Nixon And Johnson Dedicate 18-Million LBJ Library On UT Campus

AUSTIN, Tex. (UPI)—Lyndon

3. Johnson and President Nixon Saturday dedicated the \$18.6 million LBJ Library, an eightstory marble monument the former president said proves that "man can."

"It is all here—the story of our time, with the bark off." said Johnson, his gray hair drooping over his gold-striped

The nation's 36th and 37th chief executives, standing side by side on a platform trimmed with red, white and blue bunting, dedicated in the name of the American people the largest and costliest presidential library.

Nixon called the library, on the grassy edge of the University of Texas campus, an "extraordinary treasure of insights into a critical period in our nation's history."

"The American people have reason to be doubly grateful to you today,' Nixon said, glanc-ing at Johnson, "First for your long lifetime of service and now for this collection that can take the scholars of future generations behind the scenes of that service."

Johnson, his wife Ladybird nearby, turned over to the national achives the 31-millionpage collection of documents spanning his public service career if almost four decades. "Those documents contain

But the two that best express my philosophy are the words, 'man can,' " the former president said.

"There is no record of a mistake, nothing critical, ugly, or unpleasant that is not included in the files here," Johnson said, "I do not know how this period will be regarded in years to come. But that is not the point. This library will show the facts, not

the sorrow and failures, too." The Johnsons and their 3.800 invited guests settled down after the dedication to an outdoor barbecue of 6,000 chickens, 1.000 hot sausage links, 1,500 pounds of ribs, a ton of brisket beef, 3,000 fried pies, biscuits, cole slaw and potato salad. Cooks were up all night and the billowing smoke and barbecue fires could be

Firebase Charlie 2, where the bulk of Friday's casualties occurred when a 122mm rocket made a direct hit on a bunker containing 40 men, was hit Saturday by nearly 15 rockets, the U.S. command said. Spokesmen said 25 rounds of rocket and mortar fire hit Alpha 4, a mile to the north.

There was no immediate word on casualties or damage from the shellings Saturday night.

The renewed Communist attacks came despite day-long bombardment of their suspected positions along "Rocket Ridge" by U.S. artillery and air power. U.S. ground patrols also searched the ridge for the Communist positions.

American officials would not give the exact number of casualties at each base in Friday night's attacks but said 30 were killed and 50 wounded at Charlie 2, four miles south of DMZ; Alpha 4, a Firebase Brick, near the city of Hue. Those were the heaviest U.S. shelling losses since the 1968 siege of Khe Sanh.

Command spokesmen said most of Friday's casualties were at Charlie 2 and Lt. Col. Arnold Stallman of Shenandoah. Va., told UPI correspondent Stewart Kellerman at the fire base that all of the deaths Fly Over Area base that all of the deaths came from the direct hit on the

U. S. Justice Dept. Files Suit Against Three Newspapers

WASHINGTON (UPI) - The Justice Department filed a civil antitrust suit Friday charging the New York Times and the Chicago Daily News and Sun-Times violated the law in sharing a single supplemental wire service.

The suit filed in U.S. District Court in Brooklyn also said the two newspaper organizations violated the Sherman Antitrust law by sharing a single sales force in operating their news services.

Named as defendants were the New York Times Co., its subsidiary, New York Times Sales, Inc., and Field Enterprises, Inc., which produces and distributes the Chicago Daily News Sun-Times service.

A number of other large U.S. newspapers have similarly set up supplemental news services in which they share a single

suit charged that although the two news services were substantial competitors, they had entered into an agreement to share a single wire to send material to subscribing newspapers and to restrict the hours during which each service could use the wire.

The government also claimed that the agreement calls for both services to be promoted and sold through New York Times Sales, Inc.

The Justice Department announcement said that before Feb. 1, when the existing agreement went into effect, each of the services leased its own wire and maintained its own separate sales force.

Median Income

WASHINGTON (UPI) -The Census Bureau says American families earned a record median income of \$9,870 lastyear, but in actual buying power the dollar lost ground for the first time in nine years.

The bureau reported Thursday that a survey of 50,000 families indicated median income increased \$440 from 1959. But because of inflation, the bureau said the purchasing power of \$9.870 was only \$9,867 in "constant dollars" - dollars that have been adjusted for cost of living changes.

In another report Thursday, the Commerce Department said Americans, their government and their businesses were in debt by a record of \$8.8 trillion by the end of 1970.

The business debt accounted for \$955 billion, or 52 per cent. Government debt was \$483 billion, or 26 per cent. Private debts by individuals amounted to \$402 billion, of which \$127

Local Board Announces Plans For Realtor Week Observance

Estate - See Your Realtor" is the theme of the 1971 observance of Realtor Week which begins today, Marian Jameson, president of the Pampa Board of Realtors announced Satur-

A Realtor is not just "Any real estate man or woman," Mrs. Jameson said. The term realtor, she explained, is an indicator of special qualifications because only a member of the National Association of Real Estate Boards and one of its more than 1,590 constituent boards can identify by that term. As such, he or she subscribes to a strict code of ethics and has access to broad educational facilities at local, state, and national level.

In a discussion of the code of ethics, Mrs. Jameson continued "that it was one of the

SUNDAY HOROSCOPE SUNDAY, MAY 23

Your Birthday Today: Today begins a campaign in which you strive to gather resources for later major projects yet to be determined. Aside from this, the year promises normal growth and development. Today's natives are resourceful, fond of very precise work with all data and figures in order. ARIES (March 21-April 19); Take part n your community's week-end customs. lake a circuit to renew acquaintances,

return favors.

TAURUS (April 20-May20); There's a new idea in some of the neighborhood discussions. Willingly do your share Perhaps a collector or hobbyist appears who fancies something which, for you is a white elephant.

GEMINI (May 21-June 20); Enjoy yourself observing differences in opinions rather than get into squabbles. Thus you help smooth over matters for others. If you must attend to any serious husiness, get done early.

CANCER (June 21-July 22); Come to the point, say what you'll do and what you won't do. Then make a full day of social amenities, renewing old connections, visiting or inviting.

Wall Street Chatter

YORK (UPI)-Two unusual features have marked the stock market recovery thus far this year: the absence of the individual invester and the concentration of investment in a relatively small number of major companies, Dean Witter & Co. observes. In view of this, the firm believes the market will continue upward, but "with emphasis on secondary companies with concept stories or turnaround prospects."

Today's market is not high in terms of the normal U.S. relationship between stock prices and earnings and dividends, Wright Investors' Service says. However, it is seriously overpriced in relationship to last year's extremes of interest rates and bond yields, which now threaten to return, the firm believes.

The monetary crisis temporarily depressing market, but over the long run the problem invites a flow from cash into equities according to the Indicator Digest. Regard the current correction as a natural process --correcting the technical excesses and putting stocks on a more solid footing for the rest of the bull move

By TOM CULLEN ATHENS (NEA)-Greece's military government has few visible earmarks of the fascist dictatorships of the past.

You will come across no one getting his arm twisted in broad daylight, as was the case in Hitler's Germany. Nor is anyone required to wear a yellow badge, as Jews were under Nazism, Whatever else they may be, the Greek colonels do not appear to be racists.

Reliable sources say that whatever torture the Greek police practiced on political prisoners in the past has now been stopped, largely thanks to the pressure of international opinion.

It is perfectly possible for an American tourist to enjoy a holiday here without ever meeting up with anything more menacing than a traffic cop. The overseas visitor can revel in the glory that was the Acropolis or sample the delights of ouzo in a taverna without ever being aware that anything is amiss beneath the surface.
