House Committee Approves British Aid Measure

FOUR AMENDMENTS ADDED TO STATUTE

WASHINGTON, Jan. 30 (AP)—The administration's British-aid bill was approved by the house foreign affairs committee today after efforts to write in a financial limit had been defeated.

The committee's action cleared the way for house debate of the measure, probably Monday.

Vote on final approval was taken quickly after the committee had defeated a proposal to place a \$2,000,000,000 limit on transactions under the bill.

When the committee broke up, Chairman Bloom (D-NY), announced the bill was reported out for house action with four major amendments adopted yesterday, but he decided to disclose the vote by which the committee gave its approval, saying "you'll have to ask individual members about that."

Other sources reported the vote was 17 to 8.

Bloom disclosed that in the last few minutes of its meeting, the committee had rejected six amendments, ranging from an entirely new bill based on loans of money to Great Britain to a proposal to strike out a section authorizing the secretary of war and navy to acquire arms and ammunition in a foreign country.

The four amendments which were approved by the committee would:

Limit the operation of the bill to the period ending June 30, 1942.

Require the president to consult with army and navy chiefs before disposing of any war material produced specifically for the defense of the United States.

Require the president to report to congress at least every 90 days on transactions under the bill, except that he would not have to disclose information he considered incompatible with the public interest.

Provide specifically that non-

ing in the bill grants any power for the president to order naval vessels into service to escort cargo convoys.

The committee action today was taken about the time James W. Gerard, World war ambassador to Berlin, testified before the senate foreign relations committee that the nazis would "seize" Mexico if Great Britain were defeated. He said he favored declaration of war against Germany.

Testifying before the senate foreign relations committee, the elderly former diplomat asserted he could see no hope for a negotiated peace.

"I think the American people, like the British, would rather die standing and free than kneeling in abasement before the nazis," Gerard declared.

"We are faced by what they call a blitz war—a lightning war—and this bill provides a lightning defense. This is no time for parley and meetings. We can trust our president with these powers—powers which he may have to exercise at a moment's notice in the world and our civilization is to be saved."

Red Cross To Conduct First Aid Class Here

Forty Expected At Course Starting Monday Night

Dr. Frank B. Boyle, chairman of Howard county Red Cross first aid instruction, announced Thursday that a Red Cross-sponsored instructors' course in first aid will be inaugurated Monday at 7 p. m. in the city hall courtroom. The course is to meet three hours five nights per week over a two weeks' period.

The program will be conducted under the direction of Roger Plasted of St. Louis, field man for the Red Cross. Plasted is well-known to local people, having been in Big Spring on previous occasions to supervise a life saving course.

First aid students from over the West Texas area are expected to take part in the study, Dr. Boyle said. A similar course was conducted in Texas recently to take care of the eastern part of the state.

"We expect about 40 people in all to attend the course of instruction," Dr. Boyle stated. He added, "I didn't expect the thing to be quite so large but calls for information from El Paso and Abilene lead me to believe it is going to be a pretty big thing."

The course is open to all who have passed the standard first aid course. This training is due to be of especial interest to state employees, since the state government hopes at some time to give all its workers a foundation in first aid.

Dr. Boyle is supervisor of instruction for the training school. Theory of first aid will be given in the city courtroom, with field work carried out in the fire department's recreation hall.

Those completing the thirty-hour course will be given an instructor's certificate from the Red Cross and will then be qualified to teach first aid.

Dr. Boyle said five first aid students would come from Lubbock, three from El Paso, five from Pecos, five from San Angelo, five or six from Abilene, and three from the local high school.

Willkie Has Fun His Own Way In London Pubs And Streets

LONDON, Jan. 30 (AP)—Wendell L. Willkie had his way today, paying an unescorted call on London's oft-quoted man-in-the-street and man-in-the-pub, drinking and talking with the "boys" and playing darts—the last with a losing score.

The American visitor jammed considerable of London into his tour. He is curtailing his visit, starting for home next week.

He said he would be delighted to appear before the United States senate committee hearing on the aid-to-Britain bill when he was told that Senator Nye, isolationist leader, had said Willkie should be heard.

At one place Willkie visited, the public house (saloon) proprietor, Harry Phillips, watched Willkie play darts with a loaf-

ing laborer and, in celebration of the occasion broke out a bottle of 1929 champagne.

The man easily defeated Willkie who commented: "This guy's too good."

Then the champagne was produced. "It was going to keep this for Armistice day," the pub proprietor said. "But you are as good as Armistice day and we'll open the bottle together."

The dart-throwing laborer stood by, almost unable to comprehend his victory. "Bimely! I'm going all international," he said.

At the first place visited, also a pub, Willkie was readily recognized by a group of soldiers and other customers. The proprietor invited him behind the bar.

Secretary Says 65 Billions Is Enough Debt

WASHINGTON, Jan. 30 (AP)—Secretary Morgenthau said today that army and navy plans for great purchases were overly optimistic and a \$65,000,000,000 public debt limit should cover all needs of the next fiscal year, regardless of needs of the aid-to-Britain program.

"If congress passes the lending bill, and I am sure they will," the treasury head told his press conference, "whatever orders are placed by the army and navy, the productive capacity of the country is such that they will not be able to draw on the treasury in excess of the president's program whatever the amount of British aid turns out to be."

He explained that he had several reasons for believing the proposed debt limit, which he advocated in a house hearing yesterday, would be sufficient.

1—"I think the army and navy estimates of expenditures are optimistic x x x their eyes are bigger than their stomachs."

2—"If the army and navy do spend as much as they expect, the president has estimated the debt of June 30, 1942, will be about \$58,000,000,000, and with a \$65,000,000,000 limit, we will have a \$7,000,000,000 cushion to take care of the Big Spring."

3—"The productive capacity of the country is limited so that it might be impossible for both the army and navy and the British to buy all they want to buy, and one of the other might have to reduce its requirements accordingly."

The secretary declined flatly to give any indication of how large the British aid program might be.

Poll Payment Deadline Only One Day Away

Total Issued Slightly Lower Than Same Date Year Before Last

Down the homestretch headed prospective voters Thursday as the deadline for paying poll taxes moved to within one day.

At noon Thursday the total stood at 2,669 plus 99 exemption certificates. This was 144 less polls than the 2,713 issued as of the same time two years ago. Exemptions totals were only three behind the comparable date in 1939, the previous "off" election year.

Deadline for paying poll taxes and securing exemption certificates was Friday evening. The same applied on all ad valorem taxes.

County, state, common and independent school district tax payments were in good shape, but the city was still lagging behind its goal. H. W. Whitney, city tax collector, said that payments were quickening, but that they had yet to reach the "boom" proportions characteristic of the last few days.

Taxpayers were reminded that starting Feb. 1 current taxes become delinquent and draw a one per cent penalty and half a cent interest. Thereafter, each month one per cent penalty and half a per cent interest is added until July when the penalty jumps to eight per cent and the interest keeps on piling up monthly as long as delinquency continues.

All citizens who would vote in any election during 1941 must secure poll taxes or exemptions if they reside within Big Spring. They must secure them not later than Friday.

Farmer Receives 42 Cents Of Food Dollar

WASHINGTON, Jan. 30 (AP)—The farmer's share of the consumer's food dollar averaged 42 cents last year, the agriculture department said today.

This share compared with 41 cents in 1939, a modern-day peak of 60 cents in 1917 and a record low of 33 cents in 1933. The department said, however, that advances in farm prices in December had boosted the farm share to 45 cents at the beginning of 1941.

Nazi Claims No Quarrel With USA

BERLIN, Jan. 30 (AP)—Adolf Hitler said today that "Germany has no quarrel with the American people," but declared that if "non-European powers try to intervene here, Europe will rise. Every ship that comes within the reach of our torpedoes will be torpedoed."

These words drew the longest applause of his entire one-hour and 32-minute speech in Berlin's great Sportpalast, where Nazi party men and the government celebrated the eighth anniversary of Hitler's rise to power.

"Germany never attacked the American continent," Hitler said. Then followed, to a tumult of cheering, his reference to "non-European" intervention and the torpedoing.

For his immediate hearers and the entire nation at its radios he predicted "victory within the year."

"The period lying behind us has already practically decided this war."

"France has been defeated and England crowded off the continent," the Fuehrer said, in the shadows of banners saying, "victory is with our colors."

"We are standing on this continent and where we are standing nobody can crowd us off."

"When the hour comes, we will land a decisive blow." Turning to the British he asked: "What are they hoping for? For America."

"I can only say we have calculated every possibility. There will be victory within the year. Germany has no quarrel with the American people, x x x"

"This time you do not find a weakened Germany, but one that is highly mobilized and full of fight."

"As regards Italy, let no one invent revolutions in Milan, but let them rather look out so there will not be revolutions in their own countries."

"We will settle scores, square mile for square mile, the Duce and I are neither Jews nor monsters."

"Perhaps they are hoping for other states they can drag in. I do not know, but you who know me will realize that every contingency has, in a matter-of-fact manner, been calculated."

"One English statesman figures out I have made seven mistakes in the past year. I checked up and found I had made 734 mistakes, but my enemies 4,385,000."

There was laughter at this juncture.

Hitler devoted 23 minutes of the address to a bitter attack on the British empire, which he described as the product of 300 years of robbery. He called Britain the most "anti-social" state in the world, "a paradise for a few, continuous misery for the masses."

"The lie is constantly spread around the world that the authoritarian states want to conquer the world. In reality our enemies are the ones who have the lust of conquest," Hitler said.

House Passes Lower Rate Unemployment Tax Statute

AUSTIN, Jan. 30 (AP)—Emergency bills to cut the unemployment compensation tax in half and to preserve the state's mineral rights in lands leased to the war department were passed unanimously today by the house of representatives.

The tax reduction measure already had been approved by the senate, and therefore awaits only Governor W. Lee O'Daniel's signature before becoming law. Its effective date is March 31.

The bill sent to the senate was intended primarily to bring about the lease instead of federal government condemnation of a large coastal area wanted for a bombing range. It was amended to provide that commercial fishermen or other interested residents could protest at a hearing before leases are executed.

Rep. Price Daniel of Liberty, the bill's author, opposed the amendment on grounds that the federal government might be unwilling to wait until after a hearing can be held.

"Mr. Giles (Basscom Giles, state land commissioner) told me," Daniel said, "that the federal government was willing to hold up condemnation proceedings until the legislature could pass this bill but he did not know whether it would consent to any further delay."

Rep. Howard Hartzog of Fort Lavaca and Jimmy Phillips of Angleton, sponsors of the amendment, answered that a hearing would require very little time. They admitted that protests against the bombing range by commercial fishermen probably would have no effect but said that any citizen feels better if allowed to air his grievances.

Britain's Desert Armies Capture Derna Stronghold

By The Associated Press Britain's triumphant desert armies captured the Italian stronghold of Derna, 175 miles inside Libya, this morning in a headlong sweep apparently intended to drive Premier Mussolini's forces out of North Africa, British general headquarters announced.

It was the third big Italian citadel captured by the British since Gen. Sir Archibald P. Wavell's army of the Nile launched a counter-offensive into Libya last Dec. 15, following in the wake of Bardia and Tobruk.

Bengasi, base of Fascist Marshal Rodolfo Graziani's forces, is apparently the next objective of the British offensive. It lies 150 miles west of Derna.

Bardia fell Jan. 5 and Tobruk Jan. 22.

British and German warplanes violently shattered a 10-day lull in aerial warfare overnight, with RAF bombers smashing at the big German naval base of Wilhelmshaven while Nazi raiders again showered death and destruction on London.

Undetermined casualties resulted from the wrecking of an officers' billet adjoining a London hospital. One body was recovered as rescue workers dug through the rubble to reach others believed trapped.

The empire capital had three daylight alarms by mid-afternoon, with "some" fatalities.

In a northwest English town, a low-flying German plane sprayed the streets with machine-gun bullets as citizens ran for shelter.

Hitler's high command acknowledged numerous civilians were killed and wounded by British raiders stacking two localities on the northwest coast of Germany, but asserted the damage was limited "exclusively" to residential sections and a work camp.

As an aftermath of the bloody revolt in Rumania last week, it was officially announced that more than 2,000 rebels, including 52 "gun women," had been arrested in Bucharest alone, along with the seizure of 32,635 machine-guns, rifles, revolvers and hand grenades, and almost 400,000 rounds of ammunition.

O'Daniel Gives Senate Three Nominations

AUSTIN, Jan. 30 (AP)—Governor W. Lee O'Daniel today announced three important appointments and asked confirmation by the senate.

The appointments were of J. Everts Haley of Houston as a member of the state livestock sanitary commission, Elster M. Halle of Herford to the state board of pardons and paroles and J. Watt Page of Fort Worth for another term as adjutant general.

The Haley and Halle appointments immediately aroused a buzz of discussion in legislative circles. That of Page had been expected.

Two years ago the governor appointed Halle, an old friend whom he had known since both lived in Kansas, as state tax commissioner, but the senate, before acting on the nomination, abolished the office. Later O'Daniel was quoted as saying he favored the abolition for reasons of economy.

The appointments as tax commissioner was criticized in the senate on the grounds Halle in reality was a resident of Kansas.

Halle was named to the pardons board for a six-year term expiring Feb. 1, 1947. He would succeed J. B. Keith of Stephenville.

The salary of a board member is \$8,600 a year.

Crowded In Undersized Rooms - - Negro Kids Do School Work Eagerly

By HELEN POOL

Coats, large and small and some dangling to the floor, hung damply under the window sill, one on top of the other. It was about the only place and only way there was to hang them in the crowded stuffy room more than 50 Big Spring negro boys and girls call "school."

Off at one side one wide-eyed youngster sat quietly plating another's hair. Hers was a little fellow who turned questioning eyes on the visitor. Others were trying to get a "look-see" at the sixth grade "rhythmic lesson that was the throes of being born."

Out of this confusion, J. H. Allen, the principal, called for a little less noise and more order.

The lesson had to get underway. "Yas-suh! Professor!" they echoed in unison.

The lesson got along against surroundings of a faded blackboard over which hung a picture of the "Last Supper," flanked by two United States flags. In the corner a combination wash stand and drinking fountain stood uninvitingly. The air was foul.

It's this way and worse every day at the negro school, for the two-room building completed Sept. 29 to replace one destroyed by fire must accommodate an average daily attendance of 77. Enrollment is 87. Still the prescribed course of study is offered the children—English, history, math,

science, etc.—in the high school grades.

"Every young person, regardless of the color of his skin, needs a high school education for practical living," observed the professor. "And it grieves me to think that we can only reach 10 grades." And he was grieved, too.

Do the children manage? Marce Lee, her large eyes shining and pearly teeth flashing, proudly rattled off the eight parts of speech without a bobble and to the accompaniment of a rhythmic swing of her ear rings.

Ry and by the English class buckled down to composing their essays on "What Democracy Means to Me." They pitched enthusiasm into it, such as not seen elsewhere.

When the bell rings, they swarm outside to quaff baskets of fresh air, play softball, basketball and other games while the little boys loosen their knuckles unapologetically for a friendly game of "kicks."

Frequently, pupils furnish programs for churches and organizations. Occasionally, they get to compete with teams from other negro schools in this area.

Jammed in like sardines, they go back to classes without grumbling. What they do know about democracy means quite a lot to these happy negro children.

With Big Sendoff

Another Draftee Group Leaves

Big Springers turned out Monday to give local and Stanton men a hearty send-off as they started by special bus for the Lubbock induction station...

James Brooks, principal speaker for the occasion, in pointing out the training program's chief objective said, "The time you are preparing for peace."

The fact that they were going to serve, Brooks, a captain of the old 117th supply train, Co. D, 42nd Division in the World War, predicted that the training would be good for the recruits and that they would be happy that they availed themselves of the opportunity to go.

In addition to the men in charge, the list of local trainees included Santiago Abreo, Earl Dean Jenkins, Geel Marvin McCollough, Dewey Wilson Kerr, Jack Wayne Hungerford, Joseph Samuel Day, Willie Albert Sundy, Ricardo Rosales Marquez, Daniel Martin Bearden, Jr., Elmer Alonzo Bucklew, Calvin Burt Young, Desmond Kermit Armstrong, Roy James

Low, Jack Julius McClanahan, Thurman Alfred Proctor, Merritt Lee Morrison, M. A. Denton, Sidney James Moody, Leonard Vance Morgan, Charles Ross Everitt, William Walter Smith and T. L. Miller. Roy Andrew Phares was registered with a Kern county, California, board but upon his request there are some 14 other miles of terraces in Big Spring, his home, Phillip Conway Slusser is to be inducted from the Houston station, although he is registered with the local board.

Lakeview Store Operators Tell Success Story

If success stories ever come up for honorable mention, Mr. and Mrs. Jim Mitchell could relate one that would rank near the top. Mr. and Mrs. Mitchell, well known throughout this trade area, are owners and operators of Lakeview Grocery and Market, and are this weekend observing their eighth anniversary in business at their West Highway location.

Along about the time everyone was waiting for prosperity to make its way around that popular corner—1933 to be exact—the Mitchells took a business fling at the world with a small service station and grocery stock.

As "business picked up" and Lakeview's customer list grew to such proportions that the modest establishment could no longer meet their needs in the manner the operators wanted to offer, the Mitchells had dirt and rock hauled in to fill what was then nothing more than a huge ditch circling right at the highway at their location. Today, Lakeview Grocery and Market serves patrons from a 70x37-ft. floor space. Every fixture, such as a 20-ft. market case and refrigerated vegetable stand equally as large, is as modern as fixture dealers have to offer. The completely stocked store now offers customers everything they could desire in the food line, and the service station is still an important part of the business.

In addition to the many grocery specialties offered for this weekend—and listed in an advertisement elsewhere in this edition—Lakeview makes an unusual offer on crank case draining and refilling that is expected to set a new record for cars serviced by this firm in two days time.

Coffee and cake will be served free to all callers Friday and Saturday, Mrs. Mitchell said.

Mental Disorders Show Decrease

SAN ANTONIO, Jan. 30 (AP)—Dr. Franklin G. Ebaugh, director of the Colorado psychopathic hospital, says mental disorders are decreasing in the age brackets below 40 but there still are as many persons admitted to mental hospitals as graduates of college.

Speaking at the international post-graduate medical assembly of Southwest Texas, Dr. Ebaugh told 1,000 practicing physicians and surgeons that the increasing use of sedative drugs is one of the greatest threats to American sanity.

He added that of college graduates admitted to mental hospitals, the leading cause was from use of drugs.

"Alcoholism frequently is a symptom of a pathological state as well as a cause," he said. "Treatment for alcoholic mental cases is well advanced and patients respond well to treatment."

People Of Nation Dance And Donate To Aid Crippled

Local People To Aid Cause One Day Late

Big Spring's contribution to the president's infantile paralysis fight comes Friday night, instead of Thursday night.

While most of the nation dances and gives for the aid of the crippled tonight, Big Spring's three balls are being held a day late in order to secure better orchestras, according to G. C. Dunham, county chairman.

Dances will be held tomorrow night at the Settles hotel, the Crawford hotel and the Elks club the latter place to be the scene of old-time dancing. Tickets will be \$1.85 per couple, and are good for admission to any and all dances.

Sandy Sanderson's orchestra will play at the Settles. This group has played all season at Hotel Lubbock, and is popular with dance crowds in that area.

Nation Greet Man In White House With Parties For Charity

WASHINGTON, Jan. 30 (AP)—The nation said "happy birthday" today to the man in the White House.

President Roosevelt was 59—a bit grayer for the passing of another twelve months, and with deeper creases around his blue eyes. But the broad shoulders showed little sag, despite the strenuous burdens of two terms, and the war-beet responsibilities of a third.

Anniversary or not, the day brought Mr. Roosevelt scant respite from the cares of office. Apart from a flood of greetings and congratulations, it meant the usual hours at his desk, the usual work, the usual run of appointments.

For tonight, however, a dinner and party will be given at the White House for intimate friends who have gathered around the president every Jan. 30 since 1921.

Here And There

H. A. Cravens swears that Wednesday was his lucky day. Accepting a ride from a friend, he got out midway in the 900 block on Main street and walked across to his house.

No injuries were reported when cars driven by Sonny Busbee and G. H. Smith were in collision on W. 3rd street Wednesday evening.

A bicycle belonging to P. E. Wilkins was reported stolen from the 900 block on Russell street Wednesday, but it was later returned, police said Thursday.

It's hard to hurt an Irishman. Mickey Holmes, city street sweeper, suffered cuts about his head and ears when struck shortly after midnight by a car driven by G. L. Graham, Coahoma. He was treated at the Big Spring hospital and released.

D. T. Mann is minus a good tire and tools someone stole from his car while it was parked in the 1000 block on Johnson street Wednesday night.

The millinery department formerly at Toby's dress shop has been moved to Lloyd's shop on Main street, it was reported Thursday.

Three Mexican boys were given a good talking at the police station Wednesday after a city officer had caught them in a game of dice, or craps, if you prefer.

Villa Walker, who gave Ahlens as home, had a difficult time in getting her baggage from a travel unit man. She complained to authorities that she had been put from a car of Midland and when she caught up with the man here, he refused to relinquish her baggage.

From the Methodist information bureau comes word that Texas is well represented with bishops, having 400 per cent more than its quota if they were assigned one to a state, Bishop Frank A. Smith.

Figures Show Balls Actual Aid In Fight

By STEPHEN J. McDONOUGH Associated Press Science Writer. WASHINGTON, Jan. 30 (AP)—The people who dance tonight at the president's birthday balls are actually helping others to walk, statistics of the U. S. public health service demonstrate.

Profits from the dances and other celebrations honoring Mr. Roosevelt's 59th birthday help finance the fight against infantile paralysis.

"Polio" cases reported to the health service dropped from a high of 15,700 in 1921, shortly before the annual birthday balls were started, to 1,700 in 1938. Although the number of cases increased from the 1938 low to 7,342 in 1939 and 9,700 in 1940, at the same time the number of deaths dropped markedly in ratio to cases reported.

Research workers are striving at present to isolate the virus which causes the malady to determine the way it is transmitted, and to discover means of preventing the disease or treating it quickly after it is acquired.

During the past year, McNutt said, new reservoirs of the infection have been discovered, and new methods of prevention have been tried.

TEXARKANA, Ark., Jan. 30 (AP)—Judge William Hodges, 86, who served almost a quarter of a century on the sixth appellate court here, died last night.

He was elected to the Texas legislature from Lamar county for two terms, was a clerk in the Texas senate and county judge of Lamar county.

In 1907 Governor Thomas Campbell appointed him to the newly-created sixth appellate court.

Woman Hurt In Auto Accident

Mrs. T. L. Maron, Haskell, suffered lacerations when the car in which she and Mr. Maron and their two children collided with the rear end of another car six miles east of here Wednesday night.

They were brought here by Dow Henderson, Odessa, for treatment at the Malone & Hogan Clinic-Hospital. The family was released and police furnished lodgings for the night.

WARM SPRINGS, Ga., Jan. 30. The patients of the Warm Springs Foundation will dine tonight in Georgia Hall around a birthday cake "iced" with dimes.

The silver cake is a symbol for the birthday of President Roosevelt, whose "little white house" is here.

The dimes were contributed by patients as their part in the campaign against infantile paralysis.

Mr. Roosevelt has sent one of his birthday gifts, an electrical organ, to the Foundation patients.

Tools Recovered

Jess Andrews had recovered a chest of tools reported stolen Wednesday; the sheriff's department said Thursday.

He discovered the tools in a clump of brush and weeds about 200 yards from his house at 200 State street.

Ickes Again Asks Federal Oil Control

TULSA, Okla., Jan. 30 (AP)—Secretary Harold L. Ickes denied today that he wants to become "dictator" of the petroleum industry...

Writing in the annual edition of the Oil and Gas Journal, which also carried statements by several prominent oil men expressing strong opposition to federal supervision, Ickes declared:

"I believe that some form of central co-ordination for the prevention of avoidable physical waste (in oil production) is necessary."

"Although I have been accused of wanting to be the 'commisar', the 'czar', the 'dictator' of the petroleum industry, I state positively that that is all inspired nonsense."

"Even if I were assured that I could be made the umpire for the oil industry, the knowledge that I have gained and the experience that I have had would make me extremely cautious before rubbing any magic lamp."

The secretary of the Interior said he believed the Cole bill, now awaiting congressional action, offered the best plan for production conservation that has yet been proposed.

He pointed out that petroleum not only was vital to national defense but has become "the dominant energy factor in virtually all phases of the nation's transportation."

"It should be axiomatic," his article continues, "that to avoid the possibility of future want of a material that supplies about 60 per cent of the transportation power of the country, waste should be reduced to the lowest possible level."

Ickes conceded that some states had adopted conservation laws but declared there was a lack of uniformity, "not only in the laws but in their administration."

"The fact that the federal government, the oil-producing states

and the oil industry are not cooperating toward the effective production and utilization of x x x petroleum, should be a challenge to all public-spirited citizens."

February, the birth month of the Father of Our Country, is the time to make Americanism the theme for party refreshments and decorations.

Let "Cherry Bridge Soda" for instance, play the leading role at your next bridge party. It's made by putting canned cherries, vanilla ice cream, and your favorite carbonated beverage in a tall glass...

Another drink that would add the right note of color and festivity to a "patriotic" party is "Ruby Fruit Punch." It has a bottled carbonated beverage for a base, being made like this:

- 1 1/2 cups sugar
2 cups boiling water
3 cups cranberry juice
1-3 cup lemon juice
2 cups orange juice
1 quart ginger ale
Mint sprigs
Orange and lemon slices.

Magic Spring Romance Lives In A Deserted Inn

by ALLEN EPPES

CHAPTER FOUR AUNT SUSAN "We might transplant some of these ferns down nearer the Inn," said Polly. "And another thing, David, I think it would be fun to work on those flower beds. I can see the remains of a lot of flowers of different sorts. Let's dig away the weeds and vines, and see if we can get the beds to blooming again."

"All Wileys have been gamblers. Look at Uncle Fred—look at Freddy Polly." "I am," said Polly. "Some building, isn't it?" "They got up. They ran down the path. "Maybe we could rent your cottage, too," Polly suggested, "and move out here—"

"I sure am," Peter admitted. "Seems like I was always having to change buses, all the way down from Pennsylvania. And there wasn't much money to spend on east." "You go in the bathroom and wash up," David said when they entered the cottage, "while I put the supper on the table."

"How much longer?" David asked. "A month or so," said Polly. "It all depends on how things work out. It'll take more to care for a fourth person, and Peter'll need clothes and things."
