Bracero Call Issued In Deportation Wake

MCALLEN, Tex. (AP)—An emergency appeal for legal workers (braceros) has been issued by the Mexican government in the face of heavy deportations of illegal alien (wetback) farm labor from the Rio Grande Valley of Texas. An official at a migrant labor camp here last night said mounting requests for legal bracero labor had drained the 20,000-man pool at Monterrey, Mex. Clifford Burr, manager of the Hidalgo, Tex., bracero processing center, said the current roundup of wetbacks, largest in valley history, caused the drain on legal labor. Burr said that some 18,000 applications from valley growers for

bracero labor were on file, and that the influx of bracero labor through the Hidalgo station had jumped from about 500 a day in early June to 2,700, the center's capacity, today. He said that transportation difficulties in Mexico were causing a nine-day delay between the requests and the arrival of braceros here. Meanwhile, the U.S. Border Patrol announced that it was discontinuing the collection of the \$10 fare from aliens being transported from the detention camp here to El Paso. The Justice Department instructed Harmon B. Carter, Border Patrol chief here, to discontinue the practice of collecting the \$10 fare even though the Border Patrol was acting under statutory authority in doing so. The Justice Department move followed a formal protest by Congressman Lloyd M. Bentsen concerning the fare collection. The Valley Farm Bureau Federation had complained to Bentsen. Some 7,000 wetbacks have been moved from the detention camp here to El Paso, to be turned over to the Mexican government for transportation to the interior. Carter said 11,486 male aliens had been rounded up for deportation so far.

Conference Panel May Plan Switch
WASHINGTON (AP)—A House-Senate conference committee probably will drop out of President Eisenhower's big tax revision program a proposal to cut taxes on income earned by United States corporations operating abroad. Well-posted sources said today such a decision might help clear the way for a compromise on the touchy political issue of how much to cut income taxes on dividends received by stockholders.

Reds And India Hail Indochina Agreement; West Views Loss

LONDON (AP)—Europe's Communists—and neutralist India—hailed the Indochina cease-fire agreement today as a "victory for peace." Spokesmen for the anti-Communist world generally agreed their side had taken a licking. Moscow radio led the Red chorus, terming the Geneva agreement a "new victory of the forces of peace."

Indian Prime Minister Nehru issued a statement in New Delhi terming the Indochina settlement a "great step" and "one of the outstanding achievements of the post-war era." Ignoring the United States, Nehru paid tribute specifically to the foreign ministers of Britain, the Soviet Union, France and Communist China as well as the representatives of the Vietminh, Viet Nam, Laos and Cambodia. Government sources said the Indian Premier left out the Americans because

they had refused to sign the armistice agreement. Western governments had no immediate official comment. Western Europe's anti-Red press emphasized the West had little cause for self-congratulation. The exception was France, whose people so long had hoped for peace in the Far Eastern war which they had sickened of. French papers from right to left were unanimous in their praise of French Premier Pierre Mendes-France for securing the peace agreement.

HOPE TO AVOID RUN-OFF

Lieutenant Governorship Candidates 'Poor-Boy' It

By MAC ROY RASOR
AUSTIN (AP)—The three candidates in the Democratic race for the state's powerful lieutenant governorship will try to break up a 20-year trend Saturday.

All three—incumbent Ben Ramsey, State Rep. George T. Hinson and businessman C. T. Johnson—are shaking hands right and left in hopes of a first primary victory in a year which records favor for a run-off.

Ever since 1930 it has taken a run-off every fourth year to determine the Democratic nominee for lieutenant governor. In that count, 1954 falls as a fourth year.

All the candidates have relied heavily on that personal handshake to win votes, each claiming to have shaken hands in every major area of the state.

All have made speeches, too, to large groups and small, but there have been few, if any, radio speeches.

For the most part, all three have claimed they have "poor-boys" their way through their campaigns. In their last official report of expense, up to about July 3, Ramsey said he spent \$1,462; Johnson, \$3,479; and Hinson, \$4,382. For a statewide race, that's generally considered chicken feed, even for the partial period it covered.

The lieutenant governorship carries the primary duty of presiding over the State Senate. With that duty goes the power to appoint committees to consider legislation.

The lieutenant governor is also next-in-line in succession to the governorship in the event of a vacancy or when the governor is out of the state.

Ramsey, 50, a San Augustine attorney, is seeking his third term. Texas history records two lieutenant governors who have achieved third terms—A. B. Davidson, who served from 1906 to 1912, and Berry Miller, who served from 1924 to 1930.

Running largely on his record, Ramsey plans to wind up his campaign in Houston, Galveston and South Texas this week.

His platform is based primarily on soil and water conservation and greater protection for the home against crime and fly-by-night insurance racketeers.

Hinson, 43, a former school teacher who helped lead the fight for a teachers pay raise in the last Legislature, planned to shake hands in 18 Central, East and Northeast counties this week before he puts the lid on his campaign Friday night at Quitman.

He has been highly critical of Ramsey's seeking a third term, promising he will never seek a third term to an office with so much legislative, policy making and appointive powers.

He has proposed a platform including water conservation, improved education, more adequate care for the needy, improved roads, strengthened criminal laws and an overhauling of the state's tax structure.

Johnson, 43, home builder and insurance man, has loudly denounced high telephone rates, proposing a state agency to regulate rates and bring them down.

He planned to visit all 254 of Texas' counties, except Davall, before he winds up his campaign. He claims he has been in counties where people have never seen a candidate for state office before.

Johnson says that when he's elected, he's going to stack those Senate committees "for the people" and the day of "the back-room deals" in the Senate will be over.

Former Mental Patient Seized In Girl's Death

JOLIET, Ill. (AP)—A 43-year-old onetime mental patient was seized last night for the lover's lane slaying of an 18-year-old schoolgirl he reportedly had been dating secretly for two years.

The suspect, Anthony Stefanich, was charged with murdering pretty brunette Doris Bogart. He told police she was shot to death Saturday night by three masked men who stopped his car on a country road.

He said he drove her body around the countryside for two days without notifying the police "because they railroaded me once before," when he was sent to a mental institution.

Miss Bogart's body was found early yesterday sprawling out of the door of Stefanich's car parked in a lover's lane near a Joliet area cemetery. She had been missing since Saturday night.

She had been shot twice, in the shoulder and in the heart. Scratches and bruises on her body and the disarray of her blue jeans and plaid shirt led officers to speculate she was killed while resisting sexual advances.

Friends of the dead girl said she had been seeing Stefanich secretly for two years. One of them, Carol Bishop, 20, said she once told her that "if anything happens to me, look for Tony."

The dead girl's parents, Mr. and Mrs. Ronald Bogart of Joliet, learned of their daughter's death while visiting with Mrs. Bogart's mother across Puget Sound from Seattle.

Near collapse from grief, they made immediate plane reservations for the return trip to Joliet. "Doris was a good girl," her mother said tearfully, "and all of her dates were with boys around her own age. Neither of us ever heard of Stefanich or knew of any connection Doris might have had with an older man."

Storm Cuts Power As Baby Boy Born

MIDDLETOWN, Ohio (AP)—A baby was born last night in the Middletown Hospital just as the lights went out in the operating room.

A storm had cut a power line. Emergency lights were switched on soon after the boy, son of Chardele and William Smith of Middletown, entered the world.

The hospital reported mother and child were doing fine.

Husband And Wife Fight Over Locks
PROVIDENCE, R. I. (AP)—Mrs. William H. Lister complained yesterday in Superior Court that her husband, who has been living apart from her, went to their home July 2 and had all the locks changed. Mrs. Lister told the court she was forced to leave her mother in the house when she went out as she would be sure of getting back in. Judge Mortimer A. Sullivan ruled that husband and wife, still being legally married, both were entitled to use of the home and she should have keys to the locks. Colorado produced 2 1/2 million tons of coal in 1953.

Rosabella Gomez, a 17-year-old registered Hereford Cow, has produced 25 calves in the last 15 years for her owner, Mrs. Sophia Schmele of South Dakota.

During her first three years of production, Rosabella had three calves. The next five years she had twins each time. She then produced two more single calves in 1931 and 1932, and twins again appeared on the scene in 1933.

Finally, this year, Rosabella has topped all her previous records by giving birth to triplets. Shown in the picture are the three calves held by William Schmele, with Rosabella standing quietly beside them satisfied that nobody can say she hasn't done her best to keep up with the demands of beef-eating Americans.

Adm. Byrd Plans Return Visit To Antarctic Area

CLEVELAND (AP)—Adm. Richard E. Byrd, now 65, said today he "is planning to return to the antarctic as soon as I can get together an expedition."

He told the Poultry and Egg National Board at a breakfast meeting that further exploration of the South Polar regions is important from both the military and economic standpoint.

"If the Panama Canal were knocked out by an A-bomb, we would have to get our ships from the Atlantic to the Pacific through the Strait of Magellan or between Antarctica and South America via Drake Passage," he said.

"It would be essential, therefore, for this nation to have control of that part of Antarctica that is nearest to Cape Horn and of the islands between the Cape and Antarctica."

From the economic standpoint, the retired U. S. Navy officer said, "in the foreseeable future we will be greatly in need of these resources (coal, uranium, oil and other minerals) that lie untouched at the bottom of the world."

Byrd, the first American to explore the South Pole, first flew there Nov. 29, 1929, and made other trips there in 1933 and 1947.

Chinese Nationalists Rap Indochina Truce

TAIPEH, Formosa (AP)—Chinese Nationalist Foreign Minister George Yeh declared today that with the Indochina armistice the Communists have "achieved another milestone in their plan of world conquest."

"The pattern is set for history to repeat itself," he said.

Newspapers on this island ruled by Chiang Kai-shek accused the West of appeasement and conceded to the Communists a great diplomatic victory.

Doctor Given Choice Of Sentence Or Fine

TAIPEH, Formosa (AP)—A Chinese doctor who promised two women he could increase their bust measurements with secret injections today was given a choice of five months in prison or a fine of \$36.

The two women charged in a Tainan criminal court that the injections did nothing but make them ill.

Benson To Stop CCC Cotton Sale

WASHINGTON (AP)—To avoid interfering with marketing of the 1954 crop by producers, the Agriculture Department will discontinue selling cotton from commodity Credit Corp. stocks after July 30.

Since sales were resumed April 12, about 103,338 bales were sold from the CCC inventory, reducing CCC holdings to 235,000 bales. The government-owned cotton has sold at the market price or at the support price plus 5 per cent, whichever is higher.

Subcommittee Asks For Reimbursement

WASHINGTON (AP)—The Senate Investigations subcommittee has asked the Senate to reimburse it for the \$24,604.67 it spent to run the McCarthy-Army hearings.

Sen. Mundt (R-SD), who presided at the inquiry, introduced a resolution asking for reimbursement yesterday.

Utah Governor Plans To Test Foreign Aid

SALT LAKE CITY (AP)—Gov. J. Bracken Lee said yesterday he is going to test legality of the federal government's foreign aid program by bringing action before the U. S. Supreme Court.

He asked the Utah attorney general to find what legal steps a citizen or a public official must take to prove that "it is a violation of our U. S. Constitution when our government gives our hard-earned money to foreign nations."

Walter Burkett of Dawson County planted 15 acres of Blue Panic Grass on July 2, on his farm three miles south of Midway. He planted in 40-inch rows. . . . In the . . . spring of 1952, C. H. Zant, who lives two miles east of Hancock in Dawson County, built a stock tank and seeded some King Ranch Bluestem on the dam. Last week some of the boys from the Lamesa SCS unit went to the tank to see if any of the grass had survived the drought. They found that some of the plants were doing well, proving, they say, that it's a very hardy grass. The plants they found were making seed.

A lot of people have told us that the best Blue Panic Grass they have seen this year is on Bill Anderson's farm, six miles south of Lamesa on the road to Stanton. The grass was planted the first week in May, sprinkler irrigated and is now four feet tall, making seed.

On July 7 some of the SCS technicians went out there and made a sample clipping showing that there is approximately 27,000 pounds of the green grass to the acre. They also reported this stand of grass choked out the careless weeds, which is a little unusual for Blue Panic in its first year growth.

An old-timer recalls the great change that has come about in Texas weather in the last 30 years. He is O. M. Linn of Silver City, New Mexico. In the early 1900's, Linn shipped 2,500 head of cows from southern New Mexico to the sand hill country west of Dalhart, in the Texas Panhandle and just east of the New Mexico line.

Just recently Linn has recalled: "The heavy snows do not come in winter any more, nor does it rain in summer as it once did. For twenty years, to my knowledge, it went three weeks without a good rain in summer, we thought it was a drought. Now it goes sometimes three years or more with but little moisture."

At the age of 68 Harvey Brothers is still doing a full day's work, in the saddle, for the Waggoner Estate Ranch out from Vernon. He began cowboying when he was 17. Blind Broom Makers Strike, Call For Work, Not Charity

By GIB STALEY
PITTSBURGH (AP)—Twenty men slept fitfully in a brilliantly lighted room last night—men who "want to work and don't want charity."
The 20 are blind.
They are broom makers who have lost their jobs and they're on a sitdown strike.
The men took over the cafeteria of the Pittsburgh branch of the Pennsylvania Assn. for the Blind yesterday afternoon. A few hours later, when they showed no sign of leaving, police were called.
Officers made no attempt to evict the men. A detail watched as they tried to sleep. Some of the men slept awhile, then talked of their

Rock Island Decides Against Wichita Line

CHICAGO (AP)—The Rock Island Lines announced yesterday that it had decided not to take over a 105-mile stretch of the financially ailing Wichita Falls and Southern Railroad in Texas.
J. D. Farrington, president of Rock Island, said, however, that Rock Island would apply to the Interstate Commerce Commission for authority to purchase a 39-mile segment of the Texas line between Graham, Tex., and a point south of Breckenridge. This trackage would be operated as an integral part of the Rock Island system, Farrington said.

HISTORIC SUCCESS FOR MILDER LOWER-PRICED OLD CROW!

The "call for Crow" is heard more and more throughout the land as new thousands each day enjoy Old Crow in a lighter, milder, 86 Proof bottling, companion to the world-famous 100 Proof Bottled in Bond!

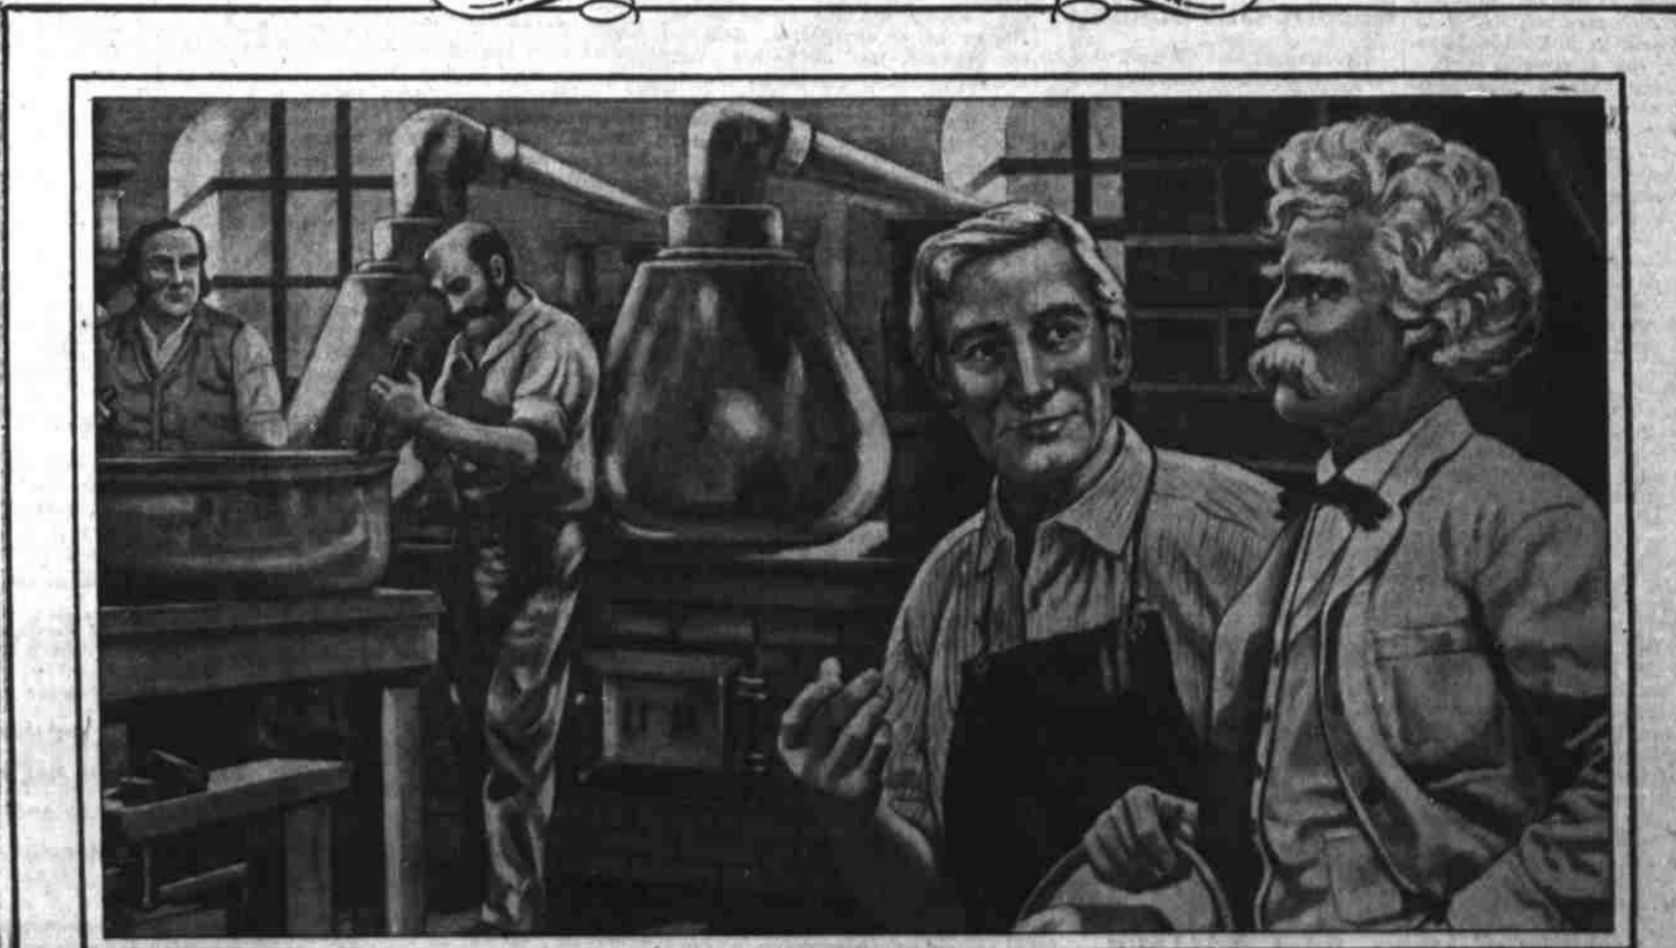

The response to the introduction of Old Crow's lighter, milder, 86 Proof bottling as a lower-priced companion to the celebrated 100 Proof Bottled in Bond has been overwhelming. The number of discerning bourbon buyers who are enjoying the favorite whiskey of such men of history as Henry Clay, Daniel Webster, and Mark Twain, grows greater day by day.

From the time, over 100 years ago, when James Crow first fixed his name on a barrel of his remarkable whiskey, Old Crow has kept pace with the growth of America. Many a pioneer who set out to build a home in the western wilderness carried along an earthenware jug filled with Old Crow. And many an Easterner announced with pride to his guests that the liquor of the evening would be Old Crow; while Southern planters who insisted on Old Crow's quality served it to celebrate a fine crop season.

House Told AF Car Races Are Costly

WASHINGTON (U. S. Press) — The House was told yesterday that sports car races conducted under Air Force auspices entail "a great direct and indirect cost to the taxpayers, little of which is accounted for."

The average labor cost per race for military personnel, Rep. Scrivner (R-Kan.) said in a Congressional Record statement, is estimated by the General Accounting Office at from \$23,000 to \$115,000.

Scrivner led a congressional fight that resulted in cancellation of almost all races scheduled for the future. They had been held at Strategic Air Command bases with the idea of raising funds for welfare and recreation.

The Secret of Thoughts

Are you one of the countless thousands or probably millions who's thoughts never get beyond the stage of wishful wishing?

The thoughts of today may be the beginning of tomorrow or the years to come.

Have you thought about voting in the next election? Have you thought about the candidates seeking office?

Have you thought about the qualifications of the ones seeking office? As each and every one knows the beginning of every single act or doing begins with a thought.

It is with good leadership that you may take your life out of hopes and dreams and with good leadership that can make your thoughts and dreams come true.

Be sure and use your greatest thought on July 24th go to the polls and vote for Dale Lane as Sheriff of Howard County. One who is known to be:

1. Above reproach for qualifications.
2. Honest, Capable and Trustworthy.
3. With twenty one and a half years of Actual Peace Officer experience.
4. He also knows the Sheriff is public servant, to help the people who needs his services, day or night and

DATE DATA
Male Egos Are Delicate So Don't Abuse Them!

Jane Wittler has a date for Saturday night. Jane is sixteen and it is the first time since she was fourteen that she has had a date with a boy who doesn't have access to a car.

Jack Martin is the boy and while he has personality, good grades and just about everything else that adds up to date bait, he feels a little sensitive about lacking the almost necessary "set of wheels."

Let me explain right here that Jane is no snob, but a very sweet, lovable girl. Being eager and cooperative by nature, and naturally preferring to ride instead of walk, she thinks of her family's car sitting in the driveway.

Mom and Dad don't generally use it on Saturday night. Why not take it?
What do you think of the idea? What would you do in her place? Sometimes this can be the very convenient solution to a difficult problem. Never, however, is it wise to suggest it on a first date.

Boys have egos which are far more tender than their feet. Most of them feel self-conscious about not having cars, and it only increases their embarrassment to have the girl supply the transportation. Of course your parents' car is not yours and he should realize you're not trying to impress him with your superiority—but take it from me, he won't.

A girl driving makes him feel like he is being dated instead of dating. If he drives, the fact that he couldn't measure up to her expectations and she had to handle the matter of transportation

Boy Rescued From Burial At Bottom Of Ten-Foot Hole

HOPEWELL JUNCTION, N.Y. (U. S. Press) — David Ronk now knows better than most other 13-year-olds just how nice it is to be able to walk around above ground.

He learned this yesterday when he spent seven hours half buried at the bottom of a 10-foot hole. He was trapped there while helping to dig a well in a farmhouse cellar.

Rescuers did their best to prop up sides of the hole to prevent a further cave-in that could have completely buried the boy. They placed a barrel around David for added protection.

Still there was always danger of further collapse, and at one point David wept in fear as additional dirt poured down into the hole.

Most of the time, however, his spirits were high. He joked with rescuers, read comic books and drew pictures. For lunch he had sandwiches and coffee.

Under the direction of a state highway engineer, rescue workers dug a trench down to the level where David was buried and freed him. The boy was unhurt except for slightly swollen legs.

Police Rule Out Identification In Indiana Sex Death

INDIANAPOLIS, Ind. (U. S. Press) — Police were left without a good lead today after they ruled out a taxi-cab driver's identification in their search for the killer of 18-year-old Dorothy Poore.

The driver, Wesley B. Rivin, had picked a photograph from hundreds at the police identification bureau and said it was the "woman-crazy" man he drove to the Claypool Hotel Thursday.

Irvin's fare gave his name as O'Shea. The last occupant of the room in which the Clinton High School graduate's body was found Sunday registered as Jack O'Shea.

Police picked up the man, whose picture Irvin and two hotel employees identified, but they released him after questioning when they learned he had been out of town.

FPC Puts Its Hooks On Wellhead Prices And May Starve The Goose

Without waiting for a rehearing of the U. S. Supreme Court's order giving the Federal Power Commission control over the price of natural gas moving into interstate service, the FPC's order freezing gas prices at the wellhead at the level of June 7 caught Texas and other gas-producing states by surprise.

Well, it needn't have. It has been obvious for years that FPC was hungry to get its hands on this authority. It has been a dream of federal bureaucracy to move in on a new field of federal activity, offering new jobs for more bureaucrats, a new opportunity to crack the whip over the states.

Percentage Of Foreigners Among Reds Good Reason For Caution

Appropriate federal agencies are now seeking to determine whether about 10,000 Communists may be denaturalized, and an additional 12,000 may be deported. Necessarily there is some duplication of names in these two lists, and it is impossible to estimate a net figure.

lands would not accept them—and this includes some Communist countries. In connection with these figures, there is another situation involving traffic in aliens, this time in reverse. Under legislation adopted a year ago at the urging of President Eisenhower—his predecessor had also urged it—214,000 aliens were to be admitted to this country in the ensuing three-year period.

Matter Of Fact—Joseph and Stewart Also Halleck Has Made Change From Oppositionist To GOP Leader

WASHINGTON — As a symbol of his power and place, the majority leader of the House of Representatives has no less than three offices on Capitol Hill. But he is most likely to be found in a little room buried obscurely among the labyrinthine corridors of the capitol.

as the two key votes, and he claims victory for the Administration on both. On most other issues—St. Lawrence Seaway, tidelands, foreign aid, social security—the House, Halleck claims, gave the President substantially what he asked for.

Small though it is, this room is curiously impressive, with its rich, deep-cherry damask curtains, its worn New England-Oriental carpets, its heavy black leather armchairs, and its high, graceful, arched ceiling. About it there is a smell of history—a comfortable, cigar-smoking nineteenth-century sort of history—and of power. As House Majority Leader, Charles A. Halleck is one of a dozen or so most powerful men in Washington.

This intense partisanship is the main key to his conduct as majority leader. Unlike so many other Republicans, loyalty to the Republican party means to him loyalty to the first Republican administration.

We Can't Minimize Fact That Commies Were Clear-Cut Victors In Indochina

WASHINGTON — The Communists have won a clear-cut victory in Indochina. It can't be minimized. The French let them have half of Viet Nam. Now the United States faces one of the most important decisions in its history. It is this: Will this country, to keep the rest of Indochina and Southeast Asia out of Communist hands, be willing to fight if the Communists move any further? Or will the United States just sit back and express pious hopes that the Southeast Asians won't submit to communism?

One of the things which always has mystified me is the lengthy acknowledgments which preface the showing of a film. Each year more and more names and positions seem to be added. It has grown so bulky that the cast frequently is deleted so that the director, the costumer, the make-up artist, the orchestra leader, the choreographer, the recorder, the photographer, the sound system operator, the designer, the set-maker, the color processor, and infintum can be confined to reel No. 1.

Nation Needs To Make Survey On Sources Of Needed Minerals

It is surprising to learn from the report of the Malone committee that less than one per cent of the area of the United States has been included in geological investigations. How then do we know our mineral wealth? We are constantly being told that our foreign policy is to a degree based on our shortages of certain minerals and materials. How do we know? Only 12.7 per cent has been geologically mapped by the United States Geological Survey which began to work in 1880.

Fourteen Texas Congressional Districts Have Vote Contests

By The Associated Press

Election day contests face candidates for Congress in 14 of Texas' 21 districts.

U.S. Sen. Lyndon B. Johnson, Texas senior senator, also has opposition in the Democratic primary Saturday.

But eight congressmen—counting Congressman-at-Large Martin Dies of Lufkin—have no opponents. In three of the 14 contested districts, the incumbents are retiring, so those races are among candidates seeking vacated jobs.

Heading the list of representatives seeking re-election is Rep. Sam Rayburn, 72, of Bonham, former Speaker of the House, opposing Rayburn in his bid for his 22nd term as 4th District Representative is A. G. McRae, Bonham businessman.

Johnson is opposed for the Democratic nomination by State Rep. Dudley T. Dougherty, 30, Beeville rancher and oilman.

The winner of their race will be opposed in the general election by Carlos Watson of Brownsville, an old-time conservative Republican.

Texas' only other statewide congressman who is up for re-election—Congressman-at-Large Martin Dies of Lufkin—has no opposition.

Other unopposed congressmen include Olin E. Teague of College Station, 6th District; Homer Thornberry of Austin, 10th District; W. R. Poage of Waco, 11th District; Frank Icard of Wichita Falls, 13th District; Omar Burleson of Anson, 17th District; George Mahon of Lubbock and Colorado City, 19th District; and Paul Kilday of San Antonio, 20th District.

Rep. Albert Thomas of Houston has no Democratic opposition in the primary. He will be opposed in the general election by one of two Republicans up for the 8th District nomination. They are Jerry McAfee, Houston manufacturer, and William B. Butler, Houston lawyer.

In the 1st Congressional District, 11 counties in extreme northeast Texas, Wright Patman of Texas-Kanana is running for re-election. Patman, who has spent 26 years in Congress, has two opponents, Kenneth Simmons, 34, who resigned as mayor of Avinger to make the race, and Douglas E. Wright, Norris County farmer who once was a member of the Legislature.

Incumbent Jack B. Brooks, 31, a Beaumont lawyer, is seeking election to his second term as representative of the 2nd Congressional District. His only opponent is Jack Nell, 51, Beaumont radio station operator who ran third in a field of nine candidates when Brooks was elected two years ago.

Eight East Texas counties make up the 3rd Congressional District, which has seen one of the hardest fights. The incumbent is Brady Gentry, 58, of Tyler, bidding for his second term. Opposing him is former Congressman Lindley Beckworth, 40, who served from 1938 to 1952.

The 5th Congressional District, Dallas County, has been the scene of another hotly contested race.

Rep. J. Frank Wilson of Dallas is retiring this year. Five Democrats and one Republican want his job. The unopposed GOP candidate in the primary is Bruce Alger, 35, Dallas real estate man. The five Democratic candidates are Wallace Savage, 41, former Democratic state chairman; Dick Connally, 39, a nephew of former Sen. Tom Connally; Leslie Jackson, 57, an attorney; Leslie Hacker, 34, and Lamar Holley, 34, of Dallas, also attorneys.

John Dowdy, 42, of Athens is seeking his second term in the 7th Congressional District in East Texas. Dowdy, who won over five opponents two years ago, is opposed again this year by one of them, W. J. Robison, Frankston farmer.

In the 9th Congressional District's 15 counties stretching along the middle of the Texas coast, Rep. Clark W. Thompson is up for his seventh term. Trying to bounce him from the job is Clyde B. Kennelly, 37, former Rosenberg county attorney and former assistant state attorney general.

Wingate Lucas, 46 - year - old Grapevine lawyer, is after his 4th term as representative of the 12th District. Opposing him is Mayor Jim Wright of Weatherford.

There'll be a new congressman elected in the 14th District, made up of 19 counties in South Texas. Rep. John Lyle of Corpus Christi is stepping down. Four Democrats are running for nomination. They are State Sen. William B. Shireman, 46, of Corpus Christi; Roy A. Scott, 53, Corpus Christi attorney;

State Sen. John J. Bell, 47, of Cuero, and State Rep. Gabe Garrett, 64, of Corpus Christi. In addition there is a Republican on the GOP primary ballot, Dewitt C. Dewitt of Yorktown, oilman and engineer.

Lloyd M. Bentsen Jr. of McAllen is not seeking re-election as the 15th Congressional District congressman for the 13 counties along the lower Rio Grande. Joseph M. Kilgore, 35, McAllen attorney, and Hubert R. Hudson, 28, Brownsville civic leader, are the candidates to replace him.

The 16th District—made up of 19 counties from Midland west to El Paso—has a race between incumbent Ken Regan of Midland and State Sen. J. T. Rutherford of Odessa, 34. Regan, who won the office in a special election in 1947, is known as a conservative. Rutherford, an ex-Marine, has campaigned for the veteran's vote and has concentrated on the El Paso area, where the district's biggest population is concentrated.

Rep. Walter Rogers of Pampa is running for a second term in the 18th, or Panhandle, District. He has two Democratic opponents, George W. Crawford of Channing and Michael Kemp of Cactus. The Republicans also have a primary candidate, Leroy (Pete) LaMaster, 35-year-old Perryton wheat farmer. LaMaster has run before, as a Democrat. Panhandle Republicans believe he has a good chance to defeat the Democratic nominee in the general election.

The 21st Congressional District, 27 counties sprawling in central West Texas, has a race between Rep. O. C. Fisher of San Angelo and Tom Connally of San Saba. Fisher has been the district's congressman since 1942.

IT HAPPENED

Well, Pardon Us
CAMBRIDGE, Mass. (AP)—Each day at the Middlesex registry of deeds a call goes out over the public address system: "Paging Archibald Clancy."
No one, however, is really looking for Archibald Clancy. That's a code call meaning that employees may take a coffee break.
But yesterday, shortly after Mrs. Ruth Decatur of Reading, the switchboard operator, called for "Archibald Clancy," a man approached her and asked: "Is someone looking for me?"

Peeping Blonde
HARTFORD, Conn. (AP)—Police said a man complained last night about a peeping blonde at his window.
He said the blonde looked to be about 18 years old, wore a white blouse and full skirt and could run like the dickens.
He said he chased her a good 50 yards, but she got away.

Snake Likes Radio
SHELBY, N. C. (AP)—J. B. Jolley looked up yesterday to see a snake's head protruding from the back of his radio.
He took the set out back where he shook and tapped on the cabinet. The stubborn snake refused to budge.
All else failing, Jolley hooked up an extension cord and turned on the set. The heat from the tubes proved too much and the foot-long snake slithered out.

Play-Day Pickets
ST. LOUIS (AP)—A new style in picketing appeared here yesterday.
Instead of carrying the usual lettered cardboard sign, 14 discharged employees of the Cobak Manufacturing Co. walked around twirling yo-yos and bouncing rubber balls.

Back In Uniform
AUGUSTA, Ga. (AP)—Robert E. Lee and Ulysses S. Grant are back in uniform. This time, though they are privates — and on the same side.
The two men have reported for duty at the Southeastern Signal School at nearby Camp Gordon. Pvt. Lee is from Washington, N.C.; Pvt. Grant from Tullahoma, Tenn.

Redwood Log Sawed To Open New Highway
ARCATA, Calif. (AP)—Instead of cutting a ribbon, they sawed a big redwood log in two to open the first portion of the 6½-million-dollar Burns Freeway.
The log rested on two trucks, one of which drove north and the other south yesterday to open 2.9 miles of highway here in the redwood country.
