RACIAL TENSION in the United States has brought the spotlight to the three individuals pictured above. H. Rap Brown, left, militant leader of Student Non-Violent Coordinating Committee, is accused of fanning the flames that have boiled into violent riots in many of the nation's cities. Chairman and vice chairman of the President's special advisory commission on civil disorders are Gov. Otto Kerner, far right, governor of Illinois, and John V. Lindsay, mayor of New York.

New Panama Canal Treaties Face Rough Sailing Ahead

UPI Latin American Editor There's rough sailing ahead ma Canal treaties. Storm raised in both the United States treaties. and Panama whose chief executives and upper houses must first ratify the agreements before they become effective.

Major issue in both countries revolves around the degree of control over the vital waterway to be retained by the United States, or a substitute that will satisfy national security needs. Adverse congressional reaction has mounted steadily in Washington since the June 26 announcement of agreement by negotiators-after two years of stiff bargaining—on the form and content of the treaties.

Actually, three treaties are J. H. Slater, 801 N. Wells, involved. One governs operation of the canal, the second deals with the construction of a new sea-level canal and the third the most controversial, with U.S. military base rights in the Canal Zone.

U.S. To Relinquish

Basics of the proposed new treaties provide the United States will relinquish all claims Lawson Shaw, White Deer, to sovereignty over the 10-milewide canal zone through which the waterway runs; the Panamanian annual payment will be increased from \$1.9-million to \$17.5-million; operation of the canal will be in the hands of five U.S. members and four Panamanian members, and a status of forces agreement with NATO countries will govern the rights of U.S. troops stationed in defense of the canal The United States will have the right to build a new sea level canal in Panama if it

> Former President Dwight D. Eisenhower has joined President Johnson in urging Senate ratification of the new treaties, arguing that they "offer hopes for a new era of harmony in our relations with Panama". But, while Eisenhower was praising the controversial treaties, Rep. Daniel J. Flood, D-Pa., was telling Congress the canal is too close to Communist Cuba for the United States to give up control

Juglar Vein Flood called the canal "the ugular vein of hemispheric

Although the House has no say-so in ratifying treaties it can withhold funds for canal administration. And more than 100 resolutions have been introduced or co-sponsored in the House, most of them urging the Senate not to ratify.

More and more classrooms are being built in the nation's schools to accommodate the continuing flood of students. The above map shows the number of additional classrooms provided during the 1965-66 school year in each state. Most states built more "new" classrooms than the top figure indicates, but the "additional" classrooms figure was deduced by subtracting the number of classrooms abandoned in the same year from the number of new ones provided. Figures were not available for a few states, shown here with only the total classrooms listed. One state, Tennessee, built 739 new rooms, but abandoned 794, according to the United States Office of Education,

By WILLIAM M. SOWERS The Great Plains Conservation Program has been in operation for nearly ten years now. In fact, the state Soil Conservation Service signed the first G-CP contract in Texas in Dec., 1957. It will sign the 10,000th contract in Texas sometime between now and Dec. 1, 1967. As of June 1, 1967, SCS had signed 1337 contracts on 1,150,-465 acres, obligating \$5,902,579.-85 for this fiscal year, beginning July 1, 1966.

There are about 65.25 million acres of land in the 99 counties participating in the Great Plains Conservation Program in Texas, and about 13 million of those acres have been under G-CP contract, which is about 20 per cent of the land. International Living Program Is Initiated in Pampa

Gerardo de la Garza Evia, Foreign College Student, Arrives From Mexico

By PEGGY JO ORMSON A new project has been undertaken in Pampa, The Ex-

periment in International Living.

This program is primarily designed to provide a onemonth homestay for foreign college and university students upon their arrival in the United States as a friendly welcome to American life before they commence their studies.

Pampa's first such student is Gerardo de la Garza Evia, 19, of Manterey, Mexico, who has been studying English at st. Edward's University in Austin. He arrived in town by bus Thursday afternoon and will return to Monterey on Aug. 28. While residing in Pampa he will make his home with the Warren J. Beale family, 2131 N. Faulkner.

THE SAME PRODUCT CAN BE DDIFFERENT.

Yes - - even though it be made by the same manufacturer and contain the exact ingredients carefully made the same way when you get it there may be a serious difference. Here are a few examples.

ALL MEDICINES MUST BE PROTECTED.

When a carton of medicone is received, if it is exposed to heat, some products will lose their potency. If stored near the sun or a radiator, the first few bottles may be satisfactory, but the rest may soon lose their strength. Rubber elastic and plastic sick-room aids are also changed by improper storage.

EVERY HEALTH-AID CAN BE AFFECTED. They too must be protected against hazards and aging. Inventory must be controlled to prevent old stock. If storage is not watched quality suffers. '

John 15:5 "I am the vine and ye are the branches"

If I want good apples, I must have good apple trees; and if I care for the health of the trees, the apple tree will give me good apples. If our life is lived according to God's will life will came out right. It may not come out the way we want it to each time but it will come out right. It may not come out the way we want it to each time but it will come out in a way that will be best in the long run. We have a foundation, we have a source, and in recognizing this we must remember that in living we are a part of the team, that team is all mankind. To correctly understand this relationship with God I feel it is necessary to recognize ABSOLUTE DEPENDENCE and this goes against the self sufficency of many of God's children. So often we feel that we can get this job done without God's help. It just can not be done, we must depend completely on God. This dependence developes a stronger faith.

If we are to be a true branch we must know full surrender. If we can know this Christ like surrender it will bring a kind of happiness which we will otherwise never know. Branches must always be connected to the vine, disconnected it will always die. Our lives will surly die if we loose contact with God. Jesus plainly tells us in the earlier verses of this chapter when He says:

"I am the vine, and my father is the vinedresser. Every branch of mine that bears no fruit, he takes away, and every branch that does bear bear fruit he prunes, that it may bear more fruit. You are already made clean by the word which I have spoken to you. AbIde in me, and I in you. As the branch cannot bear fruit by itself, unless it abides in the vine, neither can you, unless you abide in me. I am the vine and you are the branches. He who abides in me, and I in him, he it is that dre the branches. He who abides in me, and I in him, he it is that bears much fruit, for apart from me you can do nothing. If a man does not abide in me, he is cast forth as a branch into the fire and burned." John 15:1-6 Revised Standard Version.

Finally if we break with God we face eternal death. His plan for us is to have eternal life.

MULTIPLE LISTING SERVICE

MEETS 2 DEMANDS

You simply list your homes with the MLS member of your choice, specifying

that you want your property Multiple-Listed. The facts about your property

go into Multiple Listing and are rushed out to the 30 brokers and selesman

members. They contact their prospects and work to sell your home or income

You make sure the Real Estate firm you call is a member of the Pampa Mul-

tiple Listing Service. (His ad will either use the symbol or have some other reference to the MLS). He will consult the Multiple Listing file. Within five

minutes he will give give you facts about many homes ___ prices, locations,

sizes, age, etc. You save days of home hunting and end the need to call on a

long list of Real Estate firms. You'll be sure of a selection from the choicest

You don't pay a penny extra for this extra service. So make sure you use it next time you want to sell or to buy property. All you have to do is make sure you are dealing with a member of the Multiple Listing Service. And if you

are a seller be sure to specify that you want your property Multiple Listed.
