Week Ends On Sunday 1971

AT TUESDAY MEET

Council To Set Date For Auditorium Bids

City Commissioners are expected to set 2 p.m. Thursday, Feb. 4, for the opening of bids on Pampa's M.K. Brown Memorial auditorium.

Setting the bid opening date will be a major item on the agenda at Tuesday's regular meeting of the commission at 8:30 a.m. in City Hall.

City Manager Mack Wofford said Saturday the Feb. 4 meeting probably will take the place of the regular meeting that would fall on Tuesday, Feb. 9.

A dozen other agenda items were listed by the city manager for consideration at Tuesday's meeting. These include:

Receiving bids for the purchase of two pickups and a station wagon and new proposals on group insurance for city employees.

First reading of an ordinance setting out requirements for the

development of Lots 1 through 5' Block 3 of the Shulkey-Hill Addition—proposed location of new White's Auto Store at N. Hobart and Decatur Streets.

Consider approval of the city audit report for fiscal 1969-70 and authorizing the firm of Nienstiel and Doggett as auditors for fiscal 1970-71.

Consider 1971 fire contracts with Gray and Roberts counties and the City of Lefors.

Consider final payment to the consultant who prepared Pampa's Comprehensive Plan report.

Consider investment of funds acquired by the city (\$1.2 million) for construction of the Civic Auditorium.

Consider setting March 9 to receive bids for the construction of a city animal shelter and for materials to reconstruct portions of the rodeo stands at Recreation Park.

President's Indochina Role Criticized Again By Demos

O'Brien States Nixon Ignores Two Problems

WASHINGTON (UPI) — The Democratic Party launched its first major attack on President Nixon's Southeast Asia policies in several months Saturday and charged that his State of the Union message almost totally ignored the issues of the war and the nation's economy.

"Today America is torn by two overriding concerns: The continuing, if not expanding, involvement of the United States in the tragic Indochinese War and the critical state of the American economy," National Chairman Lawrence F. O'Brien said in a lengthy response to Nixon's speech.

"Yet in his message Friday evening President Nixon managed almost totally to ignore both issues. In what sense, then, can this message accurately be characterized as a report on the State of the Union?"

O'Brien said U.S. air support provided for Cambodia means that the limits announced by Nixon and the understanding between Secretary of State William P. Rogers and members of the Senate "are simply to be disregarded."

"What then, are U.S. objectives in Southeast Asia?" O'Brien asked. "Where are the Nixon policies in Indochina ultimately leading this country? What is the meaning of the Nixon doctrine as it applied in concrete situations?"

"How far are we now committed to shoring up the Lon Nol regime in Cambodia? How does our present air and sea defense of Cambodia contribute to our disengagement from the conflict in neighboring South Vietnam? What is the nature of U.S. military involvement in Laos?"

O'Brien said that nearly 5 million Americans are unemployed. "What hope did the President's message bring to these persons?" he asked.

"What plans did he announce to bring these persons back into the economy as productive and proud members of American society?"

He said Nixon had vetoed a manpower bill that would have provided almost 300,000 jobs for the hard-core unemployed by 1974. He said the administration "has done practically nothing" to ease the plight of unemployed workers in defense-related industries.

Skyjacker Kills Self And Injures 16 Passengers

SEOUL (UPI) — A 22-year-old jobless man armed with hand grenades tried to hijack a Korean Air Lines (KAL) plane to North Korea today, but blew himself up and injured 16 passengers when the plane made an emergency landing before crossing the border.

National police headquarters identified the would-be hijacker as Kim Sang-Tae, a resident of Kojin on the eastern coast of South Korea, 95 miles northeast of Seoul.

Kim killed himself by exploding a grenade a few minutes after the plane, carrying a total of 60 persons on a domestic flight, landed on a sandy beach near Kansong.

The explosion injured 16 of the 60 persons on board—which included four crew members, 55 passengers and a security agent. Five of the injured were in serious condition, police said.

The plane, an F27 turboprop, took off from Kangnung 105 miles east of Seoul on a regular flight to the South Korean capital.

OPERATION DRUG ALERT — Pampa's two Kiwanis Clubs and the Chamber of Commerce joined Friday to alert Pampans to the dangers attendant to the nation's current drug problem. Left to right in the photo are D. W. Bond, president of the Pampa Kiwanis Club; the Rev. Joseph Tash, chaplain at St. Anthony's hospital in Amarillo; Kay Fancher, chamber of commerce president, and John Simon, president of the Top O' Texas Kiwanis Club. Father Tash is the principal speaker at a luncheon Friday in Coronado Inn. Operation Drug Alert is a major objective of Kiwanis International for 1971. (Staff Photo)

President Pays Final Tribute To Senator Richard Russell

ATLANTA (UPI) — President Nixon led the nation Saturday in a final tribute to Sen. Richard B. Russell, whom he eulogized as a "tower of strength" to five chief executives.

The President, accompanied by his wife, Pat, made a brief, flying visit to Atlanta, going directly to the rotunda of Georgia's gold-domed capitol where the 73-year-old Russell's body had lain in state since it was returned from Washington aboard Air Force One Friday.

A hushed silence fell in the cavernous rotunda, where even the light shuffling of feet sends up an echo, as Nixon placed a wreath at the foot of Russell's open, flag-draped casket.

The honor guard snapped to attention and held a salute while the President bowed his head for about 10 seconds, holding his right hand over his heart.

After paying his respects at the bier, the President visited with the Senator's family, and then emerged from the capitol to deliver a brief but eloquent tribute to the veteran Senator who died in Washington Thursday.

day of a respiratory infection, complicated by chronic emphysema.

"I have just had the great honor to represent the people of the United States in paying tribute to Senator Russell," the President told the crowd of about 4,000 outside the capitol.

"I have laid the wreath and then I have met with members of his family. I spoke to them about what Senator Russell has meant to this country."

"Richard Russell was certainly one of the most intelligent men to serve in the Senate. I heard it said that no new member should tangle with him. Indeed few old members did."

"But what really set him apart was what we call character — character which grew up over many years, character which came from the red soil of his native Georgia... from his family... from his deep religious beliefs... from his patriotism."

The President was in Atlanta only about an hour and a half, arriving at 2:35 p.m. EST and departing at 4:03 p.m.

Britain's Postal Strike Continues

LONDON (UPI) — Angry postal union representatives denounced today as "rubbish" claims by post office officials that Britain's nationwide post office strike is beginning to crumble.

"They're playing the numbers game, that's all. It's rubbish," one union official said after an official announcement that 164 post offices were open Friday compared with 62 Thursday.

A telephone recording available to telephone subscribers by dialing the number 160 said "more than half" the nation's telephone exchanges were back at work Friday.

"Attendance in some exchanges has been 100 per cent," the recording said. It urged callers to avoid overloading circuits at peak times, but to "try dialing the exchange if you really need help."

The union maintained 200,000 of Britain's 230,000 postal workers were still off the job. Official post office figures indicating the contrary were "wildly exaggerated," union officials said.

KIWANIS SPEAKER SAYS

Individual Concern A 'Must' To Combat Narcotics Problem

By TEX DEWEESE
Staff Writer

If Pampa has a drug problem among its youth and hopes to solve it, a community-wide effort on the part of a concerned citizenry is the only way it can be whipped.

That was the message left by the Rev. Joseph Tash, chaplain of St. Anthony's Hospital in Amarillo, as he spoke on the Pampa Kiwanis Club's "Operation Drug Alert" program at Friday's joint meeting with the Chamber of Commerce in Coronado Inn.

The speaker told the luncheon audience it was his opinion the drug problem in the United States today "is a well-planned scheme to undermine the country and there is no hope unless we do something about it."

He added that by "we" he meant every person in the room and every citizen of the nation who is concerned about the youth of today.

"Those who are trying to undermine us," he said, "know that the best place to start is with youth."

"Our youth don't want it to happen. They want to be helped, but they want you to recognize them, listen to their problems, counsel with them."

"And don't get the idea drugs can't become a problem in your family. Counsel with your youngsters, understand them and help them."

The Rev. Fr. Tash cited a number of examples of the terrible results of drug addiction that have come to his personal attention in Amarillo.

He said that one out of every nine high school students in the nation today is experimenting with drugs which amounts on a national scale to about three to five per cent of all youths.

Sixty per cent of the American servicemen in Vietnam smoke marijuana, he said, and statistics show 45 per cent of these go on to harder drugs such as opium, morphine and heroin.

The speaker went into detailed explanation of the effects of various drugs on users. Heroin, he stated, was the worst. Less than two per cent of all heroin addicts ever

kick the habit, he added.

Father Tash will return to Pampa on Feb. 3 when he is scheduled to address students in Robert E. Lee and Pampa Junior High Schools.

Friday's program was opened by Kay Fancher, chamber president, and then turned over to D. W. Bond, president of the Downtown Kiwanis Club, who explained Operation Drug Alert is one of the main objectives this year of Kiwanis International.

Miami Man Found Dead In Car Of Gunshot Wounds

Funeral services for William R. "Cap" Holland, found dead in his car, of gunshot wounds, four miles southeast of Miami shortly before noon yesterday, are pending with Carmichael-Whalley Funeral Directors.

Roberts County Sheriff, Cy Carr is investigating the death of the longtime resident of Miami. No ruling had been issued by Justice of the Peace, Mildred Cunningham, last night.

He was born March 8, 1920 in Cook County, Tex., and moved to Miami with his parents in 1921. A farmer-

rancher, he graduated from Miami Schools in 1938 and married the former Verta Payne Heare, who survives, the same year.

Other survivors are: one daughter, Mrs. Wiley Bailey of Mobeetie; one son, Lewis, Dallas; his mother, Mrs. Eunice Holland, Casa Del Nursing Home, Pampa; two sisters, Mrs. Inez McCoolough, Labrador, Canada; and Mrs. Louis Bussard, Glazier; one brother, Bennie Holland, Pampa; and three grandchildren.

PANHANDLE, SAN ANGELO HARDEST HIT

Major Portion Of Texas In Grip Of Crippling Drought

By PRESTON MCGRAW
United Press International

All of Texas, except small spots in the northeastern part of the state and along the upper Gulf Coast, are in the grip of a crippling drought.

Grain is dying, cattle raisers are culling their stock and selling it and in some areas ranchers are burning the spines from prickly pear so their hungry cattle may safely eat it.

Two of the thirstiest areas in the state are in the Panhandle

and in the San Angelo sector at the edge of the Edwards Plateau.

Two of the lakes from which San Angelo gets water are dry. Lake Nasworthy, the third lake in the municipal water system, still has some water in it, but unless it rains, Lake Nasworthy will be dry by April.

Water Is Rationed

San Angelo has had water rationing for months. Nobody can water grass or trees. The last rain the city saw was last September.

The Panhandle is almost as dry but because so much land is irrigated the area is not suffering as much as sections which depend heavily on surface water.

But 1970 rainfall in Amarillo, the main city in the Panhandle, was 9.56 inches—the least since the weather bureau started keeping records in 1890. The old record was 9.94 inches in 1956, during the big drought of the 1950s. Normally, it rains 19 or 20 inches a year at Amarillo.

Seventeen miles south of Ama-

rillo, a rancher who keeps official weather records recorded only 4 inches of rain in all of 1970. An agricultural authority said a 300-mile strip of the South Plains, running from Southwest Kansas to Pecos, Tex., is in "bad shape."

Know What, But Not Why

The drought started late last summer.

Just before a cold front comes through, the wind shifts to the west and dries out the air. Then there is no rain.

In the last of 1970 was bad, the

first of 1971 was worse. Records for the first 18 days of January showed no rain in Corpus Christi, .01 inch in the South Plains, .04 inch in the Lower Rio Grande Valley and none in the Laredo-Alice-Pearsall area above the Valley.

Regional Breakdown

Taking the state by sections, this is how the drought is affecting agriculture:

East Texas — Moisture short to adequate.

North Central Texas — Soil moisture is short.

Southeast Texas and upper Gulf coast — Soil moisture short to adequate.

Rolling Plains below the Caprock — Moisture very short and badly needed for small grains.

Supplemental Feeding

Far West Texas — Dry, cold and windy weather has depleted soil moisture and caused an increase in supplemental livestock feeding.

San Angelo area — Soil moisture very short. Small grains

practically gone after being grazed.

South Central Texas—Lack of moisture is critical. Small grains continue to deteriorate.

Central Texas — Moisture is very short. Wheat and oats are dying.

South Texas—Soil moisture is very short. Watermelon and cantaloupe planting has been delayed by lack of moisture.

Northeast Texas—Soil moisture short to adequate. Small grains had good growth but need rain to keep going.

WHERE MONEY GOES

March Of Dimes Aid To Gray Countians

EDITOR'S NOTE: As Saturday brought to a close the two major March of Dimes fund drives within a week, a member of the Gray County board submitted the following information as to where the money collected last year went.

transplants which saved David Camp's life of Wallingford, Conn. came from such funds. His birth defect was corrected, but it required \$750,000 worth of grants to perfect the technique. So Gray Countians had a part in saving this little boy's life.

Mainly About People

The News invites readers to phone in or mail items about the comings and goings of themselves or friends for inclusion in this column.

- Heritage House Antiques, 2204 Coffee Open House Sunday 2 till 6 Monday thru Friday 8:30 till 3:30. Rummage sale, 321 S. Cuyler, Monday, Tuesday. Adult children's clothing, baby bed, mattress, miscellaneous items. Before and after church, eat at the Toke Cafe. Kindergarten: age 4 and 5, \$15 month. 665-4092. Mind Control Seminar: 101, Sunday, January 24, 2:00 p.m. Citizen Bank Monday, January 25, 7:00 p.m. 700 N. Frost. Garage sale - heated, 509 Texas Street, Saturday and Sunday. Members at 7:30 p.m. each Thursday at 800 W. Kingsmill. Altrusa Club dinner will be held in the Coronado Inn Starlight Room at 7 p.m. Monday.

SIXTY-FIFTH ANNIVERSARY - Mr. and Mrs. H. L. Stokes, residents of Gray County since 1927, were honored yesterday with a reception hosted by six of their 10 living children. Fifty-five children, grandchildren and great-grandchildren visited the honored couple during the occasion. They were married in Point, Tex., on Jan. 21, 1906, and are parents of 12 children. Four sons, Everett, Newton, Leon and Doll, were unable to attend the affair yesterday. (Staff Photo)

Suspicion Of Stock Fraud Slows Down State Legislative Session

AUSTIN (UPI) - The Texas Legislature has jumped off to one of its fastest starts in years, but accomplishments of the first two weeks of the session have been lost in a crowd of suspicion aroused by disclosures of state officials' involvement in an alleged stock manipulation scene.

That same incident, which has involved Speaker Gus Mutscher, Gov. Preston Smith, Rep. Tommy Shannon, D-Fort Worth, and Rep. W. S. Healy, D-Paduca, as well as two members of Mutscher's staff, is now threatening to slow the pace of the legislative work.

"You can't expect the members to do very much of anything when all they're talking about is this stock deal," one legislative leader said. News of the stock transactions which netted quick profits for those state officials involved, began as Gov. Preston Smith and Lt. Gov. Ben Barnes were being inaugurated for their second terms in office.

By Thursday—the end of the legislative work week—virtually every member in the House and Senate was more concerned with the latest events in the U.S. Securities and Exchange Commission investigation than they were with legislative problems. Mutscher's committee appointments — ordinarily a major event in opening of any legislative session — caused hardly a ripple of excitement Thursday even though the speaker changed 34 of the 46 chairmen of the standing committees.

Legislative leaders have expressed concern that as long as the stock manipulation scheme is grabbing headlines, the House and Senate will have a hard time getting members to devote their attention to the tough decisions involved with what could be a tax bill twice the size of any in Texas history. Others have expressed the idea that Republican officials are deliberately "leaking" new details of the stock fraud investigation daily in an attempt to keep it in the news and further embarrass Texas' Democrat office holders.

"Whatever is going to be done, I wish they would go ahead and do it so we could get on with our work," one legislator said. "If they have evidence of something illegal going on, they should go ahead and get it to a grand jury. If not, they should say so. This just looks like a calculated attempt to keep it in the news."

Income Tax Answers

Editor's Note - This column of questions and answers on federal tax matters is provided by the Pampa office of the U.S. Internal Revenue Service and is published by The News as a public service to taxpayers.

- Q) Who must file an income tax return this year? A) The 1969 Tax Reform Act raised the gross income levels at which returns must be filed. Previously a return had to be filed when gross income reached \$600. A single person must file if his income is \$1,700 or more. Married persons living in the same household and filing jointly must file if their income is \$2,300 or more. These totals are increased by \$600 if a person is 65 or older. Other married persons generally are required to file if they have income of \$600 or more. Q) Have you made it any easier for retired people to figure the retirement income tax credit? A) Yes, the IRS will figure the credit and the tax for them in many cases. To qualify, they must take the standard deduction and have income not over \$20,000 coming only from salaries or wages and tips, pensions and annuities, dividends and interest. Q) Does a dependent have to be someone related to you? A) No, you may claim someone who is not related to you if he or she was a member of your household and lived with you the entire year. In addition the other dependency tests such as support and income must be met. Check the 1040 instructions for details. Q) Where can I get copies of the tax forms? A) Everyone who filed a return last year will receive a package of forms and instructions in the mail in January. Extra copies of the forms and instructions will also be available at local offices of the IRS as well as many banks and post offices in January. Remember to take the blue name label off the cover of the tax package you received in the mail and put it on the return you file. This label identifies your return for speedy processing and avoids refund delays. Any corrections may be made on the label.

Pampa Youths Will Receive Awards Of Month

The January Young Texan of the Month award for Pampa and a state-wide second place honor as Young Texan of the Year will be presented to two Pampa youths at the Pampa Optimist Club meeting at 7:30 p.m. Monday at the Optimist Club Building. Mike W. Jordan, 18-year-old son of Mr. and Mrs. Joe W. Jordan, 1021 S. Dwight, will receive the January Young Texan of the Month award from George Massie, Optimist Club district governor. John McCarroll, son of Mr. and Mrs. George McCarroll, placed second in the state for the January award. McCarroll was the Pampa Optimist Club nominee for October, 1970, and district winner for January 1971.

A student council member four years, Jordan was nominated class favorite his sophomore and junior years, and was candidate for senior class president and Carnival King honors. He was sophomore class vice president and was awarded Pampa Optimist Youth Appreciation honor in the ninth grade. One of two seniors on the Harvester basketball team, this year, he earned his varsity letter last year, and has participated in basketball, football and track since the ninth grade. He was a National Honor Society member two years, as a junior and a senior, is a member of Hobart Street Baptist Church, and has been employed as a ranch hand, as a grocery stock assistant and as a pipe fitter's assistant on construction projects.

Oil Allowable Set BATON ROUGE, La. (UPI)—The Louisiana Conservation Department has set the oil allowable for February at 2,139,632 barrels daily. The figure is lower than the current level of 2,683,114 barrels which includes "zone four" in the Gulf of Mexico which is not under federal regulations.

Republicans have taken advantage of the situation to call for Mutscher's resignation, make a strong pitch for an ethics bill, and criticize Mutscher's appointment of former Attorney General Waggoner Carr to head a citizens' committee designed to help clean up the public image of the legislature. But 12 days after Carr's committee issued its report, Carr was one of the defendants named in the SEC suit alleging stock fraud. The suit contends that several state officials were given quick-profit deals to buy National Bankers Life Insurance Co. stock with borrowed money in exchange for passage of legislation to let state banks escape some federal controls.

Police Receive 3 Theft Reports

Auto tape players were targets for thefts in Pampa Friday night. Randal Reed, 1413 N. Russell and Bobby Joe Dorsey, 644 S. Somerville, both told police that someone had stolen tape players and tapes from their cars which were parked on Foster St. in the vicinity of the movie theatre. Both complainants had been in the movie between 8 p.m. and 10 p.m. Reed told police that the tape player taken from his auto was worth \$100 and placed a value of \$172 on the 12 tapes which were also taken. Dorsey said the value of items taken from his car was \$159. Another report to police was made at 11 p.m. when Mrs. Bobby Wilhelm notified them that a tape player, valued at \$69, five or six tapes valued at about \$42, and \$5 in change had been stolen from her car in the Bell Telephone parking lot. Thieves had broken a vent glass, causing \$5 damage, to gain entrance to the locked vehicle. Shortly after 11 p.m., Curtis Peercy, 1306 E. Foster, told police that his car had been burglarized. He placed a value of \$89 on a stolen tape player and speaker and listed items stolen as: tapes, \$40; tape case, \$5; vent case, \$5. His car was parked on the 500 block of North Cuyler when the theft occurred.

Apollo 14 Ready For Countdown

CAPE KENNEDY (UPI)—Project officials, unfazed by the helicopter crash of Apollo 13's backup commander, reported Saturday all was in readiness for Monday's start of the countdown for America's fourth moon landing mission. The countdown begins at 9 a.m. EST Monday and will end in the 3:32 p.m. EST blastoff one week from Sunday of Alan B. Shepard, Stuart A. Roosa and Edgar D. Mitchell. Shepard, commander of the flight, said he expects the mission will prove the most productive moon venture to date. Shepard's backup, veteran moon pilot Eugene A. Cernan, was scratched and slightly injured Saturday when his small two-seat helicopter crashed, exploded and sank in the Indian River south of here while he was making simulated lunar landings. Shepard, Roosa and Mitchell were in their quarters at the time and were notified immediately of the accident. It did not change their plans to go flying in T38 jet trainers Sunday from nearby Patrick Air Force Base. Shepard, the 47-year-old dean of the astronaut corps, said he expects to spend the week before liftoff reviewing all aspects of the \$400 million mission—"trying to tie everything all together."

Students To Protest War By Wearing Black Armbands

DALLAS (UPI)—Students in at least two Dallas high schools say they plan to wear black armbands to school Friday to protest the war in Vietnam and to test a recent ruling by the U.S. 5th Circuit Court of Appeals saying the armbands are to be permitted in public schools. School officials, however, say they will not allow students with armbands to attend class.

GRAND OPENING — Kay Graves, checker, left, and Earl Green, manager, of the new Piggly-Wiggly store in Pampa, are proud of the opening of the market in Coronado Center. The store's employees join in an invitation to all shoppers to take advantage of the high savings available during the grand-opening. (Staff Photo)

Piggly-Wiggly Adds Pampa To Long List Of Store Sites

Piggly-Wiggly Shop-Rite Foods Inc., opened a Pampa store last week in Coronado Center.

The local store joins the ranks of others in Amarillo, Lubbock, El Paso, Albuquerque, San Antonio, Dallas, Fort Worth, Galveston and Houston.

The grand opening began Thursday, and the 28 employees of the store have worked busy hours, 8:30 a.m.-6 p.m. to serve all of the store's customers in the friendly way noted by all Piggly-Wiggly stores, according to Earl Green, Pampa manager.

Brand names on the shelves of the store include Del Monte, Libby, Stokley, Hunt's, Wesson, Betty Crocker and many other guaranteed, well-known products.

The produce market is stocked with the best quality of fresh goods, and is under supervision of J. R. Moreno.

LeRoy Robinson, market manager, is in charge of the famous Piggly-Wiggly meat market choice cuts, at competitive prices, plus guarantee of quality are sold by Piggly-Wiggly.

Assistant manager of the store is Lloyd Larkins.

Manager, Earl Green, extends an invitation to all shoppers of the Pampa trade area to shop Piggly-Wiggly. Highlighting the opening are free bags of groceries, 250 grand total.

Half of the bags are slated to be given away on Feb. 1 with another drawing set for Feb. 10.

Special prices are cut to the bone, according to Green, who assures shoppers that regular

prices, two, are among the lowest offered in the area.

Green reminds grocery shoppers who demand the best quality at the most reasonable prices to remember Piggly-Wiggly, located in Coronado Center just south of the Summer-Kentucky intersection, and one block west of the Kentucky Hobart intersection.

Jaycee Week Observed Here

The Pampa Jaycees observed the Jaycee Week last week.

The Jaycees have served Pampa for 41 years. During this period, they have sponsored many programs and activities such as Community Health & Safety, Americanism and Governmental Affairs, Leadership Training, International Relations, Agriculture and Conservation, Mental Health and Mental Retardation, Public Speaking, Travel, Flying Club, Conventions and Fellowship.

The Pampa Jaycees urge young men who would like to

know more about the Jaycees to send letters or post cards to the Pampa Jaycees, P. O. Box 557, Pampa, Texas 79065.

BATON ROUGE, La. — Harold Whisenhunt, owner of a bar across the street from the Enjay Chemical Co. plant in which an explosion injured eight workers:

"I thought a truck was coming through the front door.

Head Of Easter Seal Campaign In Texas Named

Coach Darrell Royal of the University of Texas at Austin has been named chairman of the 1971 Easter Seal Campaign in Texas.

Paul Keim, Easter Seal representative for Gray County, has been notified by P. O. Seitle, Jr., of Fort Worth, President of the Texas Easter Seal Society, that Royal will lead over 35,000 volunteers in the annual appeal for funds.

The legendary director of athletics and head football coach of the Texas Longhorns, Royal rose from a small town in Oklahoma to the heights of college football.

"While I appreciate the honor of serving as the 1971 State Chairman," Royal said, "I consider it primarily a challenge — and a way to help motivate more Texans to give

By United Press International LOS ANGELES—Hippie leader Charles Manson, accused in the Tate-Labianca killings, in a "press release" blaming Americans for not showing him compassion:

"Mr. and Mrs. America—you are wrong. I am not the king-of-the-Jews nor am I a hippie cult leader. I am what you have made me and mad dog devil killer field leper is a reflection of your society."

our handicapped a better chance in life."

As State Chairman, Royal joins with 223 Easter Seal Appeal chairmen throughout Texas who are participating in the largest fund appeal ever staged by the Texas Easter Seal Society.

Last year over 21,000 crippled children and adults in Texas received rehabilitation and other services rendered by the Texas Society through 20 treatment centers and affiliated Easter Seal chapters, regardless of race, religion, economic status, or the cause of crippling.

Your Horoscope

SUNDAY, JAN. 24, 1971
Your birthday today! Your coming year is bound to be adventurous, with occasional detours and backtracking. Your main resource and center is yourself, rather than in other people. Many times you may find that you have developed in directions setting you apart from some old friends. Get deeply involved with creative ventures. Today's natives are fond of moving from place to place, generally sociable, sometimes very strongly individualistic.

ARIES (March 21-April 19): Be a trifle formal in taking part in the community's customs. Busy sets up a mostly chain of events which can be avoided. Journeys are better postponed or abandoned.

TAURUS (April 20-May 20): Emotional impulses are not necessarily your best guidance today. Make it a light-hearted, nonserious day; avoid any heavy storms. Gather old friends about you.

GEMINI (May 21-June 20): Just when people need sympathetic silence, your temptation is to say too much. Strive to keep or restore the peace, even if it means skipping your own plans.

CANCER (June 21-July 22): Somebody is apt to forget something. Double-check and remain serene. Rearrangements are complete, ending your sense of bustle. Some waste motion is inevitable.

LIO (July 23-Aug. 22): You aren't really able to keep secrets today. Favors and high expectations of friends fall short. A tidy home is a distinct asset this evening.

VIRGO (Aug. 23-Sept. 22): Check the latest information early in the day. You may want to change something. Take your time to give events and people a chance to show themselves. Relax, early with prayer.

LIBRA (Sept. 23-Oct. 22): Nobody tells you what's happening, so be alert. Your own plans, particularly for travel, should have complete secrecy. Conferences, work themselves out. Cheer up!

SCORPIO (Oct. 23-Nov. 21): This is one of those drift days in which nothing comes your way. Reflect on your progress, receive your own intuition on the next step.

SAGITTARIUS (Nov. 22-Dec. 21): Strive for dignity and don't fret about things shimmering underneath the quiet surface. Avoid any and all personal improvement. Much activity is related to material gain, long-range security.

CAPRICORN (Dec. 22-Jan. 19): It will be a coming high before you understand all that happens on this quiet but complete day. Verify facts before becoming involved.

AQUARIUS (Jan. 20-Feb. 18): Now it's your turn to be the emotional anchor for somebody. Your own self-assurance is much needed. Leave discrepancies in plan and results for another time.

PISCES (Feb. 19-March 20): Your path is best with people not sure of where you're going. Be patient while they sort themselves out. Make today a vacation, not a planning session.

MONDAY, JAN. 25

Traditional ideas, lessons from the past updated and put to use in your coming year of progress and personal improvement. Much activity is related to material gain, long-range security.

ARIES (March 21-April 19): Just when things are rolling and your enthusiasm is coming high, before you understand all that happens on this quiet but complete day. Verify facts before becoming involved.

TAURUS (April 20-May 20): If you start early, you can out do competition. Check to make sure you're included in your neighborhood's social and culture activities.

GEMINI (May 21-June 20): Monday's ideas can become Tuesday's organized ventures. Further contacts develop from properly tended correspondences, bringing a change of mood.

CANCER (June 21-July 22): Figure a way to escape overtime, extension of business into evening hours, at almost any extreme. With a bit of thought you can rearrange matters to find easier ways.

LIO (July 23-Aug. 22): Settle for a standard, middle of the road path. Explore the ideas and schemes of associates; find interesting group venture possibilities.

VIRGO (Aug. 23-Sept. 22): Trim out useless items of surplus articles; simplify procedures. Close existing troublesome details. Gather if any and friends about you for a quiet evening.

LIBRA (Sept. 23-Oct. 22): The consequences of your business and business close in on you. There's nothing like getting right down to business bright and early.

SCORPIO (Oct. 23-Nov. 21): Co-incidence is apt to bring you a windfall. Watch that your friends and acquaintances are letting your affairs alone. Take the direct approach.

SAGITTARIUS (Nov. 22-Dec. 21): Use the resources of your community's established institutions. Announce your activities in the ventures in the various places. Think about making more contacts.

CAPRICORN (Dec. 22-Jan. 19): Deal with people who control or advise at high levels; put in applications bids, petitions. There's news to think over carefully Monday evening.

AQUARIUS (Jan. 20-Feb. 18): Revisiting old activities and familiar places brings fresh inspiration and broader perspectives. Make a formal effort to become or improve your status.

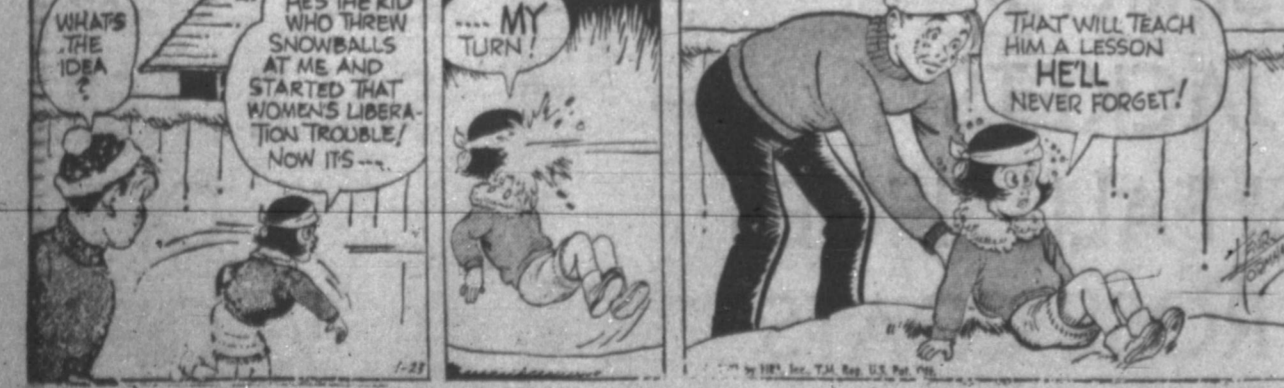

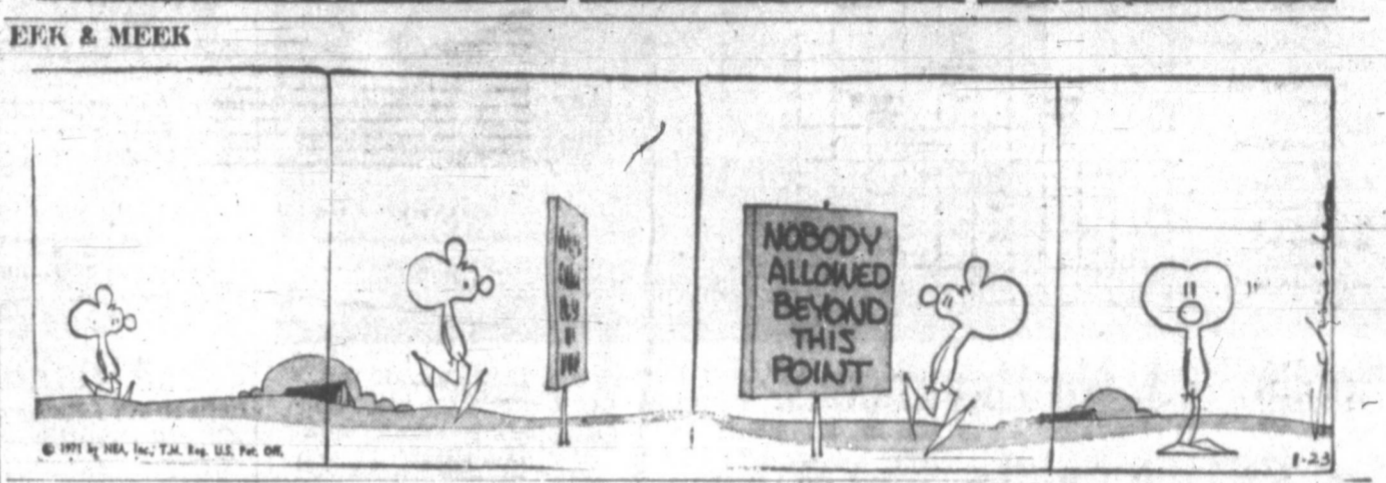

PISCES (Feb. 19-March 20): Everything that has been said will be to do more listening. Some people surprise you by having switched sides. An evening of study, prayer shows you what to do later.

WORLD ALMANAC FACTS

The World Almanac notes that President George Washington's Farewell Address in 1796 gave strong warnings against permanent alliance with foreign powers, partiality toward favorite nations, big public debt, large military establishment and devices of "small, artful, enterprising minority" to control or change government.

Red Cross News

By LIBBY SHOTWELL

Executive Secretary ARC Mrs. Johnny Syper RN and school nurse for Lefors Schools has completed two classes in Care of the Sick and Injured with the following receiving their cards and pins. Rhonda Brownfield, Connie Finney, Debbie Howard, Pam James, Jan-McPherson, Lawassa Ring, Kathy Sierman, Diane Tarbet, and Ann Vincent. In the other class were the following: Gay Cady, Marie Cady, Alpha Elliott, Texann Helfer, Debi Mayhen, Theresa Sierman, Niona Nickel, Charon Sissel and Sabrina Winegeart. In this class the girls learned to read and clean thermometers, give bed baths, prepare a meal for a sick person, make a bed with back rests, make a bed with a sick person in it and many other necessary things for a sick room.

Mrs. James McMurtray RN who teaches in White Deer and who is the school nurse for White Deer and Skellytown schools will begin her Home Nursing Class next week. Mrs. McMurtray has been teaching Red Cross Nursing for over 20 years and she reports that this is one of the fine things she does for her girls during the year. Mrs. McMurtray told of a young mother from the community who came to see her and she was wearing her Red Cross Nursing pin she received a number of years ago in school. She still prizes it and wears it proudly.

Thanks to Celanese Corp of America for loaning our chapter the slides on "Poisoning" that were used by the Standard First Aid Class taught in the Miami Schools and to the community of Canadian. J.D. Ray FAI tells us he has 21 in his class at Canadian Ray drives to Canadian each Tuesday evening to teach the class.

Mrs. Charlene Frasier and Libby Shotwell are working hard on bringing the Membership rolls up to date. If anyone would like to have a 1971 membership card from Red Cross they should come by our office and we will make out one for them. The Red Cross

takes one-fifth of the amount given to the UF as their contribution for 1971.

Celanese Corp of America have finished a Standard First Aid Class in the Safety Dept. with Jim King, Roscoe Mounce, W.C. Puryear, Aubrey Helms and Marvin Cournette, all First Aid Instructors for Red Cross doing the instruction. We have mailed the first aid cards to 36 employees of the firm.

We wish to thank the family of Jerry Jones who passed away two weeks ago for remembering our organization for furnishing Gamma Globulin to their son for 11 years. This was done at no cost to the family and was of a doctor's statement that there was a need. Derivatives of blood may be used by families if a doctor states there is a need for the use of the derivatives. A chapter does not have to be on the Blood program to receive it's help.

If Apollo 14 Is Not Launched Jan. 31 Crew Will Get Another Shot March 1

CAPE KENNEDY (UPI)—If Apollo 14 is not launched by 7:12 p.m. EST Jan. 31, its pilots will have to wait until March 1 to get another shot at the moon.

Alan B. Shepard, Stuart A. Roosa and Edgar D. Mitchell are scheduled to blast off at 3:23 p.m. Jan. 31, but launch crews have 3 hours and 49 minutes of leeway should weather or some technical problem cause a delay. The last hour of the launch period is after nightfall.

But because Apollo 14 is programmed for only one landing site on the moon, and because special sunighting conditions are needed for visibility during the descent and surface operations, there is just one optimum launch opportunity a month.

The next favorable launch date is March 2. However, a high priority part of the mission is to photograph a future landing area near the crater Descartes and to do that, Apollo 14 would have to be launched March 1 and the astronauts would spend an extra day in lunar orbit.

A launch March 3 also is a possibility, although sunlight conditions would not be as good at the landing site and the Descartes photography would be missed.

If those launch opportunities are missed for some reason, Apollo 14 could be launched on March 31 or April 1, but Descartes photography would not be possible.

Had your ad been here it would have been read. You are reading this one!

YEAR-OLD PAYROLL
 MADISON, Wis. (UPI) — Twenty-six thousand state workers received paychecks Thursday dated a year ago. A computer foulup put a Jan. 21, 1970, date on the checks instead of the 1971 date.
 State Treasurer Charles Smith said he called all the banks in the area and advised them of the error. The checks are good anyway, Smith said.

WASHINGTON — Sen. Robert C. Byrd, who defeated Sen. Edward M. Kennedy for assistant Senate Democratic leader, when asked if it was not macabre to base his strategy upon the proxy vote of dying Sen. Richard B. Russell:
 "When you count votes, you count to win."

The nylon Shoulderbrella, designed by that innovator of umbrellas, Polan Kantz, is easy to carry and almost impossible to lose. As an courtesy as today's shoulder bags, it's handsomely designed with unusual root wood knot handle and gold link double chain and leather shoulder strap.

Umbrellas Steal Fashionable Scene

NEW YORK (NEA) — Umbrellas have become as much a part of the fashion scene as any other accessory. But they seem to have a way of getting lost.
Polan Kantz, imaginative umbrella designer, has attacked that problem in a way that adds security and dash.
His "Shoulderbrella," like today's fashionable shoulder bag, leaves your hands free. It swings from your shoulder on a chain and leather strap and adds flair to your costume. And since it hangs on your shoulder you're less likely to leave it on a train or bus.
Equally clever is the "Teeny Popper." A super lightweight telescoping folding umbrella, only 11 inches long in its sheath, it can be tucked neatly into a handbag. Still it stretches out to a fully protective size. And it is made in solid neutrals, high-fashion colors and several prints.
Another compact umbrella is the "AutoBrella." Made for both men and women, it is

known as the instant umbrella because it opens automatically from a completely closed position.
For the devotee of "gotogethers" there are umbrella and scarf sets in an exclusive new polyester fabric. Many come in handsome Persian and Oriental designs.
Want an umbrella that will accommodate two in the rain? Whether your companion is a pet, a child or a friend, the "Longuette," an umbrella with a new rectangular shape, provides ample coverage. It is the last word in high-fashion umbrellas and the perfect accessory for the new longer hemline.
There are umbrellas with carrying cases in fringed shag, nylon and vinyl prints to coordinate with the new suede craze, buckskin and snakeskin fashions. Many of the brollies have beautiful shapes, such as the famed Tiffany "lampshade" umbrella.
Everyone can duck the rain in style.

Upsilon Chapter Attends Program On Vocabulary

WHEELER (Sp1)—The Upsilon Iota Chapter of Beta Sigma Sorority met in the home of Mrs. Jim Hensley with Mrs. Ray White as co-hostesses. Program was presented by Mrs. W.H. Riley on the subject of voice and vocabulary. The speaker discussed voice training and the foundation of a good vocabulary and used a quote from Shakespeare: "Mend your speech lest it mar your fortune," and also "The concept of man prior to speech is meaningless" by Ludwig Lewisohn.
The Rituals of Jewels Degree was given to Mrs. Van Coe, Mrs. Bert Yeager and Mrs. Lloyd Anderson.
A gift from the sorority was presented to Mrs. Bert Yeager who is moving to Corpus Christi.
The hostesses served refreshments from a table centered with an arrangement of large red poppies. Favors were date books.
Members present were Mmes. Kenneth Graham, W.H. Riley, John Vineyard, Don Biggers, Daniel Clemmer, Elsie Austin, Bob Patton, Gary Hollis, Gene Lewallen, Van Coe Bert Yeager, Lloyd Anderson and the co-hostesses, Mrs. Ray White.

Republican Women Stress Youth Vote

WASHINGTON (UPI)—Mrs. Anne Armstrong, new top woman on the Republican National Committee, will concentrate on the young as well as those of her own sex in trying to attract new support for the party.
Mrs. Armstrong, 43-year-old wife of a wealthy Texas rancher, has been named co-chairman of the committee along with Sen. Robert Dole of Kansas and Thomas Evans of Wilmington, Del.
Mrs. Armstrong said she plans to be especially active among youth-bringing experienced as the mother of five ages 14 through 19. She bears strongly in mind that the voting age for national elections has been lowered to 18.
But her main focus will be winning female supporters for President Nixon. The outlook may be a little rosy for her now that the White House has conceded that it should put more women in top federal jobs.
She worked her way up through party ranks and in 1966 became a national committee-

woman-for Texas, a state where Republicans have long been in the minority.
Slim, dark-haired with blue eyes and a smiling, convincing manner, Mrs. Armstrong was born and reared in New Orleans. She attended school in the East and was graduated from Vassar with a B.A. she is a Phi Beta Kappa.
right now she is looking for a place to live in Washington, with her husband planning to commute from Texas to visit her.

Springy Touches Decorate Rooms

NEW YORK — Place cubes under the window for a sit-and-store spot... divide with a screen and reap extra surfaces... make a bulletin board out of felt and yardsticks.

These are just three of the many room-decorating ideas suggested by "Seventeen" Magazine's readers and featured in the January issue. The girls' offerings range from space-saving concepts to dorm prettifiers.
Widen a window view with two double cubes placed underneath and topped with pillows. To carry this idea further, frame the entire window in cubes; match walls to shades with stick on dot-and-dash vinyl.

Screenery comes to the rescue of a too-square room. Make a great divide and use one slide of the screen for fashion and accessory hangups, the other for a furniture backdrop.
Stack two trunks in front of the screen for a zany dressing table with built-in storage space.
Clash lively hues to turn everything on; wrap the screenery in outdoorsy gift paper; paint trunks shocking pink; add bright plastic pillows and tables.
Create cheery catchalls with paper walls is blooming vinyl. Use extra cuttings to make matching bags to hang on the closet door.

Progressive HD Has Travel Tips

Progressive Home Demonstration Club met with Mrs. Lazetta Grant, 1430 Williston, recently for a program planning session and discussion of travel tips.
Mrs. B. F. Dormian reported on club programs through June. Mrs. G. B. Hogan, Mrs. E. L. Trumm, Mrs. E. P. Tremplin and Mrs. Fred Symonds were selected to attend two Texas Home Demonstration Association workshops. Members also plan to serve refreshments this club season for Senior Citizens.
Jimmie Lou Wainscott gave the program on "Packing to Travel". Her assistant, Jana Cole also attended.
Members present were Mmes. Hogan, Trumm, Tremplin, B. G. Ward, Audria Murry, Symonds, Dormian, Grant, D. A. Rife, H. E. Peoples, and Mary Alice Taylor, a guest.
Mrs. Irene Humberston will host the next meeting at 1:30 p.m. Feb. 2 at 314 W. Browning.

Parisian Designers Shelve Midi Length

PARIS (UPI) —Paris banished the leggy look for winter but it will stride back on the scene in a limited way come spring and summer.

French designers will open their spring collections next Monday and the advance word is the midi and maxiskirts are to be shelved for the warmer weather. But no, the mini is not back with a great sweep.
Most houses are creating dresses about the "Chanel length," just below the knee, because shorter skirts are cooler for the new season than the leg-hiding midis and maxis. The length is named for Coco Chanel, the French designer who died Jan. 10. She clung to a classic length no matter what other designers did.

As for the pants trend, Paris plans to show the leg almost completely, but more for amusement than for a basic fashion. Silk and velvet short shorts of the miniest of lengths for evening are said by couture sources to be in the shows of Jean Patou, Ted Lapidus, Torreante, Andre Courreges and Jerreane Lanvin. Discreet daytime versions are even promised for the Hubert de Givenchy collection, disguised a bit by skirts for women who've long since passed their teens.

Madeleine de Rauch, a more conservative designer, promises to display shorts only for sportswear. Marc Bohan of the Dior salon insists that short shorts belong only on a vacation wardrobe, not on the street.
Most of the Paris designers have sworn off long trouser suits and knickers.
A third trend (after the Chanel length and the short shorts) is the revival of vivid colors, moving away from the muddy wines and rusts.
Boots are gone and several salons still are determined to revive those platform soled shoes of the 1940s.
Some advance news from the individual salons:
—Marc Bohan at Dior: skirts just below the knee. No more sad colors. I wish to

rejuvenate women by 10 years."
—J. W. Crabay at Lanin: "Tiny shoulders, natural waistline, culotte skirts, skirts just below the knee... shorts for sports and for dinner. No more boots but dark stockings with flat shoes for day, higher heels for evenings."
—Yves St. Laurent: "Half the collection is long, half is short. Women can choose."
—Courreges: "Casual short clothes for the young, a sensible short length for others."

PERFECT TRAVELING ENSEMBLE

Designed to complement each other, this loose-fitting jacket and slim dress can be worn as an ensemble... so perfect for traveling! Or if you choose, the jacket can be worn with other dresses. The two-tone dress is charming when worn by itself. This one pattern can do wonders for your wardrobe.

Consult the Fashion Coordinator included in each Young Original Pattern for fabric, color and accessory suggestions.
B-133 with Photo-Guide is in Sizes 8 to 18 (bust 31 1/2-40). Size 10, 32 1/2 bust... jacket 1 1/2 yards of 45-inch; dress, 3 1/2 yards.
Send \$1 for this pattern to: YOUNG ORIGINALS (Pampa Daily News), P.O. Box 438 A, Midtown Station, New York, N.Y. 10018. Print name, address, with zip code, pattern number and size. Add 25 cents for first-class handling.

Articles Notice First Family's Social Status

By United Press International
The White House gave a big buildup to an "intimate" portrait of the "Real Pat Nixon" by Jessamyn West in the current issue of Good Housekeeping magazine.
The First Lady's staff director, Connie Stuart, went out of her way to call newsmen's attention to the article by President Nixon's cousin.
But the White House was not so enthusiastic about Life magazine's picture story this week on Tricia Nixon and her beau, Edward Finch Cox.
The Life article is titled, "For Tricia and Ed It's No Secret." It tells of their romance and the White House evasiveness on whether they're engaged.
But it also quotes Cox, a former Harvard law student and one-time Nader's Raider, as saying: "People can think what they will but I better keep my sense of humor because I'm going to be seeing Tricia a lot from now on."

WORLD ALMANAC FACTS

The first white settlement in the United States north of Florida was on Neutral Island near Calais, Maine. The World Almanac recalls that it was founded in 1604 by Pierre du Guesat, Sieur de Monts, a French explorer. The settlement was on the St. Croix River bordering New Brunswick, Canada.

Go in elegance in the new knit winner (left). The rope shoulders and deep center vent are important features of this suit. The long sweep of the lapel and the single-button closing on this double-breasted outercoat (right) is broader make for a subtle accent. All wool, nubby knit pockets, it boasts a double-breasted for extra warmth and has straight flap pockets. It boasts a high center vent for added mobility and comfort and will take the active young man in style wherever he goes. These designs are from Michaels/Stern.

Knit To Suit Active Men

NEW YORK (NEA) —fabrics and tailoring techniques before putting knits into the line," said Max Eisner, fabric designer for the firm. "Our company has been manufacturing knitted suits and sportcoats successfully and they are really catching on."
A knitted suit for every life style is the way he sees it. Double knits are for the traveling executive who finds hopelessly wrinkled suits opening his luggage. Double knits are the comfortable and convenient answer for the active man who resents having his sportcoats live at the cleaners instead of on his back. Double knits are for the man who mixes and matches his daytime and evening lives and needs clothing that can double in brass, neatly at every turn.
Featured in knits this year are suits, sportcoats and even outercoats.
One manufacturer who got there first is Michaels—Stern of Rochester, N.Y., a company that has been in business since 1949.
"We put a year of research into the improvement of knitted

wardrobe. There are sportcoats with shaped body lines, patch pockets, belted back and eye-catching gold buttons. A nubby wool knit outercoat will keep a man warm and fashionable. A pin-striped, double-breasted knit is the perfect suit for the big business decision maker who can't decide what to wear.
Finally, female freedom fighters have turned their husbands into male liberationists, too. If a woman can dress in comfort, look put-together, travel wrinkle-free and in style, why shouldn't her husband have the same privileges?

The Pampa Daily News

A Watchful Newspaper EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE Our Capsule Policy

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

The Mellowed Marxists

How far the Communists have "mellowed" is being observed, with not a little dismay, by American business firms with investments in Chile.

When Will They Learn?

It's a rare day that another report does not come in from some part of our nation, telling of the death of another youth because of drug abuse.

How Valid An Assumption?

The Council for Basic Education, a private, nonprofit organization in Washington devoted to combating the insidious influence of Dick and Jane and the look-say method of learning to read, has given its cautionary stamp of approval to Sesame Street.

As almost everyone knows by this time, Sesame Street is the immensely popular educational television program initiated last year to teach disadvantaged children of preschool age.

H. L. Hunt Writes

STRIKES AND RIGHTS

The already imperilled British economy and the hard pressed British citizens who have been backed to the wall by the idiotic excesses of socialist governments received a near fatal blow the past week through concerted wildcat strikes which disrupted industry, suspended electrical power to homes and generally played hob with the economy.

The British House of Commons, acting for once in a constructive mood, passed sweeping labor reform legislation designed to bring certain excesses of the British labor unions and their total disregard for the public interest into line.

While we may praise the constructive action of the British Parliament, we need look to the state of labor laws in Republic U.S.A. Laws enacted 35 years ago do not serve the present needs of our nation.

Warning: Eating May Be Hazardous to Your Health

The Rearview Mirror

ALTHOUGH CITY politics in Amarillo already have begun to stir for the April elections, there is little or no talk about possible candidates for approaching vacancies on the Pampa City Commission.

Votees here will go to the polls April 6 to elect a mayor and two city commissioners. The terms of commissioners George E. Cree Jr. in Ward 1 and Leo Braswell in Ward 3 expire this year.

Commissioners Hugh Burdette in Ward 2 and Arthur J. Rohde in Ward 4 have another year to go before their terms run out. Burdette has been unable to attend city commission meetings during the past several weeks due to illness. He is currently confined to a Dallas hospital.

Mayor Milo Carlson's current term of office expires the first week in April. There has been no public word from any of the three city officials, whose time is running out, about their future political plans.

It's almost a safe bet any one of them could run for re-election and make it - providing a Knight in Golden Armor doesn't appear with a promise to abolish all taxes and pay the City Hall tab out of his own pocket.

Off hand, it might be expected all three men whose terms expire April 6 would want to stay on and see the completion of a big job they helped to start - construction of the M.K. Brown Municipal Auditorium. It should be finished by January 1972, perhaps sooner.

Those rumors floating around about Cabot Corp. getting ready to establish a four-day work week in all departments are evidence of how wild stories can get out of hand. Actually, there have been one or two four-day work weeks recently in certain areas of the Cabot Machinery Division.

Your Dental Health

By Dr. William Lawrence... Walk to Health And Ripe Old Age... Dear Dr. Lamb - While on a visit in Orlando, I read your column (Walking, Lose Those Pounds). I am 53 years old and started walking five months ago, a mile in the morning, a mile at night. When I started walking, I weighed 204 pounds, I now weigh 185 pounds, and I enjoy every minute of it.

Dear Reader - Thank you. There is no good reason why any other person who can walk can't accomplish the same thing you have. The key is consistency. One could walk one-half mile four times a day if it were more convenient.

At the meeting last Tuesday night the major portion of the five hours was spent listening to statements and discussing the length of boys' hair and pantsuits, etc. All real earth-shaking stuff. The forum is open to anyone who cares to argue that the school board is capable of holding a short meeting - like that special session late Wednesday afternoon when it took board members only a few minutes to reach a major decision without any public discussion.

Wit And Whimsy

Be honest: You hate to retire because you'll never find a softer spot to loaf in than the one you occupy now. The amount of soap used decreases in geometric proportion to the number of small fry in the family. In no living bird are teeth present, with the exception of the zoo ostrich who swallowed his keeper's dentures. Neighbors were invented to give the people next door something to talk about. Surest cure for a potential food faddist is to try one of those ground-nut-and-alfalfa "chops."

THE GLOBAL VIEW

U.S. Relations With West

Germany Are Deteriorating

By LEON DENNEN NEW YORK (NEA) - Is there a crisis of confidence in U.S. relations with West Germany over Chancellor Willy Brandt's policy toward Russia? Bonn denies it and so does Washington. Yet evidence is increasing that diplomatic relations between the two key NATO allies are deteriorating.

There is and always has been a high degree of agreement (between the U.S. and West Germany,) said Brandt's spokesman in Bonn. Secretary of State William Rogers also denied, in public statements, that President Nixon was disturbed by Brandt's Ostpolitik.

Notwithstanding, despite the official denials, a question mark has been placed behind U.S. endorsement of Bonn's Eastern policy. Some of President Nixon's top foreign policy advisers, including Henry Kissinger, are deeply concerned about the long-range implications of Brandt's frantic efforts to seek agreements with the Communists.

Will Makers Of Cigarettes Switch Now To Marijuana?

By PAUL HARVEY Wall Street scuttlebutt says some cigarette manufacturers are already geared up that they are awaiting only a legislative green light to make and market in your corner store marijuana cigarettes.

Long-range effects there is no way yet to anticipate. But the pot-smokers who have insisted it's no worse than alcohol may be right. The vulnerability of that defense, however, is that alcohol kills a mighty lot of people every year.

FUNNY BUSINESS - I'M GOING TO PUSH THE "TOTAL" BUTTON NOW - Perhaps you'd like to sit down?

HOW TO ADDRESS OUR LAWMAKERS - You may want to write your senators and representatives in Washington and Austin. Here are their addresses: STATE Rep. Phil Cates, House Office Bldg., Austin, Texas. Sen. Max Sherman, Senate Office Bldg., Austin, Texas. FEDERAL Rep. Bob Price, 607 Cannon House Office Bldg., Washington, D.C. 20515. Sen. John Tower, Senate Office Bldg., Washington, D.C. 20525. Sen. Lloyd Bentsen, Senate Office Bldg., Washington, D.C. 20525.

Today's FUNNY DENTISTS OPERATE FILLING STATIONS - Today's FUNNY will give \$1.00 for each original 'funny' used. Send yours to: Today's FUNNY, 1200 West Third St., Cleveland, Ohio 44112.

Agriculturally Speaking

By FOSTER WHALEY

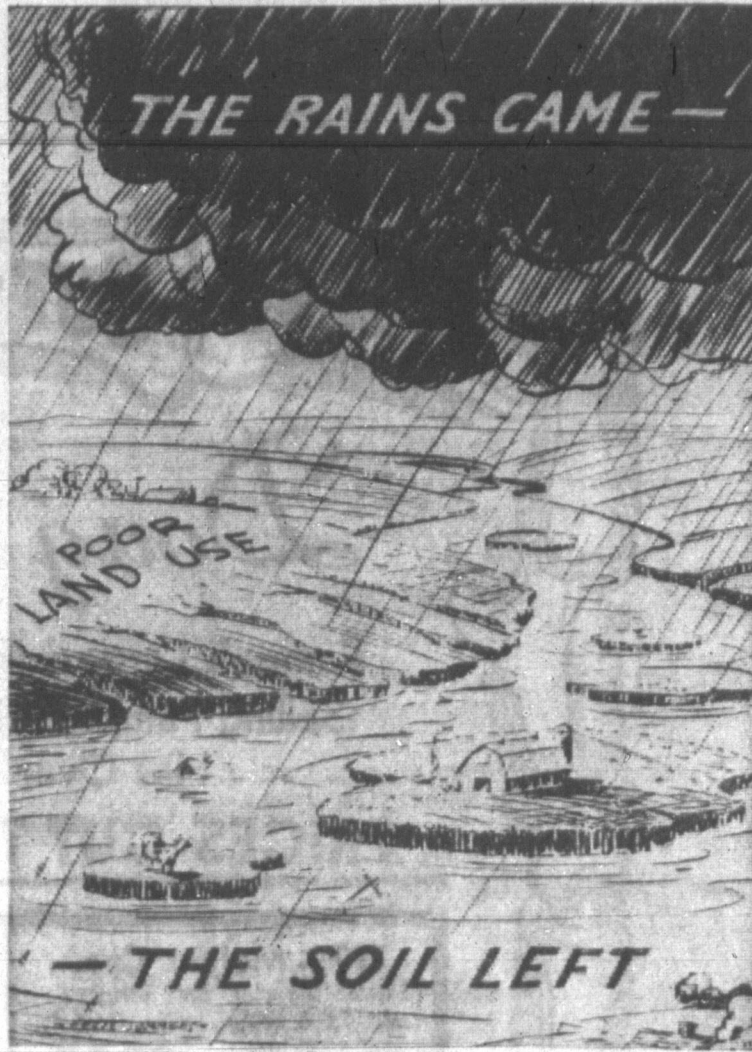

A few weeks back we mentioned the fact that anyone purchasing lightweight calves, at that time, would look like a sharp operator if they had a home for these cattle and would market the cattle after mid-year. We further mentioned the fact that the statistics on cattle as far as placements on feed and otherwise looked very good. However in our last two articles we were rather pessimistic about the first six months of this year as far as fat cattle were concerned. We mentioned the fact that cattle would have to go up \$2 per hundred to get a lot of people out of the red ink. Here of late, the market has taken a decided jump. Although the market has made a nice recovery the last month, we still can't see anything spectacular in a rise within the next six months on finished cattle. We think the stocker operator will certainly be in the saddle as we predicted earlier. But, we think, the feeder will continue to be in a straight jacket. Fat cattle will go up one dollar and stockers seems like they go up three. This leaves the feeder in about the same position he was in before the fat market went up. One thing that has been operating spectacularly in the futures market — there has been some wide swings and we think you will see some profit taking over the next few days in the futures market.

A very recent 22-state Cattle-on-Feed Report was extremely optimistic as far as cattle on feed was concerned. But, my personal opinion is that the speculators might be too optimistic about the statistics on the cattle when they should be looking at the economic conditions as a whole. We will give you some date from the 22-state Cattle-on-Feed Report which does look very good. Cattle and calves on feed for slaughter market on Jan. 1, 1971 in 22 major feeding states was estimated at 12,157,000 head. This was three per cent below a year earlier. There were 7,919,000 cattle and calves placed on feed October through December in the 22 states. This is a decrease of six per cent from the same period in 1969. Anticipated marketings for the first quarter of 1971 on finished cattle are expected to be one per cent lower than during the same period last year. Although I have not seen a breakdown on the cattle placements on feed during the last quarter for the corn belt states, I would anticipate their placements dropped rather drastically. Actually placements were up in Texas by nine per cent during the last quarter of 1970. Texas had almost one-and-one-half million cattle on feed as of Jan. 1.

3.76 in '76
A program to increase Texas Agricultural income by more than a billion dollars by '76 was announced by John E. Hutchinson, director of the Texas Agricultural Extension Service, in January of 1970. This goal calls for 3.76 billion in total cash receipts by the end of the 1976 crop year, not including government payments, and was determined from projections by

Extension specialists and individuals in the agricultural industry. A committee of agricultural economists with the Extension Service studied past production records and made projections for 1976, based on current trends and expected improvements in technology and marketing. During this week a statewide effort is being made by the Extension Service and the Program Building Committees over the state of Texas, to focus on this goal that has been set on the state level through the County Program Building process.

We thought you might be interested to know how Gray County will share in this increase in agricultural income. It has been projected through our local Gray County Program Building Committee and yours truly, that Gray County will have an agricultural income by 1976 in the amount of \$27,176,000. Now this is an increase over our average income for the years 1968, and '69 by some \$14,357,000.

'Conservation'

Panhandle Water

By FELIX W. RYALS

A number of farmers and ranchers in the Carson, Gray, Roberts County area have permits from the Texas Water Rights Commission to appropriate (use) water from streams crossing or originating in the three County area. The terms of the permit allows them to capture and use a stated number of acre-feet of water each year. The permit also requires the filing of a report each year with the Texas Water Rights Commission. The report explains in detail how much water was used, the crops irrigated, the acres irrigated.

Failure To Report Basis For Cancellation, a review of the water appropriation permits is made each year. A permit holder must use the water, if the water is available, and then have his permit cancelled for non-use or failure to report.

The Texas Supreme Court upheld the constitutionality Jan. 13 of a state law to cancel water use permits whenever the owners fail to use the water for a beneficial purpose.

The court reversed a civil appeals panel and affirmed the ruling of the trial court in a case filed by the Texas Water Rights Commission.

The commission held a hearing and canceled the water permits of L.A. Wright, Myrtle Wright McNary and George T. McNary, who held permits granted in 1918 for the use of water from the Rio Grande.

SAN FRANCISCO — Russ Revere, an assistant at the marine biology station at Bolinas Lagoon, reporting on volunteers' efforts to keep the San Francisco Bay oil spill from affecting the lagoon, last nesting site of colonies of great blue herons and white egrets: "The operation has been successful so far. We'll just have to wait and see if it works."

The permits were used until 1954, when a flood washed out the irrigation pumps on the river, the pumps were never replaced and the permit holders never used water again from the Rio Grande, the evidence showed.

The legislature assed a law in 1957 to cancel water permits which haven't been used in 10 years.

While the civil appeals court called this a retroactive and unconstitutional taking of a property right, the Supreme Court disagreed saying that mere retroactivity of a law is not enough to invalidate it.

The permit holders were given a reasonable time to protect their interests, the court noted, citing other instances in which retroactive laws were upheld.

The court then stated the opinion that the disputed water permits were grants to use the state's water only so long as it was actually used for a beneficial purpose.

Farmers can deduct costs of terracing, planting windbreaks, and with a new ruling, the cost of an irrigation ditch. The maximum deduction for one year is 25 per cent of the gross income from farming. But the balance of the cost can be carried over to tax returns you file in future years.

There is a change in capital gain treatment of income from sale of cattle held for breeding or dairy purposes, to qualify on your 1970 tax return, cattle must have been held at least 24 months for such purposes. Keep good records on replacements to breeding or dairy herds to avoid questions.

Was any of your land taken for a highway in 1970? The time limit has been extended to replace it with other property to avoid tax on the profit. The time limit was one year from the end of the year in which your land was taken. Now it's two years — until the end of 1972 for land taken in 1970.

Agriculture For 1971 Theme For Amarillo Conference

"Panhandle Agriculture in the 1970's" is the theme of an upcoming conference in Amarillo which should be of interest to all agricultural producers and agribusinessmen in Gray County, announces County Agricultural Agent Foster Whaley.

The conference will be held on Feb. 5, 1971, at the Quality Motel, Interstate 40 East, and will begin at 9:30 a.m.

W. B. Griffin of Borger chairman of the Agricultural Industry Task Force of the Panhandle Economic Program (PEP), will chair the program. The conference is being sponsored by PEP and the Texas Agricultural Extension Service.

Following a welcome by Leo Forrest of Hereford, PEP chairman, a top level administrator with the USDA Agricultural Stabilization and Conservation Service will discuss "The Latest, Straight from Washington."

A panel made up of representatives of various lending institutions will then discuss "Money for Agriculture in the 1970's." On the panel will be Edd McLeary, Dimmitt banker; Erbin Crowell, Federal Intermediate Credit Bank, Canadian; Harold Stevens, Federal Land Bank, Dimmitt; and Lynn Futch, Farmers Home Administration, Temple.

Speaking after the noon luncheon will be Hal Mayfield of Amarillo, account executive with the Rosenwald Agency. His topic will be "What People Think (About Agriculture)."

The afternoon session will begin with a farmer's viewpoint of agriculture in this decade. Martin Gossett of Dumas will discuss "As the Farmer Sees It."

DESSERTS:
Billionaire Pie 30c
Coconut Custard Pie 25c

The Lighter Side

By DICK WEST

WASHINGTON (U.P.) — "Have you noticed that the quality of lying in America appears to be deteriorating along with the rest of the environment?" a disturbed friend of mine asked the other day.

His question was prompted by a news dispatch announcing the winners of the annual Burlington, Wis., Liars' Club contest.

"Maybe I'm just being nostalgic," he said, "but I felt the overall falsity of the award-winning lies was far below the towering mendacity that great liars used to reach in the old days."

My friend was right, of course. The lying you hear nowadays rarely rises above the level of mere humbug of the type that daily fills the pages of the Congressional Record.

The Burlington Club, for example, awarded an honorable mention to this entry: "New York State has such wonderful fishing that I have seen a man dislocate his arm trying to describe the fish he caught."

Pretty Pale Stuff
As material for a television comic, okay. But as a lie, that is pretty pale stuff. You can find better prevarication in nearly any of last year's campaign speeches.

Its main weakness lies (AHEM-) in its wholesomeness. A good lie must have elements of malice, deceit, hypocrisy or quackery. Otherwise, it never gets out of the fibbery class.

How, then, does one account for the low estate to which lying has fallen? Is fabrication suffering from an outbreak of honesty?

Negative.

If that condition prevailed, there would be a slump in the quantity as well as the quality of lies. And to my knowledge, lying is as widespread as ever, if not more so.

Lying is Hard Work

The truth about lying is that artful lying is hard work. It taxes the brain to lie well. Consequently, the younger generation is inclined to "tell it like it is."

Children growing up in our permissive society simply are not motivated to become good liars. Catch them doing something wrong and they will either offer some lame alibi or confess. Which is an easy way out.

Along with such other skills as glass blowing and egg candling, lying is dying. The first rate liars of yesteryear are retiring or expiring and no new ones are coming along to replace them.

America's failure to produce adroit liars could have dire results. For a few more years we'll be unable to hold our own in international diplomacy.

COLOMBO, THEIR HERO

NEW YORK (UPI)—Joseph Colombo, reputed organized crime figure, has been named "man of the year" by the Tri-Boro Post, a weekly newspaper. The newspaper is considered in Italian-American circles a spokesman for the Italian-American Civil Rights League, of which Colombo's son, Anthony, is a vice president. Colombo was convicted of two counts of perjury last year. He faces up to five years in jail on each count when sentenced Feb. 25.

Mutscher Suffers Loss

Speaker Gus Mutscher, who bought some of the stock in the National Bankers Life Insurance Co., but says he suffered a loss rather than making a large profit as did some of his associates: "The aspect we were involved in was a completely legal transaction, and we are not a party to any suit."
