FIRST DAY OF SUMMER DIP - Butch Wilkerson, instructs Jan Cawthon on the fine points of diving during Red Cross swimming classes at the City Pool. While this morning started off with chilly temperatures, the thermometer climbed as the longest day of the progressed. Summer officially arrived in Pampa at 8:23 p.m. Daylight began at 5:19 and will end at 7:39. Wilkerson is the son of Mr. and Mrs. C. H. Wilkerson, 1823 Chestnut, and Miss Cawthon is the daughter of Mr. and Mrs. B. J. Cawthon, 2208 N. Sumner.

1 Killed, 3 Wounded In Atlanta Rioting

By TEE DENT PONDER
United Press International

ATLANTA (UPI) — Mayor Ivan Allen Jr. declared a state of emergency and imposed an after-dark curfew early today in a Negro "prestige slum" district where one person has been killed and at least nine others injured in two nights of rioting.

Police immediately enforced the order, banning everyone from the streets in Dixie Hills until dawn. The area, in the bright moonlight, resembled a ghost town in the early morning.

But hours earlier, gunfire had cracked in the streets and one Negro, Timothy Ross, 46, fell mortally wounded while sitting on the steps of an apartment building. A youth, Reginald Rivers, 9, was shot in the side, Marion Ward, 34, was struck in the face and Catherine Duncan, 51, wounded in the hand, apparently in the same volley.

Boy Seriously Hurt

Reginald was listed in poor condition. Ward and Mrs. Duncan were not seriously hurt. The violence occurred near the Dixie Hills shopping center where about 300 Negroes rained bricks and bottles on police Monday night after Stokely Carmichael told a rally, "We should be out beating heads." The Negroes had rallied largely to the shooting of a Negro youth by a Negro policeman earlier Monday at the shopping center.

State Sen. Leroy Johnson, Georgia's first Negro legislator in modern history, had tried to head off another night of violence Tuesday by setting up a youth patrol of Negro teenagers to help keep peace. Militant Negro leaders, however, called them "black traitors" and the patrol never actually became a serious factor.

IN GRAY COUNTY

Social Security Payments Total \$239,025 a Month

Social Security benefits amounting to \$239,025 a month were being paid to residents of Gray County at the close of 1966. This would approximate \$2,870,000 a year.

The figure was an increase of \$16,197 over the previous year according to Virgil J. Holloway, officer-in-charge of the Pampa social security office. While the majority of payments went to older persons, Holloway pointed out that substantial payments also were made to young widows, children and disabled workers.

Nearly every young family in Gray County has survivors' protection under social security that can be worth \$75,000 or more, and equally valuable insurance in case they become disabled.

"The average worker," Holloway said, "can expect to collect more than the value of his own social security contribution just in benefits payable to him and his family in retirement. If he should die or become disabled before retirement, his family stands to collect more than the contribution he has paid."

Holloway said Gray County currently has 3,231 beneficiaries under social security.

Social security benefits paid to the residents of 24 Panhandle counties last year totaled \$26,250,624, Holloway added.

Monthly payments to the family of a worker who dies leaving two or more children can range from \$66 to \$366 a month, depending on the worker's average earnings under social security, Holloway stated. Benefits go to a mother and children continue until the youngest child becomes 18. Further, if a child is disabled or a full-time student his benefits may be continued beyond age 18.

Holloway recommended that all persons having a question about social security contact the Pampa social security office in the Hughes Building, 400 W. Kingsmill or phone MO 4-3381.

WEATHER

PAMPA AND VICINITY. Partly cloudy to clearer through Thursday. Cooler tonight. Low tonight upper-50s. High Thursday lower-60s. Winds northerly 10-20 mph gradually decreasing late today and tonight. Outlook for Friday: Partly cloudy and warmer, possibly a few evening thundershowers.

Britain Calls For New UN Force in Mideast

Brown Asks Thant For Representative

UNITED NATIONS (UPI) — Britain called today for a new United Nations military force to preserve peace in the Middle East and urged Israel not to annex the section of Jerusalem it wrested from Jordan.

British Foreign Secretary George Brown also suggested that Secretary General Thant name a personal representative of "unchallenged standing" to go to the Middle East and keep an eye on the restoration of peace.

Luci Gives Birth To 8-Pound Son

By Helen Thomas

United Press International

AUSTIN, Tex. (UPI)—Luci Johnson Nugent, younger daughter of President Johnson, gave birth to an 8-pound, 16-ounce boy in Seton Hospital today.

"Luci's fine," her 23-year-old husband Pat said, personally announcing the arrival at 6:59 a.m. CDT of his son, the President's first grandson.

Nugent said of his son, "and I think the dimensions are 21 inches long."

The 19-year-old Luci was taken to Seton Hospital, run by Roman Catholic sisters of St. Vincent De Paul about 1 a.m. CDT.

Her husband drove her the two miles from their home to the hospital in about 5 minutes. The hospital staff was ready; it had been alerted to expect her. Nugent and Luci were followed in another car by Mrs. Lyndon B. Johnson, who has kept a baby vigil at the Nugent home for more than a week, spending every night there.

Pat said Mrs. Johnson had called the President to tell him their daughter had had a grandson. Special White House telephones were set up in the hospital shortly after Luci arrived.

Pat was wearing a light blue turtleneck, finally beginning to relax under the banter of reporters and photographers, admitted that they had picked a name but added: "We just don't feel like releasing it now."

He could not get over the size of his wife's baby. He kept repeating the poundage and said, "that's an elephant, isn't it?"

1966, "there was nothing saying he was a minister. He did not say anything about going to preach the word of Allah or seek converts."

In arguing the government's case, Asst. U.S. Atty. Carl Walker, a Negro, told the jury he believed everyone was sincere in religious thinking "but the question is whether he (Clay) violated the law."

"Sincerity is not the real issue," Walker said. "The issue is whether he refused to obey the law. It is our law for all of us, regardless of what motivated him."

Floyd McKissick, national director of the Congress of Racial Equality (CORE), said in New York that CORE would help Clay "in any way possible" but "no specific action" was planned.

"The sentence is incredible," McKissick said. "Black America will certainly question a two-day trial in which an all-white jury, six men and six women, took only 20 minutes to reach this verdict against Muhammad Ali (Clay's Black Muslim name)."

Indian Fete Here To Attract Tower Price, Bartlett

Approximately 1,000 persons are expected to attend the annual meeting of the Southwest Indian Organization at a barbecue Sunday afternoon at Hobart Street Park. Mrs. Marland Hays, reporter for the local chapter, said today.

Tribal chiefs and representatives of various Indian nations will attend.

Among guests expected to attend the barbecue are Sen. John Tower, Rep. Bob Price, and Oklahoma Gov. Dewey F. Bartlett.

Other guests will include W. E. "Dode" McIntosh, chief of the Creek nation; W. W. Keeler, chief of the Choctaws; Harry J. Belvin, chief of the Chickasaws, and Clarence Talbull, chief of the Cheyenne and Arapaho nations.

Also present will be Mrs. George Robinson, president of the National Congress of American Indians, and Jan Neel Robinson, elected Indian Day Princess earlier this year at a convention in Oklahoma City.

The Plains Tribal Indian Dancers from Oklahoma will perform at the barbecue. A style show of various tribal dresses will be presented under the direction of Mrs. Mamie Echo Hawk of Pawnee, Okla. Among the dresses that will be shown are an Arapaho dress worth nearly \$1,000, and a Sioux dress valued at \$500.

Mayor Jim Nation will give the welcoming address, and Gerald Sims, Chamber of Commerce representative, will be master of ceremonies.

A meeting of board members and officers of the organization will be held in Coronado Inn shortly after 10 a.m. Mrs. Hays said.

The tribal chiefs are expected to arrive at the Perry Lefors Field, north of the city at 10 a.m. when they will perform a war dance.

Trophies will be given to McIntosh and Ben Choate, counselman of the Choctaw nation, for service to Indians. Three trophies will be awarded to other members of the organization during the barbecue, Mrs. Hays said.

U.S. Troops Kill 77 Guerrillas

SAIGON (UPI)—U.S. troops today killed 77 guerrillas trying to flee from American pint-sized battleships in the swamps and rivers of the Mekong Delta just below Saigon.

The action raised to 249 the number of Viet Cong slain after the "Delta battleships" and their armored barracks boats caught and cornered about 300 guerrillas in a dramatic new American strategy in the Vietnam war.

U.S. commanders said only about 50 of the once-elite Communist force remained free after the swamp and river fighting that dealt a severe blow to guerrilla units harassing Saigon's southern fringe.

U. S. Losses

But the battle was costly for the Americans. U.S. officials said 32 G.I.s were killed, 126 wounded and 3 missing.

Because of the dense jungle, U.S. generals and admirals devised the pint-sized battleships—a 20th Century descendant of the Civil War's ironclad Monitor—and the air conditioned barracks boats. They save the G.I.s from the weary task of pushing through the jungle in hip-high water filled with snakes, treacherous undergrowth and guerrilla ambushes.

In the other hot spot of the South Vietnamese fighting, North Vietnamese rocket and artillery batteries bombarded a string of Marine posts just below the North-South Vietnam border.

Marine officers said the Communists fired from inside the Demilitarized Zone (DMZ) dividing the Vietnams. The Communist shells and rockets hit Leatherneck and Army artillery positions at Gio Linh and Con Thien.

Hit Marine Posts

The two strongpoints anchor the human barrier the Marines have formed to hold back infiltration by units of five North Vietnamese divisions. There was no immediate report on U.S. casualties.

In the air war, U.S. jets Tuesday returned to North Vietnam's battered rail lines to Communist China. Spokesmen

said the pilots hit bridges and rail centers, destroying at least 40 boxcars.

The American jets also swung down on North Vietnam's panhandle, striking supply lines feeding the North Vietnamese army troops trying to rebuild offensive units in South Vietnam's northern provinces.

South Vietnamese troops Tuesday killed 53 Communist guerrillas at a Communist base at Hoi An on the coast. The Communists had been attempting to build raiding bases near the provincial city, 375 miles north of Saigon.

On the central coast, about 280 miles north of Saigon, U.S. Army 1st Air Cavalry Division troops swept sections of the Bong Son Plain where Viet Cong units were trying also to rebuild strongholds lost to American forces the past two years. U.S. spokesmen said the "Skytroopers" killed at least 68 Communists the past two days.

The fighting cost eight American lives. Forty-four U.S. soldiers suffered wounds, spokesmen said.

Schoolmen To Consider HEW Edict

School board members will meet at 7:30 p.m. Thursday to take under advisement integration of the teaching staff in Pampa Independent School District and abolishment of all-Negro Carter Elementary School as a one race school.

The meeting will be in the Pampa Junior High School library.

Trustees will discuss what steps to take to comply with Title VI of the amended Civil Rights Law of 1964 with regard to educational rights.

Tomorrow's meeting follows on the heels of an edict given the board on June 12 by representatives from the Washington, D. C. office of Health, Education and Welfare. Board members were told to comply with Title VI requirements or risk losing approximately \$250,000 in federal funds.

The HEW officials, who met with the board in the school superintendent's office, advised if neither suggestions is followed the district will lose federal funds and face prosecution by the Justice Department.

H. Creel Grady Jr., board president, said this morning the agenda will also include continued discussion of building improvements and additions to the two junior high school and the senior high school.

Recognition Dinner Set For Bob Price

U. S. Congressman Bob Price, who has just completed his first term as 18th District representative, will be honored with an appreciation dinner at 7:30 p.m. Saturday in the Coronado Inn.

Guest speaker will be Congressman Bob Dole of Russell, Kan., representative from Kansas' 53 county First District, according to George B. Cree Jr., Gray County Republican executive committee chairman.

Cree said dinner tickets may be obtained from members of the executive committee or at the Pampa Chamber of Commerce in the Hughes Building.

(Daily News Staff Photo)

SELLING PROGRAM — E. E. Shelhamer, president of the Pampa Chamber of Commerce, and Frank Patterson, watch as D. W. Bond Jr. signs up the Cabot participants in the sales clinic which the chamber is sponsoring. Patterson will conduct the clinic. Cabot Corp. was the 60th firm to sign up and represents the 200th student. The four sessions of the clinic will be held on June 26, 27 and 29 in the high school auditorium.

SWIMMING POOL PERILS
In the swimming pool at an amusement park, a small boy — gripping the edge — slowly pulled himself toward the deep end. Nearby sat a lifeguard. But the lifeguard was showing less interest in small boys than in big girls. Finally one beauty so captured his attention that he left his post to take her for a stroll. By the time he returned, the boy had drowned.

Was the management legally liable for the boy's death? A court said yes, because the tragedy probably could have been averted if the lifeguard had been doing his duty.

Not only amusement parks but also hotels and motels are, with growing frequency, providing swimming pools for their patrons. These pools, privately owned but open to the public, are subject to certain basic rules of negligence law.

First of all, the management must take all precautions reasonably called for by the peculiar hazards of the sport. That includes not only safe facilities but also adequate policing of behavior.

Thus, a hotel was held liable when a woman swimmer was hit in the face by a large, heavy ball. Four youths had been hiring the ball around the pool full speed—a game which, said the court, could and should have been halted by those in charge. However, policing cannot be expected to make accidents altogether impossible. In another case, a boy was injured when a companion suddenly shoved him off the diving board.

But this time, the court put no legal responsibility on the management, since even the strictest supervision would not have prevented such an impulsive and unpredictable prank, if he fails to exercise common sense and caution. For instance, a court held it was negligent for a poor swimmer to enter the deep end of the pool when he was already suffering from cramps.

What if the cause of the mishap remains a mystery? As a rule, that relieves the management of responsibility.

In one case, a girl wading in a hotel pool suffered a bad cut when she stepped on a fragment of clear glass.

No one knew how it had gotten there in the first place.

Under the circumstances, the court denied the girl's claim for damages. The court felt that blaming the hotel for such an unexplained accident would be sheer guesswork.

A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.

Making Money From Music New To Guitarist

DALLAS (UPI) — The sound of hard times is making money for a sad-voiced Navasota sharecropper.

Mance Lipscomb, who has been making guitars laugh and cry for 53 years, was in Dallas Sunday to star in the Dallas Summer Arts Festival at North Park.

Selling music is still new to him.

"I gave it away for 49 years," said the 72-year-old Negro, looking back on a life of plowing, ditch-digging and 400-pound days in the cotton patch.

Lipscomb has cut three records for Arhoolie records and has done one for Reprise. "Frank Sinatra (Reprise owner) went crazy about that 'Trouble in Mind,'" said Lipscomb.

Most recently Lipscomb has appeared at the Newport, R.I., Folk Festival and at a concert on the Berkeley (Calif.) campus.

"I'm playing my life," Lipscomb said Sunday. "But I get a kick out of it even if I don't get money."

COUNT BY MAIL
WASHINGTON (UPI) — The Census Bureau's 1970 headcount will be conducted by mail in the nation's cities, but out in the boon-docks the nose-counter will call in person.

Pampa Students Will Participate In Music Camp at West Texas U.

About 20 Pampa junior high and high school band students will participate in the 15th annual West Texas Music Camp at West Texas State University July 16-28.

Harris Brinson, Pampa High School Band director, will be one of two trumpet instructors for the two-week camp. David Ritter, WTSU faculty member, is the other trumpet instructor. Students will study band instruments, rehearsals, twirling and drum majoring, take private lessons and classes and practice choral music.

Dr. John Green, WTSU music department chairman, is camp director. Don Marcouiller, Drake University director of bands, will be clinician for marching-band clinic July 22 and 23.

Concurrent with the music camp, the band director's workshop will be conducted around a graduate course credit in Band Technics. Dr. Gary Garner, WTSU band director, will conduct sessions for directors in sight reading. Directors will perform new releases for concert band and will attend clinics to study performance problems of wind instruments.

During the camp, a choral group and seven or more bands will be organized and will include an honors group for both junior and senior high students and a beginners band.

Twirling and drum major teachers are Beverly Johnson, 1961 senior national twirling champion of Long Beach, Calif.; Robert Johnson, also of Long Beach, and the WTSU twirlers and drum majors.

NUTTY
CHICAGO (UPI)—Police said Monday someone stole 25,000 pounds of nuts and bolts—roughly \$3 million in all—from a truck parked at a northwest side terminal.

PRICK CUT
WASHINGTON (UPI) — Eli Lilly & Co., one of the nation's biggest pharmaceutical firms, is cutting prices an average of 15 per cent for quinidine, a drug many heart patients need to stay alive.

The price cut, announced Tuesday, followed an investigation by the Senate antitrust subcommittee into an international cartel that controls quinidine prices by limiting the supply of raw materials from which the drug is made.

The Lilly announcement said the price reduction was made possible because company economists "have projected lower and more stable costs for raw materials in the future."

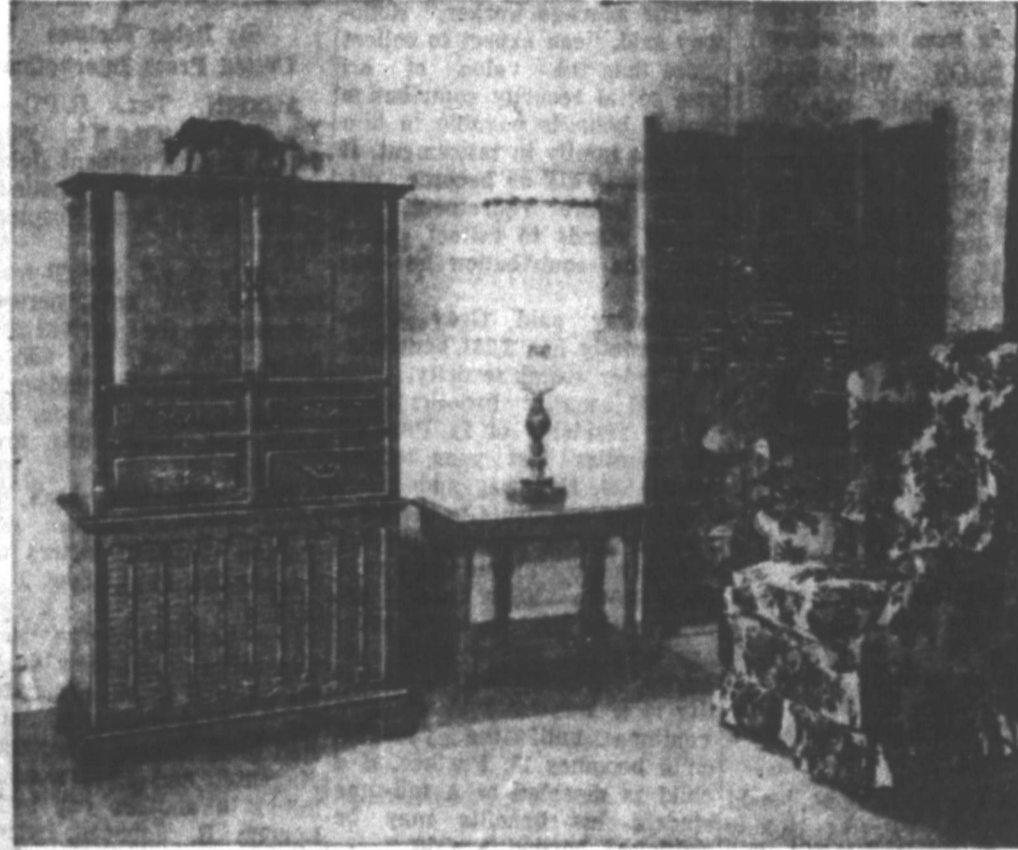

AMBASSADOR NAMED
WASHINGTON (UPI) — Benjamin H. Oehlert Jr., of Atlanta, senior vice president of Coca-Cola Co., has been nominated to be the new U.S. ambassador to Pakistan.

President Johnson announced Tuesday that he would submit the name of the 37-year-old Oehlert to the Senate for confirmation in the post. He would fill the vacancy created when Ambassador Eugen Lock was reassigned as deputy U.S. ambassador to South Vietnam.

Foreign Commentary

Foreign News Commentary

By HENRY SHAPIRO
United Press International

MOSCOW (UPI)—Fifty years after the revolution, the Soviet press is still what founding father Vladimir I. Lenin once called it: "The sharpest weapon of our party."

The Soviet reporter and editor as well as the writer and broadcaster is expected on any story to ask himself, "Is this good for my country; is it good for communism?"

Any illustration of the management of news as an instrument of national policy has been afforded most recently by the journalistic treatment of the Middle Eastern crisis.

The unsophisticated Soviet reader who relies entirely on the national communications media must unavoidably draw the following conclusion:—The war was started by a

group of Israeli extremists, inspired, goaded and equipped by American and British imperialists.

Victims Of Israel

—The Arabs are a peace loving people mercilessly victimized by brutal Israeli aggressors.

—The goal of Israeli and American policy is to restore colonial rule in the Arab world.

—Without American intervention, Israel could not have defeated the Arabs.

—The Israelis are no better than the Nazis and are practicing mass slaughter against the Arabs.

What the Soviet press has not reported is even more revealing. No ordinary Soviet reader, for example, would know that:

—The Arab countries declared war against Israel in 1947 and have since then refused to recognize its existence and vowed its annihilation.

—Infiltrators from Syria, Jordan, Lebanon, and at one time from U.A.R. for years have been harassing Israel.

—The United States and other Western countries have given incomparably more economic and military aid to the Arab countries than to Israel.

Severely criticized

The Soviet communications media have been severely criticized not only privately by Soviet intellectuals but at the highest level of the party and government leadership.

Speakers at the 23rd party congress in 1966, expressed displeasure at the fact that Soviet people often hear news about themselves first from the Western broadcasting stations.

And of course, there is much that Soviet listeners learn about themselves and the outer world from the popular newscasts of the British Broadcasting Corp. and the Voice of America.

The Western broadcasting institutions will continue to enjoy huge audiences here as long as they supply information and views which are ignored by Soviet press and radio.

Obituaries

Minor S. Langford

Funeral services for Minor S. Langford, 83, will be at 10:30 a.m. Friday in Carmichael-Whately Colonial Chapel conducted by the Rev. J. R. Manning, associate pastor of First Baptist Church.

Mr. Langford, a retired oil field driller, died at 6:15 a.m. today in Wichita Falls.

Born Jan. 11, 1904, in Stephens County Tex., he was married to Sadie Scott on July 14, 1930 in Stanton. He came to Pampa in 1934 from Graham.

In 1960, he was retired from Wagner-Wyatt Drilling Co. He was a member of the First Methodist Church.

Survivors are his widow, Sadie of the home, 1138 S. Hobart; one daughter, Mrs. Wanda Shough of Amarillo; four sons, Scott, Ed John C. all of Pampa; Robert of Perryton; six sisters, Mrs. Vera Williams, Mrs. Alma Chamberlin, Mrs. Wilma Reeves, Mrs. Ida Bell Carter all of Dallas, Mrs. Esther Jamison of Penwell, Mrs. Faye Langford of Borger; two brothers, Curtis of Graham, Frank of Vernon and 14 grandchildren.

Burial will be in Fairview Cemetery.

Pallbearers will be Bob Alfred, Weldon Trice, Bob Clements, Spencer Matlock, Jim Hopkins and G. E. Leckhart.

Funeral services for Wilburn (Bill) Mullinax will be at 10:30 a.m. Thursday in the First Methodist Church conducted by the Rev. D. E. Seago, pastor, assisted by Dr. Harry Vanderpool of Amarillo, pastor of Polk Street Methodist Church.

Mr. Mullinax, a retired building contractor, died at 1:45 a.m. Tuesday after an illness of several months.

Survivors are his wife, Callie of the home, 403 N. Somerville; one son, Turney of Houston; three daughters, Mrs. Elizabeth Karr, Miss Lillian Mullinax, both of Pampa, Mrs. June Fields of Houston; and 11 grandchildren.

The body will lie in state in Duenkel Funeral Home until 10 a.m. Thursday. The casket will not be open at the church. The family suggests memorials may be sent to Boys' Ranch, Amarillo, or to a favored charity.

Burial will be in Memory Garden.

Pallbearers will be Farris Oden, Roy Bourland, Arthur Teed, W. M. Ledbetter, Joe Shelton, W. M. Ledbetter, Joe Shelton, Aubrey Steele, Frank Culbertson, and Howard Graham.

Frank T. Cole CANADIAN—Funeral services for Frank Thomas Cole, 72, will be at 2:30 p.m. Thursday in the First Christian Church conducted by the Rev. Sandorf Coe, pastor.

Mr. Cole died Thursday in Newiman Memorial Hospital in Shattuck, Okla.

He was a longtime resident of Canadian a veteran of World War I a member of the Masons and a member of the First Christian Church.

Survivors include his wife, Virgie; a brother, Ray of Cheyenne, Okla.; four sisters, Mrs. Winnie Cooper of Sapulpa, Okla., Mrs. Hazel Peterson of Cleveland, Okla., Mrs. Dorothy Thomas of Burham and Mrs. Georgie Ivy of Cheyenne.

Burial will be in the Durham, Okla. cemetery.

BOUT POSTPONED

BANGKOK (UPI)—The proposed July 23 world flyweight title bout between champion Charitchai Chiohoi of Thailand and Puntip Keosuriya, has been postponed because of a sprained ankle sustained by Chiohoi, it was announced Tuesday.

Pampans Report Prowler, Theft

In Pampa last night, a prowler attempted to get into a home, a 16-year-old girl was hospitalized for observation, and early yesterday, two hubcaps were stolen.

Police officer found a back door screen at Mrs. Jess Godwin's home, 733 S. Barnes pried loose last night, but no one had entered the house. Mrs. Godwin also reported someone had tried Monday night to loosen a window screen.

Kirk Kelley reported yesterday two hubcaps, valued at \$25 each, were taken from his car while it was parked at Pampa High School.

Hospital officials reported a 16-year-old Pampa girl in good condition today.

Policeman Charles LaFever said her grandparents believed she had swallowed some laundry bleach.

Police Chief Jim Conner said today after talking to the girl, she told him she drank some coke and whiskey, and spilled some bleach on her dress, but had not swallowed any bleach. They just thought I had."

In 1965, President Johnson signed a \$4.7 billion income tax cut bill.

In 1963, Giovanni Battista Cardinal Montini was elected pontiff—and chose the name Pope Paul VI.

Pampans Back From Tour of Fourteen States

Mrs. and Mrs. Kyle W. Hall, 512 Doucette, have returned from a three-weeks' trip, which took them through 14 states.

In Memphis, Tenn., they stopped to attend the Memphis Open Golf Tournament, then on to Rockwood, Tenn. to visit the Bert Pemberton family, formerly of Pampa.

In Virginia, Mr. Hall visited his brother, Jean Hall and family and toured the Skyline Drive and the Virginia's famous Skyline Caverns in Front Royal, the only known caverns to have the anthodite formations.

Mrs. and Mrs. Hall spent some time in Washington, D.C. visiting the national capitol, where they saw the Senate and House in session, went on a tour through the White House and many other buildings in the national capitol.

Accompanied by his brother and wife, Mr. and Mrs. Hall attended the '67 Open Golf Championship at the Baltusrol Golf Club in Springfield, N. J. Enroute they stopped to visit Roadside America, "the world's largest indoor miniature village" in

Dear Abby

DEAR ABBY: We live in Huntsville, Ala., where it's very hot and humid. My husband makes over \$20,000 a year, we

live in a \$35,000 home, have no debts, our children are gone and on their own, and we have money in the bank. My complaint? My husband refuses to put air conditioning in the house.

He works in air-conditioned comfort all day while I slave over cleaning, cooking, ironing, and nearly die of the heat. He says cheap air conditioning is too noisy, and good air conditioning is too expensive. How can I change his mind?

BURNING UP IN HUNTSVILLE

Shareville, Pa. After leaving Virginia, they returned home by way of Pittsburgh, Pa.; Columbus, Ohio; Indianapolis, Ind.; St. Louis, Mo. and Oklahoma City Okla.

DEAR BURNING: The price of the finest air conditioning system available will look like peanuts compared to what your husband would have to lay out in doctor bills should you collapse from heat exhaustion. . . .

Make a little noise on your own, Sister, and chill that man of yours until he thinks a North Dakota blizzard has gripped Huntsville. So air conditioning is too expensive? It's a lot cheaper than alimony.

DEAR ABBY: My brother and his lovely wife of 16 years were divorced recently. It was my brother's fault. He "fell in love" with a twice-divorced tramp, so you know there was plenty of talk.

My brother had the nerve to bring this tramp to my home one evening to see how I "liked her". The next day I told him I didn't like her at all, and I didn't want her in my home again.

Last night while I was entertaining, my brother and this woman rang my bell. He said he saw the lights on and cars outside so he knew we were home. I politely told them that they were not welcome in my home, so they left.

My brother thinks I owe him an apology. Do you?

"FUSSY" DEAR FUSSY: No. Now he knows where he (and she) stand. Outside.

DEAR ABBY: I have so many problems, I don't know where to start. Right now my two sons, ages 10 and 13, are fighting and yelling so loudly I can't even hear myself think.

This morning my husband told me he promised the guys at work he'd open the fishing season with them, which means he will be gone all weekend. He forgot that Saturday is our anniversary.

My daughter who's a senior in high school came home from the prom this morning two hours later than she said she would, and I was half crazy worrying about her.

Maybe I shouldn't complain about my boys. My neighbor has two sons the ages of mine. One has cerebral palsy and will never walk. And the other is a deaf mute.

About my husband: I guess I should thank God he can go fishing. My sister's husband dropped dead of a heart attack last March, and they'll never celebrate another anniversary together.

And my daughter is really a good girl, and very popular. She said lots of girls in her class didn't get asked to the prom and they were hurt pretty badly.

60TH YEAR

Shortest Distance 'Tween Two Teenagers Often Is Telephone

United Press International. . . NEW YORK (UPI)—Lots of action occurs at both ends of the line when teen-agers telephone one another.

They jump, hop on one foot, wave an arm. They assume ometric positions one never thought the anatomy capable of—a combination of the twist, frug, tumbling, jerk and a harmless convulsion.

The teen-agers are getting rid of pent-up sexual energy and also defending the ego when they do these things, Dr. Gerald H. Pearson explained in "Adolescence and the Conflict of Generations" (Norton).

Bulldoz Ego By blabbering over the phone for long periods, the adolescent with a weak and helpless ego feels the ego grows strong—via the addition of the other person's ego.

Meanwhile, if you're confused by dress, mannerism and other adolescent actions, hear this. "The adolescent wields the magic of dress, mannerisms and action in the hope of achieving instant identity. . . it always appears easier to change externals than himself."

Harvard Medical School, made that point in "Mental Hygiene," quarterly of the National Association for Mental Health. "The boy who judges himself to be weak and fearful takes to cowboy boots and a beard and becomes tough," he said.

Cover Inadequacies "The girl who finds her power over boys to be wanting wears eyeshadow and black stockings and thereby becomes a femme fatale. And the high school genius down on the farm who finds himself in the lower third of his college class carries French novels on the subway and sports Ivy League clothes."

Dr. Galdston, analyzing some current adolescent behavior patterns, said the adolescent's most compelling task at this time is the establishment of a sense of self-confidence in place of reliance upon parental faith. "The quest for self confidence presses him to pursue a route filled with detours, obstacles, dead-ends, and superhighways leading nowhere," he said.

Take Action "They allow the user to something—getting high taking a trip, catching kicks living."

Another psychiatrist, Dr. Harry P. Coppolino, head of Children's Psychiatric Institute, University Medical Center, Ann

Arbor, Mich., reporting about sex education, said: "Some homes never have offered solutions to their children's problems and still other homes can offer solutions to any problem except sexual ones."

In the journal, "Medical Times," he cautioned that doctors, counselors and teachers who refer teen-agers with direct or inferred sexual problems

back to the home often are derelict in meeting youngsters' needs.

He advised them to work out productive relationships with teenagers seeking help by being emotionally and physically available, genuinely understanding, interested, inquiring, and ever alert to their own unconscious attitudes.

Kind of a super-human super-order, wouldn't you say?

School and You

By SUSAN LIGHT
Newspaper Enterprise Assn.

DEAR MRS. LIGHT: Cornering your answer to "Perplexed Mother" and her 10-year-old son, please advise her to seek help from her local chapter of with Learning Disabilities) ACLD (Association for Children

She's probably not making a mountain out of a mole hill. If the child has normal intelligence but doesn't seem to make progress in school, he may be suffering from a perceptual handicap that makes it impossible for him to understand his school work.

Talking to his teacher isn't likely to help if she has no training that would help her recognize the problem. Letting him fail a grade will not snap him out of his day dreams, but it may help to convince him that

he's a failure. If he's a bright child, the mother doesn't have to compare him with his brothers and sisters. He has already done it for himself — to his disadvantage.

By all means she should seek advice and help from any source available to her. For too many years these have gone unrecognized. They have been called stupid, lazy, slow learners by teachers. Their classmates have ridiculed them. Nagging will not help. But finding the source of the trouble and helping him to overcome it can.

It is a study by Daguerre, Hegira, the flight of Mohammed to Medina in A.D. 622.

Astrological Forecast

By CARROLL RIGTER
GENERAL TENDENCIES: Whatever you have in mind that concerns getting your affairs on a more solid and secure structure can be difficult unless you look to the theories and motivations back of what you are attempting to do instead of merely being so concerned with the separate items and details that are also involved.
ARIES: (Mar. 21 to Apr. 19) — If you consult an influential person, you get advice how to conduct your business and other affairs more intelligently, profitably. Get your credit bettered. Show others that you have a practical head on your shoulders.
TAUROS: (Apr. 20 to May 20) — You see the path ahead more clearly now and a change of attitude, system, can help you to achieve your goal more quickly. Associating with the right people helps you to expand. Take your rightful place in the world.
GEMINI: (May 21 to June 21) — Relying on hunches so that you have better comprehension of that future holds is good. Then use good judgment just how to get there. Be more willing to do what male suggests, even if it is somewhat boring to you.
SCORPIO CHILDREN: (June 22 to July 21) — Although associates are acting somewhat erratic right now, do not sever any connections. Find out what is causing this. Conditions may not be exactly ideal, but patience solves all.
LEO: (July 22 to Aug. 21) — Keep busy at work ahead of you and curb tendency to be short with co-workers. You are somewhat nervous and require a bit of diversion. Reading would be fine or some gentle friend to talk to.
VIRGO: (Aug. 22 to Sept. 22) — If you have to go through a lot of Tommyrot just to have a good time give it up. Stop busy practicing with some talent you possess. This could prove to be something very worthwhile and profitable for you in the days ahead.
LIBRA: (Sept. 23 to Oct. 23) — Doing whatever will make your family happier is wise, although it may tax your patience somewhat. It is important that you remove causes of dissension. Harmony at this time will lead to greater success in the future.
SCORPIO: (Oct. 24 to Nov. 21) — Particular care is vital whether in driving or dealing with other persons. Even in small talk. Precision where reports are concerned is also important, since some one error could prove most expensive.
SAGITTARIUS: (Nov. 22 to Dec. 21) — You feel you need to raise your income far beyond your actual needs and could be very forceful in so doing, so be careful. Pay more attention to getting property in better order. Don't spend too much.
CAPRICORN: (Dec. 22 to Jan. 20) — In your desire for personal pleasure you could be very demanding and this could alienate your finest friends. Show consideration instead. Avoid a better time to give them the benefit of your ideas.
AQUARIUS: (Jan. 21 to Feb. 19) — Get busy on small tasks ahead of you instead of getting into fascinating personal affairs that are best left alone right now. Be of real service to those who are in trouble. Be cool, collected.
PISCES: (Feb. 20 to Mar. 20) — Fate and a persuasive friend could give you a rough time now, so steer clear of same and get busy with work at hand. Know what it is you desire from others. Own labors bring right results.

Highlights and Sidelights From the State Capitol

By VERN SANFORD
Texas Press Association
AUSTIN — Railroad Commission authorized Texas oil industry to produce an additional 2,268,000 barrels of oil during the last two weeks of June in view of curtailed supplies from the unsettled Middle East.
Commission increased the June allowable from 33.8 per cent to 35.9 per cent, retroactive to June 1. This figure will permit maximum oil production of 3,112,191 barrels daily

compared to current 2,992,236 barrels. Commission postponed setting an allowable for July, but another moderate increase is almost certain.
State officials, conscious of the Legislature's special tax session looming next year, see a possible revenue windfall (which could reduce the new tax need) from the crisis-caused oil production jump.
With an increase from 10 to 13 days a month in production, there is no telling at this point how much the ultimate increase will be. Before the emergency situation, the oil production tax income for the coming year had been estimated at nearly \$140,000,000.
These factors figure in the magnitude of future allowable increases:
—Kuwait, Saudi Arabia, Iraq and Algeria have banned oil shipments to U.S. and Britain. Libya's production has been halted by a strike.
—Arabs want to nationalize their oil fields or call in Spain and France to develop their petroleum industry, replacing the U.S. and Britain.
—Suez Canal may remain blocked for several blocks. Thus any oil shipments would have to round the Cape of Good Hope. Trip would be longer and more expensive.
Interstate Oil Compact adopted a resolution calling for a 12.2 per cent limit on the ratio of imported oil to domestic stocks east of the Rocky Mountains. Experts say present situation demonstrates need for better government attitude toward domestic production and

industry development.
DRIVERS POINTS — Auto drivers may have forgotten, but they will be reminded of "points" starting August 1.
That's when the new insurance plan adopted last July by the State Board of Insurance begins to show on insurance rates. Drivers will pay 15 per cent more for insurance if they have one point charged against them, 35 per cent for two points, 60 per cent for three points and 90 per cent for four points.
Points are assessed for accidents or traffic law violations which came after August 1, 1966, when the plan was adopted. Penalties will apply when auto insurance policies are bought or renewed after August 1, this year.
A driver who is assessed points can "work them off." Only points assessed after August 1, 1966, will count. But after three years of being charged more, the points drop off the driver's record, for rate purposes.
Board believes this will lower the basic rates, thus will reward no-point drivers.
14-YEAR-OLDS CAN DRIVE — Fourteen year olds who complete driver education before August 28 still can get a license good until its regular expiration date.
Homer Garrison Jr., Director of Texas Department of Public Safety, issued the interpretation following numerous calls about new licensing law amendments.
New law which goes into effect in late August would raise

the minimum age for licensing drivers with behind-the-wheel instruction to 16, except in unusual cases. Garrison said, however, he did not interpret the new law as denying "the privilege of driving" to 14-year-olds who already have qualified under existing regulations.
DESALTING FEASIBLE — New study concludes that large scale desalting in the Lower Rio Grande Valley can provide a dependable source of good municipal water at costs comparable to that of conventional production.
Study for Texas Water Development Board and U.S. Department of Interior said water could be made available to a metropolitan district for about 25 to 31 cents per 1,000 gallons at a desalination plant. Cost of delivery to individual cities in the Lower Valley would increase that figure from one to two cents per 1,000.
COURTS SPEAK — U.S. Supreme Court has agreed to hear arguments October 2 on whether the one-man-one-vote standard it applied to congressional and legislative districts also fits county commissioners' precincts in Midland.
State Supreme Court found no error in lower court opinions missing the case of a woman who sued Galveston County for \$20,000 after finding glass in scrambled eggs served her at the county's Memorial Hospital.
A certificate holding student pilot does not meet standard insurance policy definitions of a duly-licensed aircraft operator whose passengers remain insured while in flight, State Su-

preme Court concluded in a Gillespie County case.
ATTORNEY GENERAL RULES — Gulfward state boundary is a line three marine leagues from coast, and in those water Texas is empowered to control and regulate fishing, Atty. Gen. Crawford Martin has ruled.
In other recent opinions, Martin concluded that:
—In counties where the office of ex-officio county school superintendent has been abolished, a county judge serving in superintendent's role continues to be paid for the extra job until the end of the current term perform those duties without pay.
—State can make lease and rental contracts for up to four years, contingent on availability of funds appropriated by the legislature.
—When a married couple creates a valid joint tenancy agreement with a third party, including right of survivorship, inheritance tax is applicable on passing of the couple's interest.
WATER PROJECTS APPROVED — Texas Water De-

velopment Board found San Antonio River Authority eligible to seek \$960,000 in state aid to build a low water dam on Cibolo Creek and provide water supply to Karnes City and Kennedy. SARA also will seek a federal grant of \$915,000.
At the same time, Board extended for 120 days a \$2,700,000 loan commitment to the Upper Leon River Municipal Water District for facilities to take water from the Proctor dam reservoir to Comanche, De Leon, Dublin and Gorman, pending outcome of bid for a federal grant.
AIR SERVICE BROADENED — Texas Aeronautics Commission has given Fleetway Commuter Airlines a certificate to begin operations in eight locations and approved extension of Davis Airlines service to Houston.
Fleetway, a new company, will fly two routes: from Gregg County airport to San Antonio return; and from Tyler to Houston via the Gregg County Airport, Palestine and Nacogdoch and return.
Davis, which now operates be-

tween College Station and Dallas was granted a permit for service between College Station and Houston.
Both companies had presented evidence showing the need for their passenger service on these routes.
MANPOWER — Texas Employment Commission reports that during April the civilian labor force in Texas continued to expand with an increase of 37,000, boosting the total to 4,204,300 at mid-month.
Non-farm employment reached 3,784,400 a record for April; and agricultural employment rose 16,800 to 307,400.
There were 110,000 unemployed in mid April, 4,000 less than were unemployed in March. This put unemployment at 2.6 per cent of the total labor force.

rainfall continue short of planting and growing moisture.
GOP State Chairman Peter O'Donnell Jr. has announced that Hillary Sandoval Jr. of El Paso, newly appointed first assistant Republican state chairman, will head the recently created Latin Advisory Committee to the Republican Party of Texas.
Texas is one of seven states to participate in a new program sponsored by the US Defense Department to develop additional fallout shelter space.
Thomas M. Keel moved up from acting director to director of the Legislative Budget Board at \$20,000 a year salary in June.

WORLD ALMANAC FACTS

The newly completed Metropolitan Opera House at Lincoln Center in New York City has the largest seating capacity of any opera house in the world. Built at a cost of \$45 million, the Metropolitan Opera House seats 3,800, says The World Almanac. Back stage of the opera house has the latest mechanical marvels, such as elevators, turntables, stages that can be raised or lowered, moving footlights and moving scenery to insure technically perfect productions.

SNCC Asks For UN Help

HOUSTON (UPI) — The Student Non-Violent Coordinating Committee (SNCC) has appealed to the Afro-Asian delegations of the United Nations for help against "unwarranted and brutal suppression" of American Negroes by police, a SNCC official said Monday night.

James Foreman, director of international affairs for SNCC, addressed a rally to raise money for bail for three of five Texas Southern University (TSU) students charged with murder. The students are charged with the slaying of policeman L. R. Kuba, 28, in rioting May 17 at Texas Southern.

"This is an appeal in the form of direct and indirect pressure on the U.S. government," Foreman said.

"This represents the first time in history that a civil rights matter has been taken to the UN," Foreman said.

The immediate basis of our appeal," Foreman said, "is the recent attack on black people in Prattville, Ala."

After Victory, Israel Now Has Troublesome Refugee Problem

By JOSEPH W. GRIGG
United Press International

JERUSALEM, Israel (UPI)—Israel has awakened suddenly to the realization that she has saddled herself with a troublesome and perhaps insoluble refugee problem as a byproduct of her lightning victory over the Arabs.

In the Gaza Strip and in the western part of Jordan conquered by her troops, Israel has inherited responsibility for an estimated half million or more Arab refugees. They are Palestinian Arabs who fled from the newly born state of Israel at the time of its 1948 independence war. They sought refuge just outside Israel's borders in the Gaza Strip administered by Egypt and in western Jordan.

Since then, most of them have lived and propagated furiously in subsidized idleness in vast refugee camps, kept alive largely by monthly United Nations food handouts and pittances provided by the Egyptian and Jordanian governments. They hate the state of Israel and everything Jewish.

Arabs Recruit Refugees
The refugees provided most of

the recruits for the fanatically anti-Jewish, Egyptian-trained Palestine Liberation Army, which fought on Egypt's side in the recent Israel-Arab war.

In Jordan many of the refugees have supplemented their U. N. food handouts by holding small jobs or growing some food, but in the Gaza Strip the majority are permanently jobless.

Israeli officials say they were almost totally unprepared to take over this headache which their victorious army won for them.

Now they are hurrying to size up the problem, work out a coherent refugee policy and seek a permanent solution for one of the most troublesome issues in the Middle East.

The first difficulty is that no one really knows how many refugees there are.

Figures Unreliable
Figures provided by the U. N. Relief and Works Agency (UNRWA), which is responsible for feeding them, give the number of Arab refugees in western Jordan at about 384,000, including 106,000 living in camps; and in the Gaza Strip at about 22,000 to 225,000 already

all living in camps. But these figures admittedly are totally unreliable.

Israeli officials say the Egyptian and Jordanian governments grossly padded the refugee rolls, including in them thousands of persons who had been dead for years, in order to boost the size of monthly U. N. food handouts.

One of the long term proposals for dealing with the refugee problem is to move the whole refugee population from the Gaza Strip and to resettle it in western Jordan. Officials say this would be feasible, although it would involve a huge financial investment by Israel.

Trial Set For TSU Students

HOUSTON (UPI) — Dist. Judge Wendell A. Odom Monday set for July 25 a trial of five Texas Southern University students charged with attempted murder May 17 in rioting at TSU.

The students are Trazawell Franklin Jr., 20; Floyd Nichols, 25; John Parker, 20; Charles Freeman, 18; and Douglas

Red China's H-Bomb Explosion Causes Increased Radioactivity Over Japan

TOKYO (UPI) — Japanese scientists reported today that the amount of radioactivity in the air over Japan had increased as a result of Communist China's explosion of a hydrogen bomb last Saturday. The Japanese government sent up 13 observation posts through out the country to study the radioactive dust increase. Both scientists and the amount of fallout so far was not enough to harm human beings. Scientists from Shizuoka and Kanagawa prefectures reported the amount of radioactive dust in the air was 50 to 100 times more than the normal amount since Saturday's H-bomb explosion.

THE STANDINGS

Table with columns for National League, American League, and various teams (St. Louis, Cincinnati, San Francisco, etc.) with statistics like W, L, Pct, GB.

Senators Slug Chisox, 4-2

By JOE GERGEN UPI Sports Writer Compact Don Buford, who gets the green light whenever he sets foot on the basepaths, returned to yield the right of way to a runaway truck.

"I wasn't conscious of Buford at all," said Epstein afterwards "I was just trying to score. I slowed down to go around third and I didn't even know he was there."

BIG FIVE of the Chicago White Sox has the team at the top of the American League. From left, Jim O'Toole, Bruce Howard, Joel Horlen, Tommy John, Gary Peters.

PGA, Pros Reunited

HUDSON, Ohio (UPI)—The Professional Golfers Association and touring pros were reunited in one happy family today leaving the players free to continue their chase for millions of dollars in purses.

Some 110 of the touring pros had signed a petition earlier this month threatening to boycott the PGA championship at Denver, starting July 20, unless they were given a freer hand in matters concerning the scheduling and handling of tournaments.

NATIONAL LEAGUE ROUNDUP

Uniform Different But Larry's Game, the Same

By Vito Stellino UPI Sports Writer The uniform is different but Larry Jackson's right arm is the same when he's pitching against the New York Mets.

St. Louis Cardinals when he beat the Mets in their 1962 debut and he was shipped to the Cubs after that season. Last April he came to the Phils.

Dal Maxvill tripled in the tie-breaking run in the seventh and Orlando Cepeda followed with three-run homer in the eighth as league-leading St. Louis topped Houston, Larry Jaster went the first eight innings to pick up the victory and Ron Willis finished up.

SKOAL CIGARETTES advertisement with the slogan "Sure beats smoking!" and a picture of a pack of cigarettes.

Brown-Freeman Men's Wear advertisement featuring a man in a suit and the slogan "DON'T GO JUST 1/2 WAY!"

Pampan Sets Record At Drag Races

R. D. Thomas, 2234 Christine, set a new record at the Amarillo Dragway last Sunday. He drove his Chevrolet-engine powered Willis coupe, in the B-gas class, through the quarter mile in 11.35 seconds, hitting 123.28 miles per hour.

Bob Riggie, driving the "Hemi Under Glass" Barracuda, traveled 2,500 feet on the rear wheels. Riggie won the \$1,000 top prize and became "King of the Wheel-Standers."

Lefors Recreation Program Started

The Lefors summer recreation program started with two baseball games and soft ball games and a track meet under the direction of John Horan, summer director.

Rebels Blast Groom, 16-1; Allow Three Hits

The Pampa Rebels blasted Groom yesterday 16-1 in American Legion baseball, allowing Groom only three hits.

WINNERS AND LOSERS in the United States Open, or any golf tournament, are easy to spot. Jack Nicklaus, left, celebrates a key birdie putt that sent him on the way to the championship and \$30,000 top prize while the dejection of Arnie Palmer, runner-up for the fourth time, at missing a close one is just as obvious.

Exciting RACING advertisement for La Mesa Park in Raton, New Mexico, featuring a picture of horses and the dates MAY 20 THRU SEPT. 4.

70th Annual NCAA Golf Tourney Begins

SHAWNEE, ON-DELAWARE Pa., (UPI)—An old tournament with an old favorite begins here today when the 70th annual National Intercollegiate Athletic Association golf championship gets underway at the Shawnee Inn.

Among those expected to vie for the individual crown in the nation's oldest golf tournament were Jack Lewis Jr. of Wake Forest, John Miller of Brigham Young, Benson R. McLendon of Louisiana State and Kemp Richard of Southern California.

Rick Barry Signs With Americans

SAN FRANCISCO (UPI)—Today's chapter in the continuing story of Rick Barry gave the Oakland Americans and San Francisco Warriors over the services of pro basketball's high-scoring star.

McLendon, who recently shot a 12-under par round of 16 at the LSU course, supported his position as pre-tourney favorite when he shot a one-under-par 71 during an EastWest baseball match Tuesday.

McLendon was a member of the East squad which lost to the West, 11 1/2-7 1/2, in the match. A leader on the West squad was Ross Randall of San Jose State, who teamed with Mike Mitchell of Houston for an 11-under par round, the best showing of the two-man teams.

GROSS SIGNS PITTSBURGH (UPI)—Fullback Earl Gros who was acquired in the off season from the Philadelphia Eagles, has signed his 1967 contract, it was announced Monday by the Pittsburgh Steelers.

Arizona Depends on Texas To Supply State Flower

By THOMAS TULLY
United Press International
EDINBURG, Tex. (UPI) — Arizona's official flower is the saguaro, but residents and tourists of the Grand Canyon state depend heavily on Texas to supply the rock garden variety of cactus.

Charles Fitzpatrick, owner and operator of a cactus farm just north of the Lower Rio Grande town, said he ships about 8,000 plants a week to Arizona, where cactus is protected by law.

Fitzpatrick who raises thousands of plants on his 24-acre farm, Cactusland, ships some 24,000 plants a week to other points around the world.

He also imports plants from several foreign countries and has a staff of 15 who spend most of their time on cactus-hunting expeditions in the arid regions south and west of Edinburg.

Fitzpatrick said a form error included several rare types of cactus, is worth more than \$120,000.

Many of his cactus are from Mexico. He has a rare "old

Youth Beat

THE NATIONAL REPORT ON WHAT'S HAPPENING

IT'S OVERSEAS KULTURE for collegers at Kalamazoo: Kalamazoo College, Mich., has grasped one problem (the U. S. scarcity of higher educational facilities) and latched onto one inevitable trend (the rush to study in other countries than your own) . . . and knotted them neatly together into the outstanding foreign study program for students in the United States. Nine-

ty per cent of the more than 1,100 guys and gals enrolled at the Michigan institution will study abroad during their sophomore or junior years. . . . and less than 1 per cent of them will flunk out of such hallowed or exotic halls as — the Universities of Erlangen (Germany), Madrid (Spain), Caen (France), Waseda (Japan), the Univers-

Wall Street Chatter

NEW YORK (UPI)—Bache & Co. believes the market is likely to display further hesitancy in light of conflicting positive and negative factors although a near term assault on the Dow Jones 900 zone remains a possibility.

Walter Mintz of Shearson, Hammill & Co. feels that near term market fluctuations as measured by the popular averages are likely to be held within a fairly narrow range. The market's current position, the analyst feels, is nearer the upper end of that range rather than the lower.

Kenneth Ward of Hayden, Stone suggests that if buying interest continues gravitating toward glamour issues a sooner-than expected test of the previous Dow Jones high of 909.63 might occur. If that zone is decisively penetrated, the analyst feels, "the Dow Indus-

WORLD'S LONGEST underwater tube is beginning to take form under San Francisco Bay. The first of a planned 57 massive steel and concrete sections, such as pictured above, have been lowered into position in a dredged trench near the Oakland shoreline. When completed, the rapid transit tube will stretch four miles between Oakland and San Francisco.
