The White House is gently pull-

The White House is gently pulling the few wires it has left in Congress to block the farm bill.

Presidential Secretary Newton has been up to the House buzzing in the ears of friends. They got the idea the President is not as eager to veto the Allotment Plan as he is to wield the axe on beer. A bad political reaction in the West is certain to follow a farm veto. It would be much nicer to have the whole thing go over until Roosevelt comes in.

Democrats heard about Newton's activity. It made them doubly anxious to lay the baby on the White House doorsteps before Mr. Hoover goes out.

There is not the slightest chance in the world that Mr. Honver could be induced to sign the bill. It is personally distantful to him.

Changing its name to the Parity Bill instead of the Allotment Plan will not make it look like a rose to him. The Democrats rectristened the measure for other private reasons. Farmers do not like the word Allotment. Parity sounds better. Also the old Allotment Plan was originally sponsored in Republican quarters. Senator Mc. Nary had it in his three-way bill at the last session. Calling it Parity makes it sound like something different.

In some minor details it is. Estantially a senator with the last session. Calling it Parity makes it sound like something different.

In some minor details it is. Essentially it is not.

Public Presidential opposition to the farm plan will be based on con-stitutional grounds. The Attorney General has been looking the mat-ter up privately. He is already prepared to rule its constitutionality doubtful. The idea is that the measure proposes price fixing and requires farmers to accept it. That question will not be determined until the Supreme Court

Final Message To Legislature Delivered By Executive

AUSTIN (P)—The Forty-third legislature Thursday heard Goveror Sterling's final message. The legislators listened in

past two years and recommended
legislation he believed would place
the government on a more substantial basis in the future.

Presentation of the message was interrupted for consideration by the house of a senate resolution proposing per diem pay of legislators he fixed at \$8 instead of the nstitutional maximum of \$10

AUSTIN, UP-Governor R. Sterling, in a final message today to the Texas legislature before he retires from the chief executiveship next Tuesday, made a plea for a "fairer and more uniform" system of taxation and told the lawmakers of a necessity for "far reaching" curtailment of public expenditures. He recommended that the ad

valorem tax for state revenue pur-poses be abolished and consumers' sales and income tax levies subsates and income tax levies sub-stituted for the charge heretofore made on homes, farms and ranches for support of the government. Governor Sterling expressed dis-

agreement, in part, with proposed plans of a legislative committee on organization and economy, which recommended an entirely new governmental administrative structure, reducing the existing 131 departments, bureaus, Feards and commissions into ninteen

# TODAY and TOMORROW

By WALTER LIPPMANN

One hesitates to speak frankly about the Radio City Music Hall in Rockefeller Center. So many persons have invested hope and effort, and money in the enterprise that almost it seems incumbent upon the mere outsider to wish it success and say no more. Yet its sponsors invite more than perfunctory tolerance. They have built something enormous for the purpose of astounding the world and it will not do merely to ignore them politely.

What they have done is to build a theater which is so long that from the back rows the performers look like pygmies and is so wide

look like pygmies and is so wide that from the nearer seats the eye The esthetic aimlessness of the that from the nearer seats the eye can not encompass the whole stage. For such a theater it would be necessary to create some radically new kind of speciacle, some sort of show in which the individual performer was disregarded, because former was disregarded, because former was disregarded, because few in the audience can resily esland with something like total distablish any relation with him and regard of its effects on the neigh-to substitute gigante dells or the borhood. Within half a mile there to substitute gigante dolls or the mass effect of regiments of people. I do not pretend, of course, to know what can be done on such a stage, but it is evident that the showmen now in charge of Radio City are equally in the dark. There was no evidence on the first night that they had ever paused long enough to consider whether, in changing the whole scale of the theater it was necessary to change the character of the show. The Hamlin Pied Pipers, with eleven consecutive victories un-der their belt and a total of 489 points to their opponents' 192, are seen as certain cham-pions of the eastern half of the District and worthy rivals of the Big Spring Steers in the district playoff. Providing, of course, that the Bovines con-tinue their habit of bagging the western division title.

Barring a dope upset that would e a real dope upset the Pipers and parently reserved for the cold gray the locals are due to come together in the semi-final round of the Colo-rado invitational tourgament this Mrs. Roy Bardwell and Mrs. Ben week-end. > The winner of the Hamlin-Big Spring match is almost a certainty to take the championship. The Colorado Wolves, alone in the upper bracket as far as strong teams are concerned, are booked for a swift ride into the finals with three victories over small clubs helping the box office receipts, but the Cantrillmen have no business with the championship trophy this year.

Steers' dismal showing against Lamesa Tuesday night has cast somewhat of a damper upon local enthusiasm. Cecil Reid, the best center in the district last year, found himself handled thoroughly by Studrevant of Lamesa, an exellent pivot man, and contributed nly two points to his club's total while his opponent accred thirteen. Rabbit Hare and Weldon Woods contributed a quarter of wild passng that was rivaled only by the umbling of the forwards, Harris and Morgan. Dyer turned in his his best game of the year, the only standout on the Big Spring squad.

The ten best coaches in the state, so says Jinx Tucker of Waco, are: 1. Paul Tyson of Waco; 8. Howard Parker of Cleburne; 3. Dewey Mayhew of Abilene; 4. Henry Frnka of Greenville; 5. Johnny Pierce of Corsicana; 6. Tom Dennis of Port Arthur; 7. P. E. Shotwell of Breckenridge; 8. Bobo Nelson of Athens; 8. Weldon Chap-man of Lubbock; 10. Bobby Cannon of Corpus Christi.

We have only one complaint to glater. One of the best coached evens in the state was defeated the Sweetwater Mustangs in the district 13 to 7, and the coach was the same mentor that helped carry the Abilene Eagles to two state championship titles. Were we picking the first ten we'd find a spot fer Pat Murphy of Austin

Charles Green of Sweetwater Charles Green of Sweetwater, on the other hand, would put Ed Hennig on top of the list. Certainly on the bas's of the season's work the Sweetwater mentor should rank ahead of Chapman and Mayhew, whose teams the Mustangs defeated soundly.

# JUST TO PLEASE

Have you ever thought of the power you exert, along with others like you, over all manufacture and production? Great laboratories analyze foodstuffs so that you may have the cereals you want. Blast furnaces roarso that your motor car may have the most perfectly balanced crankshaft. Fashions, patterns, fabrics are designed to appeal to you. As the consumer, it is your tastes, your preferences that either directly or indirectly control all the factories of the world.

In bowing to your pleasure, leading manufacturers and merchants are sending you daily in this newspaper their personal reports—their advertisements. They are telling you truthfully about all the new or improved products that have been made for your greater comfort or service. The advertisements are interesting. They are accurate records of business progress. It will pay you to read the advertisements regularly and carefully.
