

United States Has No Draft Today For First Time In 23 Years

WASHINGTON (AP) — America was a nation without a draft today for the first time in 23 years due to a congressional deadlock over attempts to force U.S. withdrawal from the Indochina war.

House-Senate conferees broke off efforts Wednesday to compromise Senate Democratic Leader Mike Mansfield's amendment to a two-year draft

extension bill and scheduled no further meetings until July 7.

Mansfield indicated he will not compromise his amendment providing a negotiated pullout nine months after enactment of the draft bill in return for release of American prisoners.

The Selective Service System halted drafts of all men, except doctors, and notified registrants part way through the induction

process to await further instructions.

The Pentagon's 16,000-man call for July and August is being held back in Washington, but Defense officials have showed no concern of falling short of manpower needs while the draft is in limbo.

The Selective Service System still can register 18-year-olds while awaiting a new draft law. It was the first lapse in the

draft since 1948 when Congress had purposely let it expire for a year during the post-World War II peace.

The conferees reached agreement on all 27 other differences, including a student deferment halt, a \$2.4-billion pay raise and a \$3,000 combat

The compromise draft bill would authorize President Nixon to abolish student deferments—but permit student's de-

ferred in the 1970-71 academic year, even freshmen, to complete their undergraduate study.

The \$2.4-billion pay hike, effective Oct. 1 to attract a volunteer army, would give most of a \$1.8-billion money raise to new enlisted men and junior officers and earmark most of a \$600-million living-allowance increase to senior servicemen.

The three-year civilian serv-

ice requirement for conscientious objectors was cut back to two years.

The compromise bill also would:

- Defer divinity students but make them eligible for the draft if they do not become ministers.
- Require identification, treatment and rehabilitation of drug addicts in the military.
- Require local draft board

members to represent as nearly as practical the racial and minority makeup of their areas.

- Deny right to counsel at draft appeal hearings but grant other appeal rights proposed by Sen. Edward M. Kennedy, D-Mass.
- Set a 130,000-man ceiling on the draft for the 1972 fiscal year starting today and a 140,000-man ceiling for fiscal 1973.

"What is a Communist? One who hath yearnings for equal division of unequal earnings. Idler or bungler, or both, he is willing to fork out his copper and pocket a shilling."

War Story Publication Resumes

By THE ASSOCIATED PRESS

The New York Times and The Washington Post resumed publication of their series on the Pentagon's secret Vietnam war papers today after the Supreme Court decision favoring press freedom over government secrecy.

The court ruled 6 to 3 Wednesday that the government had not proved the national security would be damaged if the two newspapers published certain classified documents from the 47-volume study.

With all nine justices stating their views, the majority held that any attempt by the government to block news articles prior to publication bears "a

heavy burden of presumption against its constitutionality."

The three dissenters—Chief Justice Warren E. Burger and Associate Justices Harry A. Blackmun and John M. Harlan—said the court had acted too hastily.

As the decision freed other newspapers from lower court injunctions banning publication of articles based on the documents, there were these developments:

- The Associated Press, in a story based on portions of the Vietnam report released by Sen. Mike Gravel, D-Alaska, reported that two months before the 1964 Tonkin Gulf incident, President Johnson's advisers discussed a possible attack on

North Vietnam's torpedo boats as a way to give "a big lift to the South Vietnamese morale."

- The Times reported the study shows President John F. Kennedy transformed the "limited-risk gamble" of the Eisenhower administration into a "broad commitment" to prevent Communist domination of South Vietnam.
- The Post said in its account of the study that the Kennedy and Johnson administrations feared in 1963 and 1964 that the United States might be forced out of Vietnam without victory by "pro-French" factions in Saigon seeking a neutralist peace.
- The Boston Globe said the study showed the Defense De-

partment's Office of Systems by Gen. William Westmoreland, then commander of U.S. forces in Vietnam, for big troop buildups there.

- The Christian Science Monitor said in its third and final installment on the Pentagon papers that the fall of mainland China to Mao Tse-tung in 1949 triggered the U.S. plunge into Vietnam.
- Analysis fought 1967 requests — The St. Louis Post-Dispatch reported that early in 1968 Gen. Earle G. Wheeler, then chairman of the Joint Chiefs of Staff, fought against efforts of Defense Secretary Clark H. Clifford and others to curb American military action in Vietnam.

The Times said that on the day Kennedy decided to send in Special Forces—May 11, 1961— "he also ordered the start of a campaign of clandestine warfare against North Vietnam, to be conducted by South Vietnamese agents directed and trained by the Central Intelligence Agency and some American Special Forces troops."

The study does not analyze the covert actions in detail. The Times said, "but it shows Mr. Kennedy's decisions as part of an unbroken sequence that built up to much more ambitious covert warfare against North Vietnam under President Johnson in 1964."

The Pentagon study shows,

that Kennedy knew, and approved of plans for the coup that overthrew South Vietnamese President Ngo Dinh Diem in 1963. Diem and his brother, Ngo Dinh Nhu, were killed trying to escape.

The Times said the coup provided Washington with a chance "to have reconsidered the entire commitment to South Vietnam and decided to disengage," according to the study.

At least two Kennedy administration officials favored disengagement. The Times said, "but, according to the Pentagon study, it was never seriously considered a policy alternative because of the assumption that an independent

non-Communist SVN was too important a strategic interest to abandon."

The Post said, in its article dealing with fears of a "pro-French" movement, that the American government in 1963 and 1964 was most concerned with how to stay in the war, rather than how to get out, according to the documents.

The call by French President Charles de Gaulle for "neutralization of South Vietnam. The Post quoted the documents as showing "was met by the United States with deeper entrenchment in the country."

In a second article on the Pentagon study published today, the Post said that in 1961 (See WAR STORY, Page 2)

RIGHT AND WRONG — Lighting fireworks can be dangerous if not done properly. Roy Don, nine, and Mona, eight, son and daughter of Mr. and Mrs. Sammy J. Parsley, 845 Denver, show the right and wrong way. In the photo at left Roy Don is doing it wrong with a bor-

rowed cigarette. At right he's using a long punk stick which eliminates danger of being burned or having the firecracker explode in his face. Using a match is even more dangerous.

Warning Sirens Test Okay, But More Are Needed

Pampa's two new disaster warning sirens were tested yesterday afternoon and did what they were designed to do, according to City Engineer Jerry Harris.

Four or five more of the sirens will be needed before there is adequate city-wide warning coverage, Harris said.

The sirens tested Thursday are located in the northeast and southeast portions of the city.

They were heard in practically all areas east of Hobart St. by gollers at the Pampa Country Club and by posted listeners at W 27th St. at the north city limits and McCullough St. south city limits.

West of N. and S. Hobart Sts. there was only spotty audibility.

The sirens activated yesterday consisted of the one atop the Hughes Bldg. downtown and the two newly-installed signals off E 22nd between Aspen and Beech and in the alley just north of Albert and east of S. Somerville.

"We hope to be able to budget enough money so four or five more sirens can be added," City Manager Mack Wolford said.

COMMUNITY ALERTED

Grand Jury Issues Indictment Against Pampa Drug Problem

By TEX DEWEESE

Substantial evidence that illegal sale and use of drugs is prevalent in the Pampa area was presented to the Gray County Grand Jury which ended its January-June term yesterday, according to a report submitted today by Clyde Carruth, jury foreman.

The grand jury reports that it investigated numerous criminal matters in the county, "a large portion of which have dealt with drugs."

The report states Pampa's drug problem "involves some adults, at least 5 per cent of high school students and some junior high school students."

The report goes on to say: "We strongly suspect we have observed only the tip of an iceberg and that the rate among high school students and visiting

college students may be as high as 50 per cent."

The grand jurors stated they were "appalled at the seemingly apathy and ignorance shared by parents and teachers and added that they sensed a credibility gap between teen-age users and adult non-users "who have never experienced a high and who erroneously believe some of the less harmful drugs (especially marijuana) necessarily lead to addiction, crime, immorality and bizarre behavior."

The grand jury report states jurors have been informed marijuana is sometimes smoked in school restrooms and that a few students have attended classes while "stoned."

"Our conclusion is," the report says, "that neither teachers nor parents are able to recognize drug symptoms and would not know what to do if they did."

The 4-page report cites

numerous first steps parents should take in attacking the drug problem, especially in becoming informed.

It states the belief that dealers in drugs here obtain their supplies from sources in Oklahoma City, Dallas, and other cities.

"Bigger, however," the report says, "is a principal suspected source."

The grand jurors commend Pampa police, sheriff's department and Dist. Atty. Guy Hardin for efforts in trying to control the illegal sale and use of drugs.

Adults were advised to become involved in the drug advisory board recently named by the City Commission.

More funds are needed to combat drugs, the grand jurors said.

Says the report: "Parents are the key to the

7.8 Inch Of Rain Recorded Here

June ended and July was ushered in with soaking rains which were commonplace across the Panhandle during the late afternoon yesterday and early this morning.

Pampa officially recorded 7.8 of an inch of moisture.

Severe weather which plagued a portion of the High Plains by-passed Pampa as the storm clouds moved eastward across the Top of Texas.

Power failure was reported in Canadian as high winds raked the area, ushering in a three-inch deluge of rain.

Small hail was reported in the northern tip of the Panhandle and unconfirmed twisters were reported in the Dalhart-Hartley area.

INAUGURATION DAY — Carl English, Pampa postmaster, displays new stamps issued today to mark the inauguration day of the United States Postal Service, now an independent arm of the government. The stamps carry the new name, displacing the usual U.S. Post Office Department tag familiar to citizens. Souvenir envelopes, stamped with the new mark, were handed out by the office as long as the supply lasted today.

(Staff Photo)

City Policeman Gets Suspension

A Pampa police officer, Bryan L. Stafford, has been suspended for three days beginning July 5, as a result of investigation into an incident involving the arrest of a Pampa youth, Thomas R. Hoover, June 18, according to Police Chief Jim Conner.

Chief Conner stated in the suspension announcement the departmental action was taken following a thorough investigation of the incident which occurred at a carnival in Coronado Center.

Chief Conner said investigation revealed Stafford had used "undue force in arresting the suspect following an affray report."

Hoover was charged with assault on another youth and pleaded not guilty in Municipal Court on June 21. Trial was set for July 7.

FROM 22.1 TO 25%

Texas House Insurance Boosted

AUSTIN (AP)—Homeowners' insurance rate increases averaging from 22.1 to 25 per cent have been ordered by the State Insurance Board, effective today.

The board also boosted fire insurance rates on homes by 7.1 per cent and raised extended coverage rate on dwellings an average of 19.3 to 25 per cent.

For all buildings — including commercial — the increases are 5.2 per cent statewide for fire insurance and from 19.7 to 25 per cent on extended coverage.

Actual rates vary according to a building's construction use and location.

Fire insurance rates are set on a statewide basis, then adjusted according to "points," reflecting a city's fire experience.

In the seacoast territory — 28 counties in two tiers along the Gulf Coast — homeowners' policies and extended coverage for dwellings will increase 25 per cent each.

A 25 per cent increase in homeowners' and extended coverage on houses also was ordered for the north-northwest inland territory, which includes

the Panhandle, Midland, Abilene, Odessa and Lubbock.

Homeowners' rates will rise 22.1 per cent and extended coverage will increase 19.3 per cent on dwellings in the central territory, which takes in most

County Commissioners Hear Request Of Airport Board

Gray county Commissioners today approved an order directing County Clerk Wanda Carter to notify taxpayers whose properties are raised.

The Airport Board, represented by Ralph Prock and Stu Youngblood, asked that the court consider a hanger rent rate increase. The present rental requirement is four cents per foot. The board asked for six-cent hike to 10 cents per foot.

Department of Public Safety officers, Jim Powell and Ken Evans, presented a request for additional radar type traffic control units. The court authorized the leasing of another unit for use in DPS units in the area.

White Deer Horse Show Tomorrow

Leroy Ascraft, Fort Worth, will begin judging quarter horses entered in the Carson County Quarter Horse Show at 8 a.m. tomorrow in the White Deer Rodeo Arena.

The show will begin with junior and senior cutting to be followed by open and youth halter classes. Afternoon judging will be of the performance classes.

Trophies will be awarded to the second through sixth place winners in the 36 classes. Winners in the open show will receive riding equipment.

This show is approved by the American Quarter Horse Association.

Smith Lauds Ohio Court Ruling On Loans To Political Candidate

AUSTIN (AP)—Gov. Preston Smith says it seems to him the Justice Department is "more concerned with catching and convicting criminals" than with catching and convicting politicians.

Smith gleefully commented Wednesday after an Ohio federal judge ruled that a law barring national banks from making loans to political candidates is unconstitutional.

The Ohio ruling, if it stands, is expected to have a bearing on a federal grand jury indictment against the Frost National Bank, San Antonio, because of a \$7,500 loan to the 1970 election campaign of Smith. The bank's attorneys asked earlier this week that the indictment be dismissed on the grounds it was politically inspired and discriminatory.

U. S. Dist. Judge Joseph P. Kinneary ruled in Columbus Wednesday in the cases of two of four national banks indicted in Ohio for making loans to political organizations.

"Prohibition of fully secured loans made at normal bank rates in the ordinary course of business places an unreasonable restraint on the first amendment rights of individuals," Kinneary said, then dismissed the Ohio indictments.

Smith, who is considered a likely candidate for a third term in 1972, said the ruling "should once again indicate to the people of Texas and the entire nation that their instruments of justice are being perverted and manipulated by the Republicans in Washington for partisan political ends."

"In light of this Ohio decision, I demand that U.S. Asst. Atty. Gen. Will Wilson, and the Justice Department cease their political harassment of the Democratic party of Texas and drop all charges against the Frost National Bank," Smith said in a long statement issued from the governor's office.

"This politically motivated indictment of one of the most respected financial institutions in Texas was unconscionable from the beginning. The case was prepared and pursued simply because this bank made a completely legitimate, fully secured loan, which was quickly repaid, to a campaign committee working on my behalf in the 1970 election."

"It seems quite clear to me that I have been marked for political assassination so that the Republicans will have a better chance of winning Texas in the 1972 elections," Smith said.

25 Firms Enter Fashion Review, Beauty Pageant

With two weeks remaining before the July 15 deadline, 25 firms have indicated their participation in the Miss Top of Texas Pageant in Pampa Aug. 14.

The show, consisting of a fall fashion review and beauty pageant, will be held in the Robert E. Lee Junior High School Auditorium at 3 p.m. Saturday, Aug. 14.

Firms wishing to show fashions or sponsor a contestant in the Beauty Pageant should get their entries in by the July 15 deadline, according to Doug Coon, director.

Obituaries

LEWIS JOHNSON
Funeral services for Lewis W. Johnson, 62, of Ardmore, Okla., were held Monday in Ardmore with burial in Lone Grove Cemetery.

Mrs. Johnson's brother of Mrs. A. N. Rogers and Mrs. Grant Anderson, both of Pampa, died Sunday after a lengthy illness. He was a retired employee of Southern Producers Oil Company.

Survivors include his widow, Vivian, of the home; four sons, Carl E., of Pampa, Robert of Houston, Ben of Arlington, and Doug of Euless; three brothers, Bill of Pampa, Arvil of Dumas and Thad of Odessa; and three other sisters, Mrs. B. C. Day of Odessa, Mrs. J. W. Smith of Lone Grove, and Mrs. Faye Stalcup of Wichita Falls.

Elk City Key Club Sponsors 6th Annual Tennis Tourney

Pampa area tennis players are invited to participate in the Elk City, Okla., Key Club's sixth annual 4th of July tennis tournament, Saturday and Sunday. The tourney is held on the city park and high school courts and begins at 9 a.m. Saturday.

Finals will start at 1 p.m. Sunday. Advance registration may be made with Andy Hall (area code 406-225-0753) Elk City. Advance entry fees are \$1.50 for entries to age 18 and \$2 for ages 18 and up.

If fees are paid Saturday morning from 9 a.m. to 10 a.m. at the entry desk in City Park they will be \$2 and \$2.50 respectively. Competition includes girls singles (18 or under), boys singles and doubles (18 or under), women's, men's and mixed doubles.

Trophies will be awarded to winners and medals to all runners up. Featured with this year's tourney will be exhibition and tennis instructions from Scott Martin, three-time Big 8 conference singles and doubles tennis champion from the University of Oklahoma. Martin is also the starting play maker guard for the OU basketball team.

AT DALLAS COUNCIL

Mexican-American Leaders Meet To Protest Proposal

DALLAS (AP)—Mexican-American leaders were to meet today with the Dallas City Council to protest a proposal that they be ethnically identified as Anglo for school registration purposes.

The dispute over redesignating Mexican-American children as Anglo or "white" is coupled with an integration suit brought by the federal government against the Dallas Independent School District. The City of Dallas has resolved to enter the suit with the school district which has started a new controversy.

Mexican-Americans seeking to maintain a distinct cultural identity fear a loss of the integration impetus and other constitutional guarantees should they be considered Anglo.

Dallas School Supt. Nolan Estes said in a disposition Tuesday that Mexican-Americans are not an ethnically identifiable group.

Doug Larson, an attorney for the Dallas Legal Services, asked Estes if he thought former board member Trinidad Garza is a Mexican American.

"I don't know whether he is a Mexican-American or not," Estes responded. "We have no way of knowing if a person with a Spanish surname is a Mexican-American. We can only assume."

But Larson countered Wednesday that Estes' contention is wrong.

Gunn, 1319 Williston, for scholastic achievement qualifying for the Dean's Honor List. This certificate is awarded only to those students who have attained a grade-point ratio of 3.0 or better during the past semester.

Racing Pigeon Club Names Delegates To Texas Center

Top of Texas Racing Pigeon Club will meet at 7:30 p.m. Thursday at 405 Roberta to discuss the Texas Center Convention and to submit reports of racing results.

Three members will attend the Texas Center Convention in Dallas July 16 and 17. Pampan attending will be Jim Cantrell, Raymond McPhillips and Gordon Miller. Delegates will

attend from Texas, Oklahoma and Louisiana.

The club completed the last half of the present series with a 600 mile race from Lake Charles, La.

The club flew 12 races in the old bird series, with members winning in the last six races. Winners of the 300 mile race from Dallas were R. W. McPhillips and his son, Larry; the first Lake Charles race by A. P. Coombs, and another 300 mile race by Vernon Brantwein.

Brantwein also won first in the 543 mile Houston race, with nine birds competing. Pampan entering birds were Jim Cantrell, two; McPhillips, one; Brantwein, two and Coombs, three.

Club members are planning an awards banquet soon which will be open to the public.

Members are training their young birds for the September races which will be flown from the northwest course, with Raton, N.M., race of 200 miles the longest race.

Joe Miller and Clyde are two of the club's newest members who will be competing in the Fall races.

War Story...

(Continued From Page 1)
Kennedy ordered his ambassador to Vietnam to tell President Diem the United States was prepared to join his government in a sharply increased effort to avoid a further deterioration in the situation in South Vietnam.

A third article by The Post said the Kennedy administration's refusal to save President Diem from the coup that overthrew him was part of a thoroughly planned policy of the U.S. government.

The AP reported the study indicated the specter of a national humiliation over Vietnam haunted the Johnson administration more than any other single issue after the United States entered the war.

In late June 1965, when Johnson was nearing a decision to boost the U.S. troop commitment in Vietnam from 70,000 to 200,000, the Pentagon papers said, Undersecretary of State George Ball cautioned the United States was on the brink of a military and political disaster.

President Praises Turkey's Plan To Eliminate Opium Production

WASHINGTON (AP) — President Nixon personally announced today a plan by the Turkish government to eliminate by mid-1972 the production of opium poppies estimated to account for 60 per cent of the illegal heroin used in the United States.

Appearing before newsmen at the White House, Nixon said the action by Turkey is "by far the most significant breakthrough that has been achieved in stopping the source of supply of heroin."

The President called the move by Prime Minister Nihat Erim a very courageous and statesman-like action.

Flanking him as he spoke were Secretary of State William P. Rogers and Mielih Esenbel, Turkey's ambassador to the United States.

Esenbel told newsmen that halting poppy production—a legitimate agricultural enterprise in his country for many cen-

turies—certainly will cause "internal problems" and "some economic dislocation."

Rogers said the United States will provide money and technical assistance to help Turkey replace poppy production with other cash crops. He said the amount of such aid is yet to be determined.

The secretary estimated the annual value of Turkey's poppy crop at between \$3 million and \$5 million.

First National Bank Employs Promoted

Two promotions at First National Bank were announced today by Floyd Watson, president.

Wayne Wilson and Monte Michael were promoted to assistant cashiers at a meeting of the bank's board of directors Tuesday afternoon.

Watson said Wilson and Michael have been with the bank's installment loan department for the past two and one-half years.

62nd State Legislative Session Authorizes 177 Interim Committees With 1,288 Members

MUSTIN (AP)—If you think the legislature has done all the damage that it can to your pocketbook until it meets again, you have forgotten about study committees.

The regular and special sessions of the 62nd Legislature authorized 177 interim committees, with 1,288 members, each of whom may charge the state for his travel expenses, plus up to \$35 a day whenever his committee meets.

And this membership total leaves out two House committees and two Senate committees whose composition is not specified in the authorizing resolution.

There are many duplications. Rep. Joe Hubehak of Rosenberg won passage for a resolution calling for a committee study "solid waste disposal." Rep. Dan Kubiak of Rockdale successfully pushed for one to study "solid waste."

Rep. Henry Sanchez of Brownsville authored a resolution for a committee on "jai conditions." Rep. Joe Allen of Baytown got one on "city and county jails."

One committee is to study "cosmetological, electrology" and another is authorized to look into the subject of "hairdressers and cosmetologists."

"Reform in county government" is the subject of one committee. Another committee was named to examine "local government." A third is set to probe "county government."

One committee was named to study an "educational microwave network." Another is authorized to investigate an "educational television system."

Nine committees were named to examine some aspect of the insurance industry. Most of them deal with automobile insurance. Three are named to study no-fault auto insurance.

Seven committees are named to study some facet of technical-vocational education; 11 for environmental matters; three for state aid to private colleges.

Two committees are almost sure to draw the opposition of professors. One, by Rep. Dean Cobb of Dumas, who authored several campus disruption bills, would look into methods of getting the "optimum productivity of college teachers." The second by Rep. Walt Parker of Denton would study "minimum classroom hours" for teachers in state senior colleges.

Because of the duplications, and for other reasons, the number of committees actually named by the lieutenant governor and the speaker probably will total less than 40.

That still will add up to a lot of tax money for staff and member expenses.

Several of the committees be expected to hold meetings on the same weekends this fall that the University of Texas plays football games at Austin. Some of them might even meet in other cities where Southwest Conference games are played—when the Longhorns play Oklahoma in Dallas, for example.

Other subjects designated for study include the safety of plastic pipe and the feasibility of a state employe suggestion program.

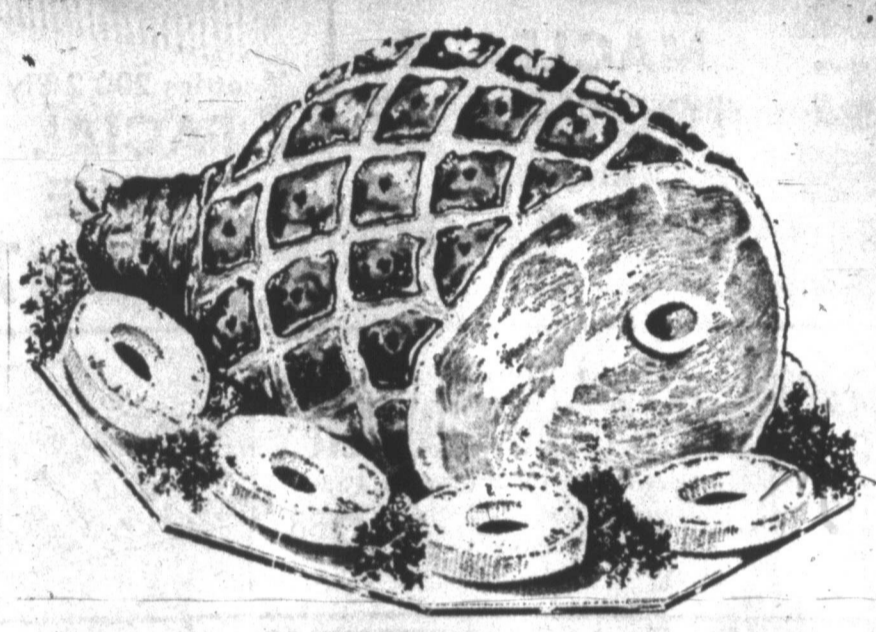

One deals with the rat problem in the Capitol, then goes further:

"The committee shall be charged with the responsibility of controlling and eradicating all insects, varmits and pests which inhabit the halls of the Texas State Capitol, including ants and arthropods, bats and beetles, crickets and cockroaches, rodents and reptiles, worms and weasels, and any other undesirable Capitol creature which flies by night—or day—or which stalks the stately halls of the Capitol in search of innocent victims without a clearance pass, regardless of whether such creatures are four-legged, two-legged or multi-legged."

The lawmakers are not talking about themselves in this resolution because they all have clearance passes.

Some lobbyists may think this resolution is a clear case of "done stopped preachin' and gone to meddlin'."

PAMPA DAILY NEWS PAMPA, TEXAS 6th YEAR
Thursday, July 2, 1972

By Abigail Van Guree

DEAR ABBY: I am a man, 64 years old. I retired two years ago and I am very lonely. You see, my wife, who is 60, took a job selling in a retail store some years back because she wanted to do something more exciting than just housework. Her selling job paid poorly, but she never quit because she says she enjoys selling. Her boss is about 50, and she eats his flattery. She enjoys the attention of any man who is younger than I am.

I had hoped that after my retirement my wife and I could travel and live out our golden years in pleasure and relaxation, but she refuses to quit her job. She has no appreciation for the security I up have worked all my life to provide for her.

Should I dissolve our marriage now and try to find some lady who would be happy to give up her job to travel and enjoy retirement with me?

LONELY IN K.C.
DEAR LONELY: Perhaps if you put it to your wife just that way, your problem would be solved. She's a foolish woman to spend her days "selling" while you are free to spend your days "shopping."

DEAR ABBY: My husband is of Italian descent and he has a friend who is also Italian. His name is Dino. When Dino comes over, which is quite often lately, the two of them greet each other with a warm embrace, and they kiss like a man would kiss a woman. My husband tells me that this is an old Italian custom as the Italians are very affectionate people. I am not Italian, but I have known a lot of Italians and I have never seen this done by two men.

My husband and I are both middle-age and have been married less than two years, and he shows more enthusiasm when he kisses Dino than when he kisses me. Should I worry?

RHODE ISLAND READER
DEAR READER: Affectionate men of all nationalities will sometimes greet each other with a firm embrace. But kissing "like a man would kiss a woman" is something else. Worrying won't help. Ask your husband to state his preference.

DEAR ABBY: A young woman I've been dating for several months has just informed me that nothing is going to come of our little romance. That doesn't bother me nearly as much as her reason. She said—now get this, "You are too nice a guy."

Abby, why is it that today's women want a man who treats them rough? Must a man slap a woman around to prove that he is a man? I certainly hope not because I never could mistreat a woman, and I doubt if I will ever change.

Please don't get the idea that I am some poor slob who has trouble getting dates because I'm not.

Who said, "Nice guys finish last"? He sure knew what he was talking about.

TOO NICE
DEAR TOO: Durocher said it. But don't believe it. (Leo is far from "finished" himself, so how would he know?)

DEAR ABBY: They have something new now. Instead of throwing rice at newlyweds as they leave the church, they throw tiny tissue paper hearts. These "hearts" come in a variety of colors and are about

Brenda Evans

Assembly Names Rainbow Leader For Texas Unit

Brenda Evans, member of the Norman Read Assembly, Order of Rainbow for Girls, was appointed grand representative from Mississippi to Texas at the 48th Grand Assembly in San Antonio. The term of office will conclude June 23, 1972 when the assembly will convene in Houston.

Miss Evans, the daughter of Mr. and Mrs. Robert P. Evans of Midland, and the granddaughter of Mrs. C. C. Organ and Mr. and Mrs. Kenneth Meyers, both of Pampa, was awarded the Grand Cross of Color for four years of outstanding service in the order. She is a junior at Lee High School and attends the Covenant Presbyterian Church in Midland.

Tackett Family Attends Reunion

About 45 family members and visitors attended the J. N. Tackett family reunion at Central Park Sunday with Mr. and Mrs. Tackett's seven children and their families present.

Those attending from out-of-town were Mr. and Mrs. Bobby Marlar, Perryton; Mr. and Mrs. J. C. Tackett, and Mr. and Mrs. T. H. Woodward, all of Tucson, Ariz.; Mr. and Mrs. C. C. Tackett, Amarillo, Mr. and Mrs. Earl Mullins, Stockton, Calif., Sgt. and Mrs. J. A. Tackett, Fort Hood, Mr. and Mrs. Roger Hedrick, Pampa. Seventeen grandchildren and nine great-grandchildren attended the celebration.

the size of a quarter. (I am enclosing one.) They cling to the trees, and they litter the church property until somebody cleans them up.

Rice was so much cleaner, could be enjoyed by the birds and what was left dissolved easily. But those little tissue paper hearts create such a terrible mess—just like confetti! Maybe if you will print this, it will help.

MINISTER, PA.
DEAR MINISTER: I'm anti-litter, too. But why waste good rice?

PLEASE PICK UP SLUGS! What's your problem??

Author Submits New Cookbook With Recipes By French Chefs

PARIS (UPI)—The third member of that three-woman team who wrote a famous book on French cooking is back at the front burner again—with a cook-book all her own.

The publication in the United States in 1961 of "Mastering the Art of French Cooking" was the work of Julia Child, an American, and Louise Bertholle and Simone Beck, both French-born. An immediate hit, the book may have done for French cuisine what spaghetti did for Italy.

Mrs. Child burst onto the U.S. television scene with a program to teach the masses how to cut,

truffles and blanch green beans and even got some of the credit for starting the wine-drinking trend in America. Mrs. Child, by now practically a household word in America, and Mrs. Beck last year published a sequel to "Mastering" but Mrs. Bertholle's name was missing from the cover.

The "missing" Mrs. Bertholle turns out to be not only alive and cooking well in Paris but bowing back into bookstores in autumn with her own hefty work, "The 363 Best Recipes from the Best Restaurants of France." Written in French, it

will be translated into other languages.

Mrs. Bertholle wangled recipes from every restaurant in France that has the three stars in the Michelin Restaurant Guide and many of those with two stars. One prize was the secret recipe for piece de boeuf a la royale from the Restaurant de Pyramide in Vienne. Laperouse in Paris parted with the formula for steak saute, the Auberge du Pere Bise in Talloirez contributed feuilletes aux ris de veau, and so on from other highly rated eateries.

Mrs. Bertholle urged all amateur chefs to go to a

cooking school because "You have to study enough to be able to do cooking easily. I don't believe in self-made cooks. You have to have a classical base."

Mrs. Bertholle does almost all the cooking at home.

"I miss cooking when I go on holiday," she said. "It's very important, cooking. A woman who really cooks has a different kind of house and family, a different way of life. My two children and my seven grandchildren always ask what we are going to eat and give me criticisms."

The cooking teacher often dines out with her husband in

"haute cuisine" or super-fancy restaurants because "I can do bistro food better at home." Her favorite Paris restaurant is Lasserre.

Mrs. Bertholle turned to her kitchen—spotless, large and modern—and started on dinner featuring roast duck with white peaches.

Young Frenchwomen have simplified cuisine these days because of the shortage of time, she said, but "French cuisine is not dying. There will always be French cooking. It is immortal."

Agent Reports Barbecue History

Barbecue, a magic word that suggests good eating outdoors with family and friends, is an age-old Indian practice, says Miss Jimmie Lou Waincott, county home demonstration agent.

Barbecue developed from an ancient practice of the Tupinamba Indians of Eastern Brazil. They slept on a wooden frame covered with palm fronds. The frame was placed on long poles to keep it above the ground and was called barbracat.

The Tupinambas also used a similar frame over an open fire to smoke and dry meat. About 1550, Hans Staden, a shipwrecked German, lived with these Indians and first reported the practice of barbecuing.

Washington Irving was the first American to use the word barbecue to describe a social event in 1809.

Today, barbecue means a simple meal with meat cooked over an open fire. The meat may be poultry, beef, pork, wild game or even fish. A lettuce or cabbage salad, pickles, beans, potatoes and dessert are usually served with barbecue.

Barbecue can be a big social event or simply backyard fun-time for the whole family. For information on barbecuing chicken, call 669-2671 and ask Miss Waincott to send you "Chicken Barbecue" publication MP-312 by Extension Poultry Marketing Specialists.

Liz's Potato Salad Has Two Dressings

By Cecily Brownstone
Associated Press Food Editor
A Milwaukee friend of ours who sometimes visits New York on business kept raving about his wife's potato salad. We began to yearn for a taste. Send us the recipe, we ordered!

Well, here it is and it lives up to the applause. It's a recipe that's been in the donor's family for generations — passed down from Wisconsin mother to Wisconsin daughter. "Each daughter," our friend says, "lives off her mother's recipe file."

What gives this potato salad its personality? For one thing, it gets two dressings: one featuring oil, vinegar and sugar plus seasonings; the other real mayonnaise. For another, it calls for a generous number of hard-cooked eggs.

In Milwaukee this is a salad for all seasons. In warm weather it's served outdoors with charcoal-grilled steak or assorted cold meats and cheese.

Sometimes it's toted to a family picnic or to a community get-together along with fried chicken. In cold weather the salad puts in an appearance at a Sunday night buffet supper along with a glazed ham hot from the oven.

LIZ'S POTATO SALAD
2 1/2 pounds potatoes, preferably new
one-third c. cider vinegar
1/4 c. corn oil
2 tbs. sugar
1 tsp. salt

1/4 tsp. pepper
4 hard-cooked eggs, chopped
one-third c. finely chopped onion
2 tbs. minced parsley
1/2 c. real mayonnaise
Cook washed unpeeled potatoes in boiling salted water just until tender.

Meanwhile in a small mixing bowl, with a fork, beat together the vinegar, corn oil, sugar, salt and pepper.

Corn Spoonbread Sparks Summer

One of the easiest spoonbreads to make for Sunday supper is a double-corn spoonbread recipe which can be combined with sliced cold smoked pork, salad, fresh cherries and beverage, for a Summer menu.

DOUBLE CORN SPOONBREAD
3/4 cup stoneground yellow cornmeal
1 teaspoon salt
1 1/2 cups milk
4 tablespoons butter, cut up
1 can (1 pound, 1 ounce) creamstyle corn
4 large eggs

Into a medium mixing bowl turn cornmeal and salt. Scald milk with butter; whisk into cornmeal mixture. Add corn. Beat eggs until thickened and pale yellow; whisk into cornmeal mixture. Turn into buttered square glass cake dish (9 x 9 x 2 inches) or similar utensil and bake in a preheated 350-degree oven until firm—30 minutes. Corn will be at bottom

and there will be a custard layer at top. Serve at once. Pass butter. Makes 6 to 8 servings.

The "marriage of the hot dog to the elongated bun is said to have taken place at the St. Louis Louisiana Purchase Exposition in 1904. A concessionaire loaned white gloves to his customers so they could hold his piping-hot wieners. Many of his gloves were never returned — and his overhead was running high. In desperation, he turned to a baker for help. A bun was produced to fit the meat — and the hot dog sandwich as we know it was born.

ARCTIC MEDIPOD—A CH-54B SIKORSKY "Flying Crane" waits on a runway at Ft. Wainwright prior to a flight to Dillingham, Alaska. The U.S. Army, Alaska, now has two "Flying Cranes" equipped with boxlike medipods. Fully staffed, the completely air-mobile medipod dispensary provides medical, dental and optometry service to soldiers in the field as well as to Alaskan natives in outlying villages.

NWU Research Group To Study Cotton As New Source Of Food

DENTON, Tex. (AP) — A newly established nutrition research group at Texas Woman's University will give expanded emphasis to studies of cottonseed as a source of food.

The studies are to be added to the numerous projects conducted by the University's Research Institute involving uses of cotton for clothing and household applications.

Both fiber and food studies are supported by the Natural Fibers and Food Protein Committee, formerly the Cotton Research Committee of Texas.

Texas Woman's University President John A. Guinn is the chairman of this agency which also includes the presidents of the University of Texas at Austin, Texas A&M University and Texas Tech University.

The institute director, Dr. Pauline Beery Mack, who has studied protein requirements of more than 20,000 persons, directs the new studies. She will be assisted by a nine-member team of physicians and nutrition researchers.

Dr. Karl F. Mattil, professor of soil and crop sciences and director of the Food Products Research Department of the Texas Engineering Experiment Station, Texas A&M, will be consultant for the Denton group.

In the past, a pigment (gossypol) in cottonseed restricted its

use as a food source. The pigment glands, which appear as dark specks in ordinary cotton seeds, impart a dark reddish color to crude cottonseed oil and a yellowish brown color to cottonseed meal.

The pigment not only introduces an undesirable color in oil and seed products but can also cause adverse metabolic effects if fed to human beings.

Now a glandless cotton, one free of this pigment, has been produced, a development in which geneticists at Texas A&M played a major part.

Oil produced from glandless cottonseed has a light yellow color. It requires a minimum of processing and has extensive uses as unsaturated fat.

Cottonseed protein from glandless seed is almost white. This protein can be fed with complete safety not only to farm animals but also to human beings.

The rising cost of animal protein—meat, milk and eggs—has intensified consumer interest in vegetable protein.

During the past two decades, nutrition research in U.S. laboratories, including those at Texas Woman's University has included projects aimed at increasing the availability of food protein from vegetable sources. Cotton has received special attention recently.

Business In Review

By JOHN CUNIFF
AP Business Analyst

NEW YORK (AP) — While the forecasts at midyear remain rather optimistic, at least three measures of economic health followed by ordinary Americans are failing to respond as had been hoped.

Interest rates are climbing again. Inflation continues and may even have accelerated. Unemployment remains high and is widely expected to continue around 6 per cent or more for the rest of the year.

And partially as a result, a fourth measure, consumer confidence, remains depressed.

Highly sensitive to any news about interest rates, inflation and jobs, consumers are keeping a rubber band on their money roll, refusing to over-extend themselves. They have been spiritless buyers. And there's the dilemma.

In order to get the economy moving, it is generally agreed, confidence must be built. Almost every economist considers it a necessary ingredient. It is the common theme of most midyear reports from banks and businesses.

But how is confidence to be built when consumers and businessmen are faced with the disappointing statistical facts? In the absence of encouraging news, both consumers and businessmen brood rather than act.

The Morgan Guaranty Survey, for example, notes that businessmen not only are concerned with the immediate state of the economy but also are disturbed by a feeling that basic, long-range changes may be taking place.

Such deep probing and questioning is not the type of thinking that brings a commitment to the future. It is instead the prelude to more indecision and procrastination.

The Bank of America is not among the pessimists. It foresees a recovery in both business and consumer confidence, "the catalyst needed for sustained and rapid growth in the economy."

In a "progress report," the Bank of America comments that the recovery of confidence already is taking shape. "The evidence... shows up in what people are doing rather than merely in what they are saying," it contends.

At the same time, however, the bank makes these ominous forecasts:

"Long and short-term interest rates will rise moderately during the last half of the year, though they will fluctuate sharply at times."

In fact, it adds, "unless and until inflation can be reduced significantly, interest rates will return to levels that could restrict economic recovery."

Mainly About Mobeetie

Mrs. Mary Brewer spent the weekend in Amarillo visiting with her daughter Mr. and Mrs. Lynn Stephenson and family. She visited in White Deer with another daughter Mr. and Mrs. Earl Alexander and family.

Mrs. Willie Alexander, of Pampa visited Monday with her daughter Mr. and Mrs. Lester Leonard.

Congratulations to Mr. and Mrs. Jerry Rector of Amarillo on the birth of their daughter Amy Christine born June 20 in Highland General Hospital in Pampa. She weighed 5 pounds, 10 ounces. She was welcomed by two brothers Lynn and Stephen, Grandparents are Mr. and Mrs. Lee Roy Williams of McLean and Mr. and Mrs. J.B. Rector of Mobeetie.

Stephen and Lynn Rector of Amarillo visited over the weekend and part of the week with Mr. and Mrs. C.W. Burch, Melody and William.

Mr. and Mrs. Bob Howard and family and Judy Trout of Pampa visited their parents Mr. and Mrs. Albert Trout.

Mr. and Mrs. Ernest Adams of Dumas and Mrs. Francis

Slutzky of Syssel Long Island, New York have been visiting their mother Mrs. J.H. Bradley.

Mrs. Dorothy Walker of Lindsey, Okla., O.C. Walker and Mrs. Ona Pugh of Amarillo, Mr. Kenneth Walker and Becky of Sunray visited Mrs. Mattie Williams and Mr. and Mrs. Pierce Walker over the weekend. Mr. and Mrs. Marion J. Williams and family of Littlefield also visited their mother Mrs. Mattie Williams on Saturday.

The Geoffrey Caldwells of Amarillo visited his parents Mr. and Mrs. Austin Caldwell over the weekend.

Leslie Harrison spent the week in Carnegie, Okla., visiting his grandparents Mr. and Mrs. Willard Harrison.

Wes Johnson was dismissed from the hospital in Pampa Monday. Good to have him home.

Mrs. Calvin Stuart, Ronnie and Dennis attended the Circus in Amarillo.

Visiting Thursday with Mr. and Mrs. Herk Atkins was his brother of California.

President Nixon Praises Hoover And Law Enforcement Officers

WASHINGTON (AP) — President Nixon declared yesterday "the era of permissiveness with regard to enforcement of the law is at an end in the United States."

Speaking at FBI National Academy graduation exercises, Nixon also said that FBI Director J. Edgar Hoover may be controversial "the great majority of the American people back Mr. Hoover and back law enforcement officials."

Having known Hoover for the past 24 years, Nixon said, "I can say from experience that he is a man who has never served a party. He has always served his country and he deserves credit for that."

Returning to the stiff-law and order stance that he embraced as a presidential candidate, Nixon pledged administration support to law enforcement of-

ficials" in their attempt to reestablish respect for the law.

Saying he had dropped by to give the 100 police officials from all 50 states and from abroad a message, Nixon said "don't get discouraged."

He said that, while it has been fashionable among some to attack the police and law enforcement, "The great majority of the American people do provide backing for the men who risk their lives for our lives."

FOR AUTOMOBILES

**Proposed Changes
On Premium Rate**

AUSTIN (AP) — Auto insurance rate changes recommended today by the State Insurance Board staff vary according to rating territory and a number of other factors.

Here are proposed rate changes, by territory, on a basic liability policy (10,000 per person bodily injury with a maximum of \$20,000 per accident, and \$5,000 property damage) on a car that is not driven to work and which is not driven by a male under 25:

Harris County, up \$2.
Dallas County, up \$2.
Bexar County, up \$3.
Tarrant County, up \$3.
El Paso County, up \$3.
Orange County, up \$2.
Nueces County, no change.
Bowie County, down \$1.
East Texas Oil Field, down \$1.
Lubbock County, no change.
Taylor County, up \$2.
Webb County, down \$3.
Grayson County, down \$3.
Potter and Randall counties, up \$1.
Rio Grande Valley, up \$2.
Tom Green County, down \$6.
Coastal territory, down \$6.
Northeastern territory, down \$1.
Southeastern territory, no change.

Wichita County, up \$1.
Jefferson County, up \$2.
Galveston County, up \$3.
Travis County, up \$1.
McLennan County, up \$4.
West Texas Oil Field, up \$3.
Western territory, up \$4.
Denton County, up \$7.
Collin County, up \$7.
Rockwall County, up \$7.
Kaufman County, up \$7.
Ellis County, up \$7.
Wise County, up \$7.
Parker County, up \$7.
Johnson County, up \$7.
Liberty County, up \$7.
Chambers County, up \$7.
Brazoria County, up \$7.
Fort Bend, up \$7.
Waller County, up \$22.
Montgomery County, up \$22.

The board normally gives the liability changes for the typical class—cars driven to and from work, with no driver under 25. It gave changes for this class, however, for comprehensive and collision.

On the \$100 deductible collision, no change was indicated for Grayson and Wichita counties, a \$6 reduction for Bowie County; \$3 reductions for Tarrant, Orange, Tom Green, coastal territory, northeastern territory, West Texas Oil Field, Denton, Collin, Rockwall, Kaufman, Ellis, Wise, Parker and John-

son; \$2 reductions for Bexar, El Paso, Nueces, southeastern territory and McLennan; \$3 increases for Dallas, western territory, Liberty, Chambers, Brazoria and Fort Bend; \$4 increases for Harris, Webb and Galveston; \$6 increases for East Texas Oil Field, Rio Grande Valley, Jefferson and Travis; \$11 increases for Lubbock, Taylor and Potter-Randall; and \$12 increases for Waller and Montgomery.

Full coverage comprehensive for a typical driver would go up \$17 in Harris, Orange, Nueces, Webb, Jefferson, Galveston, Liberty, Chambers, Brazoria, Fort Bend, Waller and Montgomery; down \$4 in Dallas, Tarrant, Bowie, East Texas Oil Field, Grayson, northeastern, McLennan, Denton, Collin, Rockwall, Kaufman, Ellis, Wise, Parker and Johnson; down \$6 in Bexar, southeastern territory and Travis; and down \$2 in El Paso, Lubbock, Taylor, Potter-Randall, Tom Green, Wichita, West Texas Oil Field and western territory.

Board Chairman Ned Price said the board would decide what new rates to issue "about the middle of August."

Several legislators attended the hearing.

Sen. Oscar Mauzy of Dallas said it was "an insult to the citizens of Texas" that the board would even consider the insurance companies' rate increase request.

Any rate increase, Mauzy added, would "only serve to reconfirm a conclusion" of Mauzy's Senate interim committee on car insurance rates that the board was "merely another insurance trade association."

H. S. "Hank" Brown, state AFL-CIO president issued a statement saying the "auto insurance industry is highly inefficient and corrupt."

"It spends millions and millions of the policy-holders' dollars on fat-cat lobbyists to block every effort to reform the auto insurance industry in the legislature, on trips to Bermuda, Europe and other faraway places, on yachts and resorts and country clubs, and on staging this yearly ritual before the insurance board," Brownsaid.

JEANE DIXON

Your Horoscope

FRIDAY, JULY 1
Your birthday Friday! Your world widens this year and you must grow in harmony with it. Your talents and skills find better markets, higher demand. Old habits are easier to leave behind once you see them in true perspective. Friday's natives select interesting projects and recall the finer details. Their emotional setting provokes impulsive action.

ARIES (March 21-April 19): Analyze Thursday's ideas, then keep your main attention on present reality and definite progress. Winding up the week is complicated.

TAURUS (April 20-May 20): Sometimes the best you can do is just stay busy. News, perhaps a gift, brings a moment of surprise, and you never quite return to previous opinions on a small but significant matter.

GEMINI (May 21-June 20): Impulse may lead you into being technically at fault; if you still want to go ahead after thinking "never," expect to lose the responsibility.

CANCER (June 21-July 21): Expert advice assumes fresh meaning as you realize subtle nuances of current circumstances. More depends on your altitude than on what you say.

LEO (July 22-Aug. 22): Emotional tensions rise; the eventual outcome is probably favorable. Find reserve energy to keep routines going.

VIRGO (Aug. 23-Sept. 22): The story between the lines is more important than the one on the surface. Watch what people do rather than listen to what they say.

LIBRA (Sept. 23-Oct. 22): You have plenty to offer, but if you don't find a graceful way of expressing it, a chance for family and neighborhood cooperation passes unmet.

SCORPIO (Oct. 23-Nov. 21): Group activity proceeds with renewed vigor. Plunge right in with your share of current projects, settle for what is available here and now.

SAGITTARIUS (Nov. 22-Dec. 21): Everybody has a different theory about what to do and you find yourself outside or in conflict with groups. When you can't control a situation, get into it a bit deeper, find how it works, then try again.

CAPRICORN (Dec. 22-Jan. 19): You'll be satisfied with your persistent diligence when this signal day is over. Don't be surprised if nobody speaks in support of your rise.

AQUARIUS (Jan. 20-Feb. 18): Issues you have been escaping for a long time float up to a visible surface. See what you want, once and for all.

PISCES (Feb. 19-March 20): Take the time to work things out properly. In a week or two a change of tempo and direction will prevent going back to fill in neglected details.

AUSTIN (AP)—Dr. Emmett S. Redford, government professor at the University of Texas, has been named co-winner of the Louis Eronlow Book Prize given by the National Academy of Public Administration.

The award is given for "providing new insights, fresh analysis and original ideas" in the field of public administration. The \$500 prize is shared by Redford for his book "Democracy in the Administrative State" and James Sundquist of the Brookings Institution for his "Making Federalism Work."

Redford holds dual appointments in the government department and the Lyrr B. Johnson School of Public Affairs. He is an authority on public administration and government regulations. Redford's book examines the contrast between the democratic ideal and the realities of the modern administrative state.

UPPER SANDUSKY, Ohio (AP)—Earl Gerber, 58, of Upper Sandusky, has his car back after it ran off and left him. The auto went into a ditch on a Wyandot County road and Gerber, who was alone, got out to push. He wedged a stick against the accelerator and the front seat to give him a power assist. Once out of the ditch the car took off down the road. That was the last Gerber saw of it until a man who lived a mile away discovered the car in his back yard the next morning.

Gun Safety Class Tonight In Palm Room At 7:30 p.m.
A five-week NRA approved gun safety course is being conducted by Paul Edwards in the Palm Room in City Hall at 7:30 on Thursday evenings. Fee for the course is \$2 which includes the course, gun safety booklet, shoulder patch upon completion of the course and ammunition and use of a gun after taking the course for qualification at the rifle range in Recreation Park.

Mann And Silvester Win 400 Hurdles And The Discus
HELSINKI, Finland (AP) — Americans Ralph Mann and Jay Silvester won the 400-meter hurdles and the discus, respectively, in the first day of the seventh international track and field World Games in a drizzling rain Wednesday.
Mann won the 400 meter hurdles in 48.9 seconds, the fastest time recorded this year. Ari Salin of Finland, who set a national record of 49.6, placed second, followed by Reiner Schubert of East Germany and Terry Mustka of the United States.
Silvester captured first in the discus with a toss of 203 feet, 2½ inches, edging Hungary's Ferenc Tegla by 1½ inches.
Mann and Silvester were the only two winners from the United States in the nine events completed on opening day.
Tom Von Ruden of Los Angeles finished second in the 800 meters, losing to Robert Ouko of Kenya. Ouko was clocked in 1:48.0 to 1:48.6 for Von Ruden.
The World Games are a warmup for the European Track and Field Championships, to be held here Aug. 10-15. A total of 120 competitors from 20 nations are entered in the World Games.
Other opening day winners were hammer throw, Ivan Phakadze, Russia, 228-9½; pole vault, Wolfgang Nordwig, East Germany, 17-4¼; 5,000 meters, Jean Wadoux, France, 13:30.4; 3,000-meter steeplechase, Tapio Kantanen, Finland, 8:31.8; 200 meters, Raimo Vilen, Finland, 20.8 and broad jump, Hans Baumgartner, West Germany, 25-8 inches.

Rehearing Scheduled For Canadian Riverbed

Round one of the Canadian River closing goes to the hunters as the Texas Parks and Wildlife Commission has granted the Canadian River Sportsmen's Assn. a rehearing on the new hunting regulation closing riverbeds and railroad right of ways in Texas. This regulation resulted in the closing of the Canadian River bed to all hunting except for migratory waterfowl.

According to Robert Carp, president of the Sportsmen's Association, the meeting for the rehearing is scheduled July 9. Carp was notified by Sen. Max Sherman Wednesday that the commission would listen to representatives at its regular meeting next week in Austin. The message was relayed by Sen. Sherman for the executive director of the Texas Parks and Wildlife Department, James Cross.

Padres Defeat Giants 2 To 1

SAN DIEGO (AP) — Nate Colbert brought San Diego from behind with a two-out two-run homer in the sixth inning Wednesday night as the Padres' Steve Arlin won a pitching duel from San Francisco's Gaylord Perry 2-1.
Larry Stahl was aboard with a two-out double when Colbert belted his 17th homer of the year, sending Perry to only his second loss in 13 decisions against San Diego.
Arlin, 3-11, hurled a five-hitter to break a personal four-game losing streak and gain his first victory since June 2. He gave up a second-inning homer to Ken Henderson, his eighth of the year.

GIRLS SOFTBALL action is starting to move into full swing at Optimist Park. Shown getting a hit for the Err's is Joanne McCausland, daughter of Mr. and Mrs. John P. McCausland, 2701 Aspen. (Staff Photo)

Flamboyance Does Not Make Successful Club

DETROIT (AP) — Flamboyance does not make a successful major league baseball manager—profits do.
Robert E. Short, owner of the Washington Senators, has been somewhat flamboyant in his dealings since buying the club a few years ago for \$9½ million—but it hasn't helped pay the rent.
Now his 11 colleagues have resolved to put their corporate

Location Still Unknown For 1975 NCAA Tourney

MYRTLE BEACH, S.C. (AP) — Interests from Houston, Tex., who are bidding for the 1975 NCAA basketball tournament, say they would move the playing court to the home plate area of the Astrodome.
They told the NCAA University Division Tournament Committee Wednesday that his arrangement, coupled with elimination of many courtside seats, would result in a better seating arrangement than this year's tournament, also held in the Astrodome. It would reduce capacity to 50,000 from about 55,000. This year's two sessions drew about 62,000.
Bids also came to have the tournament played in the 17,500-seat Freedom Hall at the University of Kentucky in Louisville, and in the 15,000-seat San Diego International Sports Arena.
The committee will make its recommendation to the executive committee of the NCAA. A decision may not be announced until the NCAA winter meeting in Hollywood, Fla., in January.
The 1972 tournament will be in Los Angeles, the 1973 in St. Louis and the 1974 in Greensboro, N.C.
The tournament committee wound up its meeting today.

Dolphin Swim Club In Junior Olympics

Ten members of the Pampa Dolphin Swim Club will be held at the Air Force Academy in Colorado Springs on August 10-13.
The Dolphins attending this meet represent the largest contingent to compete as a team this summer and the team expects that some of its members will be traveling to Region 9 competition.
Several Dolphin swimmers competed in the Champlin "B" Meet in Enid, Okla., last week in preparation for the Junior Olympics. Krista Marlar led the group in Oklahoma with a fifth place win in the 50 meter back stroke.
The meet in Canyon will establish the West Texas District Junior Olympic champions. The first three place winners in each event will be eligible to compete in the Region 9 Junior Olympic meet to be held in Houston on July 24-25. Anyone winning a first place in Region 9 competition will be eligible to compete in the National Junior Olympics to

heads together to try and come up with a solution to the club's financial straits, hopefully by July 14 when the stadium landlord may turn off the lights and lock the doors.
The 12 owners, some general managers, Baseball Commissioner Bowie Kuhn, and American League President Joe Cronin hastily convened somewhat unorthodox meeting Wednesday behind closed doors in Detroit to discuss the matter, and a few other less significant things.
They concluded the 8½-hour session at the Metropolitan Airport Hotel with James Garner, AL counsel, reading a resolution from Cronin and adopted by the owners. Basically it said they, including Short, Kuhn and Cronin, plus other "advisers," would "immediately consider the urgent Washington matter discussed today by studying all possible solutions."
One of the solutions rumored before the meeting was that the Dallas-Fort Worth, Cronin and Dallas-Fort Worth. Cronin and Short admitted that Dallas came up in the discussions but said there was no plan to move there.
According to Short, he owes the Armory Board, which runs Robert F. Kennedy Stadium in

General Rains Needed Throughout Texas For Crops And Pastures

COLLEGE STATION, Tex. (AP) — General rains are needed throughout the state for crops, pastures, ranges and stock water, the director of the Texas Agricultural Extension Service says.

Director John E. Hutchinson said crops were making good progress in some areas last week, but livestock culling continued over much of the state.

Most crops have now been planted, he said, but soil moisture has not been sufficient in some areas for stands and substitute crops will be used.

Most dryland small grains that were not grazed out or baled for hay have now been harvested and yields have been spotted, he said.

Here was the way the agricultural situation looked at mid-week last week.

Panhandle: Dryland wheat harvest neared completion with yields ranging from four to 20 bushels an acre. The irrigated wheat harvest started after being delayed and damaged some by the weather. Most grain sorghum had been planted but some replanting was necessary because of earlier dry weather and recent heavy rains. Guar and sorghums were substituted for cotton in some areas where stands failed. Corn and sugar beets made good progress. The second cutting of alfalfa was derisory; ranges were short but greening up in most areas and livestock conditions were improving. Soil moisture improved by recent rains.

South Plains: Growth of young cotton improved with the warm weather. Replanting due to hail and sand damage was about complete and good stands were

up in most areas. Lack of moisture for planting was still a problem in some southern parts of the district. Grain sorghum progress was good. The wheat harvest was underway with yields on the low side due to hail damage and lack of moisture. Onions and potatoes made good progress generally but some vegetables were damaged by hail and high winds. Ranges and pastures made rapid recovery with the continuing moisture and warmer temperatures.

Rolling Plains: Showers continued over the area but only 4 of the 22 counties had adequate soil moisture. The wheat harvest was complete with yields averaging about eight bushels an acre. Cotton planting ranged from 75 to 100 per cent complete. Some stands are good and moisture was needed in several counties for good growth and to complete planting. Grain sorghum and guar continued to be planted in a few counties. Hay was being harvested as are potatoes in Knox County. Ranges improved in the more favored areas but some livestock feeding and water hauling continued. Livestock culling and marketing continued in the drier areas.

North Central: The small grain harvest was about over with yields below average due to the drought. Soil moisture was light. Corn and grain sorghum continued to make good growth with most grain sorghum blooming. The set of Pecans was fairly good and casebearer damage was rated light to moderate. Pastures and ranges were below average except in Tarrant County. Close culling of livestock continued. Stock water was low in many counties.

Television And Radio News

NEW YORK (AP) — The difficult and delicate issues raised by publication of excerpts from the classified Pentagon Papers were pulled together neatly in an ABC news special Monday night.

Sen. Barry Goldwater, Benjamin Bradlee of The Washington Post and former presidential press secretary James Hagerly explained their viewpoints and concerns. While their positions varied, all believed that present methods of handling classified material—particularly the declassification procedures—should be revised.

Bradlee noted that much classified material had been published and said that newspapermen have been handed "top secret" material by "the most noble of men including presidents" and urged to publish it. His position was that the public's right to know in some instances outweighs the technicality of a stamp.

Hagerly, now a broadcasting executive, said a weekend check revealed that 160 million pages of World War II material is still classified and so is 75 million pages relating to Korea. He said he knew of instances when a "top secret" stamp was placed on a report merely "to give it importance."

Sen. Goldwater's position was that the classification should not have been violated under any circumstances.

The half-hour discussion served to highlight the complexity of the issue—national security, overuse of classifica-

tion and most of all, use of the stamp to prevent official embarrassment instead of its original purpose.

Arnie Nuvo. CBS' instant executive, and his family will be moving in mid-September. To the blonde actress who plays his wife in the situation comedy, it is almost like starting a new series.

Sue Anne Langdon—Lillian Nuvo in the story of "Arnie," the blue collar guy turned gray flannel—says that during the comedy's second season the writers on order are making it "a really sharp show."

The change, if it is pulled off, will be tailored to the new time period. It leaves its present snug harbor, ahead of the "Mary Tyler Moore Show" on Saturday nights, for a new mooring on Monday, in the middle of a potent comedy lineup—"Here's Lucy" and "The Doris Day Show" ahead, and "All in the family" behind.

Audience studies repeatedly show that Saturday evening audiences are what TV researchers call "bimodal"—mostly younger and older viewers who are believed to like their comedy broad and to enjoy warm sentimental family relationships. The more sophisticated young adult crowd is presumed to be busy away from the set. That is why Mary Tyler Moore stewed about her series until it turned into a hit and why Dick Van Dyke, whose new series goes into "Arnie's" old spot, is probably chewing his nails right now.

Wall Street Chatter

NEW YORK (AP) — Stock market gains mounted in today's moderately active trading, continuing the rally which developed Tuesday.

The noon Dow Jones average of 30 industrial stocks was up 7.32 to 889.82.

Advances led declines by more than 3 to 1 on the Big Board.

Analysts called the rally a technical one, resulting from an oversold condition among many stocks. They said a number of investors were bargain hunting after the recent period of consolidation which chopped more than 30 points off the Dow average in the past two weeks.

Tuesday's gain of 9.82 on the Dow was its sharpest advance since March 15 when it rose 9.66.

Other brokers noted that many investors were entering the market in anticipation of a summer rally. But they added it would take greater volume than the market has at present to sustain a real rally.

Stocks and farm implements were mixed. All other stock categories were higher.

NEW YORK (AP) — Stock market prices shot ahead in today's trading as President Nixon said he would not seek any tax cuts.

The noon Dow Jones average of 30 industrial stocks gained 7.23 to 880.33.

Advances led declines by 3 to 1 on the New York Stock Exchange.

Treasury Secretary John B. Connally said President Nixon would not ask Congress for tax relief or any increase in federal spending nor set up wage-price controls or a wage-price review board.

Brokers said the rally was partly attributable to the news that the government's index of leading economic indicators rose last month.

On the American Stock Exchange, Nuclear Data fell 4 1/4 at 27 1/2. Several news publications reported that analysts believed the company would have an uncertain earnings trend for the remainder of the current fiscal year.

Chemicals, metals, and aircrafts were mixed. All other stock categories were up.

Court Of Civil Appeals Reverses Trial Court Decision Against Bank

AUSTIN (AP)—The 3rd Court of Civil Appeals reversed yesterday a trial court judgment against Sharpstown State Bank in a \$470,000 suit on two surety bonds.

The appeals court sent the case back to the lower court for a new trial.

The names of Frank Sharp and Will Wilson figure in the court decision.

The case has been all the way up to the Texas Supreme Court, which last year reversed an earlier opinion by the 3rd Court of Appeals.

The appeals court in that decision said there was no evidence to support the jury's verdict that a man who delivered the bonds to the bank lacked authority to do so.

The Supreme Court said there was "some evidence" to support that verdict. It sent the case back to the appeals court for determination of whether there was sufficient evidence.

Despite the Supreme Court's language that there was "some evidence," the appeals court said it was insufficient.

The Sharpstown Bank is now defunct. The Federal Deposit Insurance Corp. sued the bond maker, Great American Insurance Co., in behalf of the bank.

The bank and its Younder, Frank Sharp, are among several defendants in a stock manipulation suit filed by the U.S. Securities and Exchange Commission.

Sharp was involved in a business deal with two other men, one of whom was to borrow \$300,000, which was to be secured by deposits in the lending bank of \$600,000 for the duration of the loan by banks controlled by Sharp.

The Supreme Court said Charles McLean, then president of the Sharpstown bank, "was aware of these maneuvers and disapproved of them but he felt helpless to dispute Sharp."

Sharp decided to get out of the business deal but agreed to

lend \$470,000 to his successor in the transaction, Commercial Investment Fund of Los Angeles.

The loan was to be secured by two bonds executed by Curtis J. Bohannon, as attorney in fact for Great American, and delivered by Gilbert Bartling, who represented himself to McLean as an agent for Great American. McLean had never met Bartling.

McLean telephoned Will Wilson, one of Sharpstown's lawyers, now an assistant U.S. attorney general who is frequently mentioned in the SEC suit.

Wilson reportedly told him the bonds were all right but to make them payable in Harris County.

Bartling presented no credentials showing his relationship with Great American but the bonds bore Bohannon's signature and the seal of the company.

McLean accepted the bonds despite the fact he had never heard of such security being used for a loan in 40 years of banking experience.

Court records show Bohannon's power to act for Great American was limited by private agreement.

The appeals court said: "To say that McLean imprudently accepted Bartling as the agent to deliver the bonds would require that McLean suspect Bohannon of defrauding Great American, despite the admitted genuineness of his authority attached to the bonds, and to conclude that Bartling was a conspirator with Bohannon in the deception."

"Further, such finding of imprudence would require that McLean infer or suspect that the officers of Great American who executed Bohannon's power of attorney purposely overstated, or misstated, the scope of Bohannon's power to act for the company."

"The record shows that such were the facts, but the facts were made possible by Great American."

Tidal Wave Of Legalism Concern For Attorney General J. Mitchell

WASHINGTON (AP)—A "tidal wave of legalisms" that benefit the accused are frustrating society's right to see prompt apprehension, speedy trial and swift punishment of criminals, Atty. Gen. John N. Mitchell said today.

"Every conceivable twisting and turning of words is used to weigh the side of the defendant—in many cases far beyond the intent and often even the language the framers of the Constitution," Mitchell said.

"Every conceivable twisting and turning of words is used to unbalance the side of the people, represented by the police and the prosecutor," he told graduates of the FBI's National Academy.

UT Announces Superintendents' Workshop Date

AUSTIN — A workshop for school superintendents entitled "Superintendents Here and Now" will be held at the University of Texas July 11-14.

The Texas Association of Secondary Administrators, the Texas Education Agency and the UT Austin Department of Educational Administration are sponsors of the workshop, to be conducted in Jester Center.

Leader-directors of the workshop include Dr. W. E. Barron, UT Austin professor of educational administration and ad interim dean of the Division of Extension; A. O. Bowen, assistant commissioner for regional services for TEA; Dr. Bascom Hayes, University professor of educational administration; Dr. Robert B. Howsam, dean of the University of Houston college of education; E. V. Huffstutler, professor of school administration and supervision at North Texas State University, and Dr. John W. McFarland, dean of the college of education at the University of Texas at El Paso.

The basic structure of the workshop is a trading post atmosphere, according to Dr. Barron.

Participants will work with five topics from a list of 50 suggested subjects.

Such issues as how to obtain Mexican-American and bilingual personnel, meeting the priority placed on occupational or career education, breakfast and school lunch programs, superintendents and structures for desegregation embodied in judicial and executive branch proclamations, and interaction with community action programs, model cities programs, councils of government, municipal government and other nonschool structures are listed for discussion.

Federal Court Dismisses Suit Against Gibson

HEREFORD — A federal court has dismissed the civil suit filed a couple of years ago by a Hereford Bakery against Gibson Products Co. of Hereford.

The U.S. District Court, Northern District of Texas, Amarillo Division, said in a ruling June 16, there was insufficient evidence to back up the claim of Hereford Bakery owner Debs Knox that Gibson Discount Store was selling bread at an unreasonably low price in an attempt to drive Knox Bakery out of the bread business.
