# Antiwar Militants' Attempt Foiled

## IN FOREIGN MARKETS

### Nixon Pledges Help To Increase Sales Of Nation's Ag Products

SAN CLEMENTE, Calif. (UPI)—President Nixon today wound up a highly visible weekend in California clearly intended to contrast with demonstrations in Washington against his Vietnam policies.

The President was to arrive back in the capital after dark tonight, missing efforts by antiwar militants to disrupt the government by blocking commuter traffic into Washington.

In four days on the West Coast, Nixon welcomed the First Marine Division home from Vietnam, held an outdoor news conference and delivered a radio address on agriculture.

Nixon told newsmen Saturday.

"We are going to see to it that the thousands of government workers who have a right to go to work peacefully are not interfered with by those militants, those few militants, who in the name of demonstrating for peace abroad, presume that they have the right to break the peace at home."

Most of the President's activities centered on subjects far removed from the war and its opponents.

### Annual Cleanup Campaign Begins In First Ward

Pampa's annual cleanup campaign got under way this morning as city trucks moved into Ward 1 where they will pick up trash and rubbish daily through Friday.

Ward 1, where the cleanup drive continues for the next four days, is bounded on the east by Cuyler and Mary Ellen Sts., on the south by Foster and Rham Sts., west to Price Rd. and north to the city limits.

R.B. Cooke, public works director, said anything that can be loaded will be hauled away if it is placed in alleys. Nothing will be removed from private property.

Five extra trucks are being used, Cooke said, in addition to the city's five trucks on regular trash and garbage collection rounds.

"It looks like we're off to a good start, Cooke added. We're just hoping everyone will get rubbish into alleys in advance of the cleanup crews.

The trucks will move into Ward 2 next Monday, Ward 3 on May 17 and Ward 4 on May 24.

### Public Urged To Respect Army And Police Forces

LITTLE ROCK, Ark. (UPI)—Army Chief of Staff Gen. William C. Westmoreland said this weekend the American public must respect both its police force and its Army if the nation is to survive.

"If the American people expect quality law enforcement then those who are invested with this duty must be accorded the respect, the confidence and the trust of the people whom they serve," Westmoreland said Saturday in a Law Day address.

Westmoreland said just as police are needed to maintain internal order, "armed forces are needed so long as free societies are threatened from without."

"And just as we cannot expect a quality police force without public respect, neither can

\$7.4 billion this year to \$10 billion next year.

Nixon taped the speech at a sprawling desert oasis near Palm Springs owned by Walter K. Annenberg, U.S. Ambassador to Great Britain.

The President spent about 24 hours at the Annenberg estate, playing two rounds of golf on its private links before returning by helicopter to his oceanside villa Sunday afternoon.

Aides said Nixon's speech on agriculture was the first of a planned series of statements on the problems of various segments of the society.

He concentrated on the positive while ignoring controversies such as his government reorganization plan which would abolish the Department

### White Deer Youth Drowns In City Pool

White DEER (Staff) May 3 Clyde Andrews, a 10-year-old White Deer youth, drowned Sunday in a White Deer city swimming pool according to Justice of the Peace C.H. Bell of Panhandle who pronounced the youth dead at the scene.

Funeral service will be held at 10 a.m. Tuesday at the White Deer First Baptist Church with the Rev. A.E. Burns of Highland Baptist Church of Pampa, officiating. Burial will be in Fort Myers, Fla. Duenkel Funeral Directors will be in charge.

The son of Mr. and Mrs. Clyde Andrews, the youth was born Aug. 17, 1960, at Fort Pierce, Fla., and moved to White Deer with his family 10 months ago.

Darley Ledbetter, son of Mr. and Mrs. Harold Ledbetter, was playing at the city swimming pool with Clyde when both boys apparently slipped near the deep end of the pool and fell in.

Darley was pulled from the pool by Mark Miller, 11, Lee Miller, Mark's father, rescued Clyde from the pool and administered artificial resuscitation. Darley was taken to Highland General Hospital where where he was treated for shock and released.

Investigating officer, Carson County Deputy Sheriff Shirley White, said the boys apparently climbed under the fenced in pool and were playing near the deep end where four feet of water had collected from rains and snow. City employees were scheduled to drain and clean the pool today.

Survivors are his parents; two sisters, Gloria of White Deer and Donna Lee of Fort Myers, Fla.

### Public Urged To Respect Army And Police Forces

LITTLE ROCK, Ark. (UPI)—Army Chief of Staff Gen. William C. Westmoreland said this weekend the American public must respect both its police force and its Army if the nation is to survive.

"If the American people expect quality law enforcement then those who are invested with this duty must be accorded the respect, the confidence and the trust of the people whom they serve," Westmoreland said Saturday in a Law Day address.

Westmoreland said just as police are needed to maintain internal order, "armed forces are needed so long as free societies are threatened from without."

"And just as we cannot expect a quality police force without public respect, neither can

of Agriculture as a separate cabinet agency; his rural revenue sharing proposals; and efforts by some farm workers to bring labor union organization to the fields.

Nixon said he promised during his 1968 election campaign to increase farm exports and "I am happy to say that we have delivered on that promise."

### American Troops In South Vietnam Cut To 273,400

SAIGON (UPI)—The United States cut its troop strength in Vietnam to 273,400 last week, beating President Nixon's May 1 goal by 10,600 men, the U.S. command announced today.

The command reported its 32nd "protective reaction" strike of the year against a North Vietnamese missile site and said U.S.B52 stratofortresses dropped at least 1,800 tons of bombs on the Ho Chi Minh Trail Sunday and today a mile inside Laos and a mile south of the Demilitarized Zone (DMZ).

The present troop strength is the lowest since June 25, 1966. Nixon set 284,000 as the May 1 goal under Phase 5 of his withdrawal and said by Dec. 1 the number would be down to 184,000.

The command said 8,000 troops were withdrawn in the week ending at midnight Friday, the second highest total of the year.

The command has announced that the next phase of the withdrawal program will reduce troop strength to 254,700 by June 30. Military sources said virtually all of the 12,800 Marines in Vietnam will be withdrawn in this phase.

A U.S. F105 fighter-bomber fired a missile at an anti-aircraft missile site in North Vietnam Sunday when it directed North Vietnamese radar locking in on planes bombing Laos, the U.S. command reported.

The result of the attack on the site 33 miles east of Laos and 80 miles northwest of the DMZ was unknown.

High winds and heavy rains from Typhoon Wanda, moving up the Vietnam coast, kept most U.S. planes grounded during the weekend and ground fighting also was at a minimum. For the second day in a week there were no American combat deaths reported Saturday.

The Communists attacked the South Vietnamese District Headquarters at Dai Loc, 15 miles southwest of Da Nang, Sunday and shelled it again today.

The government said local and regional militiamen, with the aid of tactical air strikes, fought off the ground attack at Dai Loc Sunday while suffering "moderate" casualties of 15 killed and 53 wounded. A government communique said the Communists left behind 92 dead.

In Cambodia, a government spokesman said Cambodian troops killed 38 Communists Saturday in a major battle 55 miles southwest of Phnom Penh. He said the Cambodians suffered eight killed.

The Cambodian spokesman said a government relief column reached the Pich Ni Pass about 60 miles southwest of Phnom Penh without resistance to join forces with a Cambodian garrison that had been under Communist pressure.

**LAST TRIP** — Passengers aboard Santa Fe's final eastbound run through Pampa, visited the city for just three minutes early Sunday morning, before climbing aboard the train bound for Chicago along the route including Pampa for the final time. Travelers in the future will not cross the Panhandle by railroad as a result of Amtrak, the new passenger plan adopted by the federal administration this year. (Staff Photo)

### Amtrak Passenger Trains Run Through 5 Major Texas Cities

By United Press International  
Folks in Temple are not certain about the new train just yet. In Houston, however, "we're progressing fine."

There's confusion in Fort Worth, hope in San Antonio and out in El Paso the people are still getting ready.

The nation's new railroad system, the National Railroad Passenger Corp. or Amtrak, began running in Texas this weekend in four of the five cities it will serve. The first train running through El Paso hits town Tuesday.

The state is served by two trains, one going north-south, the other east-west. The first one, which started its run Saturday, is the old "Texas Chief."

It runs from Houston to San Antonio, Temple, Fort Worth,

Oklahoma City, Kansas City and ends up in Chicago. "It was the old Texas Chief," said Houston ticket agent J. D. Smith. "It's still going to be called the Texas Chief."

The ticket office in Temple, run by J. E. Okum, had less business this weekend than usual. "People were so uncertain about the train," Okum said. "I think everybody was just sitting back and waiting to see what's going to happen. Business up till today has been great and it will come back as soon as people see what's going to happen."

There was no uncertainty in Houston. "We had a real nice crowd out here," Smith said. "More than we normally have. There were big banners advertising Am-

trak. There were pretty ladies giving out Amtrak buttons. We're progressing fine."

Fort Worth cashier Jack Walker said the people there are not sure where the trains are. "There are a few tickets being sold," Walker said. "I think people are in a state of confusion as to what's going on. The press hasn't given them the full information, or they don't read the paper."

In San Antonio, ticket agent Mrs. W. Puckett said she was hopeful. "I've given out an awful lot of information for future trips," Mrs. Puckett said. "People want to know how they can get to places. All except for maybe Albuquerque. There hasn't been much of a change here. We've had no complaints."

### Some 5,000 Protestors Arrested By Policemen

WASHINGTON (UPI)—Antiwar protesters were repulsed today in an effort to shut down the government by a massive jamming of the capital city's Monday morning traffic rush. More than 5,000 were arrested by police who routed them with volleys of tear gas and the backing of Army troops and Marines.

Washington's thousands of government workers who live in outlying Virginia and Maryland found their commuting routine hindered but not halted by hit-and-run tactics of demonstrators on main bridges crossing the Potomac and at traffic bottleneck points.

The police moved in swiftly to drive off the demonstrators and to keep traffic moving. By 9 a.m. EDT, a high percentage of workers were at their desks as usual. About 4,000 combat-clad Army troops had a hand in actions at several key points—and a contingent of Marines and 6,000 other soldiers were on hand in the city if needed as demonstrators were dispersed in splintered, disorganized groups in cordoned off areas.

More than 5,000 were under arrest on a variety of charges by 10:40 a.m. and traffic movement was reported virtually normal except in a few scattered spots.

A threat of trouble at Georgetown University dissolved when leaders of a group of about 1,000 conferred with encircling police and both agreed to "cool it."

In the main shopping area of Georgetown—both a fashionable residential section and a hippie hangout—the situation was calmed by the presence of federal troops lining both sides of the street. They stood 10 feet apart with rifles slung over their shoulders.

Some of the troopers chatted amiably with passing long-haired street people and a few

even flashed the V sign of the peace movement occasionally. But most of the soldiers were tight-lipped.

Wisps of tear gas hung in the air at some areas where major confrontations took place during the early hours of the morning.

But by 10 a.m., Attorney General John N. Mitchell issued a statement from the Justice Department declaring: "The city is open. The traffic is flowing. The government is functioning."

Police Chief Jerry V. Wilson predicted in advance that the traffic tie-up effort would be defeated. In a message on the police radio, he told his men: "The desire of the President is that this city be open for business this week."

### Sadat Fires Veep; No Reason Given

CAIRO (UPI)—President Anwar Sadat has summarily fired Vice President Ali Sabry, once considered the most likely successor to the late President Gamal Abdel Nasser.

The semi-official Middle East News Agency reported the dismissal Sunday in a one-paragraph announcement that said "President Anwar Sadat has issued a decree dismissing Vice President Ali Sabry from his post."

No reason was given for the unexpected firing, which came just hours before Secretary of State William P. Rogers was due to arrive in Cairo on his tour of Middle East capitals to promote an Arab-Israeli peace settlement.

Sabry was known for his close connections with the Soviet Union. He was a close associate of Nasser and many thought he would become president after Nasser's death, last September, but the Arab Socialist Union Egypt's only political party, picked Sadat instead.

### Rogers Tells Hussein U.S. Wants Overall Settlement In Middle East

AMMAN (UPI)—Secretary of State William P. Rogers reassured Jordan's King Hussein today that the United States wants an overall settlement in the Middle East and not just the reopening of the Suez Canal.

Rogers, in an arrival statement Sunday, said a settlement on the waterway, closed since the 1967 war, could not substitute for a "fundamental and final solution" to the Arab-Israeli conflict. U.S. officials said the secretary of state also was making that point clear to Hussein during their formal talks today.

Among other issues up for discussion was increased economic aid to Jordan, the officials said. There also was a possibility Hussein might request further military assistance.

Rogers arrived in Amman Sunday fresh from talks with King Faisal in the Saudi Arabian capital of Riyadh. In those talks, Rogers explained that his Middle East tour was aimed at promoting peace, with an interim Egyptian-Israeli agreement on reopening the Suez Canal a first step in that direction.

There was tight security for Rogers' arrival and police were stationed every 20 yards along the route his auto followed from the heavily-guarded airport into town. It was along

this same route Palestinian guerrillas tried to assassinate Hussein shortly before the Civil War last September.

A demonstration by about 100 Palestinian women, some of them wearing miniskirts, was broken up by police wielding four-foot batons several hours before Rogers arrived. They were protesting the secretary of state's visit.

Sunday night, Hussein was host at a state dinner for Rogers and later they met privately. However, today's discussions were their first formal meeting.

U.S. officials said Rogers was aware that Hussein feared an accord of the anal between Egypt and Israel might become a substitute for an overall peace settlement—leaving unresolved Jordan's grievances from the Arab-Israeli War. Because of this, they said, Rogers was going out of his way to make it clear the U.S. States was working for overall peace.

## Lefors Junior High School Athletes Honored At All-Sports Banquet

LEFORS (Spl) — Lefors Junior High School athletes, their parents and guests, were honored with an All-Sports Banquet Saturday night at the school cafeteria. The members of the Junior High Athletic Club were hosts for the event which honored 30 athletes participating in competitive sports at the school this year.

Jesse Baker, principal of the junior-high acted as master of ceremonies, introducing the speaker, Claude Robertson, Director of Special Services of the Pampa Independent School System and former basketball coach in several area schools.

Robertson challenged the young athletes to enjoy sports and to have fun. He stated that he noticed, especially in officiating sports events, the lack of "plain good fun" in competitive athletics. "Fun is what it is all about," he stated in concluding the challenge.

## On The Record

## U.S. 60 Highway Group Re-Elects Officers' Slate

The annual meeting of U.S. Highway 60 Association was concluded in Socorro, N.M., Saturday night with a banquet and the election of officers.

Allan Early of Amarillo, was re-elected president, along with other officers: Buford Richardson, Socorro, vice president, and Harold Hillmer, Riverside, Calif., secretary.

A new work program was adopted calling for distribution of 50,000 new U.S. 60 brochures and other forms of advertising, including a new format in advertising, which was developed by Harold Barrett and other members of the Advertising Committee.

Next year's annual meeting will be held in Globe, Ariz. during the early part of May.

Official delegates from Pampa attending the meeting were: Bartlett, Howard Buckingham, Wayne B. Smith, Jim Hughes, and E.O. Wedgeworth.

## An evening out at home

... where the charm of an Old-time GAS light lets the evening last a little longer ... and the food has an exciting outdoor aroma and flavor, found nowhere else in the World!

Model	Cash Price	Budget Price	Terms
MASTER CHEF (AMK) The better grill	\$90.18	\$107.90	*Budget price \$109.08 *Budget terms \$3.62 per mo. for 36 mos.
PARTY HOST (HEJ) The professional one	\$107.90	\$130.32	*Budget price \$130.32 *Budget terms \$3.62 per mo. for 36 mos. *Delivered extra
CHEF'S CHOICE (CC-1) The outdoor range	\$142.30	\$172.08	*Budget price \$172.08 *Budget terms \$4.78 per mo. for 36 mos. *Delivered extra
GAS LIGHT, #300 BLACK #328 WHITE	\$60.41	\$73.88	*Budget price \$73.88 *Budget terms \$2.63 per mo. for 36 mos.

Prices include normal post-type installation (up to 50 feet of line) and 4.25% sales tax. \*Budget terms are available at 12.75% annual interest on declining balance.

A GAS outdoor grill gives food a tangy outdoor flavor without the time and bother of charcoal fire. Char-broiled flavor comes from the smoke of meat juices dripping on hot briquets. Charcoal itself provides no flavor.

Permanent ceramic briquets in the gas grill reach cooking heat in a few minutes, and there is no long wait to start cooking. The heat is regulated manually so there is no need to move a grill up or down.

**SAVE \$28.50 BY BUYING A PATIO PAIR.**

Model	Cash Price	Budget Price	Terms
Gas Light #300 or #328 AND ...	\$120.88	\$146.16	\$4.06/36 mos.

PAMPA DAILY NEWS PAMPA, TEXAS 65th YEAR  
Monday, May 3 1971

REMINDERS FOR DAY CAMP — Phoebe Skelly, 17, and Cathy Collingsworth, 16, Quivira Girl Scout Council seniors of Troop Two, explain Day Camp registration and activities to three members of Brownie Troop 83 Katrina Whitmarsh, Lisa Collins and Connie Hunnicutt. Registration dates are Tuesday, Wednesday and Thursday in the Girl Scout office, in City Hall.

## Scout Council Sets Day Camp Schedule

Visions of camp days, soon to arrive, are in the minds of Girl Scouts of Quivira Council as registration dates for Day Camp are announced for Tuesday, Wednesday and Thursday.

Registrations will be taken in the Girl Scout Office, second floor, City Hall, from 9:30-12 noon and from 1:30-4:30 p.m. Day Camp dates for District II are June 1-5 for Pampa and Mobeetie, and June 7-11 for Pampa, Miami, Canadian and Higgins.

Fees for Brownies, Juniors and Cadettes will be \$4, while the fee for non-Girl Scouts will be \$5. Senior Scouts do not have to pay, but they must register.

Non-Girl Scouts may register after May 15, by securing a registration card from the Girl Scout Office in Pampa.

The registration of Scouts on May 4, 5, and 6 is the only way Girl Scouts may be registered for Day Camp. Those from Pampa attending session I will be excused from school upon proper certification by the council office, according to Dr. James F. Malone, school superintendent.

Trading stamp books will be accepted as partial or total payment of fees. Only full books will be accepted.

Fees help cover program supplies, transportation, insurance, cookouts and other Day Camp expenditures.

Day camping offers five days of outdoor program opportunities for every girl. The program will include nature study, crafts, cookouts, games,

perfecting of camping skills and badge work.

Cadette Girl Scouts who have completed seventh grade may register as Program-Aides in Training and may be scheduled by unit leaders as special consultants to assist with various parts of the program.

All PATS and Senior-Aides should take training.

Girls attending Day Camp will leave Pampa by bus in the morning and return to Pampa in the afternoon.

"Day camp gives girls the opportunity to become acquainted with the outdoors, as well as to learn and practice the skills of outdoor living," stated Miss Celia Fowler, council executive director.

"Girls benefit from learning to get along in a group and from learning principles of a democratic government through the patrol system."

Day Camp sessions will be limited to 125 campers, on a first-come, first-serve basis. When a session is filled it will be closed and campers will have to take second choice, Miss Fowler explained.

## Jaycee-Ettes Attend Meeting On Club Reports

The Pampa Jaycee-Ettes met recently in the Reddi Room of the Southwestern Public Service office as Mrs. Milton Saltzman, newly elected president, presided.

Mrs. John Warner gave the invocation and Mrs. Nathan Lancaster led the club in the Jaycee-Ettes creed. Mrs. Saltzman introduced the guests: Mrs. Don Williamson, Mrs. Trudy Haralson, Mrs. Connie Fortenberry and Mrs. Judy Walls.

Members listened to club reports from Mrs. Gene Hinds on the Pampa installation; Mrs. Bronnie Vaughn, book auditing. Mrs. Gary Carter reported that five Jaycee-Ettes traveled to Girlstown to present birthday gifts and cake to Elda Landon, the club's sponsor.

## Dear Abby

By Abigail Van Buren

DEAR ABBY: I hardly know how to word this letter but I will give it a try. It will soon be Mother's Day again, and I hope my children won't buy me something because they think it is their duty. I would rather have a pack of chewing gum if they bought it because they love me and were thinking of me. So many gifts are bought for Mother's Day more out of sense of duty than for love. I have a lovely gift that my son gave me last Mother's Day and I haven't had the heart to take it out of the box because he just ran in and handed it to me, saying he had to go back to his mother-in-law's. The gift is expensive, but I had rather he spent a few hours with me than to buy me a present. That is why it is still in the box, untouched.

MAMMA: SAVANNAH, GA.

DEAR ABBY: My seven-year-old son, when told he was adopted, asked the inevitable question: "Then, Mamma, does that mean you're not my real mother?"

"Well, let's see," I said. "Here, pinch me real hard and we'll see if I'm real or not." He pinched, I squealed, and we both had a good laugh. A happy, frank discussion followed.

But the most wonderful part is that this precious son of mine has two mothers. I have had the privilege of rocking him, feeding him and watching him grow into an adorable seven-

year-old. Yes, I am his "real" mother and don't you dare to call me less!

But no less real is the little girl who refused to have an abortion, insisting, "This little life inside me has as much right to live as I." The little girl who looked the social worker in the eye and said, "This adoption will work, because I am doing it for his sake, and I don't ever intend to hurt him. That brave little girl has been true to her word for seven years.

Some day when he is grown to a big, strapping six-footer, if his appearance in her life would not hurt the children she is now bearing for herself, I should be happy to think that I had so taught him to love and respect the thought of her, that he would take her in his big arms and whisper, "Mother, I love you."

She has every right to his love. And he will be a better man if he proves wise enough to know it.

HIS OTHER MOTHER

DEAR ABBY: Not too long ago, a young boy celebrated his 14th birthday. I'm sure he had a birthday cake. He actually had two because I also baked him one and put 14 candles on it!

This boy was born to me out of wedlock. I was 17 years old, and decided it would be best for Stevie if I gave him up for adoption. Stevie is not his name now, but that's the name I gave

him for the short time he was mine. I have no regrets because I know that my son has a wonderful home with parents who love him. To them I want to say, thank you for opening up your hearts and home to my son. I send my dearest love to you, and him.

STEVIE'S OTHER MOTHER  
CONFIDENTIAL TO ANYONE FOR WHOM IT IS NO TYET TOO LATE: THE gestation period of a mother's advice is anywhere from one hour to 50 years. Losing one's mother before having thanked her for the many precious things she taught you is one of life's greatest tragedies.

**Scouting Scoops**

Registration for Girl Scout Day Camp will be Tuesday, Wednesday and Thursday at the Girl Scout Office, second floor City Hall. The fee is \$4 per girl, and the registration card is the last page of the camp folder. Non-Scouts will be given consideration after May 15. This is the only way girls may be registered for camp.

A total of 326 Brownies have registered for the Brownie Revel to be held on May 8 at Camp Mel Davis. This annual event is sponsored by Senior Troop 2 in Pampa. Advisers to this troop are Mmes. Richard Stowers, J. B. Maguire, J. P. Brunley and J. R. Newman.

Sixteen adults attended an overnight at Camp Cibola recently. This was the final session of Outdoor Training, and gave leaders an opportunity to practice and improve their outdoor skill. They pitched their own tents, lashed and cooked out. Various types of outdoor cookery were tried including stick cookery, reflector oven, cardboard box oven, and foil dinners. Meat loaf and cake were prepared in the cardboard ovens while one cake was baked in a reflector oven. And biscuits and marshmallows were toasted on sticks for snacks.

Members of Cadette Troop 3 have been busy taking first aid instruction these past few weeks, and several girls have now completed the course. They also spent a weekend at Camp Mel Davis, planned skits and hiked to the river. Five girls from this troop assisted younger

girls at the Junior Camporee. They were Vickie Lynn Carter, Kim Chisum, Marsha Holland, Mickie Fletcher, and Jane Shaw. Co-leaders for this busy troop are Mrs. Ralph McDonald and Mrs. Jerry Carter.

Mrs. E. W. Holland's Brownie Troop 70 visited an Amarillo television station where the girls were shown where film is kept and how it is spliced and ran.

Junior Troop 87 had as their special guest at Camp Mel Davis, Ai Ling Han, who has recently moved to White Deer from Indonesia. This is an example of international friendship at camp. While at camp the girls practiced their outdoor skills. New Patrol leaders are Julie Jackson, Jan Johnson and Carrie Comer. Mrs. N. G. Kadingo is the leader of this troop.

Brownie Troop 8, led by Mrs. Joe T. Rogers, went swimming at the Youth Center.

Brownie Troop 44 had a cooking session at Southwestern Public Service, under the supervision of Mrs. Mildred Prince. Half the group prepared individual pizzas, while the other half baked a chocolate cake. They shared the results of their efforts, and then went home with recipes to try. Mrs. Earl Crouch is their leader.

This is the time of year when second-year Brownie Scouts "fly-up" to Junior Girl Scouting. Mrs. Tom Collin's Junior Troop 136 is making plans to assist Mrs. Lacy Lee's Brownies with this event in May.

**POLLY'S POINTERS**  
Don't Take Any Chances On Ruining Hearing Aid  
By POLLY CRAMER

DEAR POLLY — Please tell Mrs. H.W.E. not to wear her hearing aid when she goes swimming. Don't do it. All our family wear hearing aids and we were warned not to get them wet or leave them where they would get too warm. Such an aid is too great an investment to take a chance on ruining it.

DEAR POLLY—I have a walnut coffee table and for the past four years have waxed it with lemon wax. This was very satisfactory until recently when I noticed a very large dull mark on it. I have tried everything I know of to restore that part to a shine but unsuccessfully. I do not know what to do and hope someone can help me.

DEAR POLLY — I make my own plant labels from 1-by-3-inch strips cut from used bleach bottles. I scratch or write on these with a large needle inserted in a two-inch section of a wooden broom handle. Next I rub dark shoe polish over the label and wipe off the excess. This makes the writing brightly visible.

I place strawberry runners for new plants where I want them and then hold them in place by pressing heavy wire hairpins over them and on into the soil. When the plants are rooted, I remove the hairpins and use them to hold runners for other plants.

I have found this great for use when trying to root long ivy clippings with which I want to cover an area.

**Your Horoscope**

**TUESDAY, MAY 4**  
**YOUR BIRTHDAY TUESDAY:** Spiritual expansion becomes reality in the next year, particularly when you are diligently striving to make your life clear and simple. Complicated dealings and marginal relationships fall by the wayside as you seek a sounder path into the future. Tuesday's natives frequently show high aptitude for very technical work with electrical and magnetic energy.

**ARIES (March 21-April 19):** Listen carefully wherever detailed study of your chosen field is concerned. If you do not register changes of rules and conditions, you put yourself off course late in the year.

**TAURUS (April 20-May 20):** Much of Tuesday's talk is so much chaff, but among the poor jobs is a stream of fresh wisdom, recognition of changing situations. Stay in good humor. You discover any story you want, perhaps create your own from a true imagination, picking on the faults of others merely causes trouble for all.

**CANCER (June 21-July 22):** Stand on your dignity throughout confusing, subtle changes. Go over your establishment to see what is finished, work out, no longer serving a purpose, and arrange a better use for elsewhere.

**LEO (July 23-Aug. 22):** Clear off the hedge-podge left from yesterday. Since the next several days produce tighter arrangements, it will not do to be careless.

**VIRGO (Aug. 23-Sept. 22):** Show your range of skills by undertaking something outside regular routines. Your initiative power use to a peak and should be taken into account.

**LIBRA (Sept. 23-Oct. 22):** Catch up on budgeting, so you can know more of your abilities in the next few weeks. Get down to details; make your workplace and household neat and ship-shape.

**SCORPIO (Oct. 23-Nov. 21):** Be practical with what produces the quickest results. Tomorrow is another day and requires a different approach, so press forward diligently while everything is still simple.

**SAGITTARIUS (Nov. 22-DEC. 21):** Think of your friends and social connections, make peace where you've had a difference, and go on from there. A good deal of new ground must be covered this month.

**CAPRICORN (Dec. 22-Jan. 19):** Review your family and community situation. Where it is in line with your problems exist, see the viewpoint of everybody involved.

**AQUARIUS (Jan. 20-Feb. 18):** Short cuts, original methods strike through to the core of confusion. Take definite action to establish what you believe in as the main line of the future.

**PISCES (Feb. 19-March 20):** Wanderlust and a need for excitement may lead you into strange paths, new social contacts.

**Wall Street Chatter**

**NEW YORK (UPI)**—Stock market observers on the lookout for another big market break are worrying about the possibility of "a second stage explosion in Vietnam" some nine months from now when a Dunkerque could shape up against troops remaining in Vietnam, the Janeway Service says. They agree that nothing trivial could dampen Wall Street spirits, but see in the Vietnam situation a potential "shocker of horrendous proportions," according to Janeway.

The \$28.5 billion increase in Gross National Product in the March quarter surprised even the most optimistic private economists and "goes a long way" toward explaining the stock market's spectacular rebound from 637 to 947 in less than a year, observes Spear and Staff. The sharp pickup in GNP was amply reflected in the first quarter earnings of many mainstream companies and improved earnings generally have been widespread.

Market rotation appears to be playing an important part in investment and trading decisions, whether or not the Dow Jones industrial average pauses at current levels or not, says TPO Inc. The firm expects the market to show selective strength for "quite some time to come."

# Torn Tendon Slows Down Baltimore's Johnny Unitas

By MILTON RICHMAN  
UPI Sports Writer

NEW YORK (UPI)—Johnny Unitas is pretty sure he'll be back. He's positive in fact. He doesn't go spoiling everything by asking him when he'll tell you that. He's superating 37-year-old quarterback for the Baltimore Colts pretty good but he's not God, doesn't know.

Achilles tendons, after they've been torn, aren't like hamburgers you throw on the grill. Nobody can really tell how long it'll take for them to be ready.

Meanwhile, friends, well-wishers and just plain people are wanting to tell Johnny Unitas they're pulling for him to make it back.

Veve Ewbank, the New York Jets' coach, is an old friend and old softie along with it. He never wants to see anybody get hurt either with his club or with another club. Besides, Unitas used to be his quarterback with the Colts so the other way Ewbank just did what came naturally—he picked up the phone and called him.

"Keep on playing, Eddie," Ewbank opened the conversation. "If you tear up the other leg you're helping the man that much more. Seriously though, all of us here are very sorry but we know you'll be back."

Unitas recognized his old boss' voice and then Ewbanks told him: "Here, talk to Matt Snell sitting right beside me. He's been through the same thing you have."

With that, Ewbank passed the receiver over to Snell, the Jets' fullback, whose Achilles tendon was ripped last Oct. 4 while he was running the ball against the Buffalo Bills.

"Hello, John. How you coming along?" Matt Snell asked.

"Fair," said Unitas, "but tell me, how do you feel?"

"Great," Snell said. "I'm running now, playing handball and everything else. My leg doesn't bother me at all. If someone told me six months ago I'd be playing handball now I'd have told him he was crazy."

"That makes me feel good," said Unitas, who suffered his accident three-and-a-half weeks ago.

"You'll be all right," Snell assured him. "After the doctor tells you it's okay for you to go, then just get it out of your mind that you were ever hurt at all—and go. The important thing I found is to get it out of your mind."

"Okay," Unitas said. "You oughta know."

Matt Snell should know about Achilles tendons. He's an expert on them simply because he researched the subject thoroughly and made it his business to speak with every professional athlete he could find who ever had the same injury.

"I'm not counting these so-called 'Saturday players' I've spoken to about this," laughed Snell as he talked about his and Unitas injuries at his midtown restaurant The Fifth Down.

"I'm only referring to fellows who make their living playing ball like I do."

"I spoke with Les Josephson (Los Angeles Rams), with Dave Robinson (Green Bay Packers) and with Art Powell, who used to be with the Buffalo Bills and Oakland Raiders. Powell told me he tore his tendon and then played another four years. I talked with Dick Barnett (New York Knicks) twice. He told me not to worry. He said, 'Look Matt, you're 29 and I was 32 when it happened to me. It's all a state of mind, that's all.'"

"I was supposed to talk with Bobby Tolan when the Cincinnati Reds were in town but I didn't get the chance. They told me he was a little depressed. I'm gonna get to talk with him yet and tell him there's no reason to feel that way. Look at how my heel has come along. Right now I'd say I'm 80 per cent back from where I was. And when I go to training camp in July," said the Jets' fullback, "I hope to be 100 per cent. You gotta just keep working and not get discouraged."

## Rice Not Only Beat Texas, But Set-Up Dynasty

COLLEGE STATION, Tex. (UPI)—Rice not only wore the Southwest Conference track crown today, but the Owls also have the nucleus to start a dynasty for first year Coach Augie Efurth.

Rice defeated Texas A&M 60-1-2 to 60 Saturday night in front of Aggie fans to end the Curtis Mills-Rockie Woods regime on a sour note. It was the closest SWC track meet in history, slower than the 1-5-6 margin Texas had over Rice in 1952.

All four of Rice's individual winners were freshmen or sophomores. Freshman Ken Stadel won the 100 and the other three winners were sophomores—Mike Cronholm in the intermediate hurdles, Dave Roberts in the pole vault and Jim Pearce in the javelin.

The only seniors for the Owls were Bruce Martin, who was second in the mile, Jack Fabian, fourth in the high hurdles, Chip Grandjean, second in the 440 and Steve Straub, second in the 880.

Grandjean and Straub also ran on the winning mile relay team but Cronholm is ready to fill one of these spots.

Of the 60-1-2 points Rice scored, it loses only 14 through graduation.

A&M loses 32 of its 60 in the persons of Mills, the 440 winner; Don Keller, third in the intermediate hurdles; Larry McIntyre, fifth in the pole vault; and Woods, who won the 100 and the high hurdles, finished second in the 220 and combined with Mills to spark the 440-yard relay team to victory.

Mills twisted his left leg in the first 60 yards of the 220 and pulled up with a cramp costing the Aggies points in that race and cutting their efficiency in the mile relay. Rice, trailing by 1-2 points entering the mile relay—the meet's final event—won the relay by 15 yards to edge the favored Aggies for the title.

## Starting Quarterbacks Play Big Role In Spring Games

By United Press International

Starting quarterbacks played losing roles in two of the three final spring football scrimmages in the Southwest Conference camps Saturday.

At Baylor, veteran Si Southall was the exception as he piloted the Greens to a 21-9 verdict over the Whites in Coach Bill Beall's final skirmish of the spring. He hit five of 10 passes for 54 yards and a touchdown while suffering one interception.

Matthew Williams, who ran for 44 yards on 15 carries, scored one Green touchdown from one yard out and Ronny Stewart sprinted 73 yards with a punt return for another. The Whites' scoring came on a Mike Conrad field goal and an 80-yard interception runback.

Rookie quarterbacks Jimmy Carmichael and Joe Barnes stole starter Charles Napper's thunder in a Texas Tech scrimmage that saw them team to pilot the Whites to a 39-7 upset over Napper's Reds.

Of course, a 167-yard rushing performance by Miles Langehenig had a big hand in their success as he scored three touchdowns from eight yards or less. Carmichael and Barnes each scored once and Dickie Ingram chipped in a 22-yard field goal.

The Whites' only touchdown came on a seven-yard run by John Kleinert as Napper had two passes intercepted while completing nine of 17 for 92 yards. A crowd of 10,200 watched the game.

At TCU, starter Steve Judy had a big night statistically, but his Purples lost a 9-7 decision to the Whites, which were quarterbacked by sophomore Kent

## Opposition May Be Forming Against UH Joinging SWC

COLLEGE STATION, Tex. (UPI)—Opposition may be forming to a joint move by Texas and Rice to get the University of Houston admitted to the Southwest Conference.

A vote on the matter was expected Sunday but it never came. If a vote does not come today, it will not be considered again until the conference officials hold their winter meeting this December in Dallas.

"We spent all day discussing the Houston affair and no conclusion was reached," SWC executive secretary Howard Grubbs said Sunday.

Grubbs said a news conference would be called on the subject today and Dr. J. William Davis of Texas Tech, the president of the conference, said he hoped the announcement would come "before noon."

"We just haven't solved all the technical things," said Dr. J. Keils Thompson, the faculty representative of Texas and the chief sponsor of Houston. "It's going to take some more time. I'm still very optimistic."

"We thought we had everything worked out but we've just got to get some things settled," Thompson said. "I haven't lost my optimism. I am misjudged the timing. I am reasonably sure it will come out and it's just getting a complete meeting of minds."

## Former All-American Charged With Near-Fatal Stabbing of Estranged

DETROIT (UPI)—Former All-American football star Bill Yearby, charged with the near-fatal stabbing of his estranged wife, has been released from jail after posting a \$10,000 cash bond.

Yearby, released Saturday after being held three days in the Wayne County Jail, must return to Detroit Recorder's Court on May 11 for a preliminary examination. He also was ordered to undergo a psychiatric examination before that date.

Yearby, 26, was arrested Wednesday and charged with assault with intent to murder his 24-year-old wife, Karen. He stood mute to the charges at his arraignment Friday and a plea of innocent was entered on his behalf.

According to police, Yearby visited his mother-in-law's home where his wife and his 18-month-old daughter, Barbara, were living. Police said he stabbed his wife several times after she refused to allow him to take his daughter for a short visit.

Hospital officials said Mrs. Yearby was in satisfactory condition after being in the intensive care unit for three days. She reportedly suffered from more than a dozen stab wounds.

The six-foot-three, 225-pound defensive tackle was the No. 1 draft choice of the New York Jets in 1965. He joined the Jets in 1966 under a long-term contract that paid him a reported \$300,000 but was later placed on waivers after he damaged ligaments in his right knee. Yearby has been out of action for the past two years because of the injury.

Yearby was a football and basketball star at Eastern High School in Detroit and was an All-American defensive tackle at the University of Michigan.

# End Proves To Be What Went Before For Hawks

CHICAGO (UPI)—The end simply proved what went before, Chicago Black Hawk Coach Billy Reay said.

"It came down to the final period of the seventh game of the series," he said.

There was 15:35 left to play in regulation time when Bobby Hull drove a slap shot past goalie Ed Glavin into the New York Rangers net.

That gave the Black Hawks a 3-2 lead, and while Chico Maki got an empty net goal with 26

seconds to play, Hull's score was the winner for Chicago in a grueling seven-game Stanley Cup semifinal series with New York, winding up with four wins for the Hawks, three for the Rangers.

It was a series marked by three overtime games, two of them won by New York, and neither team ever could rest easy or coast. As Reay said, "We've been playing crucial games since the second game of the series."

But Hull's score sent the Hawks into the finals of the Stanley Cup playoffs for the first time since 1965 and only the eighth time since the team joined the NHL.

Earlier each team came from behind once. Jim Pappin got the first goal for Chicago, and Pete Stenkowski tied it for New York. Rod Gilbert put the Rangers in front before Cliff Koroll scored to tie the game for Chicago.

Hull and Maki gave the Hawks the breathing room they needed.

"We fought the good fight," Ranger Coach Emile "Cat" Francis said. "It was a tremendous series, and boiled down to one goal. It was by far the best season we've had, and by far the best our club has played. It had to be one of the greatest playoff series I can remember."

Reay agreed. "You can't fault either club," he said. "It was a tremendous relief to me to see Hull's shot. But Tony (Esposito) played great for us for the whole series. All our guys played great. Now we've got to get ready for Montreal."

The final series for the Cup begins in the Hawk rink Tuesday night with another game scheduled Thursday before Sunday and Tuesday games in Montreal. After that games will alternate until one of the two wins four times.

It could be another seven-game series.

## Beard Wins Orleans Open Over H. Green

NEW ORLEANS (UPI) Frank Beard says he's not one to criticize a fellow golfer but maybe rookie Hubert Green should not have used a three-wood on the 15th hole during the final round of the New Orleans Open.

Beard birdied the hole Sunday and it turned out to mean winning the \$25,000 first prize money with a 12-under-par 276.

Green bogied the 15th and finished one stroke behind Beard. Green was the leader at the end of the third round. The two toured the course together Sunday.

"Fifteen was the big swing between Green and I," said the bespectacled Beard Sunday after his victory.

"I don't know—as far as I'm personally concerned as being pumped up—it did much more for me than say any of the other four birdies because I thought I was going to make a birdie while I was on the green."

Beard, believed the 24-year-old Birmingham, Ala., player who picked up \$14,300 for second place pulled a boner on the 15th that cost him the tournament and gave Beard the victory.

"I would not be a person to criticize, but I think Green made a mistake there on the 15th."

"He used a three wood off the tee. He had been driving well off the tee all day. But he put himself much too far back for any type of attack. He hit a fairly good looking wood shot but he just hit that big tree on the corner. It gives everybody trouble."

"It dropped straight down after striking the tree and Green hit what I thought was an excellent third shot but he kind of hit the front of the green instead of bounding."

Green said he used his three wood on the 15th tee because "if I would have hit a driver instead of my three wood I would have knocked the ball into the woods behind."

"And I felt Beard had to make a birdie on the hole to

stay with me and I could still get on the green with a three wood for my second shot. Which I could have but the tree sort of got in the way a little bit there."

The par-5, 530-yard 15th hole has been a friendly one for Beard in the New Orleans Open.

In his 1966 tournament victory over Jack Nicklaus he eagled the 15th.

And, said Beard, "I made three birdies on the 15th this week."

Lee Elder and George Johnson, each bidding to become the PGA tour's third Negro champion, faltered in the stretch after making runs at the lead. They wound up sharing third place money with \$7,350 each and 10-under-par 278's.

Elder bogeyed the final hole en route to his 35-36-71 and Johnson had a four-under par 32-36-63—for their best finishes ever.

Beard, whose best previous 1971 finish had been a tie for sixth in the Tucson and Citrus Opens, had earned \$34,338 coming into New Orleans. He started the final round two shots back of Green with a 208.

## HUTTER SWAPS JOBS

COLUMBUS, Ohio (UPI)—Dave Hutter Sunday resigned as baseball coach and assistant University to accept a similar position at Brockport (N.Y.) State College.

## Arthur Ashe Loses Wimbledon Again

DALLAS (UPI)—The last time Arthur Ashe defeated John Newcombe in a tennis match was in 1968 at Wimbledon.

Ashe has been in the finals of a tennis match four times this year, counting Sunday's finals in the \$50,000 Rawlings Tennis Classic, and has lost all four of them.

Newcombe earned \$10,000 in winning his third of five World Championship Tennis events this year. It also earned him 10 WCT points.

Tom Okker and Marty Riessen won the doubles championship Sunday by defeating Bob Lutz and Charles Pasarell 6-3, 6-4. They will split an \$1,800 check. Ashe won \$5,000 for finishing second in the doubles and Lutz and Pasarell won \$400 each for the doubles runnerup.

## Ideals And Realities

Sen. Adlai E. Stevenson III asks Congress to appoint a commission of five senators and five representatives to watchdog the August and October elections of a new house of representatives and vice-president in South Vietnam to ensure that no U.S.-sponsored hankypanky takes place.

Already, the Illinois Democrat notes, Americans are doing public opinion surveys for the Thieu-Ky regime and the propaganda resources of the U.S. Information Agency are glorifying the present Saigon government.

Lost sight of, says Stevenson, is our oft-proclaimed goal of securing for the South Vietnamese people "the right to choose their own future." Americans remember with distaste the South Vietnamese elections of 1967, when candidates favoring a negotiated settlement of the war were barred from running, even jailed or exiled. This was hardly the American ideal of democracy.

Yet our own practice of that ideal does not always hold up under historical examination. In the mid-term elections of 1962, when America was in the midst of a war and there was no light at the end of a long tunnel, there was strong antiwar sentiment in the North, particularly among Democrats. So strong was that sentiment that Abraham Lincoln sent troops home to swell the voting and in the crucial border states actually imprisoned many of the leading advocates of total Union withdrawal from the war.

Had the Republicans lost those elections, and they almost did, there might have been peace, but there would have been no United States as we know it today. South Vietnam is in the midst of a war, which many have called a civil war. President Thieu, of course, is not to be compared to Abraham Lincoln. But we might bear in mind that should the Communists take over South Vietnam by conquest or by coup, there would be no elections at all for us to criticize.

## FAP Over Welfare?

The welfare system is dead, long live the welfare system. That's about what you can make of President Nixon's address to Republican governors at Williamsburg, Va. He officially condemned the old system which, he said, penalizes you for working and rewards you for staying idle. We believe few will disagree with the diagnosis. The problem over Mr. Nixon's speech has to do with his suggested remedy. That is his Family Assistance Plan, also known as FAP. The broad outline is that you can work some and still get your assistance in addition. The argument goes that FAP makes it more gainful to work than to refrain from working and that, therefore, welfare recipients will work. That prospect has a certain amount of appeal. For if a fellow starts doing a little work in a regular basis, he is likely to find it enjoyable and work himself right off the welfare rolls. Even if he doesn't become entirely self-supporting, he at least is contributing

something to production. That is better than nothing. This is the positive thought in the Nixon plan. The drawbacks, however, are substantial. First is the considerable likelihood that QP will increase the number of welfare recipients. After all, if Jack sees his neighbor Joe playing golf and going on vacations and Mrs. sees that familiar green government check in Mrs. Joe's mailbox, the Jacks are going to catch on quick. Experience shows that few will be able to resist the temptation to share in such easily gotten "gains." Although the process eventually cheapens the dollar and raises prices so that the gain is slight for anyone, FAP results in a system where the vast multitude will be looking to politicians for their daily bread. That is the verdict that both forethought and experience returned on Mr. Nixon's Family Assistance Plan. Mr. Nixon's diagnosis inspires confidence. But the prescription is bound to make the patient sicker.

## Father Of Paper Money

The Friends of the Boston University Libraries observed the 300th anniversary of the birth of John Law the other day and were probably the only people in the country to do so. This is a pity, for Law is credited with being "the father of paper money." A Scotsman transplanted to France, Law was the first monetarist. He believed that money has no intrinsic value but represents wealth, particularly a nation's commerce. "The Paper Money proposed being always equal in quantity to the Demand," he argued. "The People will be employ'd, the Country improv'd, Manufacture advanc'd, Trade Domestic and Foreign will be carried on, and Wealth and Power attained."

In 1716, as controller general, he proved his words by bringing rapid prosperity to France through the introduction of paper currency. Unfortunately, Law's system included stock speculation in shares of a company trading in Louisiana. When the bubble burst — the "Mississippi Bubble" — Law attempted to cope with the crash by printing millions of paper livres. The resulting inflation ruined hundreds of thousands. Law was forced to flee France and died a pauper in Venice in 1729. So here's to John Law, the father of paper money. We are all in debt to him — and a lot of us are probably in debt because of him.

## Month Of The Two-Wheeler

May 1 marked the 15th annual observance of American Bike Month, sponsored by the Bicycle Institute of America. The theme this year is "Safe bike, safe driver," though the observance should also have great appeal to ecologists, anti-pollutionists, health buffs and others. The institute reports that a survey of bicycle accidents found: No difference in safety between one type of bike than another.

Mechanical failure is not a significant factor in accidents. Most accidents are the result of falls, occurring when youngsters are just "fooling around." Statistically, a typical 10-year-old cyclist rides his bike about 300 miles a year. He will probably ride it two years before having an accident producing even a minor injury, and 24 years before he has an accident serious enough to require medical attention.

## H. L. Hunt Writes

**WAR CRIMES IN VIETNAM**  
Farleftists have tried to convince our citizens that the U.S. effort to defend the South Vietnamese against Communism is evil and immoral. They claim, for example, that U.S. soldiers in Vietnam are guilty of a great many "war crimes" and "atrocities."

Some of these agitators have opened an exhibit of supposed U.S. war crimes. The exhibit was set up in the office of California Congressman Ronald Dellums, who had recently returned from attending a conference held in Stockholm by Communists and Communist sympathizers to protest U.S. action in Southeast Asia.

The exhibit is staffed by the farleft Citizens Commission of Inquiry on U.S. War Crimes. Its national coordinator, Jeremy Rifkin, stated that "there's at least prima facie evidence that war crimes are widespread and that they are the result of U.S. tactical policy in Vietnam." Those who decry U.S. war crimes are remarkably silent when it comes to condemning communist atrocities although the evidence of these atrocities is overwhelming. Hundreds of men, women and children were brutally massacred while the city of Hue was in Communist hands. The Viet Cong and North Vietnamese consistently use terror and torture to intimidate South Vietnamese civilians into supporting Communism. Thousands of people fled from the north when the Communists first took power, in fear of their safety and their lives. The inhumane treatment of U.S. prisoners of war is obvious to almost everyone. If anyone is genuinely interested in marshalling public opinion against atrocities and attacks upon innocents, the best place to start is by publicizing the facts about the Communist record in Vietnam.

## With Some Reservation

**By INJUN WOODY**  
The top Repubs in Congress are biting their nails up to the elbows because they can see that Mr. Richard is losing the farm vote already. They say that if he don't do something dramatic to show interest in the Farm Belt he won't get any more action than a rusty manure spreader. . . . One GOP pro says that in South Dakota the Demos would sweep his state if the elections came off today because the Bite House and that Secy. of Agriculture Hardin are saying nothing about the farmer's problems. . . . Well, a survey of the farm vote in 48 farm counties in seven states by the Nat'l Education Institute found that the total votes for Repub congressional candidates had declined by an average of 12 per centage points between 1966 and 1970.

## Quick Quiz

Q—Under what conditions will sound not travel?  
A—Sound will not travel if there is no substance, as in a vacuum.  
Q—Which Christian church leads in world membership?  
A—The Roman Catholic Church. It has about 585 million followers.  
Q—Why is Canada's most famous thoroughbred race called "The Queen's Plate"?  
A—The race is identified as a plate race because of the 17th-century English tradition of awarding plates. However, the trophy now is a gold cup.  
Q—Do drums generally have a definite pitch?  
A—Most drums are said to have indefinite pitch. The timpani kettledrums are the only drums that can be tuned to a definite pitch.

## Go Ahead Talking

## Restoring Ailing Railroads To Health World Problem

**By BRUCE BLOSSAT**  
WASHINGTON (NEA)—It is reliably estimated that roughly a score of the nation's "Class One" railroads are either broke or nearly broke. Most of the distressed lines are in the East and Middle West. Rail men and a lot of more detached transportation experts say these roads need a huge infusion of federal money soon if they are to survive. Should they get it? The federal government already is besieged with demands for immense new sums to be spent on the cities, the schools, health care, food for the poor, more benefits for the aged. A crumbling rail system may seem a doubtful candidate in this competition. Yet the fact is clear that this system still plays a vital role in the economy which must support the many costly social improvements called for today. About 40 per cent of all U.S. freight shipments move by rail, including bulk cargoes movable no other way at reasonable charge. A public which is reading of alleged mismanagement in such large rail complexes as Penn Central may not be too sympathetic to the rail lines' pleas for government help. Though no publicized polls disclose their attitudes, they just might prefer nationalization of the rails. But there are grave misgivings about this course, too. At a big three-panel seminar on transportation prospects which was sponsored by Columbia University's American Assembly, some 60 transportation specialists decided nationalization "would be unwise." A panel overseer, Ernest W. Williams, Jr., professor of transportation at Columbia, questions whether government take-over would necessarily solve or even ease the railroad's difficulties. Writing in the Columbia Journal of World Business, Williams says: "...railroads traditionally developed as public enterprises, as in Germany and Japan, have shown no more success in meeting modern conditions than those that have more recently been nationalized. "Government ownership does not necessarily lead to the discontinuance of uneconomic passenger services nor the abandonment of unproductive lines. It does not make the rationalization of pricing policies any easier. . . . Williams contends that praise heaped on fast, efficient rail service in Japan and some European countries ignores such key differences as these — our larger distances, our more fully developed competitive highway network, our far higher per-person use of automobiles. Caught between our monumental growth in truck and motor car traffic and the vastly expanded (though presently slowed) reliance on air travel, American railroads

## Your Health

**By Dr. Lawrence Lamb**  
Yellow Skin May Be Jaundice  
Dear Dr. Lamb—My skin has a yellowish color. It seems to me that this yellowish color is produced by the body. Is there anything one can do to change this color by taking something internally or by surgery? Also, what is the cost of plastic surgery on the nose?  
Dear Reader—Take a good look at the whites of your eyes and see if they have a yellowish tint, too. If they do, you may have jaundice. The yellow pigment of jaundice can occur from the hemoglobin pigment in the blood cells if too many red blood cells are being destroyed. It can also occur with certain other forms of anemia and a variety of liver disorders. Certain medicines can also cause yellowish discoloration of the skin. If the whites of the eyes are not yellow, I still think you should go see a physician just to be certain that you don't have a medical condition causing the change in skin color that you are concerned about. There are so many different things that can cause yellowish discoloration of the skin that it is pointless to discuss treatment unless the cause of the problem is known — and that will require a good medical examination. Concerning a nose job — that depends on the surgeon. If you are referring to a doctor's fee, I think you should think in terms of several hundred dollars and maybe even as much as a thousand dollars, depending on the doctor. In addition to this, you can add the cost of hospitalization. It isn't cheap, but it there is a significant problem it is probably worth it. Everyone has enough handicaps in life that cannot be corrected; so, if at all possible, there is no point in going through life with a handicap that can be eliminated. Dear Dr. Lamb — Is it possible for a pregnant mother to hear her baby cry before it is born? My granddaughter says she heard the baby cry in her womb. Dear Reader—Not likely. Crying requires use of the lungs and respiration. Air must be forced out through the voice box. The baby does not use his lungs for breathing until after birth. The anxiously-awaited first cry signals that the baby is breathing. The lungs are collapsed prior to delivery and circulation to the baby is carried out through the placenta, the organ where the circulations of the baby and the mother meet for the transfer of oxygen, food and elimination of wastes. Literally, the mother's breathing provides the oxygen for the baby since the baby does not breathe or have access to air.

## Question Box

**QUESTION:** "Why is ownership of property a natural right?"  
**ANSWER:** Because life itself is property. Freedom Newspapers and its late president, R. C. Hoiles, long have accepted the definition of property originated by Andrew J. Galambos and taught in his courses, which states that property is an individual's life and all non-procreative derivatives of that life. The individual's life is his primordial property; and the tangible goods he produces or acquires by gift or honest exchange are his secondary property. The cattle men raise and the wheat they grow for food is property. Man cannot survive without food. Therefore man cannot survive without property. (Since on of nature's first laws for all living creatures is to survive, it follows that man, to survive, has a natural right to take moral action to produce and increase his property, both primary and secondary. This precise definition of property has not been available in man's past history, and lack of such a definition there has been a great deal of confused thinking about property and men's rights to property, and therefore those rights have often been violated. For most of man's history it was not even recognized that man had the right to his own life, and slavery existed in every part of the world. As men's thinking about that changed, slavery became obsolete in most of the world. A clear understanding of what property is and how it derives from the lives of individuals enables us to respect each other's rights to property — primordial, primary and secondary.

**Inside Washington**  
N. Korea Busy Meddling For Red Bloc Provocateurs  
John Goldsmith  
Robert Allen

WASHINGTON — With Red China pursuing its ping-pong diplomacy and Russia presently committed to a line of sweet reason, North Korea is taking over as dirty-trick dispenser for the Communist world. That is not to say that a monolithic world Communism has consciously assigned this role to the Kim Il Sun regime. It is rather to suggest that North Korea is ready for all illicit adventures on request — with or without the sanction of either Moscow or Peking. In Latin America, in Europe and in the Far East the not-so-fine hand of North Korea has recently been very visible, meddling illegally in the affairs of other nations. Late last month we reported that an inept collaboration by North Korea and Russia was involved in the attempt to stir unrest in Mexico with Communist-trained student guerrillas. The guerrillas, rounded up by Mexican authorities, had been given their insurgency training in North Korea. More recently automobiles bearing diplomatic license tags assigned to North Korea have been playing a game of Rumanian wild-west in the streets of Bucharest. In one hard-riding incident, the North Korean cars tried to stop a U.S. embassy auto, apparently to seize a diplomatic pouch. A few days later the same North Korean cars were involved in what seemed to be an attempt to abduct the Belgian ambassador. It is assumed here that the two clumsy and unsuccessful attempts at diplomatic crime-in-the-streets were undertaken by the North Koreans on behalf of some other Communist power. NOW CEYLON—Now North Korea is implicated in the events which have led to an ultra-left revolution in Ceylon. North Korean representatives in Colombo have been sent home by Mrs. Sirimavo Bandaranaike, Ceylon's leftist prime minister. In diplomatic circles here it is reported that the ejected North Korean diplomats had provided explosives, early in the Ceylon uprising, to the so-called Che Guevaristas who are the center of the insurgency. There are reports from Ceylon that the North Koreans also gave other assistance to the insurgents. In addition, it is noted here that Rohana Wijesera, the young

## Two Faces Of Congress

**By PAUL HARVEY**  
You want to know why some teed-off blacks spit on the "Establishment"? I'm going to tell you. I'm on a campus somewhere every week, sometimes two and three times a week. Not once during all this frightful ferment of recent years have I been picketed or demonstrated against or even interrupted. Presidents and Cabinet members and senators and congressmen have been shouted down and shooed off the stage — even threatened with bodily harm. Not once have I. So if I might presume from this experience to suggest why: Not once have I equivocated. I see some looking-for-trouble file into the hall, usually significantly, they park themselves in the left balcony and sprawl with their sometimes bare feet on the railing and arms folded smugly, even menacingly, waiting for Paul Harvey to try to mollify, placate, win them over. That's the politician's pitch which they have come to despise: tailor the speech to fit the audience. But they get neither more nor less than what they've heard or read in these columns. And when they begin to realize that you're not going to be intimidated; that you're going to tell them to their faces what you've been saying every day for 30 years; that blacks should stop feeling sorry for themselves, that dropouts from society are more cowards than crusaders — pretty soon their feet are on the floor and they're sitting up listening. Half way through they are joining in any audience response. And almost always at the end, praise-God, they're on their feet. They are not converted. They are not necessarily applauding what you said. They're applauding somebody whose convictions are consistent. Now we come to the Congress of the United States. I have such an old-fashioned American reverence for our system that no member of Congress ever asks my office for any proper co-operation without getting it. But sometimes those guys can be so patently hypocritical that you want to grab them by the lapels. I do not approve school busing, whatever the Supreme Court says. It's the law until it's changed and I'll obey it, but I won't like it. And the worst part of it is that it is enforced only south of the Mason-Dixie line. In my home-base city of Chicago we have out-and-out segregation, all-black schools, all-white schools. The High and Mighty Supreme Court has assumed that it's not purposeful segregation in the North; it's accidental. Ha! And when Abe Ribicoff tried to get the Senate to require all schools to integrate, South and North, they voted 51 to 35 against. And the same so-called "liberals" who are all for schooling blacks and whites together, whatever the inconvenience in Dixie, haven't the guts to force that kind of nonsense on their own home folks. So segregated schools continue to get their federal aid if they are in the North. And the people those double-dealing senators think they're fooling are not fools.
