### IF UNREST CONTINUES

## Russ Threaten Poland Invasion

VIENNA (UPI)—The Soviet Union is ready to invoke the "Brezhnev doctrine" and invade Poland if the current labor unrest there grows into new riots, East European sources said today.

The sources said any invasion would be justified on grounds—that the Soviets take very seriously—that more violence would threaten the Communist system in Poland. They said the Soviets feel they cannot afford this risk in any Communist nation, let alone Poland with its strategic position between Germany and the Soviet Union.

The "Brezhnev doctrine" enunciated by Soviet party leader Leonid I. Brezhnev, states that a threat to communism in one country is a threat to all Communist countries, and therefore demands military intervention in the "threatened" nation. It was this "doctrine" that was used to justify the 1968 invasion of Czechoslovakia.

The continuing strikes in the Polish Baltic port cities of Gdansk and Szczecin have come as a shock to the Kremlin, which assumed that the situation would be quieted by the ouster of former party leader Wladyslaw Gomulka after last month's riots.

The sources said the Soviets know that economic and political problems are so closely linked that further strikes could lead to more violence which could, in turn, lead to the toppling of the new party leader, Edward Gierek.

## Savage Storm Whipping Northeast While Arctic Cold Hitting Midwest

By United Press International

The New York Weather Bureau Tuesday night was advising of "an intense winter storm... lashing the northeast with wind and snow."

Bert Weiner, a weatherman coming in to work the midnight shift said the wind—which was gusting up to 70 miles an hour—sent a steel plate hurtling down from a construction site. The plate just missed him, leaving a large dent where it struck the pavement.

The savage storm continued over most of the northeast, while Arctic cold stabbed into the Midwest and East.

The most severe weather was reported along the southern shores of the Eastern Great Lakes, where Arctic air produced heavy snow and squalls as it combined with wind gusts up to 50 miles an hour.

Four deaths were blamed on the storm in Michigan.

The National Weather Service issued a special wind-chill warning for Chicagoans as the wind-chill factor reached 40 below zero at midnight this morning.

In Pittsburgh, temperatures plummeted within a 12-hour period from a balmy 44 degrees to near zero. The cold, gusty winds and smog produced one of the worst storms to hit the area in seven years.

Adverse weather and intense cold warnings were in effect from Arkansas and Southern Illinois eastward to the Appalachians, and south over Alabama and Northwestern Florida.

Winds gusting to 70 miles an hour swept through New York's metropolitan area late Tuesday, carrying snow sleet and rain. Several intersections were closed because of falling debris from buildings under construction.

A power blackout hit 2,000 Consolidated Edison customers in Brooklyn late Tuesday until power was restored early today. A company spokesman said the blackout was caused by high winds.

Washington state experienced unseasonably warm weather, which mixed with heavy rain and melting snow to create the worst flooding in low-lying western counties since 1937.

The high country in the Cascade Mountains was equally unsafe, as the warm spell touched off new snow and earth slides that virtually halted east-west traffic.

The Red Cross Tuesday declared the Chehalis-Centralia area in Southwestern Washington a disaster area because of flooding. More than 9,000 sandbags were used in the twin cities to protect business and residences from flooding.

Temperatures early today ranged from 20 below zero at International Falls, Minn., to 67 at Key West, Fla.

# State Legislators Debating Speaker's Part In Scandal

OATH OF OFFICE — Mrs. Mary Hess Dwyer, center, received the oath of office, officially declaring her the post of County Commissioner, Precinct 4, from County Judge Don Cain, right. Wanda Carter, left, County Clerk, recorded the appointment which gives Gray County a woman commissioner for the first time since its establishment in 1912. (Staff Photo)

## First Woman Commissioner Appointed In Gray County

By ALETHA DAVIS  
Staff Writer

The first woman commissioner in Gray County was sworn into office this morning by County Judge Don Cain during a ceremony at Gray County Court House.

Mary Hess Dwyer, widow of the elected Precinct 4 Commissioner the late John E. Dwyer, McLean, was appointed to fill the term of her husband who died suddenly Jan. 21 after serving only 21 days.

Judge Cain appointed the new commissioner following an executive meeting of the Commissioners Court yesterday. Another conference with Democratic Chairman Harold Comer and a meeting with Committeewoman Ruth Osborne, 31st District, preceded the announcement.

Under Texas statutes, the county judge is delegated to appoint commissioners when circumstances prevent an elected official from serving a full term of office.

Judge Cain stated that the commissioners, chairman, and committeewoman were consulted as well as several voters in Precinct 4 before the appointment of Mrs. Dwyer was confirmed.

In making the announcement, Judge Cain said, "On January twenty-first Gray County and Precinct 4 lost an able public servant.

Today I have appointed his wife, Mary Hess Dwyer, to serve in his place until the general election in 1972."

Mrs. Dwyer attended McLean schools and is a graduate of Stephens College, Columbia, Mo.

She is the mother of three children, Nelson, a student at Texas Tech; Ray, a student in Clarendon College and Rose Helen, a student of McLean Junior High.

Mrs. Dwyer will meet with other commissioners in a scheduled session at 10 a.m. Monday.

## Apollo 14 Crew Is Practicing For Unexpected

By AL ROSSITER Jr.  
UPI Space Writer

CAPE KENNEDY (UPI)—Apollo 14's astronauts devoted much of today to practicing for the unexpected—the sudden failure that Apollo 13 showed can turn a routine flight into a nightmare.

Alan B. Shepard, Stuart A. Roosa and Edgar D. Mitchell are considered the best-trained moon pilots the United States has ever fielded. But they are expected to continue practicing, reviewing and studying right up to Sunday's blastoff.

The countdown was proceeding smoothly toward the start of the nine-day mission. The astronauts prime objective is to land in a lunar valley and sample car-sized boulders that may date back to the birth of the solar system.

Shepard, Roosa and Mitchell are confident things will go well. But to be prepared for whatever might happen, they scheduled drills today on malfunction procedures in moonship trainers that can simulate with the help of computers virtually every imaginable kind of systems failure.

The spacecraft simulators are the key to an astronaut's expertise. Once he has been confronted with as many as 1,000 different types of problems in the trainer, he can better cope with the real thing in space.

The oxygen tank explosion in Apollo 13's command ship in April showed such training pays off. James A. Lovell, John L. Swigert and Fred W. Haise knew what to do, when to do it and how to do it to overcome the odds and get safely back to earth.

"I think I really showed what capability we have here in NASA to handle a situation and to recover from it," Lovell said in an interview.

## Critics Hoping Move Will Lead To His Ouster

AUSTIN (UPI)—A resolution which will either solidify the position of House Speaker Gus F. Mutscher or perhaps cripple his political career beyond repair comes up for consideration today by legislators concerned with Mutscher's part in a stock scandal.

Mutscher's critics, outraged the speaker's name is linked to two firms named in a stock fraud suit filed by the U. S. Securities and Exchange Commission, hope the move will lead to his ouster. The speaker's supporters hope it will provide Mutscher with a strong vote of confidence.

But virtually all legislators hope debate on the resolution, sponsored by Rep. Curtis Graves, D-Houston, will help remove the suspicion held by much of the electorate that the entire legislature is at fault in the scandal. Once this is done, the legislators believe they can proceed with the work at hand.

Mutscher is one of four state officials who made quick profits by investing loans from Sharpstown State Bank in stock of National Bankers Life Insurance Company. Both those firms are named in the SEC suit and both have now been taken over by state regulatory agencies.

Graves' resolution requires Mutscher to appoint an acting speaker until the stock fraud case is settled, and also requires Rep. W. S. Healy, D-Paducah, and Rep. Tommy Shannon, D-Fort Worth, to step down as chairmen of the Appropriations and House Administration committees.

Healy and Shannon, along with Gov. Preston Smith, are also among those who made sizeable profits on their short term investments in National Bankers Life stocks.

The resolution by Graves was one of several moves which surfaced Tuesday as lawmakers embarked on "image polishing" efforts in the wake of the stock scandals.

Nineteen other legislators—led by Rep. Frances Parenthold D-Corpus Christi—began mailing letters to all state officials asking them to join the 19 in filing statements of financial disclosure by April 20. Those state-

## Some U.S. Personnel May Be Dispatched To Phnom Penh

WASHINGTON (UPI)—Despite a congressional ban on sending U.S. advisers or ground combat troops to Cambodia, the Nixon administration now acknowledges some types of military personnel soon may be dispatched to that nation.

In the first instance, military equipment delivery teams will be sent from Saigon to Cambodia to turn over various types of weapons to the Cambodians.

Defense Department Press Officer Jerry Friedheim outlined for newsmen Tuesday the functions of the delivery teams and said they might also make sure Cambodian forces know how to operate the equipment they are receiving.

Military specialists, however, insisted that this role was not that of an "adviser." In the strict definition of that term, an adviser actually accompanies local troops into combat and might become involved directly in hostilities, they said.

Secretary of State William P. Rogers is expected to explain U.S. policy in Cambodia in greater detail when he appears before the Senate Foreign Relations Committee Thursday.

Meanwhile, White House Press Secretary Ronald L. Ziegler repeated that adminis-

## Egypt, Jordan Criticize Slow Pace Of Talks

By United Press International

Jordan has joined Egypt in criticizing the slow pace of the Middle East talks and is calling for a buildup of military power as a precaution in case the discussions break down.

"The talks of Ambassador (Gunnar V.) Jarring are going in a vicious circle," Jordanian Prime Minister Wasfi Tel told an Amman club Tuesday night.

Israeli Ambassador Yosef Tekoah was to meet with mediator Jarring in New York today but would not say whether he would deliver Israel's reaction to Egyptian proposals, that included a suggestion for a United Nations force to supervise any peace agreement.

Tekoah met Tuesday with Secretary General Thant, apparently to discuss Egyptian charges that Israel violated the cease-fire twice last week by flying over Egyptian territory.

## State Insurance Examiners Checking Property Of National Bankers Life

DALLAS (UPI)—State insurance examiners are checking the assets of the National Bankers Life Insurance Company and are promising the company's policyholders they will be protected against losses.

The examiners are hoping to put the company back on its feet. But if that proves risky, the state insurance commissioner has promised to do whatever needed to salvage the policies.

Frank W. Sharp, the owner of the company is accused by the U. S. Securities and Exchange Commission of artificially inflating the company's stock so Gov. Preston Smith and a number of other top state officials could sell their shares at a huge profit.

Sharp also owned the bank which loaned the officials the money to purchase the stock.

The insurance company was placed under state conservatorship Monday.

"All our efforts now are slanted toward the policyholders to make sure they sustain no financial loss," said examiner R. F. Westbrook.

Westbrook said Tuesday insurance laws protect the policyholders by freezing a company's assets after it is placed in conservatorship. The officials then try to reinsure the insurance certificates held by the firm if it is found to be insolvent.

"We are checking to see just which assets they now have which are valid for policy reserve requirements," Westbrook said. "It's possible for a company to go through all its capital and surplus yet still have enough assets to cover the policies."

"If the company has assets that are acceptable as policy reserves and they are not pledged, some other insurance company will be able to take up the policy," another examiner said.

The company has 135,000 accident and health policyholders, and 28,000 life insurance certificate holders in 31 states.

Westbrook said the company is operating as usual and still paying on its policies.

"They will continue to do so during our examination," he said.

## Mutscher Said To Have Helped Key Defendant Get Bill Passed

DALLAS (UPI)—House Speaker Gus F. Mutscher helped a defendant in a stock fraud lawsuit push a controversial banking bill through the Texas Legislature in 1969, according to testimony in federal court.

Mormon will arrive in Pampa tomorrow forenoon and meet with various city department heads at 1 p.m. in the City Commission Room at City Hall.

City Manager Mack Wofford said purpose of the meeting will be to learn what can be done to update Pampa's retirement system for city workers and to explore avenues of approach to determine what the city is able to do financially in that respect.

It is expected department heads meeting with Mormon will study his report and later make recommendations to the City Commission.

Under the current retirement system, in effect since October of 1960, Pampa city employees contribute 5 per cent of their first \$6,000 salary. The amount is matched by the city.

The city manager says Pampa now has ten employees receiving retirement funds. The amount paid to them is based on number of years of service and total income.

W. Sharp of Houston, Sharp's associate Joseph P. Novotny corroborated Osorio's testimony.

"Mr. Osorio and Mr. Mutscher were working on the bill together," Novotny said.

Novotny said further Sharp was upset because Smith took the profit from National Bankers Life but then vetoed the bill.

The SEC said Smith got the money to buy National Bankers Life stock from Sharp's Sharpstown State Bank of Houston. Smith and Mutscher are not among the 13 persons and 15 firms listed as defendants in the SEC suit.

In other developments Tuesday, a conflict turned up between affidavits filed in the case. Government records list J. Quincy Adams, a defendant, as Smith's broker in the stock deal. Smith denies it.

"I do not know him. I have never met him," Smith said of Adams, vice president of Ling and Company of Dallas, another defendant. Smith made his statement to SEC investigators Dec. 18 but he refused to make a sworn statement.

A data processing card used to record the stock transaction names Adams as the governor's broker.

FOR STOCK FRAUD

Stockholders File Damage Suit Against National Bankers Life

DALLAS (UPI)—Stockholders in the National Bankers Life Insurance (NBL) Co., the stock which was allegedly manipulated to produce large profits for various legislators and Gov. Pres. on Smith Tuesday filed a \$12 million dollar damage suit against the company.

The suit charges NBL and 26 other defendants with causing the price of NBL stock to drop radically by allowing the alleged stock fraud to occur.

The suit was assigned to U.S. District Judge Sarah T. Hughes, who also is handling the initial suit which brought the stock fraud case into the open. The Securities and Exchange Commission (SEC) in that suit Jan. 15 charged the 27 defendants with stock manipulation.

Frank W. Sharp, a Houston financier, owns National Bankers Life and the Sharpstown State Bank of Houston which provided loans with which the legislators and Smith purchased the stock.

State insurance examiners have begun an examination of the company to try to put it back on its feet or, if that proves too risky, to protect each policyholder.

The latest suit filed by Richard A. Twedell of Dallas, international vice president of the Amalgamated Meat Cutters Union (AFL-CIO), said "a great number" of persons who owned NBL stock have been financially hurt by the stock fraud case.

Defendants further attempted to mislead the public through a scheme involving known political figures in Texas whereby records would stand to gain.

Monday Deadline For W-2 Forms

Next Monday will be the deadline for employers to give employees their 1970 W-2 income tax withholding forms, according to Internal Revenue Service officials.

The form, showing earnings for the year, income tax withheld and Social Security information, must be filed by the employer with his income tax return.

The deadline was set to give employees time to prepare and file their returns, IRS officials said.

from certain legislation dealing with deposit insurance applicable to state banks," the suit says. Twedell said he relied on the "honesty, integrity and fair dealing of defendants to disclose to him all pertinent information" about the price of NBL stock. The price of the stock was \$11.25 on Feb. 26, 1969, when Twedell bought it, and has now dropped to \$2.50.

Sworn affidavits in the SEC suit indicate Smith and State Democratic Chairman Dr. Elmer Baum made \$62,500 each in 90 days on the stock, and other profits went to House Speaker Gus F. Mutscher, Rep. Tommy Shannon, D-Fort Worth, and several legislative aides. The state examination into the NBL records began Monday when the company was placed under conservatorship.

Bank Examiners Asked To Resign For Getting Loans From Sharpstown

AUSTIN (UPI)—Three state bank examiners were asked to resign because they received personal loans through an officer of the scandal-ridden Sharpstown State Bank.

Deputy Banking Commission Chester A. Baker said Tuesday it is a violation of state law for a banking examiner to borrow directly from a state bank. But Baker said the three fired examiners did not break the law.

The individuals involved understood that they were borrowing from a company—not the state bank—which got its money from a national bank. Baker said "But that wasn't the way it turned out."

Baker said the men did not know the money for the loans came from the Sharpstown State Bank. "But we felt that this was irregular, so we asked for their resignations," Baker said.

The examiners, who were dismissed in November, were not identified. Banking Commissioner Robert E. Stewart asked for their resignations when he learned about the loans. Baker said the loans were for "just a few thousand dollars, certainly nothing as high as \$10,000, for instance."

He said the loans were made through "an officer of the Sharpstown State Bank" who

no longer works for the bank. "We asked them to resign because we certainly feel that there should not be a close relationship with an officer of a state bank and an examiner," Baker said.

"Also, we felt that way due to the fact that there was a relationship between that officer and the bank he worked for even if the money did not come from the state bank—which it ultimately did."

Pythians Host Lodge Dinner

Pampa Lodge No. 460, Knights of Pythias, was host to some 45 members and guests last night at a covered dish dinner in the Pythian Hall.

Knight Carl Sexton, along with Bob Hollowell, Bedford Cox, and Ernie Kile, presented a musical program. Gary Clark was master of ceremonies.

Jack Back gave the invocation. Ray Barnard was in charge of the program and G. R. Fugate headed the food committee. Local guests were Mrs. Elna McCray and Mrs. Pearl Ferguson. Mr. and Mrs. A. L. Anderson and M. A. Palmer were present from Amarillo.

Pampans Will Attend Game Honor Matson

Pampa area fans are invited to attend the basketball game between West Texas State and Weber State next Monday night at the Amarillo Civic Center, where Pampa's Randy Matson will receive his "World Athlete Of The Year" award.

A special section has been set aside for Pampans who will attend the game. Area fans, when purchasing tickets, should ask for seats in the Pampa section.

A group from the Top O' Texans Club plans to attend the game, according to Jimmie McCune, club president.

Police Looking For Lock Thief

Pampa High School Athletic Director Swede Lee advised Pampa Police yesterday that someone had removed one dozen padlocks from gates and doors to Harvester Stadium and the field house.

The brass locks are valued at \$72 and were pried or sawed from the posts and doors, police said. Police are investigating reports of a witness who saw two men in coveralls in the area around 1 p.m. yesterday.

No arrests had been made this morning.

Thursdays Special Luncheon - 11:30 a.m. Til 2 p.m. Old Fashioned Beef Stew

choice of Appetizer - Two Vegetables Coffee or Tea \$1.30

Group Organizes Social Meetings For Handicapped

The newly organized Busy Bee Club, a social and handicapped organization for handicapped persons, will meet at 1:30 p.m. Thursday at the Pioneer Natural Gas Co. Building.

Ronnel Cartus, of Amarillo, member of the State Commission for the Blind, will present a program. Purpose of the organization is to offer Pampa area handicapped persons social opportunities and workshop and craft programs.

The organization is formed for persons of any age group and any handicap. Members plan to develop craft work which they can sell to invest into handicraft material. The group meets each second and fourth Thursday from 1:30 to 3:30 p.m.

Over 8,000 Voters Registered For '71-'72 Elections

Over 8,000 Gray-County voters have registered for ballot privileges in 1971-1972 elections, according to the assessor-collector, Jack Back.

Back stated that an unusually high voter registration response has been recorded in his office for off-year elections. The registration deadline is Jan. 31, however, Back reminds voters that the 5 p.m. closing time Friday is the actual deadline since Jan. 31 is on Sunday and county offices are closed Saturday.

27th Birthday In Jail

SAN RAFAEL, Calif. (UPI)—Angela Davis spent her 27th birthday Tuesday in the Marin County Jail cell where she awaits trial on charges of furnishing the guns used in a shootout that left four dead.

Marin Sheriff's Capt. Harvey Teague said the former UCLA teacher was not permitted a birthday cake Tuesday nor was she permitted to receive 26 red roses mailed to her.

One of her lawyers said the flowers were sent from Italy with a card signed "The People of Italy."

SHADES OF THE WILD WEST. In Wisconsin, land of the docile dairy cow, farm manager Gay Johnsrud of Monroe has begun branding his cattle because, he says, "There's rustlers around." Johnsrud's "CS" brand (for Cold Springs Farm) is applied with a hot electric iron.

Two Wrecked Venezuelan Ships Are Towed Slowly Toward Texas Shore

GALVESTON, Tex. (UPI)—Two Venezuelan ships welded together at the bow and being towed slowly and carefully toward the Texas shore can be saved.

The two ships, loaded with tons of coffee, wheat and mail and carrying 73 persons, collided Monday in a dense fog 88 miles into the Gulf of Mexico. One crewman was killed, another injured.

One of the ships was bound for Houston, the other was leaving the port. Both ships took on water as four ocean-going tugs pulled them toward shore. They were expected to slowly steam across the calm Gulf waters all day today and arrive in Galveston Thursday afternoon. The tugs are pulling the ships at 3 miles an hour.

The 420-foot Roraima collided almost head-on with the 420-foot 382-foot Anzoategui. The bow of the Roraima rammed, three-fourths of the way through the Anzoategui. The Anzoategui was abandoned.

Bernd Sufferlan, a spokesman for the Roraima's agent in Galveston, said both ships could be saved. He said the Roraima was supporting the Anzoategui and keeping it from sinking. The Coast Guard said it would try to get the ships into shallow water and as close as it could to the shore and then try to separate them. The Coast Guard admitted this was a risky operation and could result in the loss of one of the ships.

L. Art Shires of the Coast Guard said rescue workers from the cutter Vaillant inspected both ships Tuesday.

Pampa Officials To Attend TML Meet In Amarillo

City Manager Mack Wofford will head a delegation of Pampa city officials to a quarterly meeting of Region 2 of the Texas Municipal League tomorrow in Amarillo.

Responsibilities of cities during the current session of the Texas Legislature will be discussed by TML members at the session which will begin with a social hour at 6:30 p.m. at the Howard Johnson Motor Lodge East. A dinner is scheduled for 7:30 p.m.

Canadian city officials will host the meeting and Canadian Mayor Jerry McBreath will give the welcome address. Dimmitt Mayor G.W. Bradford, president of the Region 2 TML which includes the Panhandle and South Plains from Plainview North, will preside at the business session.

James Mormon, assistant director of the Texas Municipal Retirement System who will be in Pampa for a meeting tomorrow, will be a guest of the Pampa delegation at the TML meeting.

WINS REDUCTION SMETHWICK, England (UPI)—Philip Kelly has won a tax reduction because he says more than 110 golf balls have showered his house from a nearby golf course since he moved in 16 months ago.

He told a tax panel Tuesday he and his wife needed to wear tin hats for protection. The panel reduced the taxable value of his house from \$151,200 to \$144.

FIRE KILLS 13 KLERKSDORP, South Africa (UPI)—An underground fire killed 13 African miners and injured 14 others Tuesday in the Zandpan Mine near here.

The fire started 6,600 feet below the surface when 4,000 miners were at work.

Survey Finished By C of C For Industry Search

A new Community Survey has been completed by the Chamber of Commerce and Industrial Foundation to be used in Pampa's continuous search for new industry.

The survey provides information on such items as: Distance from population centers, climate, population, manufacturing, utilities, community facilities, schools, local government, taxes, labor, agriculture and industrial development Aids.

The survey was completed this week and will be used by the local Chamber and Industrial Foundation as well as other groups in seeking new industry for the Pampa area.

The Industrial Development Department of Southwestern Public Service Co. worked with the local chamber in putting the information together. The data will also be used by Southwestern Public Service Co. in its industrial development program.

Meeting For Area Farmers Scheduled

An informative meeting of special interest to area farmers and ranchers is scheduled in the Show Barn meeting room at Pampa's Recreation Park at 7 p.m. Thursday, according to Foster Whaley, Gray County Agriculture agent.

Three speakers are scheduled, Whaley said, all talking on subjects of interest to agriculturists. Dr. Frank Petr, area agronomist, Amarillo, will speak on the production of wheat and milo.

Irrigation well development and related topics will be discussed by Leon New, Lubbock irrigation specialist. Dr. Alan Wiese, of the Bushland Experiment Station, will speak on the latest weed control practices in the Panhandle.

When were understood: 61 versus 23

# Test Shows Newspaper Ads More Effective, Cost Less

Newspapers, radio and television in Atlanta, Ga., met head-on in a test of their relative advertising effectiveness, and newspapers influenced more sales at less cost than both broadcast media combined according to test results released this month (January, 1971) by the Bureau of Advertising.

The test showed that newspapers deliver more than three times the efficiency per advertising dollar than do the broadcast media.

Participants in the test were Atlanta Newspapers, Inc., publisher of The Atlanta Journal and The Atlanta Constitution, and Cox Broadcasting Corp., owners of WSB-TV and WSB-Radio. The test involved a measurement of advertising response for ten items advertised by Rich's, Atlanta's largest department store.

Atlanta Newspapers, Inc., and Cox Broadcasting Corp., each participated with Rich's in the design of the project. Rich's employed the interviewing service and tabulated the findings from the study.

Based on the findings from 2,176 interviews with Rich's customers in the departments which sold the advertised items, The Atlanta Journal and Constitution claims:

The \$16,910 spent by Rich's to advertise the test items in The Atlanta Journal, The Atlanta Constitution and The Sunday Journal and Constitution produced 71 per cent of the advertising influence reported by shoppers who attributed their purchase decisions to advertising. The \$27,158 spent by Rich's in broadcast media produced 33 per cent of these influences. Another 9 per cent of the advertising influences were attributed to Rich's mail circulars.

When overlapping answers were eliminated, the score stood: 61 per cent newspapers versus 23 per cent broadcast.

A comparison between newspapers and television which together accounted for 90 per cent of all advertising influences, showed 62 per cent attributed exclusively to newspapers; 19 per cent exclusively to TV, and 9 per cent to both.

Newspapers and radio together accounted for 77 per cent of all advertising influences. Of these, 68 per cent were attributed exclusively to newspapers, six per cent to radio and three per cent to both.

The test newspaper ads totaled 1,969 inches, the equivalent of 11.6 full pages. They ran Sunday, Monday and Tuesday, Sept. 20-22, just prior to Rich's annual Harvest Sale. On the same three days, the store ran 438 30 second spot commercials — 177 on five television stations and 261 on five radio stations. This worked out to more than eight commercials for every hour of broadcast time (6 a.m. to 11 p.m.)... a truly saturation schedule.

The Atlanta Newspapers analysis further showed that newspaper outperformed broadcast media in influencing the purchase decisions of all types of customers. Overall, 55 per cent of the shoppers (some of whom named more than one medium) reported that their purchase decisions were influenced by advertising. Among women, newspapers were credited with 72 per cent of the influence as compared to 27 per cent for TV and eight per cent for radio; for men the figures were: newspapers, 65 per cent; TV, 27 per cent; and radio, 8 per cent.

Newspapers also showed their ability to influence young people. Among respondents under 35 years old, newspapers were credited with 64 per cent of the advertising influences as compared to 30 per cent for TV and 11 per cent for radio.

As a result, the Atlanta newspapers reported: Newspapers which received 33 per cent of the total budget for the test campaign developed 71 per cent of the advertising influence. By comparison, TV received 49 per cent of the budget but produced 25 per cent of the advertising influence and radio accounted for 12 per cent of the budget and nine per cent of the advertising influence.

The budgetary costs measured were for newspaper space and broadcast time; they did not include production of either the newspaper ads or the broadcast commercials.

Three out of four shoppers interviewed (74 per cent) recalled having seen or heard advertising messages for the test items. Of these, about eight out of ten (79 per cent) recalled newspaper ads; 53 per cent recalled broadcast commercials and 24 per cent, mail circulars.

Together, 96 per cent of all who reported having recalled the test advertising, mentioned either newspapers, broadcast or both. Of these, 43 per cent recalled only the newspaper ads; 17 per cent, only the broadcast and 36 per cent mentioned both.

Newspaper ads, television commercials or both were recalled by 93 per cent of all those who said they had been exposed to advertising. Of these, 47 per cent mentioned only newspapers, 14 per cent only television and 32 per cent recalled both.

Those recalling newspaper or radio came to 63 per cent of all who reported awareness of advertising. Of these, 67 per

**WELLS ARRESTED**  
LOS ANGELES (UPI) — Warren Wells, Oakland Raiders star wide receiver, was arrested following the Pro Bowl at Memorial Coliseum Sunday on a warrant from Alameda County.  
Wells, 28, who played in the game, was led handcuffed from the dressing room and booked at the Central Police Station for violation of probation, police said.

# Crazy World Of Washington

By ROY McGHEE  
WASHINGTON (UPI) — "Don't buy a single vote more than is necessary. I'll be damned if I'm going to pay for a landslide."

John F. Kennedy got a big laugh when he facetiously attributed this admonition to his father during his presidential campaign.

But the truth is no one knows how much the family spent in quest of the nation's highest office for Kennedy. Nor does the public know how much Nelson Rockefeller spent in his four campaigns for governor of New York and his three tries for the Republican presidential nomination; nor how much his brother Winthrop spent in four

election campaign reform bill that aims, for one thing, to reduce the edge huge private fortunes give candidates.

It would stipulate that a candidate for federal office—president, senator or congressman—could not spend more than \$25,000 of his own or his family's money in an election campaign.

The Pearson-Gravel legislation would limit the amount a candidate for national office could spend on all types of political advertising to 10 cents for each voter registered for the last previous election. That ceiling would apply both in primaries and general elections.

Other reforms proposed by

network prime time for presidential candidates, and possible government subsidies for campaign expenditures for federal office seekers.

LOS ANGELES (UPI) — Eddie Pace, former welterweight contender, was pronounced dead on arrival at Morningside Hospital Saturday after collapsing in the ring during a sparring session.

Pace, 30, once held the California welterweight title. An autopsy was scheduled. Police said he apparently died of natural causes.

Pace was working out against Gil King, the current state 147-pound titleholder, when he collapsed. He began his pro ring career in 1958.

He scored a decision over Curtis Cokes here in 1964 before Cokes became the world welterweight champion.

**SQUASH CHAMPION**... TORONTO (UPI) — Top-seeded professional Sharif Khan, representing the Dixie Squash Club in suburban Cooksville, Sunday won the 1971 North American Squash Singles championship 15-11, 15-9 and 15-10 over Australian Ken Binna, representing the Skyline Club of Toronto.

## Entrances To Phnom Penh Sealed Off To Keep Reds From Entering City

PHNOM PENH (UPI)—The city administration sealed off entrances to Phnom Penh Tuesday and deployed tanks to prevent Communist infiltrators from staging Tet holiday attacks. Two terror bombs exploded in the downtown area and there was new fighting just outside the capital.

Rumors, fueled by the reported discovery of Communist warning leaflets, persisted that Communist forces would strike Phnom Penh from the south and west Wednesday with supporting heavy weapons fire from the east in the area where the Mekong River forms a natural boundary.

Cease fires for Tet—the lunar new year—were in effect in South Vietnam but U.S. and South Vietnamese headquarters in Saigon reported casualties in at least five "incidents" breaking the first hours of the 96-hour "truce" proclaimed by the Viet Cong. It began 17 hours before a one-day allied cease-fire expiring at 6 p.m. Wednesday (5 a.m. EST Wednesday).

With Phnom Penh remaining under full alert to guard against a Communist Tet offensive of the kind launched in South Vietnam during the holiday three years ago, the U.S. Embassy here announced an increase in American military activity.

A communique said the number of U.S. military men authorized to visit Cambodian army units in the field to inspect the delivery of Ameri-

can war materiel would soon be increased from four to eight. The men are assigned to a "military equipment delivery team" supervising parts of the \$255 million U.S. military aid program in Cambodia which includes dispatch of weapons and ammunition.

President Nixon has ruled on the use of U.S. ground troops in Cambodia but air support is permitted under administration policy and Secretary of Defense Melvin R. Laird said last week this would be employed to whatever extent necessary to protect allied forces.

Sealing of Phnom Penh's city gateways was announced in circulars sent to government companies Tuesday morning.

The circulars said that people wishing to leave Phnom Penh would have no trouble but that anyone trying to enter would be stopped during a three-day period ending next Saturday.

Military headquarters here reported new fighting Tuesday evening between Communist and Cambodian units at Sray Lao about 16 miles northwest of Phnom Penh for the second time in 24 hours.

A charge of plastic and a grenade exploded in one of Phnom Penh's downtown Chinese quarters, and police said three persons, a man, his 3-year-old son and a pedicab driver were injured.

## Area Boat, Ski Club To Present Three-Day Show Beginning Jan. 29

This year the Panhandle Boat and Ski Club will present their 15th annual Amarillo boats, sports and travel show from the Amarillo civic center coliseum on Jan. 29, 30, and 31.

There will be hundreds of boats, campers, trailers, coaches and 4 wheel drive vehicles, along with displays of all the latest in motorized equipment for land and water.

Show hours are from 12 noon to 10 p.m. on each of the three days and will be filled with entertainment which includes The Texas Wildlife Exhibit, The Caprock Horn Kings and Nard Cazell and His Trampoline act.

Other attractions will include a great variety of display booths, door prizes and free gifts for the kiddies, as well as, free motion pictures.

Admission is just 50 cents for children under 12, 75 cents for the youngsters age 12-16 and students, \$1 for adults and the youngsters under 8 years of age will be admitted free during the three big snow days of Jan. 29, 30 and 31. For the 15th annual Amarillo boats, sports and travel show, sponsored by the Panhandle boat and ski club, between the hours of 12 noon to 10 at the Amarillo civic center coliseum.

## Nun Defies Judge's Order To Testify On Kidnap Case

HARRISBURG, Pa. (UPI)—A Roman Catholic nun appears determined to defy a judge's order to testify before a grand jury investigating an alleged plot to kidnap presidential adviser Henry A. Kissinger.

The grand jury reconvened after a 10-day recess while U.S. District Judge R. Dixon Herman considered arguments advanced by Sister Jogue Egan, 52. Herman ruled Monday she could testify under immunity from prosecution without violating her constitutional right against self-incrimination.

Her lawyer indicated she would fight the order, and risk a contempt citation.

The nun, named as a co-conspirator in the alleged plot, had refused to testify Jan. 14, to the same panel that indicted the Rev. Philip Berrigan and five other persons in the plot.

Her lawyer, Jack Levine of Philadelphia, said her testimony might lead government investigators to other incriminating evidence.

Levine said Monday he could not appeal the judge's order but he could appeal a contempt citation against her if she refuses to answer the grand jury's questions a second time.

Judge Herman announced the six persons indicted will be arraigned here Feb. 8. Berrigan will be brought from a federal prison in Danbury, Conn., where he is serving a six-year

term for burning draft records.

The others, free on bond, are the Rev. Neil R. McLaughlin, 35, and the Rev. Joseph Wenderoth, Catholic priests from Baltimore; former priest Anthony Scoblick, 30, of Baltimore; Egbal Ahmad, 40, of Chicago, a Pakistani scholar, and Sister Elizabeth Calister, 31, Tarrytown, N.Y.

They are charged with plotting to blow up the heating systems of government buildings in Washington and plotting to kidnap Kissinger.

## Television In Review

By RICK DU BROW  
HOLLYWOOD (UPI)—Notes to watch television by:  
The Headliners: Ryan O'Neal, formerly of video's "Peyton Place" and currently a tremendous hit in the motion picture "Love Story," stars in ABC-TV's "Movie of the Week" Feb. 9 in a tale of a fashion model whose romance with a playboy turns into a terrifying experience. Title of the tale is "Love Hate Love." It was written by famed mystery author Eric Ambler, and the producer is Joan Harrison, long associated with Alfred Hitchcock.

The Programs: Tape Jan. 17 Super Bowl football game, that bismal affair between the Baltimore Colts and Dallas Cowboys, was video's highest-rated sports presentation of all time. Dinah Shore, who has a morning series called "Dinah's Place" on NBC-TV, also will be in NBC radio with a Monday-through-Friday daytime program of the same name starting next week. Miss Shore's radio show will be another of NBC's "Emphasis" features, and she apparently will focus on women's topics.

The mystique of blues singer Janis Joplin—and its exploitation since her death at 27 last October— are examined on ABC-TV's "First Tuesday" next week. Same network offers, on Feb. 9, Mel Brooks' wonderfully zany movie, "The Producers," with Zero Mostel and Gene Wilder in a story of a once successful Broadway showman who sets out to stage a surefire flop for the financial advantages involved.

"Robert Young and the Family," an hour special starring the headliner of "Marcus Welby, M.D." as host and narrator of a satiric yet affectionate look at American marriage and togetherness in the 1970s, will be broadcast on CBS-TV March 10. Television's new two-hour production of "Jane Eyre," with George C. Scott, Susannah York and Jack Hawkins, is set for March 24 on NBC-TV.

Paul Newman stars and participates in "Once Upon a Wheel," an hour ABC-TV special which explores the excitement of automobile racing, and airs April 18. Also appearing in the program are Mario Andretti, Al Unser, Bobby Unser, Parnell Jones, James Garner, Kirk Douglas, Arte Johnson, Glenn Ford and Pancho Gonzalez. Jerry Lewis is roasted by the Friars Club on NBC-TV's "Kraft Music Hall" tonight, with Johnny Carson as roastermaster, and others on the dais including Milton Berle, Don Rickles and Alan King.

Rock Hudson is the latest movie star to take a plunge into video films. He begins work this week in a two-hour "World Premiere" offering for NBC-TV, "McMillan and Wife," a suspense-comedy about a police

NEW DELHI (UPI)—A cold wave sweeping across a 1,200 mile stretch from Bihar State in the northeast to Kashmir in the west has killed at least 140 persons, the Press Trust of India reported today. Heavy snowfall and blizzards were reported in the upper region of the Himalayas, where mountain peaks were covered with two feet of snow.

## House Appropriations Group Faces Long Meetings Preparing Budget

AUSTIN (UPI)—Rep. W. S. Healy says he plans to keep the House Appropriations Committee in session 70 hours a week for the next two weeks to finish hearings on the proposed \$7.5 billion state budget by early February.

By that time, Healy says, legislative leaders will have to "crystallize on this thing, and chart the course of action we are going to take."

The powerful House Appropriations Chairman from Paducah apparently refers to the lawmakers' choice to either go along with the Legislative Budget and adopting a supporting tax bill, or accept Gov. Preston Smith's proposal to cut the budget to \$3.3 billion and finance the bulk of the new

# Man Shoots And Kills His Wife, 4 Kids In Beds, Then Wounds Self

PHILADELPHIA (UPI)—A wealthy businessman whose firm was facing bankruptcy shot and killed his wife and four children in their beds Tuesday, then fatally wounded himself.

Edward W. Pruyn, 42, of suburban Glenside, also wounded another daughter, police said. She survived and told a neighbor of the tragedy.

"I'm all alone," the girl mumbled after she telephoned the neighbor and then walked to his house. "They're all dead. They're lying all around. Their eyes are half open and nobody's breathing."

Pruyn had filed a bankruptcy petition Jan. 18 for his half-bearing distributing firm, the Ed Pruyn Corp. of Glenside, according to a friend, Peter DeMaris.

DeMaris said Pruyn told him he had lost his business and his home and had dropped out of the North Hills Country Club, where he was known as a good amateur golfer.

Dr. John Hoffa, Montgomery County coroner, said Pruyn was found dead of a bullet wound of the chest in the hallway of the two-story home with a German-made pistol near his hand.

Hoffa said Pruyn's wife, Andrea, 38, was shot through the heart and his children, Nora, 2, and Andrew, 7 months, were fatally shot in the chests. The wounded daughter, Susan, 8, was taken to Abington Memorial Hospital with a bullet in her chest. Hospital spokesman said her condition was good.

Hoffa said Susan telephoned the neighbor's house shortly before 8 a.m. to tell of the shootings, then walked to the nearby house.

# Supreme Court Returns Test Case Of Federal Court On Civil Rights

WASHINGTON (UPI)—The Supreme Court today returned to a federal district court a test case dispute over whether it is a violation of the 1964 Civil Rights Act for an employer to refuse to hire women with pre-school children.

The case from Florida was the high court's first look at the law's ban on sex discrimination in employment. In a brief unsigned order, the court said the record as it now stands is insufficient to resolve the important issues presented.

The appeal was brought by Mrs. Ida Phillips, who was refused a job as an assembly-trainee in the Orlando, Fla., plant of the Martin Marietta Corp. The Justice Department came into the case in support of Mrs. Phillips.

Her attorneys argued that Martin Marietta discriminated against her because the firm hired men with pre-school children.

During arguments, an attorney for the company denied such a policy existed. The record in the case was skimpy because U.S. District Judge George C. Young of Orlando rejected Mrs. Phillips' complaint on legal grounds without full presentation of the facts. He was upheld by the 3rd U.S. Circuit Court of Appeals.

Today's opinion said the appeals court was wrong in reading the law as permitting one hiring policy for women and another for men with pre-school children.

But it said such conflicting family obligations could be the basis for an "occupational

qualification," necessary to the operation of the business.

## President Nixon Will Resubmit 40 Proposals To 92nd Congress

WASHINGTON (UPI)—President Nixon told the 92nd Congress today its first business was to clean up unfinished work of the 91st Congress and that he would resubmit shortly 40 proposals including a request for \$1.5 billion to ease problems of school desegregation.

He also renewed a request that Congress "consider an urgent item of unfinished business" his welfare reform program.

Many of the bills he said would be resubmitted deal with comparatively minor issues, but among them will be requests for increases in airline and highway user taxes that died like the school fund in the last session.

Nixon said in a special message to the House and Senate that the rundown of legislation he would propose on "the unfinished business of the 91st Congress" would be followed by several other messages dealing with major left-over issues.

Those, he said, will include separate statements on legislation dealing with draft reform; steps to move toward an all-volunteer army; strikes that cause national emergencies; social security increases and bail reform, and aid to education.

Nixon said he was proposing again emergency school aid to school systems under directives to desegregate because "cham-

ges needed to desegregate our schools—either through court order or voluntary action—place a heavy strain on local school systems, and the federal government should assist the

schools in this effort." "Although great progress has been made," he said, "the need for such aid remains. I urge the Congress to complete action at an early date."

## Area Youth Program On TB, Smoking, Air Pollution Set

An area youth program on tuberculosis, smoking and air pollution is scheduled February 20 at the Psychiatric Pavilion of Northwest Texas Hospital.

The program, sponsored by the Top of Texas Tuberculosis and Respiratory Disease Association, is planned for high school members of the TBRD Association.

Co-hosts will be the Sunray Breathing Crusaders and the Miami Junior TBRD Association.

The featured speaker will be Don Zapone of the association's Austin office. He will discuss "Air Pollution."

TB control needs in the Texas Panhandle will be discussed by a panel of Texas State Health Department speakers.

Tom Seay of Amarillo, president, said all students and adults of any age are invited to attend the session which begins at 10:30 a.m. and concludes at 3 p.m.

Seay said the Christmas seal contributions of 1970 dropped to \$18,730 as compared with \$26,019 in 1969.

A general business decline was blamed for the drop, a spokesman for the TBRD association said. The Christmas Seal funds finance the Top of Texas TBRD Association.

"Our work is extremely important to the general health picture of the Texas Panhandle," said Seay. "We are carrying on an area wide program not only against tuberculosis, but against such respiratory diseases as emphysema and against cigarette smoking among both adults and youngsters."

President Seay urged everyone who have not yet contributed to the Christmas Seal campaign to do so in order that the health programs throughout the Panhandle may be maintained.

## Best Communications Satellite To Be Launched At Cape Kennedy Tonight

CAPE KENNEDY (UPI)—A satellite seven times more powerful than the best now in service is set for launch tonight to kick off the busiest period of space activity here in almost two years.

The 1½-ton, \$13.5 million satellite is the first of a series of eight Intelsat 4s built for the Comst Corp. and its partner nations to greatly expand the globe-girding communications network.

It is scheduled for launch at 7:01 p.m. EST on a \$16 million Atlas-Centaur rocket. The satellite will be protected on its climb through the atmosphere by a nose fairing similar to one that failed to separate and fall off as planned in a 998 million orbiting observatory launching in November. The observatory was lost as a result.

A thorough investigation was made and as a result several changes have been made in the design and installation of the nose cone protecting the 17-foot

tall Intelsat 4 spacecraft. The cause of November's failure was not pinpointed, but engineers believe one of 16 \$1,500 latch assemblies malfunctioned.

Comsat has insured the Intelsat 4 series against launch failures in a complex, two-million deductible plan that would reimburse Comst \$6 million for a third and subsequent failure in eight launchings. The premium is \$900,000.

The Intelsat 4 launch will be followed Jan. 27 by the flight of a smaller communications satellite for the North Atlantic Treaty Organization (NATO) on a Delta rocket. Then, on Jan. 31, Apollo 14's three astronauts are scheduled to blast off for the moon.

## Russia's Venus 7 Lands On Venus And Send Data Back To Earth

MOSCOW (UPI)—The Soviet Venus 7 spacecraft landed safely on Venus last December 15 and survived tremendous heat and pressure to transmit scientific information from the surface of another planet back to earth for the first time, the official Tass news agency announced Tuesday.

Tass said the information relayed by the space probe which blasted off from Central Asia Aug. 17 for the 192 million mile flight confirmed what scientists have long believed: man could not survive on earth's nearest planetary neighbor.

The announcement of the historic first by the Soviets came just five days before the scheduled blastoff of the manned U.S. Apollo 14 for the moon.

Tass said Venus 7 radioed back that the temperature on Venus was in the neighborhood of 887 degrees Fahrenheit and

that the atmospheric pressure was 1,523 pounds per square inch, or about 90 times that on earth.

Most Western scientists had assumed the Soviet spacecraft had been destroyed by heat and pressure after parachuting into the Venutian atmosphere. But Tass said Venus 7 continued operating for 23 minutes after landing on the surface.

The government newspaper Izvestia said that a new model descent vehicle had been designed for Venus 7, capable of withstanding temperatures of up to 986 degrees F and atmospheric pressure up to 180 times that of earth. It said a newly-designed thermal parachute could withstand the same temperatures while the insulated descent module "guaranteed the functioning of the scientific instruments... directly on the surface of the planet..."

A Tass announcement on Dec. 15 had reported only that

Venus 7 transmitted information for 35 minutes as it parachuted through the thick Venutian atmosphere. In the absence of further information, it was generally believed the spacecraft had burned up or been crushed.

But the Tass announcement Tuesday said:

"The signals from the descending probe were received for another 23 minutes after landing. Here the volume of the signal was about 100 times weaker than during the descent and a special method made it possible to isolate this weak signal and decipher the information transmitted."

## Duplicate Bridge

By LILLIAN JORDAN  
Monday night eight tables played a Mitchell movement in the Coronado Inn. Winners were: North and South — Mr. and Mrs. Jim Philpott first; Jean Andrew and Gladys Forsha second; Mr. and Mrs. Jim Philpott third. East and West — Mr. and Mrs. W. L. Dobkins first; Fred Richmond and Warren Mayo second; Mr. and Mrs. Leslie Kaitce' third.

Warner and Jim Philpott first; Mabel Torvie and Louise Miller second; Jess O'Brien and Fred Richmond third. East and West — Grace Anisman and Warren Mayo first; Mr. and Mrs. Jim Nation second; Marguerite Ward and Bun Hill third.

Sunday afternoon a Howell movement played in the Coronado Inn. Winners were: Fern Root and Lillian Jordan first; Mr. and Mrs. Jim Philpott second; Aline Mundy and Jessie Mayo third.

The Pampa-Borger Unit will host a Champagne Bridge honoring Life Master Marguerite Philpott on Sunday afternoon, February 7 at 1:30 p.m. in the Coronado Inn. All bridge players are invited to attend this game. The certified non-playing Director will be Lola Roach.

Certified Directors for January appointed are: Monday night — Gladys Forsha, Thursday morning — Jess O'Brien Friday afternoon — Gladys Forsha; Saturday night — Jessie Mayo, and Sunday afternoon — Fern Root.

McLean Duplicate Club announces a Special Open Pairs Game with trophies on Friday evening, January 29, and Amarillo Bridge Club will hold an annual Membership Game on this same date in the Amarillo Bridge House.

The January index, which will come out late in February, probably will be a little over 119 compared to the 137.8 reported for November.

Don't celebrate. It's a matter of numbers. Prices are still going up.

The government, as it does every 10 years or so, is updating the base for its closely-watched business statistics. Most economic indicators now are based on a 1957-59 average. The new base will be 1967.

The November consumer price index meant it cost \$13.78 during the month to buy the same variety of goods and services that could have been obtained for \$11.63 in 1967 and \$10 in the period from 1957 to 1959.

Costs More Now  
When the November index is recomputed to show the 1967 base, the figure is 118.5, meaning it costs \$11.85 to buy the same goods that cost \$10 in 1967.

Other key government reports will also be revised to show the new base.

The Federal Reserve's industrial production index will switch to the new base in March or April. This index, which measures the output of the nation's factories and mines, was 163.9 in December. If recomputed to show the 1967 base, it would drop to 163.7.

The wholesale price index, 117.8 in December, will be 111.0 on the new scale.

Government statisticians say the change is intended to keep the figures up to date. The base traditionally is revised every 10 years or so. This time, the government is abandoning its previous practice of using a three-year period as the base. The new base will be for a single year.

Previous changes in base periods often were greeted by complaints that they were a cosmetic job intended to mask the effects of inflation. Critics argue that 118.5 seems like less inflation than 137.8.

Concerns About Index  
Most individuals, however, are more concerned with changes in the index than the actual number. A 0.5 per cent monthly increase is a 0.5 per cent monthly increase regardless of the base.

A closer look at the figures tells something about the course of the economy since the mid-1960s.

Consumer prices rose by 16.3 per cent in the more than eight years from the 1957-59 base until 1967. The increase was 18.5 per cent in less than three years from 1967 to November 1970.

**Local Knights Of Columbus Conduct Admission Degree For Candidates**

Officers of Frank Keim Council 2767, with Joe Dickey, Grand Knight presiding, exemplified the Admission Degree for five candidates at 8 p.m. Monday evening in Columbus Club Hall in honor of His Holiness Pope Paul.

The Admission Degree is the first step toward attaining Knighthood in the Order and these men will proceed to the Formation and Knighthood Degrees in the near future. Initiated into the Council were

Melvin O. Parent, Frank J. Sokolosky, John E. McAndrews, Robert H. Wagner and Norman D. Flue.

To further increase the membership, A.D. Pickett, T.L. Marchak and E.J. Simon of Pampa and Martin Hermsmeyer of Groom have been granted transfers to Frank Keim Council. Don McGill, William J. Adair and Conrad Kotara were recently readmitted to the council.

# Highlights And Sidelights From The State Capitol

**By VERN SANFORD**  
Texas Press Association  
AUSTIN, Tex. — Gov. Preston Smith told Texas lawmakers they can balance a \$6.6 billion budget without new taxes — by deficit finance, bond issues and federal assumption of welfare costs.

While legislators liked to hear that they can escape a tax bill, many found the Governor's approach contingent on too many "ifs." Voter approval of bond issues, they noted, is highly uncertain and congressional assumption of welfare is doubtful.

Here, in brief, is what the Governor proposed:

Financing of welfare programs for only 10 months in anticipation that Congress will take over full funding by then.

A maximum \$450 million "public free school bond" issue to be retired from school land income now going by constitutional decree into the un-

touchable permanent school fund. A constitutional amendment would be required to create both the fund and pay-off plan.

Temporary deficit financing of a \$70 million emergency aid-to-welfare appropriation — which would require a four-fifths vote of the Legislature.

A \$71 million revenue bond program (secured with tuition income) to build new colleges, medical and dental schools authorized in 1969.

He also proposed three more constitutional amendments:

Removal of the \$80 million a year welfare ceiling.

Raising or removing the water development bond interest lid.

Creation of a \$100 million fund for state aid on waste treatment facilities.

Smith pledged an all-out effort to encourage a federal take-over of welfare financing. If lawmakers don't like his ideas,

said the Governor, they should "bring me a plan."

**COMMITTEES NAMED** — House Speaker Gus Mutscher named his committees late last week, signaling the start of actual bill introduction and processing in the lower house.

As expected, he picked veteran Rep. W.S. (Bill) Healy of Paducah for another session as chairman of the budget-writing appropriations committee which promptly launched hearings of spending requests.

To the hot-spot revenue and tax committee chairmanship, he again appointed Rep. Ben Atwell of Dallas.

But Mutscher estimated he ordered 74 per cent turnover in all chairmanships.

Rep. Rayford Price of Palestine was bumped from the hard-working state affairs panel chair, and Rep. James Slider of Naples got that job. Rep. Delwin Jones of Lubbock got

Mutscher's assignment to chair the congressional and legislative districts committee which must reapportion boundaries on the basis of the new census. Jones estimates a loss of 10 or 12 rural House seats.

Rep. DeWitt Hale of Corpus Christi kept the judiciary committee chair and Rep. John Traeger of Seguin retained the constitutional amendment committee gavel. New rules committee chairman is Rep. James Nugent of Kerrville.

Rep. Dick McKissack of Dallas, who sponsored the liquor regulations committee. Rep. Frank Calhoun of Abilene is chairman of the criminal jurisprudence panel.

**WELFARE MEASURE ADVANCES** — First major measure to clear senate committee was a proposed constitutional amendment by Sen. Charles Wilson of Lufkin to remove the \$80 million state welfare ceiling.

Governor Smith said the current rate of expenditures would bring the state up against an \$80 million lid by June 1, and drastic cuts in aid to families with dependent children would be required. Welfare Commissioner Burton G. Hackney estimated AFDC average payments of \$113.60 a month would be slashed to \$90 May 1 if the ceiling is not raised.

Sponsors of the amendment hope to get it to a vote by early May along with other proposals in the Governor's constitutional change package.

**AID FOR PRIVATE COLLEGES** — Coordinating Board Texas College and University System endorsed state aid to hard-pressed private colleges.

Board backed tuition equalization grants to needy students and state contracts with private institutions for educational degree purposes. Bills to accomplish both purposes have been introduced. Estimated cost to the state is about \$28 million.

Board turned down a proposal that the state should assume full cost of community junior colleges.

**ALLOWABLE DOWN** — Railroad Commission set the February oil allowable to permit a maximum of 3,852,821 barrels a day production, reducing the flow from 83.1 per cent in January to 82.1 per cent.

Actually, production is not expected to exceed 3,411,000 barrels daily. Buyers nominated for 3,410,979.

Commission heard testimony on high inventories of Texas crude. Only one of 14 major oil company buyers — Mobil — changed purchase plans from January.

**DEMOCRATS BACK ELECTION CHANGES** — State Democratic Executive Com-

mittee endorsed a sweeping election law revision, including Tuesday primary dates and allowing 18-year-olds to participate in national party convention delegate selection.

Party leaders recommended complete revision of voter registration laws but came up with no specifics. They also proposed changes in convention procedures to conform with national party rules.

Legislation is pending in the senate to repeal the annual voter registration requirement and to move dates of primaries from May and June to August and September. Constitutional amendment to permit 18-year-olds to vote in all elections also is pending.

**FOUNDATION PROBE LAUNCHED** — Atty. Gen. Crawford C. Martin directed immediate investigation of seven members of the Moody Foundation board at their own request.

Trustees asked the Attorney General to determine if there is any basis for complaints made against them by a legislative interim study commission chairman. Orange County District Attorney Louis Dugas Jr. alleged conflicts of interests, acts of self dealing and incompetency on the part of some trustees, but the committee on charitable foundations which he headed did not back his charges.

**AGENCY RECOMMENDED** — Advisory Committee on Marine Resources has recommended a new state authority to deal with Texas interests and goals in the coastal zone.

A 20 member committee proposed an agency to coordinate research and planning activities in the state's coastal and marine environment.

Other recommendations included establishment of an environmental defense or cleanup fund, support for a sea grant college and clarification of existing state agency role in the coastal zone.

**SHORT SNORTS** — Legislation urged by the Governor to require immunization of school children has been introduced.

Insurance Board will hold a hearing on February 18 here on revision in fire, windstorm and extended coverage rates and

rules for writing fire and allied lines of insurance.

Senate passed a bill exempting from sales tax income from "late, late" movies leased to tv stations.

Governor named Michael P. McCall of Dumas 69th district attorney.

Once a slot machine, always a slot machine, said Attorney General Martin in an opinion holding that such a device still is forbidden even if altered to put out souvenir type coins.

Texas Water Rights Commission adjourned hearing until Feb. 2 on Chambers, Jefferson Liberty and Galveston counties farmers' protest at cost of irrigation water.

## Ecuador And Peru Have Seized Some 100 U.S. Fishing Boats

**By PHIL NEWSOM**  
UPI Foreign News Analyst  
Since 1961, Ecuador and Peru have seized something like 100 U.S. fishing boats and fined their owners more than \$1 million for violation of "territorial waters" which both claim run 200 miles to sea.

For the boat owners it is not much more than a minor irritant since the United States government ultimately repays them for whatever fines are levied.

Since the 1950's, however, the so-called fishing war has been an irritant in the relations between the United States and its Latin American neighbor.

It began taking on proportions of a major irritant this year when Ecuador alone levied fines against U.S. fishing boats totaling more than \$500,000.

**Tuna Is Issue**

In this particular case the issue revolves around the tasty blue fin tuna whose migrating habits take him 20 miles off the Ecuadorian coast and 80 miles off the coast of Peru.

Twice each year, North American fishing boats take off from their California ports in hot pursuit of a catch that annually comes to around 200,000 tons, most of it taken by the California boats.

In 1947, Chile proclaimed a 200-mile limit to protect what it regarded as a national resource. It soon was joined by Peru and Ecuador. Today, nine Latin American nations claim the 200-mile limit.

As much as a need to define international fishing limits, the dispute points up the need for international authority over all ocean resources. As of today there is no international agreement except that reached by the United Nations last year banning weapons of mass destruction from the ocean floor.

The United States recognizes a three-mile territorial offshore limit, but has negotiated fishing agreements with the Soviet Union and Japan for up to 12 miles.

**Question Not Defined**

The question of a nation's rights to mineral riches on its continental shelf never has been clearly defined.

President Truman in 1945

claimed the natural resources of the "Continental Shelf" off American coasts for exclusive United States "jurisdiction and control." In 1958, the Truman principle was accepted at a Geneva convention.

But a continental shelf may extend from several miles to several hundred miles off the mainland. Some nations have no continental shelf at all. Ecuador and Peru are among them.

When the United States pays the fines levied by Latin American nations on the fishing boats, it avoids a direct confrontation with the hot-tempered and nationalistic Latins. But it contributes neither to a principle nor a final solution.

Board turned down a proposal that the state should assume full cost of community junior colleges.

**ALLOWABLE DOWN** — Railroad Commission set the February oil allowable to permit a maximum of 3,852,821 barrels a day production, reducing the flow from 83.1 per cent in January to 82.1 per cent.

Actually, production is not expected to exceed 3,411,000 barrels daily. Buyers nominated for 3,410,979.

Commission heard testimony on high inventories of Texas crude. Only one of 14 major oil company buyers — Mobil — changed purchase plans from January.

**DEMOCRATS BACK ELECTION CHANGES** — State Democratic Executive Com-

mission set the February oil allowable to permit a maximum of 3,852,821 barrels a day production, reducing the flow from 83.1 per cent in January to 82.1 per cent.

Actually, production is not expected to exceed 3,411,000 barrels daily. Buyers nominated for 3,410,979.

# Woman's Page

Wanda Mae Huff, Women's Editor

The leading suit couturier of the West Coast executes the port-suit (left) in a fingertip length, double-breasted baby coat of camel, white and gray French imported. Rimone's plaid flannel. Designer Paul Schnell has combined this with a polo shirt of Berrocco's double knit. The elongated polo shirt falls over a pair of mantiltailored flannel gray trumpet pants. The coat (right) is the personification of two eras. It builds a bridge that gaps the '30s with the '70s. It is belted loosely as a bathrobe-type camel-hair coverall over an English import plaid worsted pant in camel, white and gray.

# Dear Abby

By Abigail Van Buren

DEAR ABBY: I am a Stanford graduate. My wife graduated from the University of California at Berkeley.

## Homemakers Club Selects Officers

SKELLYTOWN (Sp)—Skellytown Homemakers Club met in the home of Mrs. John Simmons, president to install new officers and named Mrs. Bob Heaton as president.

New officers installed for 1971 were Mrs. Heaton, president; Mrs. John Simmons, vice president and Mrs. Oscar Gould, as secretary and treasurer.

The door prize was won by Mrs. Heaton. House guessing game was won by Mrs. John Simmons, and Mrs. Ralph Fox Sr. won the game prize. Mrs. John Simmons received a birthday gift from her secret pal.

Attending were Mmes. Floyd McCoy, W. S. Berry, Miles Pearson, Bob Heaton, Gertrude Huckins, Ralph Fox Sr., Jim Ruth, Oscar Gould, Barbara Easley and the hostess Mrs. John Simmons.

SAN DIEGO, Calif. (UPI)—Memorial services will be held Tuesday for retired Vice Adm. Frederick W. Penoyer, a pioneer in the design of the first two United States aircraft carriers—the Langley and the Saratoga.

Penoyer, 68, died of an apparent heart attack at his Coronado home last week.

Life is beautiful until the football season, and then the fur flies. When "The Big Game" is played, my wife wants to sit on the Cal. side, and I want to sit on the Stanford side.

Last time I gave in and sat on the Cal. side and I nearly got killed. Everytime Cal scored I groaned. When Stanford scored, I cheered. This made me very unpopular with my neighbors in the Cal. section.

Don't suggest that I sit on the Stanford side and my wife sit on the Cal. side because we want to watch the game together. My wife insists that it's the husband's place to defer to his wife's wishes. I take the opposite point of view. What do you say?

—STANFORD  
DEAR STANFORD: Your wife should sit on the Stanford side. A lady is less apt to get slugged in enemy territory rooting for the competition.

DEAR ABBY: Will you please do thousands of secretaries a favor and print this? Whenever my boss and his wife receive a personal gift, or have been entertained or if there is any other matter which requires a personal "thank-you" note, my boss asks me to write it. Of course, he signs it. I always thought the wife was supposed to write those notes.

I have a heavier workload than I can carry without all this extra stuff. I have been worked overtime, for which I am not paid, to get their Christmas cards out. I really wouldn't mind so much if either he or his wife ever thanked

me for it, but it's never mentioned.

His wife has even called and asked me to remind him to send So-and-So a thank you note. Who does she think does it? The good fairy? Tell him for me, will you?

—NO GUTS  
DEAR NO: After this hits print I may not have to.

DEAR ABBY: So you think it is "beautiful" if two married men phone each other three and four times a day, and run to meet for coffee or lunch daily? If you were married to one of these men you wouldn't think it was so beautiful. I had that situation for six years, and refused to face it until I found out everybody in town knew about the "beautiful" relationship but me.

All the beauty faded when my husband lost his job because of all the talk. I am no longer puzzled. Sign me

—NAUSEATED IN HUNTSVILLE

DEAR ABBY: I can't tell you how happy I was to read your answer to "PUZZLED." The woman who couldn't get over the affection her husband had for his buddy.

People who suspect sex has to enter into everything are to be pitied. I have a buddy I would give my life for. And he would give his life for me. This isn't just talk, he proved it when we were in Viet Nam together. He is black, and I am white. (Maybe someone would like to make something of that, too!) Anyway, I want to assure PUZZLED that two men can really love each other without being lovers.

## Area Residents Sponsor Shower

SKELLYTOWN (Sp)—Mrs. Richard Echols, former Ann Duncan of Skellytown now residing in San Juan, Puerto Rico, where her husband is serving in the Armed Services, was presented a baby shower in the home of Mrs. Roy McKissick recently with Mrs. Roy Lynn McClendon as co-hostess.

The honoree was presented a corsage fashioned of pink and blue baby socks with white satin streamers.

The serving table was covered with a white lace cloth over blue. The white sheet cake was decorated with tiny pink booties in each corner and the word "Baby," inscribed in pink in the center of the cake.

Mrs. Irvin Brown served the cake and Mrs. Roy Lynn McClendon poured punch. Attending were Mmes. Richard Echols, Larry Brown, Irvin Brown, James Douglas, Melvin Beigle, Bennie Woodward, John Willines, F. C. Horner, Grace Smith, Earl Lane, and hostesses, Mrs. Roy McKissick and Mrs. Roy Lynn McClendon. Sending gifts but unable to attend were Mmes. Flora Harbin, Marnie Varnon, Hardy Boyd, Darwin Allen, Dewayne Trimble and C. E. Terry.

## POLLY'S POINTERS

Use Needle To Mark Lines In Making Quilt  
By POLLY CRAMER

DEAR POLLY—I have come to the aid of Mrs. J. H., who asked how to mark plain quilt blocks so the markings would not show when the quilt is finished. When quilting in diamonds or squares, I use a ruler and a very sharp needle instead of a pencil and that makes lines that can be followed. I use a darning needle. It is easier to hold and marks even plain white blocks. This has worked well for me, with no dark marks left.

FLORENCE

DEAR POLLY—and Mrs. J. H.—I have made many quilts in my life and think the only way to transfer a design for quilting so it does not show is to baste six or eight quilt blocks together, being sure all corners are evenly basted, as well as all outside edges. Remove your sewing machine needle, insert a large needle but do not thread it. Proceed to "sew" the design on your squares. I think you will be delighted with this method. As you hand-quilt, you can go through the machine "stitches." I usually baste six squares at a time. If you find the squares slip, baste from corner to corner, too. I found this method in a farm book some 50 years ago.

ANNIE

Polly's Problem  
DEAR POLLY—I hope some reader can tell me what to do about a vinyl folding door that has become so sticky that lint clings to it. Washing with soap and water does not help.

MRS. W. S.

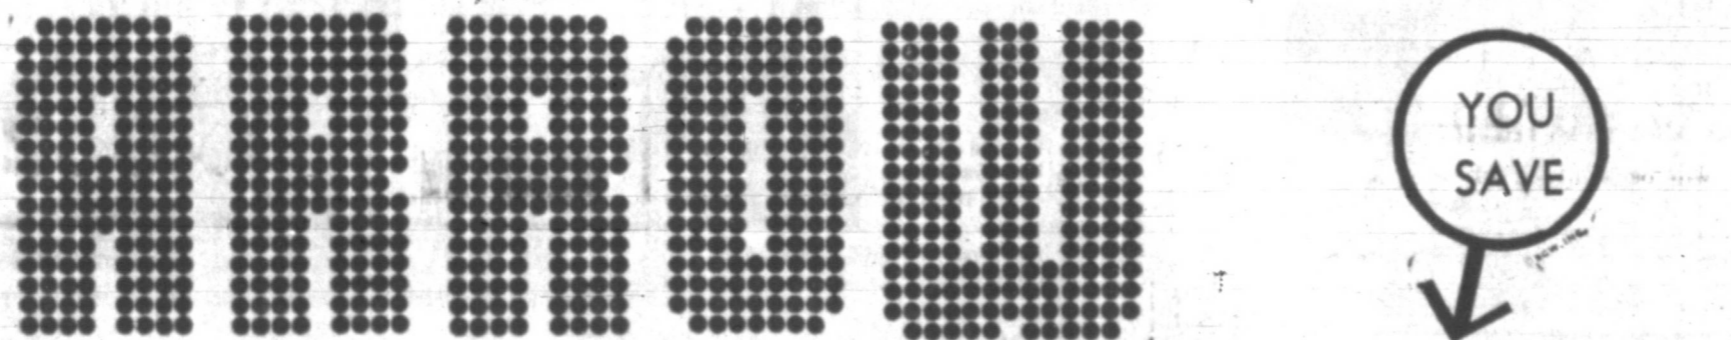

DEAR POLLY—When disposing of an old dresser or chest, keep the drawers if they are shallow enough to push under a bed. They provide wonderful storage space. With the knobs toward the edge of the bed, they can be easily pulled out. They are wonderful under children's beds to provide a place to keep a lot of junk that is particularly dear to them.

GINDA

DEAR POLLY—I am a working housewife, so time is very valuable. I have a time-saving cleaning habit I would like to pass on to others in the same situation. When I clean the bathroom, I start with the sink and counter and then do the toilet. After this, I fill the tub with water and add some bath oil. I assemble an old washcloth, cleanser, a bottled preparation for cleaning faucets and an old toothbrush and put all within reach of the tub. I always feel grubby after such cleaning, so I jump in the tub, wash and then clean the tub and the surrounding area while I soak in the bath oil. I have more patience for getting at the dirty little corners with the toothbrush when I am so relaxed. After everything is cleaned, and I am softened up,

I get out and clean the inside of the tub with the cleanser and everything is sparkling clean, including me.

### Youth Center Wrapup

**SWIM LESSONS** — The new swim lesson schedule for February and March is listed below with enrollments being made at the present time. Parents should check this list and sign their children up early to insure their children a place.

Classes will meet on Monday, Wednesday, Thursday and Fridays for 10 meeting dates with the classes lasting one hour. There are no lessons on Tuesdays. All classes will be taught by Mrs. Ruth Carter, our resident water safety instructor. Enrollment is free to Center members and \$4 for non-members.

Jan. 25-Feb. 10  
4:00 Beginners  
5:00 Swimmers  
Feb. 15-March 3  
4:00 Beginners  
5:00 Adv. Beg.  
March 8-24  
4:00 Beginners  
5:00 Inter.

**DOLPHIN SWIM CLUB** — The Center has recently organized the Dolphin swim club for the purpose of entering into competitive swimming. The Dolphins meet each open day at 6:00 p.m. to work out and would invite any boy or girl 8 years of age or older to join the club.

The Dolphin swim coach is Everett Gray of Pampa and he would encourage anyone who knows how to swim to come and participate. The Dolphins will be entering about one swim meet each month during the school year and several during the summer months. The school term meets will be on Saturdays.

**MEMBERSHIPS** — Our method of operation financially is through a membership plan. The Center is not tax supported in any way and must sustain its own operation by means of a charge for memberships and use of the facilities. The cost for memberships though are so economically priced that everyone can afford them.

The Center offers two types of memberships for those interested, the limited and unlimited. The limited membership is for those who like to play in the gym, swim, or use the recreation hall, but does not want to use the health facilities. This membership is \$5 for six months of \$8 per year for an individual. For a family the cost is \$12 for six months or \$20 per year.

The unlimited membership gives you the same privileges as the limited, but in addition allows you full use of the new health facility. The health facility has all the exercise equipment, 2 handball courts and a sauna room. The cost for an individual is \$65 for six months or \$118 per year. For a husband-wife combination the cost is only \$90 for six months or \$160.00 per year.

**TEEN DANCES** — Young people are reminded that the teen dances for the next four weeks are on Saturday nights from 8-11 p.m. because of the Harvester's basketball schedule. Dances are: Jan. 30—Felix; Feb. 6—Midwest; Feb. 13—Felix; Feb. 20—Midwest.

### New Books

**UP AGAINST THE BRASS** — Andy Stapp; the head of the American Servicemen's Union tells the dramatic account of his fight to create a union for American GIs.

**NIGHT OF THE TOADS** — Michael Collins; the victim was a young actress, death was as much of a puzzle as her life had been.

**A WOMAN OF QUALITY** — Stella K. Hershman; stories of the dramatic effects on the lives of hundreds of individuals helped and inspired by one of the most beloved women of all time, Eleanor Roosevelt.

**THE ARBAUGH AFFAIR** — Darrell Garwood; the story of a scientist's involvement with his nation's security and how the atom's implications sets off a chain of events, both personal and national.

**THE GUARD DOG** — Jerrold J. Mundis; maximum protection for you, your home, and your business.

**THE SAINT IN PURSUIT** — Leslie Charteris; Simon Templar is in fine form as he unravels the mystery of an American agent who vanished in Lisbon in 1944.

**DYNASTY OF DEATH** — Taylor Caldwell; traces the rise of an American dynasty: two families who built a small firearms business into a great munitions empire in the 19th Century.

### Senior Center Corner

By LINNIE CHANDLER

**By LINNIE CHANDLER**  
The 66 Senior Citizens attending the weekly party at Lovett Memorial Library recently were served by members of the Twentieth Century Club, Mrs. Lora Barber and Mrs. Susan Dunigan.

Sponsoring Altruists present were Mrs. Louise Sewell, chairman, Miss J. Flanagan, and Mmes. Ruth Sewell, Billy Tidwell, Olive Hills, Lora Dunn and Lena Pearl Hobbs. Red Cross Volunteers were Mrs. Libby Shotwell and Mrs. Lella Clifford.

Door prizes were awarded to Mrs. Lola Olney and E.B. Jones.

Mrs. Libba Lewis spent a weekend visiting her sister, Mrs. Olive Allen and her brother, G.W. Jordan at Leedy, Okla.

Mrs. K.D. Malcoate and children of Amarillo visited her mother, Mrs. Ruby Stoval over the weekend.

Mr. and Mrs. Frank Hogsett visited their daughters, Mrs. Betty Patchin and children, and Mr. and Mrs. Roger Powell of Canyon attended the all-region band concert in which their grandson David Powell participated.

Mrs. Jessie VanHuss spent three weeks in Wichita Falls

visiting her son, Virgil VanHuss and other relatives.

Two seniors reported in Highland General Hospital were Alta Perryman and J.E. Adair. C. W. Lawrence was ill and is recuperating at home.

**IN THE SOUP** — A GI sinks nearly knee-deep in mud while checking barbed wire perimeter defenses in South Vietnam. Heavy rains turned the area into a sea of mud.

## 1971 Map Will Show Some 2,320 Miles Of Interstate Highways

**AUSTIN**—How do you make something good even better? In the case of the new 1971 Official State Highway Map released by the Texas Highway Department it was easy.

This year's map includes the addition of three lakes, the designation of six new comfort stations on non-interstate routes, a new U.S. highway number designation for near Moore all the way to Mexico, and a new cover featuring a picture of the wonders of Padre Island National Seashore.

The map is a perennial favorite of Texas motorists. Over 1.2 million maps were distributed last year and projections for 1971 call for distribution as high as 1.4 million.

The '71 map will show a new U.S. Highway 57 designation from Interstate Highway 35 near Moore westward to Eagle Pass. This highway joins Mexican Federal Highway 57 at Eagle Pass, which continues on to Mexico City. This is the first major international route under a single numeral designation in both countries, a distance of 930 miles.

The map shows some 2,320 miles of Interstate Highways open to traffic in Texas. When the national Interstate system is complete, Texas will have 3,176 miles of IH routes.

approximately 1,100 safety rest areas, roadside parks and scenic turnouts for the safety and convenience of highway users in Texas.

Other features of the map include listings of Highway Department district offices, Department of Public Safety Offices and State Parks. A handy conversion table turns kilometers to miles and liters to gallons.

The Official State Highway Map is one of the most popular of more than 7.3 million pieces of travel-oriented literature distributed each year by the Texas Highway Department. Copies of the map are available at Highway Department Tourist Bureaus and at Department district offices.

The map also may be ordered directly by sending name, address, and ZIP code to Texas Highway Department, Travel and Information Division, P.O. Box 5064, Austin, Texas 78703.

Tourist information bureaus also are located at key highway gateways at Anthony, Laredo, Orange, Waskom, Texarkana, Denison, Gainesville, Wichita Falls and Amarillo.

Trained travel counselors in these bureaus and information centers assist more than one million tourists annually.

Safety rest areas re-designated on the map with a small green square, roadside parks with the familiar green dot symbol.

Altogether, the Texas Highway Department has provided

**By United Press International**  
**NEW YORK (UPI)**—Mrs. Martha Baird Rockefeller, widow of John D. Rockefeller Jr., and a distinguished concert pianist until she retired in 1931, died here Sunday. She was 75.

**DETROIT (UPI)** — Funerals services are scheduled Tuesday for Lovell Lawrence Jr., one of the country's foremost authorities on rocket propulsion and chief research engineer for the Chrysler Corp.

Lawrence died Sunday in St. John Hospital here after a long illness. He was 55.

**ALBANY, N.Y. (UPI)** — Ruth King, wife of Kirtland L. King, New York state manager of United Press International, died Sunday at Albany Memorial Hospital.

Mrs. King, a native of Mechanicville, was 55.

**SEATON, England (UPI)**—St. John Ervine, Irish-born author and friend of George Bernard Shaw, died Sunday at his country home in Devon, West England, his family announced. He was 87.

**TOKYO (UPI)**—Shigeru Yonano, a veteran member of the Japanese diplomatic corps and a member of the Atomic Energy Commission, died today at the age of 66.
