U.S. Mariner 9 Orbiting Mars

PASADENA, Calif. (AP) --The United States rocketed its Mariner 9 spacecraft into orbit around Mars Saturday. beginning an unprecedented study of the Red Planet that could write a new chapter in the annals of space exploration.

Mariner 9, looking like a plump pear with four popsicle sticks protruding from the side, became the first spacecraft to orbit another planet in the solar system.

It apparently arrived at Mars ahead of two Russian which Western scientists speculate will attempt unmanned landings

The spacecraft ended its 512 month, quarter-billionmile journey at 7:14 p.m. EST when a 15-minute burn of the Mariner 9 retrorocket slowed an 11,000 mile-per-hour plunge so Martian gravity could swing it into orbit.

Thirteen minutes after its retrorocket firing with the power of 10 automobile engines shut down, the spacecraft passed behind Mars and out of commu-

nication with earth. While behind the planet. Mariner 9 completed a critical maneuver in which sola panels supplying electricity moved back into view of the sun and battery operation of the spacecraft ended.

Mariner 9 reappeared at 8:16 p.m. and ground controllers received first signals six minutes later the time it takes radio waves to reach earth from Mars.

Packed with scientific instruments two television cameras, an infrared radiometer and an ultraviolet and infrared spectrometer Mariner 9 could give man the closest look he's ever had at another planet.

The spacecraft was designed for a basic 90-day mission but could send back data from its twice-daily orbit around Mars for up to a year.

The \$75-million spacecraft wasn't designed to find life on Mars, if it exists, but is expected to pinpoint areas where conditions might favor life.

A thick haze continued to

United Fund **Now Stands** At \$87,750

Pampa's 1971 United Fund campaign was on its way around the last lap Saturday with \$87,750 collected, or 93 per cent of the \$94,250 goal.

Verl Hagaman, drive chairman, said fund workers were optimistic; they headed into the stretch for the finish

Hagaman urged woekers to make every effort this week to contact prospects and wind it

Persons not contacted yet also were urged to send contributions to the Pampa United Fund, P.O. Box 2076, Pampa, or call Fund headquarters at 669-9522 and a worker will be sent out to pick

shroud Mars Saturday, and California Institute of Technology's Jet Propulsion Laboratory scientists here. who give directions to Mariner 9, fretted that the haze might obscure surface features and

the crater-pocked surface. Scientists believe that the yellowish haze is dust kicked perhaps 10. miles into the atmosphere by a storm that has raged over the planet since late September. It is the worst storm ever seen on Mars in 70 years of earthpased observations

Although all indications are the haze is composed of dust. many scientists have trouble visualizing winds in the rarefied Martian atmosphere that could churn up such a haze.

Reds Rap Statement On Pullout

PARIS (AP) - The North Vietnamese, repsonding to President Nixon's latest announcement on troop withdrawals, declared Saturday the war will continue "as long as a single American soldier remains in Vietnam."

The North Vietnamese peace talk delegation's spokesman denounced Nixon's statement Friday that 45,000 men would be withdrawn from Vietnam in December and January but that air power would still be used until a settlement is negotiated or South Vietnam can take over the air role.

Nguyen Thanh Le said the Vietnamese, Cambodians and Laotians are "resolved to continue the fight until final victo-

The North Vietnamese "are determined to punish every act against the sovereignty and the security of North Vietnam," he added.

He repeated Communist demands that "the United States should cease supporting the group of war-like puppets in power directed by the dictator Nguyen Van Thieu, to clear the way for the formation in Saigon of a new administration favorable to peace, independence, neutrality and democracy, and should be willing to engage in serious conversations with the provisional government of South Vietnam in the formation of a large government of national harmony in South Vietnam."

Le also accused Nixon of 'keeping quiet about the number of American dead and wounded, and the enormous expenses of the war.

In Moscow, Tass News Agency said the Nixon statement "contained no suggestions of a political settlement.

"The American president again left unanswered the suggestions of the provisional revolutionary government of South Vietnam ... which would create a real and just basis for a settlement of the Vietnam mention "Tosc added

AUSTIN (AP) - The State Lippmann and James All 112 books-including 23 protested orally or in writing at Saturday's board meeting-now are eligible for adoption by local school districts.

Mrs. Charles Baker of Sanger, state textbooks chairman of the Texas Society Daughters of the American Revolution, led the attack on the four books, all of them 11th or 12th grade English composition texts.

Mrs. Sam Winters, board member from Austin, failed 5-7 in an effort to strike one of them, the 11th grade "Dynamics of Language" (D. C. Heath & Co.), from the list to be approved.

Board member Winthrop Seley of Waco moved to prevent television mapping of eliminate three 12th grade texts-"English 12" (Addison-Wesley: "Dynamics of Language" (Heath) and "English 12. Composition and Grammar" (Ginn & Co.).

> Paso cast the tie-breaking vote to defeat Seley, 8-9. The state will pay a record

Chairman Ben Howell of El

adopted Mrs. Baker's objections to the 14th grade "Dynamics of Language" inclu the fact that it inentions riemingway. "an atheist, (who) had his works ... banned from the California Folsom Prison

inmate library. She said Baldwin's works also were banned from that prison's library in the 1960s because they were revolutionary and sexoriented.

Both the 11th grade 'Dynamics of Language" and English 12, Composition and Grammar." mention Baldwin, Mrs. Baker said. She asserted he "supported George Jackson in his bloody escape attempt which resulted in the recent San Quentin riots. according to the Communist 'Daily Worlds' of Aug. 26, 1971.

works of James Baldwin?" "English 12" contains a fullpage selection by Lippmann. Mrs. Baker said, and here are some of her reasons why his works should be kept away from Texas high school

Do we want our 11th grade

children studying the life and

"Walter Lippmann ... has been throughout his adult life a dedicated and active Fabian socialist ... He has written over 25 books and he was the editor of the very left-leaning New Republic magazine." Summing up Mrs. Baker

"I dont think children should read things that have been banned from high school libraries and banned from prisons. If they are too rough for prisoners, they are too rough for our children.

Mrs. Roger Annan of Houston complained because the 11th grade "Dynamics of Language" contains a short story by Norman Mailer. "whose books are forbidden in prisons

Referring to Mrs. Baker's complaints that one book suggested outside reading of works by Vladimir Nabakov, author of "Lolita," and John Updike, who wrote "Couples," board member Frank Ool of San Angelo said:

"We don't condone obvious filth but we seem to permit the books' recommending readings that are full of it."

Mrs. Mary Galvan, the Texas Education Agency's program director for English language arts, said all texts had been checked to assure there would be no embarassing or offens-

CONGRATULATIONS!-This photo snapped in the dressing room after Pampa High School's 23-14 win over Amarillo High Friday night shows Head Coach 'Swede' Lee congratulating his Harvesters for their second half efforts that brought Pampa from behind to take its first district championship in 21 years. The Green and Gold gridders will play Hereford next Saturday afternoon at Amarillo in a bid for the Bi-District title. See sports pages for more pictures and story of the

Pampa And Hereford Play Next Saturday

Sports Editor

A tangled muddle for the District 3-AAAA Title ended with the Pampa Harvesters bringing home the bacon after a rousing 23 to 14 defeat of the Amarillo Sandies Friday night in Dick Bivins Stadium.

The Harvesters will meet the District 4-AAAA champions, the Hereford Whitefaces, in Dick Bivins at 2:30 p.m. next Saturday. The Whitefaces were defeated 10 to nothing Friday night by the tough Lubbock High School Westerners.

The close battle for the Bi-District crown may be more difficult than many Pampa fans realize. The Whitefaces, after a slow start, won five in a row to capture their district title.

The Harvesters, on the other hand, were trailing by a half game last Friday when Amarillo High knocked over the Tascosa Rebels 7 to nothing-placing the home favorites in a half-game lead.

The Harvesters kept the ball rolling by defeating the Sandies. The win gave Pampa its first district title in 21

vears. The father of one of the Pampa players. Buddy Cockrell, played on the last winning team along with the uncle of another Pampa star, Howard Musgrave.

The Harvesters, while not coming up to their fathers' 10 and one season, were secure in their district play with an 8-2 season. Pampa defeated the Hereford team by a 20 to 7 margin earlier in the season but, as head coach R.E. 'Swede' Lee stated, "The Hereford team was just a little slow starting. They have matured alot since facing us earlier in the season and now have a real tough bunch of

"I have a lot of confidence in our team and if we can keep going like we are supposed to. our chances look good." Coach Lee added.

Tickets for the Saturday

Food-Fiber Week Set For Kick-Off Monday

Food and Fiber Abundance Week in Pampa will be kicked off at a noonday luncheon tomorrow in the Coronado Inn Starlight Room.

County Judge Don Cain, chairman in charge of plans for the observance, said the kick-off luncheon will be followed with special civic club programs throughout the

The Pampa programs are part of a statewide project pointing up the pre-Thanksgiving blessings of food and fiber abundance in

Reagan Brown, rural socialogist Texas A&M University Extension Service will be the speaker at the Gray County kick-off lincheon

Rex McAnelly will give the program to the Optimist Club at 6:30 p.m. Monday, for the Jaycee's Tuesday noon, and the Downtown Lion's Club,

Foster Whaley, county agent, will present the program to the Kiwanis Club on Friday.

Tickets for the main kick-off banquet to be held at Coronado Inn can be purchased on a first-come, first-served basis or may be reserved at the Chamber of Commerce office.

Jimmie Lou Wainscott, home demonstration agent and the Home Demonstration Club women will present an elaborate table decoration display for the noon luncheon, depicting the Gray County Agricultural Abundance.

During 1970 there were 63,000 cattle finished in three local feed lots that supplied enough beef for a city of 300,000 persons for one year.

Close to three million pounds of pork are produced annually by the one-thousand-sow pork factory near Lefors by Western Pork Producers.

available late Monday or early Tuesday morning according to Pampa High School Principal Cameron Marsh. The price will be \$3 for reserved seats, \$2 for general admission and \$1 for students. Students may purchase their tickets for 75 cents, if they buy them at the High School.

Over 6,000 Pampans attended the Sandies defeat Friday night and more are expected to attend the Bi-District clash.

Killer Sentenced To Death By Jury

WASHINGTON, Pa. (AP) -Aubran W. "Buddy" Martin was sentenced to death Saturday for the slayings of United Mine Workers rebel Joseph A. "Jock" Yablonski and his wife and daughter.

The verdict was returned in a hushed Washington County courtroom by the same jury of seven women and five men that less than 24 hours earlier had convicted Martin on three counts of first degree murder in the killings. The jury deliberated 49 minutes. The testimony phase of the trial took three days.

In a 40-minute hearing preceding the jury's deliberations, defense attorney Mark Goldberg had asked for "mercy and compassion." Special prosecutor Richard Sprague demanded death.

Goldberg said appeals were

Aimed To Curb Inflation Rate

wage and price freeze ended last night, and is replaced by flexible guidelines that President Nixon says he hopes will cut inflation in half.

Official regulations were published in yesterday's Federal Register, legally thawing the freeze.

But not before some lastminute exceptions were made late Friday by the President's Cost of Living Council: Life insurance premiums

will be allowed to rise today without federal controls, though not other types of insurance rates. Servicemen will get their scheduled 15-per-cent average

pay raise Sunday, despite the general 5.5-per-cent guide for the rest of the economy. Other federal workers and persons earning less than the

\$1.60 hourly minimum wage also will be exempted from wage controls. However, the President already has postponed most federal pay raises The auto industry may

pay scheduled wage increases this month and next, and get price rises to match, without the advance approval otherwise required of wage agreements and businesses of The increases are subject to

rollbacks if found to be excessive. Actually, the same exception will apply until Jan. 1 to all the biggest 500 wage agreements and the businesses they affect, but besides the United Auto Workers contract only a handful of smaller agreements call for any increases before then.

Ford, Chrysler and American Motors said even before the exemption was announced Friday that they would seek higher prices.

President Nixon conceded at a news conference that pent-up price increases might create a temporary "bulge" in the cost of living when freeze

WASHINGTON (AP) - The the rulings of his Pay Board and Price Commission "very

sound. He said some businessmen would have preferred a lower wage guide of perhaps 3 or 4 per cent; but he said: "It would have been totally unrealistic. It would have

broken the board wide open." On prices, he said, "The guidelines that have been laid down would gut the rate of inflation approximately in half. That is real progress.

The general rule for prices is that they may go up to match rising costs, with a deduction or even a rollback for any increase in productivity, so long as the profit margin on each sales

dollar does not increase. This, the Price Commission hopes, will produce price increases that average no more than 2.5 per cent a year. Prices rose an average of 4.5 per cent in the year ending last August, the month Nixon

announced the freeze In other economic action

Friday -Pay Board regulations stated that construction workers' new contracts will be bound by the 5.5-per-cent general guide, although firstyear raises averaging roughly 10 per cent have been allowed by the Construction Industry

Stabilization Board. Price Commission regulations said retailers must post, where customers can see them, freeze-level price ceilings for the 40 top-selling items in each department, or of the items that account for half the sales, whichever is less. This amplifies a rule announced earlier requiring posting of freeze-level price ceilings for all regulated food

The Internal Revenue Service, which will police the postfreeze regulations. announced that persons seeking exemptions should contact IRS district offices to begin the appeals process.

Phase 2 Plan At A Glance

WASHINGTON (AP) Here in brief are the rules that apply to the economy after

WAGES: Previously contracted raises held up by the freeze may now go into effect. Money lost during the freeze may be collected retroactively only in a limited number of specifically approved cases.

Existing contracts and pay practices will be allowed to function. Scheduled future pay raises may go into effect subject to challenge and possible rollbacks if excessive, though few such challenges are expected. New wage agreements

generally may not contain yearly raises of more than 5.5 per cent a year, though larger increases may be permitted where circumstances warrant PRICES: On controlled

items, which make up more than 80 per cent of the average man's cost of living, prices may be increased only to meet rising costs. Retailers and Wholesalers may not increase markups. Manufacturers must deduct a compensating amount for any increases in worker productivity.

Businessmen may not increase the pre-tax profit margin on their sales dollars. If a

raise prices to break even, but no more.

The goal is an average price rise not exceeding 2.5 per cent a year, though allowable increases may be above or below that in many cases. In some cases prices may be required to go down where costs have decreased or productivity has increased enough. RENTS: Remain frozen

for existing homes and apartments while the Price Commission and the yetto-be-appointed Rent Board work out guidelines. Some hardship exceptions may be made in the meantime. There are no controls on rents for commercial, industrial and farm property or on new or newly renovated homes and apartments. These may be set at whatever the market will

EXCEPTIONS: A long list of prices are exempt from controls. These include those on raw agricultural products. used goods, custom-made items, stocks, imports, exports, virtually all new homes and real estate and hard-to-price items such as art objects and antiques. Also exempt are dues, taxes. interest rates, alimony and child support, among othA 14-word item on the

would be taken but rather the first by submitting the meeting would have to do with shaping the agenda for the regular meeting. He further advised that he would again contact the reporter the following morning after the breakfast with any details.

Pack School Board Meeting

This was not done. Faced with the daily deadline, the News sought to contact Dr. Malone by phone and was informed he was in conference but would submit the desired - - and promised--information in

writing on the morrow.

It was not forthcoming Seeking it elsewhere, it was learned that in discussing the discussion now on the agenda, the Pampa school administrator told the board members at the breakfast that the system was facing a possible \$220,000 deficit for the 1972-73 school year and spoke briefly on some alternatives

for consideration. To summarize them generally, they were: 1) do nothing; 2) close Sam Houston school; 3) close Sam Houston school and Pampa Junior High school: 4) close Pampa Junior High school and move the ninth grade to Pampa High school creating a four-year curriculum-and crowded classrooms; 5) create a middle school ... or 6)

raise tax rates. Now, it is to be understood these are enumerated in generalities gleaned from some of those present at the breakfast. It is possible these generalities might be criticized but it is felt ample opportunity was afforded for an accurate account to be reported. Since it was not and since numerous questions have been voiced throughout the community, it was felt the problem of a possible deficit of

\$225,000 might best be served

Seven Americans Arrested In London On Theft Charges

LONDON (AP) - Seven luxury apartment and Americans appeared in court Friday charged with conspiring to sell loot from a multi-million dollar Chicago stock theft, and the prosecution sought to link them to a criminal ring based

Police said they found \$12.5 million worth of stock certificates when Scotland Yard detectives raided a London

arrested the Americans. including two movie producers. The court was told the theft of \$30 million in securities was involved, but a federal complaint filed in Los Angeles put the total at \$78

The securities, said the prosecution, were "part of the proceeds of a \$30 million theft." Police in Britain and

Greyhound Employes To Walk Out Today

DAYTONA BEACH, Fla. (AP) Amalgamated Transportation Union leaders Friday called a strike for Sunday of 10,000 Greyhound Bus Lines employes in 42 states, a federal mediator

Mediator Williams Rose made the announcement as talks between the union and company reached a stalemate here. Rose said the National Council of Greyhound Divisions served 48 hour notice on the bus line at noon.

The walkout will occur unless "an agreement is

reached by noon Sunday," Rose said.

strike announcement was made, a wildcat walkout shut down Greyhound operations in Columbus, Ohio.

walkout of about 150 workers.

Negotiations on a new contract had been under way in Daytona Beach since the old

contract expired Oct. 30. Charles 'Tex' Watson

Charles ANGELES (AP) -"Tex" Watson, 24, once chief lieutenant of Charles Manson, was formally given the death sentence Thursday for his role in the seven Tate-

He showed no sign of emotion as Judge Adolph Alexander followed the jury's recommendation that Watson should die in San Quentin's gas chamber:

Manson and five others of his hippie-style "family" are already under the death sentence for murder. Watson was tried separately after being extradited from his home in Texas.

He will be taken to San Quentin Prison within 10 days but, under California law, there is automatic appeal to the state Supreme Court of a death sentence

Twelve hours before the

Several hundred passengers awaiting transfer to other cities were stranded by the They included drivers. baggage handlers, clerks. maintenance men and ticket

and financier Marion Arthur transport of stolen property. Given Death Sentence

Watson testified that in August 1969 he led members of the Manson group to the mansion of actress Sharon Tate Miss Tate and four others Miss Tate and four LaBianca murders

The next night he said he accompanied Manson to the home of grocer Leno LaBianca. LaBianca and his wife, Rosemary, were stain.

Watson said his mind was so foggy by drugs that he did not know what he was doing. After his recent jury conviction, his court-appointed attorneys moved for a new trial. Said Maxwell Keith: "Tex was a sick man then and he's a sick

In denying this motion, Alexander said: "As much as ! abhor the death penalty, it was justified here.

the United States are looking for the rest of the haul.

Police sources said the stock theft took place at American Banknote Co. in Chicago last August. The FBI in Chicago said the securities blanks were intended for delivey to four U.S. companies when they were stolen.

The Americans were ordered held in Brixton Jail, an antiquated prison in a South London suburb. They were told to appear again next Friday in Marlborough Street

Word was flashed to London, and Scotland Yard took up the chase.

Officers followed the men any of these gentlemen before from London Airport except one... I have lived for Thursday to the apartment in 20 years in Cannes, France." the fashionable Mayfair Johnson, a massive man

After the Americans moved made a movie with Sardo and in with their luggage, Scotland Yard men grabbed them.

The men were identified in court as: Rudolph Johnson, 48year-old movie maker who lives on the French Riviera; film producer Frank Marco Sardo, 35; Charles Samuel Bufalini, 52; Nicholas Avenetti, 44-year-old record producer: James Walker the charges. The U.S Pettinotti, 39, all from California: Terry Somenzi, 29, of Highland Park, Ill.,

PAMPA DAILY NEWS Year Sunday, Nov. 14, 1971 Cornmeal Allegedly Containing Aflatoxin Removed From Sale

DENTON, Tex. (AP) - The president of Morrison Milling Co. of Denton said Friday it isbelieved all products alleged by the Food and Drug Administration (FDA) to contain aflatonin have been removed from public sale.

"To the best of our knowledge, all of it has been removed," said company President Ed Morrison. He said the action was part of a voluntary recall on the part of the manufacturer.

Thursday, the FDA announced the recall of 87 tons of cornmeal mix allegedly containing alatoxin, a cancer causing substance produced by mold

The recalled products are Lil Lulu self-rising white commeal mix enriched, and Morrison's Corn Kits, prepared combread mix. Both are produced by the Denton

Morrison said the company has yet to receive any directive from the FDA pertaining to the recall of the products.

'This was an action taken by us based on what we oursleves could find out about aflatoxin and possible harm to man," Morrison stated.

We felt that the consumer should feel protected from any possible or potential harm, Morrison added. Recalled, according to

Morrison, were Corn Kits bearing the first three code numbers J10 through J18. The code number appears on the margin of the package. Also recalled were Lil Lulu

packages with the code numbers J13 through J20. The code number is found at the bottom of the package.

'The corn from which these products were made were found to contain aflatoxin, the

toxic substance produced by the growth of molds and shown to be carcinogenic in some animals, an FDA spokesman stated.

持克尼尔东西 水水石 4、

The products therefore are regarded by FDA to pose a potential threat to human health," the FDA spokesman

According to the FDA, its tests showed the Lil Lulu brand contained 95 parts per billion of alfatonin on a final analysis and the Corn Kits contained 70 parts per billion. The FDA's acceptable level is

The FDA said the suspected corn from an unknown source was unloaded at the Morrison plant Oct. 5. The federal agency is reportedly investigating to determine whether other companies' products may contain contaminated corn.

INST. OVER QUALITY PAD

Historical Society Keeps Legacies Of Pampa

EDITORS NOTE-Tracy D. Cary, is the author of this article and chairman of the Gray County Historical Survey Committee, which recently won the state's highest honor at the annual meeting of the Texas Historical Survey Committee in Del Rio.

By TRACY D. CARY

'Is your home-work done?" is a question that has a very familiar ring in it for people of all ages and while it has usually meant school studies it can have a much larger and more profound application when enlarged to think of where our "home" is...and what was involved for the pioneers of the past who did their "home-work" and made the wonderful country of the Texas Panhandle a place their descendants and future generations also would want to make their homes

Gone are too many of Gray County's historic landmarks of yesteryear, the dugouts, early ranch houses, the first stores, country schools, the white frame steepled churches, along with the parlor organ, the bamboo easel, the erayon portrait, the gold painted chair, the tin bath tub, the water bucket and dipper, the buggy galluses, the bustle skirt, the razor strap, the churn and dasher, the wood stove and the moving experience of the annual spring-tonic dose of calomel and the fragrant essence of

asphoeditae bag necklace.. with them a way of life so dompletely different and unique to the present generation that it would be impossible for them to appreciate the heritage of the past were it not for the work of dedicated and ever-vigilant historians and laypeople who realize that "a picture is worth a thousand words" and to see, feel, hear, smell, taste. or feel the artifacts, sights, sounds etc. of the past is to recapture for a fleeting moment the experiences their pioneer ancestors had some of the disadvantages and great handicaps under which they labored, and the inspired that which we call "modern"

It is well said that "Today's trash is tomorrow's treasure' and so many things we take for granted will, in a short time, become first, objects of curiosity, then antiques then artifacts.

Twelve years ago the closest historical museum was the Panhandle-Plains Museum at Canyon...a 140-mile round trip to view the relics of the past. There had never been a historical society in Grav County although there were reunions of pioneers from time to time. And as for the study of family history or 'genealogy' this science, when called by its correct name, was interpreted by most as "someone exploring for oil or digging for arrowheads

Thus it was on March 9, 1959 that the Pampa Genealogical & Historical Society was organized: a literary and historical corporation chartered by the State of Texas and dedicated to the preservation, promotion and publication of the priceless American heritage as bequeathed by our pioneer ancestors through the recording of their ancestry. descendants and the history of the areas where, they lived---that their ideals. character and deeds may be forever remembered by

posterity A newspaper story recalled some time ago the sequence of events that led to the formation of Gray County's first Historical Society. "The Pampa Geneological & Historical Society had its beginning on Feb. 3, 1959. when Tracy D Cary, a founding member of the Fort Worth Genealogical Society numbering some 900 members, paid a visit to Culma V. Ingram at his business with the intent of organizing such a Society in Pampa. Cary, a third generation Pampan whose family came to Gray County in 1905, had returned to Pampa a few weeks earlier and knowing of the outstanding genealogical work gonducted by members of the Mormon Church, contacted Ingram, then president of the Jocal Church of Jesus Christ of Latter Day Saints. Through press and radio announcement was made of an organizational meeting which was held March 9, 1959 in the auditorium of Lovett Memorial Library. The Founders of the Pampa

Society were: Mrs. Cliff Drake and Mrs. Joe Andress of Borger, Mrs. Charles A. Tignor, Mrs. Nina Spoonemore, Mrs. Stan T. Friend, Mrs. M.H. Kieffer, Mrs. A.H. Sanchez, Wallace Truesdell, Culma V. Ingram and Cary

Since that date the Society's membership grew to some 400 memberships, 60 of these being local. Geneological Books were non-existent at Lovett Memorial Library in 1959 and although the Library had owned a fine microfilm reading machine since 1955-not one roll of film was owned by the library. With the cooperation of Mrs. Lillian Snow, then head Librarian, the Society conducted bake sales, bazaars, white-elephant sales, sold fruit cakes at Christmas, and had a gigantic gook and rummage sale using the funds from these projects to purchase numerous reference books microfilm-census rolls, and periodicals and placed these in the Pioneer Heritage Collection at Lovett Memorial

As the Society's donations to the Library grew more space was needed to shelve the books. Mrs. Snow then designated the shelves in the Smoking Room for the Pioneer Heritage Collection and these were used until more space was needed.

For some time prior to this. the Library had sponsored a series of adult education courses but Mrs. Snow said that the Genealogy Society was the only one that had continued to exist and had enthusiastic interest. It was then that the newspaper storage shelves just in front of the smoking lounge were made available and Mrs. Snow had glass front doors and locks placed on these so that the rare and very valuable books donated or solicited by the Society would have more protection as is done in the Bush Collection in Bivins Library in Amarillo. The collection was then moved into these four-sectioned cases.

retirement and changes in library personnel the collection which originally occupied four sections has now been crowded into two making it impossible to see titles of many of the items but judging from the interest in this small but valuable collection, its worth has been proven over and over as, not only our local reasearchers students use them constantly, but genealogists come from other states and many surrounding towns to consult the books. Lovett Library is the second largest library in the Panhandle and its location is strategic...it is a 112-mile round trip if Pampans have to rely on the resources of the Amarillo library...such a collection is a valuable asset to the community and is needed here In November of 1962 the

Pampa Genealogical &

Historical Society sponsored

along with the Texas State Genealogical Society and some 40 heritage organizations in the Panhandle the First North-High Plains Genealogical & Historical Conference a memorable occasion which brought such speakers as Mrs. George Lutz. granddaughter of the famed Comanche chief Quanah Parker and great granddaughter of Texas' most colorful heroine, Cynthia Ann Parker: Dr. Lester F. Sheffy. scholarly teacher and author of many books on the history of the Panhandle; Floyd Studer, renouned archeologist, who spearheaded the drive to have the Alibates Flint Quarries declared a National Monument; Mrs. Cordia Sloan Duke, author of "6,000 Miles of Fence" the story of the XIT Ranch: Father Stanley Crocchiola prolific author of southwest history; Ernest Archambeau, editor of the Panhandle-Plains Historical Review for many years and many others...Dr. Sheffey. Mrs. Duke, and Floyd Studer had since passed on, and posterity is impoverished by their loss but enriched by their

Acting jointly with the Gray County Historical Survey Committee, the Pampa G&H Society initiated the Pioneer Cottage and Park project at the intersection of Yeager and Starkweather Streets. This pioneer home was recognized by the State of Texas and awarded the first historical

example and hard years of

PIONEER MEMORIAL-The painting shown here hung for many years over the choir loft of the First United Methodist Church and now is a memorial to all Methodist pioneers in the chapel of Pampa's White Deer Land Museum. Viewing the painting, left to right, are Tracy

home medallion in Gray County. It was built in 1903 by settlers Wiley P. and Katie Vincent and was given for restoration to the Society by Clifton Vincent and his wife the former Edna Carr, whose father E.S. Carr. former Pampa Mayor, donated the land on which the Cottage is now located, to the City for a

White Deer Land Museum

park

For many months the Board and membership of the Historical Society realized that it was necessary to have some larger facility to house the growing archival collection and records of the Society and in the early part of 1969 Tracy D. Cary met with William J. Smith and Thomas Wade, trustees of the M.K. Brown Foundation and asked permission for the Society to use the vacant north side of the White Deer Land Building as Mr. Brown had been a member and enthusiastic supporter of the Society from its beginning. This was readily granted but the condition the building made its use impossible without renovation which the Foundation agreed to underwrite

The four rooms on the north side of the building were granted to be headquarters of the Genealogical & Historical Society and soon possibilities for a fine museum in the building became evident since the records and furnishings of the White Deer Land Company had been kept intact on the South side of the building...half a museum was already there!

The White Deer Land Co. proudly erected Pampa's third brick building on the still-unpaved Cuyler Street in 1916 to house its records of 631,000 acres of Texas Grassland in Gray, Carson, Roberts and Hutchinson Counties.

Since that time, the Masonic Lodge, and in the year marked by April, 1927 to April 1928, the Catholic community of Pampa met for services within its walls. The Pampa postoffice was located on the north side frr many years. Dentists and doctors in the past have set up practices there and no other surviving building in Pampa had a history more worthy of preservation.

Efforts of the Pampa Genealogical & Historical Society included countless hours, days and months of volunteer labor in building renovation, purchase of display cases and solicitation from pioneer families historical artifacts pertinent to the history of the White Deer Land Co. holdings which in the infant years was one of the largest corporations in the history of the area.

Before any repairs had been initiated I had a call from Mrs. David Marvin Jones of Lefors who asked me to drive over and see some things she wished to place in the new museum...among these were a large spinning wheel made in 1837 in Georgia and a coverlet woven by Mr. Jones' grandmother on the wheel during the Civil War. I had a time getting all this in the car but was delighted to receive

such interesting articles. Then there was the Indian arrowhead and artifact collection of our long-time family friend, Rolla V. Sailor, that drew visitors from far and wide to his home two section lines west of Pampa...I had a personal interest, too, in this collection as the Sailor Farm was originally the first Gray County home of my

grandparents, Mr. and Mrs. David W. Cary who purchased it from the White Deer Land Co. when they moved here from Lamar County some 65 years ago ... part of the lumber used in building the arrowhead room was taken from the old Cary home. which Sailor purchased in 1913. Thanks to Mr. Sailor's generosity this collection is now housed in the Museum and represents over 40 years of collecting.

As people learned of our need they began to "do their homework" and looked through old family trunks. attics, basements, and barns for their family's treasures of the past and as the items began to come in we needed some place to store them.

In the early part of June, I

took some jewelry to have repaired by Mr. L.N. Pittman, long-time Amarillo jeweler...when I returned for it several days later. I learned June 17th and that the store merchandise and fixtures would be sold ... among these I spotted some very fine antique jewelry cases ... days later when I went to see if they could be purchased I found they had been sold and removed by an auctioneer firm four days before the auction, a death occurred in my family and I had to leave for Tennessee, but Mrs. Fred Thompson went to the sale and bid on them and we were able to purchase two of them...now refinished into breakfronts and being used in the Museum Parlor these cases have been in constant use since 1891 when they were purchased by the Seewald Family in their ewelry business and sold in turn to E.I. Pittman in 1907. L.N. Pittman, son of E.I., graduated at the South Bend

College of optics in 1905 and Philadelphia College of optics in 1906. He began his optical practice in 1906 and his ewelry business in 1910...most of Pampa's clocks in the early days were repaired by Seewald & Pittman until Elmer Barrett opened his jewelry business

Many, many volunteers helped make possible the opening day so that on December 6, 1970 the Museum was dedicated as a part of Gray County Historical Appreciation Week and a State Marker unveiled by the Hon. A.J.W. Hockenhull, Consul General of Great Britain, representing the government of Her Majesty, Queen Elizabeth II...thousands of visitors from 12 foreign countries and every state in the Union but Hawaii, have poured through the building and greeted the exhibits with warm

enthusiasm. With contemporary eyes focused on China these days, visitors are interested to find a piece of the Great Wall of China, some 1800 years old displayed...it was personally broken off the wall by Judge C.E. Cary and brought to this country in 1915...the springs used in the officer's commisary at old Fort Elliott were a recent donation of Miles & Bill O'Loughlin of Miami...their grandmother Mrs. Ellen O'Loughlin was the first woman to have a home in Gray County she and her husband Thomas O'Loughlin coming with the soldiers in the spring of 1875...then there's the wedding dresses of Mrs. Fannie Lovett, Mrs. Charles Tignor, and Mrs. John

McKamy... the tuxedo of T.D.

D. Cary of Pampa, Mrs. Dorothy Dodd Brown of Los Angeles and Chester C. Dodd of Pampa. The Rev. D.D. McSkimming, the artist, was Dodd's father-in-law and Mrs. Brown's grandfather.

belonged to the grandfather of

Harlan Case and Mrs. A.A.

Tiemann...the very fine

dolls, tea set and photo album.

On December 30, 1970, the trustees of the M.K. Brown Foundation deeded the White Deer Land Building and grounds to Gray County to be operated as a County Museum with the Pampa Genealogical & Historical Society and the Gray County Historical Survey Committee in charge of its operation.

Logan's Teddy Bear, one of Unique among the museum the first ever made (in displays is the Chapel, and the Germany) and brought to her by Mrs. C.P. Buckler in White Deer Land Museum is 1906. then there's the the only museum to have such that Mr. Pittman had died on 110-year-old silver service a display within a 600-mile which belonged to Mrs. Minnie radius...the first pulpit and Communion table used in the original First Christian Carhart, and niece of the man Church in 1911. the beautiful hanging chandeliers originally in the First Baptist Thelma Carhart Taylor ... the Church two Gothic style replica of the first oilwell on amber glass windows from the old Sacred Heart Catholic No. 2, made by Earl Church at White Deer built in 1913...flags from St. Matthew's Episcopal Veterans of all ages find the military exhibits recalling Church...a beautiful set of white satin Mass vestments, hand-embroidered in gold by Nuns in Valencia, Spain, the of former Pampa Mayor, door from the altar of the Blessed Virgin Mary in the old Regiment Sash which Holy Souls Church...a hymnal used in the old Union Church where the Central Baptist Church now stands and collection of various pioneer household items of C. Otto especially, the beautiful oil

yesrs over the choir loft of the First Methodist Church and is now a memorial to all Methodist Pioneers...it was painted by the Rev. D.D. McSkimming, father of Mrs. C.C. Dodd, and portrays a scene of the three crosses of Calvary and the Garden tomb which the aged minister saw in a vision during a critical illness...as soon as he was able he called for canvas and paint and began work while the memory was still vivid ... the way the heavenly light rays are captured is said by artists to require the most expert

It is not possible to enumerate the hundreds of fascinating items now housed in the museum collection...but the response by the public to this long needed cultural facility has been tremendous and gratifying. Any visitor to Pampa will

also find the Courthouse Square of unusual interest...the Pioneer monument with 400 years of Gray County and Panhandle history inscribed thereon is located on the south lawn...the Peter W. Gray monument at the northeast corner of the square tells the fabulous story of the County's namesake...inside in the east foyer of the courthouse is the portrait of Judge Gray...on the second floor in the County courtroom are the portraits of all 14 Gray County Judges...a portrait of Judge Don Cain will be added in the near future making 15 in all ... on the third floor in the District courtroom are the portraits of District Judges Frank Willis. Jr., B.M. Baker, H.G. Hendricks, W.R. Ewing. Frank P. Greever, and Lewis

This relates in part how the Pampa Genealogical & Historical Society has done its "homework" assisted and advised by the 19 members of the Gray County Historical Survey Committee and aided by the time, talents and labor of hundreds of our historically-minded citizens.

Goodrich.

basis with no member or officer of the Society or County Committee receiving remuneration for their services. The only salaried personnel now include Mrs. Fred Thompson, curator: Mrs. Mona Blanton, assistant: and Student Docent trainees. Dianna McCain and Darrell Carey Salaries of Mrs. Thompson and Mrs. Blanton are paid by the M.K. Brown cotton producer." Purcell Foundation with Social Security and Retirement paid

painting which hung for many by Gray County. The student trainees are financed through: the National Youth program. The Museum is open to the public each Friday, Saturday and Sunday from 2 p.m. to 5 p.m. and specail arrangements may be made for other days by calling 665-5521 or 665-5528.

If YOU haven't done YOUR "Homework" yet, will you please get busy and go through that attic or trunk...perhaps what you find there is just what is needed to further enhance the museum exhibits.

Purcell Bill Seeks Cotton Adjustment

WASHINGTON-A bill to require the Secretary of Agriculture to make 100 per cent adjustments in payment yields for Texas cotton producers affected by the severe drought and other calamities has been introduced by U.S. Representative Graham Purcell (D-Tex.)

Under the Nixon Administration's farm program," Purcell explained, cotton farmers are forced to accept permanent reductions in their production payments solely on the basis of natural disaster over which they have absolutely no control. This is clearly inequitable.

Purcell, chairman of the Livestock and Grains Subcommittee, said that several areas in California have already received projected yield adjustments of 100 per cent because of pink bollworm infestation.

"Devastation from drought, or for that matter hail. windstorms or any other disaster can be just as damaging to a cotton farmer as the pink bollworm," the veteran Texas congressman observed

"I agree with the decision to grant these California areas a 100 per cent adjustment." For twelve years this work Purcell emphasized, "but this has proceeded on a volunteer is the only instance in the country in which the Secretary of Agriculture has decided that projected yield adjustments for a disaster year could exceed 90 per cent. The Administrator of the Agricultural Stabilization and Conservation Service, the man responsible for recommending yield adjustment figures, Kenneth Frick, is a large California continued.

eves, the United Nations at age 26 is suffering from hardending of the arteries. Proponents of Peking argue that its entry, in effect bringing a quarter of mankind to the world forum, will give the United Nations a new bill of health. But as William L. Ryan reports in this article. last of a series, the situation goes deeper than that.

By WILLIAM L. RYAN **AP Special Correspondent**

UNITED NATIONS, N.Y. (AP) For the deeply troubled United Nations, a time of uncertainty lies ahead a time, perhaps, of shocking change

Will the world organization survive all its ailments, or will it go the way of its predecessor League of Nations and die a lingering death?

Ask the question in this big glass house overlooking New York's East River and the reply invariably is: "What else is there

Ahead are awesome problems with the destiny of humanity hanging in the balance. These are not only questions of war or peace. They include challenges of pollution, of exploding population, of dwindling resources, of seeking wider distribution of the world's wealth.

Will the United Nations, with all its weaknesses and worries, be equal to dealing with them'

We are definitely entering into a new phase in the history - of the United Nations," says -Cyrus-R. Vance, who heads the policy studies committee of the U.N. Association of the U.S.A. "This is an absolutely critical time to try to make of the organization what it must be if this ... going to be the kind of world it should be.

Vance, former U.S. ambassador at the Vietnam peace talks in Paris, told an interviewer. One thing we must face, up to-and particularly large countries like the United States is that we cannot have a strong United Nations if it is continually teetering on the verge of

Bankruptcy is only one threat to the organization's health. It suffers from being frequently bypassed by its members in time of crisis from neglect and sometimes even scorn from its members effectiveness, and now from worry engendered by the uncertainty surrounding Red China's entry as a member wielding the power of veto.

Often in the past delegates here have been told that a basic weakness of the United Nations was the fact that China, with a quarter of humanity. was not represented.

Now that complaint is to be put to the thest.

China. says J. Russell Wiggins, a former U.S. ambassador to the United

Barnes Assailed For Using State Employes

Pa npa Texas

SAN ANTONIO (AP)-A Republican legislator from Austin has blasted Lt. Gov. Ben Barnes for using state employes to produce automatic typewriter tapes of 90,000 names and addresses for use in part in Barnes' cam-

Rep. Maurice Angly told the San Antonio Teen-age Republican Club Thursday

paign for governor.

night it "is only one instance of his (Barnes') total disregard for Texas taxpayers.'

Two newsmen stumbled onto the project Tuesday in

the Capittol basement. Robert Spellings, Barnes top aide, explained: "All politicians do it. You don't find anybody who holds elective office that doesn't have a card

He said the file would be used to some extent in Barnes campaign for governor.

Year Sunday, Nov. 14, 1971

"I know of no one except Barnes, who would consider the preparation of an apparently massive direct mail campaign designed to promote his bid for the governorship an activity the expense of which should be placed on the shoulders of the taxpayers," Angly said.

1971 District 3-AAAA Champions Harvesters Capture Crown

By RICKEY WRIGHT

Staff Writer Pampa became a second half team as they came from 14 points behind to beat the the first time since 1950.

were fruitless for both teams in the first quarter. In the Sandie third series of plays they took a Harvester fumble Amarillo Sandies on the on the 13-yard line and on the sacred tenth year and to second play Sandie become district champions for quarterback John Warren (12) dived over the goal line from

Sunday, Nov. 14, 1971

back with the kicked point after to give the Sandies the lead 7-0. On the kickoff Sandies

kicked the ball out of bounds and had to rekick. John Warren on the rekick booted it out of bounds again at the 35-yard line where the Harvesters took possession. After driving Pampa had to give up the ball on the Sandie The Sandie drove from their

own 13 to the opposite goal for the other Sandie score. Sears Woods was the carrier of the pigskin as fell across from the six-inch line. The quarters had changed during the Sandie drive and the extra point kick was made good by Warren.

No further scoring was made during the first half, but both teams had their opponent

The first two series of plays one yard out. Warren came sweating with the numerous threats.

> Harvester Bobby Owen took the kickoff on the Pampa one and managed to run it a short 15 yards to the 16. Here Pampa drove to their first touchdown of the game as after 13 plays Dale Ammons connected with Mike Reddell for the score. The point after was a run by Ammons to put the score up at 14-8 favor of Amarillo.

The Pampa drive shook the Sandies as three plays after the kick off John Warren fumbled the ball and linebacker Alvin Ferguson recovered it on the Sandie 46.

After four first downs the Harvesters drove down to the one-yard line where Garvin McCarrell leaped to pay dirt and tied the score at 14 all. Richard McCampbell

struggled with point after kick as Sandie Ricky Fenlaw hurdled the Pampa center in an attempt to block the conversion kick McCambell made the kick good and the mighty sicklers took a one-point lead.

The rattled Sandstorm took the kickoff and after five plays were forced to punt. The deep

West Texas Rifle Team Downs Tech

CANYON - The WTSU Military Science Department has organized the Tri-State Smallbore Rifle League composed of teams from six schools, WTSU, New Mexico Military Institute, Eastern New Mexico University, Texas Tech University Panhandle State College, and Cameron State College. Lieut. Col. John O. Childs, professor of Military Science at WT, is the league president.

WTSU Rifle Team and Texas Tech fired a shoulder-to-shoulder match opening the new league schedule. WTSU shooters won the match, defeating Tech 1014 to 932. Bill Bevers, team captain, was high scorer, firing 274 out of a possible 300 points. Second high for WT was Howard Denton with a 264. Firing team members were Bevers, Denton, Dave Bradley, Donald Fewell, and Gerry Ingrum. Master Sergeant Bobby M. Fisher is the team coach and league secretary

WTSU shooters will compete against Panhandle State College Nov. 20 at Goodwell, Okla.

W.TSU will be firing in the High Plains Winter League this year competing in ten s.cheduled shoulder-to-shoulder matches with the final match to be fired April 28, 1972.

On Dec. 10, the rifle team will travel to Fort Bliss. Texas, to compete in the Fifth US Army. Texas-New Mexico conference match to be conducted Dec. 11

Anyone interested in competitive firing and trying out for the rifle team is asked to contact MSG Fisher or any rille team member!!

Schoolboy Roundup

Texas schoolboy football Friday night saw the crowning of many district winners as the long season ended for all but the playoff hopefuls and a few teams playing games next

Of the 40 teams ranked in the Top Ten in the four schoolboy classes, only two were defeated. No. 8 Port # Arthur Jefferson, ranked No. 1 in AAAA most of the year until it was upended last week by. Port Arthur Lincoln (now No. 2. lost to Port Neches Groves 28-21 Friday It already had lost Dist 2-AAAA to Lincoln.

The only other ranked team losing Friday was the No 9 outfit in AAA. Robstown, which lost to No. 2 Gregory-Portland 49-21. The Gregory-Pertland victory also clinched a 15 AAA crown.

In other AAAA games, top ranked Wichita Falls rolled over Wichita Falls Rider 41-14 and captured the 6-AAAA title Port Arthur Lincoln dropped Vidor 48-6, No. 3 Dallas Carter (which previously won Dist 2 AAAA beat Dallas Wilson fourthranked Arlington that edged Arlington Houston 21 14 and took the 7-AAAA 111 No. 5 Odessa Permian shut out Odessa High '48-0 sixth ranked Houston Westchester tripped Houston Memorial 27-14 and won 16-AAAA No 7 San Antonio Lee. abbered San Antonio Jay 42and picked up 31-AAAA areas and 10th ranked Kaleen beat Dallas Skyline and claimed the 15AAAA rown No. 9 Austin Reagan was not scheduled but already had won 26-AAAA.

All the Class A elite won. opranked Sonora beat Robert Lee 35-7, No. 2 White Deer blanked Sanford-Fritch 0.0. third-ranked Holliday apped Paducah 47-6, fourthmanked White Oak shut out mon Grove 27-0. No. 5 Barbers Hill slashed Hardin 36-6 No 6 Crowley ran over Cedar Hill 51-6, seventhranked Albany beat Abilene Wybe 41-6. No. 8 Farmersville plewed over Princeton 41-10 9 Tidehaven shut out ourse 34-0 and 10th ranked Mason shot down Bangs 62-0.

Sports HallOfFame **Inducts Texans**

Bishop Fores

DALLAS (AP) - Two of the state's greatest high school football coaches, a former oustanding major league baseball player, a junior college basketball coach who made Ripley's "Believe It or Not." and the first black world's heavyweight boxing champion have been named to the Texas Sports Hall of Fame.

The five new members, who increase the honor list to 73. are H. N. (Rusty) Russell, coach of the Masonic Home "Mighty Mites" in the 1930s: Pete Shotwell, who won three state schoolboy football championships at different schools: Carl Reynolds. slugging outfielder for 12 years in the major leagues and participant in one World Series: W. J. Wisdom, whose Tarleton State basketball teams won a world record 86 straight and the late Jack Johnson, winner of the heavyweight title in 1908 and

successful defender of it six Rusself, Shotwell, Wisdom

Dallas for the annual Hall of Fame luncheon Dec. 13. This has become a highlight of Cotton Bowl week. The luncheon is co-sponsored by the Texas Sports Writers Association, which governs the Hall of Fame, and the Salesmanship Club of Dallas

Through Russell's guidance. Masonic Home football teams scratched their way to the top to leave a lasting imprint in Texas football annals. His teams, which seldom had more than two or three substitutes, lost in the 1932 finals to Corsicana on penetrations in a 0-0 tie, and reached the semifinals in 1934. 1938 and 1940.

In 34 years as a high school coach in Texas. Shot well won 249 games, lost 80 and tied 17 and coached Abilene and Longview to state championships in 1923 and 1937 and Breckenridge to a cotitle with Port Arthur in 1929. In 1923 through 1925, his teams won 33 games while losing. two

Marshall Tragedy Fades HUNTINGTON, W. Va. folks prefer to plan for the a chartered jetliner crashed tims of the worst air disaster

(AP) On the surface, things are much the same in Huntington as they were the middle of last November when sudden shock enveloped the 80,000 residents of this pleasant Ohio River city.

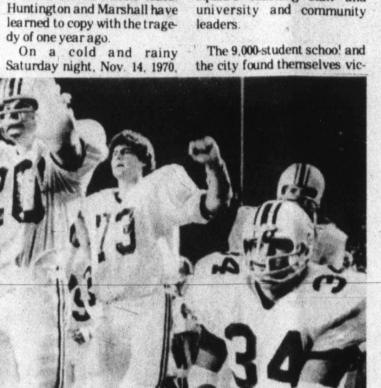

Now, as then, the weather is turning colder, local stores are displaying their Christmas wares while most

Thanksgiving holiday and students at Marshall University are following closely the exploits of the school's football team.

There are no visible tears. Huntington and Marshall have dy of one year ago.

learned to copy with the trage-On a cold and rainy

short of nearby Tri-State Airport, killing all 75 persons aboard-including 34 members of the Marshall's football team, most of the squad's coaching staff and

THE BENCH of Marshall University's football team shows its enthusiasm during a game early this season. The team, made up almost exclusively of freshmen and sophomores, has struggled through its first season since the team plane crashed last Nov. 14, killing 34 varsity players and 41 other people.

Offense Vs. Defense Mark Viking's Clash

ASSOCIATED PRESS Minnesota's defense, which has carried the Vikings to the top of the National Football Conference's Central Division despite a lethargic offense, will be tested against the running tandem of Green Bay's Donny Anderson and John Brockington. The Vikings, 6-2, host the

Packers, 3-41, in a battle of Central Division teams in the National Football League. The Vikings hit a cold spell last week against San Francisco and mustered only three

Fred Cox field goals in losing Green Bay, bolstered by the running of Anderson and Bro-

ckington, upset Chicago 17-14. The two running backs have combined for 1,085 yards this season. In other NFL contests today. Pittsburgh will be at City. Los Angeles at Detroit,

Miami, Cleveland at Kansas Washington at Chicago, New Orleans at San Francisco, the New York Giants at Atlanta. Baltimore at the New York Jets. Houston at Oakland. Buffalo at New England. Cincinnati at Denver and Philadelphia at Dallas San Diego hosts St. Louis Monday night

The Vikings are 12th in total offense in the 13-team NFC. 11th in passing and 10th in rushing. However. Minnesota ranks second in defense behind Washington.

The Packers may be without injured defensive tackles Bob Brown and Mike McCoy.

In the NFC West Division, front running San Francisco. 6-2, will battle New Orleans. 2-4-2; led by quarterback Archie Manning.

Only One Ramp Available For **Boats At Lake**

Sanford-Yake launching ramp now is the only ramp available to boaters on the south side of Lake Meredith.

James M. Thomson, superintendent of Sanford Recreation Area, said Saturday that Fritch Fortress boat ramp was closed down Thursday to begin

construction there. "Extension of the ramps is progressing nicely." said Thomson. "They ore finishing up the Plum Creek ramp now and will start pouring concrete on the Cedar Canyon ramp this week.

'As work nears completion on one ramp, they will start on another, staggering the closures so that there will always be at least one ramp available on each side of the lake. For the present Sanford-Yake ramp and Blue West ramp will be available to boaters. After the concrete has cured on the Plum Creek ramp, they will open it and start work on the Blue-West Ramp.

Extension of the ramps at Lake Meredith is being done by Wes-Tex Construction Co. The of Borger Arnold Zink. engineer with the National Park Service, is project supervisor

Signal-caller Mike Phipps defenders Gerry Philbin, Al will pilot Cleveland, 4-4, against Kansas City, 5-2-1. and second to Oakland in the American Football Conference's Western

Bradshaw will call the signals for Pittsburgh, 4-4, and tied with Cleveland for the AFC Central lead, against Miami, which will be missing injured running back Jim Kiick.

The New York Jets will have

Atkinson and Earlie Thomas back from the injured list , football history. against Baltimore, 6-2, behind Miami in the AFC East Race.

The New York Giants, 3-5. probably will start without Quarterback Terry running backs Ron Johnson and Tucker Frederickson when they clash with Atlanta and quarterback Dick Shiner. Oakland, AFC West leader

at 5-1-2, probably will be without injured running back Mary Hubbard against Houston, 1-6-1.

attempt to maintain their 112game NFC East lead against Chicago, 5-3 and No. 3 in the NFC Central

in sports history.

"This town has always been possessive of Marshall," the Rev. Robert Scott explained.

"So, it was totally involved in the tragedy. Father Scott, campus priest and chaplain of Marshall's

football teams was to have made last year's trip to the East Carolina State game but stayed behind to deliver a weekend mass. "I heard about it while

eating supper," he recalled. "I went out to the site but it was obvious I couldn't administer last rites. None of the victims were recognizable

"But that's history now," he said. "and we must emphasize the present. Yet there are always undercurrents of the crash.

While the death of community doctors, dentists, lawyers and even a state legislator created a void Huntington will not fill for years, school and city officials decided, after the shock had subsided somewhat, Marshall would rebuild its football program.

A program on the road to recovery from a recruiting scandal, league suspension and six consecutive losing seasons had to be started from scratch.

A new head coach was hired, along with a new athletic director and sports information director to take

over for victims of the crash. Marshall received permission from the NCAA to use freshmen in varsity competition and, together with sophomores who had never known varsity action, the Thundering Herd began a new era in its school's

As expected the team is experiencing a losing season against veteran major college competition. Before the season's first game. Huntington residents discussed the possibility of having to wait two or three years before celebrating the first post-crash victory.

They didn't have to. Under the tutelege of coach Jack Lengyel, a patient but demanding man, the Young George Allen's Redkins will Herd won its first home game in a last-second triumph over Xavier and added a homecoming victory over heavily-favored Bowling Green five weeks later.

"I'm pleased with the overall progress of our team," Lengyel said. "We'll have a lot of frustrations until we mature, but we have received good support and I think Marshall will be able to overcome the events that have

marred its athletic history. Saturday, before Marshall hosted the University of Toledo's Rockets at its Fairfield Stadium, a dedication ceremony was held. Nate Ruffin, Felix Jordan and Ed Carter, surviving members of the 1970 varsity squad, and Carl Kokor, Red Dawson and Mickey Jackson, surviving members of the coaching staff, presented a wreath in memory of those who died.

A Sunday mass was sched-

"People have said the funeral must end sometime." Father Scott said, "and that's true, though it seems like a

callous thing to say. "But no one, anywhere," he said, "will ever be able to talk about Marshall football or Huntington and not think about last Nov. 14."

COLUMBUS, Ohio (AP)-Greg Strunk ran a kickoff 93 yards and Randy Anderson scored from one yard in the fourth period Saturday, giving Northwestern a 14-10 upset and knocking Ohio State from the Big Ten football title

Sports HallOfFame **Inducts Texans**

DALLAS (AP) - Two of the state's greatest high school football coaches, a former oustanding major league baseball player, a junior college basketball coach who made Ripley's "Believe It or Not." and the first black world's heavyweight boxing champion have been named to the Texas Sports Hall of Fame.

The five new members, who increase the honor list to 73. are H. N. (Rusty) Russell, coach of the Masonic Home 'Mighty Mites' in the 1930s; Pete Shotwell, who won three state schoolboy football championships at different schools: Carl Reynolds, slugging outfielder for 12 years in the major leagues and participant in one World Series: W. J. Wisdom, whose Tarleton State basketball teams won a world record 86 straight and the late Jack Johnson, winner of the beavyweight title in 1908 and

successful defender of it six times. Russell, Shotwell, Wisdom and Reynolds will come to Dallas for the annual Hall of Fame luncheon Dec. 13. This has become a highlight of Cotton Bowl week. The luncheon is co-sponsored by the Texas Sports Writers Association, which governs the Hall of Fame, and the Salesmanship Club of Dallas.

Through Russell's guidance. Masonic Home football teams scratched their way to the top to leave a lasting imprint in Texas football annals. His teams, which seldom had more than two or three substitutes, lost in the 1932 finals to Corsicana on penetrations in a 0-0 tie, and reached the semifinals in 1934. 1938 and 1940.

In 34 years as a high school coach in Texas. Shotwell won 249 games, lost 80 and tied 17 and coached Abilene and Longview to state championships in 1923 and 1937 and Breckenridge to a cotitle with Port Arthur in 1929. In 1923 through 1925; his teams, won 33 games while losing

Marshall Tragedy Fades

(AP) — On the surface, things are much the same in Huntington as they were the middle of last November when sudden shock enveloped the 80,000 residents of this pleasant Ohio River city.

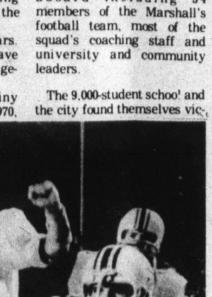

Now, as then, the weather is turning colder, local stores are displaying their Christmas wares while most Saturday night, Nov. 14, 1970,

folks prefer to plan for the a chartered jetliner crashed tims of the worst air disaster Thanksgiving holiday and students at Marshall University are following aboard-including 34 closely the exploits of the school's football team.

There are no visible tears. Huntington and Marshall have learned to copy with the tragedy of one year ago.

On a cold and rainy

short of nearby Tri-State Airport, killing all 75 persons

THE BENCH of Marshall University's football team shows its enthusiasm during a game early this season. The team, made up almost exclusively of freshmen and sophomores, has struggled through its first season since the team plane crashed last Nov. 14, killing 34 varsity players and 41 other people.

Offense Vs. Defense Mark Viking's Clash

ASSOCIATED PRESS Minnesota's defense, which has carried the Vikings to the top of the National Football Conference's Central Division despite a lethargic offense. will be tested against the running tandem of Green Bay's Donny Anderson and John Brockington.

The Vikings, 6-2, host the Packers, 3-41, in a battle of Central Division teams in the National Football League.

The Vikings hit a cold spell last week against San Francisco and mustered only three Fred Cox field goals in losing

Green Bay, bolstered by the running of Anderson and Brockington, upset Chicago 17-14. The two running backs have combined for 1,085 yards this season.

in other NFL contests today. Pittsburgh will be at Miami. Cleveland at Kansas City, Los Angeles at Detroit, Washington at Chicago. New-Orleans at San Francisco, the New York Giants at Atlanta, Baltimore at the New York Jets. Houston at Oakland, Buffalo at New England, Cincinnati at Denver and Philadelphia at Dallas San Diego hosts St. Louis Monday night

The Vikings are 12th in total offense in the 13-team NFC, 11th in passing and 10th in rushing. However, Minnesota ranks second in defense behind Washington.

The Packers may be without injured defensive tackles Bob Brown, and Mike McCov.

In the NFC West Division. front running San Francisco. 6-2, will battle New Orleans. 2-4-2, led by quarterback Archie Manning.

Only One Ramp Available For Boats At Lake

Sanford-Yake launching ramp now is the only ramp available to boaters on the south side of Lake Meredith.

James M. Thomson. superintendent of Sanford Recreation Area, said Saturday that Fritch Fortress boat ramp was closed down Thursday to begin construction there.

Extension of the ramps is progressing nicely," said Thomson. "They "re finishing up the Plum Creek ramp now and will start pouring concrete on the Cedar Canyon ramp this week.

"As work nears completion on one ramp, they will start on another, staggering the closures so that there will always be at least one ramp. available on each side of the lake. For the present Sanford-Yake ramp and Blue West ramp will be available to boaters. After the concrete has cured on the Plum Creek ramp, they will open it and start work on the Blue West Ramp.

Extension of the ramps at Lake Meredith is being done by Wes-Tex Construction Co. Inc of Borger Arnold Zink, engineer with the National Park Service, is project supervisor

Signal-caller Mike Phipps defenders Gerry Philbin, Al will pilot Cleveland, 4-4, against Kansas City, 5-2-1, and second to Oakland in the American Football Conference's Western

Quarterback Terry Bradshaw will call the signals for Pittsburgh, 44, and tied with Cleveland for the AFC Central lead, against Miami, which will be missing injured running back Jim Kiick.

Los Angeles, 4-3, and tied with Atlanta for second behind San Francisco in the NFC West, hosts Detroit, 5-2-1, and standout running back Steve

The New York Jets will have

Atkinson and Earlie Thomas back from the injured list against Baltimore, 6-2, behind Miami in the AFC East Race.

The New York Giants. 3-5. probably will start without running backs Ron Johnson and Tucker Frederickson when they clash with Atlanta and quarterback Dick Shiner.

Oakland, AFC West leader at 5-1-2, probably will be without injured running back Mary Hubbard against Houston, 1-6-1.

attempt to maintain their 1'2 game NFC East lead against Chicago, 5-3 and No. 3 in the NFC Central.

in sports history.

This town has always been possessive of Marshall," the

Rev. Robert Scott explained. "So, it was totally involved in the tragedy. Father Scott, campus priest and chaplain of Marshall's

made last year's trip to the East Carolina State game but stayed behind to deliver a weekend mass. "I heard about it while eating supper," he recalled. "I went out to the site but it was obvious I couldn't

football teams was to have

administer last rites. None of the victims were recognizable 'But that's history now," he said. "and we must emphasize the present. Yet there are always undercurrents of the

crash. While the death of community doctors, dentists, lawyers and even a state legislator created a void Huntington will not fill for years, school and city officials decided, after the shock had subsided somewhat. Marshall would

rebuild its football program. A program on the road to recovery from a recruiting scandal, league suspension and six consecutive losing seasons had to be started from

scratch. A new head coach was hired, along with a new athletic director and sports information director to take

over for victims of the crash Marshall received permission from the NCAA to use freshmen in varsity competition and, together with sophomores who had never known varsity action. the Thundering Herd began a new era in its school's

football history. As expected the team is experiencing a losing season against veteran major college competition. Before the season's first game. Huntington residents discussed the possibility of having to wait two or three years before celebrating the first post-crash victory.

They didn't have to. Under the tutelege of coach Jack Lengyel, a patient but demanding man, the Young George Allen's Redkins will Herd won its first home game in a last-second triumph over Xavier and added a homecoming victory over heavily-favored Bowling Green five weeks later.

"I'm pleased with the overall progress of our team, Lengyel said. "We'll have a lot of frustrations until we mature, but we have received good support and I think Marshall will be able to overcome the events that have

marred its athletic history. Saturday, before Marshall hosted the University of Toledo's Rockets at its Fairfield Stadium, a dedication ceremony was held. Nate Ruffin, Felix Jordan and Ed Carter, surviving members of the 1970 varsity squad, and Carl Kokor, Red Dawson and Mickey Jackson, surviving members of the coaching staff, presented a wreath in

memory of those who died. A Sunday mass was sched-

"People have said the funeral must end sometime." Father Scott said, "and that's true, though it seems like a

callous thing to say. "But no one, anywhere," he said. "will ever be able to talk about Marshall football or Huntington and not think about last Nov. 14."

COLUMBUS, Ohio (AP)-Greg Strunk ran a kickoff 93 yards and Randy Anderson scored from one yard in the fourth period Saturday, giving Northwestern a 14-10 upset and knocking Ohio State from the Big Ten football title

picture. The home loss was the second in a row for Ohio State. giving the Buckeyes a 5-2 conference record to Michigan's title-clinching 7-0 mark.

LAFAYETTE, Ind. (AP) -Third-ranked Michigan clinched its second Big Ten football title in three years. * Saturday as Dana Coin kicked a 25-yard field goal with 43 seconds remaining to give the Wolverines a 20-17 victory over Purdue.

WINSTON SALEM, N.C. (AP) - Ken Garrett scored on touchdown runs of five and 66 yards as Wake Forest exploded for 23 points in the third quarter to defeat Duke 23-7 in an Atlantic Coast Conference football game Saturday

Wake Forest, trailing 7-0 at the half, took the second half kickoff and swept 73 yards for a quick touchdown

HEATH'S MEN'S WEAR PAMPA'S OWN QUALITY MEN'S STORE

Associated Press Writer

PHNOM PENH, Cambodia (AP) - Cincpachyderm will soon be on his way to a home in Los Angeles after two months of headaches for CIN-CPAC.

It was in September that Marshal Lon Nol, Cambodia's premier, presented the oneton bull elephant to Adm. John S. McCain Jr., the U.S. commander in chief for the Pacific otherwise known as CINCPAC, pronounced sink

Lon Nol pointed out that elephants are not given lightly in his country and only because his American visitor was a "great and true friend" of the

Khmer people was he entitled to such a gift.

The admiral's reply was not audible to the assembled newsmen, but perhaps he was mindful that Cambodia and Thailand went to war over a white elephant in the 16th century; he accepted his gift.

There was no room for the 7foot-by-7-foot pachyderm aboard McCain's DC6 and the animal was left behind munching French bread. bananas and sugar cane. His name is Chamroeun, or progress in the Khmer language, but he very soon acquired a variant of his new

owner's official designation. U.S. Ambassador Emory C. Swank washed his hands of the

team supervising the delivery of equipment to Cambodia found itself referred to as McCain's elephant delivery team. Then Mayor Sam Yorty of Los Angeles offered the beast a home in his city's zoo. But how to get him there?

The U.S. war machine went to work, and this week a sixman team, including a publicity man and two veterinarians, arrived to supervise the crating and departure.

'He's very friendly," said Maj. Richard Abel of the admiral's public relations staff as construction went ahead on a steel crate.

Abel said the elephant will fly, probably this weekend. when space is available on a U.S. Air Force C141. Air freight to Los Angeles costs about \$40 per hundred pounds. which in Cincpachyderm's case will come to about \$800.

Firms Don't Like To Write Liability Insurance Policies

AUSTIN (AP) - Don't waste your breath shopping around for one of those new \$250 deductible auto liability policies that are supposed to save you money.

You're not likely to find a company that will sell you

"I don't know anybody that is writing it for an individual." said Grady Zachary, assistant director of the State Insurance Board's auto insurance division.

Amid much hoopla about saving the policyholders money, the legislature approved \$250 deductibles for liability insurance policies in

The Insurance Board made good on the money-saving promises in a rule that took effect Aug. 30. Savings of 50 per cent on property damage and 12 per cent on bodily injury were made mandatory for the basic liability policy if the buyer accepted the \$250 deductible.

The basic policy is \$10,000 per person, up to \$20,000 for any one accident, in bodily injury liability, plus \$5,000 for property damage.

An insurance company could settle the full amount of any claim or suit, then collect the deductible from the

policyholder later That seems to be part of the problem.

Spot checks with agents here showed that the two biggest car insurance companies in Texas State Farm and Allstate write the policies.

Travelers, one of the top 10. also does not write \$250 deductible liability policies. All companies, of course,

routinely write deductibles on collision coverage.

J. D. Squibb, manager of the Texas Automobile Insurance Service office, gave some reasons why companies don't like to write deductible liability

For one thing, a

policyholder might admit fault in an accident and pay the victim an amount less than the \$250 deductible, thinking he has settled the claim.

"The average individual doesn't know how to settle a loss and get a proper release from it. Suppose the individual settles for \$50, then the victim comes in later with a whiplash. The insured already has admitted liability, and the insurance company is over a barrel." Squibb said.

Also, a person might take out a \$250 deductible policy. but not be financially able to pay off his share of the loss. In cases where the insurance company has settled the whole claim, collecting the policyholder's share might be something of a problem, Squibb said

Insurance Board Chairman Ned Price said the agency's staff was "just now sort of getting into' rewriting the rules to make \$250 deductible more

Harris To Introduce Oil Legislation

WASHINGTON (AP)" -Sen. Fred R. Harris, a dropout from the presidential race and a lame-duck senator from

Oklahoma, is planning to introduce a resolution calling on President Nixon to eliminate oil import quotas and switch to tariff controls.

service as superintende... of deployment control while assigned to the 4th Mobile Communications Group at Altus AFB, Okla.

He is now serving as an airborne radio operations superintendent with Headquarters European Communications Area.

Lindsey. The sergeant, a veteran of the Korean War, has also completed a tour of duty in Vietnam.

He is a 1944 graduate of Canadian High School. Sergeant Vaught's wife, Gloria, is the daughter of Mrs. Margaret Kelton of 918 Portola, Torrance, Calif.

HAROLD WATERS

U.S. Air Force Sergeant Harold L. Waters, son of Mr. and Mrs. Ernest L. Waters, 1307 Duncan, has arrived for duty at Carswell AFB, Tex.

Sergeant Waters, a supply specialist, is assigned to a unit of the Strategic Air Command, America's nuclear deterrent force of long range bombers and intercontinental ballistic missiles. He previously served at Tan Son Nhut AB, Vietnam.

A 1966 graduate of Pampa Senior High School, he attended West Texas, State University.

Sergeant Water's wife. Marsha, is the daughter of Mr. and Mrs. William F. Dillion, Amarillo, Tex.

New Dollars Circulating In Pampa

The new issue of Eisenhower dollars have arrived at Pampa's two banks and reportedly are going fast into circulation.

Citizens Bank & Trust Co. received 1,000 of them a couple of days ago and First National Bank said they had received 2,000 and most of them were gone

A second order has gone in and bankers didn't know just when it would be filled.

The new dollar commemorates the late President Dwight Eisenhower and man's first moon landing.

NEW MEMBERS-Rho Eta chapter of Beta Sigma Phi neid a candlelight Ritual of Jewels Ceremony at their recent meeting to initiate its new members. They are, shown above, front row, Mrs. Bill Horne, left, and Mrs. Les Stewart, right; and back row, Mrs. Ray Johnson, left, and Mrs. Jerry S. Jones, right.

(Staff Photo) Candlelight Ritual Given New Rho Eta Members

A candlelight ceremony was held recently by members of Rho Eta Chapter of Beta Sigma Phi. The president, Mrs. Tommy Hill. administered the Pledge Ritual, assisted by Mrs. Georgia Mack, honorary, member, and Mrs. Carlos Nunez, program chairman. New pledges receiving the Ritual were; Mrs. Bill Horne, Mrs. Ray Johnson. Mrs. Jerry S. Jones, and Mrs. Les Stone.

Following the Pledge Ritual, a brief business meeting was held. Vice President, Mrs. Randall Cross appointed "Big Sisters" to the new pledges. They will assist the new pledges during their

Service Chairman, Mrs. Gary R. Clark, reported that the Senior Citizens' project was doing nicely. The volunteers who will be taking participants from the Casa Del Nursing Center to their weekly meeting for the next two weeks are Mrs. Terry Joe Haralson and Mrs. Jim campaign manager, thanked all of the members who participated in the Multiple Sclerosis Drive this week. She stated that Gray County participation was excellent. Social Chairman, Mrs. Jack Eddin, announced that the chapter's Thanksgiving dinner will be held in the home of Mrs. Gary B. Clark.

After the business meeting. members were served refreshments by hostesses. Mrs. Eddie Dicken and Mrs. Dick Handley. Theme for the evening was, "Welcome New Pledges." White petit fors, decorated with tiny pastel flowers, were served to members as they helped themselves to an assortment nuts and mints Complimenting the tiny French cakes was a white

pineapple sherbet punch.

Members attending were Mmes. Gary B. Clark, Gary R. Clark, Ron Cline, Ron Cross, Eddie Dicken, Jack Eddins, Jim Foster, Richard Gordon, Dick Handley, Terry Joe

Mrs. Georgia Mack, Haralson, Tommy Hill, Bill Horne, Ray Johnson, Jerry Jones. Dwane Luke. Jay Manning, Carlos Nunez, Randall Phillips, Les Stone, Jana Vinson, Riley Walters, and the honorary member. Mrs. Georgia Mack.

> WIFE WANTED MANILA (AP) - A.G. Gray knows the kind of woman he wants for a bride down there in New South Wales, Australia. All Manila knows

A two-column, three-color advertisement in the Manila Chronicle asked for a wife for Gray, who was identified as a widower and a businessman, and a mother for his 14-year-old daughter.

Applicants must be loyal, home-loving, 26 to 30 years old, fairly attractive, willing to travel, like gardening and children, said the ad.

Keep your drains free from grease accumulations and avoid costly plumbing bills by pouring hot salt water into drains several times a week.

Forum Club Presented Program On Geology the help of Dr. Robert Burton. Duro she said, adding that the

95

Mrs. McHenry Lane, president, led the business

Mrs. Larry Cross introduced Mrs. William Cornman, who spoke on "An Introduction to the Geology of Texas.

Mrs. Cornman opened her program by acknowledging

Services. Finances

'Health Services, Parent Education on ADA and State Financial Support" was the third in a series of five sessions of the current PTA study course.

The program was presented by Mrs. Ruth Steger, school nurse, and Dr. James Malone, school superintendent.

Mrs. Steger gave the requirements of a school nurse, demonstrated the equipment of a school nurse and demonstrated the use of equipment for testing elementary students' vision and hearing.

Mrs. Steger told of the many jobs that a school nurse does, pointing out that she does not try to diagnose a case. Instead, she recommends the child see his own family physician, if it is necessary.

Dr. Malone explained that ADA simply means Average Daily Attendance and determines the financial support the school district receives from the state. He pointed out the need of a bond issue and explained how a

bond issue is decided. Next session will be at 9:30 a.m. Tuesday in Carver Center. The topic on drugs will. be presented by Mrs. Rex McAnelly, Mrs. Paul Keim ry Cronister

head of the geology department of West Texas Igau. geologist with the Texas Railroad Commission. "These men," she said, "showed me what an exciting subject the geology of Texas is.

In order to understand anything about geology, we must first know something about the age of our planet Earth, she explained. The method of using natural radioactive substances to determine the earth's age. allows us to place the age of the solidified earth at about 412 billion years old. By looking at a geologic

time chart, we can trace events in the development of our environment. Mrs. Cornman briefly explained the eras, periods, and epochs of the chart by pointing out specific occurrences. During the Paleozoic Era there was repeated emergence and submergence of portions of

continents. In their study of rocks all over the world, geologists turn up clues that allow them to piece together the long and eventful history of the earth, she pointed out. The study of fossils, the study of rock layers, and the study of the origin, nature, and composition of rocks help the

geologist in his difficult task. Mrs. Cornman showed several fossils collected at Lake Texhoma on the Texas side, of animals of the

Cretacous period. Using a geologic map of Texas, Mrs. Cornman was able to illustrate the development of land forms, pointing out the present outline of the state had become established by one

million years ago. The remainder of the program was spent discussing the geology of Palo Duro Canyon. Looking at a cross section of the canyon, one can trans the development of Pala

Quartermaster Formation is the sediment deposits laid State University, and Richard down in the Permian Period when the canyon had its beginning. On top of this formation lie the Tecovas and Trujillo Formations from which the High Plains area gets its water. At the top of the Ogallala is a thick, dense and massive caliche "caprock." This caliche has a low permeability, thus making it almost impossible for precipitation to enter the Ogallala. Water is being pumped out of the Ogallala 500 times as fast as it is being replenished. Other sources for water must be found and developed, she pointed out.

Mrs. Cornman closed by suggesting that each member. buy a geologic map of Texas from the Bureau of Economical Geology in Austin, and discover another facet of the Land of Contrasts.

Other members attending were Mmes. H. Joe Franklin, Russell Holloway. Mike Holmgren, David Holt, Frank Stolfa, Aubrey Steele, Jack Ward, Floyd Weathersbee, John Young and Ernest Wilkinson.

1660 YACHT LOCATED LONDON (AP) -Britain's first Royal Yacht, built by the Dutch in 1660 for King Charles II, has been found under the

Irish Sea. The 52-foot-long, 100-ton "Mary" sank off Northwest Wales in March, 1675 with the loss of all 35 passengers and

A monarch butterfly may fly almost a thousand miles in search of warmth.

Each fall the female grasshopper deposits in soil a mass of eggs wrapped in a protective gluelike coat.

One out of every four Americans participate in

Russia's Global Strategy

presided at the recent meeting of the Las Pampas chapter of the Daughters of the American Revolution, in Furr's Cafeteria.

The invocation was given by Mrs. J. M. Daugherty, chaplain, after which Mrs. Dixon led the pledge to the flag and the American Creed Miss Diane Harris and Mrs. A.L. Barnes, new members,

were officially welcomed. Mrs. Dixon announced the state DAR headquarters and museum, located at the Freeman plantation in Jefferson, will be opened to DAR members and their families for a preview on Nov.

Mrs. Leldon Hudson gave the report of Mrs. Donald Spicer, president general. Mrs. Spicer reported that Oct. 21, a marble cross was dedicated in the French cemetery where some fifty unknown soldiers are buried. a plaque was placed on the battlefield itself, "French Trench," inscribed with the name of Lafayette and other French commanders, the name of regiments and the number of Frenchmen who took part in the "War of American Independence." Delegations from France came to participate in this commemoration of French-American 'comradship-in-arms.''-

In giving the defense committee report, Mrs. J.S. Skelly told of Russia's global strategy to control narrow seas, and thus, the oceans of United States troops from Iceland gives free access to international shipping lanes between the coast of Norway and Iceland, she said.

There are other narrow seas through which the Soviet Union seeks passage control, such as the Strait of Gibralter. the "Windward Passage," the Suez Canal, and the strait of Babel Mandeb. Mrs. Skelly explained.

The southern entrance to the Red Sea is approaching a state of control by Russia, through her influence in the Middle East, she pointed out.

Mrs. Henry Merrick gave the program on DAR schools. She said that one of the three objectives of the National DAR has been, and is, education. They have built and supported two modern schools for underprivileged children in the mountains of South Carolina and Alabama. she told the women. There are many other schools that are aided by DAR funds, she said.

Through the years, the DAR has promoted education for the young people of our country, with approximately 6 million dollars having been contributed to many educational activities, she concluded.

Sprinkle halved tomatoes, cut side up, with salt, pepper, a suspicion of sugar and some grated cheddar cheese before

Ladies Political Caucus To Organize In Austin

The steering committee of the Texas Women's Political Caucus extends an invitation to all Texas women to join in the TWPC's organizing conference to be held in Austin, Texas, during the weekend of November 19 through 21, 1971.

The keynote (and only) speaker will be Liz Carpenter, former press secretary to Lady Bird Johnson, author, lecturer, and member of the policy council of the National Women's Political Caucus

Participants at the conference will adopt a statement of purpose for the TWPC and through a series of workshops will plan future action for the caucus. Workshops scheduled for the Austin meeting include: Women's Priorities, Future Structure of TWPC, Political Procedures and Strategy, Local Organizing, State Convention Planning, and Candidate Criteria.

Tentative agenda for the conference provides registration and informal reception Friday, Nov. 19; keynote speech followed by workshops during the day Nov. 20: voting on resolutions from the workshops Saturday night; and the election of the TWPC Policy Council the morning of Sunday, Nov. 21. Participation of women

from all political parties is expected as well as those who consider themselves independents. The registration fee of \$5 may be paid in advance by mailing to Texas Women's Political Caucus, P.O. Box 13333, Capitol Station, Austin, Texas 78711. Further information will be available at the same

The TWPC steering committee, chaired by Mrs. Chris Miller of Fort Worth. includes Miss Diane Dodsen. student at University of Texas Law School, Mrs. J.R. Johnson, Jr., Mrs. Roy Morey Jr., Miss Gerry Conrad, Dean of Women for Alliance College at the LBJ School of Public Affairs, Miss Linda Swartz, Department of Anthropology at UT, and Miss Alma Canales, all of Austin.

VIEW OF WOMEN NEW YORK (AP) - New York state and Connecticut Methodists, at a recent conference, urged their church's Board of Education to radically revise their portrayals of men and women in church teaching materials.

The materials should portray girls as participants in muscular activities. scientific endeavors and leadership roles," and as being "capable, brave and self-reliant."

To Be Married

Mr. and Mrs. Frank S. Shaw, 336 Henry, announce the engagement and approaching marriage of their daughter, Martha Ann. to Gregory Mills White, 2014 Charles, son of Mr. and Mrs. Charles M. White. Vows will be exchanged Dec. 18, in the First Presbyterian Church. The bride-elect is a senior student at Pampa High School, where she is a member of the Girls' Glee Club. The prospective bridegroom is a 1971 graduate of PHS and plans to enlist in the armed forces Jan. 6, 1972

Skelly SS Class Elects Officers

SKELLYTOWN (Special) The Naomi Sunday School Class of the First Baptist church met Tuesday morning at 9:30 a.m. in the Fellowship hall of the church for a business meeting and election of new officers.

New officers chosen were teacher, Mrs. Bill Houghton; assistant teacher, Mrs. J.C. Jarvis; president, Mrs. Wilbur Spain: vice president. Mrs. Clyde Horner; secretary, Mrs. Don Holliway; assistant secretary, Mrs. Robert Germany, Group Leaders are No. I, Mrs. A. R. Baker; No. 2. Mrs. Don Carter; No. 3 Mrs.

Jack Baker. Attending were Mmes. Irvin Brown, Don Carter, Wilbur Spain, Clyde Horner, A. R. Baker and Bill Houghton.

If you like German potato salad, you're sure to like this tasty dish. Combine one can (15-oz.) milk German-style potato salad, three sliced all-meat garlic-flavored Bologna, cut into squares; one teaspoon prepared mustard: one tablespoon blue cheese salad dressing and bits of bacon. Bake at 375 degrees F. for about 30 minutes or until heated through.

For a special picnic treat, take six hard rolls, split and spread with butter and sandwich spread. Place two slices boiled ham and one slice Swiss cheese in each of three rolls. Place two slices spiced Luncheon Meat and one slice Swiss cheese in each of the remaining rolls. Top each roll with a toothpick and favorite types of pickles and olives. Store below 40 degrees F. until serving time.

Toasted meat and cheese sandwiches are a favorite throughout the year, and here are some really delightful combinations in the toasted line. Spread bread with butter and mayonnaise. Fill one double sandwich with one slice Swiss cheese and two slices all-meat cooked Salami. another with a slice of pasteurized process cheese and two slices Pickle Loaf and still another with a slice of pasteurized process cheese and two slices Macaroni and Cheese loaf. Grill over medium heat on greased surface until browned on both sides and cheese has melted.

In 1948, a war crimes tribunal in Japan sentenced former Japense Premier Hideki Tojo and six other Japanese war leaders to death

GUEST-DAY TEA-Shown at the recent guest-day tea of Twentieth Century Culture Club are, left to right, Mrs. E.E. By Abigail Van Buren

DEAR ABBY: I've read you for years, but this is my first letter to a newspaper column.

I love and care for an aging parent. She is in her eighties and requires constant care. Bathing, feeding, etc. I do this routinely, 365 days a year.

My husband and I haven't had a vacation in 11 years. I get a "sitter" for a few hours occasionally, but it's expensive, so I don't do it too often. I need dental work, a physical, a chance to shop for clothes and shoes.

Those who bear the full responsibility of an aging parent, or a severely handicapped relative, know how mindweary and bone-tired one can become in caring for that There are lots of people who are looking for hobbies to

occupy their free hours. Why don't they ever think of telephoning people like me and saying, "I'll come over tomorrow so you can be free for a few hours." Perhaps those lucky people who play golf and bridge

and go to club meetings have never thought of what it's like to have a responsibility from which there is no relief. "Generous" folks give freely of their money, but they

give nothing of themselves for others. Each day I think, maybe someone will call today. Or

tomorrow. I am so tired. NO NAME, PLEASE DEAR NO NAME: Readers? Have you a friend, or neighbor who could have written the above letter?

DEAR ABBY: I am a 22-year-old college senior, engaged to marry a 21-year-old girl [also a student] after graduation next spring.

While attending college away from home, my fiancee and I started attending church in this little college town, and we became very fond of the minister. In fact, we found him so much better able to meet our spiritual and personal needs than our pastor back home, we would like to have him preside at our wedding.

My parents see nothing wrong with this. But my fiancee's parents object strenuously. They say it would be like slapping our home pastor in the face in front of his whole congregation. They then suggested having both ministers preside at our wedding.

Having attended several weddings in which more than one clergyman presided, my fiancee and I agree it would be too much like a "circus," and we prefer only the minister of our choice. We would appreciate your opinion.

ENGAGED IN IOWA

DEAR ENGAGED: Clergymen have shared ceremonies for any number of occasions, and have done so with dignity and taste. But it's your wedding, and you should have the right to do it your way.

DEAR ABBY: My problem is my wife. I was all for her going back to work part-time now that our kids are in school, but little did I know where it would lead.

She got a part-time job in an architect's office, which she enjoys. Now her boss is trying to talk her into going back to college for one more year to get her degree, then get some additional training in urban planning! She's all

We're not rich, but I do well enough as a salesman so she doesn't have to take a full-time job.

I think a woman should regard her husband and children as her first responsibility and let her husband bring home the bacon. Even if our income is doubled (which she thinks it will] she'd have to spend a lot on extra clothes, a cleaning lady, baby sitters, and I think the whole thing is

How can I get to her to forget this career business and stick to a woman's most important job, being a wife and mother? Thank you.

DEAR HUSBAND: If the women libbers get a hold of her, you'll have to throw in the towel. Tell your wife that while you still have children to raise, since she doesn't have to work full-time to balance the family budget, she should leave well enough alone.

CONFIDENTIAL TO "SMALL TOWN DOCTOR": Collect thy fee while the patient aileth, for then thou art a god. If the patient recovers, thou are a thief. If he dies, thou art

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed

The program, "Keys for Service - Miracle Workers. was given by Mrs. A.C. Houchin.

Although no one has found the magic potion to make us twenty again, and how we age still remains a mystery. science is beginning to produce some interesting edeas on the subject, she began.

No cell in our bodies lives forever and each seems to be termed for a certain span of existence, she said. Aging, they tell us is due to the failure and eventual decline of individual cells. Aging is the programmed imbalance of the rate at which it deteriorates. This imbalance is progressive and hits every cell in the body.

Civic Culture Club met in As we get older, it seems our still find their own waistline, cells generally can no longer she stated. replace, repair or renew themselves as quickly as they did in youth, she pointed out.

Some scientists believe that an element within the cell itself might one day be stabilized to halt the gradual modifications that constitute the aging process. Others are investigating the stress in the environment on the cell, she explained

Again, most scientists agree that good health habits and specific steps can be taken to slow down the aging process: such as taking long walks. avoiding tobacco and eating. sensibly. Most doctors have stressed that the body, as it ages, needs a proper. well-balanced diet, much as it did in youth, she told the

· However, the body needs fewer calories to keep it functioning properly. Statistics show that overweight people just don't live as long as those who can

Although we are gradually learning about the aging process, some people want their miracles and want them right now, Mrs. Houchin said. About 250,000 Americans underwent plastic surgery last year - the majority, by 20 to 1. were women and most were between the ages of 45 and 60. The average woman. however, chooses to age. gracefully and in terms of her own chronology. She believes in letting nature take its course, while keeping

5:00 Close MEMBERSHIPS For the information of those new in Pampa, the Center is a community building and is a non-profit organization. Revenue to run the Center is derived from a membership dues and contributions from

several clubs, organizations and individuals. Absolutely no tax money from our city, state .. federal governments is used or has ever been used

Our participation is through a membership plan either limited or unlimited. Our regular membership is called the limited plan and this entitles you to full use of the gym, swimming pool and recreation hall. An individual membership is only \$5 for six months or \$8 per year. A family membership which includes all members of the minmediate family is \$12 for six bomonths or \$20 per year.

Our unlimited plan entitles the owner to the above accommodations and also use of the new health facility. The health facility includes an exercise room with all the latest exercise equipment such as barrell rollers, facial machines, jungle pulley machine, bicycles, weights. vibrator belts, etc. along with 2 handball and racquet ball courts and a sauna room. Women, our sauna room produces a dry heat and does not affect the hair in any way. An individual membership here costs \$65 for six months or \$118 per year. A husband-wife combination plan costs only \$90 for six

The Pampa Baily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

Our Capsule Policy

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces can he developto his utmost capability

The News believes each and every person would get more satisfaction in the long run if he were permitted to spend what he earns on a volunteer basis rather than having part of it distributed involuntarily

Foreign Aid Updated

For those of us who thought our government was cutting down on foreign spending and giveaways, Congressman Otto Passman of the Fifth Louisiana District, who is chairman of the House Foreign Operations Subcommittee on Appropriations, has some astounding, frustrating and frightening figures.

Our government is continuing to dissipate your resources and wealth in foreign nations all over the world. This unconscionable practice is destroying our world markets, destroying the value of the dollar and placing an unbearable debt on the shoulders of the unborn generations," Congressman Passman delcares in a press release

Figures are regarded as 'dry." but here are some figures quoted by the congressman that every taxpayer should know

New budget requests for additional authorizations and-or appropriations for foreign assistance, fiscal year 1972, covering loans, grants and credits total \$113,528,628,000 and the u n e x p e n d e d previously-authorized balance in this category is \$24,567,055,000.

Net cost of the foreign assistance program from 1946 to 1971, amounts to \$212,880,000,000 including \$74.4 billion interest on what we have borrowed to give away.

During the current world-wide spending spree. our gold holdings have been reduced from \$22,879,000,000 to \$10,732,000,000.

Short-term dollar claims against the United States have increased from \$8,645,000,000 to \$41,660,000,000 plus other United States indebtedness abroad which amounts to \$12,000,000,000.

Our balance-of-payments situation since this world-wide spending spree started, has placed our fiscal affairs in grave position. We have paid to foreign nations \$48,810,000,000 more than they have paid us. This situation. Rep. Passman declares, will continue to worsen until we bring the aid program under

control. The free-wheeling spending program covering the face of the earth has helped push the U.S. Public debt "to a figure \$87 billion above the combined public debt of all other nations of the world.

The things for which we have poured all those billions down the drain range all the way from development banks to military purposes; and the list of countries and near-countries ranges all the way from Afghanistan to the Ryukyu Islands - 127 nations "In the main," observes

Rep. Passman, "the foreign aid program is administered by patriotic Americans, but they are completely without banking and business experience. It has been established that this is the fourth and fifth echelon of bureaucrats who are involving us in these foreign entanglements. During 1972 alone, some portion of the aid program will be operating in 98 nations of the world, with 54,599 individuals on the payroll. This includes U.S. personnel, foreign personnel and participants. now 4,416 projects and subprojects scattered all over the world. While many similar. projects in America cannot go forward because of lack of funds, not a single foreign aid project has ever been stopped for lack of funds.

Rep. Passman says he is determined to expose the wastefulness of this program to the nation even if it requires "substantial use of my personal resources.

If a substantial number of other members of Congress shared the same concern over the plight of the country and its tax payuers, Mr. Passman wouldn't have to worry about

Occupational Hazard

It has taken NBC commentator David Brinkley to point out to a congressional committee that a thick skin is as necessary in journalism as in politics. People who cannot stand criticism will be uncomfortable in either of those pursuits.

Unlike some of his colleagues, reports Copley Newspapers, Brinkley does not feel at all "intimidated" by criticism of television news coverage, even by government officials. If anyone, in or out of government, thinks a newscast or documentary is slanted, he should say so. This keeps newsmen on their toes.

Want a small package? Look for the person wrapped-up in himself

BERRY'S WORLD

"It really makes you stop and think, doesn't it? I mean, Henry Kissinger stood right about where we're standing!

"You'll Make a Much Better Lap Dog!"

Day The 'Tely' Died

By PAUL HARVEY If you are, as I am, given to anthropomorphism, you hear anguished cries when even an inanimate thing dies. A newspaper, just died in Toronto. I went there for the

It has to be the awfulest way to go - to be strangled to death by your own employees.

The Toronto Telegram. almost as old as Canada itself, was recording contemporary history as it happened when Wild Bill Hickok was shot in the back 95 years ago. From the first Toronto

Canadians gave it a familial nickname: "The Tely.

In its pages they read of

H. L. Hunt Writes

DISMISS KISSINGER Henry A. Kissinger has only an appointive office and he is not subject to questioning by committees of the Congress as are Cabinet officers. But what Kissinger says goes in the dictation of U.S. foreign policy and national security matters. Twenty-one years ago Kissinger achieved power and influence during the second year of Truman's elected term. He retains that power whether Democrats or Republicans are in the White House and now he is at his peak, arranging trips to Red China and Russia for the

make the U.S. appear to be surrendering to communist Republic USA needs no shadowy, unchallengeable figure behind the scenes. In fact, our Republic cannot survive under such conditions. Scholars have noted Kissinger's copying of the career of the shadowy Austrian historical figure. Klemens Metternich, in

President of the U.S. which

achieving great power during the 19th Century. Metternich virtually dictated world foreign policy then. Kissinger strives to emulate him and already dictates U.S. foreign policy.

The finest minds of our Republic should busy themselves with determining Kissinger's qualifications to dictate U.S. and world policy. Lawyers, judges, retired military experts and all patriots can inquire into the background of any powerful figure whose activities are so little known. Secret diplomacy after World War I and after World War II practically ruined western civilization and left Republic USA vulnerable and made the communist take-over of more than a billion people almost

inevitable We had Colonel House behind the scenes with President Woodrow Wilson and Alger Hiss and worse with another President of the U.S. It does not require traitors to destroy our Republic, it only requires men who are not strongly FOR our Republic. As George Washington said at crucial hour in the War for Independence, "Put only Americans on guard tonight

Custer's bumbling into the Battle of Little Big Horn and of Neil Armstrong's first footsteps on the surface of the moon.

Tely photographers chronicled Edison's first kinescope, Carrie Nation swinging her ax, Baby Ruth hitting homers and Hitler striking out.

In her pages, generations of Canadians watched the passing parade pass. Everybody moved on. Everything was transitory. predestined to self-destruct; except the Tely which went on and on and surely would forever.

It's impossible for those closest to the scene to pinpoint the first symptoms of the Telv's final fatal illness A publisher, personally involving himself in politics on the losing side? Perhaps. Then there was a subtle shift in philosophical allegiance from right to left which obscured the paper's traditional position and

confused its readers. Then there was a desperate alteration in format which distorted the Telegram's historic profile, further diluting the allegiance of her subscribers.

Or it may be argued that in the new era of multiple media competing for advertisers dollars no city is big enough indefinitely to support two newspapers, and Toronto had three

Any or all of these factors may have contributed to the debilitation which preceded her death, but any objective autopsy must record that the specific cause of death was "strangulation — at the hands of her own employees.

Oh, the employees' union freely confesses the crime.

The Telegram's management had protested that the paper could not afford The wage increases demanded by the pressmen's stereotypers' and guild unions. The unions' own auditors examined the books and agreed: "The paper could not increase the salaries and stay in business.

Nonetheless, last Sept. 16, the guild decided to strike anyway. Sept. 18 the paper announced that it would cease publication. On the first day of October it did. Nobody celebrated. The angry. divisive days of negotiations behind them, now everybody mourned.

In the final edition. employees who had supported the strike vote wrote agonizing expressions of remorse.

Some of them, seeking to recreate jobs for themselves, are trying to put together a small tabloid newspaper. And though most of them are now willing to work for less than before, the new publication, born premature and underweight, is not expected to survive long.

Any lesson that you and I might learn from the demise of the Toronto Telegram surely is too obvious to require elaboration.

Your Health

By Lawrence Lamb, M.D. Dear Dr. Lamb - I would greatly appreciate your going into detail as much as possible about expectant mothers (I am very early in pregnancy indulging in one-and-a-half cups of coffee in the morning (no more) when it tastes so good, that is every day, along with an occasional cocktail (once a week, no more)

Now, if you feel this is going to harm baby in any way. please state. I am also planning on nursing my baby. Something special which my mother did with all five of us

Dear Reader - Your question is a good one. Most of our information on medicine that people commonly take. such as aspirin, or the effects of coffee, alcohol, nicotine and tranquilizers, is based on adult responses. We have limited knowledge about how many things we think are safe really affect the tiny. developing baby.

It is known that babies of women taking dope are often born as addicts and it requires a lot of skill to save the baby Imagine, withdrawal symptoms at birth.

Unless you relop oth difficulties, I : in't tithat one or tv s of coffee a day will ha either you or the baby ou are concerned about it. not switch to a decaffein ted product and still enjoy yo morning coffee? One cocktail once a week is not likely to cause any harm to the baby either. Fortunately, the things the mother takes are diluted by both her blood and body fluids before it reaches the baby

The blood alcohol level will be about the same in the baby's blood as in the mother's blood. Because the baby gets its oxygen from the mother's blood through the placenta in the womb, by the time the baby's blood reaches its tiny brain there is less oxygen in the blood than normally is present after birth. This makes the baby's brain more sensitive to alcohol and possibly other drugs and tranquilizers than after birth. Aspirin. tranquilizers, alcohol, caffeine in colas, coffee and tea do pass into the baby's circulation. This is why the mother's health is so critical during pregnancy.

Children born to mothers who smoke have been reported to be more likely to have convulsions than babies born to nonsmoking mothers.

Having a baby is much like preparing for an athletic event. The mother should stay in the best of health, avoiding exposure to contagious diseases. She should avoid getting fat; eat a well-balanced diet for both herself and the baby, exercise properly and avoid too many bad habits. The first prerequisite to a healthy baby is a healthy mother. Oh. yes. congratulations.

Inside Washington

See Committee Approval of Powell, Rehnquist By ROBERT S. ALLEN

Hoover Hits at Press for Publication of 'Drivel'

WASHINGTON Director J. Edgar Hoover has done some timely and most significant talking, but remarkably what he had to say has gone unreported.

With characteristic bluntness and forthrightness, the FBI chief replied to the furious and rancorous Anvil Chorus of denunciations that has characterized radical-liberal fulminations lately. He pulled no punches about them, the news media and the courts.

Yet not a line of his bare-knuckle observations has been published - in striking contrast to the prompt dissemination the media give to virtually every attack on him and the FBI

In Hoover's ignored discussion - as guest speaker at the 25th anniversary of the Washington chapter of the Society of Former Special Agents of the FBI - he sternly warned that "the publication of drivel, while admittedly a right, is not the best way of discharging the precious responsibilities of a free press.

"Incredible as it may seem," he continued, "there have been instances in which the news media, particularly television, have accapted without question wildly improbable allegations made by hate groups and, even when the facts have been readily accessible, certain segments of the media have chosen to ignore and disregard them Unfortunately, the truth never seems to catch up with the 'big lie, and even if it does, it is too late to undo the harm that has been done in denigrating the forces of law enforcement.

"The foundation of any news media should be truth. objectivity and justice. Criticism, of course, is essential in our democratic society. But criticism without basis is demoralizing and serves the interests of those subversives and criminals who seek to serve only themselves and not democracy. No man has the inherent right to place himself above and beyond the law. even though he may personally consider that law to be onerous.

"If we are to survive as a nation, we must challenge the attitude of those who have been selling America short who want to destroy, and who want rights without responsibilities, and who encourage disrespect for law and order.

Soft-Headed Judges With equal severity. Hoover castigated "indulgent judges." "misguided attorneys' and others favoring the "coddling of law breakers.

Society to survive must protect itself, the FBI Director held, from criminal, subversive and disruptive elements. Justice is not served when innocent victims and society suffer while law breakers go free.

"Too long we have concerned ourselves with the plight of the criminal. warned Hoover. "We have coddled him, we have shown him compassion, mercy and leniency, and all too often, he has shown us contempt and non-repentence. It is time we stopped coddling the hoodlums and the hippies who are causing so much serious trouble these days. Let us treat them like the vicious enemies of society they really are regardless of their age. Let the punishment fit the crime, not the age.

"Justice cannot be served when the rights of society are trampled in our courts by overindulgent judges and misguided attorneys whose overriding concern for the criminal and obessions with legal technicalities have all too often distorted the true meaning and purpose of our constitutional guarantees. Justice is not a separate thing; it is inherent in law and

order. Citing that in the past 12 months 105 FBI agents were assaulted and that in the last few years agents have engaged in 67 gun battles Hoover zeroed in squarely on 'a few journalistic prostitutes.

"In their jaundiced outlook upon realities and truth," he said, "they have attributed the increase in crime as somehow the fault of the FBI or the result of inadequate performance by it. They completely ignore the fact that the overwhelming part of the increase in crime has been in areas where the FBI has neither the authority nor jurisdiction - namely at the local and state levels

"The hazards of being a law enforcement officer, an FBI agent, continue to increase at an alarming rate as certain elements are determined to defy lawful authority and are encouraged in it by vituperative segments of the news media. Disregard for law and order is encouraged by hate mongers, extremists and others who assert that revolution against society is justified and necessary, and that men should be permitted to rob, murder, loot and pillage with impunity to achieve their aims.

The FBI has exacting standards and apologizes to no one for them, Hoover asserted proudly. Further, it has no intention of compromising those standards to 'accommodate kooks. misfits, drunks and slobs.

Will the Federal Bureaucracy destroy individual freedom in America?

The most serious threat to run all matters pertaining to freedom in America today - including freedom of the press comes from a Federal bureaucracy which seems determined to gain control over every facet of American life.

This is not a partisan issue. As a matter of fact, there are now three great parties in America the Democratic party, the Republican party and the Federal bureaucracy. Of the three, the Federal bureaucracy is the strongest and most powerful because it is the best organized and is protected from political reprisal by civil service.

When a new administration comes in, less than 10 per cent of the bureaucrats go out; the other 90 per cent keep their jobs regardless of which party is in power.

The U.S. State Department is probably the most bureaucratinfested agency in the entire government. A small coterie of career men who are protected and immune from discipline by civil service constantly harass and embarrass whoever is secretary of state. They did it to Dean Rusk and are doing it now to Secretary Rogers. Secretary Foster Dulles had some very terrible experiences with this group. These State Department parasites don't want any secretary to succeed. They want to run the State Department in their image. They never want to get tough with any nation, whether friend or foe. They just want to be personally popular in all capitals of the world, no matter what their actions do to the prestige of our foreign policy. It's a hell of a way to run a State Department but that is the way it is being run now. If President Nixon is re-elected, he should ask Congress for the right to abolish civil service in the State Department and clean house from the first under secretary to the brocaded janitors.

Entrenched behind the safety of civil service tenure, the bureaucrats always proclaim that they are acting in the public interest and proceed to issue decree after decree, having the full force and effect of law, whereas not 20 per cent of the bureaucratic rules and regulations and orders are ever voted on by the Congress.

There are thousands of honest and dedicated men and women in the government civil service but their leaders and department heads make life unbearable for anyone who dares speak out against the arrogant plan for government by bureaucratic decree.

President Stymied

The American people don't realize just how terrifically strong this bureaucracy is. At the present time there are 2,911,000 Federal employes; when President Nixon came to office, out of 4,000 and some employes in the Office of Economic Opportunity he could only change 16! Think of it. The President of the United States was absolutely overwhelmed, to the tune of 4,000 to 16.

Another instance of the arrogant determination of the bureaucracy developed recently in the Interior Department. The United States government has a treaty with the Navajo nation. The treaty is just as binding as any treaty we have with Canada or Mexico, yet the bureaucrats in the Interior Department paid no attention whatever to its stipulations. President Nixon promised the Indians he would do something about it. When he tried to do so this summer, the Bureau of Indian Affairs paid no more attention to the President of the United States than they had to the chief of the Navajo Indians. The bureaucrats in the Bureau of Indian Affairs are determined to

Indians in this country-regardless of treaties, presidents or the welfare of the Indians themselves.

Bureaucrats seldom get mixed up in financial scandals. They are not interested in money; they are interested only in power, and the American people have permitted them to take over, often without legislation.

Robert Finch, one of President Nixon's closest friends, was literally driven out of the Department of Health, Education and Welfare because the career bureaucrats in HEW just weren't about to let anyone else run that department, which is one of the largest and most important and spends more money than any other department except Defense. And things haven't changed one iota since Finch left.

Just how far they will go in expressing contempt for the people to whom they are supposed to be responsible is suggested by protest demonstrations in defiance of the President staged by employes of this department.

Senator Barry Goldwater observes that "several hundred employes of the Department of HEW - none of whom was elected by the people who pay them - could hold a mass meeting to protest policy decisions reached by the White House and by the Secretary of HEW."

The bureaucracy dominates the Federal Trade Commission, the Food and Drug Administration and countless other agencies. Prof. Yale Brozen of the University of Chicago recently called attention to the fact that because of these regulatory bodies free enterprise in this country is only half alive. He cited as evidence government's control of the mail, of water supplies, schools, airlines, railroads, highways, banks, farms, utilities and insurance companies.

Job Destroyers

Government regulation has driven the railroads to the point of near extinction, hampered the small businessman with a network of controls, created problems in our cities with ill-conceived programs which have caused a net loss of at least half-a-million units of low cost housing since the 1930s. Yet the same bureaucrats and regulators who have created these problems now say they are going to cure them - and that for this purpose they must have still more authority over our lives.

The regulators talk a great deal about unemployment, and the need for still more government power to cure it. Yet Prof. Brozen has shown at length that government wage regulation has caused unemployment, pricing youthful and other marginal workers out of the labor market. Federal wage minimums have caused a doubling of unemployment levels among minority youth since 1954 - from 16.5 per cent to well over 30 per

In their effort to control everything, the regulators are trying to dictate virtually every phase of the business process - from the content of peanut butter and breakfast cereals to the packaging of soap flakes and the advertising of tooth paste. The Federal Trade Commission has recently decided it has the right to halt "special" sales in stores and back its decrees with a \$5,000 fine.

In a similar move, attorneys, for the Equal Employment Opportunity Commission have argued that businessmen cannot relocate if this would deprive minority workers of employment-claiming such relocation would violate the 1964 Civil Rights Act. Examination of the act shows it contains no such sweeping provision, and that this interpretation is purely something dreamed up by the bureaucrats to extend their own arbitrary power over busi-

Members of Congress are helping the bureaucrats by holding hearings, spending government money by the millions to prove we probably shouldn't be eating cranberries at the wrong time and that cyclamates might poison your neighbor's dog. Think of the time, effort and money that have been wasted on just those two things alone, which accomplished nothing whatever.

Perhaps the clearest example of the way in which the regulators achieve the opposite of what they say they are going to may be seen in the current controversy over pollution. In one case regulatory fever brought the closing of a plant in Northern California which was not in violation of pollution standards and whose termination meant the loss of 800 jobs. A similar story was written in Marietta, Ohio, where Federal pollution standards if enforced would require the closing of a key industrial plant and the loss of 625 jobs. In the most serious case of all, senseless regulation threatened the closing of a Connecticut plant where some 40 per cent of the nation's supply of penicillin is produced.

Tipping Their Hand

The arrogance of the bureaucrats was blatantly emphasized when they proposed a special tax break for themselves. These bureaucrats already enjoy job pay increases more frequently than most Americans and they have all sorts of benefits and special privileges which put them in a class apart from and above the average citizen. The plan now being studied to give them special tax exemption is the last straw. Special exemptions from Federal taxes on the top \$3,000 of salaries paid to bureaucrats in the highest of three civil service classifications are proposed. These salaries range from \$28,000 to \$38,000 a year. A diminishing scale of tax breaks is provided for the lower classes. All bureaucrats will get a tax break if this plan is accepted, while we know of no other group of Americans who are going to receive any such tax breaks.

As their control over our economic life has grown, the bureaucrats and regulators have shown their intentions more and more openly. In a wide variety of cases they are advancing the idea of "social engineering" - the notion that government "experts" should take children away from their parents, break the ties of family life, and mold American youngsters into the image of the bureaucrats themselves. In the dispute over "busing," for example, we have seen Federal regulators disrupting the life of local communities, ordering children transported to schools far from their homes, overriding the wishes of parents and city officials.

The motive behind this is spelled out clearly by spokesmen who say "disadvantaged" children have to be taken away from the influence of their parents and placed increasingly under the influence of the bureaucratic experts. "It is important," says one spokesman, "to replace this family environment as much as possible by an educational environmentby starting school at an early age, and by having a school which begins very early in the day and ends very late.'

Busing is opposed by 76 per cent of the American people, including black, white and yellow. It has become a national headache and a national scandal. This never would have happened had it not been for the zealots among the career people in HEW, who are determined to demonstrate their power.

How far the problem of bureaucracy and dictatorial control of American economic life can be carried is suggested by the case of Ralph Nader. Here is a man without any official authority or credentials of any kind, forcing American industry into submission, threatening Federal prosecution if industry doesn't agree with his plans, bullying his way toward being the supreme dictator of all industrial production in this country. I want to quote here from a speech made by Thomas R. Shepard Jr., publisher of Look Magazine, regarding Nader's program and objectives.

Mr. Shepard says, "I have heard many businessmen dismiss Ralph Nader and his associates as well-meaning fellows who sincerely want to help the American consumer by improving business methods. Forget it. Mr. Nader isn't interested at all in seeing American industry clean house. What he wants is the house - from cellar to attic. His goal is a ? top-to-bottom takeover of industry by the government, with Mr. Nader, himself, I would guess, in charge of the appropriate commis-

"Find it hard to believe? Then listen to this Associated Press report of a speech he made last September, and I quote: 'Consumer advocate Ralph Nader has proposed that corporations that abuse the public interest should be transferred to public trusteeship and their officers sent to

Among the proposals Nader favors are having "publicly elected" members imposed on corporation boards of directors to serve the "public interest" as defined by Nader, abolishing corporate trade secrets on the grounds that "a corporation doesn't have the right of privacy" and making all corporate tax returns public on the same grounds.

Still more incredible are Nader's proposals that corporate executives be suspended from their jobs through "sanctions" he wants to impose and that entire companies be driven out of business if they don't live up to what he calls a "social cost test."

Nader's Finances

Who has appointed this man to play God over American business? Who has given him and the bureaucrats who are helping him the right to destroy the investment and effort of thousands of Americans who have entered into the voluntary associations of corporate endeavor? Who has commissioned them to dictate, suspend, or bankrupt organizations in which the resources and energies of countless American citizens have been invested?

Unbelievably enough, many of his assaults on our business system are financed by elements in the business community itself. He receives a good deal of money from foundations - including the prestigious Carnegie Foundation. He is also supported by the Philip M. Stern family fund, the Norman Fund, the Jerome Levy foundation, and Gordon Sherman of the Midas muffler company, among

Even so, Nader never would have gotten to first base with his crusades if he had not had the help of the bureaucrats.

Recently Professor C. Northcote Parkinson, noted for his numerous laws governing human behavior, predicted that, if the present trend toward government employment continues, everyone in Britain will be working for the government by the year 2195. Following this prediction by Dr. Parkinson the Morgan Guaranty Trust Company of New York prophesied that if this trend in America goes on, every American will be working for the government by the year 2000.

The significance of all this for the American press should be apparent. The collectivists and regulators like to say they are in favor of freedom of expression, and that the controls they have placed over our economic lives will not endanger other aspects of our liberty like the free press and freedom of speech.

The argument they use is that "human rights" can be separated from "property rights," and that economic controls do not mean political controls. The whole record of what has been happening in this country shows such an argument to be false. Those of us in the newspaper business have long argued, and correctly, that the rest of the nation cannot remain free unless the press is free.

By the same token, it is impossible to have a society and economy supervised in every detail by Washington regulators and at the same time expect the press to be

The mission of the American press always has been to keep this country free and never before has there been a time when the American press should give first priority, regardless of other considerations, to the job of keeping a free press functioning in this country. The networks are having a very serious battle with the bureaucracy. They cannot fight their own fight because they have one hand tied behind them by bureaucratic controls. We do have an obligation to fight their battle for them because the networks have the same basic right of free expression as we do. The right of free expression is the fundamental right of liberty and we should remember always that America is the greatest country only because America is free.

The bureaucrats have been able to bully and blackmail television into accepting all kinds of unfair regulations. They attempted the same thing with the press. They realize their goal cannot be accomplished until they have control of the press, and now they are using the FCC to do that very thing. They are also using the office of the Attorney General, frequently without his knowledge or consent, to send out threats, directives and regulations unsanctioned by Congress, but with the full force and effect of law none-

Take two or three of the most recent cases. In 1968 Congress, after two years of debate, passed Senator Carl Hayden's failing newspaper bill. President Nixon signed that bill. Yet two months ago, the same crowd in the Attorney General's office who were there when they made such a terrific fight against the bill and were holdover Civil Service employes - most of them Socialists at heart who believe in statism and state control-sent out letters to a group of 50 newspapers, demanding all kinds of reports and statements under threat of being hauled before the Senate and anti-trust division for violation of the anti-trust laws.

That law was passed by Congress. It hasn't been repealed. It hasn't been violated. And yet these bureaucratic lawyers in the Attorney General's office go right ahead and cause unmitigated annoyance and expense to the newspaper industry, their one object being to get the newspapers to agree to some form of government regulation. Well, thank God, most of the newspapers ignored the Justice Department.

FCC Decrees

Then the FCC gets into the act again by issuing a decree, without the consent of-Congress, simply on its own volition, telling the networks they must devote so much time to this and so much time to that and so much time to public broadcasts which are put out by the NEA, hardly a source of unbiased information. And what do the television people do? They must comply or else. Now the FCC had no authority to make such a decision and thank God one judge told the FCC to go jump into the lake until it got authority from Congress to issue such a decree. But that didn't stop the bureaucrats. The Justice Department has jumped onto the agreement which was made by the New York Times and the Chicago Daily News wire services. The cost of the wire tolls was increased and the two companies decided to split a day and night wire in order to save money.

The irony of this situation is that in April of 1970 the Federal Communications Commission told the two wire services that they would have to do just exactly what they are doing if they wanted to use the services of the AT&T, and the Commission itself proposed that the two services share the. wire with another user simply as an economical manner in which to serve their clients. And the New York Times and the Chicago Daily News entered into an agreement positively dictated and approved by the FCC.

Now along comes the Justice Department and says, "You can't do this. It is a violation of the anti-trust laws.'

Let's take the case of tobacco. The FCC, without the consent of Congress-which it later obtained -told the television stations they could not advertise cigarettes. Yet the very same government which the FCC represents is spending \$660,000,000 a year to promote, encourage and carry on the sale of tobacco. This order of the FCC is clearly unconstitutional unless the United States government ab-

solutely prohibits the growing and sale and manufacture of tobacco and its products.

From the other direction, the U.S. government is subsidizing programs over the Public Broadcasting Service network which are often slanted to the radical side. The nature of this bias came to light in an "educational" TV attack on the FBI which was cancelled from its regular broadcast slot after J. Edgar Hoover protested. The Corporation for Public Broadcasting will receive an estimated \$35 million from the taxpayers this year, some \$9.2 million going to PBS. Why should bureaucrats force the taxpayer to underwrite one-sided propaganda?

A related case involving abuse of the regulatory power of the Federal Communications Commission is the interpretation that has been given the so-called "fairness doctrine." A memorandum prepared by the Reuther brothers in 1961 urged that this doctrine, which is supposed to insure balanced programming, be used as a device for attacking conservative broadcasters, most of whom appear on a local and not a network basis. Over the past 10 years the "fairness doctrine" has repeatedly been invoked against broadcasters and station owners whose views are different from those of the collectivists, but has not been invoked against network figures whose views are more in keeping with the Reuther memorandum

Press Is Next

Two years ago a member of the Federal Communications Commission urged that this dictatorial formula be used against newspapers as well. In an August 1969 ech in Dallas, Tex., Kenneth Cox of the FCC said that "Congress could constitutionally apply counterparts of our equal time and rights of reply obligations to most newspapers, since they move in, or clearly affect, interstate commerce, and since the public interest in their providing their readers with both sides of important questions is clear."

Give these bureaucrats the right of regulation over the American press and you have lost America to bureaucratic statism.

This country was founded as a republic with a representative government, but has degenerated into a democracy run by organized minorities, the strongest of which is the Federal bureaucracy. Never in the history of man has a democracy survived more than 200 years, and ours will not survive unless we make it a representative government and abolish the power of the Federal bureau-

Most democracies have been destroyed by centralized bureaucracies - or at least by the rule of organized minorities. The newspapers of this country owe it to America and to the world to make sure that representative government survives in this country - that freedom of the press and the right of free expression are never destroyed by a bureaucracy or any minority group. If we prove here that representative government can work. then freedom will spread to all corners of the world in time.

The United States spends billions of dollars every year to oppose Russia's determination to impose its autocratic rule of complete domination on other countries and to control individual freedom, industrial production, education and everything that approaches freedom of speech and freedom of expression. Here in America the bureaucrats are foreing the United States, step by step, to accept a system of government that will destroy free enterprise, local control of our educational system and, most important of all, the right of free expression, the fundamental right of liberty. If the bureaucrats succeed, freedom as we know it in America will be lost - maybe

BI

nd se he th

WASHINGTON (AP) Agriculture Secretary Clifford M. Hardin announced his resignation Thursday, about the time his department issued a new estimate of this year's corn crop showing production gains of 152 million bushels in October.

The new estimate put the crop at more than 5.55 billion bushels, some 750 million more than USDA officials say is needed for the coming year. Earl L. Butz, dean of contin-

uing education at Purdue University, was named as Hardin's successor and he immediately acknowledged corn prices were too low and pledged efforts to help bolster them

The Crop Reporting Board announcement on the larger corn output overshadowed the elation last week of sales to the Soviet Union of 80 million bushels

Corn yields were forecast at a record 86.6 bushels per acre. compared with 71.7 last year when farmers produced a blight-damaged crop of 4.1 bil-

is scheduled to address the Texas Farm Bureau annual convention to be held at the Civic Center here beginning Monday.

Guest speakers will include a national farm leader and a well-known educator, William J. Kuhfuss, president of the American Farm Bureau Federation, will speak at the opening general session on Monday morning, Nov. 15. Speaker for the annual banquet on Tuesday evening. Nov. 16, will be Dr. Earl L. Butz, dean of continuing education and vice president, Purdue Research Foundation, Purdue University, Lafayette, Indiana.

Dr. Butz was named Secretary of Agriculture Thursday to succeed Clifford Hardin who resigned. At last report, he would still fulfill his speaking engagement at the Amarillo meeting.

Dr. Butz was born on a general livestock farm in Noble County, Indiana, on July 3, 1909. He received his education from the Wawaka. Indiana High School and Purdue University, earning he Ph. D. degree in 1937

He was named instructor in agricultural economics at Purdue University in 1937; and following year was elevated to the position of assistant professor of agricultural economics;

official to lead the nation's

slate of outstanding speakers agricultural economics in 1942 and was named professor and head of agricultural economics in 1946, a position he held until 1954.

> Dr. Butz served as assistant Secretary of Agriculture. Washington, D.C., and a member of the board of directors of the Commodity Credit Corporation from 1954 until 1957 when he was made dean of agriculture at Purdue. In 1968, he was named to his Purdue position. Kuhfuss has an 880-acre

livestock and grain farm near Mackinaw, Tazewell County, Ill., which he farms in partnership with his brother. Alvin, Kuhfuss was born on this farm on March 10, 1912. He is an Angus cattle breeder and is a past board member of the American Angus Association.

Eleven special conferences on various commodities and subjects of interest to agriculture will be held two days during the convention. Most convention activities will be in the Civic Center.

Five conferences are slated to begin at 1:30 p.m., Monday. They include Community Services, Young Farmers & Ranchers, Livestock, Dairy and Natural Resources. Six more will begin Tuesday at 8:30 a.m. They are Field Crops, Research & Education, Services, Poultry, Farm Labor and Women.

be in the Civic Center. The Community Services and Field Crops conferences will be in the Coronado Inn.

The Texas Farm Bureau Queen for 1972 will be selected in a statewide contest to be held here on Monday night in the Auditorium Theater of the Civic Center. Thirteen district winners will be vying for the crown in the competition which will be held in conjunction with the 38th annual meeting of the Texas Farm Bureau.

The queen will receive an expense allowance to enable her and a matron escort to attend the American Farm Bureau Federation convention next month in Chicago. Each of the 13 finalists will receive a beautiful wrist watch. Contestant from the local

district is Miss Debbie Goodin. 7. daughter of Mr. and Mrs. Lee Goodin, Claude. The Texas Farm Bureau has registered its largest membership gain in 15 years and also achieved an all-time high in number of members. According to Texas Farm

Bureau President J.T. Woodson of Gober, a total of 127,402 member families was tabulated at the end of the organization's fiscal year. This reflects a gain of 6,244 over last year, and marks the 19th straight year for the TFB to show an increase in members. The fiscal year

CANADIAN PCA

balance of the Canadian PCA

stood at about thirty and

one-half million dollars on

October 31, 1971. This

compares to slightly more

than twenty-seven million on

October 31, 1970. The increase

in ourstanding loans was over

three million dollars. This

increase in one year

represents almost the total

outstanding loan balance

some 12 to 15 years ago. The

Canadian PCA has done an

almost unbelievable job of

supplying the credit needs of

farmers, ranchers, feedlots,

and cattle feeders in this area.

We congratulate them in their

fine support of agriculture and

MILO HARVEST

blast. The fields are still soft

and muddy but support the

combines and trucks. I

haven't talked with very many

farmers that have completed.

Most seem very happy with

CATTLE PRICES

broken all records. My earlier

projection of price seemed

rather optimistic at the time

but looks ultra-conservative at

the present. When we told you

four hundred pound steers

would be selling in the

forty-dollar bracket, we

Ag Department Stays;

Butz Named Secretary

Hardin is the fifth original Cabinet member to leave since Nixon took office. His resignation had long been predicted in government circles. Hardin said he was leaving to accept a job as vice chairman of the Ralston Purina Co. in St. Louis.

The 56-year-old former University of Nebraska chancellor said in a prepared statement that he was leaving with the highest admiration for President Nixon and a strong conviction that the courageous steps he has taken and the policies he has enunciated are right for the

country at this time. the nomination of Butz, dean of continuing education and vice president of the Purdue University Research Founda tion, met with initial approval from three of the largest farm organizations, the American Farm Bureau Federation, the National Farmers Union, and the National Grange.

However, Democratic National Chairman Lawrence O'Brien called the

FREIGHTER AVAILABLE BALTIMORE (AP) -A Pennsylvania surgeon doesn't know what to do with an old freighter he bought for \$2,000.

"I need a vessel about as much as I need another patient," Dr. Sidney Runyon of Lancaster, Pa., said after his bid was the only one at a dock-side auction.

A baby snake gets out of its egg by means of a temporary egg tooth, as a chick does.

science, vegetable gardening,

4-H CLUB NEWS

The 1971 Gray County 4-H Food Show will be Saturday, at 10 a.m. in the auditorium of the Agricultural Annex. The building will be open at 9 a.m. for contestants to set up exhibits. Judging will begin promptly at 10.

Awards will be presented after the judging is completed about 12 noon. The foods p.m. Thursday.

A unique combination of modern and ancient building materials make this Hallmark Home distinctive in design and execution. Creative use of steel, brick and Arizona Rock in this four bedroom, three bath home promises years of comfortable and efficient

This Blue Flame Home has been decorated with color coordinated carpet and paneling in all rooms except the kitchen which has its own special touch - a convenient serving bar.

A double garage, a large storage space and an attractive free standing rock fireplace in the living room are other outstanding features.

One of the bedrooms and a game room are located on a second floor over the garage. To complete the home, a large workshop area with its own outside entrance has been included.

This is a truly extraordinary home combining the thrift and durability of steel with the comfortable elegance of brick and rock in perfect harmony.

A "BLUE FLAME HOME" features the economy and quality of GAS appliances and the year 'round comfort of GAS central heating and cooling.

PIONEER NATURAL GAS COMPANY
