

# Race Riots Hit Newark

NEWARK, N.J. (UPI) — Negroes enraged by the alleged beating of a cab driver by police besieged a station house, touching off a wave of window-smashing and looting early today.

Police and firemen were stoned in the disorder which spread hit-and-run fashion for several hours through a Central Ward tenement district in this city of 400,000 of whom 60 per cent are Negro.

A caravan of at least 50 cars carried angry Negroes early today to City Hall and police headquarters where they staged a noisy protest. They were barred by shotgun-armed police from headquarters where they sought to post bond for the taxi driver.

Four policemen were injured in the melee at the Fourth Precinct station house which involved about 250 Negroes throwing bricks, bottles and other objects at the building and parked police cars.

About 50 helmeted squads of officers with nightsticks at the ready dispersed the mob without a major fight.

Then the incidents of window-smashing and looting started. The arrest of cabbie John W. Smith, 38, ignited the violence. He was treated at a hospital after his arrest and Negroes

contended he had been severely beaten.

Police said Smith's cab was tailgating a patrol car for several blocks. When the police stopped Smith, they contended he became abusive and started swinging. He was wrestled to the street and put forcibly into a patrol car.

At the station house, Smith was dragged from the cruiser kicking, punching and cursing, police said.

After the disorder at the Fourth Precinct, at least 100 Negro youths roamed through the seamy tenement district, breaking windows and overturning automobiles. At least one fire broke out and firemen responding to the alarm were pelted with stones.

The incidents of vandalism were sporadic, however and never resulted in a major confrontation between the riot-armed police and groups of Negroes—except at the Fourth Precinct siege.

Then the incidents of window-smashing and looting started. The arrest of cabbie John W. Smith, 38, ignited the violence. He was treated at a hospital after his arrest and Negroes

# France Pledges Egypt Aid

## DeGaulle Convinced UAR Not Aggressor

**By WALTER LOGAN  
United Press International**  
Bolstered by a surprise French statement of support and a renewed pledge of aid from the Soviet bloc, militant Arab leaders today conferred in Cairo on their next move in the Middle East crisis.

William Jacson, head of a French parliamentary delegation visiting Cairo, said his government authorized him to offer "all the aid needed by Egypt to face the present circumstance."

Jacson said French President Charles de Gaulle was "convinced the UAR did not begin the aggression (in last month's Arab-Israeli war) and had no aggressive intentions but only wanted to declare its desire to aid Syria in any possible aggression" before the war started.

The Communist pledge came at a secret summit meeting in Budapest, Hungary, attended by all Soviet bloc nations except maverick Romania, which has refused to glue itself to a rigid pro-Arab line.

The conference was attended by Soviet Premier Alexei N. Kosygin and Communist party chief Leonid I. Brezhnev, a Tass announcement said Wednesday night.

The Cairo summit brought together Egypt's Gamal Abdel Nasser, Algeria's Houari Boumedienne and Iraq's Abdel Rahman Aref. Syrian President Nouraddin Atassi was to join the talks later today, the semi-official Cairo newspaper Al-Ahram reported.

Jacson told a news conference that France has offered a \$1 million cash loan to Egypt plus technological, medical and other financial aid.

Al-Ahram said the technological aid would include help on research into the peaceful use of atomic energy. It quoted Jacson as saying France is willing to establish an advanced institute for atomic research in Egypt.

**Oil Allowable Upped Second Time in July**  
AUSTIN (UPI) — The July oil allowable for Texas was increased the second time Wednesday by the Texas Railroad Commission to help offset a world oil shortage brought on by the Mid-east crisis.

A record 48 per cent of potential — an estimated 3,166,000 barrels daily — was allowed by the commission's hike in permissive production.

The increase of 131,000 barrels daily over the previous July allowable set just two weeks ago was ordered after a morning "summit meeting" with executives of major purchasing firms.

The record allowable was necessary "due to the continued abnormal increase in the demand for Texas crude oil occasioned by the Middle East crisis and the urgency of the situation," the commission said.

ARAB SUMMIT IN Cairo brings Arab leaders together again, this time to discuss strategy after defeat by Israel last month. From left are Jordan's King Hussein, Algerian President Houari Boumedienne and United Arab Republic President Gamal Abdel Nasser. Joining them Tuesday for "important discussions" was Soviet Deputy Foreign Minister Jacob Malik.

## Israel Fights Attempts To End Annex

UNITED NATIONS (UPI) — Israel today fought to stave off diplomatic attempts to force it out of Old Jerusalem.

Israel annexed the Jordanian part of the city after last month's six-day war against the Arabs.

Pakistan Wednesday asked the General Assembly to approve a resolution demanding Security Council action if Israel does not heed a previous assembly resolution ordering it to roll back the annexation.

Security Council action could mean sanctions against Israel. The assembly July 4 voted 99-0, with 20 abstentions including the United States, to nullify the annexation.

Israel Foreign Minister Abba Eban described speeches by Pakistan, Jordanian and Soviet delegates as "an hour filled with religious bigotry and hate."

He called Israel's "integration" of the Old City "a landmark in international reconciliation."

Eban emphasized that Israel was prepared to offer international administration of the Old City's holy places by Christian, Moslem and Jewish authorities.

Eban pointed out that free access to the shrines of the three faiths was not facilitated by Jordan during the 20 years it controlled the Old City.

The Pakistani resolution appeared likely to gain approval, but not by so wide a margin as the July 4 measure.

Many delegates especially from Roman Catholic countries, were impressed by the fact the Vatican and Israel had entered negotiations concerning the Christian shrines in Jerusalem. Others seemed influenced by the strong traditional tie between the Old City and Judaism.

If it comes from a hardware store we have it. Lewis Hdw. (Adv.)

## B52s Bomb Guns, Defy SAM Threat

SAIGON (UPI) — U.S. Air Force B52 heavy bombers defied the threat of missile attack today and smashed Communist guns on the North-South Vietnam border that had killed a near record number of Americans.

The eight-engine Stratofortresses, the weapon the Communists fear the most, struck just north of the battered Leatherneck bastion of Con Thien. Artillery batteries in the area helped raise U.S. casualties last week to 282 men killed which American officials said was the highest weekly toll of U.S. dead in the war.

The B52s had not ventured near the border since May 11 when the Communists set up surface-to-air (SAM) missile launchers to ward off the huge bombers.

Repeated U.S. jet fighter-bomber strikes have torn at the SAM sites, apparently with success. Military spokesmen said not a SAM was sighted near the high-flying Stratofort which each carry up to 60,000 pounds in bombs.

In other action, victorious U.S. infantrymen today counted 95 Communist bodies on an 14 Drang Valley battlefield in the (See BOMB, Page 3)

## Police, Crowds Clash Again At Shipbuilding Co.

NEWPORT NEWS, Va. (UPI) — Helmeted police, swinging nightsticks and turning snarling police dogs on stragglers, cleared early today a 12-block long area leading into the Newport News Shipbuilding and Drydock Co., hit by a violent strike.

A short time later, unmarked cars whisked out of the plant carrying non-strikers who had been working on the nation's nuclear submarines.

Firecrackers exploded and bottles sailed through the air while a force of state troopers and city police cleared the streets of 1,000 jeering demonstrators.

At least one pedestrian, a lean Negro man, was bitten when officers turned their dog on him.

The action clearing off the street came to avoid a repetition of a riot at midnight shift change Wednesday at the plant shipyards that had left police cars overturned, nearby shops wrecked and looted, at least 20 persons injured including one gunshot victim and three blocks of Washington Street littered like a battlefield.

Gov. Mills Godwin met with union and management officials at his executive offices in the state capitol at Richmond until 12:30 a.m. CDT today and said after the meeting that another session was planned for today at Newport News.

Godwin said that officials of the union, the unaffiliated 15,000-member Peninsula Shipbuilders Association (PSA) had agreed to remove pickets from the gates of the shipyard, where such ships as the liner S.S. America and the world's largest non-nuclear aircraft carrier the John F. Kennedy, were built.

"There was substantial progress toward defining the issues and an atmosphere of good will was reached tonight," Godwin said after the meeting.

## Senate Starvation Inquiry Is Closed on Sour Note

WASHINGTON (UPI) — A Senate inquiry into starvation in rural Mississippi has ended on a sour note with Republicans angry, administration officials bitter, and Democrats shaking their heads.

Before the hearings were brought to a close Wednesday Sen. Jacob K. Javits, R-N.Y., angrily accused the agriculture department "bureaucracy" of dragging its feet in feeding the poor in the Mississippi delta.

Agriculture Secretary Orville L. Freeman retorted that he resented the implication "we are sitting on our backsides doing nothing."

Sen. Joseph S. Clark, D-Pa., chairman of the subcommittee, repeatedly gavelled for order as Javits pleaded to "let us have this out."

At one point, Clark suggested in exasperation that the two men "act a little more mature about this" or "step outside to settle their differences."

At the conclusion of the hearings, Sens. Javits, George L. Murphy, R-Calif., and

Winston L. Prouty, R-Vt., accused the Johnson administration of allowing poverty conditions in Mississippi "to grow and persist."

"Republicans must come together within our party to call for an end to this government paralysis," the three senators said in a joint statement.

Sen. John C. Stennis D-Miss., promptly expressed his sorrow to see the GOP "raise the banner of partisan politics at the expense of human health."

"I've never heard it raised like this in all my days in the Senate," he said. "It's a sad experience."

Amid all the charges, countercharges and appeals for less emotionalism, the central issue of hunger in Mississippi was almost lost.

Shriver said the Office of Economic Opportunity and Agriculture Department have been working for 18 months on food programs that now reach 400,000 people in Mississippi. He said the administration program would reach everyone of the 650,000 hungry people in Mississippi by the end of the year.

## 100 Contestants To Enter District 4-H Horse Show

Over 100 contestants are expected for the District 1 4-H Horse Show starting at 9 a.m. tomorrow in Recreation Park.

Members of 4-H from the 22-county Panhandle district will participate in the 11 halter classes and four performance classes. Included in the contest events are pole bending, barrel racing, reining and western pleasure.

Twelve Gray County 4-H members, representing the Top O' Texas 4-H Riding Club, are entered in the show. They are previous county winners.

Trophies will be awarded through third place in all classes. In addition, trophies will be given for the champion and reserve champion mare and gelding, top 4-H showman and high-point individual.

Two horse feeders will be awarded to the high-point individual and the top 4-H showman. Ribbons will be presented to winners in fourth, fifth, and sixth places in all classes.

Johnny Rex McClellan of Clarendon and his assistant will be judges for the show. Announcers for the show will be Don Jackson of Pampa and Dick Strong of Amarillo.

Congression stands will be set up at the park. About 500 spectators are expected to attend the show.

## School Board Okays Teacher Salary Hike

Pampa's school board today voted 3-2 to raise the salary of Pampa teachers \$700 above the state, minimum schedule, and set Aug. 17 as the date for the official budget hearing.

Dissenting board members were John Gikas and John Spearman, who wanted to start the basic salary at \$5,500 for a beginning teacher.

The approved teachers' salary schedule for 1967-68 sets the minimum for a beginning teacher with a BA degree at \$5,600. For 10 years experience with a BA degree the Pampa salaries will be \$6,604. For a beginning teacher with an MA degree the salary will be \$5,900. For 16 years experience with an MA degree the salary will be \$7,612.

Teachers with from one to four year's experience are to receive a special local supplement for a BA or MA degree.

Beginning teacher supplement with BA degree is \$166; one year, \$149; two years, \$132 and three years, \$100.

Beginning teachers with MA degree, \$160; one year, \$143; two years, \$121, and three years \$100.

The state minimum for a beginning teacher with a BA degree is \$4,734. With 10 years experience, it's \$5,904. The state minimum for a beginning teacher with an MA degree is \$5,040. For 16 years experience it's \$6,912.

The board was required to pass the teacher pay raise to get qualified teachers and meet competitive salaries of area schools.

The board also discussed a tentative budget and set a tentative tax rate of \$1.75 per \$100 valuation.

## Rebellion In Congo Collapses

KINSHASA, The Congo (UPI) — The anti-government rebellion in Kisangani collapsed today and rebel mercenaries fled taking a number of white hostages with them. Some Americans were believed to be among the hostages.

Congo Radio said about 250 French, Belgian and Spanish soldiers-of-fortune led by a former Belgian planter stole 27 civilian trucks and fled with an unknown number of hostages. Previously the hostages had been held at the airport at gunpoint.

The U.S. State Department has reported 20 Americans, some of them women, in Kisangani, formerly Stanleyville. The rest of the hostages were European, including teachers and missionaries. A number of European journalists in Kisangani were believed safe.

The mercenary forces were reported fleeing toward the town of Ponia, 150 miles southeast of Kisangani where Jean Schramm was allowed to settle, along with demobilized Katangese gendarmes, after a previous rebellion.

Congo Radio reported earlier they were fleeing toward Bunia near the Uganda frontier 370 miles away. (See CONGO, Page 3)

## Negro Nominated for Court Post Faces Senate Panel Exam Today

WASHINGTON (UPI) — Thurgood Marshall, the first Negro nominated to the Supreme Court, faced Senate Judiciary Committee examination today on his attitudes toward the court's increasingly liberal rulings on criminal justice and civil rights.

Marshall's convictions, expressed on scores of occasions were certain to displease the conservative members of the panel's approval.

His confirmation as the 96th Supreme Court Justice was considered sure. The Senate has twice confirmed him for other offices, as a circuit court of appeals judge and as U.S. solicitor general.

President Johnson nominated the 59-year-old Marshall to succeed retired Justice Tom C. Clark.

Before hearing Marshall, the committee was examining Warren E. Christopher, nominated as deputy attorney general to succeed Ramsey Clark, who was elevated to Attorney General.

Thurgood Marshall

VISITING SOVIET DESTROYER is greeted by flag-waving demonstrators in a small boat at Port Said. Twelve warships are in Egyptian ports ready, according to a Russian admiral, to "co-operate with Egyptian armed forces to repel any aggression."

CANADIAN HARVESTER MOWS DOWN new crop of triticale, world's first man-made grain which could virtually double world's supply.

## New Grain Can Double Supply

By NOEL GROVE  
Newspaper Enterprise Assn.  
WINNEPEG, Manitoba — (NEA) — Dire predictions about the world's food crisis may have to be revised if a new species of grain reaches the potential its Canadian developers believe it will.

This first man-made grain could virtually double the world's supply — if properly used and accepted by grain-growing nations.

The significant announcement was made today at the University of Manitoba where scientists have been conducting intensive research on grain synthesis for 13 years.

The grain, called triticale, is a cross between durum wheat and rye but it is not just another variety of wheat, any more than a tangerine is a grapefruit or a cashew is a walnut.

It is a new grain, not a hybrid of an old one. It differs in content, durability and yield and is able to reproduce itself.

Although modest scientists at the University of Manitoba point out that the new grain is not the miracle that will fill the stomachs of the world's hungry, it can "make a significant contribution in terms of alleviating the world's food problem," says Dr. L. H. Shebeski, dean of the faculty of the agriculture college.

"We feel," he adds, "that the only way to properly feed the world's population is to curb overpopulation."

That food problem is very real. Experts now agree that unless world food production increases significantly by 1985, as President Johnson put it, "all the combined production, on all the acres, of all the agriculturally productive nations, will not meet the food needs of the developing nations."

The Canadian scientists therefore feel that their triticale can help save the lives of millions.

The grain appears to grow better than wheat in very dry conditions — in the arid countries whose people today suffer from chronic food shortages.

It may also be of interest to American wheat growers in five states producing 30 per cent of the nation's wheat — Kansas, Colorado, Oklahoma, New Mexico and Texas — where a current drought is expected to reduce the 1967 yield drastically.

If a farmer can raise 55 bushels of triticale on an acre of ground where he could otherwise raise 40 bushels of wheat, he is providing that much more food. This ratio of yield has been proven in Canadian test plots.

But better: If the farmer can raise 40 bushels of triticale per acre in a drought year when wheat could manage 20 at best, as was the case here in 1961, the contribution of this new grain is considerable. Plus the fact that it contains up to four per cent more protein than wheat. The protein quality is superior to wheat.

Reason for this massive increase in yield per acre is the fact that the triticale head — the part which is used for food — is

at least twice the size of the head of a standard wheat plant. The Canadian scientists have recently discovered that triticale apparently grows better when planted in close rows about six to eight inches apart. Since wheat rows are normally spaced 12 inches apart, that much more triticale can successfully be planted on an acre.

Though unknown to even the average wheat grower, triticale is no stranger to plant scientists. Experimentation has been conducted since 1883, when wheat and rye were first crossed.

From the two Latin names of its parents — triticum (wheat) and secale (rye) — came the name for the off-spring, triticale.

But after this first breakthrough efforts to develop the new grain effectively were discouraging for the next 75 years. Research programs on triticale

opened and later folded for lack of positive results.

The early triticale grain was anemic - looking and shriveled. The plant grew disgustingly tall — over a man's head — making it a problem to harvest. Yields and fertility were low. And it was highly susceptible to ergot, a fungus disease that can cause both humans and animals to abort.

Birth of the modern triticale began in 1954 at the University of Manitoba, when a chair in plant research was established in the name of Samuel Rosner, by the family of Samuel Brozman, his son-in-law. Triticale was chosen as the subject of the research by Dr. Shebeski. The first commercial variety of triticale will be called Rosner grain.

As progress in development of the grain became apparent, support was added. More money for research was provided by the Manitoba Pool of Elevators, the Manitoba Department of Agriculture, and the Rockefeller Foundation. Test plots were opened in Mexico to speed the program with growing tests in winter as well as summer.

The entire project has an international flavor. The success of the Manitoba experiments

are partly a result of collecting samples of the strongest around the world, and crossing them.

Winnipeg scientists incorporated strains of their own, and a useful grain began to emerge at last. Size of the stalk shrank, but the seed itself lost its dry, shriveled look and swelled to a protein-filled, healthy-looking kernel.

Development is not yet complete, any more than civilization remained satisfied with the scrawny ears of Indian corn. Yet triticale could be on the market as a seed grain as early as 1970.

Its greatest potential at present appears to be in use as an animal feed.

As a human food, it is gaining in promise. Bread made from it is browner and coarser than that preferred by most Americans. Yet Europeans relish a more fibrous bread, and a heavier texture would be no obstacle to millions in many countries who have nothing at all. The bread, in fact, is similar to the flat, unleavened loaves eaten in Asia and Africa.

Happily, the toxic ergot, a problem in early development, is gradually disappearing as the new species becomes stronger and more fertile.

It is a beginning, and an exciting one to those in grain research, after years of doubt and frustration.

Among those impressed by the synthetic "man-made" grain is an elderly Swedish seed grain breeder currently touring the United States and Canada to observe wheat developments. Recently, Sven A. Holmberg paid his second visit to triticale research labs at the University of Manitoba.

"I just had to come back to see it again before I returned to my country," he said, his eyes lighting up at sight of the big triticale stalk and its ponderous seven-inch head.

"For 5,000 years we have lived with essentially the same cereal grains, and now we have a new one. It may be 1,000 more years before we see this happen again."

**NEWSPAPER DAMAGED**  
LEXINGTON, Miss. (UPI)—An early morning fire Wednesday heavily damaged the weekly newspaper Lexington Advertiser, whose editor won a Pulitzer Prize for her strong stand against racial violence.

The editor, Mrs. Hazel Brannon Smith, said the fire "looks suspicious," but Fire Chief U. A. Rathell said he had "no reason whatever in this world to believe it was arson."

Mrs. Smith's other weekly paper, the Northside Reporter at Jackson, was bombed in 1964, four months after she received the Pulitzer Prize.

**LOST THEIR BUTTONS**  
MOSCOW (UPI)— Little things like buttons and bolts are snagging Soviet industry, the government newspaper Ivestia reported today.

The paper said several factory owners complained shortages of these and other minor items was holding up production of many consumer goods.

A Ukrainian dress factory manager said he hasn't got the buttons to finish up his dresses and production of sofa beds was held up by a lack of bolts. "We have to send couriers to Moscow to run them (the bolts) down," the furniture maker said.

First Chamber of Commerce was organized in 1788 in New York City.

Rowland H. Macy is credited with having conceived the department store idea in America.

# Highlights and Sidelights From the State Capitol

**By YERN SANFORD**  
Texas Press Association  
AUSTIN — Within the next few months, residents of several cities in Texas may vote local sales taxes on themselves.

Some of the larger cities are considering elections under the new law which permits a community to levy a one per cent sales tax, if its citizens approve.

This is in addition to the state's two per cent sales tax. In Austin, a group of businessmen and civic leaders are urging the city council to call a sales tax election.

A statewide survey indicates that Houstonians — where the proposed tax could bring in as much as \$14,000,000 a year — will be among the first to vote, May 15.

## Foreign News Commentary

**By PHIL NEWSOM**  
UPI Foreign News Analyst  
As a people, Americans are lovers of slogans, labels and catch phrases.

Whether this is the result of the advertising genius of Madison Avenue or whether Madison Avenue simply took advantage of which came first, the chicken or the egg. Both exist.

On the domestic scene, Congressman Adam Clayton Powell provided a case in point. In the midst of his troubles over his House seat, the Negro politician frequently admonished his followers to "keep the faith, baby."

Briefly the phrase worked its way into the language and became applicable to situations far beyond Powell.

Resist Certain Situations  
It also is an American characteristic to resist situations in which the grey may mingle with the black and white.

Therefore, we seek the good guys and the bad guys and fall into traps of our own making. In Vietnam, the words Viet Cong are used to designate those South Vietnamese fighting on the side of the Communists. In his usual fashion, the American soldier quickly shortened it first to V.C., and then to Charlie.

In general American briefing officers reporting on military action make some attempt to separate the Viet Cong from the regular army forces of North Vietnam. It is not always successful.

The use of Viet Cong as a descriptive term did not even come into general use until the early 1960's and then was applied to southerners who had gone North after Vietnam's partition in 1954, received their training and then had filtered back to fight as guerrillas. Prior to that time the anti-government fighters had been referred to as terrorists or rebels.

Today, a captured Viet Cong questioned about his belief in communism is most likely to reply with a blank stare.

No Knowledge  
So would a huge proportion of South Vietnamese government forces if questioned about democracy.

In the homes of many villagers of South Vietnam's Mekong Delta a portrait of Ho Chi Minh, president of North Vietnam, is revered as a father image. In the South, Ho never has pressed his Communist propaganda line. Rather, it has been one of Vietnamese nationalism against the Americans who simply have taken the place of the French colonialists.

And if the southerner fights with any conviction at all, it is as a Nationalist. This is no more accurate to call a Viet Cong a Communist than it is to call South Vietnam's Prime Minister Nguyen Cao Ky a democrat. To be accurate the Viet Cong should be described as "Communist-led."

Labels depend upon the viewpoint. To the French, Algerian rebels were terrorists. To others they were heroes. The same could be said of the Jewish Haganah, the Irgun and the Stern gang during the war in Palestine back in the 40's.

And in World War II, all Germans were Nazis.

or Louis Welch said the city council will be asked to call an election on the issue this fall. San Antonio Mayor W. W. McAllister expressed support for the local sales levy and said a vote could be scheduled after September 28. Without the additional revenue, he said, San Antonio would have to reduce municipal services or inaugurate more service charges.

City officials in many smaller towns, on the other hand, indicate they have no intention of rushing into sales tax controversies. One, who probably represented views of many, said city governing bodies ought to wait on a call by citizens, through petitions or other tonio would have to reduce municipal services or inaugurate more service charges.

**AUTO INSURANCE GOING DOWN** — Starting August 1, Texans will be paying slightly less for their auto insurance on a statewide average.

Some will pay considerably less, some more. But overall, the State Board of Insurance maintains that motorists will

pay \$4,200,000 less in premiums. Average statewide saving will be about one per cent for all classes of coverage combined. Board adopted, with minor changes, the recommendations of its staff as submitted at a public hearing on June 20. Changes related to commercial and miscellaneous classes for bodily injury, property damage liability and physical damage coverages.

At the same time, the Board authorized a study of so-called "good student" credit. Later would make some reduction in stepped-up rates charged young males under 25, provided they are students in the upper scholastic achievement bracket. Board said it is strongly inclined toward allowing such a discount.

Another study will explore the possibility of creating additional statistical territories.

**APPOINTMENTS**—Gov. John Connally reappointed to the Board of Regents of State Senator J. C. Kellam of Austin, Emil C. Rasmann of Midland and William C. Donnell of Marathon. Board generally

supervises East Texas State, Stephen F. Austin State, Sul Ross State and Angelo State Colleges.

Among other recent reappointments were: Scott L. Hartgrove of Paint Rock, E. H. Swain and James L. Daniel of Eden to Lower Concho River Water and Soil Conservation Authority board of directors;

H. D. Stewart Jr. of Big Spring to State Board of Barber Examiners;

Virgil Versaggi of Brownsville to Gulf States Marine Fisheries Commission;

William C. Richards of Athens and E. M. Decker Jr. of Jacksonville to the board of managers of the Texas State Railroad (a five-mile state-owned line in East Texas).

**HUNTING SEASONS SET** — Texas Parks and Wildlife Commission decided deer hunters can shoot on New Year's day next year. But the Commission trimmed two days off the white-winged dove season.

Deer hunting for most areas will be November 11 through

January 1 — two days longer than last year. A special experimental season of November 18 through January 7 was set for deer and turkey in Frio County. A short, November 25 through December 10, season was retained for Trans-Pecos, but the district bag limit was increased to four deer, including an additional white-tailed buck.

Commission decided the white-wing season should be held to the weekends of September 2-3 and 9-10 this year. Reason is the 17 per cent decline in bird population, a big kill in Mexico and experimental permission for shooting in the old white-wing sanctuary along the border in Starr, Cameron and Hidalgo counties.

**COURTS SPEAK** — Texas Supreme Court upheld the state savings and loan commissioner's grant of a charter to the Trinity Valley Savings and Loan Association of Cleveland. Suit was brought by a Livingston group, unsuccessful applicant for a charter of its own.

A Lubbock woman won a new trial from the Supreme Court in

her damage suit resulting from discovery of a surgical sponge alleged to have been left in her body during a Caesarian section in 1959. In directing the second trial, the Court departed from a 25-year old rule that such suits must be filed within two years.

Houston engineering and construction firms failed to get a high court review of their dispute over adequacy of the giant gates fabricated and installed for Canyon Dam in Comal County.

Supreme Court upheld a finding by the Fourth Court of Civil Appeals that transactions between parties in violation of antitrust laws are void and unenforceable.

**GRANTS CLEARED** — Anti-poverty grants totalling more than \$9,000,000 to find jobs for 100,000 hard-core Texas unemployed have been cleared by governor.

Connally waived power of veto over the "concentrated employment programs" which will operate in Houston and San Antonio.

more than \$4,900,000; San Antonio, \$4,100,000. Local contributions also will go into programs concentrated in cities' worst slum areas and providing counseling, training and job placement services.

**BUSINESS ACTIVITY UP** — Texas business activity reached another record high in May — five per cent over previous month and 10 per cent over May, 1966.

Average annual growth rate of Texas business activity during first five months of 1967 was nine per cent, according to the University of Texas Bureau of Business Research.

Industrial production index maintained a fairly steady rise throughout 1966 and jumped again in May after levelling off early this year. Bureau also reports a 20 per cent construction gain during May and predicts continued growth.

**STUDENT AID PLANNED** — Some 1,350 "high potential" June graduates of Texas high schools who planned no college careers will be offered financial aid and encouragement to pursue higher education after

all. Members of selected group are being contacted by the Coordinating Board for Higher Education, interviewed on their college and course preferences and need for assistance. They will then be placed in contact with college authorities who will attempt to work out satisfactory arrangements. Governor's Committee on Public School Education arranged the project with the Coordinating Board and administered tests to 67,000 seniors.

**DRAFT BOARD RESTRICTIONS** — Of Texas' 674 draft board members 96 are receiving notices they will not be eligible to serve after the end of this year.

Selective Service director Morris S. Schwartz has called attention to new amendments to the draft law which forbid board members serving after age 75 or after more than 25 years service.

New rule affects 82 Texas board members who are more than 75 and 14 who have served more than a quarter of a century.

### Astrological Forecast

By CARROLL RIGHTER

**GENERAL TENDENCIES:** This is no time for you to take any chances nor to get involved in any argument or discussion with those in position of authority or who have any control over your affairs. However, there are good aspects if you will "be still" and listen to the voice of your intuition and get more music, beauty about you.  
**ARIES:** (Mar. 21 to Apr. 19) - Know what it is that associates, expect from you, but do not try to settle any arguments between them or you get it in the neck yourself. Get your bills paid. Handle constructively whatever may suddenly come up.  
**TAURUS:** (Apr. 20 to May 20) - Think about whatever entertainment plans you have instead of worrying about a new problem with your work right now. It may be that a co-worker is gumming up the works. Plan for a very happy week-end.  
**GEMINI:** (May 21 to June 21) - Plan how to gain the good will of interesting and happy companions you want in your life in the days ahead. Do not take any unnecessary risks or you get into real hot water. Avoid those who are unreliable.  
**MOON CHILDREN:** (Jun. 22 to July 21) - Stop going contrary to whatever your close relatives desire and try to be cooperative instead. Help them in their ideas, plans. Then off to whatever is a lot of fun and gives you success from service.  
**LEO:** (July 22 to Aug. 23) - Much care in driving must be exercised and then you find that pleasant accidents may occur at home that will delight you. Find better ways to build up your security. You are inclined to be a little too superficial; be practical.  
**VIRGO:** (Aug. 24 to Sept. 23) - You may get an unexpected invitation and it would behoove you to accept with alacrity. Some monetary problem is not good to solve right now. Expect for a better day and time when you are more interested in a better mood.  
**LIBRA:** (Sept. 24 to Oct. 23) - One who is highly skilled can give you the right suggestions today, so don't depend entirely upon yourself. Be sure to set up a more workable budget. This gives you a chance to operate more efficiently in the days ahead.  
**SCORPIO:** (Oct. 24 to Nov. 21) - You are very much inspired today while others are having some difficulties, so keep busy and accomplish a good deal. Get your talents working and stop shopping around so much. Be clever.  
**SAGITTARIUS:** (Nov. 22 to Dec. 21) - Keep occupied all at that secretive work in the privacy of your own quarters. Pats may be too busy to give you much assistance, so be patient. Evening should be spent with family and not in the company of people you do not know.  
**CAPRICORN:** (Dec. 22 to Jan. 20) - Take care not to irritate one in power or you ruin your reputation. Have real friends. Good friends today give fine ideas how to make your future brighter. Be of good cheer and all is fine.  
**AQUARIUS:** (Jan. 21 to Feb. 19) - You have excellent ideas but they would require a good deal of time, but those who give your making right now. Get busy with civic work. You can add much to prestige you now enjoy. Be with those who are helpful.  
**PISCES:** (Feb. 20 to Mar. 20) - Have a different approach to certain problems that now vex you and you get right results. Being broad-minded broadens your horizons. Try not to be fearful with you you love or she surely will not go along with your practical ideas.  
**IF YOUR CHILD IS BORN TODAY:** ... If you will be one of those very intelligent young people who can accomplish a good deal when alone, but others who are un dependable around can be very confidant to your privacy. Always have good friends about, but teach that much in life is unpredictable and requires a certain amount of adaptation. Calmness here.

It takes approximately three hours to weave a hula skirt, the life of which is three days.

Closed Sundays So Our Employees May Attend The Church of Their Choice

# Columnist Suggests Steaks Marinated, Cooked Outdoors

MARINATED STEAKS for a cookout.

4 hours. Save some of the sauce to serve with the slices of grilled steak.

## MARINATED STEAKS

- 2 tablespoons salad oil
- 1 clove finely minced garlic
- 1 (15½ oz.) can spaghetti sauce with mushrooms
- ¼ cup cider vinegar
- 1½ teaspoon dark brown sugar
- ¼ teaspoon black pepper
- 1 (2 lb.) round steak, ½" thick

Heat oil in skillet. Add garlic and cook until lightly browned. Add spaghetti sauce, vinegar, brown sugar and pepper. Cook gently 5 minutes. Cool. Put steak in shallow dish. Prick with fork. Pour over all meat. Cover dish and marinate in refrigerator for 4 hours or over night. Drain steak and place on grill. Baste with half of sauce and grill. Heat remaining sauce to serve with cooked steak slices. Be sure to cut steak on bias for tenderness. Makes 4-6 servings.

## Food Buying Guide

The following guide to the nation's food buys for the weekend was prepared by the Departments of Agriculture and Interior for United Press International.

WASHINGTON (UPI)—There are no fireworks this year, just a fact for good shoppers; you'll find plenty of plentiful for good eating at your favorite food store this weekend.

Among abundant meats are ground beef, roasts and steaks. Also the protein-plus in ham and eggs: both are in ample supply. Good supplies of broilers, fryers and turkeys are winging their way to market.

In your market's vegetable bins, watch for economical buys in cabbage, potatoes, carrots, onions and in some areas cucumbers.

Oranges and watermelons continue in fruitful supply, along with cantaloups and limes in some areas.

In your fish department, be on the lookout for fish fillets and steaks—both are tipping the scales in good supply this weekend.

## Woman's Luncheon

Serve them melon balls with honey fruit dressing and chef's salad made of sliced hard-cooked eggs, mixed greens, strips of cooked ham, chicken and cheese, parsley and salad dressing. Accent your meal with an assorted dinner roll basket.

Divide packages of refrigerated dinner rolls three ways. Sprinkle each group of rolls with a different topping — caraway, sesame, or poppy seeds. Bake as directed on can.

## 'Heat Lightning' Drink Offers Summer Refresher

By GAYNOR MADDIX

Steak grilled over charcoal is the perfect back yard dish. If you want a special flavor, first marinate the steak in a chef's spaghetti sauce with mushrooms overnight or for at least 4 hours. Save some of the sauce to serve with the slices of grilled steak.

For each serving, put scoop of vanilla ice cream in 12-ounce glass. Sprinkle with 1 heaping teaspoon quick chocolate-flavored mix. Repeat until glass is

¾ full. To serve, add milk to fill glass. Stir gently. Add whipped topping if desired. Eat with spoon.

## Sandwich Suppers

Open one can refrigerated dinner rolls; unroll each triangle. Prepare mixture of 1 7/8-ounce can crab meat, drained, with 2 tablespoons mayonnaise, 1 teaspoon Worcestershire sauce, salt and pepper and spread on each crescent triangle. Bake at 375 degrees for 8 minutes. Cut cheese slice in half diagonally and place cheese triangle on each sandwich. Bake remaining 5 minutes.

THE PAMPA DAILY NEWS  
THURSDAY, JULY 13, 1967

60TH YEAR

## Green Onions Add Flavor To Creamed Potato Dish

New potatoes, richly sauced, are good as is, but when thinly sliced tender green onions flavor the sauce, this vegetable dish becomes something special.

The new-style flavor is matched here with new-style preparation which eliminates separate sauce-making. When the potatoes and onions are tender, the flour is sprinkled in to mingle with the butter and flavorful cooking liquid. The double-rich evaporated milk is added, and the whole cooked and stirred to creamy perfection. This one-pot method of creaming can be adapted in the preparation of other creamed vegetables.

### Creamed Potatoes New-Style

- 1½ pounds new potatoes
- 1 cup water
- 6 tablespoons butter
- Dash of pepper
- 1½ cups sliced green onions (including green tops)
- ¼ cup flour
- 1 tall can evaporated milk (1 two-thirds cups)

Scrape or peel potatoes; cut in half if large. Place in a medium size saucepan with the water and salt. Bring to a boil, cover and boil over medium heat until fairly tender, about 20 to 25 minutes. Add butter, pepper, and onions. Cook 4 minutes

longer stirring occasionally, until butter is melted and onions are tender. Remove from heat. Sprinkle in flour a little at a time, blending smoothly. Then stir in evaporated milk. Cook and stir over medium heat until sauce is thickened. Makes 4 to 6 servings.

New chocolate frosting mix makes a fluffy product that has the texture of a marshmallow frosting. It has a light, not overly sweet flavor. A 6.5 ounce box of mix makes enough for a two-layer cake.

Flavor pimiento-stuffed olives with garlic for an interesting hors d'oeuvre. Combine 1 cup of whole large pimiento-stuffed olives, ½-cup of the olive liquid, ¼-cup of chopped onion and large clove of garlic, sliced. Chill several hours or overnight. Remove just before serving time.

When unexpected guests arrive reach for a can, jar or package of dried beef. With a can or two of milk, you can make well-seasoned chipped beef, served on toast.

## FOR SUMMER DESSERTS

## Molded Lime Salad, Apricots Add Flavor

This salad beauty is refreshingly good — and a breeze to prepare. Apricots provide gay color contrast and a tempting flavor accent for the lime gelatin base, made creamy smooth and a delicate seafoam green with double-rich evaporated milk. Creamed cottage cheese, celery and pecans are stirred in for total good eating.

### Apricot Lime Salad

- 1 can (1 lb.) whole peeled apricots
- 1 pkg. (3oz.) lime flavored gelatin
- 1 cup evaporated milk
- 2 tablespoons lemon juice
- 1 cup creamed cottage cheese
- ½ cup diced celery
- ½ cup chopped pecans

Drain apricots, saving syrup. Cut apricots in half, discarding pits. Place 6 halves on bottom of a lightly oiled 5-cup ring mold. Cut up remaining halves and set aside. Measure apricot

syrup, then add water to make 1 cup liquid. Heat over low heat to boiling. Pour over lime gelatin in a medium size mixing bowl; stir until gelatin is completely dissolved. Cool. Gradually stir evaporated milk into cooled gelatin, then stir in lemon juice. (Mixture may look curdled, but this does not affect finished salad.) Chill until mixture is the consistency of unbeaten egg whites, stirring occasionally to keep smooth. Fold in cottage cheese, celery, pecans and apricot pieces. Spoon mixture carefully over apricots in ring mold. Chill until set, 3 to 4 hours. Makes 8 servings.

Since chicken breasts cook quicker than other, thicker parts, add breast after the rest of the bird has cooked for 10 minutes or more.

## Miss Wainscott Explains Method Of Saving Fruit

Dried fruit such as peaches, apricots, and plums will keep a year so when stored in a dry, cool, dark place, according to Miss Jimmie Lou Wainscott, Gray County home demonstration agent.

To preserve fruit, select about six pounds of fresh firm fruit, wash and drain and peel if you wish. Then cut them in halves and remove pits, she said.

To prevent discoloration, soak fruit 15 minutes in a solution of 3½ tablespoons sodium sulfite to one gallon water. A druggist can supply this chemical.

"Arrange fruit on trays and place in 150 degree oven with the bottom tray three inches from the oven floor. Don't use the top unit in an electric oven. Prop the oven door open a half-inch if you oven is electric or eight inches if it is gas to let out moisture. Alternate the trays every one to two hours, Miss Wainscott said.

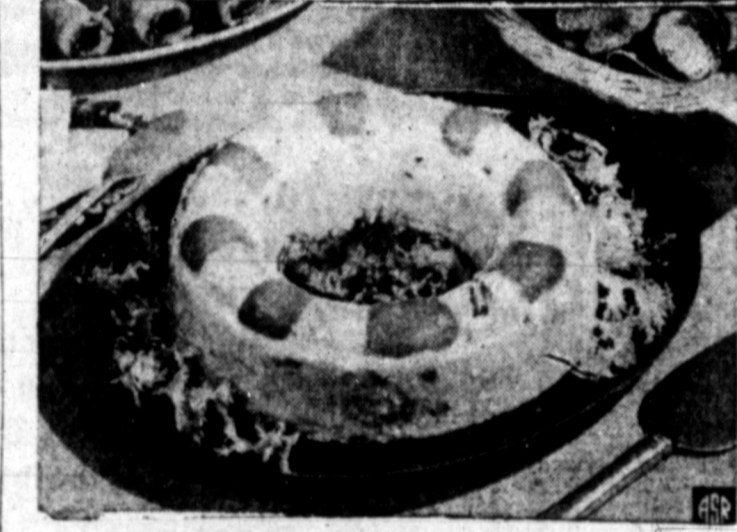

The fruit is dry when pliable and leathery. Usually about six hours is required. Pieces are dry first. Remove these as soon as they are dry.

Cool the fruit and package at once. Pack dried fruit in glass jars, plastic, metal or heavily waxed cardboard frozen food containers and use a tight seal, she suggested.

## Backyard Barbecues

Serve barbecued chicken, corn on the cob, fresh fruit salad, and hot biscuits — (keep them hot on the edge of your grill wrapped in foil) — sure to add that special touch.

General Mills buys Holly Sugar by the carload. It's available to not-so-famous Americans in 5 and 10 lb. bags.

## You, Your Child and School

By DAVID NYDICK  
UPI Education Specialist

During the next few months, many P.T.A.s will be organizing for the 1967-'68 school year. One of the more satisfying and valuable assignments is that of class mother. If you wish to be of assistance to the school while maintaining a close relationship with your child's teacher, you should consider this worthwhile position.

Actually a class mother is a parent who volunteers to assist her child's teacher with certain duties. These responsibilities might include helping the teacher on field trips and with class parties. Naturally these will vary with different schools and individual teachers. Often, the class mother will plan a tea at which the teacher and parents meet on an informal basis. You might be called upon to assist the nurse and doctor during medical checkups or perhaps in the school library. In some situations you might help with supervision during lunch periods (cafeteria and playground). Since the duties will vary you should check with the particular school which can give you an idea of what might be expected.

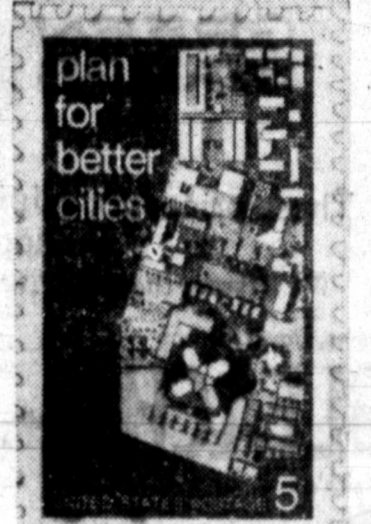

You might wonder if there are any special qualifications which are needed for this job. A friendly and pleasant personality is a must. You should have a reasonable amount of available time combined with the willingness to give this time to the school. In some cases two class mothers are appointed so that one will always be available.

If you want to be a class mother, you must realize that you are volunteering your services. Don't expect to receive special treatment in

return. It is not your job to interfere in the policies or administration of the school. You will have to work under the direction of the teacher who must remain as the authority.

It is a good idea to visit with the teacher and discuss the ways in which she wishes you to help. Don't push your way into the class. Be willing to cooperate when you are wanted. If you are interested in being a class mother, it is advisable to make this fact known to the proper authorities. The parties responsible for this can be found by calling the school office or P.T.A. president. Don't hesitate to offer your services since schools and P.T.A.s are always anxious to include people who are genuinely interested in being helpful.

## Youth Beat

THE NATIONAL REPORT ON WHAT'S HAPPENING

LIKE A NATIVE? Could be... the way U.S. teaching of languages is broadening... and more new things will be coming along (top-rated Teachers College of Columbia University tells YOUTH BEAT) during your next school years. Lots of you will keep on studying those

lingual standbys. French (mostly in the northeastern states) and Spanish (southwestern states) ... But once-overlooked European languages — Italian, Polish, even tricky Hungarian — are filling up classrooms... while Russian (with tough grammar, Cyrillic alphabet) ... after dropping on your classrooms like Spudnik a few years ago isn't spreading. NOW, Asian languages are seeping in — chiefly Chinese and Japanese... No wonder your kid brothers and sisters are starting (or will soon) to learn foreign speech sometimes as early as kindergarten... frequently by the third grade... Newest techniques are flourishing, too — those laboratories of machines, records, earphones, tapes — aiming to give you total command of a language... by tongue, ear, eye (reading), hand (writing). Uncle Sam is backing this trend... with money to develop newest techniques training of teachers. Why? — Not so you can go to those sultry foreign movies without having to read the English subtitles. More probably because the United States and other nations are getting intermeshed worldwide... they have GOT TO learn to speak to each other. It's a trend that's going to help you, since you're surging abroad — traveling, going to overseas colleges, working, the way no other youth generation has.

BOATS, BOATS, BOATS, BOATS, BOATS, BOATS: This sport is growing so widely in the United States that we may soon run out of water to float all the wave-hoppers. This month, boating time is here again. Even in northernmost New England May is the official last month to get that gallant ship to sea. Most likely it'll be an outboard (your favorite type of seagoing cockleshell). There are over four and one-half million of these in the country... Next most popular are the more than half a million inboard power boats and about

the same number of outboards (but with no engines). Terrific growth of boating — from 2.5 million boats 20 years ago to around 8.5 million this summer — stems from the fact it's sporting life for the whole family... and hauls in its wake other loves of yours in water sports — skiing, swimming, fishing, exploring and cruising. In watery United States you can keep afloat along 135,000 miles of salt coast (including bays, harbors, inlets)... or on the 110,000 square miles of fresh water (rivers, lakes big and small and even reservoirs)... However, real boating buffs will tell you... NOTHING LIKE SAIL FOR GUYS AND GALS: This season the guy who became national junior sailing champ (in the 13½-foot Blue Jay Class sloops — over 4,000 boats) when he was only 15, gave us the low-down about boating under canvas. He's Steve Moore, now a student at Dartmouth and arrived at the relatively decrepit age of 20... But he began careening with his father in sailboats at the ripe age of 1½, could handle sheet and tiller at five or six. Says it isn't necessary to start tipping a sailboat as young as this to become a crack sailor, but advises: Love sailing so you'll work at it... and if you go in for racing a lot depends on a good, smoothly-working crew. (Girls can be very popular as crew when they're good at it.) Sailboat racing is complex competition — you're not only racing the other guys... you've also got to beat an ever-changing combination of wind, water and weather.

WHEN GIRLS DEFINE A "MAN": A grab bag of bird definitions about "What is a man?" in a current national magazine, rounds up some revealing answers. See which you would endorse. The teeners generally agreed a "man" is someone "mature" whom a girl can "rely on"... Probably significant? Several opined he's a necessary animal who's hard to track down. Sort of sad? Two submitted giggles: "A man can drive a car — this means he's a man"... Oh, so silly? One last one — "A man is a male who is trying to reach goals in life and doing his best at it while taking into consideration the feelings of others"... Pretty good, maybe — for anyone!

—By Ralph Hartell

### Longhorns Now Vanishing Breed

By JAMES T. YOUNG  
AUSTIN (UPI) — The famed Texas Longhorns — once king of the range and always ready to prove it — are now cheered age and mass production of fat by tourists and used in celebrations.

But, with the advent of the jet age and mass production of fat slaughter cattle, the Longhorn is lucky just to be around. The days have long passed when 10 million of the lanky cattle roamed Texas in the late 1800s. There are only 3,200 left, and they too would probably be gone if man had not stepped in and preserved them.

A typical example of the surviving Longhorns — a cross between Spanish fighting bulls and domesticated cattle of the cowboy days — is the 78 in the herd kept by the Texas Parks and Wildlife Department. It began in 1941 after the late Sid Richardson, a wealthy Fort Worth oilman, decided something had better be done to protect the survivors of the once proud breed. The state accepted 11 cows

and one steer and placed them at Lake Corpus Christi. They were moved around a bit in following years and now are mainly kept at Fort Griffin State Park in West Texas.

Some Donations  
The Fort Griffin herd now numbers 72, thanks to the donations from such spreads as the Y. O. Ranch at Kerrville and the strength of the surviving cattle. J. G. Phillips Jr. and Son Ranch at West Columbia recently reported a 28-year-old Longhorn cow just weaned her 24th calf. Numerous other ranches have herds that would leave the state crop in the shade.

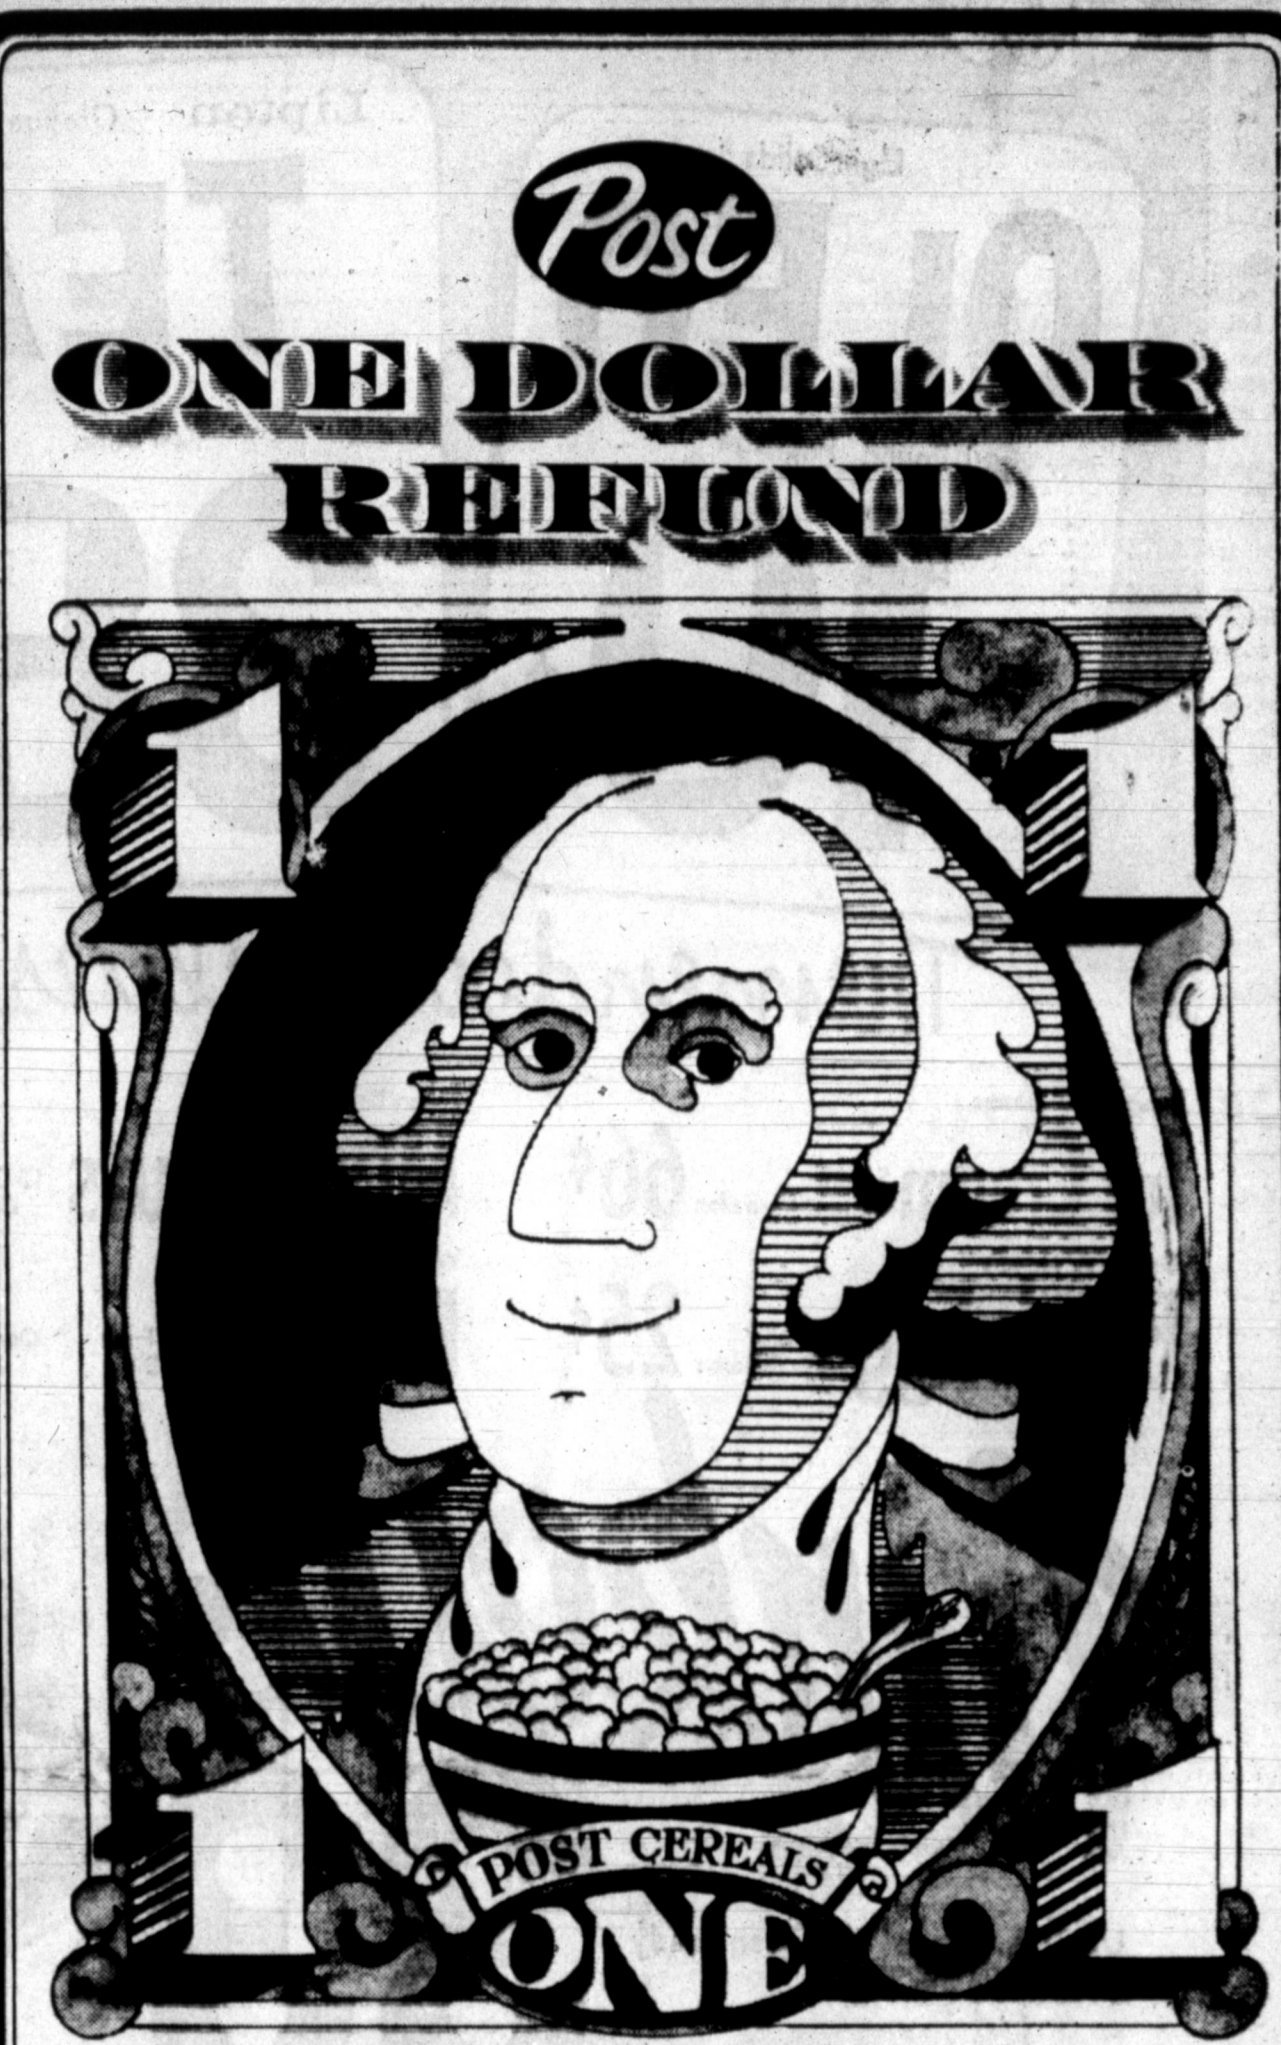

FALSE ALARM  
BRAWLEY, Calif. (UPI) — Police rushed to a super market Tuesday in response to a burglar alarm attached to a pay telephone coin box only to discover the alarm was bogus. The officers discovered the alarm had been triggered by insects which had crawled into the coin return.

OUT OF SEASON  
CHICAGO (UPI) — Circuit Court Judge Saul A. Epton, who resorted to newspaper advertisements Monday to complain of no air conditioning in his North Boys Court, was told Tuesday he would get the air conditioning, costing \$30,000 — but not until autumn.

FABRICATORS  
PARIS (UPI) — Two false teeth makers — or as they would prefer to be known, prosthetists — ended a six-day hunger strike here Tuesday after the ministry of social affairs promised to determine an official title for their craft.

90TH YEAR

## Organized Packing Could Save Time on Weekend Summer Trips

By HELEN HENNESSY  
Newspaper Enterprise Assn.  
NEW YORK (NEA) — Wouldn't it be a wonderful timesaver not to have to wait for your luggage to come down the ramp at the end of a plane trip?

for a short trip can neatly fit into a tote that can be kept with you on the plane. Heavy items like shoes, a travel iron and extra purses are packed into the bottom of the bag. A hosiery, jewelry and handkerchief roll and inflatable hanger can be packed inside the shoes.

A coordinated sportswear outfit consisting of slacks, shorts, skirt and blouse and an additional outfit of skirt with pants underneath and a matching blouse are placed in a plastic-lined tote bag by rolling each garment for wrinkle-free packing. Pajamas, travel robe, slippers, intimate apparel and swimwear should also be rolled.

A plastic-lined cosmetic bag snaps into the side of the tote. Such items as gloves and magazines can be packed into the accessible outside pockets. And a travel umbrella easily slips through the outside straps.

It may take a little practice on your part, but with summer and weekend trips not far off, a water melon would sure be a joy to travel with.

PACKING EXPERT — Beth Frantz, packing expert for a luggage manufacturer, displays more than 60 items, including everything you need for a short trip. She even includes iron, which fits into the bottom of the bag shown.

## Dear Abby

by Abigail Van Buren

DEAR ABBY: Please come to our rescue as soon as possible! The terrific heat, which requires that we keep our windows open, plus our "problem," make things unbearable.

A very lovely, cultured, retired lady in our neighborhood "practices" the piano every morning, afternoon, and evening. She owns a fine grand piano whose tone carries great distances. Although she practices most of the day, she never seems to improve. We know every note of every piece she practices, and have even come to know when to expect the wrong notes.

We can't ask her not to play so loudly, or to keep her windows closed, or she would be offended. And we can't close ours. The newsboy who delivers our paper, delivers the same paper to her, so she must read your column. Please publish this. She is too nice to hurt, but we are suffering.

SILENT SUFFERERS  
DEAR SUFFERERS: You have my sympathy. But have you ever considered how lucky you are that this lady doesn't study voice, with a penchant for opera?

DEAR ABBY: We were four girls and two boys brought up in a Jewish home, so we never had ham, bacon, or pork in our house. Now that we are all grown and married, none of us has preserved the dietary customs, but our parents do. I must admit, mama and papa are very broad-minded about our liberal attitude.

My oldest sister has a beautiful home, and when she has mama and papa over she serves them a dairy dinner, but she always puts a big pork roast on the table for everyone else.

Mama and papa have never said anything, but I know they are hurt.

I once told my sister I thought she was out of line to put pork on the table with mama and papa there, and she said, "I'm no hypocrite. We have pork in

this house, and they know it, so why hide it? Besides, in MY home I'll serve whatever I like."

I still think my sister is wrong. Or am I?

THE YOUNGEST  
DEAR YOUNGEST: Your sister is not only wrong, she's childish, disrespectful, and mean. She's trying to show contempt for the old traditions and at the same time let mama and papa know that she's her own boss now and can do as she pleases. But she doesn't have to hit them over the head with a pork roast to make her point.

DEAR ABBY: I have been married for 30 years. I am 52 and believe me, Abby, there is nothing wrong with me. I'm refined, educated, and nice looking. People tell me I look like 40. I go to gym and keep my self fit. I don't want to sound like a bragger, but I could take a job as a topless waitress if I wanted to. Enough about me. My problem is my husband. He wants a divorce. He says he doesn't have anybody else, he just wants to be free. I think he is lying, but I can't catch him. We have grown children who think he is crazy. They don't want me to give him a divorce. I am ashamed to say this, but I still care for him and can't throw 30 years of marriage out the window. Am I wrong to refuse to give him a divorce?

HANGING ON  
DEAR HANGING: No.

"Troubled?" Write to Abby, Box 69700, Los Angeles, Calif. 70069. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet "How to Have a Lovely Wedding," send \$1 to Abby, Box 68700, Los Angeles, Calif., 90069.

When working with yard goods where the right side is difficult to distinguish from the wrong side, mark the sides with tape.

## Senior Citizens Honored in Party

LEFORS—Lefors Senior Citizens were honored with a patriotic party recently in the civic center with the Tops Club as sponsors.

Mrs. Jo Ann Fenno directed the program and introduced a group of youths who sang "America The Beautiful" and "America." Norma Robbins read the first three paragraphs of Declaration of Independence. Mrs. Fenno read the preamble to the constitution and a copy of the Declaration of Independence was distributed for guests to see.

Singing in the group were Paula Wall, Wyatt Fenno, Debbie Barron, Debbie Sailors, Ricky Sailors, all of Lefors; Buddy Lewis of Amarillo, who is spending summer with Mr. and Mrs. Bert Smith, and Troyce Wall of Pampa, who is visiting with Mrs. Hazel Wall.

Bill McAninch and Mrs. Helen Cobb won door prizes. Ten citizens attended.

Hostesses were Mrs. Thelma Roberts, chairman, Mmes. Mary White, Stella Klein, Norma Robbins, Alma Cumberledge and JoAnn Fenno.

## Groom Girls Attend 6-Week Charm School

GROOM—Over a six-week period, 12 high school girls here have been taking a charm school directed by Mrs. April St. John at the Groom school building.

Mrs. St. John is a representative of the Robert Spence School of Charm and has previously done modeling in Europe and New York.

Graduation for the class was a modeling session recently at Blackburn's Tea Room in Amarillo.

Attending the course were Theresa Brishel, Sandra Kotara, Beverly Boyce, Georgia Clark, Kathy Jones, Jane Hudson, Celia Ledwig, Margaret West, Billie Ruth West, Anita Wieberg, Janet Ledwig and Janie Britten.

## Altrusa Club Outlines 1967-68 Program, Initiates New Member into Organization

Mrs. Genevieve Henderson, co-chairman of Altrusa Club information committee, initiated Mrs. Dick Sullins into the club Monday during the group's meeting at the Coronado Inn.

Mrs. Marian Jameson, one of Mrs. Sullins' membership sponsors, presented her with the Altrusa pin.

Mrs. M. Q. Wilson, vice president and program co-ordinator, announced an outline of programs for 1967-68 year, which began July 1.

Mrs. Wilson told the club Altrusa International has selected the theme, "Fit the Need to the Deed," to be used by all clubs in planning their programs.

Altrusa information committee's slogan is "Knowledge Is Power," Mrs. Wilson said.

Pampa Altrusans plan to study international relations and emphasize the importance of friendship on the international level.

During the year Altrusans here plan to organize an international picnic for the 50 international Americans living in Pampa, will present a special "grants-in-aid" program, and have the foreign exchange student as a guest speaker.

The club's vocational services committee will present programs on "Founders Fund," a way for women to be trained or retrained in a profession; distribute information on "It's A Woman's World," assist the

handicapped by helping them find jobs in the community and will conduct the annual career clinic.

The community service committee plans programs on a "Challenge of Crime in a Free Society," safety, Truteens programs and services and Senior Citizens' projects.

Membership and classification committee will stress continued membership growth.

The parliamentary plans a program on parliamentary procedure.

The next club meeting will be at 7 p.m. July 31, at the home of Mrs. Thelma Bray, who will host an outdoor covered dish supper.

## POLLY'S POINTERS

Pre-Planned Meals Make Camping Fun

By POLLY CRAMER

Newspaper Enterprise Assn.  
DEAR POLLY — I have a suggestion for families who may be planning camping vacations. Camping means three meals a day, often cooked on a camp stove. So I used to have an awful time planning a day-to-day variety. Now I anticipate this by saving recipes all year-round that I think can be prepared on a camp stove. By vacation time I have a two week's supply of "one-pan" meals. Several meals are planned completely with canned foods so that finding a grocery store is not a daily crisis. I also buy most of the canned goods we

will need before leaving home, which saves time and money when traveling. Before we leave camp in the morning I check my recipe cards, put things I need in a hamper, note whatever I may have to buy and am ready for the day. Noon and evening meals can be prepared without any last-minute problems or shortages.

—MRS. R. J. L.

Polly's Problem  
DEAR POLLY — My electric outlets are all a tan color and are very soiled. I wonder if anyone can tell me how to clean them.

—LILLIAN

DEAR POLLY — Do tell Mrs. E. M. that her plastic dish pan probably gives way in the center bottom because the drainage part of the sink causes the trouble. I keep a rubber mat underneath my dish pan to cushion this vacuum and have no such trouble.

—MRS. C. C.

DEAR POLLY — After having several plastic dishpans break in the center, I began to wonder if the weight of the water and the dishes pressing against the little gadget that holds the water in the sink had caused the trouble. I bought a round rubber suction cover, such as is used over a sink drain to hold the water in when there is no turn off, and put this under my dishpan. These little covers usually have a small extra handle-like piece at the top, which must be shaved off so the pan can set flat against it.

—MRS. R. E.

You will receive a dollar if Polly uses your favorite home-making idea, Polly's Problem or solution to a problem. Write Polly in care of this newspaper.

# FOOD FOR THOUGHT

"Why is it a man wakes up in the morning after sleeping under an advertised blanket on an advertised mattress, pulls off advertised pajamas, bathes with advertised soap, shaves with advertised cream and razor, eats a breakfast of advertised cereal and coffee, puts on an advertised suit and hat, rides to work in an advertised car and then refuses to advertise his business, saying advertising doesn't pay? And then, if business is really bad, he advertises his store for sale?"

# Judge Backs Youths' Right To Long Hair

ADELAIDE, Australia (UPI)—Australia's youngest state premier recently upheld the right of youths to "wear hair down to their knees" if they want to whatever bewigged judges may say.

Don Dunstan, 40-year-old premier and attorney general of South Australia, sided with his state's chief justice, Dr. J.J. Bray, in a hairy controversy with fellow Supreme Court Justice Leo Travers.

Bray, a bachelor and newly appointed chief justice, said no court had the legal right to tell a defendant to get a haircut or put on a coat or tie.

"People are entitled to wear their hair down to their knees if they want to or dress according to their fancy, short of indecent exposure," he said.

Travers took issue.

"Any people with hair down to their knees and dressed according to their fancy who wish to attend court other than in custody would do well to choose their court," Travers said. "If they select mine, their stay is apt to be brief and possibly even somewhat unpleasant."

Dunstan came out in support of Bray.

"The fact that someone may choose to wear his hair differently from the manner expected by people desiring that everybody should exactly conform is not a matter for the courts," Dunstan said.

"I do not consider it disrespectful for the courts that people may choose to dress in a manner not the same as members of the bench."

"On ceremonial occasions, Supreme Court judges and the attorney general are required to wear full bottomed wigs. This began when the only proper, expected and respected way for man to wear his hair was in long ringlets round his shoulders."

# 16 LAWYER SAYS YES Romney Ineligible To Run for President?

By RAYMOND M. LAHR WASHINGTON (UPI)—Is Mexico born George W. Romney eligible for the White House? No, says a government lawyer who dug into his law books and came up with the conclusion that the Michigan governor's birth in Chihuahua disqualifies him for presidency.

This dissenting opinion, which filled five closely printed pages of the Congressional Record last month, came from Pinckney G. McElwee of the Veterans Administration's legal department.

The product of McElwee's research was inserted in the Record by Rep. John Dowdy, D-Tex., "to shed whatever light it merits" on the question of Romney's eligibility.

There is a question because the Constitution requires that a president be a "natural born citizen" of the United States, a term the Constitution does not define.

Romney is the son of American citizens but was born in 1907 in Mexico, where his parents had fled because of hostility toward Mormonism, their religion. The family later returned to the United States.

McElwee wrote that the language of the Constitution must be interpreted with reference to the English common law, with which the authors of the Constitution were familiar.

"At the time of the adoption of the Constitution, under the common law, the terms native born citizen and natural born citizen were synonymous," he said, "but the customary usage was to refer to such type of citizenship as 'natural born' instead of 'native born.'"

He argued that American citizens either are native-born or naturalized.

"Mr. Romney was born an alien and was naturalized automatically by act of Congress," McElwee said. "The U.S. naturalization law as it existed at the birth of Mr. Romney, declared him to be a citizen. He is, therefore not a 'natural born citizen' but is a 'naturalized citizen.'"

Some students of the Constitution are convinced that American citizens born abroad are eligible for the presidency and that the framers of the Constitution would have said "native born" if that is what they meant.

# London Bridge Falling Down And For Sale

LONDON (UPI)—London Bridge is falling down in its service, and is for sale.

A spokesman for the Corporation of the City of London said today the 136-year-old span across the Thames River would be sold if anyone wants to buy it.

A new bridge will replace the old span in 1970.

The current London Bridge isn't the nursery rhyme bridge that was always falling down. That was one with houses on it in Medieval days. It was pulled down for the current bridge in 1832.

The spokesman said the present bridge is still structurally sound. But he said it just is not adequate to carry the traffic.

The spokesman said cities in North America or even on the European continent might be interested in buying the old London Bridge.

But, he said, "We are not doing a hard sell on this."

# Young Whooper Dubbed 'Mutt'

SAN ANTONIO (UPI)—Until a better name comes along, "Mutt" the whooping crane is doing just fine, thank you.

The young whooper, hatched from captive parents and the newest member of a tiny flock of the majestic birds in captivity, continued to grow today, was eating regularly and chirping contentedly, the director of the San Antonio Zoo, Fred Stark, reported.

"Mutt" is one of the names the zoo's bird curator, James L. Chism, has given the bird hatched last Saturday, until that day in the future when somebody can tell what sex it is and give it a more proper name.

# Rotary Club Hears Report on Israel

Rev. Dan Cameron, pastor of the First Baptist Church in Pampa, spoke on Israel and the Arab Republics recent defeat at the hands of the Jews, before the Pampa Rotary Club yesterday in the Coronado Inn.

The speaker, who spent the summer of 1960 in Israel as a guest of their government, showing color slides of his visit to that country.

In other business, Dr. H. DeWitt Seago, the new pastor of the First Methodist Church, was inducted into the club. He was introduced by Travis Lively, Sr.

**WHAT BIG EYES you have, grandma! Which may be the reason this creature is called a "Big-eye" fish.**

The United States is not alone in its problems with a growing rate of suicides. In fact, the U.S. is far down the list, in figures compiled in various countries showing comparisons over a 10-year period. Suicides have gone up in all but three of the countries studied—Austria, Japan and Italy. One of the most striking features in the worldwide upsurge in suicide is that, with few exceptions, the largest increases were registered among young persons.

# Wall Street Chatter

Wall Street Chatter  
NEW YORK (UPI)—E. E. Hutton & Co. Inc. suggests the Dow Jones industrial averages now at a minor resistance level, though it is not expected to be much of a barrier to an advance with other market statistics now doing better than this indicator. "As it has been all year," the analyst says, "the bulk of the market remains far stronger than the average."

Taking all factors into consideration, Graham Loving & Co. comes to the conclusion the market is now seeing a "miniature version of the great base formations" preceding most "major... bull markets." The investment firm's opinion is that the market is about to make a "sharp upside rally" leading to new recovery highs.
