Panhandle Paralyzed By Blizzard

Roads, Schools And Businesses Closed

By United Press International

A blizzard paralyzed the Texas Panhandle Sunday with 50-mile-an-hour winds tossing around the 14 inches of snow which isolated the area.

Schools, businesses and roads were closed today. Motorists were stranded on many of the state's roads.

Travelers warnings were issued for the entire South Plains Early today.

The snow fall ended early Sunday night and no additional snow was forecast. However northerly winds from 15 to 25 miles an hour were expected to continue blowing the snow into large drifts.

Hazardous driving conditions continued through today because of ice blanketing the roads. The most dangerous conditions were in places where a thin blanket of snow covered a layer of ice.

Temperatures were to remain below the freezing mark throughout the Panhandle until late today.

Between four to six inches of snow fell from Lubbock northward through the Panhandle Sunday and between one to three inches fell in the southern parts of the plains area. The high winds caused drifts from four to five feet in the northern sections and one to three feet in the northern sections and one to three feet in the southern areas.

All roads and highways north of Plainview were closed.

Gov. Preston Smith ordered the national guard to rescue at least 300 persons trapped in cars between Amarillo and Childress. Hundreds more were believed trapped between Amarillo and Dalhart but frozen communication and transportation systems delayed rescue efforts.

Amarillo Civil Defense Director Bill Butler said the National Guard used chained trucks to rescue 200 stranded motorists from the surrounding area. A Department of Public Safety spokesman in Childress said 100 persons were rescued near there.

"We're completely paralyzed to put it into words," Butler said. "We are experiencing extreme blizzard conditions here and we're virtually at a standstill. The city is shut down."

Butler said all schools and "every function imaginable" was closed today.

Warm temperatures were confined mostly to the coastal sections of Southeast Texas Sunday. High temperatures ranged from an 82 at Brownsville to a 22 at Dalhart and a 23 at Amarillo.

The southern portion of the state had clear skies Sunday. Some sections of North Central and Northeast Texas recorded heavy rain and thundershowers

and tornadoes were reported at Athens and Bellmead. No one was killed but a number of buildings were damaged.

Early today, Amarillo reported a total of 12 inches of snow had fallen. Dalhart reported six inches and Lubbock five.

Radar indicated snow fell as far south as near Fort Worth Sunday night. Freezing temperatures were reported as far south as Wink, San Angelo and Waco after sundown.

"The wind is blowing so high you can't really tell how much snow has fallen," Gray County Deputy-Sheriff, Buster Collins said in Pampa. "Sometimes it blows so hard you can't see at all. We have had drifts shoulder high right here in town. It's actually not all that bad except that we just can't go anywhere."

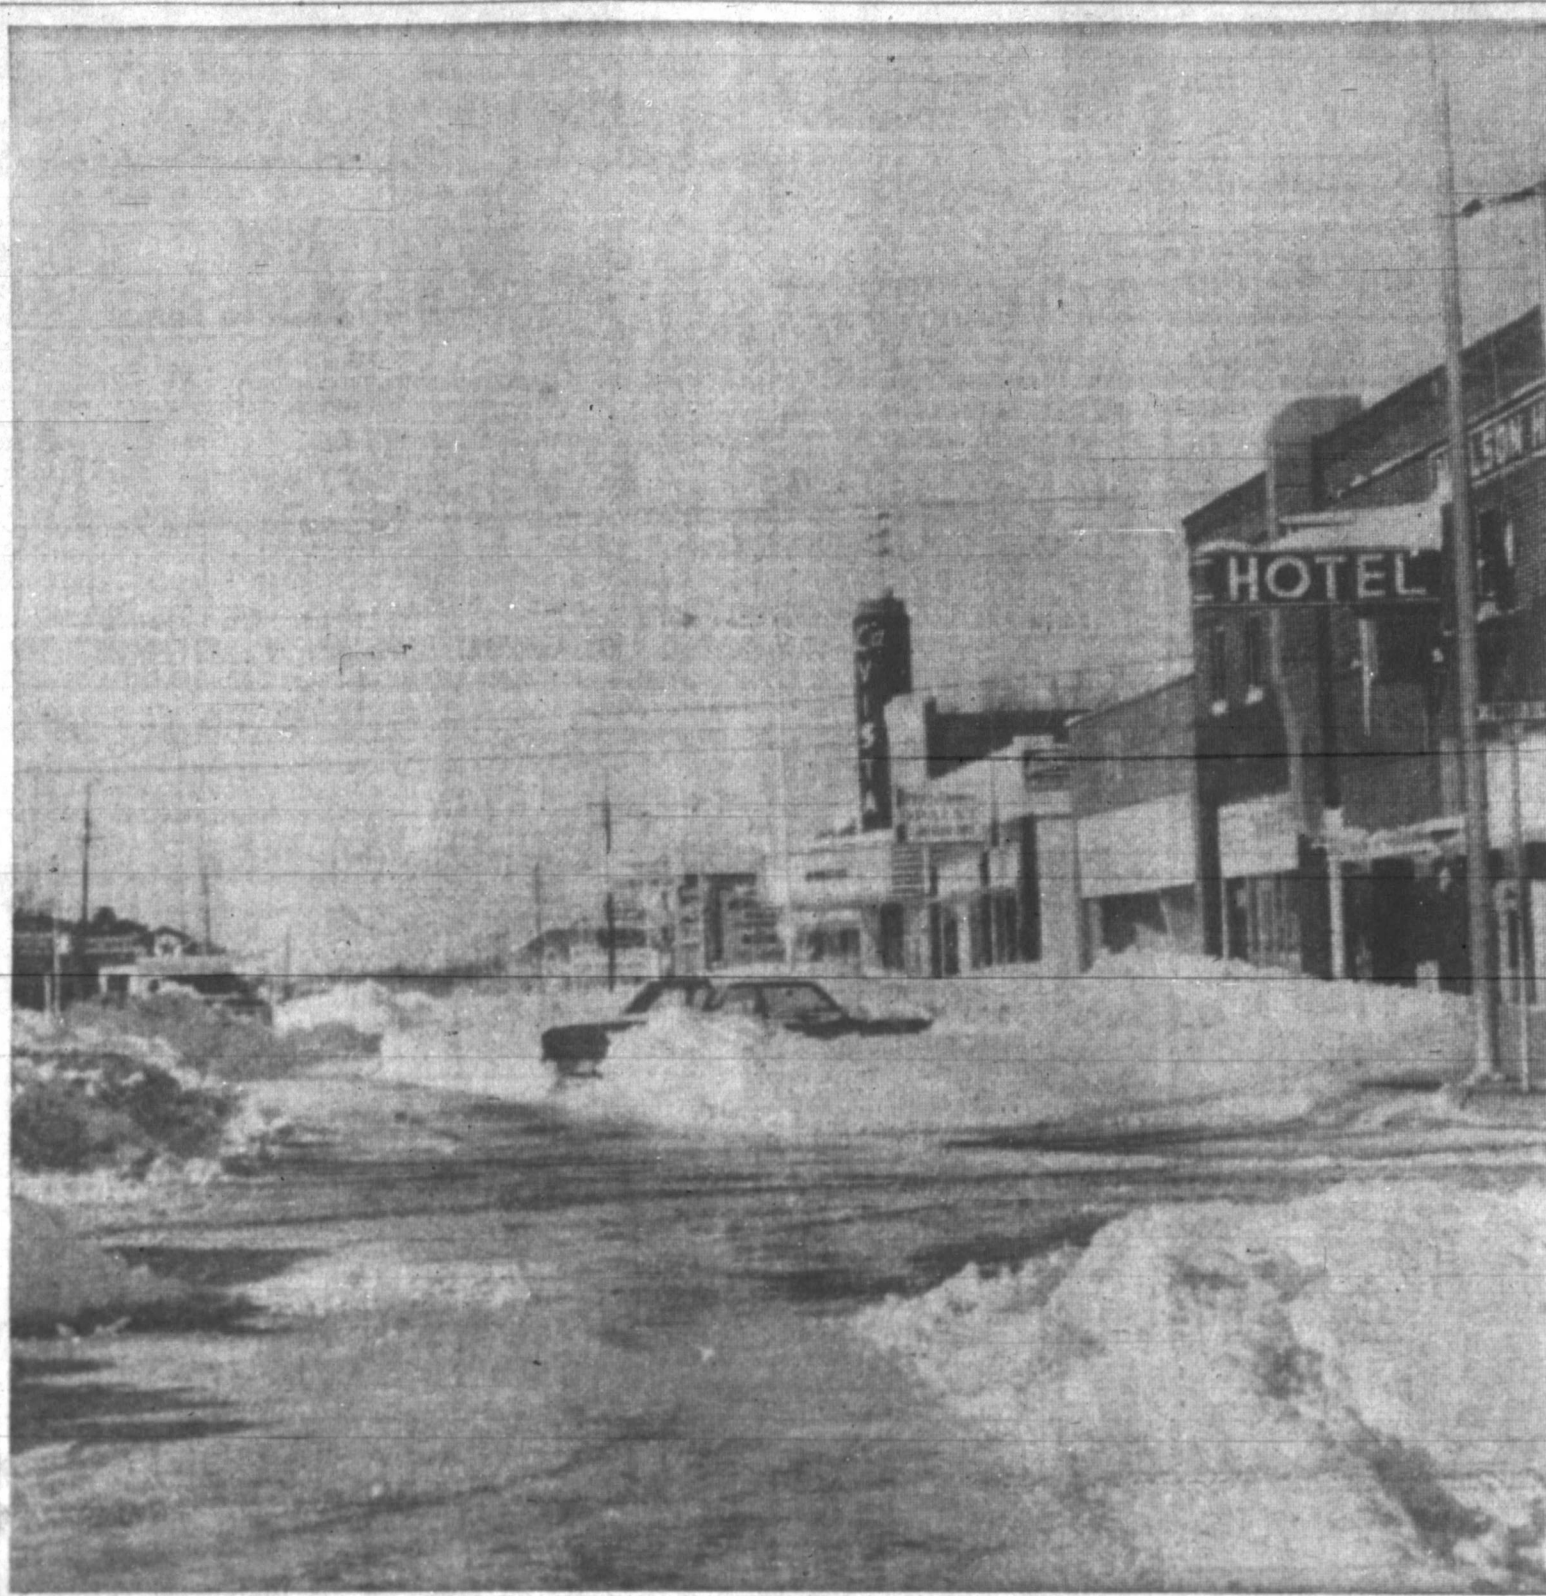

Laverne, Okla., just across the border had 25 inches. The blizzard, raging through Sunday, was worst in the northeast Texas Panhandle and in western Oklahoma.

The gusty, northwesterly winds picking up snow, closed roads as fast as crews opened them. Since the temperature was not due to get above freezing all day, the roads were expected to remain closed.

While snow fell in the Panhandle, tornadoes hit Bellmead, a suburb of Waco in Central Texas, and Athens, in East Texas.

Seven persons were injured at Athens, none seriously. Damage to homes and other buildings was estimated at \$125,000 in Bellmead and \$100,000 at Athens. Although the Panhandle was paralyzed, damage was slight and injuries few. Police and sheriff's cars still operating were mainly used to get people like nurses and firemen to their jobs.

Wreckers instead of ambulances took injured and sick people to hospitals. Drifts were six to eight feet deep in Amarillo and up to 12 feet in the northeast corner of the Panhandle.

SNOW-BLOCKED BUT CLEARING — West Foster Street was one of the first downtown Pampa streets that maintenance crews cleared Monday after the two-day blizzard dropped its 24 inches of snow on Pampa and the surrounding area. The snow-blocked parked car was only one of several abandoned after the week-end storm struck the city. (Staff Photo)

No Deaths Reported In Pampa-Gray County

By WANDA MAE HUFF

Pampa and other Panhandle cities started Monday morning trying to dig out from under 24 inches of blowing, drifting snow, the worst storm to strike the Texas Panhandle since the Blizzard of 1957.

No deaths were reported in Pampa as a result of the two day blizzard that started late Saturday night and continued into the pre-dawn hours Monday.

Wes Langham, administrator of Highland General Hospital, and National Guard official, reported he had contacted Gov. Preston Smith to declare Pampa and its immediate vicinity a disaster area, and had received aid from the National Guard.

With cooperative efforts of the National Guard, the Department of Public Safety, hospital officials, sheriff's officers, Southwestern Bell Telephone Co. crews and Pampa's street maintenance crews, emergency runs were made to deliver emergency crews to Pampa hospitals and nursing homes and to deliver patients to the hospital.

Sheriff Rufe Jordan and National Guard officers assisted a helicopter crew from Ft. Sill with rescuing 10 adult passengers and a bus driver from a stranded Transcontinental Bus on Highway 152 28 miles east of Pampa. They were all taken to Pampa's Coronado Inn by 12:30 p.m. Monday.

The bus driver and a passenger told officers they walked to the farm home of Glen Hodges east of Pampa about 8 a.m. Monday and reported the bus had plenty of fuel for passengers to stay warm. Hodges helped the two men carry food to the passenger's before the rescue team arrived about 11 a.m. Monday.

The Army helicopter crew from Ft. Sill and National Guardsmen rescued 17 stranded motorists, 11 on the interstate bus and six others stranded east of Pampa on Highway 152 since early Sunday morning. Sheriff's officers reported the helicopter would remain in Pampa until Tuesday morning to assist state and local law enforcement officers with rescue attempts.

Vermell Meador, director of nurses at Highland General Hospital, reported no patients were admitted as of noon Monday as a result of the storm, but that one patient, a heart attack victim, was taken to the hospital by members of the telephone company's five-man emergency crew.

Five phone company employees, Bill Wright, Bud Crow, Bill Caswell, Fred Martin and Marvin Young started at 9 a.m. Sunday and were still on duty at 11 a.m. Monday helping answer emergency calls in the city.

The men took a heart attack victim to the hospital, a nurse to a local nursing home, returned a little girl to her parents, assisted several stranded motorists, and worked with police and sheriff's officers to help patrolmen answer their calls, according to Sid Marshall, wire chief.

"Out of our normal hospital crew of 25 or 30, five were able to get to work Sunday, but with help from the National Guard, we were able to get enough nurses to operate two 12-hour shifts with minimum care," Miss Meador said.

Don Tinney and Dick Sirman, both of Lefors, were stranded visitors at Highland General, and volunteered kitchen services to help maintain hospital food service, Miss Meador said.

Bob Bonsal, street superintendent and his crew started working at 4 a.m. Monday to clear streets and as of 10:30 a.m. today had cleared most of the six-foot drifts in downtown Pampa.

Bonsal expected crews would need two or three days to clear all residential streets, and said crews will operate day and night until all blocked streets are opened. Bonsal estimated snow drifted worse in the northern part of Pampa, on 23rd Street, but that all streets had from two to three high drifts in one block.

Pampa Chamber of Commerce monthly membership luncheon on the oil and gas industry was scheduled for Monday but was postponed until further notice.

The agriculture committee meeting for Monday was postponed and will be rescheduled, according to Foster Whaley, chairman of the Chamber of Commerce agriculture committee.

A meeting at 10 a.m. Tuesday in the Chamber office with a delegation from Chile under direction of the Pampa Rotary Club is pending. Chamber officials and Rotary members were to meet with the delegation to explain city and county government, Chamber of Commerce operations and a word-picture presentation of Pampa and the Top of Texas area.

The men were to be guests of the chamber directors at the directors' meeting Tuesday noon, but that session is contingent upon the Rotary group arriving from Wellington and Childress where they were stranded over the weekend.

Tornadoes Sweep Through Deep South, Killing 60

By BILLY G. JAMES

CARY, Miss. (UPI)—Grim rescue workers dug through the rubble of sharecropper shacks across the flat Mississippi Delta cotton country today for more dead in the Deep South's worst series of tornadoes in nearly three decades.

The confirmed toll was 60 dead—54 in Mississippi and 6 in Louisiana. A Mississippi Civil Defense official estimated 500

persons were injured, and several persons were missing.

The death toll was the worst inflicted by tornadoes in the Deep South since a series of twisters took 75 lives in Central and Northeast Mississippi March 16, 1942.

The main group of tornadoes was reported along a 250-mile line from Delhi, La., across Mississippi's delta country, to

Seimer, Tenn., just north of the Mississippi line.

A tornado was reported early today near Crestview, Fla., and high winds destroyed a barn near Jopka, Ala. Hall the size of golf balls was reported near Birmingham, Ala.

"There's nthing left. It's all gone. Everything on that plantation is gone," said 17-year-old Lois Stamps, tears

streaming down her grimy cheeks. Her little brother, John, 5, a bandage around his head, cried: "Where's mama and daddy?"

The girl didn't know. Her parents, Isaac and Rosilee Stamps, were injured when a tornado ripped into their wooden house, scattering the family of 12. "We haven't seen them since. I don't know where they are," said Lois, at an emergency shelter for refugees.

Six persons were killed in a small hut near Delhi, La., where Cleveland Lenore Sr., 47, lived with 12 members of his family. Lenore and two sons were visiting friends at the time. Danny Lenore, 16, was the only known survivor, and he suffered a back injury. Three other persons were missing.

The Mississippi Civil Defense office in Jackson listed victims in at least eight communities in the delta. The confirmed dead were 11 in Inverness, 8 in Cary, 7 in Delta City, 7 at Little Yazoo, 5 in Lefors County, 5 in Humphreys County, 2 at Rome and 2 near Bovina.

Sen. James O. Eastland, D-Miss., asked President Nixon to declare the stricken delta a federal disaster area, and Gov. John Bell Williams said he would make an inspection tour of the area today.

At Moorehead, near Inverness, a city official said homes were "squashed like a tractor had run over them."

Four houses were destroyed and 12 persons injured at Transylvania, La., and 40 persons were hurt when a tornado damaged a trailer park near Oxford, site of the University of Mississippi.

REDS ALSO SUFFER HEAVY LOSS

Communists Wipe Out Viet's Ranger Battalion

By BERT W. OKULEY

SAIGON (UPI)—Gen. Creighton W. Abrams, the U.S. commander in South Vietnam, met tonight with high U.S. and South Vietnamese officials to study the South Vietnamese drive into Laos. The incursion is bogged down in heavy opposition and is a week behind schedule.

Communist forces surrounded a force of about 1,000 South Vietnamese troops on a hilltop five miles inside Laos after all but wiping out a nearby ranger battalion, and opening fire on a second base nine miles inside Laos. pilots pouring heavy fire into the Communist positions said they saw at least 500 North Vietnamese bodies.

There were indications the drive had failed to halt traffic on the Ho Chi Minh Trail since Saigon Abrams met with U.S.

the North Vietnamese were using truck routes further west. U.S. and South Vietnamese spokesmen would not confirm reports truck traffic had doubled but the Air Force said it was destroying more than 100 a day.

The hardest hit South Vietnamese unit in Laos was the 39th Ranger Battalion. U.S. military sources said it lost at least 50 dead, more than 100 wounded and 250 unaccounted for from its original force of 450. Survivors made it to another ranger base a quarter of a mile away to make a stand against the North Vietnamese attackers.

At tonight's strategy session in Independence, Palace in Saigon Abrams met with U.S.

Nixon Renews His Plea To Congress For \$1.9 Billion Education Program

WASHINGTON (UPI)—President Nixon renewed today his plea to Congress for a \$1.9 billion higher education program including loan guarantee to college students in all income levels.

In a special, brief message to Congress, Nixon proposed a two-part program, similar to legislation that died in the last session. It would:

—Provide a combination of grants, work-study payments and subsidized loans for full-time undergraduate students with low to middle incomes attending all public, and nonprofit colleges and universities.

—Create a national student loan association to raise money privately and make it available for college students at all income levels.

The basic concept, Nixon said, "is that all students whose families can be expected to make the same contribution should have the same help available from federal resources."

Under the administration's proposals, students would be

eligible for federal aid if they were from families with adjusted family income of \$10,000 or less and with one other child.

The maximum total amount of subsidized aid—including loans, grants, work-study assistance—would be \$1,400 per student. The maximum grant available to one student would be \$1000.

Sports Cancellations

The following sporting events have been cancelled.

The Stinnett-Pantex game and Hot Tuna-First Baptist basketball game in the T'OT Youth and Community Center Independent Basketball Tournament. Times for the games will be rescheduled.

The White Deer-Skellytown-Clarendon bi-district contest in the Harvester Fieldhouse has been cancelled and will be played later this week. A time had not been set at time of publication.

2 PAMPA DAILY NEWS PAMPA, TEXAS 3RD YEAR Monday, February 22, 1971

JEANE DIXON

Your Horoscope

TUESDAY FEB. 22, 1971 YOUR BIRTHDAY: A period begins of working out new approaches to all your current limitations. Growth in light brings your way as you spend more of your time alone and enjoy the results. Psychological and spiritual development is favored now, may even spontaneously displace material concerns on which you had planned to concentrate your main efforts. Tuesday's natives in most years are very fond of creature comforts, but those focusing their will be a much more ascetic by nature. ARIES (March 21-April 19): You must hurry to stay ahead of associates or just to stay even with them. Additions to your circle are temporary. TAURUS (April 20-May 20): A busy morning includes an opening for your brand of leadership. Be resolute and move right in. GEMINI (May 21-June 20): Try as you might to follow conventional patterns. It doesn't come out quite that way—but just be yourself. CANCER (June 21-July 22): Pursue an unusual idea or unorthodox scheme. If it says "lose" you're not, you've learned something valuable. LEO (July 23-Aug. 22): Sincerely offer a few words of praise; your end of the deal is to listen when your partner states the financial facts. VIRGO (Aug. 23-Sept. 22): The day dawns with a great psychic lift—after you sensitive and rising with it. LIBRA (Sept. 23-Oct. 22): Prompt action brings great advantages now. Select your area of operation carefully, the more elite the better. SCORPIO (Oct. 23-Nov. 21): Suddenly a fresh contact has all sorts of sense you've been waiting for. Make the most of today's broken-field conditions. SAGITTARIUS (Nov. 22-Dec. 21): Pursue important business deals; present your case. Bring close friends, consultants with you. CAPRICORN (Dec. 22-Jan. 19): A review of your work habits will show where you can achieve more effective results. Think larger is the slogan. AQUARIUS (Jan. 20-Feb. 18): Your inner security provides a mirror to being subtle understanding of things which have puzzled you. PISCES (Feb. 19-March 20): Step up and claim whatever you have coming to you; collect outstanding loans. Home life, your family scene cheers up.

TO STOP RISING COSTS

President Considers Possibility Of Imposing Wage-Price Freeze

WASHINGTON (UPI)—President Nixon, pondering the possibility of imposing a wage and price freeze to stall rising costs in the construction industry, called in Labor Secretary James D. Hodgson for consultation today.

Administration spokesmen said Hodgson would brief Nixon on his conferences with AFL-CIO construction union leaders at Miami Beach last week. Hodgson talked with representatives of 17 unions about the administration's apparently futile efforts to persuade labor and industry to impose voluntary controls.

In a related development, Nixon's chief budget writer said Sunday the administration firmly opposes giving public service jobs to the unemployed.

Caspar W. Weinberger, deputy

director of management and budget, said in a UPI Washington Window interview such make-work programs would be very difficult to stop once the economy picks up.

"I don't believe that there is at this point any feeling that there is any necessity whatever for the government to offer to employ everybody who is unemployed," Weinberger said.

House Speaker Carl W. Albert and other Democratic lawmakers have proposed legislation that would appropriate federal money to permit cities, towns and public agencies to hire the unemployed for public service jobs. A similar plan was vetoed by Nixon last year.

Unemployment now has reached 6 per cent, a nine-year high, and backers of the legislation have said it would be

more difficult for the President to reject the legislation this year.

Weinberger said he felt such a program "would encourage a lot of totally unnecessary and useless projects that would be very hard to stop after the economy did recover."

Nixon has the power to set a top limit on wages and prices to hold down construction costs under a law passed last year by Congress. The administration said at the time it did not want the law and that Nixon would not use it if it were passed.

A wage-price freeze for the building industry now is under consideration, however, and administration sources said such controls, if imposed, would be administered by a stabilization board with power to set maximum prices and wages.

Hurricane Hits Northern Utah

SALT LAKE CITY, Utah (UPI)—Hurricane velocity winds slapped northern Utah Saturday, knocking over trees, trains, trucks and trailers, ripping off roofs and cutting power in a populated 60-mile stretch between the Wasatch Mountains and the Great Salt Lake.

The winds, gusting to 88 miles an hour, whipped out of mountain canyons with such force that 10 cars of a freight train were blown off the tracks and a dozen homes at a trailer park were rolled into a giant jumble.

Blowing snow reduced visibility to near zero from Ogden to Salt Lake City and overturned truck trailers tied up major highways.

The brunt of the winds struck in the suburban and rural areas of Davis and Weber Counties between Utah's two largest cities, which are 30 miles apart. But damage was reported along a 60-mile stretch from Salt Lake City north to Brigham City.

Residents of trailers parked at Gold A Bell Trailer Court near Kayville fled their homes at dawn, shortly before the winds rolled the 50-foot long mobile homes several times. There were no injuries.

"It looked just like a train wreck," said a fireman at the scene.

Nixon Asks For Full Report On Wrong 'Alert' Message

COLORADO SPRINGS, Colo. (UPI)—U.S. Eberhardt, a balding civilian employee at the North American Defense Command (NORAD), made a six inch mistake. It touched off a mild national panic with repercussions still being heard.

President Nixon wants to know what happened and the Soviets are saying it shows a state of "military psychosis" in America.

Eberhardt, a veteran teletype operator with NORAD's National Warning Center, grabbed the wrong piece of teletype tape off a hook Saturday and transmitted what he thought was a test message over the broadcast circuits of United Press International and Associated Press.

However, instead of a test, Eberhardt sent an official message that is the first step in warning American civilians their country is under a national emergency.

Under federal law the teletype message—which contained the code word "hatefulness"—to prove it was authentic—should have caused all television stations and most radio stations to go off the air after announcing a state of emergency.

Some stations did. Most did not, because nobody was checking the news machines or because they did not believe the message.

It took NORAD 44 minutes to rescind the message.

In Washington, President Nixon asked for a full report on the mistake that caused the message to go to nearly 1,200 stations from coast to coast.

"We expect those responsible at NORAD will see that it does not happen again," Nixon said. "The White House, like everyone else, thought it was unfortunate that the procedural error took place, creating the unnecessary concern and confusion that it did."

The test tape and the

authentic tape, which Eberhardt used, were only six inches apart and hanging above the teletype machine. That situation already has been corrected.

"Now instead of the two tapes hanging on the wall, the tapes have been put in sealed envelopes," said James T. Gardner, a duty officer at the National Warning Center.

The envelope with the "real" tape is in a desk drawer five feet from the transmitter. The test tape is close to the machine.

"It was just a matter of grabbing the wrong tape," said NORAD director Louis Smoyer.

Smoyer said no disciplinary action will be taken against Eberhardt. "He feels bad enough as it is," Smoyer said.

Sunday, a second test was held of the national alert system, this time from an undisclosed location in Washington, D.C. Two locations are used in case one is destroyed or ineffective during an emergency.

The correct test message was used this time, but some Associated Press stations failed to receive it. Officials blamed the problem on machinery failure.

Former Slave Dies At 106

BECKET, Mass. (UPI)—Frank M. Schaeffer, a 106-year-old former slave, died Saturday at a nursing home.

Schaeffer was born a slave in the Oklahoma Territory in 1864. He moved to Becket in 1906 and took a job with the Boston & Albany Railroad.

Railroad officials forced Schaeffer to retire when they found out he was 82. Schaeffer entered the Washington nursing home in Western Massachusetts when he was 100 years old.

ACROSS NATION

Seven Policemen Slain In Unrelated Incidents

By United Press International
Seven law enforcement officers were killed in apparently unrelated incidents during the weekend, bringing to at least 11 the number of policemen killed during the past week.

Two Philadelphia policemen were found shot to death in their patrol cars, a black patrolman was shot near a Miami housing project, an Indiana state trooper and a town marshal died in a gunfight near Saint John, Ind., and a veteran Greenville, S.C., policeman was killed in a gun battle with a man who later took his own life.

Philadelphia Police Commissioner Joseph O'Neill said Patrolman John McEntee, 25, apparently was "executed" Saturday when he stopped two youths for questioning. About five hours later, the body of 16-year police veteran Joseph Kelly, 45, was found slumped over the steering wheel of his patrol car. He had been shot twice in the chest.

Police charged two teen-agers in connection with McEntee's death.

At Saint John, Ind., State Policeman John J. Streau, 25, and Marshal James Larimar, 55, were shot to death while attempting to question two men in a stolen car. State Trooper Pete Popplewell Jr., 29, was wounded by one of the suspects, who then threw down his empty gun and begged for mercy as Popplewell held him in his sights.

One suspect was hospitalized and the other held pending further investigation.

New York City Patrolman Horace Lord, 25, was killed Friday night in a shootout during a narcotics investigation on Manhattan's Upper West Side. The suspect also was killed in the exchange of gunfire and a second policeman was wounded.

Greenville, S.C., Policeman W. F. Chastain, 46, died Sunday in a gunfight with a man who allegedly had shot his former girlfriend and her mother. The suspect, Richard Brooks, 26, took his own life after a chase by police.

Patrolman Victor Butler Jr., 45, a 20-year veteran of the Miami police force, was shot to death as he walked from a housing project Saturday night. A statewide alert was issued for three persons in an old automobile seen driving from the scene at high speed.

Dallas authorities were holding two men charged with killing three Dallas County deputies Wednesday. The men, Rene Adolfo Guzman, 33, and Leonard Ramos Lopez, 25, were arrested Friday after a chase by police wearing bullet-proof vests.

A four-day search came to an end Sunday in Oklahoma with the surrender of two suspects in the shooting Wednesday of a state park official and Oklahoma State Trooper Bill Walker and the wounding of game Ranger W. L. Pickens.

Crew Says Teamwork, Prayers Play Major Role In Moon Flight

SPACE CENTER, Houston (UPI)—The Apollo 14 commander and pilot said Sunday they believed teamwork and prayers played major parts in their successful moon flight.

John E. Riley, a Manned Spacecraft Center spokesman, said the astronauts and 13 other support personnel, said Alan B. Shepard Jr. and Stuart A. Roosa made the remarks during a morning church service in the Lunar Receiving Laboratory.

Shepard told the group teamwork has made the Apollo program work and he was proud to have commanded the moon landing mission.

Roosa said he felt everyone's prayers helped make the flight

across half a million miles of space safe and successful.

The pair and Edgar D. Mitchell, lunar module pilot, were to brief scientists today on the Apollo 14 lunar photography and scientific observations.

In the morning session, Shepard and Mitchell pinpoint locations in photographs where they stopped to pick up various rocks during their two moonwalks.

During all briefings, the astronauts are behind a glass barrier designed to stop the spreading of any moon germs. Their 21-day quarantine period will end Saturday at 9 a.m. EST, unless they are released earlier.

Obituaries

C.V. INGRAM
Funeral services for C.V. (Heavy) Ingram, 80, are pending with Carmichael-Whitley Funeral Directors.

Mr. Ingram died Saturday in Veterans Administration Hospital in Oklahoma City. He was a World War II veteran.

JOHN KOTARA
Funeral services for John Kotara, 90, will be held at 10

a.m. Tuesday in St. Vincent DePaul Catholic Church with burial in White Deer Sacred Heart Cemetery.

The Rev. Francis C. Hynes, C.M., and the Rev. Julius D. Worczyk, C.M., will officiate.

A rosary will be said at 7:30 p.m. Monday, Feb. 22, in Carmichael-Whitley Colonial Chapel.

Mr. Kotara died at 10 p.m. Friday in Worley Hospital.

American Business Women's Association will meet at 7 p.m. Tuesday in the First Christian Church for a Boss Night Banquet. The Rev. Ralph Palmer will be guest speaker.

Parents in the Skellytown area with children who will be six years of age before next Sept. 1, have been asked to contact Elementary Principal John F. Banks for Pre-enrollment forms to be completed before the pre-school round-up May 6.

Bandits Sought By Policemen

SAN ANTONIO (UPI)—Police Sunday sought two men who staged the second largest robbery in the city's history, taking \$225,000 worth of guns and art work including a Picasso original.

The bandits entered the plush home of wealthy Robert M. Sheerin, 35, Sunday while he slept. The pair tied his hands, blindfolded him and taped his mouth.

The two men then ransacked his home leaving with several paintings by French impressionist Dufy worth \$150,000, eight lithographs worth \$40,000 and the Picasso painting valued at \$30,000.

Sheerin was not able to work himself free until several hours after the bandits left his home. He then notified police who Monday reported no clues in the case.

IDEA BECOMES REALITY — Four years of planning and work materialized Friday when FHA representatives presented a check for \$35,000 to the Kingsmill Community Water Supply Corp. The corporation was formed to assure Kingsmill an approved and dependable supply of water. Pictured, left to right are: Bob Cowan, Clarendon, District Supervisor of FHA, presenting the check to Amos Harris, president of KSWSC. Floyd Imel, president of Citizen's Bank and Trust; and Claude Moore, supervisor of FHA in Clarendon. Upon deposit of the check, the corporation was given the go-ahead to begin actual work on a water supply system. (Staff Photo)

Joint House-Senate Unit Begins Hearings On Penal Code Reform

By ROLAND LINDSEY
AUSTIN, Tex. (UPI)—House-Senate committee begins hearings tonight on the first general reform of the Texas penal code in 115 years. But the most controversial section of the changes suggested by the State Bar of Texas have been removed from the bill.

A new section of the code dealing with abortion was deleted just before the measure was filed jointly by Rep. Jim Nugent, D-Kerrville, and Sen. Charles Herring, D-Austin.

Herring said that strong sentiment over the abortion section, which would have liberalized present laws, was the reason behind taking it out of the penal code revision. The abortion law changes will be offered in separate legislation, he said.

"There are such strong feelings on both sides of the question that we just felt it would be better for the bill, and would save a lot of hours in hearings, if we took it out," he said.

Texas' current abortion law has been ruled unconstitutional by a three-judge federal court, and is now on appeal.

The proposed penal code revision still includes sweeping changes in Texas criminal laws. For example, the proposal would:

- Do away with sexual offenses such as fornication, seduction on the promise of marriage, adultery, and consensual heterosexual deviate conduct on grounds these offenses are seldom prosecuted and convictions are nearly impossible.
- Revise murder statutes to do away with the term murder with malice and substitute the concept of "intentional" or "knowing" murder.
- Combine the present 60 separate articles dealing with theft into 10 sections covering only eight pages of the massive penal code.
- Institute a general trespass law, which is missing from the state's current criminal statutes.
- Base penalties for drug violations on the particular drug's potential for harm and abuse, rather than on classifications such as "narcotics" and "dangerous drugs."
- Give judges wider discretion in setting the penalties for criminal offenses.
- A special state bar committee

spent five years working on the proposed penal code revision in conjunction with the legislature.

Herring said tonight's hearing, set for 7:30 p.m., would give proponents and opponents of the revision an opportunity to discuss any section of the bill they choose.

When those comments end, the lawmakers will begin a section by-section hearing on the code, he said.

The House Criminal Jurisprudence Committee and the Senate Jurisprudence panel have each named five-member subcommittees to conduct joint hearings on the code. Herring predicted it will take at least two months to finish the hearings, meaning lawmakers will not be voting on the code until near the end of the regular session in May.

Files Pays Off

SAN FRANCISCO (UPI)—In a dozen recent robberies, cab drivers have lost their money to a man with a knife wearing a "big apple" cap with a white tassel.

Police matched the drivers' descriptions of their assailant with data in their files and went to question Donald Jackson, 19.

Jackson answered a police knock on the door—wearing the hat. He was promptly jailed on robbery charges.

Dr. Stephen Spurr New President Of University Of Texas At Austin

By United Press International
AUSTIN, Tex. (UPI)—Dr. Stephen H. Spurr, who "never aspired to be the president of a university," is the new president of the University of Texas at Austin.

Spurr, the vice president and dean of the graduate school at the University of Michigan, told Texas authorities Sunday he would accept the position.

Spurr met with Texas Chancellor Charles A. LeMaistre in Dallas to tell him he would accept the position. Spurr and LeMaistre then drove to Austin and called a news conference to announce Spurr's decision.

Spurr, 53, was at Michigan for 19 years. He became dean of the graduate school in 1964 and vice president of the university in 1969.

He has a master's degree in forestry and a doctor's in forest ecology from Yale University. He received his bachelor's degree from the University of Florida where he graduated with highest honors.

Spurr was one of three persons nominated for the position by a student-faculty selection committee. The other two were Dr. Page Keeton, dean of the University of Texas law school, and John E. Cantlon, of Michigan State University.

LeMaistre said Spurr's "outstanding academic credentials competence in the administration of undergraduate and graduate programs and his commitment to lead the university to even higher levels in teaching effectiveness, research and serv-

ice made him my choice for president."

The Texas chancellor said Spurr has been "personally involved in improving undergraduate instruction, enrollment control and lowering the number of college dropouts."

"He chose ecology as his field of study and research long before of study was in popular usage," LeMaistre said.

"I have never aspired to be the president of a university," Spurr said. "Indeed, perhaps never anyone in my lifetime has ever so aspired. I have been through this presidential selection thing several times before and turned it down each time."

Spurr said the "present quality and the future potential" of the Texas campus made him change his mind about a college presidency. He described Texas as "a great educational institution" and promised to "work with both faculty and students in making it an ever greater institution."

"If I fail to measure up to my own assessment or to those of my constituency, I will be happy to step down," Spurr said.

Spurr, the university's 14th president, succeeds Dr. Norman Hackerman who resigned effective July 1, 1970, to become president of Rice University in Houston. Dr. Bryce Jordan has served as interim president and will become president of the University of Texas at Dallas this July 1 — the date Spurr's appointment becomes effective.

Spurr is a native of Washington, D. C.

Pampa Slowly Digging Out Of Snow

SUBMERGED CAR — One of several hundred Pampa cars left submerged under four feet of snow, this auto on 18th street was still snow blocked as of mid-morning today. The two-day blizzard which struck Pampa and other Texas Panhandle cities late Saturday night left 24 inches of snow in Pampa. (Staff Photo)

Normalcy Gradually Returning To Area

By TEX DEWEESE
News Staff Writer

Digging out from under the weekend blizzard of 71 still occupied city, county and state street and highway crews today in Pampa and the Panhandle area.

The giant task of recovering from the isolation caused by the snowstorm that started Saturday night and continued through Sunday was progressing slowly but surely.

Pampa received 24 inches of snow in the 36-hour period from 8:30 p.m. Saturday until Monday morning.

Most main thoroughfares in Pampa were open for limited traffic this forenoon and city graders continued the job of trying to clear residential streets to enable residents to get their autos out for transportation to work or to stores for food supplies.

A weather bureau forecast of afternoon temperature near 45 today was expected to be a great boon in helping clear off the snow.

Today's weather forecast was among the best news received since the storm moved in.

It called for fair and warmer this afternoon. Partly cloudy tonight and Wednesday with both days' high in the mid-40's. Street department workers were on the job all night and continued to move their street clearing vehicles as rapidly as possible today.

Emergency clearances had to be made first, they said.

A limited number of snow-clearing vehicles also slowed the task. City officials said they had two maintainers, two front-end loaders and the city's 4-wheel drive trucks in operation.

Mayor Milo Carlson issued a statement this morning appealing to Pampans to be patient in the storm difficulties and inconveniences.

"The city street department is doing everything possible to get streets cleared," he said. "We simply do not have enough equipment to get everywhere at once."

"A storm like this comes along once in ten years — and face it and do the best we can when it does, we just have to because the city is not financially able to buy enough equipment — something that may be used only once in a decade. I wish we could, but we can't."

One street department official said:

"The people in the outlying residential districts will have to bear with us. We are doing all that's humanly possible and we'll get to them as soon as possible."

Today's climbing temperatures were expected to help greatly in the melting process.

Meanwhile, many stores closed yesterday opened for business today with limited forces. Many employees still were unable to get to work.

With Pampa streets still iced over and blocked in some areas, National Guard tanks were operating ambulance services for Pampa hospitals and nursing homes as of mid-morning today.

Wes Langham, hospital administrator, reported 12 armored personnel carrier drivers were on duty at Worley and Highland General Hospitals and the two nursing homes.

David Crossman is commander of Company B, 2nd battalion, 142nd Infantry which has worked with rescue operations since the storm broke Sunday morning.

Sheriff Bus Dorman of Wheeler County assisted law enforcement agencies with securing the army helicopter from Ft. Sill which aided Monday in the rescue of 10 passengers and a bus driver of a Continental Trailways bus stranded west of Pampa on Highway 152.

Other helicopter operations included the rescue of Mrs. Carrie Killbrew 81, of Canadian who fell out the back door of

her home and was taken to Highland General Hospital.

The 45-passenger Army helicopter from Fort Sill, Okla., that ran rescue service on emergency call all day yesterday left Pampa for its return to Fort Sill this morning.

Sheriff Rufe Jordan today joined other city, state and county officials in praising the untiring work of the soldiers from Fort Sill, the Pampa National Guard unit, the Southwestern Bell Telephone Co., local wrecker services and city and county law enforcement agency workers for the long hours and tireless tasks they performed during the height of the emergency.

"They have all been wonderful," Jordan said, "and the people of Pampa should be proud of the way they rallied to help when direly needed." All schools were closed in the Pampa area today.

Pampa school officials said they would not make a decision until late today as to whether schools will be open tomorrow.

Cabot Corporation's Machinery Division was closed again today. Marie Foundation plant, closed yesterday, also was closed today.

County offices did not open today with the exception of the sheriff's department.

City hall offices were open with only a skeleton crew which spent most of the time answering telephone calls.

The City Commission meeting scheduled for this morning was reconvened until 8:30 a.m. Friday. Only Mayor Milo Carlson, City Atty. Bob Gordon and City Secretary S. M. Childrend made it to today's meeting.

Many Pampa residents still penetrate drifts all the way from 3 to 8 feet deep that surrounded homes.

High school students who made themselves available for shoveling snow were swamped with calls and the supply of student workers reportedly was exhausted by mid-forenoon today.

As stated, practically all business was operating on a severely slowed-down basis in all areas of the city. Most all food stores were open today, including the major supermarkets.

All Chamber of Commerce activities for today were cancelled.

The seven touring Chileans who had been due to arrive in Pampa late yesterday still were stranded in Wellington, according to Rotary officials who will be their hosts when they finally arrive.

Nixon To Announce Action To Deal With Rising Cost

WASHINGTON (UPI) — The White House said today President Nixon would announce this afternoon government action to deal with spiraling costs in the construction industry. It said efforts had been unsuccessful to get voluntary management-labor agreement.

It has been widely speculated in recent days that Nixon might reluctantly impose temporary wage and price controls in the industry if intensive efforts to gain voluntary controls were unfruitful.

The presidential announcement was set for 2 p.m. EST.

VERY LITTLE TRAFFIC — This was the scene at mid-morning today from atop The Pampa News Bldg. Looking north on Somerville; not much is in sight in the way of traffic except a couple of trucks. Snow is piled high in the middle of streets where it had been pushed by city street graders. (Staff Photo)

BLIZZARD BLAMED FOR 3 DEATHS

Much Of Panhandle Area Still Buried Under Snow

By United Press International
A hard freeze coming on the heels of a weekend blizzard in the Texas Panhandle kept much of the area buried under snow today.

The snow, storming in during the weekend on 50-to-60-miles an-hour winds, measured up to two feet and drifted to 12 feet, stranding motorists and isolating towns and cities.

So far, the blizzard has been blamed for three deaths in Texas. A highway department crew clearing the road west of Shamrock found Genaro Tena Jr., 37, and Samuel Rodriguez Garza, 20, dead in a car parked alongside Interstate 40. They were asphyxiated.

The third death was caused by ice on a road near Amberst, Kenney Claunch, 16, of Beulah, was killed when his car skidded off the road Saturday night.

The blizzard was as big as the one we had in '64 — it was more extensive — but not as big as the one in '57," a meteorologist at the National Weather Service office in Amarillo said. "The drifts were deeper in 1957."

High winds Monday hampered road-clearing efforts by keeping fallen snow blowing back onto once-cleared roads.

Gov. Preston Smith ordered national guardsmen with heavy trucks to help with emergencies created by the snowstorm.

The guard took essential workers such as police, firemen and nurses, to their jobs, and one guard detail rescued 42 girl scouts, stranded in a camp 14 miles northwest of Amarillo.

Park rangers near Amarillo rescued a boy scout and three adult leaders from McBridge Canyon, near Lake Meredith.

Lefors, in Gray County, took the greatest amount of snow reported — 24 inches.

At Dumas a 60-mile-an-hour wind blew so much snow into a cattleyard that cattle, packing it down as they walked about, were finally able to walk over a five-foot fence.

Parts Of Kansas, Nebraska And Iowa Remain Paralyzed

By United Press International
Parts of Kansas, Nebraska and Iowa remained virtually paralyzed today as winds up to 50 miles an hour piled up snowdrifts that only National Guard vehicles could penetrate.

Tornadoes touched down Monday in Indiana, Ohio, the Carolinas and Georgia, killing two persons at Fayetteville, N.C. The death toll in Mississippi's Sunday tornadoes rose to 80.

Flooding drove hundreds of persons from homes along the Mississippi and Ohio rivers and their tributaries and even Hawaii was hit by a freak hail, sleet and snow storm.

Nebraska National Guardsmen pressed four-wheel-drive vehicles into service to provide essential services in the storm areas of their state. Virtually every school in the eastern part of Nebraska was closed today for the second straight day.

All highways in Kansas were closed or virtually impassable. Trains and buses were stranded and some 500 persons were

reported stuck on the Kansas Turnpike as snow piled into 15-foot drifts.

Blizzard conditions continued into the night in parts of Iowa, where winds up to 60 miles an hour whipped a foot of new snow.

The storm sprouted tornadoes and heavy rain as it moved eastward. "A probable tornado" touched down in Columbus, Ohio, causing heavy property damage and at least five minor injuries. Another twister tore the roof from a rural home west of Greensburg, Ind.

One lane was open to Borgess, Highway 152 east to the Gray County line was open to Wheeler but was closed from Wheeler to the county line.

Highway 60 west to Amarillo is open; Highway 60 east to Canadian is open; Highway 273 is open to McLean; Interstate 40 from Amarillo to McLean is open, but from McLean to the state line, only one lane was cleared as of mid morning.

Highway officials requested motorists not try Highway 79 from Pampa to Perryton, because the road is blocked. Officials predicted all roads in Gray County would be passable, but not completely clear of snow by tonight.

Nixon Urged To Pull Out All GIs From Indochina By End Of 1972

WASHINGTON (UPI)—Senate Democrats met in secret session today to act on an unprecedented resolution calling for the withdrawal of all U.S. forces from Indochina by the end of 1972.

The resolution urges President Nixon to pull out all troops in a "time certain" before the expiration of the 92nd Congress. The President need not make the date public.

The Senate Democratic Policy Committee unanimously approved the resolution Monday, despite some differences on the wording. It could run into opposition from hard-line Southerners at today's session.

The withdrawal demand is included in a five-part resolution which broadly outlines the goals for Senate Democrats in this Congress. It amounts to an expression of opinion, and would not carry the force of law.

Work is Pledged
It pledges the Senate's

Democrats to work "to end the involvement in Indochina and to bring about the withdrawal of all U.S. forces and the release of all prisoners in a time certain."

The other goals cover an end to inflation; streamlining of federal-state financial relationships; more effective operation of the federal government; and strengthening of the judicial systems.

The only dispute on the 11-member policy committee came on the language of the Indochina resolution. Senate Democratic Leader Mike Mansfield conceded there were "some differences."

After a noon-time discussion, the policy committee agreed to add the words "in a time certain" to the resolution. The vote was on a ratio of about four to one, according to Mansfield.

In response to questions, Mansfield made it clear that the resolution was not an

endorsement of the McGovern-Hatfield resolution which seeks to cut off funds for the Indochina War by the end of 1971.

Nixon Asked for Date
In effect, the resolution asks Nixon to set his own, non-publicized date within the next two years to pull all U.S. forces out of all parts of Indochina.

"If they arrive at a date certain, they will have our support," Mansfield said. "We don't expect them to make a date public."

While denying the resolution implied a "threat or demand," Mansfield said if Nixon fails to act, Senate Democrats would pursue a different course "within our authority and responsibility."

Mansfield said Nixon has "indicated he intends to withdraw U.S. troops and possibly accelerate withdrawals and we want to offer our support. We look on this as strengthening his hand."

FIVE AMERICANS ALSO DIE

Viet's Much-Decorated General Killed When Helicopter Exploded

SAIGON (UPI)—Lt. Gen. Do Cao Tri, the flamboyant commander of South Vietnamese forces in Cambodia, was killed today when his helicopter exploded while taking off near Tay Ninh. The much-decorated general was the highest-ranking Allied officer killed in the war.

There were eight other persons aboard the helicopter—four American officers, Newsweek correspondent Francois Sully and three South Vietnamese crewmen. There was only one survivor, but he was not immediately identified.

The helicopter exploded for unknown reasons about 100 feet off the ground while taking off from Trang Lon Airfield one mile north of Tay Ninh, which is 55 miles northwest of Saigon near the Cambodian border.

In Phnom Penh, American sources said U.S. air power is being used to protect military convoys carrying American aid to Cambodia. "It's a protection of our investment," they said. American planes and helicopters were called in Monday to slam suspected Communist positions after the North Vietnamese and Viet Cong ambushed a convoy on the

Mekong River 10 miles from the capital of Phnom Penh. The convoy took over 100 rounds of rocket grenade fire despite the American aircraft protection, according to the captain of one of the ships.

Three American civilian seamen were wounded in the ambush when the Filipino tug Shawnee was hit. Six other seamen from Japan, Cambodia and Vietnam also were wounded. U.S. sources said, and a barge carrying American-provided ammunition for the Cambodia army was sunk.

Lt. Gen. Tri, in addition to commanding the South Vietnamese troops in Cambodia, also was commander of Region III—the 11 provinces around Saigon. He had earned more than 28 decorations during his career and was one of the nation's most-decorated officers.

Tri, 41, earned the nickname "Patton of the Parrot's Beak" for his exploits in last spring's major Allied incursion into Cambodia, a move considered similar to Gen. George S. Patton's World War II push across Europe.

Nine American and two South Vietnamese generals had been

killed previously in the Indochina War, but Tri was the highest-ranking officer to meet death in the service.

Twisters Kill 80, Injure 500 In Deep South

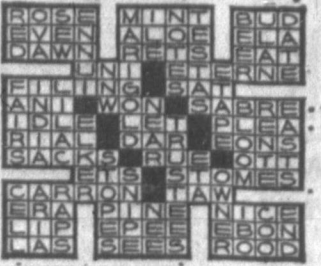

INVERNESS, Miss. (UPI)—Rescue crews renewed the search along a 250-mile stretch of the Mississippi Delta today for persons missing in an outbreak of devastating tornadoes.

The toll was 80 dead—74 in Mississippi and 6 in Louisiana. Around 500 persons were injured and property damage soared into the millions of dollars.

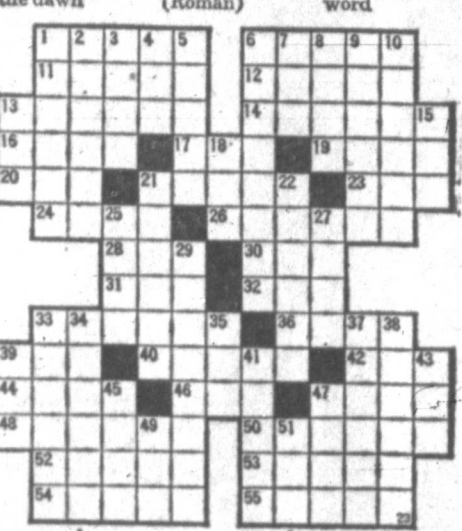

Sen. James O. Eastland, D-Miss., announced Monday President Nixon had declared the Mississippi Delta a "national disaster area," providing for immediate and massive federal aid to tornado victims.

By Abigail Van Buren

DEAR ABBY: I am 16 and I am about to have a baby I do not want. The problem is the guy I am pregnant by is married. I didn't know he was married until it was too late.

At first everything was fine. He gave me money and bought me just about anything I wanted. He even sent me to a private doctor. Then I found out he was still living with his wife and now I can't stand him. I don't want to see him anymore and I don't want him calling me.

His wife found out about me and she wants me to go ahead and have the baby and give it to them, and then go on and be myself again like nothing happened. Do you think that is a good idea, Abby? I don't want this baby. I can't keep it myself, and I don't want to be involved with him anymore. Please tell me what to do.

UNWED MOTHER

DEAR UNWED: You say you do not want to be involved with him anymore. A wise decision. He is bad news. Feeling as you do, I suggest you deal directly with a licensed adoption agency. If you give your child to this man and his wife you will be involved with him forever.

DEAR ABBY: Have you ever picked up a women's magazine in the beauty parlor and started to read something very interesting only to find that some stinker has torn a recipe out and left a great big hole in the page? This infuriates me. Why are some people so selfish and inconsiderate? Please put this in your column. Some women need to learn that this

little stunt is dishonest and irritating.

IRRITATED

DEAR IRRITATED: I have been here, and I agree, it is irritating. Ladies, are you listening?

DEAR ABBY: I am 30 years old and have been married five years. From the time I married I have thought about my husband's death, mostly the insurance and pension I would receive, although it is not a large sum. I have gone as far as watching the want ads for property I might buy when it happens. My husband is only a few years older than I, and in the best of health, but I think about this daily and wonder if I need help from a doctor. I feel that I love him, and I can't understand why I keep thinking these thoughts. Can you give me your opinion?

BEGINNING TO WORRY

DEAR BEGINNING: If your thoughts give you reason to "worry," by all means, consult a doctor. It is possible to "worry" oneself into a state of ill health.

DEAR ABBY: My wife and I will be married for 25 years next month and a good friend of mine told me we are going to be given a "surprise" party. I guess he thought he would be doing me a favor by telling me so I would be prepared. So since I already know about it, how should I act when everybody jumps out and yells "surprise"?

TIPPED OFF

DEAR TIPPED: Act surprised! How else?

PARTY-PERFECT FURS WITH GIFTED WAYS

NEW YORK (ED)—Pretty makes perfect this fur-fashion season. Real women are back in style-making their rounds in today's young-minded minks.

In today's environment-aware world, it's the fur to wear, because it's ranch-bred for fashion-ability. No struggles with a conservationist conscience when mink is the fur of your choice. It's the one fur that only has one job to do: look beautiful, on you.

The range is mini to maxi—the tiniest little topper to the to-the-floor vest. Perfect giftings, all... just right to wrap under the Christmas tree.

The gals will wear them... everywhere. Today's gifted furs go happily from now to resort right into next spring.

It's mink in the right now mood... small investments with a big fashion message.

FROM RIGHT NOW, RIGHT TO resort-wear and right on into spring... it's the party-perfect minks with the gifted ways. Sprightly in a fabulous fringed triangle of Tourmaline Emba natural pale beige mink (above)... stately in a maxi-stretch of vest, in Jasmine Emba natural white (right).

A NEW SLANT for fashion: the diagonal off-the-shoulder mink, a party-goer in pearly Jasmine Emba natural white.

Senior Center Corner

By RUTH SEWELL

Sixty-three members and visitors visited the Senior Center party at the Lovett Library last Thursday. Refreshments were served by the Twentieth Century Cotillion Club of Pampa, with members Mrs. Jack W. White, chairman, Mrs. Jim Campbell, Mrs. Jim Hughes and Mrs. S. Gene Hall. They used a white carnation floral arrangement for the table.

The Twentieth Century Cotillion Club members announced their antique show will be March 26 and 27 from 10:30 a.m. to 9:00 p.m. at the Coronado Inn and also Sunday, March 28, 1 p.m. to 6 p.m. There will be dealers from New Mexico, Kansas, Oklahoma, and Wisconsin. The proceeds from the ticket sales will be donated to The Opportunity Plan at West Texas State University, for the Student Loan Fund.

Mr. and Mrs. O.L. Ray had as guests recently, Mr. Ray's sisters, Mrs. Liddie Justice and her husband, and Mrs. Maggie Crawford. Mr. and Mrs. M.E. Ray of Amarillo. Their visitors from Pampa were Mr. and Mrs. James Ray and children, Mr. and Mrs. Kenny Hutchinson. They were celebrating Mr. O.L. Ray's birthday.

Mrs. Phil Gates was announcing a new great-granddaughter, Jennifer Carol, daughter of Mr. and Mrs. Mark Gates of LaPorte. Mr. and Mrs. R.A. Gault plan on visiting a new great-granddaughter in Guymon, Okla.

Mollie Hethcock had visitors recently, her sister-in-law Julia Bell and her daughter, Eva Johnson of Booker, also her nephew E.R. Bell and daughter from Stratford.

Mrs. L.E. Lewis had weekend guests, her brother and sister-in-law Mr. and Mrs. G.E. Trimble from Floydada. Their son recently returned from Alaska where he had been in the service for over two years.

Mrs. Genia Noland had her sister, Mrs. Rudell Lightfoot of Amarillo as her guest at the Center. Miss Lucy Herlacher has returned from a three weeks visit with her sister in Groom, Mrs. Rosa Fields.

Mrs. Tom Southard had visitors Pearl Maeizer of Spokane, Wash. and George Hale of Cowlington, Okla. They are sister and brother of Mrs. Southard.

Mr. and Mrs. T.O. Thompson of Pampa visited the Center after an absence of 10 years, also Mrs. Eva Garret after an absence of three years.

Volunteers from the Red Cross were: Margaret Wilkerson, Lelia Clifford, Anna Patrick and Libby Shotwell. Altrusa members were Lalar Wilkerson, Jay Flanagan, Lora Dunn, Geneva Tidwell, Ruth Sewell and Olive Hills.

FT. BENNING, Ga.—Lt. William L. Calley Jr. describing what he felt when he saw dead and injured soldiers who had been caught in a mine field: "Anger, hate, fear, generally sick to your stomach—hurt... I think it instilled an ever deeper form of hatred towards the enemy, but I don't think I ever made up my mind or came to any conclusion what I'd do to the enemy."

Magnificently tailored split-bottom tunic over fitted pants in smooth bright green Spanish lambskin (left) is from the Pertegaz collection. Indian-inspired cross stitch is done with hand lacing on the pant-coat (right) in Spanish lambskin in honey beige. It comes in a variety of colors. These designs are from Ledaspain.

Leather Becomes Prime Favorite

NEW YORK (NEA)—Leather is fast becoming a fashion favorite for all seasons.

Its growing popularity may be due in part to the current mood to return to the natural. But it's more likely a result of the fantastic variety of luscious colors, textures and designs now on the market in leather.

Proof of this is evident both in the moderately-priced spring collection of Spanish leathers from Ledaspain and that firm's couture collection done by the Madrid designer, Pertegaz.

Alex Gropper, president of the firm, and a 35-year veteran in leather fashions, has put as much thought into the rich detail and styling of his less expensive collection as was exercised in his couture line! There are great Spanish

lambskins and antelope suedes from the Colomer tanners, featuring a new process that prevents cracking. This means that the most velvety suedes in reds, greens, purples and even blacks can't rub off on your pastel or white clothes.

Wouldn't leather be tempting to you in an orange, one-piece jumpsuit with matching mid-trench coat? A pants outfit in pale blue or soft yellow leather? Sportswear or a coat in wild bear scythed down to an almost chiffon weight?

Gropper also introduced a small collection of short-jacketed suits with ankle-length skirts in lambskin and jungle suedes.

Ledaspain, famous for its intricate hand detailing, this season adds a new look of lacing, smocking, pleated effects and embroidery.

The Pertegaz collection features many mid-length pants outfits, among them a red lambskin jumpsuit with suspended bib top and red and green printed silk skirt.

The variety of design and styles, mouth-watering colors and fine workmanship in these two collections put Alex Gropper in the front line of those who are responsible for the explosion of leather on the fashion scene.

Pampan Observes 11th Birthday

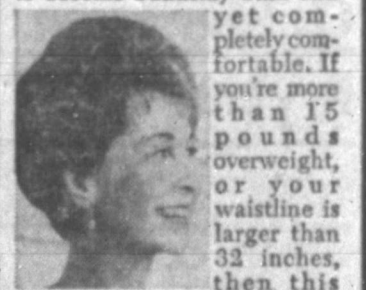

Cela Willis was honored with a party on her 11th birthday at her home, 1112 Cinderella Drive.

Those present for the Valentine party were Dana Watson, Leslie Williams, Cheryl Green, Cheri McVicker, Lisa Burrell, Diana Willis, Mary Davis, Leslie Johnson, Tawaha Poteet, Sharon Willis, Bobbie Morrow, Liz Townsley, Sherrie Everett, GayLynn Knox, Elizabeth Beard, Sandra Stout, Jara Swope, Diane Richardson, Teresa Baird, Brenda Stout, Amy Brown, Tammy Underwood, Kelle Andrews, Melissa Willis, her brother, Joe Don Willis and her mother, Mrs. Gene Willis.

INVERNESS, Miss. — Jesse Hudson, 67, describing the devastation of tornadoes which tore across a 250-mile stretch of the Mississippi Delta. "I ain't got no house. It took them all down—wood houses, brick houses and all."

NEW WAY TO BE SUDDENLY SLIM

Los Angeles: Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim and

yet completely comfortable. If you're more than 15 pounds overweight, or your waistline is larger than 32 inches, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. One startling innovation is the sheer nylon front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem.

The girdle itself is of a "wonder" Lycra spandex blend. It's a new power net consisting of nylon, spandex and spandex. It is so comfortable, but has such slimming strength, it gives your figure everything that's possible with a foundation.

"Suddenly Slim" is both girdle and panty versions. It's the peak achievement of the California designer-geniuses, Olga. They are available at

Scouting Scoops

The Quivira Council annual Leaders' Conference was held in Borger Feb. 18, with more than 50 Girl Scout adults from the 10-county council in attendance.

Miss Celia Fowler, council executive director, introduced the guest speaker, Mrs. Phil Tate, Pampa. Mrs. Tate gave a slide presentation on the Clarendon campsite.

Miss Fowler explained to the group what individual troops could do to help with camp development. "The most pressing need," Miss Fowler commented, "is for kitchen equipment."

Many troops and individuals from the 10-county area volunteered money to purchase the equipment. Miss Fowler also stressed the need for

manpower, and explained that work days are scheduled for the second Saturday of each month.

The leaders participated in small discussion groups by level to discuss individual problems related to troop discipline and troop financing.

After luncheon at Sutphen's a panel discussion on "Troop Discipline" and "Troop Finances" was moderated by Mrs. Richard Stowers. Panel members included Mrs. Rosa Spann, Borger High School counselor, Mrs. Jim Wheeler, Borger, and Mrs. J. B. Maguire, Jr., Pampa. Mrs. Spann elaborated on discipline problems and Mrs. Wheeler spoke about troop financing.

Mrs. H. Q. Maxwell, Borger, was in charge of Leadership Recognition. Mrs. J. V. Maguire, Jr. presented a 10-year membership pin and Mrs. Richard Stowers received a 20-year membership pin.

Special recognition was given to Mrs. Joe Ray and Mrs. C. L. Garrett, both of Phillips, who have been in Scouting for 29 years.

Leaders and assistants recognized from Pampa were: Mmes. Dub Adkins, Vinson Shaw, E. B. Jackson, Wayne Jones, Tom Collins, Wayne Hampton, Dick Stowers, and J. B. Maguire, Jr. Mrs. John Fritch, a new board member, was also recognized.

Mrs. Robert Ezzell, program chairman, was in charge of the conference.

American Legion Auxiliary Meets

Kerley Crossman Unit No. 334 Department of Texas met at the Furr's Cafeteria Thursday for their regular monthly meeting and elected Spring conference delegates. The president, Mrs. Ruth Sewell, presided after the dutch supper.

During the business session delegates elected to the Spring Conference at Perryton, were Mrs. Ruth Sewell, Mrs. Molly Butts and Katie Vincent as the voting delegates with alternates, Mrs. Gladys Turner, Mrs. Estelle Wheeler, and Mrs. Mary Martin.

The president reported on the Council of Clubs and asked all members to save their Betty Crocker coupons to purchase silver for the kitchen.

A letter was read from Mrs. Rames P. Tate asking members to write letters to the communists urging them to treat the prisoners of war better, to release the names of prisoners of war and to release the wounded and sick to the allies for care. The group voted to all write letters to be mailed before Easter season. Nine members were present.

The next meeting will be held the third Thursday of March at Furr's Cafeteria.

NEW LENGTH—Double knit cotton interprets the newest look in fashion: the mid dress with round scoop neckline and the longer length sleeves. By Miss Ingene, the dress comes in brown, navy, or burgundy.

POLLY'S POINTERS Woman Offers Trick To Clean Wool Belt

By POLLY CRAMER

DEAR POLLY—I worked at dry cleaners for a couple of years. I did not do any cleaning but often watched the spotting man lay belt with vinyl backs on the spotting board and then spray with the spotting gun, which sprays steam. If Mrs. R.M.K. would ask her cleaner to do this at her own risk, he would probably do it. She is running the chance of having the fabric shrink but, if they steam-press it and work with it, the belt should look as good as the suit.

—PAM

DEAR POLLY—Mrs. R.M.K. wanted to know how to clean a wool belt with a vinyl back. She could make a solution of that liquid that is especially recommended for washing woollens, and cold water. Carefully sponge the wool side with a sponge or hand brush dipped in this. Rinse off with cold water. Lay the belt flat on the ironing board to do this, but be careful not to wet the back.

—MRS. J.P.

DEAR GIRLS—The "suds only" treatment would be safest for such belts and cut down on the chance of wetting the vinyl back. Belts are not ordinarily spotted and would only require a freshening to appear as bright and clean-looking as the cleaned suit, so work lightly and swiftly.

POLLY

POLLY'S PROBLEM DEAR POLLY—How can I remove melted crayon from a vinyl floor? I have tried soaking and scraping but the color of the crayon seems to have

TENSION? If you suffer from simple every day nervous tension then you should be taking B.T. tablets for relief. Call on the druggist at Richard Drug and ask him about B.T. tablets. They're safe non-habit forming and with our guarantee, you will lose your every day jitters or receive your money back. Don't accept a substitute for relief, buy B.T. tablets today. Hollywood In Review

By VERNON SCOTT
UPI Hollywood Correspondent
HOLLYWOOD (UPI)—One of the great depositories of cinematic lore is a man named Harvey Parry who, at age 70, is the only active stuntman on Medicare.

Parry, an ex-fighter, circus acrobat and high diver, doubled for actresses from Mary Pickford to Shirley Temple.

And though he stands but 5-foot 6-inches tall, he has done stunts for men a foot taller than himself, including Dustin Farnum, Buck Jones, Tom Mix and even Chester Conklin.

Some of those terrible screen spills taken by Harold Lloyd were, in actuality, Harvey Parry, whom everyone calls "Sam." For the excellent reason that Harvey addresses everybody as "Sam."

After 45 fights as a feather-weight amateur and professional boxer, Parry quit the ring to become a prop man for "The Queen of Sheba," a 1919 silent starring Betty Blythe at William Fox Vaudeville Co.

In his years of stunting (without pads) Parry has been

used in fights, fire scenes, horse falls, car wrecks, flying planes and every other dangerous trick of the trade.

"I hold the high dive record for movies," Parry said. "Dived 110 feet from a castle on top of a cliff into about 12 feet of water. But that wasn't my toughest assignment."

"Once in the 50s I had to jump from a railroad trestle 195 feet above a boulder-filled canyon. I was running along some logs tied to a flat-bed railroad car doubling Edmond O'Brien as the train sped along."

"I had to jump into a 20 x 20-foot net rigged 40 feet below the trestle. It was pretty hairy, but I made it."

Parry has rarely suffered serious injury as a stunt man. He's broken a few ribs but has been hospitalized only three times. Other, less durable stuntmen have been maimed and killed.

Retirement has never occurred to Parry.

"As long as movies and TV need a stuntman, I'll be around—I hope," Parry concluded, grinning.

The Lighter Side

By DICK WEST

WASHINGTON (UPI)—In reviewing the problems of the over-developed areas of the world, I recently pointed out that the people in these regions have become almost totally dependent on electricity.

Even such elementary devices as fingernail files and sewing scissors have been electrified, the result being a massive power drain that threatens to exceed productive capacity.

Since a power failure would create utter chaos, I proposed that the United Nations recruit advisers in under-developed areas to teach the natives of the over-developed areas how to perform such simple tasks as beating eggs or removing lint from a coat collar without turning on the current.

I still believe such a program is vitally needed, but I now see it would have to be handled with great tact and finesse to avoid offending the people it was designed to help.

Do-Gooders Unwanted

This point was made clear to me in a letter I received from a native of the Northeastern part of the United States, which is one of the most badly over-developed areas on earth.

"We Northeasterners may be over-developed," he wrote, "but that doesn't mean we don't have our pride. If you middling do-gooders will leave us alone, we can solve the power shortage problem without outside help."

"It was American technology that got us into this mess, and American technology can get us out. All we have to do is use in the right way."

"In the past, technology has always been used to promote progress. But since we are now over-developed, we must start using technology to regress."

New-style Retrogression

As an example of how technology can be used for that purpose, he cited a phonograph record titled "Shuggie's Old Time Dee-Di-Lee-Leet-Deet Slide Boogie."

The song was recorded in stereo on unbreakable, flexible vinyl at 33 1/3 RPM's. Which is the modern, hi-fi method. But, according to its bust jacket, it was "electronically reprocessed to re-create an old scratchy record."

"If electronics can do it, there is no reason why other types of technology can't make similar strides and reverted breakthroughs."

New Books

A COAT OF BLACKMAIL—J. T. McIntosh: by the time the mayhem, and the hilarity, are over, one of the most audacious and least likely schemes in the history of international crime has been smashed.

THRASHIN' TIME—Milton Shatraw: memories of a Montana boyhood.

WHEN THE FIRE REACHES US—Barbara Wilson Tinker: the story of a handful of black people who live on a dead-end street in the heart of a Detroit ghetto at the time of the riots of 1967.

YEAR OF THE CLOUD—Ted Thomas' five people watch helplessly as the earth passes through an inexplicable cloud formation that brings tidal waves and earthquakes in its wake.

Wall Street Chatter

NEW YORK (UPI)—The market's advance indicates to Burnham and Co. that the economy will be strong in 1971. Although the firm believes "a sharp market break is possible" if the economic advance doesn't live up to the market's expectations, it feels the market will "pause...when the economic turnaround becomes visible" and begin to measure "reality rather than expectations."

The essential difference between the inflation of the past two years and that of the future, Hardy & Co. believes, is that during the past two years inflation occurred in a recession economy and in the next two years it "should be encased in a profitable economy." The company adds: "This is why we believe that the Dow Jones stocks should continue strong this year, reaching at least 900 and then 1,000 in 1972."

W.E. Hutton & Co. is "impressed" at the number of businessmen who think price and wage controls are desirable. However, Hutton cautions investors not to allow their

"enthusiasm about controls to run riot (because) profits as well as wages would be limited."

Despite the lack of confidence in conglomerate issues, Harris, Upham & Co. says this group deserves attention. The company is optimistic because the expected general turnaround in the economy "should benefit those cyclical subsidiaries" owned by various conglomerates. "Many of these stocks have experienced substantial moves from their respective lows but further upside potentials are still warranted," the company believes.

LOS ANGELES—Leslie Van Houten, convicted of the Tate-LaBianca murders, when asked if she wanted to cry over the death of Rosemary LaBianca: "Cry? For her death? If I cry, it is for death itself. She is not the only person that is dead."

PAMPA DAILY NEWS PAMPA, TEXAS 63rd YEAR Tuesday, February 23, 1971

JEANE DIXON

Your Horoscope

WEDNESDAY, FEB. 24, 1971 YOUR BIRTHDAY WEDNESDAY: You are in the midst of a period of reevaluation or perhaps "roadside" phase of your life in which your inner personal goals become more definite, your sense of material values much sharper. Activities bringing no immediate results tend to be forced off your schedule. Your intuitive direction toward healthy self-interest comes on stronger than ever. Wednesday's natives admire efficiency and frequent management very highly; organized personal lives - which escape general notice.

ARIES (March 21-April 19): Well meaning but somewhat irresponsible friends can create confusion for a while, but you sort things out quickly. TAURUS (April 20-May 20): Brace yourself for a moment of bad news - some business contact may lapse. GEMINI (May 21-June 20): Take the trouble to organize a full schedule despite the movement and bustle of the day.

CANCER (June 21-July 22): Money and its management pose questions for some anxious you. This is not time to take on any extra expense. LEO (July 23-Aug. 22): Put a determined upbeat push on this morning, then settle for routine the rest of the day.

VIRGO (Aug. 23-Sep. 22): Wear bright clothes; be in a mood for luck and good news. By evening reflect on what you've learned. LIBRA (Sept. 23-Oct. 22): Modesty isn't the public image to project now; speak up boldly where you have competence or want something. SCORPIO (Oct. 23-Nov. 21): For once an early start is not advised. Watch the other fellow's mistakes; stay clear.

SAGITTARIUS (Nov. 22-Dec. 21): The challenge is to get something significant done. Short-cuts actually save time for change. CAPRICORN (Dec. 22-Jan. 19): Your judgment is not at its best - the forest is all about you, but you see only bushes nearby. AQUARIUS (Jan. 20-Feb. 18): Higher initiative, even in a minor project, is essential. You cannot depend on incomplete work in any area.

PISCES (Feb. 19-March 20): Nothing comes very easily Monday. Continue normal work efforts at your accustomed pace; expect no miracles.

Harvesters Will Play Thursday

The hustling Harvesters will be meeting the Berger Bulldogs in Harvester Fieldhouse Thursday night in an 8 p.m. clash.

The game was originally scheduled for tonight but due to an untimely blizzard and hazardous travel conditions both schools agreed to meet Thursday night.

The Harvesters need a victory Thursday as the win will give them a clear shot at the bi-district playoffs. If they should lose and Palo Duro defeat the Amarillo Sandies then Pampa will have to play the Dons once again to decide the district champs.

Pampa has defeated the Dons twice this season and bombed

the Sandies both on our court and on their home court. Berger prevented the outright winning of the district crown by the Harvesters by upsetting the Green and Gold 55 to 53 in the last game of the first half of district play.

The starting lineup for the Berger game will remain the same with Senior Mike Jordan, Junior Mike Edgar, Junior Richard Bunton, Junior Marsh Gambin and Junior Gary Haynes squaring off against the Bulldogs.

Be sure and go to the game Thursday night in Harvester Fieldhouse as the action will be hot and heavy, compared to the cool weather outside.

Ralston's "Great Moment" Came On A Monday Night

NEW YORK (UPI)—Dennis Ralston had his "great moment" on Monday night, but it might be the last one he wants to remember in the \$210,000 Tournament of Champions.

Ralston, of Bakersfield, Calif., defeated Arthur Ashe, 6-2, 4-6, 7-6, Monday night to gain the semifinals in the tournament. However, he now faces the prospect of meeting Australian Rod Laver in the next round.

"This was a great moment for me," Ralston said. "I needed it psychologically for a lift. But I would rather play any player than Laver because he's the best."

In the semifinals, Tom Okker of Holland will face Australian Roy Emerson while Ralston goes against Laver, who has run up 11 consecutive singles victories worth \$10,000 apiece in the winner-take-all tournament.

The victory over Ashe Monday night at Madison Square Garden was Ralston's

first in the last five meetings between the two, and it went to sudden death.

Ralston came back from a 3-5 deficit in sudden death to win eight points to six.

In a doubles match, Laver and Australian Tony Roche beat Bob Lutz of Berkeley, Calif., and Ashe, 6-4, 7-6, in sudden death.

TCU Pins SWC Hopes On Stopping Baylor

By United Press International

Texas Christian pins its South-west Conference basketball championship hopes on stopping Baylor's "own game" tonight in a crucial showdown at Waco between the loop's one-two ranked teams.

"You have to keep them from running," TCU Coach Johnny Swaim said. "If they get you to playing their game, they can run you out of the gym."

Baylor demonstrated that theory dramatically in its last outing, whipping contender Southern Methodist by 33 points in Heart O' Texas Coliseum last Saturday night for their seventh 100-point plus game in the gym and their eighth of the season.

However, TCU has not found the big Waco barn a particular problem since the Frogs have won three of their last five visits there. And, they managed a 101-87 romp of their own at Baylor's expense when the two clubs met earlier in Fort Worth.

TCU goes into the game with

an 8-2 conference record compared to 7-3 for Baylor and a victory would provide the Frogs with a fat two-game cushion with two home games in a row out of the final three league contests.

But, a Baylor triumph would throw the lead into a deadlock and open the door for Southern Methodist and Texas Tech to get another look at the throne-room race will be vacating.

Both are 6-4 in league play.

White Deer Bucks Play Bi-District

The White Deer-Skellytown Bucks originally planned on meeting the Clarendon Bronchos in Harvester Fieldhouse last night at 7:30 p.m. An unexpected 24-inch blizzard forced the game to be moved to Claude tonight at 7:30 p.m.

The Bucks will be gunning for the bi-district win and then advance to the state tournament in Austin next week.

Tony Doyle Defeats Terry Daniels Continuously Monday Night For Win

DALLAS (UPI)—Tony Doyle of Salt Lake City pounded Terry Daniels of Dallas continuously Monday night to win a unanimous 10-round heavyweight decision and hand Daniels only his second loss in 29 fights.

Doyle fended off Daniels' body punches in the first five rounds and then took control in the sixth landing punishing and solid left-right combinations.

Daniels won the seventh round by consistently backing Doyle around the ring with a flurry of combinations. Then Doyle came out in the eighth shouting "come on, come on, let's slug it out."

The two fighters belted each other toe-to-toe for 30 seconds and then Doyle took complete command for the tired Daniels.

Dallas C Of C Makes Bid For Super Bowl Six, 1972

DALLAS (UPI)—The Dallas Chamber of Commerce has announced it is making an all-out effort to stage Super Bowl VI at the new home of the Dallas Cowboys.

The Cowboys are expected to move into Texas Stadium in Irving in August and chamber officials feel having the Jan. 16, 1972, Super Bowl game played in the stadium would be a fitting way to cap the stadium's first season.

Chamber Chairman Warren Woodward said Monday the Dallas delegation will make "a concerted effort to bring the Super Bowl to Irving when they appear next month at the annual meeting of National Football League team owners at Palm Beach, Fla.

Miami, New Orleans and Los Angeles are expected to be the other cities trying to host Super Bowl VI. The game has been played in Miami's Orange Bowl three times and in New Orleans and Los Angeles once each. All

three cities offer a stadium seating around 80,000 persons. The capacity at Texas Stadium is only 65,000.

But Woodward said seating capacity was not the only consideration. He said Texas Stadium can offer all-covered seating and artificial turf to make the game attractive to owners since both spectators and players would be guaranteed good conditions no matter what the weather was like.

Woodward also said Texas Stadium was in a better position than the Houston Astrodome, the only other stadium which could offer covered seating, because the Astrodome seats 15,000 less for football than Texas Stadium will.

Guy "Red" Mackey Dies In Lafayette

LAFAYETTE, Ind. (UPI)—Guy "Red" Mackey, the man who built Purdue University's Athletic Department into one of the best in the country, died at Home Hospital here Monday night. He was 65.

Mackey, dean of Big Ten athletic directors, had been ill for the past three months during which he suffered two crippling strokes which were complicated by circulatory problems.

END BED WETTING NOW. FOREVER!

Pacific International has ended bedwetting for hundreds of thousands in the past 20 years, and if not caused by organic defect or disease, we can end the problem for your child.

Our method is endorsed by many doctors. Read their statements in our 16 page brochure: "Is There A Solution?" Also read what other people say who have had the same problem. Send this coupon for your free copy. No cost or obligation.

End the frustration and tragedy of bedwetting now.

49¢ white supply tests.

Why Enco ValueCenters?

Because it doesn't make sense for you to have to drive all the way across town to get a bargain on a tire or a battery or something else for your car.

Not when the Enco station in your neighborhood can sell you what you need at a price that's right. And let you charge it all on your Enco credit card, with months to pay.

Enco ValueCenters are Enco stations with a continuing program of real values for your car. Stop in and see what we mean.

Look for these signs.

Enco men are doing more.

The Pampa Daily News

EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE
Our Capsule Policy

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capability.

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily.

Another 'Big Lie'?

The alleged "Khrushchev witness reporter" in Moscow decided that all of the accused were guilty, as charged. "No one," he wrote, "who watched the hearing and heard the statements (of the accused) could think for a moment that they were either terrorized or drugged." The "expert" was Walter Duranty, New York Times Moscow correspondent whose adulation of Stalin helped to mislead millions in the free world as to the reality of Communist tyranny and terror.

One current guess is that "Memoirs" may have been deliberately "smuggled out" from behind the curtain by the Soviets as part of a massive propaganda campaign designed to convince the world that the crimes of communism were all due to the evil nature of only one man — Stalin. But Stalin's own daughter, Svetlana Alliluyeva, who has written two excellent books published in the United States (Twenty Letters to a Friend and Only One Year) has declared that it is "wrong to put the blame on one person (Stalin) for those wrongs which were the responsibility of the Communist Party as a whole."

While we may read the "Memoirs of Khrushchev" with interest, we must remember that the evils of Communism are due to the system of Communism; and that the crimes perpetrated by the Soviet Dictatorship against the people are as much the responsibility of Khrushchev, Brezhnev and Kosygin as they were of Stalin.

Welcome To Pampa

We join with Pampa Rotarians, civic leaders and city officials in extending a welcome to the seven members of Chile's District 476 Study Exchange Group who are visiting our city through Friday.

The visit, which started Feb. 1 in the Midland-Odessa area, will continue through many cities and towns of the 2,500-member West Texas Rotary District until the end of March.

The Rotary International project provides a unique person-to-person opportunity for promotion of better understanding and friendly relations among peoples of the world.

A Watch For The Moon

Currently on display at The American Museum-Hayden Planetarium in New York is a one-of-its-kind timepiece that points toward the day when astronauts will set up permanent housekeeping on the moon.

The moon watch, no larger than wrist watches worn by airmen or scuba divers, was manufactured by Helbros to incorporate a system of lunar time measurement devised by noted astronomer Dr. Kenneth L. Franklin of the planetarium.

The moon's light-dark cycle (the lunar "day") is approximately one earth month long. This is called a "lunation."

Franklin has divided each lunation into 30 "lunes," each 24 hours in duration. These lunes are further divided into

Catching Up To 1913?

Until recently, the number of cattle in Russia under the Soviets was less in number than the number of cattle in Russia at the time of the last cattle count under the Czars which was in 1913.

During wars and while policies were being implemented according to Communist theory, conditions for recovering the original cattle holdings did not exist.

However, since Russians, even workers on collective farms, began to be allowed to maintain little plots of their own on the basis of private enterprise, the number of head of cattle has increased.

Recently a delegation of agricultural officials from the Soviet Union visited American

Conditioned Reflex

Buildups By Enemy Forced Nixon To Okay Laos Push

By RAY CROMLEY
WASHINGTON (NEA)—It can now be reported that President Nixon approved the drive into Laos only after a long agonizing period of backing and filling, delay and soul-searching.

What finally decided Nixon on action were the increasingly pessimistic reports from Cambodia and Laos and a supply build-up on the South Vietnam border.

A series of maps showing the battle situations faced by Lon Nol's men in the areas surrounding Phnom Penh and the equally serious plight of Prince Souvannah Bhouma's armies in northern Laos may have been especially convincing.

Combine this cloudy and disturbing knowledge with endless reports from extraordinarily heavy traffic on the Ho Chi Minh trails, where in one week the U.S. Air Force destroyed 1,000 North Vietnamese trucks moving south. Even so, the trucks still came on with no letup.

Especially worrisome here were reports that a great deal of the material that did get through the air strikes (some of the most intensive bombing of the war) was not being used.

The Cambodian operations were being run on a shoestring. Activity continued low in Vietnam.

To the American and Vietnamese strategists this could mean only one thing: Ho's successors were stockpiling great amounts of arms, ammunition and supplies in the south.

A great deal of this material reportedly was being stored in the Cambodian sanctuary areas. Supplies were growing in depots in Laos near the South Vietnamese border.

An analysis of this data, as the South Vietnamese and Americans read it, pointed to major drives in South Vietnam and Cambodia sometime after May 1. (The rains would assure that the supply build-up had to be completed by that date.)

The South Vietnamese grew increasingly impatient as the facts filtered in. President Thieu's top advisers — political, economic and military — consider the next 10 months crucial for Vietnam's future.

Village elections are scheduled for this summer, congressional elections in August and presidential elections in November.

A number of men in high places in Vietnam and the United States believe that if these elections are orderly and fairly administered, the result will be a major step forward in national political strength, which will in turn make possible major improvements in civil, military and economic administration.

Sizable North Vietnamese military offensives or staged uprisings could endanger this progress.

A shaky political and economic situation—with con-

Your Health

By Dr. Lawrence Lamb
Colas Will Not Cause Sterility

Dear Dr. Lamb — I would appreciate an answer to my problem. A year ago I read somewhere that drinking colas in excess as a youth might make one sterile in adulthood.

I have a family of three children, ranging in age from 18, 12 and 9. They were content drinking an 8-ounce bottle of cola a year ago. Now I find them drinking a 16-ounce bottle every day as though it was water. They laugh at me when I tell them that it may affect their reproduction system in later life.

I'm sure that if I can show them in print that I am correct in stating this, I would stand a better chance of laying down the law. Too, I don't get my wife's support because she says it's like drinking water. I say it's not and I'm writing you to settle this problem.

Dear Reader — I think you must have read about the use of cyclamates in soft drinks. Cyclamates injected in rats affected the chromosomes, causing some concern that in large amounts might cause birth defects. No such effect has ever been observed in man.

You are really a lucky parent to need worry only about your children drinking too much cola these days. You and your wife must have done a wonderful job of rearing them and your concern for your children's habits is probably one reason you don't have some of the problems other parents do these days.

It is true that cola drinks are "soft drugs" just like coffee. They contain a stimulant and when used in excess can cause nervousness or even trouble with the digestive system. In a sense colas and coffee are mild liquid "go pills." They have the opposite effect from tranquilizers.

There is no evidence, however, that colas affect the reproductive system. In fact, the cola generation seems to have been about as active or more so than the previous generation.

Dear Dr. Lamb — I am a woman 42 years old. During an examination I was advised that my heart beat did not rise above 60. That, of course, is during normal activities. Is this unusual or serious?

Dear Reader—A slow heart rate may be normal and mean good physical condition. Roger Bannister's heart rate at rest when he was in condition to break the 4-minute mile was less than 40.

There are some disorders of the heart that cause a slow heart rate but a heart tracing is necessary to identify them. Normal slow heart rates are often associated with longer life than fast resting heart rates.

Quick Quiz

Q—Which is considered the most beautiful American opal?
A—The Roebing opal. It is almost pitch black, with color flashes of great brilliancy. It weighs 530 grams.

Q—Who was the heaviest of our presidents?
A—William Howard Taft. His weight was 300-322 pounds.

Q—Which was the first state admitted to the Union after the 13 original states ratified the Constitution?
A—Vermont, in 1791.

Q—What is the shape of the moon's orbit?
A—All celestial bodies travel in elliptical orbits.

Q—Can the election of a U.S. president be dispensed with, even in time of war?
A—No. The Constitution requires that a president shall hold office "during the term of four years."

Proposed CONSTITUTIONAL AMENDMENT
NUMBER TWO ON THE BALLOT (HJR 21)
Special Election May 18, 1971

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article XVII, Section 1, of the Texas Constitution, be amended to read as follows: "The Legislature by a vote of two-thirds of all the members elected to each House, to be elected by year and may on the journals, may propose amendments to the Constitution, to be voted upon by the qualified electors for members of the Legislature, which proposed amendments shall be duly published once a week for four weeks, commencing at least three months before an election, the time of which shall be specified by the Legislature, in one weekly newspaper of each county, in which such a newspaper may be published; and it shall be the duty of the several returning officers of said election, to open a poll for, and make returns to the Secretary of State, of the number of legal votes cast at said election for and against each amendment; and if more than one be proposed, then the number of votes cast for and against each of them; and if it shall appear, unless voted otherwise, that a majority of the votes cast, have been cast in favor of any amendment, the said amendment so receiving a majority of the votes cast, shall become a part of this Constitution, and proclamation shall be made by the Governor thereof."

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT
NUMBER THREE ON THE BALLOT (SJR 5)
Special Election May 18, 1971

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III, Section 51-a, of the Texas Constitution, be amended to read as follows: "Section 51-a. The Legislature shall have the power, by General Laws, to provide, subject to limitations herein contained, and such other limitations, restrictions and regulations as may be deemed expedient, for assistance grants to and/or medical care for, and for rehabilitation and other services included in the federal laws as they now read or as they may hereafter be amended, providing matching funds to help such families and individuals attain or retain capability for independence or self-care, and for the payment of assistance grants to and/or medical care for, and for rehabilitation and other services to or on behalf of: (1) Needy aged persons who are citizens of the United States or noncitizens who shall have resided within the boundaries of the United States for at least twenty-five (25) years; (2) Needy individuals who are totally and permanently disabled by reason of a mental or physical handicap or a combination of physical and mental handicaps; (3) Needy blind persons; (4) Needy dependent children and the caretakers of such children. The Legislature may prescribe such other eligibility requirements for participation in these programs as it deems appropriate. The Legislature shall have authority to enact appropriate legislation which will enable the State of Texas to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of needy persons, in providing rehabilitation and any other services included in the federal laws making matching funds available to help such families and individuals attain or retain capability for independence or self-care, and to accept and expend funds from the Government of the United States for such purposes in accordance with the laws of the United States as they now are or as they may hereafter be amended, and to make appropriations out of State funds for such purposes; provided that the maximum amount paid out of State funds to or on behalf of any needy person shall not exceed the amount that is matchable out of federal funds; provided that the State of Texas shall be paid for assistance grants for needy dependent children and the caretakers of the children shall not exceed Fifty-Five Million Dollars (\$55,000,000) during any fiscal year. Provided further, that if the limitations and restrictions herein contained are found to be in conflict with the provisions of appropriate federal statutes, as they now are or as they may be amended to the extent that federal matching money is not available to the State for these purposes, then and in that event the Legislature is specifically authorized and empowered to prescribe such limitations and restrictions and enact such laws as may be necessary in order that such matching money will be available for assistance and/or medical care for or on behalf of needy persons. Nothing in this section shall be construed to amend, modify or repeal Section 1 of Article XVI of this Constitution; provided further, however, that such medical care, services or assistance shall not include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision. Nothing herein shall be construed to permit optometrists to treat the eyes for any defect whatsoever in any manner nor to administer nor to prescribe any drug or physical treatment whatsoever, which exceeds the scope of a regularly licensed physician or surgeon under the laws of this State. Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on May 18, 1971, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment providing that the Legislature may propose an amendment of the Constitution at any session of the Legislature."

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT
NUMBER ONE ON THE BALLOT (SJR 15)
Special Election May 18, 1971

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III, Section 24, of the Texas Constitution, be amended to read as follows: "Section 24. (1) The State Ethics Commission is created as an agency of the State. The commission consists of nine members. Three members shall be appointed by the Chief Justice of the Supreme Court of Texas with the advice and consent of the Associate Justices of the Court, three members shall be appointed by the Presiding Judge of the Court of Criminal Appeals of Texas with the advice and consent of the other Judges serving on the Court, and three members shall be appointed by the Chairman of the State Judicial Qualifications Commission with the advice and consent of the other members of the commission, of each group of three appointees no more than two shall be attorneys engaged in the active practice of law. In addition thereto there shall be two ex officio members, one from the House of Representatives and one from the Senate to be elected on the first day of each Regular Session of the Legislature by a majority of the membership of each House for a term ending on the first day of the next Regular Session. (2) With the exception of the initial appointees, each appointing officer shall designate one (1) appointee to serve a term of two (2) years, one (1) appointee to serve a term of four (4) years, and one (1) appointee to serve a term of six (6) years. Interim vacancies shall be filled in the same manner as vacancies due to expiration of a full term, but only for the unexpired portion of the term in question. The membership shall designate one of its members to serve as chairman for a period of two (2) years. (3) The members of the commission shall be reimbursed for actual and necessary expenses incurred in the performance of their duties. (4) The commission shall recommend the compensation, per diem, and mileage allowance of members of the Legislature, and may recommend the salary of the Speaker of the House of Representatives and the Lieutenant Governor at an amount higher than that of other members notwithstanding any provisions to the contrary of Article IV, Section 17, of the Texas Constitution. (5) The commission shall promulgate rules of ethics to govern the conduct of all legislators, legislative officers and all officeholders, appointive or elective, of any office, department, district, agency, commission, board or any governmental unit or branch established by or under the authority of the constitution and laws of the State of Texas and all persons who shall use any privilege of the floor in either House of the Legislature. The Texas State Ethics Commission shall promulgate rules providing that each member of the Legislature and each of the hereinabove named officeholders upon election and any appointment to any of these offices shall file with the State Ethics Commission a statement under oath setting out a complete financial statement in detail within 10 days after being elected or receiving an appointment. This information shall be privileged information to the State Ethics Commission to be used only by them to determine if there exists a conflict of interests or if there is or has been a violation of the rules of ethics promulgated by the Texas State Ethics Commission or any laws of the State of Texas. The Legislature shall enact statutes dealing with unauthorized disclosure or misuse of said privileged information. (6) The commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet in Austin at least once each year to review existing rules of ethics, legislative compensation rates, mileage allowances and per diem rates, and to make any changes deemed necessary. (7) All rules of ethics, compensation rates, mileage allowances or per diem rates currently in force, as well as all changes and recommendations by the State Ethics Commission shall be promulgated before the convening of any session of the Legislature by filing a certified copy of the proclamation with the Secretary of State. (8) Each rule of ethics or change thereof made by the commission shall take effect on the 15th day of the legislative session following the proclamation unless otherwise provided. (9) The commission is further authorized to recommend changes which will update, improve, and effect economy in the legislative process. Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the 18th day of May, 1971, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment to create a State Ethics Commission, empowered to set rules of ethics for members of the Legislature, State officers and legislative officers, to investigate violations thereof, and to recommend compensation for members of the Legislature and recommend improvements in the legislative process."

Wit And Whimsy

Each person sleeps about 8 hours out of each 24, works about another 8. What he does with the remaining 8 largely determines whether he finds happiness or disillusionment in life.

MEMO TO: ADVERTISERS

The odds are about 10,000 to 1 against your mastering ventriloquism.

The odds are probably about the same against a company not validating its product claims.

The proof of our circulation product is in ABC's independent audit and fact-filled report.

When advertising, insist on circulation proof. Be ABC-sure.
