close. The last two weeks of the summer session will begin tomorrow. The instructors and children all report a most successful session.

Following is a list of the Advanced Beginners that have passed the test: Cynthia Ann Knox, Teddy M. Knox, Jr., Randy Taylor, Scotty Putman, Don Carter, Tammy Chambless, David Chambliss, Johnny Cook, Stede Robertson, Sharon Lockhart, Becky Ellis, Dale Haynes, David Skoog, Lynn Pierce, Reba Gay Vaughn, Randy Carter, Margaret Ann Thompson, Warren McCrea, Nancy Dingus, Suzanne Bond, and Sherri Walling.

The following is a list of swimmers who passed the test:

Glen Davis, Gary Hicks, Mrs. F. N. Hills, Dawn Marie Hills, Rocky Hills, Shannon Hills, David Ince, Nancy Ince, Ronnie Stuart, Jill Chittenden, John Chittenden, James Bond and Marva Rowan.

In our beginners class at the City Pool we had 16 members pass: Scotty Ruffman, Sherry

Putman, Susan Smith, Don Carter, David Chambless, Paul Caruth, Joe McKean, Teresa Culbertson, Ann Ellis, Barbara Gaut, Kim Hill, Robert Schroeder and Dean Stuart.

The Intermediate Swimmers at the City Pool who passed the test were: Susan Barrett, David Barrett, Becky Barrett, Sherry Collingsworth, Toni Cox, Rick Ellis, Stephanie Hills, Wendy Hills, Bobbie Ince, Joe Kersiek, Peggy Morris, Roy Morris, Dirk Rape, Becky Snell, Susan Lockhart, Nancy Putman, Janet Taylor, Judy Carhart, Kim Chittenden and Paula Daugherty.

You will note the name of a student may appear in two different classes, this means as the swimmer advances he is put in another class.

The Pampa Youth Center reports the following: Beginner swimmer - Alan Blakely, Donna Keel and Joleen Keel. Adult Beginners Class - Barbara Baird and Mellie Music. The advanced Beginners Class - Ronnie Heidebrech, Larry Wray, Sheila Kastor, Paula Sue Kretzmeir, Mark Keyes, Jerry Maxler, Linda Laycock, Renee Bridges, Alan Blakely, Jackie Cooper,

Phillip Fought, Renli Tiggert, Carolyn Wallace, Dell Ford and Linda Gail Cooper. This report covers the two weeks beginning July 3 and ending July 14. As stated above the last two weeks of the summer swim session conducted under the supervision of the Red Cross will begin Monday, July 17 and conclude the 28.

We still have some vacancies left in the Advanced Beginners class for the next two weeks, both at 9 o'clock and 10 o'clock and also the Swimmers class at 10 o'clock.

Jack Chisum will teach a class in Adult Beginners at the City Pool from 6 o'clock until 7 o'clock in the evening, beginning Monday, July 17. You can register at the pool.

WIN SOME, LOSE SOME

ALTON, Ill. (UPI) — Two armed men robbed the Bank of Alton of about \$22,000 Thursday and on their way out of the bank passed a woman bank employe coming from the vault. They ignored her.

Bank officials said the woman was carrying \$20,000 in \$20 bills.
