

Future Apollo Missions Will Not Be Carried Out Without Considered Decisions

By JOSEPH L. MYLER
UPI Senior Editor
WASHINGTON (UPI)—At the moment everything is gung ho for the moon—round it in December, on it next summer. But "You can be sure," says Dr. Thomas O. Paine, that Apollo astronauts never will be committed to any mission—this year or any year—unless the responsible officials involved are as certain as they can be that the mission will be safe and is likely to succeed. Paine is acting chief of the National Aeronautics and Space

Administration (NASA). He was as pleased as everybody else that "our confidence in the Apollo spacecraft was so well confirmed" by the 260-hour flight of Apollo 7. But, he told United Press International, NASA has no intention of allowing itself to be pushed into hasty decisions by any pressures of any kind. The maiden manned flight of Apollo 7, along with many previous unmanned spacecraft and rocket tests, proved that the United States has the kind of spacecraft, astronauts, and

space power it must have to fly to the moon and eventually make a landing there. No Decision Yet But that doesn't mean a decision is possible now about the nature of the next Apollo missions. Paine said "a high level review board here at headquarters" will study detailed reports of the Apollo 7 flight before the NASA management decides whether to make the Apollo 8 mission, scheduled for late December, a manned flight in orbit or around the moon.

This decision, he said, cannot be made before Lt. Gen. Samuel C. Phillips, Apollo program director, has gone through "all the tapes" from the Apollo 7 flight and made his recommendations. This will be around mid-November or a little before. Apollo 7's has been described as "a perfect performance." But it nevertheless generated a number of questions that have still to be answered—among them the why of astronauts' susceptibility to cold infections in space.

Fears have been expressed that NASA, whose funds have been cut by Congress this year, might feel impelled to bring off a stunt of some sort—such as a circumlunar flight with men—to "improve its budgetary position." No Hasty Maneuver This is silly, according to Paine. A hastily contrived space spectacular which ended in disaster would be the worst possible thing that could happen to the NASA program, he feels. Whether December's Apollo 8 mission goes as far as the moon

or just drifts in earth orbit, it will be one of the most critical flights in the lunar landing program. It will be the first manned mission of an Apollo spacecraft boosted into orbit by the Saturn 5. This is America's moon rocket, a monster nearly five times as powerful as the Saturn 1 rocket which carried Wally Schirra and his Apollo 7 teammates into the skies. Actually, no final decision about a flight around the moon for Apollo 8 can be made until the moment when, shortly after

launch, Saturn 5 proves itself in its first performance with a manned spacecraft on top. Test Lunar Module Even if Apollo 8 turns into a successful lunar orbit flight and return, the most important mission prior to a moon landing will still have to be flown. This is Apollo 9, scheduled for February. This will be the first test in earth orbit, with men aboard, of the "lunar module" designed to lower two Apollo astronauts to the surface of the moon and hoist them back to

space on the great day when a lunar landing is attempted. The moon lander, according to Paine, "is the most critical piece of equipment" in the Apollo project. Until it is tested in flight, no one can say when it will be possible to put astronauts on the moon. But by the end of March, Paine said, "We should be in good position to say whether a moon landing is possible in 1969 or whether it will have to be postponed until 1970."

"To be a true citizen of a great country takes nothing from, but adds to, individual greatness."

S. Vietnam Announces Release of Prisoners

By JACK WALSH
SAIGON (UPI)—South Vietnamese government spokesmen said today they planned the largest release of Communist captives of the war. The announcement came as allied weekly battle deaths fell to the lowest point of the year, reflecting a lull in fighting. U.S. aircraft losses, however, rose sharply with the downing of seven planes and helicopters spokesmen said. On the ground Wednesday, U.S. Marines and South Vietnamese troops plunged into the Demilitarized Zone (DMZ) and killed 112 North Vietnamese soldiers in a three-hour battle. Government spokesmen said they planned to release 140 Communist captives. It was the third gesture of its type since the lull in fighting began amid reports in world capitals that a full bombing halt over North Vietnam was imminent along with a breakthrough in the preliminary Paris peace talks. An allied casualty report covering the weekly period beginning Oct. 13 said U.S. combat deaths were 100, the lowest weekly toll since Aug. 12, 1967. The previous week 177 Americans died in Vietnam fighting. U.S. wounded last week totaled 589, the lowest figure since the week ending last Dec. 30. South Vietnamese battle deaths dropped to 132 last week, the lowest figure this year. Communist forces initiated no major attacks in South Vietnam Wednesday. They took their casualties in attacks launched by American and South Vietnamese forces. Military spokesmen were reluctant to attach significance to the fact the slowdown in fighting corresponded to the bombing halt reports. A U.S. military briefer said, "It is our opinion that the enemy is regrouping, resupplying and refitting as it was following the Tet and May offensives." The South Vietnamese government described its plan to release the Communist prisoners as a "tolerant and humanitarian gesture." A spokesman, asked if the move had any relation to reported peace proposals, said "details will be provided later." The spokesman said the prisoners would be freed within a week, probably Oct. 30, with

the release taking place in Saigon. U.S. authorities freed 14 North Vietnamese sailors Monday. Radio Hanoi in a broadcast monitored in Tokyo today said the South Vietnamese National Liberation Front freed 11 government soldiers "recently." Communist gunners shot down four American planes and three helicopters in South Vietnam Tuesday and Wednesday, military spokesmen said. The planes were down in the northern sector and one of them crashed inside the southern portion of the DMZ, the six-mile-wide buffer zone that separates the two Vietnams. Three of the planes were observation aircraft, and all four crewmen aboard them were killed. The fourth was an F-105 Supersabre and the pilot ejected safely after the craft was hit. The losses brought to 318 the number of planes downed in combat in South Vietnam. The three helicopters downed brought to 900 the number of U.S. choppers lost in the South.

NASA Releases Films of Astros

SPACE CENTER, Houston (UPI)—The Apollo 7 astronauts got into the "home movie" business Wednesday when the National Aeronautics and Space Administration (NASA) released film the trio shot from their orbiting Apollo apartment. One marked difference between Wednesday night's showing and other home movie productions was that no one slept. The space agency released six still photos and two rolls of color movie film astronauts Walter Schirra, Don Eisele and Walt Cunningham took through the windows of their craft during its 11-day flight. Sharp Detail The still shots showed the top stage of the rocket and the three heavily-bearded spacemen. The shots taken through the window showed excellent sharpness and detail, almost as if the pictures had been carefully planned with models. "That's the most natural color. I don't think you can beat those," said Paul Haney, chief spokesman of the Manned Spacecraft Center.

Hanoi Rejects Proposal For De-escalating War

POIGNANT MOMENT for many Marines who saluted fallen comrades during memorial services held at Khe Sahn, besieged by enemy forces for months earlier this year.

OFFERS TO STEP ASIDE

Wallace Proposes Debate Between Humphrey, Nixon

By United Press International
The debate issue flared anew in the presidential campaign today with George Wallace offering to step aside if Richard M. Nixon will meet Hubert H. Humphrey on television. In an appearance at Roanoke, Va., late Wednesday, Wallace unexpectedly announced he would waive his rights under equal time regulations to let his two rivals meet alone. The only condition, Wallace said, was that he be given a half-hour's television time for rebuttal the next night. "I would like it to be a three-way debate, but I'm willing to do this in order to get Mr. Nixon before the American people," the American Independent party candidate said. "I think we can mix both of them up." Nixon has said he is willing to participate in a televised debate with Humphrey alone but would not appear in a format including Wallace. Dr. Frank Stanton, president of CBS-TV, responded to Wallace's proposal with an offer of one hour's time for a Nixon-Humphrey debate at 9 p.m., EST Sunday and a half-hour's time for Wallace at 7:30 p.m., EST a week later, Nov. 3. He said all three candidates must accept the invitation for either program to take place. In campaigning at Youngstown earlier Wednesday, Wallace was the target of sticks, stones and other missiles at an unruly rally. At least four fights broke out between Negroes protesting his appearance and Wallace supporters. "Go ahead and throw friends," Wallace said. "You are real brave boys. Every time

you fellows do that you win me a million votes. You ought to be on the payroll." Humphrey enjoyed another day of enthusiastic Texas audiences in visits to Harlingen, San Antonio and El Paso, then went on to the Watts area of Los Angeles. He told a predominantly Negro rally in Watts "People ought to have a right to live where they want to live regardless of who they are." Nixon campaigned in Michigan (See WALLACE, Page 3)

Hoffer Flares Up At Meeting on Violence

WASHINGTON (UPI)—As Mayer told commission members that instead of investigating the student protest movement, they should interrogate those responsible for "that arrogant exercise in sustained official violence—the war in Vietnam." Hoffer, wearing his customary open-necked shirt and sports jacket, shouted in reference to campus demonstrators: "They're having the time of their lives. They're having a ball. You expect educated people to behave in a civilized way. Instead, they behave like hoodlums." Hoffer returned for the commission's afternoon session, and engaged in a sharp exchange with Sam Brown, a former Harvard divinity student who coordinated the youth movement on behalf of Sen. Eugene J. McCarthy's abortive bid for the Democratic presidential nomination. "My impression is that you do not believe in the Democratic process," Hoffer said after Brown complained that Vice President Hubert H. Humphrey won the nomination unfairly. (See HOFFER, Page 3)

Top News In Brief

SCRANTON, Pa. (UPI)—Sen. Edmund S. Muskie began a 31-town motorcade today with a visit to nearby Dickson City, population 7,730, where his father worked for three years as an apprentice tailor after immigrating from Poland in 1903. The Democratic vice presidential candidate, campaigning in the anthracite region where his father, Stefan, first sought economic and social progress, sought to stem conservatism creeping into the area under recent prosperity.

LAEN, New Guinea (UPI)—A severe earthquake rated at seven on the Richter scale toppled walls of buildings in the Sepik district of northwest New Guinea today. HOUSTON (UPI)—Controversial philosophy professor Larry Caroline told an overflow crowd of 600 persons Wednesday that imperialism, racism and capitalism are scare words heading problems in American society. Speaking at the University of Houston, Caroline said "revolution is a frightening word. Revolution... is a position taken by people... because they think it is the structure that is bad, not hate in the hearts of men."

LISBON (UPI)—Former Premier Antonio Salazar, replaced as Portugal's leader after he was felled by a stroke last month, is expected to leave the hospital early in November, doctors said. A medical bulletin Wednesday night said Salazar, 79, may recover full speech. But it said the left half of his body may be paralyzed.

U.S. Bombing Halt May Bring Ceasefire

By K. C. THALER
LONDON (UPI)—Hanoi has rejected an American plan for mutual de-escalation of the Vietnam War but hinted it would open peace talks almost immediately if the U.S. would halt bombing of North Vietnam, diplomatic sources said today. A ceasefire in the war might be among the first steps in such peace talks, the sources said. They said Hanoi fears it would lose too much prestige if it flatly accepted an American offer to end the bombings in return for pulling North Vietnamese forces from the South Vietnam border, halting attacks against South Vietnamese cities and agreeing to the Saigon government's participation in peace talks. But the sources said it was understood Hanoi might tacitly de-escalate and plunge into real peace talks if the Americans ended their air and sea bombardment. Compromise Possible The sources said it "is touch and go" whether a compromise can be reached between Hanoi and Washington, which has insisted North Vietnam must agree to mutual de-escalation to get an end to bombing. Other diplomatic sources termed the chances of getting real peace talks going at about 50-50. Diplomatic sources said Hanoi is now debating hotly within its own political and military councils the latest American package proposals for a breakthrough in the stalled Paris negotiations. Some leaders were reported to favor talks now, for fear that a new administration in the United States might prove tougher in the coming year. Others prefer to wait and take their chance. Hanoi was reported standing firm on its thesis that it cannot and will not publicly offer anything in return for an American halt in the bombing, the Americans being considered the "aggressors." Might Show Restraint It was understood Hanoi might quietly de-escalate and above all compromise on measures of restraint in the Demilitarized Zone between North and South Vietnam. These moves would not involve an immediate withdrawal of the North Vietnamese from the zone, but might have a bearing on their infiltration of new forces, the informants guarded.

ly indicated. The further American condition that Hanoi and the Viet Cong stop terror attacks on South Vietnamese cities apparently is easier to accept for the Communists. Another condition reportedly (See HANOI, Page 3)

Randy Matson To Be Honored At Homecoming

Olympic gold medal winner Randy Matson will be honored Friday night at halftime of the Pampa-Caprock football game at Harvester Stadium. The annual homecoming game will start at 7:30 p.m. with a bar-b-que scheduled from 4-6 p.m. in the high school cafeteria. Registration for students is slated for 3 p.m. in the cafeteria. Matson and his wife Margaret will be driven around the field at halftime, then taken to a platform at the center of the field, where both will be presented with gifts. A gold carpet will be rolled out for Matson, who is also the holder of the world's record in the shotput and won a gold medal for the United States in the event in Mexico City last week. The Pride of Pampa, the Harvester band, has a stunning halftime show scheduled and then will pay tribute to Matson. Texas A&M college, Matson's alma mater, will be represented at the event also.

Attacks Increasing Tension in Mideast

By United Press International
Fire swept Tel Aviv's Lydda Airport early today, closing the field for two hours to all international traffic. The fire apparently was accidental but it came at a time of heightening Mideast tension over Arab guerrilla sabotage attacks. Israel earlier today reported a rising tide of Arab attacks on its borders along the Jordan River and in the Gaza strip and a spokesman said they appeared "more concentrated than at any time in recent months." The Israelis imposed

curfews in parts of occupied Jordan to cope with Arab student unrest. The official explanation of the fire at Lydda Airport was that an underground electric cable short circuit probably started the blaze. There were no immediate reports of injuries or deaths. Israeli air control authorities advised air control centers in London, Rome, Athens and Nicosia the field was closed from 10:15 a.m. to 12:30 p.m. (4:15 a.m. EDT to 8:30 a.m. EDT) (See ATTACKS, Page 2)

'Our Town' Starts Today

Pampa High School students will present the first performance of Thornton Wilder's "Our Town" at 8 p.m. today in the school auditorium. Another performance will be given at the same time Saturday. Tickets will be on sale at the door, at \$1.25 for adults and 75 cents for students.

Key Club Hears Warner Speech

"The measure of a man's life is its donation, not its duration," Corporation Court Judge John W. Warner told the Pampa High School Key Club Wednesday. The title of his talk was "Service to Humanity is the Best Work of Life."

Warner said, "The Bible tells us that Methuselah lived 969 years, but his only accomplishment that we know of is that he begot Lamech, the father of Noah. That same Bible tells us that Jesus Christ lived only 33 years, but his donation was so great we date time from his birth."

"The tragedy of life is not that men die or that men die young," Warner said. "The tragedy of life is that men die before their lives ever become of value, that they die never having been worth anything."

Warner delivered the same talk to the state convention for the Texas Jaycees in May where he was named the top Jaycee speaker in Texas out of Van Dyke, Carol Kelly, Ruth Brent, Margaret Logan and "Tuggie."

Maddox Named Honor Student

COLLEGE STATION (SpI) — Presentation of the award was made by Air Force Brig. Gen. Stephen B. Maddox of Pampa. Robert W. Maloy, deputy assistant deputy chief of staff, personnel, at Randolph AFB, designated DMS.

Maddox is Squadron 5 commander, agricultural economics major and the son of Mr. and Mrs. Raymond B. Maddox, Star Route 3.

Attacks

(Continued From Page 1)

Israeli and Jordanian forces clashed three times early Wednesday and three times in an hour late Wednesday night in Cairo, said Zisraelis were stepping up flights over the Sinai Peninsula to spy on Egyptian defenses on the west bank of the Suez Canal.

Egypt said its MIG21 jets shot down three Israeli Mirage jets over the Suez Wednesday. The Israelis said it lost no planes in the dogfight, the first since the June 5-10, 1967 Middle East war.

The spokesman said two Israeli soldiers were wounded and their command car damaged Wednesday night in an attack with bazookas, hand grenades and small arms fire south of Gaza mosque.

Smith To Be In Berger Monday

Lt. Gov. Preston Smith, Democratic Candidate for governor of Texas, will be honored at a reception in the Hotel Berger at 19:30 a.m. next Monday.

TV Caravan to Be In Pampa Saturday

The Channel 7 Television Caravan of Stars will be in Pampa at 10 a.m. Saturday for a performance in the 200-block of N. Cuyler.

Accompanying the caravan here will be ABC guest Jonathan Frid who plays "Barnabas" in the TV series, "Dark Shadows."

Other members of Channel 7 with the caravan will include Bob Izzard, Jim Pratt, Roger Davis, Fred Norman, Woody

Wallace

Friday, Oct. 25 KVII-TV Channel 7 9:30 p.m.

Governor George C. Wallace and General Curtis E. LeMay will win on Nov. 5 but they need your help now. Send any amount you can afford to Wallace-LeMay, P. O. Box 1968, Montgomery, Ala.

Warrant Issued For Two Youths

Warrants were issued today by the district attorney's office for two 18-year-old Pampa youths charged with burglary, according to the Gray County Sheriff's office.
The two were part of a burglary ring of six youths who have so far admitted committing four burglaries over the past two months.
Four of the youths are juveniles, ranging in ages from 14 to 16.
The juveniles admitted under questioning by police and the sheriff's office that they committed the burglaries, then implicated the two 18-year-old youths.
They have admitted breaking into and burglarizing the Top O' Texas Drive-In theater; the Killarney Bar, 1403 Ripley; the Big 6 Domino Parlor, 119 W. Foster and the Speed Queen Laundry, 604 Sloan.
The juveniles are expected to be turned over to juvenile authorities for action.
The two 18-year-old youths will be arraigned before a magistrate as soon as they are arrested.

Price to Appear With Eggers For Campaign Speech

Congressman Bob Price will join Paul Eggers, Republican candidate for governor, in a campaign appearance at 11 a.m. tomorrow at West Texas State University in Canyon.
Price will speak at a noonday luncheon Friday in the Amarillo YWCA and return to Canyon for a 2 p.m. coffee.
The congressional candidate for re-election spoke at a 9:30 a.m. Town Hall meeting in McLean today.
Tonight Price will address the Southwestern T-Bone dinner meeting at the Herring Hotel in Amarillo.
His campaign schedule for Saturday calls for a 9 a.m. Town Hall meet in Dalhart, a luncheon in Stinnett and a 1:30 p.m. speech there at a high school flag presentation sponsored by the Plemons Masonic Lodge.
Price will rest at his home in Pampa on Sunday and hit the campaign trail again Monday with meetings scheduled in Phillips, Borger, Gruver, Spearman and Dumas.

Obituaries

DELBERT L. LARSH
Delbert L. Larsh, Santa Anna, Calif., son of the late Mr. and Mrs. H. P. Larsh of Pampa, died Wednesday in Santa Anna following a recent illness.
Born Feb. 20, 1911, in Topeka, Kan., he attended Pampa High School one year, graduating in 1929. He also attended Oklahoma University and University of Southern California, receiving his L.L.B. degree in 1940. He was a practicing attorney in Santa Anna 28 years.
Survivors are his wife, Ruth of the home; a son, Herbert Larsh, of Yerba Linda, Calif.; a daughter, Mrs. Ron Steininger, S. a Francisco, Calif.; four grandchildren; a brother, H. D. Larsh, Norman, Okla.; three sisters, Mrs. J. A. Hart, Odessa; Miss Bernice Larsh, Fort Defiance, Ariz.; and Mrs. G. H. Adams, Pampa.
Funeral arrangements will be directed by Winbigger Funeral Home, Santa Anna. Services are tentatively set for Saturday.

Breakfast Set As Final Check-in For United Fund

The goal line is just one yard away in the 1966 Pampa United Good Neighbor Campaign. This morning's total was \$83,191.51, just over \$1,000 short of the goal of \$84,200.
United Fund leaders are confident enough of getting to the goal line that they have scheduled the final check-in at 7 a.m. Friday at a breakfast at Coronado Inn.
A check-in was also slated for 4 p.m. today at Coronado Inn.
All campaign workers are invited to attend the "dutch treat" breakfast. Funds from the breakfast will go to the 12 agency members.
This morning's total is 99 per cent of the goal and represents the culmination of several months of planning and preparation by United Fund Board and Executive Committee.

National ACA Endorses Price For Re-election

WASHINGTON, D. C. — United States 18th District Congressman Bob Price was endorsed for re-election today by ACA (Americans for Constitutional Action). The non-partisan national organization headquartered here, said it was endorsing Price because of his consistent voting record for constitutional principles.
Charles A. McManus, executive director of ACA, stated:
"Congressman Price has repeatedly stood for fiscal responsibility; firm responsible opposition to the Communists; and for law and order for our Nation."
Americans for Constitutional Action (ACA) periodically rates all members of Congress on issues which are of major national importance and adherence to constitutional principles. ACA's executive director stated, "If every member of Congress voted like Congressman Price, there would be no Federal debt, inflation would not be a problem, our national military strength would not be in question, Americans would be paying lower taxes, and our wives and children would not be in constant fear for their safety."
McManus cited Congressman Price's voting record as outstanding and asserted that he is the kind of congressman of which we need more. "He puts the interest of the United States first and works continually for the preservation of constitutional government," he stated.
The endorsement by ACA brings to Congressman Price the support of highly distinguished citizens, Democrats, Republicans and Independents, who are members of ACA's Board of Trustees.
Price is now serving his first term in Congress and is a member of the important Agriculture Committee.

Wallace
(Continued From Page 1)

gan, considered a toss-up between him and Humphrey. He urged voters "not to throw away your vote" on Wallace, and accused Humphrey of reckless talk on the Vietnam War issues.
In a statement, Nixon jabbed at Humphrey's association with the Johnson administration's Vietnam involvement, saying "In this dismal administration record my opponent brings the fastest tongue and the fastest switch of position ever seen in the American politics."
"Mr. Humphrey has shown a constitutional inability to treat the Vietnam War and the peace negotiations discreetly," Nixon said.
Other developments:
Spiro T. Agnew—The GOP vice presidential candidate, campaigning in Joplin, Mo., said the Johnson-Humphrey administration had engaged in "too much courteship of irresponsible dissent and acceptance of those who are not willing to work within the system."
Edmund S. Muskie—The Democratic vice presidential candidate, at a rally at Wilkes-Barre, Pa., questioned Nixon's promise to create 15 million new jobs as president. "Well, what was he doing from 1952 to 1960?" Muskie said. "Nixon wasn't good enough to be president then and he isn't good enough now."
Curtis E. LeMay—LeMay, running mate of Wallace, said in Binghamton, N.Y., that he does not foresee a need to increase ground troops in Vietnam even if a full scale military operation were mounted to win. "I don't think there would ever be" a need for more American troops there," he said.

Firemen Answer One Alarm Yesterday

Firemen answered one alarm yesterday, a 4:15 p.m. fire two miles west of the city on an oil lease. Officials said broke out around a "heater treater" but was quickly extinguished and caused no serious damage. The fire was at the Castle Berry lease of Producers Production Corporation.
IVAN RESTORED
MOSCOW (UPI)—The Soviet government said Wednesday it had restored the belly of the 240-foot-high Ivan the Terrible belltower in the Kremlin. The belly and its 64-ton bell were heavily damaged by an explosion set off by the invading troops of Napoleon in 1812.

Absentee Votes Expected To Hit 300 Figure Today

The total number of ballots cast by absentee voters and those who are qualified to vote only in the presidential election was expected to climb to 300 today, according to Gray County Clerk Charlie Thut.
Absentee voting and voting for those who are qualified to vote only in the presidential election because they are new state residents extends through Nov. 1.
Thut said absentee balloting this year would probably fall short of the record 1,013 absentee votes cast in the 1964 presidential election year, but added that he expected a drastic rise in absentee balloting during the last two days of voting.
Thut also reminded persons who will turn 21 before Nov. 5 that they are eligible to vote in the general election.

Lane Explains Constitutional Amendments

Pampa attorney Don R. Lane traced the history of the Texas Constitution in a talk before the Pampa Rotary Club Wednesday in the Coronado Inn. The present constitution was created in 1876.
He also discussed the fourteen Constitutional Amendments that will be voted on in the Nov. 5 general election.
In other business, Pampa High School student Jo Hatt invited club members to attend Thornton Wilder's play, "Our Town," which will be held in the high school auditorium tonight and Saturday night.

CITIZENSHIP DISPUTED
BUELOS AIRES (UPI)—A federal prosecutor asked Wednesday for an order canceling the Argentine citizenship of the Argentine Onassis, the Greek multi-millionaire who married Jacqueline Kennedy last Sunday. Dist. Atty. Carlos Zapiola asked that Onassis' citizenship be revoked "for lack of residency." Onassis received his Argentine citizenship in 1923 but has seldom returned.

MOVE PRISONERS
ATHENS (UPI)—The Greek military regime said Wednesday the last 80 political prisoners had been removed from the island of Yaros and that the island "will no longer be used as a detention site." The 80 prisoners from Yaros are soon to be released a government spokesman said.

Hanoi
(Continued From Page 1)
involves prisoners of war. The key issue, however, remains the representation of South Vietnam at the talks.
Hanoi still refuses to allow the Saigon government to represent South Vietnam at the peace conference table. It wants it reshaped into some form of acceptable coalition, with the National Liberation Front (NLF)—the Viet Cong's political arm—represented in one form or another.

Credit Association Installs Officers
Consumer Credit Executives installed new officers recently in a luncheon meeting at Furr's Cafeteria.
New officers installed by Arthella Gibson, are Mrs. Glen Day, president; Dennie Hunt, first vice president; Mrs. Ron Merrill, second vice president; and Ken Peoples, secretary and treasurer.
Directors for 1966-69 are Lewis Hackley, Charles Webster, Mrs. Denver Allen, and Mrs. Horace Williams.
The next meeting will be a noon luncheon at Furr's cafeteria Nov. 11.
participating are Mrs. Thomas Collins and Mrs. Frank Holman.

Just sitting there, this '69 Chevrolet can do four things competitive cars can't:

It can wash its headlights. It can apply liquid tire chain to its rear wheels. It can silently defog or defrost the rear window. It can keep you cool or warm automatically with Comforton — the self-adjusting air-conditioning system. And once you've added all these wonderful devices to a new Chevrolet, you just can't imagine why anyone would give a second thought to a second-place car.

The headlight washers and liquid tire chain for traction on slippery roads are operated at the touch of a button from the driver's seat. So is the silent new rear-window defroster. Invisible ceramic strips on the glass heat up to keep the window clear.

Also available: Chevrolet's Light Monitoring System that lets you know from inside if all your outside lights are working, full four-speaker stereo, a smooth 3-speed Turbo Hydra-matic transmission. All in a car made quiet, made stronger, made more comfortable. Now at your Chevrolet dealer's.

We've said it before, and we'll say it again. Match this, you other '69s! Putting you first, keeps us first.

'Cool Cauldron' Recipe Switches Menu on 'Witches'

For a cool cauldron of Halloween treats for little 'witches and goblins' add this suggestion to your family and party traditions.

- CHILLY CAULDRON**
- 1-3 cup butter or margarine
 - 1-3 cup milk
 - 1 14-oz. pkg. fudge frosting mix
 - 1 1/2 quarts vanilla ice cream
 - 1 pint coffee ice cream
 - 1 11-oz. can Mandarin oranges drained
 - 1 8-oz. jar maraschino cherries, drained
 - 1 cup peanuts split
 - 3 ripe bananas, sliced
 - 1/2 cup miniature marshmallows
 - Assorted Cookies...

Prepare hot fudge sauce following package directions. Making three layers, fill cauldron with next seven ingredients. Pour about three-fourth cup sauce over top. Serve remainder separately. Serve with cookies. Makes 18 (approximately 2-3 cup) servings and 1 1/2 cup sauce.

Check Spice Shelf

Disappointed the last time you added that subtle touch of herbs to your meat dish and found it too subtle? Then better check your spice and herb shelf. Remember the flavor and aroma of spices and herbs does not last indefinitely. Rub a little of the spice or herb between your fingers then sniff. If the aroma is faint or there is no aroma, you might as well discard. To help preserve their freshness keep herbs and spices tightly covered and store away from heat.

Indians Introduced Pilgrims To Native American-- The Pumpkin

Food Page

DALLAS (Sp) — It's a real native American—the pumpkin. The Indians introduced this gourd to the Pilgrims at the first Thanksgiving. It's become the symbol of autumn and the signal for the gaiety of Halloween. What is more exciting for a child than a "real" pumpkin to make his own jack-o'-lantern? You'll probably want several

other pumpkins around for decorations, for the jack-o'-lantern withers quickly after it has been made. Mold collects inside so dispose of it before it emits an odor. The Consumer and Marketing Service reports adequate supplies of pumpkins in all sizes and shades of orange moving to your market now. Quality is good, so this means that properly treated, your

decorative pumpkins should last for months. "Cooked by the sun" is the general meaning of the Greek word from which "pumpkin" is derived. How apt the description, because the pumpkin must have a period of sunshine to ripen and mellow to be at its best. Since pumpkin is a squash, you'll find it versatile in your menus. Prepare and serve it as

you would squash. Try pumpkin with a fresh pork roast. Boil pieces the size of apple halves in a little water as possible until tender. Then cook with the roast during the last 15 minutes the pork is in the oven. You may be surprised to find that the rind of most pumpkins is not over hard. In fact, the pumpkin skin usually is cooked with the pumpkin meat and is

edible. Don't throw away the pumpkin seeds. You'll find them crunching good when roasted or toasted and salted—a favorite snack with many southwestern families even before Columbus. **Cute Freckles** Freckles are not all that bad. Often they are totally cute. But how do you convince that girl of yours who thinks she's been cursed with some kind of plague and is about to do anything, scrape her face with sandpaper

or even use dynamite. All she would need is an antifreckle cream which has bleaching properties. Apply it on the face for 20 minutes then tissue off. Rinse with soap and water. Repeat the application every day until those freckles fade away.

HERE IS AN EXCELLENT OPPORTUNITY
If you need more space or would like a nicer building, or a convenient location across from City Hall and Court House, let us show you one of Pampa's finest buildings previously occupied by a bank and then a restaurant. Ideal for office or retail use. Will remodel.

No questions asked. Odrinex is sold with this guarantee by Richard Drug Store, 111 N. Cuyler Wall. Orders Filled.

Cookbook Offers Recipes To Celebrate Anniversary

To mark the occasion of its 125th anniversary Imperial Sugar Company gathered its all-time favorite recipes into a colorful new cookbook. It's a treasury of the best recipes from early-day cookbooks, hit recipes over the years from bags and cartons, and some new ones.

Illustrated in full color, the "125th Anniversary Cookbook," containing 64 pages and 125 recipes, is being offered to the sugar company's customers for one dollar and the red pure cane block from a bag or carton of sugar.

Typical of the interesting recipes contained in the cookbook is "Cherry Cheese Pie." It's festive as a party but everyday easy to prepare.

CHERRY CHEESE PIE
9 in. unbaked pie shell
1 number 2 can cherry pie filling
1 1/2 8-oz. packages cream cheese, softened
1/2 cup granulated sugar
2 eggs
1/2 teaspoon vanilla
1 cup dairy sour cream
Nutmeg

Make pie shell with high-fluted edge. Place cherry pie filling in shell and bake at 425 degrees for 15 minutes. Meanwhile, beat cream cheese, granulated sugar, eggs and vanilla until smooth and creamy.

Lower oven temperature to 350 degrees. Gently spoon cheese mixture over cherries. Bake 30 minutes; cool. Spread sour cream over top of cooled pie; sprinkle with nutmeg and refrigerate until served.

MEATY MORSELS
Importance to Dieters
When calories are cut to a minimum, meat is extremely important in helping to keep the dieter satisfied. Breakfast meats might include 4 strips of bacon, 2 sausage links, 3 ounces of Canadian-style bacon or 3 ounces of ham. Build lunch or supper around a 3-ounce serving of lean meat. Build dinner around a 4-ounce serving of lean meat.

MAN FOUND DEAD
HONDO, Tex. (UPI)—Police Tuesday identified a body found in an automobile in Medina County as that of Henry Carter, 51, of San Antonio. Officers said the body had a gunshot wound in the neck.
 Justice of the Peace Daniel Ruempel of Castroville ruled the death as homicide and said Carter had been killed by a shotgun blast to the neck.

MARRS THREE MEN
MADISONVILLE, Tex. (UPI)—Sheriff's deputies arrested three men at a service station late Tuesday after discovering about 70 pounds of marijuana in their car. The drug was estimated worth about \$40,000.
 Virgil Thomas Adams and William C. Knight, both of Houston, and Gilbert P. Levi of Madison, Ind. were charged with possession of marijuana.

WASHINGTON—Ousted Panamanian President Arnulfo Arias, commenting after his arrival at his country's Embassy here:
 "This is my embassy and I am the president. I will live here as long as necessary."

Television In Review

By RICK DU BROW
HOLLYWOOD (UPI)—The latest national television ratings confirm that NBC-TV's new "Julia" series, starring Diahann Carroll, is a rock-solid hit—the undoubted freshman smash of the 1968-69 season.
 The ratings, which cover the week of Oct. 7-13, also confirm earlier indications that CBS-TV's new Doris Day series, although doing well, is not yet the hit the network hoped for and expected.
 Miss Day, who started well up in the ratings, has shown a slight lack of consistency in top cities. In the figures released this week, she finished in a tie for 27th place with Lawrence Welk and NBC-TV's new entry entitled "The Ghost and Mrs. Muir."
 "Julia," meanwhile, tied for third place among the 90 programs rated. It also is the only bonafide new series in the top 26 shows, although there are two highly-ranked new variations on old popular programs. One of these variations, "Mayberry R.F.D.," the successor to CBS-TV's Andy Griffith series, has done extremely well thus far, and looks to be a popularity tradition. It ranked second among all shows.
 The other variation is CBS-TV's "Here's Luck," which is merely an altered format of the past Lucille Ball series. And this one tied for seventh place.
 In addition, the new NBC-TV Monday night movie came in 11th, but no motion picture series, however enjoyable, can be considered a television achievement—or even a television program.
Laugh-In Tops
 The top 10 shows in the latest ratings are: "Rowan and Martin's Laugh-In," "Mayberry R.F.D.," "Gomery Pyle," and "Julia" (tie), "Family Affair," "Bonanza," the CBS Thursday movie and "Here's Lucy" (tie), "The Beverly Hillbillies" and "Ironside."

A thought for the day—Greek poet Mimnermus, once said: "We are all clever at envying a famous man while he yet lives, and at praising him when he is dead."

Celanese Reports Sales Up in '68

NEW YORK (SpI)—Celanese Corp. today reported sales of \$307.3 million for the three months ended Sept. 30. They exceeded by 9 per cent the 1967 third-quarter sales of \$282.4 million.
 Third-quarter net income was \$17.7 million, equal to \$1.25 a common share, an increase of

40 per cent over the per-share income of 89 cents, or \$13 million, during the comparable quarter last year.

John W. Ebooks, president and chief executive officer, attributed the third-quarter business improvement in part to substantially increased fiber sales, with demand strong for acetate and sales of polyester and nylon at record levels.

He said that chemical sales also were above those of the previous year, as were those petroleum products, although earnings from the latter were adversely affected by some softness in midwest gasoline prices. Earnings from plastics operations likewise showed improvement, although hampered by costs of starting up a new polyester film production line.

For the first nine months this year, sales amounted to \$924.7 million, an increase of 15 per cent over the comparable 1967 period.

Ebooks said that the outlook in all key Celanese product lines is promising.

FOUL FELINE
LOUISVILLE, Colo. (UPI)—Rain, sleet, hail, snow and all that might not stay the Post Office but a big, yellow tomcat sure slowed it.

Mrs. Lois Mall, postmistress at Louisville, found the cat with 75 letters and postcards in one of the city's mailboxes.
 "Oh, you never saw such a mess," she said. "There have been popsicles and chocolate-coated ice cream bars, but never a cat."

PTA Group Has District Meeting

Pampa Parent Teacher Association members are attending the District 19 annual Fall workshop in Panhandle today.

Pampans participating on the program are Carolyn McKinley, in a student reaction panel; Dr. James F. Malone, school superintendent, benediction for afternoon program; Mrs. N. L. Nicholl, district's parent and family life chairman, and Mrs. Paul Howard, Pampa City Council president, on the workshop committee.

The program included a morning coffee, and a luncheon, with talks by Mrs. T. Z. Walker, executive director of Panhandle Mental Health Association; and Mrs. Marvin Armstrong, Lubbock, state mental health chairman.

Mrs. Walker, member of the board for Kilgore Children's Psychiatric Center, Amarillo, spoke on "Family Anxieties and Tensions."

Mrs. Armstrong, nominee for second vice president, at state convention in November, spoke on "Family Communications."

Workshop theme was "Understanding Our Changing Families."

By Abigail Van Buren

DEAR ABBY: When I read if I went all the way.

about "Modern Mother" wanting to give her 16-year-old daughter the pill for her own (the mother's) peace of mind, I nearly had a fit.

In the first place, if a mother raises her daughter right, she won't need the pill.

This may come as a shock to you, but I am a 19-year-old virgin. I'm no creep either: I've had my share of wild parties, oversexed guys, and I have been turned on myself a few times, but I know how far I can go.

The guy will try to get as much as he can. When he gets out of line with me, I stop him and tell him my morals won't allow me to go any further. He gets mad and pouts, but I just put right back. I've lost a lot of guys that way, but I don't care. One day the right man will come along and I'll be glad I waited.

I would be insulted if my Mom gave me the pill. That's like saying she does not care

19-YEAR-OLD VIRGIN

DEAR ABBY: In your answer to Modern Mother, morals seemed to be the only issue. In all this pill talk, people tend to overlook a far more serious danger than a possible pregnancy.

I refer to the risk of venereal disease, which is now even more violent and rampant than ever.

It ought to be stressed that venereal disease can be far worse than a 9-month episode.

INFORMED READER

DEAR ABBY: This is for Modern Mother: My mother raised three GOOD daughters and it wasn't by giving us the pill either. I will never forget my mother's words to us, and when I have children, they will hear them, too: "The right way is always the hard way. Anyone can do things the easy way."

Modern mothers want to do everything the easy way. I am 22 years old and newly married. I am far from old-fashioned. I met my "right man" and we went together 4 years and I managed to stay "good" all through my courtship and college education. It was worth it, too, so I'd like to ask you, Modern Mother, why are you giving up on your daughter so early?

If you love your daughter, help her to be strong and overcome temptations. Your easy solution is asking for the trouble you are trying to avoid.

DEAR ABBY: The mother who wanted to give her 16-year-old daughter the pill wrote that although her daughter was a beautiful, intelligent girl with high morals, when the "right" boy comes along, if the time is right and the place is right, Lord only knows what could happen, or words to that effect.

I would like to say that if a mother raises her daughter with high moral standards, when the right boy comes along, the right place will be the bridal chamber and the right time will be the wedding night. Don't faint, this is from a 21-year old college man.

"MR. RIGHT"

DEAR ABBY: I am the mother of four healthy, normal daughters whose ages range from 13 to 22, and I would NEVER offer my daughters birth control pills because it would be the same as saying "Go ahead." But if there were some kind of tasteless powder that accomplished the same thing, I would be the first to buy it and slip it into their breakfast food every morning.

"REALIST"

Your Horoscope

JEANE DIXON

Your birthday today: Much patience and detailed planning are demanded of you for prosperity in the coming year. Conditions already existing will require further attention. Today's natives tend to be egocentric but generous, and are keen observers.

ARIES (Mar. 21-Apr. 19): You owe it to yourself to check all the facts before you go into action. Even trivial errors of haste can cause a disaster. Unexpected incidents possibly upset regular activities.

TAURUS (Apr. 20-May 20): Your first response is not necessarily the most useful today. Give your mind time to review the situation before you plunge. Keep expenses at rock-bottom; there are better uses for money coming in soon.

GEMINI (May 21-June 20): Your share of responsibility includes saying "no" to proposals for spending family or group funds. The most important thing after that is being tactful, and sympathetic.

CANCER (June 21-July 22): Interruptions today are not to be taken personally, as they are forced by factors unrelated to your activities. (This goes for family questions which arise this evening as well.) With an open mind, the questions answer themselves.

LEO (July 23-Aug. 22): Extraordinary activities are indeed tempting. Discretion is essential in romantic and money matters.

VIRGO (Aug. 23-Sept. 22): Your plans depend on how smoothly you can present them. Your usual skill at being specific for once works against you. The worries are temporary.

LIBRA (Sept. 23-Oct. 22): Your tact stands you in good stead. Haste and overconfidence spoil everything! Slow down a little! Driving is hazardous.

SCORPIO (Oct. 23-Nov. 21): If you let temptation, pleasure and an appetite for easy money can lead you far off your course. Routine affairs come unstuck today in the tide of events.

SAGITTARIUS (Nov. 22-Dec. 21):

DEAR ABBY: Who said, "The best oral contraceptive in the world is the word no?"

BUDDY

DEAR BUDDY: I did. Everybody has a problem. What's yours? For a personal reply write to Abby, Box 69700 Los Angeles, Calif. 90069 and enclose a stamped, self-addressed envelope.

21): Your energies are better focused on studies, meditation, and work which you can do alone today. At the moment you just don't have your way about anything.

CAPRICORN (Dec. 22-Jan. 19): You do yourself proud by sticking to what you organized earlier. Is your world having a mild tantrum? The simplest course is to put off your moves.

AQUARIUS (Jan. 20-Feb. 18): You impress people well now; so make the most of it! Caution with strangers and their urgent proposals is strongly advocated! Finances and friendship are not especially compatible.

PISCES (Feb. 19-Mar. 20): Marital or partnership matters affect areas of your life. Think and follow your intuition closely, to solve this temporary hindrance.

BIRTHDAY PARTIES

CANADIAN (Sp) — John Fuller celebrated his 83rd birthday recently at a party sponsored by his daughter, Mrs. Elmer Garrison. About 43 friends and relatives attended.

After spending two weeks here with her parents, Mr. and Mrs. Elmer Garrison. Mrs. Nancy Ford joined her husband Johnny, who is in the Navy stationed at Great Lakes, Ill.

He is taking 14-week advanced phase of the Navy's basic Fire Control Technician School.

LEFORS (Sp) — Mrs. Ludia Carruth, and Mrs. Dovie Douglas, of Lefors celebrated their 85th birthday with a surprise reception in the civic center, recently sponsored by their children.

Mrs. Douglas and Mrs. Carruth were presented with orchid corsages which they wore on dark blue suits trimmed with white trimming.

Guests were registered at a table covered with pink cloth. An arrangement of pink roses centered the table.

On the serving table was a silver coffee set, white milk glass and crystal on a pink cloth with an arrangement of pink and white with candles adorning the arrangement. The birthday cake was in the shape of an open book with cards representing their birthday dates.

Those hosting the occasion was Mr. and Mrs. L. E. Douglas, of Fort Worth, Mrs. Floyd Mathis of Tyrone, Okla., Mr. and Mrs. W. F. Taylor of Pampa, Mr. and Mrs. Roy Carruth of Borger, and Mr. and Mrs. Ralph Carruth of Dumas.

Grandchildren attending were Lynn Taylor of Lubbock and Mr. and Mrs. T. B. Rogers Jr. of Pampa.

About 80 attended.

SKELLYTOWN (UPI) — Janna Hogan, daughter of Mr. and LaWayne Hogan, 1517 Dogwood Pampa, was recently entertained with a birthday party in Central Park, honoring her sixth birthday.

Refreshments were served to guests, Janna Hogan, Toni Williams, Toni Smith, Rickey James, Steve Smith, Jerry Smith, Julie Smith, Steve Wyatt, Melinda Hogan, Alissa Hogan, Janna's grandparents, Mr. and Mrs. J. R. Patterson, her grandmother, Mrs. Bonnie Hogan and Mrs. Naomi Perce, all of Mobeetie.

THE PAMPA DAILY NEWS
THURSDAY, OCTOBER 24, 1968

Thanks, Friends For Your Support

No one in Public Office could have had a better relationship with his voters than I have. Through your support, I have had the honor of being the first unopposed Republican Representative in Texas. When I ran two years ago, there was only one Republican down there. Three of us got elected and with the special elections, we now have eight members. It looks like we will have from twenty-five to forty Republican members next session, and I will be either first or second ranking member.

I am very pleased to have had the opportunity of helping build a two party system in Texas. I think we are well on the road and all of the people will benefit. You will also be pleased to know that, out of one-hundred fifty members, I ranked one hundred forty-seventh in the amount of money spent for operating my office and will turn back nearly \$4,500 to the State during this two year term.

We will go back to Austin in January with a real rough row to hoe. They tell us we will have to come up with one hundred fifty to two hundred million dollars more money. Lots of this will be necessary, but a lot of it I think we'll have enough help this time to make them squeeze some juice out of the bigger spending bills.

Hansford County has now been added to our District and I am real happy to get those folks. I have enjoyed serving you and any time I can be of assistance, let me know. Thanks

Your Representative,
MALOUF "OOFIE" ABRAHAM

BE SURE AND VOTE ELECTION DAY

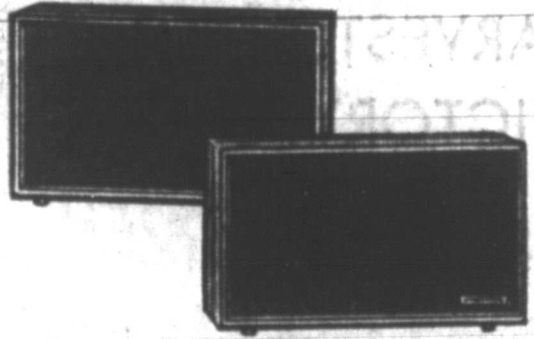

(Pair Pol. Adv. by Malouf Abraham)

Magnavox CUSTOM STEREO

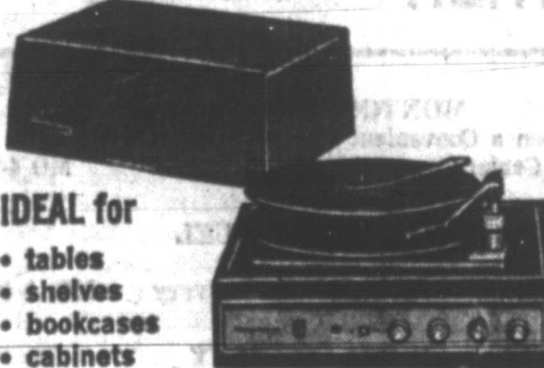

brings you both the look and sound of excellence

COMPLETE Solid-State Phonograph SYSTEM

Simply plug-in and play—model 2501 lets you thrill to the breathtaking dimensional realism of stereo! Magnavox solid-state circuitry replaces tubes—ends damaging chassis heat—provides superior performance and lasting reliability.

Four-speaker system—each speaker unit has 9" and 3 1/2" speakers. Compact, versatile—only 15 1/2" L, 5 1/2" D, 8 3/4" H. Ideally suited for tables, shelves; can be placed vertically or horizontally.

Phonograph/Amplifier—has 10-Watts undistorted music power output; separate bass/treble, loudness and stereo balance controls; 45 RPM record adapter and tape recorder input. Exclusive Magnavox player eliminates pitch distortion; is jam-proof and fool-proof. Tone arm tracks and traces perfectly with a featherlight touch—banishes discernible record and Diamond stylus wear. Now—your records can last a lifetime! Dust cover for precision player included.

Complete \$139.90
Only

No unsightly "hardware" look! All Magnavox Custom Systems add a distinctive touch of beauty to any room in your home. Each unit is acoustically matched for finest performance—per dollar spent. There's a system for every budget, as well as for every listening requirement—including the most discriminating ear. Other Phonograph Systems priced from only \$119.90. Stereo FM/AM Radio-Phonograph Systems from only \$239.90.

Fishin' Roundup

By MELVIN CLARK

R.T. Davis of Skellytown fished Lake Meredith last week and caught 31 panfish perch, and four rock bass on worms and minnow.

J.M. Thompson and his wife Jone, and daughter, Anita caught over 100 blue gill on artificial flies when they fished Lake Vinson recently. Anita caught the largest one weighing a little over one pound.

We had a Sports Afield entry this past week from Royal Scot, 110 N. Russell, who caught a large mouth bass 12 1/2 inches long and weighing six pounds. He caught it in a lake near Shamrock. His lure was a Heddon Chuggar.

We have a report from Shorty Phillips of a nice catch made last Thursday at Lake McClellan. Rex and Arthur Brown caught 17 1/2 pounds of channel cat. The largest one was about 5 1/2 lbs.

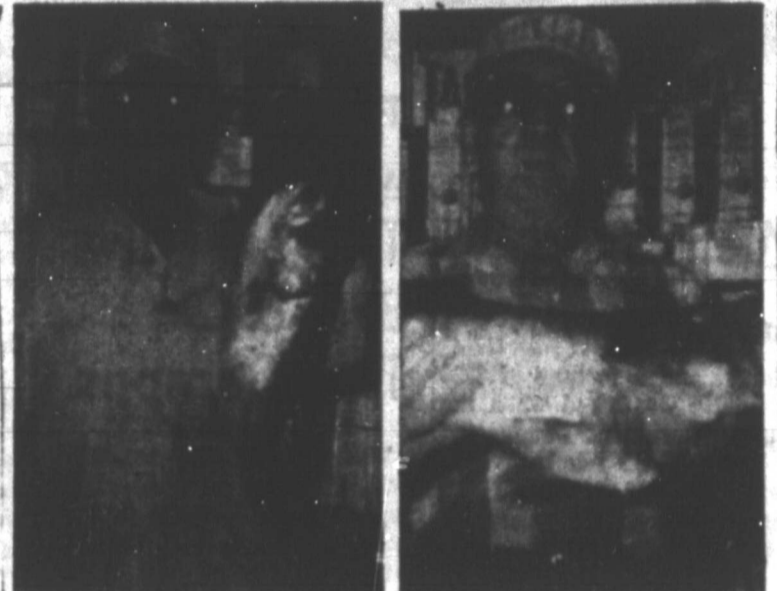

Dusty Taylor reports from Lake Burson south of Clarendon. He has had a 10" rise in the lake from the recent rains, and the fishing has been real good for the bass, channel cat.

and brim. Doug Gowin caught a 7 1/2 pound Bass and a 8 1/4 pound channel cat. Robert Roblee and Ted Salinas of Lockney caught 40 large brim on worms. Many of these brim are in the one pound class. Chuck Wilson, Harve Pennington and Dee Copeland caught several bass and brim on flies and poppers.

If you want to hunt quail and don't have a place to hunt you can obtain a full season's permit to hunt at Burson Lakes by contacting Mr. Taylor there. Reservations have to be made soon, as these reservations are limited.

Terry and Tommy Thompson, sons of L.D. Thompson, Borger, caught a four pound plike while trolling at Sanford Dam on Lake Meredith. Their Laké Meredith. Their lure was a red and white Bomber.

Fishing must be picking up instead of cooling off. The Department of Interior Parks Service reported that 1,144 fishermen were at Lake Meredith this past week. Happy fishing, everyone!

FOUR-POUNDER — Mrs. Arlena Robinson, 505 Elm, shows off the four pound bass she caught in Unson Lake, south of Wheeler, using a live frog as bait.

KING-SIZED — Royal Scott, 110 N. Russell, caught this king-sized bass, weighing six pounds and measuring 22-inches long in a lake near Shamrock.

Buckeyes Raiders Ready For Big Bombs

By United Press International

Of the nine remaining unbeaten, untied football teams in the major college ranks, at least third appear in danger of falling from the lofty heights Saturday.

The only team assured of keeping its record unblemished is top-ranked Southern California—and that's only because the Trojans are idle this week.

USC, Ohio State, Kansas, Penn State—the nation's four highest-ranked teams—all boast perfect records, as do Arizona, Harvard, Ohio University, Pennsylvania and Yale.

Ohio U. is expected to struggle with Dayton to remain among the unbeaten—and the same is true of Arizona with Indiana and Pennsylvania with Princeton.

The oddsmakers have pegged Ohio State as a 20-point favorite over Illinois, Kansas a 21-point pick over Iowa State, Penn State a 14-point favorite over Boston College, Harvard a five-point choice over Dartmouth, and Yale a 7 1/2-point selection over Cornell.

Texas Tech is continuing preparations for one of the largest bombing assaults it has encountered so far this season as the Red Raiders get ready to host Southern Methodist in a Southwest Conference homecoming game Saturday in Lubbock.

Tech is rated a four-point favorite in the showdown between the only two remaining unbeaten teams in conference action. However, the Raiders will face the air attack of the year in quarterback Chuck Hixson and end Jerry Levas.

A victory by the Raiders would push Tech into the conference's favorite role. Tech has already defeated Texas and Texas A&M, and SMU has turned back Rice and Texas as Christian.

Never Wen

Tech has never won a conference championship since being admitted in 1960, although it finished second last season. SMU won the crown two seasons ago.

Hixson has completed 135 of 241 passes for 1,585 yards and nine touchdowns. Levas heads the receiving end with 44 catches good for 645 yards, and four touchdowns, and Mike Richardson has snagged 27 aerials for 338 yards.

The Red Raiders will be led by the running and passing of quarterback Joe Matulich.

Computer Helps Middleweights

NEW YORK—(NEA)—Curious are the meanderings of history. Who could have foreseen, for example, that little white-haired gent, the one cranking the kinoscope at ringside of a fight involving middleweight champ Nonpareil Jack Dempsey in the 1890s, would someday become famous. For it was his film that was used for computer information in the 1963 All-Time Middleweight Tournament and Championship Fight.

And who, Bill Stern, was that aging movie buff? It was—hang on tight—none other than Thomas Alva Edison.

"Actually, Edison was a pretty lousy photographer," said Murry Woroner, the well-known promoter of the All-Time computer fights. "The patterns were erratic and jerky. But they were clear, and that's all we needed to see Nonpareil's stuff."

Woroner and his staff have tramped the world seeking fight information to gorge the voracious computer. They have been to North Africa to translate newspaper accounts of Marcell Cerdan's early fights. Other first-hand observations were obtained in Europe and

Asia. Not since the finding of Dr. Livingstone has such tenacity been shown.

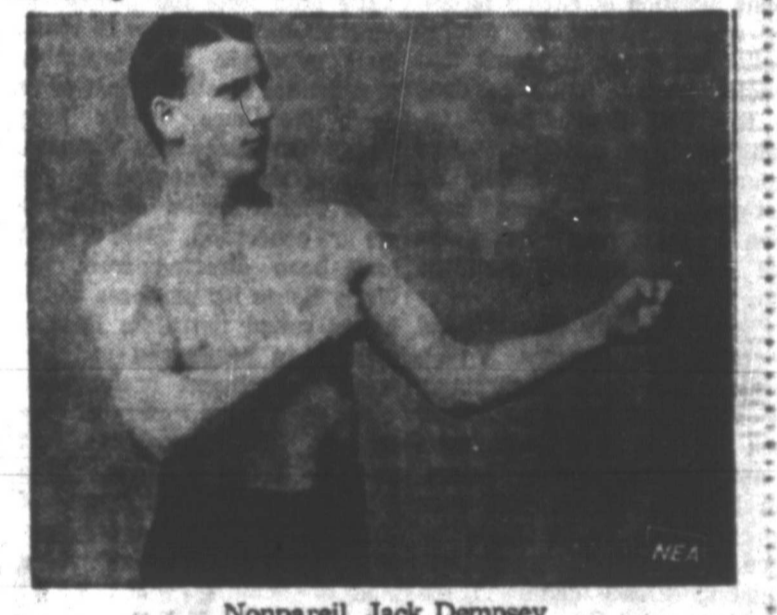

"You can't go by statistics alone," said Woroner. "There must be some objective analysis, too. We put in 129 variables on each of the 18 fighters—speed of left jab, speed of left hook, hardness of left hook, and so forth. Such things as killer instinct and courage and ability to absorb a punch are also included. Then there's put on a 10-point rating system. For example, Muhammad Ali rated 10 in speed of foot, while John L. Sullivan was rated a 1-he was frozen to the balk line and would step forward by dragging the back foot."

The All-Time Middleweight Tournament is Woroner's second computer project, after the highly successful Heavyweight Tournament. Sixteen of the greatest heavyweight fighters competed in a single elimination tournament which was broadcast like the real Kid McCoy over 375 radio stations in America. Now some 600 stations are carrying the middleweights.

Guy LeBow does the blow-by-blow account and Woroner

is the color man. Rocky Marciano beat Gene Tunney in a 15-round decision for the All-Time Heavyweight title. But a casualty of sorts in the tournament was Muhammad Ali. He lost to Jim Jeffries and now is suing Woroner for \$1 million for injury to his reputation.

According to Woroner, all living fighters who participated gave their approval. But the fighters, like everyone except LeBow and Woroner, did not know how the bouts would turn out. The project has a security system that would make McBrinks green with envy.

Nonpareil Jack Dempsey Resurrected from 1890s

District A, B Football Teams In Conference Action Friday

All teams in Districts 1-A, 2-A and 1-B will be in conference action Friday night with the big game on tap at Wheeler.

The Mustangs (5-1, 1-0) play host to arch-rival McLean (4-2, 1-0) in what could be a tight defensive battle or a wide open offensive show.

Both teams opened district action last week and both won by identical 16-8 scores.

McLean knocked off a good high scoring Happy team and Wheeler downed defensive minded Silverton.

Wheeler has run, behind speedsters David Britt and Donald Rives, for 123 points and have given up just 27.

McLean, behind hard-charging Thacker Haynes has tallied 90 points and given up 75 but always plays tougher in conference.

Clarendon puts its unbeaten (5-0) streak on the line Friday night when it shoots for league victory No. 2 at Happy, now 3-2-1.

In the other District 2-A game Claude (0-6) hosts Silverton, now 4-2.

White Deer (3-3) goes for its second straight league win by playing host to Stratford (2-4), who knocked off Canadian, 23-6, last week.

Canadian (2-4) hosts Gruver (4-2, 1-0) in an attempt to break a three-game losing streak and Sanford-Fritch (2-2, 0-1) plays at Sunray, (2-3, 0-1) in the other district encounter.

In District 1-B Groom and Lefors open conference action with Groom (2-4) playing at Texline (1-5) and Lefors (1-4) playing host to Booker, now 1-3-2.

Miami (1-5) plays at Guthrie in an attempt to break a five game losing streak.

Shocks, Jr. High Teams in Action

The Pampa Shockers and four of Pampa's six Junior High teams played football this afternoon.

Lee seventh grade shoots for its fourth straight victory Friday by playing host to Borger Houston. Lee seventh is 3-2 for the season. But today the Shockers played Monterey in Lubbock in quest of their first win after six straight losses.

Lee ninth (4-1) played Borger Houston at Borger and Lee eighth (1-3) played host to Houston.

Pampa ninth (1-4) hosted Perryton and Pampa eighth (4-1) played Perryton at Perryton.

TOP JC

DODGE CITY, Kan. (UPI)—Undeclared and scored upon only twice, Taft, Calif., has been named No. 1 in the National Junior College Athletic Association football ratings. Behind Taft, which beat Eastern Arizona 32-0 last week, are Ferrum, Va.; Iowa Central; Mesa, at Grand Junction, Colo.; and Ellsworth, of Iowa Falls, Iowa.

U.S. Basketballers Can Win Gold Medal Tonight

MEXICO CITY (UPI)—The United States may be wrapping up the 1968 Olympic Games championship down at the ol' swimming hole.

With only three full days of competition remaining in these games, the Yanks have rolled up 35 gold medals and an overall total of 81 medals—a commanding lead over defending champion Russia, which has 15 gold and 49 overall and keeps running into one disappointment after another.

—And if that Yankee lead is too big for the Soviets to overcome—as now seems possible, you can write it down that the United States won the unofficial team title with an utterly fantastic exhibition in swimming.

Including three upsets triumphs Wednesday by Sharon Wichman, Kaye Hall, and Mike Burton, plus an expected victory by Charles Hickcox, U.S. swimmers have won the gold medal in 18 out of 21 events, one more than Russia's entire total. There are 11 swimming events left which are certain to swell the U.S. total.

Four Finals Today

With four of those swimming finals slated Thursday, it is virtually certain that sometime on this day the United States will equal or surpass its 1964 Olympic Games haul of 36 gold medals and maybe even its 1964 overall total of 90 medals.

The Soviets, on the other hand, are a long way from approaching their '64 totals of 30 gold medals and 96 overall. The unofficial team crown which the Soviets have worn since 1956 could be slipping off rapidly.

—Finals in swimming today are the women's 200-meter free-

style, men's and women's 200-meter butterfly and the men's 200-meter freestyle. There also are gold medals at stake in team foil fencing, gymnastics and shooting.

All three victories in swimming Wednesday were surprises—now the Yanks are winning even when they're not supposed to. Miss Wichman of Fort Wayne, Ind., turned the tables on two girls who had beaten her in the 100 meters, to take the women's 200-meter breaststroke in an Olympic record 2:44.4.

Miss Hall of Tacoma, Wash., upset Canada's Elaine Tanner to win the women's 100-meter backstroke in a world record 1:06.2. And Burton, of Carmichael, Calif., beat another Canadian star, world record holder Ralph Hutton, to take the men's 400-meter freestyle in 4:09.4.

Wins Second Gold

Hickcox, of Phoenix, Ariz., won his second gold medal of the games by taking the men's 400-meter individual medley in a close battle with teammate Gary Hall of Garden Grove, Calif. West Germany's Michael Holthaus just touched off Greg Buckingham of Atherton, Calif., to prevent a U.S. sweep.

Wednesday marked the first time the United States won a gold medal in these games in something other than track or swimming—and to do it right, it won two.

Bill Steinkraus of Noroton, Conn., who had failed to win even a bronze medal in four previous Olympics, was rewarded for his patience with a gold medal in Grand Prix individual jumping—the first gold medal ever won by the United States in a jumping event.

Question: Can Harvesters Fight Back?

By RON CROSS Sports Editor

The question is can the Harvesters fight back?

The answer is, it is possible. Starting Friday night they will have no better opportunity to begin the road back to doing what they are supposed to be doing, and that is winning football games.

Pampa will play host to Caprock in a north zone contest, expected to be played before a capacity homecoming crowd, beginning at 7:30 p.m. on Harvesters Field.

Of the five previous games played between the two schools Pampa has won three, thus making Caprock the only school the Harvesters have beaten more times than they've been beaten.

A victory over the Longhorns might provide the tonic Pampa needs to cure it of the ills it has gone through the past 15 years.

A victory might prove to the Harvesters that, slow as they are and small as they are, they are capable of winning football games.

A victory would also give them two more than they had last year and the same number more than they had in 1965.

According to the statistics released Wednesday on the North zone, and they don't mean a lot because they are figured differently everywhere, tailback Scotty King is the third best rusher in the zone.

If the figures were kept right King would probably be the No. 2 rusher in the zone but the

ones released out of Amarillo are official.

The stat sheet shows King with 118 total yards in two games on 36 carries.

It also shows that quarterback Ross Holman has completed seven of 18 passes for only 61 yards and has three interceptions.

John Jenkins and Dan Carlton rank high in pass receiving.

Carlton has five catches for 66 yards in two games and Jenkins five for 31 yards in one game.

The Harvesters have the third best punter in the zone in end Wyatt Earp.

Earp has punted 12 times for 443 yards for a 36.9 per boot average. The leader is Mike Dalrymple of Amarillo, who hasn't had to kick too much and

has a 37.2 average on seven kicks for 261 yards. Second is Caprock's David Garrison with nine kicks, all last week for 334 yards and a 37.1 average.

Both Garrison and Earp could improve their averages Friday night.

The Longhorns will come into the game short on total offense and long on total defense.

They moved for only 67 total yards, 38 rushing and 29 passing, but, of course that's for only one game and they rate last in the league in both.

But Pampa has played two games and rates next to last in total offense and last in defense.

The Harvesters have given up 674 yards on the ground and 281 through the air for a total of 955, or an average of 487.5 per game.

Offensively the Harvesters have rushed for only 166 yards and passed for 105 more, a total of 271, or an average of 135.5 per contest.

But this should improve.

Wingback John Jenkins and quarterback Gary Parrish returned to the lineup last week. Jenkins will play a bit at tight end Friday night but will also be at wingback.

Parrish is still questionable for Friday but will probably give Holman some relief at quarterback.

If Jenkins can take a little heat off King then the Harvesters offense should move.

King rushed for 106 yards last week and if someone else is around to carry the ball Caprock will find Pampa awfully hard to stop.

The Pampa Daily News

A Watchful Newspaper
EVER STRIVING FOR THE TOP O' TEXAS
TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license, nor anarchy. It is control and sovereignty of oneself. No more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

'Nasty Little Wars'

The public did not realize that the "nasty little war" in Vietnam had become a big war until the U.S. armed forces buildup had been under way for some time. Many found it hard to relinquish the plainly erroneous notion that the enemy could be thwarted in short order with small loss of blood and treasure.

This comforting illusion has long since departed from the American scene. It is now universally understood in this country that the Viet Cong and their northern allies are a dangerous and persistent enemy, that our commitment has grown to massive proportions, and that even after years of combat the prospects for a clear military victory are at best uncertain.

Events continue to reaffirm this dismal truth. Despite enormous attrition of enemy forces, the enemy "keeps on coming on." Just when it seems that crucial damage has been done to the Viet Cong, new onslaughts are mounted. And though there is much talk of last-gasp efforts, there have been a great many last gasps and still the fighting continues with vigor.

There is plenty of statistical evidence, too, that the Vietnam War is a disturbingly big war. Our forces have now been engaged in it longer than in any previous war in American history. It has just been reported that battle casualties since 1961 have passed 200,000, including 27,509 dead, 171,809 wounded and 1,197 missing or captured. This can be seen in perspective by comparison with the Korean War, whose casualty toll was 136,913—33,620 battle deaths and 103,294 wounded.

These figures make it clear that running a war directed and personally controlled from the White House, rather than turning the job over to the Defense Department, is a mistaken way of bleeding us to death. Every effort was made not to

win the Korean War. President Truman even fired Gen. MacArthur because he insisted on trying to win, and for resisting President Truman and the State Department acting like generals, directing combat from Washington D.C. Korean peace talks were in a stalemate when newly-elected President Eisenhower went to Korea to get some kind of a peace agreement.

Now we've had two years of President Jack Kennedy's and five years of President Johnson's personal direction of the South Vietnam conflict. Neither of them tried to win the war.

What are the consequences? The enemy has been encouraged to hang on, encouraged to outrageous murder of innocent women and children in the hopes that cruelty will pay off at the negotiating table.

It's high time the people of America have a chance to speak their minds in the November presidential election. Most of us don't like those "nasty little wars" like Korea and Vietnam. Both of them "sneaked in the back door." Insofar as the voters are concerned, both of them have been directed from the White House for purposes which better suited the State Department than conformed to Defense Department preferences.

We don't want "more of the same." We recognize that we're in South Vietnam, have a job to do which is largely of our own making. What we must do is get away from the kind of thinking which sent troops into South Vietnam and loaded us down with a dangerous, "nasty little war," 8,000 miles from our shores.

We can't help but remember that both the Korean and South Vietnam wars came during Democratic administration. We weren't supposed to win either one of them. We're tired of seeing American boys killed and injured in an international political game played by the White House.

Crazy Speed Kills, Maims

The North Carolina State Motor Club has recently come out in favor of action by the federal government to cut down on the killing speed on the highways.

The club called for the federal government to issue a highway-safety standard requiring speed control governors on all motor vehicles.

We would not be so presumptuous as to suggest what that speed limit should be," the club spokesman said in a letter to Secretary of Transportation Alan Boyd who, being human and fallible is no better qualified than the club spokesman to make such a decision and law.

That leaves room for a lot of figuring—and guessing—by the people who would have to put the recommendation into the hard form of findings and orders.

There are many people to whom driving is almost a profession who might argue, and seem to prove by example, that 75 miles an hour is safe on many roads.

There are others who have licenses to drive for whom 30 miles an hour is hazardous. And then there are roads and roads, as for instance some of the interstates which have everything except side walls to keep cars smoothly moving on. But some of the older ones seem to have been plotted by a lost surveyor following a blacksnake through the woods.

Thomas B. Watkins, president of the club and of the National Automobile Assn., said that the organization is not in favor of federal intervention. How many times have others said that, to follow it with a "but?"

This time the "but" is . . . it is obvious the separate states . . . not going to pass such a . . . that puts it squarely on a federal government."

be made for just about anything anyone wants done in any field of activity. And they are made all the time.

There is no way to argue against the club's contention that crazy speed kills. Every vehicle on the road should be kept within a speed range which is as safe as practical considering man, car, road, and conditions.

The only question is how. The Club mentioned the figure 120 miles an hour, which is the capability of many new cars on the roads. Actually, to drive that fast on a public road is, as the club said, "suicidal." It is that in fact, or crazy.

But there is one thing moving even faster and with far greater, though silent, peril.

That thing is the cumulative effect of all those arguments which start out "We are against federal intervention, but . . ." which always calls for another law and a further erosion of freedom.

Rather than more self-responsibility eroding laws, what seems to be needed is a clearly thought out moral imperative, so clearly enunciated that it would be universally recognized, by which individuals can measure their actions with respect to their fellowman. This, admittedly, would not immediately solve all traffic and other problems. But, at least, it would be a start in the right direction.

HOW TO ADDRESS OUR LAWMAKERS

You may want to write your senators and representatives in Washington and Austin. Here are their addresses:

(FEDERAL)
Rep. Bob Price, 1222 Longworth Bldg., Washington, D.C. 20545.
Sen. Ralph Yarborough, Senate Office Bldg., Washington, D.C. 20540.
Sen. John Tower, Senate Office Bldg., Washington, D.C. 20540.

(STATE)
Hon. Gray Davis, Governor, P.O. Box 13099, Austin, Texas 78713.
Rep. H. Ross Perot, Capitol Bldg., Austin, Texas 78713.

The American Way

By D.R. SEGAL
It's tough to be an idiot among a society of knowledgeable kooks. I know because I am.

I have been shopping for a new car, and at my age a man depends upon such immaculate criteria as color, and comfort and what's it going to bring in trade some day. Well, Dad, all that's as dated as the brand liberalism personified by Hubert H. You-know-who.

I guess one problem is that I have been dealing with a car salesman of my own generation, and we're both hopelessly outdated. I asked this dealer for a nice little car—a white one—with air conditioning and power steering. He took me out to the lot and showed me about what I thought I wanted at a price which was not at all what I wanted to pay.

"Tell me about it," I said.
"Well," he said, "it has a 425 engine with twin carbs and 425." "Whoa," I said (you used to say that to horses), what does 425 mean?"

"It means cubic inches," he said.
"Is that good?" I asked.
"How the hell should I know?" he said, with irritation. "I am not some kind of kid hot-rod nut."

"Tell me more about it," I said, recognizing that I had ahold of a real automotive genius.

"It costs more," he said, "but I will let you have it at the standard price."

"What does it do?" I asked.
"It gets out of whack and needs fixing," he explained. "It is also very good for ice and snow, which we do not have, so shut up."

"Where are the headlights?" I asked brightly.

"They are concealed behind a sliding panel," he said.
"Is that an improvement?" I asked.

"It is something else to fix," he said.

"Is there any engineering miracle about this new car that has virtue other than its fixability?" I asked.

"It takes regular gas," he said, and added, "and lots of it."

I said I was not sure I was sold on this rod.

"Personally," he said, "it has about 96 gadgets on it that you don't need and won't use. All of them will need fixing. I will make you a good price on this unit because it will cost you a fortune to keep it running good."

I asked about the guarantee.

"What you will want done," he said, "is not covered. It took some mighty smart guys to figure out what to guarantee and what not to guarantee. I can guarantee the emergency flashing light for the life of the car because you'll never use it."

I said I thought this was dishonest and he said the day a newspaperman lectures him on ethics he will throw in the towel and get a Fuller Brush route.

By this time I was sure I wanted this car if only to prove that I was not too dumb to keep it in operation without incessant failure. I recalled something my son had said and asked, "What's the gear ratio?"

He looked at me as if I had asked him to recite the Gettysburg Address. "Come on, fellow," he said, "you wouldn't know a gear ratio from a torsion bar. Just slip me your check."

Which is what I did. And on the way home, I noticed a scratch on the door. Like he said—I'll be back.

With Some Reservation
Humphrey says we have got to elect his—"there is no other alternative." The only alternative I see for Humphrey is for him to make a deal with Nixon to let him be vice-president.

If Nixon would let him be vice-president Humphrey would get Elbee Jay to campaign for Wallace—which should eliminate him slicker than a peeled grape.

Then between the two of them they would get Agnew to campaign for Greek Architecture and let Muskie run for the Polish border.

The only problem left would be LeMay. Well, after making a deal to kick out McNamara and let LeMay run the World Bank, he could approve sending 50 bombers to Israel.

Israel could then bomb the daylites out of Jordan, and Russia would bomb the daylites out of Israel and then we would

We May Not Load The Bus

Pull Up A Chair

By FRANK J. MARKEY

One of the "hip" phrases of the "hip generation" is "sock it to me" or "sock it to him." We doubt if many of the mods who use it frequently realize that it's more ancient than high button shoes. It was first used by Mark Twain in his novel "A Connecticut Yankee in King Arthur's Court." . . . And speaking of that novel reminds us that it has been made into several successful movies and was just about the first musical comedy by Rodgers and Hart to attract widespread attention—and for good reason. The song-writing team turned out a melodious score and many of the songs are still popular today, such as "Thou Swell" and "My Heart Stood Still."

Today's smile: A fellow we know, who plays the stock market, invested half his savings in a paper towel company and the other half in a firm that makes revolving doors. When the market dropped he was wiped out before he could turn around.

Here are some sobering facts for any motorist who thinks it's fun to race a train to a grade-crossing. It takes an eight-car passenger train 3,500 feet to stop if brakes are activated when the train is traveling at 60 mph. At 80 mph, the distance is 6,000 feet. A 150-car freight train, moving at 50 mph, requires a distance of roughly one and one-third miles to stop. You might paste these figures on your dash if you have a thrill-happy youngster driving your auto.

Thoughts while shaving: No city in the U.S. had a municipal income tax 30 years ago. Philadelphia was the first to levy one and this form of taxation has now spread to numerous other cities in all parts of the country. . . . Shopping on New York's Madison Avenue, we came across a game that is just the thing for this political season. It's the Serendipity Republicans vs. Democrats chess set. The same store also featured dart boards bearing the face of the candidate you would like to see lose the Presidential election. . . . Back in 1911, which was the horse and buggy era, traffic moved along New York streets at an average of 11 miles an hour. Last year New York city traffic was averaging 8 miles an hour, according to an official survey. That's progress or is it? Ever hear of a Millionaire's Trade Union? One was formed back in 1950 by the late Gokhwar of Baroda, an Indian maharajah who had three palaces, two wives, 30 automobiles, a treasury of jewels, cannon made of gold and silver to fire salutes on his

bomb the daylites out of Russia which in turn would open up good cause for them bombing the daylites out of us.

This would solve practically all our problems like non-proliferation treaties, and welfare tism, and crime in the streets, and politicians smear campaigns. Then we could get started on the 4th World War—with bows and arrows and rocks that is, after the human race got started again.

Country Editor speaking: "One of the best things to have up your sleeve in a crisis is a funnybone."

The Doctor Says:
By DR. W. G. BRANSTADT

Three Fungi May Cause Ringworm Infections
Q—Please describe ringworm, its cause and cure. Would a person who has jockstrap itch infect the bedding and spread it to others?

A—Ringworm infections may be caused by three fungi—trichophyton, microsporum and epidermophyton. On the feet (athlete's foot) they cause itching and cracking between the toes and itching blisters on the exposed surfaces. The victim may also get small itching blisters on his hands. These blisters do not contain any of the fungus cells but only toxins produced by them and circulated by the blood.

In the groin, ringworm causes patches of redness with itching. On the scalp, it causes patches of itching and scaling with broken-off stumps of hair, but not baldness.

Treatment is difficult and failure to clear up the infection is often due to failure to identify the causative organism. What will cure one type of ringworm will not always cure another.

Since it is possible for the disease to be spread through contaminated towels and bedding, these should be boiled.

There's New Breed On The Campus

By RAY CROMLEY

WASHINGTON CORRESPONDENT
WASHINGTON (NEA)—There may be a connection between campus revolts and the new instructors hired in large numbers in the great expansion of U.S. universities in recent years.

It hasn't been publicized, but at recent sessions of the nation's most respected association of political science teachers, numbers of younger college faculty members attempted to disrupt the meetings. They made loud noises. When older teachers disagreed with spoke, young teachers turned their backs. When disruption failed, they marched out set up their own rump session.

A significant number of these younger men say they favor abandoning classroom objectivity. Frankly, they want to use the classroom to propagandize, to promote their views on any question up for discussion.

This reporter attended portions of a dozen sessions at the annual meeting of the American Political Science Association, on such current questions as Chicago, U.S. foreign policy, the Columbia University riots and crime. He interviewed men and women present at a variety of other sessions.

A fistful of the academic reports presented by these young activists were quite different from the objective, highly researched reports of most of their older colleagues.

In one case, a research man outlined with some certainty the opinions of the people of Guatemala. Pressed for evidence, he said he just felt certain this is the way the people believed.

A speaker asserted that Russian weapons placed in Cuba in the missile crisis were defensive weapons. Questioned, he said he felt this was true.

One authority at a session on crime said he'd written his paper on the back of an envelope en route to the meeting.

In the session on Chicago riots, advertised as an unbiased presentation, three panelists gave impassioned, emotional speeches in favor of the rioters. The fourth panelist began by saying he was "the devil's advocate" and would speak for the police and against the rioters. He opened his presentation with a strong plea to the assembled professors and instructors to donate to a fund for the legal defense of those rioters who were arrested. He presented no facts or arguments

may cause headache, dryness of the mouth, heartburn, abdominal cramps, chest pains, dizziness mental confusion and other alarming symptoms if the dosage is not carefully adjusted.

Q—My son has had a fungus infection on his hands for two years. Nothing seems to help him. Is there any cure?

A—Cure is not easy but, if the diagnosis is confirmed by microscopic identification of the fungus involved, one of the newer fungicides may cure your son.

Cannel At Bay

By WARD CANNEL

Alas! Battle of Sexes Is Kaput
NEW YORK (NEA)—As we have pointed out, one of the great unanswered questions of the age is why women of a certain sort are called feminists. It has been our experience that there is almost nothing feminine about their cause.

As far as we can see, most feminists are basically concerned with masculine superiority and the ways and means to cure man of it. So, in reality they should be called manicurists. Or perhaps maniacs. Or maybe mangles.

But whatever the proper term, it no longer matters. In the past year or so, the question has become more or less academic. And now, if we read the signs correctly, the battle of the sexes is over—once and for all.

The hippies, with their long hair, long beads and long robes, have already proved that you can't always tell the difference between the sexes.

The Olympic Games in Mexico, for all the cheek smears and chromosome tests, have proved that scientists can't always tell the difference between the sexes.

A couple of weeks ago, English experimenters grew a living frog from a cell taken from another frog's intestine, and proved that the difference between the sexes isn't necessary.

And yesterday afternoon we heard of two women who have done everything men do, including washing the dishes—proving that there really isn't any difference at all between the sexes.

Well, if that is true, we are very sorry to bring the news. Without the battle of the sexes, what will become of Doris Day and Ann Landers? Where will Helen Gurley Brown and Betty Friedan go? Who will support

on the police side.

The universities were founded to teach young men and women to think and to make judgements based on fact. They were to train each new generation to eschew bias, rumors and superstition.

The impression this reporter gained in listening to and interviewing members of this younger group of activist instructors is that they are teaching their own brand of bias and superstition. They appeared as prejudiced in their way as the men who once insisted the world was flat and the sun circled around the earth and anyone who opposed should be excommunicated.

A goodly number of these young men insist those who disagree with their conclusions are decadent.

It is not relevant to say that most senior professors are sound, academic men. In this age, the senior professor has little contact with the average student. It is the younger men who meet the students daily.

If research, objectivity and facts are to be downgraded, the result will be decision by emotion. Many of the next generation of college graduates thus may be tempted to follow any man with charisma and to excommunicate those who disagree.

Harold Robbins and F. Lee Bailey? Can the auto industry survive producing only coupes?

But that is the least of it. With the difference between men and women gone, the last real standard of comparison in the nation will have disappeared.

As everybody knows, it has been impossible to tell television shows apart for the past 15 years. In fact, we frequently have to look at the listings in the paper to find out whether we've seen the program before.

It's also quite hard sometimes to tell the major political parties apart—especially when you look at the left and right wings.

We cannot believe that anybody is capable of identifying the cars on the highways or the celebrities on the airways these days. It would not surprise us at all to find out that Jackie Mason, Jackie Vernon, Jackie Gleason, Jackie Cooper, Jackie Cannon, Jackie Loughrey, Jackie Robinson, Jack E. Leonard and Jackar are all the same model.

And now, with no difference between the sexes, it will soon be impossible to tell real people apart.

As of this writing, there are only a few distinguishing characteristics still available for identification.

Governor Agnew, for example, is HEAVIER than Vice President Nixon. Vice President Humphrey makes MORE money than Mrs. Humphrey. Frank Sinatra is OLDER than Mia Farrow.

But with rapid advances in weight, age and income tax control, those standards probably won't last the year.

The only distinguishing characteristic not in jeopardy, we are told by anthropologists, is height. So, for those who are in doubt, Senator McCarthy is TALLER than Governor Wallace, but not as tall as President Lincoln. Not NEARLY.
