Spectacular Scout Pageant Planned For Centennial Celebration

LOBBY PROBE EXPOSES FUND SOURCE

Plan now to attend the PANHANDLE CENTENNIAL celebration at Pampa June 2, 3, 4, and 5, with which is combined a Pioneers Roundup and Oil Men's Reunion. It is a GREATER celebration for the whole Panhandle.

Twinkles

Peculiar it is that the baseball magnates usually pick a prominent fisherman to toss out the first ball every season.

WOULD HONOR GREAT SCOUTS OF OLD WEST

HUNDREDS OF BOYS TO PROVIDE EXCITING SPECTACLE

A spectacular pageant re-enacting thrilling and climactic adventures in the lives of famous scouts of the old west will be produced by the Adobe Walls Boy Scout Council on June 2, Boy Scout day of the Panhandle Centennial celebration here, according to plans tentatively adopted last night at a meeting of local scoutmasters.

Brevitorials

TWO NAMES familiar to every voter in the Panhandle are unlikely to face any considerable opposition this year. One is James V. Allred, whose record in office is far better than his opponents predicted and somewhat less glamorous than his friends forecast. In short, Jimmie is doing about as well as governor as any man in Texas public life could do. A governor is not the whole administration—the limited powers and influence. On the whole constructive, the Allred administration has won the right to another term.

Issues so far flouted to wend their way from the Allred fold have been so weak as to more strongly entrench the young Texas governor. Some of the issues raised are sheer demagoguery, some have merit if addressed to the legislature, and some if carried into effect would increase unemployment in the oil fields.

Ad Valorem Tax Slash of 25 Per Cent Predicted

AUSTIN, April 15. (AP)—Officials today forecast a reduction of between 25 and 50 per cent in the state ad valorem tax for school purposes due to improved collection and receipt of additional revenues by the available school fund from unexpected sources.

CHANGES GO WITH SELF-GOVERNMENT

But changes should be made only when office seekers are equally honest, capable, and public spirited are available. In Congress, moreover, time and not ability alone put men in strategic positions. No man, regardless of ability, could reach Marvin Jones' stature in two terms, much less in one Congress, rewards those who have the confidence of their constituents and who return for several terms. True, a Huey Long goes to Congress now and then and makes a big noise, but even Huey could not deliver national triumphs. Congress reverts to its "freshmen" members. It rewards those who through hard work learn its ways. It largely ignores the tirades made from the floor and the remarks printed in the Congressional Record.

LATE NEWS

CHICAGO, April 15. (AP)—Dr. Herman N. Bundesen today conceded the hard fought democratic primary fight over the nomination as governor to Governor Henry Horner.

I Heard . . .

C. B. Rittenberry of Amarillo up to his old tricks. He almost incited a riot when he declared that the Pampa Road Runners were afraid of the Phillips 66 Oilers of Amarillo and that why no game has been scheduled between the two teams. The local team officials declare that Amarillo is trying to get the gate receipt argument and that until the Amarilloans get on the right side of the fence there will be no games between the two rivals. The trouble all started when this corner came back from lunch and found a large sign on his desk asking "Who are the Road Runners?" and signed by "Rit" Phillips 66.

Freddie And Aunt 'Gone Away' Mother Is Told As She Tries To See Actor

LOS ANGELES, April 15. (AP)—Legal action to bring about a reunion of Freddie Bartholomew, child cinema actor, and his mother, who journeyed from England to fight for his custody, became a possibility today.

ALLRED FREES TRUCK DRIVER CONVICTED OF HOMICIDE IN DEATH OF GOVERNOR'S SISTER

AUSTIN, April 15. (AP)—Governor Allred today freed a gasoline truck driver convicted of negligent homicide in the death of his sister and called on employers to rectify conditions under which drivers work.

SCORES WILL ATTEND BALL FRIDAY NIGHT

Square Dancers Over Panhandle Are Sent Bids; Prizes To Be Given.

Knox Lengthens Lead Over Borah In Illinois Vote

CHICAGO, April 15. (AP)—Gov. Henry Horner, riding a flood of downstate democratic votes, and Col. Frank Knox, of Chicago, testing his strength as a republican presidential contender, were accounted the principal winners today in the Illinois primary election.

Townsendite Appears Nominated in Nebraska

LINCOLN, Neb., April 15. (AP)—An upset victory in the Nebraska democratic race for the U. S. senatorial nomination was in sight today for former Congressman Terry Carpenter, a Townsendite plan advocate.

Tornado Funnel Observed Here

A small tornado, its slim funnel distinctively visible to citizens of LeFors and Pampa, attracted much attention at 2 p. m. today. It was east of Groom.

Quints Reported In Transylvania

BUCHAREST, Rumania, April 15. (AP)—Officially unverified reports that quintuplets had been born to a gypsy on a farm near Hodos, in the Bihor district of Transylvania, were received here today.

Active at 112

Pedro Aguiar still tends sheep in the Big Bend section of West Texas although he was born in 1824, 112 years ago. He makes his sandals from home tanned goat's hide, his trousers and shirt from broccos are fashioned from cactus fibre. Texas Centennial visitors to the Big Bend will see hundreds of these picturesque men tending their flocks on the slopes of the Davis mountains this summer.

ATTACKS SYSTEM THAT CAUSED JOHNSON TO 'NOD'

Johnston said he was paid \$3 a trip in the first job he had had in several months and felt compelled to make as many trips as possible to bolster his income, which supported needy relatives. The proclamation said Johnson's "nodding" unquestionably led to the collision.

MANY CRIPPLED BODIES MENDED IN STATE WORK

800 Children Given Treatment in Few Months

Eight hundred Texas children have been treated for restoration of their crippled bodies since last September, according to B. E. McGlamery, Eastland, of the vocational rehabilitation division of the State Department of Education, who was here yesterday.

It is the intention of this department to help those persons who cannot now make a living but who, if given treatment or vocational training, could do so. A number of Pampans have been given treatment through this program.

Mr. McGlamery, a member of the Eastland Lions club through which he became interested in the work, said the list of applications was growing at the rate of one hundred monthly in the state. Not all who apply are eligible since some of the unfortunates obviously will never be able to contribute to their own support.

A crippled child, under the law, is defined as "any person of normal intelligence who is unable to support himself by reason of physical handicap."

The five children were described as living but born two months prematurely, extremely small and with abnormal features. Superstitious villagers became excited at the birth, the reports from Hodos said, and took the mother and her babies to Oradea, the nearest larger center.

Answer to Where to Go

Take a holiday and see some of our great national shows. Follow the crowds with Haskin.

The Pampa Daily News offers its readers a new kind of publication which lists the big annual events all over the Union. There are pictures and descriptive matter for every State.

No matter what your station in life may be, it is possible for you to witness many of these great celebrations, carnivals, and mass gatherings. They are a true picture of the American people at play. They may occur near your home, or they may be right where you are going for a trip.

There are two companion booklets in this series called *Natural Scenes and Famous Places*. If you have never seen them, by all means order the three at once. They will tell you just what you want to know about the big sights this grand country offers. Use the coupon.

The Pampa Daily News Information Bureau, Frederic J. Haskin, Director, Washington, D. C.

I enclose herewith _____ cents for the booklets checked on the list below.

WEST TEXAS: Fair tonight and Thursday; cooler in the Panhandle tonight.

EDITORIAL

NEW WAY OF TACKLING DRUNK DRIVER MENACE

The most dangerous man in America, these days, is the man who gets behind the steering wheel of an automobile while playing host to a skilful liquor. And the most difficult thing is to devise some foolproof way to take a man out from behind the steering wheel and put him behind the bars.

The smartest idea along this line comes from a commission recently appointed by Mayor LaGuardia, of New York, to study the matter. This commission suggests that all we need to do is to change our traffic codes so that, instead of penalizing the man who drives while intoxicated, they penalize the man who drives while under the influence of liquor.

That change may seem unimportant. Actually, it might be the solution to the whole problem because it gets entire around that vexing and unanswerable old question, "When is a man drunk?"

As things stand now, before a drunken driver can be punished the police have to prove that he was, in fact, drunk; and if you have ever had your nose inside a court of law, you will understand that this can be a remarkably difficult thing to do.

That is why statistics about auto traffic accidents fail to reveal the real extent of the menace of the drunken driver. For instance: Charles A. Hartnett, motor vehicle commissioner for New York state, points out that less than 1 per cent of the state's serious auto accidents last year involved drunken drivers. Yet Commissioner Hartnett himself insists that the drunken driver is the most serious menace on the road today.

The driver who causes an accident may have been as stiff as a plank at the time; but unless the police can prove that he was stiff, he is finally charged with speeding, or reckless driving, or some other similar infraction, and his drunkenness never appears on the record at all.

Hence the suggested change. Don't require the police to prove that the man was drunk; let them prove, simply, that he was under the influence of liquor. Then the hair-brained citizen who insists on taking the wheel after inhaling half a dozen highballs could be made to pay the penalty.

For unless a man was actually unable to stand up, it is almost impossible for you to prove that he was drunk. You can prove that he had a lot of liquor in him; you can prove that his eyes were goggling, that his breath was strong, that his legs were unsteady, that his speech was blurred; but his lawyer will contend that he was merely under the influence, not actually drunk—and in nine cases out of 10 the jury will string along.

Let the law once recognize the indisputable fact that a driver under the influence of liquor is as dangerous as a maniac with a razor, and we might have some chance of whittling this menace down to its proper size.

ANSWERS TO QUESTIONS

—Frederic J. Haskin

A COLUMN

Of Facts you have often wished to see in print. Read it daily!

A reader can get the answer to any question of fact by writing The Pampa Daily News' Information Bureau, Frederic J. Haskin, director, Washington, D. C. Please enclose three (3) cents for reply.

Q. How much money was taken in by the Jackson day dinners?—E. M.

A. It is estimated by the Democratic National committee that \$300,000 was netted from the 250,000 Jackson day dinners.

Q. When there is a three-day delay between application for and receiving a marriage license, do some couples fail to return?—E. M.

A. In Los Angeles county, Calif., out of 20,000 couples applying for licenses in one year, 1,200 did not return to get licenses.

Q. When was the factory fire which engaged the interest in factory hazards of Madame Frances Perkins?—A. S.

A. It was the Triangle Waist factory in New York City, March 25, 1911. The dead numbered 148.

Q. What are the names of some of the famous caves in Europe?—J. K.

A. Fingal's Cave, Scotland; Ear of Dionysius, Syracuse, Sicily; Grotto of Antiparos, Greece; Peak Cavern, Derbyshire, England; Galleteruth, Germany; St. Michael's Cave, Gibraltar.

Q. From what language does the name, chrysanthemum, come?—H. L.

A. It is Greek and means golden flower.

Q. How many theaters in the United States are wired for sound?—J. V. W.

A. As of January 1, 1936 there were 15,858 wired theaters in the United States. Of this number 1,697 were closed and 14,161 were open.

Q. Please describe the Ukrainian flag.—L. B.

A. The flag of the U. S. S. R. is red with the national device in the upper left-hand corner. The constituent republics of the Union have their own flags, likewise red, with the initials of the name of the republic in the upper left-hand corner. In the case of the Ukraine, the initials are the Russian equivalent of U. S. S. R., meaning Ukrainian Soviet Socialist Republic.

Q. Did Abraham Lincoln's son Robert, attend college?—S. S.

A. He was graduated from Harvard.

Q. Does a stream of water have to be of any definite width or length to be called a river?—W. R.

A. The term, river, is not applied to a stream of any given width or length. A stream called a creek in one locality would be called a river in another.

Q. At what time during the month is the moon nearest to the sun?—W. F.

A. It is nearest at new moon.

Q. When did Governor Spotswood and his retinue cross the Blue Ridge mountains?—C. V. V.

A. Accompanied by Lieut. John Fontaine, Governor Spotswood left Williamsburg for Germania where his party was assembled and whence they set out on August 29, 1719. There were in all 12 gentlemen accompanied by three servants, guided by four Meherrin Indians, reinforced by two troops of rangers, an officer and six men each. On the eighth they ascended the Blue Ridge and then continued across the Shenandoah. The rangers were sent on, but the party set out on its return on September 7, reaching Germania on September 10.

Q. On what kind of trees other than nut can one graft walnut with success?—W. C. S.

A. Walnut cannot be successfully grafted on any other trees than nut trees. In fact successful grafting can be done only within the genus.

Q. Whose name has been forged most often?—S. M.

A. Probably the signature which has been forged most often in history is that of Antonius Stradivarius, maker of violins.

Q. How wide is the Potomac river at Washington, D. C.?—S. T.

A. About 2,000 feet when it enters Chesapeake bay. It is about six miles wide. The lower Potomac covers what is known as a drowned valley.

Q. Is vegetarianism a new theory?—B. L.

A. It was known in ancient India, and was advocated by Plato and Pythagoras. It became a cult in England under George Cheyne in 1671.

Q. How many trips does a milk can make from day to day?—S. F.

A. A study made in New York

shows that quart bottles average 22 trips, pint bottles 20 trips, and half-pint bottles 15 trips before being broken.

Q. Do the colors in Chinese rugs have particular significance?—H. E.

A. The Chinese have symbolic colors: red signifies fire and the south; black, water and the north; blue or green, wood and the east; white, metal or mist and the west; yellow, earth and the center.

Q. When was Gaelic at its height in Ireland?—S. P.

A. As a living language it reached its acme of perfection in the 17th and 18th centuries. Then, a law against its use was passed. It is now the official language of the Irish Free State.

Q. What is the name of the procedure which Johnny submits every morning to "electrification"?

A. Such a simple procedure as washing a schoolboy's ears has involved a mystery dating back to the pioneer days of outdoor soap-making. What is there in soap which makes it clean?

"Its property of electrifying," the American Chemical society was told today in a paper by W. M. Urbain and L. B. Jensen, of the chemical research laboratory, Swift & company, Chicago.

"The discovery of this hitherto unknown property of soap to electrify materials, and in this way to clean, is another step in the direction of a more complete knowledge of the action of soap," the paper stated.

The researchers reported finding that soaps are capable of electrifying such materials as carbon (soot), grease and rust.

The sad part of the report from Johnny's point of view reads: "No other substance has been found which is as good a general cleansing agent as soap."

George Barber, now in films, entered a school day stage experiment so much that he gave up school to embark on a theatrical career.

BEHIND THE SCENES IN WASHINGTON

—BY RODNEY DUTCHER, NEA Service Staff Correspondent

WASHINGTON.—The housing bill introduced by Senator Wagner of New York and Representative Ellenbogen of Pennsylvania would permanently assert and undertake to discharge a federal responsibility in the housing of families of low income.

The measure's passage at this session seems to depend on whether it gets the endorsement of President Roosevelt, whose attitude is in doubt. Wagner finally grew tired of listening to the irreconcilable differences of Roosevelt's housing advisers and went ahead with Ellenbogen and a group of public housing experts, rather than the representatives of real estate, financial, and other private interests.

The bill probably would enable production of new homes for families with incomes as low as from \$900 to \$1200 a year, depending on locality.

The most important thing in it is a provision for assisting and financing housing projects to be constructed and operated by state or local housing authorities for "families who cannot afford to pay enough to induce private enterprise in their localities to build an adequate supply of decent, safe, and sanitary dwellings for their use."

Subsidies up to 45 per cent of cost could be granted by the permanent United States Housing Authority created by the bill, which is also authorized to issue its own guaranteed bonds and to lend money to local authorities at whatever interest rate it considers advisable—a most important point.

The only provision for federal aid for "private enterprise" housing in the bill is a loan fund of up to \$25,000,000, which may be lent to limited profit housing agencies in any one year at the going federal rate of interest, individual loans not to exceed 85 per cent of the project's value.

The sum available for subsidies for low-rent housing would be \$50,000,000 for the next fiscal year, \$75,000,000 for the year following, and \$100,000,000 for each of the next fiscal years.

The bill recognizes "public housing societies," which would be any association, co-operative or corporate body organized solely to promote low-rent housing.

The Housing Authority would be authorized to develop and administer low-rent housing and slum clearance demonstration projects, to show to localities the benefits of such projects but only subject to local approval.

It would be permitted to lease such projects or to contract for their administration with "public housing societies."

The Authority would be an independent agency, although the secretary of the interior would be an ex-officio member of a board of five other persons. In addition to setting technical standards for the housing it assisted, the board would have broad powers to maintain the low-rent character of the housing and thus see that it didn't come in direct competition with private building enterprises.

The board could obtain—in addition to the direct appropriations—up to \$100,000,000 in advances from RFC each year, up to \$100,000,000 on its own bonds next year, and up to \$150,000,000 each year thereafter.

Asked to participate in state festivals, midwestern governor says he has no objection to crowning queens. Kings, of course, still will be handled by Big Bill Thompson.

New York has had a hard time getting its racket chief from Hot Springs, Ark. He evidently prefers the Arkansas variety of hot water.

CUBS SMACK DIZZY DEAN FOR 14 HITS AS CARDINALS ARE DEFEATED 12-7

YANKEES ARE NOSED OUT BY SENATORS 1-0

OPENING CROWD AT 8 GAMES BIGGEST IN 5 YEARS

BY ANDY CLARKE.
Associated Press Sports Writer.

The long trek down summer's baseball lane was under way today with the batsmen marching triumphantly at the head of the procession.

The sun came down like a benediction yesterday after rainy April weather that had disrupted spring training schedules and the baseball faithful thronged eight major league ball parks to see America's national pastime ushered in with fanfare and the crash of numerous base hits.

With President Roosevelt throwing out the first ball at Washington and Babe Ruth, the retired Sultan of Swat, sitting on the sidelines for the first time in many a year, some 205,000 fans, the largest aggregate crowd in five years, jammed into parks in the two major circuits.

The largest gathering was at the Polo Grounds in New York where 55,500 saw the Giants come from behind to defeat Brooklyn 3-5.

Hal Schumacher, the pitcher who was supposed to have the Indian sign on the Dodgers, retired to the showers before his mates, riding on homers by Mel Ott and Dick Bartell, overcame the efforts of George Earnshaw, veteran Dodger hurler, and went on to win in the late innings.

Even Dizzy Dean had little to crow about. His fancy offerings were plastered for 14 hits in a single.

There were new murmurings around Boston about the short-stopping of Joe Cronin, who booted two as his expensive Red Sox outslugger the lowly Athletics to gain a 9-4 verdict. Connie Mack sent in four pitchers to stop the Sox assault but they were belted for 14 hits and six passes. Boston's Wes Ferrell was worked for ten hits.

In Cincinnati it was Paul Deringer, No. 1 hurler for the Reds, who was treated rudely. The Pirates batted him from the box in the third inning and went on to win 8-5. Bud Hafey, nephew of the retired Chick, hammered out the first round-trip blow of the season in the first inning.

It was a battle of extra base hits in Chicago where the White Sox defeated the St. Louis Browns 7-6. Jimmy Whitehead and Ivy Andrews were forced to abdicate the hill in this game as the Browns collected nine hits and the White Sox three more.

The Phils took the first of what was expected to be a long series of falls out of the Boston Reds, 4-1, as Curt Davis limited the Bostonians to four safe blows. The Phils made all of their runs off Danny MacFadden in the third.

innings as the Cubs defeated the Cards 12-7. The hurling Chicago ace, Lon Warneke, also had to duck as 13 hits rang off rival bats during his seven innings of service. Billy Herman, Cubs second baseman who defeated the St. Louis Browns 7-6 last year, banged out three to signalize this year's defense of that honor, besides getting a home run and a single.

There were new murmurings around Boston about the short-stopping of Joe Cronin, who booted two as his expensive Red Sox outslugger the lowly Athletics to gain a 9-4 verdict. Connie Mack sent in four pitchers to stop the Sox assault but they were belted for 14 hits and six passes. Boston's Wes Ferrell was worked for ten hits.

24 NEW BOXES AT PARK ARE BEING BUILT

HUBER BLACKFACES TO OPPOSE 'RUNNERS' SUNDAY

Construction of 24 new boxes at Road Runner park started this morning unless unforeseen trouble crops up, the boxes will be completed by Sunday when the Road Runners meet the Huber Blackfaces in the second game of the season. Game time will be 3 o'clock with admission 25 cents for women and 40 cents for men.

The new box seats will be located in front and below the present boxes. The screen will be swung out to protect the spectators from foul balls and wild pitches.

Several of the new boxes have been sold already. Anyone desiring to secure a box or part of one should get such immediately with Business Manager Harold Miller. He can be located at the Danziger Refineries east of Pampa or by telephoning 1020.

The new boxes will be 11 inches below the present tier which will give plenty of clearance for the fans in the back row of seats. Entrance to the additional seats will be in front of the main entrance. One of the old boxes being changed to an aisle.

The Road Runners went through a stiff workout yesterday afternoon. The pitchers, all eight of them, were putting stuff on the ball and adding more speed with every pitch. The batters were finding it a little more difficult to hit the better pitching but were making a good showing, however.

A long infield workout ended the two-hour practice. At the same time the outfield was sent after long and short flies.

Manager Sam Hale reported himself well pleased with the team. The many rough spots yet to be ironed out and long practices will be held whenever the weather permits.

Although the fiery little manager has not definitely made up his mind, he will probably use Stewart Bulla, Huber Sunday Braly, last year with Coitex, may also get a chance.

Robert P. Chesney who operates a beauty shop in Denver, leads the field for distance, having smacked out for 290 yards, 15 yards farther than the previous record holder in this respect. Grover Collier, a Memphis railroadman, Chesney is modest enough to admit, however that a strong wind against a hard farway had something to do with his lengthy and accurate poke which was made on the dog-leg eighth of the Park Hill course at Denver. The hole ordinarily measures 310 yards and is a par four, but winter greens were in use when Chesney stepped up to the tee with his driver.

NEW CHAMPIONS CROWNED IN AMERICAN BOWLING CONGRESS

INDIANAPOLIS, April 15. (AP)—The thirty-sixth annual American Bowling Congress passed into history today with final division of the \$108,000 in prize money and the dismantling of the 32 alleys.

Competition ended yesterday in the minor events of the tournament with new champions crowned in the doubles, singles and all events.

Taking their places alongside of Falls City Hi Bru of Indianapolis, as 1935 title-holders were Tony Slanina and Mike Straka of Chicago, doubles kings; Charles Warren of Springfield, singles champ, and Jimmy Murphy of Indianapolis, had men in the all events. The Falls City quintet won the team championship.

The final standing showing the first five in each division follows:

Five Man Event
Falls City Hi Bru, Indianapolis 3,089
Falt Blue Ribbon, New York 3,065

Individuals
C. Warren, Springfield, Ill. 735
R. Fox, Indianapolis 728
W. Shaul, Syracuse, N. Y. 710
F. Caruna, Buffalo, N. Y. 705
E. Marek, Kansas City 704
L. Levine, Cicero, Ill. 704

All Events
J. Murphy, Indianapolis 2,006
H. Beth, Chicago 1,970
L. Exler, St. Louis 1,948
L. Levine, Cicero, Ill. 1,941
W. Burh, Chicago 1,931

AT LEAST 2 TEXANS DUE TO BE PLACED ON WALKER TEAM

Associated Press Sports Writer.

Four young Texans are having a case of nerves these days. They are David (Spec) Goldman, Reynolds Smith and Jack Munger of Dallas and Ed White, University of Texas student of Bonham.

QUADROPLETS WILL LAUNCH BALL CAREERS

BOYS WILL BAT AND THROW AT PARK IN BEAUMONT

BY HARRELL E. LEE.
Beaumont, April 15. (AP)—The world's only male quadruplets, A. B. C. and D. Perricone, 6½ years old, will launch their baseball careers at the Texas league park here tomorrow.

A batting and throwing exhibition in front of the stands packed for the opening of Beaumont's home schedule will give this potential "million dollar infield" its first test before the eyes of a critical crowd.

The lads will be watched closely from the time of their initial appearance until they show definitely whether they have what it takes to make good ball players.

Particularly will they be watched in the air of the world's champion Detroit Tigers, who have first call on the Beaumont graduates. Officials of the Detroit club don't have any doubts about the drawing power of an inner cordon consisting of quadruplets.

Rube Stuart, owner of the Exporters, is the sponsor of the Italian-American youngsters. He knows that the chances of all four making good are about one in a million but he doesn't want to let that one slip through his fingers.

"You never can tell," Stuart says. "These boys are normal, healthy children who like rough play, and it is just possible that they all might show an aptitude for the game. At any rate, it won't cost very much to find out."

The quadruplets' interest in baseball was quickened last Christmas when Stuart gave each of them a miniature bat and ball. Since then, they have laid out a small diamond in their front yard and have practiced whenever weather would permit.

That is, all of them except B, Little Bernard, or B, so far hasn't become excited over prospective sports fame and doesn't seem to care a great deal whether he becomes a second Honus Wagner. However, he was a hulk when school opened last fall but finally capitulated and soon became as good a student as his brothers or better.

That is, all of them except B, Little Bernard, or B, so far hasn't become excited over prospective sports fame and doesn't seem to care a great deal whether he becomes a second Honus Wagner. Sports Roundup

BY EDDIE BRIETZ.
Associated Press Sports Writer.

NEW YORK, April 15. (AP)—The weather man was a sport, anyway. Let's give him three long ones and a Tiger. And pray for more of the same here today.

Most of the openers ran according to the form sheet. But how about the Cubs shelling Dizzy Dean for 14 hits in six innings? And Washington nosing out the Yanks? Buck Newsom holding McCarthy's slugger to four blows may be a tip-off on the Yanks. Where's the power? Best pitching performances of the day were the four hitters turned in by Newsom and Curt Davis of the Phillies.

A few firsts at the Polo Grounds: Hal Schumacher tossed the first ball and the first strike. Junior Fray drew the first pass. Gus Mancuso was guilty of the first error. Dick Bartell made the first assist and Sam Leslie got the first putout. Joe Moore made the first hit. Big George Earnshaw is credited with the first strike-out and the first victim was Travis Jackson. Mel Ott hit the first homer and Sam Leslie the first double.

Notes of the opener: The crowd of 55,500 at the Polo Grounds indicates baseball is back on its feet again. The players are so steamed up over President Frick's anti-fraternizing order, it's hard to get a pitcher to even look at the hitter. Joe Stupp, the forgotten man of Brooklyn, was in the stands showing off with the first strike-out. He's working out with Newark and hoping for the best. Lee Ballanfant, the new umpire from the Texas league, looked O.K. Stan Bordagaray's moustache had some fine hairs fluttering. Bill Terry says that's all the Giants talked about on the bench. After it was too late to do anything about it, a rapid fan informed Terry the last time the Giants won a pennant the American flag was raised upside down.

Three sections of the District 2 interscholastic league meet will get under way tomorrow morning at 10:30 o'clock following registration at the high school gymnasium from 8 to 10 o'clock.

Tennis, volleyball and golf are the athletic contests called for tomorrow. The golf matches will be completed in one day. It will take at least two days to play off the volleyball division and the full three days to complete tennis.

Friday will be set aside for track and field contests with the preliminaries scheduled to begin at 10:30 a. m. and the finals and the rural pentathlon at 2:30 p. m.

All literary events will be conducted on Saturday.

The vast Chapada dos Veadeiros, high mesa nestled in the Goiaz hills, could produce all the wheat Brazil needs and turn out a higher grade product than is now imported from Argentina and Uruguay, experts say.

TULSANS DOWN SOONER TRIBE IN FREAK TILT

OKLAHOMA CITY GETS 14 SAFE HITS AND OILERS 8

(By The Associated Press)
The Texas league season was in full blast today with all the teams at bat—Tulsa at Oklahoma City, Beaumont at San Antonio, Houston at Galveston and Dallas at Fort Worth. The Galveston and Fort Worth games will be at night.

Tulsa defeated Oklahoma City, 6 to 3, and Beaumont bested San Antonio, 3 to 2, in openers yesterday. Houston defeated Galveston, 8 to 4, last night at Galveston in the first nocturnal contest of the season. Fort Worth beat Dallas, 4 to 1, in their opener Sunday.

The attendance of 7,500 at the Fort Worth-Dallas game was the largest reported so far at one opening contest.

Four thousand fans saw the Tulsa Oilers make the most of eight hits to down the champion Oklahoma City Indians, despite the tribe's 43 safe blows. Bryan hurried for the Oilers and the Indians used Brill-hear and Schuler on the mound. Christian brought the 5,900 fans to their feet at San Antonio with a two-run in the eighth to break a home-all deadlock and give the Beaumont Exporters their margin of victory over the Missions. It was pretty much a pitchers' game. Billanfant started, was hit hard for five innings but good fielding helped him along. Miller replaced him in the sixth and allowed only one hit—Christian's circuit drive. Bratton and Ware held the Missions to nine hits.

The Houston Buffs scored their victory over the Galveston Buccaneers before 4,203 paying fans. The Buffs were consistent in at least one thing. They haven't won an opening game since 1931. Bob-Ross blanked the Buffs seven innings and did not allow on the mound until pinch-hitter Monk Keith hit a homer with two down in the final frame. Jack Jakucki, starter for Galveston, was sent to the showers in the sixth. He was relieved by Cohen who turned the mound over to Eaves in the eighth.

SRAMBLED
ALMYRA, Ark.—Today's nature story: R. R. Jones said until recently his chickens were normal in all ways and laid normal eggs. Then came a wild storm that badly damaged his hen house. Now all the hens lay double-yolked eggs, he said.

FEDERATION PROGRAMS ARE HEARD IN TWO STUDY CLUBS

CULTURE CLUB STRESSES THE TEXAS THEME

TOPICS ON EDUCATION ARE COMBINED ON PROGRAM

Combining two programs, one postponed from the last meeting date, Twentieth Century Culture club heard discussions on education and federation yesterday afternoon. Mrs. Neil McCullough was hostess at her home. Mrs. Neil Gaut was program leader.

The report from Mrs. Carl Boston, club delegate to the recent convention of federated clubs at Lubbock, stressed the Texas Centennial theme that featured the convention. Mrs. Gaut spoke on "The Texas Federation's Part in Centennial Celebration."

She told of club women's work in supporting the Centennial, and of their efforts to spread information on Texas during the past two years, in preparation for this year's celebration.

Educational topics were presented by Mrs. Olin E. Hinkle and Mrs. J. P. Wehrung. Mrs. Hinkle's subject of Unprejudiced Teaching of Controversial Subjects. She pointed out that the superintendent's division of the national educational association this year urged the teaching of such subjects in public schools, but without propaganda.

Most important of the controversial subjects is that of varying forms of government, she said, adding that insistence upon teaching only democracy was itself a violation of the principles of democracy.

Supr. R. B. Fisher of Pampa schools, Mrs. Hinkle said, has announced that different theories of government will be presented to students here more in the future than in the past, and that classes will always be open to visitors who may see that no unAmerican propaganda is being taught.

Mrs. Wehrung spoke of the new use of talking pictures as an educational medium. Visual education has long been recognized as an effective method of learning, she said, and motion pictures offer a further step which enables the student to explore the world from the classroom.

The average student learns 20 per cent more of the average subject through use of motion pictures she continued, and the medium can be used in teaching almost every subject. Development of sound film equipment is making it less expensive, and is expected to place it within reach of every progressive school soon.

Looking Toward Senior High School, will be the topic of the main talk to Junior High Parent-Teacher association tomorrow afternoon, when it meets at city hall auditorium at 3:15. L. L. Bone, high school principal, will be the speaker.

Newly elected officers, who are to be installed at this meeting, will meet at 3 o'clock in Principal R. A. Solby's office to name committee chairmen for the coming year.

On the program, in addition to Mr. Bone's talk, will be songs by the seventh grade chorus and the seventh and eighth grade quartets which won in recent room contests in the school.

Kirby Speaks in Revival Services

The sermon subject for this evening at the McCullough Methodist church, where the Rev. J. E. Kirby, of Wheeler is conducting a revival, will be "How Are You Polks?" It was announced this morning by the Rev. Lance Webb, pastor.

Services begin at 8 each evening. A large crowd was present yesterday to hear a sermon on What Jesus Has Done for the World. "Jesus has given us our most significant idea of God—the idea of a loving father instead of a changeable battle leader," he said in part. "He has shown men freedom, even in economic slavery, and has demonstrated the life triumphant."

Musical at the service Friday evening will include numbers by the Sam Houston school band.

University to Give Courses in Nursing

AUSTIN, April 15.—In cooperation with the Graduate Nurses association, the University of Texas will offer several courses in nursing education and public health nursing in its 1936 summer session, according to Registrar E. J. Matthews.

These courses are principally designed for the teacher, and will be conducted on the work offered by the University College of Nursing at Galveston.

Each of these courses provides two hours university credit. The courses in nursing education are to be conducted by Miss Elsie M. Mauser, and the public health nursing course by Miss Helen LeCheur. These instructors were nominated by the Graduate Nurses association.

DELEGATES TO DISTRICT BPW CONVENTION THIS WEEK-END ARE NAMED AT CLUB SESSION

Centennial Project Is Adopted for Celebration

Christine Cecil was elected delegate and Oree Brock alternate from Business and Professional Women's club here to the district convention in Childress this week-end, at a business meeting last evening in city club room.

A project for the Centennial celebration here was adopted by the club, which will plan entertainment to honor pioneer women of the Panhandle.

Changes in club rules and meeting arrangements were adopted on recommendation of the executive board. It was decided to omit any program numbers at future business meetings, and to delegate more powers to the board. This move is designed to expedite business.

Archer Fullingim spoke to the club on the subject, "Public Opinion is Everything." He discussed effective club publicity and gave practical suggestions for securing the best type of publicity.

Members present were Frances Stark, Ruth Certain, Lillian Jordan, Clara Lee, Shewmaker, Grace Pool, Mildred Overall, Oree Brock, Dee Polson, Gladys Robinson, Lotie Schneider, Katie Beverly, Ann Johnson, Christine Cecil.

Bridge Party for Merry Mixers Is Given Yesterday

Mrs. Roy West entertained Merry Mixers club with bridge at her home yesterday afternoon. Mrs. C. G. Kiehl and Mrs. P. M. Ferguson were the special guests included at the two tables.

Members playing were Mmes. B. C. Fahy, Otto Patton, J. B. Appling, H. O. Simmons, and F. H. Meskinen. Mrs. Kiehl scored high for guests. Mrs. Meskinen high and Mrs. Fahy low for members. Cut awards went to Mrs. Patton and Mrs. Simmons.

Angel food cake, ice cream, and punch were served, carrying out a pink and green color note that was stressed in the games.

New P. B. B. Club Committees Are Named for Year

Heads of committees for the new P. B. B. club were appointed at a business meeting Monday evening. Organization was perfected recently, and officers chosen by the young business women who make up the membership.

Miss Billie Noah is to be membership chairman, Miss Lorene Nicholson hospitality chairman, Miss Hildred Brake ways and means chairman, Miss Kay Walker program chairman, Miss Clotilde McCullister recreation chairman, Miss Luella Wade publicity chairman.

The next meeting will be on April 27, in the Vincent studio room of First National bank building.

Friends Gather at Hilton Home

LEFORS, April 15.—Mr. and Mrs. Ora Hilton were hosts to a gathering of friends Sunday at their home. In an Easter egg hunt, prizes went to Miss Christine Smart and Earl Husband.

Old fashioned games were played, and the small boys enjoyed a calf riding contest in which Royal Hemling and Earl Husband received prizes. A picnic lunch of barbecued chicken, sandwiches, salad, pie, cake, and coffee was served.

Present were Mr. and Mrs. C. L. Lance, Leo and Verne; Mr. and Mrs. C. A. Robinson, Earl and Carol; Mr. and Mrs. C. W. Stonecipher, Christine, Donald, and Paul; Mrs. W. E. Lessert; Mrs. O. G. Smith, Ray, June, and Wanda; R. Hemling, Royal, Marcelle, Carol, and Harvey, all of LeFors; Mr. and Mrs. G. L. Smart, Christine and Maxine, and Mrs. Lydia Smart, all of Berger; Mrs. Bob Green and son, Robert; Mr. and Mrs. J. R. Pendergraft; Johnny Pendergraft, and Miss Rosalee O'Grady of Pampa.

Youthful foreigners lodged in the reich's many youth hostels increased from 85,000 in 1934 to 110,000 in 1935.

Young Sophisticated Princess Dress

That Buttons Right Up to a Smart Shirt Collar

By ELLEN WORTH

Here's something for juniors to be thinking about making. For it is just a one-piece affair—no waistline seams to join. It has short sleeves with attractive cuffs.

It won't make any difference whether you carry it out in cotton, linen or tub silk—you'll adore it!

Cotton shantung in daffodil yellow with brown buttons and brown grosgrain ribbon tie, is pictured.

Cotton challis print is as smart as can be in this model.

Another idea is cotton pique—dark green with white polka-dots, with plain white collar and cuffs.

For more important occasions, there's white tub silk. For bold contrast use Kelly green buttons, collar, cuffs and tie.

Style No. 1745 is designed for sizes 11, 13, 15, 17 and 19 years. Size 15 requires 3 1/2 yards of 39-inch material.

Our Illustrated Home Dressmaking Spring Book will enable you to have smart clothes and more of them for less money. Each step in the making of a dress is shown with illustrated diagrams. Send for your copy today.

PROGRAM FOR NEXT YEAR IS SHOWN FORUM

Though victorious in her suit, lovely Sylvia Sidney apparently was sad, in court at Los Angeles, as she won an uncontested divorce from Bennett Cerf, book publisher with whom the film actress lived only three months after their Arizona marriage last October. Miss Sidney testified Cerf's opposition to her career blasted their romance.

Class Asks New Members to Lunch

Prospective members are being especially invited to a covered dish luncheon for Three-H Bible class of First Baptist church, at the home of Mrs. Rob Seeds, 712 W. Francis, tomorrow at 1 o'clock. Members in service are also invited.

The class is conducting a membership campaign this month. Mrs. Tom Duvall is teacher. Mrs. T. E. Rogers president, and Mrs. John Browning secretary of the class. Vice presidents in charge of various class activities are Mmes. D. W. Slaton, C. H. Schuikje, Seeds, L. A. Baxter.

Other members are Mmes. Hattie Hefflin, C. A. Barnes, J. B. Cox, R. K. Douglas, C. E. Lancaster, Flora Mitchell, J. W. Munn, O. P. Thorp, Ruby Waters, J. E. Carlson, J. B. Green, G. C. Malone, J. S. Neely, Joe Neel, Guy Riggs, N. L. Welton, J. M. Wilson, W. H. Irving, and A. A. Neel.

Church Damage in Floods Told

Stirring accounts of flood damage in the East, especially to churches and church members, were given to the Men's Brotherhood of the First Presbyterian church last evening by the minister, L. Burney Shell.

Mr. Shell described the work of the central board in helping to rehabilitate churches. Supplies lost in the floods are being replaced. Churches of the nation are being asked to make relief offerings equal to one per cent of their annual budget.

Records solos were played by little Brent Blonkist Jr. Clyde Fatheree presided.

Cotton Seed Meal Good for Cattle If Fed With Hay

KANSAS CITY, April 15.—(AP)—Cotton seed meal, believed by many livestock men to be injurious to dairy cattle, is in reality beneficial when combined with prairie hay, the American Chemical society was told today.

Indications that cod liver oil contains food values other than vitamins also featured the report made to the society by Willis D. Gallup, assistant chemist at Oklahoma A. & M. college.

The tests showed that when the prairie hay or green roughage was not combined with the cotton seed meal, a bloated condition resulted, at times accompanied by blindness, Gallup said.

Cod liver oil cured the condition. In an effort to determine if vitamin A in the oil made the difference, the calves were fed other food rich in the vitamin but they did not pick up weight satisfactorily. But when the cod liver oil was fed even in such a manner as to be low in vitamin A the results were satisfactory.

"It is believed from these experimental results that cod liver oil supplies food factors other than vitamins A and D or else that these vitamins are utilized to a greater advantage when supplied in this form than when supplied in certain other forms."

DEFENSE PLANNED

LONDON, April 15.—(AP)—Officers of the British, French and Belgian army general staffs gathered in London today to start drafting plans for defense cooperation in the event of European war. The beginning of the tri-power general staff conferences, arising from Germany's remilitarization of the Rhineland, coincided with preliminary Italo-Ethiopian negotiations at Geneva, under the auspices of the League of Nations, for East African peace.

Career Wins

Though victorious in her suit, lovely Sylvia Sidney apparently was sad, in court at Los Angeles, as she won an uncontested divorce from Bennett Cerf, book publisher with whom the film actress lived only three months after their Arizona marriage last October. Miss Sidney testified Cerf's opposition to her career blasted their romance.

The Social CALENDAR

THURSDAY

Mrs. George Alden will entertain Hi-Lo club at her home.

Junior High PTA will meet at the school building.

Carolettes club will meet with Miss Eleanor Patrick.

Rebekah Lodge will meet in I. O. O. F. hall, 8 p. m.

El Progresso club will meet at city club room, 2:30, for an art program, followed by an art exhibit open to the public from 5 to 6.

FRIDAY

Mrs. J. L. Stroppe will be hostess to Priscilla Home—Demonstration club, 1 p. m., for cake making demonstration.

Merton Home Demonstration club will be entertained with a party in the home of Mrs. Alva Phillips.

Order of Eastern Star will have a regular meeting at the Masonic hall, 8 p. m.

Alathean Class Meets at Lunch

A social meeting of First Baptist Alathean class was conducted at the church Tuesday afternoon. The opening prayer was led by Mrs. Webster Johnson, and the business meeting was conducted by Mrs. A. W. Windom after lunch.

Present were Mmes. Jack Dunn, Max Robinson, Haskell Dill, Maurice Robinson, Buell Robinson, Johnson, and Windom.

CANADIAN NEWS

CANADIAN, April 15.—Miss Nettie Lawrence of Shattuck, Okla., and Jessie Cade were married Sunday afternoon at Shattuck.

Mr. and Mrs. Thomas Jones and E. A. Nolen attended the sunrise Easter service in the Widhita mountains near Lawton, Okla., Sunday morning. They were much impressed by the four-hour pageant, staged in an outdoor setting similar to the hills of the Holy Land.

Ben Dorsey of Arnett, Okla., was here on business yesterday.

Mr. and Mrs. Harry King were here from Lipscomb county yesterday.

ADDRESSES P-TA

Mrs. C. T. Hunkapillar of Pampa was the guest speaker Monday at a meeting of the Parent-Teacher association at Panhandle. Her address was the program feature, and Mrs. Hunkapillar was entertained afterward as honor guest at a reception and tea.

Virtually every Kansas county is requiring direct relief clients to plant vegetable gardens.

BAKER NAMES DELEGATES TO P-TA MEETING

GUESTS GIVE TALKS AND PLAYLET ON PROGRAM

Plans for assisting in the district Parent-Teacher conference here April 22-24 were made by B. M. Baker association at its meeting yesterday afternoon, when delegates were chosen and Mrs. A. A. Day was named to the conference transportation committee.

The official Baker delegates are Mmes. J. H. Hummel, Mackey, C. E. Simmons, Earl Roof, H. T. Cox, L. H. Anderson, M. D. Dwight, J. A. Meek, Ralph Stine, Claude Lard, C. L. Kurtz, Jack Ross, Cecil Lunsford, Day, W. G. Irving, Proper, N. A. Elliott, J. N. Miller, White, and Roy Holt.

C. E. McKenzie, minister of Francis Avenue Church of Christ, was the speaker at yesterday's meeting on Responsibility of the Home in Teaching Citizenship.

Other program guests were a group of pupils from Sam Houston school, who presented a library skit; Mrs. L. K. Stout of Sam Houston, who spoke on recreation; and Mrs. Frank Shottwell of Woodrow Wilson PTA, who gave the invocation.

Officers for next year were installed by Mrs. Lard. Mrs. Holt heads the group as president.

Mothers of sixth grade pupils acted as hostesses and served chili bars after the program.

Hollywood Sights And Sounds

BY ROBBIN COONS.

HOLLYWOOD—Gunga Din, the boo-boo-boo bull of the movies, brings to his screen career an idiosyncrasy that will probably place him on the list of temperamental stars.

Gunga Din cannot abide perfume. He will let Bing Crosby boo-boo in his ears until the cows come home (begging your pardon) but perfume he will not tolerate. Wray Bergstrom, Gunga Din's personal representative, and John Cooper, the bull's bodyguard, spread the warning as they brought their prize-winning charge to work on the day "Rhythm on the Range" went into production.

They made it clear that Frances Farmer, Bing's leading lady, could be as sweet as a flower if she chose but must never wear the scent of one.

Gets 'Snorting Mad'

"Don't know what it is about Gunga Din," declared Bergstrom, "but it makes him snorting mad to be within smelling distance of a fancy scent. Maybe he doesn't want the cows at home to think the worse of him when he gets back from his job in Hollywood."

Gunga Din had retired to his "dressing room" during preliminary scenes this first day. A mock section of Madison Square Garden, sawdust-floored for the big indoor rodeo, had been constructed for the occasion. Hundreds of extra cowboys and the tiers of seats while Director Norman Taurog, out in the arena with his camera, put through a few shots of professional rodeo stars roping galloping steers.

Cowboy Crosby strolled nonchalantly about the arena, milked a cow between scenes to show he could, and affirmed his success in learning to roll his own cigarets.

Crosby Gets a 'Break'

Neither Crosby nor Cowboy Bobby Burns, another actor, will have to undertake any fancy riding or roping, although Burns is plotted to win a prize at such tricks in order to get money to buy Gunga Din, for Bing. Gunga Din, in the story, belongs to Heroline Frances Farmer.

In the pre-luncheon shot Cowboy Crosby did a close-up walk over the sawdust with a steer. He feinted and side-stepped, ducked and dodged, while the cameras purred.

Meanwhile, Gunga Din, unconcerned about his movie debut, rested his massive shining hulk in his private pen, reflecting—no doubt—that few movie stars, not even Crosby, rate a weekly bath in bay rum and olive oil.

Bay rum, it seems, is the one scent Gunga Din does not resist. That, says Spokenberg Bergstrom, is because the oil neutralizes the odor.

'Veteran' of 15

From the time she followed a line of trained dogs on the stage in France, when she was only 15 months old, Olympe Bradna, now 15 and Hollywood's latest French importation, has been trouping it. She comes from a family of circus performers, and she's no slouch at acrobatics. You'll see her soon in her first American film role.

Jolly Nine Club Is Entertained in Rhoades Home

Jolly Nine bridge club, meeting in the home of Mrs. Dick Rhoades yesterday, was entertained with games in which Mrs. Harold Kiser scored high and Mrs. T. A. Rhoades low. Mrs. A. C. Lovell and Mrs. T. A. Rhoades were club guests. Members present were Mmes. Rex Taylor, Virgil Lundberg, Bill Peed, L. E. Brickell, and Kiser. Delicious refreshments were served to close the afternoon.

DELEGATE OF CHILD STUDY CLUB REPORTS

A vivid picture of events at the recent district club federation meeting in Lubbock was presented to Child Study club yesterday by its delegate, Mrs. N. F. Maddux. Members met in the home of Mrs. T. C. Lively.

The federation program also included a talk by Mrs. W. C. Hutchinson on Who's Who in the Federation. Mrs. Lee Harrah was leader.

The program was combined with one postponed from the last meeting day, on health. A paper prepared by Mrs. A. N. Dilley, outlining medical progress and recent discoveries, was read by Mrs. Frank McAfee.

Members present were Mmes. S. C. Evans, W. J. Foster, Harrah, John B. Hessey, Hutchinson, Maddux, McAfee, Luther Pierson, H. C. Schofield, T. C. Shaw, Roy Tinsley, Sherman White, Earle Schleg, A. L. Patrick, and a new member, Mrs. Tom Darby.

Pioneer Women Will Assist in Annual Program

A special program number for the Centennial revue presented by the Vincent studio this evening at 8 will be a vocal solo by Mrs. A. H. Doucette, member of a pioneer Pampa family. Pioneers are to be the honor guests at city hall auditorium, where the public is invited.

Mrs. E. A. Shackleton and Mrs. H. H. Heiskell, other old time residents, will direct an old fashioned style show number in the revue. Mrs. Katie Vincent will act as official hostess to greet the old timers.

This revue follows a pre-Centennial program given by the studio last year and attended by many pioneers of this section. Kathryn Vincent Steele is director.

BLANTON AND ZIONCHECK IN VERBAL TILT

FIST FIGHT NARROWLY AVERTED IN HOUSE BY 2 SOLONS

WASHINGTON, April 15. (AP)—An angry altercation over deletion of remarks from the Congressional Record embroiled Representatives Zioncheck (D-Wash.) and Blanton (D-Texas) in a verbal tilt on the house floor today that had first appearances of developing into a fist fight.

Zioncheck said he had remarked at one time that Blanton was a "son of a Texan," adding: "I'm going to take 'Texan' out." Blanton jumped from his seat, walked back to where Zioncheck was standing, while colleagues tugged at the arms of both, they engaged in an exchange that brought flushes to their faces, but could not be heard in the galleries.

The trouble arose over the Washingtonian's questioning the right of Representative Boylan (D-N.Y.) to delete some of the former's remarks from the Record. Zioncheck said he had stated that Boylan would not yield to him because the New Yorker could not answer his question, and that Boylan had "sneaked and surreptitiously" suggested the reporting service that the remark be taken from the Record.

He conceded he was wrong in making the statement without recognition from the speaker, but said Boylan had no right to expunge it. Boylan spoke for 15 minutes in defense of his action and Speaker Byrns observed that he had acted within his rights.

Blanton interjected that "the gentleman from New York would have been in his rights if he had wiped it out himself." With a glance at Blanton, Zioncheck snapped: "I long ago learned not to describe the beauty of a morning sunrise to a cat."

'Summer-ize' Service Again Available Here

DALLAS, April 15.—Drivers of the many new cars on the highways this spring are learning the importance of a semi-annual check-up for summer driving protection, as indicated by the large number of new automobiles receiving "Summer-ize" service at Magnolia station, Fred M. Lege, Jr., vice president in charge of marketing for the Magnolia Petroleum company, reports.

"Summer-ize," the 7-point protective service provided by Magnolia stations and dealers, safeguards new cars, whose long life and economical operation will depend largely on the care given them during the first six months," Mr. Lege said. "This service for cars of any age prepares them for smooth, safe operation all summer and eliminates many expensive hot weather driving troubles."

"Summer-ize" service includes seven distinct operations worked out by Magnolia automotive engineers as those most necessary to protect a motor vehicle against the high temperatures of summer driving," Mr. Lege said. "In addition to draining the crankcase of dirty, winter grade oil and refilling with summer Mobil oil, the battery and differential are drained of winter lubricant, cleaned and refilled for summer driving. A thorough grease job of Mobil lubrication is performed according to manufacturer's charts and recommendations. The radiator is drained of anti-freeze solution and cleaned. The battery is checked and filled with distilled water, corrosion is removed and terminals are greased. The gasoline tank is filled with Mobilgas, which has been adjusted for summer driving."

RANGER FOR SHERIFF
SAN ANTONIO, April 15. (AP)—D. E. Hamer, formerly a captain of the Texas Rangers, has announced as a candidate for sheriff of Bexar county in the July democratic primary, opposing Albert W. West Jr., seeking re-election. Mr. Hamer, native of Pleasanton, Texas, punched cattle in New Mexico, Arizona, Mexico and Texas before becoming a Ranger. He resigned as senior ranger captain last year and established residence here.

For Sheriff: EDWARD WILEY (Re-election) For Constable, Precinct 2: OTIS SHENKHX H. S. SHANNON (Re-election) YOUNGER COCKRELL I. S. JAMESON

Oil News and Notes

WASHINGTON, April 15. (AP)—Protests against a house bill proposing federal control of the interstate natural gas industry came today from a Kansas corporation commission official and two natural gas companies.

Rep. Carpenter (D-Kan.) read to a house interstate commerce subcommittee a letter from Charles W. Steiger, general attorney for the commission, in which Steiger said the legislation would vest in a federal agency much jurisdiction the state body now has and added that production control was more important than the gas consumer in the "smart thing to do insofar as Kansas is concerned is to withhold passage of this bill and start at the other end."

The oil industry chucked over more proof of the driller's adage that "only a dry hole can stop an oil field." In the northern Oklahoma City field Governor E. W. Marland went on winning his "oil war" by pushing state wells on state land where the city says he can't drill.

Down at Austin, Texas, the Railroad commission gave drilling permits that will send big steel derricks and rotary drills into a smart residential area—over the protests of property owners.

Socony-Vacuum, in contracting for leases on about 5,500 acres in the Rodessa field in Texas and Louisiana.

Refiners took note of the recommendation of the supply and demand committee of the American Petroleum Institute that there should be a reduction in the amount of crude run to stills in order to offset an anticipated oversupply of gasoline in storage.

Marketing conditions in the crude production end of the industry remained about the same with no material changes noted in the price for crude. Wholesale gasoline prices remained stationary.

Unseasoned over where flush production in the new Rodessa field might result in a flood of excess oil to undermine the crude price structure.

CHAPTER XVII

For the rest of the week Toby saw Tim Jamieson or had some word from him every day. They had dinner together twice and then Toby had an evening assignment and had to work. She made it up to Tim by lunching with him next day—a luncheon at a hotel where Toby, whenever she happened to walk past, had looked curiously at the men and women entering or leaving. She was sure they must be very rich or celebrities of some sort. Toby had never expected to enter those doors herself.

She was impressed by the fact that the head waiter seemed to know Tim, greeted him effusively and called him, "Mr. Jamieson." But then, it was that way most of the places they went. Tim sent her an enormous box of roses, long-stemmed and fragrant. He said they reminded him of Toby as she had looked in the rose-colored evening dress she had worn in the fashion show. The roses were beautiful and Toby lifting them from the box, had buried her face in the blossoms, drinking in their sweetness. But the card that came with them was more precious. She took it from the little white envelope and read: "To remind you that certain had can't stop thinking about you—Tim."

The flowers faded and dropped after a few days, but Toby kept the card. She had to break a date with Bill Brandt. She was sorry about that, but Tim had promised to take her to a new place and, of course, she could see Bill any time. She rather wanted to see Bill, to tell him all the things she had been doing lately. Bill was such an old friend. Her very oldest. It didn't seem right to Toby that, when life had become so exciting, Bill shouldn't know about it.

It was Harriet Holm, though, in who she confided. Harriet had seen Tim and agreed with Toby that he was handsome. The two girls sat in a restaurant a few doors from the building where the Models' League had its office. Harriet broke the edge from a butter cake and said, "He certainly seems to have fallen for you. And in a hurry, too!"

"Well," Toby said, "it was not really in such a hurry. I mean I told you how we kept meeting each other, just by accident. And I wouldn't give him my telephone number or tell him where I lived or anything. But it didn't seem to make any difference. I'd go some place—and there he'd be. It seems funny now when I think about it."

"I suppose," Harriet interrupted, "that sometimes it happens that way. You see someone and decide right away that's the right one for you."

Toby nodded solemnly. "Yes," she said, "sometimes I suppose it does."

"It wasn't that way with Clyde and me," Harriet went on. "I met him several times at parties and places before he even asked for a date."

"Clyde? Who's he?"

Toby shook her head.

Harriet said, "That's funny. I guess I thought everybody knew about him. We're going to be married—well, as soon as everything gets settled. His name's Sabin—Clyde Sabin. As soon as he gets back—he's on a business trip—I want you to meet him. Maybe we can go out together some evening—you and Tim and Clyde and I."

"I'd love to," Toby said. "Oh, Harriet, I didn't know you were going to be married! Why didn't you tell me?"

The other smiled. "I don't know. Aren't you excited about it?"

"Yes. When I can believe it's really true. You see, we've waited quite a while. I hope it won't be much longer. Maybe—maybe it will be June. Clyde said just before he left that he thought it could be in June."

"Tell me about him. What does he do?"

"Well, he has quite an important job. He works for a company that makes office equipment—adding machines and addressographs and things like that. They send him out of town a lot and he brings in big contracts. He's not exactly good looking—at least I don't think so. But he's big and he dresses well, and altogether, I think he's pretty grand."

Toby said, "I'm sure he is." What was surprised, though, at what Harriet had said, Toby had supposed it was lack of money that had postponed Harriet's wedding; with most young people it seemed to be that. But if Clyde Sabin had such a good job, it couldn't be money. She wondered what was

delaying the wedding plans, but she didn't want to seem curious or ask questions.

So she turned to another subject. "There's something I've been wanting to ask you, Harriet," she said. "I'd like to move from the place where I'm living. It's so dingy and sort of run-down. Not very convenient, either. Of course, it's cheap, and I was glad to find it when I was working at Bergman's, but I can afford something better now. I was wondering if you might know of any place—"

"Why, yes," Harriet said. "I'll help you look if you want me to. What sort of place do you want? Something furnished, I suppose?"

"Yes. Just a room and a bath and maybe a little place to do some cooking when I feel like it. I know I can't afford anything as nice as yours but I want a room that's clean, and it would be nice to have a little sunlight once in a while. I'd like to find something in this neighborhood if I could. Most of the studios seem to be near here. Of course, I can't afford to pay a lot."

Harriet nodded. "You ought to be able to find something," she agreed. "Before I found my place I think I looked at every room that was for rent within a mile either way. Let's see, I ought to be able to remember—"

She stopped suddenly. "Why," she exclaimed, "I don't know why I didn't think of it before. It's—yes, of course, it would be all right."

"Just this. Why don't you move trying to save some money lately. I've got to have some new clothes when I'm married, some really nice ones. I'd be glad to have you come in with me if you'd like to. It will cut my rent in half, and be cheaper for you, too. I'm sure we'd get along together—"

"But it wouldn't be fair for me to pay only half the rent. You own all the furniture."

"That doesn't make any difference. I'd use the furniture anyway, wouldn't I? No, it will have to be 50-50. And it isn't as though he'd be crowded. There's plenty of room. The davenport is really a full-sized bed and there's plenty of closet space. Oh, I think it's a grand idea."

Toby moved into Harriet's apartment the next day. Her rent was paid at Mrs. Moeller's until the end of the week, but there seemed to be no reason to stay there. She had loved Harriet's big sunny quarters every since she had first seen them.

And now Toby was sure that some magical force was at work in the world, turning everything that had been harsh and disagreeable into paths of pleasantness. Calls for her at the studios increased and her earning doubled. Her smile seemed to have taken on a new radiance. Art directors commented on this. Photographers twitted her

about it, accused her of being in love.

Of course, they couldn't really know. She never let Tim come to the studios. Usually they met where they were to have dinner. Tim was continually finding new places. One was an old mansion, cavernous and dimly lighted, where a gypsy orchestra played haunting, unfamiliar tunes, and a dark-haired, dark-eyed youth sang. The words were in a foreign language, but Toby knew they were love songs.

Afterward, driving through the park, Tim drew her into his arms. The lights along the drive, like gay, golden balloons, gleamed in the distance. Beyond, against the black sky, loomed the spangled pinnacles of mid-Manhattan. To Toby it was suddenly fantastic—a dream world, imaginary, unreal.

Tim's arms stole closer and he said, "You're a sweet little thing, Gorgeous." And suddenly he kissed her.

Toby said, "Oh Tim—" It was barely a whisper.

He kissed her cheek then and her temple and her eyelids. He said once more, "You're sweet."

Toby was sure that none of the poets have ever put such music into words. She closed her eyes for a moment, nestling closer to his shoulder. And she thought, "All my life, I have waited for this moment."

They rode in silence. And presently they were at her door and Tim was helping her out of the cab. He said, "I'll call you tomorrow, sweets." And she said, "Don't forget!"

He wouldn't, of course. He had called her every day for a week. She let him kiss her again, standing in the entrance of the building. She said goodnight then and hurried up the stairs. In all New York there was no girl happier than Toby Ryan. She would have sung out her happiness from the house tops, if she could. She wanted the whole world to know that Timothy Jamieson, the handsomest, the most wonderful, the most altogether marvelous young man in the world, was in love with her—with her, Toby Ryan. It was really true!

For three days Toby enjoyed her paradise.

Centennial Plans Are Discussed by Jaycees at Meet

Tuesday's Junior chamber of commerce meeting was all business with chief discussion centering on the Panhandle-wide Centennial celebration and goodwill trips.

Directors and general chairmen of centennial committees will meet at 7:30 o'clock Thursday night in the Board of City Development rooms in the city hall. President Tommy Chesser and Dick Hughes, general committee chairman, urge directors, alternate directors, and all "majors" to be present. At that time the centennial cowboy band will be named.

May 1 has been set as the deadline for members to start wearing big hats and cowboy boots, with June 5 the final date. The penalty for not appearing in regalia will be from 4 to 40 hours incarceration in the city bastille.

Last night Jaycees and Pampa business men attended a box supper at Bell schoolhouse, leaving the city hall at 7:30 o'clock. On April 23, at noon, a picnic will be held at the Grandview schoolhouse.

Jaycees will supply cars to take delegates attending the 8th district conference of Parent-Teacher associations through the oil fields on April 22, leaving Pampa at 5 o'clock.

A square dance will be held in the high school gymnasium on Friday night. Admission will be 40 cents. The orchestra will be on the stage and the full gymnasium floor will be used for dancing. Callers will use a loud speaker system.

Visitors today were Mike Beard, B. W. Rose, and Max Ellis, Amarillo.

CANYON LIQUOR SOLD
AUSTIN, April 15 (AP)—One cent difference between high and low bids on 124 cases of contraband liquor sold at Canyon was reported by Sheriff Bob Barnett today to the Liquor Control board. An Amarillo concern purchased for \$1,252.51 the liquor seized from a truck transporting the unstamped products. Proceeds were assigned to the old age pension and school funds. Other auction sales, the board announced, would be held in Dallas April 20 and New Boston April 22.

Dairy experts expect that more milk will be produced in the 12 months ending with June, 1936, than in any corresponding period on record.

Electric Refrigerators are Built for Hot Weather

In hot weather you really need good refrigeration. The demand for ice cubes increases because hot weather promotes thirst. Frozen desserts and salads become more delectable and are served more often, if they can be made promptly. And, it is in summer time that the danger from tainted food is greatest.

During the past ten years various manufacturers have designed and built millions of electric refrigerators. At first food preservation was permanent to the American housewife. Then she became impressed with the necessity for fast freezing of ice cubes and desserts. To these were added beauty, convenience, much lower prices, increased efficiency, and unquestionable dependability.

The new electric refrigerators were built to satisfy the demands of the American housewife, no matter how hot the weather.

SUICIDE SEEN IN DEATHS OF CALIFORNIANS

CRUDE BOMB EXPLODES IN CAR; 2 OTHERS ARE INJURED

LOS ANGELES, April 15 (AP)—Police today injected a suicide motive into a bomb explosion which killed Dr. William D. Moriarty, 59, University of Southern California professor, and his wife, Dorothy, 55. The blast occurred last night as the couple was riding with Harley McCoy, 40, insurance and mining man, and his fiancée, Miss Eleanor Thonis, 31, in McCoy's small sedan near the Hillcrest Country club.

In a fearful moment before the detonation, Miss Thonis said she turned and saw the bomb in Dr. Moriarty's hands, his wife beside him on the back seat.

As he hurried to the floor, Miss Thonis said she attempted to leap from the car. Her back and head were burned and lacerated by the explosion. McCoy was seriously injured, part of one ear being blown off.

Capt. Blaine Stead of the police homicide squad said he concluded Dr. Moriarty, an economics expert, touched off the crude black powder bomb in despondency over financial losses from California and Mexican mining speculations.

Prof. T. H. Ross, director of business research at U. S. C., where Dr. Moriarty taught economics, was reported by Capt. Stead as saying an intimation of suicide had come a few days ago.

"I won't be here next year, and I'm going to take a lot of people with me," Dr. Moriarty was quoted as declaring. Prof. Ross said he did not take the statement seriously at the time.

From his hospital cot, McCoy told police Dr. Moriarty had asked to go on a pleasure ride last night, taking his wife and their dog with him.

"He seemed to be in high spirits, although he had recently suffered some business reverses and I had heard him threaten suicide several times," McCoy related.

"I looked back and noticed he was holding something in his hands. Then he said:

"Look what I've got!"

"I saw it was a bomb."

The explosion shattered the machine and also killed the Moriarty dog.

The couple have one son, John Moriarty, U. S. C. and University of Washington graduate, who is connected with the federal bureau of foreign and domestic commerce.

For every dollar paid out in taxes in Chicago in 1934 32.4 cents was spent for education.

MARKET BRIEFS

NEW YORK, April 15 (AP)—Slow but persistent buying in specialties brought rallies in today's stock market ranging from fractions to 2 points, generally, and 5 or more in scattered instances.

Recovery sentiment seemed to receive stimulus from the brightening economic picture. The close was firm. The turnover was around 1,500,000 shares.

Sheep, 6,000; spring lambs 10-15 lower; opening sales fed lambs steady; choice 68 lb. native spring lambs 11.50; top wool lambs to shippers 11.10; orders to packers 10.75-11.60.

CHICAGO GRAIN

CHICAGO, April 15 (AP)—Increasingly adverse weather reports and crops news dominated the wheat market today, and hoisted prices, particularly as dealings drew to an end.

A revival of cash demand for wheat to be shipped out of Chicago was a further bullish influence. Late reports told of dust storms today both in Kansas and Nebraska.

Wheat closed firm, 1 cent to 1 1/2 cents above yesterday's finish. May 98-98 1/2, July 90 1/2-2, corn 1 1/2-1 1/2, up, May 60 1/2-61, oats 1 1/2-1 1/2, advanced, and provisions unchanged to a rise of 5 cents.

Sept	88 1/2	87 1/2	88-88 1/2

NEW ORLEANS COTTON

NEW ORLEANS, April 15 (AP)—Activity remained at a low pace during the morning. The change in the weather the past two days has discouraged speculative buying in new crop months.

While Texas and Oklahoma remain dry, the remainder of the belt is experiencing good planting weather.

May sold at 11.22 just before noon, while July changed hands at 10.94 and October at 10.32.

Illness Takes 9-Year Old Boy

James Calvin Hamlin, 9, son of Mr. and Mrs. W. E. Hamlin, died last night in a local hospital following a short illness. The family resided at the Shell Petroleum corporation's camp west of Pampa.

Survivors are his parents, two sisters, Lela and Barbara Ann, and three brothers, Joseph, Glen, and David, all at home.

Funeral services will be conducted at 3 o'clock tomorrow afternoon in the chapel at Pampa Mortuary by the Rev. John Mullen, pastor of the First Christian church. Burial will follow in Jericho cemetery.

Sailing is a favorite sport on Elk lake; nearly a mile above sea level in the Deschutes national forest, Oregon.

The manufacture of cadmium, used for pigment and in fireworks and ammunition has begun in the Bartlesville, Okla., mine district.

New arrivals at the Chicago zoo include two "long-horned" antelopes which will not grow horns until next year.

THOUSANDS WHO RETURNED TO LAND DEPENDENT ON RELIEF

PAMPA TOPIC OF OUR CITY

WASHINGTON, April 15 (AP)—Reviewing the "back to the land" movement of the last five years, Secretary Wallace said today thousands who had returned to farms would depend upon relief.

Classifying the majority of the new farmers as "industrial refugees," Wallace said in a radio address that "agriculture has been bearing its share of the city relief load in a truly heroic manner."

The 1935 farm census, Wallace said, reported an increase of 523,702 farms in five years, making a total of 6,812,350 in 1935, with the biggest increases in the New England states and the southern Appalachian hill and mountain country from Pennsylvania south through Birmingham, Ala.

"I have called the majority of these new farmers 'industrial refugees,'" Wallace said. "There are also many more fortunate participants in large clusters of these who have formed around cities like Boston, New York, Pittsburgh, Cleveland, Detroit, Birmingham, and industrial centers of the far west—Los Angeles, San Francisco, Seattle and Tacoma."

"Here this return to the land, this search for escape from unemployment, idleness and charity has a special tragic significance which rings true through most of the increase of a half million farms. The new farms and the reoccupied farms are for the most part on poor land—land which is of low productivity."

It is highly significant, Wallace said, that thousands of those who have returned to land are now dependent upon relief.

Rain Clouds Return

Thunder clouds, unseen for months, formed over the plains yesterday and resulted in a heavy shower near Jericho and sprinkles at other points south of here. The clouds came with the first succession of warm days this spring. Temperature at midday went above 90 degrees in the shade and continued above 50 most of the night. Today was fair and warm. Pampanians continued to postpone watering of trees and lawns until tomorrow night, pending repair of two city water wells. Parts for these wells will arrive tomorrow afternoon from Los Angeles.

Notice, Legionnaires

Members of Pampa's Kerley-Crossman American Legion post will give their deceased comrade, S. C. Barrow, military burial tomorrow afternoon. The Legionnaires have been instructed by their commander, A. D. Monteth, to meet at the but on West Foster avenue at 1 o'clock. He also urges all members to attend an important post meeting tonight at 8 o'clock.

Enjoy Bell Trip

A number of Pampanians drove to the Bell school community last night to attend a box supper. Members of the Jaycee Centennial string band furnished musical entertainment. Boxes sold well and all were taken.

LOBBY PROBE

(Continued from page 1)

placet faith." In one of several clashes with Black (D. Ala.), the chairman told him he would be treated with courtesy.

"That'll be an innovation," Muse retorted.

The witness said he had talked with du Pont since the Macon meeting.

Senator Schwelienback (D. Wash.) read into the record a statement that Alfred P. Sloan, president of General Motors Co., had contributed to Kirby's organization since the Macon meeting.

It also was developed that Senator Metcalf (R. R. I.) had contributed \$50 to the organization, and H. C. Hopson, utilities man \$10.

"We have about 40 senators on our mailing list," Muse observed with reference to Metcalf's donation.

Muse said Raskob and du Pont "didn't know anything about" the literature showing Mrs. Roosevelt and the negroes.

John Henry Kirby, head of the Southern committee, from his seat

KIRBY QUESTIONED

WASHINGTON, April 15 (AP)—John Henry Kirby of Houston, Tex., head of the southern committee to uphold the constitution and foe of the new deal, was called to testify today before the senate lobby committee headed by Senator Black (D-Ala.) New deal senators said they sought evidence as to whether the southern committee is linked with the American Liberty league.

The number of farms in the United States on January 1, 1935, was 6,812,350, an increase of 8.3 per cent over April 1, 1930, according to the census bureau.

Pampan's Mother Dies in Claude

Word of the death of Mrs. J. H. Hollingshead, 73, at her home in Claude, was received this morning by a son, Payne Hollingshead, clerk at the postoffice, Mrs. Hollingshead died of a heart attack, following a long illness, at 4 o'clock.

Mr. and Mrs. Hollingshead moved to Claude 15 years ago. Both were well known over this section. Mr. Hollingshead farmed near Claude for many years and bought grain during the season.

Mrs. Hollingshead is survived by her husband, three daughters, Miss Iris, Hollingshead, Utah, Miss Lorna Hollingshead, Los Angeles, and Mrs. C. C. Cash, Albuquerque, N. M., and three sons, Payne of Pampa, Raymond of Los Angeles, and Blue of Paris.

Funeral arrangements had not been completed this morning.

19,057,000-Bushel Wheat Crop Seen

AUSTIN, April 15 (AP)—The United States department of agriculture reported today that high winds, scarcity of rainfall and dust storms caused great deterioration of winter wheat in Texas in March and abandonment of acreage in the plains area would be heavy.

On the basis of April 1 conditions, it forecast a probable production of 19,057,000 bushels, compared with 10,010,000 bushels a year ago and 23,749,000 bushels in 1934.

INVITED TO EXHIBIT

The public is invited to view the art exhibit at the women's club room in city hall auditorium tomorrow afternoon from 5 to 6 o'clock, when El Progresso club will present the paintings of Mrs. H. G. Hendricks of Amarillo. Her pictures of West Texas subjects are considered especially fine, and all Pampanians are invited by the club to see them.

Mrs. Ellen Chapman and son, Wilkes, have returned from Spur, where they were guests over the week-end in the home of her cousin, Mrs. Robert Boyers. A family reunion was held in honor of the eightieth birthday of Mrs. Boyers' mother.

Mrs. John R. Phillips of Keller, Tex., is resting well following an operation at Pampa Jarratt hospital Sunday.

Mrs. K. E. Kurtz and small son, Eugene, are here from Borger to spend the remainder of the week with her mother, Mrs. H. P. Barnhart. Mr. Kurtz accompanied them here yesterday, and returned to Borger.

Mr. and Mrs. T. H. Cain are the parents of a daughter, born last night at Worley hospital.

Mrs. O. K. Gaylor is seriously ill at her home here.

KNOX

(Continued from page 1)

With more than half the state's precincts reported in yesterday's Illinois primary elections, the publisher of the Chicago Daily News increased his margin over the Idahoan to 67,000 votes.

Returns from 4,108 of the state's 7,426 precincts gave Knox, consistent critic of the new deal, a total of 253,779 against 186,138 for Borah. Knox gained a big margin in Cook county (Chicago). There 2,781 of 3,876 precincts gave him 167,582 to 90,222 for Borah. Downstate, Borah held a growing advantage. The senator gathered 95,916 in 1,327 of 3,750 precincts with 86,197 for Knox.

Former Senator George Moses of New Hampshire estimated Knox now had substantially 130 delegates to the G. O. P. national convention, including Illinois' group.

It was indicated democrats had outvoted republicans two to one in the statewide primary. Their party cast a record vote—attracted by the bitter battle for the democratic gubernatorial nomination between Gov. Henry Horner and Dr. Herman N. Budson, Chicago health commissioner. In the only Cook county precinct where a comparison was available, President Roosevelt, opposed in the democratic preference primary, outpolled Borah and Knox combined by a 3 to 1 margin.

But G. O. P. leaders asserted many republicans had voted in the democratic primary to get into the fight between Horner and Budson.

Horner, who failed to get the endorsement of the regular party organization, passed Budson—the candidate backed by Mayor Edward J. Kelley and National Committeeman P. A. Nathan—in a sensational spurt early today.

Returns from 5,063 precincts, more than two thirds of the 7,426 in Illinois, gave Horner 529,043; Budson, 517,472.

Edward A. Hayes, former national commander of the American Legion and chairman of the Knox for president committee, declared Knox had been "favored in a decisive manner." He said "the Illinois candidate has taken a long stride for the nomination."

PAGEANT

(Continued from page 1)

troop, E. W. Hogan's of Hoover, would be mounted. Mr. Hogan, president last night, said that he would send 30 mounted Scouts to the parade which would take place in the afternoon before the pageant. These mounted Scouts would also appear in the pageant. Other troops would probably be partly mounted.

Local and visiting Scouts would camp near Harvester park where the pageant would be staged. The scoutmasters also voted to sponsor a tour of local Scouts in a covered-wagon truck over the Council to advertise the Centennial. The Scout trippers would deliver invitation to all troops in the Council to attend the celebration and partici-

Rotarians Hear 'Windy' Program

A history of Rotary never heard before by Rotarians and somewhat straining upon their credulity was given by Lion H. H. Hicks today when Lions were guests at the Rotary luncheon.

In addition to this humorous talk, the Lions presented their male quartet, composed of Jack Dunn, Chick Hickman, Bob Rose, and Dude Balther, and a children's chorus from the Sam Houston school, directed by Miss Thelma Gwynn. A. M. Teed was program chairman.

President C. T. Hunkapillar of the Rotary club was presented a red agavel weighing about 25 pounds, made of rig material. Dr. H. L. Wilder, Lions tall-twister who assessed many fines during the meeting, made the presentation.

CRIPPLES

(Continued from page 1)

mal mentality under 21 years of age, whose physical functions or movements are impaired by reason of a joint, muscle, or bone defect or deformity, to the extent that the child is or may be expected to be totally or partially incapacitated for education or remunerative occupation.

To make him eligible for consideration, a child's disability must be such that it is reasonable to expect that he can be improved through hospitalization, medical, or surgical care, artificial appliances, or through a combination of these services.

To secure hospitalization for a child, it is necessary to write to the Crippled Children's Division, Capital Station, Austin, giving the name of the child, disability, age, sex, parents' names, post office, county, and to request information. If the child appears to be eligible, it will be ordered to the nearest clinic for examination—in this area, to Amarillo. If the clinical examination is favorable and other conditions justify, final arrangements for hospitalization will be started.

Local clubs and health departments are cooperating.

DEATH

(Continued from page 1)

Fort Worth. Mr. Barrow has no other survivors. Mrs. Barrow is also survived by a sister, Mrs. Thelma Stinger, Oklahoma City, a brother, Leon Routh, San Francisco, and a half-brother, Lewis Murphee, Oklahoma City.

Funeral services will be conducted at 2 o'clock tomorrow afternoon in First Methodist church with the Rev. W. C. House, pastor, officiating. Burial will follow at Fairview cemetery under direction of the Charlie Duenkel Funeral home.

Mr. Barrow will be buried with full military honors, in charge of Kerley-Crossman post of which he was a member. Pallbearers will be fellow members of the post.

Pall bearers for Mrs. Barrow will be Des Moore, R. B. Anderson, R. B. Thompson, Earl M. Smith, E. M. Halsenbeck, Alva Duenkel.

Flowers will be in charge of Clara Hill class.

Mrs. Florence Curry, 100, of Horton, Kan., has 34 grandchildren, 43 great-grandchildren and six great-great-grandchildren.

To combat a wave of chicken thefts, Chief of Police T. B. Bryan of McAllen, Tex., invoked the town's old curfew law.

"Of course it feels different, Dad... it is different!"

It took more than just good performance to win over 2,500,000 Ford V-8 fans in less than four years. It's an entirely different kind of performance that did it! It's the V-8 engine, first and foremost. The smoother flow of its 85 horsepower. Its pick-up in traffic. Its easy pull in the open and up the hills. For you can't expect any less modern engine to feel like a V-8. And you don't find another V-8 below \$1645.

Then there's riding comfort. Ford springbase is 123"—almost a foot longer than wheelbase. You'll quickly feel the edge this gives a Ford on cars near its size and weight. Next, there's a type of chassis in the Ford not found anywhere else in the world today. That's why a Ford "keeps its feet" so remarkably on turns and over rough roads.

Why not try these advantages today? Before you decide on any new car—get the "V-8 feel" that put the Ford first among all cars last year!
