

## Red Cross News

**By LIBBY SHOTWELL**  
Executive Secretary

It's so good to be back in the office and working again. However, we had a wonderful vacation and we enjoyed every minute of our trip. Thanks to John Skelly, chapter chairman, and Mrs. Noel Thompson, who was in the office, the work went on as usual.

Mrs. Laura Converse, an LVN employed at Worley Hospital, has the honor of being the first to receive her LVN Red Cross pin. This is a new pin made by the National organization for the women who work with Red Cross and have never been recognized. This pin is a red cross on a blue background and is very lovely. Congratulations Laura, for your continued work with Red Cross. Laura is an instructor in First Aid, a Home Nursing. She completed her class in Home Nursing Friday evening at the Mormon Church on Sloan St. Look for the names of those who completed their course in Home Care next week.

We have a new Red Cross Volunteer, Miss Sandy Hedgecoke, who will work on the 1st, 3rd and 5th Sunday afternoons delivering juice to the patients at Highland General Hospital. Sandy is a sophomore in Pampa High next year and we are very proud of her. We hope you will not have to visit the hospital soon — but if you do, it will be nice for these pretty girls to serve you coffee or juice on Saturday and Sunday morning and afternoons.

Ray Fisher, FAI, completed Standard First Aid Class June 13 with a make up class this week. The following took their first aid class work and received their card: C. L. Followell, Bill Hammer, Kathy Hammer, Mildred Scott, Fred Anderson, Hollis Stout, Roselle Stout, Lucille Merilatt, E. L. Lewis, D. L. Hinkle, J. Ernest Upton, Carrol Goad, John S. Lyle, Francis Beaswell, Norma Shale, Dick Andrews, Guy Thompson, Sharon Thompson, Susan Nesbit, Bobbie Nesbit and Scott Nesbit. This was a fine

class and we hope to have an Advanced First Aid class soon so that those interested may continue this work.

Swimming is under way at the City Pool and at the Youth Center Pool and we need more WSI to help us. If you have ever been a WSI and your certificate has lapsed, won't you please come out and help us? We need you badly this year!

We have 100 beginners taking lessons at the City Pool in two classes. Judy Fugate (our newest WSI) is working with this group, and Martha Hilton is working with the Intermediate and Swimmer group. Martha and Jack Hilton are our husband-and-wife WSI and Jack gives the one hour each morning before he goes to work helping us teach beginners. We wish to thank Jack for his continued help. Mrs. Jim Osborne (Gretchen) has been a WSI and is working with our Advanced Beginners. Gretchen is doing a fine job and she has 23 students in both classes. The following are working as aides with our instructors: Buzzy Green, Randy Taylor, Becky Thompson, Betty Crocker, Larry Dittmeyer, Kathy Collingsworth, Mary Beth Karr, Pam Green, Janet Taylor, Mrs. Leona Preston and Mrs. Sharon Preston.

Jackie Marlar, WSI, with Mrs. Hoyt Phillips, swimmer aide, are teaching beginners. They also teach advanced beginners with four aides. Thanks girls, for a job well done.

Keitha Morris, WSI for the White Deer Pool, has turned in her first classes. Our chapter is working with Keitha in furnishing cards and patches for her class. The following completed their Jr. and Sr. Life Saving Class: Gary Stewart, Clifford Cornette and Debbie Thomas. Patrick Barnard completed his advanced Beginner class, and Shelly Bottoms, Blake Morris, and Cindy Barnard their beginner class. Keitha is a wonderful swimmer and received her WSI from college this spring.

Mrs. Edith Breeding, WSI from Miami, is teaching for Red Cross at the Miami Pool this year. Mrs. Breeding has completed a Senior Life Saving class with Judy Anderson and Tilden Moore receiving their cards. They purchased their patches from our chapter. We are glad to work with our neighboring communities. Let us make our towns safe this summer with everyone learning to swim or to swim even better!

## Center Wrap-Up

**George Smith, Director**  
Pampa Youth and Community Center

**TEEN DANCES** — The Center has started up its teen dance program again for those young people who are interested in this activity. The dances will be held by age groups with the Jr. High dance on Tuesday night and the Sr. High and College dance on Friday nights. Admission is \$1 for regular dances and hours will be from 8-11 p.m.

A big attraction is coming in July which all the teens will be invited to whether Jr. or Sr. High — or even College. This will be a top recording group which recorded and sold over a million copies of "Hey Little Girl". This group is in a bigger class than The Frantics or the Blue Thrifts. On tour on July 16 The Syndicate of Sound will be here for a big three hour show. Advance tickets will be \$1.50 and at the door \$1.75. Tickets are now on sale at the front office at the Youth Center.

Other bands coming to play are on June 28, The Union of Sound from the Electric Theater in Clarendon; July 5, Buddy and the Bums; July 12, Tyme; July 19, Impact Society; July 26, Rockin' Mods and Aug. 9, Jerry and the Pacers.

**SWIM LESSONS** — Going, going, gone — are most of the swim lessons offered by the Youth Centers swim program for the summer. We have one class of Advanced Beginners with two vacancies left on July 29-Aug. 9 from 10-11 a.m. We have had such a wonderful swim program this year under the direction of Mrs. Jackie Marlar that now we enroll our classes full several months in advance. Mrs. Marlar is one of the top instructors in the state of Texas and this is proved through the popularity of our classes.

There are still some openings in the Red Cross Swim program for July 1-13 and July 15-26. These classes are taught by instructors who are sent from the Red Cross office and the cost is only \$1 per child per course. The difference in the Youth Center lessons and the Red Cross is that Mrs. Marlar teaches all our classes and there is only one class per hour in the pool while the Red Cross lessons have three classes going on at the same time. However, all lessons given are good lessons. Available are polywogs, beginners who are 45-inches tall to the chin, advanced beginner, intermediates, swimmers, and Jr. and Sr. Life Saving. The Lifesaving course will be taught by Pete Erwin from 10-12 a.m. Aug. 12-23 and is \$4 to everyone.

**WOMEN'S SWIM TIME** — The Center offers a swim period just for women on Monday and Fridays. The women meet to exercise from 3:45 to 4:15 — then swim from 4:15 to 4:50 p.m. You may participate in one or both of these classes. Participation is by membership only with family or individual memberships available.

**MEMBERSHIPS** — The Center is run on a membership participation plan or on a daily admission charge basis. The membership plan is the most economic because you receive free swim lessons as available. All memberships are subsidized by donations from individuals and businesses in Pampa who are interested in everyone enjoying the facilities offered. All memberships are kept far below actual cost by these donations.

There are two types of memberships available. One is the individual membership which is for those 8 years of age or older. This costs \$5 for six months and \$8 for one year. The reason for the age limit is that a child must be 8-years of age to swim unchaperoned. The other memberships the family one. This includes all members of the immediate family and costs \$12 per six-months and \$20 a year.

**WATER BALLET** — The Center is interested in offering a series of water ballet lessons. If you are interested in this activity, please call the Center and give your name and address and phone number. If enough are interested, we will have a meeting to determine the best time for the course. Approximate cost will be \$12. Miss Keitha Morris of White Deer will conduct the classes.

## the Drama of DRUGS

By Joe Tooley

Skin diseases for the most part are rarely fatal and seldom incapacitating; but there are a few things more uncomfortable or disfiguring. There are a great many victims of these disorders who make up fifteen percent of all doctors' office calls.

These sufferers have been given hope by the recent discovery of a new drug with a rather outlandish name of

"griseofulvin." Taken in pill form, this antibiotic attacks skin fungi which cause such uncomfortable and highly contagious ills as athlete's foot and ringworm.

Strictly speaking, griseofulvin is not new, except as a treatment for disorders of the skin. Discovered in 1939, it was first tested successfully against plant fungi, but found too expensive for general agricultural use.

Richard Drug helps you by keeping complete stocks of fresh medicines. Also the skilled, licensed pharmacists merit your confidence.

# Panhandle Water District News

By FELIX W. RYALS  
A dryland farmer was by the office a few days ago. He was looking for some answers that would help him reach a decision on whether or not to drill an irrigation well on his 320 acres of land.

about 7,200 acre feet of water storage under his-half section of land. He presently irrigates 200 acres of his 320 acres of land and is currently using about one acre foot of water for each acre irrigated. His average current use for the 320 acre farm is about 200 acre feet of water per year, (200 acres x 1 acre foot per acre equals 200 acre feet).

He divides the 200-acre feet into the estimated 1,880 acre feet of water in storage under his farm and finds that at the current rate of water use the water supply under his farm would be exhausted in about 14 years.

It is highly improbable, due to the hydrological characteristics of the reservoir and the limits set by economic factors involved, that the water supply could be exhausted at the rate shown in the example. Natural recharge to the reservoir would extend the life of the water supply to some degree.

We hope that by using the example, however, that the water user will be better able to understand the need for water conservation. The most practical method for meeting the water depletion problem is by improving water use in every home, in every city, in industry and on the farm: "Waste Makes Want."

Long range plans are now being made in an effort to import water into the area, served by the Panhandle Ground Water Conservation District. The most optimistic estimates are that it will take about 15 years, possibly longer, for this water to reach the plains. Without the wisest conservation practices and the most prudent use of water, much of the area served by the Panhandle Ground Water District will suffer a great need for water before this proposed import water can reach the Plains.

The approximate saturated thickness of the Ogallala represents that area of the Ogallala formation which is super saturated with water. The volume of water stored in the formation represents approximately 15 per cent of the total area which is super saturated, that is 100 per feet of saturated material should contain about 15 feet of actual water.

Ground water contains minerals which have been dissolved from the rocks and soils in which it has come in contact with in reaching its point of destination. The amount of dissolved mineral depends on the type of soil and rock which the water has passed, the length of time that they were in contact, the temperature of the water, and the amount of dissolved carbon dioxide contained in the water.

### Agriculturally Speaking

By FOSTER WHALEY  
County Agriculture Agent

"This is the time of year in the Panhandle when no one's word is worth a dime. Everyone is in a hurry. Everyone is mad." This is the way I heard a wheat farmer describe the situation about 15 years ago at harvest time.

Everytime a thunderhead perks up its head the wheat farmer runs a little faster and runs a little lower on snuff.

This will be the first good crop in many years for some. Not all wheat farmers are doing so good. Some irrigation farmers took a terrific beating by hail. This has not been too wide spread, however.

Carl Smith, who farms southwest of Kingsmill, is making only seven to eight bushels on dryland where he took a very severe hail. Kenneth Gray at Laketon was making around 20 bushels per acre on dryland.

We talked with Mrs. Rachelle Medley, bookkeeper of Laketon Wheat Growers, and she said they got their first load of wheat on June 18. On Thursday, June 20, they received over 33,000 bushels; on Wednesday, June 19, they received over 27,000 bushels.

Only four farmers had completed harvesting by June 20 and harvest was getting into full swing.

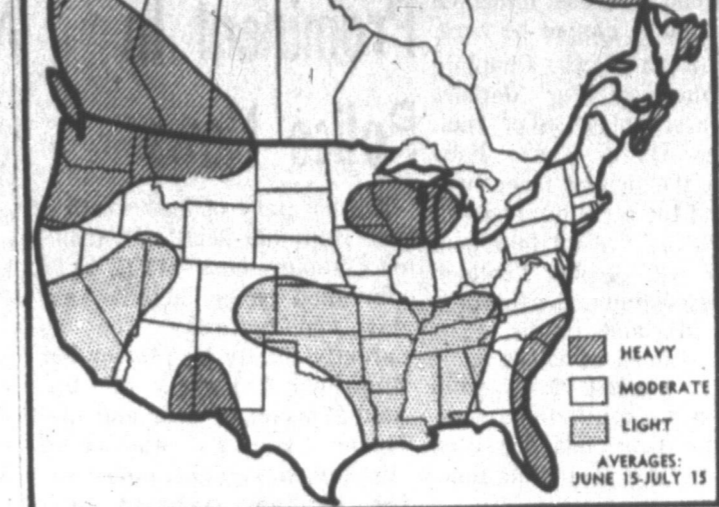

Dryland yields were averaging from 18 to 22 bushels per acre in the Laketon area according to Mrs. Medley. Lee Heaton, manager of Wheeler Grain, said both dryland and irrigated wheat in the Pampa area was still on the green side. Few, if any, combines were running in the Pampa vicinity.

At the time of this writing I haven't heard of any irrigated wheat being harvested.

We have talked to a number of wheat farmers that said their wheat was better where they took their cattle off late. We heard one say he made close to 18 bushels per acre and didn't take his cattle off until March 23.

There just hasn't been enough research done on the subject of when the best time might be to take cattle off in spring. So often a farmer will decide to take off because it will reduce yields. In many cases this might be doubtful. In any case the economics of the decision is overlooked. Even if you do reduce your yield by a bushel or

FOOD INCREASES  
ROME (UPI)—World food production rose three per cent in 1967 and went up six per cent in developing areas giving rise to a "real possibility of eliminating famine as a spectre haunting the world." Addeke H. Boerma, director-general of the U.N., Food and Agriculture Organization, said Thursday.

### Local Farmer Honored For Conservation

The Gray County Soil Conservation District has named James (Abe) Lewis, a farmer east of Pampa, as outstanding conservation farmer for Gray County for 1968.

Lewis is testing the effectiveness of aerial and ground applications for weed control in milo.

One of the principal demonstrators for the extension program in the past three years, Lewis also farms other lands in the county.

### US Agency to Merge Units of Inspection

WASHINGTON (UPI)—The Agriculture Department says it is merging its meat and poultry inspection units effective about the end of this year. The announcement Thursday said the move would save the taxpayers about \$1 million a year at the outset.

two... what difference does it make on one dollar and twenty-five cent wheat?

March 15 is a very safe date to take them off most years. But it appears April 1 would have given a higher yield this year.

## Book Sale Is Sponsored By Amarillo Library

Bargains in books are offered annually at the Outdoor Book Sale in Amarillo at the public library, to be held this year on Saturday, June 29, beginning at 8 a.m.

Visitors from outside the city are welcome to join the crowd searching for books, new and used, on their own special interest. Prices are five cents to \$2.

No arrangement of books is made except to separate children's books. Browsing the piled-high tables is part of the fun, and many come to enjoy the "county-fair" atmosphere as much as to buy. Approximately 5,000 books go on sale at 8 a.m., and a crowd is always there waiting for the starting signal.

Sponsor of the sale is the volunteer group, Friends of the Amarillo Library, with Dr. Marvin Hirsh as president.

**We Stock Both Fast and Slow Sellers**

Recent news stories told how supermarkets and discount firms are telling manufacturers: "Sell us only your fast sellers. We are weeding out all others." Their reason is that the small amounts sold of slow sellers are not profitable.

This is true, but sometimes slow selling products can be very important to the persons who need them. There are hundreds of them in our pharmacy that sell only about a dozen of each year. We buy only a quarter of a dozen at a time and re-order when they are sold. Our reputation is to have whatever you ask for. If we don't have your favorite, tell us.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

# Highlights and Sidelights From the State Capitol

**By VERN SANFORD**  
**Texas Press Association**  
 AUSTIN, Tex. — This is a crucial week for the special session of the Legislature which, as expected, neared the half-way mark without coming to grips with any major assignments.

House members were due to face up to Gov. John Connally's "small bottle" liquor by-the-drink bill early in the week, followed closely by a vote on a \$2,500,000,000 budget for 1969 state governmental operations.

The mini-bottle liquor bill was voted out of the House State Affairs Committee, but only after one of the most con-

fusing bouts of legislative, in-fighting history.

Two "wets" held critical positions. They voted for the bill on the second day of the committee debate after opposing it throughout the preceding day.

First, Rep. James Clark of Dallas captured the spotlight when he switched his vote from pro to con during the initial day's debates. Clark had offered amendments to the bill which were defeated by the committee.

Then, late in the afternoon, Clark started voting with the "drys" saying the legislation was an impossible "hodge-podge of legal gobbledegook."

But the next morning Clark voted for the bill, as did another "wet" opponent, Rep. Jake Johnson of San Antonio.

Both men indicated they had received assurances from the authors of the bill that their amendments would be given favorable consideration on the floor of the house if they would just help get the bill out of committee.

Clark and Johnson both want liquor by-the-drink legislation instead of liquor in two-ounce mini-bottles as provided in the governor's bill. But they said they would go along with the little bottles if they could secure certain other changes in the law.

They want at least three provisions added:

1. An amendment to outlaw the practice of legislators representing clients in cases before the Texas Liquor Control Board.

2. A provision doubling the license fees for persons selling liquor and beer.

3. A provision requiring complete financial disclosure by holders of beer and liquor licenses. This is aimed at stopping the practice of juke box operators making loans to tavern owners at high interest rates.

With these assurances from the bill's authors, Clark and Johnson would seem to be in a strong position to make their demands be met but margin-

ally on the House floor appears very close, and the Senate even closer.

In case of failure of the governor's tax proposals, tied largely to a raise in the sales tax rate to three per cent with 75 per cent of the new income refunded to incorporated cities on basis of their populations — lawmakers may turn to a straight increase in the sales tax without refund provisions. Both the governor's bill (\$127,200,000 a year total taxes) and the straight sales tax raise (\$150,000,000 annual yield) were reviewed by the House Revenue and Tax Committee and sent to sub-committee.

House Speaker Ben Barnes has indicated he would like to have his representatives face all three major issues of the session — taxes, budget and liquor — by the end of the week. That would leave less than two weeks for Senate action and final reconciliation of differences in conference committees.

**STATE CONVENTIONS**—Two Texans will go to the national political conventions as favorite son candidates for president — Governor Connally for the Democrats and Sen. John Tower for the Republicans.

Both won their honors overwhelmingly in state party conventions.

Both also are being mentioned prominently as prospective candidates for vice presidential nomination, although they deny they seek or expect places on the national ticket.

Connally and the moderate — conservatives proved they still are in firm control of the State Democratic party machinery when they crushed liberal opponents 2,835 to 499 on the favorite son resolution at their state meeting in Dallas.

Texas Democratic leaders polled in Dallas acknowledged a race between Nixon and Humphrey would be too close for comfort.

**TUITION HIKE PUSHED** — Top state college executives and governing board members

are pushing hard for doubling the \$50 per semester tuition fee at colleges and universities.

Committee of State College and University Governing Board and Council of Presidents of State Colleges and Universities by resolution and public statements have jointly endorsed the increase. They claim revenue is urgently needed to close the \$21,400,000 gap between higher education requirements in seven areas (such as teaching salaries and library needs) and funds foreseeable.

Tuition boost to \$100 per semester would bring in \$20,000,000 a year in new revenue. Liberal legislators already are tuning up for a fight against the raise. Tuitions have remained unchanged since 1957.

**APPOINTMENTS ANNOUNCED** — Lt. Gov. Preston Smith appointed Sen. Tom Creighton of Mineral Wells chairman of the Senate Water and Conservation Committee, succeeding the late Sen. George Parkhouse of Dallas.

Gov. Connally named 10 legislators to represent Texas at the annual legislative work confer-

ence on southern regional education here July 11-12. They are Sens. Grady Hazlewood of Amarillo, Jack Hightower of Vernon, Bill Moore of Bryan and J. P. Word of Meridian, Reps. A. C. Atwood of Edinburg, Bill Barton of Borger, Don Caveness of Austin, David Crews of Conroe, Bill Finck of San Antonio and James Slider of Naples.

**COURTS SPEAK** — State Supreme Court set July 10 for review of a labor union's appeal from an injunction against picketing construction near Orange.

High court refused to order Regulatory Loan Commissioner Francis S. Miskell to issue Beneficial Finance Co. license for its 61st Texas office.

Atty. Gen. Crawford Martin intervened to defend an 89-year-old Texas law against demonstrations which block a private business' activities. Challenge of law was filed in federal court by students who have been picketing an Austin service station.

Court of Criminal Appeals refused to rehear the appeal of a

Houston attorney who was convicted of encouraging an illiterate client to lie in court testimony. Attorney got six-year prison sentence.

**STATE PAY** — Members of the Attorney General's staff are meticulously studying a recent U.S. Supreme Court decision which requires states to pay the federal minimum wage at state schools and hospitals. State of Texas currently is paying the minimum wage, but requirements for paying overtime could call for \$14,000,000 more in state expenditure.

**DEATH PENALTY** — Sen. A. R. Schwartz of Galveston has asked Gov. Connally to open the special session of the Legislature for consideration of a bill that would do away with the death penalty.

**PHONE TAX** — Sen. Bill Patman of Ganado assailed Gov. Connally's recommended tax reduction for telephone companies as the "most indefensible special interest proposal brought before the Legislature in years."

**SHORT SNORTS** — In response to Gov. Connally's request, President Johnson has declared Hill County a major disaster area and authorized \$250,000 to help clean up May flood damages. . . Texas Highway Department has published detailed folders to serve as guides and to detail numerous points of interest along the Texas Mountain Trail in far West Texas and the Texas Forest Trail in East Texas. . . Rep. Billy Williamson of Tyler has introduced a bill to provide for state regulation of the coin-operated vending machine business. . . Texas has signed official acknowledgement of a

joint cooperative agreement to work with the federal government in improving enforcement of motor carrier safety regulations.

Barrier, Jenkins Tie For West Texas Golf Lead

Knudson Fires Course Record To Share Canadian Golf Lead

TORONTO (UPI)—Hometown favorite and health fanatic George Knudson fired a course record six-under-par 64 Saturday to share the third round lead in the Canadian Open Golf tournament with lefty Bob Charles of New Zealand.

Knudson, who has been training with weights and special foods in a unique program set by Lloyd Percival, also birdied the 11th hole to go four under for the round before paring both 12th and 14th holes with spectacular shots.

Borger Leads Pampa, 14-2 In 4th Inning

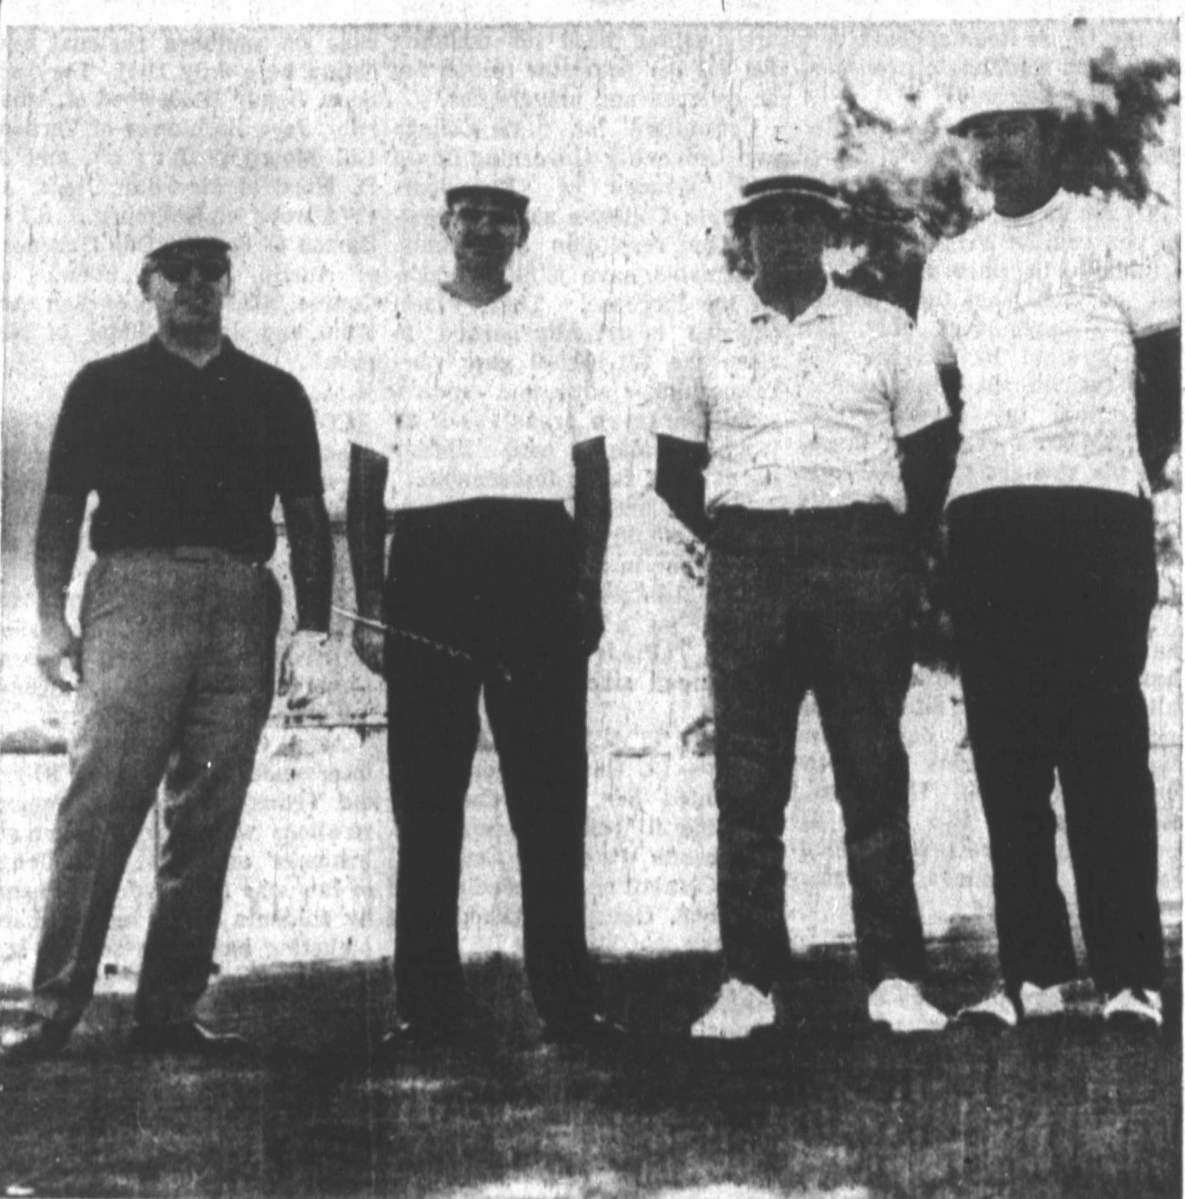

The Borger American Legion baseball club led the Pampa Rebels by a score of 14-2 in the last half on the fourth inning in a district game here Saturday night.

Reds Rout Cubs, 7-1

CHICAGO (UPI)—Jose Santiago, backed up by three double plays and aided by five Chicago errors pitched the Boston Red Sox to a 7-2 victory over the White Sox Saturday for his eighth triumph of the season.

Mantle Puts Teammates 1st

NEW YORK (UPI)—For most of Mickey Mantle's 18 seasons with the Yankees, he has been wreathed in lilac prose. His ability to smack and stalk a baseball has been exalted. He has kept perilously close to being deified.

FOUR AMATEUR GOLFERS including one of the leaders, Jerry Barrier, are pictured at the Pampa Country Club while playing in the 43rd annual Men's West Texas tournament which began Thursday and ends Sunday.

Texas Junior Wins

DURHAM, N.C. (UPI)—Gail Sykes, a junior from Odessa College, Tex. defeated Carol Semple of Hollins College, Va. 10 and 9 to win the 24th annual Womens collegiate Golf Tournament Saturday.

Indians Edge Tigers

CLEVELAND (UPI)—Max Alvis, who hadn't hit a home run in almost a month, belted a two-run homer in the fourth inning and reliever Hal Kurtz choked off an eighth-inning rally with only one pitch Saturday as the Cleveland Indians defeated the Detroit Tigers 2-0.

Twelve Races Are Scheduled On Raton Track On Sunday

Topping the exciting twelve-race turf program at La Mesa Park this Sunday are three brilliant features. All Distance Series III at 350 yards, "The City of Pueblo" at five and one half furlongs, and "The Pueblo Star-Journal and Chief" at 400 yards.

Two Leaders Shoot Under Par Scores

Jerry Barrier, Ft. Worth, and Tom Jenkins, Wichita Falls, were tied for the lead with a total of 205 at the end of the third round in the championship flight of the annual Men's West Texas amateur golf tournament here Saturday.

The tournament will end Sunday when trophies will be presented at the Pampa Country Club at 6 p.m. Barrier scored a 33 on the front nine including a birdie on the fifth hole. He then tallied 34 on the back nine for four under par total 67 to tie for the first place position with Tom Jenkins of Wichita Falls.

Rookie Pro Golfer Shares Lead With Whitworth In Ladies Event

SUTTON, Mass. (UPI)—Sandra Post, the pert little rookie pro from Canada, withstood mounting pressure Saturday to stay on top in the Ladies PGA tournament, sharing the lead after three rounds with defending champion Kathy Whitworth.

Pleasant Valley Country Club here last year, moved into a tie with a par 73. Miss Post has held the lead or been tied for it all the way in the \$20,000 competition. She was tied with Gerda Whalen of Baden-Baden, Germany at 72 after the first round and her half-way score of 147 left her with a one-stroke lead over Mrs. Whalen.

## Optimist Club Holds Banquet Monday Night

Rev. Dan Cameron, pastor of the First Baptist Church in Pampa, will be featured speaker at the Optimist Club banquet at the First Methodist Church Monday.

Officers will be installed at the banquet, which starts at 7:30 p.m.

Floyd Watson will be master of ceremonies.

Jack Robinson will be installed president of the Optimist Club. He replaces John McGuire, who served the past year.

Jack Hood and Clifford Scott will be installed as vice presidents. Newt Secrest is new secretary.

The Opt.-Mrs. will also attend and officers for the women's division of the Optimist Club will be installed.

Betty Epperson is new president. Vice presidents scheduled to be installed included Tiny Leonard, Maxine Parsley and Joyce Combs.

Joyce Scott is new secretary. Treasurer is Bernice Hollars.

The Optimist Club is active in all phases of sport activity in Pampa.

The club sponsors three youth baseball leagues — the American division, the National division and the Babe Ruth youth league during the summer.

In addition, the group has sport activities throughout the year for both boys and girls.

The Opt.-Mrs. sponsor a girls' softball league during the summer. A judo school is also under the sponsorship of the Optimists during the year.

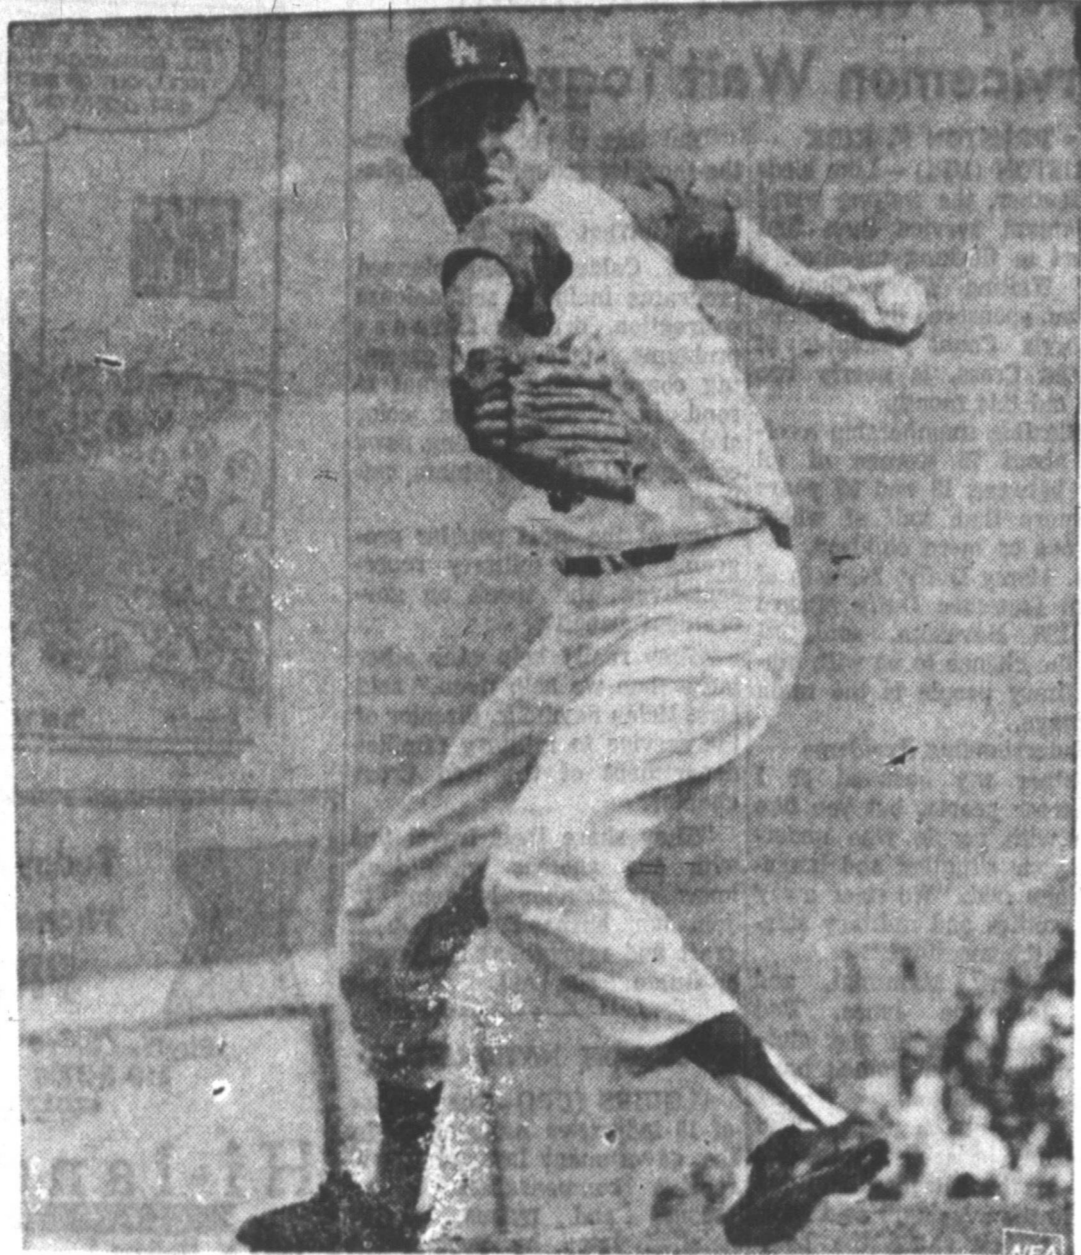

## Abilene Boy Awarded Trip To Missouri

HOUSTON (UPI)—Pack Mildren, an all-star athlete in football, basketball and track from Abilene, Saturday was named Boy of the Year by the Texas District exchange clubs at their 40th annual session.

The 18-year-old Mildren, who was a scholar as well as an athletic leader, ranked 18th in a class of 450 with a grade average of 94.81, was vice president of the student body and an active worker in school and church functions.

Mildren, who has signed a letter on intent to attend the University of Oklahoma, was to be presented the award at a noon luncheon by Dr. W. H. Hinson, president of Houston Baptist College.

Mildren, who competed against candidates offered by exchange clubs throughout the state, will now be eligible to compete for the civic club's national award in Kansas City later in the year.

DON DRYSDALE, pitching ace for the Los Angeles in the National League, shows the form he used to set a new record for consecutive scoreless innings.

## Fishin' Roundup

By MELVIN CLARK

Sunday, June 16, Mr. D. L. Brown had a good catch of 10 bass about 12 inches to 14" in length from a small government lake south of Reydon, Oklahoma. He used a fly rod and a popper bug as bait.

On Lake Leedy in Oklahoma, L. V. Hopp caught 6 bass averaging 2 lbs. each and was using a Rapalla countdown lure.

Jess Edney, 724 Malone, took his nephew, Randy Macom from Oklahoma City fishing with him to a lake near the state line in Oklahoma. They caught 36 channel cat, averaging 1 1/2 to 3 lbs. They were using blood-bait.

On a \$1 per day lake near McLean Ray Glazebrook caught one bass weighing 2 1/2 pounds on a Piggy Boat spinner, black and yellow. He also caught several goggle eye perch.

On another trip to Osage county, Oklahoma, Glazebrook brought back bass and channel cat that weighed 30 lbs. when dressed.

Warner Phillips, concessionaire at Lake McClellan has just received a letter of commendation from the investigating ranger of the Panhandle National Grasslands complimenting him on the clean, well-kept, well-mowed recreation area.

This is a big part of Warner's job, and with all the rain we have had it has really kept him

busy. He reported some good fish catches this week, but did not have time to get all the names. A. J. Danner, McLean, caught 4 nice bass, all 2 pounds and over, using a Heddon Super Sonic lure, yellow and silver. Rex Brown, Jericho, caught 6 channel cat with a total weight of 6 1/2 pounds.

Reports from Lake Meredith say the fishing has slowed some, but some good catches being made. Happy fishing, everyone.

## Drownings Still Climb Over State

AUSTIN — The number of drownings has almost reached two-thirds of last year's total of 317 with the major portion of the outdoor recreation season ahead, according to R. G. Mauermann, deputy director of the Texas Parks and Wildlife Department.

Mauermann says the Department has compiled information on 203 drownings. The Department keeps these statistics because its game management officers are charged with enforcing the Water Safety Act.

Many of the drownings occurred as a result of boating accidents, indicating that if the Coast Guard approved life saving devices required for each person in the boat were present, they were not worn.

"It's amazing to me the chances people take with their lives and the lives of their families," says Mauermann. "What is particularly sad is the small children who drown merely because their parents do not take the time to slip them into a life jacket."

According to Mauermann, many other children drown in bodies of water close to their homes such as swimming pools and drainage ditches.

## Haz Benz Is Winner In Softball

Angie Allison hurled the Barons over the Knock-Outs, 17-10, in a girl's softball game at Optimist park Wednesday.

Losing pitcher was Gloria Newkman.

Haz Benz clobbered the Blue Jays, 22-10, with Judy Parsley hurling the win. Jo Ann Martin was the losing pitcher in the Wednesday contest.

On Friday, Haz Benz easily won over the Barons, 21-7. Winning pitcher was Jody Parsley. Losing hurler was Angie Allison.

A home run by Kim Morrow highlighted the contest.

The Sonics defeated the Blue Jays by a score of 28-19 in another clash Friday.

Winning pitcher was Nannette Best. Losing hurler was Jo Ann Martin.

### GOOD FRIENDS

When Houston manager Grady Hatton was fired and replaced by his former hitting coach, Harry Walker, there were many stories and pictures run over the state of Texas in newspapers which showed the two men as still friends.

Hatton and Walker should be teammates on the same baseball team during World War II in the non-professional baseball tournament at Wichita, Kansas, on the Ft. Riley Centaurs team.

Hatton and Walker were only two of many ex-major leaguers on the team. Included on the squad were Joe Gargola, who later was destined for fame as a major league catcher and leading sport TV and radio personality, and Pete Reiser, who had led the National league in hitting the previous year and was one of the many top players on the squad.

Hatton played third base and Walker was in center field for Ft. Riley, a team which worked out almost continually at the base, reports indicate.

Both Hatton and Walker played well even though the Ft. Riley nine, despite its surplus of ex-major league stars and future ones, was unable to ever win the National non-professional title.

It did, however, have the greatest raw baseball material ever in the non-professional event at Wichita.

Hatton was one of the greatest hustling third basemen ever seen and an excellent fielder. Like Walker, he was very popular with the fans attending the tournament and also got along well with his teammates.

Walker, the new manager of Houston, has two nicknames. He is called Harry "The Hat" Walker by some and Harry "The Whistler" Walker by others.

We still recall when we worked on the desk of a newspaper and a head was written on "The Whistler," referring to then Pittsburg manager Harry Walker.

The managing editor immediately changed the head to a more recognizable name and said that most baseball fans would not recognize Walker's nickname as "The Whistler."

But he does go by both nicknames—the Whistler and The Hat.

This is not unusual in major league baseball considering major league players having nicknames include Jim "Catfish" Hunter, Joe "Ducky" Wuckey, Medwick, Pete "The Pistol" Reiser, Harry "The Cat" Breechen, Harmon "The Killer" Kilbirew and others.

### Ivory Listed In 8th Place

Jim Ivory of Pampa is listed in eighth place in the bareback bronc division of the championship standings of the Rodeo Cowboys Association, it was announced today.

Ivory has earned a total of \$5,262 in rodeos this year.

## Youth Teams Will Not Play Monday

Youth baseball teams will not play Monday, it was announced today by John McGuire, president of the Optimist Club.

Because of the Optimist Club banquet scheduled for Monday, all youth baseball games will not be held on Monday.

Borger and Palo Duro, who are battling for first place in the American Legion Northern division standings, are rated the teams to beat in the American Legion this season.

That final game between Pampa and Borger at Borger looks like a very important one from Borger's standpoint.

It may well determine if Borger wins the American Legion title.

Lloyd Summers and Joe Achord, the two Pampa coaches, get no pay for guiding the American Legion team.

The two spend long hours on coaching the team.

Amarillo coaches reportedly receive a fairly good salary for their efforts, the advantage of a large membership in the American Legion at the city. Travis Lively Jr., manager of the American Legion team, has scored baseball games 22 years.

At the present time, he gives out the names and positions over the loudspeaker in the press box and, at the same time, keeps an official box score for all of Pampa's home games.

This may not sound too difficult but try it sometime.

# Prairie Trails & Pioneer Tales

By TRACY D. GARY, Chairman, Gray Co. Historical Survey Committee

The Gray County Story is beginning to unfold as family histories and sketches are pouring in from members of our pioneer families together with many wonderful pictures of yesterday scenes and personalities that played such an important part in the establishment of this part of the panhandle. The churches and clubs are busy too browsing through minute books, scrapbooks and memoirs for information on their organization's formation. . . . who the charter members were, who the early pastors were, and much data that may have been nearly forgotten in the hustle and bustle of modern day living.

Our particular thanks to Mrs. Grundy Morrison for a large parcel of newspapers and historical articles including pictures, pamphlets, and sketches of early day personalities. Included were pictures of Mrs. Olive K. Dixon, widow of Billy Dixon, Adobe Walls hero, and a map of the original locations of the buildings on the historic battlefield. Also valuable clippings of the oil strike which took place on the Morrison ranch 18 miles north of Pampa when the drilling crew hit pay dirt at 6900 feet, bringing in a

well producing 12 barrels an hour or 288 per day.

If any of you have saved clippings or articles of early day events and would like to share them with the Gray County Historical Committee for use in the published book, please send them to us at Box 676, Pampa.

Thanks to Mrs. M. F. Roche for several pictures of old Holy Souls Catholic Church. Bishop Gerken dedicating the church Nov. 29, 1923; the first prize winning float in the 1936 Centennial parade and the nativity float in the 1932 Santa Day parades; several pictures of graduating classes at Holy Souls school and the ordination of Father James Fitzgerald. Mrs. Roche has also compiled a very fine history of the Catholic Diocese of Amarillo.

From Mrs. Etta Harrah Gill of Miami, who may be the senior Gray Countian now living who was born here on Cantonment Creek in east Gray County on February 10, 1886, we have received the journal of her father, Joseph Wilson "Harrah" Harrah, Indian fighter and buffalo hunter who came to the Panhandle in 1875 from Dodge City, Kansas. In 1878 while living in Hemphill County near Canadian's present location he and his family were saved from a marauding band of 350 Pawnee Indians, escaped from the Pawnee territory of Oklahoma, by the arrival of a group of soldiers who were trailing the Indians.

Joseph W. Harrah began his journal in 1881 and included are his sales of beef and supplies to the soldiers at Ft. Elliott, the lists of cattle which were inspected and branded by and for him, and the book even contains a handwritten lease by T. D. Hobart dated March 1, 1888 for ranch land in the eastern part of the county.

We will be including more about this colorful pioneer in later articles, and the members of this exceptional family. . . . Oren Harrah, son of J. W. and Emma (Fitch) Harrah was the first white child born in Gray

County and Mrs. Gill has sent us his picture as well as several others of the family for the book. Our thanks to this gracious pioneer lady!

Also in the mail this week were sketches of the late W. W. Harrah, brother of Joseph W., submitted by his son, Raymond Harrah and another of the Lee W. Harrah family sent by Mrs. Irene Harrah. Mr. and Mrs. William Wesley Harrah came to Gray County soon after their marriage in 1893. Mr. Harrah voted in the election to organize Gray County in 1902. They were charter members with their son Lee M., when the First Methodist Church of Pampa was organized in 1905 and were later instrumental in organizing and starting the Harrah Methodist Church which is named in their honor.

## 'Marvels' Are Lowest In Tar Content

WASHINGTON (UPI) — The government's second batch of cigarette tests rates Marvels still the lowest in nicotine and tar content.

The Federal Trade Commission said nonfiltered Raleighs still had the most nicotine content, but that four brands — Brandons, English Ovals, Fatimas and Bull Durham — moved ahead of Chesterfields as leaders in tar content.

The first test of 59 of the most popular brands was completed last year. The second report Wednesday concerned 68 of the less popular brands. Both test series were made with automatic smoking machines.

Surgeon General William H. Stewart told Congress last summer "there is evidence that tar—the general term for smoked solids minus moisture—is many times more potent in its cancer producing properties than any of the substances isolated from it."

Nicotine affects the heart, nervous system, blood pressure and respiration, Stewart said.

## Guns Killed More Than Car Accidents

CHICAGO (UPI) — More people died by gunfire than from automobile accidents in Cook County last year.

Coroner Andrew J. Toman reported Wednesday there were 607 deaths attributed to firearms, compared to 591 traffic deaths in 1967.

## TRAIN TICKET

CEDAR RAPIDS, Iowa (UPI) — B.S. Rains got a \$100 parking ticket Thursday.

Police charged Rains, a conductor for the Rock Island Railroad, kept his train blocking an intersection for more than five minutes.

## Dr. Malone To Be In Town On School Business

Dr. James F. Malone, Pampa's new school superintendent will be in Pampa through Monday to counsel with school officials and interview prospective teachers, according to John Gikas, school board president.

"In an agreement with the board, Dr. Malone has said he would be here some weekends in June in exchange for the first week off in July. The board is not expected to meet with him, but he will be taking care of 'pressing' school business which requires his counsel," Gikas said.

"He was to contact the head of the Texas Interscholastic League to find out what the requirements are of us on the matter of a chain link fence around the Harvester football field. He will also visit with candidates for teacher appointments," Gikas said.

Dr. Malone is one of three state directors for the National Education Association, and will attend the national convention July 8-12 in Dallas.

A thought for the day: Roman playwright Plautus once said, "Patience is the best remedy for every trouble."

## Lonely Wives Of Vietnam Servicemen Wait Together

By PRESTON F. KIRK HOUSTON (UPI) — Like birds of a feather, the waiting wives of Vietnam service men find comfort in flocking together.

The Waiting Wives Club of Houston, sponsored by the Houston-Harris County chapter of the Red Cross, is nearly two years old this month.

Its flexible membership averages about 75 women of all races between 18 and 38 years old, more than half of whom have one or more children.

Mrs. Merry Duffy, 24, wife of Ensign Laurence Duffy aboard the USS Navasota, said, "I think the chance to be with other military people is the main advantage.

**Understanding Problems** "Neither my husband or I are career people, but you like to be with people who understand your situation and language," she said. "We steer away from politics and military strategy at the meetings."

Mrs. Jerry Mammial, and Mrs. Josephine Jones, Red Cross workers with the club, said many of the women have families in Houston.

"They meet on the second Wednesday of each month, one group in the morning and another in the evening," said Mrs. Jones. "They share the common problem of loneliness," she said.

"But this is not a crying-on-the-shoulder group," she emphasized.

### What They Do

Mrs. Caldwell said, planned programs included self defense instruction, driver's license problems, make-up and grooming courses, how and what to send in packages and color slides shows by returning news correspondents or Vietnam veterans.

One of the most popular programs is the military representatives who speak on government benefits.

"They really help each other more than we help them," said Mrs. Helen Seymour, director of the service to military families department of the Red Cross chapter.

"They share their travel tips with one another when they know a member is going to join her husband on R & R (rest and relaxation) in Hawaii or Guam," she said.

### INDUSTRIES NATIONALIZED

ALGIERS (UPI) — The owners of 18 industries nationalized by the government last week will receive compensation in an amount and means to be detailed later by government decree, the official Algerian journal said.

# Volunteer Labor, Free Material Enable New Camp to Open for Boy Scouts

LET'S CLEAN IT UP — Boy Scouts attending summer camp have undertaken projects to improve the land and facilities of the new Adobe Walls Council, Boy Scouts

of America, camp. Above, boys are clearing dead trees, moss and other objects from a stagnant pond to enable the water to flow through into a creek.

The culmination of volunteer labor and free materials, the new Boy Scout camp of the 15-county Adobe Walls Council opened June 9 for six weeks of summer camping by Boy Scouts.

The new camp, at the moment called Adobe Walls Council Scout Reservation, is located on a 480-acre tract near Wheeler. A lake and several ponds dot the area, with 78 acres of forested land.

New facilities were built mainly by free labor and materials given by area residents and companies. The main expenditures were for the new dining hall and a few other small buildings.

Working mainly during weekends since January, volunteers helped clear land, clean up some of the ponds, lay out campsites and put in the new facilities. New facilities adding to the use of the camp include a water system, staff showers, a rifle range, a water front on the lake, a dining hall and a small "grocery store" selling candy, soft drinks and the like.

The structure of the dining hall, erected by Pam-Tex Co., went up in eight days, being finished in the early hours of June 9. Some work still remains on the inside of the structure, but it will be completed by the time camp opens next summer.

Two cooks prepare the meals for the boys in the well-equipped kitchen. They are Mrs. Anna Belle Corcoran and Mrs. Ann Trimble, both of Mobeetie.

The dining hall has a capacity of 200-plus persons. There are 20 tables in the dining area. The water system provides water to all parts of the camp, including all the campsites. Water is obtained by a pump from a 130-foot deep well. At present, the water level is 12 feet from the surface. Water is pumped through pipes, ranging in size from 6-inch diameter to 1/2-inch diameter.

Scouts set up camp in 12 permanent campsites. Each campsite is 400 feet in diameter, and is laid out in a clover-leaf pattern. One "leaf" is used each summer by the campers, rotating with the other "leaves." In this way, the grass and other plants of the site are maintained.

Although the campsites are scattered throughout the area of the camp, each site has its own metal toilet facilities and a washstand with running water.

Since this is the first year the campsites are being used, they still need some work. Many of the boys are helping to develop the campsites. Troop 120 from Pampa, which was encamped this week at Campsite 11, is de-

veloping the campsite over a three-year period.

Many of the boys are spending their time to help improve the camp with their own projects. One of the projects involves cleaning out a stagnant pond. Boys are removing dead and fallen trees, moss and other objects in order to get the water to move through the pond into a creek.

Other boys are developing a Council Ring, which will be used for various activities, including putting on Indian dances. They are putting up bleachers, shaping the ground and erecting a campfire site for the area.

At the water front, the boys participate in swimming, canoeing and boating. While swimming, they operate by the "buddy system" so that no one swims alone. At present there are eight canoes and eight rowboats used by the boys. Instruction is available for their operation and use.

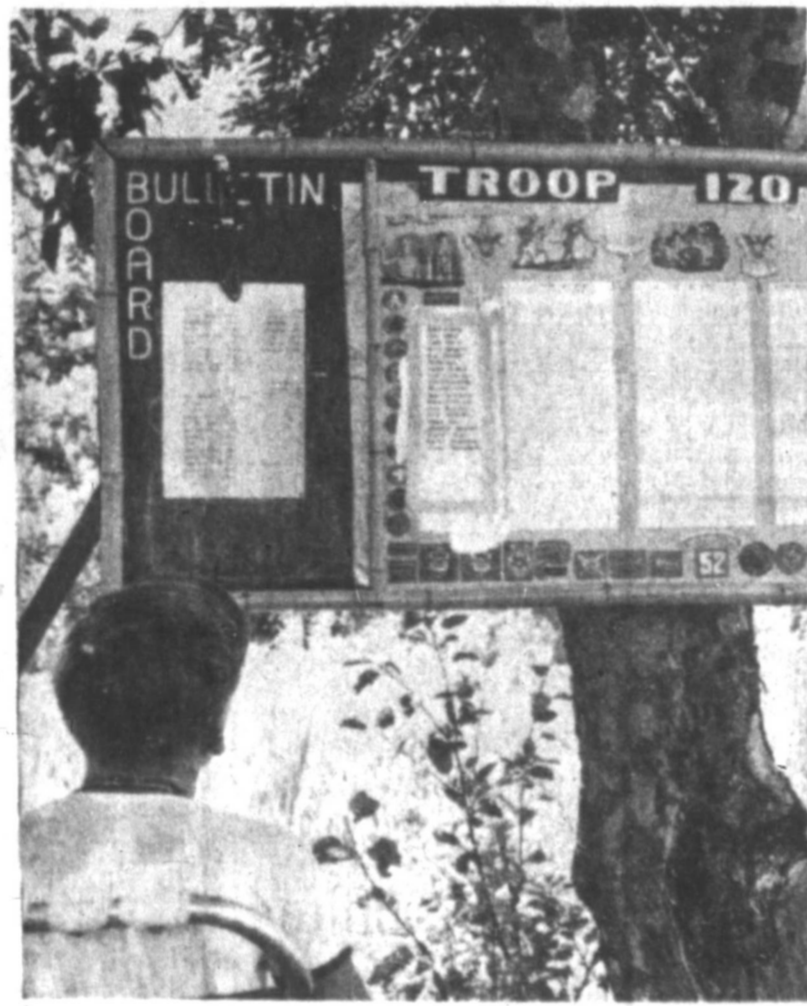

Besides the various activities already mentioned, the boys participate in hiking, outdoor skills, cooking, use of the knife and hatchet, and study of nature lore and conservation.

Boys camp for one week, from Sunday afternoon to Saturday morning. Twenty-seven staff members remain at the camp during the six weeks of camp.

HOLD IT LIKE THIS — Frank Huff, National Rifle Association instructor from Pampa, demonstrates the proper position for holding a rifle to Skipper Harrison, of Shamrock, who prepares to shoot at a target. The rifle range was built by citizens of Miami.

WHAT'S GOING ON? — Randy Paul, son of Mr. and Mrs. Harry Paul of Pampa, gazes at the bulletin board placed at Troop 120's campsite to see what events are scheduled. Troop 120 will develop the campsite over a period of three years.

LET'S PULL IT IN — Pampa Boy Scouts prepare to dock a rowboat at the water front, put in by the Pampa Rotary Club. In the boat are Tommy Neslage, at the oars, son of Mr. and Mrs. Fred Neslage, and Bill Nichols, son of Mr. and Mrs. Jack Nichols. Helping to push the boat to the dock are Gene Thompson, son of Mr. and Mrs. Jimmy Thompson, and Chuck Newhart, son of Mr. and Mrs. Charles Newhart.

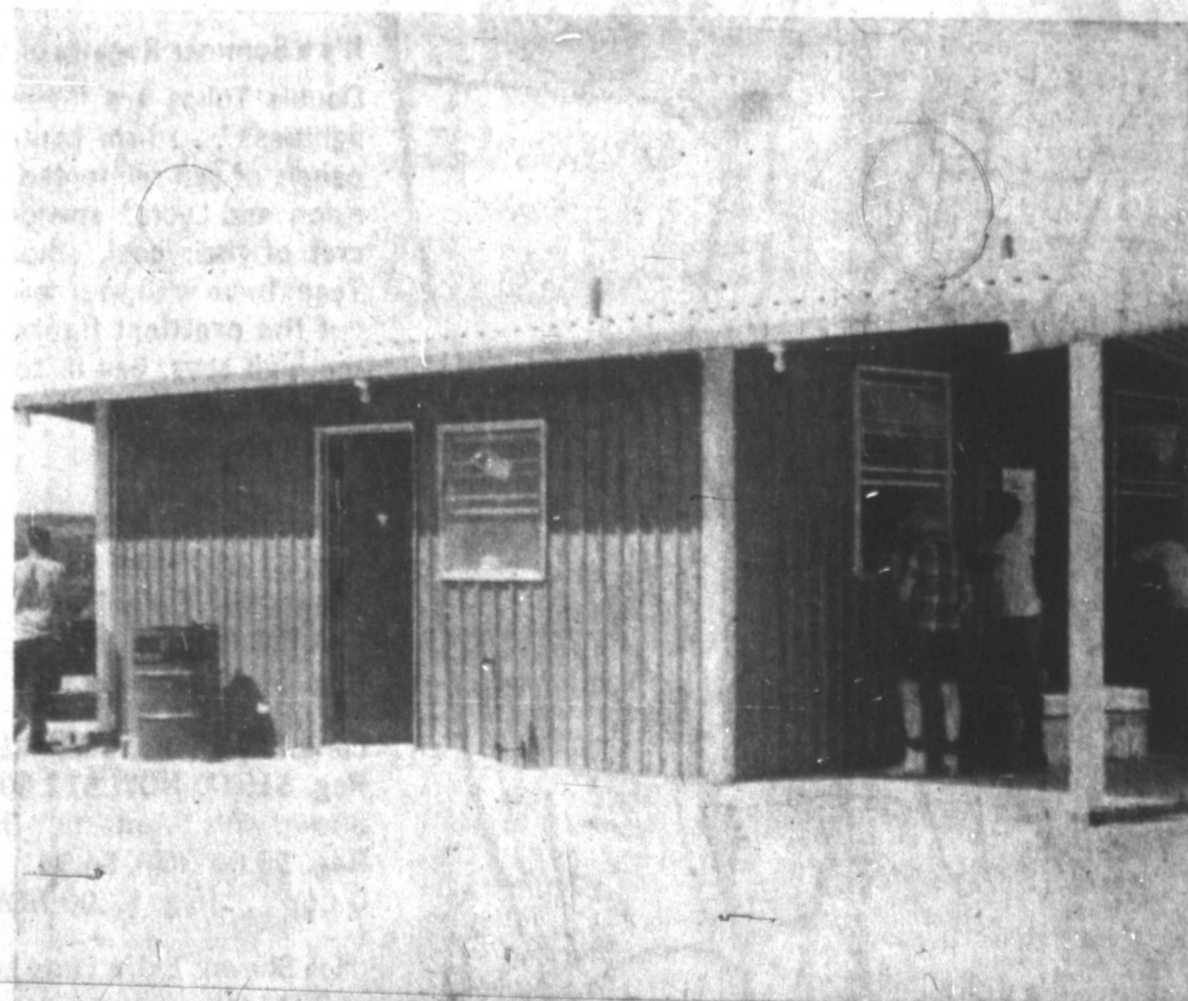

LAST ONE IN — While at the summer camp sessions, Scouts can go swimming, canoeing or boating. Instruction is given for all activities, with safety precautions

to see that no accidents or injuries ensue. At present there are eight canoes and eight rowboats in use at the lake.

# Marriage Ceremony In Area Church Unites Miss Linda Ruth Meech, Allan B. Adkins

Miss Linda Ruth Meech repeated the nuptial pledge with Allan Britt Adkins in a double-ring ceremony in Polk Street Methodist Church in Amarillo. Rev. Harry Vanderpool, former First Methodist Church pastor here, and now pastor of Polk Street Methodist Church, officiated. Vows were exchanged at 8 p.m. Saturday.

The bride is the daughter of Mr. and Mrs. Charles S. Meech, 1841 Grape. The bridegroom is

the son of Mr. and Mrs. H.M. Adkins, Amarillo.

Miss Ella Jane Knight was organist and accompanied Robert J. Davis as he sang "Whither Thou Goest" the "Wedding Prayer," and "The Lord's Prayer."

Yellow gladiolas, white mums and spiral candelabras decorated the church for the exchange of vows.

**BRIDE**  
Given in marriage by her father, the bride was dressed in a formal dress of candlelight Doupiou linen accented with Venice lace. She carried a cascade bouquet of yellow rosebuds, white stephanotis and miniature English Ivy.

Her long veil of candlelight illusion edged in matching Venice lace, fell into a chapel sweep train.

### ATTENDANTS

Matron of honor was Mrs. Homer G. Pirkey, Amarillo. Bridesmaids were Mrs. Joe C. Humphrey, Abilene; Mrs. John D. Curtis and Mrs. Rickey Stahl, both of Amarillo.

Bridal attendants wore full-length yellow dresses of shanteen trimmed with white lace daisies. They carried nosegays of yellow daisies and white pom pom mums.

Best man was Winston L. Adkins, Dallas, brother of the bridegroom. Groomsmen were Jewett E. Huff, John D. Curtis, Carlton F. Clemens, all of Amarillo. Usners were Charles E. Daniels, Amarillo, and James R. Edwards, Aurora, Ill.

## Astrological Forecast

By CARROLL RIGHTER

**GENERAL TENDENCIES:** A day of adjustment to make sure you are all of that nervous force now being released in conventional and conservative directions even though you are powerfully impelled to make changes or to do something that is quite drastic in its nature. Get your own mind working overtime solving problems of a mental, spiritual nature.

**ARIES (Mar. 21 to Apr. 19)** — Did you suddenly find yourself changing your ways? Try a different tack at solving present problems. Do not be a fuddy-duddy.

**TAURUS (Apr. 20 to May 20)** — Sit back and think out some new system that will make you happier and more popular in dealing with your fellow man. If others are overly emotional, don't counter like a viper. Get busy and make more money — stop being so lazy.

**GEMINI (May 21 to June 21)** — You are thinking like a hardbrain instead of living up in the clouds. Tell that nutty friend of yours to go fly the proverbial kite — stick to business.

**MOON CHILDREN (June 22 to July 21)** — Stepping out with intelligent friends who really know how to help you solve present anxieties is best. Forget those moochers. Try to understand every phase of your problems. Don't merely harp on the lack of funds or this will blind you.

**LEO (July 22 to Aug. 21)** — You have been wracking your brain with impossible ideas for some time, but you can get down to business now and really make some work. Start digging into the small details and you find this is the road to success. Avoid the pedantic.

**VIRGO (Aug. 22 to Sept. 21)** — Stop being so small and show real friendship to new friends you have made. In fact, piece was a crystal bowl with apricot double poppies and was flanked on either side with white tapers in crystal holders. About 80 attended and sent gifts.

a radical change of personality would be a definite improvement. There is plenty of opportunity around you. Don't just sit in that chair and close your eyes to it.

**LIBRA (Sept. 22 to Oct. 21)** — You find many new persons entering your life at this time, but this is good since it can make the future more profitable and interesting. That temperamental high-up can now show you how to get ahead much faster. Listen carefully.

**SCORPIO (Oct. 22 to Nov. 21)** — Today is your best opportunity to keep that promise you have made and show that you are a person who can be trusted. Thoughts of romance are fine, but don't force yourself on others. Have pride.

**SAGITTARIUS (Nov. 22 to Dec. 21)** — Living the Golden Rule is the only way to live, so do just that now and show your associates you are one who can be depended upon. Urge that reluctant one to be more forgiving. Then all goes OK.

**CAPRICORN (Dec. 22 to Jan. 20)** — You have no better chance than now to get that associate who is fair, settled quietly and speedily. Then you have the incentive to better things in the future. Others give you the assistance you want for your finest aims.

**AQUARIUS (Jan. 21 to Feb. 19)** — Keep right at the duties that are exclusively yours and you won't find it necessary to go off on some tangent or other. Get all in fine order. Then you can get out with one you like in p.m. for a most happy time.

**PISCES (Feb. 20 to Mar. 20)** — You have to show more effort if you want to improve present conditions around you. Although you may be tired of working on that deal you made with another, it is imperative you do your best. It will soon be completed.

**IF YOUR CHILD IS BORN TODAY...** he, or she, will be one of those very clever young people who nonetheless has the habit of leaving everything for the last minute, so teach early to correct this and there can be real success in this chart. Also teach not to waver between quick and decisive action and retreating. There can be a fine lawyer here.

**GENERAL TENDENCIES:** Start the week right by doing nothing in the morning that could cause any sort of trouble since an adverse and rather confusing influence is in operation. Later in the day and tonight, you find that you are able to make some fine long-range plan or get in touch with others who give you a new start to success.

**ARIES (Mar. 21 to Apr. 19)** — Do you know what you should be doing in the morning first or are you going to leave it all to chance? Better get your time synchronized early or you will get in a real bind. Don't be so dull — put some verve into your living.

**TAURUS (Apr. 20 to May 20)** — A.M. is best time to get that crochety person out of your proverbial wig and forget that big worry. Dig out that thinking-cap and plan your own future yourself. Then you find everybody will help you, especially in p.m.

**GEMINI (May 21 to June 21)** — Are you going to start picking on your mate again in a.m. just for the heck of it? Forget it or you will never be able to get out later with buddies. If you think something is impeding your progress, let it out the pedantic.

**MOON CHILDREN (June 22 to July 21)** — Why get yourself so worked up over some little thing in a.m. when you can step out for recreation or can put over that big deal? Get wise to yourself. You mustn't cater to one who whines or you will soon be in the same boat.

**LEO (July 22 to Aug. 21)** — You can get those money matters cleared up early if you just stop worrying about them. Then you have plenty of time to join good friends. A more experienced person than yourself gives right advice. Listen and follow instead of being so stubborn.

**VIRGO (Aug. 22 to Sept. 21)** — If you turn while out driving, it will be your fault, so be sure. Be sure you get to work on time, too. Jobs only grow on cherry trees these days and there are so few of those. Be sure you know if you want to know how to trim corners.

**LIBRA (Sept. 22 to Oct. 21)** — That ally you have can lead you into more successful operations if you are not a limiting. Work in perfect harmony with everyone. Many benefits can come your way, so be on the alert for them.

**SCORPIO (Oct. 22 to Nov. 21)** — Running away from some responsibility you have would lose you a good friend, so stay on the ball and all will be fine. You can find it to be very exciting, interesting, anyway. Find new inspiration in p.m.

**SAGITTARIUS (Nov. 22 to Dec. 21)** — If you try to needle that higher-up in a.m. you can get to big trouble, so keep steady and gain his or her, favors instead. You are working on a new project and find that a partner gives real operation you want. Speed things up.

**CAPRICORN (Dec. 22 to Jan. 20)** — Think before you do or say anything that could gain you the disfavor of all others. Do something constructive about some affairs tonight. Good day to make purchases, or sales. Are you sure your car is in good running order?

**AQUARIUS (Jan. 21 to Feb. 19)** — Getting busy clearing up that responsibility in a.m. is fine, since after lunch you can launch new ideas, projects. Out to some fun place with associates in P.M. Reach true rapture.

**PISCES (Feb. 20 to Mar. 20)** — Some silly act in a.m. could really get your reputation on the down side so avoid it. Sit down with some intelligent business person who tells you how to run your affairs more wisely. Follow through with ideas and grow.

**IF YOUR CHILD IS BORN TODAY...** he, or she, will be one of those interesting young people who finds it necessary to sleep a good deal of the time, yet can complete what is necessary, but later in life will suddenly become a most brilliant and astute person. Send to college.

## Flower Society Members Review Growing Methods

Pampa African Violet Society met recently at Furr's Cafeteria for a dinner meeting and instruction in growing bigger and more African Violet blooms.

Mrs. K. F. Dirksen instructed members for the program.

Others participating in the business meeting were Mrs. V. N. Osborne, invocation; and Mrs. Norman Walburg, who presided for the business meeting.

In her program, Mrs. Dirksen stated "humidity is most important for blossoms. Proper lighting is also necessary."

Mrs. Harrison Dismukes spoke on "Repot for Winter Blooms" and stressed the importance of sterilizing pots and having good soil mixtures.

Mrs. Lee Moore was dinner hostess. The table was arranged with colored place mats and floral arrangements of pink roses.

Those attending were Mmes. J. E. Carlson, Lee Moore, Harrison Dismukes, V. N. Osborne, R. F. Dirksen, Dan Glaxner, Marion Roberts, W. A. Greene, Evan Jones, C. E. Boswell, Norman Walburg and Holly Gray.

## Dear Abby

By Abigail Van Buren

DEAR ABBY: I am an unmarried, middle-aged, professional man. While working in another state last summer, I became acquainted with a young woman who worked as a carhop. She had a pretty 11-year-old daughter, and was having a hard time making ends meet. Since I was going to take an extended trip through the west, I offered to take the child with me. They were both enthused and the mother gave me the girl's birth certificate "in case I needed it."

Upon returning from the trip, the mother was nowhere to be found. I spent several days trying to locate her, but to no avail. The forwarding address she left was phony. I notified the local police, but they could not find the mother, nor did they try to remove the girl from my care. They took my permanent address and said they'd notify me if anything turned up.

When I commenced my present job in this town I presented the girl "as a close relative." She is now 12, very happy, and doing well in school. She never asks about her mother. I think I am doing an excellent job of raising her and it would be a shame to be separated now.

Can you advise me as to the legal and social aspects of this?

NORTH CAROLINA  
DEAR NORTH CAROLINA: I think you need a lawyer to help you establish a legal guardianship over the child, satisfying whatever preliminary actions that are required. However well-intentioned, you are now vulnerable to a number of unpleasant charges.

DEAR ABBY: I am writing to you because I don't have a mother and my dad would not understand.

I am 14 and have a boy friend named Gary, who is also 14. This might be only puppy love, but I do like him a whole lot.

My problem is another girl. She likes Gary, too, and she's trying to get him away from me. She is having a party and she invited Gary but not me. I think she just made up this party as an excuse to get my boy friend.

I felt just terrible and cried in my pillow last night. I kept thinking that if Gary really liked me he would not go.

GARY'S GIRL  
DEAR GIRL: Try to be a good sport! If it kills you, do not say a word to Gary about the party or the other girl. The surest way to lose a boy friend is to be possessive, and bossy. Give him all the freedom he wants and you won't be able to get rid of him.

DEAR ABBY: Perhaps Elmer could solve his problem in some manner such as this. Inscribed on the tombstone in an eastern state are these words: "Here lies Ephraim Wise Between his two wives. One was Tillie. The other was Sue. Both were loyal, tried, and true. I hope my friends from Adam to Willie Will lay me out so I lean toward Tillie."

Have enjoyed your items for many years in Littleton, Colo. L.D.F.

CONFIDENTIAL TO "FULL OF PRIDE" IN MIDLAND, TEXAS: You are full of prunes, Madame. If you "love him" take him back. Pride has caused more divorce than adultery.

Everybody has a problem. What is yours? For a personal reply write to Abby, Box 69700, Los Angeles, Calif., 90069 and include a stamped, self-addressed envelope.

# Marker Dedication For 'First Rotary Rig' Is Slated Saturday

The official Texas Historical Marker for the "First Rotary Rig in the Texas Panhandle" will be dedicated Saturday, June 29, at 11 a.m., Mrs. Ralph Randel of Panhandle, chairman of the Carson County Historical Survey Committee, has announced.

The marker will be placed on Hwy. 207, eighteen miles north of Panhandle.

The cast aluminum marker, with Swedish steel effect, measures 18x28 inches and is sponsored by the Carson County Historical Survey Committee.

This is the most recent official Texas Historical Marker to be erected in Carson County.

The marking of local historic sites and landmarks is part of the Texas State Historical Survey Committee's 5-year RAMPs Program to Record, Appreciate, Mark, Preserve, and Survey Texas history. More than 3,300 official Texas Historical Markers have been awarded throughout Texas since the RAMPs Program was begun in 1964.

This marker and its location will appear in the next edition of the "Guide to Official Texas Historical Markers," in tour guides and on maps to stimulate tourist interest in this area, to provide interest on historical tours, and to acquaint the people of the Panhandle with their own unique historical past.

Carson County Judge Clarence C. Williams will give the dedicatory prayer at the marker site. The marker unveiling will be done by H. D. Lewis and Joe Trigg, members of the Willis, Trigg and Lewis families.

The inscription on the marker reads:

**First Rotary Drilling Rig Used in Texas Panhandle (1 mile east)**

Moved into area October, 1923; owned by partnership of W. T. Willis, J. E. Trigg, and H. D. Lewis, then one of largest drilling companies in Texas.

"The modern tools included a \$25,000 rotary rig with 6-inch diameter drill pipe; a derrick; 3 steam boilers; 2 mud pumps; and other tools. The well was designated S. B. Burnett No. 1.

"Rotary Rigs, first used in Texas about 1900, revolutionized oil drilling, superseding cable tool rigs as major drilling devices. The pioneer efforts here made history in the Texas Panhandle. (1968)"

**LETHAL COLLECTION**  
CHICAGO (UPI) — Police Supt. James Conlisk issued an appeal Tuesday for Chicagoans to turn in their guns to the police. That's just what Bruce and Sidney Essen did Thursday.

After hailing a passing police car, Bruce, 6, and Sidney, 7, handed over their entire gun collection—two squirt guns, two cap guns, and a genuine death-ray people exterminator.
