do stores start Christmas before Thanksgiving?

That's a question that's often asked, and it deserves a sincere answer!

- * Your newspaper appreciates the spirit that prompts many of the objections to early Christmas shopping promotions
- * However, when the reasons for the urge to "Shop Early" are examined, the most critical agree it's MORE than a problem for stores alone.
- * So we're happy to take this opportunity of presenting some of the problems that confront all stores at holiday time.
- fecting a helpful service to ALL its customers. An since many cusomers ask stores to make it easier for them to complete their gift shopping before the crowded post-Thanksgiving period, Christmas merchandise and displays are brought forward early to accommodate them.
- And scarcely a major store in the nation could cope with the store traffic that would be generated if any part of early Christmas shopping was postponed until after Thanksgiving. Even under present circumstances, most stores are strained to capacity during the peak of the season, to maintain the kind of store service all shoppers have learned to expect,
- When you recall the extremely crowded conditions of stores the final two or three weeks before Christmas the problem becomes evident.
- e If no early Christmas shopping were done, this condition would be multiplied many fold. (Actually there would not be enough room behind store counters for enough sales people to serve shoppers during this period between Thanksgiving and Christmas.)

- The same condition exists in regard to the children's visits to Santa Claus. Thousands of children and their parents look forward to their annual visit with him, and unless he makes an early apperance, many hundreds would be doomed to dissapointment simply because it's physically impossible to reach him in a shorter time.
- * Those in the store business know that an extremely large percentage of the Christmas gifts that are selected are items that are in plentiful supply the entire year.
- * If you were to ask the thousands of retail employees—and as a group they represent one of the largest employee groups in Pampa they would tell you that much of the stress and strain of their Christmas would be relieved if the shopping public would anticipate Christmas shopping throughout the year. Then you'd seldom hear your friends in retailing remark, "I'm simply worn down to my knees by Christmas Eve."
- Granted that the problem is not a one-sided one, it should be recognized that stores are faced with the problems of convenient service to customers, of maintaining helpful employee relations, of providing a place where those of the public who cannot, or do not plan ahead may select the traditional gifts for their loved ones and friends.
- * We are sure that if all of our storekeepers would chat with you personally and informally that you would be convinced of their sincerity and that in the true spirit of Christmas, they would not be criticized for their efforts to perform a helpful service to their shopping public.
- * Finally, for all these reasons, and for others which will occur to you, don't you agree that beginning Christmas shopping early makes it easier, faster and a whole lot more pleasurable for you?
- So do yourself and your favorite stores a favor . . start shopping now . . . while selections are at their best . . . while you have plenty of time to compare before choosing . . . while sales personnel can give you the kind of service you prefer.

You say you'd like a few suggestions on how to get more out of your telephone service?

Here are five tips to help make your every "hello" a real good buy:

1. Whenever you're moving to another town within the Bell System, let us arrange for your phone service before you move. If you know the address of your new home, we can make arrangements in advance so you'll have the exact service you want in your new home. We'll also refer calls from your old phone to your new number if you like. Just call the business office and ask about our Easy Move Plan. There's no extra charge.

2. Speaking of moving, we hope you realize that wherever you move in the Bell System, there is no color charge for the phones at your new address if you had color phones at your old address.

3. Ever wonder what to do when you get a wrong number on a Long Distance call? Just hang up, dial "0" for "Operator," and tell her what happened. She'll see that you're not charged for the call.

4. And if you ever lose your dime in an out-of-order pay telephone, just go to a working phone and report it to the Operator, She'll arrange to have your dime mailed to you. Also, if you give her the number of the out-oforder phone, we'll get it fixed right away.

5. Long Distance interstate rates are lower all day Saturday and Sunday, and after 7 p.m. each weekday. You can also save money if you call by number. A station-to-station Long Distance call costs about one-

third less than a person-to-person calf. At Southwestern Bell, our goal is to help you get the very best telephone service. We want your every "hello" to be a real good buy.
