In the Senate, Sen, Walter F. Mondale, D-Minn., introduced implementation of scheduled increases in personal exemptions and standard deduction rates in personal income tax reports.

Mondale, saying changes were needed immediately to stimulate the economy, also called for reinstitution of a 7 per cent tax credit for the first \$25,000 of investment in new facilities or equipment.

Another proposal by Mondale would extend from 26 weeks to 39 weeks the maximum period of eligibility for unemployment compensation.

"Where you buy the best for less"

The first step of this exciting adventure is to abandon the old life and launch forth upon the new life. This means a personal acceptance of Christ as Saviour AND Lord. This first step may seem hard but once taken you will never regret it. But to remain happy and radiant in this new adventure you must continue to take SUCCESSIVE STEPS OF FAITH as God leads the way. (Hab. 2:4). If we begin to live by our senses then life becomes dull and boresome. The only cure for the ''doldrums'' is to "pray through" and resume following God by faith. Then we shall be able, in some measure, to "Comprehend the depth, length, breadth and height" of the "Unsearchable riches of Christ" and "Be filled with all the fulness of God" who is able to "Do exceeding abundantly above all we ask or think according to the power that worketh IN US." (Read third chapter of Ephesians, New Testament).
