

# Troops Hit Hue Gates

By EUGENE V. RISHER  
SAIGON (UPI)—Allied troops today stormed the gates of the Communist-infested palace grounds inside Hue's walled Citadel and killed in the suburbs hundreds of guerrillas trying to reach their trapped comrades, battle reports said.

Heavy fighting erupted on all sides of the imperial "forbidden city" inside the Citadel where diehard Communists have held out for 24 days.

Military spokesmen said tough little South Vietnamese Rangers killed at least 106 Communists in the ruins of the palace grounds inside the Citadel. Battle reports from the suburbs to the northwest said allied troops killed at least 223 Communists attempting to break through to the Red force.

"The enemy is attempting to come in from all directions but the south. They are trying very desperately to reinforce," a military spokesman said. U.S. Marines and Vietnamese troops, however, battled to wipe out the last remnant of the Communist invasion of South Vietnamese cities three weeks ago.

Elsewhere, units of the three Communist divisions reported threatening Saigon smashed a suburban police headquarters with mortars, attacked a U.S. communications center at near-by Phu Lam and blew up the big An Lac Railway Bridge on the capital's southern edge.

U.S. spokesmen said five North Vietnamese divisions, poised for invasion on South Vietnam's northern border, unleashed perhaps their most savage barrage of the war Thursday. They said 600 shells ripped into the Marine fort of Khe Sanh and other allied defenses under the frontier.

Khe Sanh, western anchor of the allied defense line and completely ringed by North Vietnamese, took most of the pounding—377 mortar, artillery and rocket shells, they said. The attack killed nine Marines and wounded 18. The barrage also caught a giant CH53 helicopter

trying to take off; two persons were killed and one wounded in the destruction of the multimillion dollar chopper.

U.S. forces replied to the barrage with a massive bombardment by artillery, airpower and 7th Fleet warships offshore. Spokesmen said they hurled hundreds of tons of explosives into the positions of the 50,000 North Vietnamese troops reported by U.S. intelligence on the border.

U.S. Air Force B52 Stratofortresses staged seven raids in South Vietnam Thursday night and today—mostly against the forces ringing the fort of Khe Sanh. Pilots of smaller U.S. jets pounded North Vietnam Thursday in 59 missions, spokesmen said.

The pilots reported bombing the Hoa Lac MIG airfield northwest of Hanoi but concentrating on the supply lines feeding the poised invasion forces on the border.

In Hue, what has become the bloodiest battle of the war grew bloodier. Allied spokesmen said more than 4,000 Communists have been killed in the fighting that has rubbed South Vietnam's most beautiful city, 400 miles north of Saigon.

A Viet Cong flag, tattered and singed, still flew over the ruins of the palace where 19th Century kings ruled. But so powerful has the Marine government grip grown the past 24 hours that the allies actually were now using the airstrip inside the two-square-mile Citadel for a supply center.

Battle reports said the Communists were trying to mangle the mushrooming supply base.

In the Mekong Delta, the Vietnamese "rice bowl" below Saigon, U.S. Army troops sweeping through a jungle 100 miles south of the capital reported overrunning a Viet Cong bunker complex Thursday. The Americans reported killing 60 guerrillas and suffering four GIs wounded.

# Joint Chiefs Recommend Mobilization of Reserves

## Governor Rejects Teachers' Plea In New Mexico

ALBUQUERQUE, N.M. (UPI)—Gov. David Cargo Thursday night refused New Mexico teachers' demands for a special legislative session on school finances that could have eased threats of a statewide walkout.

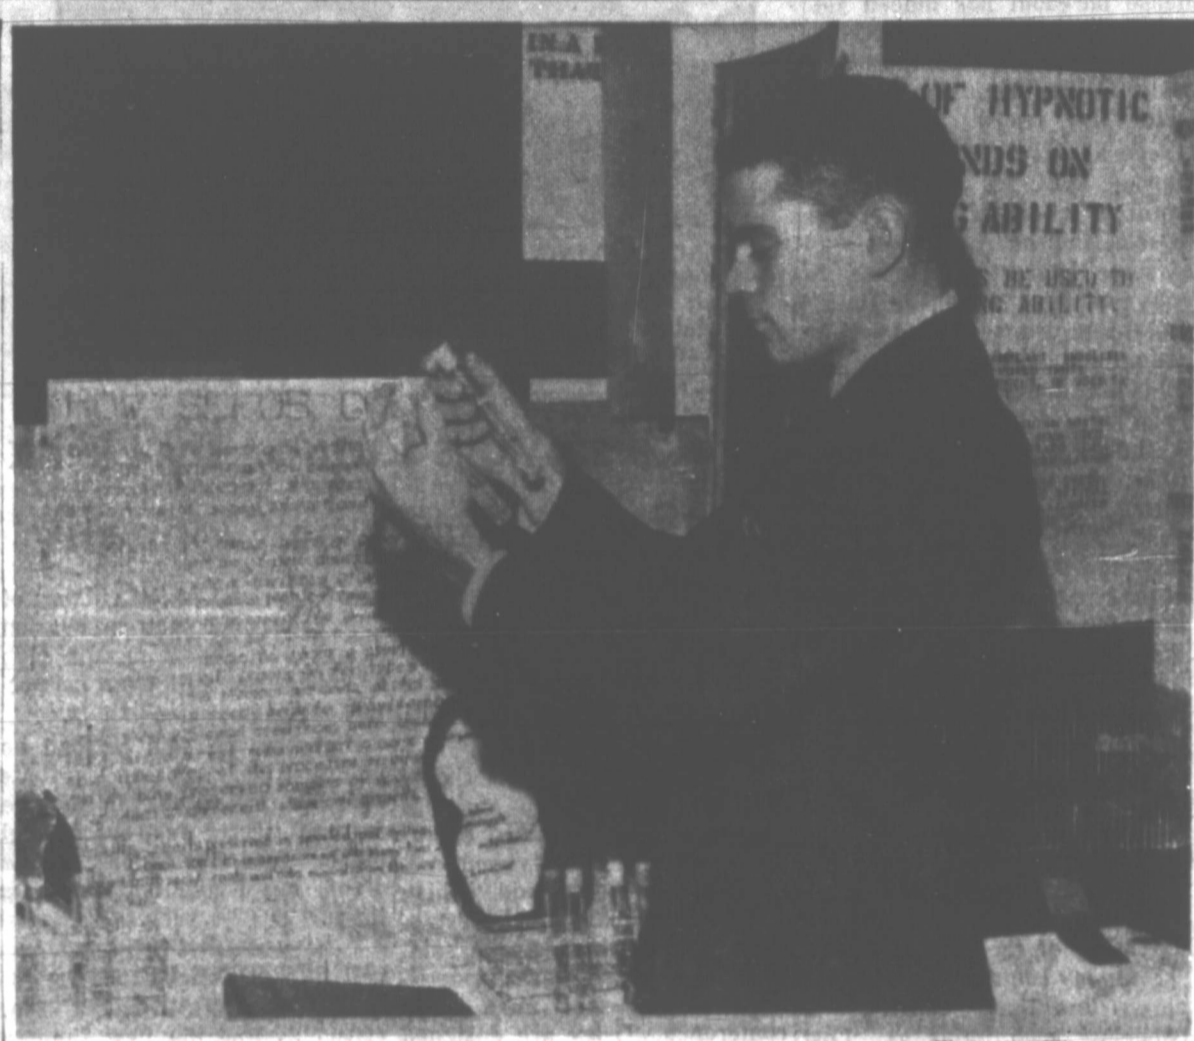

A strike of the 108 public schools in Albuquerque, the state's largest school district, went into its second day today.

Members of the New Mexico Education Association (NMEA), after hearing Cargo's refusal to call the special session, went ahead with plans for a two-day "study session" that could close schools across the state next week.

The NMEA had asked Cargo to call the special session by noon Monday to revamp the school finance program.

The Albuquerque Classroom Teachers Association (ACTA) gave no indication how long it would continue its strike, the first such walkout in the state's history.

Some 77,204 school children in the Albuquerque district were sent home Thursday when Supt. Robert Chisholm refused to maintain classes without qualified personnel.

SCIENCE FAIR — W. W. Wilkinson, a chemist employed at the Pampa Celanese plant, is shown judging the chemistry displays at the annual science fair at Pampa High School today. Wilkinson himself went as far as the national science fair when in high school. (See story page 3).

## Marine Corps Draft First in Two Years

WASHINGTON (UPI)—The Joint Chiefs of Staff has recommended mobilizing nearly 50,000 reservists and National Guardsmen if President Johnson decides on a further Vietnam buildup. It was also learned today the Marine Corps will draft men in April for the first time in two years.

The Joint Chiefs' recommendation for mobilizing additional reserves would include the first call-up of ground troops since the start of the Vietnam War.

The Marines, who are bearing the brunt of the burden of defense at the outposts of Khe Sanh and Con Thien along the Demilitarized Zone in Vietnam, are being forced to take in draftees to get their authorized strength up to 302,000 men. The corps took in draftees in World War II and the Korean War but has not asked for any since March, 1966.

Submitted To McNamara  
The proposal by the Joint Chiefs for an "across the board" mobilization of reserves was submitted to Defense Secretary Robert S. McNamara. It would include National Guardsmen as well as Army, Marine, Navy and Air reservists, informed sources said.

President Johnson is presumably aware of the proposal, but sources said it has not been formally submitted to the White House. The chairman of the Joint Chiefs, Gen. Earle G. Wheeler, is now in Saigon and one of the reasons for his trip is to discuss manpower needs with Gen. William C. Westmoreland, the U.S. commander in Vietnam.

The proposal made by the chiefs also would involve placing additional reservists—perhaps more than 100,000—(See RESERVES, Page 3)

## Computer Invasion Of Privacy Looms

By DAVID M. SULLIVAN  
CHICAGO (UPI) — A Big Brother with a nosy interest in your sex life, drinking habits, and other "private" aspects of your existence, is rapidly growing to adulthood.

This Big Brother is computerized and is being fed with information by many government and private agencies and businesses. Experts in the field consider the demise of traditional privacy in the United States inevitable. The problem, they say, is making sure Big Brother gets his facts straight.

"The federal government, credit bureaus and private employers have millions of files with information on individuals and the files are not available to the individuals," says James M. Ratcliffe, assistant dean of the University of Chicago Law School.

"The major problem is simple mistakes in these files, which the individual has no chance to correct."

The spectre of computers' holding incorrect information about an individual—information the person knows nothing about—was raised today at the "Conference on Privacy: Policy and the Law" being held at the University of Chicago.

Ratcliffe, one of 14 leading lawyers, educators and government officials participating in the conference, said the area of privacy is "dwindling steadily."

The conference was called while Congress considers establishing a national data bank to centralize masses of information about each citizen in the

United States—a kind of ultimate memory for "Big Brother."

The conference is concerned (See PRIVACY, Page 3)

## Jackie Seeks To Dispel Rumors

STE. AGATHE DES MONTS, Que. (UPI)—Mrs. Jacqueline Kennedy, apparently intent on dispelling rumors that she came to the Laurentians to marry, returns to the slopes of Mont Tremblant today for another day of skiing with her children.

Mrs. Kennedy and Caroline and John Jr. paid an unexpected visit to Mont Tremblant Thursday afternoon. Ski professional Ernie McCulloch said "Mrs. Kennedy is an excellent skier, especially since this is the first time she has been on skis in three years."

McCulloch did not comment on the efforts of Caroline and John Jr.

Mrs. Kennedy appeared to be making true her statement that she came to Laurentians strictly to ski. But in New York and London reports persisted that the former U.S. First Lady soon would marry Lord Harlech, the 49-year-old British peer and formerly England's ambassador to the United States.

She denied that she intended to fly to London to wed Harlech after her sojourn here.

"I'm planning to stay for the weekend with my children and to return to New York Sunday evening," she said.

In London, Harlech backed Mrs. Kennedy.

"There is no question of an engagement or anything like that," he told reporters.

Mrs. Kennedy and her children are staying at the country chalet of Mr. and Mrs. Robert Timmins in St. Agathe, 25 miles south of Mont Tremblant. Mrs. Timmins, the former Pamela Tournure, was once Mrs. Kennedy's secretary.

## Slow Thaw Follows Long Seige of Cold

A slow thaw set in today in the Panhandle following a double-fisted cold front that blitzed into Pampa Tuesday night, dumping eight inches of snow, glazing streets and highways, closing schools, and which was blamed for the death of one Pampa man.

The U.S. Weather Bureau in Amarillo forecast partly cloudy and slightly warmer weather today and Saturday. Temperatures which have dipped to the teens and hovered below freezing during the cold siege were expected to climb to the lower 40s today and the upper 40s Saturday. Overnight low predicted for Saturday is in the lower 20s.

At least two persons died in traffic accidents blamed on slick roads and hundreds of minor wrecks — more than 800 alone in Dallas — were blamed on the ice-covered streets.

Travelers warnings remained posted over the northern half of the state today, and road crews sprinkled sand on freeway bridges as far south as Houston in an effort to assist drivers.

The snowstorm began early Thursday in the far northern corner of the state and swept across Texas, dumping snow as it progressed. Those areas hit earliest received the most snow.

Eight inches stacked up at Pampa and seven inches were recorded at Paducah and Matarador. Floydada, Crosbyton, Spur, Plainview and Wichita Falls all recorded six inches. A general one to two inch snowfall hit the rest of North Texas.

Schools were closed in dozens of towns. Among them were: Paducah, Floydada, Lockney, Wichita Falls, Iowa Park, Burk Burnett, Henrietta, Archer City, Mineral Wells, Weatherford, Sweetwater, Shamrock, Pampa. (See SLOW, Page 3)

## Pearson Puts His Government On Line for New Vote

OTTAWA (UPI)—Prime Minister Lester Pearson puts his Liberal government on the line today for a winner-take-all vote of confidence but the crucial showdown may not come until next week.

The crisis was precipitated Monday when the government was defeated on a major tax bill. Since then the aroused opposition parties have kept up persistent demands that the minority government resign.

Pearson insisted that defeat of the money bill did not constitute a lack of confidence. The opposition maintained it did.

The Liberal government squeaked through another day in power Thursday when the speaker of the House of Commons rejected an opposition charge that Pearson had "slandered" his fellow legislators.

(See PEARSON, Page 3)

## Burdette, Carruth In Race for Commission

One current city commissioner filed today for re-election and a former commissioner filed his candidacy for one of the two seats to be filled at Pampa's April 2 city election.

Hugh Burdette, commissioner in Ward 2, filed for re-election and Clyde Carruth, who served as commissioner in Ward 4 from April 1965 to April 1967, announced he will again seek the same spot on the commission at the upcoming election.

Burdette, who filed earlier as a Republican candidate for the State Board of Education post now held by Herbert Wilborn of Amarillo, is not expected to campaign for the state job.

Commissioner Burdette has served one 2-year term on the commission and is winding up a second 1-year term. Ward 2 and Ward 4 commissioners were elected for only one year in 1967 under a city charter change to stagger election of two of the four commissioners every two years. Future city elections will be for 2-year terms.

Only one other candidate has filed for the April 2 municipal election. He is Earl D. Hilton, who filed Wednesday for the Ward commissioner post now held by Elmer Radcliff.

Radcliff told The News today he will not be a candidate for re-election.

"I have decided definitely not (See BURDETTE, Page 3)

## Funeral Set For Accident Victim

Funeral services will be held Saturday for Lloyd Thomas, 53, of 1185 Varnon Drive, who died at approximately 10:45 a.m. Thursday of injuries suffered when he was crushed between two cars at the service station where he was employed.

Police said Thomas was struck shortly after 10 a.m. at the Post Office Texaco service station by a car driven by Troy Lee Denton, 63, of Seminole.

Denton told police that he had pulled into the service station to have his ice-covered windshield cleaned, and skidded when he tried to stop.

Thomas was pinned between Denton's car and the car he was servicing.

He was rushed to Highland General Hospital for treatment, where he died 45 minutes later.

Mr. Thomas, a Pampa resident 15 years, was born in Rushville, Neb., Sept. 29, 1914. He was a member of Zion Lutheran Church, and had worked at the Post Office service station two years.

(See VICTIM, Page 3)

## Governor Wallace Undergoes Third Major Cancer Operation

By EDWARD J. LEPOMA  
MONTGOMERY, Ala. (UPI)—Lurleen B. Wallace, the nation's only woman governor, underwent her third operation for cancer Thursday, and doctors said they were "quite pleased" with the results.

Mrs. Wallace, 41-year-old mother of four children, was rushed to St. Margaret's (Catholic) Hospital before dawn Thursday and seven hours later a "malignant," pecan-sized tumor was removed from her pelvis. The operation, prompted by intestinal obstruction, was the governor's third in two years.

Before and after the three-hour operation, an office was set up on the governor's fourth-floor suite to conduct state business and a secretary downstairs was handling the many telephone inquiries.

Cecil Jackson, the governor's executive secretary, said there

were "no immediate plans" for Lt. Gov. Albert Brewer to assume her duties.

A four-member surgical team, led by Dr. Felix Rutledge, chief gynecologist of M.D. Anderson Hospital and Tumor Institute in Houston, Tex., issued a statement following Mrs. Wallace's surgery and said that, as suspected, the tumor was malignant.

Doctors said they also removed a segment of Mrs. Wallace's bowel, damaged by X-ray treatments which the governor had undergone in Houston in unsuccessful efforts to eliminate the tumor.

"Removal of this segment of bowel should relieve the governor's pain and removal of the shrunken tumor should further enhance her prognosis," they said.

The physicians said the tumor had been shrunken by the radiation treatments as desired

## Senate Committee Says It Has Message

By JOHN HALL  
WASHINGTON (UPI) — The Senate Foreign Relations Committee claims it has a secret Navy message suggesting that the two U.S. destroyers involved in the 1964 Tonkin Gulf incident were trying to decoy Communist patrolboats away from a South Vietnamese bombardment mission when attacked.

A spokesman for the committee said Thursday that its staff report on the incident included a classified Navy cable implying that the mission of the destroyers, the Maddox and the Turner Joy, was to lure Red vessels away electronically while South Vietnamese torpedo boats shelled radar stations on two North Vietnamese islands in the Gulf.

Sen. Wayne L. Morse, D-Ore., told the Senate Wednesday that the Maddox was a "spy ship" that provoked a North Vietnamese attack on it and its sister ship on the night of Aug. 4, 1964.

He disputed Defense Secretary Robert S. McNamara's contention that the ships were on a routine, nonhostile patrol.

The committee, headed by Sen. J. William Fulbright, D-Ark., is investigating the circumstances surrounding the

Tonkin incident. It was this attack which led President Johnson to request and receive overwhelming congressional approval of a resolution authorizing him to take any measures he deemed necessary to pursue the Vietnam war effort. One (See SENATE, Page 3)

## Last Chance For Washington Buys

Saturday is the final day of Pampa merchants Washington's Birthday values. It is also the last day for you to check your personal number which was printed on page B-1 of Wednesday's edition of the Pampa Daily News.

Remember, you must take your copy of Wednesday's News with you in order to be eligible for merchandise at ridiculously low prices.

If your number matches the one posted on the item, you are a winner. Many merchants have changed their numbers daily, so even though your number did not match before, you still have a chance of winning Saturday.

### Television In Review

By RICK DU BROW  
HOLLYWOOD (UPI)—Not too many years ago, there used to be furious competition to get the new season network television schedules—tentative, firm, or whatever.

Nowadays, its more just a matter of providing readers and viewers with a dutiful service, and the sense of competition and excitement about the schedules is gone.

In talking to other columnists and to viewers, I have met few persons in the last several years who give much of a hoot about the matter. No one wants to get left out in receiving the story, of course, but that's matter of simple professional principle.

The fact is that the general sense of boredom by viewers is absolutely justified. An immense boredom has indeed set in because of the predictable fact that the new schedules are going to be primarily lists of factory-line series.

Several days ago, for instance, NBC-TV released a tentative schedule it was trying to sell Madison Avenue. It was of some interest, of course, to note that the "Telephone Hour" had been dropped from prime time, and that "Rowan and Martin's Laugh-in" had been retained.

But as for most of the other filler, it was like reading through, and dealing with, a vast, vague blob. And it is like this nowadays in reading the regular series schedules of all the networks. The action isn't there anymore.

The healthy fact is that network television has definitely improved over the last few seasons because of the large number of special programs that have been pre-empting these weekly blocs. Those who knock television indiscriminately have probably been watching too many of the weekly shows.

I mean, could anyone really care less that CBS-TV is canceling such items as "Lost in Space" and "Good Morning World"? What we all know by now is that video will simply fill the blank spaces with other blank shows that will operate somewhere in that fuzzy never-never land.

But again, there is, ironically, a healthy result of this growing lack of interest in most regular series. As the primetime series have grown duller, one pays less and less attention to individual episodes of the evening.

### Locke Favors Liquor by Drink On Same Terms as Connally

AUTIN (UPI) — Gubernatorial candidate Eugene Locke of Dallas Thursday endorsed liquor by the drink on the same terms that Gov. John Connally proposed last year.

He said the legislature should authorize local option elections to permit sale of mixed drinks in restaurants, hotels and motels. License fees should be high and there should be a "substantial" tax on drinks, Locke said.

"Our laws today are hypocritical," Locke said at a news conference. "They are designed to permit things to be done by indirect means that cannot be done directly."

"This encourages a spirit of disrespect for the laws," Locke said his proposal was not modeled after the Connally mixed drink bill, but every provision Locke mentioned was included in Connally's bill. That measure never came to a vote in the legis. aturn.

Locke said he would pledge "that no presently unauthorized alcoholic beverage will ever be sold legally in any area of our state without the specific and

overt approval of the citizens of that area, and that no evasion of any sort, be it private club or otherwise, will ever be permitted."

However, he said he had no intention of closing private clubs in dry areas. He said he favored tighter restrictions and higher fees for such private clubs, but would not eliminate them.

**CHURCHGOING UP**  
ST. PETERSBURG, Fla. (UPI) — For the first time in 10 years, church attendance in the United States increased during 1967, according to The Churchman, independent publication of the Protestant Episcopal Church.

The Churchman says 66 per cent of Roman Catholics and 36 per cent of Protestants attended church in a typical week last year. The Midwest had the best attendance record with 48 per cent, followed by the South with 47 per cent and the Far West with 34 per cent.

**Jewish Schools**  
 NEW YORK (UPI) — Of an estimated 1.3 million Jewish children in the United States between the ages of three and 17, more than 540,000 are receiving some form of Jewish religious education, according to the 3rd annual census conducted by the American Association for Jewish Education.

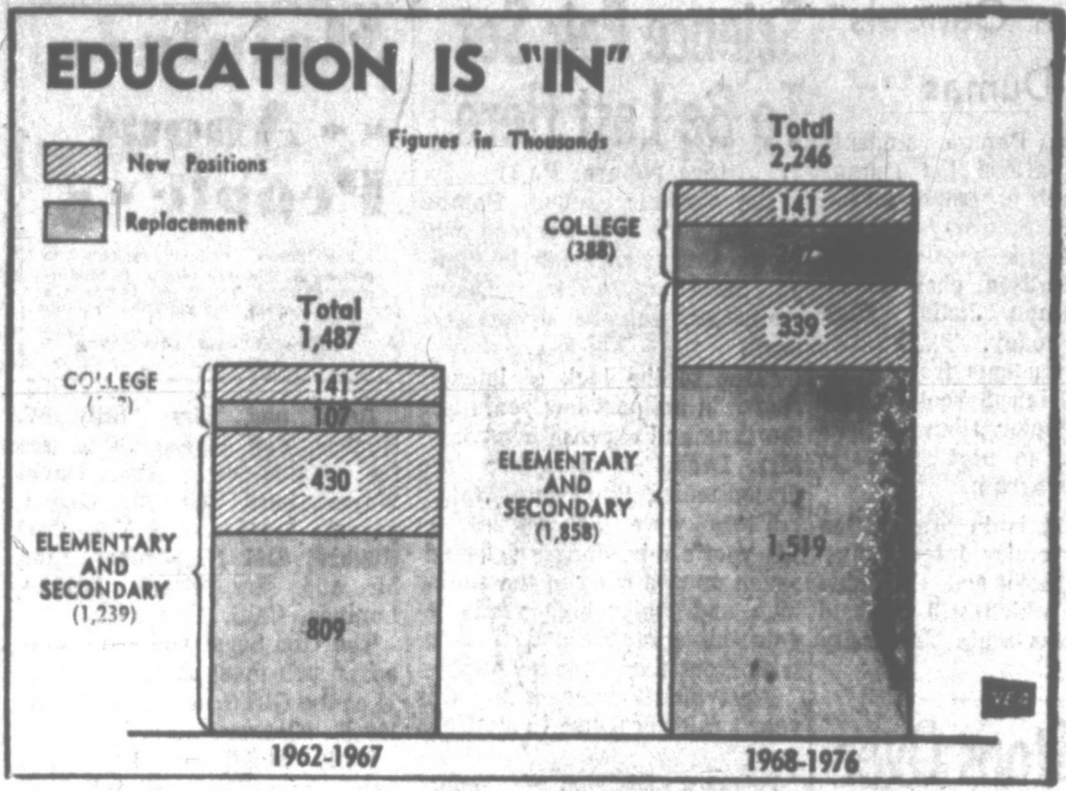

This shows a slight decline in enrollment from previous censuses taken in 1955 and 1962, probably due to the declining birth rate during the 1950's and 1960's, the Association says.

Demand for new teachers, public and nonpublic, in the period 1968-76 will increase by at least 50 per cent over that for the period 1962-67, according to U.S. Office of Education projections. U.S. school enrollment for 1967 was 55.8 million; by 1976 it is expected to reach 62.6 million.

## Mock Trial of Communism Ends With List, Suspended Judgment

WASHINGTON (UPI)—A mock trial here of world Communism ended in a suspended judgment of whether the party conspires to suppress human rights, but the judges said three days of hearings overwhelmingly substantiated a long list of crimes by the movement.

Richard H. Slemmer, the presiding judge of the five-man "World Court of Public Opinion" said Wednesday that despite the evidence of crimes under Communism, the charge that fifteen Communist parties had entered into a conspiracy had been shown only by implication and there remained "some reasonable doubts."

Slemmer, who acknowledged that all judges at the mock proceedings were "adamantly anti-Communist," explained in a one and one-half hour final declaration that the judges had not been physically able to study masses of documentary evidence submitted by the prosecution.

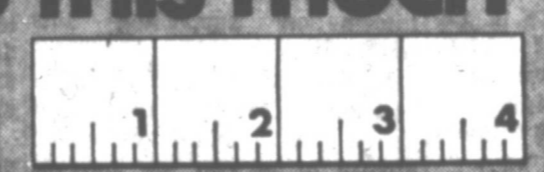

He promised that the five judges would examine this evidence and publish at some future date a series of "special findings" on various issues in the case.

But in the meantime he offered what he described as the "general opinion" that "Communism cannot exist the face of truth or freedom."

"The court is strongly moved that the indictment has been reasonably shown."

Torino's wheelbase is this much longer than 31 other intermediates... including 112-in. wheelbase Buicks, Olds and Pontiacs.

Any way you measure it, that adds up to more value.

1968 TORINO GT FASTBACK

Torino gives you more car for less money.

We don't care if others do cost more. We Ford Dealers will match Torino in size, luxury, ride, and style against any intermediate at any price. Our smooth-riding 116-inch wheelbase gives Torino more rear legroom than its 112-inch-wheelbase competitors. Only Torino offers a fastback roofline. Luxury? Torino is the finest car in its class we've ever offered. And big stocks right now mean big savings.

OF Advertising Start with an Audit

Advertising is a serious investment . . . art, engraving, typography and copy are costly. All are planned carefully to attract readers who are prospects for the merchandise or service.

No business can afford to waste any part of this investment in any medium that cannot guarantee definite circulation and readership.

"Waste basket circulation" in post offices, and so called throw-aways that usually travel to the incinerator are of little or no value to the advertiser.

**The Pampa Daily News** is a completely Family Newspaper Delivered Daily . . . paid for and Welcomed!

**BUYING ON THIS BASIS IS SOUND!**

Careful studies made regularly by an independent organization—the Audit Bureau of Circulations—shows advertisers exactly what they get in circulation and readership for their advertising investment.

For most subscribers the PAMPA NEWS is the family shopping guide, for it carries the advertising of practically all progressive Pampa stores, markets and services.

It is the **ABC's** of advertising

the Audit Bureau of Circulation (ABC) is a cooperative, non-profit organization of advertisers, advertising agencies and publishers for the verification of circulation of newspaper members in the United States and Canada.

# The Weekly Message Of Inspiration

Rev. B. S. Elswick  
Bethel Assembly of God  
**THE WILL OF GOD**

Mark 3:35 "For whosoever shall do the will of God, the same is my brother, and my sister, and mother."

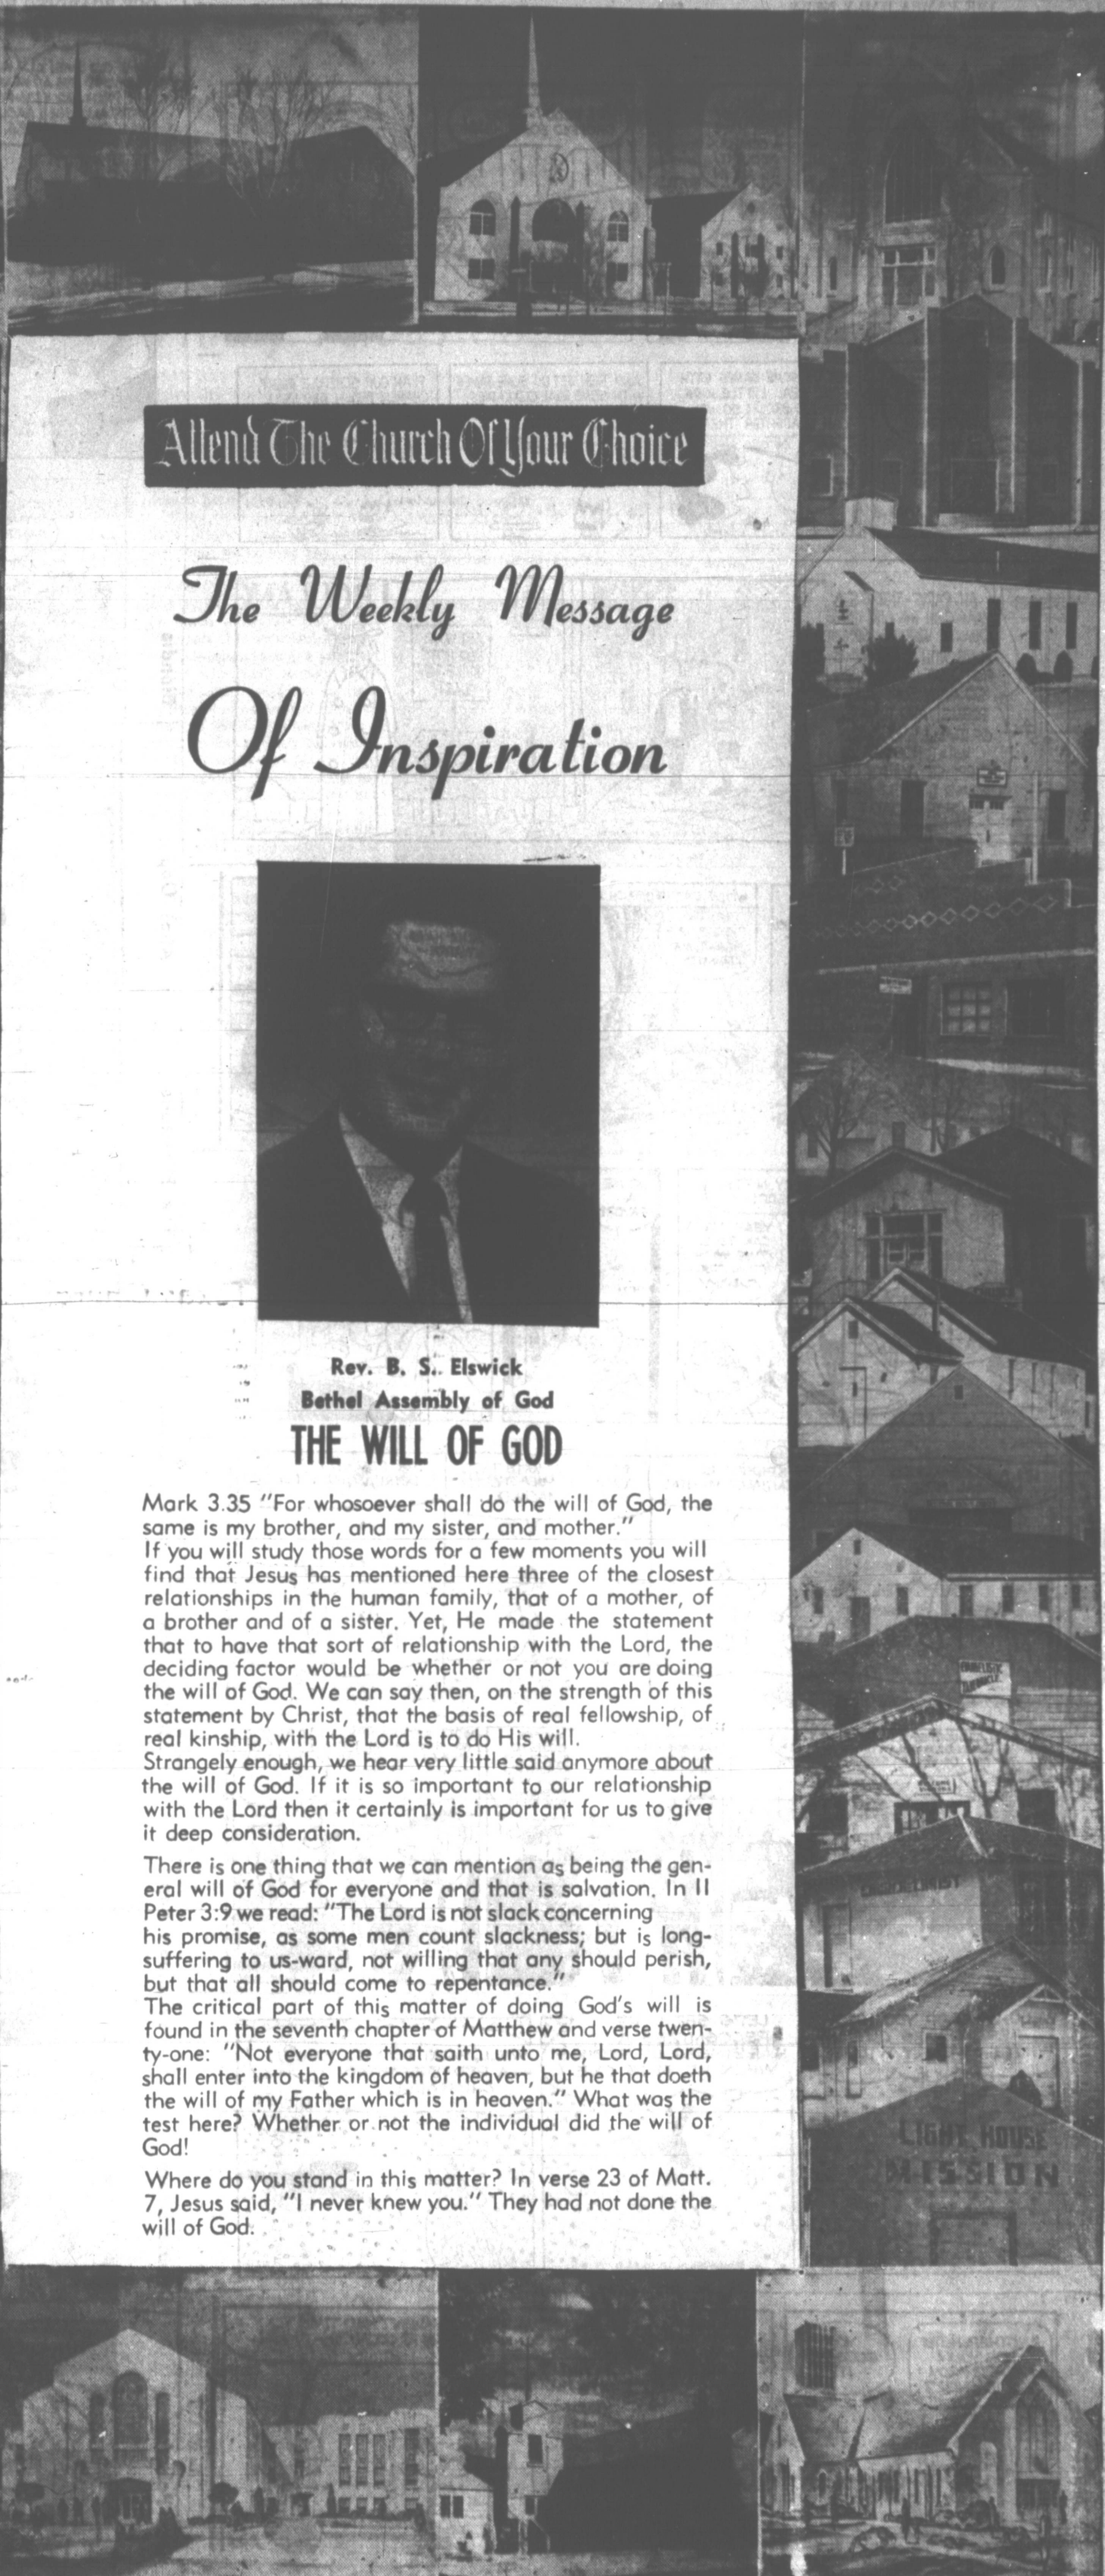

If you will study those words for a few moments you will find that Jesus has mentioned here three of the closest relationships in the human family, that of a mother, of a brother and of a sister. Yet, He made the statement that to have that sort of relationship with the Lord, the deciding factor would be whether or not you are doing the will of God. We can say then, on the strength of this statement by Christ, that the basis of real fellowship, of real kinship, with the Lord is to do His will.

Strangely enough, we hear very little said anymore about the will of God. If it is so important to our relationship with the Lord then it certainly is important for us to give it deep consideration.

There is one thing that we can mention as being the general will of God for everyone and that is salvation. In II Peter 3:9 we read: "The Lord is not slack concerning his promise, as some men count slackness; but is long-suffering to us-ward, not willing that any should perish, but that all should come to repentance."

The critical part of this matter of doing God's will is found in the seventh chapter of Matthew and verse twenty-one: "Not everyone that saith unto me, Lord, Lord, shall enter into the kingdom of heaven, but he that doeth the will of my Father which is in heaven." What was the test here? Whether or not the individual did the will of God!

Where do you stand in this matter? In verse 23 of Matt. 7, Jesus said, "I never knew you." They had not done the will of God.

# McNamara Orders Check of Testimony

By JOHN HALL  
WASHINGTON (UPI)—Defense Secretary Robert S. McNamara Thursday ordered security officials to go over his testimony on the Gulf of Tonkin incident so that the transcript could be made public tonight.

McNamara said in a statement he had ordered the officials to make "only the deletions necessary to safeguard intelligence collection" and return the testimony to the Senate Foreign Relations Committee for release.

This was the latest development in a running dispute between McNamara, who leaves the Pentagon at the end of this month, and committee Chairman J. William Fulbright, D-Ark., over just what happened in the Gulf of Tonkin Aug. 2 and 4, 1964.

On those dates, the Defense Department says two U.S. destroyers were attacked by North Vietnamese patrol boats. The incidents resulted in U.S. air strikes against North Vietnamese torpedo boat bases, and in a congressional resolution giving President Johnson broad authority to pursue the Vietnam War.

Made Public  
McNamara made public a 21-page statement which he had given the committee Tuesday. Fulbright later charged McNamara's published account did not tell the whole story.

The Pentagon said McNamara ordered a security review team to go through the entire transcript "on an expedited basis." It said the transcript was received from the committee this morning.

"The security review procedure will be completed today so that the entire transcript, with only the deletions necessary to

safeguard intelligence collection, can be released tonight by the committee," the Pentagon statement said.

After two days of bitter public exchanges with McNamara, Fulbright said he doubted that the destroyers were attacked, but acknowledged that definitely establishing this was another matter.

# Democrats Seek Negro Candidates

WASHINGTON (UPI)—The Democratic National Committee is encouraging Negroes to run for public office this year in record numbers.

Top Democrats have worked up a strategy aimed at giving the party a political cushion in the event of more disturbances in the nation's cities next summer.

The strategy is simple: To have the maximum number of Negroes on the ticket in areas where trouble is the most likely. The idea is that no matter how widespread the turmoil and disaffection in the black ghettos, Negro voters will not turn against members of their own race at the polls in November.

The men who have devised the strategy are aiming their appeal at Negroes of all persuasions, figuring that the more they get into politics the more the party will benefit. Even black militants will be welcome, one of the strategists said.

Going into 1968, there were about 1,000 Democratic Negro public office holders throughout the nation compared to about 100 Republicans. Top Democrats look for an increase of about 30 per cent in the fall elections.

They also have a target to register 7 million Negroes for the November elections, about 1.5 million more than 1964.

While the move obviously would help Democrats in the fall elections, those working on the strategy contend that in a sense it is non-partisan—a race with time and tensions to win ghetto Negroes over to the traditional methods of power politics to solve their problems.

VET PLANS  
ROME (UPI)—The Italian government announced plans to provide yearly pensions for its World War I veterans. Under the plan, the veterans would receive \$8 a month.

# Wall Street Chatter

NEW YORK (UPI)—W. E. Hutton & Co. noted that as is the case after a sharp decline, "the stock market has slowed down to a walk." The process "taming" speculation has made some progress, although there is evidence that the conglomerate movement is far from dead, it adds. The firm says it is all too apparent that recent international events and domestic social frustrations have sobered public optimism about securities as well as other things.

Moody's Investors Service notes that last week opened with hope that the sharp slide in stock prices might produce a definite selling climax and a significant rebound. Although there was some recovery from lows posted on the industrial averages at midweek, it was anything but clear how much potential selling had been absorbed, the firm adds.

Thomson & McKinnon observes that "the market's lows were seen early in the week as selling pressure eased and bargain hunters searched for oversold stocks." It says that many popular glamor issues "have shown stubborn resistance to further decline for the past week, and good gains were posted by some of them."

RECOMMENDATION  
HELSINKI (UPI)—The Finnish Social Democratic party decided to recommend the appointment of Gov. Kaarlo Pitkanen as Finland's new premier, informed sources said. The sources said Premier Rafael Paasio had refused to serve another term. President Urho Kekkonen will name his new government after his inauguration March 1.

# Washington Window

By WILLIAM THEIS  
WASHINGTON (UPI)—The Senate was forced to look into the pit of summer 1968 this week, and finally saw the fire. But there was still no certainty that enough members felt its heat or sensed its damage potential to produce the votes for passage of civil rights legislation this year.

Among some of the lawmakers, including liberals whose backing of an "open housing" amendment helped delay final action, there has been deep and almost silent concern about racial unrest ahead.

What they fear most is a demonstration of legislative impotence—a failure to enact even minimal civil rights legislation like that which has passed the House.

They recognize that by failing to pass any bills they withheld even token talking points for Negro moderates trying to counter black power extremists. This would further fortify any argument by militants that they have little hope under the American system of government.

In five weeks of desultory floor debate, not much of this concern showed through until the final hours before Tuesday's first unsuccessful cloture vote.

Then it was Sen. Philip A. Hart, D-Mich., floor manager of the anti-intimidation bill, who put it into understandable language. Defending the fair housing amendment then pending, Hart spoke of the Negro who "gets within 50 feet" of a house he wants to buy and then is told there can be no sale because of the buyer's color.

"I don't know what effect it will have on their children," he said. "But if it turns them into barn-burners, don't blame Stokely Carmichael."

MOSS HURT  
MELBOURNE (UPI)—Former British racing driver Stirling Moss was treated and released at a hospital following an auto accident. Moss told police he was driving at about 10 miles per hour when his car was slammed in the rear by another at an intersection.

DEFEAT MOTION  
SEOUL (UPI)—South Korea's ruling Democratic Republican party defeated by a 52-102 vote an opposition no-confidence motion against National Assembly Speaker Rhee Hyo-san and Vice Speaker Chang Kyong-soon.
