

Red H-Bomb Blast Claim Is Confirmed

WASHINGTON (AP)—The United States confirmed today Russia's boast of having touched off a hydrogen explosion but implied this country has a 2-year lead in the race to perfect the most awesome weapon known to science.

Whether either country has developed a true H-bomb—that is, a device compact enough to be carried aboard a warplane—remains unknown to the public.

The Communist newspaper Pravda said in Moscow late last night "the explosion of a type of hydrogen bomb was carried out with experimental aim."

Chairman Lewis Strauss of the Atomic Energy Commission (AEC) said early today U. S. atomic sleuths had detected a Soviet blast eight days ago and then later determined that both conventional and H-type reactions were involved. He said U. S. atomic tests in the Pacific in both 1951 and 1952 involved similar reactions.

There was no immediate explanation why the United States waited for the Russian boast before putting out its own announcement.

Pressure has been mounting in Congress and elsewhere for President Eisenhower to tell the world more about the status of the U. S. atomic weapons program.

That pressure is certain to build up even more now.

President Eisenhower had no

comment on the Russian announcement.

Eisenhower received details yesterday at a conference with Strauss and C. D. Jackson, White House adviser on psychological warfare.

Speaking yesterday in New York, Eisenhower said a proper and decent living standard was a better defense against Communism than "any bomb of whatever kind."

The Moscow announcement said that Soviet possession of the H-bomb offered no cause for alarm among peoples of other countries. It called again for international acceptance of a Russian disarmament plan including a ban on atomic weapons.

The Russian disarmament plan proposes a one-third reduction in conventional arms by major powers and a ban on atomic and bacteriological weapons. Western nations object that there is no provision for adequate international inspection to check on whether the projected ban on atomic weapons was being observed by Russia.

The United States has long advocated international control over atomic weapons with a system of international inspection.

Strauss' statement, issued shortly after midnight, said:

"The Soviet Union conducted an atomic test on the morning of August 12. Certain information to this effect came into our hands that night. Subsequent information on the subject indicates that this test involved both fission and thermonuclear reactions."

"Thermonuclear" is the word scientists use to describe a hydrogen explosion. Unlike conventional uranium bombs, which produce their energy from the fission or splitting of atoms, the hydrogen bomb would get its explosive force from the fusion of hydrogen atoms to produce helium.

Scientists have said that the only way to produce the terrific heat required to start this fusion process would be by the detonation of a conventional atomic bomb.

That might account for Strauss' reference to "both fission and thermonuclear reactions."

"It will be recalled," Strauss continued, "that more than three years ago the United States decided to accelerate work on all forms of atomic weapons. Both the 1951 and 1952 Eniwetok test series included tests involving similar reactions."

While there was no official elaboration, this seemed to imply a claim that the United States had reached in the spring of 1951 a stage in hydrogen bomb development near that at which the Soviets now stand.

The statement also, without saying in so many words that this country had exploded a hydrogen bomb, went further than the AEC did immediately after the 1951 and 1952 test series at the Eniwetok Proving Ground in the Pacific.

On May 25, 1951, the AEC announced successful conclusion of "experiments contributing to the thermonuclear weapons research." At the time, the general interpretation was that perhaps a small quantity of hydrogen had been fused to produce an explosion.

Employing almost identical language after last autumn's series, the commission announced completion of tests which "included experiments contributing to thermonuclear weapons research."

Shortly before that announcement, however, letters began arriving in this country from members of the task force conducting the Eniwetok tests. A number of them spoke of an unprecedented explosion which made an entire island disappear.

News Makes Them Happy

The Shah of Iran, Mohammed Reza Pahlavi (on the left), looks happy as he gets news of the successful Royalist coup. He had just fled to Rome Sunday when an early attempt failed. On his right is Gen. Zohreh, who has been named Iran's new premier, succeeding ousted Mohammed Mossadegh. (AP Wirephoto).

Royalists Declare Mossadegh Caught

LONDON (AP)—The Royalist-controlled Tehran Radio announced today the capture of ousted Premier Mohammed Mossadegh and said new street fighting with Mossadegh's supporters broke out in the capital.

Earlier dispatches from Tehran said the new premier, Maj. Gen. Fazlollah Zohreh, had given the wily and weepy, old Mossadegh 24 hours to surrender.

Late broadcasts from Tehran said Zohreh had started to form a new cabinet and had messaged the Shah again to come home at once. Shah Mohammed Reza Pahlavi is in Rome preparing to take off tonight.

Tehran Radio said yesterday Mossadegh's right hand man, former Foreign Minister Hossein Fatemi, had been torn to bits by mob violence in which 300 persons lost their lives. A dispatch from AP Correspondent Don Schwid said this morning said police still searched for Fatemi.

The announcement of Mossadegh's capture gave no details beyond saying the aged, ailing former premier, his wife and children were removed from the Iranian capital under the protection of the new pro-Shah government.

Zohreh said the Shah had instructed him to prevent Mossadegh being lynched by the street crowds. Zohreh added that Mossadegh would stand public trial.

"We will wait for the nation to say what should be done with him," Zohreh said.

The whereabouts of Mossadegh was not disclosed.

Tehran Radio said some people were injured in the street fighting this morning. There was no elaboration.

The vagueness of the announcement about Mossadegh's capture led to some speculation that Zohreh's regime might have made the broadcast in the hope of breaking the spirit of pro-Mossadegh groups.

British informants said the Iranian people now were in such a volatile state that almost anything can happen there in the next few hours or days.

Later, Tehran broadcasts said Mossadegh, who until yesterday had a \$28,000 price on his head as a bitter foe of Mossadegh, had made these appointments to his new government:

Brig. Gen. Mohammed Daftari, chief of police, a loyal Shah man although he is a nephew of Mossadegh. He was chief of police in 1950, before Mossadegh's rise.

Brig. Gen. Nader Batmanghlich, chief of staff, a former chief of army transport who inspected flood control projects on the Ohio River in 1950.

Hesameddin Tabatabaie, deputy premier, otherwise unidentified.

Batmanghlich broadcast a warning to the people against demonstrations especially by "leftist elements" which he said might try to take advantage of the situation to "execute their vile intentions."

He called upon the army to keep law and order "with the utmost power," and by the use of arms if necessary, but to avoid disturbance and bloodshed if at all possible.

Daftari also requested the cooperation of the people in preserving law and order.

The pendulum has swung completely since Sunday, the British said, and it remained possible, for it to swing once or several times more.

Several questions remained unanswered.

Where do the Communists stand? Have they gone underground waiting for their moment to strike or has Zohreh backed them into a corner? The Communists supported Mossadegh.

Will Ayatullah Kashani, the fanatical religious leader who feuded with Mossadegh, support the new regime, or make a play of his own?

The Iranian mob which had kept the British-hating Mossadegh in power for 28 months drove him out yesterday—with hundreds dying in the last-ditch stand around a Hitler-type bunker at his home—and installed the Premier the Shah had named last weekend.

Estimates put the dead at 300 or more in yesterday's fighting around key points in Tehran, said officials of the new government said the Royalists took over with a minimum of bloodshed elsewhere in the capital and in the provinces.

The ex-Premier's furniture, published in IRAN, Pg. 4, Col. 4

Moore Named Chief Deputy

Sheriff Jess Slaughter has submitted a letter to the Howard County Commissioners' Court naming Floyd Moore as new chief deputy.

The appointment, subject to approval by commissioners, will be effective on Sept. 1. Moore, who is one of the staff deputies at present, will take the place of Dale Lane, who recently resigned.

Slaughter has also named Clyde McKeehan as new deputy. Other deputies are Jim McCoy, Miller Harris and Leo Hull.

Moore has been in Big Spring and Howard County for the past 32 years. He has been both a farmer and rancher, and took up law enforcement duties at the first of the year.

McKeehan has about six years experience as a peace officer, having at one time served on the Big Spring police force. A member of the Church of Christ, he is married and has five children. He resides north of Big Spring.

Laughlin Asked Ranger Bailiff Ban Reasoning

By MAC ROY RASOR
AUSTIN (AP)—Judge Woodrow Laughlin of Alice testified today he objected to Texas Rangers serving subpoenas for Duval County witnesses in the Jake Floyd Jr. murder case because he thought it violated the law.

"I didn't think any bailiff had authority to serve process for a grand jury out of the county," Laughlin said.

The testimony concerned the Jim Wells County grand jury's investigation of the ambush slaying a year ago.

Laughlin testified for the fourth straight day of hearing into the ouster proceedings against him.

Sen. William Shireman of Corpus Christi, attorney for those seeking Laughlin's removal, inquired if the grand jury had told Laughlin it wished the subpoenas served by Rangers.

The judge said it had.

"An agreement was worked out," he said.

"Who opposed the Rangers serving subpoenas?"

"I don't think you would call it opposing. It was just that I thought the subpoenas should be served according to law," Laughlin replied.

"You didn't want Rangers going over in Duval County picking up witnesses without the people in Duval County knowing about it?"

"That isn't what I said," the judge replied.

Laughlin said he was asked later by a Texas Ranger captain what he had against the Rangers.

"I told him I had nothing against the Rangers."

"Was that all you told him?"

Shireman prodded.

"I also said I was against any officer of the law being the judge, the jury and the executioner."

Laughlin was asked if he did not know that Latin-Americans would head for Mexico if they had witnessed the murder and knew in advance they were going to be subpoenaed.

He replied he did not know that but that it had happened.

"Don't you think it would be best for the peace of that area if that murder could be solved?" Shireman asked.

"I wish they could get a solution today," Laughlin replied.

Questions yesterday included those about Laughlin's dismissal of 68 Starr County indictments, failure to empanel a new Starr County grand jury, and actions connected with the Jake Floyd Jr. murder case.

Laughlin denied he let politics get in the way of the grand jury investigation of the murder.

Gasoline Price Hike Investigated

PITTSBURGH (AP)—Asst. Atty. Gen. Stanley Barnes said today he is being flooded with complaints from consumers about recent gasoline price advances east of the Rocky Mountains.

Barnes said a few days ago the anti-trust division he heads is investigating to determine if there was collusion in the price hike. He said FBI agents are being used to develop some angles.

Witness Declares Code Book Taken

WASHINGTON (AP)—Senate investigators made public today sworn testimony by a former government Printing Office (GPO) employee that she knew Edward Rothchild took a code book and other secret military data from the plant during World War II.

The testimony had been received previously in secret session from Miss Cieta Guess, now a New Orleans storekeeper.

Chairman McCarthy (R-Wis.) said Miss Guess could not testify in person today because she has a heart condition.

Rothchild, a bookbinder, declined earlier this week to tell the Senate investigations subcommittee whether he is a Communist or whether he ever engaged in espionage at the printing office, which handles much secret data.

The subcommittee first had Jack Zucker of Philadelphia in its witness chair.

He declined to say whether he knew Rothchild. He also refused to say whether he ever presided at a Communist hearing which

THE WEATHER

BIG SPRING AND VICINITY: Partly cloudy with scattered showers. Partly cloudy tonight and Friday with an important temperature change.

High today 85, low tonight 65, high tomorrow 88.

Highest temperature this date 107 in 1941; lowest this date 60 in 1940; maximum rainfall this date 4.32 in 1942.

Civil Warfare Threatened As Sultan Deposed

PARIS (AP)—France deposed today the Sultan of Morocco and sent him and two of his sons into exile on Corsica, the Mediterranean island of Napoleon, the Mediterranean sea.

The Sultan, 44, Sidi Mohammed ben Youssef, who has been giving the French trouble by his encouragement to independence-seeking Nationalists, was ousted after the tough Berber tribesmen of Fasha Thami el Glaoui of Marrakech, the Sultan's bitter foe, began to march in from the hills on the palace at Rabat.

A fierce civil war threatened between fanatical Nationalists supporting Sidi Mohammed, and the warlike Berber countrymen who follow el Glaoui.

The French clamped a curfew on their tense North African protectorate.

Dispatches from Morocco said the vanguard of Berbers from at least four tribes, traveling by horseback, truck and afoot, reached the outskirts of Rabat and fighting already was reported to have broken out in the native quarter. The Berbers are an entirely different race from the Arabs in the coastal areas, but have the same Moslem religion.

The dethronement, said the French Foreign Office, was decided upon because France "found herself confronted with an unequivocal will expressed with extreme firmness by the immense majority of the Moroccan people."

The Sultan and his sons were reported already en route to Corsica, birthplace of Napoleon.

French Resident General Augustin Guillaume had returned to Morocco from Paris and talked with the Sultan at his palace in Rabat a short time before.

Air Force Says No A-Bomb On Plane

PICACHO, Ariz. (AP)—A giant B50 bomber was shattered by a tremendous explosion over the Arizona desert early today as it plunged to the ground in flames.

The 12 man crew of the four-engine ship parachuted into the darkness and came down in the rocky, cactus and mesquite-covered wasteland near towering Picacho Peak.

They were apparently badly mauled.

The sheriff's office at Florence, 25 miles north, said many were severely injured and one had died at the scene.

Ambulances took two of the airmen to Casa Grande. They were Capt. L. Aubuchon of Prairie du Rocher, Ill., and Airman Charles Stewart, Steubenville, Ohio.

The hospital said Aubuchon has only minor injuries, but that Stewart has "several fractures." His condition was serious.

Doctors sped to the crash area with a ground rescue team from Davis-Monthan Air Force Base at

HALL SEARCH IS CONTINUED

KETCHIKAN, Alaska (AP)— Coast Guard vessels and planes of two nations fanned out over a wide area in southeastern Alaska today in the continuing search for a flying New Mexico and Texas oil man and four others missing in his private plane.

Spurred by improving weather, U. S. and Canadian Air Force pilots and civilian fliers scanned bays and inlets and rugged mountains along the route believed used by Ellis Hall of Albuquerque and Abilene.

Hall, his wife, two daughters and Robert Hibben, 17, disappeared Monday after taking off from Annette Island airport on a flight to Bellingham, Wash.

Planes were checking Moira Sound at Prince of Wales Island, about 30 miles west of the Annette Island takeoff point.

The first sighting of an oil slick was at the mouth of the sound yesterday.

Hall has oil properties in the Gooch pool in Borden County, which are managed by a brother, Leonard Hall.

125 Strike Here At Phone Plants

Approximately 125 Southwestern Bell Telephone employees were out on strike here Thursday.

In contrast to previous work stoppages before between the company and its workers, local telephone service here was not affected. The dial system, activated in late June, provided calls almost without interruption.

Water delivery was handicapped.

Line trouble which apparently could not be repaired during the strike, prevented the Colorado River Municipal Water District from maintaining contact with pumps. E. V. Spence said that efforts were being made to get word out by car, pegging operations on rough estimates.

This could prove serious in event of emergency demands, he said.

Pickets went up at the main plant and business office at 4th and Rannels and at the dial exchange at 8th and Rannels shortly after the strike started at 6 a. m.

After the hour passed for reporting to work, the dial building picket was withdrawn. W. A. Fitzgerald, president of the local for the Communications Workers of America, said that pickets would be maintained at the downtown plant for a day or two.

"There might be some new employees who do not understand that the strike is underway," he explained.

Meanwhile, union members met at the YFW Hall for an informational session.

In addition to general wage demands, Big Spring workers are seeking reclassification of Big Spring. Currently this point is class IV, said Fitzgerald, and workers want it placed in class III, the same as Snyder, Midland and Odessa. This would mean \$4.50 more per week for top craftsmen.

At the same time workers here and in some other towns of the area would like to receive the \$4 per week living allowance now received by those at Midland and Odessa in this area, according to Fitzgerald.

"We think this is just," he commented.

Three More Texas POWs Are Freed By Communists

By The Associated Press

Smiles were bright and words were bitter as three more Texas men of battle became free again Thursday in the prisoner of war swap in Korea.

The Army said 32 Texans were among 331 released prisoners of war due to land Sunday at San Francisco. They are expected in Texas within a week after their arrival.

The three exchanged by the Communists Thursday were Sgt. A. J. Becker, son of Mrs. J. A. Becker, 25-A Lella Ave., Waco; Cpl. Huey Harris, son of Mrs. Mamie Gober, Rte. 4, Lamesa; and Cpl. Roy V. Radloff, son of Mrs. Alberta Henderson, 825 Florida St., Amarillo.

The releases brought to 86 the number of Texans freed since the POW exchanges started. Roughly, nearly 30 per cent of the released prisoners have been Texans.

Those due to land Sunday in San Francisco are: Sgt. Frank Grice, 648 W. 19th, Port Arthur; Pfc. Martin Guerrero, San Antonio; Cpl. Patricio Guerrero, San Marcos; Sgt. Wash Harrison, Texarkana; Sgt. Jose Hernandez, San Antonio; Pfc. J. D. Martin, Searcy; Cpl. Felipe Pacheco, Laredo; Cpl. Enrique Pena, Brownsville; Cpl. Alfredo Ramirez, Robstown; Sgt. Joe Ramirez, Houston; Cpl. Jose Sanchez, 218 Ramon, Del Rio; Sgt. Paul Smith, Mertens; Sgt. See POWS, Pg. 4, Col. 7

Freed POW Has 3 Dreams

Cpl. Huey J. Harris has three dreams he's looking forward to fulfilling now that he's been freed from a Communist prisoner of war camp in Korea, his mother, Mrs. Mamie L. Gober, Star Route 4, Lamesa, said yesterday.

He wants to get a new convertible, plenty of his mother's banana pudding and lots of his sister's chocolate fudge. At least that's what he wrote the judge in Mrs. Fay Koonce of Lamesa, and his other sister is Nadine, the "baby" of the family who still lives at home.

In the letter mentioning his three dreams, he told his mother that he guessed he was lucky because he was in good health.

Missing Airplane Found Near Tulsa

LUBBOCK (AP)—The wreckage of a small private plane missing on a flight between Lubbock and Amarillo was found shortly before noon today on a farm near Tulsa in Swisher County.

Three bodies were in the plane. The wreckage was sighted from a Civil Air Patrol search plane. A ground party was sent out for the bodies.

The CAP in Dallas sent 35 CAP planes in a search for the plane. Col. James L. Camp, Texas wing commanding officer, said.

Landmark Damaged

HOUSTON (AP)—One of Houston's oldest landmarks, the Bristol Hotel, was damaged severely by fire last night. The unoccupied, four-story building had been condemned and was to be wrecked to make way for a 2 million dollar 18-story office building to be built by the Jesse H. Jones interests.

SAN ANGELO AREA DAMPENED

Bronte And Robert Lee Both Have Damage From Rainfall

By The Associated Press

Scattered rain spotted the state again Thursday bringing more relief to a wide dry area in West Texas that hadn't seen this much moisture since 1948.

Heavy rains Wednesday and early Thursday caused considerable property damage at Bronte and Robert Lee, both north of San Angelo and at Cleburne southeast of Fort Worth.

Near noon Thursday rain still fell in the San Angelo area.

Light rains fell Wednesday night at Bronte and Robert Lee after earlier downpours that ranged up to 12 inches.

Heavier rains were reported on the watershed of Mountain Creek, a tributary of the Colorado River, north of Robert Lee. Wednesday rains of 10 and 12 inches above Robert Lee sent a big rise booming down Mountain Creek. The flood tore out two retaining walls of Robert Lee's earthen dam across the creek and threatened to breach the dam proper. It also ripped out the city water intake system and temporary facilities had to be installed.

Rains up to 10 inches in the Bronte area caused a flash flood that put water 12 to 14 inches deep in some stores and houses. Property damage was estimated at \$75,000. The water receded rapidly.

Typhoid serum was sent to Bronte from San Angelo. By late Wednesday more than 80 persons had been inoculated and there were long lines waiting for the serum.

A day long rain at Cleburne sent water into several warehouses in the eastern part of town and caused several thousand dollars' damage to stored merchandise. Small creeks in the Cleburne area went out of their banks after about 5 inches of rain Wednesday but all had receded by Thursday morning.

Rains north of San Angelo gave the city a greatly increased water supply. All draws and streams of the Middle Concho River and Spring Creek were running good Thursday. It was believed Lake Nasworthy would be filled by Thursday noon. Reports indicated the city's other source of water, the North Concho Reservoir, had risen nine feet increasing its capacity two and a half times since 8 a. m. Wednesday.

Borger had .75 inch of rain Thursday morning.

Rainfall reports for the 24 hours ending at 8:30 a. m. showed Amarillo with .22 inch, El Paso .09, Houston 1.12, Beaumont .10, Corpus Christi .15, Del Rio .21, Fort Worth .01, Galveston .95, Wichita Falls .12, Texarkana .02, Presidio .24, College Station .53, Mineral Wells .34, Cotulla .58, Dalhart .50.

Farmers in the drought-ridden San Angelo area said the rain helped range grass, grain crops and even some cotton, just beginning to open.

San Angelo's Standard-Times said, "It's the nearest thing to a drought breaker we have had in 3 or 4 years."

At Eastland, the Wednesday rains dropped 4 inches of water on the city's reservoir watershed and sent water over Lake Eastland's spillways by midnight.

The rains brought the Red River Valley area north of Electra to 6.22 inches for the week. Rain also fell in spots patters at Seguin, Luling, Boerne, Rio Medina, Llano and San Marcos.

Rancher Turns Farmer

W. J. Gibson, former Glasscock County rancher, (left), who moved to Mississippi to become a farmer more than a year ago, inspects his crop of Starr millet with E. E. Wooten, county agricultural agent at West Point, Miss. This millet, planted for supplemental grazing, is described by Wooten as the best variety yet developed for that country. It was seeded June 5.

Former Rancher Now Showing Mississippi Men How To Farm

The Daily Times Leader published at West Point, Mississippi, has recently named W. J. Gibson, former Glasscock County rancher, as its "farmer of the week."

Gibson, a native of Georgia, ranched in Glasscock for about four years before moving to Mississippi more than a year ago. Mrs. Gibson is the former Miss Thel Calverley, a sister of Mrs. John Henry Cox, Joe Calverley and Steve Calverley, all of Glasscock.

The Times-Leader article is illustrated with pictures of the new brick home the Gibsons have built in Clay County, and of a millet field on the Gibson farm.

Says the Mississippi newspaper's writer:

"Our farmer this week came to us from the great state of Texas. W. J. Gibson had never farmed a day in his life before coming to Mississippi. He had been a rancher, but take a look at his crop today.

"His corn and cotton and soybeans look as if they had been grown by a master farmer with years of experience, and this is just his second year to farm."

"Mr. Gibson has 40 acres in corn that will yield 2,500 bushels of corn and that is a conservative estimate. He used 500 pounds of 5-10-5 fertilizer per acre under his corn at planting time and side-dressed 20 acres of the corn with 200 pounds of ammonium nitrate per acre. The reason that the remaining 20 acres did not get the side application of nitrogen was that the corn grew too tall before he had the time to make the application. There is a difference in the

two fields of corn. The extra nitro-minerals to his soil to maintain this fertility.

"On the back side of this farm we noticed six huge stacks of hay. When asked what the stacks contained Mr. Gibson said that this was his surplus spring grass such as Fescue, white clover and black medic that he had stacked for his cattle next winter. He estimates about 2,500 bales of hay here from 40 acres. A silo will be constructed before another spring and silage will be used in his feeding program.

Cambodian King Not Satisfied Yet

SIEM REAP, Cambodia, Indochina (AP)—King Norodom Sihanouk said today France still hasn't satisfactorily met his country's demands for complete independence.

The King also said he wouldn't quit his self-imposed exile here in north-central Cambodia and return to his capital Phnom Penh "until we have obtained complete satisfaction."

Norodom said in an interview that France's recent promise of independence was acceptable in principle "but on several questions it is going to be difficult to work out agreement."

He did not specify what these questions were but said "it is still too early to make any optimistic declarations on French-Cambodian relations."

France recently offered to give the kingdom nearly complete independence, but said she would maintain troops in the kingdom as long as Indochina is threatened by the Communist-led Vietminh rebels.

German Commies To Hear Molotov

BERLIN (AP)—Fifteen top men of the East German Communist government flew by Russian plane to Moscow today to hear from Foreign Minister V. M. Molotov what the Kremlin really means by its proposal for German unity talks.

Prime Minister Otto Grotewohl said at the Schoenefeld Airport that his delegation regards the trip as "a most important step" for the future of Germany. And he added:

"Our people need unity, democracy and a peace treaty as soon as possible. Negotiations in Moscow will be a decisive step in the fulfillment of this goal."

Woman Finds Sex Study Wasted Effort

BLOOMINGTON, Ind. (AP)—Women who never had had sex experiences often can't understand what sex means to other people, especially to men, says Dr. Alfred C. Kinsey.

This attitude, he says, was expressed by one woman who wrote to him after publication of the book on sexual behavior in men. She declared the whole study was a waste of effort, and that it just confirmed her opinion "that the male population is a herd of prancing, leering goats."

Indications Are Reds To Send Back More U. S. POWs Daily

By WILLIAM J. WAUGH
PANMUNJOM (AP)—The great Korean War prisoner exchange passed the halfway mark today and there was every indication the Reds will start sending back larger numbers of Americans daily.

They promised 150 tomorrow, the biggest U. S. group yet, and it appeared the stepped-up rate would continue indefinitely. Three hundred South Koreans also will be freed tomorrow.

Sixty Americans, 90 British and 300 Koreans were freed today in the 16th day of exchange at this tiny village.

No British were scheduled to return Friday. The Reds have delivered 800 of the 922 British promised. They have turned over only 1,315 Americans, well under half of the 3,513 they listed.

Thursday's shipment brought the

number of Allied troops freed to 8,533, just over half of the 12,763 the Reds promised.

No Communists were sent north Thursday and no more are scheduled until Saturday. Typhoon conditions disrupted Allied shipping from the Koje Island prison camps off southern Korea.

One weary American repatriate Thursday was startled with the news that he had won America's highest combat award, the Medal of Honor. The story had been kept secret to prevent any Red reprisals against the 27-year-old Japanese-American sergeant, Hiroshi Miyamura of Gallup, N. M.

The stream of happy men Thursday told more of the grim stories of life in the Red stockades.

One prisoner told a heartbreak-

ing story of an American airman staked in the sun and left to die because he would not back up phony germ warfare charges by the Communists.

Shortly after the prisoners returned, the joint Military Armistice Commission met at its Panmunjom headquarters on Red request.

The Reds gave no indication what they wanted to discuss.

Red China's Peiping radio charged that American authorities have obstructed Communist Red Cross teams visiting prison camps in South Korea to the point that the teams "have virtually suspended their operations."

Peiping accused the Americans of "openly persecuting" the teams and restricting interviews with the POWs.

However, Allied representatives accused the Communist workers of activities bordering on spying and told them to stop it. They told the Reds to limit their activities to authorized humanitarian missions.

A South Korean repatriate Thursday added to the stories of a Red POW holdout. He said the North Korean Army has a brigade of at least 8,000 South Korean prisoners who wouldn't be repatriated.

He said thousands of other South Korean prisoners were working more than 20 hours a day in forced labor.

The UNC warned the Reds that they must return all prisoners after early repatriates said some were being held back and jailed on phony charges.

Meanwhile, more Americans freed in the early days of the exchange streamed toward home.

The hospital ship Haven, with 104 disabled U. S. repatriates aboard, sailed from Inchon in South Korea for Japan. There it will load more Korean War sick and injured and continue to the United States, where it is due about Sept. 14.

The transport Marine Adler will leave Inchon Saturday with 400 able-bodied U. S. repatriates. The nonstop trip to the United States will take about two weeks.

And the transport Gen. Nelson M. Walker is due in San Francisco Sunday morning with the first shipment of 328 former prisoners on their way home.

Other former POWs—seriously ill—have been flown back to the United States.

Wife Thrilled That POW Husband Is To Get Medal

GALLUP, N. M. (AP)—Told that her husband has won the nation's highest military honor, a diminutive, dark-haired Nisei wife's first reaction was:

"Ohhh, was he hurt."

Mrs. Terry Miyamura was awakened by The Associated Press to give her her second piece of good news in a few hours.

The 28-year-old Japanese-American wife was, in her own words, "thrilled speechless" by award of the Medal of Honor to her newly liberated husband, Sgt. Hiroshi H. Miyamura.

At first, she thought Miyamura had won the medal since his liberation. She was frightened that some trick of war might take her husband away after only a few short hours of relief for his rescue.

She said Miyamura in his scant dozen letters from Camp No. 1 had written nothing of the heroic rear guard action which led to his capture and—as far as is known—to award of the medal.

"He didn't have much to say," she said. "He's a quiet sort of guy."

"He wrote that there wasn't much doing in the camp and that he was barber for the company to pass the time."

Miyamura entered the Army shortly after his graduation from Gallup High School in 1944. He served during World War II with Nisei troops in Italy. The Miyamuras were married five years ago. Mrs. Miyamura met Hiroshi

on a visit from her home in Los Angeles.

The sergeant was recalled to duty in 1951 from his job as a garage mechanic and sent to Korea. His wife started helping her father-in-law in his cafe, the Lucky Lunch, while Hiroshi was overseas.

"I don't know what we'll want to do when he gets back," she said. "We'll have to talk that over."

Kinsey's Male Sex Book Not His Best Seller After All

BLOOMINGTON, Ind. (AP)—Browsing in a bookstore, Dr. Alfred C. Kinsey casually introduced himself to the owner.

"Oh, Dr. Kinsey," the man said. "I know about you. You wrote 'Edible Wild Plants of Eastern North America.'"

Scientist Kinsey, a zoologist of Indiana University, was co-author of that volume. He was better known to most Americans at the time as author of "Sexual Behavior in the Human Male," or popularly, the Kinsey Report.

The male book has sold 250,000 copies so far, with translations into other languages.

But his biggest best seller is a textbook on biology, with sales totaling over 400,000.

Many Married Women Say They Sleep Nude

BLOOMINGTON, Ind. (AP)—Half of married women tell Dr. Kinsey that they regularly sleep nude.

"There is every indication," he adds, "that the percentages are still increasing, much to the consternation of the manufacturers of night clothing."

Protest On Dog Bite Does Him No Good

DETROIT (AP)—John Banish protested when fined \$25 because his Manchester terrier had sampled the leg of a mailman.

"The dog has a license and besides a dog has certain rights," Banish contended in a court appearance yesterday.

"He doesn't have either the right or the license to bite mailmen," retorted Traffic Referee Rollin D. Shull.

Butter To Be Shipped

DALLAS (AP)—Shipment of 2½ million pounds of government-owned butter now stored in Texas and Oklahoma to needy persons in Europe will start in September, the PMA said yesterday.

Kinsey Kept Secrets By Waste Fires

BLOOMINGTON, Ind. (AP)—To keep top secrets, you carefully burn everything going to wastebaskets in your office.

That's what Dr. Alfred C. Kinsey and staff of the Institute for Sex Research, Inc., at Indiana University here did during five years between publication of their books on men and on women.

Dr. Kinsey took such precautions to defeat book and other authors who, he says, wanted to publish previews of his study of women, or get into print fast with book summaries of what his 850-page volume on women actually says.

He invited newspaper and magazine writers out here to read proofs of the female book. They had to sign contracts pledging to keep the data secret until 7 a.m., EST, today, and pledging not to write or supply information to other writers for summarizing books which could appear before Dec. 20. The Kinsey book on women is scheduled to appear Sept. 14.

The unusual contract required that all stories be submitted in advance for checking upon accuracy of facts—not upon interpretations or writers' impressions. Dr. Kinsey said he invited the writers and required the unusual contracts to give the wide and factually correct publication of the study's findings.

All profits from the sex study books go to the institute for further research.

Still Working

Tom Connally, gray-haired political warrior who has retired to the sidelines, works on a book he is writing that will span his 36 years as a member of the Senate and the House. Even his 76th birthday, Aug. 19, did not interrupt his schedule of jotting data for the book. At his Washington home, the fiery Texan snorted disapproval over the conduct of some of his fellow Democrats. "The Democrats can overdo this business of bragging about their support of President Eisenhower," he said "that sort of thing may be no help in the years to come." (AP Wirephoto).

American Officials Hope New Iranian Regime Will Be Stable

By JOHN M. HIGHTOWER
WASHINGTON (AP)—American officials watched hopefully today for evidence that a new regime in Iran, though born of violence, would quickly be able to stabilize the country and secure it against

any Communist bid for power. The task falls to 36-year-old Feroz Zohdi, a major general and friend of Shah Mohammed Reza Pahlavi. He is regarded here as both anti-British and anti-Soviet, but also as a hard-headed realist who will seek practical solutions for his country's difficult problems.

strong friend and supporter of the Shah. And the Shah has generally been counted here to be reasonable in his attitude toward the West.

Rite Set Today For Mrs. Gist

COLORADO CITY — Funeral services for Mrs. Elizabeth R. Gist, 81, Route 1, Colorado City, will be held Thursday at 3 p.m. in the Colorado City Church of Christ.

Floyd J. Spivey, minister will officiate. Burial will be in the Colorado City Cemetery under direction of Kiker and Son Funeral Home.

Mrs. Gist died at 2 p.m. Wednesday at her home north of Colorado City.

A resident of Mitchell county for 46 years, she was born in Ft. Graham on June 15, 1872. She married Arthur C. Gist September 20, 1893 in Johnson County, Texas. He preceded her in death on December 27, 1936.

Mrs. Gist was a member of the Colorado City Church of Christ. She is survived by one daughter, Mrs. J. P. Hestand of Colorado City; four sons, Herman of Odessa, J. T. and Marvin of Midland, and Hiram of Colorado City; a brother, Jim F. Smith of Merkel; 12 grandchildren and 9 great-grandchildren. Pallbearers will be G. D. Foster, J. Melton Rogers, Earl Hunter, Jim Bodine, Thurston Smith and R. B. Baker all of Colorado City.

Eisenhower Studies Secret H-Bomb Notes

By MARVIN L. ARROWSMITH
DENVER (AP)—President Eisenhower was back at the summer White House today with a top secret report on how the United States learned about Soviet Union tests indicating Russia may have the hydrogen bomb.

Presidential Press Secretary James C. Hagerly told newsmen there would be no elaboration here on the Atomic Energy Commission's quick follow-up announcement in Washington that the Soviet conducted tests Aug. 12 — which, on the basis of the commission's information, involved "both fission and thermonuclear reactions."

Fission means atomic tests while thermonuclear is the technical term for hydrogen bomb activity. Eisenhower returned to his vacation headquarters here by plane last night from New York.

There, at the dedication of a housing project, he declared that families with a proper and decent living standard constitute a better defense against communism than "any bomb of whatever kind."

"That is the kind of thing that will preserve this nation," the Chief Executive said in a brief speech at the dedication ceremonies.

There is no doubt now that Eisenhower made his remark about defense against any kind of bomb after receiving a secret report on the Soviet tests.

When he arrived in New York yesterday morning, the President's first business was an unscheduled breakfast conference with Lewis L. Strauss, chairman of the Atomic Energy Commission, and C. D. Jackson, White House adviser on psychological warfare.

Those two officials apparently amplified information which almost certainly had been furnished to Eisenhower here Aug. 12, the day the Soviet tests took place. The Atomic Energy Commission

statement by Strauss said this government obtained information about the tests the day they occurred.

In New York, Eisenhower took part in ceremonies dedicating the \$2 million dollar federally aided Simon Baruch housing project, a memorial to the father of Bernard M. Baruch, a long-time adviser to presidents.

In his informal speech, the President said that in America: "We expect to see living, happy families, families who, because of their standards of living, are our nation's best weapons against communism—more eloquent defense against that insidious doctrine than the most eloquent tongue of any lawyer, or preacher, or teacher—a more sure defense than any battleship or any plane, or any gun, or any bomb of whatever kind."

In Manhattan, Eisenhower also sat in at the first meeting of newly appointed members of a government committee to help prevent hiring and firing discrimination in plants with federal contracts; registered for the New York City elections to be held this fall; and held a round of conferences.

In traveling through the city Eisenhower was greeted by enthusiastic crowds reminiscent of last fall's presidential campaign. Chief Police Inspector Conrad Rothengast estimated a million persons were along the four-mile route from the Waldorf-Astoria Hotel to the Baruch houses on the lower East Side. Rothengast figured an additional 250,000 saw Eisenhower elsewhere in the city.

The President arranged to confer today with a delegate from the Agriculture Department and from eight drought-stricken states — Texas, Oklahoma, Colorado, Kansas, New Mexico, Nevada, Missouri and Arkansas.

Riders In Spotlight At C-City's Roundup

COLORADO CITY — The weatherman smiled on Colorado City's rodeo opener Wednesday and the first performance was held in weather as crisp as a fall night. Earlier in the afternoon a brisk thirty minute shower cleared away in time for the rodeo parade at 6 p.m. and wet the arena so that the first performance was dustless.

The rodeo parade was seven blocks long, and sheriff's posses from Tom Green and Fisher counties were colorful participants. About 10 floats were entered in the parade and prize-winners were "The '49 Carnival," entered by the 1929 Study Club; second, "West Texas Sunflowers," a Jaycee-ette entry, and third, "Miss B&PW after 5 p.m.," by the Business and Professional Women. The National Guard and High School Band and hundreds of riders were also parade members. Pat Bullock, ex-state senator was parade marshal. He was assisted by Wayne McCabe and Junior Sadler.

One hundred forty-seven mounts and 151 riders participated in the grand entry, led by Jerry Portwood of Hollywood and Tad Lucas of Fort Worth.

Stock was wild and wooly, but riders did well with the broncs — poorly with the calves.

In the opening event, bareback bronc riding, qualifying were: Bill Watts, Colorado City; Sonny McBride, Midland; Bud Hull, Odessa; Bob Edwards, Lubbock; Neal Gay, Dallas; Don Boaz, Lubbock; Jack Elliott, Cleveland; Bill Tilton, Lubbock; Tex Martin, Sanderson; Red Rogers, Gatesville; and Lawrence Carey, Mineral Wells.

In the cowboy calf roping contest, best times were: George Epperson, Llano, 13.5; Dogie Jarnagin, Colorado City, 13.9 and Billy Bynum, Sterling, 14.2.

Six qualified in the saddle bronc contest. They were Cap Wilson, Colorado City; Colton Proctor, Belton; Neal Gay; Mike Hawkes, Salsburg; Bill Watts and Bob Fisher, Alberta, Canada.

In the jackpot team tying, with two ropers working on a single calf, low time was posted by Loyd Smith, Colorado City, 20.4, and second was Jim Saunders, Gatesville.

Only two posted times in the cowboys steer wrestling. They were: Neal Gay, 10.4 and Lawrence Carey, 15.7.

In the cowgirl's barrel race, Amy McGilvry of Merton made the circuit in 20 seconds, followed by Billy McBride, 20.3 and Shirley Probst, San Angelo, 20.5.

Clay Mann Smith took Wednesday night's Mitchell County roping contest, with a time of 14.1; second was B. L. Pruitt, Westbrook, 16.5; and third, P. C. Smith, Colorado City, 18.6.

Only five managed to stay aboard the Brahmas. They were Paul Lanning of Killen; Cap Wilson, Colorado City; Jack Elliott, Cleveland; Booger Howyl e, Georgetown, and Red Rogers, Gatesville.

The second performance will be held Thursday night at the Frontier Rodeo Grounds east of Colorado City. The rodeo is being produced by Duke Gibbs of Belton—announcer is Dan Coates, well known to West Texas sport fans.

INCHON, Korea (AP)—A Marine band boarded the hospital ship Haven before it sailed for the United States to play a concert for sick and wounded Americans freed from Communist prison camps.

When the concert ended, Navy officials revealed today, two patients quickly donned fatigue clothes, picked up instrument cases and walked off the ship.

The two were AWOL in Inchon two days. They were not punished.

BOBBY D. LEONARD

A-3C Bobby D. Leonard, 20, son of Mr. and Mrs. Al Leonard, 1704 Scurry, is now in Aircraft mechanics school at Sheppard Air Force Base, Wichita Falls.

The school is the largest of its type in the world. Leonard will receive specialized training in the servicing, inspecting and maintaining of aircraft used by the Air Force.

Upon graduation he will be sent to an advanced training school or assigned to an air field for on-the-job training. Leonard is a graduate of Big Spring High School and entered the Air Force on April 16.

John E. Robinson, electrician's mate third class with the Navy, is now back in the United States after serving a tour of duty in the Far East.

He returned to Long Beach, Calif., on Aug. 12. Robinson is the son of Mr. and Mrs. W. T. Robinson, 607 West 17th.

Robinson served on the light cruiser USS Manchester, which visited the Hawaiian Islands, Japan and Hong Kong while in the Pacific. The ship also saw action off Korea.

Joseph E. Scott of Coahoma has recently completed basic infantry training at Camp Roberts, Calif. He is the husband of Mrs. Tooe Scott, who resides at Coahoma.

The course lasted 16 weeks. Scott completed basic with the 7th Armored Division. Camp Roberts is midway between Los Angeles and San Francisco on Highway 101.

Reunion In Vienna

Edgar Sanders, British businessman freed from a Red Hungarian prison, is reunited with his wife, Winifred, in Vienna. Sanders was jailed in 1949 along with American Robert A. Vogeler on charges of spying. Vogeler was released more than a year ago. Sanders was freed after his wife sent an appeal for clemency to Hungarian President Istvan Dobi. (AP Wirephoto via radio from London).

Democratic Liberals Seek Visit By Adlai

By MARTHA COLE ASSOCIATED PRESS STAFF

The Texas Democratic organizing committee hopes to get Adlai Stevenson to Texas this fall. "We hope we can get him here—we're hoping he can be here for our state meeting which will be probably in October," said Byron Skelton of Temple, the committee chairman.

Stevenson tried for the presidency and lost. The Texas Democrats who now have an organizing committee tried for state party leadership and lost.

One victor sits in the White House. Another sits in the capitol in Austin in the governor's chair. The victors in Texas control the Democratic party machinery. They're the conservative ones who swung the state Democratic con-

vention in Amarillo last fall to endorsement of Republican Dwight Eisenhower.

Another state Democratic convention is coming up in 1954. That's what the defeated ones are aiming for.

"We have no idea of trying to unseat anybody in a state Democratic party office at this time—there's no way to do it under the law," Skelton said. "We're working now, and our work will pay off at the 1954 convention."

"Every day the Democrats that voted for Ike are realizing the mistake they made. There is no question in my mind but that Texas will return to the Democratic fold next summer."

Texas left the Democratic fold last fall to go for a Republican president for the first time since 1928.

That doesn't mean all has been well in the Democratic party all this time. They split over Roosevelt—they've always been trying to pull Texas down a liberal or a conservative pathway.

The conservatives settled themselves at the state convention in Mineral Wells in the fall of 1951. They got jostled but didn't budge at the state convention in San Antonio in May, 1952.

They elected their 52 delegates to the Chicago convention. So did the liberals who streamed across town to hold their own convention. Maury Maverick Sr., of San Antonio, led the liberal fight before the convention credentials committee. The convention seated the delegation led by Gov. Shivers after the tall and handsome governor asked on the convention hall podium: "Give us a chance to disagree."

The liberals came back home, and bald Sam Rayburn of Bonham came down from Washington to lead their campaign for Stevenson, while the conservatives drummed for Eisenhower.

After Stevenson's defeat, the liberals didn't rise again until last May, when they met near Burnet. They formed the Democratic Organizing Committee of Texas "to return the Democratic party to the Democrats."

Dionne Quintuplets Are To Split Up

NORTH BAY, Ont. (U) — The Dionne quintuplets, together since they were born 19 years ago, are now to go their separate ways. Marie will become a nun and her sisters will continue school.

Their father, Orla Dionne, told the North Bay Nugget last night that Marie will enter a Catholic religious order. Yvonne will study art with the Notre Dame Congregation in Montreal, and Cecile, Annette and Emilie will attend the Institute Familial in Nicolet, Que.

Dionne explained that the group was being broken up because the quintuplets "are thinking seriously of their future."

Two-Year-Old Safe But Mother Killed

BINGER, Okla. (U) — Two-year-old Phillis Clay was thrown 30 feet from a car driven by her mother when it veered from the highway. She landed unharmed on a pillow also thrown from the car.

But her mother, Mrs. Minnie Bell Clay, 28, was killed as the car hurtled into a melon patch after striking a pipe jarred loose from a passing truck.

Battleship Too Big

HONG KONG (U) — The 45,000-ton U. S. battleship New Jersey arrived for a courtesy call today but was too big for Hong Kong's shallow harbor. So it anchored five miles outside while passenger ferries brought the 2,500 crewmen ashore.

Ritz Theatre To Get New Wide Screen, Sound System

Preliminary plans were being discussed Wednesday for equipping the Ritz Theatre with a new wide screen and stereophonic sound. This would enable the movie house to show the new Cinemascope productions, "The Robe" and "How to Marry a Millionaire," which are expected to be released shortly by Twentieth-Century Fox, the Robb, manager of Big Spring Theatres, Inc., said.

The Ritz will also show three-dimension pictures. The three-dimension pictures which have shown to date have all been shown at the State. Robb said that eventually the drive-ins would be equipped to show 3-D pictures also. Bids on the remodeling work at

the Ritz are expected to be let shortly. A new heating and cooling system is also to be installed. Robb said the theatre would have to be closed while the remodeling work was being done, but that it was hoped the project would be completed rapidly. He said the speed with which the work would be done would be an important factor in awarding the contract.

Earlier it had been hoped to have the wide screen ready in time for showing of "Shane," the Paramount western which is to start Sunday at the Ritz. This widely acclaimed film has been shown in a number of larger cities on a wide screen with stereophonic sound.

The Ritz screen is to be enlarged from the present 12 by 18 feet size to a 20 by 40 foot area. Cinemascope pictures, which are wider than present films in relation to their depth, would run about 15 feet deep to 40 feet wide.

When asked about the two film processes, Robb said that personally he thought Cinemascope was the more likely of the two to last, since some people object to wearing the polaroid glasses required for 3-D viewing.

However, he said it was hard to say whether 3-D would prove only to be a novelty. He pointed out that better pictures could be expected from the studios now that the novelty was wearing off.

So far, the majority of local adult theatre patrons have liked 3-D films. The children particularly like the scenes where objects come hurtling out of the screen at them, Robb said.

Around 15 to 18 3-D pictures are expected to be shown here in the next three months, depending upon release dates. 3-D pictures soon to show here include "Second Chance," "The Maze," and "It Came From Outer Space."

Arrangements Made

LAREDO (U) — Arrangements for the meeting of President Eisenhower and President Cortines at the dedication of the Falcon Dam in October were worked out yesterday.

Back In Washington

HOUSTON (U) — Nelson Rockefeller, undersecretary of welfare, returned to Washington today after flying here for conferences with Secretary Hebb.

Taxpayers Also Cheer As School Burns Down

DENVER (U) — When a \$48,000 fire gutted Denver's Manual High School, the students were not alone in their cheering. They were joined today by taxpayers when the school board announced: "The school was abandoned at the end of the last school year, and the students are to enter a new, modern building across the street next month."

The loss was fully covered by insurance.

The city was saved much of the estimated \$42,000 wrecking project it had planned.

Housework Easy Without Nagging Backache

Nagging backache, loss of pep and energy, headache and dizziness may be due to slacking down of kidney function. Doctors say good kidney function is very important to good health. When some everyday necessities, such as stress and strain, cause this important function to slow down, many feelings nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent urination. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used occasionally by millions for over 60 years. It's amazing how many times Doan's gives happy relief from these discomforts—help the 15 million kidney tubes and filters flush out waste. Get Doan's Pills today!

Insurance Claim Fight Kills One

HOUSTON (U) — Roy Polk, 25, layout artist who tried to settle an insurance claim with a sawed-off shotgun, died yesterday four hours after he was shot down and beaten by an off-duty policeman.

Polk, who had gone to the insurance office to see about a compensation claim for a back injury suffered six months ago, fired two shots at Charles Frick, 30, a claims adjuster.

Frick may lose a hand. Patrolman Bob Welch, in the insurance office on business, fired nine shots at the man. Welch said the wounded man fell but still kept his finger on the trigger of the shotgun and he had to beat him into submission with the empty pistol.

The dead man's wife said she had tried to stop him when he started for the insurance office armed with the shotgun. She said he had not worked since the accident and she had been afraid he would have a nervous breakdown.

Dr. W. W. Coulter, county pathologist, told Justice W. C. Ragan that none of the bullet wounds would have been fatal and Polk died of a cerebral hemorrhage resulting from a skull fracture.

Negro School Head Cleared

HOUSTON (U) — R. O. Lanier, president of Texas Southern University, had today what was regarded as a vote of confidence from the Negro school's directors.

A committee reported there was no evidence of subversive activity or subversive teaching at the school. The committee said only "two small areas of friction" have existed at the Negro school and that they have been removed.

Business manager French Stone and John Robertson, executive assistant to the board, have resigned, the committee reported.

The probe was made at the request of Gov. Shivers after he had received a complaint from the Negro American Legion post of Houston.

The Legion group told of reported unrest, subversive indoctrination, and lack of faculty security.

Long Trip No Good For Brooklyn Lawmen

LOS ANGELES (U) — Two officers came all the way from New York only to find that the crime confessed by a 43-year-old Los Angeles chef was committed outside their jurisdiction.

Alfred Romano told Los Angeles police he shot a hotel prowler and burned his body in a Brooklyn vacant lot. But, said Louis G. Androski, Asst. Dist. Atty. of Kings County, in Brooklyn, and DeLoe County, in Brooklyn, after conferring with Romano yesterday, the scene of the killing is in Manhattan, another borough.

Drought Aid Report

KANSAS CITY (U) — Texas has received 123,594 tons of cottonseed products and 585 cars of corn since the government's drought relief program was started, a Commodity Credit Corp. official said yesterday.

A Bible Thought For Today —

Do your work and let reputation take care of itself.
"For men to search their own glory is not glory" —
Prov. 25:27.

Here's Some Foresight That Will Look Good According To Hindsight

The City of Big Spring has let contracts for enlarging filtration facilities, and at the same time a residue of \$650,000 in bonds has been sold.

While no firm estimates on the construction were announced, the actual award figure is around \$100,000 over earliest top estimates. Final figures likely would be less than that. The savings, whatever it is, is washed out by higher interest costs on the 30-year issue over the going rate for money when the issue was floated. Thus, the hard money policy has outweighed modification of construction costs.

To have sold all the issue at one time when the market was more advantageous would have meant a net savings, but this is a case of hindsight being better than foresight. At the time the top side of the issue was sold, there were many sound

reasons for not selling all. For one reason it would have created the entire financing load at one time rather than spreading to a more propitious time. Too, part of the talk in support of the issue was to the effect that the bonds would be issued only as needed. For another thing, the bond market then appeared fairly stable. So, whatever might have been—it wasn't and so that is that.

It is heartening that the city officials did get sharp bids and accepted one which not only set up for four million gallons per day filtration, but also included the heavy concrete work for eventual doubling of this capacity. With minimum expense and inconvenience, the city can come abreast of its demands to serve the community with surface water except in moments of peaking. This is foresight which will look good by hindsight.

Businesses Can Help Vocational Programs As Training Stations

In years past, one of the frequent questions raised about the school system was that it did not have vocational training. Actually, this was not the case. Too many did not understand the nature of the Diversified Occupation course which has been operative since 1936.

It is still going strong. This season more than two score young students have signed up for the program whereby they may go to school in the morning and then work on the job in the afternoon putting into practice what they learned in class.

The field has been broadened. Whereas D-O deals with vocations in trades and industries, the Distributive Education course concerns itself with training in fields of service and sales. More than a score of

young people have indicated they want to take part in this.

Consequently, the big need in both fields is for business houses, offices and institutions to be made available as training stations. This is a very practical way in which business can make a real contribution to the schools while at the same time reaping benefits from the experience.

Here is an excellent way in which to spot and train future employees. Many key workers in businesses and shops here today got their start in the D-O and D-E programs. When they graduated from school, they stepped in as regular employees, already equipped and trained for the job. This is a doubly good investment for business and professional men, and we heartily recommend it.

These Days — George Sokolsky

Most People Probably Learned In Youth What Kinsey Recorded

It would seem to me that Dr. Kinsey has set out to make sex unpopular. The romantic poets thought of a beautiful woman and wrote their poems about an endearing personality. The moralists spoke in terms of righteous living within the family and regarded the biologic process of procreation as a means toward increasing the race.

Dr. Kinsey, who is supported by Indiana University, Rockefeller Foundation and the National Research Council, concerns himself apparently with the sex process as a thing in itself, as an animal device employed by humans.

I read his book on the male only because in my profession I need to know why 250,000 buy a book. How many read more in that book than the piquant details of unusual processes. I do not know. It told me nothing that I had not learned as a youth on the sidewalks of New York.

In those days, parents blushed at the thought that their children will be even as they were, so what we needed to know we learned from other boys and sometimes from "bad girls." The point is that we had no doubts in our minds that they were bad girls and we rejected their attitude. If a boy found that his sister was a bad girl, he would get his gang together and there would be a fight with the bum who made her bad.

We had heard of homosexuals but not by any such fancy name. Generally, we thrashed them for the good of their souls. We never heard of sex crimes until Harry Thaw killed Stanford White, and then we got a awful. But that was for rich people. In our crowd, such goings on were unknown and I would wager that they did not happen because the walls were of paper and the eyes and ears of childhood enormous.

Dr. Kinsey's book on the male struck me as an unnecessary accumulation of useless information to satisfy the curiosity of the morbid.

I read a piece in the newspapers by some lawyer or other who jumped Kinsey's gun by telling all and sundry that if the law caught up with us for our sexual practices, most of us would go to jail. He said something about our evasions of the law on sex being worse than bootlegging. So he wants to get excited about that.

Up here on my farm, sex is a normal condition among robins, woodchucks, rabbits, deer and humans. The subject is so normal that it is no more discussed than the operations of the other 3,000, more or

less, parts of the human body. The most interesting gossip among my neighbors is when a girl is unfortunate before marriage. If the boy fails to act up like a man, he is liable to hear from the girl's father or brother. Sometimes the state police intervene and the worst thing that can happen is when a "state woman," as they call her, shows up on the scene. That, for some unaccountable reason, brings matters to a head.

Small boys know that a cow is serviced and that pigs produce litters. They take it in their stride, as they do when chickens or pigeons lay eggs, the biologic processes of which they understand. They do not need to read Kinsey's book to tell them what makes all that lives continue. They even know why wasps and beetles and snakes and frogs go on living.

I am debating whether I shall read Kinsey's book on the female. My favorite chapter in the Bible is Ruth who seems to me to be a very charming girl. When I was very young, I thought I would write an open words and music, about Ruth, alas! I went into the drabness of politics instead. I wonder what Kinsey's book would do to Ruth. Also the personality of Elizabeth Barrett Browning appeals to me.

Then I can never forget Maude Adams in "Peter Pan." I used to deliver flowers back in those days as a side job and I actually saw Miss Adams off the stage! Tell me, shall I think of her as a counted bug in Kinsey's statistics?

Heaven forbid that anyone should even think of his wife as merely a partner in sex. She is the mother of his children, which is more important.

Self-Dumping Lake

ANCHORAGE, Alaska (AP)—Lake George, the unique self-dumping lake, has done it again. The annual emptying of the picturesque Chugach Mountains lake is a phenomenon of the ice.

It is sealed with a barrier of ice each winter. As summer brings the big thaw, the barrier weakens gradually under the pressure of the mounting 26 mile long, 4 mile wide reservoir.

The flow builds to river proportions, ripping out chunks of weakened ice the size of a small house and tossing them along in the torrent down a mountain gorge.

This year, the breakup was nearly a month ahead of last year, due to the warm summer. The runoff raised the Knik and Matanuska Rivers five feet and the rush of debris and ice threatened bridges and trestles. The lake is 50 miles north of Anchorage.

Vanishing Tuna

OTTAWA (AP)—The mystery of the missing tuna off Canada's west coast still has fisheries officials puzzled after three years. First there were plenty of tuna; then there were none.

In 1939, tons of the albacore variety, a streamlined fish weighing from 10 to 20 pounds, moved into British Columbia waters for the first time in history. There were not many at the start and the war curtailed commercial possibilities. However, from 1944 on the catch increased and during the 1948-1950 peak period, 6,500,000 pounds were landed with a value of \$1,300,000.

Then the fish began to vanish. The 1951 catch was a mere 190,000 pounds worth \$33,000.

And The Tide Still Seems To Ebb

The World Today — James Marlow

Eisenhower May Make Talk To Nation On United States H-Bomb Developments

WASHINGTON (AP) — Perhaps President Eisenhower — now that the Russians have had two rides with one ticket on the hydrogen bomb — will make a public statement about this country's progress with the same weapon.

Malenkov told the Supreme Soviet Aug. 8 the United States no longer had a monopoly on production of the bomb. Today the Communist newspaper Pravda said Russia had actually tested an H-bomb.

This country never has officially claimed to have produced this bomb although the carefully worded statements given after tests at Eniwetok indicated the United States had the H-bomb.

But when Malenkov made his claim two members of the House of Representatives—both on the Joint Congressional Atomic Energy Committee—said this country has the H-bomb.

And after Pravda's announcement, Lewis L. Strauss, chairman of the Atomic Energy Commission, in a still carefully worded statement said that on Aug. 12 Russia had produced atomic explosions similar to the reaction this country got at Eniwetok.

For weeks there have been Washington rumors that Eisenhower was considering making a talk to the nation, and the world, about this country's achievements with the H-bomb and its awful destructiveness.

One report floating around the capital was:

That there were two schools of thought among Eisenhower's advisers, one urging him to disclose at least some of America's development with the bomb and its awful nature, and the other urging him to say nothing.

C. D. Jackson, Eisenhower's adviser on psychological warfare and certainly one of those to be consulted in any decision about a public statement of this kind, was asked within the past few days:

Was there any truth in a report

that a speech on the bomb was already written and lying on Eisenhower's desk, awaiting his decision to deliver it or junk it?

Jackson said he knew nothing about it. Yesterday on his New York trip Eisenhower had breakfast with Jackson and Strauss. This was hours before the Pravda announcement, but seven days after this government had learned of the Aug. 12 Russian atomic explosion.

Strauss, in his statement last night, said this country learned of the atomic explosion by the Communists on Aug. 12 but subsequently—he didn't say precisely when—learned it was of a kind involving "both fission and thermonuclear reactions." Thermonuclear is the scientific term for the hydrogen explosion reaction.

This delay in government announcement about Russian atomic experiments was not unprecedented. When President Truman in 1949 disclosed an atomic test in Russia he said it had occurred several weeks before.

Malenkov's Aug. 8 statement—that the United States no longer had a monopoly on production of the hydrogen bomb—was carefully worded and, because it was, it set the Western world guessing. It implied rather than claimed that Russia had mastered production of the bomb.

The question remained: Russia might have the information but was it capable of making the bomb yet?

On Aug. 12, the day of the Russian test, Secretary of State Dulles said:

There was no evidence that Russia had produced the H-bomb. But he spoke several hours, apparently, before this country's sensitive devices began to pick up evidence of the Russian test that morning.

Since Malenkov spoke only four days before his government made its test, he knew the test would soon be made. It was thought at the time he might be bluffing. Now it seems he was understating his claims. Why?

His first guarded statement got a sensational reaction around the world. Just as it began to die down, Pravda made the second claim. Whatever the Russian reason for handling news of the bomb this way, they at least got twice as much attention as they would if nothing had been said until Pravda broke the news today.

And the next time Malenkov makes a guarded claim, even if it's phony, he'll get more attention, and perhaps more belief, than he did this time. Psychologically, the Russians figured this one closely. Eisenhower will have to decide whether he wants to offset this news from Russia with news about American work on the bomb, plus statements about the future, including a national defense and atomic policy.

Notebook — Hal Boyle

Today's The Day Says The 'Prophecy In Stone'

By RELMAN MORIN
NEW YORK (AP)—Today's the day.

This is Aug. 20, 1953, a date marked for destiny, according to people who believe in the "prophecy in Stone." They expect an event of vast importance to take place somewhere in the world today. Exactly what, no one says.

Briefly, and leaving aside the heavy mathematics, the situation is this:

Some 5,000 years ago, more or less, the Great Pyramid was built in Egypt, within sight of the Nile. It became the tomb of King Cheops. It was a mighty mausoleum.

For about a century now, scientists have been prowling around the pyramid, inside and out, taking measurements. They noted that sides of the base correspond to the cardinal points of the compass. They found the aperture focused on the North Star.

Other facts emerged, things that seemed to indicate the pyramid was something more than just a pile of massive stone, hewn and combined with passageways and the crypts.

In 1864, Charles Smith, royal astronomer of Scotland, brought out a book called "Our Inheritance in the Grand Pyramid." The Abbot Moreux of France followed with calculations, based on his measurements.

They theorized the pyramid had been built in conformity with some orthodox astronomical principles—principles well known in modern science, but presumably far beyond the knowledge of the ancient Egyptians.

From this came a still more sensational theory that the pyramid foretells the whole future of this world, the fate of nations, the wars, Armageddon, and so on to the end.

Hence, "The Prophecy In Stone."

"Prophecy in Stone" has not been very high, so far.

Some predictions never came off. They seem to have missed, entirely, that fateful day, Sept. 2, 1939, when World War II started.

In any case, long years ago, the men who try to read the "Prophecy in Stone" set down today, Aug. 20, 1953, as a day of destiny.

Maybe somebody will announce the invention of 4-D. Maybe Malenkov will disband the Red Army. Maybe Christian Dior will come out for no skirts at all.

By midnight tonight we ought to know.

Expectant Mother Adjudged Insane

LONG BEACH, Calif. (AP)—A 29-year-old expectant mother, Mrs. Thelma O'Boyle, who was convicted last Monday of fatally beating her infant daughter, has been adjudged insane.

Superior Judge Joseph M. Maltby made the finding yesterday on the basis of reports by three psychiatrists. Mrs. O'Boyle, who has two other children, will be committed to a state institution.

Her 19-month-old baby died May 23. Mrs. O'Boyle maintained the child was injured in a fall and denied she inflicted a beating. She and her husband, James, came here recently from Indiana.

Woman Dies After Anniversary Quarrel

ONTARIO, Calif. (AP)—Wounded during a quarrel with her 41-year-old husband on her second wedding anniversary last Friday, Mrs. Ethel Mae Beckman, 66, died yesterday.

Her husband, Edward, a poultryman, has been held since the shooting. Officers say he told them he and his wife quarreled over money.

Around The Rim — The Herald Staff

Pyramid Sign Readers Believe This Is A Day Of Significance

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald.—Editor's Note.

Something awful—awful bad or awful wonderful—is due to happen to the world today.

That's according to the experts who study the Egyptian pyramids, the Great Pyramid in particular. They say Aug. 20 is one of the great dates of history mysteriously pointed out in the construction lines of the Great Pyramid, located just outside Cairo.

The pyramid, built 5,000 years ago, has intrigued generations of researchers and mystic thinkers. It is the burial place of the Pharaoh Cheops.

Ed Pollak, Associated Press reporter, some time ago dug up a few facts and a great deal of speculation about meaning of the lines of stones and the manner in which they intersect. He says Georges Barbarin, a Frenchman, is one of those whose calculations connect "the significant dates of history" with "predictions" in the lines of the Great Pyramid. Intersection of the lines of the ceilings, floors and corridors are supposed to coincide with certain important dates, one of them being Aug. 20, 1953.

According to Barbarin, the intersection of the ground line projected from the first ascending passage with the axial line of the entrance passage works out to the date of the great exodus of Israel from Egypt. The date of the Nativity is represented by the level of the floor of the Queen's room.

Other theorists figure that the foot of the wall of the biggest room and the beginning of a passageway leading to its anteroom correspond to the date of the start of World War I in 1914. End of the war to end wars also is designated by an intersection of lines.

Since 1918, a number of other "important" dates have been "found"—Aug. 30, 1938; Nov. 27, 1939; March 3 and 4, 1945; Feb. 18, 1946; and Aug. 20, 1953. But, unless it happens today, none of these dates has marked any significant date.

This could be the day, though. Maybe Malenkov will resign. Or, it could even rain in West Texas.

Washington Calling — Marquis Childs

Disagreement On Approach To Korea Problem Is Pointed Up

UNITED NATIONS, New York — The problem of this session of the Assembly of the United Nations is no more and no less than the by-now-familiar disagreement between the United States and most of the rest of the free world over the approach to a settlement with the Communist half of the world.

It began with Sir Winston Churchill's speech of May 11 proposing a top-level Big Four conference. And while Churchill is in England slowly recovering from the illness that caused him to drop active direction of his government, his spirit is like a background emanation at this curiously muted meeting.

Churchill's proposal appealed to millions upon millions of people in Europe and Asia desperately looking for some way out of the tension of a cold war stretching into an indefinite future. Their hope may have been naive, childish, downright dangerous. But it is a fact and that fact is behind much of the uneasy muttering that one can hear in the antiseptic corridors of the handsome U. N. Assembly building.

The British, the Canadians, most of the Commonwealth delegates came here anticipating a Korean political conference of broad scope. It would begin with an attempt to work out a settlement for Korea. Then if that effort went fairly well, the conferees would go on to take up other plague spots, such as Indo-China. In other words, they envisaged what could have developed into a general Asian conference.

They say that they expected that this also would be the attitude of the United States. After all, the American delegation has consistently over more than three years held to the position that the Korean conflict was the concern of the United Nations and not just the U. N. members that participated in the war. They profess to be shocked by what they interpret as the narrowness of the American view of the conference.

In any event, in the preliminary stage the American viewpoint prevailed. There was one small concession and the British have made the most of it. That was in the wording of the resolution dealing with Russia, which puts U. N. approval on an invitation to the Soviets with the proviso "if the other side desires it."

Apart from this, Henry Cabot Lodge Jr., head of the American delegation, put over his concept of what the conference should be. In the sessions with the representatives of the 15 other nations having troops in Korea leading up to the Assembly he has taken the line of stern realism.

One might almost call it brutal realism. The peace will be made, if it can be made, by the United States, Communist China and South Korea. The United States will not be bound by any voting procedure at a conference that will be concerned solely with Korea.

Other delegates representing the 18 nations that sent troops to Korea will be present at the conference—the British, the French, the Canadians and so on. But what is important in Lodge's view is that the American concept of a two-sided table has prevailed over the round-table idea.

This puts a strain on the Western alliance and on the U. N. itself. How much of a strain it is too early at this writing to say. But to many the American position is bound to seem a repudiation of

Where's The Fire?

McALESTER, Okla. (AP)—Little red boxes are plaguing city officials.

The city recently instituted a painless method for paying overtime parking tickets. Motorists were allowed to place the tickets and 25 cents in red boxes installed in each downtown block. This allowed them to avoid the \$1 police fine.

Firemen, however, got an alarm from the industrial section soon after. When they arrived, they found a farmer trying to stuff his overtime ticket and a quarter in a red fire alarm box.

Measured By TV

ROANOKE, Va. (AP)—A television set in the home is the measure of a family's ability to pay for a child's school lunch here in Roanoke.

The school board has put Roanoke families on notice that the parents who find money for a TV set will be expected to find money for junior's lunch.

Uncle Ray's Corner

Records Tell Of Wild Pigeons

During the past century, there were millions of passenger pigeons in North America. Today, so far as is known, there are none. If someone found a pair of them alive, he probably could make a fortune.

It is amazing that such a vast family of pigeons died out. Before speaking of the reasons, let us go back to some of the old records. John J. Audubon, famous naturalist, wrote these words about passenger pigeons 126 years ago:

"The noise which they made, though distant, reminded me of a hard gale at sea, passing through the rigging of a close-reefed vessel."

Forty-four years later, the editor of a small newspaper in Kilbourn, Wis., wrote:

"For the past three weeks the pigeons have been flying in countless flocks which no man could number. On Saturday, April 22, for about two hours before midnight, they flew in one continuous flock from south to north, darkening the air and astonishing the people by the sound of their wings."

In the same year, another Wisconsin paper (in Adams County) reported:

"Flocks containing tens of thousands of members are constantly flying over, while the woods are literally alive with them. The nesting ground extends for miles in the towns of Strong's Prairie, Monroeville, Preston, Big Flats and Leola."

Another vast nesting, but smaller than that in Wisconsin, took place near Potosi, Mich., seven years later. In a newspaper at Potosi, a professor wrote:

"Here, a few miles north, was a nesting estimated, by those best qualified to judge, to be 40 miles in length by three to 10 miles in width... covering something like 100,000 acres of land..."

Next time I plan to tell about the slaughter of these pigeons by hunters and others. Tomorrow: Slaughter of Pigeons.

Good Grooming Means Attention To Details

By LYDIA LANE

HOLLYWOOD — "I know a lot of Cinderella stories are thought up by publicity agents," Mary Murphy told me one day last week as we lunched at Paramount, "but I honestly got into pictures without ever thinking about becoming an actress."

"During my vacation I decided to work and the best job I could get was wrapping packages at Saks," Mary explained. "Most of the time I walked down to the Beverly Wilshire Hotel drug store for lunch and one day a man came up to me and said he was a talent scout and wanted me to come to Paramount for an audition. When I came home and told my family about this both of my sisters and my brother thought it a great joke."

"But you had the last laugh," I commented.

Mary smiled, "It really seems a fairy story but I was signed for their Golden Circle without even a screen test. And you know," Mary continued, "I was born in Cleveland and my first picture part was with Bob Hope who also comes from there."

"What is the top glamour secret you learned from being in features?"

"Grooming," Mary confessed. "When you face a camera, not a stray eye lash is out of place. It is this concentration on detail that makes glamour—not any one big thing but a mass of little ones. I've learned you can't dress in a hurry and look your best. It takes time to be well groomed but it is time well spent. You have the

same face and body but you must learn to present it in such a way that you get compliments from people who never even seemed to notice you before.

"I love to knock around in denims but I think there is a way of wearing casual clothes too. Once you get used to doing certain things to yourself they become a habit and you don't think about them anymore than you think about brushing your teeth or your hair."

I asked Mary how closely she followed fashion.

"I don't care about being the first to wear a new style," she said.

GROOMING TIP

An important part of grooming is well cared-for nails, and to assist you with this problem you should have leaflet M-30, "Giving Yourself a Manicure." Added to this important leaflet is Rosemary Clooney's "The Way to Maintain a Beautiful Skin" with lots of tips for cleaning, preserving facial muscle structure, etc. Get your copy by sending 5 cents AND a self-addressed, stamped envelope to Lydia Lane, Hollywood Beauty, in care of The Big Spring Herald. Remember to ask for leaflet M-30.

"I love blouses and skirts and I think they are becoming and can be worn around the clock. A soft, flowery scent floated across the table and I asked Mary what perfume she was wearing.

"It's bath oil," she confided. "I put it on my legs and at my elbows and in hot weather I find it lasts better than perfume."

On The Way To The Top

Lovely Mary Murphy, Paramount's newest discovery, tells Lydia Lane the importance of stressing careful grooming.

Mrs. Hines Gives Talk; Clawsons Have Reunion

WESTBROOK (Sp) — Mrs. Witt Hines of Westbrook, well-known book reviewer, was guest speaker at the Leoney Home Demonstration Club meeting at the Lone Wolf Electric Cooperative building in Colorado City recently.

Mrs. Hines discussed "Literature in the Home," and was introduced by Mrs. E. L. Hamrick, president.

A family reunion has been held in the P. E. Clawson home while Pfc. John C. Clawson, was home from Camp Rucker, Ala.

Attending were Mr. and Mrs. Frank Carter, Mrs. A. D. Sparks,

Kathy and Cynthia Kay, Mr. and Mrs. Era Clawson and Morris Don of Corpus Christi, Mr. and Mrs. John A. Miller, Gary and John Douglas of Oklahoma City, Mrs. F. Monroey, attended. Mrs. J. H. Cardwell will be the next hostess on Sept. 1.

Members of the WSCS of the Methodist Church were honored Monday afternoon with a social in the home of Mrs. Lois Smith at her ranch home south of Forsan.

A group of Forsan residents had a picnic on the Concho recently. Attending were Mr. and Mrs. G. L. Monroey, Mr. and Mrs. S. C. Cowley, Mr. and Mrs. Bob Cowley, Mr. and Mrs. Kenneth Cowley, Martha and Bobby Cowley, Jerry and Hubert Bardwell, Joyce and Jimmy Bennett and William Conger.

Mr. and Mrs. Charlie Adams and Mr. and Mrs. Byron Lilly of Big Spring are on vacation in Colorado.

Recent guests of Mr. and Mrs. Ted Henry and Mr. and Mrs. Eli Jacobs and Lucie were Mr. and Mrs. Frank Jacobs and Carol Ann of Brownfield.

Mr. and Mrs. A. B. Caldwell were in San Angelo Wednesday. Their grandchildren, Buster Peek and Judy Stockton, returned with them to spend the remainder of the week.

Guests in the home of the T. R.

Mike Moody, son of M-Sgt. and Mrs. Ray Moody, of San Marcos and Marilyn Moody, daughter of Mr. and Mrs. J. A. Moody of Novice have been visiting their grandparents, Mr. and Mrs. Arthur Moody.

Mr. and Mrs. W. M. Elrod of Ireland visited her sister, Mrs. W. T. Brooks, and family recently.

Guests of Mr. and Mrs. M. A. Gann have been their grandchildren, Don Small and Janet Sue Hall, of Lorraine.

Recent guests of the L. Hazelwoods have been their children, the Rev. and Mrs. Leslie McCara and Elizabeth Pearl of Ontario, Calif., Mr. and Mrs. C. V. Hazelwood and family of San Leandro, Calif., Mr. and Mrs. P. L. Hazelwood, Theda and Jack and Mr. and Mrs. V. V. Ames, all of Houston.

Visiting in the home of Mrs. A. G. Anderson and her father, Mr. Pelton, have been Mr. and Mrs. Sidney Pelton and Lowell of Anson and Benjamin Starrett of Houston. Mrs. Anderson returned to Anson with the Peltons and will also visit Bill Starrett in Tyler, before returning home.

Glenda Hines, daughter of Mr. and Mrs. Pent Hines, has returned home after spending the summer in Fort Worth with her sister.

W. Wallace Layton of Houston will preach tonight at 8:00 in the Open-Air Gospel Meeting at the corner of Birdwell Lane and Eleventh Place. He will also be heard tomorrow morning at 10:15 over Radio Station KBST.

Sewing Club Has Meeting; WSCS Members Entertained

FORSAN (Sp) — Mrs. C. C. Suttles entertained the Pioneer Sewing Club Tuesday afternoon in her home in the SunRay Camp.

Eight members and two guests, Mrs. Lois Mitchell and Mrs. G. F. Monroey, attended. Mrs. J. H. Cardwell will be the next hostess on Sept. 1.

Members of the WSCS of the Methodist Church were honored Monday afternoon with a social in the home of Mrs. Lois Smith at her ranch home south of Forsan.

A group of Forsan residents had a picnic on the Concho recently. Attending were Mr. and Mrs. G. L. Monroey, Mr. and Mrs. S. C. Cowley, Mr. and Mrs. Bob Cowley, Mr. and Mrs. Kenneth Cowley, Martha and Bobby Cowley, Jerry and Hubert Bardwell, Joyce and Jimmy Bennett and William Conger.

Mr. and Mrs. Charlie Adams and Mr. and Mrs. Byron Lilly of Big Spring are on vacation in Colorado.

Recent guests of Mr. and Mrs. Ted Henry and Mr. and Mrs. Eli Jacobs and Lucie were Mr. and Mrs. Frank Jacobs and Carol Ann of Brownfield.

Mr. and Mrs. A. B. Caldwell were in San Angelo Wednesday. Their grandchildren, Buster Peek and Judy Stockton, returned with them to spend the remainder of the week.

Guests in the home of the T. R.

Camps have been Mr. and Mrs. Leland Camp of Lamesa.

Mrs. W. A. Majors has been in Eunice, N. M. with her sister this week.

Mr. and Mrs. Wayne Monroey are in Electra this week to visit her parents, Mr. and Mrs. A. W. Rose.

Tommy Henry is in Monahans to visit his uncle and aunt, Mr. and Mrs. Lawrence Henry.

Mrs. Alta Griffith and Arlen of Wink were Forsan visitors Tuesday.

Johnny Park and David Wise have been in Lubbock to visit Bob Leonard, a student at Texas Tech.

Mr. and Mrs. Henry Park and sons and Mr. and Mrs. Jack Wise and children were recent San Angelo visitors.

Mr. and Mrs. Glen Whittenberg and Glenda are spending this week in Abbott and Gainesville.

The Rev. and Mrs. J. M. Stagner and Michael and Arlen White were in Abilene the first of the week.

Recent guests of Mr. and Mrs. James Eubanks and daughters have been her parents, Mr. and Mrs. J. C. Eubanks of Lueders.

Mrs. O. W. Averett and Sue accompanied by Mrs. Averett's sister, Mrs. Earl Bredlove, and Jan of San Angelo were recent visitors in Alpine and the Carlsbad Caverns.

Linda Cox of Sweetwater is a guest of the L. W. Moores.

Mr. and Mrs. P. P. Howard recently visited relatives in Littlefield and Levelland.

Mr. and Mrs. J. L. Mayes and children of Ackerly were guests of her parents, Mr. and Mrs. R. A. Fuller.

Mr. and Mrs. Robert Mitchell, Jerry Don and Shirley of Snyder were recent guests of Mr. and Mrs. E. O. Bassinger and Vickie Lee.

Mr. and Mrs. J. W. Butler, Mr. and Mrs. J. A. McMillan and daughters have returned from a visit in Fort Worth.

THIS IS GOOD EATING

SAVORY EGG SAUCE

Ingredients: 1/4 cup mayonnaise, 1-3 cup sweet pickle relish, 2 teaspoons prepared horseradish, 1 teaspoon prepared mustard, 2 tablespoons chopped parsley, 2 tablespoons chopped canned pimiento, 1/4 teaspoon salt, 1 hard-cooked egg, chopped.

Method: Mix mayonnaise, pickle relish, horseradish, mustard, parsley, pimiento and salt. Stir in chopped egg. Chill. Makes 1 cup.

Serve with broiled or fried fish fillets. Serve with the following menu.

Fish Fillets with Savory Egg Sauce
New Potatoes
Stewed Tomatoes and Sweet Corn
Bread and Butter
Green Salad
Fresh Plums

528 Campus Vestee

By CAROL CURTIS

Just as pretty as it can be in red, white and blue wool yarn! Unusual, too, as the colored yarn is threaded through the meshes of the wide crocheted background stitches producing a most handsome effect! Back in plain color. Snug-fitting as there is a grosgrain ribbon belt inside. Wear the vestee with sports skirts, slacks or for added warmth under a winter coat.

Send 25 cents for the Plain-Fronted Vestee (Pattern No. 528) complete crocheting instructions for sizes 12, 14 and 16 included, finishing directions, YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS

Big Spring Herald
Box 229, Madison Square Station
New York 10, N. Y.

Revival In Luther Comes To An End

LUTHER (Sp) — The revival closed at the Bethel Church Sunday evening with five new additions by baptism and two by letter.

Connie Crow, who has been visiting Monette Caughey in Stephenville, has returned to her home here.

Mr. and Mrs. W. D. Anderson are visiting Mr. and Mrs. N. M. Smith Jr. in Lubbock and Mr. and Mrs. Roy Eastland in Amarillo.

Mr. and Mrs. R. G. Davis and children of Monahans visited Mr. and Mrs. L. W. Marton Sunday.

Mr. and Mrs. Riley Wheelless of Lubbock were recent guests of Mr. and Mrs. Otto Heckler.

Betty Hogan is visiting her uncle and aunt, Mr. and Mrs. Roy Lambert, in Lubbock this week.

Mr. and Mrs. Gene Lockhart and children of Snyder were recent guests of Mr. and Mrs. Carl Lockhart.

Mrs. N. M. Smith attended a bridal shower for her niece, Patsy Lloyd, in Snyder, recently.

Mr. and Mrs. A. J. Overton and children have returned home to Lees after a visit with Mr. and Mrs. James Torrence.

Recent guests of the Bill Hogans have been Mr. and Mrs. Roy Lambert of Lubbock, Mr. and Mrs. D. P. Lambert and daughter of Big Spring and Mr. and Mrs. Melvin Hogan and children of Winters.

Among those on the sick list have been Mrs. O. R. Crow and Bill and Mrs. N. H. Stanley.

Mr. and Mrs. Lealie Bryson recently attended a barbecue in Odessa.

Retta Morton returned home with her father, L. W. Morton, and uncle, Rex Morton, recently after a visit with relatives in Gatesville.

Bells Have Guests From Out Of Town

WESTBROOK (Sp) — Guests of Mrs. Annie Bell and Mr. and Mrs. W. A. Bell have been Mr. and Mrs. John Bell and children of South Texas and Mr. and Mrs. Vance Armstrong. Wanda and Tommy of Jalisco, N. M.

Redney Alexander of Stanton is visiting his grandmother, Mrs. Willie Byrd.

Mr. and Mrs. B. C. Townsend of Royalty were visiting friends here recently.

Mr. and Mrs. Venter Walker and children of Odessa are visiting her parents, Mr. and Mrs. Colt Butler.

Vacationing this week are Mr. and Mrs. E. O. Hudson, who are in New Mexico and Colorado and Mr. and Mrs. O. D. Carter who are visiting in East Texas.

Mrs. Dewey Phillips and children were recent guests of her parents, Mr. and Mrs. Jim Berry.

Mrs. Clarence King, Bill, Edward, Earl, Donnie and Jerry are visiting relatives in San Antonio.

Edward King was injured recently when he fell from the back of his father's truck.

Baptist Group Has Conference

The monthly workers conference of the Big Spring Baptist Association was to begin this morning at 10 at the Knott Baptist Church.

Members of the WMU were to begin their meeting at 1 p. m. and officers for the coming year were to be elected. Reports from 11 vice presidents and from the WMU convention at Glorieta were to be heard during the meeting.

Make sure you store your nonfat dry milk in a covered container; it gets lumpy if the air gets at it.

P-TA Executive Group Make Plans For Year

COAHOMA (Sp) — The executive committee of the P-TA met this week to make plans and discuss the work for the coming year.

Mrs. O. B. Hughes presided and members agreed to use the programs in the "Texas Parent-Teacher" magazine.

Attending were Mrs. G. E. Finley, Mrs. Sam Buchanan, Mrs. P. T. Pyate, Mrs. Jasper Gibson and Mrs. Paul Camp.

Mr. and Mrs. C. H. DeVaney and Rosalie were recent guests of Mr. and Mrs. Noble DeVaney in Midland and of Mr. and Mrs. C. T. DeVaney in Odessa.

Mr. and Mrs. Frank Loveless and Louis and Arlon DeVaney are fishing at Buchanan Dam.

Em House of Brownwood has been visiting friends and relatives here.

Grady Acuff and Royce of Lamesa were guests Tuesday of A. D. Shive.

Mrs. Vernon Bates and children of Menard have been guests of Carl Bates this week.

Mrs. Butt Brown was in Westbrook Wednesday visiting Mrs. Edd Bell and other friends.

Mrs. Artie McPherson returned to her home in Cleburne Wednesday after spending several days here with her aunt, Mrs. A. L. Armstrong.

The Shive family enjoyed a get-together in the home of Mr. and Mrs. Leon Moffett in Big Spring recently. A barbecue supper was served in the backyard to the group.

The Rev. Dick Copeland of Brownsville spoke at the evening service of the Presbyterian Church here Sunday.

Pierce's String Is Ended By Upstart Brownie Gang

Dodgers Grab 12th In Row

By REN PHLEGAR
AP Sports Writer

If you've got a streak running it's best to stay away from the St. Louis Browns. Just ask Billy Pierce.

The Browns have given the little Chicago left-hander nothing but trouble this season. He has an excellent 16-4 record but look what the lowly St. Louis outfit has done to him.

In his first start, April 16, Pierce had a no-hitter going for six innings. Then Bobby Young doubled and spoiled it.

Ten days later the Browns beat him 7-3 for his first loss in 10 starts dating well back into the 1952 season.

On June 30 the White Sox were riding a seven-game winning streak. But they threw Pierce at the Browns and lost 4-2.

Yesterday Pierce faced St. Louis with a string of 34 scoreless innings in his last four appearances. The Browns snapped it at 40 with a pair of unearned tallies and went on to score two earned runs in the 10th and win the game 4-3. The fast-balling southpaw had pitched 51 innings without giving up an earned run.

The setup against St. Louis cost the White Sox a full game. Their more and more futile pursuit of the New York Yankees. The Yanks edged Washington 2-0 and now lead the league by 8 1/2 games.

Boston defeated Philadelphia 6-4 and Detroit whipped Cleveland's Early Wynn for the first time in three seasons 4-2.

Brooklyn continued its whirlwind drive toward the National League pennant with its 12th straight victory, an uphill 7-5 triumph over the New York Giants.

Milwaukee edged Cincinnati 3-2 and stayed 8 1/2 games ahead of the Dodgers. Pittsburgh beat Philadelphia 5-3. Chicago defeated St. Louis by the same score.

For 2 1/2 innings Washington continued its mastery over the Yanks. Then Yogi Berra got the first New York hit, a home run. Al Sims gave up only three other hits and one more run, but his teammates couldn't do anything with Jim McDonald, who also yielded four safeties.

Ted Williams hit his third home run since returning to action, providing the Red Sox' victory margin over Philadelphia.

Home runs by Bob Nieman and Steve Souchock helped Billy Hoefl break his four-game losing streak with a decision over Cleveland.

Three-run rallies in the third and eighth innings enabled Brooklyn to overtake and whip the Giants, who had built a 5-1 lead. Duke Snider's single with the bases loaded in the eighth produced the winning runs.

Felix's cap hit his hitting streak to 17 games with a ninth-inning home run, that gave the Braves their triumph over Cincinnati.

Curt Simmons lost his 11th game when the Pirates got two runs in the eighth at Philadelphia.

Four walks allowed by Joe Plesko in sixth inning plus an error gave the Chicago Cubs the two runs they needed to beat St. Louis.

TAAF Meet Opens

SAN ANTONIO (AP)—The state TAAF Men's Softball tournament starts tonight with 13 teams. A tripleheader will open the play, beginning at 7 p. m. in the stadium which has won the state title for the past three years, and was runner-up in 1948, is the favorite.

Rules For Recreational Use Of Lake Thomas Announced

Within a fortnight, rules and regulations under which Lake J. B. Thomas will be opened for recreational purposes will take effect. Publication of the controlling ordinance by the Colorado River Municipal Water District is being accomplished now, climaxing a year of study by the board of directors and special committees.

Basically, the regulations provide for leasing of sites, construction of buildings, safeguard of sanitation, use of boats, and control of hunting and fishing. The district has the authority to appoint one or more peace officers to enforce the rules and state laws. Violations may be punishable by fines and the forfeiture of leases and permits.

Some of the principal regulations include:

LAND—Certain areas will be set aside by the district for public picnic and recreational areas. Others will be for commercial purposes (rental of boats, motor, sale of bait, supplies, etc.). The remainder suitable for lots will be leased at values to be fixed by the directors. Leases are renewable automatically each year unless cancelled for violations. They are transferable with district approval. Roads from the district road to private sites or lots will be constructed and maintained at private expense.

BUILDINGS—Any construction below elevation 2,265 (one foot above emergency and seven feet above service spillway levels) must be authorized specifically by the district. No habitation will be permitted within 75 feet measured horizontally from the normal water elevation (2,258), except boat houses, piers and docks. Structures below 2,265 call for a release of liability to the district. Improvements cannot be made without approval of the district as to health and sanitation facilities are concerned, or the safety of navigation and others.

SANITATION—All habitations along the marginal lands shall have a septic tank or toilet constructed and installed in accordance with approved plans. Garbage and trash, except that which is burned, shall be collected and removed at least once a week. Fowls and livestock, except cats or dogs, may not be kept on lots leased from the district or others bordering the lake.

SWIMMING—Swimming will not be permitted within one half of a mile of water intakes, which will be plainly marked.

BOATS AND DOCKS—No person, firm or group may operate boats or docks without first securing a permit from the district. Commercial (rental) boats will be licensed and subject to periodic inspection. Launching fees will be 20 cents per day or \$5 per year. Boats must be equipped with a life preserver for each person, and it will be unlawful to put more persons than the rated capacity in the boat. No house boats for domestic purposes will be permitted, and boats with overnight accommodations must have approved sanitation facilities. All boats shall be self-sustaining either by patent methods, air tanks, compartmentation or composition. Power boats must have underwater exhausts. Row boats, rafts, canoes have right-of-way; sailboats have right-of-way over power boats, outboard motors over inboards. Power boat operators are liable for damage which might result from their wake. From sunset to sunrise, all boats on the lake must have lights—lanterns for hand craft, all-around white lights, plus red and green running lights, for sail and power boats. All boats must be operated in a safe manner.

HUNTING—State and federal laws will govern, except that no rifle or sidearm may be fired over the waters of the lake and on land around the water's edge. No shot gun using larger than No. 4 shot may be fired.

FISHING—Laws of Texas, except as amended by district ordinance, will apply (the lake is closed to fishing to May 1, 1954).

PERMITS—No one shall hunt, fish or use, operate or maintain a craft or boat in or on the waters of the lake without first securing a recreation permit from the district. Fees for the permit will be \$5 per year for men and wife, or \$3 cents per day. No fee shall be charged for children under 17 years of age. Daily permits are from midnight to midnight, annual ones are for calendar year.

LOOKING 'EM OVER

With Tommy Hart

Joe Stydahar, a National Football League personality, had this to say recently:

I have two strong beliefs about football. (1) A quarterback who can't throw might better be a water boy and (2) any back who can't receive passes is only 50 per cent value to his team.

Apply Stydahar's statements locally and you see what a tremendous responsibility Frank Long, Tommy McAdams and the other backs have in the local football set-up this fall.

Long and McAdams will have to be 'on target' as they never have been before if the local team is to go anywhere in this fall's race. But their job can be A-1 and still go for naught unless their receivers consistently hold onto the pigskin.

Without a first-line passing offensive, a football team in these times finds itself out-maneuvered and out-scored. And, the responsibility lies not only with the passers and the receivers but the young men who sling to the club and not the fan.

QUARTERBACK CLUB IN SESSION TONIGHT

The Big Spring Quarterback Club has big plans for the season but it needs the help of its members and friends alike to put those plans into execution.

The organization holds its second meeting of the summer this evening in the High School Auditorium. It's open to the public, whether or not you are a member. Be there, if you can.

Over at Odessa, Cooper Robbins, the new head grid mentor there, already has his guard up.

Robbins says his team can't be figured as title contenders "because the Lubbock entry is going to be as strong or stronger than the Western outfit that paraded to the state AAAA crown last year."

The Bronchos open their season as early as Sept. 11, at which time they play Port Arthur at home.

Perhaps Archie Moore, the Lightweight boxing champion, can lick any heavyweight around.

Last winter, Moore laced Nino Valdes, who only recently copped the duke over Ezzard Charles, thought by many to be the logical contender for Rocky Marciano's crown.

Joe England's new salary as head football coach at Monahan High School will be \$6,000 per annum.

The school board had offered F. O. Scroggins slightly more than \$3,000 yearly, after Scroggins threatened to stay on.

As it stands now, the Monahans board will be paying out more than \$12,000 in salaries to two head coaches, since it agreed to pay Scroggins in full (at his old take), if he'd agree to quit.

The president of the durable Kitty League, the best Class D circuit in the minor baseball leagues, is campaigning for a repeal of the federal amendments tax, which takes 20 per cent off the top of the admissions ticket.

"What small business can stand 20 per cent taken off the top?" he asked. "If the tax isn't erased or greatly reduced, the Kitty is doomed and so are all other Class D circuits."

He could have included a lot of other minor circuits, from Class AA down, in his remarks.

If the tax were eliminated, however, the savings would be passed give the throwers the required protection.

Seixas Better, Aussies Learn

BROOKLINE, Mass. (AP)—Vic Seixas' wrenched knee, which was expected to doom the U. S. Davis Cup team, as far as the National Doubles Tennis Tournament was concerned, improves daily, much to the surprise of Harry Hopman, nonplaying captain of the Australian defenders.

After watching Seixas and Tony Trabert, the U. S. team's other key player, go through their postponed first-round doubles match here at Longwood Tuesday, Hopman was certain his players had nothing to worry about.

In fact, Hopman felt so confident about his Lewis Hoad and Ken Rosewall that he amazed many tennis experts by calling these 18-year-olds the equals of Australia's great Frank Sedgman and Ken McGregor. The latter two turned professional after protecting the Davis Cup last December.

After giving his knee, injured while playing Trabert in last Sunday's Newport Casino singles final, a whirlpool bath treatment, Seixas was extremely helpful to the stylish Trabert as they topped Pablo Elsenberg of Milburn, N. J., and Ed Dalley of Harrisburg, Pa., 7-5, 6-4, 3-6, 3-6, 7-5, 6-3.

All the other men's teams were in third-round action yesterday and Hopman appeared deeply concerned after Hoad and Rosewall ran into difficulties while subduing Luis Ayala of Chile and Bob Perry of Los Angeles 10-8, 6-3, 6-2.

As soon as Hoad and Rosewall qualified for today's quarter-finals, Hopman ordered both of them to a practice court. There they worked hard on all of their strokes before Hopman excused them.

During yesterday's action, three other Davis Cup doubles teams were ousted by Denmark's colorful Torben Ulrich and Kurt Nielsen were beaten by Frank Guernsey of Garden City, N. Y., and Hamilton Richardson of Baton Rouge, La., 9-7, 6-4, 1-6, 7-5. Mexico's Francisco Contreras and Joaquin Burrows of Charlottesville, Va., 8-6, 7-5, 6-4. Japan's Atsushi Miyagi and Kosei Kamo bowed to Grant Golden of Chicago and Bernie Bartzen of San Angelo, Tex., 6-4, 3-6, 3-6, 7-5, 6-3.

Brook Blaster

Jack Roosevelt Robinson... Infielder-outfielder Brooklyn Dodgers... Born Jan. 31, 1918, Cairo, Ga. ... Six feet, weighs 190 pounds ... Throws right, bats right ... First Negro in organized baseball ... Began with Montreal, 1946, where he batted .348 to lead International League ... Up to Dodgers in 1947 ... Led National League in batting with .342 in 1949 ... Named Most Valuable Player in League, 1949 ... Led league in stolen bases, 1947 and 1949 ... Established National League record for second base men participating in double plays (127) in 1951 ... His 14th-inning home run on the final day of the 1951 season in Philadelphia enabled the Dodgers to tie the Giants for the pennant ... Played in three World Series and five All-Star games ... Has .318 lifetime average through 1952 ... Attended UCLA, two years ... Hobby—Sports.

Sports Slice Dallas Lead

By BARD LINDEMAN
Associated Press Sports Writer

The Shreveport Sports defeated the Texas League-leading Dallas Eagles in both ends of a doubleheader Wednesday night, 2-1 and 6-2, cutting the Dallas lead to four games. With the double win the Sports maintain an outside chance to catch the leaders.

Dallas opens a 17-game home stand Thursday night with Beaumont still in good position, 21 games left on its schedule. The Eagles have been rough at home, playing .500 ball, taking 20 of their last 25 in Dallas.

In the only other game over the league San Antonio won from Tulsa 2-1 with Ryan Duron winning his ninth game for the Missions.

The defeat put Tulsa into a third-place tie with Fort Worth.

The Oklahoma City-Houston and Fort Worth-Beaumont games were cancelled out by bad weather. It was the last swing through the South for the northern clubs.

Records Shaded

HOUSTON (AP)—Five records were broken last night as the swimming events opened in the fourth annual U. S. Junior Olympics.

Twenty events tonight will end the 1953 Olympics.

Mississippians Meet Powerful Arizona Club

WICHITA, Kan. (AP)—A surprising Mississippi team gets a chance tonight to show whether it will be a strong contender for the National Non-Pro Baseball Tournament championship.

The Yazoo City, Miss., Eagles turned in one of the big upsets of the meet yesterday by beating the San Diego, Calif., Skyriders, Navy Tournament winners, 3-1.

Tonight Yazoo City meets another strong club, the Casa Grande, Ariz., Cotton Kings. A victory over Casa Grande would establish the Mississippians among the tournament's better teams.

The Military District of Washington club, defending champion, won its second consecutive game last night. It defeated the Columbia, Tenn., Monsanto Maulers, 5-3.

In other games, New Carlisle, Ohio, eliminated Rutland, Vt., 7-1, and the Fort Wayne, Ind., North Americans blanked Kirkland Air Force Base of Albuquerque, N. M., 6-0.

The 32-team tournament is a double elimination affair. It began last Friday and will last three weeks.

Today's schedule (CST):

1:30 p. m.—Louisville, Ala., vs. Telesboro, Ky. (first round).

4 p. m.—Fort Wayne vs. New Orleans, La., Holsum Sunbeams (second round).

5:30 p. m.—New Carlisle, Ohio, vs. Alpine, Tex., Cowboys (third round, loser eliminated).

9 p. m.—Casa Grande vs. Yazoo City (second round).

11 p. m.—Jersey City, N. J., Wilsons vs. Grand Junction, Colo. (first round).

Babe And Breeze Aid In 1 Up Win

GRAND RAPIDS, Mich. (AP)—Frank Strafaci has established himself as one of the top players in the Western Amateur Golf Championship because of some unexpected help from two sources—"The Babe" and the breeze.

Strafaci, who stroked a Babe Zaharias putter to medalist honors, could thank a friendly wind for an assist in his first-round victory Wednesday.

A putt that was nudged by the wind back into the cup helped Strafaci to a one-up victory over Thomas Stephenson of Kansas City, Mo.

Joining the veteran shotmaker in the second round were Walker Cuppers Harvey Ward Jr., Jimmy Jackson of Glendale, Mo., and Don Cherry of Wichita Falls.

Cherry coasted to a 6 and 5 win over William Henrich of Cleveland on a birdie-studded performance Jackson had the roughest time of the Walker Cuppers. He squandered a 2 and 1 victory over Don Guariglia, former national caddie champion.

Meet Underway

PASADENA (AP)—Eight teams will open the Junior Teen Age State Baseball Tournament here today.

The tourney will run three days with double elimination. Texans competing include Fort Arthur, Galveston, Victoria, Bryan, Waco and Houston, 1952 champion and this year's favorite.

Redskins Beaten By Rams But Show To Advantage

LOS ANGELES (AP)—The Los Angeles Rams beat the Washington Redskins 20-7 last night in a National Football League charity game, but it wasn't the winning coaches who were happy today.

Even in losing the Redskins showed \$2,678 fans one of their strongest teams in years, and Quarterback Eddie LeBaron had Washington in the thick of the fight in the fourth quarter. Little Eddie suffered a mild concussion but the team physician says it's nothing serious.

Two touchdown runs, one a 24-yard twist by Skeet Quinan and the other a flashing 79-yard punt return by Woodley Lewis, were the big difference. Bootin' Ben Agajanian provided the other points on field goals of 16 and 20 yards and two conversions.

Washington's touchdown came nine plays after the Redskins received the opening kickoff. With LeBaron taking beautifully, Charlie Justice and Julie Rykovich advanced 26 yards in five plays. LeBaron passed 27 to Bones Taylor and three plays later the same combination had a touchdown from the three.

After the game there was no whooping it up in the winners' dressing room. "I have never seen the 'Skins so tough," said Coach Hampton Pool.

Curly Lambeau, Washington coach, said the big difference was the two extra weeks of practice and two tuneup games the Rams had before meeting the Washington team that was having its first game.

BSQB CONVENES FOR SECOND TIME THIS SEASON AT 7:30 O'CLOCK

An up-to-date report on the number of memberships sold in the Big Spring Quarterback Club will be made when that organization sessions in the High School Auditorium at 7:30 o'clock this evening.

Non-members, especially high school graders and their parents, have an open invitation to be on hand.

Plans for a pre-football season barbecue will be discussed and, in all probability, approved at the convale.

Omar Jones, a co-captain of the Quarterback Club, said he believed at least 400 memberships had been sold. The club is shooting for 1,000.

Joe Williamson and his Star-Lighters will provide a musical prelude to the business session.

Cardinals And Colts Vie At Lubbock On Saturday

LUBBOCK (AP)—The Chicago Cardinals and Baltimore Colts professional football teams collide in an exhibition game in Jones Stadium at 8 p. m. Saturday.

Local interest is focused on Cardinal halfback Billy Cross of Canadian, rated the most colorful player in the National Football League, who played for nearby West Texas State. There is interest, too, in Baltimore's center, Keith Flowers of Perryton, and the Colts' rookie guard, Bill Athey of Waco. In games here against Texas Tech, Flowers played for Texas Christian and Athey, for Baylor.

Lubbock Junior Chamber of Commerce is sponsoring the game, selling reserved seats for \$3, box seats for \$3.50.

DeWees On Way To Cleburne

C. A. DeWees, County Club links pro here, was to leave today for Cleburne, where he will serve as starter in the three-day Nolan River Country Club Tournament getting underway there Friday.

While acting in the capacity of starter, DeWees will extend personal invitations to golfers in that area to take part in the Big Spring Invitational Tournament here next month.

DeWees is a former pro of the Nolan River course.

Stanton Athletic Group To Meet

STANTON — The Stanton Athletic Association will hold its first membership meeting this evening, President Joe Bulch has announced.

The convales takes place at the Stanton Implement Company, beginning at 8 p. m.

Plans for an area membership drive, as well as a season ticket sales campaign, will be discussed. New officers for the 1953-54 season will also be named at tonight's meeting.

Coaches of Stanton High School will be on hand to discuss prospects for the coming season.

Takes New Job

VAN (AP)—Van High School basketball coach G. T. Stagner has taken the head coaching position at Lindale High School.

Sure to be nice over ice...

When friends come over to talk things over... it's nice to have a drink made with the whiskey that's the over-all favorite all over America... Seagram's 7 Crown! Try it over ice, and you're Sure to say over and over again, "Smooth, Smooth, Smooth!"

American Pilot Killed For Not Confessing To Germ Warfare

FREEDOM VILLAGE—Three Army corporals reaching freedom today told how an American flier was "lashed to a pole and died in the sun because he would not confess to germ warfare" charges.

The corporals, two of whom served 10 months in the hard labor camp annex to Camp 2 at Pyok-tong, said another flier was chained to a wall in a place where

he could neither stand up nor sit down.

At first the three were reluctant to talk for fear of causing hardships for Americans not yet repatriated.

Cpl. Irvin Edwards, 22, who was captured Dec. 2, 1950, while with the U. S. 7th Division, said the aviator who died had been taken to Manchuria for questions but would not "confess."

"They brought him back to Camp 2 and tied him to a post in

the hot sun until he died," Edwards said. "He was starved. I don't know how long he had been without food. He was already three-quarters dead and was so weak that chains around his arms and legs held him erect. He never confessed and died in about 24 hours."

Edwards said the pilot was dressed in GI clothing and was unable to say anything because of a gag in his mouth.

With Edwards, of Knoxville, Ill., were two other Camp 1 repatriates—Cpl. David E. Fortune, 21, of Pickens, S. C., who was captured Jan. 3, 1951, while with the 25th Division, and Cpl. William J. Carpin, 23, of Fulton, N. Y., who was captured Nov. 5, 1950, while with the 1st Cavalry Division.

All three agreed that aviators—enlisted and officers—received special attention from the Chinese. They said that "all airmen are now held in Camp 2 (the officers' camp)."

Fortune and Edwards spent 10 months each in the hard labor camp at Camp 2.

At Camp 1, before all the fliers were removed, Edwards said an American officer was caged.

"He was chained to a wall all day in a squatting position. He was one of them who would not confess. The chains were around his arms and legs. When he was fed they would loosen the chains from the walls. He was taken to the latrine once a day. If he had to go more than that it was too bad."

Edwards and Fortune estimated that there were about 600 men in Camp 2. Both said they had talked with officers. Asked what they told him, Edwards replied:

"They clued us in. They told us not to fall for that bunk (communism) if we had any such intentions."

Both agreed that the officers were a tight group and were giving each other moral and spiritual support to resist "Communist pressure."

In reply to a question both men agreed that officers who had made Communist broadcasts had been under "pretty great pressure."

More Comfort Wearing

FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. **FARTHY'S** improved powder, sprinkled on upper and lower plate holds them firmly so that they feel more comfortable. No gum, sticky, pasty taste or feeling. It's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get **FARTHY'S** today at any drug store. (Ad.)

Fathers Eligible For Draft Should See Local Boards

WASHINGTON—Draft eligibles were reminded yesterday that if they expect to be deferred from military service for fatherhood, they must file evidence of it with their local draft boards by Aug. 25.

Under a change in draft rules ordered by President Eisenhower in July, fatherhood in itself will not be grounds for exemption after Aug. 25 unless there is "proven hardship and privation."

Selective service noted that under the law, fatherhood dates from conception, so a young man may be granted exemption if he files before Aug. 25 a doctor's certificate attesting that his wife is pregnant.

Marilyn Monroe Is Finding Life Rugged

HOLLYWOOD—Marilyn Monroe is finding Canada rugged.

The actress was injured in a fall yesterday for the second time in a week while working in a movie near Jasper, Alta. Her studio, 20th Century-Fox, said she suffered torn ligaments in her left leg.

Production on the film, "River of No Return," has been halted. The studio sent Dr. Robert Rosenfeld to Jasper by plane to attend the actress.

Dr. Kinsey Says Winning Confidence Is His Secret

BLOOMINGTON, Ind.—Dr. Alfred C. Kinsey says winning people's confidence and asking questions in a calm, objective way are two keys to getting facts on human sex lives.

He's interviewed college presidents, housewives and business executives, and even cracked the underworld to win confidence of shady men and women there.

In 15 years, he and three associates have interviewed some 16,000 men and women over the country. Of 8,000 women questioned, the case histories of 5,940 form much of the basis of his new book, which will be out Sept. 14.

An interview lasts 1½ to 3 hours and covers 300 questions, or up to 500 for persons with wide experiences.

Youth Probe Targets Are Discussed

WASHINGTON—The New York area, Washington and Los Angeles were under discussion today by a special Senate subcommittee as the first targets of an investigation into the causes of juvenile delinquency.

The subcommittee, headed by Sen. Hendrickson (R-N.J.), is undertaking an intensive study of narcotics peddling to children, a reported upsurge in the number of juvenile gangs across the nation and related subjects.

He says he can't pick human subjects in the same statistical way as do interviewers about politics or other subjects to get a representative cross-section of the American public. For if you rapped on the door of homes chosen that way, many people would refuse to answer his very personal questions.

Dr. Kinsey's approach is first to win cooperation in different sections of communities, or through clubs of groups of all social levels, as well as through individuals. Often one person convinces another to cooperate. This happens in the underworld, and by such confidences Dr. Kinsey may actually know more about rackets and crime in some cities than many police officials.

Dr. Kinsey explains everything told to him will be kept strictly confidential, by secret codes.

He explains a main reason for starting the sex studies: how students at Indiana University asked him, a zoology professor, questions about sex to which he could not find factual answers, anywhere, and, how little was actually known, scientifically, about human sex behavior.

After a subcommittee meeting yesterday, Hendrickson announced the appointment of Herbert J. Hancock, Newark, N. J., lawyer, as chief counsel. Dates and places of hearings were not finally decided, but New York, Los Angeles and the nation's capital were reported the most likely first prospects.

Some of the hearings, it was reported, may be televised.

Hendrickson said that juvenile delinquency is now "at one of the all-time peaks." He said more than one million children in their teens or younger get into trouble with the law each year. At the present rate of increase, he said, the number would reach 1½ million by 1960.

The subcommittee, which has \$44,000 for its inquiry, plans to spend much of its time probing for the factors in American life, particularly in towns and cities, which attract youngsters out of the home and make delinquents of them.

House Un-American Probers Say U. S. Confused By Reds

WASHINGTON—The House Un-American Activities Committee says it believes 99 out of 100 Americans are emphatically against communism—but many know so little about it they are not sure what they are against.

This confusion, the committee said yesterday, makes it possible for "many self-styled 'anti-Communists' with Socialist or Communist front backgrounds" to get away with attacks on congressional investigators of communism, "attacks which are aiding and abetting the Communist conspiracy."

The observations were contained in an introduction to a history of organized communism in the United States being published by the group.

Some women after interviews said the calm questioning led them to report things they didn't intend to tell.

Of nearly 6,000 women represented in 10 states possessing about 47 per cent of the total U. S. population—New York, Pennsylvania, Illinois, Indiana, California, New Jersey, Ohio, Florida, Massachusetts and Maryland, Kinsey says more histories are needed from women in the Southeast, Pacific Northwest, the High Plains, and Rocky Mountain areas.

Of women in this book, 58.2 per cent had never been married when interviewed, 41.8 per cent had been or were then married, and 13.2 per cent were widowed, separated or divorced. Sixty per cent were Protestant, 12 per cent Catholic, and 28 per cent Jewish. He says more Catholic and devout Jewish women need to be represented.
