Milwaukee Police Repel Attack on Command Post

Orbiter Speeds On Near Perfect Course to Moon

PASADENA, Calif. (UPI)—America's Lunar Orbiter 5 moon scout sped on a near-perfect course today toward an egg-shaped orbit around the moon to photograph five astronaut landing sites and other mysterious features of the lunar landscape.

The three-legged spacecraft, the last in the Orbiter series, was launched Tuesday night from Cape Kennedy.

Officials at Caltech's Jet Propulsion Laboratory here said the launch was so accurate that only a "relatively small" midcourse maneuver would be required sometime tonight to place the 860-pound vehicle on a precise course.

"Orbiter is normal and healthy," said a JPL spokesman. "Temperatures and pressure and other internal quantities are close to what we anticipate. It was an accurate launch."

The exact time of the midcourse maneuver would not be determined until additional tracking and analysis of computer data, the spokesman said.

The spacecraft will travel 250,187 miles and should swing into its orbit at 9:44 a.m. PDT (11:44 p.m. CDT) Saturday. It will start its two-week picture taking sessions the next day.

Tuesday night's shot, delayed two and a-half hours to allow squalls to pass over the cape, was the fifth of a Lunar Orbiter in less than a year—all successes that set a record in the U.S. moon effort.

In flight, with its solar panels extended, Orbiter 5 resembles a huge, shiny four-leaf clover. Its camera is equipped with two lenses to help it complete charts for the first Apollo moon questions about the pock-marked lunar surface.

Since it is the last in the \$205 million series, it is programmed to photograph as much of the surface as possible. Its targets cover much of the moon's hidden side and are sprinkled over the front face.

Clark Claims Romney Didn't Call Troops

WASHINGTON (UPI)—Atty. Gen. Ramsey Clark, replying for the administration, disputed Michigan Gov. George Romney's charge that President Johnson "played politics" while rioting intensified in Detroit.

Clark said Tuesday that he was unaware of any request from Romney for federal troops in Detroit prior to the wire received by the White House from the governor Monday, July 24.

Romney charged last Monday that he made repeated oral requests for federal troops beginning sometime after 2 a.m. July 24, but the troops did not arrive until nearly 24 hours later.

The governor said Clark, the only administration official with whom he conferred directly during the crisis, insisted on what seemed to be a "political request" that Romney declare in writing an insurrection existed and that it was out of control.

Clark told newsmen that the first eight hours of his conversations with Romney and Detroit Mayor Jerome Cavanaugh were "consultative and deliberative," and that at no time during that period had Romney formally asked for federal troops, orally or otherwise.

DIGGING A PAUSE while trying to keep order in tense, racially troubled Milwaukee, three members of the Wisconsin National Guard also dig into the refreshments.

Mao Forces Offer Rebels Six American Aircraft Lost

HONG KONG (UPI)—Rebels' army troops in Communist China barely missed kidnaping Premier Chou En-lai last month, a Japanese newsman reported today from Peking.

The soldiers were waiting to capture Chou and his party at one Wuhan airport July 23, but the premier learned of the trap and avoided it by flying to another city airport, the correspondent said.

In a related development, Peking Radio said today that Communist Party Chairman Mao Tse-tung's forces had offered an olive branch to the "bad leaders" of the Wuhan uprising.

The radio said the Peking leadership looked on Wuhan's anti-Mao "heroic army of one million" as "temporarily misled." It said a "handful of bad eggs" duped some of the city's military and political leaders into clashes with forces loyal to Mao.

The broadcast said all would be forgiven if the Wuhan rebels returned to the party fold.

COMMUTER CHAOS

LONDON (UPI)—A wildcat strike by several hundred locomotive engineers Monday brought rush hour chaos to London. The men said the management had failed to keep promises of new uniforms and amenities and complained of unfair work allocation.

ANOTHER BIG CASE is in the works for attorney F. Lee Bailey, left, who will defend 41-year-old Thomas J. Richards of Weymouth, Mass., who was indicted for complicity in the \$1.5 million Plymouth mail robbery.

Sweeping Curfew To Take Effect Again

MILWAUKEE (UPI)—Police Chief Harold Breier stopped a bitter sniper attack on his command post in Milwaukee's riot-ravaged Negro district today and said the city was under control at the end of three nights of sniping, arson and looting.

But even though residents were allowed to be legally back on the streets at 5:30 a.m., Milwaukee's sweeping curfew was going to be clamped back on at 7 p.m. because of the city's worst racial violence ever. White resentment mounted.

Congress Opens Investigation Of Ghetto Riots

WASHINGTON (UPI)—Congress opens its first investigation of ghetto riots today with testimony from top police officials in five cities, including one who charged that the violence stems from a Communist plot.

At the same time, the Senate was ready to assign its major inquiry into the nationwide rioting to its veteran crime investigator, Sen. John L. McClellan, D-Ark., and his permanent investigating subcommittee.

A resolution providing McClellan with \$150,000 to seek the "immediate and long-standing" causes of the riots and the "immediate and long-range" prevention of future outbreaks was nearing a vote today.

The McClellan assignment was said to have White House blessing.

Sen. John Sherman Cooper, R-Ky., said he would offer a floor substitute for the McClellan resolution to direct that the group look into the "economic and social" factors behind the riots.

New Gunfire Erupts Across Jordan River

By WALTER LOGAN
United Press International
Jordanian and Israeli troops exchanged machinegun fire for long periods across the River Jordan today for the second time in two days. Jordan said Israel had moved tanks and armored vehicles into the area.

There were no immediate reports of Jordanian casualties in the shooting, one of the few outbreaks since Israeli and Egyptian planes, artillery and tanks duelled across the Suez Canal July 15. Israeli and Syrian troops exchanged fire briefly last week.

Today's shooting occurred near the Damia bridge across the Jordan where a 10-minute exchange of fire broke out at cease-fire Tuesday night.

A Jordanian military communique said today's shooting started at 11:55 a.m. (4:55 a.m. CDT) which the Israelis moved up a strong force of armored vehicles about 2 1/2 miles north of the bridge and started shooting. The Jordanians fired back.

The first exchange lasted an hour, Jordan said Israel re-

sumed firing at 1 p.m. (6 a.m. CDT) and that the firing was continuing an hour later.

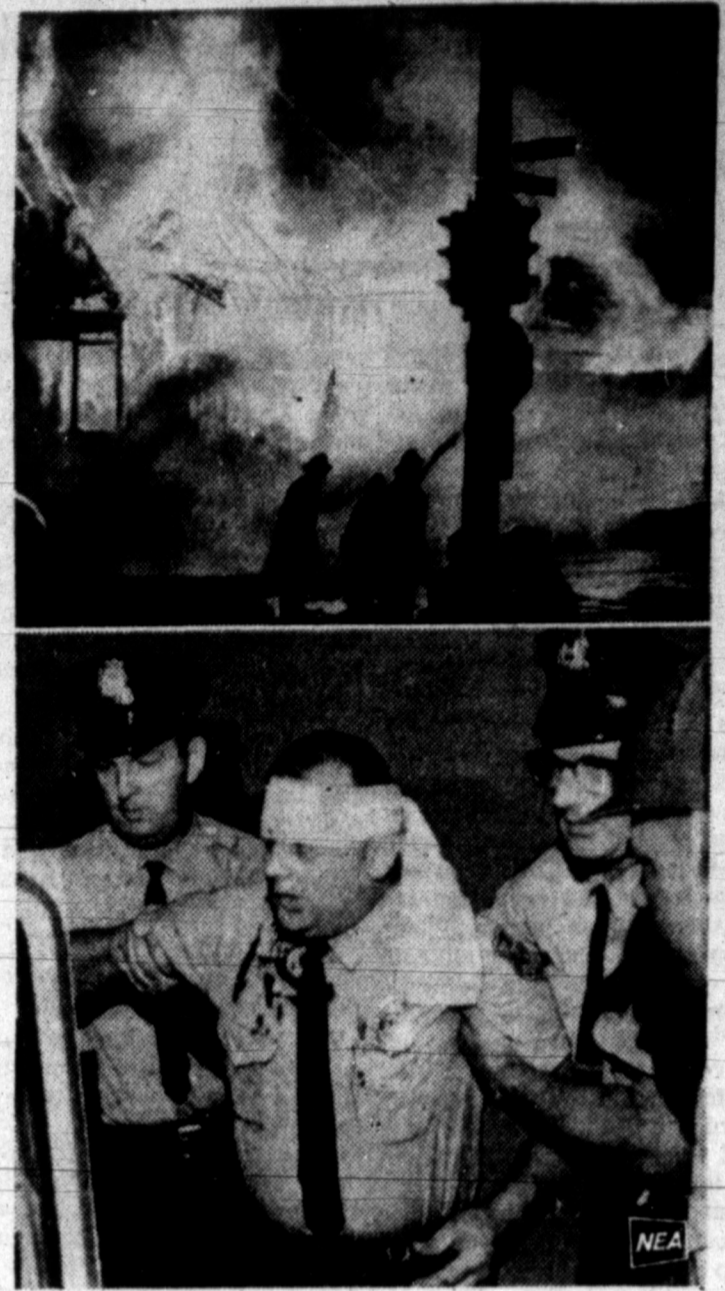

The Damia bridge, known to the Jordanians as the Prince Mohammed bridge, is 25 miles north of the wrecked Allenby bridge which was the main point of exodus for Arabs fleeing the occupied west bank of the Jordan.

This was the third Israeli-Jordan clash since the June 10 armistice. The first took place June 15 when there were three exchanges of fire.

Despite today's incident and more militant actions by the United Arab Republic, the feeling was growing in Jerusalem that Israel might reach a non-aggression pact with at least one, if not two, of its Arab neighbors.

UPI correspondent Eliav Simon said Arab reports reaching Jerusalem indicated such a pact might be reached with Lebanon, which did not take part in the Middle East war, and possibly with Jordan.

In a statement without precedent in Israel's 19 years (See NEW, Page 3)

NOW MILWAUKEE is the victim of rioting, arson, looting and sniping with racial overtones. Top, one of more than 80 fires set on the north side as the Wisconsin National Guard was ordered in and the city sealed off. Below, an injured policeman is helped into an ambulance by two others.

'White Power' Gang Signals New Twist

By United Press International
Angry white crowds yelling "white power" tried to attack gangs of Negroes in Providence, R.I., Tuesday night, signalling a new twist in the current wave of racial violence that erupted 21 days ago.

It was the first time in the current outbreak that police had to restrain whites from counter-attacking Negroes who hurled rocks and bottles.

Generally, however, it was one of the quietest nights in two weeks. Violence was reported in three cities besides Providence—Milwaukee, where police battled snipers in a third night of upheaval; Chicago, and Wyandanch, N.Y., a suburb of New York City.

There was evidence of mounting white resentment in Milwaukee as well as in Providence. Milwaukee police halted half a dozen cars filled with white men as the cars tried to pass into the sealed-off trouble area. At least four men in the cars had guns, and a police sergeant said, "They're trying to take the law into their own hands."

In Providence, police fought two battles—trading gunfire with snipers and trying to keep a wedge between rampaging Negroes and irate whites.

A gang of 100 whites shouting "white power" surged toward rock and bottle throwing Negroes at one point, but police drove them back. Another group of 75 whites attacked a car, thinking a Negro was inside. They broke the front and rear windows before discovering the

driver was white.

At least 20 persons, including five Providence policemen and a fireman, were injured. More than a dozen were arrested. National Guardsmen were put on alert but they were sent home early today.

Battleship To Ease Pressure On U.S. Pilots

WASHINGTON (UPI)—The Pentagon's decision to reactivate the battleship New Jersey for duty off Vietnam may take some of the pressure off naval and Air Force units manning the air strikes against the Communists.

The New Jersey has been in mothballs for the past 10 years, but the Navy is confident that her nine 16-inch guns will prove their worth by hurling 1,900-pound projectiles as far as 21 miles inland at Red targets.

Some estimates have it that the 45,000-pound battleship's guns can reach 85 per cent of the targets now being bombed in North and South Vietnam from the air at a relatively high cost in lives and aircraft.

With a range about twice that of the 8-inch rifles carried by U.S. cruisers operating in the South China Sea, New Jersey's guns will be able to do the job at relatively small risk.

Nine to ten months will be required to de-mothball the 887- (See BATTLESHIP, Page 3)

Hoover Says No Conspiracy Behind Rash of Race Riots

WASHINGTON (UPI)—FBI Director J. Edgar Hoover has informed President Johnson's new antiriot commission that evidence gathered so far has failed to show any conspiracy behind the rash of big city violence.

Illinois Gov. Otto Kerner, chairman of the special panel, said Tuesday after a day-long closed session of the 11-member commission that Hoover presented an FBI summary on 52 civil disorders over the past three years.

In his statement to us, he said they (the FBI) had no intelligence on which to base a conclusion that there was any conspiracy, Kerner told newsmen.

The commission, formally known as the Special Advisory Commission on Civil Disorders, was hearing from three top federal officials deeply involved in city slum programs at a second closed session today.

Summoned as witnesses before the panel were Sargent Shriver, director of the Office of Economic Opportunity (OEO), Labor Secretary W. Willard Wirtz, and Secretary Robert C. Weaver of the Department of Housing and Urban Development (HUD).

The commission, named last Thursday, began its sessions Monday with a vow to capture "the actual smell and feel of what is going on," according to Davie Ginsburg, the Washington attorney chosen by the President to serve as its executive director.

Johnson instructed the commission to investigate all phases of big city riots and submit an interim report by March 1, 1968 and a final report within a year.

Washington Report

By BOB PRICE
MEMBER OF CONGRESS

Thomas Jefferson, the architect of our Constitution, wrote in 1791: "I had rather be exposed to the inconveniences attending too much liberty than to those attending too small a degree of it."

Were Jefferson here today, he would surely agree that there is more than inconvenience attending "too much liberty" or rather the abuse of liberty.

As Committees of Congress prepare to investigate recent riots and the breakdown of law and order in Detroit, Newark and other cities, some of the civil rights leaders called for an end to mob law and supported the President's plea "upon all our people, black and white alike, in all our cities to join in a determined program to maintain law and order, to condemn and to combat lawlessness in all its forms, and firmly to show by word and deed that riot, looting and public disorder will just not be tolerated."

But at the same time, another so-called civil rights leader, H. Rap Brown, a militant black power advocate, after being arrested and accused of inciting racial violence at Cambridge, Maryland, shouted "we built this country and we'll burn it down," as he was arrested—and later released on bond.

Later at a rally in Washington, D. C., Brown urged Negroes to shoot and loot.

"Lyndon Johnson is my enemy... If Washington, D. C., doesn't come around, Washington, D. C., should be burned down."

He condemned the best-known leaders of the Civil Rights movement for their appeal to Negroes to cease rioting. The Nation's Capital is apprehensive of what might follow. It's obvious that not only Washington but other major cities are "powder kegs."

The cry has changed from civil rights to black power. Rep. Adam Clayton Powell from his Bimini retreat said "black rebellions are a necessary phase of the black revolution."

In Cuba, Stokely Carmichael was quoted as saying "In Newark, we are applying the tactics of guerrilla warfare. We are preparing groups of urban guerrillas for defense in the cities. This struggle is not going to be a mere street meeting. It is going to be a struggle to the death." Fidel Castro cheered.

It is obvious now, as it has been to some before, that there is a definite pattern and plan to the uprisings and that will be more of them. Whatever the

causes, it is past the time of pleading or any further kid-glove approach. Congress can and will conduct full scale investigations of the violence. The President has appointed a Special Advisory Commission on Civil Disorders and I have joined other House members in a resolution calling for a select committee to conduct a full and complete investigation to determine the causes of the riots.

The House Un-American Activities Committee has also scheduled hearings on the subversive elements involved and the Senate Judiciary Committee has called hearings on the House-passed anti-riot bill.

But these hearings will not stop the near state of insurrection the country is now in.

The basic concept of government is protection of its citizens and the answer now must be a hard-hitting determined effort to stop the aggression of a relatively few so that law-abiding citizens can continue to live under the protection of local governments.

The evidence mounts that the riots, looting, arson and murder in city after city across the nation may be the result of organized planning and execution on a national scale. So while the duty to protect its citizens is primarily one of the local community, the Federal government must accept its national responsibility.

The violence of the few must not be allowed to injure the cause of the many. The most basic of civil rights is being denied the American people and it is time that all government officials make it absolutely clear that under no circumstances will violence and rioting be tolerated or rewarded. The abuse of freedom has gone too far.

Another Thomas Jefferson quote might be worthwhile reading for those who urge insurrection and rebellion: "A Republican government is slow to move, yet when once in motion, its momentum becomes irresistible."

Member of Congress

CHINESE WARNING

TOKYO (UPI) — Communist China's Peking Radio today charged that Russian and American agents are taking part in "Fascist anti-China atrocities" in Burma. The broadcast warned the government of neutral Burma to "immediately stay your bloody hands."

Blanket Freight Rate Increase Is Granted Rails Across the Nation

By ROY MCGHEE

WASHINGTON (UPI)—The Interstate Commerce Commission (ICC) gave the nation's railroads permission Tuesday to raise freight rates by \$300 million a year.

The ICC action tentatively allows an increase averaging about 3.5 per cent. The last such increase, set at 1.7 per cent, was granted in 1960.

In their request for higher rates, the lines pleaded increased operating costs and lower profits in invested capital. The ICC action was seen as a shot in the arm for the rail industry, already plagued this year with a brief strike and now under the gun of federal legislation calling for a possible compulsory settlement with six unions.

In announcing its decision, the ICC said: "The commission found that the nation's railroads are in immediate and urgent need of

additional revenues to cover at least their increased wage costs amounting to approximately \$246.4 million and a substantial part of their increase payroll taxes of approximately \$63.1 million."

The ICC order approved an increase only in general terms, and did not go into how much more it will cost to ship individual items.

The order covers all class 1 railroads and many class 2 lines in the Eastern and Western parts of the country. It partially affects Southern railroads.

NOISE KILLS

VANNE, France (UPI)—The sonic boom of a supersonic airplane caused a barn-loft to collapse Tuesday, dumping eight tons of hay on five persons eating lunch, police said today. Three of the persons were killed and the other two suffered serious injury, they said.

Two Breakins Net Prowlers Cash, Lodging

A house burglary and burglary of a Pampa tavern kept police busy investigating today. Pampa police received a report that a house owned by Edward Lutner, 2112 Lynn, had been broken into.

According to the police report, someone had apparently slept in the bed with dirty clothes and empty beer cans were found in the front yard. The owners of the house are on vacation and police won't know until they return if anything is missing.

foot-dreadnaught at an estimated cost of \$27 million. The New Jersey is expected to join the fleet off Vietnam in mid-1968.

Thus the decision of Defense Secretary Robert S. McNamara, announced Tuesday, indicates the United States apparently is prepared for a long fight in Vietnam.

● Attack

(Continued From Page 1)

"vigorously act against any violation" of the general state of emergency. He said they will be mobilized again tonight to enforce the curfew.

Whites Threaten
While resentment was mounting in this city of 774,000, police said. Officers halted six cars filled with white men as they tried to pass into the cordoned area, which encompassed one-tenth of the city. At least four men had guns.

"They're trying to take the law into their own hands," said a police sergeant. "They want to do our job for us."

The attack by snipers on Brierley's command post—a 100-foot-wide department store garage—started about 11 p.m. and ended about 1:20 a.m. Police shot out street lights in an effort to darken the battleground. Gun battles were reported about a mile to the north, and sniper fire was reported elsewhere.

More than 4,800 National Guardsmen and 1,900 city police remained on duty.

Obituaries

Roy Lee Huff

Roy Lee Huff, 65, rancher and farmer who resided east of the city, died at 9 a.m. today in Highland General Hospital.

Mr. Huff was born in Lafayette, Tenn., in 1901. He was a member of Calvary Baptist Church.

Survivors include his wife, Mrs. Mildred Huff of the home; one son, J. R. Huff of Roswell, N.M.; two daughters, Miss Wanda Huff of Pampa and Mrs. Bob Edwards of Shidler, Okla.; his mother, Mrs. Etta Freeman of Lafayette, Tenn.; three brothers, Bill and John Henry Huff, both of Franklin, La., and P. B. Huff of Hazard, Ky.; two sisters, Miss Stella Freeman of Franklin, Ky., and Mrs. A. A. Bennett of Thompsonville, Ill., and two grandchildren.

Funeral arrangements are incomplete at Carmichael-Whalley Funeral Directors.

Henry A. Krock

ALANREED — Funeral services for Henry Andrew Krock, 71, of Alanreed, who died Monday at Swisher Memorial Hospital in Tulsa, after a long illness, were to be at 10:30 a.m. today at the Alanreed Baptist Church, with the Rev. Leo McMahan, pastor, officiating.

Burial was to be at Alanreed Cemetery under direction of Lamb Funeral Home of McLean.

Mr. Krock, a retired farmer, was a native of Waco and moved to Alanreed in 1911, from Hollis, Okla. He had been a patient at Nichols Manor Rest Home in Tulsa for the past six weeks.

Survivors include a brother, L. S., and a sister, Mrs. Lillie Darnell, both of Canyon.

Suit Filed Over Birth Pill Mixup

HOUSTON (UPI)—A woman who thought she was taking birth control pills has sued a drug store and her physician, contending one or both were responsible for a prescription mix-up which resulted in an unwanted pregnancy.

Mrs. Kathleen Wood said what she believed to be birth control pills were actually capsules designed to eliminate excess body fluids.

The suit, seeking \$50,000 damages, claimed her physician, Dr. Michel Damiani, told her he called the prescription for the birth control pills to the drug store personally.

Mrs. Wood said the mixup resulted in an unwanted pregnancy and ultimately the birth of her fourth child, Ronda. The baby is 13 months old.

"She is not developing normally," Mrs. Wood said of the baby. "One doctor said her nervous system may be deteriorating. No one is willing to say if it is the pills or not."

The Woods also have three sons, aged six, eight and nine. Mrs. Wood said she and her husband had decided not to have any more children because of problems with the boys. She said the oldest boy was born with a brain defect and the six-year-old has a terminal kidney failure.

She said the pills she was taking, and believed to be birth control pills, looked different than the birth control pills she had taken before.

But she said the others were taken on a trial basis and when they ran out she called her doctor for another prescription, and thought the pills were merely a different brand of birth control pills.

Identities of Two New Astronauts Are Revealed

SPACE CENTER, Houston (UPI)—A Houston intern and an Illinois astronomer will be among 11 new scientist-astronauts to be named within the next few days, it was learned today.

The 11 astronauts, including two naturalized citizens of the United States, will swell the astronaut corps to 57 members. There are presently five scientist-astronauts, all chosen in June of 1965.

Among the members of the new class will be Dr. Donald Lee Holmquest, 28, an intern at Houston Methodist Hospital, a Manned Spacecraft Center spokesman said.

Holmquest was the only member of the new group the space agency would identify officially. Informed sources

said, however, that Dr. Karl G. Henize, the astronomer, also will be named.

Holmquest received his medical degree less than two months ago. He is nearing completion of his dissertation, a study of body temperature regulation for the Ph.D. degree he hopes to receive next June.

He graduated with highest honors from Southern Methodist University in 1962 with a degree in electrical engineering before deciding to get a medical degree at Baylor University college of medicine in Houston.

The space center spokesman refused to confirm or deny reports about Henize or about the total number to be named. He said the selection process, being conducted with the National Academy of Sciences, is not yet complete.

Informed sources said, however, that 11 scientist-astronauts will be named. They said the group will include a former citizen of Australia and another from Wales, both now naturalized U.S. citizens, who will be the first astronauts not born as U.S. citizens.

The new astronaut class is the sixth since the space program started.

Last of Federal Troopers Leave Detroit Area

DETROIT (UPI)—The last of 4,700 paratroopers sent here to quell arson, looting and sniping last week left today and 8,000 National Guardsmen were federalized after nine days of riot duty.

Three battalions of the 82nd Airborne Division, about 1,800 men, left Selfridge Air Force Base 30 miles east of Detroit today for their home base at Ft. Bragg, N.C.

They were the last of the 4,700 paratroopers who helped quell racial violence on Detroit's East Side last week.

Cyrus Vance, President Johnson's emissary here and civilian commander of the paratroopers and National Guardsmen, also announced that the 46th Division of the Michigan National Guard was being federalized at noon and returned to state control.

Gen. Cecil Simmons and Clarence Schnipke, commanders of the 8,000 guardsmen, met today with Gov. George Romney and there were reports the guardsmen, some of whom still were patrolling the scarred streets of West Side Detroit, would be released from duty and returned to their civilian jobs.

Meantime, a man who claims to be a witness to the shotgun slayings of three Negro youths at a motel July 26 was brought to Detroit from his Hopkinsville, Ky., home for further questioning and to view police lineups in an attempt to identify the "three or four" policemen who allegedly saw the slayings.

The man, Robert Lee Greene, 26, a former paratrooper and Vietnam combat veteran, claims he saw a National Guard warrant officer kill two of the three victims in cold blood after beating several Negroes and two white girls, none of whom was armed.

"Law and order have been restored to Detroit," Vance told newsmen. "Accordingly, all regular U.S. Army troops will be removed today."

Vance said he and Gen. John Throckmorton, the federal troop commander, also would leave today.

"We believe this mission has been accomplished efficiently and effectively," Vance said. A citizens committee began working on rebuilding Detroit after six days of rioting, which left 40 dead and caused an estimated \$250 million in damage.

The 37-member Committee after six days of rioting, which includes at least nine Negroes.

Banquet Slated By Top O' Texas Breeders Aug. 24

Top O' Texas Hereford Breeders Association will hold its annual summer banquet at 8 p.m., Aug. 24, in the Starlight Room of the Coronado Inn, according to Gordon Whitener, president.

In addition to a program of variety acts from the Top O' Texas area, Jake Hess of McLean will speak on "What's New in the Hereford Business."

Door prizes consisting of items from the farm and ranch will be presented. The grand prize will be 12 special-cut steaks.

The public is invited to attend the meeting and reservations should be made early, Whitener said.

Highway, Hospital Issues Approved By Commission

Gray County Commissioners met in special session Wednesday morning, with two items on the agenda.

The commissioners agreed to approve right-of-way from an extension of Ranch to Market road 2857, 2.5 miles northeast of Ranch to Market road 1321, north to State Highway 152, a distance of approximately five miles to the State Highway Department.

Cost of the extension will be approximately \$90,000 of which the county will pay half the cost.

Commissioners also approved the contract of the architect firm of Charles A. Monnot Jr. and Associates of Oklahoma City for preliminary work on an addition to Highland General Hospital.

If the bond issue passes for the hospital, the firm will receive seven per cent of the total contract and if the issue fails the firm receives nothing.

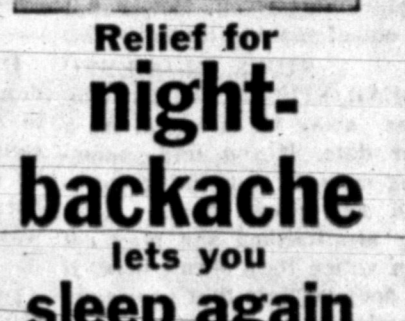

● New (Continued From Page 1)

relations with its Arab neighbors, Labor Minister Yig Allon appealed Tuesday to Beirut for "courage to talk peace with us." There have been hints in the past of some sort of accommodation with Amman.

Egypt today issued an "urgent" call for peace in the five-year Yemen civil war to free the thousands of Egyptian forces there for any joint Arab action against Israel. Cairo newspapers reported it came as Arab foreign ministers met in the Sudanese capital of Khartoum to try to pick up the pieces of the six-day war.

TRAIN CRASH

TOYKO (UPI)—A passenger train slammed into an end of the line bumper at Tokyo's Shinjuku Station today, injuring about 42 persons, police said.

Stokely Fans Racial Flame

HAVANA (UPI)—Black power militant Stokely Carmichael said Tuesday American Negroes are "taking the offensive now" and should seek vengeance against President Johnson, Secretary of State Dean Rusk and Defense Secretary Robert S. McNamara.

Carmichael told a three-hour news conference in Havana that Negroes want to "settle the score" and "we will kill first and we will aim for the head."

His remarks were made to newsmen from all countries except Britain and North America. Excerpts appeared in the Cuban newspaper rebel youth. UPI obtained his remarks from the Algerian Press Service and other newsmen who attended the conference.

The Women's Page

One in Three Women Do It

By PATRICIA KING
Beauty Editor
Newspaper Enterprise Assn.

ROSE RETI, famed New York hair colorist, generally tries to discourage the very young from changing their hair color. She also spends a good deal of time convincing older women it's unwise to re-create at 50 years of age the color that was so devastating at 20. Her feeling is that hair color must become gentler as one grows older.

NEW YORK (NEA)—To become a blond in 1925, you started in the kitchen. The tinting brew contained saffron, lily roots, yellow techas, St. John's wort and a variety of other interesting ingredients, if you could find all of them.

Boiling took hours and rinsing the hair was a daily necessity. In spite of the lengthy process, many women lightened their hair. Today it is estimated that one woman in three uses some form of hair coloring.

"Hair color must complement your facial shape. The color actually contours your face," said Rose Reti, whose Rue de la Paix Beauty Salon in New York does a brisk business in hair coloring.

Miss Reti, a native of Hungary, had a salon in the artist's colony of Szolnok before she came to this country in 1939.

"Everyone in Hungary is a kitchen cosmetologist and I specialized in hair coloring," she explained. A little bit of this, a little bit of that, and something else, is the way Miss Reti works.

Thank God, money is no problem.

I have always hated to make these lunches, but I have never complained. Would I strike you as being a selfish or lazy wife if I were to tell my husband he should buy his lunch out?

DEAR MRS. A: Since you "hate" the lunch-making routine, and it wouldn't be a hardship for your husband to buy his lunch, go ahead and tell him what's on your mind. If he still insists, then he's selfish.

plains the many enchanting shades she creates.

Highlights and streaking, she feels, is a natural effect and the bleached head's best friend is the short hairstyle. This style prevents damaged hair from over bleaching.

"A good colorist never makes hair color even. There should be a variation of at least three to four shades to achieve the most natural look," Miss Reti explained.

Women abuse their hair in many ways but most especially with hair spray, which has a drying effect on dyed hair. Teasing is equally hard on colored hair and lack of time for proper care is another fault.

Reti said, and more often than not it's not the most flattering.

School and You

By SUSAN LIGHT
Newspaper Enterprise Assn.

By SUSAN LIGHT
Newspaper Enterprise Assn.

DEAR MRS. LIGHT: We are a large family (eight children) and have always lived in communities with excellent schools. We now live in a small town, however, where even the local residents are negative about their schools.

The grade school is way behind as compared to the children's former schools. The teachers are lackadaisical about discipline and don't encourage students to do their best work. Discipline is so poor in the high school that the good students are neglected.

We've heard that the inadequate curriculum is keeping some graduates from entering college.

We can't afford private schools. We are considering moving away to good schools, but this would involve commuting, higher taxes and other difficulties.

With competition as it is today, do you think our children will be seriously handicapped by these schools? How does one find out how the high school graduates here stack up against other students seeking college entrance? Can you suggest anything that will help us come to a decision?

—DISTRAUGHT MOTHER
ANSWER: It is too late to lock the barn door after the horse is stolen. But I hope your letter encourages other parents to in-

vestigate the schools before moving to a community.

Regarding your second paragraph, I'd like to point out that discipline is a two way street. If parents would do their share of it, the schools could give more time and attention to improving the curriculum.

As for advice, if I were you, I'd move again if at all possible. With eight children to consider, you have too much at stake to put up with poor schools. Naturally, your youngsters will be handicapped if they aren't adequately prepared for college or business.

If you choose to stay and fight the long-range way, you may help countless other children besides your own. Perhaps this is the better choice after all.

First Birthday Is Marked at Party

Eddie Morris, son of Mr. and Mrs. Robert E. Morris, 2124 N. Zimmers, marked his first birthday at a party recently hosted by his parents.

The event was attended by several friends and the honoree's grandparents, Mr. and Mrs. Vernon Wood and Mr. and Mrs. R. D. Morris.

Following the serving of birthday cake and ice cream, gifts were opened by the honoree.

LONG, SIDE-SPLIT tunic in magenta linen by Claret is belted low with a slash of white leather. Puffy bloomers peep out below in this way-out look for summer.

BUYERS BANNED
PARIS (UPI)—Only private customers and journalists were admitted to Andre Courreges' salon today when he showed his 1967 winter styles to the press. The ban on buyers was in line with his refusal to allow copies of his designs unless he completely controls the work.

Dear Abby

by Abigail Van Buren

DEAR ABBY: I have a relative (my husband's actually) who has never really liked me, but she puts on a hypocritical show of friendliness whenever we meet, which is often, as we are a clannish family. She recently returned from Europe, bringing me a "gift." A set of 12 needlepoint canvases for my dining room chairs. (Seats and backs, totaling 24 pieces!) I mentioned some time ago that I was looking for some.

She said she had hunted all over Europe trying to find exactly what she thought would be perfect for my dining room.

Abby, they are an absolute horror! I lied my thanks, saying they were "lovely," but I cannot bear the thought of working them and having to live with them.

I love to do needlepoint, but I don't want these monstrosities in my dining room. How can I get out of making them now?

STUCK IN QUEBEC
DEAR STUCK: Put the canvases away for a while. At a later date, if you find something more to your liking, go ahead and work them. After they are finished she may not even notice they aren't hers. If she does, explain that you found something you liked better. (True.) No point in needing her.

DEAR ABBY: My husband died 4 years ago. He was a heavy drinker and habitual gambler, and our children knew their father for what he was. I worked all my married years to give our children the necessities. (I had six — all married

now.) A year ago I married a good man who neither drinks nor gambles. He was divorced and walked out leaving his wife everything, so it was only common sense that he move into my home, which is completely furnished.

One of my daughters is making me miserable. She resents my new husband. She never got along with her father when he was living, but now she says she can't stand to see another man living in her father's house, sleeping in her father's bed, and sitting in her father's chair.

Abby, my new husband treats me better than I've ever been treated in my life, and I think I'm lucky to have him. Why should we go into debt to refurbish the house so my daughter won't keep making these nasty remarks? I can't take it anymore. What should I do?

MRS. A.
DEAR MRS. A: Tell your daughter that if she can't stand to see another man using the same furniture formerly used by her father, she should spare herself the agony and stay away.

DEAR ABBY: Today is our 38th wedding anniversary. We have two married children and one still at home. I (the Mrs.) have worked most of my married life. Ever since I quit my job 6 years ago my husband has insisted that I prepare a lunch for him at home. He has only an hour for lunch, and there are plenty of good restaurants only a block away from where he

Astrological Forecast

By CARROLL RIGHTER

FOR THURSDAY, AUG. 2.
GENERAL TENDENCIES: Although there may be some delay in getting some important plans into motion, there are some very good chances you will get some brilliant inspirations on how you can later express yourself in unique and unusual ways so that you have a greater operative skill in handling all of importance in the future.

ARIES: (Mar. 21 to Apr. 19) It is better to avoid a better day before trying to resolve certain situations at home that are not to your liking. Do whatever will endear you to kin right now. Show genuine in this and better bettering matters surreptitiously.

TAURUS: (Apr. 20 to May 20) You have

some plan in mind that is best touched off by assistance from those who are experts so get their aid. There may be some delay on some initiative you expect. Be patient and all works out much better.

GEMINI: (May 21 to June 21) You have to use practical sense if you are to get the right benefits you want from present business matters on hand. Know what is expected of you from others. Show that you are more efficient in carrying through with promises made.

MOONCHILDREN: (June 22 to July 21) Follow every regulation pertaining to you and avoid high-up who is too demanding right now. Then all works out fine in several spheres of your endeavor. Find right sources for gaining personal aims.

LEO: (July 22 to Aug. 21) Find right manner to get rid of vexing problems and be sure not to complain in doing your regular work. Love one who is quite demanding in P.M. Show that you have a little will power of your own and come to a better understanding.

VIRGO: (Aug. 22 to Sept. 22) Anything you plan that needs aid from associates can be successful provided you do not demand results too fast. Get on to group meetings. Fine benefits come from this in the not-to-distant future.

LIBRA: (Sept. 23 to Oct. 22) Avoid that one associate today and get out into the active business world and see some powerful person who gives backing you want. Do something thoughtful for those who really like you. Be yourself.

SCORPIO: (Oct. 23 to Nov. 21) Those interesting ideas that occur to you may not see fruition until some time later, but work on them with vim and vigor. Show patience with others. Their minds may not be working as swiftly as yours.

SAGITTARIUS: (Nov. 22 to Dec. 21) You need to handle some work swiftly and accurately if you are to avoid some error in business or personal relationships. Take time to explain quietly.

CAPRICORN: (Dec. 22 to Jan. 30) Partners cannot quite understand why you do not agree with them. Where a higher-up is concerned, but you will later on. Take time to study into certain facts, phases you had not thought of before.

AQUARIUS: (Jan. 31 to Feb. 18) You have many tasks to perform and you can do them well provided you do not let your emotions run away with you. Getting health improved does much to get you operating beautifully. Be alert to new opportunities.

PISCES: (Feb. 19 to Mar. 20) Good day for having a good time, but be sure you do not overstep whether it be your money or your mate's. You're able to carry through with special talent on the horizon, much better. Be carefree for a change.

IF YOUR CHILD IS BORN TODAY, he or she, will be one of those interesting young people who likes to cooperate with others and thereby can be successful in life, especially where selling is concerned, since the needs of the public are recognized and catered to. Teach early to have a happy accord with those of the opposite sex.

why he wasn't supposed to catch them but I couldn't. It's the rule all right, but I don't know why. Then there's the second kind of Play Like. My friend Arlene and I were having coffee, when Babs and Arlene's Bobby asked if they could sit in my car. "We want to play Going Shopping."

Watch Your Child And See Yourself

By BETTY CANARY
Newspaper Enterprise Assn.

We had just moved into our new neighborhood and Stu stopped to watch three boys at the corner and ask what they were doing. "Shooting marbles!" they said, as they stared at him. Finally one boy asked, "You from a foreign country or something?"

Shooting marbles is no longer the universal pastime for boys the way it once was and you do not see little girls playing jacks often either. Kids no longer gather on the corner when the streetlights come on to play hide and seek and I haven't seen a game of Statues or Crack the Whip in ages. My daughters play Dress Up occasionally and of course everybody plays School the first day of summer vacation.

I am glad to report that the simplest game of all is still around. Children still play Play Like. You know, "Play like you're the Indian and I'm the cowboy."

I was on the front porch reading my mail the other morning when I heard Cissy say to Tad and his friend Jimmy, "Play like you're the monsters and you catch us!" Babs, Cissy, and their friend Sharon ran around the house and Tad and Jimmy, making the appropriate growls and ferocious sounds, chased them. Jimmy caught Cissy and all three girls screamed at the poor boy. "You're not supposed to CATCH her!" "Why not? I'm the monster!" "Well, silly," Cissy said, "you are just supposed to chase me!" I wanted to explain to Jimmy

POLLY'S POINTERS

Novel Purse Made

From Pot Holder

By POLLY CRAMER

DEAR POLLY — I have found a way to make a coin purse out of a pot holder that was woven on a loom. Fold it over one time, sew the short sides together and put a zipper in the long open end. The loom, made to be a handle on the pot holder, can be used as a purse handle.

DEAR POLLY — In answer to Ruth's request for a way to stiffen lace I suggest boiling equal parts of sugar and water until the mixture bubbles. Remove from the fire and, when cool enough to touch, immerse the lace to be stiffened. When well-saturated, wring out and keep shaping until dry.

DEAR POLLY — I am only 12 years old but I have found a way to make a coin purse out of a pot holder that was woven on a loom. Fold it over one time, sew the short sides together and put a zipper in the long open end. The loom, made to be a handle on the pot holder, can be used as a purse handle.

DEAR MARCIA — Congratulations for thinking of a way to make such a clever purse. I feel sure some of our older readers will be picking up your idea as none of us object to having a child lead us.

DEAR POLLY — I want to tell Ruth that to stiffen lace on her blouses she can place the lace between two sheets of waxed paper and press with a warm iron.

DEAR MARCIA — Congratulations for thinking of a way to make such a clever purse. I feel sure some of our older readers will be picking up your idea as none of us object to having a child lead us.

A while back my 2-year-old fell and cut his chin and had to have five stitches taken in it. The stitches had to be kept covered with an adhesive bandage which he kept pulling off until I put clean pair of his socks on his hands and then pinned the ends of the socks to his sleeves. He could still play, but there were no more pulled-off bandages.

DEAR POLLY — I am only 12 years old but I have found a way to make a coin purse out of a pot holder that was woven on a loom. Fold it over one time, sew the short sides together and put a zipper in the long open end. The loom, made to be a handle on the pot holder, can be used as a purse handle.

Summer Is the Season for Sewing

Newspaper Enterprise Assn. Attention, teens and preteens! It's Time to go over to your local sewing center to enter the 1967 World Stylemaker Contest. All you do is enroll in stitch up the dress, coat, suit or tition. At the very least, you'll sports outfit that will be your entry in the nationwide competition. At the very least, you'll learn to sew; you might win a transistor record player, a sewing machine, a trip to New York, a jet flight to Europe, and the coveted crown of the nation's top young dressmaker.

There are three divisions: Junior Miss for girls 10 through 12; Sub-Deb for girls 13 through 15, and Deb. for girls 16 through 18. About 70,000 girls from all 50 states are expected to enter the 15-year-old competition, and they will divide up over \$12,000 worth of prizes on several levels. This is the chance of a lifetime for sewing-minded teens. The contest is open now and you have till August 26 to complete your entry.

If this is your first time for the contest, remember that the final judging doesn't take place till November. This means that you would do better to sew something for fall rather than for summer. Don't try to economize on fabric. Pick the best you can afford, because it will encourage you to sew your best. Think, too, of how your entry will look on a runway. If you make the finals, you and your garment will be right there on a long, carpeted runway. And sew carefully; the judges do turn things inside out!

Whether you're entering a sewing contest or just sewing for yourself and the family, there are all kinds of products available to make your sewing easier, more professional, and

more fun. If you haven't checked with your department store this season, you're in for a few surprises. A few pennies can often purchase a fortune in convenience. Tops among the small wonders is the self-threading needle—12 of them in three sizes for 29 cents. If your thread is inclined

to tangle, invest in a pack of thread locks, five for 39 cents. These little gadgets snap into the top of a spool, keep the thread from unwinding and the spool rolling under the bed when dropped and offer a cutting edge and a needle storage spot for good measure. Making a miniskirt? Get a

marker. There is one on the market (by Dritz) that measures an even hem as high as 28 inches. Are hipbudders your newest sewing project? There are two new products to help you—a 2 inch contour belt set buckle for the necessary wide belt, and a slacks form, like the familiar chicken-wire dress form, to help in fitting. It's expensive, at \$27.95, but can save a lot of sewing headaches for a hard-to-fit figure.

Electric scissors fit comfortably into the palm of the hand and sell for about \$8. New cordless power scissors work on flashlight batteries, have a handle like an iron and sell for about \$6. Both are good if you do a great deal of cutting.

New iron-on seam binding (by Wright) is new, and it's now available in 31 colors. It sticks best to smooth fabrics and, properly applied, will last through laundering and drycleaning.

Don't overlook the trimmings section—you'll find all kinds of sewing inspiration there, such as striped military ribbon in hot colors, military middy braid in traditional colors, wide-wide jumbo rickrack and buttons of all kinds for opulent gold domes from real butternuts, pecans, and hazelnuts.

The new paper dresses are usually sold through the notions section. And the paper yard goods may be there, too, instead of in the piece goods sections.

Sun Can Be Your Friend or Enemy

Time was when fashion decreed a woman's skin should be pale and delicate. Remember the bathing costumes, wide-brimmed hats, swathe-like veils and stylish parasols? These were grandma's solution to the sun problem.

Before going out of doors, your skin needs the nourishment provided by a layer of tropical moisture reserves of the skin to remain constant. This counteracts the drying, wrinkling qualities of the sun. This same moist oil acts as a beautifying foundation for your complexion and insures that make-up goes on smoothly and lastingly, even when the weather is particularly hot and sticky. Very important for the sun worshipper, whose concern is beauty, is to make-up to smooth oil over your throat and the back of your neck as well, both of which are quite susceptible to wrinkles dryness. Do try to protect facial skin from the sun as much as possible. Take a hint from grandma and wear a wide-brimmed hat or seek out a shady area.

Not so today—a golden toasty tan is a "this generation" status symbol of beauty and apparent good health as evidenced by the throngs of bikini and near-bikini clad beauties crowding the beaches and recreation areas.

Reason enough, isn't it, to play it safe! Encourage a beautiful tan by timing your sun exposure. Never try tanning near midday when the sun is at its hottest. Beware hazy days! Harmful burn rays can still filter through. Use a good sun-screening preparation to block out most ultra-violet rays. Always reapply after swimming.

But consider the effect of the sun on your skin. Overexposure can dry the skin, thus leading to premature wrinkling. Prove this for yourself by comparing facial skin to body skin which has constantly been protected by clothing. The face is always bare to sunlight, heat and other external drying elements. And the excessive exposure (in addition to drying the skin), causes freckles in some women while in others brown spots occur. After middle-age, look for broken blood vessels, mottled pigmentation and tough, leathery skin as a result of too much sun.

Reason enough, isn't it, to play it safe! Encourage a beautiful tan by timing your sun exposure. Never try tanning near midday when the sun is at its hottest. Beware hazy days! Harmful burn rays can still filter through. Use a good sun-screening preparation to block out most ultra-violet rays. Always reapply after swimming.

The Mature Parent

Swap Homemaking Jobs With Teens

By MRS. MURIEL LAWRENCE

DEAR MRS. LAWRENCE: The only way my daughter's room gets cleaned on Saturday is if I do it. Other mothers of teen-aged girls know have the same problem. We can understand how boys are willing to live in messy rooms but what kind of housekeepers are these messy girls going to be? By Saturday my daughter's room is a shambles. If you can recommend some incentive to develop some pride in a neat bedroom, I and several other mothers of teen aged girls will be grateful.

DEAR MRS. LAWRENCE: exotc dishes from struffe-stuffed eggplant to cocoonut curries. But finally she settled down—and was able to choose to serve more conventional and (thank heaven) less expensive meals. And that's the point I'm making—the importance of offering experimental chores to the teen-age child: chores involving choice and choosing. Your adolescent female children maintain messy rooms because room-cleaning offers so little opportunity for experiment and choice. The opportunity is limited to new arrangements of furniture. But that's it. Nether choice nor experiment is involved in dusting, bookshelves, changing bed linen and hanging up clothes in one's closet. It's a darn dull chore, between you and me. It makes no display of your creative power. It gains you no family credit except that of mother's gratification in your obedience. Of course, some of us parents can't take defeat. Thus, our contests with youngsters over room-cleaning has less to do with the room-cleaning than it

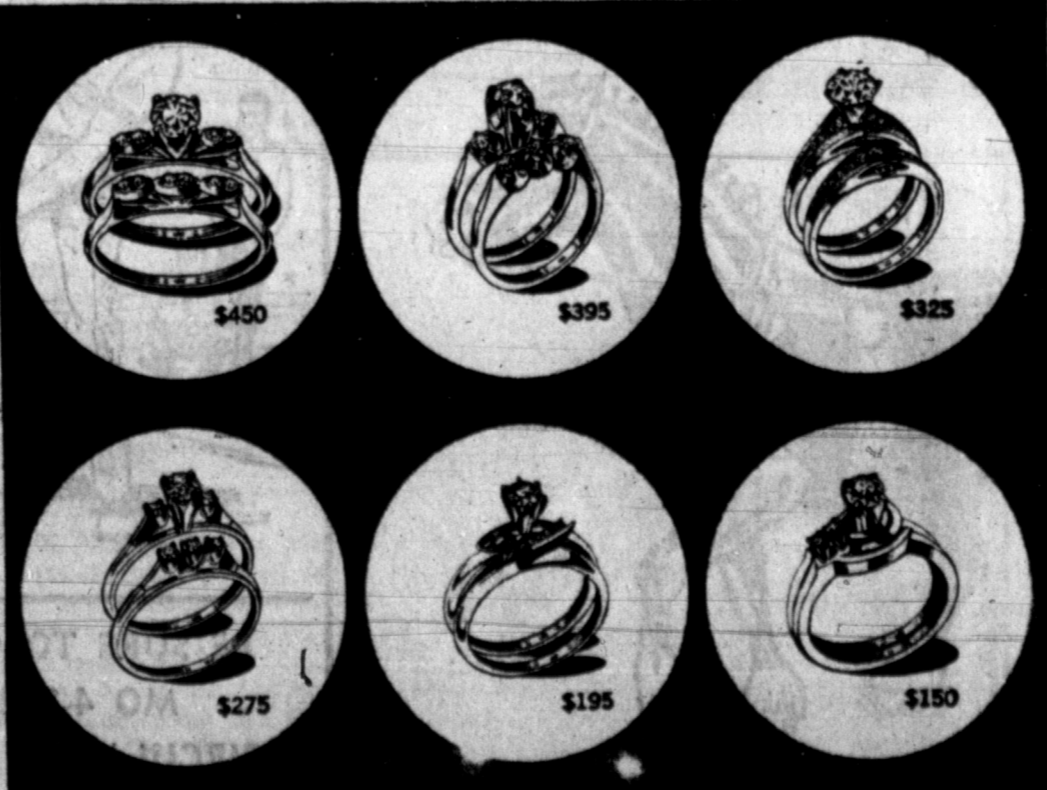

Reading and Story Hour Concludes At Lefors Library

LEFORS (Sp1) — The summer library reading and story hour, which began June 19, was concluded Friday with 16 youth participating in the program under the supervision of Vicky Ferguson, librarian for the summer.

Jerry Hollenshead was high point youth with the reading of 41 books. Joy Hollenshead came in second with 35 books read and Kim McPherson with 20. Each Friday a story hour was held with several youths attending. Those receiving certificates Friday and the number of books they read were Rebecca Lam, Ethel Denton, Jan McPherson, Diane Whithers, 15; Mike Smith 16; Mary Adams, Jo-na Lynam, Connie Teel, 17; Arveta Denton, Elizabeth McCarthy, Susan Cain, 18; Billy Teel, Sandra Cain, 19.

has to do with fear that any defeat by our resistive daughter will lead to more serious defeats. Did my weak-minded acceptance of defeat produce a messy housekeeper? It did not. Into my daughter's home has gone the same joy in choice and experiment that went into her Monday night chore. She looks after it quite will.

Cubs Rebound To Nip Cards

By United Press International
Can the Chicago Cubs write the most fantastic baseball story of all time and bounce back from a last-place finish of a year ago to their first National League pennant in 22 years?

At the moment only the members of Leo Durocher's Hollywood clan, his "in" crowd have the answer.

Leo has made no public outcries that his Cubs can win the pennant but privately he has been known to tell his "friends" "we can do it."

If Leo's "friends" had any doubts that Durocher, at age 61, was living in the past, they lost some of them Tuesday when the Cubs bounced back for a 3-2 victory over St. Louis and cut the Cards' league lead to 3 1/2 games.

Cubs Come Back

"We bounced back before and we'll bounce back again," said Durocher Monday. Of course, his reference was to the seven straight losses the Cubs suffered after the All-Star game. Just when everybody was saying the Chicago balloon had burst, this is it, the Cubs

suddenly were back again, tied with St. Louis a week ago Monday.

Elsewhere in the National League, Cincinnati blanked Atlanta 2-0; New York cooled off Houston 5-1; Philadelphia defeated Los Angeles 2-1 and San Francisco downed Pittsburgh 3-1.

In the American League, league-leading Chicago's six-run ninth-inning outburst stopped Cleveland 11-5; Boston lost the first game to Kansas City 4-3 and bounced back for an 8-3 victory in the nightcap; New York bested California 6-1; Minnesota edged Washington 5-4 and Detroit conquered Baltimore 4-2.

The Cubs' stopped Tuesday was 23-year-old Canadian Ferguson Jenkins, who came to Chicago last season after a brief stopover in Philadelphia.

Jenkins pitched his 13th complete game in 26 starts this year and posted his 14th victory against eight losses limiting the Cards to six hits and ending a six-game St. Louis winning streak.

Malone Pitches Shutout
Jim Maloney pitched his first shutout of the season as he

limited the Atlanta Braves to three hits. The Reds' righthander struck out eight and permitted only one batter to reach second. Chico Ruiz sparked the batting attack with three hits, two of them doubles.

The Mets snapped a six-game losing streak and halted Houston's seven-game winning streak. Ed Charles drove in three runs with a pair of singles and Don Shaw hurled five innings of scorching relief.

Larry Jackson continued to hold his spell over the Dodgers, beating them for the third time this season. On all occasions his victim was Claude Osteen. Cookie Rojas collected a double and two singles in four trips to the plate and scored both Phillie runs.

Juan Marichal drove in the winning run and won his 14th game as he limited the Pirates to six hits. Willie Mays hit his 14th homer of the season, his first in five weeks. It ended Willie's longest home run drought ever.

East, Southern LL Stars Win in Tourney

The East and Northern Little League All-Stars meet at 8 o'clock tonight in Optimist Club Park to decide which of the two teams meet the Southern Stars for the LL All-Star Tournament championship.

The East Stars eliminated the West, 7-4 Tuesday night while the unbeaten Southern Stars handed the North their first loss, 9-8 in nine innings.

The winner of tonight's game meets the South at 8 p.m. Thursday and a South victory would end the tournament. However, should the South lose the final game will be played at 8 p.m. Friday.

Tuesday night Gary Harper took the win for the South, giving up seven hits and striking out five. G. Goodwin was the loser, striking out 10, but walking eight and allowing 13 hits.

Shawn Lee paced the winners at the plate with four hits in four at bats while Bob Cota had four hits in five trips, including two doubles.

Bill Owens hit the only home run of the game. The East put down a West rally in the fifth for their victory. Billy Forkner was the winner, allowing four hits and fanning seven-while Billy Simon took the loss, fanning eight and allowing seven hits.

Freddie Wilborn hit the only home run of the game, a solo shot in the fourth inning.

A. J. Brewer banged out three hits and Bob Hendricks and Rick Van Smith each had two hits.

The North team went in front 3-1 in the second but the South came back for a 5-3 third-inning lead. The North tied it in the sixth and both teams scored a run each in the seventh and eighth innings but the South rallied in the ninth in the first extra-inning contest of the tournament.

AUSTRALIAN WINNERS

DEAUVILLE, France (UPI) — Australian John Newcombe defeated Pierre Darmon of France 11-9, 7-5, 6-1 to capture the Deauville Tennis Cup.

Alan Stone, also of Australia won the Colone Kuntz Cup for players under 24-years-old, when he beat Bernard Paul of France 6-4, 6-2.

WINNING SMILES brighten the day at the Pan American games. First Marion Lay, left, of Canada, broke the Pan Am games women's 200-meter freestyle record with a 2:16.4 in a trial heat. Then Pamela Kruse, right, of Pompano Beach, Fla.; came right back to break Marion's record with 2:15.7. Easy come, easy go these days.

Oregon Youth Leads National Jr. Golf

OKLAHOMA CITY (UPI) — Young Allen Brooks of Medford, Ore., gave up baseball last year to devote more time to golf because "it's a safer sport."

Today he led a field of 150 of the nation's best junior golfers into the second qualifying round of the 20th annual United States Golf Association National Junior championships after firing a safe two-under-par 69 in Monday's first 18-hole session at Twin Hills Country Club.

He was two strokes ahead of a trio of golfers who fired even-par 71s. They included John

Crooks, Winston-Salem, N.C.; James Simons, Butler, Pa., and Bruce Ashworth, Las Vegas, Nev.

"I used to crowd the plate a lot when I was playing third base for the baseball team, and once I was even knocked out when a ball hit me in the head," said Brooks, who will be 18 in four months.

His showing at the national tourney here was nothing less than remarkable. On a day when most golfers were having trouble with the roughs as well as the greens, Brooks bogied

his first and last hole and put together four birdies in between. His was the day's only sub-par round.

Putting, which had been a problem even in practice rounds here when he played 18 holes in 80 and 76, was easy when the Oregon youth borrowed a putter from host club member Henry Whitehorn and completed the 6,556-yard course in 28 putts and without any three putts.

Tied for fifth with 72 were Ted Goin, Seminole, Okla., and Bob Lopic, Millbrae, Calif.

Lloyd Liebler of Portsmouth, Va.; Bill Mosser of Garland, Tex., and Chris Pigott of Washington, were grouped at 73.

Five were tied with 74s, and eight finished with 75s.

A second round today would trim the field to the low 64 golfers. Championship play begins Thursday, with two rounds of match-play scheduled each day through Saturday.

Defending champion Gary Sanders, Buena Park, Calif., shot a 73 and was nine strokes off the first-day pace.

Advertising doesn't jerk... IT PULLS

"If there is one enterprise on earth that the quitter should let alone, it is advertising. Advertising does not jerk—it pulls. It begins gently at first, but the pull is steady. It increases day by day, year after year, until it exerts an irresistible power."

John Wanamaker

Boyer, Colavito Add Power to Chisox Drive

By United Press International
The experts who insisted Eddie Stanky's band of banjo hitters couldn't win the pennant are playing a different tune now that Stanky has added a new pair of strummers to his traveling minstrel show.

Kenny Boyer and Rocky Colavito, who came to Chicago labeled as damaged goods, have become a prize package and they're keeping the White Sox in front in the tight American League pennant race.

Boyer collected four hits and scored the deciding run and Colavito picked up three and knocked in Boyer with the winning run Tuesday night as the White Sox scored six runs in the ninth inning to turn back the Cleveland Indians 11-5.

Increase Lead
The victory, combined with Boston's split against Kansas City, boosted the Chicago margin to 2½ games ahead of the second place Red Sox and kept them four ahead of the third place Detroit Tigers.

On Monday night, Boyer singled in the tying run in the ninth and Colavito hit a two-run homer to win it in the 10th. They were at it again Tuesday night. After the Indians rallied for two runs in the eighth off Hoyt Wilhelm to tie the game, Boyer led off the ninth with a double off Bob Allen. George Culver came on and intentionally walked Smokey Burgess before being tagged for Colavito's hit which drove in the tie-breaking run. The White Sox then added five more runs with Ron Hansen's bases-loaded double the key blow.

Elsewhere in the American

League, Boston lost to Kansas City 4-3 before winning the second game 8-3. New York whipped California 6-1, Minnesota edged Washington 5-4 and Detroit beat Baltimore 4-2.

In the National League, Chicago downed St. Louis 3-2, Cincinnati blanked Atlanta 2-0, New York topped Houston 5-1, Philadelphia nipped Los Angeles 2-1 and San Francisco defeated Pittsburgh 3-1.

Lonborg Wins 15th
Jim Lonborg, on an overnight Army pass from reserve duty, became the majors' first 15-game winner with a 5-1-3 inning stint as the Red Sox won the second game from Kansas City. Mike Ryan hit a three-run homer to pace the Red Sox hitting attack.

In the opener, Bert Campaneris' three-run triple highlighted a four-run third inning that gave the A's the victory despite Carl Yastrzemski's three-run homer.

Don Wert drove in two runs with a homer and a sacrifice fly and Bill Freehan homered as the Tigers beat the Orioles. Earl Wilson went seven innings to gain his 14th victory.

Minnesota built up a 5-0 lead with the help of Ted Uhlaender's two-run single in the fifth and just held on to beat Washington. Al Worthington's clutch relief pitching handed Dean Chance his 13th triumph.

Mel Stottlemyre pitched a six-hitter to hand the Yanks the triumph over California. Stottlemyre also singled in the first two runs in a five-run seventh inning which beat Jim McGlothlin.

FULLBACK JIM TAYLOR will make his debut in a uniform other than that of the Green Bay Packers tonight when the New Orleans Saints open the 1967 National Football League Exhibition season.

NFL EXHIBITION Saints Open Pre-Season

By United Press International
The Saints come marching in Wednesday night, but their accompaniment won't look anything like a southern jazz band.

The New Orleans contingent, pro football's newest entry, sends its surprisingly strong backfield against the defense-minded Los Angeles Rams at Anaheim Stadium in the Saints' first game ever.

Heading the Saints' attack will be a pair that could give the club the finest expansion backfield in history. At quarterback will be Gary Cuozzo who was generally considered the finest backup signal-caller during his career with the Baltimore Colts, and at fullback will be former Green Bay standout Jim Taylor.

The Rams will send out virtually intact the same defensive 11 that gave up fewer first downs and fewer yards per rush than any team in the National Football League last season, while sparking the team to an 8-6 record, their best in eight years.

Myron Pottios, who has taken over for the retired Bill George at the middle linebacker spot, the only change in the Rams' defensive unit.

Meanwhile, other teams around both the American and National leagues tuned up for engagements during the summer's first big exhibition football weekend.

New York Jets' coach Weeb Ewbank announced that Friday night's game against the Boston Patriots in Bridgeport, Conn., will be a testing ground for his linebacking corps. Paul Crane, a second-year man from Alabama and rookie Mike Stromberg will be tried at injured Larry Grantham's right linebacker spot.

The Philadelphia Eagles, who take on the Cleveland Browns Saturday night in Canton, Ohio, cut Michigan State's barefoot Hawaiian kicker Dick Kenney

North Looking to End Losing Streak Tonight

SAN ANTONIO (UPI) — The North basketball team goes into tonight's all-star contest against the South with a four-game losing streak, a height disadvantage and as the unanimous choice among pollsters to lose.

"We'll show up," said North coach Drue Smith Tuesday, and then ran his club through a workout that lasted only a few minutes.

"We want our boys to get the spring back in their legs," said Smith, head coach at Lake Worth High School.

Smith's club will need every ounce of spring it has to compete with some of the tallest boys ever to play in the Texas High School Coaches Association all-star basketball game.

Faces 6-11 Man
Tommy Dingman of Grand Prairie, who will start at center for the North, stands 6-7. But that is four inches shorter than the player he will face for the center jump, 6-11 Steve Niles of San Antonio Lee.

Smith said earlier in the week that he found it hard to believe that with all the territory in the north half of Texas, the South had come up with boys so much taller than his.

Southern coach Jesse Martin of Houston Waltrip said Tuesday he thought there must be plenty of taller boys in North Texas, but said he did not think coaches in that area made use of the tall boys they had.

"The northern teams usually like to run and shoot — at least generally," said Martin. "In the South, however, we usually play a more deliberate game, and make use of the taller boy."

Over 6,000 Expected
An overflow crowd of more than 6,000 persons is expected to fill sultry Alamo gymnasium tonight to see Martin's tall boys go after a fifth straight South victory.

Pamcel Tourney Set August 20

Defending champion Richard Ellis will be back this year to defend his title in the Fifth Annual Pamcel Golf tournament at Celanese gold course.

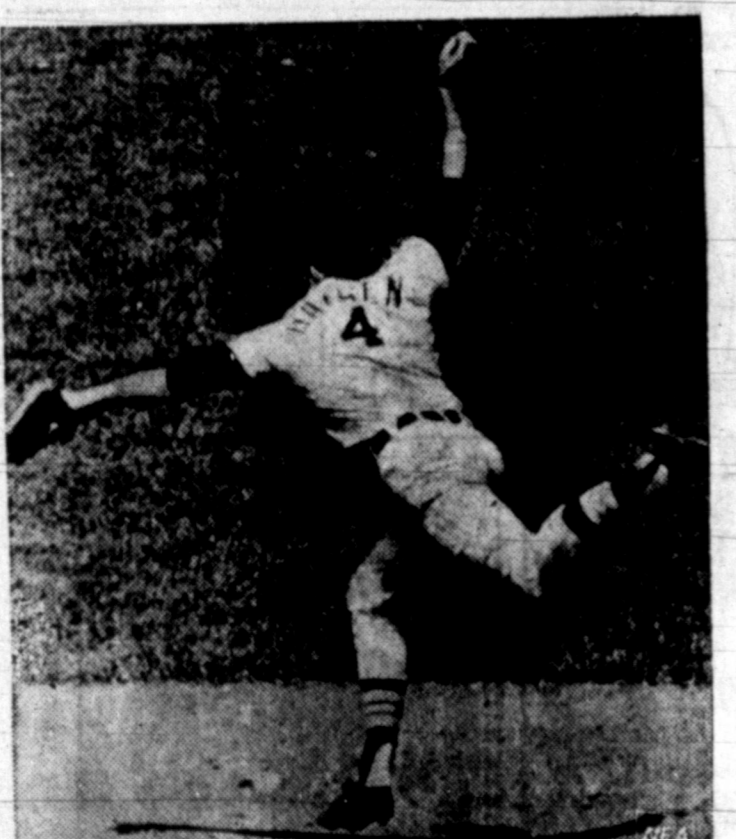

Entries are now being taken for the tournament, slated August 20. Entry fee is \$6.

The championship flight will be 27 holes of medal play with flights A, B, C, and D nine holes of match and nine holes of medal play.

The course will be open August 19 for practice rounds for entrants.

SWIM RECORD

DINARD, France (UPI) — Francis Luyce of France shattered the world 800 meter free style swimming record Friday with an 8:42 clocking, 4.8 seconds better than the old mark set by fellow Frenchman Alain Mosconi.

DANCING RON HANSEN gives it a try but just can't get to the ball in time. The Whites Sox shortstop has good form though.

South Running Game Best

SAN ANTONIO (UPI) — Gene Mayfield, coach of the North all-star football team, is faced with the job of stopping a first-class congregation of running backs Thursday night and on the strength of two of the state's top defensive linemen, he hopes to get the job done.

Randy Stout, a 245-pound tackle from Class AAAA champion San Angelo, and Joey Lawson, a 205-pound tackle from Stamford, will probably play both offense and defense for Mayfield.

And on defense, they must be able to bring down all state Steve Worster of Bridge City, flashy David Elmendorf of Houston Westbury and Brazosport's rugged fullback Jay Cormier.

Mayfield feels that if these backs cannot be stopped, the game is over. He takes lightly remarks by his opposing coach,

Court Appearance On Again for Clay

HOUSTON (UPI) — Cassius Clay makes his fourth court appearance in a month today in a bid for permission to go to Japan for an exhibition fight.

Clay's efforts were foiled Tuesday when U.S. district Judge Joe Ingraham was unable to hear the deposed heavyweight champion's plea because of another case.

Clay filed the appeal July 7 but Judge Ingraham postponed decision. He said he wanted to look into what he called "possible anti-American activities" attributed to Clay.

A ruling was expected July 19 but again the decision was put off, when Clay's lawyer, Quinlan Hodges, was injured in an auto accident.

Ingraham said he wanted to find out what happened at several anti-Vietnam-war rallies Clay attended. He said he understood at one such Los Angeles rally Clay signed autographs on draft cards.

Clay denied making anti-American comments and Hodges said he would supply witnesses.

Foreign Commentary

By PHIL NEWSOM
UPI Foreign Analyst

While native Cubans may have to stand in line for their favorite rice, meat or even native fruits, not so the advertised 700 delegates and some 70-odd newsmen invited to Fidel Castro's latest extravaganza.

To prepare for this week's outing of the "Latin American Solidarity Organization (LASO), in Havana, with its announced goal of creating "many Vietnams" throughout the world, Castro first led his guests on a 700-mile trek to Santiago to celebrate an historic event in Cuban revolutionary history.

This was the July 26, 1953, Castro-led attack on the Macondo barracks which resulted in about 109 students and soldiers being killed and Castro himself being sentenced to 15 years in prison. It was the origin of the name of the "26 de Julio" movement.

After dining and dining his guests in Santiago, Castro led them back to Havana where in five luxury hotels they continued to live it up around tables stacked with more food and more wines.

In the city itself, glaring down from posters upon the visitors were the grim visages of Castro, Karl Marx and Ernesto (Che) Guevara, the Castro lieutenant who disappeared in 1965 and since has been variously reported as dead or stirring up revolutions elsewhere.

At any rate, such was the setting of this year's meeting of LASO, the Latin American Solidarity Organization which is another description of Castro's plan to export his revolution throughout the Americas.

Among Castro's guests was black power advocate Stokely Carmichael, who arrived via Communist East Europe and who will have his passport picked up when he returns to the United States.

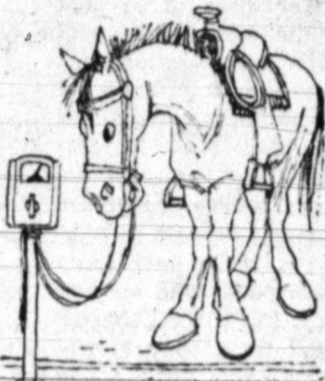

Unfortunately for the Negroes for whom Carmichael professes to speak, his presence in Havana may only succeed in pinning a communist tag on some who already have trouble enough.

In Latin America, LASO has succeeded in stirring up new troubles in Colombia and Bolivia. Communist guerrillas no longer are considered more than a nuisance, in Venezuela and little has been heard from

them lately in Guatemala, other LASO targets.

On the other hand, it has pointed up a serious split between Moscow and Castro and it has resulted in a cooling of relations between Cuba and Mexico, the only Latin American government still maintaining relations with Castro.

Woman Not Sick, Just Pregnant

FRESNO, Calif. (UPI)—Mrs. Patricia Cook, feeling tired and rundown took the advice of a friend and went to see a dentist. A visit to a doctor would have been more appropriate.

The dentist did his job, though. He pulled Mrs. Cook's teeth, gave her dentures, and had her feeling better in no time. She even started putting on weight.

But nagging backaches began to plague Mrs. Cook, mother of three. Late Sunday afternoon, about a month after her dental treatment, she screamed to her husband that she needed a doctor.

B. W. Cook called for an ambulance and ran to the bathroom, where he found his wife holding a new-born 5-pound, 3-ounce baby boy.

"We weren't prepared for anything like this," said the shaken father. "In fact, we gave away our baby things several months ago because we figured we'd never need them again."

HERE ARE THE CONVICTIONS THAT LED TO

OUR BELIEF IN A UNIVERSAL SINGLE STANDARD OF RIGHT

Open To Challenge
See last paragraph

Before stating our belief in a universal single standard of right we want to make it clear that we invite questions on this belief. And, if we cannot answer without evasion or contradictions, we are not worthy of your confidence and will admit our error and change our belief.

Want Information

We believe that most of our political trouble comes from putting confidence in persons who continue to advocate government economic planning even though they can neither rationally answer questions about what they advocate, nor find anyone who can.

We know of no better way to learn and develop, and thus be able to be useful, than have our convictions questioned either privately or publicly.

The Pampa Daily News believes in a system of universal natural law.

It is our belief that every fact of existence—if it is a fact—is immutable, irrevocable and eternal.

That is — we believe that moral facts are no less concrete and timeless than physical facts. The law of gravity does not change with seasons; atomic behavior is not subject to the good intentions of man. For physical facts are not capable of change; else they would not be facts.

And so we believe it is with moral facts, which stem from the same source as physical laws.

Let's take two facts, one physical and one moral.

1. Water seeks its level.
 2. Stealing is wrong.
- It is commonly accepted that the first fact is not subject to amendment. A change in political administration, a vote of the people, a petition of the Society of Learned Mathematicians of the World cannot change it. It exists as a fact.

The second law, we believe, is no more subject to amendment than the first. The majority might wink at it, try to reconcile it with some base or unsound conviction. But that does not affect the law — only the people who must live by it. Jumping out of a five-story building to flout the law of gravity will hardly bring about a suspension of that law. Neither will disregarding moral law bring about its abolition.

Guide To Morality

Now, we have outlined our convictions in fundamental moral law, or fact.

Next, it is incumbent upon us to state a single universal law or fact as we believe it:

Persons, groups and governments ought not threaten to initiate force or use it to attain their ends. This would certainly mean, Thou shalt not steal individually or collectively. If no person or group stole, there would be no murder, no false witness, no adultery.

To express the belief positively, all individuals or groups should get what they get in a manner that would be profitable to all. Then all would respect the private property of others 100%. That would be true liberty and voluntarism.

That is our interpretation of the Declaration of Independence. This is the universal single standard of right we use as our measuring device of morality — a yardstick of ethics.

Thus we believe:

1. That every man is born with equal unalienable rights to take moral action to make more secure his property which includes first his life, then his liberty and all he produces.
2. That these rights are the endowment of the Creator and not the gift of any government.

Since we believe these facts are expressed in this guide of human conduct, we do not believe any man has the moral right to curtail the rights of his brother. That is, no man has the right to initiate force against his brother. Every man, to be sure, has the right to resist the initiation of force, but should not initiate it.

In all of recorded history, men have banded together for certain reasons — to hunt, to play, to trade, to build. In a voluntary association, such as the one that publishes this newspaper, each man exercises his rights through the group. BUT, simply because each man is the member of a group, he cannot morally assume rights he did not possess as an individual. And, neither does the group possess rights which the individuals in that group do not possess as individuals.

An example—John Doe is a shoe salesman. He does not have a right to sell shoes at gunpoint. Even, if 10,000 John Does in the shoe business form an organization, that organization does not have the right to sell shoes at gunpoint.

Rights and morality are individual matters. These moral laws do not make exceptions for groups. They do not say, "Thou shalt not steal except at the desire of the majority." They say, "Thou shalt not steal" Period. And a man's association with a group does not relieve him of the burden of these laws.

We believe, therefore, in a single standard of conduct. Thomas Jefferson stated the matter. He wrote: "I know of but one code of morality, whether it be for men or for nations."

Immanuel Kant, another great student of morals, in his "Metaphysics of Morals" wrote: "... I ask myself only: Can I will that my maxim become a universal law?"

Single Standard of Conduct

Our belief in a single standard of conduct, and in the existence of individual rights, and in the existence of universal natural law, brings us to oppose all things in which an individual or group seeks to initiate force — that is, curtail the rights of any other individual or group.

We must oppose each brand of socialism, whether it is called Communism, Fascism, Fabian Socialism, New Dealism or New Frontiersism.

We oppose socialism in factories, schools, churches and in the market place.

We do not believe there is any such animal as "good political socialism," either on a local, national or international scale. We do not believe in initiating force for any reason, even though the cause is a "good" one.

We believe it is violating the rights of the individual to force him to support a school, church, industry, business or profession if he does not choose to do so.

Two men out of a hundred have no moral right to force the 98 to support a school or church. Neither do the 98 have the moral right to force the remaining two men to support that school or church.

If that belief is contrary to the above standards we want to be convinced. Repeatedly we have offered as much as \$1,000 to prominent persons who advocate using collective initiated force to examine publicly the morality of using such force where each person would agree to answer questions as he would before a court. We earnestly seek to be shown any errors in our reasoning.

If six, 26 or 6,000,000 individuals voluntarily get together to establish a church, school, business or club—and if those people do not curtail the rights of anyone inside or outside their own group — we have no argument with them.

The majority cannot write moral law. Neither can the minority. But, neither does the majority enjoy any moral advantages denied the minority, or the individual.

We believe, therefore, in a voluntary supported government. The state, at best, exercises those powers which the individuals in that state voluntarily have turned over to the state for administration. An example: We prefer a private police force because we'd rather support a police force than wear a gun. But if some do not want to support a police force, they should not be forced to do so. Nor should they receive its services. The police force should have no powers denied any individual, and neither should the existence of a police force abridge the right of any citizen to defend himself.

We do not believe the state has any rights simply because it is a state.

Governments should exist only to try to protect the rights of EVERY individual — not to redistribute the property, manipulate the economy or establish the pattern of a society.

These are the basic elements in our belief and of our editorial convictions.

*Regrettably, we do not always follow this principle. We fall into error. Our humility perhaps, is not sufficient to the effort. But it is our belief to the degree a universal single standard of right is followed you will have a deeper understanding of your religion, greater freedom and security and more happiness and a higher standard of living. This belief will also benefit every person in the community, the state, the nation and the world. That is the reason it is our belief.

UAR's Use Of Poison Gas Checked

By PHIL NEWSOM
UPI Foreign Analyst

"The carcasses of hundreds of animals littered the sand. The desert around the almost deserted village was pitted with fine white ash. And in the village graveyard I saw more shallow bomb craters lined with than 100 freshly dug graves."

This was the eye-witness report that UPI correspondent John Lawton brought back after a visit to the Yemeni village of Ketaf last February.

It dealt with the reported use of poison gas by President Gamal Abdel Nasser's United Arab Republic forces against royalist villages in Yemen, a report confirmed by the International Red Cross and by Pakistani doctors who treated the injured.

U.S. Enters Dispute
Belatedly, last week, the United States and Britain announced they would support international steps to halt U.A.R. use of poison gas.

In the more than four years of bitter fighting between Yemeni royalists and the Republican regime supported by the U.A.R. there had been numerous reports of U.A.R. use of the gas.

Up until last week, however, the U. S. response had been that it had no evidence to support the charges.

From May through July, with the exception of a period in June during the Arab-Israeli fighting, some 500 Yemeni villagers have been reported killed in gas attacks on up to a dozen villages.

Villagers at Ketaf told Lawton that nine Egyptian Ilyushin jet bombers dropped 27 bombs which gave off a greenish colored, sweet smelling gas "killing everything wherever the wind blew."

British sources have identified the gas as phosgene, which was used in World War I but which is a sour smelling gas rather than a sweet one.

EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license, nor anarchy. It is control and sovereignty of oneself. No more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

America's Civil War

The nation today is engaged in a civil war. Stirred up by extremists of all kinds, a small segment of the population seems determined to destroy lives and property in a senseless orgy, which will hurt themselves as well as an important part of the productive economy.

All poor America individuals are frightened. Even politicians in some part whom must share in responsibility for the troubles, are talking about such extremes as declaring martial law in troubled areas.

The dispatch of federal troops to Detroit and Milwaukee was inevitable when weary local police and state National Guard were unable to stop the burning and pillaging. Yet when martial law and a curfew are imposed, they hit the innocent as well as the guilty.

All sorts of solutions are being offered by the politicians. They range from more political intervention and more spending of tax money to give the rioters what they say is owed them, to suggestions that any rioter looter be shot on the spot.

There are some in the "black power" movement, like H. Rap Brown, head of the "Student Non-Violent Coordinating Committee," one of the most militant groups, who was quoted as saying in Cambridge, Md., "It's time for Cambridge to explode, baby. Black folks built America, and if America don't come around, we're going to burp America down." We are sure Mr. Brown's statement does not represent the thinking of any large segment of the Negro community. Yet there are too many militant individuals who become stirred up by such irresponsible blatherings.

Responsible black folk know that they had a part in building America along with responsible folk of other racial backgrounds. They know that individuals of whatever race or creed can advance only by their own efforts, and they know that a whole race of fine people is being hurt by a few extremists.

What is feared by a great many people of all backgrounds is that the action by black extremists will bring out retaliatory action by white extremists. If that happens, a great many more innocent parties are going to be hurt.

Some of the "black power" advocates are renewing talk of a black republic, which was promulgated about 40 years ago by the Communist Party. One of the delegates at a Newark, N.J., meeting was quoted as saying, "Black people do not wish to be absorbed into the white community. Our interests are in conflict. Our physical, cultural and moral standards are not those

"There are forces in the world that want us to fail, and conspire toward that failure which means disunity and destruction. We are here, blessed with the right of mobility, the right of ownership, the privilege of privacy and development of personality, and the previous machinery of peaceful change. These gifts and gains it is the purpose of the conservative to defend and extend, lest we perish in the feil clutch of collectivism. These gifts and gains I have been trying in my small way to preserve."

Spending Way to Riches

Raising the price of stamps won't cure the perennial problems of the United States Post Office Department. Indeed, its budgeted deficit of \$1.2 billion next year will be enlarged if Congress approves the latest plan from President Johnson.

He is asking for a 1-cent increase in the cost of each 5-cent stamp, each 8-cent air mail stamp and each 4-cent stamp for a postcard. This would yield an estimated increase in revenue of \$600 million a year.

In the same breath, Johnson proposed pay rises averaging 4.1 per cent, effective next Oct. 1, for all federal civilian workers and members of the Armed Forces. The cost would be more than \$1 billion annually—\$200 million more than the intake from higher postal rates. Two more steps in federal pay scales in 1968 and 1969, would add about \$2.5 billion a year to the national budget.

Truth is the Key

With so many wrong beliefs prevailing among us, is it any wonder that we find human opportunity in shackles? Yet there is hope. As each individual uses the key of truth to unlock the chains of ignorance, all men are enabled to move a step toward freedom.

In An Age When Everything Gets Taller

Backstage Washington

ROBERT ALLEN

PAUL SCOTT

Two 'Third Parties' Splintering from Democrats Organizing and Planning Strategy for '68

WASHINGTON — It is now virtually certain that President Johnson will face a double splintering of the Democratic party in 1968. Formation of two separate "third" parties are now in the discussion stage in the North and South.

One Democratic split will take shape soon as a "Peace Party." The second party division will be led by George Wallace, former Alabama governor, who already is mapping strategy for the 1968 "Dixiecrat" walkout.

Foundations for the Peace party will be laid over Labor Day weekend, when more than 1,000 leaders of anti-Vietnam peace and civil rights groups, labor and student organizations gather in Chicago.

Keynote for the five-day meeting (Aug. 31-Sept. 4) will be Dr. Martin Luther King Jr., chairman of the Southern Christian Leadership Conference, who privately is urging Senator Robert Kennedy, D-N.Y., to break with his party and become the 1968 Peace candidate.

The Chicago convention will be sponsored by the National Conference for New Politics, a grouping of civil rights, peace and Communist advocates, all disenchanted with President Johnson and the Vietnam War.

It will be the first time Peace and civil rights groups have put their national joint strength on public display since last April's spring mobilization in New York.

PREPARING THE WAY — King plans to set the stage for his "grand political appearance" in Chicago by having his Southern Christian Leadership Conference enter partisan politics.

Announcement of this strategy will be made at the civil rights group's convention in Atlanta on Aug. 14-17 — or about two weeks before King's Chicago address.

The decision of King's group will be in line with the political strategy of the National Committee for a Sane Nuclear Policy, the recent Black Power Conference in New Jersey, and the U. S. Communist party. All three groups are urging and working for a civil rights-peace political coalition for 1968.

The Communist Party took the lead in launching the undercover drive for this new "political force" last November after Gus Hall, general secretary of the party, visited the Kremlin.

On his return from Moscow, Hall called together a select group of U. S. Red leaders in New York and announced the party would begin working to help elect a "peace candidate" in 1968.

Significantly, when William F. Pepper, the New York-based executive director of the National Conference of New Politics, was questioned about his group's attitude toward Communist participation in the Chicago conference, he replied: "We welcome the participation of all groups, but we will not accept domination by or the ideolo-

Why Can't We Communicate?

"But we have better communications today than ever before! The quantity and quality of media are rapidly on the increase," you say. I agree. But what about the non-technological everyday, face-to-face communication between people? Experience, I think, reveals that many people are unable to express their thoughts clearly, or to understand other people's ideas. The reasons for this difficulty are almost endless, so I'm going to touch on just a few.

The area I'd like to pursue has to do with psychological blocks to communication. Such psychological blocks are often difficult to overcome, because of their close relationship with personality traits. But for those who are really interested in improving their ability to express and understand ideas, these blocks can be removed.

In many discussions it seems that the participants are more interested in gaining agreement with their ideas than in examining them with a view toward learning something new or correcting possible errors. If the object of discussion is to learn to discover truth-then those involved must check themselves during a conversation by asking, "Am I defending my idea, rather than offering it for examination? Am I listening-honestly — to the other side when it is presented?"

The purpose of discussing ideas ought to be the furtherance of knowledge. All too often the atmosphere of a contest prevails, with winners and losers emerging, and no intellectual exchange taking place. Decide what your purpose in communicating is; then stick to it.

The need to agree with the "other fellow" is also quite common. In some cases this may be due to a person's desire to be liked or admired; but the desire is so strong that it becomes more important to him than the ideas under consideration. This "popularity seeker" often pretends to understand the ideas expressed (when he really does not), rather than have others believe he's not intelligent. Actually this is what he believes. He assumes that if he fails to understand, it is because he's intellectually inferior. He doesn't seem to consider that the fault may lie with you; that you may not have expressed your idea clearly or accurately.

Some people, because of strongly held beliefs, have an emotional repulsion when contrary views are being aired. Consider, by way of illustration, the word "capitalism." Most Americans associate capitalism with such concepts as private businessmen and citizens engaging in voluntary exchange of mutual benefit, or investment of savings in productive activities. But those who advocate the welfare state, or other forms of socialism, are convinced that capitalism means "coercive monopoly," "dog-eat-dog," "ex-

ploitation of the masses," and other provocative phrases. One way of overcoming this block is for the speaker to define and explain his terminology clearly and precisely, and for the listener to request such explanations when he is presented with a concept that "just doesn't feel right" to him.

These points barely begin to scratch the surface of a very profound problem. Honest communication is rare, and extremely difficult. But when it occurs it is one of life's most enriching and rewarding experiences.

Straight Talk

THE BIG STEAL

THE "farm program" was perpetrated 65 billion dollars ago by Lyndon Johnson's hero Franklin D. Roosevelt. "to help the poor little farmer." And it has helped the poor little farmer—in enemy countries. The program was devised to "eliminate over-production" too.

There was no overproduction (Only under-consumption) and our "poor little farmers" have been practically eliminated. Fifty percent of our farmers now own one-third of the arable land. Thirteen percent own more than half. Our Socialist Secretary of Agriculture has hinted that "land reform" might be the answer to that. Castro figured the same thing.

Already—and we've seen only the beginning unless there is a tremendous reversal in our headlong rush to collectivism—the government spends more on agriculture, per farmer, than most farmers make from farming. Billions of dollars have been stolen from the American taxpayer "to help the poor little farmer." But the poor little farmer got virtually none of it.

When the government gave the bowl runneth over, the rich folks are standing there with spoons and the poor little farmers have only forks. Hundreds of millions of the taxpayers' dollars are given every year to rich absentee landlords who cultivate nothing but the ASCS (Agricultural Stabilization and Conservation Service) offices.

The Federal Government steals \$1.6 billion a year from the taxpayers to pay farmers not to farm 60 million acres. Most of the \$1.6 billion goes to corporations, tax evaders, inflation hedgers and other rich people farming for a loss instead of a living, while the

poor little farmer is driven off the farm into the overcrowded, dirty, unhealthy, crime-ridden cities.

There is not now and never has been any excuse for a dole for the rich. Government farm programs have been the most vicious enemy the poor little farmer ever had.

I am not condemning the fatcats who get these government bounties. Most people—big or little—will do what the law allows. The law even allows some of the clever ones to be paid twice for the same "diverted" acreage. It's easy to rationalize: "I am paying for it in taxes, I'd be foolish not to get back all the law allows." I am 100 per cent against any veteran's bonus. I do not believe any person who did not get injured in combat deserves to be paid again for doing his duty and serving his country. But if the Congress should steal the money to pay bonuses to all veterans, I would probably take mine, since my income tax would go up more than the amount I would get from the bonus.

The way to start solving the farm problem is to get the big boys away from the trough first; no subsidies for corporate farmers, lobbyists, fair-weather cowboys, wind-shield and tax-deductions farmers—no gifts, no loans, no drought relief, no help and advise; and no more farm tax losses deducted from non-farm income. Every farm should stand on its own tax bottom.

Part of the legalized robbery of the taxpayers is called "acreage diversion." In 1966 five farming operations were given cash loot of more than one million dollars each for diverting land from one crop to another crop. Eleven other "farmers" got more than half a million dollars. Two state penitentiaries—Arkansas and Louisiana—are classified as farmers and got cash subsidies of \$122,000 and \$92,135 respectively.

USDA also classified the State of Montana as a farmer, and stole for it last year \$337,345 of your tax money to curtail Montana's farming operations. "Farmer Texas" and "farmer Washington" got \$288,911 and \$125,552 respectively.

Some of the people who were supposed to be solving the problem have been getting rich from it instead. Instead of preventing the steal, many Senators and Congressmen are in on it.

H. L. Hunt Writes

AID TO HANOI
Americans must not allow newspaper stories about conflict between Soviet Russia and Communist China to obscure the fact that these two countries are together in furnishing arms aid on a massive scale to the communist in Vietnam.

The scope of this aid is revealed in figures gathered from a variety of U.S. government sources. North Vietnam, which supplies both the communist Viet Cong and North Vietnamese soldiers in South Vietnam, received military aid totaling about \$1.5 billion from 1955 through last year. Chinese military assistance to North Vietnam amounted to approximately \$200 million. During this same period economic aid amounting to \$1.5 billion was extended to North Vietnam from all communist sources.

Many of the guns that are killing American fighting men came directly from the two big communist countries. Red China has supplied North Viet-

nam more than 750,000 small arms. Russia has furnished more than 10,000 artillery pieces, mortar and other heavy weapons. In addition, the communists send ammunition, trucks, petroleum, fighting planes and surface-to-air missiles—all the equipment of modern warfare.

It probably is too much to hope that these facts will have any effect on those of the Far left who maintain that the conflict in Vietnam is simply a "civil war," the outcome of which need not concern the free world. Americans generally know better. And the communists everywhere in the world also know better. That knowledge is reflected in the tremendous flow of armaments into Vietnam from Soviet Russia and Communist China. The worldwide conspirators against freedom are hard at work.

BERRY'S WORLD

"For this, I went to art school for four years!"

The Doctor Says

Walking Druggstore Award Is Dubious Attainment

Q—I was recently hospitalized for miner's asthma and I am now taking the following drugs: meprobamate, tetracycline, brompheniramine, isoniazid and prednisone. What are they for? and what are the side effects?

A—You win the 1967 Walking Druggstore Award. When do you find time for anything else? Meprobamate is a tranquilizer, tetracycline is an antibiotic, brompheniramine is an antihistamine used to treat asthma and other allergic diseases, isoniazid is used to treat tuberculosis and prednisone is a drug of the cortisone group used to combat inflammation. The side effects of this quintet could cover just about any symptom—you would care to mention. If you have any unpleasant symptoms while taking these drugs, report them to your doctor and perhaps he will decrease the dosage of one of them—or, better yet, discontinue it.

Q—Can a person take too much medication? My doctor has me taking Duotrate, Barbase, thyroid extract and Permarin. I am in my early 50s. I don't feel very good and I haven't got much pep.

A—You get the second prize in this competition. Yes, you can take too much of any given drug and you can take too many different kinds. Sometimes the effect of one drug neutralizes or interferes with the effect of another.

Pentaerythritol tetranitrate (Duotrate) is given to relieve attacks of angina pectoris. Barbase is a combination of belladonna and phenobarbital given to relieve spasm in the digestive tract and aid in the digestion of starches. Thyroid extract and conjugated estrogens (Permarin) are hormonal replacements. Are you getting enough sleep? Are you wearing a balanced diet? Are you getting yourself out worrying about things? (Are you worrying more and enjoying it less?)

There are many causes of a feeling of general peeplessness.

Q—What are these medicines for: Valium, Tofranil and Librium?

A—With only three drugs to keep track of, you get the consolation prize. Diazepam (Valium) is a minor tranquilizer, impipramine (Tofranil) is an antidepressant and chlordiazepoxide (Librium) is a major tranquilizer. I sincerely hope you are not taking all three drugs at once.

HOW TO ADDRESS OUR LAWMAKERS

You may wish to write your senators and representatives in Washington and Austin. Here are their addresses:

(FEDERAL)
Rep. Bob Price, 1223 Logworth Bldg., Washington 25, D.C.
Sen. Ralph Yarborough, Senate Bldg., Washington 25, D.C.
Sen. John Tower, Senate Office Bldg., Washington 25, D.C.

man more than 750,000 small arms. Russia has furnished more than 10,000 artillery pieces, mortar and other heavy weapons. In addition, the communists send ammunition, trucks, petroleum, fighting planes and surface-to-air missiles—all the equipment of modern warfare.

It probably is too much to hope that these facts will have any effect on those of the Far left who maintain that the conflict in Vietnam is simply a "civil war," the outcome of which need not concern the free world. Americans generally know better. And the communists everywhere in the world also know better. That knowledge is reflected in the tremendous flow of armaments into Vietnam from Soviet Russia and Communist China. The worldwide conspirators against freedom are hard at work.

Highlights and Sidelights From the State Capitol

AUSTIN — State Supreme Court has ruled that the constitutional amendment requiring annual voter registration in Texas is valid.

AFL-CIO challenged the amendment. They contended that voters did not get "fair notice" that the amendment provided for annual registration.

State labor officials pledged to take the issue to the highest federal court.

State Supreme Court agreed with ruling of the Third Court of Civil Appeals that the amendment — approved by Texans last year — to abolish the poll tax as a requirement for voting and substitute annual sign-up should stand. There was no opinion. Appellate judges had reversed the trial court finding.

Austin District Judge Herman Jones agreed that the full purpose of the amendment was not adequately described in the proposition on the ballot. It stated only that the poll tax would be knocked out as a voting requirement. Last April Court of Civil Appeals said it was unlikely any voter, in view of widespread publicity given the issue, failed to understand what he was voting on.

Roy Evans, Secretary-Treasurer of Texas AFL-CIO, said the State Supreme Court will be asked for a rehearing. If that is rejected, a hearing will be requested before the U.S. Supreme Court.

Meanwhile, Texas election machinery and voter registration

for the big 1968 election year will proceed under annual sign-up law as amended this year.

All voters, including those who live in cities under 10,000 population, must register between October and January.

In other cases, the State Supreme Court:

—Left standing lower court decisions refusing cash judgments to two parties to the collapse of Billie Sol Estes' fortunes. Case originated in Pecos District Court.

—Reversed Amarillo Court of Civil Appeals and sustaining district court in holding that 49 strikers against the Shamrock Oil and Gas Corporation in 1964 could draw unemployment benefits due to circumstances of their joblessness (Strikers had offered to return to work.)

—Upheld Third Court of Civil Appeals' ruling that State Savings and Loan Commissioner was justified in denying a branch office application for downtown Houston of the Gibraltar Savings Association.

ATTORNEY GENERAL RULES—Oil and gas produced on federal land at Corpus Christi Naval Air Station are subject to line taxes (except for 16-23 per cent payable as royalty to the U.S.), Atty. Gen. Crawford Martin has held.

In other opinions, Martin has concluded that:

—A \$1,500,000 appropriation to construct protective devices at railroad grade crossings is constitutional.

—If a county commissioner is a director and stockholder in a bank desiring to receive bond issue funds, the county commissioners court does not have authority to designate that bank as a county depository.

HIGHWAYS — As July began, the State Highway Department had \$618,899,810 worth of highway construction under contract. During June, contractors were paid \$35,802,146 for work completed.

In 1919, only \$273,000 was spent for road construction.

WELFARE — An audit of the State Department of Public Welfare reveals that \$461,000,000 in federal and state money was used in Texas during the two years ending last Aug. 31 on welfare programs.

Rate was \$120,000,000 last year, of which \$168,620,302 was in direct grants to the needy aged, blind, children and disabled, plus \$41,431,797 for medical care for the needy aged. While aid to dependent children and those who are permanently disabled continues to rise, training programs are reducing the amount of aid needed by blind persons.

Distribution of surplus commodities also is handled by this department.

Payroll and other administrative costs for giving away \$215,000,000 came to \$12,708,278.

SCREWORM REPORT — Between May 28 and July 1, some 19 cases of screwworms were confirmed in Texas.

To prevent spread of the disease, Screwworm Eradication

Program planes recently released 757,780,000 sterile screwworm flies in Texas. Some 106,144,000 were dropped over Trans-Pecos and the Valley portions of Texas.

HIGHER RATES AUTHORIZED — Texas Railroad Commission has authorized higher rates for shipments of household goods by specialized carriers.

No increase was allowed in packing charges, which had been requested by the van lines.

Rate changes, based on averages of 7,600 shipments, come to 17.3 per cent higher than present rates.

However, larger shipments are actually less and smaller shipments will take effect on Aug. 5.

COLEMAN PARK GRANT APPROVED — City of Coleman will receive a \$124,810 federal grant to help develop a 139-acre park site at Coleman Lake, 14 miles north of the city.

Grant is under the federal land and water conservation fund program.

City will put up an equal amount to landscape the area and provide boat ramps, picnic units, camping sites, trailer units, playground, swimming beach, fishing piers, concession building, bath house, restroom and necessary utilities.

SHORT SNORTS

Secretary of State John L. Hill, who becomes chief election officer of Texas under a new law effective Aug. 28, has called

a statewide conference on recent election law changes for October 27.

State Water Pollution Control Board approved application of Orange for a permit to replace Simmons Drive Sewage treatment plant with another and increase amount of treated sewage discharged into the Sabine River.

Value of building permits issued in Texas during June fell four per cent according to the UT's Bureau of Business Research.

Texas is the 33rd state to ratify an agreement with Interstate Commerce Commission to help each other enforce state and federal highway transportation laws.

CHICKEN NOODLE or tomato? The soup that comes out of this big pot would give anyone a tummyache if they tried to eat it. It's molten aluminum, used to make transmission and engine components at the Ford Motor plant at Sheffield, Ala.

ECONOMICS FIRST

NAIROBI, Kenya (UPI)—President Hastings Banda of Malawi told newsmen Tuesday night that despite pressure from other African nations it was economically impossible for his country to cut ties with Portugal and South Africa. "To be an African nationalist does not mean that you must cut your economic throat," he said.

CHANNEL SWIM

DOVER, England (UPI)—Six English boys and girls between 12 and 11 Tuesday became the youngest relay team to swim the English Channel. They swam the 22 miles from Dover

WIDOWS PREDOMINATE

VIENNA (UPI)—Government statistics today showed more males than females are born in Austria but that the women live far longer and that today the country has six times more widows than widowers.

NEW AMBASSADOR

ATHENS (UPI)—The Foreign Ministry today announced the appointment of Christos Xanthopoulos-Palama, formerly envoy to the North Atlantic Treaty Organization, as ambassador to Washington.

to Cape Gris-Nez, France, in 12 hours and 33 minutes.
