Hand To Hand Battle Rages At Leningrad

Russians Deny That Germans Are Fighting In City's Suburbs

By The Associated Press German military dispatches reported violent hand-to-hand fighting raging in the streets of Leningrad's suburbs today, while the Russians declared that cavalry charges and thrusts by cannon-blazing soviet tanks had hurled the nazis back six miles and recaptured two villages on the city's outskirts.

German losses were described by the Russians as enormous in the bloody sea-saw battle for the old czarist capital.

More Aviation Gas Refining Plants Sought

WASHINGTON, Sept. 25 (AP)—Secretary of Interior Ickes, the petroleum coordinator, announced today plans were being studied to triple the refining capacity for aviation gasoline at an expenditure of around \$100,000,000.

Ickes disclosed that the navy had gone into the market in the last few days for 600,000 barrels of aviation gasoline and failed to get bids. The navy was understood to have sufficient high octane aviation fuel for its present needs, and was seeking storage stocks.

Ickes said an emergency in respect to 100-octane gasoline had been intensified materially by needs of embattled Russia and Britain. He stated that he had several weeks ago the refining capacity should be doubled, but that the situation now required that this capacity be tripled.

He already is discussing the expansion with Jesse Jones, federal loan administrator and with the petroleum industry, Ickes said. He told newsmen at his press conference that 50 new refining plants for aviation gasoline would be needed. He said this would boost the daily capacity from 40,000 barrels to approximately 120,000.

Plot Nipped In Argentina

BUENOS AIRES, Sept. 25 (AP)—The government declared today all danger past from a movement described officially as a coup d'etat conspiracy, but rumors continued to fly thick and fast as the public sought explanations of the mysterious plot.

Acting President Ramon Castillo said absolute tranquility prevailed following the government's occupation of military airports, arrest of some 20 aviation officers, and immobilization of the nation's 200 first-line warplanes.

He denied that General Angel M. Zuloaga had been relieved of command of the U. S.-trained air force, although the possibility that the 56-year-old officer had resigned was not excluded.

The And news agency said it was informed by a high military source that Zuloaga was out as a result of the abortive plot among air corps officers.

And quoted its informant as saying Zuloaga himself asked to be relieved of command, not admitting complicity in any plot but being offended by the army's attitude. Zuloaga himself was not to be found.

Current rumors ranged from one that the incident was an incipient totalitarian-inspired plot to another that the government itself planned the affair to arouse popular feeling in its favor. Identities and political leanings of the arrested officers were not disclosed, however.

In Second Mock Battle -- Second Army Takes Defensive

By The Associated Press Dawn attacks by advance patrols along a 100-mile front in central Louisiana today signalled the renewal of simulated hostilities between the second and third armies in the second phase of the nation's gigantic war maneuvers. Reversing the assignments of last week's warfare, Lieut-General Ben Lear's small but fast second army was on the defensive, faced with the task of protecting Shreveport, La., from 245,000 third army soldiers. Preliminary strategy of the

Commission Fixes \$1.70 Tax Rate

Roll of Approximately \$6,600,000 Virtually Unchanged From 1940

Tax rate of the City of Big Spring was set again at \$1.70 by city commissioners in a meeting Wednesday.

Total roll was not finally figured, but it was due to be close to \$1,600,000, virtually unchanged from last year. The rate could yield \$112,200, but the experience of several years indicates that approximately \$90,000 is a top figure to expect in collections.

Division of the tax rate was as follows: One dollar to interest and sinking fund, and 70 cents to the general fund.

Commissioners also discussed, but took no action, on the perennial paving problem. They considered plans for cleaning the city cemetery in hopes of putting the burial grounds in good shape as autumn rolls around. The Masonic lodges have cleaned their premises and the I.O.O.F. lodge was asked to map a clean-up program for its section of the cemetery.

More British Aid Sent To East Front

LONDON, Sept. 25 (AP)—British aid for the Russian armies is being rushed to the eastern front in a rapidly increasing tide, it was authoritatively reported today as dispatches to London painted a darkening outlook for the Red forces both at Leningrad and in the Crimea in the south.

With the RAF only yesterday disclosed to be flying in battle on the eastern front, a reliable source said today that British tanks soon may be in action with the Russians against the Germans.

Furthermore, newspaper speculation that British imperial troops might be sent through Iran into the Soviet Caucasus to aid hard-pressed Russia assumed new significance with disclosure of a series of military staff conferences involving troops in this area.

The need for early British action seemed to be pointed by a report in authoritative circles that a German attack on the Crimea was developing by a force which "may be anything up to four divisions," an attack apparently aimed at the whole Crimean peninsula rather than at just a few strategic points.

These quarters said they lacked information regarding the size of the Russian garrison on the Crimea and therefore were unable to hazard a guess as to how well the Soviet army would be able to resist even a comparatively small attacking force.

Profits Limit Bill Drafted

WASHINGTON, Sept. 25 (AP)—Secretary of the Treasury Morgenthau announced today that treasury experts had begun drafting a proposed bill to limit corporation profits to 6 per cent.

One newsmen inquired whether the duke was confident Britain would win the war.

Following up his recommendation for such a limit before a congressional committee, the secretary told a press conference that he set his aides to work this morning putting the idea into legal language for presentation to congress.

"We have started drafting this proposal and will be ready when congress wants to get to work on it," he said.

Morgenthau indicated, however, that he preferred to present the idea as a tax bill before the house ways and means committee rather than as a rider to the price control legislation being considered by the house banking committee. He expressed the idea for the first time in testifying on the price bill.

The drafting task of his experts, Morgenthau explained, is to surround the idea of a 6 per cent limit on corporation profits with other provisions to make the proposed law as fair as possible to different kinds of business firms.

meantime, sent reconnaissance planes soaring into enemy territory, directing the steady forward march of troops from bases in Southwestern Louisiana and Eastern Texas. Cavalry patrols of the third army reached Boyce, La., 15 miles northwest of Alexandria, La., on the Red river, and threatened the right flank of the second army. General Lear's army, however, had masses of reserve forces ready to thrust into weak spots along the entire front. The third army has ten divisions and the second, seven.

Strike-Bound Ships Released

By The Associated Press A seamen's strike for higher war bonuses was ended by an agreement to negotiate the dispute between the sailors and owners before the national defense mediation board. The decision, reached yesterday, released for immediate service 25 ships needed for transporting defense materials and lend-lease supplies. On Monday, a conference in Washington will try to adjust the dispute which involves the

per cent of the union membership were reported to have voted in favor of a strike, spokesmen for both the union and management appeared confident that the differences could be adjusted without an actual walkout.

The union has demanded a blanket 10-cents-an-hour wage increase. The company's counter-offer called for a 5-per cent raise and an increase in beginners' scales from 65 cents an hour to 90-75 cents.

Gland Surgeon Charged—Dr. John R. Brinkley, indicted at Little Rock, Ark., on charges of using the mails to defraud in connection with his claimed sex rejuvenation treatment, is shown on a stretcher as he was placed aboard a train at Kansas City for Del Rio, Tex. He pleaded innocent at arraignment in a hospital and was released on \$15,000 bond. He had been in the hospital for amputation of a leg.

Windsor Talks To High U. S. Officials

WASHINGTON, Sept. 25 (AP)—The Duke of Windsor today expressed his absolute confidence that Britain would win the war.

After discussing the international situation with Secretary of State Hull for 17 minutes, the duke was surrounded by newsmen for a brief impromptu press conference.

One newsmen inquired whether the duke was confident Britain would win the war.

"Absolutely, absolutely," Windsor replied.

When the duke came out of the state department the duchess was waiting for him in the car. She had changed from her early morning costume and was wearing a Wallis blue dress and a Juliet cap, with a nose veil.

The couple then rode the short distance to the White House for a call on President Roosevelt.

They entered the White House at 11:30 a. m. and departed 27 minutes later without disclosing the subject of their conversations with the president.

The former king, hurrying through the state department corridors, told newsmen that he had discussed the international situation in a general manner with Secretary Hull.

The Duke's visit to the department caused a brief interruption in the serious business of international affairs. Clerks, mostly girls, stopped typing and filing, to form a line down both sides of the corridors through which he passed to reach the office of the secretary of state. They applauded as he marched past hatless and smiling.

Shortly before his state department call, Windsor, heard directly from Chairman Emory S. Land of the maritime commission that the commission was "doing the best we can to expedite the delivery of all ships under construction."

In his capacity as governor of the Bahama Islands in the Atlantic, the duke discussed with Land for more than an hour the world shipping situation, particularly as it affects the area in which the Bahamas are situated.

The duchess remained at the British embassy, where the couple breakfasted, while the duke made this first of his official calls. Embassy officials said that the duchess would be a luncheon guest of her aunt, Mrs. Buchanan-Murray, who resides here.

Eight Injured When Autos Run Together

Vehicles Collide On Crest Of Hill Six Miles West Of City

Eight people were injured Wednesday afternoon in a car collision on the crest of a hill six miles west of Big Spring.

Officers said investigations had not yielded an answer as to how the two passenger automobiles collided. The right rear of one occupied by Garden City men and the front one carrying a group from Wink was smashed.

Chris Shafer, Garden City, suffered several fractured ribs and shoulder injury. Mrs. L. C. Noble, Wink, had a broken jaw, lacerations, fractured ribs and a knee hurt while her small daughter, Christina, escaped with bruises and head lacerations. A. F. McDonald, Garden City had minor lacerations and bruises. These were treated at the Big Spring Hospital.

At the Malone & Hogan Clinic-Hospital, Mrs. Iva Lande, Wink, was treated for facial lacerations and body bruises. J. B. McCann, Wink, had a fractured knee cap. Mrs. J. F. Rhodes, Dallas, who suffered bruised, was discharged Thursday morning and returned with relatives to her home in Dallas. Mrs. Doug Edwards, Wink, sustained only minor hurts and was discharged Wednesday evening.

Hull Asserts Nazis Must Feed Europe

WASHINGTON, Sept. 25 (AP)—Secretary of State Hull advised the senate foreign relations committee in a letter made public today that Germany has a "direct responsibility" for feeding the people in nations which her armies have conquered.

The letter, released by Chairman Connally (D-Tex), gave Hull's views rearing pending legislation calling on the state department to work out some system, in cooperation with Great Britain, for sending American food to "the small democratic countries of Belgium, Norway, Poland, and the Netherlands." The proposal has the active backing of former President Herbert Hoover.

Yugoslavia, France, Finland, Spain, Greece and Denmark also are mentioned in the resolution, which originally was introduced by 37 senators last June. Until now, action on the measure has been delayed at request of its sponsors.

"This government," Hull wrote the committee, "has a deeply sympathetic attitude toward all phases of distress, suffering and needs for relief alike in every part of the world, from China to Finland."

But he added: "It is clear that the responsibility and manifest duty to supply relief rests with the occupying authorities, as it is well known that the German authorities have removed from the countries under occupation vast quantities of food-stuffs belonging to the peoples of those countries and within those countries have diverted food supplies from children to persons working in behalf of the German military effort."

Hurricane Winds Hit Chicago Area

CHICAGO, Sept. 25 (AP)—The dying breath of Texas' hurricane blew across middle western states today, reaching velocities of more than 80 miles an hour.

Storm warnings were issued for all the Great Lakes. A. J. Knarr, government weather forecaster here, said the storm would enter Canada above Lake Huron and probably would not blow itself out until it reached the Greenland-Iceland area.

It's Not So Bad, Boys -- Reporter Visits Male Beauty Shop

(Editor's Note: A beauty shop for men opened in New York today and the Associated Press assigned one of its eligible scribes, Frank Ewing, to see what glamor boys might have to endure to make favorable impressions on debutantes.)

By FRANK EWING NEW YORK, Sept. 25 (AP)—Memo to me: Mrs. Helena Rubinstein, who has fixed feminine faces all these years, started something for you today—a full fledged beauty shop for the remodeling of the masculine map.

I tried it out, fearful it would be something monstrous to endure and that my cowpatience pop down in Texas might read about it. (I might want to go back to the ranch some day.) But I found it not bad, a little sticky, but not bad at all—all the attendants were pretty young misses and blonde. Their fingers are soft. They rub gently. Their voices soothe. Madame Rubinstein, who really is Princess Helena Gourelli and who opened the shop with her husband, Prince Artchil Gourelli of Georgian nobility, said it was not effeminate to come to the shop—it was just a question of learning to be "sort of carelessly well groomed." Pretty Jeanne Landry observed my receding hairline and plumped me into the hair sticking room. She doused me well with soap lather to remove loose dandruff to benefit the scalp and hair. An oil shampoo, a hair pomade, and—swish—I was off to trust my physiognomy to Susan Win, beautiful daughter of a Polish general and diplomat.

Bill To Repeal Neutrality Before Senate

Measure Would Permit American Ships To Arm, Enter War Zones

WASHINGTON, Sept. 25 (AP)—Senator McKellar (D-Tenn) introduced in the senate today a resolution to repeal the neutrality act which bars the arming of American merchant ships and prevents them from entering combat zones.

Declaring that the act was "in direct conflict with our freedom of the seas policy," McKellar told his colleagues that the law ought to be repealed outright. The Tennessee senator has been a consistent supporter of the administration's foreign policy, but there was no immediate indication as to whether he introduced the repealer with the knowledge of senate leaders.

President Roosevelt said Tuesday that revision or repeal of the act was being studied indicating that action might be forthcoming next week.

McKellar said he thought that while the law was on the statute books, the government was "paying virtually no attention to it" and for that reason it ought to be repealed.

Senator Taft (R-Ohio) expressed belief that repeal of the act would be "equivalent to a declaration of war."

"At the very least," he said to reporters, "it would grant the administration authority to carry on an undeclared war."

Taft foresaw a knock-down-and-drag-out battle in the senate against any repeal attempt—a forecast which few legislators disputed—and promised that he and other opponents of the administration's foreign policy would fight vigorously.

However, Rep. Wadsworth (R-NY) believed that the house was ready to repeal or modify the law, and he voiced the hope that it would be "wiped off the statute books."

Senator Connally (D-Tex), chairman of the senate foreign relations committee which must first pass on any question of repeal or modification, declared he believed American ships should be able to sail the high seas to any port in the world.

Connally predicted last night that the neutrality act "will be amended in important respects."

Senator Connally (D-Tex), chairman of the senate foreign relations committee which must first pass on any question of repeal or modification, declared he believed American ships should be able to sail the high seas to any port in the world.

Members of his immediate family were at his bedside. He had been unconscious for 36 hours prior to death.

Noted Methodist Leader Expires

ATLANTA, Sept. 25 (AP)—Bishop Warren Aiken Candler, 84, retired, a leader in Southern Methodism for more than half a century, died at his home here today after a ten-day illness.

Members of his immediate family were at his bedside. He had been unconscious for 36 hours prior to death. Bishop Candler rose from circuit rider to senior bishop, spent more than half a century in the active service of the Methodist Episcopal Church, South.

Miss Laneous Notes

You folks may laugh at this. In fact you probably will until you take the trouble to check me on your calendar, but did you know there are only 31 more days until Christmas! And don't gasp, that's right. Only 31 days to figure out who's going to get what, and if you should remember Aunt Minnie, since she didn't send you anything last year.

There are only 31 more days to make up your little one, one and for all, whether you will spend Christmas day with your family or your husband's family. And if you need some excuses, 31 days isn't very long to have to think some up.

Remember all those Christmas cards that you forgot to send people last year, until you got cards from them? Well, now's your chance, while you've still got on your summer shoes, to sit down and look at the card situation over.

You might even make the opportunity now to take another look at that vase somebody sent you last year and that you've never unpacked. Maybe it will be just the thing for your sister-in-law's cousin who bowled you over with a surprise gift last year.

There are lots of ins and outs to Christmas shopping. Lots of fancy twists to this giving deal. You may laugh now. But brother, 31 days is short enough. So, don't say you weren't warned along about December 24th when you've still got to buy something for old Uncle Cy.

State And District Presidents Speak At Federation Dinner On National Defense And Club Work

Mrs. J. W. Walker Of Plainview Gives Talk On The National Recognition Received By Organization On Nutrition And Other Defense Projects

Speaking on the federation two point program of improved service to member clubs and determined effort to cooperate with the National defense program, Mrs. J. W. Walker of Plainview, Texas Federation district president, spoke to members of federated clubs Wednesday night at a dinner meeting at the Settles hotel.

Mrs. J. C. Cunningham of Fort Stockton, district eight president, also guest speaker, talked on the federation program for the year.

Mrs. Walker pointed out that the federation was endeavoring to assist member clubs with free study courses and pamphlets and working to make each club feel an integral part of the general federation.

She also pointed out that the federation had received national recognition on its nutrition campaign from Washington where copies of the plan had been requested. She declared that lack of unity and a need for spiritual awakening were noted throughout the country and urged club women to consider national defense as a personal problem.

Mrs. Ira Thurman introduced speakers and guests. Mrs. Cunningham urged attendance at the district convention and the state convention in Dallas on Nov. 10-12. Ruth Bryan Owen will be one of the guest speakers, she noted. The general federation convention she announced for April 26th in Fort Worth.

A short program included a song, "Still Is the Night" by Bohm sung by Mrs. A. A. Holmberg with Mrs. Pat Kenney at the piano, Mrs. King Rides played a piano number, "Pickaninny Dance" by David Guion, Mrs. W. J. McAdams gave the invocation.

The tables were set in V-shape and centered with baskets of various colored sinillas. The center table had the federation letters, T. F. W. C. in bronze set in the sinillas.

Mrs. V. H. Fowellien greeted guests at the door and Mrs. Lee Hanson and Mrs. Seth Parsons registered guests.

The receiving line was composed of presidents of member clubs, including Mrs. V. Van Gieson, president of Hyperion club; Mrs. W. C. Rogers of Coahoma, Howard county federation; Mrs. W. J. The War Today -- Promise Of Post-War Food To Cheer Europe

By DEWITT MACKENZIE

One of the great moments of the war was reached in ancient St. James's Palace, London, yesterday when Britain and her ten allies—meeting in the spirit of the Roosevelt-Churchill Atlantic charter to which all pledged adherence—agreed to set up a great pool of food and other supplies for European rehabilitation at the conflict's end.

The move savors of a new and kinder international order. Quite understandable from the practical viewpoint was the fact that the allied action in thus casting their bread upon the waters was accompanied by the hope that it would return quickly in the shape of support for their cause by all the peoples of the tortured old world.

Whatever the immediate reaction may be, Europe certainly is going to need that reservoir of food, and the supplies for economic recovery. The finish of the war, unless it comes quickly, is going to see such widespread suffering and economic disorganization as the World war never produced, bad as it was.

The pity of it is that thousands now alive will have perished of hunger, and of the diseases which batten on privation, before the post-war aid can reach them.

It's an ironic circumstance that Europe must pass through this trial before aid can be administered. The British blockade cuts off food from the outside world; the widespread military operations are ravaging the grain fields of the continent.

From the humanitarian viewpoint the question of post-war aid in the shape of food comes first. The experts tell us that provisions for economic revival will have to follow quickly, however, unless the world is to pass into a period of economic chaos which will make the last great depression look like a mole-hill at the foot of a mountain.

The allied conference was

brought back from consideration of the future to the problems of the moment by Ivan Maisky, soviet ambassador to Britain. After subscribing for Russia to the allied program and the Atlantic charter

—an adherence which in itself was a notable event—the envoy reminded the meeting that the pressing business is "correct allocation of all economic resources and war supplies with a view to the early

liberation of all the European peoples not oppressed by Hitlerite slavery."

He may have had in mind the crucial battle of the Ukraine, where Red Marshal Budyenny is trying to stem the German rush toward the Caucasus. The old soviet cavalry leader and his men are having to substitute courage for airplanes, tanks and other equipment, although British planes already are operating in Russia and it is reported today that English tanks may soon be fighting there.

Whether there is time for the allies to get aid to Budyenny soon enough to enable the bolsheviks to hold their present positions is extremely doubtful. A further retirement seems almost inevitable. However, if the Russians are to keep Hitler out of the Caucasus they must hold his armies along the line of the great Don river, which swings itself protectively across the entrance to this pathway southward to oil and the strategic positions of the Middle East.

Gulf Storm Dies, Damage Estimated At \$6,500,000

HOUSTON, Sept. 25. (UP)—The fury of a tropical hurricane which battered the central Texas gulf area and caused at least \$6,500,000 of damage virtually was spent today as the storm pursued an erratic course over Arkansas toward Missouri and Southern Illinois.

The disturbance, attaining a peak velocity of 100 miles as it struck the Texas coast, was dwindling rapidly in violence as it blustered its way inland. It had lost most of its force before it left Texas and veered into Louisiana yesterday.

Houston rapidly cleared up evidence of the storm which wreaked \$1,500,000 worth of damage here and at least \$5,000,000, mostly to crops, in other parts of the gulf area.

Government agencies, including

the surplus marketing administration and the farm security administration, offered aid to those in the storm area.

The coast town of Matagorda with its 1,000 population probably was saved from utter destruction because a 90-mile wind which struck there was blowing from the northeast, which held back water from shallow Matagorda Bay.

Raymond Anderson, Santa Fe railroad agent at Matagorda, declared if the wind "had been from the south or southeast a million logs would have come crashing in upon us and everything would have been destroyed."

Over a period of years the logs had drifted down the Colorado river, at the mouth of which Matagorda lies, and were piled up along the bay south of town.

SOME PEOPLE NEVER LEARN... but most of them do!

There are always a few "smart alecks" who want to stand up and rock the boat. But most people try to keep out of trouble.

The same sort of thing happens in the retailing of beer. The great majority of beer retail establishments are clean, law-abiding and wholesome. But occasionally you may find a "smart aleck" retailer who violates the law or permits anti-social conditions.

We of the brewing industry want these anti-social retailers wiped out! Because they imperil your right to drink good beer...and our right to make it.

Steers Have Unpredictable Battle With Brownwood Lions Tonight

Vols Make It Three Straight Over Rebels

NASHVILLE, Tenn., Sept. 25 (AP)—The Nashville Vols won their third straight game of the Dixie series from Dallas last night, 8 to 6, after cutting off a Rebel rally in the ninth that netted four runs.

Behind the fine hurling of Lefty Ross Meers in the first seven innings, Nashville ran up an 8-2 edge after the heavy Vol artillery began to explode in the face of Gordon Maltaberger, Dallas hurler.

The victory last night brought the Vols within one game of a clean sweep of the series featuring the playoff champions of the Texas and Southern leagues. The fourth game will be played here Thursday night.

Shown are the Brownwood Lions, the club to give the Big Spring Steers their second test of the season—Front row, left to right—Co-Capt. Jimmy Lindsey, end; Thad Bynum, tackle; Ward Shank, guard; Frank Nix, center; Howard Lee Edwards, guard; Orville Manning, tackle; and Bill Tipton, end. Middle row—Wendell Snow, end; Bob McClelland, back; Donald Miller, back; T. R. Kennedy, back; Woody Shank, tackle; Morris Hunter, back; D. W. Hambrick, back; Bill Smith, end; Mutt Pruitt, student manager. Top row—Lacy Turner, head coach; Donald Watson, tackle; Bill White, tackle; Bobby Starnes, center; John Ferguson, tackle and guard; David Wilkerson, tackle; Latham Ables, tackle; Mac Miller, line coach.

Players absent when the picture was taken were: Robert Tuggle and Charles Alford, guards, and Jack Jayroe, center. All regular linemen are shown on the front row. The starting backfield will be chosen from the following five: Kennedy, Miller, McClelland and Hunter.

Sextets Open Up District Card Friday

Opening guns break loose in the district 8 six-man football battle Friday afternoon with every crew in the circuit engaged.

Westbrook, champion of the loop in 1940, starts its defense of the title as it journeys to Water Valley. Two sextets that are slated to be strong contenders for district honors, Sterling City and Courtney, clash at Sterling City. Little Gernie, one of the strongest teams in the bracket last season, entertains Coahoma.

Garden City and Forsan, ranking prospects for the district championship, square off at Forsan.

All indications point to a banner year in the district. Losses have been sustained by all clubs, thereby evening up the potentialities and causing both large and small schools to start from scratch.

Louis Expects 8-Round Win Over Nova

GREENWOOD LAKE, N. Y., Sept. 25 (AP)—Simply because he's the kind of a guy who doesn't like to work overtime, Joe Louis expects to knock out Lou Nova inside of eight rounds in the Polo Grounds ring next Monday night.

Joe doesn't come right out in meeting with a prediction as to when they'll be lugging Louis the Yogi out of there. Joe doesn't pick the round any more, ever since he made a slight error one day in 1936 by tabbing himself to knock Max Baer out in a large hurry in their first fight. That was a bad one.

But the bomber gave you the tip-off today as to how he feels about this outing. He tore through his training ritual up here in the Ramapo hills like a pedestrian crossing Broadway against the lights. He sallied right over sparring partners and drove through his floorwork as if he was getting ready for an eight-rounder instead of the full 15-round derby route. A couple of sports writers mentioned the fact.

"Eight rounds?" he countered. "Say, that's an awful long night's work, ain't it?"

In 1919 sales taxes were practically unknown as a source of state revenue, but in 1940 the 48 states received over 1.6 billion dollars, or 40 percent of the total tax collections, from sales taxes, according to the Census Bureau.

Schoolboys Start Playing For Keeps Over This Weekend

By The Associated Press

They start playing for keeps in three more districts of Texas schoolboy football this week but a couple of interlocking games steal the show.

The championship drive began last Friday in District 10. This week-end finds Districts 3, 7 and 11 rolling up the curtain on conference play, along with additional title tilts in District 10.

But John Reagan of Houston meets Classen of Oklahoma City, usually one of the toughest high schools in the country to beat, and Fort Arthur takes on Mess, Ariz. in the resumption of a series started several years ago.

These two games should give a solid indication of whether Texas schoolboy football is up to last year's standard or if the lowered age limit is just now making its felt.

In District 3 Colorado City, making its start in Class AA ranks, goes against Odessa in conference play.

The Fort Worth district race starts tonight with Fort Worth Tech playing Arlington Heights.

In District 11, where Tyler has been made a heavy favorite, the Lions clash with Athens, a surprising team that may make it hot for the Bengals.

District 10 is expected to see three teams virtually eliminated from the title chase. Mexia, crushed by Temple last week, plays Waco. Ennis, tied by Corsicana, meets powerful Waxahachie. Corsicana tackles the up-and-coming Bryan Broncos. Hillsboro and Cleburne start their conference drive.

This week's schedule by districts:

1—Friday: Lamesa at Plainview, Vernon at Amarillo, Clovis, N. M., at Pampa.

2—Friday: Breckenridge at Wichita Falls, Borger at Electra, Paschal (Fort Worth) at Olney, Shamrock at Childress, Crowell at Quanah.

3—Friday: Colorado City at Odessa (conference), Austin (El Paso) at Midland, Graham at Sweetwater; Saturday: Lubbock at San Angelo.

4—Thursday: Roswell, N. M., at El Paso High, Cathedral (El Paso) at Yelea; Friday: Lanier (San Antonio) at Bowie (El Paso).

5—Friday: Higley-Gibbs, at Paris, Greenville at Denison (conference), Bryan at Corsicana (conference), Mexia at Waco (conference).

6—Friday: Bonham at Denton, North Dallas at McKinney, Adamson (Dallas) at Highland Park (Dallas).

7—Thursday: Fort Worth Tech vs. Arlington Heights (Fort Worth) (conference); Friday: Woodrow Wilson (Dallas) at Northside (Fort Worth).

8—Friday: Masonic Home (Fort Worth) at Dallas Tech, Forest (Dallas) at Gaston; Saturday: Sherman at Sunset (Dallas).

9—Thursday: Big Spring at Brownwood; Friday: Goose Creek at Stephenville, Gainesville at Mineral Wells, Ranger at Weatherford, Cisco at Eastland.

10—Friday: Austin at Temple, Ennis at Waxahachie (conference), Hillsboro at Cleburne (conference), Bryan at Corsicana (conference), Mexia at Waco (conference).

11—Friday: Athens at Tyler (conference), Carthage at Longview, New London at Kilgore, Sulphur Springs at Gladewater.

12—Thursday: Marshall at Nacogoches; Friday: Overton at Henderson, Conroe at Palestine, Hull-Dalsetta at Livingston, Round Park (Beaumont) at Jacksonville.

13—Thursday: Sam Houston (Houston) vs. St. Thomas (Houston); Friday: Classen (Oklahoma City) at John Reagan (Houston); Saturday: Amon Carter Riverside (Fort Worth) at Lamar (Houston).

14—Friday: Lufkin at Beaumont, Mess, Ariz. at Fort Arthur, Jeff Davis (Houston) at Galveston, Austin (Houston) at Orange.

15—Thursday: Burbank (San Antonio) vs. San Antonio Tech; Friday: Abilene at Jefferson (San Antonio), Laredo at New Braunfels; Saturday: San Jacinto (Houston) at Brackenridge (San Antonio).

16—Thursday: Weesaco at McAllen, Donna at Brownsville, Edinburg at Pharr-San Juan-Alamo, Mission at San Benito, Mercedes at Harlingen; Friday: Aransas Pass at Kingsville, Kerrville at Robstown, Poly (Fort Worth) at Corpus Christi, Beeville at Alice.

Herd Gives Away Slight Weight Edge

Big Springers Open Fray With Last Week's Starting Lineup Intact

With an uncertain prospect before them, the Big Spring Steers left for Brownwood this morning where they will attempt to beard the sorely tried Lion in his own lair.

With two outstanding threats on the club in the person of Halfback Don Miller, 183-pounder, and Lee Edwards, 210-pound guard and captain, Lacy Turner's Lions are not scheduled to offer too much resistance to Coach Pat Murphy's Herd. But, both teams are at full strength, Big Spring still intact after the fracas with Austin of El Paso and Brownwood's casualties back in top form—the contest is liable to develop into anybody's show.

Wednesday afternoon, Coach Murphy put the Longhorns through a light drill, giving the Big Springers a bit of work with Brownwood's most threatening maneuverers. He indicated that most of the Big Spring scoring tactics would be concentrated in the air. Few power plays were on tap, most of the ground attack being centered in fast-breaking action.

A more smoothly organized club than the one that met Austin will vie with the Lions. Although the opening game fire may be lacking from the gridirers' attitude, their craftsmanship has shown a consistent Big Spring will use the same starting aggregation as was put on the field against Austin's Panthers. Only one shift has been made and that in the reserve list. Owing to the transfer of Back C. H. Collins to Abilene, Coach Murphy took Tackle Reserve Hunka Stewart out of the line and put him on the backfield reserve list. Hunka performed in the Yearling secondary last season.

Yearlings Vie With Colorado City Pups In Debut Tonight

Tactics May Center Around Fast Backs

Big Spring's Yearlings show their wares to the homefolks tonight when they clash with the visiting Colorado City Wolves. Game is scheduled to start at 8 o'clock.

Coach Good Graves, Big Spring junior grid mentor, said Thursday morning his lads were in good condition for the fray, although one of his top ends, Bobby Dean, will be out with an injured leg. Remainder of the crew has recovered from various and sundry ailments, Graves said.

According to the pre-game plan, most of the Yearling's tactics will be built around a fast backfield with Hugh Cochran, tailback, ranking passer and punter, in a leading role. With Claude and Raulie Matlock, the gridiron twins, holding down blocking back assignments and Bobby Barron handling the quarterback job, Graves expects to make a good showing against Colorado City tonight.

Graves is particularly hopeful about tonight's results because of reserve strength he has on tap. John Uley and Noel Bagley, although not slated to start the contest, are near a par with the starting ends, Harold Germany and Jim Bob Chaney. Winfred Cunningham has been out with a leg hurt but is on the books to see action in one of the tackle berths. Gene Anderson is another of the outstanding tackle reserves.

The starting lineup will include ten experienced hands. Germany is the only green youngster of the lot.

Big Spring's line will likely hold a weight advantage over Colorado City, hitting about 145 pounds average. The backfield tips the scales at approximately 110 pounds.

Yearling's Probable Starters: Barkley Woods, center; James Byers, right guard; Leo Rush, left guard; Lee Christian, right tackle; Noel Hull, left tackle; Harold Germany, right end; Jim Bob Chaney, left end; Bobby Barron, quarterback; Hugh Cochran, left half; Claude Matlock, right half; Raulie Matlock, fullback.

Ladies' Golf Meet May Be 3-Way Tussle

The pre-tournament word is that chief interest in the Big Spring Country Club's Ladies' golf meet qualifying to be held today will be centered in a three-way battle involving Champion Mrs. G. I. Phillips, Mrs. Harry Stalcup and Mrs. J. R. Farmer.

Mrs. Phillips appears to take the nod but day before yesterday Mrs. Stalcup moved near the forefront when she fell one stroke below Mrs. Phillips course card over the Country Club plant. Mrs. Stalcup chalked up a 81-41 as compared to Mrs. Phillips' 80-41. Women's par over the course is 87-87.

Jimmy Gamewell, Country Club pro, pointed out Thursday that high women's scores can be attributed to the fact that the golf association has applied extremely rigid standards to all course pars so far as women are concerned. Therefore, a middle 80 card may take honors in the Big Spring tourney.

As yet, there are no indications of the number entering the meet. Some possible entrants have said they would be unable to take part but the general prediction was that a number equal to that of last year would be on the board.

Following completion of qualifying rounds today, first round matches get underway Friday, go into the second frame Saturday and wind up Sunday.

Dodgers Get Within One Day Of Title

Win Over Braves And Another Loss By Cards Will End Race

By The Associated Press
The Brooklyn Dodgers are on the threshold of the National League's king row today.

Another victory for the "bums" against the Braves at Boston and a defeat for the St. Louis Cardinals at Pittsburgh would turn the trick.

This may not happen today, but it shows how close the Dodgers finally have come to clinching their first pennant in 21 years.

At the moment the standings are:

To	W.	L.	Pct.	GB.	Play
Brooklyn	58	53	.520	3	
St. Louis	56	54	.509	3 1/2	

After their games today both clubs will be idle tomorrow. Then the Dodgers will go home to Brooklyn to wrap up their prize with two final games against the poor and harmless Phillies while the Cardinals spend Saturday and Sunday at Chicago.

If both clubs win today, Brooklyn can clinch the championship by beating Philadelphia Saturday, no matter what the Cards do.

Both of the rivals won yesterday—the Brooks 4-2 at Boston and the Redbirds 4-0 at Pittsburgh.

Cincinnati clinched third place as Bucky Walters pitched a six-hit, 2-0 shutout against the Chicago Cubs. The New York Giants sewed up fifth place by sweeping a doubleheader from the Phils 6-1 and 2-0, with Tom Sunkel pitching two-hit ball in the nightcap.

In the American League the New York Yankees pummeled the Philadelphia Athletics 7-2.

Thornton Lee pitched a two-hitter as the Chicago White Sox edged out the Cleveland Indians 2-1 and the St. Louis Browns downed Detroit 3-1 although outhit 10 to 6.

The Boston Red Sox whipped the Washington Senators twice, 7-2 and 6-4.

Mrs. Doug Perry arrived home Tuesday night from a four week vacation trip. She went to Niagara Falls, Canada, Albany, New York City, Harrisburg, Pa., Philadelphia and Atlantic City and many other points of interest. She arrived home from Fort Worth via American Airlines. Mrs. Perry took moving pictures of her trip.

Lookin 'em Over

With Jack Douglas

If anything can put the Big Spring Steers on the very bottom of the district B-A-A standings, it will be lack of experienced reserves. Greater pressure was put on the Herd's starting backfield with the withdrawal of C. H. Collins.

Collins was an athletic transfer from Abilene, completed his year of ineligibility here and was prepared to turn in a good year under Coach Pat Murphy. Then, he returned to Abilene.

According to those who claim to know, Collins will be able to enter district competition after being in Abilene thirty days. The general interpretation of eligibility rules contends that an athlete must lay fallow for a year before taking up activity at another school.

Although district officials have evidently decided beyond a shadow of doubt that Collins is not an out-and-out athlete transfer, his status does seem to be rather confused.

Street comment in Big Spring concerning the chances of the Steers to do a bit of rampaging in the district race has assumed a considerably rosier aspect.

Before the Austin game here last week, little chance of keeping out of the cellar was seen by the majority of supporters. Now, there is a complete reversal. A feeling that is being felt on the Big Spring club.

If Brownwood does pull a surprise victory, and we certainly believe it would be a surprise, there will be some upset hopes in the home precinct. But, Brownwood has always had a peculiar setup.

Last year the Steers had a tendency to play like champions one week, then drop into a depressing condition the next. They were downright depressing last Friday.

Father Refuses To Shelter AWOL Son
FREEPORT, N. Y., Sept. 25 (AP)—Patsy Barbado, Jr., 21, who went AWOL from his soldierly duties at Fort Devens, Mass., today was in military custody because his father, Patsy, Sr., put devotion to country above parental love.

Patsy, Jr., appeared at his home last night and was warned by his father that he was going to call the police. The youth thereupon grabbed the family shotgun and dashed into the woods. Military police from nearby Mitchell Field began a search which ended when the errant son meekly surrendered. He had thrown away the gun.

SHIP IN DISTRESS
JACKSONVILLE, Fla., Sept. 25 (AP)—Coast guard headquarters reported today that a ship in the Caribbean sea had sent out distress calls, saying its steering gear was out of order and it was being buffeted by a tropical storm about 200 miles south of Haiti.

Semi-Pro Ass'n Receives New Playing System

NEW YORK, Sept. 25 (AP)—A new plan to decide the 1942 semi-pro world's baseball championship was announced today by Ray Dumont, president of the National Semi-Pro Baseball Congress, under which two divisions will be established in each of the 48 state tournaments—one for industrial and "town" baseball clubs, the other for army camps.

Dumont said each division will decide its own national championship, the factory and "town" state championship teams staging their eighth annual tournament at Wichita (Kan.) Aug. 14-27 and the leading soldier clubs meeting for the U. S. Army championship, scheduled tentatively for Chicago, Aug. 15-25.

The two winners will compete in a seven-game series for the world's title.

Dumont said he would leave for Washington (D.C.) later this week to confer with Major Ted Banks of the morale division of the U. S. Army to complete plans to qualify an estimated 10,000 army teams which will play in 300 district tournaments in army camps to qualify for state meets.

Ariz. Picked To Win Border Loop
ABILENE, Sept. 25 (AP)—The University of Arizona Wildcats, who open the season against mighty Notre Dame Saturday, are favorites to win the Border Conference championship, results of a southwest poll showed today.

The Wildcats play the Fighting Irish at South Bend, Ind. Arizona, going into their third season under Mike Costello's tutelage, are the No. 1 choice of sports editors, radio commentators, coaches and officials.

In second place, the survey dopsters picked Ted Shipkey's University of New Mexico Lobos. Hardin-Simmons University's Cowboys, under Coach Warren B. Woodson, with 14 wins in a row at their belts, were ranked third, followed by Texas Mines.

Unranked was Texas Tech, termed by many as the potential powerhouse of the conference. Coach Dell Morgan's team plays only two conference games this year, and do not compete for the title, but outcome of their games with New Mexico and Hardin-Simmons will weigh heavily in chances of those eleven.

Markets At A Glance
NEW YORK, Sept. 25 (AP)—Tax fears, and not the war, today received the principal blame for one of the sharpest stock market breaks last April.

Steels, motors, aircrafts and industrial specialties were among the first to tumble.

Bethlehem and Jones & Laughlin Steels were among shares recording new bottoms for the year. Prominent on the losing side were U. S. Steel, Crucible, Douglas Aircraft, Consolidated Aircraft, Wright-Aeronautical, Eastman Kodak, Philip Morris, Anacosta, Kennecott, Pepsi-Cola, N. Y. Shipbuilding, Du Pont, Union Carbide, General Motors, J. I. Case, International Harvester, U. S. Rubber and Montgomery Ward.

Cotton
NEW YORK, Sept. 25 (AP)—Cotton futures closed 11-16 lower.

Livestock
FORT WORTH, Sept. 25 (AP)—(USDA)—Cattle 1,900; calves 1,400; market slow; cows and calves continuing under pressure, other classes about steady with earlier declines; mature steers scarce, two loads 10.75 and 12.00, odd lots common and medium grades 7.00-8.50; common and medium yearlings 6.50-9.50; good kind scarce at 10.00 upward; beef cows largely 8.00-7.75, canners and cutters 4.00-4.00; bulls 6.00-7.75; good fat calves 9.00-10.00, few choice higher, common and medium lots 7.00-8.75, culls 6.00-7.50; good stocker steer calves 10.00-11.00, choice lights 11.00 upward.

Wool Market
BOSTON, Sept. 25 (AP)—(USDA) Numerous inquiries for domestic wools were received in the Boston market today but actual sales were rather slow. Many of these inquiries were made in anticipation of award of pending government contracts. Interest covered a wide range of territory and fleeces wools. Asking prices on these wools were firm although largely nominal because of the slow trade.

Wildcat Oil Test Staked

F. H. E. Oil Co. and Associated of Fort Worth were reported to have staked location for a 4,000-foot wildcat test in Howard county.

It is to be known as the No. 1-B L. C. Denman and location pegged at 900 feet from the north and 330 feet from the west lines of the south half of the northwest quarter of section 14-30-1s, T&P. It is half a mile south and east of the Denman pool in eastern Howard county.

No further shows were reported Wednesday from the Humble No. 1 Elwood estate in south central Mitchell. After showing porous limes that bled light green oil in the top foot of core from 5,550 to 5,941 feet, it corred ahead to 5,955 feet, recovering 15 feet of shale. It was reported drilling below 5,700 feet. Location is in section 48-18, S.P.R.R. M. L. Richards No. 1 W. R. Dunn, section 207-97, H&TC, Borden county wildcat test 11 miles northwest of the Sharon Ridge pool in southwestern Scurry county, shut down for drilling Wednesday at 2,854 feet in lime.

Ray Aibaugh and Richmond Drilling Co. No. 1 J. J. Handley, Dawson county wildcat 950 feet from the south and 1,080 feet from the west line of section 36-M, EL&RR, passed 3,770 in anhydrite.

In proven area of the Howard county Dodge-Denman pool, Sinclair-Prairie staked its No. 75 Dodge, 990 feet from the north and 2,310 feet from the west line of section 11-30-1s, T&P.

CARLOADINGS UP
DALLAS, Sept. 25 (AP)—An increase of 18.7 per cent in prospective carloadings over the corresponding period of 1940 for the southwest during the fourth quarter of 1941 was foreseen today at a meeting of the southwest shippers advisory board.

BUILDING UP FOR BATTLE—Three smiling members of the Polish legion now training in Windsor, Canada, for a re-entry into the war are, left to right: Sgt. Stanislas Wiles of the one-time Polish air force; Sgt. Z. Gradowski of the Polish army, and Chief Petty Officer Stanley Sikorski, who was on a Polish destroyer. Some legion members are Americans of Polish descent.

Henderson Asks Longer Work Week

WASHINGTON, Sept. 25 (AP)—Price Administrator Leon Henderson today advocated a longer work week in certain selected industries, chiefly those working on defense orders, to attain what he said was a badly-needed increase in the production level.

Testifying before the house banking committee on the administration's price control bill, Henderson said that even now the average work week for all manufacturing industries in this country was 40 3-10 hour.

"Right at the present time," he said, "I would doubt if we are getting within 20 to 25 per cent of the full efficiency of our machine tool capacity."

Italians Occupy Croatian Territory

ROME, Sept. 25 (AP)—The Italian army has completed reoccupation of a demilitarized zone in Croatia to restore order in that turbulent state carved out of dismembered Yugoslavia, it was announced today.

The area into which the Italian army has moved lies along the Adriatic seaboard between the Dalmatian coast and the Dinaric mountains and a communique said the step was taken with the consent of the Croat government.

BRITISH RAID SICILY
ROME, Sept. 25 (AP)—British air raids on the Sicilian city of Palermo and on Tripoli, Bengal and Bardia in Libya last night were reported today by the Italian high command.

New Liquor Law Nearly Abolishes Drug Store Sales

AUSTIN, Sept. 25 (AP)—Confident that enforcement of a new law has stemmed a tide of drug store liquor sales to a bare trickle, the liquor control board today presented figures to back its claim.

In a formal statement the board said 3,553 liquor prescriptions were sold in August of this year, compared with 449,288 in August, 1940.

448 gallons of liquor were sold in drug stores in August, this year, compared with 43,147. In August, 1940, only 484 drug stores were licensed to sell liquor were only 95 physicians licensed to issue liquor prescriptions compared with 1,184.

The board added there was a radical change in the counties which sold most drug store liquor before the legislature at the last general session passed a law greatly restricting sales and prescriptions.

The counties were Lubbock, Taylor, Brown, Hunt, Smith, Angolina and Tom Green.

Tax Rolls Due Out On Time

It's taking some midnight oil, but Thursday chances of all tax rolls being complete by Oct. 1 when 1941 taxes come due, were good.

The city had completed compilation of its tax roll and employees were well into the task of preparing receipts and notices.

At the tax office of the Big Spring Independent School district, it was reported that every effort was being made to have statements out by Oct. 1. Employees here were working long hours to be ready when the new season opens.

Prospects for the county and state rolls being complete by the first were reported good at the office of Tax Collector-Assessor John F. Wolcott.

Importance of having rolls ready by the first date is increased because of the three per cent discount allowed for payment of taxes during October. All three of the tax collecting units are employing the discount policy this year.

Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 million tiny tubes or filaments which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. Frequent or empty passages with burning and itching sometimes show there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep.

When disorder of kidney function persists, poisonous matter remains in your blood. It may also cause nagging headaches, dizziness, pain, leg pain, loss of pep and energy, swelling, painless under the eyes, backaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Team Vegetables With Meat For Diet To Build Healthy Families

It's not what to serve that puzzles so many cooks. It's how to serve it that has them stopped. Variety and nutrition are highly important in building a healthier nation. While most homemakers know that their families daily should have two vegetables, one of which should be green or yellow, it's the planning of delicious combinations of other foods with these vegetables which troubles them.

One good way to simplify the job of building good meals is to make lists of foods which not only are good affiliates but which also have the proper food elements as recommended by the National Nutrition Conference. Then these lists may form the basis for many a week's meals. To them, simply add bread and butter, a beverage, and dessert, if you like, and there you are with a complete meal.

A starter list of food combinations which supply necessary food elements is as follows:

- Baked cauliflower, baked sweet potatoes, smoked picnic shoulder.
- Seven-minute cabbage, glazed carrots, stuffed flank steak.
- Celery-cabbage salad, baby beets, lamb shanks.
- Buttered green beans, corn in casserole, boneless rump roast.
- Zucchini in garlic butter, creamed potatoes, cube steaks.
- Steamed broccoli, baked sweet potatoes, fresh ham roast, cabbage and pineapple salad.
- Okra cooked with tomatoes, hamburger ring, pineapple and cottage cheese salad.
- Buttered lima beans, vegetable salad, beef patties.
- Baked squash, scalloped tomatoes and celery, short ribs.
- Hot spiced beets, mashed potatoes, rolled pork shoulder.
- Julienne carrots, "boiling" beef, dumplings.
- Fried egg plant, Spanish rice, braised liver.
- Buttered wax beans, asparagus salad, veal shoulder roast.
- Butter onions and potato cubes in beef pie, beet and cucumber salad.
- Mashed rutabaga, browned potatoes, stuffed breast of veal.
- Spinach and hard-cooked egg, corned beef hash.
- Grilled tomato, broiled lamb shoulder steaks, broiled potatoes sprinkled with cheese.
- Baked tomatoes, carrot and pineapple salad, pot roast.
- Eggplant in casserole, boiled potatoes, braised blade pork steaks.
- Harvard beets, fluffy rice, creamed dried beef.
- Cabbage wedges, boiled potatoes, corned beef.
- Beet cabbage in sour sauce, baked potatoes, stuffed pork chops.
- Braised celery, sweet potatoes, tomato aspic salad, lamb shoulder roast.

OH, HOW GOOD IT IS!
A trick which quite checks up the flavor of a cold roast—especially roast pork—is that of simmering it in a spicy barbecue sauce. Here is a recipe for making it:
Fork in Barbecue Sauce
6 thick slices of pork
1-2 tablespoons fat
6 tablespoons chopped onion
2-4 cup chili sauce
6 tablespoons vinegar
2-4 teaspoon salt
3 tablespoons brown sugar
1-2 teaspoon dry mustard
2-4 teaspoon chili powder
Melt fat in frying pan, add onion and cook over low heat two or three minutes. Add remaining ingredients, mix well and bring to boiling. Add meat, heat thoroughly, and serve.

Americans Stock Up On Liquor; Taxes To Show Up Tardily
WASHINGTON, Sept. 25 (AP)—Thousands of Americans have been stocking up on liquor so heavily lately that the new higher liquor tax won't reach them for months to come.
The treasury revealed today that in August, for instance, the liquor industry withdrew 10,082,468 tax gallons of distilled spirits from warehouses. This was more than double the 4,847,967 gallons of the similar month last year. September figures may be even more startling.
The new tax law, effective Oct. 1, increases the distilled spirits tax from \$2 a gallon to \$4 a gallon and levies a \$1 floor tax on all liquor on hand in liquor-selling establishments on Oct. 1. The new rates are expected to mean an increase of at least 25 cents a quart on bottle goods purchased by consumers.

Gas Retailer Points To Idle Tank Cars
MILWAUKEE, Sept. 25 (AP)—Guy Runyon, of Ames, Ia., president of the National Association of Petroleum Retailers, declared here that there were 20,000 idle tank cars in the country, despite "Secretary of Interior Ickes' contention of a gasoline transportation shortage."
Speaking at a convention of the retail gasoline dealers association of Wisconsin, Runyon claimed that retailers had not been consulted by Ickes, petroleum coordinator, as to petroleum policies. Runyon urged unity with the administration wherever possible, but said the administration so far had neglected the retail industry.

Pipelines In Rocky Mountains Break
DENVER, Sept. 25 (AP)—There was little or no gas along part of the eastern slope of the Rockies today, but with their supply of fuel for warmth, nourishment and industry cut off, residents met the crisis with resourcefulness.
New Mexico flood waters cut in two places a natural gas line from the Texas Panhandle through Colorado to Cheyenne, Wyo.
Defense Finches Police Holds
DALLAS—Law enforcement has felt the pinch of the defense program. The Dallas police department, which in former years had a plentiful supply of applicants, was forced to advertise for 100 special policemen. They will work during 16 days of the Texas state fair.

SAFEWAY

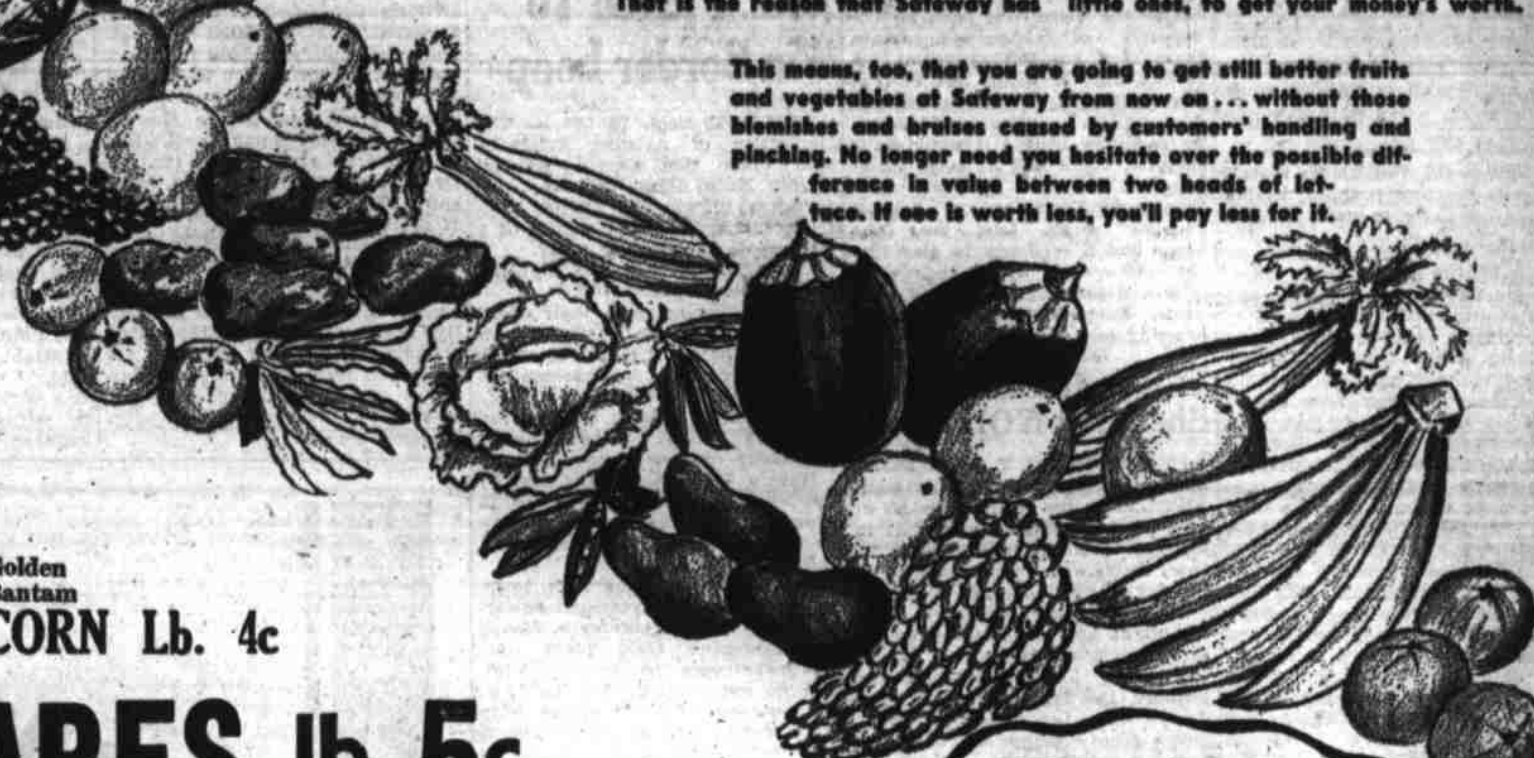

Now FRESH FRUITS AND VEGETABLES BY THE POUND!

Select a dozen big apples out of the crate... or a dozen little ones that you like to serve, baked, around a pork roast... but don't pay the same for them just because they came out of the same crate! The price charged is fair only when it is figured by the weight of the apples, not the dozen. That is the reason that Safeway has stopped counting and begun weighing all lettuce, cauliflower, celery, oranges, lemons, grapefruit, artichokes, avocados and apples, just as we weigh tomatoes, cucumbers, beans, peas, potatoes. This way you pay only for what you get. This way you do not feel obliged to buy the big apples when you want the little ones, to get your money's worth.

This means, too, that you are going to get still better fruits and vegetables at Safeway from now on... without those blemishes and bruises caused by customers' handling and pinching. No longer need you hesitate over the possible difference in value between two heads of lettuce. If one is worth less, you'll pay less for it.

Questions and Answers About Buying Fruits and Vegetables by the Pound

- Q. For years I have been buying fruits and vegetables by the dozen or each. I don't know what they weigh. How can I calculate my needs by the pound?
- A. Make your selections by count, and then we will help you figure the price of your selection by the weight. You'll soon get the habit.
- Q. If this plan is so good, why have merchants been selling by the count so long?
- A. Selling by piece is merely an old trade custom. In many localities apples, cauliflower, etc., have been sold by weight for years. Safeway is convinced that prices fixed by weight are fairest.
- Q. You say that by buying by weight Safeway can make savings that will be passed on to the customer. How is that?
- A. Well, take oranges, for instance. When growers must grade oranges for size they charge us more than the price they ask when we buy the oranges as they come from the trees, regardless of size... only checked for quality, of course. It would be hard for us to quote a fair price on these big-and-little oranges by the dozen, but with a price by the pound you can select either the big or the little ones. And in the end you will pay less, just as we have paid less.

FSA To Assist Farmers Hurt By Hurricane

DALLAS, Sept. 25 (AP)—Plans for assisting distressed farmers in the Texas hurricane area were announced by C. M. Evans, regional director of the Farm Security Administration.

Following reports of extensive crop damage in the coastal region, Evans instructed FSA rural supervisors in the stricken counties to make an immediate survey of the need for funds in their areas.

FSA loans are available to farmers who were victims of the hurricane and who are unable to get adequate credit elsewhere, Evans said.

"In cases of acute need, the Farm Security Administration is also prepared to make direct grants for subsistence purposes," Evans said.

The FSA office in Dallas Wednesday had received reports of damage in the agricultural areas of Brazoria, Matagorda, San Patricio, Orange, Harris, Jefferson, Galveston and other coastal area counties.

Olds Dealer Gets Look At New Models

A. H. Shroyer of the Shroyer Motor company, local Oldsmobile dealer and member of his sales staff, returned here today following a preview of the new Oldsmobile B-44. Factory executives from Lansing, Michigan, assisted by some office officials, conducted the meeting held in Dallas. Details of Oldsmobile's sales and advertising plans, as well as company policies for the coming model year, were outlined to the retail selling organization.

"Motorists are promised the biggest surprise in the history of the automobile business when they view the new Oldsmobile B-44," Shroyer predicted. "October 5 has been scheduled as the official announcement date for Oldsmobile, and on that day the product that has been in the development stages for the past year will be unveiled nationally," he added. "Regardless of any existing opinions pertaining to inferior quality in the 1942 automobiles, Oldsmobile will introduce three lines of cars that are definitely better looking, better lasting and better built than any cars in the forty-four year history of the company."

Hydra-Matic Drive, the revolutionary feature introduced by Oldsmobile two years ago, which eliminates the clutch pedal and all shifting of gears, will be offered as optional equipment. More than 150,000 Oldsmobiles with Hydra-Matic Drive are now in daily service, it was announced.

Six Men Leave For Army Duty

Six men, three of them transfers from other boards, left Thursday morning to begin military service as aviators.

Three left on the regular quota of 12 men. Three others were deferred because they have in applications as flying cadets. One was passed since he was released when enlisted in the air corps, three were reclassified due to dependency and two were given temporary deferments.

Leaving in response to the call were Arthur Fred Kasch, Joe Glickman and Lorenzo Garcia Aleman. Transfers were Peter Zmitrovich, San Francisco, Calif.; Lorenz Herbert Gast, Clovis, N. M.; and Monroe Franklin Ashby, Wasco, Calif. Those with aviation cadet applications pending were Warren Leroy Lockhart, Joe Earl Lassiter and Woodrow Harris. Herman Henry Moser had already enlisted in the air corps.

NFLA To Meet Here Saturday

Two directors will be elected Saturday when the annual stockholders meeting of the Big Spring National Farm Loan association is staged at 10 a. m. in the Ritz theatre.

Ira Driver, secretary-treasurer, said that approximately 425 members were eligible to participate in the session, but that the press of the harvest season might keep many in the fields. Since many probably will be busy, he planned only a short program.

Featured will be the annual financial statement including a total of 785 loans. Total amount of loans was expected to top a million and three quarters dollars.

Directors whose terms expire are M. M. Edwards and W. S. Satterwhite, the latter serving out a term as appointee.

Driver recently returned from San Angelo where he joined with 21 other NFLA officials in roundtable discussions of problems. High officials of the Federal Land bank in Houston participated in the conference.

Eleanor Roosevelt's Brother Succumbs

WASHINGTON, Sept. 25 (AP)—G. Hall Roosevelt, 50, engineer, banker and transport executive, died early today at the Walter Reed army hospital with his only sister, Mrs. Franklin D. Roosevelt, at his bedside.

A brief telephoned announcement from the White House said: "Mr. Hall Roosevelt passed away at 5 a. m. (EST) at Walter Reed hospital. Mrs. Roosevelt was at the bedside."

Hall had been ill many months, first in a hospital at Poughkeepsie, N. Y., and subsequently was given army hospitalization by virtue of his World War aviation service.

The relationship between big bluff Grace Hall Roosevelt and his only sister, the First Lady, was extremely close. Orphaned as children, they were tied by a strong and never-waning bond.

Although Mrs. Franklin Roosevelt was less than seven years old when Hall was born in Neully, France, June 28, 1891, she wrote in her autobiography, "This Is My Story," that "my brother was more like my child to me."

Hall lived with the Franklin Roosevelts when they were a young married couple, occupying a small New York apartment, and down through the years he was often with them in their various homes and on sailing, hunting and fishing expeditions.

The brother-in-law of one pres-

ident, Hall was the nephew of another, President Theodore Roosevelt.

The White House thus was as familiar to him as to any other man who was not president. But he achieved only slight, local prominence himself.

His last business connection was with Harvey Schwamm and Company of New York City.

Hall Roosevelt was twice married and twice divorced. His 1913 marriage to Margaret Richardson of Boston was dissolved in Philadelphia in 1924, after the birth of four children.

His second marriage, to Dorothy Kemp of Detroit, ended in the courts in 1937.

Both his former wives and five children survive. Henry P. Roosevelt, 38, born in the Yukon, lives with his mother, now Mrs. John Cutler at Dedham, Mass. Eleanor, 21, now Mrs. Edward Procter Elliott, made her debut to society at the White House in 1938 and resides at the present time in Narberth, Pa. Another child of the first marriage died in infancy and the fourth, Daniel L. Roosevelt, was killed in an airplane accident in Mexico in 1939.

All the children of the second marriage live with their mother in Detroit. They are Amy, 15, Diana, 14, and Janet, 11.

INDIANAPOLIS—Could 10-year-old James Hurt be blamed for having an earache?

James was taken to City hospital from school after complaining that his ear hurt and he couldn't hear. Physicians removed a pencil eraser, a piece of lead and a wad of paper from his right ear and just a mere wad of paper from the left ear.

(P.S.: James' hearing is much better.)

JOHNSTOWN, Pa.—For a year H. S. Bender, of Moxham, watched his two night-blooming cast plants, and prepared to call all his friends to see the rare plant when it burst forth into full flower.

One of the plants finally did bloom—at 8 o'clock in the morning, a "scandalous" way for a cactus to behave. Bender said, because they usually bloom at midnight. Undaunted he has issued a public invitation to attend the 1942 blooming of his plants.

Vegetable Stew That's Savory Is Happy Surprise For Family

A Happy Surprise for the Family on a Meatless Day is a Substantial Vegetable Stew That's Savory and Spicy. Deviled Egg Salad on Curly Endive, Hot Muffins and Apple Butter Complete the Menu.

By CAROL BRUECK
Hains Home Institute

IT'S THE flavor that counts in a stew—a rich spiciness and savoriness and a good blending of vegetables. Some good cooks obtain the perfection that is a stew by a process of adding-and-tasting. With a tested recipe, though, you have a delectable stew every time without having to stand over it adding a bit of this and a dash of that.

The following recipe makes an all-vegetable stew using full-bodied tomato ketchup for its savor and spice—a grand meal-in-a-dish for meatless days and also for keeping the food budget in hand. It's a quick meal, too, considering that it's a stew—that simmers away

without your having to stop to measure out seasonings. Surprise your family with this tasty combination one of these crisp Fall days.

Vegetable Stew
Cook 2 medium carrots, halved and cut in 1/4-inch pieces, with 1 dozen pearl onions in 8 cups boiling water about 30 minutes. Then add 1 1/2 teaspoons salt and 4 medium potatoes, diced. Cook just until the potatoes are tender. Drain the vegetables, reserving the liquid, then add 1/2 cup cooked peas and 1/2 cup cooked corn. Brown all together in 1/2 cup butter. Stir in 2 tablespoons flour and add 1/2 cup tomato ketchup and 2 tablespoons chopped parsley. Return the vegetable water to the vegetables and cook until thickened. Serves 4.

Texas College Enrollments Show Increase

By Associated Press

Joe and Betty College trooped back to Texas' institutions of higher learning this fall in numbers substantially exceeding last year's enrollments. The tide runs the other way in the nation.

With a nationwide survey of 469 colleges and universities forecasting a shrinkage in collegiate attendance in the nation, educational institutions in Texas from the mammoth University of Texas to small junior colleges reported stepped-up totals of students as the 1941-42 first semester began.

For the fourth successive year, enrollment at the University of Texas pushed over the 10,000 mark to approximate last year's registration of 11,147 students at the Austin school.

Largest higher educational institution in the south, Texas launched its 99th annual session with 31 new faculty positions, 167 new courses, and three new buildings under construction—petroleum and chemical engineering structures to be completed this fall and a new \$475,000 music building to be ready for occupancy in January.

With 400 incoming freshmen—including 125 freshmen engineers, enrollment at the University of Texas pushed over the 10,000 mark to approximate last year's registration of 11,147 students at the Austin school.

Officials at Texas Technological college, Lubbock, reported no reduction in enrollment was anticipated after 3,544 had registered. With several hundred additional students expected for late enrollment, Tech attendance will compare favorably with 1940's total of 3,797.

Waco's Baylor university began its 97th annual session with ten additions to the faculty and with

Stanton Man's Body Exhumed

STANTON, Sept. 25 (SpI)—The remains of I. N. Watson, former Stanton citizen and county judge of Martin county, buried here in 1931, were exhumed this week from the Evergreen cemetery by the Nally Funeral Home of Big Spring, and taken to Blair, Okla., for reinterment in a grave beside his wife.

Judge Watson came to Stanton from Blair, Okla., in 1918. Mrs. Watson, who survived her husband, passed away a few months ago and was buried at the Oklahoma town. W. A. Kaderli of Stanton accompanied the remains to their last resting place.

Of the total foreign-born population of Alaska, 8,132, considerably more than half came from Norway, Sweden, and Canada—2,445, 1,224, and 1,229, respectively, says the Census. Approximately three-fourths of the Norwegians and Swedes and nearly two-thirds of the Canadians are naturalized.

New Autos Feature Snappy Lines, More Roomy Bodies

DETROIT, Sept. 25—Your 1942 model automobile is lower, longer and generally wider; its lines are snappier and it sparkles as much as ever.

You'll find greater use of plastics, particularly on the instrument panel and in the interior decorative pieces. But if you lift up the hood, you'll find few changes from 1941.

Already many replacements have been found for strategic materials needed for defense purposes. Some have been put into the cars, others are being withheld until the pinch of materials shortages becomes more acute.

Alfred P. Sloan, Jr., board chairman of General Motors Corp., the

nation's biggest producer of cars and trucks, bluntly told his dealers that some of the glamour of the 1942 models may have to be dropped as the defense work increases.

Quality Called Standard

"Although we may have to do away with some of the glamour," he said, "we will not sacrifice any of the fundamental qualities through substitution of materials."

Chief Metallurgist R. H. McCarron of the Ford Motor Co., which has eliminated aluminum entirely from its 1942 models, has emphasized that cars may cost more to build and doubtless will be slightly heavier.

"But," he said, "either the car nor the truck will contain any inferior substitutes."

The problem of replacing aluminum pistons does not exist for Chevrolet, Plymouth and Ford—the three largest selling motor cars.

Chevrolet has used cast iron pistons since 1912 and doesn't plan to change now. Plymouth has a new, lightweight iron piston. It formerly used one fashioned from cast iron. Ford has made 22,000,000 steel pistons over a long period of years and likewise does not plan to change them.

Nickel Saving Large

Besides eliminating all primary aluminum, Ford reported a 90 per cent saving in nickel and a 70 per cent reduction in use of secondary aluminum. Chrome or carbon steel has replaced nickel in valves, bearings and gears in Ford cars. Steel stampings have replaced aluminum die cast parts, such as radiator grilles.

Wider use of Amolite steel, a high quality alloy steel requiring no imported materials, has reduced use of chrome or nickel steel alloys in Plymouth's basic structural design to less than 14 ounces. Amolite was developed by Chrysler metallurgists.

Packard has aluminum pistons in its first 1942 models but is prepared to switch to cast iron pistons as soon as necessary.

Nash reports a 40 per cent slash in gasoline consumption in its "600" series through adoption of the monocoque aircraft construction principle.

C. I. McCuen, General Motors vice president in charge of engineering, believes it's "anybody's guess" when the firms would show its next new models. When they are built, he said, there will be many changes, including greater use of rubber, plastics and of synthetic materials. Use of 100 octane fuel, McCuen believes, will be "general" after the war, yielding more power with greater economy.

West Texas Fair Ready For Opening

ABILENE, Sept. 25 — Annual West Texas fair, here in Abilene, to reflect business and agricultural progress of the area for 1941, is ready for its opening Monday, with all signs pointing to a record year for exhibits and attendance.

The part West Texas is playing in national defense, and Pan-American themes are emphasized in many ways, with the spectacular parade, set for 10 o'clock next Monday morning, on opening day, scheduled to picture both in decorated floats, and in pageantry.

Already entered are bands from Merkel, Albany, Menard, Lott, Knox City, Winters, Roscoe and Ranger, together with the musical organizations from Abilene high school, and the local colleges, Abilene Christian, McMurry and Hardin-Simmons. Visiting bands will compete for cash awards of \$50, \$25 and \$15, and all will receive a loving cup.

The third annual all-Palomino horse show will be the first major feature of the fair to get under way, with its first showing, before the grandstand, at 2:30 Sunday afternoon. Succeeding shows will be Monday and Tuesday afternoons at the same hour, and Tuesday night at 8.

More than 100 registered Palomino entries are in, and the Palominos will participate in the fair parade Monday. An innovation will be the quarter horse show, a new attraction this year.

Tuesday night, the showy Stars Over America Revue, with Nick Stuart's band of radio and screen fame, will begin a nightly performance, to continue through the rest of the week.

'42 Chevrolet Styles Feature Massiveness

New massiveness, contributing to the smartest styling ever designed for the nation's top sales volume motor car, characterizes the new Chevrolet offering for 1942, on display for the first time here today at the Lone Star Chevrolet Co.

The car is presented in three lines ranging from an economy model that incorporates unusual refinements to a luxury line surpassing all previous presentations in the lowest-priced field. The car is presented in the master deluxe and special deluxe series and the Fleetline series.

Such attention to finished detail apparent in the exterior holds for the interior, utilizing smart styling, fine materials, and brilliant design.

Though the wheelbase on all models is unchanged from 1941, remaining at 116 inches, but styling has set the over-all length at 136 7/8 inches. This gives a long, low, sleek car with sweeping lines with a generally rugged appearance. Complete new front-end treatment does much to convey an impression of greater size and increased sturdiness.

Because the unusually successful Chevrolet engine developed for 1941 is retained with only minor refinements for the new year, power output is virtually the same, assuring the same high performance. Axle ratios are unchanged, insuring the same efficiency in acceleration and fuel and oil economy.

Chevrolet's time-proved hydraulic brakes now carry a mechanically operated stop-light switch, replacing the former hydraulic-operated device. The new switch eliminates all possibility of fluid leakage resulting from failure of the stop-light switch.

The unique vacuum-powered gear shift originated by Chevrolet and a Chevrolet feature through the past three years, is retained for 1942. New accessories specifically for 1942 models include a new wheel disc, painted white, which creates an effect strikingly similar to that given by white sidewall tires.

The machine used resembles a small portable radio. Electrodes that look like a head-phones set are fitted across the patient's head at the temples.

The patient lies on an ordinary hospital examination table which is insulated and padded. Electrode jelly is rubbed into his temples to stimulate blood circulation, and gauze moistened with a saline solution covers the electrodes. So perfect contact.

Experience in the hospital indicates that 70 volts generally produces the desired convulsion in one-tenth of a second. Physicians say the patient returns to normal in less than a minute. He is said to suffer no pain during the treatment and no after-effect.

Metraxol convulsions are so violent that patients have been known to dislocate limbs and pull muscles loose. Soreness and other after-effects persist for days. "Immediate improvement has been shown by all patients on whom the treatment has been used," Dr. Hickman said. "At the present time two treatments each week are administered. "We are now certain that within a few weeks some of those now being treated will be released, either cured or so improved that they again can take a normal place in life. Others will be able to advance into better phases of hospital life."

Lamesa Fairground Prepared For Show

LAMESA, Sept. 25 (Spl)—Repairs and remodeling are underway on fair ground buildings for the annual Dawson county fair, October 23, 24 and 25. Fair officials are planning to make all fair facilities more or less permanent structures.

Permanent display booths are being built in the main building. Individual livestock pens have been constructed. The livestock building is ready to accommodate 75 head of registered Hereford and Jersey cattle and 200 head of registered hogs.

Plans are to have inside space for all exhibits. A building has been put into use for commercial exhibits.

'Prisoners Of Hope' Is Sermon Subject

Taking his text from Ecch. 9:12, Evangelist E. H. Matthews addressed a large congregation at the Church of the Nazarene revival Wednesday evening on "Prisoners of Hope."

To the "prisoners of hope," he said, "God can set you free. There is hope because Christ died for you, someone is praying for you, the Holy Spirit is working for you, the gospel is still being brought to you and you still have feeling."

Thursday evening the Rev. John L. Knight, superintendent of the Abilene district, will be in the service.

More than 1,400,000 vacuum cleaners are produced yearly in United States factories, according to the Census Bureau. The latest reports include 1,091,800 floor cleaners of the bag and tank types and 352,400 hand dusters.

Mr. Robert J. Rich, Route 2, Lubbock, Texas, states: "I have been a chronic sufferer of nervous indigestion, sourness, gas bloating and fainting spells."

SPORTS ROUNDUP

By HUGH FULLENTON, JR.
NEW YORK, Sept. 25. (Special News Service)—The figures say the Dodgers can clinch that pennant today, but our hunch is that they won't do it before Saturday—if they survive the victory party the fans are planning for Friday night.

... Joe Louis has asked for two weeks' delay before he takes his army physical examination. He wants to see the world series and "rest up just a little bit" after all his training. ... Bob Wakeland, brother of Dick (448,000) Wakefield, has entered the U. of Illinois and will be a candidate for freshman baseball next spring. ... Katie Jenkins has a rival in Toby (Mrs. Jimmy) Hatcher, who works in her husband's corner at fights, gives the orders and uses methods like Katie's famous frying pan to see that they're obeyed. ... Max Baer is coming east to see the Louie-Nova fight and then he's going to try to get the navy to take him on as a physical instructor. ... With two days off from regular games, Ted Williams plans to spend his time getting some batting practice just to make sure his average won't fall below .400.

Quota, Unquote
Last winter, when the Milwaukee Brewers were looking for a first baseman, Larry MacPhail told them: "I can't let you have Jim Wendell because Donnell can't stand the 126-game grind any more. He's getting along in years."

FIRST I'LL TRY A COUPLE OF TURNS TO TEST THE RUBBER AND REAR FINS...

SAY... I THOUGHT THAT BAD ANGELS HAD HER LAD UP!

DADDY, LOOK!

I AM! HNT THAT SHIP A MONEY!

ALL RIGHT, IF YOU'RE TOO BUSY, I'LL LOOK INTO THIS MYSELF!

WHAT CAN I DO FOR YOU, MISS DANNERS?

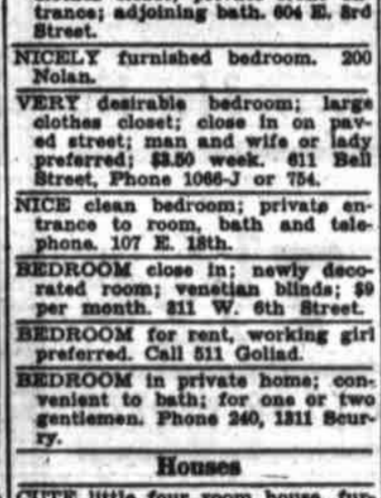

I'VE GOT TO SPEAK TO YOU! IT'S URGENT!

I'VE READ MANY OF YOUR NEWS STORIES ABOUT SUPERMAN'S ACTIVITIES. I THINK THEY WERE FINE.

THANK YOU. I DON'T REALIZE YOU NUMBERED AMONG MY FANS.

I'VE IMPROVED MY INFORMATION FOR SUPERMAN. I KNOW THAT YOU ENCOUNTER HIM OFTEN AND TO LACK YOU TO PASS ON HIM THE REQUEST THAT HE COME TO MY HOME TONIGHT.

ALL BE SURE TO TELL HIM THAT... I SEE HIM!

I'M POSITIVE MY LITTLE STRATEGEM WILL WORK! I DIDN'T BAZIN THE NAME "BLOOD THIGERS" FOR NOTHING!

MEAD'S fine BREAD

PATSY

PATSY AND VERONICA HAVE ARRIVED AT THE STUDIO AND BEEN TRANSFORMED INTO CHARACTER...

WELL, EVERYTHING'S ALL SET—WE'RE READY TO SHOOT... SO HERE GOES—

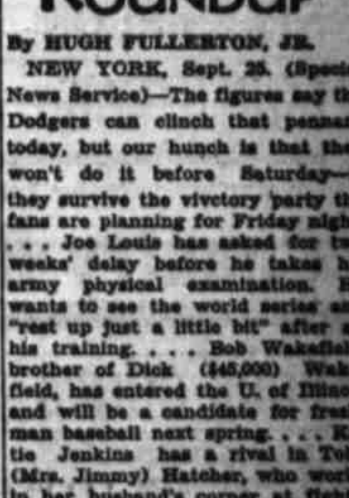

GOOD LUCK, DARLING!

CONFIDENTIALLY, MAC, I GOT PLANS WHICH'LL EITHER MAKE OR BREAK THIS PICTURE... AN' ME, TOO—SO Y'GOTTA KEEP MUM AN' STICK WITH ME THROUGH THICK AN' THIN!

IT'S A DEAL!

WE'LL BE KEEPIN' OUR FINGERS CROSSED!

YOU'RE WORN OUT BILL! LET'S STOP FOR COFFEE!

WHEW! I AM TIRED! SAY, OH! THIS COFFEE'S SWELL!

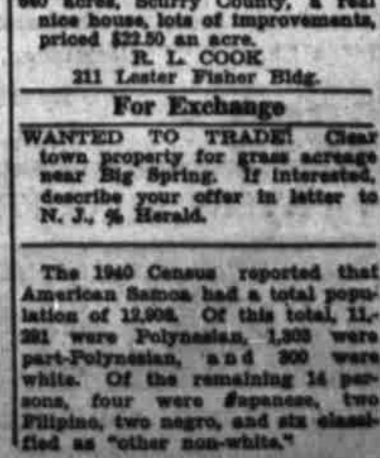

IT IS GRAND! HMM—"MOUNTAIN COFFEE HOUSE" ... I WONDER!

IS THIS THAT MOUNTAIN-GROWN COFFEE I'VE HEARD ABOUT?

YES, MA'AM! THAT'S FOLGER'S! REAL MOUNTAIN-GROWN COFFEE! EVERYBODY SURE GOES FOR ITS VIGOROUS FLAVOR!

BUT ISN'T IT EXPENSIVE TO SERVE SUCH GOOD COFFEE?

NOT FOLGER'S, MA'AM! IT'S GOT SO MUCH FLAVOR WE USE 1/4 LESS!

The very fact so many restaurants serve Folger's proves cents more per pound—but much extra flavor—over 7,000 women say they use 1/4 less coffee! Why serve lowland coffee (up to 3 out of 4 are roasted) when it's so economical to enjoy Folger's?
