APPROVE \$16,000 BOND ISSUE HERE

Immediate issuance of \$16,000 in bonds for water and sewer extension work was authorized in a resolution passed Wednesday by the city commission.

The \$16,000 was an unissued portion of a \$70,000 bond program voted by the city in 1942, when water and sewer work was necessary for the bombardier school. The unused part was not needed at the time, but now will be used to finance necessary water and sewer main work in various parts of the city.

The bonds carry a 2 per cent interest rate. Retirement of the \$16,000 can be done without changing the present tax rate, it was said by City Manager H. W. Whitney.

The commission Wednesday heard a proposition for erection of three-way “sandwich-type” advertising boards on the city parking meter standards, and referred the matter to the chamber of commerce special advertising committee for a recommendation.

The proposal was made by J. C. Loper, former Big Spring resident, who represents the Meterad Corp., and who said that spaces on the advertising boards would sell for \$1 per month per space (minimum of 25 to an advertiser); that his company would handle all installation and sales, and that the city would collect 30 per cent of the gross. He said that sale of all space on all meters in the city would represent a gross of \$1800 per month.

The commission deferred for further study of maps a decision on granting a lease in a corner of the city park near the entrance to Leonard Lyon for construction of a radio transmitter. Lyon recently obtained an FCC permit for a station in Big Spring, requested a lease some ten days ago and negotiations were approved. The commission may take action on the matter at a special session today.

Big Spring Postal Receipts Show Hike

Local postal receipts for the month of May amounted to a robust \$11,993.89, compared to \$8,340.65 for May, 1948. It has been disclosed.

Intake for all of 1949 aggregates \$39,055.82, an increase of \$8,539.95 over the first five months of 1948.

Economy-Bent Senators Silent On Pension Plan

\$13 Million Slash By Appropriations Group Acclaimed

WASHINGTON, June 2. (AP)—Senators trying to get some steam behind an economy drive had little to say today about a veterans pension bill overwhelmingly approved by the House.

Instead the senators applauded action of their appropriations committee in whacking off nearly \$13 million cash from operating funds voted by the House for the State and Justice Departments.

The Senate expenditures committee, too, recalled Budget Bureau officials for testimony on plans to lop off from one to more than three billion dollars from President Truman’s spending plans.

By a 365 to 27 roll call vote, the House quickly stamped approval yesterday on a \$72-a-month pension to be given World War I and II veterans when they become 65 years old.

Lucas said the bill probably will go to the Senate Finance Committee which normally handles such matters. Its fate there is uncertain. Chairman George (D-Ga.) will be away from the Senate for two weeks and any decision as to hearings or other Senate action will await his return.

Republican Floor Leader Wherry of Nebraska and GOP Policy Committee Chairman Taft of Ohio, who have been big guns in the economy efforts to date, told reporters they must study the pension bill before deciding what they propose.

The pension bill would assume that any veteran is totally and permanently disabled at 65 years. That would remove a present standard which denies a pension to the 65-year old veteran who can work half a day, or earn half a normal day’s pay.

The veteran’s administration now requires a medical test showing at least 10 per cent disability before the old veteran gets the \$72 monthly pension.

The bill also would allow a single veteran to earn up to \$1,200 a year and receive a pension, now denied if he earns \$1,000 or more. No change is made in the \$2,500 income limit for a veteran with dependents.

Local Postoffice Sports New Clock

A time clock used at the local post office for more than 20 years has been retired in favor of a new one with smarter design.

The one used previously was ordered during J. H. Ward’s tenure as postmaster. He served here from 1922 to 1928.

Chinese Nationalist Armed Forces Reported Pulling Out Of Tsingtao

NANKING, June 2. — Semi-official sources said today Chinese Nationalist Army and Navy forces were abandoning Tsingtao.

The old German built North China port was the last government holdout in North China. Only yesterday Chinese government news reports claimed a great “victory” there.

These same sources said the United States Navy definitely had abandoned Tsingtao as a base for the Western Pacific fleet. A Shanghai U. S. Navy source said he had been out of touch with Tsingtao but that the report likely was true.

Tsingtao has been isolated on land by the Communists for months. Apparently the Reds have moved in on the Tsingtao defense perimeter.

Gunfire was audible yesterday in the Shantung Peninsula port. Likely the Communists will walk in unopposed shortly.

(At Canton an old warlord, Yen Hsi-Shan, was nominated for premier of the Nationalist government. Yen, once ruler of Shansi Province, has the support of Acting President Li Tsung-shan and the Kuomintang (government party). He would succeed Premier Ho Ying-Chin, who resigned.

(The only other new war report was that the Communist on the south-central front were withdrawing from Changshu toward Nanchang. It came from government sources.

(Changshu is about 150 air miles east of Changshai, which is on the Hankow-Canton railway about 400 miles north of the provisional capital of Canton.)

NAMED IN MEMO—Miss Ruth Gruber, former Interior Department worker who was cited in secret data presented in espionage trial of Judith Coplin in Washington, sits at her typewriter in her home in Brooklyn where she denied knowing of or about Miss Coplin prior to the latter’s arrest. (AP Wirephoto)

Water District Bills Nearing Last Hurdle

Water district bills, affecting Big Spring and Odessa, were nearing the last hurdle today.

Rep. R. E. (Peppy) Blount told the Herald from Austin that HB 903, which he introduced to permit cities to do business with water districts, had been engrossed and enrolled.

He said he had checked it and turned it over to the speaker for his signature, which would send the measure to the governor. Blount said this likely would be concluded Friday unless the House adjourns until Monday.

House bill 757, which creates a water district for Big Spring and Odessa, has cleared and is ready for the governor’s action. The same status stands for the bill which creates the 118th district court composed of Howard, Martin and Glasscock counties.

Rep. Blount was optimistic over chances for the \$4,225,000 appropriation for the expansion of the Big Spring State Hospital. He said he was encouraged over prospects for the amount after talking with Ray Kilpatrick, chairman of the appropriations committee in the House. The Senate has approved that amount for expansion of the hospital here.

Local Building Is Damaged By Blaze

A building occupied by Western Insulating Co., 207 Austin street, was damaged by fire at about 6 p.m. Wednesday, city firemen reported.

Most of the damage to the building was confined to the roof and to electrical wiring, while some materials stored in the building were consumed. Firemen attributed the cause to a cigarette.

Cotton Planting In Howard County Is Almost Completed

Howard county farmers are due to complete the job of planting an all-time record cotton crop within the next few days.

An estimated 120,000 acres of cotton will have gone into the ground, some of it for the third or fourth time.

The cotton situation for the county is, for the moment, very spotty. In some sections, good stands are in evidence while in others, the seed has been blown out or beaten down.

Seed has been difficult to obtain, even at \$20 a hundred pounds, who delinquent pedigreed seed is selling for at the present time.

If all goes well, however, the cotton business is going to be booming like it never did before this fall. Last year, an estimated 100,000 acres was put in cotton but a large portion of it was later planted in grain.

John Walter Holley, 80, Succumbs At Home Of Son Here

John Walter Holley, 80, who leaves survivors in five generations, died here Thursday.

He passed away at the home of a son, R. L. Holley, 1001 Wood, shortly after 6 a. m. today.

AEC Is Accused Of Clearing Poor Risks

West, Russia At Odds Over Kommandatura

Soviet Minister, However, Hints At Possible Agreement

PARIS, June 2. (AP)—The Western Powers and Russia still were at odds today over reviving the four-power Kommandatura for Berlin, though agreed in principle that the divided city should be united under a single governing body.

Yesterday they split on a western proposal to limit exercise of the veto power in the four-power body. Today the western ministers weighed a vague Soviet hint that the Russians might agree to trim the Kommandatura’s area of Authority.

Western representatives at the foreign ministers conference—spearheaded by U. S. Secretary of State Dean Acheson—insisted firmly on modification of the old rule that all decisions of the Kommandatura must be unanimous agreement. This rule, in effect, armed each of the four members with veto power.

Acheson, British Foreign Secretary Ernest Bevin and French Foreign Minister Robert Schuman urged that unanimity be required only for major issues. They proposed that majority rule be adopted for secondary decisions.

Russian Foreign Minister Andrei Vishinsky insisted that the Kommandatura retain unanimity rule. At yesterday’s meeting, however, according to French sources, Vishinsky said the Kommandatura’s functions might be re-examined.

Sawtelle Entry Wins Announce Selection Of Centennial Seal

Selection of an official seal for the centennial of the discovery of the spring, for which this city is named, was announced Thursday afternoon.

Lee Milling, chairman of the seal committee, said that the winning entry was submitted by Gilbert Sawtelle, Jr., son of Mrs. G. G. Sawtelle, was selected from a field of approximately 40 entries. A cash award of \$25 goes with the honor.

The seal committee named an anonymous committee to judge the seals, which were identified only by numbers. The committee then announced the results.

Other entries, considered outstanding by judges, who told the committee it was most difficult to select from several after eliminations, were submitted by:

Robert W. Cook & B. K. Edens, Olen Puckett & Bill French, Mrs. Robert E. Lee (2), B. P. Lovelace, Holt Shumake, Bernice Cason (2), Anna Haney, Gary Dale Nichols, Katharine Eirod and Clyde Cummings.

The selection is a circular design with the story of the area in 1849 and 1949 depicted by Signal Peak, the most prominent landmark, the spring, refinery smokestacks, head of a steamline train, cotton burl and an unfinished building to denote continued growth.

Sawtelle is a freshman student at Texas A. & M. College, and a graduate of Big Spring high school.

Big Spring Water Consumption Is Greatly Increased

Water consumption in Big Spring has increased heavily during the past two days, City Manager H. W. Whitney reported this morning.

Tuesday figures amounted to 4,031,000 gallons, the highest of the season, while Wednesday consumption totalled 3,687,000 gallons. The aggregate of the past two days represented a substantial increase over previous records for this year. Total consumption during the month of May was 72,151,000 gallons, as compared to 99,838,000 gallons for the same period in 1948.

SECRETARY OF STATE DEMOCRATIC EXECUTIVE COMMITTEE SUCCUMBS

CORSICANA, June 2. (AP)—Tom L. Tyson, 44, secretary of the State Democratic Executive Committee, died of a heart attack at 7:45 o’clock this morning.

A power in Texas Democratic and Baptist circles, Tyson suffered a heart attack at his Corsicana home and died five minutes later.

The stocky, personable Tyson was permanent chairman of the state Democratic convention in Fort Worth last September.

He had been a strong supporter of both Franklin D. Roosevelt and Harry L. Truman.

Tyson was born in Calvert, Robertson County, Aug. 12, 1904, and served two terms as Robertson County attorney. He had lived in Corsicana since June 14, 1937.

At the bedside when Tyson died were his wife, a law partner, Matt Dawson and a neighbor, Mrs. J. J. McCoin.

Tyson had been ill since a heart attack three weeks ago. He was taken to a hospital then but had recently been returned to his home.

He was appointed secretary of the State Democratic Executive Committee by State Chairman John C. Calhoun of Corsicana, shortly after the September state Democratic convention.

Tyson was a man of many affiliations. He was a member of the board of Mary Hardin Baylor Col-

TOM TYSON
He called this violating the atomic energy law with “brazen effrontery.”

Procedure Is Called Violation Of Atomic Law

Lilienthal Retorts All Persons Undergo FBI Investigation

WASHINGTON, June 2. (AP)—Sen. Hickenlooper (R-Iowa), accused the Atomic Energy Commission today of letting 3,280 persons have access to atomic information, or work around secret projects, without a full FBI check first on their loyalty.

He called this violating the atomic energy law with “brazen effrontery.”

Hickenlooper said the commission granted “emergency clearance” (without full investigation) to restricted data or restricted areas in 1947 to 818 persons, in 1948 to 2,103 and has granted 338 thus far in 1949.

He said that in 1947 there were 419 others given emergency clearance but not to restricted data. “We did not give any similar figure for the other years.”

AEC Chairman David E. Lilienthal retorted that all of the persons so cleared had undergone some FBI investigation and the procedure “is a matter of difference of judgment between Hickenlooper and those who have responsibility for getting things done.”

“Our judgment was neither arbitrary nor whimsical,” Lilienthal said. “We believe it to have been sound.”

Hickenlooper raised this issue when the Senate-House Atomic Committee went into its second day of hearings on his charges of “incredible mismanagement” in AEC affairs. He demands that Lilienthal be fired.

Lilienthal declared that all persons had some kind of “screening” by the FBI before being granted an emergency clearance.

Hickenlooper has said that he believes the overwhelming majority of those cleared on an emergency basis were loyal and patriotic Americans.

Lilienthal said he was glad to note Hickenlooper’s comment in that respect since the list included emergency clearance for such people as Gen. Eisenhower.

Lilienthal added that he was sure Eisenhower “will be relieved.”

San Angelo Schools, Theaters Closed As Polio Cases Mount

San Angelo, Tex., June 2 (AP)—Mounting polio cases prompted officials to close schools, swimming pools and movie houses in this West Texas city today.

The number of polio cases reached 81. There have been three deaths. Dr. R. E. Elvins, city health officer, has declared polio is at an epidemic stage here.

Closing of the public places, including churches, was ordered by the city commission this morning. A C-47 from Goodfellow Air Force Base here made a quick round trip to Charlotte, N. C., last night to get 24 hospital cribs and four hot pack machines to set up a new polio ward in a local hospital.

The summer recreation program scheduled to begin Monday was postponed. Retention encampment of civil air patrol cadets at Goodfellow also was cancelled.

Both Reuther Shootings Blamed On 'Well-Heeled' Conspirators

DETROIT, June 2. (AP)—“Well-heeled” conspirators, says Victor Reuther, tried to kill him and his brother, Walter.

But whose purposes they were serving he doesn’t know.

From a hospital bed, Reuther yesterday gave his ideas in his first police and press interviews since he was shot at his home the night of May 24.

The results, however, were evidently of little material help in the week-old investigation.

Police Commissioner Harry S. Toy ordered the roundup, directing raids on the underworld by virtually his entire 4,000-men force.

At Henry Ford Hospital nearly 40 minutes was spent with Reuther by Prosecutor Gerald K. O’Brien, Chief of Detectives Jack Harvill, and Senior Detective Inspector James J. Maher.

Later, in a talk with reporters, Reuther said:

“The similarity between my brother’s shooting and my shooting convinces me that it was part of a well-organized plot by a well-financed crowd.”

For the interview Victor was propped up in bed. His missing eye was bandaged. His mouth swollen from stitches in his tongue.

He disclosed he had lost a portion of his tongue from the shotgun blast.

The 37-year-old union official was asked if he thought Communists tried to kill him and he repeated: “I don’t know. I am convinced it was a well-organized group and well-heeled.”

Reuther said he felt this way because \$117,000 in rewards offered in Walter’s shooting had induced no one to talk.

END OF AN OIL TANK—An oil tank explodes in a mass of flame and smoke during a fire which still blazed at the Searle Petroleum Company in Omaha, Nebraska. An estimated half million gallons of oil was destroyed as at least eleven huge storage tanks exploded. (AP Wirephoto)

Vacation Church Schools Attract Some 500 Youngsters During Week

With some 500 youngsters, varying in age from 4-15 years, now enrolled in the four vacation Bible schools now in progress and, at least, eight more schools planned for the remainder of the summer. Big Spring churches seem to be practicing the sermon, "bring up a child in the way he should go."

work period, some of the boys are making blocks for the church nursery, and the girls are making laundry bags and jewelry cases out of cigar boxes. A family picnic is set for this afternoon. Commencement exercises are scheduled for Friday. A mission offering is taken each morning.

special program and open house will be held on June 10. "My Home and Family" is the topic for the Kindergarten study; "Friends at Home and In The Community" is the Primary study; and "Friends That Work," the Junior study. For the intermediate study, "Exploring The Bible," students are divided into groups which take various phases of Biblical study. Groups include: the historical guide, library guide, fine arts guide and the newspaper and radio guide.

Eager Beavers Elect Officers On Wednesday

Mrs. A. F. Johnson was elected president for the ensuing three months at the business meeting of the Eager Beaver club in the home of Mrs. D. D. Johnston, 600 E. 16th, Wednesday afternoon.

First Presbyterian children are studying the church. Various topics are being discussed by the different departments including: Beginners, "Happy Times In Our Church;" Primary, "This Is Our Church;" Junior, "Our Church And How It Grew;" Pioneer, "The Story Of Our Church;" Mrs. A. Porter is superintendent of the two-weeks school, which began Monday and will continue through June 10. There will be an informal closing program on the last Friday night of the school.

Mrs. W. D. McNair is dean of the First Christian Bible School which has enrolled some 55 pupils. Sessions began Tuesday and will continue through June 10 with classes from 4-6 p. m.—each day except Saturday and Sunday. Juniors are studying "Followers of Jesus;" Primary pupils, "Child Life In Bible Times;" Beginners "Our Happy World" and Nursery pupils, "Learning Through Experiences with The Family."

Members attending presented the hostess, Mrs. Johnston, with embroidered quilt blocks for a friendship quilt. Handwork comprised the entertainment and refreshments were served.

Need a really cold glass of water to help beat the heat of a summer day? We have just the thing for you. General Electric scientists have super-cooled water to 71 degrees below its so-called freezing point without changing its form.

Coming to the rescue with a week or two-weeks of construction activities for children out of public schools for the summer, the planned varied programs for their annual vacation sessions with an attempt to put greatest emphasis on the spiritual. Most of the sessions include recreation, Biblical and religious study courses, crafts and a study of community and world needs. Usually some constructive project is completed by the groups.

GOOD TEAMWORK

Most of us know some person who is never completely well and yet there seems to be nothing the matter with them as far as medical science can tell. They are very careful of their diet, they say, and eat just like a bird, by the peck. They are usually the owners of a large medicine cabinet and carry around a pill box with a variety of colored pills. We're not sure it's true, but we hear that some people are so insistent that they be well stocked in medicine that doctors are almost forced to supply them with harmless pills just to keep them quiet. Included in this group are any number of "nervous wrecks."

Those attending were Mrs. Pat Harrison, Mrs. W. C. Carr, Mrs. Cecil D. McDonald, Mrs. Merle J. Stewart, Mrs. Clifford P. Brownell, Mrs. Ward Hall, Mrs. R. B. Reeder, Mrs. Paul Darrow, Lucille Hester, Mrs. J. D. Jones, Mrs. Harold Parks, Mrs. S. R. Nobles, Mrs. Jake Bishop, Mrs. Roy Carter, Mrs. M. E. Doley, Mrs. A. C. Moore, Mrs. Ruby Martin, Mrs. R. E. Satterwhite, Mrs. Lewis Murdock, Maryle James, Mrs. G. L. James, Mrs. B. M. Keese, Bobby Joe McMillan, Mrs. R. D. McMilland and Mrs. Emma Lee Baber.

The Summer sun-ensemble — done so smartly with a cool shoulder-strap dress, a button-up bolero — jacket in the new waistline length. Note that the bodice of the dress is beautifully fitted — and the jacket is too!

Announcement is made that the Happy Stitches Club will meet in the home of Polly Sundry, 604 Scurry, at 2 p. m. Friday.

tonio, formerly of Big Spring, will conduct the revival services at the Church of Christ beginning June 5th and continuing for eight days. Morning services will be held at 10 a. m. and evening services at 8 o'clock.

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Million of Kidney Tubes Flush Out Poisonous Waste

When disorder of kidney function permits poisons to remain in your blood, it may cause sagging, headache, rheumatic pain, loss of sleep and energy, and the up night, swelling, puffiness under the eyes, headache and dizziness, frequent or scanty passages with burning and stinging sensations above there is something wrong with your kidneys or bladder.

Mr. and Mrs. Jimmy Hager and Donna of Pecos were week end guests in the home of her parents, Mr. and Mrs. S. C. Cowley.

Philathea Class Luncheon Is Held Wednesday Noon

Mrs. S. R. Nobles, Mrs. J. D. Jones and Mrs. Harold Parks were hostesses at the monthly luncheon at the Philathea class in the First Methodist church Wednesday.

Mrs. Reynolds Is Bridge Hostess In Garden City, Other News Notes

GARDEN CITY, June 1. (Sp) —Mrs. Clyde Reynolds entertained the Afternoon Bridge club in her home Wednesday afternoon. Mrs. Son Powell scored high and Mrs. Lester Ratliff, second high. Glenn Riley and Mrs. W. K. Scudday dined. Refreshments were served by the hostess to Mrs. Lester Ratliff, Mrs. David Glass, guests and Mrs. I. L. Watkins. Mrs. Son Powell, Mrs. Jim Neal, Mrs. Glenn Riley and Mrs. W. K. Scudday.

Dazzles Neighbors

Cecil McDaniel went to Winters Tuesday afternoon to visit his sister, Elva Fay McDaniel, who will return home with him.

Mrs. Buel Fox Given Breakfast

Mrs. Dan Conley entertained Mrs. Buel Fox, who is leaving shortly for Wichita, Kas., at a breakfast in her home, 1411 Lancaster, Wednesday morning, with Mrs. D. S. Riley as co-hostess.

Intermediates Go To Carlsbad

First Baptist Intermediate Department members of the BTU took a trip to Carlsbad Caverns over the weekend. Sunday, they visited the First Baptist Church, Carlsbad, N. M.

Jesus Is Crucified And Buried, But Rises Again

Scripture — Matthew 27:57-61; Mark 15:42-47; Luke 23:26-47; John 19:31-42.

By **NEWMAN CAMPBELL**

In our day, a criminal condemned to death is given a few weeks, usually, before the execution. Then he is given a meal of his favorite foods, chosen by himself, before the sentence is carried out.

Even in Jesus' day in Roman law it was ordained that 10 days should intervene between the passing of a capital sentence and its execution. Either this law did not hold in the provinces, or Jesus was judged to be outside the scope of its mercy. At any rate, the Master was hurried straight from His judgment seat to the place of execution.

Insults were offered to the Lord as He walked down the road to his death. Those who were conducting Him to Golgotha (the Place of Skull), ordered a stran-

ger—a Cyrene, Simon by name—to bear the cross.

"And when they came unto the place which is called The Skull, there they crucified Him." Two men—criminals—were also crucified with Him, one on each side. Over Jesus' head was hung a placard in Hebrew, Greek and Latin reading "This is the King of the Jews."

"And they that passed by, railed on Him, wagging their heads, and saying, Ah, Thou that destroyest the temple, and buildest it in three days, save Thyself, and come down from the cross."

The chief priests who had brought about His death by their hatred and vindictiveness, also mocked Him, saying to one another, "He saved others, Himself He cannot save."

Hanging there in agony, the Lord prayed, "Father forgive them, for they know not what they do."

One of the malefactors who was executed with Jesus said, "If Thou be Christ, save Thyself and us." But the other answered him saying, "Dost not thou fear God, seeing thou art in the same condemnation? And we indeed justly; for we receive the due reward of our deeds; but this Man hath done nothing amiss."

And he said to Jesus: "Lord, remember me when Thou comest into Thy kingdom."

Turning to him, Jesus said: "Verily I say unto thee, Today shalt thou be with Me in Paradise." Even on the cross, Jesus saved a man from his sins.

The soldiers in charge of the execution were busy dividing the Lord's clothes among them, and they cast lots for them—gambling for the Lord's sacred garments.

"About the sixth hour there was a darkness over all the earth

until the ninth hour," and Jesus was no longer visible to watchers. He had not forgotten His mother in His suffering. He called to John, the beloved disciple, and gave her into his keeping.

At the ninth hour Jesus cried with a loud voice, "Father, into Thy hands I commend My spirit," and Luke tells us, that having said this, "He gave up the ghost."

"And, behold, the veil of the temple was rent in twain from the top to the bottom; and the earth did quake, and the rocks rent, and the graves were opened; and many bodies of the saints which slept arose."

The centurion in charge of the Roman soldiers who performed the execution, was amazed at the darkness and earthquake, and "glorified God, saying, Certainly this was a righteous man."

Jesus may well have thought during His arrest and trials, that He had no friends on earth; but now He had left the world, one influential man—Joseph of Arimathea—went to Pilate and begged permission to take the Lord's body to pay it honor and give it burial.

Permission was given, so "Joseph took the body, and laid it in his own new tomb and wrapped it in a clean linen cloth." He rolled a great stone against the tomb's door and sealed it, for now it was time to prepare for the Sabbath Day.

"But on the first day of the week, at early dawn, they came unto the tomb, bringing the spices which they had prepared. And they found the stone rolled away from the tomb. And they entered in, and found not the body of the Lord Jesus. And it came to pass, while they were perplexed thereabout, behold, two men stood by them in dazzling apparel; and as they were frightened and bowed down their faces to the earth, they said unto them, Why seek ye the living among the dead? He is not here, but is risen: remember how He spake unto you when He was yet in Galilee."

MEMORY VERSE
 "The Lord is risen indeed."— Luke 24:34.

HERE IS MORE **Proof** From Your Texas Neighbors **THAT YOU CAN TAKE OFF Ugly Fat**

IT'S SIMPLE. IT'S AMAZING, how quickly one may lose pounds of bulky unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barcenterate. Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonfuls twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose bulky fat

and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. You don't have to starve yourself; eat sensibly according to instructions on bottle. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel. More alive, youthful appearing and active.

NOTHING HARMFUL IN BARCENTRATE
 Barcenterate is the original grapefruit juice recipe for taking off weight. No starvation diet. No diet list to pay for. No vitamins to fortify you against hunger for you won't be hungry. Ask your doctor about the Barcenterate formula. Barcenterate contains: Sassafras, Oregon Grape-root, Senna Leaves, Prickly Ash Bark, Cascara, Magnesium Sulphate, Saccharin, Sodium Benzoate. **LOWEST IN PRICE—HIGHEST IN RESULTS.**

OVER ONE AND THREE-FOURTHS MILLION BOTTLES SOLD IN TEXAS

LOST 70 POUNDS
 "I have gotten wonderful results taking Barcenterate," writes Louise Beaman, Brookston, Texas. "When I started I weighed 220 pounds. I now weigh 150, a total loss of 70 pounds. I feel 100% better and am glad to recommend Barcenterate very highly to anyone."

NOT A HUNGRY MOMENT
 Mrs. W. J. Burns, 2823 Falls Drive, Dallas, Texas, writes as follows: "I gladly recommend Barcenterate to anyone overweight, because it has proven such a wonderful thing for me. No dieting and no hard drugs. I was overweight, felt sluggish and ran down. I have already lost 7 pounds and I never had a hungry moment. I feel Barcenterate a grand tonic. I now keep my weight normal with Barcenterate."

22 POUNDS GONE
 "I want to recommend Barcenterate to anyone who is overweight," writes Mrs. E. L. Reed, 1911 Howard Street, San Antonio, Texas. "Since taking Barcenterate I feel like a different person. I lost 22 pounds. I also had a gall bladder condition that bothered me. Since taking Barcenterate, the trouble is completely relieved. The wonder I praise it as mighty."

48 POUNDS LOST
 Mrs. Myrtle Thompson, 924 South Hampton Blvd., Dallas 11, Texas, writes as follows: "I highly endorse Barcenterate for reducing and for good health. The very first bottle helped me to lose weight. I have kept my weight down from 184 pounds to 136. I have not dieted a day since I started taking it. I eat my rich foods I want and don't gain a pound while taking it. I also find it a good medicine for constipation and gas on stomach. Keeps my weight down and I never go hungry."

NO STARVING
 "I am well pleased with Barcenterate," writes Mrs. H. O. Rogers, Route 2, Box 227, Sherman, Texas. "I lost 20 pounds but will keep on taking it for my health's sake as I feel so good and I don't go without any of my favorite foods."

LOST 20 POUNDS
 "I am middle aged and weighed 158 pounds before taking Barcenterate," writes Mrs. Gordon Bryant, 1439 South 13th, Waco, Texas. "I have lost 20 pounds and feel that it is a sure way to keep my weight down."

LOST 36 POUNDS
 "Before taking Barcenterate I weighed 180 pounds. I now weigh 144. I find that it keeps me regular and removes bloat. I have never felt out of stomach from my diet, but taking Barcenterate, I do not desire so much heavy food. I have tried different reducing aids, but found Barcenterate the most satisfactory. I am going to keep on using it until I have lost another 10 pounds." Signed: Helen Sawyer, 2802 East Dallas, Fort Worth, Texas.

LOSES 18 POUNDS
 "I have lost 18 pounds since I started taking Barcenterate," writes Mrs. Irene Barnes, 713 Houston Street, Fort Worth, Texas. "I am still enjoying Barcenterate in the safe way to get rid of extra pounds. It is not necessary to go hungry. You can eat three meals a day and still lose weight. I feel so much better since I lost some of those extra pounds."

NO DIETING
 Mrs. E. F. Malvey, 1600 Avenue H, Beaumont, Texas, writes as follows: "Barcenterate has helped me so much. I have lost 20 pounds without dieting. I feel so much better and I would not be without it. I shall always praise Barcenterate."

YOUNG MEN ARE NEEDED

Coal Mining Offers Higher Pay Than Other Industries

By M. D. COOPER
 Director, Mining Engineering Education, National Coal Association
 Bituminous coal is found in more than half of the 48 states of the Union, and the mining industry is second only to agriculture. During recent years, the average annual production of bituminous coal in the United States has been more than 300,000,000 tons.
 Good pay attracts men and, in coal mining, earnings are ahead of those in other industries. The United States Bureau of Labor Statistics reported that, in October 1948, average weekly earnings of coal miners were \$78.50.
 Planning the operation of mines calls for originality. Old plans are considered only for details. New ideas are used to operate mines with mechanical equipment, more safely, at lower cost per ton, and with greater recovery of coal per acre. This calls for young men able to plan, without being hampered by tradition.
 After plans are made, mines must be operated. Again, young men are needed. Old men do not easily change their ways. They are used to performing work as it has

been done, and it is difficult for them to believe that new ideas are better.
 There, young men, active and enthusiastic, are adapted to mechanized mining, and most mines are rapidly changing from old methods to new. Electrically operated machines are being installed as fast as they can be manufactured. Loading machines, shuttle cars, cutting machines, belts, locomotives are being set to work in large numbers.
 For years, "Safety First" has been a slogan. Now it is more. Every new method is analyzed from the standpoint of safety before it is adopted. Mining machinery is equipped with safety devices before it is considered complete. Safety education has been carried through all modern mining organizations. Records of safety show improvement, year after year. But the safety job is not yet finished. Young men are needed to provide new ideas and carry them out so that in time the industry may be the safest in the country.
 To work in an essential industry is attractive, in addition to good pay. Many people think of water power as important in the industrial life of the country. It is, coal, however, is more important. Salesmen are needed in large numbers, especially those trained in fuel engineering. They should be versed in the composition, characteristics, and location of the various beds of coal, and in the combustion of fuel with the maximum use of heat units. They will be leaders by the nature of their work in the movement to eliminate air pollution.
 Research offers employment to those interested in coal and its possible uses. There are research laboratories maintained by individual

gifts or by grants from corporations at the colleges and universities, and within the industries—all engaged in extending the boundaries of knowledge of coal. Teaching mining offers opportunities. In the colleges, there are places for qualified men. Likewise, in the high schools, elementary mining may be taught as part of a science course or a more extended course may be given to those students who intend to go directly into mining from high school. Only a few schools offer such instruction and, as it ought to be available in high schools in coal mining districts, the opportunities for teachers ought to be increasingly good.
 The manufacture of mining machinery is increasing rapidly, and the companies producing such equipment are so far behind in filling orders that there are possibilities in that field.
 In engineering, operating, research, teaching, sales, and manufacturing, the coal mining industry offers opportunities for interesting work at good pay in the production of a commodity essential to the maintenance of a high standard of living.

 THE ORIGINAL SELF SERVICE

Guerrillas Claim Victory in Grammos

LONDON, June 2 (U) — Greek guerrillas claimed a "major victory" Wednesday in the Grammos Mountains. The guerrilla radio said as a re-

sult of 11 hours fighting which ended near dawn Monday "the key position of Patomata" was captured, with 291 government troops killed and 177 taken prisoner.

America's first colored glass was made by Evert Duyckinck of New Amsterdam, on Manhattan.

Out-Of-County Registrations Increase

Out-of-county registrations, a growing problem elsewhere, is less of a situation in Howard county this year.

This year registrations increased by about 1,000 at deadline time, reflecting a return home for many who had registered automobiles elsewhere.

Several counties over the state have been exploring the possibility of action against vehicle owners who fail to register in the county of residence. Most of these have an ad valorem tax angle involved. Some are weary of losing road and bridge fund revenues.

Under the law, counties keep the first \$50,000 collected in automobile registration fees. They get 40 per cent of the next \$125,000 or a maximum of \$50,000. All over that goes to the state.

Naturally, counties receiving less than their maximum allowable are interested in obtaining fees to which they are entitled. Officials have heard reports of a few instances where counties falling under the \$50,000 mark making concessions in fees to enrich coffers.

Compounding the problem is the tendency of some to register out-of-county to escape ad valorem levies. A few have the notion that foreign tags will get courtesy rather than regular traffic tickets. A few cities have gotten around this by noting the consistency with which, foreign numbers appear on traffic records. Better still, larger places issue tags to all alike.

The state highway department is interested in enforcement of the

law, too, for diversion of fees from counties over the maximum into sub-minimum counties deprives the state of that much revenue. The obligation to aid in roads in the smaller county is still incumbent upon the state.

Collection of ad valorem taxes on automobiles is haphazard at best. Unlike real property which is subject to effective tax foreclosure because it cannot be moved, automobiles may be sold or moved before cumbersome legal machinery gets into action.

Some states have solved this riddle with laws which require ad valorem tax receipts be presented before the automobile can be registered. At half the actual value, some such regulation would mean

the equivalent of between \$2 and \$3 million in additional assessed values with prospect of collection.

Churchill Hopes Third World War May Be Averted

LONDON, June 2 (U)—Winston Churchill said Wednesday he has a growing hope that "we may avert forever the horrible vision of a third world war."

"There was a time in 1935 and 1936 when I used to hear—in the famous lines—'ancestral voices prophesying war,'" said the wartime prime minister.

"But now I am thankful to say

I do not hear those voices." Churchill spoke at a ceremony in which he was made a freeman of the borough of Kensington.

Lemon Delight Beverage

Ingredients: 3 tablespoons butter, margarine or vegetable shortening, 1/2 teaspoon salt, 1/4 cup sugar, 1 1/2 cups flour, 2 eggs (separated), 1 cup milk, grated rind and juice of 1 lemon.
Method: Mix fat, salt, 1/4 cup of the sugar, and the flour together well. Add the egg yolks, milk, lemon rind and juice, and beat with a rotary beater or electric mixer until smooth. Beat the egg whites until stiff and then beat in the remaining 1/4 cup sugar in small amounts; fold into first mixture. Pour into a 1 1/2 quart casserole, set in a pan of hot water, and bake in a moderate (350°) oven about 45 minutes. 6 servings.

STRAWBERRY SALAD—A luscious treat!

Strawberry Festival Season Is At Hand

By CECILY BROWNSTONE
Associated Press Food Editor

"If it's women you're entertaining while strawberries are in season they'll enjoy that luscious fruit in a salad; if there are going to be men around you might combine the berries with rice to make a favorite pudding. Here are the recipes for both dishes:

STRAWBERRY SALAD
Ingredients: 2-3 cup mayonnaise, 1/2 cup cream (whipped), 1/4 teaspoon mint extract, 1 tablespoon pineapple juice, 1 tablespoon confectioners' sugar, 1 quart strawberries, 3 or 4 bananas, juice of 1/2 lemon, 1 can pineapple chunks (chicory).
Method: Fold mayonnaise into whipped cream along with mint extract, pineapple juice and sugar; chill. Meanwhile wash and hull strawberries. Peel and cut bananas into finger lengths and dip in lemon juice. Drain pineapple. Line bowl with chicory, pile strawberries in center, arrange banana fingers on one side and pineapple cubes on the other. Heap mayonnaise mixture on strawberries or pass in separate bowl. 6 servings.

STRAWBERRY MERINGUE RICE PUDDING

Ingredients: 1/4 cup uncooked rice, 2 cups milk, 2 eggs 1/4 cup sugar, 1/4 teaspoon salt, 1/4 cup sugar, 1/4 cup water, 1 tablespoon lemon juice, 1 cup sliced strawberries, 6 whole rawberries.
Method: Add rice to milk in upper part of a 1 1/2 quart double boiler and cook over hot water until rice is soft, or about 50 minutes. Separate eggs; beat egg yolks until very thick and light colored. Gradually beat in one-quarter cup sugar and the salt. Add egg yolk mixture slowly to rice and stir constantly. Continue cooking for about 2 minutes. Mix three-quarters cup sugar and water in saucepan; cook until mixture spins a thread, about 2 1/2 F., on a candy thermometer. Add syrup slowly to stiffly beaten egg whites. Continue beating meringue until mixture is thick. Beat in lemon juice. Reserve about a third of the meringue for topping. Add rest of meringue and sliced strawberries to custard mixture. Pour into six 6 1/2-ounce heat-resistant glass custard cups. Top each pudding with a spoonful of the meringue and a fresh strawberry. Chill until ready to serve. 6 servings.

STRAWBERRY PUDDING—Combines rice and meringue.

Rice In Texas Hash Makes It One-Dish Meal
The dictionary defines hash as being "a mixture; a jumble; a mess." And sometimes hash is all three of these, but not so with Texas Hash. It is a mixture all right, but if it qualifies as a "mess" it is a delightful mess. 2 large onions, sliced; 3 green peppers, sliced; 3 tablespoons shortening; 1 lb. hamburger; 2 cups canned tomatoes; 1 cup cooked rice; 1 teaspoon chili powder; 1 teaspoon salt; A dash of pepper.
Preparing the Fluffy White Rice: Put 1 cup of white rice, 1 teaspoon salt and 2 cups cold water in a two-quart saucepan. Cover with a tight-fitting lid. Set over a hot flame until it boils vigorously. Then reduce the heat as low as possible and simmer for 14 minutes more. During this time the rice will absorb the water and come out deliciously tender. Remove the lid to permit the rice to steam dry. Lift the rice with a fork to test its consistency. Never stir rice while cooking—and the grains will be separate and tender. Makes approximately 3-1 1/2 cups fluffy white rice. Keep left-over cooked rice in a covered bowl in refrigerator—you'll find it handy next time you're in a hurry to fix a quick meal.
Method: Melt the fat in a skillet, add the sliced green peppers and onions and cook until tender. Add hamburger and cook until there is no pink left in the meat, stirring with a fork to break up the meat into crumbles. Add tomatoes and rice and seasonings. Arrange in a greased baking dish and top with bread crumbs. Brown slowly in a 350 degree oven. Four good servings and makes a meal.

Elks to Santone

SAN ANTONIO, June 2 (AP)—The 24th annual convention of the Texas State Elks Assn. opens here today. More than 500 members are expected to attend.

Feeding A Husband Is Summer Problem

NEW YORK—One reason why so many American men have dyspepsia is that their wives feed them a summer diet of boiled ham and a potato salad snatched from the corner delicatessen on the way home from the bridge party.

So says Louis Diat, famous chef of the Ritz Carlton Hotel, author of two best-selling cook books and a regular contributor to gourmet magazines.

There is nothing wrong with a cold buffet for summer dining, says Mr. Diat, but it should be prepared with care and imagination, and it should be served with at least one hot dish.

When it's a question of making a cold buffet appealing to both the eye and the palate, the veteran chef is unsurpassed. It was he who invented Vichyssoise, that creamy cold soup now famous all over the world and served in all self-respecting French cafes.

Mr. Diat believes that American women would be better hostesses if they would approach their cooking with imagination, interest and an eye for artistic effects.

A few simple garnishes, for instance, can turn an ordinary cold plate into a gourmet's delight, says he. One of the best tricks to glamorize cold fish or meat is to serve it coated with aspic. This is what gives that beautiful expensive looking glaze to cold dishes served up at gilt-edged eating places. It's simple, says Mr. Diat, if you do it right. First you make your aspic, using a clear bouillon or broth and gelatine. Let it cool until it just begins to jelly. Then take your cold salmon, chicken or what-have-you out of the ice box. Be sure it is thoroughly chilled. Quickly pour the aspic over it. The aspic will jelly almost instantly as it touches the cold food. Put the whole thing back in the refrigerator until time to serve. Then arrange it tastefully on a platter with appropriate colorful garnishes and listen to the applause of family or guests.

Another simple and effective garnish, nice to add glamor to a stuffed tomato or chicken salad, is grated hard-boiled egg mixed with finely minced parsley. (Chefs call this "mimosa.") Sprinkle it over the top of the salad and you

have a work of art. Here are some recipes that Louis has worked out for this summer's menus at the Ritz Gardens, any or all of which could make a reputation for any Main Street cook:

AVOCADO PASADENA (to serve 2): Mix 1 cup crab meat, 1 tablespoon chopped tomato, 1 tablespoon green pepper, 1 tablespoon tarragon vinegar, 1/2 teaspoon chopped chives, 3 tablespoons mayonnaise, 1 tablespoon chili sauce and 1/2 teaspoon Worcestershire sauce. Fill peeled halves of avocado with mixture. Place a slice of tomato and a slice of ripe olive on top.
TOMATO SURPRISE: Peel a ripe tomato, remove center and let juice drain out. Stuff with diced celery and apple mixed with mayonnaise. Serve on lettuce leaves.

COQUILLE A LA RITZ: The "coquille" is a large plastic crab shell now on the market. Fill the shell with salmon salad made by your favorite recipe. Coat with creamy salad dressing or mayonnaise. Place slices of hard-boiled egg mixed with finely chopped parsley. On each side place the cooked meat of a lobster claw, coated in aspic jelly.

CHEF SALAD CARLTON: Mix chopped lettuce, thin strips of chicken, ham, tongue, and Swiss cheese with water cress and French dressing.
COLD LOBSTER NEW ENG-

LAND: Boil medium size lobster 20 to 25 minutes in vegetable stock. When cold, split in two lengthwise. Remove meat from tail and claws. Dice and mix with tomato (greenish liver substance in body of lobster). Put in bowl and add 1 teaspoon each chopped chives, parsley, tarragon and chervil, if available. Mix with one tablespoon chili sauce and two tablespoons mayonnaise. Fill the half shell with the mixture and decorate with strips of pimiento, anchovy fillet and capers. Coat the whole with aspic jelly and serve with mayonnaise.

OUR DEMOCRACY

EAT PLENTY AND TAKE OFF UGLY FAT

When you buy Baronette, you buy a preparation for taking off weight. You do not pay for any artificial diet or for vitamins to fortify you against weakness while on a starvation diet. You need never know a hungry moment while taking this preparation. Baronette is the original grapefruit juice recipe for weight reduction. Just go to your drugist and ask for four ounces of liquid Baronette. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two tablespoonfuls twice a day. That's all there is to it. If the very 8th bottle doesn't show you the simple, easy way to take off ugly fat, return the empty bottle for your money back.
Lost 56 pounds
Here is what Mrs. J. J. Bryant, P. O. Box 26, Whitewright, Texas, wrote me: "I want to tell you what Baronette has done for me. I weighed 165 pounds when I started taking it. I now weigh 110. I have taken my dress size down from size 36 to 24 and never felt better in my life and everybody says how much slimmer I look than I did. I am still taking Baronette as I want to get my weight down to 105 or 100 pounds."

Edward's Love For Wallis Almost Overthrew Empire

By RICHARD KLEINER
NAE Staff Correspondent

Play a little soft and sentimental music, Maestro, while we relive one of history's most unbelievable romances.

The love of Edward (by the Grace of God, King of Great Britain and Ireland and of the British Dominions beyond the Seas, Defender of the Faith, Emperor of India; for Wallis Warfield shook a government and gave the world a few breathlessly thrilling days. In short, it was a humdinger of a story.

A gloomy America was fighting the blue despair of the depression in the mid-1930s when it began to perk up as the first trickle of rumors about the King and the Divorce reached across the Atlantic.

Rumors about the handsome Edward and various ladies were common, but this one was different. In the first place, Edward was no longer just a Prince, but a full-fledged, responsible King. And, in the second place, he had been seeing the striking brunette for some time.

America began to do some checking on Wallis Warfield, the girl who might—but that's fantastic—become Queen of England. They found she came from Baltimore, that her family traced itself back to William the Conqueror, but that their fortunes had taken a turn for the worse and their once fashionable home was being run by Wallis' mother as a boarding house.

Her schooling was paid for by a rich relative, Uncle "Sol" Warfield, a railroad president. With

36 other debutantes, she made her bow at the Bachelors' Cotillion in Baltimore in 1914. Two years later, she married a young naval aviator, Lt. Earle Spencer, Jr.

The Spencers separated in 1922, and were divorced in 1927. The next year, she married Ernest Simpson, who was in the shipping business in London.

Soon, the society columns in London began to note that the Simpsons were pretty popular with the gay Prince. They were his guests at Fort Belvedere, outside London, for week-ends; they were seen in the Royal Box at Covent Garden; they dined together in restaurants; they were constant companions on the Riviera. Always, the three of them.

The Prince became King on the death of George V on Jan. 21, 1936. On May 27, the Simpsons were guests at a dinner in St. James palace. In August, however, when the King took his first vacation on the yacht, Nahlin, in the Adriatic, only one Simpson was invited. Wallis went, but Ernest Simpson didn't.

The American press carried news of that cruise, but not the British. The story of Edward and Wallis had gone underground, by a voluntary censorship. English papers failed to note the news from Ipswich on Oct. 27, that Mrs. Wallis Warfield Spencer Simpson had won an uncontested divorce.

Behind the scenes in England however, there was considerable stirring. Led by Prime Minister Stanley Baldwin, the staid English were trying to talk the King out of his intention to marry Wallis. Their objection was not based on

her being an American. It was her two divorces that rankled. They felt that the King, as Defender of a Faith that refuses to remarry divorced persons, would not appear to his religious subjects as married in the eyes of God if he went through with his plans. He would be a King living in sin, and she would not be a Queen worthy of respect.

The English people, too, had no quarrel with Mrs. Simpson as an American. But they visualized her as a night clubber, not quite Queenly timber. They probably wouldn't have minded had her relationship to the King become simply the historic role of "friend."

But a stubborn King held out against an equally stubborn group of advisers. Then, the advisers decided to let the English people in on the secret, early in December 1936.

Headlines shrieked the astounding story to a shocked Britain: "THE KING WANTS TO MARRY MRS. SIMPSON. CABINET ADVISES 'NO!'" Government securities sold off sharply. The pound declined in Paris. The coronation which had been scheduled for May, 1937, was postponed. There were parades, pro and con, rallies, pro and con, and speeches in the House of Commons, almost exclusively con.

Baldwin gave the loveless and determined King 48 hours to think over his ultimatum—give her up or abdicate.

At first, Edward said, sternly, "I will brook no interference in my personal affairs." But he thought it over and came up with a compromise. He suggested a "morganatic" marriage, meaning that Wallis wouldn't be Queen nor would any children have any claim on the throne, but she would be his legal wife.

Baldwin studied the offer, but ruled that English law did not recognize a marriage of that type.

Edward was faced with four choices, at this point: he could abdicate; he could continue opposing Baldwin, hoping for his resignation, but the House of Commons was steadfastly backing the Prime Minister; he could give Wallis up; or he could seek to govern without Parliament, thus becoming a dictator.

Then Wallis, the cause of the furor, took matters into her own hands. Angry and embittered, she fled from England to seek peace on the Riviera. Besieged by reporters, she issued a statement: "I am willing... to withdraw from a situation... both unhappy and untenable."

But Edward wouldn't have things that way. On Dec. 11, 1936, he decided to abdicate the throne. In a quivering voice, he told a world that stopped work to listen to his words: "I have found it impossible to discharge my duties as I would wish to do without the help and support of the woman I love."

That night, he boarded the HMS Fury, and sailed from England. A story that Hollywood, in its wildest flights of fancy would have never dared to present, had come true.

Wilson Predicts U. S. Production Upturn In 1951

ATLANTIC CITY, N. J., June 2. — Charles E. Wilson, president of General Electric Co., predicted Wednesday the nation's industrial production will be rolling along at a high level again by the end of 1951.

"There's nothing permanent about the current decline in output, Wilson said, and it won't be very drastic."

The General Electric president estimated the slackening may continue until about the second quarter of 1950 before it turns upward. But by the end of 1951, he said, industrial production may again reach the high level of 1948.

He anticipated a slackening of about 15 per cent from the fourth quarter of 1948 through the second

quarter of 1950 and he gave three reasons why he felt it would not be more drastic than that.

"We lack the great speculative excesses in such areas of our economy as inventories and the stock market which featured the 1920, 1929 and 1937 setbacks," he said.

"Adjustments in the form of curtailed production, reduced prices and inventory control are already well along in some industries."

"The large and increasing volume of government expenditures for security and construction, government support of farm prices, and the anticipated federal deficit should cushion the decline."

He made his prediction at the second session of the Edison Electric Institute's three-day 17th annual convention.

Mother's Blood Stops Arthritis

By HOWARD W. BLAKESLEZ
Associated Press Science Editor

NEW YORK, June 2. — The blood of mothers who have just had babies has stopped rheumatoid arthritis, cruelest of all forms of rheumatism.

This was reported to the seventh International Congress on Rheumatic Diseases Wednesday, by Dr. L. W. Granit, of New York.

The relief, he said, was temporary but lasted sometimes from three to twelve weeks. Stiffened joints eased, pain and swellings went down.

The cause of this form of rheumatism is unknown, but in a Mayo Clinic report yesterday there was a possible explanation for the effectiveness of mother's blood.

The Mayo doctors and five other American medical centers have treated 20 persons with this form of

arthritis, using a newly discovered hormone from the adrenal glands. Everyone got better.

Like those of mother's blood, they got better only temporarily, although one woman has been practically well for four months. The Mayo and mother's blood work together because during pregnancy woman produces more hormones.

At the Mayo Clinic one reason for trying the hormone was the known good effects of mother's blood. Blood carries all the hormones the body makes.

The new hormone is called Compound E, a discovery of Dr. Edward C. Kendall of the Mayo Clinic.

In the entire world, the Mayo men said, there is now only enough of this hormone to treat 20 human beings. Merck & Co., Rahway, N. J., manufactures it, and hopes by next

year to have enough to treat some thousands. The making is partly synthetic, including 30 chemical steps, and at present quantity production is not possible.

Agreed Policy Of Welfare Units Might Increase Effectiveness

During the war years demands upon welfare agencies for aid, particularly that to migratory population, fell to a low ebb.

Most people then were gainfully employed if they wanted to work at all. Being a "floater" during war times automatically branded a person as just that. He or she got not much sympathy and even less help.

But things have and are changing rapidly. During the last year the curve has shot upwards on the percentage of the population that is shifting. As always, the vast majority of the migrants are in marginal brackets. They embark in the hopes of securing enough funds enroute to get to some fixed point. A lot of these are "professionals" who find a satisfactory living off this public in this manner. Some are in desperate financial straits and deserve as well as need some special consideration.

Whose job is it to take care of them? At the moment there is no clear-cut understanding among welfare agencies and service organizations. As a result, applicants go from one to another, telling tales. They go to the public with tales of how they have been refused. Most of the time these are assaults on the truth and for the purpose of arousing indignation where sympathy fails.

Because the problem is going to worsen instead of better, and because there is the matter of giving succor to those who are our own legal and moral responsibility, it seems to us that it would be a wise thing if welfare representatives could begin serious discussions of coordinating the work. If some clear-cut definition of policy could be formulated, the work would be made more effective for every agency, and the shifting malcontents would be robbed of much of their ammunition.

Universal State Thesis Is Indicative Of False Ideas

By now most people realize that the Communist subscribes to a doctrine of world domination.

Dorothy Thompson, one of the nation's most brilliant political analysts and a student of international affairs, has enunciated this principle again in a recent article. She says, in effect, that Communists recognize but one fatherland, the Soviet Union. Moreover, they hold to the thesis that there will never be any peace until there is universal Communism. That means, in practical sense, that the ultimate aim is world supremacy for Russia—the mecca for Communism.

There is another thesis advanced by a man, who is perhaps the greatest historian of this age. He is Arnold Toynbee, whose monumental "A Study of History," has caused wide discussion and commanded respect and attention.

Toynbee fits civilizations into a pattern. It is simply that great civilizations, which are computed in hundreds if not thousands of years, arise out of a challenge, flourish on response, and collapse when response wavers.

Then certain things happen, he says. A "time of troubles" ensues—a time of internal struggle and foreign wars, which more and more take the form of world wars. This period is terminated only when one nation, among its distracted fellows, delivers a knockout blow to all its rivals and becomes the "universal state."

Universal states, which look strong, are one of history's great illusions, according to Toynbee. He finds that it is almost invariably a symptom that the civilization it represents is far gone in decline. Schisms appear in the body politic and "savours" from the dominant minority arise. They are characterized by their failure to save. And the universal state collapses.

If there is anything to Toynbee's theory—and he has considerable history to support it—the "universal state" philosophy of Russia is indicative that it is pointing toward a blind alley. That seems to us to be no more intelligent than the reputation idea that the state and not the individual is what matters.

Affairs Of The World—DeWitt MacKenzie

Chances Of Achieving Political Unity At Paris Already Are Lost

THE BIG FOUR FOREIGN MINISTERS' council in Paris seems no closer to substantial agreement between Russia and the western powers than it was when it started 10 days ago. In fact the conference has lost much of the atmosphere of amiability in which it opened.

The only worthwhile possibility that appears at the moment is some sort of economic unity between the eastern and western zones of Germany. The chances of political unity already have gone down the drain-pipe.

Soviet Foreign Minister Vishinsky last week gave his customary "no" to the proposal by America, Britain, and France that the Russian zone of Germany form a political union with the new federal republic comprising the three western zones. Then yesterday he proposed that the Foreign Ministers' Council invite a delegation from the Communist-dominated "German people's congress" of the Soviet zone to appear before it.

THE "GERMAN PEOPLE'S CONGRESS" has adopted a constitution for a "German democratic republic." The idea of the delegation appearing before the council was to advocate that western Ger-

many join the "German Democratic republic."

The Western powers voted down Vishinsky's proposal. They contended the people's congress isn't really representative of all Germany, as it claims to be. So Vishinsky got an echoing "no."

This projected eastern zone republic is to be a totalitarian regime like those of the other satellite states. Should there be a union between the communized "German democratic republic" and the federal republic of the western area, the Red zone would provide the spearhead for the attempted Communization of the other three zones. For that reason Moscow would jump at the chance to make such a union, and by the same token the Western democracies will keep as far away from it as possible.

THIS A REVIVAL OF ECONOMIC RELATIONS seems to offer the only likely ground for agreement. In any event, that ground probably will be surveyed.

"But," somebody asks, "doesn't all this mean a continuation of the Cold War?"

It certainly does! We are just entering a new phase of it, that's all.

Today And Tomorrow—Walter Lippmann

M. Vishinsky's Default At Paris Indicates Kremlin Back-Tracking

Contrary to what was expected, M. Vishinsky has not seized the initiative at Paris by offering the Warsaw Declaration. He has not come forward as the champion of German political unity, a strong central German government, a peace treaty, and a withdrawal of the troops.

Something has happened to make the Kremlin shrink from the bold line of their propaganda during the past year, which was to bid for the support of German nationalism with a view to another Rapallo—that is to say a Russian-German combination. M. Vishinsky could hardly have done more than he has to repel rather than to attract German nationalism, or indeed to stultify the German Communists.

For the net result of his proposals would be to perpetuate military government and the military occupation. No one knows what caused the Kremlin to alter its line, changing so unexpectedly and so abruptly from an exceedingly attractive pro-German policy to a crudely anti-German one. It is that the Poles and the Czechs have been awakened by the world-wide discussion to a realization of where the new Rapallo policy was leading? And has the Kremlin shrunk from the line of the Warsaw Declaration, fearing to lose the Poles and the Czechs while it was wangling the Germans?

One can only speculate. But whatever the explanation, M. Vishinsky's default has proved to be the opportunity of the Western powers, enabling them to come forward as the opponents of partition and of military government and of the exclusion of Germany from the European community. Morally and politically the Western position is ever so much better than it promised to be, ever so much better indeed than many of the Western experts planned to have it.

But our advantage, though real and important, can easily be over-estimated, and if it is not successfully exploited, may be temporary. The Western world, including Germany, is almost certainly entering a period of recession in which trade is contracting and the struggle for markets is becoming severe. This will not be a favorable environment for the German state of which we are the sponsors and promoters.

For it is one thing to draft a constitution, to get it ratified, and to set up a government. It is another and much more difficult thing to enable that government to govern successfully. The critical test of whether the Western German politicians can raise the German standard of life and avert unemployment lies ahead. If they cannot meet that test, their own position will be insecure, and the Western influence in Germany will be undermined.

Today's Birthday

GROVER ALOYSIUS WHALEN, born June 2, 1886, on New York's Lower East Side, son of a general contractor. He left high school when his father died in order to take over the business. He became interested in politics in 1918, backed John F. Hylan for mayor, and became Hylan's secretary. He advanced through many official posts and became general manager of Warner's, New York department store. He was Jimmy Walker's official city greeter in the 1920's and later police commissioner. In 1936 he started planning New York's World's Fair, of which he was president. Mayor LaGuardia appointed him to several important posts in World War II and Elmer Davis remarked, "London has the British royal family, but New York has Grover Whalen."

"I'M ALWAYS TRUE TO YOU DARLING, IN MY FASHION"

Merry-Go-Round—Drew Pearson

Senate Probers Reveal Oil Firms Are Fleeing U. S. Motorists Unmercifully

WASHINGTON — What is described as highway robbery in the price of gasoline has just been made the subject of a sizzling Senate report, hitherto unpublished.

On the basis of this report, Sen. Maybank of South Carolina will call the major oil companies before his banking and currency committee and ask them to explain unreasonable price boosts.

What Senate investigators found was that the average motorist must pay an extra \$40 a year for the same amount of gasoline that he purchased in 1946. Yet the oil companies justify higher prices on the grounds that they are losing profits.

Regarding this, Senate investigators state in their so-far-confidential report:

ZOOMING PROFITS

The oil company profits for 1948 were so high as to exert a disproportionate influence on the general level of profits.

"Thus the Standard and Poor's Corporation reported that for 1-548 industrial companies, profits for 1948 were 23.2 per cent above 1947. However, if oil companies were eliminated from the sample, 1948 profits were only 16 per cent above 1947. In other words, so great was the oil industry's increase in 1948 profits that for a large sample of all industrial corporations, the 1948 profits increase was about 50 per cent greater as a result of including the oil companies."

From 1946 to 1948, oil profits shot up more than 2½ times, the investigators report. The oil companies justified this on the grounds that they were expanding to meet the unprecedented demand for petroleum products. Now the expansion has stopped, as evidenced by cutbacks in production and imports. Yet the oil companies turn around and boost prices even higher because these inflated profits are settling back to earth again.

Sen. Maybank will call the big oil companies before his committee around June 15.

NEWS CAPSULES

PARIS CONFERENCE — Secretary of State Dean Acheson has cabled the State Department that next week will be the critical period in the big four foreign ministers' conference. Both sides have been sparing up until now and no secret sessions have taken place to date. However, next week several secret sessions will take place and Acheson thinks they'll give an opportunity to find out whether the Russians want to fish or cut bait. If there is no action next week, Acheson will be home around June 10.

TALKS WITH VISHINSKY — Secretary Acheson has held two off-the-record meetings with Vishinsky—one short and one long—to talk over the Austrian peace treaty. And for the first time since 1947 Acheson believes an agreement can be reached to get Russian troops out of Austria. Vishinsky has shown a surprisingly mild attitude in these talks, and Acheson has indicated the United States may consent to let the Russians have \$150 million in Austrian reparations in return for an Austrian peace treaty.

CZECH UNDERGROUND — A powerful underground movement has sprung up in Czechoslovakia that has the Communists worried. At least three well-organized guerrilla bands have been attacking Communist officials and police in the vicinity of Bratislava. Af-

ter each attack, they retreat into the hills and can't be located. Five thousand Army troops have been assigned to track down the guerrillas, but this hasn't worked out because many of the soldiers have deserted to join the guerrillas.

MAIL BAG

Robert McKinney, owner and publisher of the Senate FE New Mexican, writes as follows:

"Dear Mr. Pearson:

"The shocking death by suicide of Mr. James Forrestal, late Secretary of Defense, will grieve all who ever knew and served with him. I had the privilege of a tour of duty, in a minor capacity, on Mr. Forrestal's staff, and came to respect him as an American of consummate ability and patriotism.

"His suicide, however, means more than a personal loss to his friends. It must be taken to the nation's heart as glaring proof of the need for fearless news reporting in the nation's capital. When your dispatch came out some weeks ago describing the advanced state of deterioration of Mr. Forrestal's mental health, it came as more of a surprise to me than did the subsequent news that Mr. Forrestal has now taken his life. I happened to be in Washington at the time you broke the story, and heard among his friends and many government officials the almost unanimous opinion that the Forrestal story was the last straw—that Drew Pearson should now be shut up for irresponsible reporting.

"Had the officials of the Naval Medical Center been as alert and diligent about their business as

you were about yours, perhaps Mr. Forrestal might have eventually recovered and lived a long and useful life. American newspapermen should paste on their walls the headlines of this minor Pearl Harbor at Bethesda, to guide them whenever there is pressure to withhold the news."

SABOTAGING HOUSING

Inside fact is that courteous Chairman Sabath could have squelched the rules committee filibuster against the public housing bill and railroaded the bill to the House floor—if the benign gentleman from Illinois used the same strong-arm tactics that his foes use against him.

At one closed-door session last week, only one of the committee's four Republicans — New York's Jim Waldwuster — showed up. This put filibustering Gene Cox of Georgia, the Dixiecrat, in a frenzy. Because Sabath had the votes to vote the housing bill out over his head with three Republicans absent.

Cox, who almost always votes with the Republicans, immediately began demanding that the committee postpone action until "all the members are here to express themselves." Sabath, however, stopped him.

"I could take advantage of these gentlemen who are absent and call for a vote, but I don't intend to. I don't believe in doing business that way. I try to be considerate of my colleagues who are against me as well as those who are with me.

"However, I expect the same treatment myself in the future," he added, looking squarely at the gentleman from Georgia.

Hollywood—Bob Thomas

New Lingo Appears In U. S. With Television

HOLLYWOOD, June 2 — Television is adding new words to the American language.

Every day television pushes its frontier into a new part of the country and carries with it a new lingo. The language grows and changes as the new medium develops, and it's time for a report on how it stands now. Here are the findings:

It was only natural that "television" would be too unwieldy for fast-talking Americans. The most common brief term is "TV." It is terse and to the point.

Members of the trade refer to "video" as what is seen on the screen and "audio" as what is heard over the loudspeaker.

"Telegenic" appears to be a definite addition to the language. Referring to a person or thing that makes a good appearance on television, it stems from "photogenic," also a fairly recent word.

Set owners on the west coast are fairly well acquainted with the term "kinescope," which is a four-bit word for the filming of shows to be televised at a later time. The best shows out here are those which are kinescoped in New York.

Television performers themselves are still confused about what to call their audience. Many of those trained in radio still use "listeners," although some have switched to the more accurate "viewers." Neither is

adequate and perhaps a wholly new word should be coined to supply the need.

Terms for picture distortions are being transferred from radio men to consumers. Many a "set" owner can identify a "ghost" or "halo" which describes the effect when two images appear where there should be one.

Socialized Medicine Will Take Place Of Faith-Healing In U.S.

This week I have a bone to pick with the whole tribe of faith-healers—of every race, age, sex, sect and nationality. Although many of these people are too contemptible to excite anger, they cannot be exempted from the general condemnation. My purpose is to make out a strong case against faith-healing, and it is impossible to leave a single rat-hole unstop.

The extent to which the false religion of faith-healing has penetrated our national life is brought home to us graphically every time the Associated Press carries a story (with pictures) of some sufferer who is enraptured by the shrine of St. This or St. That there to be cured of his infirmity. Oddly enough, we never hear any more of the person in question, and we are compelled to believe that his trip was a failure.

All such shrines, however, have great store-rooms filled with crutches and walking sticks which the visitor is assured were left there by grateful patients, who presumably had no further use for them. Nevertheless, a few skeptics, including myself, would be glad of an opportunity to follow up the case histories of these persons and learn just how permanent the "cure" turned out to be.

Probably the most amazing instance of an alleged modern faith healing of which we have record occurred at Lourdes some year ago and was reported by the late Dr. Alexis Carrel, the noted scientist who later turned Nazi. According to Carrel, he saw a compound fracture instantaneously healed, the process involving the instant creation of several centimeters of bone. Such a healing, if proved, would outweigh in importance any miracle recorded in the New Testament. After, all,

every one of the healings performed by Jesus Christ is explainable upon modern medical grounds. But I doubt if many present day scientists would accept the word of even so great a man as Carrel that the instant creation of bone is possible. Furthermore, I remember that at the university my professors laughed at the idea.

Modern psychology, in fact, explains all reported faith healings by the power of suggestion, which has been known to the most ignorant savages from the beginning of time. A West African Negro, for example, will make a mud or waxen image of his enemy, stick it full of thorns, and let the fact pass into jungle gossip. In an astonishing number of cases, the victim of suggestion really does sicken and die within a few weeks.

Doctors and psychiatrists have learned how to avail themselves of the power of suggestion in their dealings with their patients. There is no doubt whatever that suggestion can and does heal cases of functional deafness, blindness and similar disorders. But the medical profession as a whole denies that there is any such thing as faith healing as applied to organic ailments like cancer, tuberculosis, poliomyelitis or any other of the terrible diseases which beset mankind. As for broken bones—well, even the leader of the most outstanding sect of faith healers advised his followers to seek the services of a surgeon.

I am not attempting to destroy the faith of anybody who may have little else than his faith with which to meet a grave illness. However, faith-healing has been tried and found wanting—and, thank God, America soon will have socialized medicine for all her children. — R. G. MACREADY.

Nation Today—James Marlow

Irony Of Eisler Case Is That It Proves Western Democracy

WASHINGTON, (AP)—COMMUNIST GERHART Eisler is a living memorial to one of the most priceless treasures of the West: The rights of an individual in a Democratic society, even when he's likely to destroy that society.

Twice convicted in the United States, but free on bail, pending appeal, he fled the U. S., was seized in England, was brought before an English judge, was freed on a legal technicality, and is now safe in Communist eastern Europe.

His case was judged entirely on legal grounds—and not on political grounds, although a congressional committee had called him America's No. 1 Communist and he had a notorious history of intrigue.

SUPPOSE THE SITUATION HAD BEEN reversed and Communist Eisler was in Russia, was considered the No. 1 foe of the Soviet regime, had committed a crime, fled, and was caught in another Communist country behind the Iron Curtain.

There isn't much doubt he would have been whisked back to Russia, probably without a court hearing at all, and for a reason that illustrates perfectly the difference in the attitude of the East and West toward an individual.

Under Communism, an individual exists for the state, not the state for the individual. It's just the other way around in a Democracy like America's or England's.

In Russia when government policy which means the desires of the ruling group—conflicts with what particular law calls the "rights" of an individual, the government policy comes first.

UNDER COMMUNISM A MAN LOOKED upon as an enemy of the ruling group, which wants to stay in power, gets short consideration. It's different in the West.

There every individual has certain guaranteed rights and he can appeal to the courts for the protection of those rights if they're interfered with.

In this country Eisler was convicted of contempt of Congress and of falsifying a passport. He was sentenced to prison but got out on bail while he appealed to a higher court. Then he skipped to England.

In 1870 England and this country signed an agreement to return to one another a person who had been convicted of perjury in either country.

But the English judge decided that Eisler's falsification of a document here couldn't be considered perjury under the meaning of the treaty, because it didn't cover falsification of documents. So he refused to send Eisler back here.

KNOWING PERFECTLY WELL THAT Eisler once let loose again would be free to continue to try to destroy western Democratic government, the judge considered first and only what his rights were under the law, as an individual.

The irony of the whole case, of course, is this:

Eisler won his freedom under the laws of the western Democracies which he despises and would destroy; and, if they were destroyed, and replaced by Communism, an Eisler who was an enemy of that new regime and committed a crime here and fled to England, would be bounced back here in a hurry.

Notebook—Hal Boyle

Science May Make It Possible To Devote More Time To Cards

NEW YORK — THE HUMAN RACE soon will be able to spend all its time playing gin rummy.

At present people still waste of a lot of energy beating a living out of the world and fretting over other foolish problems.

Good old science is changing all that. Take the problem of putting the baby to sleep at night. Now that should be a simple thing. But it has bothered every family since caveman days, and that is going back 40,000 years.

Well, after these 400 centuries, a fellow came along and invented an automatic rocker. It not only rocks junior, it sings to him, too—in his mother's voice.

BUT THE MECHANICAL BABY ROCKER, the automatic dish washer, the refrigerator and deep freeze unit, the vacuum cleaner, the television set that brings vaudeville into your parlor — these are as nothing to science's new wonder, the "electric brain."

Here is a real thingamajig. And if you expect to keep up with the Joneses in the future, you're going to have to have one handy around the house. And you might as well start saving up for the down payment now, as a pilot model presently in production will cost about \$200,000.

This "electric brain" is named "Zephyr," and he's going to be some boy. He's Bureau of Standards at the University of California at Los Angeles.

Zephyr will take up where Einstein left off. He will be able to translate three foreign languages, or perform 16,000 additions and 4,000 multiplications a second. With this faithful big-brain standing in the corner, no school child need ever again dread homework.

IT IS ALSO PROMISED THAT THIS electrical wizard will be able to compute salary payments—not that this bug of arithmetic has ever been any strain on the average man's intellect. But Zephyr

Soviets Reject Yugoslav Protests Against Alleged 'Hostile' Actions

MOSCOW, June 2. (U.S. —) The Soviet government has rejected Yugoslav protests against "hostile" actions toward Yugoslavia.

The Soviet News Agency Tass said the protests were made in a note May 23 accusing Russia of breaking a Soviet-Yugoslav treaty in connection with "activity of revolutionary Yugoslav emigres" in Russia.

Tass said the Soviet government replied May 31 that "the real cause for the worsening of relations between the USSR and Yugoslavia is the hostile policy pursued by the government of Yugoslavia toward the Soviet Union."

The news agency said Russia turned down flatly Yugoslav demands the Soviet government should forbid activity of Yugoslav emigres in Russia, and stop them from publishing a newspaper.

The Russian reply said Yugoslavia's "slandering allegations" evidently were aimed at hiding Yugoslavia's attitude toward Russia from the Yugoslav people, Tass reported.

(The Yugoslav government

newspaper, Borba, accused Russia last week of trying to create an anti-Tito clique of Yugoslav officers in the Soviet Union by offering many inducements, including pretty girls and high ranking jobs.) (Borba charged Russia had tried to set up this clique to lead a revolution against Premier Marshal Tito. It said the Soviets began their activities the day the Cominform denounced the Tito regime as nationalistic and anti-Marxist.)

Texas City Blast Story Is Retold

GALVESTON, June 2. (U.S. —) Witnesses yesterday retold the story of Texas City's disaster.

Testifying in a \$200 million damage suit growing out of the 1947 explosion and fires were Lt. W. S. Wattlely of the Houston police force and Sgt. J. E. Kent, Houston policeman.

Wattlely described his rescue efforts in the area after the French freighter Grandcamp blew up. The explosion of the Grandcamp touched off a series of blasts and fires that left more than 500 dead or missing and an estimated 4,000 injured.

Attorneys for plaintiffs yesterday covered events between the first explosion, that of the Grandcamp, April 16, and the explosion of the SS High Flyer, the following morning.

Sgt. Kent said he saw smoke and flames coming from a hold of the High Flyer just before it exploded.

Lt. Wattlely said he was unable to find out what cargo the SS High Flyer carried.

Eisler Welcomed To Berlin Zone

BERLIN, June 2. (U.S. —) Gerhart Eisler has arrived in Germany and been welcomed to the Soviet zone by top Communist leaders, the Soviet-licensed ADN News Agency said today.

ADN said Eisler arrived at Dresden from Prague and was met by Wilhelm Pieck, head of the German Communists, and Max Seydewitz, minister president of Saxony.

The bond-jumping fugitive from the United States will attend a convention of the "free German youth organization" in Leipzig today, the agency reported. Eisler is slated to become a professor of social science at the University of Leipzig.

Arizona's copper mines are among the greatest in the world.

Tornado Hits In Nebraska

NEBRASKA CITY, Neb., June 2. (U.S. —) One farm family was homeless today after a tornado had leveled its home two miles west of here.

When members of the Carl Moyer family saw the twister sweeping down toward their farm late yesterday they fled and escaped without injury. But all the buildings on the farm were destroyed by the wind.

Just across the river in Iowa, outbuildings of another farm were wrecked by a tornado and the farm house was pushed from its foundation. No one was injured there.

Nebraska City residents said they saw three separate funnel-shaped tornado clouds. A heavy downpour and some hail followed the wind.

Nebraska City is in Southeast Nebraska. Farther north, meanwhile, other heavy rains which drenched the state throughout the day yesterday sent rapidly rising streams out of their banks.

There was flooding on a number of rivers and creeks in the Norfolk area early today and the gates of a mill dam had been opened by the city to prevent a flood on the Northfork River.

In East Central Nebraska, hundreds of acres of farmland were under water along Cottonwood Creek west of Wahoo.

Eagles Extend League Lead With 9-8 Win

By The Associated Press
Dallas, June 2.—The Dallas Eagles, who gathered themselves on the brink of the precipice, so to speak, have taken the heat off themselves by pushing three games ahead of the field in the riotous Texas League race.

Dallas was one of the few clubs in baseball history to be leading the loop and the fans hollering for the manager's scalp. The reason was that the Eagles made a big splash at the beginning and when the slump came the contrast was too much.

The Eagles still are skimming through and using the entire pitching staff every game but the big bats never have been silenced long enough that the issue has been left up to the buyers.

Last night Dallas managed to nose out Tulsa 9-8 as six Eagle twirlers paraded. A big eighth inning featured by Leo Wells three-run homer brought Dallas ahead. Tulsa used five pitchers in the scorekeeper's nightmare.

San Antonio lost to lovely Beaumont 2-1 and the third-place Fort Worth Cats fell to Oklahoma City 5-3 while Shreveport and Houston split a double-header. Thus all was to the good for Dallas.

Gale Pringle pitched a one-hitter in Beaumont's decision over San Antonio. If pitcher Earl Reid hadn't beaten out a bunt planned as a sacrifice hit, Pringle would have entered the hall of no-hit game.

Mickey Burnett was the hero in Oklahoma City's victory over Fort Worth. He hit a homer with the bases full in the second inning and Fort Worth never could catch up. George Zuerker and Jack Hallett gave the Cats only five hits.

The Shreveport-Houston twin bill was a battle of home runs. Exactly seven circuits resounded during the evening. Bruce Hamner elbowed a two-hitter in pitching Shreveport to a 9-1 victory in the first game. Wayne McClelland twirled a six-hitter in the night-cap to beat Shreveport 7-3.

Looking 'Em Over

by Tommy Hart

A surprise package in Dibrell's attack next fall could be Don Henry, a little fellow who has been playing lots of baseball for the Hawks.

Henry, 'tis said, was a whirling dervish in the Chilloothee (Tex.) high school back field so many years ago, one of the best ever to perform up that way.

SCRIBE REVEALS TOM JORDAN HAS DEPARTED ROCKETS

Bud Workham, Sweetwater sports writer, says Tom Jordan has jumped the Roswell baseball club again in order to return to his farming interest in New Mexico.

The Rockets will have difficulty remaining in the Longhorn race without Jordan, one of the truly great hitters in the circuit. Tom would have been the league's best bat to hit .400 this season.

The remark that Lefty Shelton passed on to Blondy Cross, that he "didn't like Cubans on the Big Spring team a little bit," if he made it, wasn't a very complimentary thing to say. The fact that Bright Eyes repeated it didn't add to his stature, either.

A follower of Carl Coleman's coaching career who saw the new Big Spring high school mentor's teams when he was at Pecos a few years ago says Coleman doesn't stress defense too much, that he is of the school believes a good offense is the best defense.

In other words, unless Carl's tactics have changed radically, local fans are in for a lot of action this fall. If Coleman's troops get beat, the score could be something like 44-20 or 35-18. And what could be more interesting than a game in which both teams score consistently.

Coleman, this party says, believes in experimenting with his offense, in dreaming up new plays that will set the opposition rocking on its heels. (Shades of Obie Bristow.)

Coleman obviously is going to have his most trouble finding a passer here who can add versatility to the punch of the Steers. There wasn't anyone on the club last season who could consistently hit the park. Artless Davis could flip one 50 to 60 yards but he wasn't too accurate.

Little Carol Cannon, who isn't so little after all, will add much authority to Coleman's running game in the fall. If Carl finds someone who can pass, Cannon will be all the more effective.

Incidentally, Johnny Dibrell, the HCJC grid mentor, may use Davis on end this fall. Davis played with for the Steers two seasons ago, then moved into the backfield due to an acute shortage of experienced material. Dibrell says it was okeh with Davis, wherever he performs.

TWO HOLES IN ONE NO HELP—Ray Macquire, 35-year-old Birmingham, Mich., golf pro stole the show at the Michigan qualifying round in the national open played at Detroit, Mich., by sinking two holes in one. Macquire shot his first ace on the 205-yard fifth hole; his second on the 164-yard 14th hole. He finished with a 147, 11 strokes behind long hitting Chick Harbert of Detroit. Macquire did not qualify. (AP Wirephoto)

Blue Sox Stave Off Late Rally

By The Associated Press
The West Texas-New Mexico League race is a two-horse affair. Albuquerque an Abilene are staging a personal duel for the top spot and are far enough ahead of the rest of the field not to worry about anybody but each other.

Last night both won their games. Albuquerque beat Lubbock 12-8 with a 13-hit attack, three of which were home runs. Abilene edged Berger 9-8 on a fine catch of Ken Sears' liner by George Sturdivant in the last of the ninth. The bases were full and George just had to take that one.

Welter Fight Is Scheduled

PHILADELPHIA, June 2.—Sugar Ray Robinson, possessor of one of the ring's greatest records, puts his welterweight crown on the line for the first time in a year at Philadelphia's Municipal Stadium July 11.

The 147-pound champion and Cuba's Kid Gavilan yesterday fixed their signatures to a contract calling for 15 rounds or less under the promotion of the Philadelphia Area, Inc.

School Men Act To Nix Exile

FORT WORTH, June 2.—Fort Worth schools have taken hasty action in recalling 20 wrist watches awarded high school athletes.

About half of the watches were collected yesterday. The remainder are expected to be returned to city officials before this weekend.

City Schools Superintendent Joe Moore ordered the watches returned to prevent possible suspension of Fort Worth Schools from participation in the Texas Interscholastic League athletic program for violating the TIL's awards rule. The rule states that the school system can not award graduating athletes anything exceeding \$15 in value.

The athletes already had received jackets valued at that amount and therefore were not eligible to receive the watches from the schools.

Keglers Begin Play Tonight

Play will get underway in the Women's Summer bowling league here at 8 p. m. Thursday and continue for 12 weeks, Director Mary Ruth Robertson has announced.

Captains of teams, none of which will be sponsored, will be Olive Cagle, Mary Fields, Vera Dozier, Margaret Howie, Jewell Adams and Mrs. Robertson.

Officers for the fall and winter league, elected at a recent meeting of the fem keglers, will be Lois Eason, president; Winnie Wood, vice-president; Ruth O'Conner, secretary-treasurer; and Margaret Warner, Sargeant-at-arms.

Hurlers Shine On Prep 9's

By The Associated Press
The eight teams that go to Austin next week for the Texas School Class AA Baseball Tournament will be bulging with top pitching talent.

Some fabulous records have been made this season by such youngsters as Jack Sterling of Beaumont, who hasn't lost a decision and on his last appearance turned in a no-hit, no-run game. Sterling has allowed only 13 hits and two earned runs in 47 innings.

Austin, the team favored to win the championship on the basis of veteran material and a 12-3 record, has a couple of unbeaten pitchers in Riley Verdine and Jack Brinkley.

Waco, which has won 14 and lost two, lists Joe MacGresham as its ace hurler. He has won 7 and lost none the same as Trini Quillen, star slambaw for Bowie of El Paso. Bobby Shroyer is the main reason Stephenville managed to advance to the state tournament.

IN CITY TOURNEY

John Pipes Moves Into Semifinals

John Pipes, co-medalist and a finalist in 1948, has moved into the third round of the City golf tournament being unseeded at the Murry course by defeating Harley Bailey, 5 and 4.

Other second round matches must be completed by Sunday. Other second round matches will pit Bill Davis against Obie Bristow, Bobby Maxwell against Jake Morgan and W. E. Ramsey against Clarence Schaefer.

Bristow, Maxwell and Schaefer are slight favorites to come out on top and join Pipes in the semifinals.

Maxwell, the defending champion, lounced Joe Black, 5 and 4, in his first round test. Davis got by Bobby Wright, co-medalist one up. Bristow sailed past Bob Hodges, 5 and 3. Pipes proved superior to Earl Vandervoort, 6 and 5, before getting at Bailey. Bailey mastered Sam Thurman, 3 and 1. Morgan thumped Marvin House, Jr., 4 and 2. Ramsey trimmed J. R. Farmer, 5 and 3, and Schaefer disposed of John Malaise.

In first flight play, Novice Womack opposes J. E. Foote, and C. G. Griffin squares away with Frank Phinney. Duane Meiers and Weldon Bryant have already advanced into the third round of second flight play by beating V. V. Strahan and Bill Phillips, respectively.

In the second flight, Bud Purser, R. W. Parks, Dan Lewis, Owen Walker, Bruce Robertson and Alton Underwood are the quarterfinalists while Dr. J. E. Hogan has advanced into the semi-finals with a 2-1 victory over Gene Nabors.

In third flight activity, O. E. Newton baffs with H. M. Rowe, J. W. McClelland clashes with V. E. Jones while Conn Isaacs jousts with John Lewis.

Raschi And Trucks Vie For Role As Junior Loop's Top Rightie

By The Associated Press
Who's the No. 1 righthander of the American League, now that Bobby Feller has started to slip? Vic Raschi, strong-armed New York Yankee ace, and Virgil Trucks, Detroit speedster, look like the leading candidates.

Feller isn't finished. He showed enough last night in losing a 3-1 decision to Boston to prove that. But even Bobby admits he's not as good as he used to be.

Raschi put a solid claim with his three-hit shutout of the Chicago

Smart Hostesses Serve This EXTRA DRY BEER

Smart Hostesses Serve This EXTRA DRY BEER

Become IT IS ALWAYS REFRESHING!

A beer that is too "heavy" or not acid properly, can leave an after-taste—and RUIN a perfectly delicious dinner. Don't let that happen to you—ALWAYS serve light, extra dry, sparkling PEARL BEER with meals—it pleases most people most. You are safe when you serve PEARL.

G. W. Dabney
MAYOR OF THE CITY OF BIG SPRING

LEGAL NOTICE
In pursuance of the authority conferred by Chapter 381, Page 784, Acts of 1947 (H. B. No. 331), 50th Legislature, State of Texas, the County of Howard and City of Big Spring, Texas, propose to enact a Zoning Ordinance and/or Restriction, project, regulate, and restrict the height of structures and objects of natural growth in the vicinity of the Big Spring Municipal Airport. According to the County of Howard and City of Big Spring, Texas, have prepared such an Ordinance and notice is hereby given that public hearing in relation thereto will be held in the City Commission room in the City Hall at Big Spring, Texas at 8:00 p. m. on Monday, June 20th, 1949. In the event there are no valid objections to the proposed Ordinance or Resolution, it is contemplated that the Commission report of the County of Howard, Texas and the City Commission of the City of Big Spring, Texas will enact said Ordinance within ten (10) days from the date of said public hearing.

G. W. DABNEY, Mayor, City of Big Spring, Texas
J. E. BROWN, County Judge, County of Howard, Texas

SOURCE UNDETERMINED
Salt Water Found On Wildcat Test

Salt water developed on a final drillstem test of the Sinclair-Prairie No. 1 Sterling Williams, northwest Borden wildcat, Thursday. The test was from the same zone, 9,945-10,000 feet, which had previously returned 20.75 barrels in 30 minutes. The breakdown revealed 1,300 feet of salt water in the drill pipe. Source of the water was undetermined.

The pipe unloaded oil while being pulled. Operators then reamed the hole from 9,945 to 10,000 feet and resumed drilling. It is now below 10,005 and is to go to 10,035 for another drillstem test.

Many observers are skeptical that this wildcat is in the Ellenburger. A majority of geologists who are watching it think it likely is in the Devonian or Silurian-Devonian.

Location is 660 feet from the north and east lines of section 45-32-6n, E1&R2, 11 miles northwest of Gall.

Seaboard No. 1 Clayton & Johnson, in section 37-31-6n, T&P, six miles northwest of Gall, drilled to 5,875 feet in shale. This test may assume added importance in view of the Sinclair-Prairie No. 1 Williams showing.

New Consolidation Elections Planned By Mitchell Schools

Representatives of all Mitchell county schools will meet here Friday night in the office of County Superintendent Roy Davis Cole.

The meeting, said Charles C. Thompson, chairman of the county school board, will be for the purpose of working out plans for new consolidation elections or for annexations of certain common school districts.

Letter Arrives Here After Telephone Call
In the air age, letters become outdated quickly. Mrs. Della K. Agnell has found to her pleasant surprise.

Second Anniversary Services Held Here
In observance of their second anniversary, members of the State Street Baptist church conducted an all-day dedicatory service at the church Sunday with guests attending from Muleshoe, Lamesa, Vealmore and Lubbock.

Released From Service

TALK TOMORROW IS HELD TODAY

Yesterday Mrs. Irene O'Brien talked with a grandson tomorrow today. This was the way it happened. Mrs. O'Brien was called out of bed in the wee hours. Her grandson, Frank Brimmon, Jr., was calling from Tokyo, Japan. But it was daytime in Japan, the "heat day" when the call was put in because of the international dateline.

Jester Invites Clay To Texoma

DENISON, June 2. (UP) - Gov. Beauford Jester has joined in inviting Gen. Lucius D. Clay, retired U. S. military governor in Germany, to Lake Texoma.

Lions Governor Is Honored At Meet

Tributes to Schley Riley, governor of Lions district 2-T-2, were paid at the club meeting here Wednesday.

Joe Pond, himself a past district governor, aluded Riley for his tenure as district governor and for his handling of the district convention in Pecos. He also praised Jack Y. Smith, cabinet secretary. Riley responded with appreciation to the club, which he once served as president, and expressed thanks for a gift from the Big Spring Lions.

Charter night for the Ackerly Lions club Thursday at 8:30 p. m. in the school lunch room was announced by Rev. R. Gage Lloyd, president. A local delegation is due to attend the affair.

Davis Gets Master's
Among degrees awarded by the University of Texas graduate school in commencement exercises in Austin this week was that of Master of Arts, to Joe Edward Davis, Jr., of Big Spring.

On Air Tonight
Sonny Barnett, son of Wilbur Barnett formerly of Big Spring will appear on the radio program, "Suspense," over CBS network this evening. He will be featured as the son of Joan Crawford. This will be Barnett's first appearance following an appendectomy at the Presbyterian Hollywood hospital.

Election Is Tonight
New officers will be elected at the meeting of the American Legion Auxiliary in the club room of the Legion home this evening at 8 p. m. All members are requested to attend this important session.

Class To Meet
Members of the Mary Martha class of the First Baptist church will meet in regular session in the home of Mrs. J. S. Peden, 406 Lancaster, this evening at 7:30 p. m.

LEGION LETTER

By KAY BUGG
We think the old hut will be bulging with Legionnaires on Saturday next, June 4th. Legionnaires from all around here have been invited.

The Ladies Auxiliary really had a nice party last week and in honor of the state president. The executive committee in session extraordinary last week adopted a resolution asking that our natural gas resource be not wasted. A hearing on this matter will be next Tuesday in Austin. Buddy Odell Womack was instructed to forward our check to the disaster relief fund at Ft. Worth.

Mrs. Neel Barnaby spent the week end in Dallas and brought her daughters home for two weeks vacation. Buddy Henry Bugg was a visitor in New Mexico this past week end.

The firing squad has been doing some night work at the but making the patio ready for summer activity. Buddy Clyde Payne elected as his secretary of war Miss Lucille Simpson. Congratulations to you both. See Buddy Jack Cook for "cannon" reservations.

Escape Try Is Foiled By Fate

HOUSTON, June 2. (AP) — A 15-year-old boy up as an habitual runaway, gave Juvenile Judge Roy Campbell a tip.

He said a half dozen other boys at the county juvenile ward had a key and were planning to run away.

They had a key all right. But officers found them locked in a room. The key had broken off in the lock and the door couldn't be opened from either side.

Order Returning To Bolivia In Wake Of Riots

LA PAZ, Bolivia, June 2. (AP) — Order appeared to be returning slowly today to riot-torn Bolivia, but her rich tin mines remained shut and sympathy strikes continued to spread.

Officials at the Patino Mines said 40 persons were killed and 83 injured in the four days of bloody rioting which followed the mine strikes, called to protest "government pressure" on Bolivia's labor unions.

Violence abated yesterday as reports were received that the army had the situation under control. Spreading sympathy strikes kept the situation unsettled.

Yesterday an estimated 8,000 organized factory workers walked off their jobs in La Paz. Later reports said the walkout had only been a partial success, however.

All the country's rail lines have been paralyzed by a sympathy strike that threatened Bolivia's food supply, but today troops brought in one train from Chile.

The bodies of two American mining engineers killed in the riots are to be flown to the United States tomorrow. They are T.J.H. O'Connor, of Pasadena, Calif., and Albert Kretzing of Seattle, Wash.

Mrs. FDR Called American Dictator

WASHINGTON, June 2. (AP) — The Madrid official radio in a broadcast recorded today by U. S. government monitors complained that Mrs. Franklin D. Roosevelt is "dictator" of American foreign policy.

The broadcast was based on published reports that the wife of the late President had prevailed on Secretary of State Acheson to refrain from backing a recent proposal in the United Nations to return ambassadors to the Franco government.

"Is Mrs. Roosevelt a sort of Stalin in petticoats?" demanded commentator Juan de la Cosa. "Where does her power lie? Why does Mr. Acheson obey her with so much submission?"

If Mrs. Roosevelt has that much influence, he suggested, she "personally directs U. S. policy" and "hence Mrs. Roosevelt is a dictator and the United States a dictatorship."
