Arabs Nix Cease-Fire

CAIRO (UPI)—Egypt officials declared today it would not agree to a United Nations cease-fire order in the Middle East war and Cairo radio called on all Arabs to press their "holy war" against Israel.

The announcement came shortly after United Arab Republic President Gamal Abdel Nasser conferred twice with the Soviet ambassador and dispatched a message to Soviet Premier Alexei N. Kosygin.

Damascus radio, in a broadcast heard at Beirut, at the same time said, "the war is just beginning." The Syrian broadcast said a "blitzkrieg to impose a truce will not succeed," indicating Syria too was rejecting any cease-fire.

Defiant despite Israeli victory claims, the Egyptians admitted their armies had fallen back to a second line of defense in the Sinai desert battle with Israel but claimed "heavy" land and air blows against their foes.

Reject Cease Fire
The official rejection of the

Agent Named for School Teachers' Annuity Program

The Great West Life Insurance Co. of Winnipeg, Canada, represented in Pampa by Newt Secrest and Fred Thompson, was named agent for the Tax Sheltered Annuities Program to be instituted by the Pampa Independent School board for school employees.

At a board meeting today, trustees followed the recommendation of an Oklahoma City consulting actuary, who was requested by the board to screen the proposals of four insurance firms in Pampa. According to H. Creel Grady Jr., board president, all insurance agencies in Pampa previously had submitted proposals to the Teachers' Welfare Committee, which had selected the four presented to the actuary for appraisal of benefits offered.

Attending this morning's meeting to back up their previous proposals were Clyde Caruth and Derrel B. Hogsett of Western National Life; E. E. Shelhamer and D. C. Ash of Southwestern Life; E. L. Henderson, Myron Marx of Equitable Life and Secrest and Thompson.

On the basis of bids submitted, Citizens Bank and Trust Co. was selected the official depository for school funds for the 1967-68 biennium.

Mobil Oil and Gas Co. was awarded a contract to provide fuel for school vehicles with the low bid of .1105 per gallon with a one per cent discount for payment within 10 days.

The board also gave approval to issuing a life-time "Golden Pass" to retired employees of the Pampa Independent School District, who have a minimum 5-year tenure. The lifetime pass will entitle them free admission to any and all events held on campuses under the auspices of the Pampa school district.

Following the school superintendent's recommendation, board members approved employment of an additional speech and hearing therapist for the 210 students, who have been screened and recommended for special help.

A called meeting has been set for 8 p.m. Tuesday for the purpose of discussing the proposed elementary building program.

Grady pointed out no action could be taken on a salary increase for teachers until the salary schedule recently passed by the state legislature was officially approved by the governor.

Israeli and Egyptian Tanks Battling in Sinai Desert

Reports From Cairo Say Arabs Victors

By WALTER LOGAN
United Press International

Israeli and Egyptian tanks battled today in the Sinai Desert in what Israel called a major Egyptian counterattack to open an escape route. Maj. Gen. Ikshak Rabin, the Israeli chief of staff, said, "today we actually re-witnessing the total destruction of the Egyptian forces in the Sinai."

Israel said 100 Egyptian tanks had been destroyed in the first hours of the battle and three Egyptian MIGs shot down.

Cairo reported battles along several escape routes and major Israeli air attacks on Suez Canal positions. It reported Egyptian victories.

Israel claimed a total of 444 Arab planes destroyed and 300 tanks destroyed or captured as the war went into its fourth day.

The Egyptian communiques reported 20 Israeli planes shot down and said 10 Israeli tanks and 6 armored cars were destroyed "when the enemy tried to attack the northern flank of the U.A.R. forces." It said the attack was beaten off and Israel suffered heavy losses.

Egypt Presses On
The desperate Egyptian counterattack followed an official declaration Egypt would not agree to the United Nations cease-fire and a call by Cairo Radio for Arabs to press their "holy war" against Israel. It came after a conference between President Gamal Abdel Nasser and the Soviet ambassador.

Other Arab nations joined Egypt in declaring they would spurn the cease-fire—Syria, Kuwait, Algeria.

The rejections coincided with a series of conferences between (See TANKS, Page 3)

Policemen Resume Manhunt

TERRA AMARILLA, N.M. (UPI)—Two dozen state policemen took up the search today for the remnants of an outlaw band of 16 Spanish-Americans who vanished in the forested canyons of northern New Mexico with an army on their heels.

Some 500 National Guardsmen, armed with tanks and cannons, were called off the hunt and ordered home Wednesday after an unsuccessful search for the renegades, one reported to have dynamite laced to his chest.

State police Capt. Joe Black, who headed the manhunt, decided Wednesday to abandon the military type of search.

"I feel we can gather information better by roving around freely in the villages, working through informants, rather than under a military type of operation," Black said.

The hunt for the desperados, led by fiery Reyes Lopez Tijerina, began Monday after they shot their way into the courthouse at Tierra Amarilla, wounded two policemen and held 20 persons hostage, including the sheriff, for an hour and a half.

The incident apparently was a retaliation by Tijerina's group, the Political Confederation of Free City States, for weekend arrests by state police of 11 confederation leaders.

Tijerina and his followers claim title to millions of acres of New Mexico land under ancient land grants made by Spanish viceroys in Mexico in the 17th and 18th centuries.

Navy Pilots Hit SAM Facility

SAIGON (UPI)—U.S. Navy pilots hit a store of North Vietnamese surface-to-air missiles in a spectacular raid that sent the rockets snaking across the ground like giant firecrackers military spokesmen reported today.

"You should have seen what we left behind," said Lt. (jg) Charles E. Boehmer of Eugene, Ore., a pilot. "Great big SAMs curling all over the place. They're no good any more."

"It was beautiful, great and satisfying," said Capt. James L. Shipman of Aurora, Mo., leader of the Wednesday strike 30 miles southwest of Hanoi.

Other Navy planes hit North Vietnam's Kep airbase and reported destroying or damaging five MIG fighters on the ground. Air Force planes raided the southern panhandle, making a total of 112 American missions on the North.

In ground action, American Marines swarmed into a guerrilla infested area near Hue in a battalion-sized air and sea assault.

Further north, along the Demilitarized Zone (DMZ) dividing the Vietnams, more Leathernecks reported killing 74 Communists in heavy fighting near the key Marine bases at Con Thien and Khe Sanh.

Officials said 22 Marines were killed and 53 wounded in the fighting.

A general tug in ground fighting kept American casualties last week to the lowest figure in more than a month.

Spokesmen said 214 Americans were killed in action during the seven day period ending last Saturday.

The spokesmen said 1,161 Americans were wounded and one was reported missing, bringing the total number of U.S. casualties for the war to 78,111, including 10,760 killed.

South Vietnamese combat deaths last week totaled 235 and 15 other allied troops were killed.

But 52 Communists were reported killed for every free world soldier slain, giving the allies their highest "kill ratio" in two months.

Officials also announced U.S. troops strength in Vietnam increased by 7,000 last week to a record total of 462,000.

COUPLE THREATENED

Armed Robber Slugs Sleeping Pampa Man

Sheriff Rufe Jordan said today he and his officers had begun an investigation of a 12-day-old armed robbery in which a Pampa man was slugged and robbed as he and his wife slept in their home.

The sheriff said the investigation had been slow in materializing because the victims, in fear of further harm, had been reluctant to discuss the case.

The robbery, which was not immediately reported by the victims because of fear for their lives, was staged in the home of C. C. Matheny, 1120 S. Hobart, between 12:30 and 1 a.m. Friday, May 26.

Matheny, who operates a tire and salvage shop at 818 W. Foster, was awakened by a hard blow on the left side of his head.

A lone intruder beamed a flashlight into his face and told him, "I want the \$2,000 or \$3,000 you have in the house."

The man was told by Matheny he did not keep that much money at home, that he had a couple of hundred dollars in his billfold and that was all.

The man was told by Matheny he would not come back and kill both Matheny and his wife if the robbery was reported.

When asking for the \$2,000 or \$3,000, the intruder, believed armed with a .45-automatik, said he "knew it was in the house" because a man who had dealt with Matheny told him about it.

The robbery victim said he had locked all doors in the house before going to bed about 10:30 p.m. His wife, Martha, retired, some 15 minutes later.

When the robber finally became convinced the \$200 in the billfold was all the money available, he took the bills and left the billfold. He ordered Matheny to lie on his stomach and bound his hands behind his back with two pieces of thin wire. Mrs. Matheny was not harmed or tied up.

Before leaving the room, the robber told the couple not to move for at least 15 minutes.

Matheny told Sheriff Jordan he heard a car pull away from in back of the house and heard a horn "honk." He has heard the same horn in front of his home several nights around midnight since then.

Because of the threats against his life, Matheny asked police and sheriff's officers not to enter the case.

Sheriff Jordan said because of the fear of the victims he was not able to start his investigation until yesterday, 12 days after the robbery.

"If there is a man this dangerous on the loose in our community," Jordan said, "I think the public should know about it."

The sheriff also stated: "If there is anyone who can furnish a lead or a clue in this case, we would appreciate their cooperation."

One of the puzzling factors to (See ROBBERY, Page 3)

Three-Hour Blaze Destroys Cabot Warehouse No. 2

(See Photo, Page 2)

A two-alarm fire in Cabot Corporation warehouse No. 2, six miles west of Pampa, destroyed the sheet iron building early this morning and burned about 3,000 sacks of carbon black research samples.

Louis Schumacher, company nightwatchman, reported the blaze to Central Fire station at 2:30 a.m.

"No one was injured, and because we were able to cut off two adjoining warehouses, the fire was contained in one building. We have not yet found the cause, but we may today, because we're still working on it," assistant fire chief James Pirkel, said.

The fire, located in the plant's research and development section, caved in the metal roof of the 120 by 60 foot warehouse No. 2, and destroyed years of research work on carbon black, which will not slow down production, according to Dudley Stesle, research and development director of Cabot.

The blaze, which required about 20,000 gallons of water to extinguish was out by 6 a.m. today, but was still smoldering at 9:30 a.m.

The carbon black samples stored in the gutted building were a total loss, firemen said, but several more thousand sacks of carbon black and other combustible materials stored in two connecting warehouses were saved, Pirkel said.

"The warehouse that burned connected two other sheetiron warehouses but we covered the exposures to the other warehouses and concentrated on saving them," he said.

An eight-man crew works in the warehouse during the day, but there was no one working when the fire started, Richard Hendricks, a company supervisor, said.

Martial Law Is Imposed in China

TOKYO (UPI)—Virtual martial law has been imposed on Communist China in the wake of serious fighting between supporters and opponents of Communist Party Chairman Mao Tse-tung, Japanese reports from Peking said today.

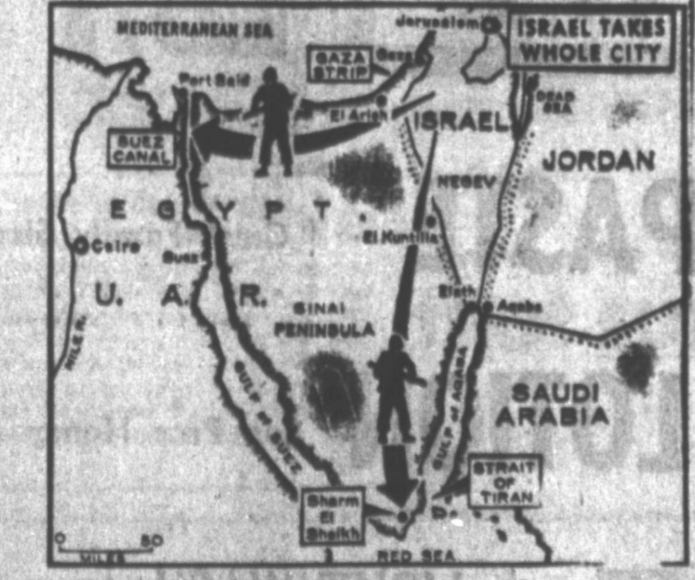

A government order, apparently issued Tuesday, gave the 2.5 million-man People's Liberation Army complete authority to quell civil strife, the correspondents said. Until now, the army had limited power to deal with the widespread fighting.

The directive ordered the commanders of all military districts to take "appropriate measures" to put down internal fighting and other "criminal acts."

"Make people observe these rules and mete out rigid punishment for violation," the order said.

The order, parts of which appeared Wednesday on Peking wall posters, came on the heels of the worst reported outbreak of fighting to date, the correspondents said.

If it comes from a hardware store we have it. Lewis Hardware

ISRAELI THRUSTS deep into Arab territory amazed the world, as the Jews grabbed Sharm El Sheikh at the mouth of the Gulf of Aqaba, took all of Jerusalem, and reached the Suez Canal, all despite heavy fighting.

RANGE WAR, 1967 style in New Mexico saw tanks and horse-mounted state lawmen joining in a search against a band of Spanish-American guerrillas who claim territorial ownership by "heritage" near Tierra Amarilla. The group tried to back their claims by force earlier this week.

Beattie's Car Rocks Critics

LONDON (UPI)—Rolls Royce likes to say the loudest sound one can hear in one of its automobiles is ticking of the clock. But with Beattie John Lennon's wail the roar of the critics was easily heard today.

Most dolls Royces are painted black in Britain. Dark blue is considered a bit daring.

But Lennon spent \$2,800 having his \$42,000 Rolls Royce painted yellow, blue, red, green, white and orange. Like loud.

He had dahlias and delphiniums painted on the doors. The zodiac sign of Libra was emblazoned on the roof. Scrolls of yellow, blue, red and green curled back from the front fenders and over the hood. The wheels did psychedelic patterns in red, white, blue and orange. It is very much in the mood of the moment.

"Ugly, uncharming and pre-emptive bit of anti-taste," sniffed one critic in a land which considers the Rolls Royce something of a national treasure.

Said a critic: Anyone with Lennon's sense of decor might take the next step and paint a moustache on the Mona Lisa or dress Venus de Milo in a mini-skirt or turn St. Paul's Cathedral into a discotheque.

"Other critics got into the psychedelic mood. One called the Rolls Royce a four wheeled freak-out. The newspaper The Daily Mirror commented, "It's not as much a car now as a veritable happening."

CHARGED WITH MURDER
LEESVILLE, La. (UPI) — Three men from Orange, Tex. were under charges of armed robbery and attempted murder Monday in the abduction of a Ft. Polk, La. soldier who was shot in the shoulder. The charges named Cecil Doyle, 21, Charles Canner, 21, and Larry Hoffpauer, 18, all of Orange, accusing them of shooting and robbing Pvt. Larry Hodge, 21, of Ft. Polk. The soldier accused the men of picking him up Saturday and driving to within 14 miles of Alexandria, La., then beating and shooting him and kicking him out of the auto. He was in satisfactory condition at a hospital.

Robbery
(Continued From Page 1)
The Mathenys was that all doors to their home still were locked after the robber left.

Another mystery to the robbery victim was that the man knew Matheny had a \$100 bill in a special compartment of his billfold.

Several stitches were required to close the wound caused when Matheny was slugged by the robber without warning.

Pampa Police Chief Jim Conner said today that he had heard a "rumor" about the robbery but hadn't talked to Matheny until about 11:15 a.m. today.

"I was told that Matheny did not want the police brought in or any investigation made of the incident, so we didn't do anything," Conner said.

"I talked to Matheny this morning and we are now investigating," the chief concluded.

State Oil Production Can Be Hiked But Not Transportation
AUSTIN (UPI)—Texas could increase its oil production to make up for supplies cut off by Arab nations but there will be problems in transporting the oil, railroad Commission chairman Jim C. Langdon said Wednesday.

Langdon said the Middle East crisis has cut off 400,000 barrels of oil imported into the U. S. daily and another 5.6 million barrels a day imported by Western Europe from Arab bloc nations.

He said Texas was capable of an increase of 1 to 1.5 million barrels a day from the present production rate of 2.75 million barrels a day.

"The logistical problems of suddenly transporting large additional volumes of crude are complex and will require the exercise of ingenuity and determination on the part of both industry and government," he said.

Donations Requested For Fireworks Cost

The Pampa Chamber of Commerce is mailing letters to CoC members this week requesting contributions to finance the annual July 4th fireworks celebration.

Burnett Fireworks Co. of Enid, Okla., will provide the fireworks display which will be held at Recreation Park.

The program will include a band concert, variety acts, a patriotic ceremony, an address and the free fireworks display.

Pampa business and professional people who are CoC members finance the annual show, which is expected to cost \$20,000. E. E. Shelhamer, CoC president, said.

U.N. Security Council Session Considered

UNITED NATIONS, N.Y. (UPI)—The U.N. Security Council today prepared for action to make stick its Middle East war cease-fire orders that reportedly halted fighting only on one front.

No date was set for the next meeting of the 15-nation council. But diplomats were advised a session might be called today.

The council passed cease-fire orders Tuesday and Wednesday. The only favorable responses came from Israel and Jordan.

Local Civil Air Patrol To Have Film Program

Education Officer Andrew Smith will present a film program at the regular meeting of the senior squadron of the Pampa Civil Air Patrol at 7:30 p.m. today in Lovett Memorial Library.

Two films, "Density Altitude Flying" and "Wake Turbulence" will be shown.

Capt. Ralph Prock, CAP commander, will discuss plans for the annual Junior Chamber of Commerce fair and the local unit's participation in the annual rodeo parade. All CAP meetings are open to the public.

In 1934, President Roosevelt signed reciprocal trade agreements, authorizing him to negotiate trade treaties with other nations without the permission of Congress.

council ask its president currently Danish envoy Hans C. Taber, and U.N. Secretary General Thant "to take the necessary measures to bring about full and effective compliance" with the cease-fire orders.

But Fedorenko and his Bulgarian colleague in the council stalled. They demanded adjournment.

An Israeli spokesman said Wednesday night his nation's forces and Jordan had stopped fighting. The Israeli spokesman said his government accepted the cease-fire order for all other fronts too — if Jordan's warring Arab allies also stop shooting.

There was no sign of a cease-fire on the Israeli-Egyptian and Israeli-Syrian fronts.

Approve Cease Fire

The council approved Wednesday's cease-fire order after the Soviet Union unexpectedly called the group into session. But then the Russians balked at a Canadian move to create U.N. machinery to enforce the cease-fire.

But if fighting continued more efforts to enforce the cease-fire orders were expected in the council.

Diplomats said Soviet Ambassador Nikolai T. Fedorenko sponsored Wednesday's cease-fire resolution — demanding shooting stop precisely at 4 p.m. EDT — in a desperate move to stop Israeli forces from breaking up the Arab blockade of the Gulf of Aqaba.

But even before the 15-nation body voted unanimously for the motion, news arrived that Israeli forces had captured the heights of Sharm el Sheikh which commands the entrance to the gulf and had erased the danger of an Arab blockade of its vital Afro-Asian water route.

Measures Asked
Canadian Ambassador George Ignatieff then proposed the

Tanks
(Continued From Page 1)

Arab leaders and envoys from the Soviet Union which earlier promised "resolute" support. The Syrian ambassador called on Premier Alexei Kosygin in Moscow.

Only Jordan and Israel have announced they would obey the U.N. cease-fire and the Jordanian-Israeli front was reported generally quiet.

Dispel Rumors
King Hussein, dispelling rumors he had fled the country, appeared at an Amman news conference today to complain his nation had been "almost left alone . . . by our many friends" in the war against Israel. He looked tired and depressed.

So far, neither the Arabs nor the Israelis have given any estimate of casualties in the war but Hussein said his 65,000-man army suffered "tremendous losses . . . many have died."

Cairo military communiques indicated heavy Israeli air attacks were taking place against targets in the Suez Canal Zone itself. Military analysts speculated the Israeli planes might be trying to knock out Egyptian rocket bases reported earlier in the area.

Fighting also flared on the Syrian frontier and an Israeli military spokesman in Jerusalem said the Syrians began shelling the Israeli villages of Hulata and Yeod Hamaalah, 10 miles north of the Sea of Galilee. Damascus Radio reported Syrian and Iraqi air victories there.

SMOG FORECAST
WASHINGTON (UPI)—The Weather Bureau is planning a "computerized" pollution potential forecast—smog forecast—service to major U.S. cities, beginning July 1.

The service, the bureau said Wednesday, would attempt to warn cities, as much as 48 hours in advance, of atmospheric conditions likely to cause accumulation of contaminants in the air.

Pampan's Father Dies in Amarillo

Funeral services for Lewis D. Cox of Amarillo were held yesterday at South Side Church of Christ in Amarillo. Burial was in Liano Cemetery.

Mr. Cox was the father of Dr. Harbord Cox of Pampa. He had served as Gray County Commissioner for several years and lived in Pampa from 1920 to 1947, when he moved to Amarillo.

Mr. Cox had been an employee of the circulation department of the Globe-News Publishing Co. for three years. He was pronounced dead on arrival Monday at Northwest Texas Hospital.

Pallbearers were Howard McLeland, E. A. Kimmins, O. K. Gaylor, Jimmie Massa, Paul Smith, C. H. Burns, Charles Ay and H. C. Burke.

Other survivors are his wife, a daughter, three sisters, a brother and five grandchildren.

CULBERSON-STOWERS CHEVROLET INC.
805 N. Hobart Pampa, Texas MO 4-4865

A culinary morale booster for the American soldier in the jungle is "The Charlie Ration Cookbook or No Food Is Too Good For The Man Up Front." Inspired by letters from servicemen in Viet Nam, a retired U.S. Marine Corps brigadier general created the booklet in answer to requests for ways to pep up C-Rations. Recipes, similar to the ones below, were developed by a gourmet cook and World War II veteran, using authentic C-Rations and Tabasco liquid red pepper sauce—a favorite seasoning of men in the field. The cartoons in the booklet were done by an ex-G.I. too.

If you would like a serviceman to receive the booklet and a 2-ounce bottle of Tabasco, mailed in a special waterproof shipping tube, send \$1.00 and his name and APO address to: Charlie Ration Cookbook, Dept. ES, Avery Island, La. 70513.

(Note: This recipe is not intended to be made at home, but is given merely as a sample from the book.)

Tin Can Casserole
 *One can frank and beans
 *One can beefsteak with potatoes
 *Generous dash Tabasco pepper sauce
 *One can crumbled crackers
 *One can cheese spread, melted
 *Four spoons green onions, chopped coarsely
 *One small can of water, if necessary

Melt butter or oil or fat and sauté onions in it. Then add the cheese until it is melted and well blended. Now add the crackers for a few minutes and then return to tin can or other cooking utensil. Combine a can of frank and beans with the beefsteak and potatoes to this mixture and correct the seasoning. Cook for as long as necessary, seeing that the casserole is always thick. However, if it gets too thick, add a little water as a thinning agent. This can be served over boiled rice with an added dash of Tabasco just before eating.

*This is from your Basic C-Ration.

Drumsticks Easy On Bride's Budget

By GAYNOR MADDOX, Newspaper Enterprise Assn.

Broiled chicken drumsticks are a good dinner choice for the bride who wants to feed her husband well and keep food costs down at the same time. Here's a menu suggestion easy to prepare:

- 2 to 3 tablespoons vinegar
- 1 tablespoon light corn syrup
- 1/2 teaspoon salt
- 1/2 teaspoon paprika
- 1/2 teaspoon dry mustard
- 1 clove garlic, split
- 4 chicken drumsticks

Measure all marinade in ingredients into a bottle or jar. Cover tightly and shake well. Pour over drumsticks. Cover and marinate in refrigerator several hours. Remove chicken from marinade and place in broiler pan. In gas range place pan so that top on chicken is 3 to 6 inches from heat, in electric range 6 to 9 inches from heat. Broil 35 to 45 minutes, turning once.

CREAMY BLUE CHEESE MAYONNAISE
 1/2 cup real mayonnaise
 1/2 cup dairy sour cream
 1/2 cup crumbled blue cheese
 Combine all ingredients, mixing well. Chill. Makes about 1 1/2 cups. Serve with crisp greens.

Broiling is a favorite method for cooks—in a hurry, gourmets, and weight watchers. To save on clean-up, many cooks use disposable broiling pans available in aluminum-foil. One such pan has an accordionfold bottom which acts as a rack, making it ideal for two lamb chops, two Salisbury steaks or four chicken drumsticks. While lamb chops and Salisbury steaks are good broiled without seasoning, chicken is best when seasoned before broiling.

SAVORY DRUMSTICKS
 1-3 cup corn oil

Toll House Theme Varies With Ideas

Are you a typical homemaker or, cookie-wise? That doesn't mean what kind of a "cookie" are you. It means how often do you bake cookies and what kind? If you're typical, Toll House Cookies are the kind you bake most often. And you make them at least twice a month. That's the kind of statistic that sets mathematicians-minded people to wondering how many times that many cookies would go round the moon monthly. We would rather eat the cookies than orbit them, but it's easy to see that the figure is, to coin a phrase, astronomical.

Since typical homemakers bake Toll House Cookies so often, a few delicious variations on the theme are in order. It's a simple substitution. Instead of using the nuts, try raisins for a change, and a nip of grated orange rind, or how about some chopped dates for a Near East twist? Try, enjoy, these flavor variations on America's favorite cookie:

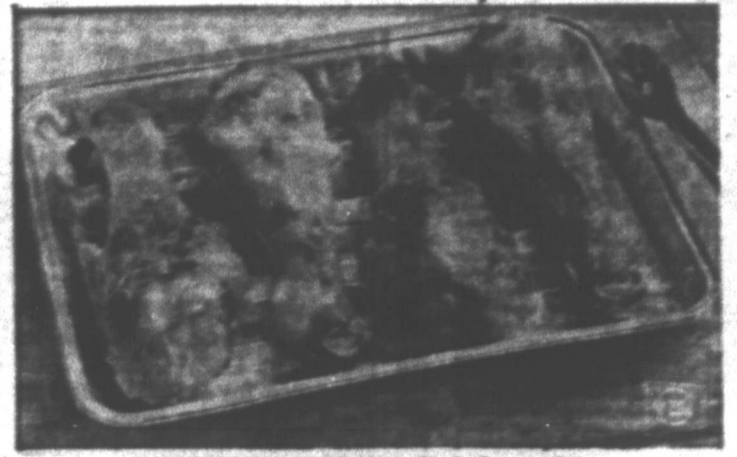

TOLL HOUSE COOKIES (Original Recipe)
 1/2 cup butter or margarine
 6 tablespoons granulated sugar
 6 tablespoons brown sugar
 1 egg
 1/2 teaspoon vanilla
 1/2 teaspoon water
 1 cup plus 2 tablespoons sifted all-purpose flour
 1/2 teaspoon baking soda
 1/2 teaspoon salt
 1 cup chopped nuts
 1 6-oz. package (1 cup) Nestle's Semi-Sweet Choco late Morsels...

Cream together butter and sugars. Beat in egg; add vanilla and water. Sift together flour, baking soda and salt. Stir into creamed mixture. Add nuts and semi-sweet chocolate morsels; mix well. Drop by well-rounded half teaspoonfuls onto greased cookie sheets. Bake in a 375 degree oven (375 degrees) 10 to 12 minutes.

YIELD: Approximately 50.
Variations:
 Substitute ONE of the following for the nuts:
 Raisins:
 1 cup chopped raisins and 1 teaspoon grated orange rind.
 Dates: 1 cup chopped dates.
 Cornflakes: 2 cups cornflakes, uncrushed.
 Bake at 375 degrees 8 to 10 minutes.

THEY'RE PEEKERS!
 If you're struggling with a solution to what to wear under your miniskirts, try the new Peeker. A Peeker is a lacquer-finished cuff that slips over stocking heels, at the bottom of panty girdles (or what have you). When your skirts ride up, nothing shows but a fringe of lace. Jeppers, Peekers!

BUDGET DINNER—Broiled drumsticks.

Dessert Makes Linger Over Coffee Pleasanter

Color bright is the word for this handsome pie. It's filled with juicy plump strawberries that you "pick" from a can of strawberry pie filling. Nestled underneath the pie filling are slices of banana that help to make this dessert double the taste treat, a partnership of two very popular fruits. Then, the crowning touch is the showy golden tipped meringue... just one more reason the dessert looks so gay and pretty.

This is a pie you'll be able to serve for many occasions. It's easily prepared due to the canned pie filling that assures you perfect consistency and full fruit—fresh flavor no matter what the season. Because it is such a delicate—tasting sweet, it would be equally ideal as the spectacular climax for a very important dinner party, the piece de resistance for a late-evening, couples-only coffee hour or a quick-to-fix pie for the neighborhood sewing bee.

Remember, if time is a real factor, you can turn to prepared shells or packaged pastry mixes. These, with the canned pie filling, will help you have a pie ready for eating in short order. No matter when you serve this strawberry pie, you and your guests will enjoy each and every bite. It boasts the goodness of an old-fashioned pie, the simplicity of new-fashioned convenience foods.

Food Buying Guide

EDITORS: The following guide to the nation's food buys for the weekend was prepared by the U.U. Departments of Agriculture and Interior for United Press International.

WASHINGTON (UPI)—On June's second weekend you will find many meats and produce plentiful at local markets.

Heads of cabbage are among the abundant vegetables, joined by carrots, corn, onions and potatoes.

You should find ample oranges and strawberries, along with cantaloups in some areas.

Look for economical beef roasts and steaks, ham, broiler-fryers and turkeys.

The fish market abounds with fish filets and steaks.

Employment Commission Finds Gray County More Jobs in May

By LARRY HOLLIS
News Staff Writer

During May, the Texas Employment Commission in Pampa obtained jobs for 291 persons in Gray County — the best since the May of 1962, according to figures presented by Bill Ragsdale, manager.

Of the 291 jobs, 260 were for non-farm work and 31 were farm jobs. Of the non-farm jobs, said Ragsdale, 116 women found employment through the TEC office.

Outside of agricultural jobs, youths — those under 22 — accounted for 65 of the places filled, 37 of these being females. Fifty-three persons age 45 and over also received employment through TEC.

Handicapped persons found 22 jobs during May — one being under 22 and 16 being 45 or over.

Employment during May showed a 56 per cent increase over April and 112 per cent over a year ago, said Ragsdale. The number of openings TEC received in May increased 62 per

cent over April. While employment increased, the number of new claims for unemployment insurance decreased. The 68 new claims were down 28 per cent from April and six per cent from a year ago. (Unemployment claims are handled for five counties — Gray, Hemphill, Lipscomb, Roberts and Wheeler — through the Pampa office.)

"Weather is a big factor in all outdoor jobs — construction particularly, oil fields less so," Ragsdale commented.

Thus employment usually increases in warmer weather and decreases during cooler seasons. During winter unemployment claims show an increase. April through October are usually peak months for employment, Ragsdale explained. May usually shows an increase over April for non-farm jobs.

More farm jobs are available during June and usually reach a peak in July, with another increase in October.

"Pampa is doing real well

compared to other towns," Ragsdale said. The number of jobs available and filled through the local TEC office is good, percentage wise, in relation to other Panhandle cities, he added.

Of the non-farm jobs filled during May, 96 persons were employed in manufacturing, while 52 persons entered service employment, including waitresses and domestic help. Forty-two were involved in wholesale and retail trade, and 46 in construction. Short-time jobs, lasting for four days or less, accounted for 74 jobs.

"Something we're concerned about particularly is jobs for teenagers," Ragsdale said.

Youth Employment Service, sponsored with the Kiwanis Club and Key Club, is conducted during the summer to find employment for teenagers.

During school months, the local TEC tries to find part-time jobs and conducts the Job Corps program for youths who have dropped out of school.

TRADE WITH REDS
WASHINGTON (UPI)—U.S. trade with Russia and the Communist bloc in Eastern Europe totaled \$378.7 million in 1966, an increase of 46 per cent over the 1965 total of \$277.5 million, according to the Commerce Department.

The department reported Wednesday that the volume marked the highest in recent years, except for 1964 when the United States exported unusual

large quantities of wheat and other farm products to Communist nations. Two-way trade that year totaled \$400 million.

REDUCE INVENTORY...
WASHINGTON (UPI)—The United States is purposely reducing the number of warplanes in its inventory to trade quantity for quality, according to a House subcommittee report.

Foreign News Commentary

By DANIEL SOUTHERLAND
United Press International

SAIGON (UPI)—American officials are wringing their hands again over South Vietnam's unpredictable political situation.

They said that since this is a war to win the loyalty of the people, the national elections to be held here three months from now will be a good thing.

Elections should create a government more responsive to the needs of the people than the present military regime, the thinking goes. And good government is seen as an essential ingredient to winning the war.

Possible coup d'Etat....

But at the same time, president, vice president and two legislative houses could conceivably end by shattering the small measure of political stability which has been achieved here in the past two years. Or worse, the elections could trigger a scramble for power that would split the country's military leadership, revive explosive regional and religious feelings and even set the stage for a coup d'Etat.

American officials had apparently hoped that only one Vietnamese military leader would run for president next September.

But the country's two top military men, Air Vice Marshal Nguyen Cao Ky and Lt. Gen. Nguyen Van Thieu, are ambitious men. Both have disclosed their intention to run for the nation's top position.

This creates the very real possibility of a split in the military leadership.

In a country where there are no political parties of national standing, the Vietnamese armed forces has been the "most unified" non-Communist political force and the basis for whatever stability there is.

Fear Power Change

But if Ky, who is both commander of the air forces and prime minister, and Thieu, who is the country's ranking military leader and chief of state, get into a knock-down, drag-out political battle it could make a shambles of the delicate balancing of power in the armed forces.

Southern politicians are lining up support for southern presidential candidates to oppose Ky and Thieu. Ky is a native of North Vietnam. Thieu is from central Vietnam.

Then there is the fear that if a civilian were elected president the generals might refuse to support the elected president and might even overthrow him just as they ousted three civilian governments in the period 1963-66.

Ky recently dropped a hint that this could happen. He said that if he were defeated in the presidential race by a civilian who was a "Communist" or "pro-neutralist" he would "fight him militarily."

These words had an ominous ring in a country where people sometimes use the words "Communist" or "neutralist" to mean anyone they don't agree with.

PAMPAN FINDS OUT — The results of a skin test performed on a rabbit within the Quality Control Section of Lederle Laboratories are explained to Donald F. Locke (right) of Pampa by Nicholas Anagnostakos, biologist at the firm's Pearl River, N.Y., plant. Locke, Lederle representative in this area, reviewed the latest achievements in medical science during a week long conference recently held at the laboratories, a division of American Cyanamid Company.

MANAGES 2,200 ACRES

Scotland Farmer on Tour Will Visit Here Next Week

By WANDA MAE HUFF
Robert MacDowell Daniels, manager of a 2,200-acre farming estate in Scotland, will include Pampa in his three-month tour of farming operations in 11 states. Claude will be his first stop in the Texas Panhandle. After visiting there Sunday and Monday to observe wheat harvesting in Armstrong County, he will arrive in Pampa Monday night. Foster Whaley, Gray County agricultural agent, will conduct Daniels on a tour of Gray County wheat farms and visits with

Pampa area agricultural leaders 9 a.m. to 3 p.m. Tuesday. Other Panhandle towns Daniels will visit are Canadian in Hemphill County Wednesday, and Perryton in Ochiltree County Thursday.

Daniels will leave Texas for Manhattan, Kans., Friday. He arrived in the United States April 17 and will return to Scotland July 19.

Daniels is concentrating his American tour on farm mechanization, seeding and harvesting operations and observations of dairy cattle, sheep and beef cattle operations.

He is sponsored by the Embassy of Great Britain, United States Department of Agriculture and land-grant colleges and universities including Texas A&M University, College Station.

He is a 1949 graduate of the R. R. Ford Institute of Agricultural Engineering, in Boreham, North Chelmsford, Essex.

In 1954 he received a bachelor of science degree in agriculture from King's College, University of Durham, New Castle upon Tyne.

As a farm and estate manager, he operates a large-scale dairy and cereal crop farm, raises sheep, dairy cattle, and a small pig herd.

He is also responsible for land reclamation and drainage, repairs on estate farm buildings, and manages 1,000 acres of forestry land.

Daniels raises 65 acres of winter wheat, 484 of barley, and about 600 acres of other crops native to Scotland in the British Isles.

Estate livestock include 700 de-horned Ayrshires, fat lambs, and only 10 sows, because the small pig herd is gradually being sold off.

Daniels is a member of the National Farmers Union, University of Newcastle Agricultural Society, Southwest Scotland Grassland Society and Stewartry Agricultural Discussion Society.

He has formerly been farm steward for National Coal Board at Coally Hill Farm, Newcastle on Tyne, farm balliff on the East Riding Institute of Agriculture and was a farm advisor while working for Hull based feeding stuffs firm, Premier Oil & Coke Co. Ltd.

Childrens' Story Hour Sponsored

SKELLYTOWN — About 50 attended the Skellytown Branch Library's first story hour Tuesday in the IOOF Hall.

The two stories "The Happy Birthday Present" by Joan Heilbroner and "Are You My Mother?" by F. D. Eastman, were told and illustrated by Miss Lana Brown and Miss Pam Duckworth.

Mrs. Frances Stamps of White Deer and Mrs. Reba King, librarian of the Panhandle Library, showed two children's films.

The next story hour will start at 2 p.m. Tuesday in the IOOF Hall. Stories will be "Animal Riddles" by Bennett Cerf and "Summer" by Alice Low, Mrs. Clifford Coleman, librarian here, said.

Amarillo Woman Is Awarded Damages For Loss of Hair

AUSTIN (UPI)—An Amarillo beauty shop owner whose hair fell out when she used a permanent wave preparation was awarded damages Wednesday by the Texas Supreme Court. The high court reversed a decision by the Court of Civil Appeals and upheld a trial court ruling which gave Mrs. L. A. McKisson \$1,000 for her injuries. Mrs. McKisson filed suit against Sales Affiliates Inc., distributor of "Zotos Lanolin Bath" for damages received when she had an employe at her beauty shop give her a permanent wave with the lotion.

Film Shown Rotary Club

"Help Keep America Beautiful" was the theme of a narrated film shown members of the Pampa Rotary Club yesterday in the Coronado Inn.

The program was presented by Stan Burnham.

Swimmer Has No Plans to Dip Nude

LONDON (UPI)—Linda McGill, 21, does not plan to swim the English Channel nude. About this she was quite definite.

"I'll be wearing a bathing cap," the Australian blonde said Tuesday.

Plus a thin coat of oil and a pair of goggles to protect her eyes.

Originally, Miss McGill planned to cross the channel in a topless swimsuit because, she said, the last time she tried the 22 mile swim rough water chafed her.

Date of the new try was not announced.

Wall Street Chatter

NEW YORK (UPI)—Wright Advisory Reports says the "most prudent" investment policy in wartime is "certainly not to abandon equities in favor of bonds or cash savings. It notes that price levels dip with a war scare but the market usually recovers within three to five weeks.

Purcell, Graham and Co. says that the basic trend of stock prices still seems upward with upside potential outweighing market risks. The investment firm says it would remain "full invested," concentrating on more conservative growth issues.

Thomson & McKinnon says it would not liquidate any market positions at present and adds that the market offers "good buying opportunities." It notes that the United States usually has a "vested interest" in incidents that crop up from time to time throughout the world and advises investors to give careful consideration to "the emotional impact that can overcome rational thought."

2 FOR 7.50 3 FOR \$11.

All sorts of stains. Stubborn oily ones. Fresh ones. Old ones. Stains in any color fabric. In most cases, a single washing with the machine set at "warm" gets rid of all spots and stains completely. And even the heaviest and toughest stains vanish with the water set at "hot". The Come Clean process keeps working, too. After as many as thirty test washings, there was virtually no decrease in Come Clean's ability to shed stains.

Two Convenient Stores to serve you

Major National Legislation's Present Status Listed

WASHINGTON (UPI) — Status of major legislation:

LABOR
RAILROADS—President Johnson asked Congress, which has approved a no-strike order running to June 19, to head off a nationwide "all shutdown until 1969 through binding arbitration if necessary."
 House Commerce Committee and Senate labor subcommittee hearings continued.

DEFENSE
DRAFT—President Johnson requested four-year extension of his present authority to induct men for two years of military service. He also announced plans to institute through executive orders such reforms as calling up younger men first, eliminating most graduate student deferments and creating a random selection system for picking eligible youths. Senate: Approved. House: Approved draft extension but wrote in roadblocks against lottery selection system and against eliminating undergraduate deferments. Conference must reconcile differences.
POVERTY—President Johnson wants to boost by 25 per cent, to \$2 billion, next year's funds for the antipoverty war. Program was funded for \$1.6 billion for current fiscal year. Senate labor subcommittee hearings underway. House Education Committee hearings June 12.

FOOD STAMPS—President Johnson has asked Congress to make permanent the all-federal program, due to expire on July 1, under which needy families buy at subsidized rates stamps which they can spend for food at grocery stores. House vote set Thursday on Agriculture Committee bill providing a one-year extension with requirement for state participation. Senate passed bill to extend all federal program for three years and expand it.
POST OFFICE ABOLISHMENT—Postmaster General O'Brien proposed abolishing his job and post office department, replacing department with non-profit corporation to handle the mail. House hearings on general post modernization underway. No Senate hearings set.
POSTAL RATES—An administration bill has been introduced to increase the five-cent stamp one cent and also boost second and third class rates. When all increases are in effect total new revenue estimated at

\$825 million. House hearings underway. No Senate action.
PAY—The administration proposed a \$4.5 per cent pay increase for civilian and military employees effective Oct. 1, 1967. The President also recommended pay increases for civilian employees in 1968 and again in 1969 to a level judged comparable to private industry. House hearings underway.

RACE
RIGHTS—President Johnson asked for a bill to outlaw housing discrimination over three years, eliminate jury discrimination, strengthen laws against interfering with federal rights, extend the life of the Civil Rights Commission, boost funds for the community relations service, and empower the equal employment opportunity commission to issue cease and desist orders. Senate subcommittee hearings have been held on jury reform and on employment. No House action.
RIOTS—A number of Congressmen have sponsored bills to make it a federal crime to cross state lines for the purpose of inciting riots. No hearings scheduled in House or Senate.

EDUCATION
SCHOOLS—House passed President Johnson's school aid bill authorizing \$3.5 billion in aid to poverty area schools in fiscal year 1969. Amendments applied school desegregation guidelines to all 50 states, gave states control of \$500 million for experimental teaching programs, allowed schools under investigation for civil rights compliance to continue receiving funds until hearings have been completed, increased Southern schools' share of the money, and eliminated authority to extend the life of the Teachers Corps beyond June 30. Senate: No action.
ECONOMIC
INCOME TAXES—President Johnson proposed a 6 per cent income and corporate tax increase effective July 1, to help pay Vietnam costs. This would provide \$5.5 billion in revenue for fiscal 1968. No hearings scheduled.
DEBT—House acts this week on bill setting a "permanent" ceiling of \$365 billion on national debt, replacing present "temporary" \$336 billion limit.
SOCIAL SECURITY—President Johnson proposed a minimum 15 per cent increase—

in social security benefits for 23 million people. Package also includes liberalization of welfare programs, new dental aid for children, and Medicare for disabled persons under 65. After extensive public hearings, House Ways & Means Committee considering in closed sessions. Senate awaiting House action.

CONSUMERS
LOTS—The President asked Congress to tighten up Interstate land sales by authorizing the Securities and Exchange Commission to register sellers and require full disclosure of information to prospective buyers. Senate: Banking and currency subcommittee hearings completed. House: No action.
PIPELINES—The President called for a bill authorizing the Secretary of Transportation to set safety standards for natural gas pipelines. Senate: Commerce Committee hearings underway. House: No action.
FABRICS—President Johnson recommended broadening the 1953 act restricting the sale of flammable fabrics. Senate: Commerce Committee hearings completed. House: Commerce subcommittee hearings completed.

HAZARDS—President Johnson endorsed creation of a National Commission on Product Safety to look into hazardous household products and make recommendations. Senate: Acts on bill Tuesday. House: Commerce subcommittee hearings completed.
FUNDS—The Securities and Exchange Commission, with backing by Johnson, proposed to tighten regulation of mutual funds, including reducing some commissions. Senate: Banking Committee hearings set week of June 19.
CREDIT—The administration supports legislation requiring revelation to consumers of the full cost of credit for purchases of homes, appliances, automobiles and other products. Senate Banking Committee hearings underway. No House action.

CRIME
ANTI-OCIME—President Johnson asked for a "safe streets and crime control" bill authorizing federal aid to modernize state and local law enforcement. House judiciary subcommittee approved. Senate judiciary subcommittee holding hearings.
GUNS—The President requested a bill to restrict mail order and over the counter sales of firearms. House Judiciary subcommittee hearings completed. Senate juvenile delinquency subcommittee hearings start July 10.
BUGGINGS—President Johnson proposed to outlaw wiretapping and eavesdropping, public and private, except in national security cases. House judiciary subcommittee hearings completed. Senate: Judiciary subcommittee hearings underway.
CONSERVATION
AIR—The President requested a broad "air quality act" calling for federal pollution controls where state and local governments fail to act. His proposal also calls for regular inspection of auto exhaust control devices. Senate public works subcommittee hearings continuing. House: No hearings.
SCENIC RIVERS BILL—A number of bills pending in interior committees of both houses for preservation of a number of rivers in their wild state and for study and later inclusion in the system of a number of others. Senate Interior Committee hearing completed. House: No hearing yet.
REDWOODS NATIONAL PARK—Various bills to create Redwoods National Park in California pending in interior subcommittees of both houses. Senate hearings completed. House: Hearings start June 27.
NATIONAL TRAILS—Admin-

istration proposed four national trail systems and to consider later creation of 13 more. Hearings have been held in interior subcommittees of both houses.

COLORADO RIVER DEVELOPMENT—Hearings completed in House and Senate reclamation subcommittees on various bills to authorize the Central Arizona Project, up to five water projects in Colorado, and up to two controversial dams in the Grand Canyon, with total cost ranging from \$719 million to \$1.7 billion.

FOREIGN AFFAIRS
FOREIGN AID—The President has asked for \$3.4 billion in overseas economic and military assistance for the coming year. House: Foreign Affairs Committee hearings underway. Senate: Hearings start Tuesday.
MISCELLANEOUS
CAMPAIGN—Johnson proposed congressional appropriations to help finance presidential campaigns. He also called for election law reforms including full disclosure of campaign contributions and of expenses, shorter residence requirements for voting in presidential elections. Senate finance committee hearings underway.
DISTRICTS—House passed bill setting close to "one man, one vote" standards for congressional districts starting with 1972 elections, with looser standards for the interim. SENATE: Judiciary Committee

approved revised version further loosening interim standard.

UN-AMERICAN—House Committee on Un-American Activities has approved a bill setting criminal penalties for those who provide material aid to any nation involved in armed conflict with the United States or who obstruct the flow of military goods in this country.

METRIC—The House Space Committee has approved a bill calling for a three-year, \$3 million study of whether the United States should convert to the metric system. Senate: No action, but passed similar bill last session.
COPYRIGHT—The House has approved a bill containing the first top to bottom revision of U.S. copyright laws since 1909, including longer terms of protection for copyright holders. Senate: Judiciary subcommittee hearing underway on Senate bill.

TELEVISION—President Johnson called for a non-profit corporation to support educational and other non-commercial television and radio at a \$9 million level in fiscal 1968 while considering a longer range program. Senate: Passed. House: No action.

MONSOON DESTRUCTION
MANILA (UPI)—Monsoon rains sent rampaging floods swirling through the Philippine rice area of central Luzon today. Scores of persons were reported missing and feared dead.
 No immediate estimate on the loss of crops was available. Riverside shanties were swept away by the floods. Families were evacuated in parts of Quezon City as the Mandaluyong and San Juan rivers overflowed.

including longer terms of protection for copyright holders. Senate: Judiciary subcommittee hearing underway on Senate bill.

Dear Abby

DEAR ABBY: Our local Cub Scout pack had a pinewood derby race. Each boy was supposed to make a 6-inch racing car from a block of wood and four wheels. The chairman of the project explained that the dads could "help" — but the kids were actually supposed to make the cars.

On the day of the race, only one kid showed up with a car that looked like he could have made it himself. All the other cars looked like they had been designed and constructed in Detroit. It was a farce. The children were only spectators. I welcome your comments, and those of your readers.

DEAR YUK: It's sad. Projects that encourage fathers to spend more time with their growing sons are fine. But when a father takes over the project and submits it as the handiwork of his son, he is giving the boy a lesson in dishonesty. Then if his son gets in trouble with the law, this father is the first to cry, "Where have I failed? I have always done so much for that boy."

DEAR ABBY: In our office we have about 50 men and 50 women. Recently a good looking little chick of about 18 or 19 joined our ranks. She seems nice enough but she comes to work every day in a mini-skirt or a mini-dress—and I do mean mini.

Everyone agrees that she looks real cute in these outfits, but do you think this is appropriate dress for an office? How does one go about setting some limits on runaway hemlines?

DEAR WORKS: The office manager should call in an efficiency expert to calculate how many man hours are lost "bird-watching" — and the cute little chick will be a dead duck.

DEAR ABBY: My 19-year-old son is in Vietnam with the ma-

rines. The last five nights he was home he dated a girl (I'll call her Mary) every night. He barely knew her and never dated her before that. I was amazed to learn from his first letter that he had sent Mary an engagement ring. Mary is 18. Her mother consented to this. Her father is deceased.

I met Mary only once, briefly, at the airport when I saw my son off, so in an effort to get to know her better and be more friendly, I phoned her and invited her and her mother to my home for dinner. They declined. I called again, inviting them for lunch — or dinner, whichever was more convenient. They couldn't make it.

After five tries, I gave up. Meanwhile my son wrote asking if I had gotten together with Mary yet. I wrote and told him that I had tried five times but Mary couldn't make it. He must have written this to Mary because she called up and said that she was going to be gone for 13 months and when he got back it would be time enough for us to "get together" — and I should quit bothering her. She was very rude.

I am presently up a tree. Mary is wearing my son's engagement ring, which I have never seen, and as far as I know, their "engagement" has not been officially announced. What do you suggest I do?

DEAR PERPLEXED: Nothing don't call her. And don't write one word about her to your son. Mary sounds hostile, immature, and aggressive. And as for your son — you should know him better than I do. I wish this couple luck. They will need it.

CONFIDENTIAL TO "A SORRY SAP" in AMARILLO: Put it down as another old friend with a short memory and forget it. If the dentist asked for his fee while the patient's tooth still ached, he'd come out a lot better.

Jerry Stephens
graduating pianist

Pampa Pianist To Perform In HS Graduation Recital

Jerry Michael Stephens will be presented in his High School Graduation Recital by his teacher, Robert Hoffman of Amarillo, at eight o'clock Friday evening in Robert E. Lee Junior High School.

The 18-year-old Pampa High School spring graduate will be playing Scarlatti's Sonatas in A and D major; Toccatina and Fugue, D minor (Bach-Taubsig); and Beethoven's Sonata Op. 13 No. 8.

Following an intermission, Mr. Hoffman will join his young pupil at a second piano for Rachmaninoff's Suite No. 2 for two pianos, which will include "Valse," "Romance," and "Tarantelle."

Chopin's Impromptu Op. 29 Liszt's Hungarian Rhapsody No. 2 will conclude the recital. The public is invited.

Stephens, son of Mr. and Mrs. Melvin Stephens, 2536 Mary Ellen and a 1967 graduate of Pampa High School, has studied piano 12 years beginning his first year with Mrs. Bob Perkins with the remaining 11 years under Hoffman.

Smart Belles Get In Shape

By PATRICIA KING
Beauty Editor
Newspaper Enterprise Assn.

Spring is the time when all nature seems to be brimming over with new life. But the mother who has had little exercise during the past season may well be brimming over with excess weight.

Headlines are rising higher for everyone, and the swimsuit season is just a flip of the calendar away. So, a woman who is bemoaning the unwanted bulges added during winter hibernation will welcome any help she can get on her special day could give her added incentive to get back in shape. Such a gift could come in the form of exercise equipment — but it would be wise to sound her out first. You wouldn't want to hurt her feelings.

Once the routine of daily exercise becomes a habit she'll be on the road to a successful body tone-up. Nothing will get the kinks out faster and the body in better shape for vigorous exercise later than a regimen of stretches.

Stretches are the simplest and most effective movements for improving circulation, slimming and firming the body. A full body stretch will make one feel like a rag doll.

Stand with legs spread apart and arms stretched out at the sides. Swing the left arm, freely and wide, down to the right toe. Return to standing position and then swing the right arm to left toe. Repeat this trick 10 times and it will set you up for the next exercise that will firm your abdomen muscles.

Lie on your back with knees bent, feet flat on the floor, arms at your sides and palms down. Keeping your arms on the floor, raise hips, straightening the lower back to flatten the abdomen as much as possible. Keeping the abdomen flat, rotate raised hips in a perfect circle, up, around to the right side, down, up to left side for five complete circles.

Exercise also sets off a reaction within the blood stream, so that a clear, radiant complexion comes as a bonus. Here's looking at you, mom!

The Almanac

By United Press International.

Today is Thursday, June 8, the 159th day of 1967 with 206 to follow.

The moon is new. The morning star is Saturn. The evening stars are Mercury, Mars, Venus and Jupiter.

Born on this day in 1869 was American architect Frank Lloyd Wright.

On this day in history: In 1905, President Theodore Roosevelt offered his services as mediator to help settle the Russo-Japanese war.

In 1928, a Schenectady, N.Y. station (WGY) started a regular schedule of television programs three times a week.

In 1959, the X-15 rocket plane completed its first test flight over the Mojave Desert in California.

New Furniture Store Opening

Leonard's, a new store located at 308 W. Foster, is holding its grand opening today. Mr. and Mrs. Chunky Leonard, owners, invited the public to visit the new store and to look over the merchandise.

Among the products to be sold by the store are televisions and appliances; also brand-name furniture and bedding.

Leonard, a native of the Panhandle area, has been a salesman for the past 12 years, selling furniture, carpets and appliances. He gained experience

You, Your Child and School

By DAVID NYDICK
UPI Education Specialist

Language whether it is spoken or written presents an important impression about an individual. When it is poorly

as manager of one of the firms in Pampa. His favorite sport is golf.

The Leonards reside at 413 Jupiter with their three children, Woody, Judy and Chris. Woody is a student at Texas Technological College in Lubbock and Judy attends Robert E. Lee Junior High School.

used, it may become an obstacle to a valuable job, promotions, entrance to college, and to relationships with people. The proper use of language could add substantially to an individual's economic and social success.

The schools often group the teaching of some of these skills under the heading of language arts. Skills which might be included are spelling, writing, grammar, pronunciation and speech. Sometimes they are taught as separate subjects. Regardless of the approach, they are all closely related with each other as well as reading. Their importance requires emphasis throughout an individual's school career.

Organized Approach... Parents can play a valuable role in helping their children to develop competence in the use of language. Practice and an organized approach are necessary.

Speech has often been discussed in this column when it falls into the category of a handicap, which should be corrected. Now let's consider the normal development of speech in relation to pronunciation.

The normal student learns how to pronounce new words in several ways. He may learn some general rules which help him when he first meets a new word in his reading. He may hear new words in conversations with friends and adults.

The way in which a student proceeds to learn pronunciation of new words affects the quality of his success. He should have an organized method.

Listen to Others Perhaps the first step for a student is to be aware of proper pronunciation. This means learning to compare his own speech with that of people who speak properly. He can then make a definite effort to correct his own habits. When he makes a specific effort in this direction he may be amazed at how easy it is to develop an ear for good pronunciation.

Some people have been particularly successful in developing their speech and writing relative to pronunciation and vocabulary by learning a new word on a regular basis. This may be as often as one per day. The quantity may not be as important as being consistent.

Learning new words must include practice. If the words are not used they are soon forgotten. They only become valuable when they are a part of what might be called a working vocabulary. This means that the words are a part of the person's daily speech and writing.

Fleeing Convicts Don't Faze Tourist

BOISE, Idaho (UPI)—Bursts of gunfire, two fleeing convicts and a pickup truck crashing through prison fences didn't faze the California tourist.

George Petersen, an unemployed steam-fitter and pipe welder from Aptos, Calif., ran down a hill Tuesday and captured two escaped convicts, a killer and a rapist. Then he climbed back up with his .45 caliber pistol and continued hunting woodchucks.

"Too many people back off these days when these things happen," said Petersen, 39, who was visiting relatives near the Idaho State Prison.

Petersen foiled the escape attempt of William Henry Butler, 23, Bayonne, N.J., and David Allen Huber, 21, Idaho. Butler was serving 75 years for the strangulation death of a Boise college coed, and Huber received a 14-year sentence on a rape charge.

"When I saw this truck crash through the prison fences I just barreled down the hill to head them off," Petersen said. "Actually, they were just a couple of kids trying to get the hell away."

Associate Warden Virgil Cary said the two convicts had been working inside the prison, painting a truck. As the guard shift changed, they climbed into

the vehicle and drove through two barbed wire fences.

A section of the fence snarled beneath the truck and finally brought the vehicle to a stop.

The two unarmed escapers ran to a nearby hamburger stand, where Petersen brought them to a stop with the help of his .45-caliber pistol, which he described as "a pretty hefty persuader."

"I fired a shot in the air when I caught up with them," Petersen said, "and told them 'stop and head back where you started from, fellows.'"
