President Takes Responsibility For 1972 Campaign 'Mistakes'

GOP Heads Gather For Crisis Talk

MEMPHIS, Tenn. (UPI)—Republican governors, a diminishing clan, gather in this Mississippi River town Sunday for three days of crisis talks to be climaxed Tuesday with a private, hair-drawn meeting with President Nixon.

The 19-member Republican Governors Association loses one of its members early next year when the New Jersey state house returns to Democratic control as a result of the Nov. 6 election. Eleven of the remaining 18 GOP governorships will be up for re-election in 1974.

Governors' conferences usually are highly political gatherings, and the still hazy effects of the Watergate scandal and the Agnew resignation are likely to be the commonest subjects of corridor and cocktail discussion at the three-day meeting.

Republican National Committee Chairman George Bush, Vice President-designate Gerald R. Ford and after the formal close of the conference Tuesday afternoon—Nixon will be on hand to counsel with the governors.

The President's appearance was a late addition to the agenda, scheduled last week as part of his new policy of opening himself to the advice and complaints of fellow Republican office-holders.

The main issue to be discussed at the conference was the energy crisis, and even that has political overtones.

3-Car Collision West Of City Injures Four

Michael Lee Jones, 21, of Borger suffered severe facial lacerations and possible injuries to one eye last night in a collision involving three vehicles at the intersection of U.S. 60 and Price Road, west of Pampa.

Jones was transferred to High Plains Hospital in Amarillo at 9:45 p.m.

The driver of the car which Jones was a passenger was Anna Lucille Burchett of Borger, 19, who allegedly ran a stop sign at the intersection of Price Road and U.S. 60.

The vehicle driven by Miss Burchett was struck first by a pickup driven by Samuel Lee Bradley, 924 S. Barnes in Pampa, and then by a Volkswagen driven by Johnny Oliverz, 25 of Amarillo.

Three other persons were slightly injured, Bradley was undergoing treatment at presstime.

Young Teddy Recovering From Operation On Leg

WASHINGTON (UPI)—In a morning of tragedy and muted joy, Sen. Edward M. Kennedy, D-Mass., comforted his cancer-stricken son after his right leg was amputated Saturday, and within an hour gave his niece away in marriage to a chorus of "Irish Eyes Are Smiling."

Kennedy and his wife, Joan, were waiting when their blond, blue-eyed son, 12-year-old Edward Jr., was wheeled back into his room at Georgetown University Hospital about 10 a.m. after successful, hour-long surgery for removal of his right leg above the knee.

A hospital spokesman said young Teddy, who was diagnosed a week ago as having bone cancer in the lower portion of the leg, was in satisfactory condition. Four hours after the operation, the hospital said he was "making an uneventful recovery."

While his wife remained behind, the distraught senator left the hospital 20 minutes later for Holy Trinity Church in Georgetown, one block from the university campus, for the wedding of Kathleen Kennedy, 22, the oldest of the 11 children of his slain brother, Robert F. Kennedy.

The morning of heavy emotion came just three days before Robert Kennedy, assassinated in Los Angeles in June 1968, would have celebrated his 48th birthday, and five days before the 10th anniversary of President Kennedy's assassination in Dallas.

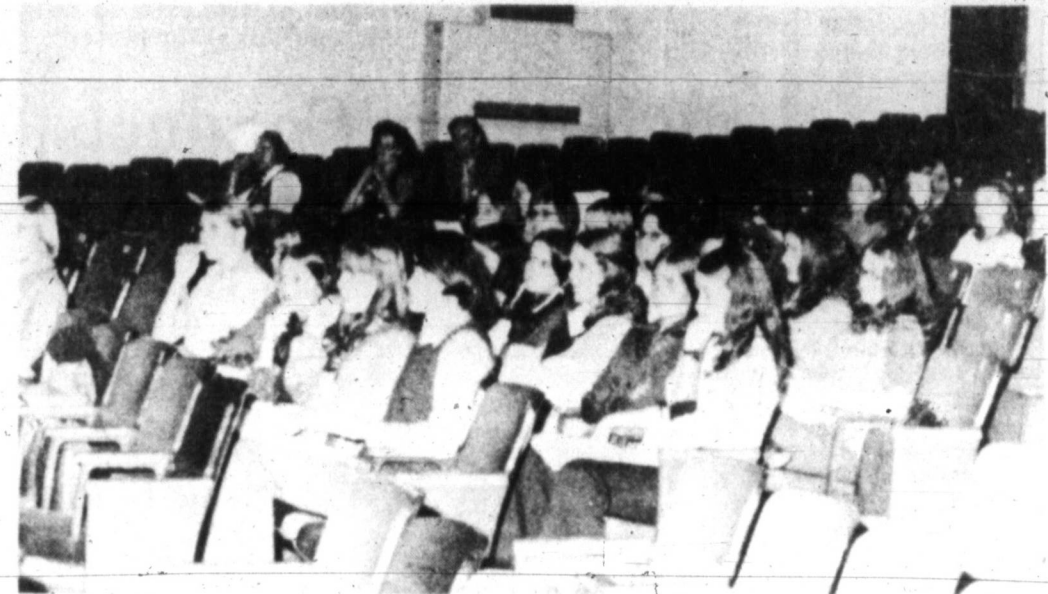

The Edward Kennedys and a physician broke the news to young Teddy at midday Friday about the decision to amputate.

The boy was taken into surgery at about 8:30 a.m. Saturday, and was wheeled out at 10 a.m. The hour-long operation was performed by Dr. George Hyatt, chief of orthopedic surgery at the hospital.

A malignant growth discovered in diagnostic tests that began Nov. 9 was described as a cartilage tissue tumor, less serious than primary bone cancer.

The National Cancer Institute said the 10-year survival rate for Teddy's form of bone cancer is 69 per cent. Most bone cancers are difficult to cure, it said, because the spreading tumor is usually at an advanced stage when discovered.

Teddy, a seventh grader at St. Alban's School for Boys, a private school on the grounds of the Washington Cathedral, has been hospitalized since Tuesday. He has a sister, Kara Anne, 13, and a brother, Patrick Joseph, 6.

MOCK LEGISLATORS—Students debate a bill during a Senate session Saturday afternoon at the Model Legislature II at Pampa High School. Students attending the morning and afternoon sessions gained practical experience in the operations of legislative bodies with committee hearings, testimony from witnesses, parliamentary procedures and debates and votes on various bills ranging from open meetings to work free lunch periods for teachers.

Astros Move Into Skylab Station To Set Up Home

HOUSTON (UPI)—The Skylab 3 astronauts, feeling healthy and chipper, moved into the big station Saturday to set up their home for the holidays and man's longest spaceflight.

Gerald P. Carr, Edward G. Gibson and William R. Pogue carried in baggage from the Apollo ferry ship which they flew to Skylab Friday and linked to the nose of the 100-ton station orbiting 270 miles above earth. They hoped to stay aboard for a record 84 days.

Pogue apparently was over a bout of space nausea suffered at docking but all took more motion sickness pills. The pilots ate breakfast before opening the hatch between the two vehicles.

Carr told mission control "We're all feeling pretty good." Gibson, the crew's scientist, said they were anxious to open their new home. "It looks pretty good, we can't wait to dive into it."

The final crew in the \$2.6 billion Skylab program turned on lights, water heaters and electronic equipment powered by solar energy cell panels. Their historic flight, slated for at least 60 days with an option to last until Feb. 8, is the last manned American mission until July, 1975.

Among the first things they discovered inside were three goldfish-brown Skylab 3 uniforms stuffed with leftover clothes from the last flight. The mannequins were attached to the bicycle exerciser, the iron lung-like heart pressure device and the toilet.

"Were you able to find enough food for six people?" asked the ground communicator.

"The other three don't eat much," replied Gibson. "They're also very quiet."

Pogue switched on a teleprinter which carries daily schedules and information to the crew from mission control.

Despite the emphatic Egyptian rejection and the cease-fire violation charges, measures for carrying out the six-point cease-fire agreement between Israel and Egypt proceeded smoothly Saturday.

POW exchanges continued without a hitch in Tel Aviv and Cairo, relief supplies kept rolling into Israeli-surrounded Suez City at the southern end of the canal and the International Red Cross evacuated more wounded civilians from the Suez City.

A U.N. spokesman in Cairo said the implementation of the cease-fire was "satisfactory." Egypt and Israel began carrying out the cease-fire agreement Wednesday. The U.S. sponsored agreement was signed last Sunday.

In Tel Aviv, government sources said Saturday, the Israeli government is seriously concerned the United States may try to railroad it into surrendering most of the conquered Arab territory it has held since the 1967 war.

They said Israel is determined to resist any such pressure, either at the planned Middle East peace conference or outside it.

Prime Minister Golda Meir voiced the government's anxiety in a televised interview Friday night.

and confirmed receipt of their first message.

"Gerry, Ed and Bill," the message read. "Welcome aboard the space station Skylab. Hope you enjoy your stay. Looking forward to several months of interesting and productive work."

Ground communicator Bruce McCandless said the message was transmitted after the last flight. After this flight, he said, "We'll have to uplink a message that says 'To whom it may concern'."

The pilots will spend the weekend readying the station for a full program of orbital research starting Monday. They hope to double the storehouse of information on the sun, earth and man by the first two Skylab flights which lasted 28 and 59 days respectively.

A big bonus for scientists is a Christmastime comet, Kohoutek, which is now coming into view and will swing around the sun in January.

The astronauts will walk in space Thanksgiving Day to replace film in the solar observator and again on Christmas Day to photograph and study Kohoutek as it nears the sun. Two to three more spacewalks are scheduled in the flight.

Nixon said Hunt once told former White House counsel John W. Dean III that he would reveal other information about the White House staff unrelated to Watergate, if he did not receive some money.

"I know I heard it for the first time on the 21st of March," Nixon said. He added that Dean

gave him the information before a meeting.

Nixon said he met with Dean at 9 p.m. Sunday April 15 and there should have been a recording of that meeting. But there was none, he said, because the tape machines during the weekend were geared to record only six hours of conversations, and because of a lengthy meeting earlier with Secretary of State Henry Kissinger in the Executive Office Building, the tape ran out.

Dean has said under oath that he and Nixon discussed Watergate April 15 and he believed the President indicated then he knew about the Watergate cover-up.

Nixon said he tried to reconstruct the conversation and found no dictabel version of it, but that he did find his own hand-written notes.

The following day at 10 a.m., he added, he had another conversation with Dean. That conversation was taped, he said, and because it covers some of the same ground as the one the night before which was not recorded, he had offered to

make the tape available to U.S. District Court, even though it is not among the tapes subpoenaed by the Watergate prosecution.

District Court Judge John J. Sirica declined to accept the material on grounds it would be inappropriate for the court to adopt a role of receiving evidence.

Nixon admitted that the story was "difficult" to explain when the nation can build an Apollo system, but not an effective taping device.

"This is no Apollo system," he said, but a \$2,500 tape recorder with "little lapel mikes" stuck inside desk drawers. "The system itself was not a sophisticated system."

Asked his initial reaction when he discovered that two of the nine subpoenaed tapes did not exist, Nixon replied, "very great disappointment."

"I wanted the evidence out," he said, adding he knew that when it was announced the tapes did not exist the reaction would be that he was hiding something.

But he said he "would have

hope we can avoid rationing because that involves a whole new extension and addition to governmental power and authority, besides being a terribly annoying and intrusive sort of activity."

Other cabinet and high level officials have been lining up on either side of the rationing versus tax question. The administration has promised to come up with an emergency plan in the near future, but there has been no clear indication what approach it will take.

President Nixon's chief energy adviser, John A. Love, has endorsed the idea of rationing. Interior Secretary Rogers C. B. Morton and presidential adviser Melvin R. Laird both have said they think rationing is inevitable.

But Treasury Secretary George P. Shultz, an opponent of rationing, appears to prefer an increased tax on gasoline and Transportation Secretary Claude Brinegar said Friday that a tax is a better long-range solution than rationing.

Herbert Stein, chairman of the Committee of Economic

advisers, said in Bonn, Germany last week. "It will be to some extent a matter of choice whether to allow prices to rise substantially to allocate the scarce supply and to induce more production, or to hold prices down and try to allocate the supply by administrative methods, possibly including rationing."

Weinberger said he did not think the administration had done "all we can" to achieve an end to the Middle East boycott on oil exports to the United States.

"I don't see any reason to suppose that negotiations can't increase the flow of oil from the Middle East," he said, "but I also think we ought to develop new sources of supply and I think steps on both fronts are proceeding."

Weinberger indicated in his responses to questions about the energy crisis that he prefers the least possible government interference.

Asked if he also believed that both rationing and an increased tax could be avoided in the future, Weinberger replied "yes."

"I'm not at all convinced that a high tax on various forms of energy is going to increase the supply," he said. "I certainly

hope we can avoid rationing because that involves a whole new extension and addition to governmental power and authority, besides being a terribly annoying and intrusive sort of activity."

ON GASOLINE USE

Weinberger Discounts Need For Rationing Or Tax Hike

WASHINGTON (UPI)—HEW Secretary Caspar W. Weinberger said Saturday the government can discourage gasoline consumption without rationing or an increased tax.

Weinberger, who prepared the administration's \$268.7 billion spending plan for fiscal year 1974 in his previous post as director of the Office of Management and Budget, was the first cabinet member publicly to disdain both approaches to the looming energy crisis.

"I don't know that at this point it is necessary to increase taxes or to ration," Weinberger told UPI in an interview. "The principal thing, I think, that is required at this moment is conservation of existing supplies at the same time we are making every effort to increase the supply."

Asked if he also believed that both rationing and an increased tax could be avoided in the future, Weinberger replied "yes."

"I'm not at all convinced that a high tax on various forms of energy is going to increase the supply," he said. "I certainly

hope we can avoid rationing because that involves a whole new extension and addition to governmental power and authority, besides being a terribly annoying and intrusive sort of activity."

Greece Placed Under Martial Law During Student Rebellion

ATHENS (UPI) — President George Papadopoulos decreed martial law throughout Greece Saturday and sent tanks and troops into the ancient streets of Athens to crush remnants of a student rebellion and restore order.

Police said the death toll rose to five when an unidentified 17-year-old girl was killed by a stray bullet. Police reported four other persons died and more than 120 were injured during the night of fighting that turned downtown Athens into a battlefield. The battle ended when an army tank smashed through the iron gates of Athens Polytechnic School, focal point of the student rebellion since Wednesday, and police routed occupying students with wooden staves and lead pipes.

The military command imposed a 4 p.m. curfew in all towns with more than 5,000 population. Troops and tanks

took up positions throughout Athens to discourage any resumption of anti-government demonstrations.

(In Washington, Pentagon officials said the 4,000 U.S. servicemen in Greece, mostly Navy men, had been advised to stay in their homes or on their

ships and to keep off the streets. He said there was no military alert.

(In London, the British Foreign Office also said it had advised British subjects in Greece to stay indoors.)

The tanks crunched through the streets and gunfire erupted half an hour after the students cranked up their clandestine radio shortly after daybreak exhorting classmates and Greek workers to return to the streets to renew the battle.

Artists Invited To Participate In Area Show

Artists from a six-state area are invited to plan now to enter a juried art show, with cash prizes, to be held by Artists' Studio of Amarillo, Feb. 3-16, 1974, at the Camelot Inn, Amarillo.

The competition is open to artists in Texas, Oklahoma, New Mexico, Kansas, Colorado and Louisiana. Paintings and sculptures to be exhibited are to be judged suitable for showing through the use of color slides of the artists' work.

Artists should write Alice Baldwin, 7702 Broadway, Amarillo, Texas, 79108, for entry forms before Dec. 15 and submit entries before Jan. 5.

Viewing the slides and selecting paintings and sculptures to be exhibited will be the following heads of art departments at area colleges: Rosey Lee Palmer, Frank Phillips College, Borger; David Cale, Amarillo College, Amarillo; Bob Boyle, Texas State Technical Institute, Amarillo.

Also to serve in the screening of paintings, and sculptures for the exhibit are Margaret Campbell, art instructor at West Texas State University, and Amarillo artists Mary Hamilton Mitchell, Stefan Kramer, and Bud McCalley.

Members of Artists' Studio will assist the screening committee. To select winners of awards of \$500 for first place, \$250 for second and \$150 for third place paintings with the same amounts for sculpture, plus citation awards, are the following heads of university art departments: Dr. Emilio Caballero, West Texas State University; Dr. Chris Gikas, Eastern New Mexico University; and Dr. Clarence Kincaid, Texas University.

GSA Division Gets Centrex Phone System

The General Service Administration Communication Division in Amarillo and Congressman Bob Price announced Saturday that Federal agencies in Amarillo will convert to a Centrex telephone system effective Monday.

With the installation of this equipment, the public will have direct telephone access to any government agency. All agencies formerly served by 376-5151 can now be reached by dialing 376 plus the agency's four-digit extension number.

Mrs. Aimee Osborn, the GSA Communications Supervisor in Amarillo, stated that the new Centrex system will provide the public with faster access to federal agencies.

Congressman Price congratulated GSA on the new telephone system. The Congressman's Amarillo office will now be reached by dialing 376-2381.

For additional information or assistance, call 376-2011.

Troops Trying To Recapture Three Outposts

SAIGON (UPI) — Government troops are trying to recapture three outposts near the Cambodian border from the Communists as they advance in the face of intense rocket, mortar and shell fire and mortar shelling. The South Vietnamese high command reported Saturday.

Fighting and shelling north and south of Saigon—most of it less than 50 miles from the capital—left 27 persons dead, 30 wounded and eight missing Friday and early Saturday, the command said.

In neighboring Cambodia, President Lon Nol predicted North Vietnam would launch an all-out offensive to capture Cambodia during the dry season beginning after Christmas. He said the North Vietnamese strategy was to free its troops now in Cambodia for fighting on other fronts in South Vietnam and use Cambodian food to supply such a new offensive.

Lon Nol said his Cambodian government forces would crush the offensive but warned that the North Vietnamese Communists, if they succeed, "will kill us all."

Obituaries

JOHNIE R. PENDERGRAFT
AMARILLO — Saturday 2 p.m. funeral services were held at Schooler - Gordon Colonial Chapel in Amarillo for Johnnie R. Pendergraft, 56, who died Thursday morning.

Rev. Neil Ragan, pastor of the Apostolic Faith Church, was to officiate with burial in Llano Cemetery.

Mr. Pendergraft was born in Hope, N.M. and moved to Amarillo from Pampa 25 years ago. He was a member of Painters Local 540.

Survivors include his wife, a son, two stepsons, his mother, a sister and eight grandchildren.

WILLIAM B. (BILL) MCINTIRE
Funeral services for William B. (Bill) McIntire, 47, 1719 Evergreen, who died at 11:10 a.m. Thursday at Wadley Hospital in Dallas, were held at 2 p.m. Saturday in Harvester and Mary Ellen Church of Christ in Pampa.

Glenn Walton, pastor officiated with burial in Fairview Cemetery.

Mr. McIntire was a prominent area rancher and president of the Top O' Texas Rodeo Association.

He was born March 5, 1926 in Canadian, where he was reared and attended schools. He attended New Mexico Military Institute in Roswell, N.M.

A Veteran of World War II, McIntire was a member of

Mary Ellen and Harvester Church of Christ.

Survivors include his wife, Joyzelle, of the home; two daughters, Mrs. Jan Luster and Mrs. Cathy Topper, both of Pampa; two sons, Wiley and Mark; both of the home; two brothers, Ben McIntire, Spearman, and Ed Brainard, Pampa; a sister, Mrs. Mary Kay Christner, Wheeler; and two granddaughters.

MRS. KATHERINE BRACE
Funeral services for Mrs. Katherine Brace, 84, of 1156 Huff Rd., will be at 2 p.m. Monday at Carmichael - Whitley Colonial Chapel with Rev. John B. Waller, pastor of The Church of God, officiating.

Burial will be in Memory Gardens Cemetery.

Mrs. Brace died at 3:55 p.m. Saturday at Highland General Hospital.

She was born Feb. 12, 1889, in Sellesburg, Ind., and moved to Pampa in May, 1969, from Raton, N.M. She was married to Ellery C. Brace on Feb. 26, 1927. He died Oct. 17, 1972.

She is survived by a brother-in-law, J.H. Slater, Pampa, and one sister-in-law, Mrs. Virgie Humes, Albuquerque, N.M.

CARL CLEMENTS
Funeral services will be at 10 a.m. Monday in Duenkel Memorial Chapel for Carl Clements, 75, who died at 4 p.m. Saturday at Highland General Hospital following an apparent heart attack which occurred on Thursday.

Glenn Walton, minister of the Harvester and Mary Ellen Church of Christ, will officiate. Burial will be Tuesday in Gilmer, Tex.

He was born Nov. 17, 1899 at Bowie, Tex. He moved to Pampa in 1928 from Bullard. An oil field driller and a pipe fitter, he retired in 1968.

He was married on Oct. 1, 1954 to Lucille Brown in Pampa. He was a member of the Harvester and Mary Ellen Church of Christ.

Survivors include his wife, of the home; three stepdaughters, Mrs. Mary Cash, Farmington, N.M.; Mrs. Charlene Lowrance, Duncanville; and Mrs. Virginia Johnson, Odessa; one brother, Douglas J. Clements, Flint; and one sister, Mrs. Effie Hensley, Tyler.

ACCIDENTS KILL 3, 154
AUSTIN, Tex. (UPI) — Traffic accidents in Texas have killed 3,154 persons this year, an increase of 33 per cent over the number of deaths to the same date in 1972, the Department of Public Safety reported Saturday.

The fatalities have resulted from 2,598 fatal accidents, up 1 per cent from last year.

JOHN HAROLD INGLE
...new Navy recruiter

Navy Station Gets Recruiter

The United States Navy Recruiting Office in Pampa has received a new member for its recruiting staff, Chief Ivan J. Richards announced Saturday.

First Class Petty Officer John Harold Ingle, who has served in the Navy since 1962, has come to the Pampa station from Plainview, where he was in charge of the recruiting station there.

Ingle's awards include the Navy Achievement Medal, two Good Conduct awards and the National Defense Award.

He enlisted into the Navy at DeFuniak Springs, Fla., where he was born. Ingle has served on ship board duty and on shore duty while in the service and has been overseas.

He is married to the former Hortencia Asencio, a former White Deer resident. They have four children, three of whom are attending school at St. Vincent's School.

Oil, Gas Office Sets Priorities On Diesel Fuel

The U.S. Office of Oil & Gas is setting priorities on diesel fuel distribution which should help agricultural producers and ranches obtain increases where necessary over their current allocations, the Office of Representative Bob Price of Pampa reported Saturday.

Duke Ligon, director of the Office in Washington told the House Agriculture Committee in a late afternoon session Friday of the establishment of three equal categories of preferential users: those engaged in actual production of oil and gas; operators of farm and ranch equipment, and operators of mass transit facilities.

Revisions in allocation regulations naming these three priority users go into effect Monday, Nov. 19, and will remain in effect for 60 days.

Ligon said the 60-day period would allow suppliers and users the time necessary to file and have processed their applications for allocation increases or new allocations.

He stressed these applications should continue to go forward, but in the 60-day interim, farm and ranch users of diesel fuel would be served on a top priority basis.

The new regulations are not a suspension of the mandatory allocation program, Ligon told the committee, because quantities delivered during the 60-day period will be assessed against their adjusted total annual allocation.

SINGING WEATHERFORDS — Earl Weatherford, his wife, Lilly Fern, Fulton Nash and Ken Williams, to the accompaniment of Heiskell Cooley at the piano, will perform their sing-along at the Fellowship Baptist Church, corner of Francis and Warren Sts., Monday night, 7:30 p.m. For an evening of good Gospel singing, Rev. Earl Maddux, pastor, extends an invitation to the public to hear this group present their message in song.

Kissinger Conducts Conference Series

WASHINGTON (UPI) — Secretary of State Henry A. Kissinger swung into a series of follow-up strategy conferences on his Middle East and China missions Saturday, including a meeting with Soviet Ambassador Anatoly F. Dobrynin.

Kissinger scarcely paused after his return to Washington from a 12-day, 10-nation round-the-world diplomatic trip to brief President Nixon, top administration officials and Congress.

He talked by telephone with President Nixon in Key Biscayne, Fla., for 20 minutes Friday evening, breakfasted at the White House with Defense Secretary James R. Schlesinger, CIA Director William Colby and Undersecretary of State Kenneth Rush Saturday and arranged the meeting with Dobrynin later in the day.

The State Department announced it expects Kissinger to meet this week with U.S. oil executives to ask them to keep up fuel supplies to Japan. The meeting was designed to fulfill a pledge that he made to Japanese leaders Friday while in Tokyo.

There was no list immediately available of the executives who would be included.

On Tuesday, he will go before a closed session of the Senate Foreign Relations Committee to answer questions about his Middle East peace efforts and his talks with Chinese leaders in Peking. Kissinger also is expected to hold a news conference Wednesday.

He will personally report to Nixon sometime in the next few days but has no plans to fly to Key Biscayne where the President went for the weekend. Kissinger indicated he also intends to give the Israeli

Christmas Seal Fund Campaign Lagging Behind

Bill Mackey of Pampa said Saturday that the Christmas Seal campaign, which finances an area program against emphysema, TB, asthma and air pollution, is lagging behind last year.

"We are working on a massive attack against cigarette smoking among students, through a peer-teaching program in which trained older students teach the younger ones the foolishness and danger of getting hooked on cigarettes," Mackey said.

"And we certainly need the public's financial support to carry this educational fight on to the finish."

Mackey said the country is paying a terrible toll for its smoking habits in terms of emphysema, sudden death through heart attack and lung cancer. He urged all Gray residents to contribute to the Christmas Seal community health and research work.

Youth Center Report

Swim Lessons — Sign up time for the last swimming lessons in this calendar year is here. Classes will begin Nov. 26 and run through Dec. 12. The next lessons offered will be in 1974 beginning Jan. 7.

All classes are taught after school is out in the evenings from 4-5 and 5-6 p.m. Each class has a running period of 10 meeting dates which is usually on Monday, Wednesday, Thursday and Friday. We are closed on Tuesday.

Mrs. Ruth Carter, resident water safety instructor, conducts all the classes. Enrollment is free to Center members and \$4 to non-members. Memberships are always available for purchase.

Nov. 26-Dec. 12
4:00 Beginners
5:00 Adv. Beg.

Calico Capers — Although teen dancing has declined, there still is a dance time for adults at the Center. The Calico Capers Square Dance Club participates at the Center on each Saturday night from 8-11 p.m. At this time they dance to the tune of an out-of-town caller.

The Capers are interested in new members and would welcome any adults interested in square dancing.

At present the club is giving square dance lessons on Tuesday nights at the Center from 8-10 p.m. If you are interested in taking lessons, you may come by any Tuesday night and the Capers will be happy to give you all the information.

Memberships — The Center's participation privileges are arranged through a series of membership plans. These plans include individual, family and

husband and wife combination series. After you become a member there is no further charge for using the facilities.

The Center's facilities include a large gym, recreation hall, indoor heated swimming pool, dressing room facilities, health club, handball and racquetball courts, sauna and exercise room.

The most noted facility in our new health club which houses all the modern exercise equipment such as bicycles, barrell rollers, abdominal boards, exerciser machine, rowing machine, beauty bells, 4-way machines and facial machines.

The limited plan for membership which includes you into member privileges surrounding the gym, recreation hall, indoor pool and use of the dressing room facilities costs only \$5 for six months or \$8 a year for an individual and only \$12 and \$20 respectively for a family. This includes all members of the immediate family.

The unlimited membership allows you full use of all our facilities including the new health club. This can be purchased at a cost of \$65 for six months or \$118 a year for an individual. For a husband-wife combination plan the cost is \$90 for six months or \$170 a year.

Both of these plans may be paid out on an installment basis for a six months period. For the individual the cost is \$15.50 the first month and \$10.50 each of the remaining five months. For a husband and wife combination plan the cost is \$23.87 the first month and \$13.87 each of the remaining five months.

For full details and a free one day use of the facilities, drop by the Center. The women's hours are from 9-11:45 a.m. Monday thru Saturday and 7-10 p.m. on Tuesday and Thursday nights. Men's hours are from 11:45 a.m. to 9:30 p.m. on Monday, Wednesday and Friday and until 7 p.m. on Tuesday and Thursday. Saturday hours are from 12-5 p.m.

Basketball League — The final day for entering the 1973-74 men's basketball league is Monday, Nov. 19, at 10 p.m. Only the first 12 teams will be allowed to enter. Entry fee is \$137, which includes all fees. Team members will be required to become a member of the Center or pay a 50 cent player fee each night he comes.

The league is open to all teams either in Pampa or surrounding cities and communities. You may be a church, independent, club, company, etc., team. Competition will start on Nov. 26 and run through February of 1974. Please contact director Smith at the Center to enter.

Thanksgiving Holiday Schedule — The Center will open on Friday afternoon from 1-5 and 7-10 p.m. so the youth may have a place to enjoy some recreation. The swimming pool will be open from 1-3 p.m. and 7-9:30 p.m.

Schedule Nov. 19-25 Monday
4:00 Open: Beginners swim lessons

Swim classes at Pampa Youth Center taught by Jan Robertson and Ruth Carter, WSI, finished beginners and intermediates this week.

Those who passed in beginners Stephen McKinney, Kimberly Carpenter and Raymond Hill.

Those who passed the intermediate class were Dorinda Gray, Dwinpa Treadwell and Bob Steger.

A large number of the group did not complete the course.

South Rises Again
NEW ORLEANS (UPI) — The South's forest-based industries have made a dramatic comeback in the last decade, and by the year 2,000 the region will provide more than half the nation's wood products, according to the Southern Forest Products Association.

The South now accounts for two-thirds of U.S. pulpwood production and 30 per cent of the country's total plywood output. The Association reported Southern Pine lumber production in 1972 amounted to 8.3 billion feet, enough to build about half of the two million housing units expected to be built in the United States this year, it added.

LAWMAKERS' RAISE?
AUSTIN, Tex. (UPI) — Texas political observer Alvin A. Burger thinks better salaries are needed to keep good legislators in the service of the state.

Burger has recommended lawmakers' salaries be raised from the current \$4,800 a year.

"We've seen in recent years an increasing number of our ablest and hardest working legislators compelled to drop out because of the economic hardship to themselves and their families," he said.

EARLY EDUCATION GROWING

You're Never Too Young To Learn!

LUBBOCK — You're never too young to learn! Early childhood education in the United States is on the upswing and may well be the area of the greatest growth in

educational attention during the 1970's, according to a Texas Tech University educator.

Dr. Berlie J. Fallon is talking about the formal education of children as young as the 3-year-old. He is associate dean for graduate studies in the College of Education.

"It is doubtful that either the critics or the rising cost of education will deter the increasing emphasis on the creation of improved educational opportunities that influence the mental, physical and emotional development of young children," Fallon said.

Children apparently develop about half of their intelligence by the age of four years, he explained, while 30 per cent is developed between the ages of four and eight and 30 per cent between the ages of eight and 17.

"The child's intelligence grows as much during the first four years," he pointed out, "as it will grow in the next 13 years."

Although Fallon's interest is in formalized education for the very young, he does not

minimize the effect of the home. He held as "essential" a working partnership between the home and school.

It is not in the three Rs that educators are interested for the youngest children, but in exposure to a variety of environments and experiences, according to Fallon.

He said that it has been shown that a child's environment can account for as much as 40 I.Q. points in formal testing.

"How well and how rapidly children develop their mental model of the world depends largely on their environment," he said. "This intellectual development is increased by expanding the child's environment through carefully planned educational programs."

"The more a child has seen and heard, the greater is his desire to see and to hear," Fallon said. "The greater the variety of things he has learned to cope with, the greater his capacity to cope. Much that traditionally has been taught to older children can and should be taught in the early years."

He described a well balanced

program in early childhood education as one including opportunities for child-selected experiences, time for quiet as well as time for activity, opportunities for individual and for group experiences, and flexible schedules which permit children to pursue their own interests.

The classrooms are arranged around interest centers — arts and crafts, dramatic play, block building, manipulative materials, library, music, display and other areas which attract the young and inspire them to want to learn.

"Early education is beneficial for most children," Fallon said, but emphasized that "it is essential for disadvantaged children because these children suffer from a lag in experience opportunities."

Fallon is the editor of the recently published "40 Innovative Programs in Early Childhood Education" which discusses theory, describes successful program and looks at the future of early childhood education.

Red Cross News

By LIBBY SHOTWELL
The Red Cross Board met at the Black Gold Restaurant Nov. 13, at 7 a.m. John Skelly gave the invocation, and Wayne Wilson, vice chairman, presided in the absence of Norma Briden, chairman.

During the old business standing committees reported with Jack Chisum, WSI, reporting that classes were being held during the winter months at the Youth Center. John Skelly, board chairman, urged the board members to give to the United Fund as this is the way our Red Cross receives their funds.

Nell Carter reported on SMF. She said that we had 31 service cases this month with eight veteran cases, which was an increase over last month. We had four emergency leaves and 12 reports to the military.

Louise Sewell, Hospital Volunteer chairman, reported a new class would be held Friday, Nov. 16, in the Red Cross Office. J.D. Ray, FA chairman, told of the classes held for city services and the adult education group. Classes are scheduled to be held in Miami and Canadian the last of the month.

The program was on Red Cross Youth, directed by Kathy Kille, president of High School Red Cross. Kathy told of the drive being conducted at high school and in the elementary schools.

Mrs. Oran Carter and Libby Shotwell attended the executive secretaries conference in Lubbock Nov. 15. William Schweitzer, manager of the Fort Worth Chapter, with Elizabeth Niccolis, administrative assistant, and Ralph Carpenter, division representative, in charge of the program. The meeting was held at the In-Town Inn and was the first executive secretaries conference to be held in five years. A large group attended.

Swim classes at Pampa Youth Center taught by Jan Robertson and Ruth Carter, WSI, finished beginners and intermediates this week.

Those who passed in beginners Stephen McKinney, Kimberly Carpenter and Raymond Hill.

Those who passed the intermediate class were Dorinda Gray, Dwinpa Treadwell and Bob Steger.

A large number of the group did not complete the course.

WT To Turn Off 2 Natural Gas Main Entrance Torches

AMARILLO — The two natural gas torches marking the main entrance to the campus of West Texas State University in Canyon will be turned off Tuesday, Nov. 20 in an energy conservation move.

The torches, which sit atop two columns at the west entrance on busy U.S. 87, were first lighted Oct. 13, 1966 as a project of the West Texas Ex-Students, Inc.

The flames will be extinguished in a ceremony at 3:30 p.m. in the interest of conserving natural gas for more important uses, said Wayne Rankin of Plainview, president of the ex-students.

In their decision to extinguish the torches for the duration of the energy crisis, directors of the ex-students association also decided to reignite them to commemorate special events on campus.

Two Hereford men were instrumental in the \$8,963 project to beautify the campus entrance. Frank Barrett was president of the former students association when the fund drive was begun in 1964 and Wayne Thomas was president when the construction contract was signed two years later.

Winding Up
A workman winds London's famed Big Ben clock three times a week with a half-horsepower electric motor. The job takes 40 minutes. Before electricity was introduced in 1913, two men labored five hours to complete each winding.

Double-Ring Service Unites Debra Parker-Robert Harris

The marriage of Debra Kay Parker and Robert Walter Harris was solemnized at 8 p.m. Friday, Nov. 16, in Trinity Church of Lubbock.

The bride is the daughter of Mr. and Mrs. Bruce L. Parker, 2601 Duncan, Pampa, and the bridegroom is the son of Mr. and Mrs. Joe Harris of Lubbock.

THE CEREMONY

Rev. Morris Sheats officiated at the double-ring ceremony. Mrs. C. E. Pair, organist, and Miss Barbara Aigner, guitarist, played traditional wedding selections and "There is Love," and accompanied Miss Charlyce Arnold as she sang "The Lord's Prayer," and "The Prayer of St. Francis of Assisi."

The altar was flanked by arched candelabra holding white pillar candles with fresh greenery. The bridal aisle was marked with hurricane globes and greenery with white satin bows and streamers.

THE BRIDE

Given in marriage by her father, the bride wore a traditional formal gown of white a la mode fabric. The form-fitted bodice was trimmed at the high rise waistline with flower patterned Venice lace accented by seed pearls. The decollete neckline was also trimmed with the Venice lace and had ruching of crystal pleating and a la mode ruff underneath. The long slender sleeves were trimmed with Venice lace and the ruching, and fell gracefully to accent the hand. A deep ruffle was caught at the hemline of the skirt by Venice lace, and the ruffle continued around the back of the gown along the cathedral length train. Her fingertip veil was styled with a Juliet caplet that was covered with Chantilly lace, and she carried a cascading bouquet of white stephanotis, roses, and baby's breath trimmed with white picot ribbon and satin leaves.

During the service, the bride presented a red rose bud to her mother and to the bridegroom's mother.

ATTENDANTS

Pam Parker served her sister as maid of honor and bridesmaids were Martha Colville, El Paso, and Debbi Chafin, Waco. They wore identical hot pink crepe jersey gowns styled with a fitted bodice with an oval yoke edged in self-ruffles, high duchess necklines and fitted sleeves accented at the wrist in self-ruffling motif. The softly gathered skirts fell to the floor from a high rise waistline. They carried bouquets of Gigi pink carnations with pink satin bows and streamers.

Joe Young, Lubbock, served as best man and groomsmen and ushers were Carl Whitley and Johnny Moffitt, brother in law of the bridegroom, both of Lubbock.

MOTHERS

The bride's mother wore a floor length gown of pale blue styled with a pleated skirt and lace bodice and sleeves and matching accessories. The bridegroom's mother wore a floor length gown of beige with matching accessories.

RECEPTION

For the reception at the church, the serving table was

MRS. ROBERT WALTER HARRIS
...nee Miss Debra Kay Parker

covered with a floor length cloth of white satin with a white chiffon overskirt and swags. A Mass Flemish arrangement of white carnations, white pom pom daisies, white stock and baby's breath in a five branched candelabrum, centered the table.

A three-tiered cake divided by Grecian columns, decorated with pale pink rose buds and topped with a miniature bride and bridegroom, was served by Mrs. Johnny Moffitt, Lubbock. Mrs. Jeanne Willingham and Mrs. Burnese Browning, both of Pampa, assisted at the punch bowl and coffee service. Registering wedding guests was Mrs. Henry Smith.

For the wedding trip to Galveston the bride wore a two piece navy knit pant suit and lifted the corsage from her bridal bouquet.

The couple will reside in Lubbock at Tech Village, 2902 3rd Place, B-1.

AFFILIATIONS

The bride is a 1971 graduate of Pampa High School and is presently a junior journalism major at Texas Tech University. The bridegroom is a 1970 graduate of Estacado High School, Lubbock, and is presently employed by Machine Supply Company and is a part time student.

PRE-NUPTIAL EVENTS

A shower honoring the bride was held recently in Pampa in the home of Mrs. W.W. Wells. Other hostesses were Mmes.

W.R. Chafin, M.Q. Willson, Jeanne Willingham, and the late Mrs. Wilford McLeod. Hosting a recent bridal shower in Lubbock were Mmes. Jim Maze, Emory Cassell, Lois Futch, Johnny Moffitt, and Miss Barbara Aigner.

OUT-OF-TOWN GUESTS

Guests attending the wedding from out of town were Mr. and Mrs. W.R. Chafin and Robbie, and Jeanne Willingham, all of Pampa; Miss Debbi Chafin, Waco; Miss Martha Colville, El Paso; Mrs. Burnese Browning, Amarillo; Mr. and Mrs. Lewis Tversky, Canyon; Rev. and Mrs. Max Browning, Shallowater; and John Harris, California.

Noise In The Home

COLLEGE STATION — Despite increased interest in controlling "noise pollution" outside the home, many Americans overlook the problem in the home.

"Electrical appliances — such as dishwashers, disposers, vacuum cleaners, washing machines and blenders — are some of the worst noise polluters," according to Lillian Cochran, home management specialist, Texas Agricultural Extension Service, Texas A&M University System.

"Add the effects of cost-cutting building techniques, poorly insulated walls and ceilings, and house location — and there is a definite noise problem."

"Some people feel the answer to noise pollution is simply 'get used to it.'"

"However, those no longer bothered by the noise may not be adapting to it. Instead, they may be experiencing some hearing impairment," the specialist contended.

Homeowners with initiative can take steps to achieve a quieter home, Miss Cochran emphasized.

— Use noise-absorbing materials on floors.

— Hang heavy drapes over windows closest to outside noise sources.

— Use upholstered, rather than hard-surfaced furniture.

— Place foam pads under blenders and mixers.

— Use insulation and vibration mounts when installing dishwashers.

— Install washing machines in the same room with heating and cooling equipment — preferably in an enclosed space.

— Place window air conditioners where their hum can help mask objectionable noises. Try to avoid locating them facing a neighbor's bedroom.

— Select children's toys that don't make intensive or explosive sounds. Some can cause permanent ear injury, besides getting on your nerves.

— Compare noise outputs of different makes of an appliance before selecting one.

Griffin-Wallace

Mr. and Mrs. Joe T. Griffin, Pampa, are announcing the engagement of their daughter, Miss Gayle Ann Griffin, Norman, Okla., to Preston W. Wallace of Oklahoma City, son of Mrs. Betty Crain, Lawton, Okla., and Preston Wallace, Pampa. The wedding is scheduled for Dec. 22 in St. Vincent de Paul Catholic Church. The Rev. Francis J. Hynes, C.M., will officiate. The bride-elect is a senior French major at the University of Oklahoma. She is vice-president in charge of pledge training in the Alpha Phi sorority, and is a member of Angel Flight. Her fiancé is a student at Southwestern College in Oklahoma City and is employed at Houston Lumber Company.

MINERAL SHORTAGE

WASHINGTON (UPI) — The U.S. Geological Survey reports that in addition to the nation's other shortages many minerals that are essential to industry are also in short supply.

In critically short supply are ores of aluminum, chromium, manganese, mercury, silver, tungsten, asbestos and nickel. Joining the critical list soon will be lead, zinc, titanium, uranium, barite and high quality clays.

Rebekah Lodge Presents Twenty-Five Year Jewels

Rebekah Lodge 355 met in regular form with Mrs. John Holt Jr., Noble Grand, in the chair.

Twenty-five year Jewels were presented during a candlelight ceremony. A brief history of Odd Fellow and Rebekah's was given in commemoration of the 122 anniversary of Odd Fellowship on Nov. 11, 1851, in the United States.

Mmes. Eula Berry, Lora Brummett and Hazell Lockhart were presented to the Lodge by acting conductor, Mrs. Homer

McNeil. A brief history of each was given.

Eula Berry joined Rebekah's June 2, 1947, in Skellytown, and transferred to Pampa Lodge Feb. 24, 1969. She is a Past Noble Grand and an active member.

Lora Brummett joined Rebekah's in Pampa Feb. 27, 1947 and being a Past Noble Grand, is an active member in the Lodge.

Hazell Lockhart joined Rebekah's in July 21, 1948 in Vernel, Utah and transferred to

Pampa Lodge January, 31, 1952. She is a Past Noble Grand and active in the Lodge.

The Lodge presented the pins while Mrs. Therman Stapleton, J.W. Brummett and Connie Lockhart pinned the Jewels on the candidates.

A poem was then read by the Nobel Grand, Mrs. John Holt Jr., followed by a piano solo, "Memories" played by Mrs. George Campbell.

Mrs. Eunice Maddox drew the door prize.

A butterfly tastes sweetness with its feet.

Nuptial vows were solemnized Friday, Nov. 16, at 8 p.m. in White Deer United Methodist Church for Twila Jo Jackson and Samuel Dodds Phillips of Stratford.

Parents of the bride are Mrs. Tom Anderwald of White Deer and T.C. Jackson of Groom. Mr. and Mrs. R.H. Phillips of Graham are parents of the bridegroom.

The Rev. Marvin Roark, pastor, officiated for the double

ring ceremony. Mrs. Gregory Rapsstine, organist, accompanied Mrs. Ken Jackson and Mrs. Bill Culver as they sang selected wedding songs. The bride was presented in marriage by her father.

Mrs. Danny Mooney, Woodward, Okla., was matron of honor. Greg Mooney, Woodward, was ringbearer and Kristi Jackson, niece of the bride, was flower girl.

Jerry Martin of Stratford served as best man, and ushers were Roy Dale Wood and Bill Strange, both of Silverton. Don Bradford, Plainview, and

Charlie Mack, Archer City. A reception followed the ceremony in fellowship hall of the church. Karen Jarrett, Ellen Scripper, and Annette Reed, all of Stephenville, and Mrs. Lonny Brown, Groom, all assisted with house party duties. Mrs. Gerald Ray Scribner, Spearman, registered wedding guests.

The couple will reside in Stratford. The bride attended Tarleton State University and Tarrant County Junior College. The bridegroom attended Texas Tech and TSU.

Social Security's Functions Explained To ABWA Members

The American Business Women's Association met at the Quivira Room at Coronado Inn, Tuesday, Nov. 13, at 6:30 p.m. Mrs. Homer McNeil, president, called the meeting to order.

Mrs. Nina Richmond introduced the speaker, H.L. Weatherly with the Social Security Administration office in Pampa. Weatherly explained that Social Security's function is to bring service to the public.

The Pampa office services eight counties in the Panhandle. The Social Security Law was written in 1935, the office set up in 1937 and by 1940 Federal Benefits were being received by eligible citizens. The Pampa office was established a few years ago. Before this period the work was done from the Amarillo office for this area.

Weatherly told the group that in case of disability to contact the Social Security office regardless of age. A person who is working should have their individual earnings records checked every three years to be sure it is correct. Other items to check is the birth certificate and the Social Security Card to be sure the spelling of your name is correct and all information in order. The speaker concluded with a question and answer period which was beneficial to the members.

Mrs. Norman Dulaney gave the vocational talk. She lived on a farm at Hardesty, Okla. when she was small. She attended high school and business school

and went into office work as secretary. She married, raised a family and moved to Pampa in 1942 where she worked as secretary to the theaters.

The Dulaney's later moved to Hutchinson, Kan. where she was an executive secretary, and also joined the American Business Women's Association. They were transferred back to Pampa in a few years, and she was employed by Cabot Corporation. She is now retired.

Mrs. Eugene Franklin who was the delegate to the National Convention in Las Vegas, Nev., told the chapter about her trip to the convention. Some of the interesting sights she saw while there was the famous London Bridge, and she took a tour to Hoover Dam. Her attendance at the convention was rewarding to the chapter.

The minutes of the last meeting, and the executive board meeting were read by Betty Mounce. The report of the treasurer was given by Mrs. Danny Malone.

A recipient was selected for

SWIGGING AUSSIES
SYDNEY (UPI) — Australians last year drank more milk than beer.

They drank 361 million gallons of milk compared with 359.9 gallons of beer. The Commonwealth statistician, John P. O'Neill, said the 13.1 million population also used 635,000 tons of sugar and 1.6 million tons of vegetables in 1972.

the Thanksgiving basket. The chapter will hold a Christmas party at the December meeting with husbands invited as guests.

Mrs. Jewell McNair was guest of Mrs. David McNair, and Mrs. C.A. Herd's name was drawn from the Rocket Fund.

Members attending were Mmes: Homer McNeil, Don Elledge, Fred Richmond, John King, Lloyd Summers, Doyce Shelton, T.A. Mastin, Eugene Franklin, Danny Malone, Fred Glick, Glynda Schickendanz and Betty Mounce.

FURNITURE COMPANY
INCORPORATED

Your Horoscope

By Jeane Dixon

SUNDAY, NOV. 18
Your birthday today: What you have can be consolidated into a workable base of operations from which to build, careerwise. Relationships thrive, take more of your time and attention than is optimum. Today's natives attract strong, sometimes drastic, public responses to their work—the higher level of authority, the more dramatic.

Aries [March 21 - April 19]: Your attendance in church this Sunday should bring you extraordinary inspiration, a glimpse of something beyond your present life style.

Taurus [April 20 - May 20]: Marriage and a whole range of subjects related to it come into general discussion so that your attention is strongly drawn.

Gemini [May 21 - June 20]: Begin very early, take everybody into your confidence. Plan and carry on with a round of social contact, renewing old acquaintances.

Cancer [June 21 - July 22]: In some way or other, make today a novel experience. If you must stay with routine, try seeing the whole situation in a different light.

Leo [July 23 - Aug. 22]: Now is the time to radiate sunshine and forgiveness and gently draw divided family members into cooperation, agreement.

Virgo [Aug. 23 - Sept. 22]: Accept Sunday as a true holiday, in the strict sense of the word, to be lived in serene enjoyment of simply being alive.

Libra [Sept. 23 - Oct. 22]: Although this is the day for observance of spiritual reality, you receive information which later adds strongly to your material resources.

Scorpio [Oct. 23 - Nov. 21]: Round up your friends by whatever schemes or coaxing they will accept. Through an expression of group agreement, get something done for your local community.

Sagittarius [Nov. 22 - Dec. 21]: Set a sterling example, casually, but say nothing. [Those who cannot see the point for themselves won't benefit from an explanation.]

Capricorn [Dec. 22 - Jan. 19]: Being up early and busy to fulfill community expectations of you is helpful. Taking time for meditation goes yet further.

Aquarius [Jan. 20 - Feb. 18]: Paying attention to the needs of others means listening to what they say rather than piling onto them some imagined benefit.

Pisces [Feb. 19 - March 20]: You can abandon long-established Sunday routines for a change. Enjoy a pleasant outing, shared entertainment. A time to relax.

MONDAY, NOV. 19

Your birthday today: Symbolic expression of inner changes is reflected in your individual behavior. Business and career success fluctuates, as do established relationships. New contacts

may not last. Today's natives are hardworking, speak the truth as they understand it.

Aries [March 21-April 19]: If it's a matter of your pride or the apology you owe, then let your pride suffer and save the relationship.

Taurus [April 20-May 20]: Other people can't be bothered worrying about your problems. Take first things first, at reasonable rates, and let that be sufficient.

Gemini [May 21-June 20]: Extravagance or exaggeration is not the solution. Time out for reflection will give you intuition for the right move.

Cancer [June 21-July 22]: Inconvenient personal situations hinder both career and home life expression. Your reaction to adverse comment affects future.

Leo [July 23-Aug. 22]: Tedium, boredom, possible today. If so, you are in need of attention beyond what you are getting. At best, it's a quiet, but useful, day.

Virgo [Aug. 23-Sept. 22]: That which is asked of you so freely and casually today may turn out to have ramifications beyond your capacity to cope.

Libra [Sept. 23-Oct. 22]: It takes all day to get at the core of the problem of the moment, but late this evening you have the chance.

Scorpio [Oct. 23-Nov. 21]: Consider how you feel about what you are doing or about to do. If not to your liking, it is up to you to make changes.

Sagittarius [Nov. 22-Dec. 21]: Awkwardness of word or movement gets you off to a difficult start. A practical remedy can be found in actions rather than words.

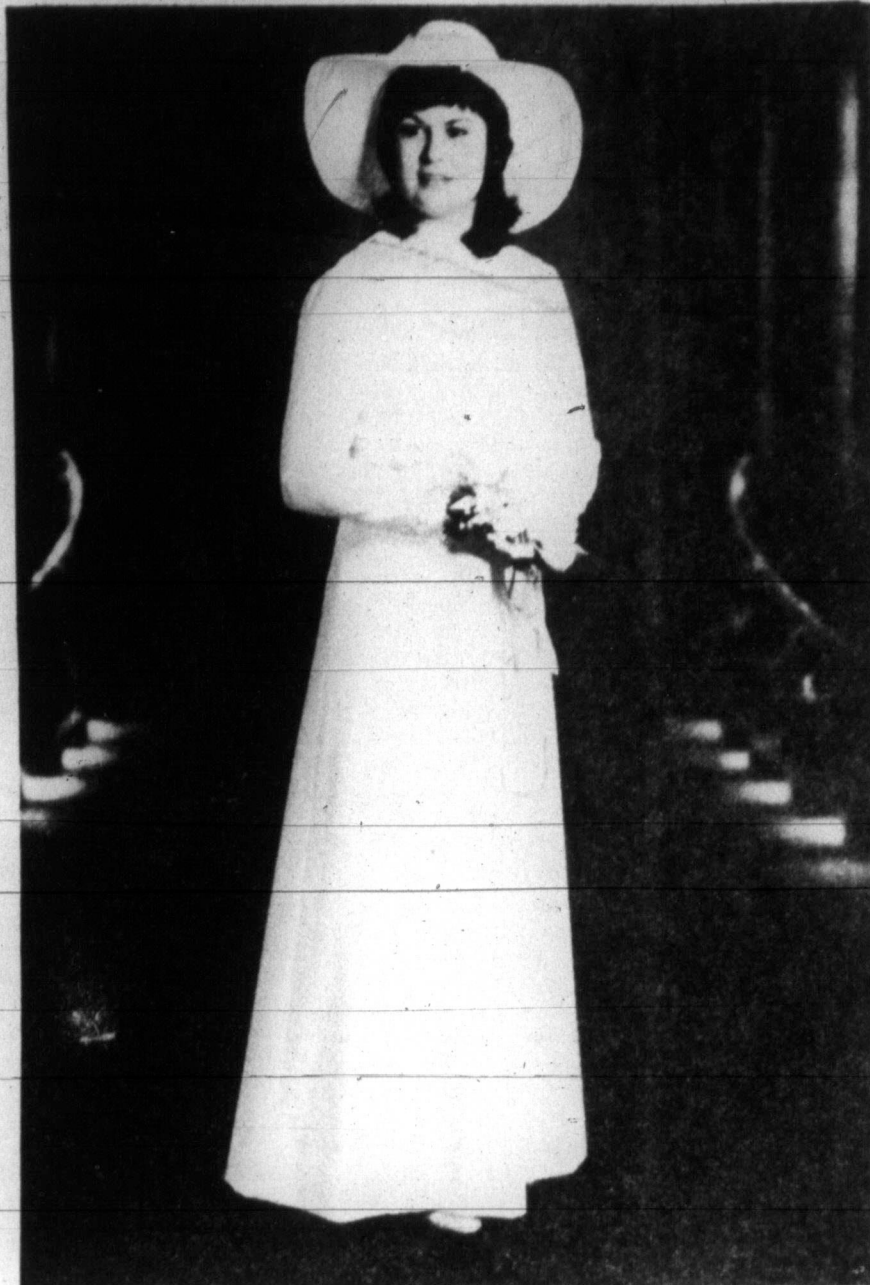

Capricorn [Dec. 22-Jan. 19]: Some sort of showdown makes it quite clear an error has been permitted. It's too late for correction, therefore requiring forgiveness.

Aquarius [Jan. 20-Feb. 18]: If you have a complaint, skip the reasons. Without condemnation, stick with a brief version of what is to be done next.

Pisces [Feb. 19-March 20]: Following a relatively expensive weekend, you owe it to yourself to reduce spending to the most conservative budget feasible.

WATER CLEANER
COLLEGE STATION, Tex. (UPI) — Engineers with the Texas Agricultural Experiment Station have developed a simple, cheap machine that may enable millions of farm and rural families to have clean, pure water and also help relieve the chlorine shortage in the water purification plants of many cities.

Dr. Ed A. Hiler, engineer in charge of development of the machine, says it uses the salts already present in water to kill germs that may be present in the water. It also clears out particles that give some water color and improves the taste.

MRS. TERRY LYNN CAUTHEN
nee Miss Carol Ann Lowe

Lowe-Cauthen Vows Are Said Saturday

Miss Carol Ann Lowe became the bride of Terry Lynn Cauthen, Saturday Nov. 17 at 7 p.m. in Central Baptist Church parlor Pampa.

The bride is the daughter of Mr. and Mrs. Norval R. Lowe, 408 Lowry. Parents of the bridegroom are Mr. and Mrs. Sam C. Cauthen of Dumas.

THE CEREMONY
—Officiating for the double ring ceremony was the Rev. M. B. Smith. Miss Marla Savage, pianist, and Dickie Hudgins, guitarist and vocalist, played and sang traditional wedding selections and "The Lord's Prayer."

The ceremony was performed before palm trees flanked by two floral arrangements.

THE BRIDE
The bride, given marriage by her father, wore a formal gown of white Alaskan. The high-rise fitted bodice featured a high round neckline edged in lace and the long tapered sleeves ended in lace cuffs. The floor-length skirt was highlighted with panels of lace and she wore a garden hat with her veil attached to a grape cluster of lace.

ATTENDANTS
Maid of honor was Susan Lowe, sister of the bride, Pampa. She wore a floor-length coral gown of polyester crepe styled with long sleeves and a rolled collar. The empire waistline was complemented by a belt and she carried a mixed rainbow hand bouquet.

Dickey Melvin Hudgins, cousin of the bridegroom, Clovis, N.M., served as best man.

MOTHERS
The bride's mother wore a brown and beige knit dress of houndstooth check with brown accessories, and the

bridegroom's mother wore a black and white coordinated double knit dress and vest with black accessories. Both wore corsages of pink sweetheart roses.

RECEPTION

The reception was held in the parlor of the church, and music was provided by Marla Savage. The serving table was covered with a white cloth and centered with a candelabrum holding six tapers, entwined with greenery and white frosted grapes. A rainbow color motif was used in cake decorations. A shower of dainty pastel flowers bloomed amid swags and drapes and a miniature bridal couple topped the cake. Silver and crystal appointments were used. Mrs. Raymond Boyles, Pampa, assisted at the punch bowl and coffee service and Mrs. Allen Deputy, Amarillo, served cake. Miss Lee Ann Cantrell, Pampa, registered wedding guests.

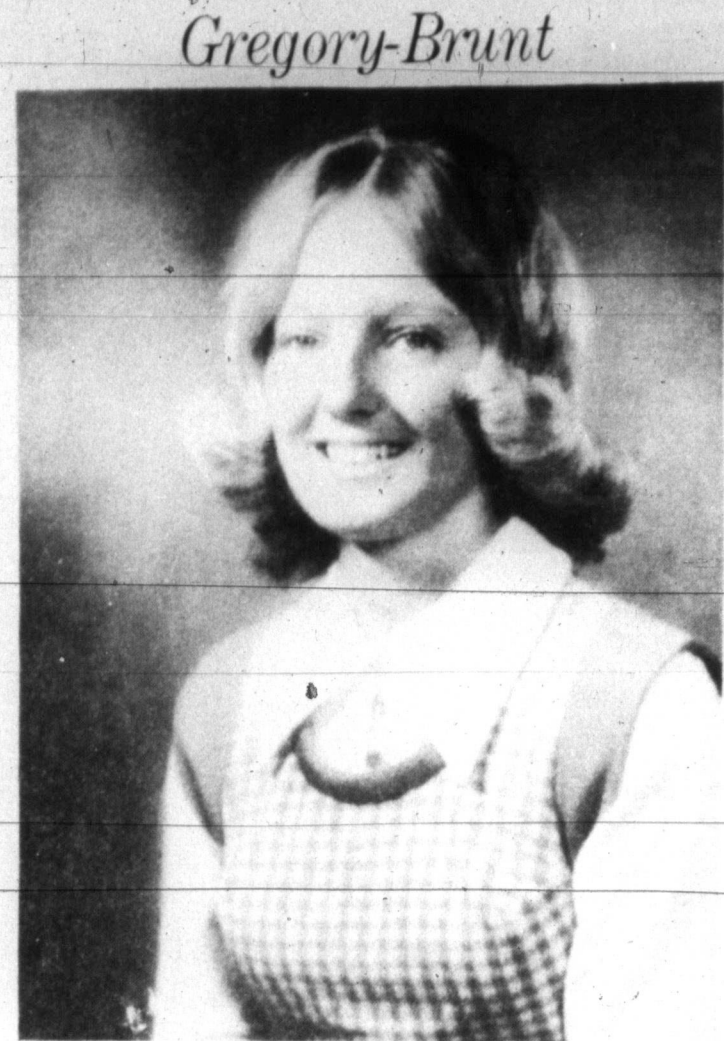

For the wedding trip, the bride wore a camel and grey plaid pant suit with camel accessories. The couple plans to reside in Dumas.

AFFILIATIONS

The bride is a 1972 graduate of Pampa High School and graduated from Pivot Point International Hairdesign in September.

The bridegroom is a 1970 graduate of Dumas High School. He attended West Texas State University and is presently employed by Woody's Furniture Store in Dumas.

PRE-NUPITAL EVENTS
The bride was honored with a miscellaneous shower recently in fellowship hall of Central Baptist Church, hosted by Mrs. Dean Davis and Mrs. Bill Noblitt.

Miss Shelia Ann Gregory and Gaylord (Butch) Brunt will wed at 7:30 p.m., Dec. 22, in the home of the bride's parents, Mr. and Mrs. Elijah Slate, 453 Harrah, Miami, Tex., who are making the announcement. Parents of the prospective bridegroom are Mr. and Mrs. Glenn Howardton of Pampa.

NOTICE CLUB REPORTERS
The following deadlines and procedure on club news reports will be as follows:
All reports must be TYPED and TRIPLE spaced and must be submitted by 12 noon Wednesday to appear in Sunday's edition.
If clubs will file a copy of their new yearbooks at the News office, information concerning meeting dates will be used for the weekly social calendar.
If there are any questions, contact, Bobby Combs, Women's Editor, Pampa Daily News, 669-2525.

Gabelmann-Warren

The engagement of Lynn Marie Gabelmann and John Wayne Warren of Austin is being announced by her parents, Mr. and Mrs. W.L. Gabelmann, 2564 Aspen. Parents of the prospective bridegroom are Mrs. Helen Manning and Thomas M. Warren of Beaumont. A private ceremony in the Episcopal Church of Pampa is being planned for Jan. 4. The bride-elect is a nursing student at the University of Texas at Austin, however, is working for Dr. Frank Kelley this semester. Her fiancé is a senior at UT and plans to graduate from the school of business in May, 1974.

EL PROGRESSO CLUB
El Progreso Club met Nov. 13, with Mrs. J.F. Curtis, hostess. The meeting was called to order by Mrs. O.K. Gaylor, and Mrs. Carlton Nance led the members in the womens collect. The roll was called by Mrs. Ralph Palmer, who also read the minutes of the last meeting, which were approved. The treasurers report was given by Mrs. R.A. Keagy.

Christmas gifts for Wichita Falls Hospital will be brought to the next meeting. Mrs. Roy McMillan presented Mrs. Kermit Lawson, who gave the program, "What Every Women Should Know About A Car." She brought out facts and statistics, stating that women are more safety conscious than men, and a five minute safety check before starting on a trip, including a check on brakes, signal lights, lights, tires and steering. Womens greatest fault is failure to yield rightaway she concluded.

Those present were Mmes. Richard Bray, J.F. Curtis, Glen Dawkins, O.K. Gaylor, Verl Hagaman, R.A. Keagy, Kermit Lawson, Roy McMillan, Carlton Nance, Ralph Palmer, Tom Perkins, Max Presnell, and Glen Radcliff.

Nov. 27, Mrs. Roy McMillan, 2217 Chestnut, will be hostess with Mrs. Richard Bray, presenting the program.

McClure-Pickens

Mr. and Mrs. O.L. McClure of Miami, Tex., are announcing the engagement of their daughter, Gayla Mae McClure to Noland Gene Pickens, son of Mr. and Mrs. Warren W. Pickens, Jr., of Canadian. A Dec. 29 wedding is being planned in Central Baptist Church of Pampa, Tex. The bride-elect is a junior accounting major at Texas Tech University. Her fiancé is a senior agriculture major at TTU.

OPTI-MRS CLUB
The regular monthly meeting of the Opti-Mrs. of Pampa was recently held in the Optimist Club Building. Judy Becker, president, called the meeting to order with 13 members and one guest present. Carol Cofer read the treasurer's report and reported on the Halloween party given last month, jointly with the Optimist Club.

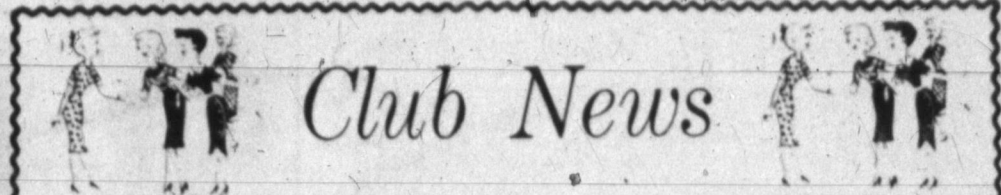

All members were invited to the Youth Appreciation Banquet and a decoration committee was appointed. The club will again donate a Thanksgiving basket to Genesis House with Mim Secrest in charge of getting the basket ready for delivery. All members wanting to make a personal donation are asked to take it by the home of Mim Secrest.

Two quiz games were played by those present. Jane Skinner asked questions concerning television advertisements and those guessing the most items advertised won prizes. Loretta Dunnam and Amy Bynum won the TV game. Another quiz game was played concerning football players, the winners of this game being Judy Doom and Virginia Grayson.

A Certificate of Appreciation has been presented to Jane Skinner for outstanding work for the Opti-Mrs. Club of Pampa.

All members are now selling tickets for 20 books of stamps to be given away Dec. 10. Amy Bynum, Judy Doom and Carolyn Waller were welcomed as new members.

The meeting was adjourned and refreshments served.

LADIES BIBLE CLASS
The Ladies Bible Class of the Church of Christ met recently at the church with Mrs. Mary Cousins teaching the lesson, "The Sermon on the Mount." Those in attendance were Mmes. D.C. McCarthy, C.E. Terry, Benny Woodward, Bill Wood, David Purcell and son David, and the teacher, Mrs. Cousins.

MANN PTA
Horace Mann PTA executive board met recently, and Fund Night was determined a success. Mmes. Fay Adams, James Brumley, Marvin Roark, Pat Lee, Betty Baxter and Dorothy Miller were appointed to serve on the project committee.

It was announced that PAFLE Study Course would be held Jan. 4-11, 18, 25 and Feb. in Pampa.

Mrs. Archie Maness, president, presided at the meeting.

The First Fifty Years Is Program For DKG

A program on "Delta Kappa Gamma, the First Fifty Years," was presented at a meeting of Theta Delta chapter, Saturday morning in the Heritage Room of the First National Bank, Panhandle.

Music was provided by the Patriettes, a group of girls from the First Baptist Church, Panhandle, under the direction of Mrs. Douglas Smith.

Mrs. Calvin Murray conducted a "Woman On the Street" interview, during which Mrs. L.R. Copeland mentioned the recruitment program sponsored by the chapter whereby a \$100 grant is made each year to a high school senior girl who plans to become a teacher.

Mrs. Jack Williams spoke of the spiritual fellowship created by Delta Kappa Gamma through the World Fellowship Fund, travel study programs, seminars, and other world-wide projects, and Mrs. Edward Weins stressed the leadership phase of the organization.

The program then turned to a court room scene with Mrs. John Vantine, president, as judge; Mrs. Charles Burk, prosecuting attorney; Mrs. Lem Greene, defense attorney; and Miss Marjorie Ewing, court reporter.

Witnesses were the past presidents who are still members of the chapter. Miss Mary Ewing witnessed to the "Outstanding Achievements of Delta Kappa Gamma," Mrs.

Murray to the "Unique Fetures of the Society," Mrs. I.E. Padgett, the "Great Strengths of the Society in Relation to the Education Profession and to Women," and Miss Mary Dean Dozier, "Some of the Weaknesses of the Society."

Miss Claudia Everly, foreman of the jury composed of Mrs. Elbert Walker, Mrs. W.L. Parker, and Mrs. Aubrey Jones, mentioned some future goals of the society and ways and means of reaching those goals. In particular she recommended emphasis on citizenship and patriotism, expansion of the "exchange teacher" plan, and extension of the scholarship program to encourage more teachers to study abroad and to establish contacts with people of other cultures.

In the business meeting, the resignation of Miss Elena Ann Donald was accepted, and seven new members were elected. Announcement was made of the transfer of Miss Evelyn Chamberlain to Beta Delta chapter and Mrs. Frank Hawkins to Gamma Theta chapter. Mrs. Freeman Melton Jr. and Mrs. Charles Gill were changed from associate to active membership since they have returned to teaching, and Mrs. Jayne Sadler was granted leave of absence because of illness.

A letter was read from Mrs. Frances Lowrance, state president, in which she commended the skit written by

Miss Marjorie Ewing and presented at a recent regional meeting in Booker, and requested that a copy be sent her for her files.

Mrs. Parker presented a request for Betty Crocker coupons and Christmas gifts for Girlstown.

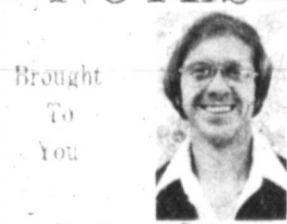

A statement of the urgent need for funds for the Stillwell Retirement Home for Teachers in Waco was made and members encouraged to contribute to that home.

Hostesses for the meeting were Mmes. Melton, Copeland, J.R. Hogge, and Sister M. Valentina. Twenty-three members were present.

The next meeting will be a joint initiation and luncheon with Beta Delta chapter Dec. 8, at the Coronado Inn.

Oklahoma City is the largest city in the nation to have a woman mayor. Mayor Patience Latting was elected to a four-year term in 1971.

FASHION NOTES

by Doug Coon BEHRMAN'S

A coat... whether suede or leather... is skin-tillating, indeed... What a package to find wrapped under one's tree.

Pleasant dreams... That's what she'll have if you're thoughtful enough to gift her with a long gown of brushed nylon... delicately touched with lace.

Matte jerseys... made into long shirtdresses... which just s-k-i-m the body... have the POW of a real head turner.

The warm glow of brocade... designed for glamorous holiday gatherings... illuminates the night like a sudden burst of moonlight on the pure white snow.

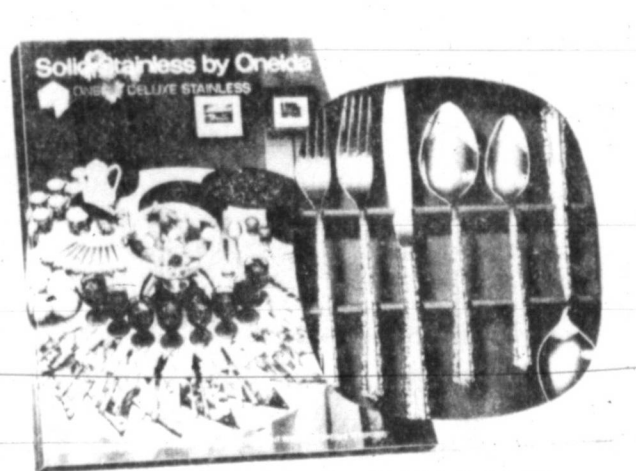

Remember, fashion is your best SOCIAL security.

Farnsworth-Zumstein

Nuptial vows will be exchanged Friday, Jan. 4 in Central Baptist Church by Miss Cindy Lee Farnsworth and Don Zumstein, Jr. The announcement is being made by Mr. and Mrs. Bill Farnsworth, 200 Tignor, parents of the bride-elect. Mr. and Mrs. Don Zumstein, Sr., Vancouver, Wash., are parents of the bridegroom - to-be Miss Farnsworth is a 1973 graduate of Pampa High School and is presently employed by Pampa Independent School District as a headstart kindergarten aid at Baker school. The prospective bridegroom is a 1972 graduate of Ridgefield High School, Ridgefield, Wash. He is presently employed by Panhandle Equipment Co. of Pampa. He will continue his studies to be a commercial pilot at Emery School of aviation, Greeley, Colo., following the wedding.

PAMPA MUSIC TEACHER'S
The November meeting of the Pampa Music Teacher's Association was held recently in the sanctuary of the Presbyterian Church Organist, Jerry Whitten presented the program on the Hugh Burdette Memorial Allen Organ. His selections were "Adagio Sonata I" by J.S. Bach and "Come Saviour of the Heavens" from "The Eighteen Great Chorale Preludes". Mrs. Darville Orr, organist, played "Meditation on Silent Night" arranged by David Paxton. "They Will Know We Are Christians By Our Love"

arranged by Fred Bock and "In Peace and Joy We Now Depart" by J.S. Bach were played by Mrs. Carrol Goad, organist. Jerry Whitten closed the program with "Choral" by Joseph Jongen. Following the program, Whitten discussed the tonal resources and showed the flexibility of the Allen Organ in sound and performance. Those attending were Jerry Whitten, Mrs. Carrol Goad, Rev. Martin Hager, and Mmes. Robert Eubanks, Gary Henderson, Harold Starbuck, Lois Fagan, Carl Shafer and Darville Orr.

Secretary too private
for jealous husband

By Abigail Van Buren

DEAR ABBY: My wife is the private secretary to an important executive. She called me at work to tell me she was at her boss's HOUSE for a few hours to take dictation. She said he was on his "vacation" and was afraid if he went to the office he'd get tied up there all day.

I hit the ceiling, and told her in no uncertain terms that I didn't like the idea. She assured me that her boss's wife was home so I should simmer down.

An hour later I phoned the boss's house to make sure his wife was home. [She was.] Then I asked to talk to the boss. I told him it was O.K. this once to have my wife working at his house, but I didn't like the idea, and not to ask her again.

Well, Abby, since that happened my wife has been boiling mad at me. She said I humiliated her before her boss and his wife, and if I ever did that again, she would divorce me!

She insists I don't trust her. I do trust her, but I don't trust her boss. Do you think I was wrong to check up on her, and tell her boss how I felt? FRANKLY JEALOUS

DEAR FRANKLY: Yes. You showed an insulting lack of confidence in both your wife and her boss.

DEAR ABBY: I'm in love with a man who is attractive, hard-working, honest, sober, and morally sound, but he has one failing that absolutely drives me up a wall. He is cheap from the word go!

When he takes me out [which isn't too often] we always go to the least expensive place he can find. And there can be a parking lot right next to where we're going, but he drives around for half an hour to find a parking place on the street.

He tells me not to buy him anything for Christmas, because he hates to shop, and he's not buying ME anything.

Abby, I realize that he was poor when he was young, but he makes good money now, and has only himself to support.

He says he loves me, and we're discussing marriage, but I'm wondering what marriage would be like with a man who's so tight with his money. He's a beautiful person otherwise. Do you think he'll ever change? FRUSTRATED

DEAR FRUSTRATED: He's a creature of habit. I doubt if he will ever enjoy spending money, but with some gentle prodding, you could loosen him up a bit. When discussing marriage, don't forget to discuss budget, or you and this "beautiful person" will be having money fights for the duration of your marriage.

DEAR ABBY: My husband, who is 63, has expressed the desire to move to either Arizona, California, or Florida when he retires. He says he is tired of battling the Nebraska winters and wants to take it easy in a milder climate.

Abby, we've spent all our lives here, and all our family and friends are here, and I can't see us picking up and leaving all this behind to start all over again.

I'm not crazy about the winters here, either, but climate isn't everything. Don't lifelong friends, and family mean anything?

Please help me convince my husband that this is no time to pull up stakes and settle in a strange place with a bunch of strangers.

Or do you think maybe I'm the one who's wrong? He's even talking about a mobile home, or a senior citizens community. IN A DAZE

DEAR IN: Don't make any decisions until you get a preview of the place your husband has in mind. You may be pleasantly surprised.

CONFIDENTIAL TO DOROTHY N.: Lord Byron took the words right out of my mouth when he wrote:

"All who joy would win
Must share it.
Happiness was born a twin."

Hate to write letters? Send \$1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Cal. 90212 for Abby's booklet, "How to Write Letters for All Occasions."

Minnick-Gage

Mr. and Mrs. Junior A. Minnick, south of city, announce the engagement of their daughter, Sherry Jean, to Stephen Earl Gage, son of Mr. and Mrs. Rex Gage, 639 N. Faulkner. The bride-elect is a Junior at Pampa High School. The prospective bride-groom is a 1973 PHS graduate and is employed by Cabot Corporation. A spring wedding is planned.

Religion Is Varietas Topic

Mrs. Lee Harrah and Mrs. Lloyd Hamilton presented the program for Varietas Study Club on Tuesday afternoon in the home of Mrs. W.H. Burden. Mrs. Clyde Ellis, club president, presided. Mrs. Don Max Vars of Canyon spoke on the value of federation, after which the club voted to stay in the Texas Federation of Women's Clubs.

The afternoon's program topic was religion and carried, in the heading, the quotation, "True Religion shows its influence in every part of our conduct, it is like the sap of a living tree, which penetrates the most distant boughs." Mrs. W.H. Burden, program chairman, introduced Mrs. Lee Harrah, the speaker.

Mrs. Harrah's topic was "Is Religion Out of Date?" and she based her talk on Christian literature, some of which was written by Christian martyrs who were victims of the Nazis in World War II. She began by saying, "There is a difference between religion and

Christianity. Religion serves as the garment in which Christianity lives. This garment began to change around 1945 and is still changing. Some people developed a religionless Christianity, feeling no need for God."

She explained, however, that true Christianity has never changed. She said that the old religion which required set forms of worship, dull rituals, and songs without rhythm is moving into faster and more meaningful singing, the use of instruments than the organ, news orders of service, and other worthwhile changes. She told her audience, "Our Christian faith is stronger than ever now, due in part to the spiritual awakening among the young people of America."

In my opinion, the three greatest pieces of literature will always be the Lord's Prayer, the 23rd Psalm, and Lincoln's Gettysburg Address. We must assist the Christian revival, each in her own way," she concluded.

Following the talk, Mrs. Hamilton sang "How Great Thou Art" and "Bless This House." Roll call was answered by each member of the club speaking briefly on her favorite book of the Bible.

PROGRESSIVE HD CLUB
The Progressive Home Demonstration Club met in the home of Mrs. J.A. King, 1148 Prairie Drive, at 2 p.m. Nov. 13. Mrs. J.A. King, president, opened the meeting with the club prayer. Roll call was answered with "my favorite hymn."

Plans were made for the Christmas party to be held at the annex Dec. 3. Mrs. Ted Kendall was welcomed as a new member.

Members present were Mmes. Grady Grant, J.A. King, J.T. King, E.A. Revard and E.P. Templin. Guests were Mmes. E.L. Trumm, Ruby Myers and Leah Hoffman. Hayward, Calif.

Members enjoyed cherry frozen dessert, cake and brownies. Door prize was awarded to Mrs. Hoffman.

Next meeting will be the Christmas party at the annex Dec. 3, at 2 p.m.

Child Development Project Completed After Three Years

SAN ANTONIO — A three-year project, in which 78 teens taught toddlers and preschoolers, reached completion here Wednesday (Nov. 7) with a press day and graduation ceremony at Memorial High School for participants and their parents. The demonstration project operated on a pilot basis in a predominantly Mexican-American sector of San Antonio. "It revolved around the theory that teens, ages 14-17, could teach toddlers and preschoolers—in an attempt to begin breaking the chain of cultural deprivation that affects so many children and youth," according to Lucinda Brunson, Extension agent - child development and project director. Participants included not more than 30 teens at any one period — who acted as teachers and as observers, the toddlers and preschoolers, and parents of both age groups," she explained.

Activities centered on weekly teaching sessions, with each teen teaching and partner teen observing and recording. "Other activities included weekly training meetings for the teens and periodic group meetings of teens and parents." The project was developed and implemented by the Texas Agricultural Extension Service, Texas A&M University System, in cooperation with and through support by The Sears-Roebuck Foundation. "Through this project, we hoped that the youth could see the importance of an enriched environment and the stimulation of young children, so they would be better prepared for parenthood," Dorothy Taylor, Extension family life education specialist, noted. "To increase the youth's potential for successful parenting, our immediate objectives were that youth would increase their competencies to interact with young children in order to bring about the maximum development of the children. "We feel we achieved those objectives." Evaluation shows that the adolescents' and the preschoolers gains surpassed all expectations. Early childhood development contributes significantly to the success of the young adults who will lead Texas tomorrow," Dr. John E. Hutchison, Extension Service director, observed of the project. "One of the most important things that has come out of this project is that it provides information which will be helpful in carrying out similar educational programs in the state," Mrs. Florence W. Low, Extension assistant director for home economics, said. "According to project planners, background for developing the program was gained "through 50 years of experience in working with Texas youth and adults" by the Texas Agricultural Extension Service. "Of particular value in conducting this project was an earlier experience of the Extension Service in a pilot effort aimed at involving Mexican-American families in informal educational programs," Dr. Daniel C. Pfannstiel, Extension associate director, said. "Through a seven-year research project conducted in El Paso, methods for more effectively reaching this particular audience were identified," he noted. Considering child- and parent needs as identified by the Governor's Task Force on Early Childhood Development in a progress report on the State of Affairs in Texas concerning Early Childhood Development, the San Antonio project was concerned with combatting four areas: defined as sources of deprivation, planners explained. "They listed the areas as lack of an adequate variety of stimulating experiences in the home, lack of adequately planned experiences in settings other than the home, poor language models, and handicapping conditions due to physical, mental and emotional health.

Dorris-Maness

The engagement of Marsha Kaye Dorris and Richard Alan Maness is being announced by her parents, Mr. and Mrs. Robert N. Dorris of Mansfield. Parents of the prospective bridegroom are Jimmie Maness of Ft. Smith and Mrs. Zada Maness of Greenwood. Miss Dorris is also the granddaughter of Mr. and Mrs. D.L. Allen, 1301 Rham, Pampa. The bride-elect is a graduate of Mansfield High School and is presently attending Westark Junior College. Her fiancé, also a graduate of Mansfield High School, attended Westark for two years. He is currently attending Quachita Baptist University. The wedding is being planned for 7 p.m., Friday, Dec. 28 at Jamesfork Baptist Church.

Church News

FIRST BAPTIST W.M.U.
 The W.M.U. Ladies of the First Baptist Church, Skellytown, met recently in the Fellowship Hall for a Royal Service program. The meeting opened with Mrs. Clarence Kaiser reading the prayer calendar and Scriptures, John 7:45-53, and Mrs. M.L. Mills giving the special prayer. The program was medical help for Paraguay. Those having parts on the program were Mmes. Irvin Brown, M.L. Mills, Myrtle Thompson, Gene Pace and Bill Price. Mrs. Irvin Brown, director, presided for the business meeting. After the program, the group observed a day of prayer led by Mrs. Walt Shair and dismissed by Mrs. Irvin Brown. Attending the luncheon were Mmes. Bill Price, Irvin Brown, Gene Pace, Myrtle Thompson, M.L. Mills, Clyde Horner, Bill Campbell, Walt Shair, Clarence Kaiser, and Roy Paul Thurmond.

By Oswald & James Jacoby

One reason for the great success of Italy's Blue team is that they don't bid psychics and they seem to be able to take full advantage of the opportunities given them when an opponent bids a psychic against them. Today's hand is taken from the finals of the 1957 World's championship. The American South decided the time was ripe to try a psychic heart bid. Giorgio Belladonna, sitting West, passed to await developments and they came with delightful speed. The American North jumped to three hearts. Walter Avarelli, sitting East, passed, as did South. Belladonna doubled and the rest passed. Belladonna opened the king of diamonds and shifted to the five of hearts. South could have escaped for a loss of 800 by letting that trump ride toward his nine, but South went up with the ace and eventually was down 1100. To make matters worse, East and West had no game.

Farmcast

A Weekly Report Of Agri-Business News
Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

Down and Up... Changes in Regulations... Fuel Problems... Red Meat Production Declines.

A seven per cent drop in the all farm products index of prices for Texas farmers was noted by the Texas Crop and Livestock Reporting Service.

The livestock and livestock products was down nine per cent and the all crops index was down five per cent below a month ago.

Prices received by farmers for hogs, beef cattle and calves were down from a month ago. Corn and grain sorghum prices were also down from a month ago.

Ten commodities were above parity. Wheat at \$4.23 per bushel was 73 cents per bushel above parity. Rice is almost \$5 above parity. Potatoes are 54 cents above the parity ratio of \$4.31 per hundred weight.

In livestock categories, hogs at \$39.80 average are \$2.80 above parity. Calves averaged \$58.30 which is \$4.30 above parity. Sheep at \$17 are \$4.50 above parity. Beef cattle are \$2.60 under parity; lambs are \$12 under parity. Grain sorghum at \$3.47 per hundred is 50 cents below parity. Cotton at 37.5 cents per pound is almost 30 cents under parity.

Egg prices averaged 57.9 cents per dozen which is almost six cents below last month and six cents below parity. Mohair at \$2.40 per pound is about 90 cents above parity; wool at 97 cents is about 25 cents under parity.

REGULATIONS relating to cattle scabies and brucellosis are affecting some Texas counties.

Federal quarantines for cattle scabies were lifted from Parmer and Potter counties. Castro and Deaf Smith are still under quarantine. Scabies are caused by tiny parasitic mites that puncture the skin of cattle and feed on the body fluids released through the wounds. Scabies does not affect the animal's meat, but can cause loss of weight and decreased feed efficiency.

Health regulations governing interstate shipment of breeding cattle from 11 counties in Texas have been changed.

The action was based on the counties' compliance, or lack of compliance, with state-federal requirements aimed at eradicating brucellosis.

Kenedy County regained its modified-certified brucellosis area status while Baylor, Bell, Cass, Henderson, Leon, Mitchell, Navarro, San Saba, Tom Green, and Uvalde counties lost their status for failing to meet certain minimum requirements of the eradication program.

FUEL problems continue to haunt Texas agricultural producers. Diesel at present appears to be causing the most concern. LP gas is in short supply in some areas. The general situation seems to be one of confusion, especially concerning the mandatory allocation of diesel.

Fertilizer shortages are also being reported as are occasional reports of lack of baling wire.

RED MEAT production in Texas is down four per cent in September compared to a month previous and seven per cent under a year ago.

Cattle slaughtered in Texas totaled 268,000 head, which is 22,000 below a month ago and 32,000 less than a year ago.

Nationwide, commercial production of red meat is 13 per cent less than a year ago. Beef production was 13 per cent less than September of 1972.

Nominations Completed For County Committee

Four names will be on the ballot in the annual mail election for the Gray County Committee, according to Evelyn Mason, County Executive Director of the Agricultural Stabilization and Conservation Service (ASCS).

Nominated for election are the following: Richard S. Bowers, L. Keith Davis, Dean H. Burger and Fred S. Vanderburg, Jr. All these men farm in the Grandview community, as the vacancy on the county committee will be from that community.

The ASCS Committee administers federal farm programs locally in Gray county. This consists of the wheat, feed grain and cotton programs, CCC-loan programs and all other local programs. Ballots will be mailed on

November 15 to all persons eligible to vote in the ASCS County committee election. Final date for mailing back voted ballots or for dropping them off at the county ASCS office is December 3. Ballots will be counted on December 6 in the county ASCS office with the public invited to attend.

Farmers eligible to take part in ASCS programs are eligible to vote. Voting eligibility is determined without regard to race, sex, color, religion or national origin. A list of eligible voters is on file in the county ASCS Office, Pampa, Texas and is available for inspection.

Current members of the county committee are Paul R. Bowers, Chairman, Tony R. Smitherman, Vice - Chairman and Henry Harnly, Member.

County Farmers Urged To Use Good Practices

Farmers in the Gray County area who bring additional land into crop production in 1974 are being urged to use sound conservation practices.

Mickey Black, District Conservationist for the U.S. Soil Conservation Service in Pampa, said conservation measures not only protect the soil from erosion but also increase production.

"Some people are predicting farmers will bring several thousand acres of former 'set-aside' acreage back into crop production in Texas in the next year," Black said. "This is considered to be the best and quickest way to check food price increase.

"But it's also the quickest way to increase dust storms, sediment pollution, and other erosion problems unless sound conservation measures are installed," Black pointed out. "There is a lot of land in our area which can be used for cropland safely if managed

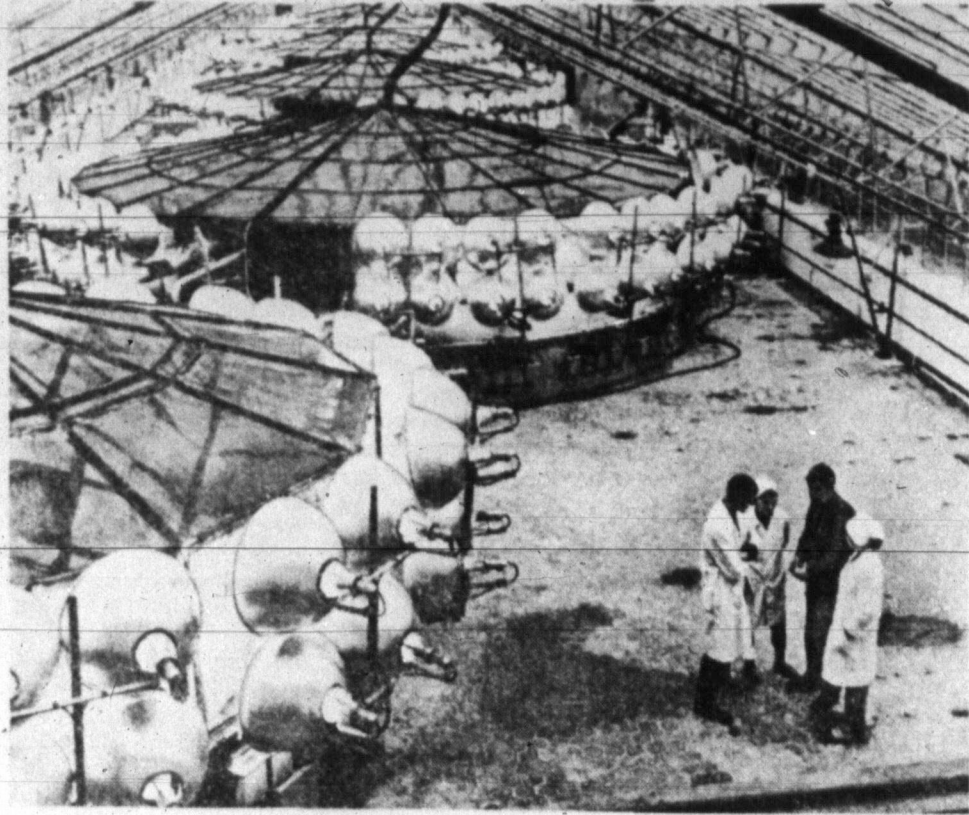

properly," Black said. "Yet there are other soils which are so susceptible to blowing or washing that they should never be used for crop production."

Black said he hopes farmers will use soil survey information available from his office before putting new land in production.

Black said he hopes farmers will use soil survey information available from his office before putting new land in cultivation.

"Soil surveys have been made on all the land in Gray County," Black said. "These surveys show which soils are best suited for crop production and which soils are most susceptible to erosion. They can also show which soils are most productive."

SCS is giving top priority to helping farmers plan conservation measures on new land brought into cultivation. For information, contact the local SCS office at Pampa, telephone 665-1751.

25,000 HEAD OF CATTLE can be fed from the five transparent, spherical vats in this plant at Tbilisskaya in the U.S.S.R., says the Soviet caption. *Chlorella* is cultivated in them. *Chlorella*, says a dictionary, is "a genus of nonmotile green algae potentially important as a cheap source of high-grade protein and B-complex vitamins." The staff here numbers 17.

4-H CLUB NEWS

By AUDETTE VAUGHN
Asst. County Extension Agent

Regina Atwood, daughter of Mr. and Mrs. Ted Atwood of 2500 Mary Elen, and Molly Carlton, granddaughter of Mr. and Mrs. Luther Webborn of Lefors, are in Lubbock this weekend entering "The Make It With Wool" contest. All garments must be made from 100 per cent American Wool. Judging criteria includes garment construction, girl's knowledge of work, poise, modeling, and personality.

The Lamar fifth and sixth grades have entered the "Mulligan Stew" poster contest and the students were televised on Pampa Cable TV. Students in the 4th, 5th, and 6th grades can still enter the contest before the Dec. 1 Food Show.

The girls and boys who have been involved in the cooking classes are being asked to share with others the nutrition knowledge that they have learned.

Mrs. Ted Atwood and junior leaders, Regina Atwood and Dana Smith, have completed a class that met in the Reddy Room of the Southwestern Public Service Company.

Terry Atherton, Tonya Atherton, Cynthia Gage, Yoby Hollis, Sherry Courtney, Carolyn Mumford, Angie Richardson, Tressa Casey, Sonya Teague, Lucinda Myner, Tammy Myner, Amy Brainard, and Berklei Brainard attended these classes.

The girls studied not only meal planning but important aspects such as safety in the kitchen and correct table setting.

Mrs. Ed Brainard, Faye Willis, and Sally Brainard have sponsored an energetic group of boys and girls. Teresa Baxter, Tammy Carter, Bill Carter, Richard Courtney, Keith Courtney, Mark Eastham, Kathy Hayes, Steve Alexander, Chad Ward, Kathy Ward, Linda Satterfield, Thad Ward, Mike Burns, Phillip Nelson, Lisa Stokes, and Stacy Ward attended the classes in the Brainard home. The boys seemed very confident that they were better chefs than the girls were but the leaders made no comment.

Stephanie Eastham, Doris Carlton, and Mrs. Bob Eastham have had classes in the Courthouse Annex. Steve Monaque, Frank Kempa, Debbie Mullins, Misty Edwards, Debra Kay Kenyon, Diana Martinez, Debbie Weldon, Lonnie Kirkin, Kim Weldon, and Connie Kirkin have participated in these classes.

Other leaders are: Mesdames Alvin Alexander, N.A. Briden, M.C. Dorman, Pat Youngblood, Bora Dougal, V.C. Webb, Tony Smitherman, Inez Trousel and Junior Leaders Misses Elaine Webb, Connie Stroud, Kolly Dougal, Molly Carlton and Jim Hollingwood. These classes will be discussed in next week's column.

The boys and girls are preparing their favorite dishes at home in preparation for the December 1 Food Show and Fair.

CANNED FRUIT - SAN FRANCISCO (UPI) - The California Canning Peach Association reports that canned fruit sales in the nation's supermarkets last year totaled \$828.9 million, a 7.3 per cent increase over 1971.

The number one sellers were peaches, with pineapple, applesauce, fruit cocktail and pears being the other high volume items.

Agriculturally Speaking

By FOSTER WHALEY
We have had two or three people call to see if Henry Harnly actually did lose several thousand dollars.

Last week we implied that Henry lost several thousand by not being at the Income Tax Seminar. I realized I was grossly exaggerating but a lot of fine tax savings ideas were presented.

To tell the truth, Henry has a special tax consultant along with an IBM record-keeping

HILF Systems Warranting Consideration

High intensity low frequency (HILF) grazing systems have been used on improved pastureland for several years. HILF systems warrant consideration on native grasslands as well, reports Rodney Hyatt, soil conservationist.

Several HILF grazing systems are in use throughout the state with notable benefits resulting from them.

This type grazing system begins by grouping livestock into one or more large herds and rotating stock over the pastures throughout the year. An exception to this may be necessary during the breeding season.

By increasing livestock numbers, selectivity of grazing is reduced, resulting in more uniform grazing of pastures, stated Hyatt. However, an HILF grazing system is no cure-all for overstocking. Prior to starting a system, consideration must be given to forage supply, livestock numbers, and plans made to prevent grass depletion during drought conditions.

Rather than grazing pastures year long with several small herds, the larger herd or herds graze each pasture only a few months out of the year. This allows several months rest for grass improvement each year. Hyatt said, these systems can and should be tailored to individual operations.

system. This system periodically tells Henry what he needs to do in management decisions. So actually Henry is a top manager along with being a good production farmer.

Our 1974 Income Tax Guides have not arrived. They should be here in the near future. Check with us in about two weeks. Then come by and pick up your copy.

We also have a supply of forms for making income tax estimates.

MILO HARVEST

Damp weather and green milo has shut harvest down pretty well. In talking with one local elevator last week they had only two customers hauling milo. What is needed is a hard killing frost then 10 days of dry weather for harvesting and then a slow two-inch rain.

The average first killing frost in Gray County is November 1. At the time of this writing, we are fourteen days past this date. This has been helpful on our late-planted milo. I've heard of some milo that exceeded 8,000 pounds per acre. A few others have exceeded 7,500 pounds. However, most of the milo will average a great deal less than this amount.

WHEAT PASTURE

You are beginning to see some cattle turned loose on wheat. Many are waiting for a rain. An excellent rain would create an abundant wheat pasture situation. Fact is, there are few cattle in the county ready for wheat.

CATTLE ON FEED REPORT

A recent seven state Cattle on Feed report shows placements of new cattle on feed to be down twenty per cent. This is the seventh month in a row placements are down. Also, the report showed the total number of feed to be down one per cent. Earlier reports showed considerably more cattle on feed in the heavier weight groups. This showed a drastic drop also. It appears now that fat cattle are destined to start picking up in price in the near future. After the first of the year, we could see some fat rises in the market.

Panhandle Water

By FELIX W. RYALS

This column was born ten years ago as a direct result of making a study of the investment in irrigated agriculture in the Pampa trade territory.

In 1967 this column carried the news that the income from irrigated agriculture and agri-business exceeded that of the oil and gas industry in the upper 26 counties of the Texas Panhandle. The upward spiral of the irrigation based economy has continued each year since then.

The Chamber of Commerce special edition of the Pampa Daily News, Wednesday, Oct. 31, 1973 bears this out. The very fine article by Foster Whaley, Gray County Extension Agent, carried the headline: "County's 1973 Ag Income May Exceed \$40 Million."

In 1970 many raised their eyebrows when Whaley predicted that Gray County agriculture would hit the \$27 million figure by 1976. We all know now that his projection was conservative and not overly optimistic. I would like to refresh our reader's minds with some other facts for 1973 stated by Whaley in that special October edition.

Over 70,000 head of cattle have been sold from the three

Gray County feed lots totaling a gross of over twenty-six million dollars.

Other agricultural income from sale of stocker cattle, cotton and swine would exceed two million dollars.

This would mean the gross agricultural income to Gray County would exceed 40 million dollars for 1973.

This 40 million dollar agricultural income would approach that of the gross income from Gray County from the oil industry.

The agribusiness aspect of agriculture has continued to expand along with production agriculture. The oil industry and agriculture are highly dependent on one another. One of the highest expenditures farmers make is for oil and gas products.

Electrical energy is used heavily by feed lots and farms. A large portion of the farmer's gross income winds up in the pockets of oil companies.

Machinery and repair shops are humming with activity as farmers strain to meet the challenge of more production.

Thousands of tons of anhydrous ammonia made from natural gas are used in fertilizing the lands of Gray County. Much of this comes

from several thousand feet under the ground in the original form of natural gas.

Yes, 1973 has been quite a year agriculturally.

I was pleased to be in attendance at the West Texas Senate Advisory Committee Public Hearing on Water Resources in San Angelo Nov. 5, 1973. James B. McCray of Panhandle is a member of the Senate Committee.

Another Public Hearing has been scheduled Dec. 3 in Amarillo. The hearing will be in the City Commission room.

Sen. Jack Hightower is Chairman of the West Texas Committee. Hightower and McCray have issued an invitation to everyone of the Panhandle area to attend and present testimony should they desire.

The Senate Advisory Committee is divided into four Regional Councils. Sen. Max Sherman of Amarillo is Coordinator of the four Regional Councils.

Carson County, along with Gray County and the other 24 counties of the upper Panhandle, have had excellent agricultural production and may expect greater economic returns from this sector of the economy in the years ahead.

Water has been the catalytic agent for a booming economy never before known in West Texas. With a declining water table with almost no recharge we must use water more wisely than ever before. At the same time we must find an outside source of water for importation to the High Plains of West Texas.

Harvest Picking Up

COLLEGE STATION, Tex. (UPI) - A spell of open weather is needed to allow Texas farmers to wind up harvest operation over much of the state.

Some showers and foggy mornings hampered harvesting in many counties during the past week, the Texas Agricultural Extension Service said today.

About the only area with good harvesting weather was West Texas where harvesting of cotton, grain sorghum and peanuts made good progress. Harvesting of cotton, peanuts and soybeans made limited progress in North Central, Central, East and Southeast Texas.

Although the cotton harvest has made good progress in the South and Rolling Plains, many farmers are waiting for a killing frost to defoliate the crop before beginning harvest operations. Early yields and quality of the crop have been good in those areas, according to the Extension Service.

Rice farmers are continuing with the second cutting of their

crop, which is far behind schedule.

Planting of wheat and oats continued in many central and southern counties and is nearing completion.

Tech Steps Over Baylor, 55-24

LUBBOCK, Tex. (UPI) — Quarterback Joe Barnes threw two touchdown passes and ran for a third to pace bowl bound Texas Tech past the Baylor Bears 55-24 in a regionally telecast Southwest Conference battle Saturday.

Barnes, playing his final game before hometown fans after setting a total offense school record, finished the day with 48 yards rushing on 16

carries and hit six of 10 passes for 100 yards.

Barnes threw to end Andre Tillman on scoring passes of 44 and 20 yards during the second period as Tech exploded for 21 points in 1:41. Barnes bucked across from the one in the first quarter as the Raiders twice came from behind.

Tailback Larry Isaac added touchdown runs of 54, 2 and one yard. Fullback John Garner

scattered 84 yards and flanker Willie Kent caught a 28-yard TD pass from second quarterback Jimmy Carmichael. Don Grimes kicked seven of eight PATs.

Quarterback Neal Jeffrey of Baylor hit end Sam Harper on a seven-yard TD pass and halfback Cleve Franklin on a nine-yard scoring toss as the Bears kept coming back.

Halfback Steve Beard added a six-yard scoring run. Don Bockhorn kicked a 53-yard field goal and Bubba Hicks booted all three extra points to round out Baylor scoring.

Jeffrey finished the game with 292 yards, hitting 22 of 39 passes for 290 yards.

Texas Tech, with one loss in 10 games, was expected to receive the invitation to the Gator

Bowl in Jacksonville, Fla., against Tennessee.

Barnes' 148 yards added to the Tech offensive school record set earlier in the season. Barnes now has passed and rushed for 3,177 yards with one game remaining.

Baylor fell to 2-7 for the year, including an 0-5 conference record. Texas Tech is 5-1 and in second place in league play.

Dogs Stop Auburn With QB's Passing

ATHENS, Ga. (UPI) — Georgia quarterback Andy Johnson scored two touchdowns and passed for another in a span of little more than eight minutes in the first half Saturday to lead the Bulldogs to a tight-filled 28-14 victory over the Auburn Tigers.

Johnson scored his first

touchdown from one yard out with 1:21 left in the first period to enable Georgia to tie the score at 7-7 after the Tigers had scored early on a one-yard run by quarterback Randy Walls following Auburn's interception of a Johnson pass.

Johnson's second touchdown came on a five-yard run early in the second period but was immediately offset by a 96-yard kickoff return by Tiger junior Mike Fuller.

The Bulldogs came roaring back after the long scoring return and a drive, highlighted by Horace King's 44-yard run, was capped by a 13-yard pass from Johnson to fullback Bob Burns that gave Georgia the lead for keeps with 7:58 still to play in the second period.

Georgia got its icing touchdown with 1:56 gone in the final period when King, who rushed for approximately 113 yards during the game, ripped across from nine yards out.

Temper flew often during the hotly-contested game and police had to clear players from the bench off the field three times.

COMMISSIONER TO REVIEW EVIDENCE Finley Presents Kuhn Witnesses

NEW YORK (UPI) — Charles O. Finley has successfully reached first base in his attempt to have Baseball Commissioner Bowie Kuhn withdraw the \$7,000 worth of fines he levied against the Oakland A's owner after the World Series for "conduct detrimental to baseball."

Finley, armed with a pair of "witnesses," spent 5 1/2 hours in conference with Kuhn Friday, explaining his side of the issues

which resulted in his being fined on three separate counts by the commissioner.

Kuhn said he would review the new evidence and reach a final decision after reading over the transcripts. Finley, however, indicated that if he was not exonerated, he would pursue his case to a higher authority.

The fines levied against Finley covered three separate

incidents. The first was a \$5,000 fine for trying to get Andrews placed on the disabled list after the second game of the Series, the second was a \$1,000 fine for publicly announcing to the crowd the status of Manny Trillo and the third was another \$1,000 fine for turning on the ballpark lights in the middle of an inning.

All three fines, Finley said, were unjust.

"I want to make one thing clear in regard to Andrews. It has been printed in the papers that I fired Mike Andrews—that is 100 per cent incorrect. The only thing I did was to have him examined," said Finley.

Dr. Harry Walker ruled that Andrews was disabled and should not play any longer. I made a request with the commissioner to put Andrews on the disability list and I was immediately fined \$5,000. I just made a request. Instead of Kuhn saying 'No, you can't,' he said, 'No you can't and you're fined \$5,000.' I definitely feel we have not committed any crime. We acted properly in regard to Andrews."

Finley vehemently denied Andrews' charges that the A's boss tried to coerce him into signing the doctors statement.

Finley said it was National League President Charles Feeney and not the New York Mets who prevented Trillo from

Nittany Lions Shellack Ohio Behind Capelletti

UNIVERSITY PARK, Pa. (UPI) — Tailback John Capelletti delivered his second straight four-touchdown performance and piled up 204 yards rushing in less than 30 minutes of play Saturday to lead Orange Bowl bound Penn State to a 49-10 victory over awesomely outmanned Ohio University.

Capelletti, scoring all his touchdowns in the first half, became Penn State's second leading all-time rusher with a 2,478-yard career chart and strengthened his bid for a possible Heisman Trophy. Lydell Mitchell holds the all time rushing record with 2,934 yards.

The victory was the 10th straight for the unbeaten sixth-ranked Lions and their 20th consecutive win in regular

season play.

Ohio, 4-5 on the season, scored on a 57-yard, third-quarter field goal by Gary Homer and quarterback Rich Bevely's two-yard sprint, set up when Jim Eaise fumbled a Bobcat punt at the Lion 21 in the first period.

Andrews was disabled and should not play any longer. I made a request with the commissioner to put Andrews on the disability list and I was immediately fined \$5,000. I just made a request. Instead of Kuhn saying 'No, you can't,' he said, 'No you can't and you're fined \$5,000.' I definitely feel we have not committed any crime. We acted properly in regard to Andrews."

Finley vehemently denied Andrews' charges that the A's boss tried to coerce him into signing the doctors statement.

Finley said it was National League President Charles Feeney and not the New York Mets who prevented Trillo from

Stinnett Blanks Upset-Minded Bucks By 12-0

STINNETT — Mike Monden scored on a 29-yard draw in the second quarter and Stinnett added another touchdown late in the game as the Rattlers finished their regular season undefeated Friday, downing surprisingly tough White Deer, 12-0 here.

The Rattlers, 1-A district champs, will play Clarendon at 7:30 p.m. Friday in Panhandle for the bi-district championship. Clarendon won the coin flip between the Bronchos, Memphis and Claude Saturday morning in Clarendon to decide the 2-A championship.

White Deer, which finished its season 3-7 overall and 2-3 in 1-A, has played exceptionally well the last two weeks, upsetting Sanford-Fritch, 41-0 and staying close to the Rattlers, who are third-ranked in the state in Class A.

The Bucks came close to scoring in the third quarter when the Rattlers led 6-0. White Deer had an apparent first down on Stinnett's 18, however, a clipping penalty nullified the play and cost the Bucks a possible score.

In the fourth period, White Deer drove to the one and lost the ball on a fumble into the end zone.

Monden capped a 99 2-3 yard drive with a 29-yard draw with six minutes left in the half. Monden failed on the run for the two-pointer. With six minutes left in the game, Ray Dodson went over from one yard out to make it 12-0.

"We're looking forward to next year, but we hate to lose Cummins (Buddy White Deer's quarterback). We'll be a much better defensive ball club," said Buck head coach Larry Anthony after the game.

Cummins led White Deer's rushers with 90 yards on 17 carries.

Andrews was disabled and should not play any longer. I made a request with the commissioner to put Andrews on the disability list and I was immediately fined \$5,000. I just made a request. Instead of Kuhn saying 'No, you can't,' he said, 'No you can't and you're fined \$5,000.' I definitely feel we have not committed any crime. We acted properly in regard to Andrews."

Finley vehemently denied Andrews' charges that the A's boss tried to coerce him into signing the doctors statement.

Finley said it was National League President Charles Feeney and not the New York Mets who prevented Trillo from

Carr, Dickinson Lead Canadian Over Gruver

CANADIAN — Tailback Kem Carr and fullback Bob Dickinson gained 360 yards and scored seven touchdowns between them to lead powerful Canadian to a 74-0 rout over the Gruver Hounds Friday night here.

Carr gained 186 yards on 16 carries and scored four times, while his fullback counterpart picked up 174 yards on nine rushes for a 19.3 average and three TD's.

"Gruver had a rough time," said a Wildcat coach following the game. The win closed Canadian's season at 8-1 and 4-1 in 1-A play, while the Houfids fell to 2-8 and 0-5.

David Wilson scored the game's first two touchdowns on four- and six-yard runs in the opening period on the Wildcats' first and fourth possessions. The pass for two after the first TD failed and Carr ran in the extras on the second to give Canadian a 14-0 lead.

Carr scored the next three touchdowns on runs of nine, 57 and four yards. The elusive tailback ran in the conversion after the second of his touchdowns, however, Canadian failed on runs for the other two-pointers.

Canadian, leading 34-0, recovered the ensuing kickoff

Rockets Bomb McLean, 52-0

MCLEAN — Wellington quarterback Randall Hodges scored five touchdowns rushing and passed for another to lead the Skyrockets to a 52-0 trouncing of the McLean Tigers Friday night here in both teams' 2-A finale.

Wellington finished the year with a 4-5-1 record, 3-3-1 in 2-1, while the loss dropped McLean to 3-7 and 2-5.

Hodges scored on runs of seven, 80 and two yards in the second quarter and Jim Bob Nall added another on a 10-yard run in the quarter.

Andrews was disabled and should not play any longer. I made a request with the commissioner to put Andrews on the disability list and I was immediately fined \$5,000. I just made a request. Rangers Dump Muleshoe, 18-0

MULSEHOE — Robert Palmer scored on 11- and 13-yard runs to pace 1-AA's district champion Perryton Rangers to a 18-0 win over crippled Muleshoe Friday night in Muleshoe.

Perryton will face Monahans at 2 p.m. Friday at Lubbock's Lowery Field for the bi-district championship.

Palmer's first touchdown came in the first quarter and the kick failed for the extra point.

Defensive back Jim Dear made it 12-0 by intercepting a Mule pass and running it back 12 yards for a touchdown. The run for extras failed. Palmer scored on Palmer scored on a 13-yard run in the fourth quarter and the run for two points again failed.

Dale Deike led the Rangers' rushing attack with 84 yards on 11 carries.

Perryton, 7-3 and 4-0, dropped Muleshoe's record to 3-6-1 and 0-4.

Andrews was disabled and should not play any longer. I made a request with the commissioner to put Andrews on the disability list and I was immediately fined \$5,000. I just made a request. Planetarium Features Comet

LUBBOCK — There's a new comet named Kohoutek and its spectacular, between Dec. 23 and Jan. 7, will have featured billing at a special show planned for Dec. 2 at Moody Planetarium in The Museum of Texas Tech University.

The comet on Dec. 28 will pass by the sun with only 13 million miles to spare. That's close for a comet, and the pass is expected to be spectacularly brilliant. On Jan. 12, the comet will pass only about 78 million miles from earth, offering earthlings another magnificent view.

Last March 7 Lubos Kohoutek, using instruments in

the Hamburg Observatory, discovered comet 1973f, and the comet was named for its discoverer. Comet Kohoutek's orbit was plotted after extensive calculations.

The spectacular display of a comet is caused by the fact that the stellar body is made of frozen water, gases and dust.

As the "snowball" approaches the sun, the combination begins to "boil" and man sees a stream which he calls the comet's "tail." These frozen "snowballs" are estimated usually to be about a mile in diameter, but Kohoutek is estimated to be between one hundred and one thousand miles

in diameter. Because of this size, discovery was possible when it was 14 trillion miles away.

Kohoutek may be seen now with binoculars and small telescopes. It appears as a fuzzy spot in the southeast two or three hours before sunrise.

For those familiar with constellations, Kohoutek is near the constellation of Corvus, the Crow, for most of November.

It is the second comet to be discovered by Dr. Kohoutek within an eight-day period. He discovered 1973e a week before 1973f, the first was not as large as the approaching great comet Kohoutek.

The Almanac

By United Press International
Today is Sunday, Nov. 18, the 322nd day of 1973 with 43 to follow.

The moon is between its last quarter and new phase.

The morning stars are Mercury and Saturn.

The evening stars are Venus, Mars and Jupiter.

Those born on this date are under the sign of Scorpio.

American astronaut Alan Shepard was born Nov. 18, 1923.

On this day in history:

In 1883, the United States adopted Standard Time and set up four zones—Eastern, Central, Mountain and Pacific.

In 1903, Panama and the

United States signed a treaty for the building of the Panama Canal, linking the Atlantic and Pacific oceans.

In 1967, Britain devalued the pound to make it officially worth \$2.40.

In 1969, American astronauts Charles Conrad and Alan Bean made man's second landing on the moon in the lunar module of Apollo 12.

Golden Stairs

More than 400 pounds of gold gild the stairs and halls of Hungary's Parliament Building at Budapest. The edifice was completed in 1904 under Emperor Franz Josef I of Austria-Hungary.

Cable TV Channel 39 Changes Hands

Cable television viewers in and around Pampa will be picking up Dallas's new Channel 39 which signed on the air Wednesday, Nov. 14, 1973. The most dramatic result will be the immediate access viewers have to an operating television - telephone "crisis-center" program appearing on the new station.

The channel switch is the result of a transfer of KDTV, Channel 39 from Doubleday Broadcasting to The Christian Broadcasting Network (CBN) which had been operating Channel 33 in Dallas.

The immediate results are the transfer of the Channel 33 schedule and the call letters,

KXTX-TV directly to Channel 39, plus the addition to that schedule of such favorite programs as Gomer Pyle, Bonanza and other shows.

Other programs include The Lucy Show, The Courtship of Eddie's Father, Andy Griffith, The Bold Ones and CBN programs.

The move affects one million cable viewers in Texas and parts of Arkansas, New Mexico and Oklahoma. An additional 60 cable TV systems in a six-state area will soon be applying to pick-up the new 39 signal.

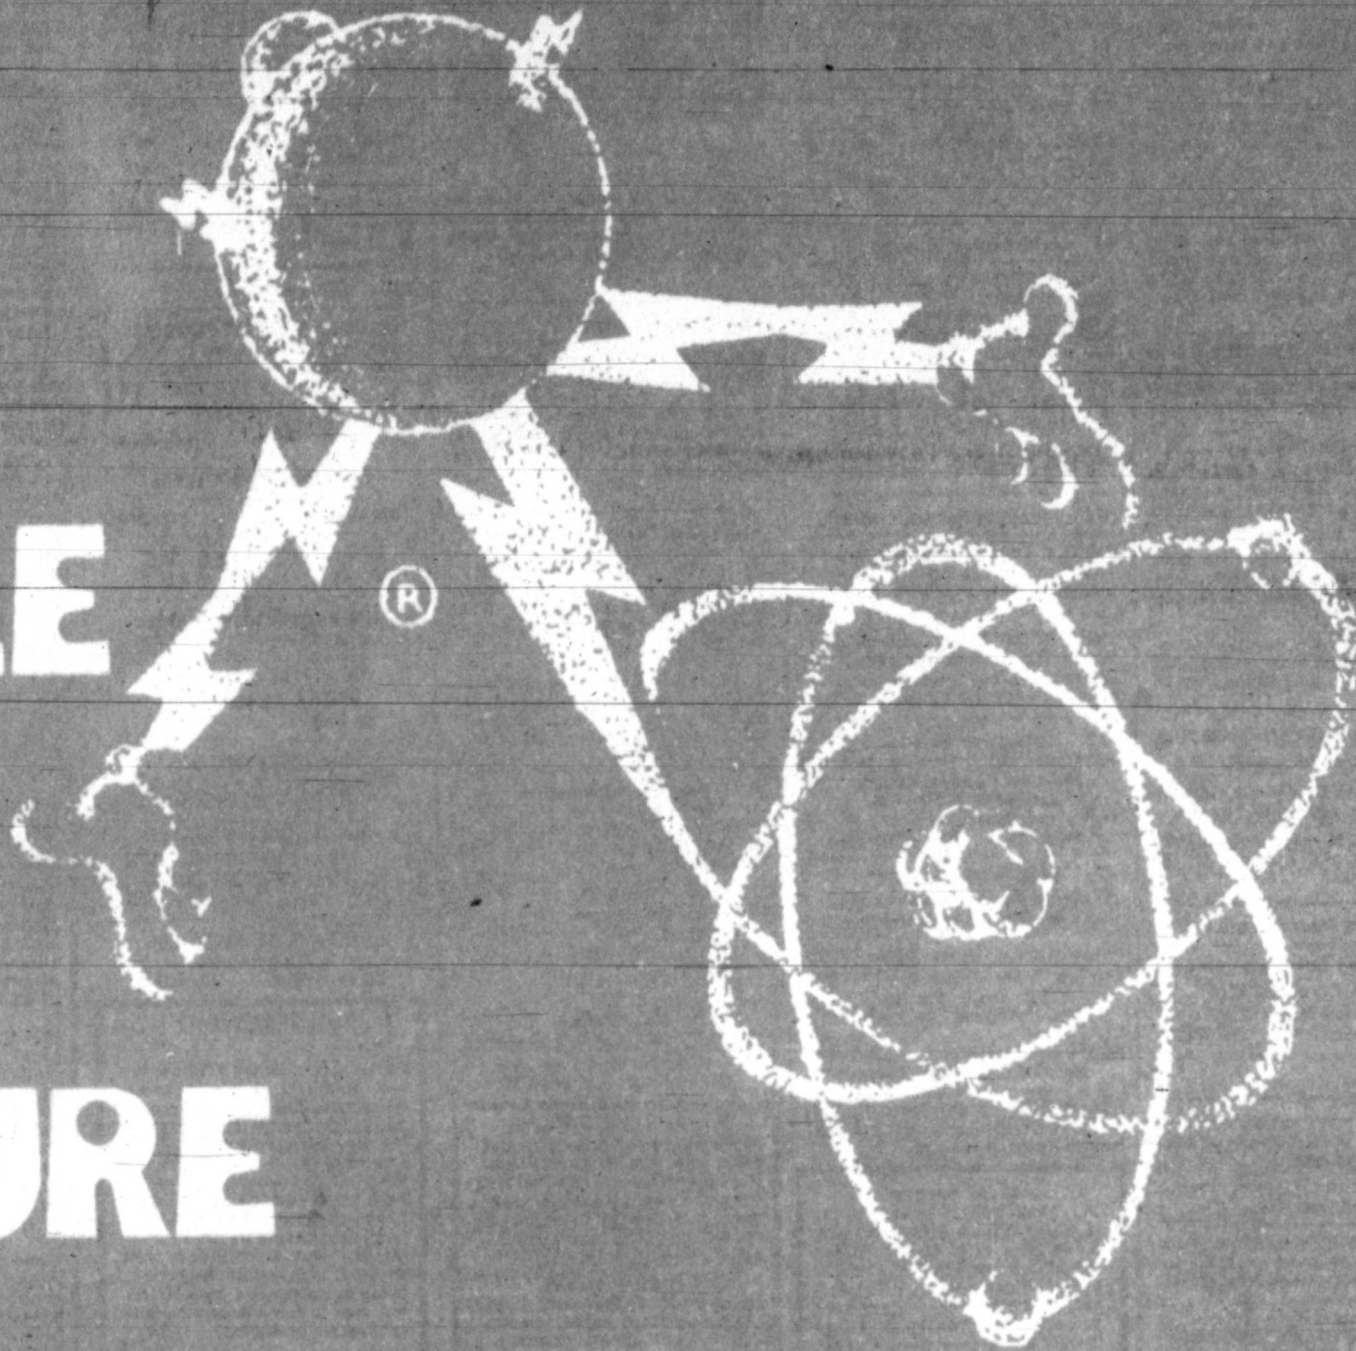

The most striking effect on viewers will be the inclusion of "The 700 Club" television program twice daily at noon

and 7 p.m. The show follows a variety format, but also has a battery of volunteer counselors standing by in the studio to take calls from viewers on everything from suicide threats to requests for prayer for a sick hamster.

"The 700 Club" program is syndicated to a number of cities across the United States and has received more than one-half million phone calls in the past year.

The station transfer "will add a new dimension of television viewing," according to M.G. "Pat" Robertson, president of Christian Broadcasting Network and host for "The 700 Club."

LIFE STYLE OF THE FUTURE

What will be the life style of the future? One thing we can be sure of . . . it will revolve around electricity. Without electric energy there is no hope of getting the pollution eliminators that only electricity can operate.

We'll need our factories, our refineries, our water treatment plants . . . all the things necessary for survival in a modern civilization.

But, without electricity none of these can function.

That's why our industry and we, as a Company, continuously plan for the future . . . contribute toward research and development of better, more efficient ways to get electricity to you.

We know we'll be needed in the future even as we are now . . . and we'll be there when the time comes . . . even as we are now . . . making sure that every kilowatt you buy is 100% usable.
