

Rail Strike Is Averted; Set Talks Monday

NEW YORK, Aug. 2 (AP) — A threatened strike on the New York Central Railroad lines east of Buffalo is off at least temporarily and a company-union conference aimed at settling the dispute was set tonight for Monday.

Millionth

Arthur Weinfeld, 23, the millionth American drafted since the Korean war started, flashes a broad smile as he eats a free meal on the Army, one of the many he'll get free from now on, at the Fort Wayne Induction Center, Detroit.

More Officers, Firemen Race To Prison Riot

MONTREAL, Que., Aug. 2 (AP) — Police reinforcements and firemen raced to riot-torn Bordeaux Jail again today when 700 rebellious prisoners set new fires to back up their shouted demands for better food.

The fires apparently were not serious and police appeared to be in control of the six-winged institution 10 miles from downtown Montreal.

The prisoners set 17 fires last night, smashed cellblock locks and fought 200 police in a two-hour battle. A dozen or more convicts were injured.

This was the second series of riots at Bordeaux over food since last May. Provincial police reported this morning that order had been restored after last night's violence.

The dispute, according to both parties, arose out of use of non-union labor by a sub-contractor, Piper & Audrey, which took over contract to build 125 of the units on the east end of the job.

The restraining order enjoins the United Brotherhood of Carpenters and Joiners Local No. 1634, and Floyd R. Jones, financial secretary, and William L. Gamble, business agent, and others connected with union from:

"Picketing the plaintiffs; placing the names of plaintiff upon an unfair list; entering or continuing an agreement to coerce plaintiffs into requiring Piper & Audrey to employ only union labor in regard to their contract as a prerequisite to resuming work by members of defendant union on plaintiff's job; boycotting plaintiffs (provided, however, that this order does not preclude defendants from agreeing to refuse directly as employees of plaintiffs."

Henry A. Young Construction Company also asked \$25,000 damages of the local charging that disruption of the project had resulted in that degree of loss. The petition was filed by W. S. Morrison, attorney for plaintiffs here.

Saturday evening A. Mack Rodgers, attorney for the carpenters' local, said that he was working on an answer and that it would be filed as soon as possible. It will, he said, controvert allegations of the plaintiff as to make some representations about working conditions.

If at all possible, said Rodgers, the union would seek to have the hearing advanced in hopes of securing a dissolution of the restraining order. Contending that Mur-

ROOM FOR A FEW MORE

Deadline For Rodeo Parade Entries Is Set For Monday

Some 30 floats, mounted and marching units, and bands will make up Big Spring's 19th annual rodeo parade Wednesday afternoon, E. P. Driver and Ed Fisher, chairman, have announced.

In addition, scores of individual horsemen are expected to ride in the procession. Driver and Fisher Saturday invited all local horsemen who desire to participate.

Throughout the business section. Leading the procession will be the Hardin-Simmons Cowboy Band. Five Sheriff's Poses—from La-mesa, Ralls, Brownfield, Crosby-ton, and Floydada—and the Suez Shrine Mounted Patrol will ride in the parade.

The Big Spring Junior Square Dance team, tutored by Jimmy Feltz, will perform on the back of a W. D. Caldwell truck. Big Spring High School's band also will play from a truck, while the uniformed Colorado City High School musicians will march in the parade.

Resolution Asks Candidates To Clarify Stand

Local Group Backs Shivers In Draft Of State Ballot

Howard County Democrats are going along with Governor Allan Shivers in wanting to smoke out the national nominees of the party on the tidelands issue.

They said as much Saturday, in a milling two-hour meeting that could have been a miniature version of the Chicago proceedings.

They went further with Shivers, in voting to leave the matter of "placing of nominees upon the ballot or direction of how electors shall vote" up to the State Democratic convention.

This, in effect, means that the conventioners here are casting a wary eye on the national Democratic ticket.

The decision about the electors wasn't reached easily. There was a lot of hot debate, with J. B. Pickle and Jas. W. Engstrom opposing disregard of party loyalty, and Clyde Thomas Sr. and George T. Thomas leading the argument for the conservative position held by Shivers. Final upshot was, however, that under the unit rule, the resolution carried unanimously. So did the one on the tidelands position.

The two key resolutions read as follows:

"Be it resolved that the delegates of this convention call upon the proper authorities of the State Democratic party of Texas to request the nominees of the national and vice president to clearly state their position in regard to state ownership of the Texas tidelands."

And— "Resolved: That this convention make no pledge concerning plac-

See RESOLUTION, Pg. 9, Col. 2.

Shivers Forces Control Slate

By The Associated Press Gov. Allan Shivers' rampant forces were in firm control of Texas Democratic Party machinery Saturday as the party held its county conventions.

Most of the meetings were mild, sugar-and-honey affairs with Shivers forces in firm control.

In Austin, Shivers' forces smoothly squeaked two Loyalist gestures in the Travis County Convention and then named an all-Shivers group of 150 delegates and about 800 alternates to the Sept. 9 state convention.

Shivers forces upheld Chairman Stanley Hornby at Austin in 4-10-1 votes on two appeals from rulings by the chairman. Both appeals were made by young Hume Coker.

But at Houston, conservative and "Loyalist" Democrats clashed in a wild meeting featured by a fist fight and harsh words.

Bob Bradley, an attorney, was slugged by a man he called a "Loyalist Democrat." He is a son

Next To The Best

Colonel Ernest Wackwitz shakes hands with Second Lieutenant Karl C. Allan after making the announcement that Allan was second-outstanding in the 49-cadet Class 52-E that graduated at Webb Air Force Base Saturday.

Forty-Nine Airmen Graduate At Webb

Forty-nine young airmen reigned over Webb Air Force Base Saturday as the U. S. Air Force, Richard Kleberg, parents, wives and sweethearts saluted, honored and paid tribute to members of the second graduating class of the jet training school.

Kleberg was speaker at the graduation exercises and he and Colonel Ernest F. Wackwitz, commanding officer, publicly praised the 49 members of Class 52-E at the graduation.

The graduates openly displayed their pride as Col. Wackwitz presented their commissions and wings but the real joy for the men was the informal pinning on of the wings

Stanton Votes School Bonds

STANTON, Aug. 2—Voters of the Stanton Independent School District gave a healthy majority to a \$200,000 bond issue Saturday.

Unofficial returns indicated that the plant improvement proposal had carried 85-35. Regular meeting of the board of trustees is Tuesday evening and returns will be canvassed and the result declared at that time.

An estimated \$144,000 of the issue is to be used to finance various elementary and high school improvements. Among them are the enlargement of restroom and wash-room facilities; new heating system for the elementary and high school; re-spacing of classrooms; conversion of the administrative wing; and general overhaul of the school buildings. Balance of the bond money will go into the building fund of the district.

Truman Asks Full Support In Drive

KANSAS CITY, Aug. 2 (AP)—President Truman called upon the American people tonight for all-out support of the 1952 drive of the United Defense Fund for \$19,451,340.

"It is essential that there be no let-up in the work of the USO and other services for the armed forces, in the health and recreation programs for defense production communities, in the collection of clothes for the suffering people of Korea, and in the overseas facilities for those who man the ships carrying defense material," he said.

Stalin Is Healthy

ROME, Aug. 2 (AP)—Italy's pro-Communist Socialist party chief, Pietro Nenni, said on his return from Moscow tonight: "Marshal Stalin is in the best of health."

GOPs Name Local Slate; Demos Hot On Tidelands

Make Bid For Votes In County Offices

Howard County Republicans, gathered in convention Saturday, so strongly sensed a national victory in November that they decided to boost interest in the ticket with a slate of local officers.

They placed in nomination no less than 11 names for Howard County offices. As a result, the ballot in November's general election will carry an unprecedented number of local GOP candidates.

The selection of the local slate barely topped in interest a prolonged harangue about endorsement of Alvin Lane for state chairman. In this, some of the old Taft-Eisenhower feeling broke out, but by the time the meeting was adjourned—and it lasted about two hours—harmony was proclaimed in the ranks.

Here's the local ticket the county convention nominated:

For County Judge—Shelby Reed. For County Commissioner—Pct. 1, R. L. Southard; Pct. 2, G. L. Monroney; Pct. 3, E. B. McCormick; Pct. 4, John Whiting. For County Attorney—R. L. Tollett.

For County Tax Assessor-Collector—Mrs. Rosalynde Craig. For County Clerk—E. H. Boulhoun. For County Treasurer—Mrs. Betty Burke.

For Justice of the Peace, Pct. 2 (Coahoma), R. E. Bartlett. For Justice of the Peace, Pct. 3 (Foran), Mrs. W. B. Dunn.

There was a possibility that the county executive committee would find nominees for all other local offices.

Tollett and Monroney are familiar names on a general election ballot, since Tollett was a candidate for county judge in 1948. Monroney filed for Precinct 2 commissioner the same year.

The GOP'ers worked up considerable enthusiasm in gaining support for the ticket through the local state.

They sailed along smoothly on most matters. G. H. Hayward, perennial county chairman, was re-elected to that office. Then he was named delegate to the District convention to be held August 12, and also delegate to the State convention.

See BIDS, Pg. 9, Col. 8.

State GOP Is Sold On Ike

By The Associated Press Texas Republicans — most of them—think Gen. Dwight D. Eisenhower is a wonderful candidate.

And if Sen. Richard Nixon is all right with Eisenhower, he's all right with the Texas GOP for vice-president.

That was the opinion Saturday in most Republican County conventions in Texas.

The Harris County Convention asked that the Texas Democratic Party's choices for Governor and U. S. Senator—Allan Shivers and Price Daniel—be on the GOP ticket in the November general election.

In Fannin County, home of Speaker Sam Rayburn, Republicans endorsed Jack Nossaman, Grayson County Republican from Whitewright, to oppose Rayburn in the general election. Nossaman is

Outstanding Bargains Are Due For Dollar Day Event

Summer merchandise at outstanding bargain prices—and some fall and school-time items, too—will be found in Big Spring stores Monday.

Occasion is the customary first Monday Dollar Day, in which most major retail establishments of the city co-operate to offer a regular carnival of values for thrifty shoppers in Big Spring and this area. The first Monday Dollar Days in Big Spring are established as real

savings-days. The August event is no exception, an example of the top values may be found in advertisements in today's Herald.

For the Dollar Day, free bus transportation again is offered to women shoppers by the Herald and the City Bus Lines. The coupon below may be clipped and presented to any City Bus driver. It will be accepted as regular fare in accordance with the stipulations printed thereon.

Court Order Issued To Stop Picketing

An order restraining carpenters local (No. 1634) from picketing the strikebound defense housing project in southeast Big Spring was granted in 118th District Court here at noon Saturday.

Judge R. W. Hamilton, Midland, sitting in absence of Judge Charles Sullivan, granted the restraining order. He set the hearing for Aug. 11 at 10 a. m. Judge Hamilton is judge of the 70th Judicial District and had come to Big Spring to witness the graduation of his son at Webb Air Force Base.

Henry A. Young Construction Company, builder for the Mutual Construction Company which holds a 300-rental unit allotment from the Federal Housing and Home Finance Agency, petitioned for the order.

Since Thursday morning approximately 200 union carpenters have been out on strike and pickets have been operating. Since the job does not work during Saturday, the pickets had been withdrawn at noon Saturday. Presumably, the order would prevent their return Monday morning.

The dispute, according to both parties, arose out of use of non-union labor by a sub-contractor, Piper & Audrey, which took over contract to build 125 of the units on the east end of the job.

The restraining order enjoins the United Brotherhood of Carpenters and Joiners Local No. 1634, and Floyd R. Jones, financial secretary, and William L. Gamble, business agent, and others connected with union from:

"Picketing the plaintiffs; placing the names of plaintiff upon an unfair list; entering or continuing an agreement to coerce plaintiffs into requiring Piper & Audrey to employ only union labor in regard to their contract as a prerequisite to resuming work by members of defendant union on plaintiff's job; boycotting plaintiffs (provided, however, that this order does not preclude defendants from agreeing to refuse directly as employees of plaintiffs."

Henry A. Young Construction Company also asked \$25,000 damages of the local charging that disruption of the project had resulted in that degree of loss. The petition was filed by W. S. Morrison, attorney for plaintiffs here.

Saturday evening A. Mack Rodgers, attorney for the carpenters' local, said that he was working on an answer and that it would be filed as soon as possible. It will, he said, controvert allegations of the plaintiff as to make some representations about working conditions.

If at all possible, said Rodgers, the union would seek to have the hearing advanced in hopes of securing a dissolution of the restraining order. Contending that Mur-

Newsboys Check Jet

Route carriers for The Herald Friday were guests of Webb Air Force Base for an educational tour of aircraft and other facilities. Youth above are lined up to inspect one of the T-33 jet trainers used at Webb. They also toured the link trainer building, parachute rigging quarters, weather station and other Air Force installations. Thirty newsboys made the tour.

WHEN CONGRESS MEETS

Taft May Lose His Position As Head Of GOP Policy Group

By EDWIN B. HAAKINSON  
WASHINGTON, Aug. 2 (AP)—Sen. Robert A. Taft of Ohio, loser in a determined fight for the Republican presidential nomination, may face another battle with senators already being discussed by senators.

First, Taft and all other Republicans are expected to close ranks in an effort to elect Gen. Dwight D. Eisenhower as President and upset the present Democratic majorities in both the Senate and House.

Second, most politicians agree it may be easier to elect a Republican as President than to upset the Democratic Senate majority. There now are 49 Democrats and 46 Republicans in the Senate with one vacancy created by the death of Sen. McMahon (D-Conn.).

However, only 35 Senate seats are at stake in this fall's election and of these Republicans hold 20 and Democrats 15, including the McMahon vacancy.

To win Senate control Republicans must retain 20 seats and turn out at least three Democrats. That may be difficult because many of the Democratic seats are in Southern and border states that normally pile up Democratic majorities in a presidential election. Taft had the support of a majority of Republican senators in his latest unsuccessful presidential bid, but those who have challenged his Senate leadership in the past generally were in the Eisenhower camp.

These included Lodge and Saltonstall of Massachusetts, Morse of Oregon, Ives of New York, Tobey of New Hampshire, Smith and Hendrickson of New Jersey, and Duff of Pennsylvania.

Lodge, one of the chief Eisenhower campaign managers, was beaten by Taft in both 1947 and 1949 for the policy chairmanship. Morse, one of the few "Young Turks" here now who have tried to unseat Taft in the past, told a reporter: "I don't intend to spearhead any attempt to displace Bob Taft as policy chairman at the next session."

Another Record Is Set In Demo First Primary

DALLAS, Aug. 2 (AP)—Another record apparently was established today as the Texas Election Bureau released its final report on last Saturday's Democratic primary.

The new mark was set by Lt. Gov. Ben Ramsey of San Augustine, who won re-election, 1,019,927 to 210,352, over Frank Westbrook Morales, Austin funeral director.

It was believed to be the first time an opposed candidate for state office in a first Texas Democratic Primary Election had polled more than a million votes.

Ramsey, 48, East Texas lawyer, is known for his dry wit and for the restrictions on labor unions he sponsored in both the Texas House of Representatives and State Senate. Morales did not make an active campaign.

The Election Bureau's final report included a complete count from all but three of the State's 254 counties. It boosted still higher the new record vote for a Texas primary—the 1,332,293 ballots cast in the governor's race. Gov. Allan Shivers got 629,829, or 61.36 per cent of the total. Ralph Yarborough of Austin polled 483,632, or 35.91 per cent, and Mrs. Allen Traylor, San Antonio housewife, polled 30,832.

The final report did not change the status of any major contest. In the seven-candidate race for Congressman-at-large, Martin Dies fell 8,726 votes short of a majority in polling 606,571, or 49.56 per cent of the votes cast. But the second-place candidate, John Lee Smith of Lubbock, already had declined to make a run-off campaign. Yesterday State Democratic Chairman J. E. Wheat announced that the Aug. 23 second primary ballot will not include a Congressman-at-large contest.

The 1,332,293 vote total is almost 150,000 higher than the previous record—the 1,205,257 cast in 1948 when Beauford Jester defeated Roger Q. Evans for governor, 642,025 to 279,602, with six other candidates trailing.

More than half the qualified voters of Texas took part in the Democratic primary. A record 2,337,618 had paid poll taxes or obtained exemption certificates for 1952.

The State Democratic Executive Committee will meet in Austin Aug. 11 to make the official canvass.

Dr. Hunt Due To Begin His HCJC Duties

William A. Hunt, president of Howard County Junior College, was due to arrive here Saturday evening to take over his duties.

Dr. Hunt is due to be at his office Monday morning. During the first half of the summer he has been instructing at the University of Texas. He was thus engaged when he was elected unanimously by the board of trustees and continued to fulfill his contractual obligations to the University.

He succeeds E. C. Dodd in becoming second president of HCJC. Dodd, who organized the original curriculum and supervised the opening of the college in the autumn of 1946 and the construction of the new plant at Eleventh Place and Birdwell Lane, resigned in May to accept the presidency of Southwest Texas Junior College at Uvalde.

Hunt, who has completed his work for his Doctor of Philosophy degree at the University, was moving his family here Saturday. He and Mrs. Hunt and their son will be at home at 1513-A Wood temporarily. The new president of HCJC is the son of the late Dr. J. W. Hunt, founder and for many years president of McMurry College in Abilene. He has had teaching and administrative experience in many West Texas schools as well as in the University.

Tops Show Here

Bobby Henshaw, star of "From Texas To Broadway" which will be presented again Monday night at the city auditorium, is known familiarly as "Uncle Ukie." Also featured in the stage production, sponsored by the Elk's Lodge, are Deane Janis, Paul Buskirk and his Western Swing band. Henshaw has been in several movies, among them "Beyond The Forest" with Bette Davis.

Drug Store Is Sold In Colorado City

COLORADO CITY — Walter Grubbs, manager of radio station KVMC in Colorado City, has announced the purchase of the Hickory Street Drug, from Melvin Self. Self, a member of the Army Reserve, has been called back for duty effective next week. Self is a Major.

Grubbs has been employed by the station since it opened early in 1950, and has been manager for more than a year. He said his resignation is effective as soon as he can be replaced.

Eldon and John Mahon are owners of the station, but have not made public their choice for Grubbs' successor.

Traffic Violations Head Corporation Court List

Fines for traffic violations accounted for more than \$400 of the \$767.50 assessed in Corporation Court during the past week.

Traffic fines totalled \$412.50 while fines for other misdemeanors, including drunkenness, amounted to \$357.

Outstanding traffic offense of the week was speeding for which 13 persons were fined \$152.50. Driving without license was the second most costly violation with three persons being fined \$85.

Reckless driving charges against two persons resulted in fines totaling \$70. Two persons were fined \$8 for making excessive noise, two others were fined \$8 for illegal left turns, one was assessed \$5 for a prohibited U-turn, two \$3 fines were assessed for improper parking, and a \$10 levy resulted from running a red light.

Eight fines totalling \$70 were assessed for the running of stop signs. Twenty-one persons were fined a total of \$296 for drunkenness, an offense which resulted in forfeiture of three bonds totalling \$55.

Two \$15 fines were assessed for driving, one \$25 fine was levied for disturbance, a \$10 fine was levied for destruction of private property, and one person was fined \$5 for vagrancy.

Transferred from the city court to custody of county officials were two persons charged with aggravated assault and one accused of driving while intoxicated.

One Dead, Three Hurt In Car Race

PARKERSBURG, W. Va., Aug. 2 (AP)—The bet was \$28. Robert Montgomery of Parkersburg and George Baker Jr. of Coalville, O., both 18, made it. The objective: Ripley, W. Va., 36 miles down U. S. 21 toward Charleston.

The automobile race started a little after 2 o'clock this morning. In South Parkersburg, Baker lost control of his car, hit a guard rail and careened back onto the highway.

Montgomery swerved to miss him, skidded along a ravine 500 feet and hit a tree.

The score: James Taft 18, dead. Peer Deem, 18, critically hurt, unconscious. Montgomery, critically hurt, unconscious. Dale Taft, 18, broken leg and head cuts. The Taft brothers and Deem were riding with Montgomery.

Sgt. Bruce Parsons of the Parkersburg police force, who pieced together the story, charged Baker with reckless driving. He wasn't hurt.

Stubborn Hawk Is Caught By Woman

AXIS, Ala., Aug. 2 (AP)—Mrs. C.F. Chestang and her husband gave up after several fruitless attempts to shoot a swift, nifty chicken hawk that has killed more than 50 of their small chickens and guineas.

So Mrs. Chestang, after lying in wait several hours for the crafty intruder, reached out and grabbed the bird today. Furthermore, she held on, despite fierce attempts of the 22-inch winged bird to escape.

"I just waited until the hawk swooped down to grab a young guinea and then I grabbed him. I was sick and tired of that pesky thing," Mrs. Chestang said.

# Material Deliveries Slow Housing Work

Slowness of material deliveries and of sectionalized planning and ordering have contributed to a retarded rate of utility extensions to the 300-defense housing unit in southeastern Big Spring.

These were reasons advanced by H. W. Whitney city manager, in clarification of statements regarding water and sewer extension delays for Monticello Addition at the commission meeting last week.

Otis Grafs, one of the developers, said he feared statements made it appear that purported failure to get money required for the project was the reason.

He and Whitney were in agreement about funds for the work. One check had been given for the housing units in the originally planned part of the addition. On June 15, a check in excess of \$8,200 was delivered by Grafs for the work between Barnes and Stamford, the second section of the project. This was part of the area to which H. A. Young, builder for the Mutual Construction Company, which holds the federal housing and home finance agency allocations for the units, referred in his inquiry to the commission.

A week ago, on July 26, Grafs had posted a \$11,000 check with the city for a third section. Apparently, there was some confusion

about the two sections in discussion before the commission for the statement was made that the work could not be expedited for the reason the check had been deposited only the day before the meeting.

This had no bearing upon progress of work within the second section. Failure to receive valves, fittings and some other materials, together with general confusion resulting from several operators working simultaneously within the area, held up the second section, said Whitney.

While posting of funds did not directly hold up planning, it did affect the placing of orders, Whitney noted. Grafs said he advanced the funds as soon as the engineering estimates were furnished. Whitney said that materials for the job could not be ordered, however, until the funds were available, and that as a result sometimes material deliveries were not as rapid as might be desired. Under sectional development, delivery could not thus be as prompt or orderly as though the entire project were planned and orders placed at one time, Whitney noted. He added that efforts were directed to making installations as expeditiously as possible.

## Eaker Will Open Shop On Monday

Beginning Monday, Fred Eaker will be owner and operator of Eaker's Frame and Wheel Alignment Shop.

The garage, specializing in frame and wheel alignment and general auto repair, is located at 1810 Security.

Eaker, long a resident of Big Spring, has previously worked in the service departments of McEwen Motor Company, Truman Jones Motor Company and Eaker-Neel Motor Company.

Eaker's Frame and Wheel Alignment will feature a complete line of Bear Authorized Alignment service and ice equipment for front wheel wheel balancing and axle and frame straightening.

## Army, AF Adopt Plan For Reserves

WASHINGTON, Aug. 2 (AP)—The Army and Air Force are completing plans to offer commissions of indefinite length to reserve officers and to release those who decline.

The action is called for under the recently passed Armed Forces Reserve Act. Plans are the same for Army and Air Force Reserve officers. A similar plan already is in effect for Navy and Marine Corps reserves.

## Truce Negotiators Return Following A Week's Recess

By GEORGE MCARTHUR  
MUSAN, Sunday, Aug. 3 (AP)—Top level Korean armistice delegations met today after a week's recess in which staff officer talks produced no break in the critical deadlock on the prisoner exchange issue.

The session at Panmunjom was slated, as usual, for 11 a.m. (9 p.m. EST, Saturday). Staff officers were to meet after the plenary conference.

Agreement was confirmed during the week on the wording of all but two paragraphs in the proposed truce document. Those paragraphs deal with prisoner parole and recommendations to belligerent governments. The staff officers dealt mostly with the Chinese and Korean versions of the words "Korea" and "United Nations Command."

Exchange of prisoners remained the major issue blocking an armistice. The Reds have demanded the return of all military prisoners, particularly 20,000 Chinese. The Al-

lies refuse to return any prisoners against his will and say 15,000 Chinese have renounced communism. In a letter to the U. N. Command Saturday the Communists listed 238 Chinese whom they charged were forced to act as special agents for the Allies and had been parachuted into North Korea. The Reds asserted the names had not been included on the Allied list of prisoners. The Communist letter was in apparent reply to a U. N. Command written request for an accounting of 45 Red-held prisoners.

## Grand Chancellor Will Visit Lodge

Russell Hardin, Lubbock, grand chancellor of the Knights of Pythias, is to make an official visit to the Lodge here Tuesday.

His appearance is set for 8 p.m. in the Castle Hall here. It will mark the first visit of Hardin to Big Spring since he was elevated to the highest office within the gift of Texas members of the Knights of Pythias.

He will outline plans for addition of an extension director of Knights of Pythias. All members of the local lodge have been urged by officials to be on hand to meet with Hardin.

## MEN AND WOMEN TAKE OFF UGLY FAT

Many people have reported amazing results with this home recipe. It's easy to make and costs little. Just go to your drugstore and ask for 4 ounces of liquid Baracolate. Pour into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show the simple easy way to lose bulky fat and help regain slender, more graceful curves, it's refundable. From neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back.

Lost 22 Pounds

"I am writing to tell you how much good Baracolate has done for me," writes Mrs. E. J. Poynter, Box 422, Anahua, Texas. "I weighed 150 pounds when I started and am now down to 128 and am still taking Baracolate. I feel better than I have in six years and I cannot begin to tell you how good I am to lose weight."

And Mrs. J. W. Harp, 608 S. Cedar, Cleburne, Texas, writes to say: "I think Baracolate is wonderful. I lost 20 pounds taking it—from 150 to 130. I now have my normal weight and feel like a new person."

### THANKS And PLEASE

Yes, THANKS again for the fine vote that put me in such a good position in the run-off. I sincerely appreciate this confidence.

Yes, PLEASE continue your help. Talk to your friends and tell them that I believe in equal rights for all and special privilege for none; that they will be treated fairly and courteously.

Please keep the good work going and we can finish the job you have started so well. With your cooperation I'll make you the best sheriff Howard County ever had.

## JESS SLAUGHTER

Will Appreciate Your Vote

## Riding THE GRUB LINE

With Franklin Reynolds

We can get along with a lower grade of beef, or maybe no beef at all, but we can't get along without milk and other dairy products, J. H. Greene, manager of the Big Spring Chamber of Commerce, told those attending the feeders meeting at the Settles Hotel this week.

Jimmy said after the meeting that what he meant by getting along without beef at all was predicated upon the supposition that the supply of jackrabbit roasts, rattlesnake steaks and Wilson Ranch frog legs will hold out.

phorus and other minerals, and then also warned against over-mineralizing. Too much mineral, he said, is as bad as a mineral deficiency.

He explained that dry grass does not contain any Vitamin A and that fresh, green grass provides the animal with 10 times as much mineral as the same grass when dry.

In advising that minerals be placed where the cow can get them when she feels the need for them, he called attention to the fact that cows have sense enough to leave minerals alone when they don't need them.

The meeting was sponsored by the Howard County Dairy Association and R. P. Mayfield, president of the association, presided. Co-operating with them was County Agent Durward Lewter. The principal purpose of the meeting was to hear feeding discussed by E. R. (Hico) Eudaley, a specialist in that work who was with Texas A&M for many years and who is author of many of the feeding bulletins issued by A&M and the Agriculture Extension Service.

Eudaley pointed out to the dairymen that there are only three states with more dairy cows than Texas, on the basis of 1950 figures (the last complete ones available), and those three states with less production per cow. Texas ranks fourth in the number of cows and 45th in the production per cow. He attributes this to poor cows and improper feeding practices.

For maximum milk production, maximum herd health and a maximum calf crop there must be a proper balance between minerals and feed, and a proper balance between carbohydrates and proteins is also equally as essential, Eudaley said. A cow needs four times as much carbohydrate as protein.

The average dairy cow has far more sense than the average human about eating. She will eat, if given a chance, on the basis of what her system needs for perfect health, and not on the basis of what tastes good.

In the early days West Texas livestock found the perfect balance between feed and minerals in the native grasses. The buffalo the antelope and the Longhorns did well. There were never healthier animals on the North American continent.

Better cows are the first need for a successful dairy operation, and better cows deserve better feeding practices. One of the most important things, the specialist emphasized, is the need for clean, cool water in the summer and a clean, slightly warm water in the winter, since only one-fifth of the water the cow drinks or gets in her feed goes into milk production. Milk being around 85 per cent water (as it comes from the cow), a cow giving 10 gallons of milk must either drink or get in her feed at least 50 gallons of water. Cows don't like to drink dirty, hot water in the summer any better than the dairymen would like to drink it, and are just about as unlikely to do it.

Now man has upset that balance. Cropping has depleted both the native grass and the mineral content of the soil and all that grows in it. Mankind must, therefore, restore this balance artificially.

All of which goes to prove that an adequate supply of livestock feed and human food in the future is wholly dependent upon scientific development, which means it is completely dependent upon the 4-H Club and FFA chapter members of today and the many tomorrow, and upon the agricultural colleges of this country, and upon approved soil and water conservation practices.

Eudaley also made it clear that dairy cows have lots more sense about proper dairy feeding than any dairymen who ever lived. Given their choice of feed, salt and minerals they will take what they need to bring themselves and their milk producing capacity to the top. When they are forced to eat only what the dairymen provides for them, they are not so likely to do well. Salt and minerals should never be mixed, he says, but kept always before the cows in separate boxes.

Maybe, he explains, the cow feels a need for salt but not mineral. If the dairymen forces mineral on her when she doesn't need it, by making her take it to get salt, he is doing her harm.

Several boxes are yet available for the annual Big Spring Cowboy Reunion Rodeo to be held Wednesday through Saturday evenings. Loyd Wooten, projects manager for the Big Spring Chamber of Commerce, said yesterday.

He also announced that the Chamber of Commerce has a plentiful supply of general admission tickets for each performance for advance sale and that these may be obtained at the Chamber's office.

The American Business Club's caravan boosting the rodeo will leave the Chamber of Commerce at 8:30 tomorrow morning to visit towns to the south and east, and the second tour, sponsored by the Junior Chamber of Commerce, will depart from the Chamber's office at the same hour Tuesday morning. This tour will be made to towns to the north and west.

Both tours are scheduled to return to Big Spring at 5:30 p.m. the same day they leave here.

Wooten says there will be plenty of space for everybody in the cars making the trip and that anybody wishing to go will be taken along if they report at the Chamber office in time. Their only expense, says Wooten, will be their dinners.

The committees in charge of the trips are urging as many as find it possible to join them.

Most dairymen, says this feed specialist, don't feed enough roughage at high enough quality. He points out that in the North, notably Wisconsin, more and better roughage is fed.

When a Texas dairymen meets another Texas dairymen, Eudaley said, the question asked is "How many cows are you milking?"

When a Wisconsin dairymen meets another Wisconsin dairymen the question asked is "How much production are you getting per cow?"

That is what has made Wisconsin the great dairy state, Eudaley comments.

One of the most important feeding points for the dairymen (and other livestock feeders) to keep in mind during this drought is the need for Vitamin A, and Vitamin A can't be overfed, according to Eudaley. What the cow doesn't immediately utilize she will store up for future use.

He also warned against over-feeding concentrates, stressed the importance of calcium and phos-

# Biggest Negro Publisher Got Start On \$500

By WILLIAM FERRIS  
CHICAGO, Aug. 2 (AP)—Ten years ago a Negro youth borrowed \$500 from a finance company to start a magazine. He now heads the largest Negro publishing firm in the world.

The firm, Johnson Publishing Company, puts out three magazines: Ebony, Tan Confessions and Jet. Each makes money. And John Johnson, at 34, is easily the most successful Negro publisher this country has produced.

Ebony, best known of the three, is a slick paper news and picture magazine with a circulation of more than half a million copies a month. It is read in 12 countries.

The State Department reprints articles from Ebony for distribution in Europe and Asia. The department's purpose is to counteract some of the Communist propaganda that the Negro in this country is a completely subjugated race.

Johnson's story is itself a refutation of that propaganda. He, his wife and his mother are sole owners of the Johnson Publishing empire.

Johnson was born in Arkansas. His father, a sawmill worker, was killed in an accident when Johnson was six years old. Some years later his mother took the boy to Chicago where she found work as a maid. Johnson, while in high school, got a part-time job on an insurance company magazine where he was told to look through newspapers and magazines for stories about Negroes.

That gave him an idea: Why not a magazine for Negroes—a monthly digest of news about Negroes? He tried to raise money for the venture, but nobody wanted to help. Every Negro magazine which had started in this country had failed.

"The reason I own this company today," Johnson says, "is that no one else wanted any part of it at the start."

Johnson and his social worker wife talked his mother into putting up her furniture as security for \$500 from a finance company.

"I went to a printer," Johnson says, "and acted like I could pay the printing bill. After all, I had \$500 in the bank and it was just like \$5,000 to me." The printer agreed to take a chance on Johnson's "Negro Digest."

The first issue—in November 1942—ran 5,000 copies. Circulation climbed to 50,000 and there it stayed.

Then Johnson had a bright idea. He persuaded several prominent persons—one was Mrs. Eleanor Roosevelt—to write articles entitled, "If I Were a Negro." The authors got \$15 an article. Circulation skyrocketed above 100,000.

Negro Digest was Johnson's only magazine until he brought out Ebony in 1945—also in November. Ebony's purpose is to let Negroes know about themselves.

"Most of the news about Negroes in the general press revolves around lynchings, crime and prejudice," Johnson says. "The little, everyday things are forgotten. Reading the general press, you'd think Negroes never got married or had babies."

Johnson doesn't believe this is a result of race prejudice. He says it just doesn't occur to general newspapers and magazines to print such prosaic news—and furthermore they don't have the knowledge of Negro life.

While Ebony's circulation boomed, advertising was hard to get at first. "Every month we had a bigger circulation and lost more money," Johnson recalls. It was difficult to convince advertisers that a Negro magazine would give them coverage they couldn't get elsewhere.

Liggett & Myers was the first big national company to come through for Ebony—with an ad for Chesterfield cigarettes. Now dozens of the biggest companies are represented each month.

With Ebony a success, Johnson brought out Tan Confessions in 1950. It has a circulation in excess of 900,000. Last year Jet replaced Negro Digest. Its circulation is more than 200,000.

### Age and Blind To Receive Increases

Recipients of old age assistance and aid to the blind will get a \$5 increase in their allowances in October. Mrs. Winston Sherwood, area supervisor for the State Department of Public Welfare, reported Saturday.

Exceptions will be those receiving both old age assistance and old age and survivors insurance. The latter group will receive the automatic increase through social security.

A small increase also will go to youngsters who are receiving aid to dependent children, Mrs. Sherwood said.

The increase in grants was provided in recent congressional legislation which raised the federal contribution to the programs by \$5.

### Casualties Listed

WASHINGTON, Aug. 2 (AP)—The Defense Department today identified 61 additional casualties of the Korean War. The list (No. 618) included 15 dead, 42 wounded and six injured.

The only French possession on the mainland of North or South America, French Guiana, is also France's oldest colonial outpost.

## Adding To Savings

James Grantham, Herald "Little Merchant" who copped carrier-of-the-month honors for July, adds to his savings account which he is building from his paper route. Joye Harmon is taking the deposit at the First National Bank.

## James Grantham Is Carrier Of Month

An ambitious young newcomer to the ranks of The Herald "Little Merchants" has walked off with carrier-of-the-month honors for July.

The honored carrier is James Grantham, 13-year-old son of Mr. and Mrs. J. A. Grantham, 1906

## Four Final In Spraberry

Four wells have completed in the Spraberry trend in the Driver area. It is Argo No. 11 Charles J. Cox, 1,980 from the east and 660 from the north lines of section 48-37-46, T&P, flowed 12 hours through 32-64 choke after 4,500 gallons fracture to make no water and 370.8 barrels of 37.3 gravity oil. Gas-oil ratio was 960-1, elevation 2,713; top pay 6,900, total depth 7,144; the 7-in. at 6,880, perforated 6,880-7,144.

Other tests were in Midland County and in the Tex Harvey pool. Sinclair No. 1-B TXL Midland, 666 from the north and east lines of section 31-37-35, T&P, flowed 24 hours through 2-in. choke. It made 28 per cent water and 127.17 barrels of 36.3 gravity oil. Gas-oil ratio was 455-1, elevation 2,586; top pay 7,851, total depth 7,976; the 5 1/2-in. at 7,951.

Phillips No. 6-QQ TXL, 660 from the west and 663 from the south lines of section 47-37-35, T&P, flowed 24 hours through 32-64 choke to make no water and 142 barrels of 37.7 gravity oil. Gas-oil ratio was 310-1, elevation 2,696 DF, top pay 6,970, total depth 7,533; the 7-in. at 7,630.

Forest Oil Corp No. 2-J TXL, 663.9 from the south and 660 from the east lines section 47-37-35, T&P, flowed 8 hours through 1/2 choke after 4,500 gallons fracture to rate 206 barrels of 37.1 gravity oil and 32.6 per cent water. Gas-oil ratio was 1,061, elevation 2,690; top pay 7,865, total depth 7,955; the 5 1/2-in. at 7,810-69.

## Peabody Professor Goes To McMurry

ABILENE, Aug. 2 (AP)—Dr. Joseph Roemer, professor of education at George Peabody College, Nashville, Tenn., has been named professor of elementary education at McMurry College, the president, Dr. Harold G. Cooke, announced today.

Employment of Dr. Roemer, along with the \$15,000 expansion of the library, is a move to meet requirements set by the Texas Education Agency for McMurry's graduate teacher training program and to gain permanent approval for it.

With Ebony a success, Johnson brought out Tan Confessions in 1950. It has a circulation in excess of 900,000. Last year Jet replaced Negro Digest. Its circulation is more than 200,000.

## Keese Participates In Austin Session

Problems concerning Air Force personnel and college administration were aired in a two-day conference Wednesday and Thursday at Austin.

B. M. Keese, dean-registrar and who has been acting as the administrator for Howard County Junior College, participated in the session. HCJC has had a good response from men stationed at Webb

Air Force Base and who are getting in regular college credit work while stationed here.

Among the conference highlights were discussions of Air Force and collegiate co-operation by Col. Henry J. Y. Moss, chief of the education branch, office of the Armed Forces Information and Education, Defense Department, at Washington, D. C. Also on the program was Joseph M. Ray, assistant chief, information and education branch USAF, Washington, D. C.; S. S. Painter, president of the University of Texas; Otto E. Nielsen, vice president of Texas Christian University; and Maj. J. J. Caulfield Jr., chief of the education section, information and education branch, USAF, Washington, D. C.

The Air Force, explained Keese, has been exceptionally alert to the educational opportunities for its men, and in this respect Col. Ernest F. Wackwitz, commanding officer, and his staff officers have anticipated needs to a greater degree than the average. For that reason, all men at Webb who have registered at HCJC thus far have had assurance of the full 75 per cent support of the Air Force, leaving them to handle only the 25 per cent required of the individual, he added.

From the college point, Keese declared, some difficulty was presented due to wording of the law governing state participation based on enrollment on Nov. 1 for a minimum of 16 weeks. Many of the courses for Air Force personnel involve the same number of hours for a 16-week course but are doubled so that the actual instruction might require a lesser space of time. However, Keese said that the college was prepared to make arrangements to circumvent this.

Use of the adjective "American," instead of "United States," was officially recommended by Secretary of State John Hay in 1904 to U. S. diplomatic and consular officers.

Dear John: Take me to the American Drive Inn for a piece of that delicious Home-made pie and all is forgiven.

## Strawn Sand Strike Finals, Test Spotted

A Strawn sand producer was completed in Northwestern Coke County, with prospects of dual completion from the Strawn reef, Saturday.

Simultaneously, location was made for a wildcat in the same general area.

Southwest Natural Gas Company (formerly Laan-Tex) No. 1 Russ Malters, three-fourths of a mile northwest of the Jameson pool, completed from the Strawn sand on a 24-hour natural flow through 7/8-in. tubing choke for 688 barrels of 41.4 gravity oil per day. Production was through perforations from 6,031-6,047 and 6,090-98 opposite the Strawn sand section. Gas-oil ratio was 200-1. There was no water.

Operator set the 5 1/2-in casing at the top of pay in the Strawn lime at 6,431. Bottom of hole is 6,451. A drillstem test in that zone before casing was set showed that it likely would make commercial production. Location is 330 from the south and east lines of the north half of the south half of Winifred Scott No. 3 Abstract 635, or 18 miles north-west of Robert Lee.

Kenneth J. Rice, et al No. 1 A. E. Moore, 467 from the south and east lines of the C. J. Norris Survey No. 1 Abstract No. 1080, is a northwest outpost to the Jameson pool. It is three-fourths of a mile slightly west of a Strawn lime reef producer and half a mile west and a little north of a Strawn sand producer in the Jameson pool. Contract depth is 6,500 and operations will start at once.

**Airport Discussion**

City and Chamber of Commerce officials gathered at Hamilton Field Friday afternoon to greet CAA and Texas Aeronautics Commission representatives who flew here to inspect local airport facilities. Left to right, just before they started discussions, are Ed Travis, regional director for the CAA; Cliff Green, director of the TAC; Clyde E. Thomas, local filer and member of the Chamber of Commerce Aviation Committee; G. W. Dahney, Big Spring mayor; J. H. Greene, Chamber of Commerce manager; Jack V. Smith, city commissioner; J. D. Church, district airport engineer for the CAA; and City Manager H. W. Whitney. Behind Smith and Church is Truman Jones, Chamber of Commerce president.

**City Is Advised Against Big Outlay For Airport**

Provision of facilities for light-weight private aircraft should be the only airport development undertaken by Big Spring as long as Pioneer Air Lines is allowed to operate at Webb Air Force Base, J. D. Church, district airport engineer for the Civil Aeronautics Administration, advised city and Chamber of Commerce officials here Friday.

Church said cost of constructing an airport of sufficient size to accommodate airlines planes and heavy cargo transports probably would prohibit such a project. He estimated an expenditure of at least \$750,000 would be required to purchase land, construct runways and other facilities, not including buildings, for a large airport.

The airport engineer mentioned the new Abilene Municipal Airport as an example of what it would cost Big Spring to develop what the CAA calls a trunk-service type airport suitable for such planes as Pioneer and other airlines to operate. Initial outlay for the Abilene project, including the cost of land, is the neighborhood of

\$900,000, he said.

A smaller port for light private aircraft could be developed much more cheaply, due to smaller size and lighter paving required for runways, according to Church. He recommended that the city, if it plans development of another airport, acquire sufficient land for possible future expansion and make an initial investment sufficient to provide only for small planes.

Federal aid, ordinarily granted cities on an approximately 50-50 basis through the CAA, could not be secured for construction of another airport for Big Spring as long as Webb Air Force Base is considered a temporary Air Force installation, the CAA official said.

Church told members of the city commission they should file written application with the CAA if they desire to acquire a former Air Force hangar now situated in a cotton field in North Dawson County. He said the City of Big

Spring probably can acquire title to the structure.

The hangar is part of an old Air Force installation which was abandoned after World War II. It was given to an Oklahoma town by the old War Assets Administration, but the building recently was turned back to the government.

City Manager H. W. Whitney estimated it would cost \$7,500 to \$10,000 to move the building and set it up at an air field here. That's about a tenth of what it would cost to construct a similar hangar, he said.

Commissioners said they will decide at their next meeting whether to apply for title to the building.

Visiting Big Spring with Church Friday were Ed Travis, regional director for the CAA, and Cliff Green, chairman of the Texas Aeronautics Commission. The trio stopped here on an inspection tour of West Texas airports.

**Huge Ore Dock Will Be Floated To Base**

PITTSBURGH, Aug. 2 (AP)—U. S. Steel Corp. is building a huge iron ore dock—more than 1-5th mile long—in Texas and floating it to Venezuela.

The pier, to be used in loading iron ore on ocean-going ships, is being constructed in three sections at Orange, Tex., by U. S. Steel's Consolidated Western Steel Division. Each section will be towed to South America by tug.

The first dock section was launched last April and floated across the Gulf of Mexico, the Caribbean Sea, Gulf of Paria, and up the Orinoco River to Puerto Ordaz, the South American ore terminal of Big Steel.

The other two dock sections will get the same treatment when completed.

The finished units are large steel structures which closely resemble over-sized barges. They were given a barge-like design to make it possible to float them to their destination.

In Venezuela, the three dock sections will be assembled as one unit in a fixed position.

The unique stunt marks the first time a steel producer has prefabricated an iron ore dock. The novel construction design and transportation feature are saving months of work which would be required to build the dock piece by piece in the conventional manner at the site.

The finished pier will be connected by railroad and highway to Cerro Bolivar, U. S. Steel's fab-

ulous mountain of iron ore, 90 miles south.

Much of the ore will be shipped to the corporation's huge new steel plant now under construction at Norrieville, Pa., on the Delaware River near Philadelphia. Some cargoes will be trans-shipped to U. S. steel plants in Pittsburgh and Alabama.

At Orange, Tex., on the Sabine River, dock construction is being carried on its shipways used to build destroyers. In World War II each section takes the space needed for two destroyers.

Believed to be the largest steel structure ever built in the form of a barge, each dock section measures 52 feet wide, 375 feet long and 15 feet deep. Each weighs 2,250 tons and has 13 miles of welding. The honey-combed interiors have both transverse and longitudinal bulkheads.

The dock sections had to be made seaworthy for their one and only ocean voyage. On arrival, holes are cut in each structure to permit the free flow of water when the Orinoco River reaches flood stage. Otherwise, buoyancy would exert heavy pressure against the side and bottom.

Once fixed in place, the dock will rest on caissons anchored on rock at the bottom of the river.

**Lamb Estimate Least On Record**

DENVER, Aug. 2 (AP)—The current lamb crop in 13 Western states was estimated at 11,583,500 by the U. S. Department of Agriculture—smallest on record.

It was a 2 per cent drop from the 1951 crop of 11,789,000 lambs. Texas led the decline with its total falling to 2,364,000 from last year's 2,636,000.

Drought conditions in Texas and parts of New Mexico, Colorado and Montana were chiefly responsible for the decrease, a department report said.

It also said that contracting of feeder and fat lambs for late summer and fall delivery has been on a limited scale.

Lamb totals for other states, with this year's figure first, are:

Montana, 1,125,000; 1,066,000; Wyoming, 1,274,000; 1,344,000; Colorado, 994,000; 975,000; New Mexico, 810,000; 747,000; Arizona, 245,000; 246,000; Utah, 927,000; 915,000; Nevada, 321,000; 333,000; Idaho, 882,000; 916,000; Washington, 287,000; 254,000; Oregon, 543,000; 528,000; California, 1,510,000; 1,301,000; South Dakota, 631,000; 618,000.

**To The VOTERS OF HOWARD COUNTY**

I wish to express my sincere thanks for your support in re-electing me to the office of County Surveyor.

Your vote and confidence are deeply appreciated and I pledge myself to devote my best efforts toward serving you efficiently as County Surveyor.

**RALPH BAKER**

**Nine Million May Receive More Benefits**

By W. JOYNES MACFARLAN  
WASHINGTON, Aug. 2 (AP)—Something over nine million persons may begin receiving an increase of from \$2.50 to \$8.60 a month in social security benefits with their October payments—with 4,400,000 sure to get \$2.50 to \$5.60 more.

Other important changes also were made in the old-age and survivors insurance program by the last Congress.

Under the amendments to the Social Security Law it is certain that 2,400,000 retired persons now receiving social security insurance payments will receive increases of at least \$5 a month, with the top permissible increase being \$8.60 a month.

In addition, nearly two million widows, children and parents can be sure of increases ranging from \$2.50 to \$6 a month.

The new maximum is \$85 a month for the retired worker himself, compared with \$80 now, and the minimum is \$25, compared with \$20. The new maximum for payments to a single family will be \$162.75, compared with \$150 now, but the total payments may not exceed 80 per cent of the retired worker's average monthly wage before he retired.

No action on the part of the beneficiary already on the social security rolls is needed to get the increase. The checks to be mailed about Oct. 3 automatically will include the higher amount.

The federal government also is increasing for two years its share of funds granted to the states for public assistance to four groups, but just what part of the increase, if any, will go to the more than five million individual recipients will be up to the states.

The new law makes possible an additional \$5 a month in federal funds for those receiving old-age assistance, aid to the blind and aid to the permanently and totally disabled. It permits increases for those receiving aid to dependent children by \$3 a month in each category—for the home maker and each dependent child.

But the states have laws governing the public assistance programs which in some instances place a maximum, such as \$50 a month, on the amount of federal and state funds which can be paid an individual.

The new law amends the Railroad Retirement Act to bring minimum insurance benefits under it in line with the new minimums for social security insurance. It also extends to persons covered by the Railroad Insurance Act the new \$75 limit on permissible earnings without loss of benefits and gives them the same \$160 a month in wage credits if they are on active duty with the armed forces.

The law also establishes the principle of protecting the old-age and survivors insurance of persons who become permanently and totally disabled before reaching old age, but fails to provide machinery for putting the program into effect.

**To New Post**

W. H. (Bill) Tipton, well-known Southwestern advertising executive and Presbyterian layman, has been named associate director of the Southwestern division of the National Conference of Christians and Jews. Tipton for the past 13 years has been associated with Wilkinson-Schwartz & Tipton, Inc., Houston advertising agency. His duties included editorship of the Acco Press, and he is known widely over Texas for his "Mr. Paymaster" radio broadcasts. In his new post, Tipton will assist Hastings Harrison in the North Texas region of the National Conference of Christians and Jews.

**Local Board Will Draft 18 In Sept.**

Howard, Martin and Mitchell Counties will be called on to furnish 18 men for induction into the Army in September, the local Selective Service Board has announced.

The September quota represents an increase of 50 per cent over the number slated for induction in August, Local Board No. 71 said. Twelve men are to be sent for induction on Aug. 11.

September's call, No. 28 since the start of the Korean War, will be on the ninth day of the month. There are no calls for pre-induction physical examinations for August or September, although a September pre-induction quota may be established later.

The tails of fat-tailed sheep, raised throughout the Near East, yield a fat prize in making pastry. The tails weigh up to 35 pounds.

**Racial Policy Hurts Country, Catholics Say**

WASHINGTON, Aug. 2 (AP)—The United States has a "white supremacy" policy which damages its moral leadership in the world, a subcommittee of the Catholic Association for International Peace said today.

The association's subcommittee on Asia hit particularly at what it called "discriminatory" American laws that assign "practically prohibitive" immigration quotas to Eastern peoples.

Under the new McCarran-Walter immigration code, the subcommittee said, there can never be more than 2,000 people admitted to the United States annually from all Asian countries.

"Economically favored countries have a moral obligation to assist in the resettlement of DP's expelled and surplus populations of the world," the Catholic group stated.

"... Controlled migration of Asian people, who are predominantly agricultural workers, undertaken in a truly Christian spirit, could give a greater productivity to the soil and lighten some serious political burdens of the western free world."

The subcommittee recommended that an organization be set up to survey Asian migration needs and encourage necessary population shifts.

The Delaware River forms a natural boundary for parts of four eastern states—New York, Pennsylvania, New Jersey and Delaware.

My sincere thanks for the fine vote you gave me in the first primary. Although I may be among the last to offer thanks, they are certainly not the "least". I consider it a vote of confidence as this was the first time I had ever announced for public office, and your support of me is deeply appreciated. I especially want to thank the rural voters as well as those in box 4 for their loyal support. Thanks a million, and I'll be seeing you again sometime. . . .

**FRED POLACEK**

And Now, What Are They?

The United States Coast Guard released this picture in Washington August 1 in the midst of a deluge of reports received by the Air Force on "unidentified aerial phenomena" sighted in many parts of the country. The Coast Guard caption relates that this picture was made by one of its photographers, Shell Alpert, seaman, at Salem, Mass. Air Station at 9:35 a.m., July 16, through a window screen. He was in the station's photo lab, the caption continues, when he noticed several brilliant lights in the sky, grabbed the camera, clicked the shutter with this result. The Coast Guard says the picture was taken on Super XX film with a 4x5 camera equipped with a 1.35 mm lens set at infinity at 1-50 sec., F4.7 stop. (U. S. Coast Guard Photo via AP Wirephoto).

### Postal Receipts Gain In C-City

COLORADO CITY — Colorado City's July postal receipts hopped 10 per cent in comparison with the figure for July of last year, according to Ed Moerer, assistant postmaster. Receipts for July 1952 were \$5,097.82, and those of July '51, \$4,644.08. Moerer pointed out that the figures were not entirely comparable since almost all rates and services had been increased during the 12-month period. A report from the postal saving section showed a drop in depositors from 119 a year ago to 93 on August 1st. Deposits on hand had decreased from \$78,271, July 1951 to \$68,993 on August 1, 1952. All time high at the Colorado City office was more than \$90,000 in deposits in March of 1947.

### Texas Construction Awards Edge Upward

AUSTIN, Aug. 2 (AP)—Texas construction awards edged upward to \$20,044,442 last week. The Texas Contractor, trade publication reported engineering contracts accounted for nearly half the total, \$9,823,501. Non-residential work came to \$3,340,936 and residential awards amounted to \$4,379,900. The residential awards included 458 residences, apartments providing 38 one-family units and 10 duplex apartment houses. Awards the week previous totaled \$16,059,831. The year's cumulative total rose to \$58,306,911.

**CARD OF THANKS**

W. Pettus. Mrs. W. W. Pettus, Mr. and Mrs. Lee Cole, Mr. and Mrs. H. B. Pettus, Mr. and Mrs. H. C. Thames, Mr. and Mrs. P. E. Riddle, Mr. and Mrs. A. C. Pettus, Elder and Mrs. F. M. Pettus, Mr. and Mrs. W. F. Pettus, Elder and Mrs. W. H. Robertson.

### 320 Participate In 'Y' Swim Program

The YMCA summer swimming program has ended officially with a record of 320 youngsters enrolled. More than half of those registering for the classes advanced at least one step in their swimming proficiency, said Tolly Baker, YMCA program secretary. There were 111 out of 198 beginners who learned to swim. Actually, the number learning to swim was greater than this, but of a number who could swim some had not mastered the art sufficiently to be classed as intermediates, said Baker. There were 91 boy beginners and 54 of them advanced to intermediates. There were 107 girl beginners and 47 became intermediate swimmers during July. Of 88 intermediate candidates, 37 became advanced swimmers, Baker continued. There were an additional 17 swimmers in the advanced classes, 23 in the diving classes. Six women, most of them beginners, who participated in a special class arranged just for them. Baker said that the advancement was made possible by a group of 16 instructors, virtually all of them serving as YMCA volunteers for the program at the municipal swimming pool. Response to the swimming program this year was the greatest in the history of the annual instruction by the YMCA, according to Baker.

### Drouth Cuts TEC Activity

With the exception of 288 Braceros who either originally contracted with members of the Tarrant Marketing Association or renewed their contracts, no agricultural labor activity was reported by the Big Spring office of the Texas Employment Commission for the fiscal month just ended, according to Leon M. Kinney, TEC manager here. In making his report to state headquarters of TEC, Kinney described the El Paso County situation with reference to agricultural labor as due to the drouth and crop failures. During the month Kinney reports 1,729 office visits by employers and prospective employees and 99 new applications filed, bringing the total active job applications to 184. During the month 309 persons were referred to non-agricultural employment and of these 294 were placed in jobs. Initial unemployment compensation claims totaled 17 during the month and 74 continued claims. These claims, Kinney explains, do not mean that many persons since each person must renew the claim each week.

### SHEEP RANCHES LEAD

## Family-Sized Farm Income Reaches An All-Time Peak

By ROBERT E. GEIGER  
WASHINGTON, Aug. 2 (AP)—The income from family-sized farms hit an all-time peak last year, with Western sheep ranches probably the most profitable of all. A government report that summarizes this income situation is careful, however, to emphasize that:

1. Despite a heavy inflow of money to farm families, inflation and other factors cut their purchasing power to one of the lowest points since the start of World War II.  
2. The incomes of these particular farms is substantially above the national farm average. Twenty types of family farming, in all parts of the country, were studied. They included only medium-sized farms operated by families, excluding share croppers. Large scale farms were excluded as were the smaller ones and part-time or suburban-type farming. Only farms from which families made the major portion of their income were included. A few types of farming, such as fruit farms, were not covered.

at \$19,108 and of the plains country ranches at \$20,155. The average for the mountain cattle ranches was \$13,565, for hog-beef fattening farms of the corn belt, \$11,529, and for Southern Piedmont cotton farms \$2,023.

The report said many factors have helped increase farm returns in recent years but that the most important were the use of more fertilizer, greater use of improved farming techniques and the use of more labor-saving equipment. The report is careful to point out that the recent years have been rosy ones in American farm history. It points out that in the 1930s the incomes of many farm operators were not sufficient to pay expenses. The Agriculture Department says that before anyone rushes out to get into the sheep business he should think a second time. Unusually high prices for wool and meat made sheep ranching profitable last year, and it may continue to be profitable for some time to come. But department experts don't expect profits to remain anywhere near the present record level. This year the prices of wool dropped from 95 to 50 cents a pound.

### Hiroshima Area Is Recovering From A-Blast

By FRED SAITO  
HIROSHIMA, Japan, Aug. 2 (AP)—This southwestern Japanese city—the first populated area to be blasted by an atomic weapon—is getting back on its feet after seven long years, but much remains to be done.

Seven years ago Aug. 6 the city was flattened and burned, with nearly half its 343,000 population dead or dying. Today it has more than 300,000 inhabitants and most of its structures have been replaced by new buildings. Downtown Hiroshima buzzes with business activity. Scores of amusement places draw capacity crowds. The city's people seem to be happy and robust, but most appear to be poor. Many of the new homes and business establishments are only flimsy, jerry-built shacks. The well-built, imposing new buildings were partly or largely financed by outside funds — including considerable donations from the United States. But the roads and sewage system are in bad shape. The city government cannot afford to fix them.

Hiroshima is situated in southwestern Honshu, Japan's main island, and is on the delta of the Ota River. The delta divides the city into six islands, which are connected by 81 bridges. The increase in population since the closing days of World War II does not mean there is a big demand for manpower. It's a situation common to all Japanese cities. The average Japanese farmer, with only one acre to till, sends his second and third sons or daughters off to the city to seek jobs.

Many people here are Japanese government employees or merchants catering to them. Communist influence in Hiroshima seems to be minor, despite strong efforts by the Reds to make propaganda out of the atomic attack. A Communist artist held an exhibit here last year with paintings of "A-bomb atrocities" but only a few people showed up. Those who did go to see it said the paintings did not depict the facts.

The total income of all farm operations in 1951 was estimated at almost \$3 billion dollars. This includes cash income as well as farm-produced food used in the home. It is the highest gross income American farmers ever enjoyed. The family-operated sheep rancher of the Rocky Mountain region brought the greatest grass return of all types covered in the study. They averaged \$47,464 each. Next came the sheep ranches of the Northern Plains country, \$31,461. Cattle ranches of the mountain country came next, \$19,002, and then the hog-beef fattening farms of the corn belt, \$15,794. In the lowest group were the smaller family-operated cotton farms of the Mississippi River delta country \$3,333; the cotton farms of the Texas Black Prairie, \$5,262, and cotton farms of the Southern Piedmont region, \$4,084. Although gross or total income as at a record level, the purchasing power of the families declined from the peak it reached in 1947, government experts estimated. That is because the prices of things which farmers have to buy to operate their farms and households went up in 1951. Expressed in the purchasing power of the dollar in the period of 1935-39, it was estimated that family farm operators were in about the same condition in 1951 as around 1941. Purchasing power increased from 1941 until 1947 but fell off then, with 1950 the worst year of all since 1941. Recently the Department of Agriculture reported the purchasing power of the farmers in 1952 may be the lowest since the start of World War II. But even with the cost of production deducted, the government experts estimated the sheep ranchers had the best average income in 1951 of all the types of family farms operating that were studied. The net income of the mountain ranches was estimated

# Sterling Well Finals, New Discovery Due

One completion was filed for a Mississippian discovery in Northern Sterling County, and another discovery in the same zone appeared Saturday.

Austral Oil Exploration Co., Inc. No. 1 Ellwood Estate, 660 from the south and west lines of section 78-18, SPRR, took a straddle test in the Mississippian 8,074-8,095. Gas surfaced in five minutes and the well flowed oil in two hours and 50 minutes. It flowed 50 minutes to pits to clean and then turned to tanks. Then it flowed five barrels per hour through half-inch

choke; then through 3/4-inch choke at the rate of 11 barrels per hour. Operator produced 30.36 barrels of oil on these chokes during the four hours and 35 minutes the tool was open. However, there was an interval of 1/4 of an hour when the well did not flow while change was made in the choke.

When the tool was pulled, the test unloaded 15 to 20 barrels of approximately 50-gravity oil. The gas pressure was light, but it was enough to flow the well.

Operator will cement the casing at 9,137 in the Ellenburger, where oil and some salt water were recovered, then will perforate opposite the Mississippian early in the week. Electric logs show the top of the Strawn to be 7,964, the Ellenburger 8,142, but none was listed for the Mississippian. Ground elevation is 2,429.

Tex Harvey Employees, Inc. No. 1 Jesse Ellwood Chappell, et al, 660 from the south and east lines of section 43-18, SPRR, filed a 24-hour potential of 98.51 barrels of oil and no water in its report to the Railroad Commission Saturday.

## NE Wildcat Gets Water

Cosden No. 1 Read, C NE NE 22-30-in. T&P, drilled at 3,535 after getting salty sulphur water on its latest drillstem test.

The zone tested was from 3,448-80 with the tool open two hours. Recovery was 32,000 feet of salty sulphur water. Earlier a test from 3,054-3,100 had resulted in recovery of 2,388 feet of salty sulphur water. This exploration is due to go to 5,500.

Cosden No. 1 Chester Jones, C SE NW 5-25, H&TC, was making hole Saturday below 5,690.

Crane Oil and Newman Bros. No. 1 Mrs. Hassie Clanton, C NE NE 25-35-36, T&P, drilled to 3,215 in lime and shale and set 8 1/2 casing at 3,204 with 200 sacks of cement.

## Stanolind Employees Off 16,700 Weeks

FORT WORTH, August 2.—Vacation time amounting to 16,700 weeks will be enjoyed by employees of Stanolind Oil and Gas Company this year. The total is equivalent of 321 years and is worth approximately \$1,500,000, the company said today.

Some 7,490 employees, more than 93 per cent of all people working for the company, are eligible for vacations under Stanolind's vacation plan which provides for two weeks vacation with pay each year after one year's service with the company; three weeks each year after 15 years; and four weeks each year after 25 years.

In the North Texas-New Mexico Division, which had headquarters in Fort Worth, 2,388 Stanolind employees will receive vacations this year, according to John R. Evans, division manager. Four weeks vacation will go to 48 employees, three weeks to 366, and two weeks to the remaining 1,976.

## Albaugh Signs For Five Tests

MIDLAND, Aug. 2 (AP)—The Midland man who contracted to drill three wildcat oil ventures on the vast Matador Ranch has now signed up to drill five more on the four hundred thousand acre spread.

He is Ray A. Albaugh, independent oil operator here. Albaugh early in 1952 contracted with the Superior Oil Company to drill three wildcat oil explorations on the Matador Land & Cattle Company's Alamocitas Ranch in Oldham County.

Albaugh said today he already has drilled one of the wildcats called for under the original contract. It proved to be a dry hole after being drilled to 4,915 feet in granite with no oil or gas showing.

He still has two more wildcats to drill on the property before the end of 1952.

Albaugh says those tests will be drilled. He has not yet selected the locations for either No. 2 or No. 3 Matador—but expects to do so within the next 30 days.

He reports that an interesting feature was developed in the drilling of his No. 1 Matador. That feature found the granite at 4,320 feet, which is on a datum of minus 448 feet.

Superior No. 3 Matador, a dry hole two and one-quarter miles southwest of the Albaugh failure found the top of granite at 5,489 feet, which is on a datum of minus 1,638 feet.

According to some correlations the Albaugh No. 1 Matador found the granite at a sub-sea point which was 1,190 feet higher than that at which the Superior No. 3 Matador found the same formation.

## Shallow Prospector Slated In El Paso

W. G. Wilmouth of El Paso has slated a shallow wildcat in Northwestern El Paso County.

It will be No. 1 A & W, and the location is 2,212 from the east line and 2,300.8 from the south lines of section 6-1-PSL. This puts it 34 miles north of the city of El Paso. Contract depth is 1,350 feet with cable tools. Operator did not specify which zone he hoped to test.

## Discovery Completes

Tex Harvey Employees, Inc. No. 1 Ellwood, drilled on the sprawling Spade Ranch just over the line from Mitchell and in Northeastern Sterling County, was completed officially Saturday as a discovery. Operator filed a daily potential of 98.51 barrels of 45.5 gravity oil with the Railroad Commission. Production is from perforations from 7,674-84 in Mississippian detrital. (Tom Goss Photo).

## Discovery Completes

Coronet Oil Co. of Midland No. 1 Brokage, indicated San Angelo lime discovery one mile east-southeast of production in the East Vincent field of Howard County, flowing during a 24-hour period. The flow ed 378.5 barrels of 19.3 gravity oil during a 24-hour period. The flow was from a section between 2,893-908 feet following treatment with 500 gallons of acid to make its potential.

Perforations between 2,860-880 feet, from which only salt water was recovered, were squeezed off. Location is C SW SW 4-34-H&TC.

Another late-week development occurred in Runnels County when Gilchrist Drilling Co. No. 1 Donnie Mae Bomar finished as a small flowing Gray sand discovery in the extreme eastern part of the county.

Completion was for a daily potential of 65.25 barrels of 42 gravity oil plus 25 per cent water. Production was through a half-inch choke from perforations at 3,406-410 feet. Pay was topped at 3,405 feet. Gilchrist plans to test the well before staking any new locations around it. The discovery is 2 miles south-southwest of the Leonard field.

First King sand producer for Runnels was completed at Geochemical Surveys of Abilene No. 1 J. A. Traylor, John S. Moore survey, No. 360, three miles southwest of Crews. The discovery was completed on pump for 65.05 barrels of 42 gravity oil and 10 per cent water daily through perforations at 2,260-262 and 2,268-274 feet.

A Mississippian detrital discovery in extreme Northeastern Sterling County, Tex-Harvey No. 1 Tessa Ellwood Chappell, flowed 98.5 barrels of oil in 24 hours. Flow was through perforations between 7,572-677 feet. It is in C SE SE 43-18-SPRR, 5 1/2 miles northeast of the one-well Spade field.

Flow estimated at 100 to 200 barrels of oil daily developed on tests of the Atoka section of the Pennsylvanian.

## Report Says Synthesis Try Prudent For Private Firms

Studies of the past eight years have indicated it would be prudent for private industry to construct a prototype commercial oil-from-shale plant, according to Secretary of Interior Oscar L. Chapman.

The Bureau of Mines Region VI in Amarillo noted that Chapman's report to Congress reiterated a recommendation that private industry, with such government assistance as may be available, proceed at once to construct pioneer commercial plants to produce synthetic liquid fuels from both shale and coal.

"Sooner or later," the report says, "our nation will rely in part on synthetic liquid fuels, and from the standpoint of national security it is essential that we be fully prepared when the time comes."

According to the report, some of last year's major accomplishments under the Synthetic Fuels Act of 1944 were:

Putting into operation on a demonstration-plant scale a new process for producing liquid fuels from coal-synthesis gas.

Completing cost studies for commercial plants to produce liquid fuels from both coal and oil shales.

Gasifying powdered coal with oxygen under pressure on a pilot-plant scale.

Starting construction of a 300-ton-per-day oil-shale retorting plant. Products from a pilot plant at Rifle, Colo., have been used by regular automotive and Diesel vehicles with successful results.

## DRILLING SAGS FURTHER IN WAKE OF TUBULAR SHORTAGE

Shortage of tubular goods, occasioned by the steel strike, caused drilling to sag sharply in the Permian Basin of West Texas and Southeastern New Mexico during the last half of July.

The semi-monthly survey by the Reed Roller Bit Company showed 534 active rotary rigs on July 25. This was a decline of 62 from the June 10 figure and 98 less than the comparable date a year ago. Virtually all the decline was attributed to the difficulty in obtaining necessary pipe.

Active rigs on July 25, compared with the June 10 figure in parentheses, follows by counties: Andrews, 30 (32); Borden 11 (12); Cochran 7 (8); Coke 6 (13); Crane 7 (8); Crockett 10 (8); Dawson 7 (8); Ector 18 (26); Gaines 21 (23); Glasscock 15 (13); Howard 10 (9); Kent 6 (8); Martin, 5 (5); Midland 32 (34); Pecos 10 (11); Reagan 42 (44); Schleicher 13 (12); Scurry 11 (12); Terry 3 (5); Tom Green 8 (7); Upton 6 (7); Ward 12 (12); Yoakum 18 (17); Lea County, N. M. 123 (119).

## New Producer Seen For NW Dawson

Another producer for the Mungerville-Pennsylvanian pool of Northwestern Dawson County was assured Saturday.

El Tee No. 1-95 Classen, 690 from the south and 3,960 from the west lines of section 95-M, EL&RR, kicked off and flowed after a small acid treatment.

The reef section was treated with 300 gallons of regular acid through perforations 8,620-30. The swab was pulled one time and the well kicked off and flowed out the acid load. Then it flowed seven hours at the average rate of 50 barrels per hour through 7-16 tubing choke. This filled the available storage and the well was shut in. As soon as more storage can be provided, operator will take potential test and complete.

This well, which is a west outpost to the pool and to Chassen No. 1 Ponder, most prolific of the wells in the budding field, is structurally low but apparently a strong producer nevertheless.

El Tee No. 1 Lindsey, C NE SE 108-M, EL&RR, located 18 miles northwest of Lamesa, drilled below 7,366 feet Saturday.

Fred Shields No. 1 Galbraith, a mile and half east of Mungerville production and C SE SE 77-M, EL&RR, drilled below 7,122 in lime.

## Completions Skid Badly During Week

AUSTIN, Aug. 2 (AP)—Drilling activity slumped again this week. The Texas Railroad Commission reported completion of 160 oil wells compared with 231 the previous week.

The year's total of 6,850 wells compared with 6,433 a year ago. Fifteen gas wells were brought in, and the total of 503 for the year compared with 494 last year. Dry holes totaled 118.

Wildcaters drilled 10 oil, 1-gas and 63 dry wells.

Plugged were 118 dry, 10 gas, and 90 oil wells.

The total average calendar day allowable as of today was 2,961-781 barrels of crude, a 209,089-barrel increase as the August allowable went into effect.

## Ellenburger Test Scheduled In Nolan

Wilshire Oil Company and British American Oil Production Company No. 24-182 Spires was announced as a Nolan County wildcat.

It will be located five miles west of Maryneal and 660 from the south and east lines of the southeast quarter of the southwest quarter of section 182-1A, H&TC. Contract depth is 7,500 to the Ellenburger and operations will start at once.

## Orphans To Benefit From Completion Of Oil Well

GARDEN CITY, Aug. 2—Orphan children are due to benefit directly from completion of an oil well in Southwestern Glasscock County.

American Republics Corporation last week filed a 24-hour flowing potential of 280.84 barrels of 29 gravity oil daily on its No. 1 Buckner Orphan Home. The well is a mile and a half northeast extension of the Driver Spraberry pool in Southwestern Glasscock.

The well was drilled in the southwest quarter of section 17, block 35, township 5 south, T&P survey, where Buckner Orphan Home holds mineral rights on the 640-acres. Because it is an extender, how much more of the lease will be productive will await actual drilling.

Buckner Orphan Home at Dallas came by the section of ranch land through the will of the late L. A. Arnold, Puma, Ariz. Arnold made the home beneficiary, after payment of debts of his estates, under terms of the will probated in 1939, a year after he died. In 1943 the land was sold to William Howard, but Buckner Orphan Home retained mineral rights. W. W. Harvey took a five-year oil and gas lease on Dec. 8, 1947 and in turn made the deal with American Republics to drill the well.

Production is from the lower Spraberry from 7,350-80. Under the current allowables on 40-acre spacing, the orphan home's share would be 15 barrels of oil per day.

# Officials Not Alarmed Over Crude Supply

By MAC ROY RASOR

AUSTIN, Aug. 2 (AP)—Two members of the Texas Railroad Commission who help look after Texas' share of the nation's oil supply think there's no cause for alarm in figures showing we used oil last year faster than we discovered it.

The figures were reported by World Oil, an industry publication, in its current issue devoted to a world-wide survey of oil activity in 1951. The journal said that production outpaced discovery of reserves to such an extent that if no new oil were discovered, U. S. reserves would supply requirements at the 1951 rate for only 11.7 years. In 1950 the figure was 13.3 years.

"Mathematical bunk," said Commissioner Ernest O. Thompson. Neither Thompson nor Commissioner William J. (Bill) Murray were willing, even for the sake of a figure, to suppose, as World Oil did, that no more oil would be discovered.

Even so, they reasoned, there were other dangers in the statistic. "Estimated field reserves are revised each year, usually upward," Murray noted. "It takes years to find out just how much oil a field can be expected to produce; so any figure reported in the first year of a field's existence is not likely to be the correct figure. Even now, we don't know how much production we can expect from the Spraberry discovery."

Thompson pointed to the ever increasing rate of recovery, many fields now producing 50 to 60 per cent of the reservoir potential, compared to 10 to 20 per cent 20 years ago. He anticipated the rate would go even higher in years to come.

"We are constantly learning better ways to get more of that oil. We are also constantly learning how to squeeze more gasoline out of a barrel of oil, and I'm hopeful we'll soon learn how to squeeze more miles out of a gallon of gasoline," he said.

But both Thompson and Murray insisted that discoveries are not about to be an end.

"The more oil we use, the harder we'll look for more," Thompson said.

Murray noted also that one major discovery could offset several years of falling statistics.

He conceded, however, that hunting oil is like hunting Easter eggs. "The more you find, the harder it is to find the rest," he said. "We also know that there's only so much to be found. But no one knows how much of it we've already found and how much we have yet to find."

World Oil said U. S. reserves rose from 26,217,724,000 barrels in 1950 to 26,308,610,000 barrels in 1951.

But along with the slight increase in reserves went a greater increase in producing rate. Production in the same period rose from 1,971,845,000 barrels to 2,244,404,000 barrels—52.51 per cent of the world's yield. At that rate and without the discovery of new oil, the public said, the U. S. had a ratio of reserves to production of only 11.7 years.

Said Thompson: "Twenty years ago we were told we had only enough oil to last 21 years, but after we've produced billions of barrels of oil we still have more oil than we ever had before."

## Martin Venture In Ellenburger

Stanolind No. 1 Cowden, Southwestern Martin exploration, had no shows in a drillstem test in the Ellenburger top.

The test was from 13,000-13,125 with the tool open two hours. Recovery was 30 feet of mud with no shows of oil, gas or water. All pressures were zero. Operator plans to drill about 25 to 30 feet deeper and take another drillstem test.

Location is 660 from the south and 2,032 from the west lines of the southwest quarter section 90-40-14, T&P.

Stanolind No. 1 Flynn, C SW SW 12-248 Hartley CSL, drilled to 11,495 in Pennsylvanian lime and shale with no shows. This venture is projected to 14,500 to test the Ellenburger.

# MEET THE 'SENIORS' Of The COSDEN FAMILY

This is the 64th in a series of special Cosden presentations, recognizing the long and valued service of those employees who have been associated with Cosden for 15 years and longer. Cosden is proud of the scores of its workers who have contributed to its success through so many years.

## ASA WALKER REED

First association of Asa Walker Reed with Cosden dates back to March 2, 1937.

Born in Big Spring, Reed was reared here and had his public schooling in the local schools.

He went to work for American Air Lines in the Radio Department and later worked as Field Supervisor for the American Agriculture Administration. He joined Cosden as an employee in the Maintenance Department. He worked up to Tank Car Welder in 1944, which rating he now holds.

Reed was married to Miss Nina Brummett on November 30, 1930, and they have two children, Robert Melvin, 20, who is now serving in the Navy at Corpus Christi, and Claudia Laverne, 16. The Reeds own their home at 1710 Young Street.

He is a member of the Church of Christ and turns to fishing and hunting as his hobbies.

# Stevenson Is Like Truman Only Worse, GOP Manager Charges

By MARVIN L. ARROWSMITH  
DENVER, Aug. 2 (AP) — Gen. Dwight D. Eisenhower's campaign manager said today the Democratic presidential nominee, Gov. Adlai Stevenson of Illinois would "out-Truman, the Truman regime" in leading the nation down the road to complete socialism.

Arthur E. Summerfield, who also is chairman of the Republican National Committee, made the statement in contending that Stevenson's appointment of Wilson W. Wyatt as his campaign chief means "the ultra-left-wingers — not the Democratic party will have complete charge of his campaign."

Meanwhile, a group of Mississippi Democrats, dissatisfied with the party ticket and platform, conferred here with Eisenhower, the GOP presidential nominee, in a move to line up Democratic support for the general in their state.

The delegation was headed by former Lt. Gov. Sam Lumpkin, who put out this statement after the conference:

"The results of this conference reaffirmed the opinion of the group that the Democrats of Mississippi should have the opportunity of voting for Gen. Eisenhower for President of the United States."

Lumpkin told a reporter he was

not at liberty to relate the conversation with Eisenhower or to disclose what the general had to say.

Asked what specific steps the group would take to give Mississippi Democrats a chance to vote for Eisenhower, Lumpkin replied:

"I don't know at this time."

Lumpkin said the delegation also conferred with Sen. Richard M. Nixon of Calif., Eisenhower's running mate, and Gov. Sherman Adams of New Hampshire, the general's political chief of staff.

Summerfield issued this prepared statement regarding Stevenson and Wyatt as he and Eisenhower went into another closed meeting to plan the general's campaign. Also present at the conference were Nixon and about 20 other top strategists.

As the meeting got underway, there were conflicting reports as to whether the National GOP Committee and the National Citizens for Eisenhower Committee had found a way to work together harmoniously in the general's campaign organization. The citizens group is made up of self-described amateur politicians who proposed to Eisenhower earlier this week that their committee operate independently of the regular GOP organization — the professional political groups.

A citizens committee official who asked not to be named said Summerfield at a breakfast meeting today had opposed the plan and insisted that the citizens group work under the National Committee.

The citizens, it was learned, objected to that on the ground that independent voters and disgruntled Democrats never would rally to Eisenhower's support if they have to do so under an out and out Republican label.

An Eisenhower aide said, however, that differences between the two groups had been reconciled and that a plan of action was being drafted.

And Nixon said that Eisenhower, at a meeting of the amateurs and the professionals yesterday, had done "a beautiful job of assuring harmony" between the two groups.

**Fight Lulls On Old Baldy**

SEOUL, Sunday, Aug. 3 (AP) — Fighting slackened on Old Baldy Hill in Western Korea Saturday after Allied infantrymen stoutly beat off three Chinese Communist assaults on the shell-blasted crest.

Only the deep rumble of artillery disturbed the comparative calm, but there was brisk skirmishing in the predawn darkness elsewhere in the Western sector—northwest of Chorwon.

Only small patrol clashes were reported — the other sectors of the front.

Allied infantrymen regained the top of Old Baldy Thursday after bitter, see-saw fighting. Associated Press Correspondent Milo Farneti reported the Chinese made two attempts to storm the hill Friday—both in platoon strength of 40 to 50 men. Ten Chinese tried it again early Saturday and seven were killed.

Aerial activity diminished except for sweep by U. S. Sabre jets Saturday afternoon and a fighter-bomber strike against small Communist boats off Korea's West Coast.

The U. S. Fifth Air Force reported four boats destroyed and 15 damaged. Sabre jet pilots reported they spotted no MIGs.

**Here Today**

The Swan Silverstone Singers of Pittsburgh will be presented at 3 p.m. today in concert at the city auditorium. Their appearance is sponsored by the Mt. Bethel Baptist Church. The singers, singularly versatile, are King Recording artists.

## WEDNESDAY IS NAMED P-DAY FOR HOWARD CO. COTTON FARMERS

This coming Wednesday, Aug. 6, will be P-Day as a general county wide proposition, County Agent Durward Lewter told the Herald last night.

P-Day is "Poison Day" for the harmful cotton insects.

"As a general county wide proposition I advise the cotton farmers to start poisoning Wednesday," Lewter said, "especially in those areas where there has been enough rain to get the cotton in a good growing healthy condition. The bollworms are hatching out and as a general thing this particular crop will be through hatching by Wednesday and we have a heavy infestation for this kind of weather. The heaviest part of the hatching will be over by Wednesday but naturally there is going to be some additional build up of the insect population after that. It will have to be taken care of, too."

Lewter says it is his opinion that poisoning should be started Wednesday particularly in the north R-Bar—Community, the south Morgan Community, the Luther Community, a good portion of the Knott Community and around Center Point and Richland. Infestations in these named areas appear to be the worst, he says, but he anticipates it will be bad enough all over the county by Wednesday morning to justify general poisoning activity.

For spraying he is suggesting the Two-One mixture, Toxaphene and DDT, with at least one quart of the concentrate to the acre, and for dusting, 3-5-40 or 2-10-40 using from eight to 10 pounds to the acre.

He said he had just inspected 12 fields in various parts of the county and found conditions approximately the same in all of them.

Wednesday will be P-Day in Howard County.

# Many Places Report On 'Flying Things'

By The Associated Press

Reports of the unexplained things that fly in the sky spread Friday and Saturday all the way from Korea to Mid-Western U. S. A. And the descriptions ranged from mere spots to a whole river.

Mostly, the objects reportedly sighted were the familiar saucer shape and luminous. They hovered or zoomed at incredible speed, swung, dipped, circled — and vanished on pursuit. The Air Force, skeptical but taking no chances, was doing the pursuing.

Scientists at Champaign, Ill., had a new one. They had a 100-mile-long river flowing down the sky. This was no drought-area mirage. For one thing, it happened at night. For another, it was seen by the tireless eye of radar operated at the University of Illinois' airport, where the Illinois state

water survey keeps a radar check on rain clouds.

This was sighted a few nights ago and caused some excitement for a while. But the cloud trackers soon had an explanation. They were looking at a 100-mile section of the Illinois River, 80 miles from the airport, reflected from the sky. If nothing else, this report showed that the frailties of radar make it almost human.

And Dr. Horace Byers, chairman of the University of Chicago's Department of Meteorology, indicated the sky is not the void it seems. It's more like the slotam and jetsam strewn oceans, he indicated, "always full of junk"—high level weather balloons, meteors, sandwiches of hot and cold air that reflect lights, cloud formations and condensed vapor from high-flying planes.

"I know of no reputable scientist who places any credence in reports that so-called flying saucers come from a mysterious or unexplained source," Byers told a reporter.

But the Air Force, concerned with the nation's protection from anything that might come out of the skies rather than with scientific reputation, was taking an intelligently ignorant attitude.

"We've really been scrambling," said a spokesman for Air Defense Command headquarters, at Ent Field near Colorado Springs, Colo. The spokesman said there has been a flurry of reports on unknown things in the sky for the past two weeks.

Fast-climbing jets, he said, are in the air within seconds of a report that seems definite enough.

ADC wasn't saying what, if anything, had been found, beyond some reflections. It turns its reports in to technical experts at Wright-Patterson Air Force Base, at Dayton, Ohio.

Air Force technicians from there came to Washington last week and told reporters there was as yet no solid indication that the unexplained things in the sky were aircraft from this or another world. They lingered, in their report, on the mirror-like quality of hot-cold air sandwiches. Such an air membrane, reflecting the lights of an automobile, might seem to show a luminous, saucer-shaped object traveling at phenomenal speed.

The ADC spokesman emphasized that "radar in many instances picks up certain natural phenomena, such as ionized (electrically charged) clouds, which may give the appearance of solid objects on the scope and man-made objects, such as flares, weather balloons, and so on... some interceptions have revealed that these are often what the unknowns turn out to be."

One recent incident not reported until Saturday was over one of the most sensitive spots in the world. An Air Force spokesman at Washington disclosed that three jet fighters were shot aloft last Tuesday, about noon, over the Los Alamos, N. M. atomic energy installations. Observers on the ground reported seeing something shiny, apparently metallic, in the sky. They watched it 30 minutes through binoculars, and said it traveled at high but erratic speed. The jets found nothing. But one of the ground observers indicated this was not surprising. The thing swung around in a complete circle, he said, and got behind the searchers.

The sheriff's office at Lancaster, Calif., reported that half a dozen persons saw two round, reddish-white lights moving in the sky shortly before Friday midnight. Two of the observers were sheriff's deputies.

Sgt. I. L. McCaleb said Civil Aeronautics Administration men in an airport tower at Palmdale, Calif., a game warden and several area residents also reported seeing the lights. McCaleb said they were visible about 15 minutes.

# SHIVERS REIGNS

(Continued From Page 1)

of a conservative leader, Palmer Bradley Jr.

Shivers' faction controlled the Harris County meeting and elected uninvited delegates to the state convention in Amarillo, Sept. 9.

Fred C. Driskell, Jr., Shell refinery employee, was charged with simple assault after Bradley was taken to a hospital for treatment of a cut eye. His condition was not serious.

At Bonham, Democrats adopted a resolution calling for the appearance of the Stevenson-Sparkman ticket on the Texas Democratic ballot in November "as pledged by Governor Shivers."

Speaker of the House Sam Rayburn was named chairman of the 15-member Fannin County delegation to go to Amarillo. The meeting was described as "quiet and harmonious."

At Gainesville, the Cooke County Democratic Convention requested the State Democratic Party to ask party nominees for President and vice president to clearly state their position on tidelands ownership and commended recent actions of Governor Shivers.

Pro-Shivers Democrats had control at the Stephens County gathering in Breckenridge. They instructed state convention delegates to vote as a unit and to vote for state ownership of the tidelands.

Shivers' supporters were in solid control at Pampa's Gray County Convention. A resolution was adopted asking the presidential nominee be requested to state clearly his position on the tidelands controversy.

Harrison County Democrats at Marshall reaffirmed their support of the Shivers program with resolutions for national Democratic nominees to speak out on the tidelands ownership question.

There was no reported opposition from Loyalist Democrats as the

conservatives elected the 15-member Harrison County delegation to the state convention.

The Houston fight started on the floor of the City Auditorium while J. Edwin Smith, Loyal Democratic candidate for temporary chairman, was speaking to about 600 persons.

Bradley said two men whom he called "Loyalist Democrats" suddenly jumped up from their seats in front of him and started striking him, breaking his glasses.

But Driskell told a different story after he was released on a \$10 bond at the Houston Police Station. He said Bradley came to the box in which he was sitting and started making boastful statements about Dixiecrats.

"I am a Loyal Democrat," Driskell said, "and he (Bradley) is a conservative or Republican."

Driskell said he told Bradley he was out of his proper box and said, "when I did, he shoved me down in my seat and asked me if I wanted to make something of it."

"I just got up and socked him one," Driskell said.

The Harris County gathering adjourned quickly after adopting, over the Loyalists' objections, the resolutions committee report.

In Navarro County, which gubernatorial Candidate Ralph Yarborough carried in last week's primary, Shivers supporters controlled and dominated the convention. Dist. Judge A. P. (Gus) Mays was temporary and permanent chairman.

A number of Navarro County precincts were not seated, although they held conventions and selected delegates to the County Convention.

It was ruled they had not filed reports in the county clerk's office.

## RESOLUTION

(Continued From Page 1)

ing of nominees upon the ballot or direction of how electors shall vote, but that such matters be left entirely to decision by the State Democratic Convention.

The delegation under the unit rule, goes uninvited on these issues.

Doug Orme presented the resolutions, as a member of the committee which included Shins Phillips and Cecil Guthrie.

The convention voted unanimously on two other resolutions. One was a re-affirmation of state's rights to the tidelands in that it slipped at the imposition of federal control. The other was one on law observance, calling for reporting of laxness on the part of agencies derelict in their duties, and for praise of those officers who work diligently to enforce the law.

But before all this the meeting had worked itself up into a mighty hassle on the naming of delegates to the State convention. The nomination committee — composed of Clyde Thomas, A. L. Cook and Mack Rodgers — brought in a list that included some names not on the certified list of delegates to the county convention. This brought objection from W. D. Berry and Engstrom, who maintained only accredited county delegates should be sent to the state convention.

There was much parliamentary maneuvering here, and the first list of delegates was finally turned back, 32-48. The committee then brought in another list of names.

The delegates are: J. Gordon Bristow, Anna Smith, Mrs. J. Gordon Bristow, George Thomas, Ted Groehl, Mack Rodgers, Arsh Phillips, Mrs. Norman Read, C. W. Guthrie, John Davis and Roberts Gay. Alternates are Mrs. G. I. Jones, Mrs. Douglas Orme, J. W. Pursner, M. R. Turner, Mrs. M. R. Turner, Garner McAdams, K. H. McGibbon, A. J. Stallings, J. A. Coffey, Mrs. J. A. Coffey and Mrs. Robs Thomas.

There were about 40 present at the convention, and about one-third of these were women. James Little was elected temporary chairman, and Mrs. Marguerite Smith was elected secretary. It took some time for the proceedings to get started, since no lists of accredited delegates was immediately available.

# California Man Succumbs Here

Herbert Leaverton, 45, Riverside, Calif., died here Saturday while enroute to Miami, Fla. to visit a sister.

Stricken as the family neared here on U. S. 80 from the west, he was rushed to a hospital in an Eberley ambulance. He was dead on arrival and Justice of Peace W. O. Leonard returned a coroner's verdict of death due to heart attack.

Mrs. Leaverton, who was driving at the time, said that the attack was the third for her husband. When he felt a heart flutter, he took medicine which he carried for his condition. At the airport, three miles west, he suffered a fatal attack.

Besides Mrs. Leaverton, a daughter, Terry, was with him at the time. Other survivors include two daughters, Mrs. Mary Rowson and Mrs. Phyllis Ensley, and a son, Herbert C. Leaverton, all of Riverside, Calif.

Leaverton was born in 1907 in Cherokee, Kans. He was in the construction business in Riverside. He was enroute to visit a sister, Mrs. D. D. Woodward in Miami, Fla. The remains were to be sent by Eberley today or Monday to the Preston Funeral Home in Riverside.

## NEGRO PEACEMAKER IS STAB VICTIM

Frank Weaver, local Negro, received minor knife wounds about 8 p.m. Saturday when he attempted to break up a fight between two other men at the rear of a night spot in the northwest quarter of town, police reported.

Weaver received treatment for the injuries at Malone & Hogan Hospital. He did not require hospitalization.

The persons engaged in the brawl, one of whom apparently stabbed Weaver, fled before police could reach the scene. Officers were seeking the pair late Saturday night.

## One Hospitalized Following Mishap

One person was hospitalized and two others received minor injuries early Saturday night in a highway mishap near Morales Grill on West Highway 30.

Benford F. Grinager, 610 S. Big Spring Street, Midland, suffered cuts and bruises on his face and forehead and a knee injury in the accident. Highway Patrolmen Amos Johnson and Jack Taylor reported.

Receiving minor abrasions were Mr. and Mrs. Delbert Elton Simpson, 202 Princeton, Big Spring. Neither required medical attention.

Patrolman Johnson said the accident occurred as Simpson prepared to turn his automobile off the highway. The car Grinager was driving collided with the rear of the Simpson machine. Damage to each car was estimated at \$1,500.

Grinager was taken to Cowper Hospital for treatment. His injuries were not believed serious.

## COURT

(Continued From Page 1)

Construction Company and Henry A. Young Construction Company were composed of the same personnel, the defendants' attorney expressed doubt that the Texas law concerning secondary boycott would apply in this case.

Plaintiff's petition sets out that Young was engaged in performing a contract with Mutual to construct approximately 175 houses "as part of a Title 9 FHA rental housing project for the purpose of providing rental housing for military and other personnel in the area of Big Spring...."

It alleged that Jones and Gamble had conferred with the plaintiffs Wednesday afternoon concerning the bringing of pressure to bear on Piper and Audrey to hire only union carpenters. Plaintiff contended that this could not be done under the law. Continuing, it said within a few minutes men were called off the job with words "strike, strike" or similar expression, and that although men returned to the job, work time for the day had expired and an hour was lost. Later, continued the petition, defendants called to notify plaintiffs that a number of carpenters became sick and had to leave their work. Plaintiffs alleged this was "mere sham and subterfuge," that defendants were "attempting to justify an untenable position."

Piper & Audrey, plaintiff's said, had been given contract to construct approximately 125 houses, and that the sub-contractors had been "unable to secure adequate quantities of carpenters and employed non-union carpenters on the project as contracted by said Piper and Audrey."

Young contended that there was actually no bona fide dispute between him and the union at the time of the work stoppage. He said he has employed only union carpenters on the portion of the project his firm is constructing.

The claim for damage was based on the allegation that because of "the tremendous investment involved and the tremendous amount of money required for materials and payroll, success of plaintiff's contract depends upon operating on a closely calculated schedule..." and that when an imbalance occurred it was extremely costly.

Judge Hamilton noted that allegations set out in the plaintiff's petition would appear to be sufficient grounds for directing a restraining order laws of the State of Texas. The hearing was called to determine if injunctive relief is to be continued or dissolved.

## Negro Peacemaker Is Stab Victim

Frank Weaver, local Negro, received minor knife wounds about 8 p.m. Saturday when he attempted to break up a fight between two other men at the rear of a night spot in the northwest quarter of town, police reported.

Weaver received treatment for the injuries at Malone & Hogan Hospital. He did not require hospitalization.

The persons engaged in the brawl, one of whom apparently stabbed Weaver, fled before police could reach the scene. Officers were seeking the pair late Saturday night.

## One Polio Fatality Reported Saturday

By The Associated Press

Killer polio struck again in Texas Saturday.

One polio fatality and two new cases were reported at Houston, Charles F. Redmon, 38, died in Houston, the eighth county polio fatality of the year.

In Dallas another polio victim, a 22-year-old woman, was admitted to Parkland Hospital's isolation ward.

## Locusts Swarming

KARACHI, Pakistan, Aug. 2 (AP) — Locust swarms are sweeping across the wheat lands of Western Pakistan from north to south in what is possibly the biggest invasion of insect pestilence in the country's history, the government announced today.

## Mayor Proclaims Rodeo Week Here

Mayor G. W. Dabney Saturday proclaimed the week of Aug. 3-9 Rodeo Week in Big Spring.

The proclamation was issued to set the stage for Big Spring's 10th annual Rodeo and Cowboy Reunion which gets underway Wednesday for four days.

His Honor urged all Big Spring residents and residents of the surrounding area to get into the spirit of the annual rodeo season. The wearing of western attire throughout the week would be a fitting gesture for the occasion, he suggested.

## City Police Have Busy Time Saturday

City police were having one of their busier nights Saturday.

Between 6 and 9 p.m. officers arrested nine drunks, a motorist who said was driving while intoxicated, another person charged with drunkenness and disturbance, and one vagrant. They also investigated a traffic mishap.

The accident, at Fourth and Abrams, involved vehicles operated by Robert John Beckles and Daniel San Miguel, officers said. No one was injured.

## Slayer Search Now Switched To Texas Area

OKLAHOMA CITY, Aug. 2 (AP) — Two surgeons performed an autopsy today on the beaten and decapitated body of a young woman and added a few details to the grisly story of her murder.

Dr. Paul H. Obert and Dr. Allice Bruce told police the woman was alive when her head was severed. They gave the decapitation as a cause of death.

They also determined finally she was between 20 and 22 years of age, five feet eight inches and weighed about 155 pounds. Police had believed the victim was between 13 and 14.

Her nude torso with the word "rat" cut into the stomach was found Wednesday in a dry creek bed near Yukon, Okla., with a brassiere and belt nearby. The head, hands and blue jeans and shirt were found Friday eight miles southwest.

Officers have taken fingerprints and footprints in an effort to establish her identity.

L. O. K. Bivins, head of the State Crime Bureau, said search for the killer spread to Texas today with the report that a blood-stained auto was seen at Ft. Stockton Thursday and San Antonio Friday.

A service station operator at Ft. Stockton reported servicing the car, occupied by two men. Bivins quoted the operator as saying there was "a great amount of blood on the front fender and the door." The license number was reported to Oklahoma authorities.

## THE WEEK

(Continued From Page 1)

down in the shade somewhere to rest.

Big Spring had a first class labor dispute on its hands at the end of the week. With 200 carpenters off the job, the defense housing project was virtually stopped, Saturday the carpenter's local was restrained by court order from picketing, so the matter moves into the courts. Perhaps earnest negotiation might yet clear up the trouble if it could be arranged.

Howard County cast a record vote in the first Democratic primary, official returns showed last week. The total was 6,639, but nobody was boasting about it. This was just about 58 per cent of the visible potential—not wholesome turnout at all. It is still true that those who stay at home sometime "elect" people to as great a degree as those who do their civic duty.

City officials conferred Friday with those from the Civil Aeronautics Administration concerning possibilities of a new municipal airport. So long as the Air Base is on a temporary basis, no CAA aid is possible. And that probably answers a lot of airport questions.

Less than 5,000 automobiles have passed the safety inspection required by state law. That leaves around 6,500 to be checked before deadline in September. If they make it (and they won't) that would mean 1,000 inspected per week, a manifest impossibility.

The CRAWD pipeline moved nearer from the west last week. Digging is easier and crews have been laying up to a mile per day. It is possible now that the line will reach here by the middle of August. Testing would require more time, but water from the well field should reach town by Sept. 1.

Coronet No. 1 Brokage completed for 350 barrels of low gravity oil per day last week, providing the first strike of consequence in several months. Until further development defines possibilities, however, not much excitement results from the shallow find.

Circle Aug. 19-38 on your calendar and plan to take part in the mass chest x-ray survey. We know of some instances where people might be alive today if they had taken time in previous years to take advantage of this free health service.

# Corsairs Lose To New York Giants, 4-3

NEW YORK, Aug. 2 (UP)—The New York Giants edged the Pittsburgh Pirates, 4-3, by the skin of their teeth today, winning just before the game was called with two out in the last half of the sixth inning because of rain.

Rookie outfielder Jim Dwyer homered with one on and two out just before a heavy downpour halted play.

The victory enabled the Giants to move to within 4 1/2 games of the pace-setting Brooklyn Dodgers.

Rhodes

# Indians Yield To Late Surge

CLEVELAND, Aug. 2 (UP)—A two-run homer by pinchhitter Allie Clark sparked a four-run outburst in the ninth inning today as the Philadelphia Athletics came from behind to defeat the Cleveland Indians, 6-4.

Philadelphia Athletics: ... Cleveland Indians: ...

Subject At Hand: Basketball

It may be early August, with the temperatures way up there, but there's been many a round ball bounced at HCJC the past few days and nights.

Coach Harold Davis, kneeling at right, has been conducting workouts for old and new help. Top row, left to right, they are Lynn Harvill, Bobby Maines, Calvert Shortes, Robert Minton, Lonnie Muse, Gene Carpenter, Robert Williams, and Stanley Williams.

Bottom row, Casey Jones, Charley Warren, James Pierce, Richard Gilmore, Jerry Scott, Eddie Murphy and Jack Lee.

# HCJC Cage Workouts Terminate; Prospects Good For A Winner

played a lot of basketball. The locals face the prospect of working into Davis' style of play, however, which differs radically from that of Bennie Ruthgerford, who coached the club last year.

Others who attended the drills included Jack Lee, who was on the squad last year; Calvert Shortes, Jerry Scott, Eddie Murphy and Gene Carpenter, all of Big Spring; Lynn Harvill and Stanley Williams, Dallas; Johnny Randolph and Don Stevens, Lamesa; Lonnie Muse, Odessa; Jimmy Pierce, Levelland; Robert Minton, Snyder and Rodney Cramer, Coahoma.

# LOOKING 'EM OVER

With Tommy Hart

They say Alex Monchak, the tempestuous Roswell skipper, fined himself twice recently for failure to deliver in the clutch. One of the fines he levied against himself was for \$25, the other for \$5. Al was also quite peeved with himself in a game here last Sunday, when he struck out with runners at first and second, so much so that he heaved a warm-up ball high over the fence into the parking lot west of Steer Park after taking the field.

# Webb, Henderson Win At Fastball

Cook's Appliance Store is still the team to beat as the second week of play in the YMCA Industrial Fastball League gets underway at the City Park Monday.

# Lamesa Mentors Head For School

LAMESA — Four Lamesa High School coaches have gone to Fort Worth to attend the annual Texas Coaches Association school, which officially gets underway Monday.

# Ackerly Hosts Midland Nine

ACKERLY — The Ackerly 7-Ups seek their 13th win in 21 starts here this afternoon in an engagement with the Midland American Legion club. Game time is 3:30 p.m.

# What About Sunday Night Ball Here?

Everyone agrees that A. C. Gonzales has done a great job of wrecking his Sweetwater ball club by getting rid of Rocky Carlini, Al Carrasquel, Charlie Tuttle, Gus Ungo and Ernie Sadler, right in the heat of the campaign.

# Double Bill Could Be Booked Here

Harold Davis and Larry McCulloch may team up and bring two of the better known junior college basketball teams in Texas for double headers here and in Odessa next season.

# Oilers Get Fresh From Gulf Coast

ODESSA — Don Byerley, a rookie from El Campo, Texas, has joined the Oilers. The 21-year-old hurler has been with Laredo, which still has strings on him.

# Batters Assume The Spotlight In Brown Win

ST. LOUIS, Aug. 2 (UP)—It was a batters' picnic here today as the St. Louis Browns outlasted the New York Yankees in a slugfest, 11 to 6.

The Browns' 13 hits included a two-run homer by Jim Dyck while the Yanks Yogi Berra drove in four with homers 22 and 23 and Gene Woodling hit his eighth.

The Browns at one time led 10 to 2.

Cass Michaels, with four hits, three runs scored and three driven in, and Dyck with a double homer and four runs driven in were the Browns' batting leaders.

Table with columns for AMERICAN and St. Louis players, listing stats like AB, R, H, E.

# DiMag Leads Sox To Win

DETROIT, Aug. 2 (UP)—Bespoke-dom DiMaggio started the Boston Red Sox to a 10 to 5 home-splashed victory over the Detroit Tigers today by battering a bases-loaded, none-out home run in the first inning off Hal Newhouse.

The mentor said he was going to see to it that B games were arranged, along with regular contests. He believed in giving the reserves all the action they want in order to maintain their interest.

# Milt Marshall Jumps Artesia

Following are player transactions completed within the Longhorn League recently, as announced by League Presley Hal Saylor:

ARTESIA — Milton Dewey Marshall, suspended indefinitely for jumping club; Robert Falk, placed on disabled list; Aaron D. Ross, obtained by optional assignment from Clovis club of West Texas-New Mexico League.

# Redlegs Pound Braves, 8-3

BOSTON, Aug. 2 (UP)—Former Tribesman Willard Marshall clouted a three-run homer as the Cincinnati Reds pounded out 13 hits today to defeat the Boston Braves, 8-3.

SWEETWATER — Luis Suarez, contract assigned optionally to DeCatur club of Mississippi-Ohio Valley League; Bobby Merritt, obtained by optional assignment from Paris club of Big State League; Johnny Morris, signed as player-manager; Alex Carrasquel, contract assigned outright to Paris club of Big State League; Gustavo Ungo Martinez, contract assigned outright to Alexandria club of Evangeline League; Charles M. Tuttle, contract assigned outright to Alexandria club of Evangeline League.

# Brooklyn Saved By Downpour

BROOKLYN, Aug. 2 (UP)—Today's game between the Chicago Cubs and Brooklyn Dodgers was called because of rain in the fifth inning with the Cubs leading, 4-0.

# Jalopy Races Slated Today

Jalopy racing comes back to Big Spring with a flourish this afternoon.

The races, which will be held on alternate Sundays, are being sponsored by Joe Williamson and Raymond Gillman and will be conducted on a newly-graded track four miles south on the San Angelo Highway.

# Broncs Will Take Day Off; Play Twin Bill On Monday

The Big Spring Broncs will take a day of rest this Sabbath, if one can call traveling rest.

The Steeds journey to Vernon for two games, both of which will be played Monday night.

# Coleman Seeks Cage Mentor

One of the objectives of Coach Carl Coleman's trip to the coaching school in Fort Worth this week will be to find a head basketball mentor.

Larry McCulloch, the head man in the round ball game at the high school here, is to take over as head coach at Odessa Junior College.

# White Sox Win Over Senators

CHICAGO, Aug. 2 (UP)—Eddie Robinson's free swinging and lefty Chuck Stobbs' tight pitching led the Chicago White Sox in a 6 to 1 triumph over the Washington Senators today.

# Sox And Oilers Meet Thursday

Although a loss Thursday to the Yankees cut their lead, the Oilers remained the number one club in the Little League standings through Friday's games.

But the second-place club, the Gold Sox continued on their way toward the top spot, winning two contests last week.

This week, the two teams get a shot at each other. They meet Thursday afternoon.

In Monday's contest, the Indians face the Oilers.

Tuesday's slate calls for the Gold Sox to battle the Eagles and Wednesday, it's the Yankees and the Indians going together.

Thursday's battle is the Oilers and the Gold Sox and the Eagles test the Yankees Friday.

# Artesia Romps On Broncs, 10-5, With A 21-Hit Attack

## Halter Smacks Five Safeties

Artesia's Drillers clubbed Bertie Baez hard in the late inning to bury the Big Spring Broncs under a 10-5 score here Saturday night and gain an even split in the two-game series.

Superlative relief tossing by Rooter Mills swung the issue Artesia's way. Mills appeared in the fifth inning with the sacks loaded and dished up a ball to Buddy Grimes that was hit for two bases and de-populated the hassocks. That tied the count at 5-all but the Drillers, stymied for two innings, stormed back with a go-ahead tally in the eighth and then crowded four corners across the dish in the ninth. Everything that Artesia committed with its that round seemed to either fall or bounce crazily for a safety.

Artesia started fast with two runs in the first and two more in the third.

Mills got credit for the win after relieving Len Ruyle, who had pitched creditably until he weakened in the fifth.

The loss went to Baez, whose mark is now 10-7.

Paul Halter paced Artesia's attack with five hits. He drove in four runs. Johnny Alonso and Bill Haley each had four blows for the winners.

Big Spring's 10-hit offensive was led by Rick Gonzales, who got three of them.

**ROUNDING THE SACKS**—The crowd numbered around 1,000, biggest of the eight-night home stand.

The loss snapped a seven-game win streak for Big Spring.

Pitchers did a lot of hitting in the slugfest. Mills got a hit that drove in a run. Reggi Gonzales had one for one and Baez two for three.

Len Ruyle, the Artesia starting hurler, hails from Memphis, Texas, and has been pitching in Paducah.

The Drillers stole three bases on Corrales in the third.

# Coahoma Trips Coltex, 2-1, In Playoff

COLORADO CITY, Aug. 2—Coahoma moved within one notch of the diadem in the Colorado City Jaycee softball championship series, turning Col-tex back 1-0 in a thriller.

Kirby set Col-tex down with one scratch hit to protect a one-run lead furnished him in the first. McMullen got a blooper over the first in the top of the 6th to spoil Kirby's chance of a no-hitter.

Although his mates committed several bobbles afield and he gave up eight safeties, Parham was tight in the clutches for Col-tex. He struck out eight, walked none.

Baker singled in the first, advanced on Morrison's sacrifice, went to third on a wild pitch and home on Ray's single. Morrison and Brown each had two hits, and Baker, Ray, Ward and Smolke also hit.

The series will be resumed at 8 p.m. Tuesday here and a win would give the title to Coahoma, which now leads two games to one.

# Ryan's Homer Kayos Cards

PHILADELPHIA, Aug. 2 (AP)—A five-run flareup in the eighth inning—topped by a grand slam homer by Connie Ryan—gave the Philadelphia Phillies a 6 to 2 win over the St. Louis Cardinals to night's play for Coahoma.

The series will be resumed at 8 p.m. Tuesday here and a win would give the title to Coahoma, which now leads two games to one.

# RUSSIANS MAJOR SURPRISE Major Assault On Records Featured Helsinki Games

HELSINKI, Aug. 2 (AP)—The 1952 Olympic games can be summed up in four words: Zatepek, Russia, records, Ashenfelter.

Emil (The Great) Zatepek was the star. This impossible Czech won the greatest of triples—the 5,000 and 10,000 meter runs and the marathon.

Soviet Russia competed for the first time, and surprised with its showing.

Records fell in almost every event, attesting to vast improvement in the level of world performance.

Horace Ashenfelter unexpectedly won the 3,000 meter steeplechase to spark the United States to 14 first places in men's track and field—America's best showing ever.

Zatepek dominated these games as only two men have done before him, Paavo Nurmi of Finland and Jesse Owens of the United States. He set Olympic records in both the 5,000 and 10,000 and then won his first marathon, 26 miles 385 yards, and won it by a half mile, also in record time.

Thanks to a long list of Soviet successes in men's and women's gymnastics together with both Greco-Roman and free-style wrestling, the unofficial battle for team honors became a ding dong affair between the United States and Russia. This was based on a scoring of 10-5-4-3-2-1 in all events where gold medals were given. Olympic officials, however, frowned on team compilations and insisted again that the games were for individual championships only.

Despite the rain almost every day, track and field records were given a terrific belting. In men's events five world marks were broken and two tied. Nineteen Olympic records fell, and two were tied. Only in the 100 meters, broad jump and 400 meter relay did the athletes of 1952 fail to equal or exceed the best efforts of all their predecessors.

The United States won every first place it expected to win plus some in track and field that it didn't, notably Ashenfelter's performance of 8:45 in the steeplechase—an Olympic record and the fastest anyone has ever run the event. It was more than 20 seconds faster than his best time in America.

In track and field there were so

many sparkling performances in addition to Zatepek's that it is difficult to single any out.

There was, for instance, the photo finish in the 100 yard Lindy Remigio of Manhattan College—who hadn't won a major 100 all year—outdistanced Herb McKenley of Jamaica.

There was Harrison Dillard, who failed to make the 1948 U. S. team in his specialty, the high hurdles. He came back to win this title four years later and add it to the 100, which he won at London.

It got so Olympic records didn't mean anything. At least the first six finishers in all the distance races—1,500 meters, 3,000 meter steeplechase, 5,000, 10,000 and marathon finished under the old Olympic records.

As for the rivalry of Russia and the United States, nearly half of Russia's points came in Greco-Roman wrestling—in which American's and women's gymnastics, the one of the most minor of minor sports in the USA. In Russia, by contrast, it is a major project, in which millions participate, and it can't enter a team—and in

is closely allied to the Russian love of the ballet.

Coch Bertus Hamilton told his American track team after it was all over that it was "immortal." Without doubt its performances were far beyond the most sanguine hopes.

The reason for this lies in what coaches call "depth" and baseball men call the "bench." Some first rate American athletes won, of course, such as Dillard and Charlie Moore in the hurdles, Andy Stanfield in the 200, Bob Richards in the pole vault, Bob Mathias in the decathlon, and Walt Davis in the high jump.

But second stringers came up when they were needed. The U. S. lost its best sprinter when Jim Golliday was injured and couldn't make the team. Then Art Bragg pulled a leg muscle and never reached the finals. But Little Romig rose to the occasion.

But it was Ashenfelter, the slender FBI man, who capped it off when he ran Russia's Vladimir Kazantsev into the ground in the steeplechase. That was one first the Soviets counted as in the bag.

# Five Negro Lads Score US Wins In Helsinki Fights

By MURRAY ROSE

HELSINKI, Aug. 2 (AP)—A 20-year Olympic victory drought ended in a golden cascade of first place medals tonight as America's inspired boxers swept five championships, beat Russia in the only face-to-face meeting of the two nations in the sport, and won the unofficial team title for the first time.

In matching their perfect five-for-five performance in the semifinals yesterday, U. S. great Sam's leather-punchers not only broke the games record for individual victories but also romped off with the silver loving cup given to the outstanding boxer in the tournament.

This went to Norvel Lee, the 27-year-old veteran from Washington, D. C. who won the light heavyweight crown and drew rave after rave from other boxers, officials, coaches and trainers for being the "perfect Olympic boxer."

Lee, a picture fighter, who boxes in the classic standup style, gracefully maneuvered to a unanimous decision over wild-swinging Antonio Pacenza of Argentina.

The victory parade was touched off by slender Nate Brooks, the 18-year-old flyweight from Cleveland, and carried on by light welterweight Charley Adkins of Gary, Ind., middleweight Floyd Patterson of New York, Lee, and then giant Eddie Sanders of Los Angeles.

Lee won the cup, but Adkins, a 20-year-old National Collegiate A.A. champion from San Jose State, won the sweetest victory of them all. He beat the Russian, game, strong Viktor Medkov, in the bout that gave the U. S. its second individual title of the winning and clinched the team championship.

With five first places, the United States piled up 50 points on a 10-5-4-3 basis. There was no fight-off for third and fourth places and the best semifinals in each division received 3 1/2 points apiece.

Russia's two finalists both were beaten and the once high rolling Soviet boxing brigade wound up in a tie for second place with little Finland, the host nation, each with 24 points. And of Finland had a champion to boast of, its second in the history of the boxing Olympics.

Rugged Pentti Hamalainen sent Finland's colors fluttering up the center victory pole when he outpointed lanky John McNally of Ireland for the bantamweight prize.

The American boxers thought it would be up to them to clinch

### County Disease Report Declines

Only 21 cases of six contagious infections were listed on the weekly diseases report of the Big Spring-Howard County Health Unit Saturday.

Diarrhea was the most prevalent infection, with eight cases diagnosed during the week. Five cases of gonorrhea, four of acute gastroenteritis, two of pneumonia, and

on case each of measles and polio were also reported.

Polio case reported was that of two-year-old Randall Gene Sanderson, son of Mr. and Mrs. S. M. Sanderson. The infection was diagnosed July 19, but was not reported to the health unit until Saturday. The youth is to be discharged from a local hospital Monday.

One other person, a child from Russell, N. M., is receiving treatment for polio here, but the case is not reflected on local disease records.

### Field Staff Chief Visits Draft Board

Major Marlin D. Lewis, chief of the field division of the Texas Selective System, was a visitor in the offices of the Big Spring draft board Thursday. He stopped here to answer any questions of board personnel and to offer advice in connection with any problems that might arise.

American mines are furnishing coal for more than half the world's steel production.

## Cloud Seeding Committee To Hold Monday Night Session

R. V. Middleton, chairman of the fund-raising committee to continue Howard County in the cloud seeding program of the West Texas Weather Improvement District, said yesterday that plans have been completed for the supper meeting of the committee, sponsored by the Big Spring Chamber of Commerce, at the Settles Hotel tomorrow night at 7:30.

At the same time Truman Jones, president of the Chamber of Commerce said that among the speakers will be Sam Allen of Lamesa, manager of the WTWID and Neale Sullivan of Denver, representative of Dr. Irving P. Krick's Water Resources Development Corporation with which the WTWID has a contract for seeding the clouds with silver iodide nuclei from ground generators.

In a telephone conversation with Allen yesterday afternoon he told the Herald that cloud seeding operations as a means of increasing precipitation in the semi-arid West has now gotten an official stamp of approval from the Weather Control Commission of Colorado.

Allen said that the state group of experts appointed by Gov. Dan Thornton has released figures showing that cloud seeding operations carried out in 33 sections of Colorado have produced an increase in precipitation up to 100 per cent above normal. Above-average moisture resulted in all 33 sections of the state where silver iodide generators were used, the report said.

Allen quoted Glenn Saunders, secretary of the Colorado Weather Control Commission as saying records compiled by the U. S. Geological Survey indicated that water content of snowpacks in various sections of the state where cloud seeding was carried out showed an increase in content from 25 to 100 per cent in the first six months of this year.

"This is particularly encouraging to us," Allen commented, "because it indicates a strong possibility that our cloud seeding operations, which will continue through the coming winter and spring, will

give us some good snowfalls and thereby provide this section with soil moisture for next year, in addition to the rains we expect to get before snow time."

Figures released by the Colorado group represent a survey from December 10, 1951 through July 10, this year and are based on a study of normal water content of a snowpack over the last 16 years.

"The Water Resources Development Corporation headed by Dr. Irving P. Krick, seeded clouds in 33 areas early this year," says the official report, "and in each area there was a marked increase in precipitation."

### Medical Treatment Ruled Out For Color Blindness

SAN ANTONIO, Tex., Aug. 2 (AP)—A top Air Force expert said today that medical treatment has been ruled out for color blindness. Now the hunt is on, with some hints of success, for backstop signal devices not based on colored lights.

Most people who are color blind were born with the defect and for them no cure seems possible although many have been tried, said Dr. Ingeborg Schmidt, ophthalmologist at the Air Force School of Aviation Medicine at nearby Randolph Field.

"Wearing tinted glasses, practice in watching red and green lights, massive doses of vitamins, injections of cobra venom and heroic measures such as stimulating the eyeballs with electricity—all have been tried and all have failed," Dr. Schmidt said in a news release.

### Well Keeps Corn Green In Drouth

KNIGHTSTOWN, Ind., Aug. 2 (AP)—A 16-acre field of green corn lies in the middle of thousands of acres of crops turned brown in drought-stricken East-Central Indiana.

Farmer Alvin Hardin has kept the 16 acres in perfect condition by using six giant sprinklers that pour the equivalent of 2 inches of rain in 3 1/2 hours.

Hardin uses an industrial motor to pump 600 gallons of water a minute from a well dug for the purpose.

There are approximately 60 members of the Howard County committee and J. H. Greene, Chamber of Commerce manager, said substantially all of them have indicated they will be present at the Monday night meeting. These committees represent all communities in the county.

Greene also announced that color-sound film explaining the theory and practice of cloud seeding will also be shown. Approximately one-third of the committee members are business and professional men in Big Spring.

### Two, Three-Vehicle Collisions Reported

Three traffic mishaps, two of them involving three cars apiece, were reported to city police Friday afternoon and evening.

Autos driven by Allen Gilbert, 1301 Scurry; Earl B. Henderson, 1909 E. 16th, and J. B. Lamb, 1602 Main, were involved in an accident at Ebevent's Place and Birdwell

Lans about 5:30 p.m., officers said. "Witnesses involved in a three-car collision on the west viaduct about 7:30 p.m. were G. C. Cothran, Big Spring; Don H. Weathersby, Webb AFB; and Americo Martinez Tompanga, Ozona, according to police reports.

The third mishap involved cars operated by Harold Edgar Prather, 2205 Main, and Hugo E. Macek, Webb AFB, said police. No personal injuries resulted from the accidents.

## YMCA Summer Recreation Program Keeps Youngsters Busy At Play

Closing activities for the last of 560 Big Spring boys and girls who participated in the annual YMCA summer recreation program were held this week.

This eight-week round of classes, supervised play periods and athletic instruction included swimming, diving, tumbling, softball, basketball, volleyball, tennis, golf, handcrafts, story telling hours and movies.

In charge of the activities have been Grover Good, general secretary; Tolly Baker, program secretary; Nancy Lovelace, in charge of the girls' programs; Marilyn Carpenter, of the recreation room.

Volunteers who instructed swimming classes were Nancy Clark, Nancy Smith, Ann Crocker, Marilyn Miller, Mary Gerald Robbins, Lynn Porter, Carolyn Miller, Nan Farquhar, Ann Richbourg, Norman Williamson, Lila Turner, John Robinson and Frances Hughes. Morris Rogers directed a boys gym class.

**SWIMMERS**—Nancy Lovelace, in photo top right, instructs a class of women in swimming and diving. In the semi-circle, left to right, are Mrs. Fred Beckham, Mrs. Tommy Jordan, Mrs. Don Thurman, Mrs. T. M. Lawson and Mrs. Melvin Turner. Children's classes may be seen in the background.

**TENNIS TOURNAMENT**—Nancy Lovelace, center left, shows the proper grip for the serve to Nita Farquhar, who won the tournament. Looking on are Jean Peters, left, who placed second, and Lynn McMahan, winner of the consolation round.

**DIVERS**—"It's simple," Marilyn Miller, (center right), tells Kenneth Kesterson, 9, as he starts a dive from the high board. Others in the line-up, left to right, are Bobby McAdams, Kenneth Johnson, Don Anderson, Donald Davidson, David Boles and Mike Jacoby.

**TUMBLING CLASS**—A girls' tumbling class, above, demonstrates the stomach balance (center), flanked by the back balance and the outside knee balance at extreme outer ends.

**HANDICRAFTS**—Story telling, movies, softball and basketball kept Latin American children busy mornings and afternoons at the Kate Morrison school. Children in the group, at left, under the guidance of Larry McCulloch, are making tiny leather billfolds, using leather thongs to sew and bind the edges.

His Favorite Accompanist

The Rev. A. H. Hoyer looks fondly at Mrs. Hoyer, who has served as accompanist at church services during 36 years of his 32 in the ministry.

## Minister For 32 Years, Rev. Hoyer Recalls Early Circuit Riding Days

By JO HILL

Thirty-two years ago, on the first Sunday in August, the Rev. A. H. Hoyer, Lutheran pastor, was ordained into the ministry.

Thirty-two years of christenings and funerals, weddings and church services.

It's a long time.

"But it doesn't seem so long," tall, erect Rev. Hoyer declared. "Time passes so quickly," his dark-haired wife chimed in.

Born in Spring Valley, Kan., the pastor received his higher education at St. John's College, Winfield, Kan., and Concordia Seminary, St. Louis, Mo.

He began his theological work as a missionary-at-large in Western Colorado.

"They told me when I left for Colorado that I was going into real heathen country," the white-haired balding minister laughed.

"And the country was pretty much of a wilderness," he added. "But you must remember that was in 1920."

Two years after his ordination, the Rev. Hoyer married a girl from a neighboring Kansas town.

"I felt as though her father had prepared her for nothing but the life of a paragon," he smiled, his dark eyes sparkling.

The couple has two children, Chaplain Leland Hoyer, who followed in his father's footsteps at St. John's and Concordia, and who only recently returned from the Korean front, and Wilmer.

The Leland Hoyers are living in Battle Creek, Mich., with their two daughters, Christianne and Lee Audrey.

Wilmer and his wife are in Austin while he works toward a Doctor of Philosophy degree in physics at the University of Texas.

During the pioneering days of the young minister in Western Colorado things were not always easy sledding.

In fact, in many instances he used a sled to reach his destination.

Rev. Hoyer remembers fondly the period in his life designated as circuit riding times, when he held church services high in the mountains for members of a logging camp.

He could reach Rifle, Colo., by train. From there to the camp was quite a distance and his transportation depended upon the weather. If the day was clear, the ascent

was relatively easy.

A member of the congregation would leave a saddled horse at the train station and the pastor would ride up the trail.

However, if it was snowing, a sled would be brought down and he would ride it to the top to his waiting congregation.

The Hoyers moved to Yuman, Colo., in 1927 and citizens of the small town soon asked the pastor to take the lead in obtaining a community hospital.

Before long the citizens were casting proud glances at a 15-room converted home that had become a fully-equipped hospital.

"I could never have succeeded without the community support," the Rev. Hoyer modestly stated. "The people were wonderful and whole-hearted in their help."

World War II found the Rev. Hoyer and his family living in San Antonio.

In 1941, he left the ministry to devote his full time to the organization of a servicemen's center.

### Arabian Nights Attractions In Film At State

Four of the adventures out of the Arabian Nights have been assembled for Columbia Pictures' Technicolor production, "Thief of Damascus," which stars Paul Henreid and plays at the State Theatre Tuesday and Wednesday.

The quartet consists of Sheherazade, Aladdin, Ali Baba and Sinbad.

In the film, they join forces to fight one of the most evil Khaldis of the Orient. Henreid appears as an army general who falls in love with a beautiful princess, a deposed Sultan's daughter.

With the legendary figures, and working from Ali Baba's mountain cave, he aims to overthrow the infamous despot and return the rightful sultan to power.

The climactic battle scene is prefaced by Ali Baba's famed overland journey with his 40 thieves concealed in oil casks.

Featured in the movie are John Sutton as the evil ruler, Jeff Donnell as Sheherazade, Lon Chaney as Sinbad and Elena Verdugo as a lovely follower.

## NM Wedding Of Couple Is Revealed

Mr. and Mrs. M. E. Anderson have announced the marriage of their daughter, Mrs. Melba Dean Douglass, to Jack Blair Ewing, son of Mr. and Mrs. J. B. Ewing of Big Spring.

The double ring ceremony was performed in the Methodist parsonage at Lovington, N. M., June 30 by the Rev. Ray W. Ross.

Mr. and Mrs. Arlis Ratliff attended the couple.

Mrs. Ewing is employed by the Charles E. Long Drilling Co. and her husband is associated with his father in the Oil Well Drilling service.

The young people are making their home at 303 Eleventh Place.

## Officers' Wives To Meet Thursday

It has been announced that the Officers' Wives' Club of Webb Air Force Base will meet Thursday at 1 p.m. in the Academic Building at the Base for a luncheon, business meeting and bingo party.

Members desiring reservations are asked to call Mrs. Walter L. Harter at 1824-J or Mrs. William S. Smallwood, 884-W, not later than Tuesday.

## Piano Care

Your piano should be placed where it looks attractive, and where conditions are right for its proper care. It should be placed in a room where the temperature is pretty constant—not too near windows or radiators where care and tone might suffer. Polish the keys occasionally with non-oily polish. Keys should be washed occasionally, and a cellulose sponge is ideal for the job. These sponges do not leave strings or fuzz.

## Clean Food

If you want to keep your family well, be sure that food is kept refrigerated during the summer months. In particular, pork and pork products should be cooked thoroughly. Leftovers should be thoroughly heated. When preparing food make sure your hands are clean.

## Cooks Have Guests From Out-Of-State

Visitors in the home of Mr. and Mrs. R. C. Cook the past three weeks have been Lt. and Mrs. J. R. Cook of Shelby, Ohio, Mr. and Mrs. Howard Campbell and daughters of Oberlin, Kan., Mr. and Mrs. Taylor Hopper and children of Wilmington, Calif., Mrs. Myrtle Hopper and children of Leorah, Mr. and Mrs. Clyde Cook and son, Dan, and daughter, Mary Jo Beverly of Overton.

Recent Bride

Mr. and Mrs. W. S. Shaw have announced the marriage of their daughter, Neida Ann, to Richard R. Tobias, son of Mr. and Mrs. Clyde Tobias, Cheyenne, Wyo. The couple was married in Yuma, Ariz. July 25 and honeymooned in Phoenix, Ariz. The bride is a graduate of Knott High School and is employed by the Pacific Telephone and Telegraph Co. in Long Beach, Calif. Her husband is in the Navy.

## Squadron Is Feted With Dinner Party, Dance Friday Night

Members of the Headquarters Squadron Section 35, 60th Pilot Training Wing, their wives and dates were entertained Friday evening at a dinner party at the Settles Hotel Ballroom.

Joe Williams and his band played for dancing and a fried chicken dinner was served.

Sgt. James P. Carroll served as master of ceremonies and M-Sgt. Fred Hardy was in charge of arrangements.

## DESIGNING WOMAN Window Shades Should Change With The Times

By ELIZABETH HILLIER  
 Are the windows just a shade off the good looks standard of the rest of the room? Perhaps the window shades don't match the style of the curtains and draperies, and they're doing nothing for the decoration of the room when they so easily could. Shades needn't go on year after year looking just as they always did—they can change, too, with the stepped up styling of the room. They can be the new kind, for example, that are textured to go with the textured fabrics, wallpapers

and rugs a smart house now wears. One new type of textured cotton shade is called shantung. Here a shantung shade is shown handsomely complementing textured draperies. It completes the window treatment as no other kind of shade could and is especially interesting because it is translucent—apart of light shine through to show off the texture. The new window shades, textures and prints in high fashion colors, cut down curtaining problems, they do so much decorating by themselves.

## MRS. SIDNEY E. ALMGREN Sidney E. Almgrens Are On Wedding Trip

Lt. and Mrs. Sidney E. Almgren are on a wedding trip to the West Coast following their marriage Wednesday.  
 The bride is the former Mary Gerald Robbins, daughter of Mr. and Mrs. Shirley Robbins, 411 Edwards Blvd. Sidney E. Almgren of San Diego, Calif. is the father of the bridegroom.  
 The Rev. T. A. Ross performed the single ring, informal ceremony at the First Methodist Church in Lovington, N. M.  
 The bride wore mouchette champagne suit with brown accessories. She wore a ring as something old, new was her suit and borrowed and blue was a linen handkerchief.  
 The couple will live in Chandler, Ariz. while the bridegroom is stationed there with the Army Air Force as a jet pilot instructor.  
 Mrs. Almgren is a graduate of Big Spring High School, where she was a member of the High Heel Slipper Club. She attended Texas Christian University in Fort Worth and Arizona State College in Tempe, Ariz.  
 Her husband attended San Diego State College, where he was a member of Alpha Tau Omega fraternity.  
 Broccoli takes to a topping of buttered crumbs. To make the topping melt a quarter cup of butter or margarine over moderate heat, add three-quarters cup dry bread crumbs, and stir until the crumbs are golden-brown.

## Newcomers Club To Meet Tuesday

The Newcomers Club will meet Tuesday at 10 a.m. at the downstairs assembly room of the First Presbyterian Church. There will be a business meeting and a social hour.  
 All members and all newcomers to Big Spring are urged to attend.

MR. AND MRS. WAYNE C. ALLISON

## Wayne Allison Like Fishing And Bowling

At the drop of a hook or the crack of a bowling pin, Mr. and Mrs. Wayne C. Allison are apt to leave their more mundane affairs and join in the fun.

After quitting time, that is. The Allisons, to put it simply, are fishing and bowling enthusiasts.

The couple came here a short time ago from Denton, where he received his Masters degree from North Texas State College at the summer mid-term. He is assistant city sanitarian and they are making their home at 1807 Johnson.

Mrs. Allison was taking nurses' training in Columbus, Miss., when she met her husband, who was stationed there with the Air Force. Upon completion of her course, she came to Gatesville, Allison's home town, as an anesthetist. They were married a year ago in June.

During the first few months of her stay in Big Spring, rest is the main thing on the agenda for Mrs. Allison.

Realizing the need for nurses, she said, "Maybe I'll work later. But right now I just want to keep house and rest."

Texas has become home to the dark-haired nurse, a native of Sullivan, Ala.

"I like it," she smiled as she wrinkled her nose. "The people are so friendly," she concluded simply.

**FROM TEXAS TO BROADWAY CITY AUDITORIUM**  
Monday Night, 8:15  
Admission 50c and \$1.00

**Newcomers Bridge**  
The Newcomers Bridge Club will meet Aug. 13 instead of Aug. 6 as was previously announced. Hostesses will be announced later.

## Afternoon Bridge Club Entertained

GARDEN CITY, (Spl)—Mrs. W. K. Scudday won high score prize when Mrs. Bob Ballenger entertained members of the Afternoon Bridge Club Wednesday at her home north of Garden City.

Second high went to Mrs. Ray Hightower and consolation to Mrs. Buster Box, a guest. Mrs. W. C. Underwood was also a guest of the club.

Mrs. Alby Crouch will entertain the group at the next meeting.

"Let The Earth Be Glad" was the topic for discussion when the Garden City WSCS met at the church Tuesday afternoon for the last meeting until Sept. 2.

Mrs. Joy Wilkerson led the opening prayer.

Mrs. Tom Ashill spoke on "A Look at The Earth" and "The Fullness Thereof," and Mrs. W. K. Scudday told of the various ways the U. S. has aided foreign countries.

Mrs. Max Fitzhugh closed the meeting with a prayer.

## Virginia Hill To Wed D. R. Ziemer In Dallas Rites

Mr. and Mrs. Robert Hill, 804 Lancaster, have announced the engagement and approaching marriage of their daughter, Virginia, to Douglas Richard Ziemer, son of Mr. and Mrs. A. J. Ziemer of Austin, Minn.

The wedding will take place Aug. 9 at the Tyler Methodist Church in Dallas, where the couple will make their home.

## Good Reasons Why the O'KEEFE & MERRITT Automatic Gas Range is "Tops" in Carefree Cooking!

**Exclusive VANISHING SHELF-COVER**  
The handy shelf takes tireless footwork out of cooking... comes down over the burners, forming a handsome cover when cooking's done!

**Exclusive KOOL CONTROL PANEL**  
Specially designed for convenience... scientifically designed so that burner knobs won't overheat; you'll find them pleasant to touch, always.

**Exclusive GRILLVATOR BROILER**  
Instant selection of broiling levels—so easy, so safe! And the amazing new Speedray Element broils up to twice as fast!

Here is the extra value gas range—top to bottom, inside and out! Come in and look it over; you'll appreciate the many extra, thoughtfully designed features that make O'Keefe & Merritt famous for better, carefree cooking!

### Houstonians Visiting In Smith Home

Mr. and Mrs. Ray Fesmire and twin sons of Houston are visiting in the Jack Y. Smith home this week end. Mrs. Fesmire is a sister of Mrs. Smith.

Mr. and Mrs. Hugh Gauntt spent last week in Ruidoso, New Mexico. They left Friday to spend the week end with Mr. Gauntt's mother in Rochester.

John S. Kelly spent four days this week in San Antonio and Three Rivers on company business.

Michael, son of Mr. and Mrs. Otto Peters, Jr., was dismissed from Cowper Hospital on Tuesday after having recovered from an emergency appendectomy.

Mary Archer and Bill Bakelman are spending Sunday in Seminole visiting Mary's parents.

Huff Peters who is associated with Mechanical Designs, Inc. in Tulsa has returned to his work after spending two weeks with his parents, Mr. and Mrs. Otto Peters Sr., and in Colorado.

Roxie Dobbins returned to work this week after spending his vacation in Colorado.

V. A. Whittington is spending the week visiting relatives in Oklahoma.

C. W. Smith spent Friday in Abilene and Sweetwater on company business.

Leonard Blackwell is on vacation this week.

Earl Cross, Abilene bulk plant manager, is on vacation.

Lester Cornett of Reliance Service Company in Abilene was a visitor of the office this week.

R. L. Tolett attended the National Petroleum Council meeting in Washington Tuesday and thereafter went to New York City on company business. He returned to Big Spring late Friday afternoon.

Guests in the Tommy Ferguson home are Mr. and Mrs. Cecil Ferguson of Kansas. Both couples are

### CC Jaycee-Ettes Present Musicians In Recital Friday

COLORADO CITY—The Jaycee-Ettes presented Zora Mae Sweatt and Mike Cooper in a harp and piano recital Friday evening.

The crowd, favorite was a two-piano duet, "Dancing Doll," followed closely by the piano and harp numbers, "To A Wild Rose" and "Ave Maria."

Miss Sweatt played four harp solos. Cooper, at the piano, played two numbers by Debussy.

spending the week end in El Paso. Mills Balch is on vacation this week.

The following refinery men are on vacation: Ray Richey, J. F. Ellis, Thurman Gentry, Roland Schwarzenbach, T. J. Kidder, M.

Y. Partlow, Max Stokes, C. E. Milam, J. B. Thurman, J. Lee Wright, W. H. Patterson, W. G. Billings, R. C. Bennett, G. T. Wiley, L. R. Thomas.

We welcome Billy Ray Howell as a new employee.

## HELEN'S HINTS

---Where to shop for what---

**FALL IS JUST AROUND THE CORNER . . .** Here it is the first Sunday in August, and with August upon us, we realize that fall is not far away, so you gals who are planning late summer or early fall weddings won't want to miss the daily arrivals of appropriate decorative material at FAYE'S FLOWERS . . . lovely and unusual things to give your wedding an air of traditional simplicity and continental charm that's so arresting and unforgettable. Chrysanthemums in white and lush lavender, as well as the rich gold and bronze tones; colorful croton leaves, velvet leaves and tubing in all colors . . . these are only a few of the many accessories Faye can give you to make yours the most distinctive and creative wedding of the season.

**"SOFT STEPS" . . .** Deb and the operatic theme go hand in hand to give you the always distinctive, individual opera pump . . . unadorned, sleek, keyed to the clothes you will wear this fall. You'll find it at MARGO'S, styled in rich brown suede with medium heel, and a ventilated foam rubber cushion insole. The graceful contour, and air of quality make it an ideal shoe for either dress or tailored wear. The soft and supple suede smooths your foot to lovely lines. Plain and pretty, their matchless beauty and serene comfort make these shoes stand out in any setting and cast a wonderful fashion shadow. A smart shoe . . . an astonishing price . . . \$10.95.

**STRAIGHT FROM THE PAGES** of August "Mademoiselle" and "Glamour" . . . straight from ZACK'S of Margo's come Loities and "the new custom look knit for Fall". A sure sense of line . . . a sudden flare . . . simple styling and uncluttered detail mark these knitted dresses as the fall season's success. Two-piece marvels of design and fit, they're hand detailed of 100% nubby zephyr wool chenille, in several exciting styles and crisp glowing colors. There's plenty of charm in the design, gained from advanced knitting techniques, their trim tailored lines, and you'll find there's nothing so easy to care for, so easy to wear, so easy on the eyes . . . \$29.95 and \$39.95.

**"WRITE" FOR THE OCCASION . . .** a good gift for anyone, at any time of the year is a handsome box of stationery, and you'll express yourself in a more individual, more personal way with stationery from NESTER'S. You'll find the quaint RFD (rural free delivery) stationery by Cape Shore, as well as the Pine Cone style, with notes and letter paper pine scented. For more feminine moods, there are Rose Design notes complete with feather quill and colored ink. Be it a note of appreciation for hospitality enjoyed; one in acknowledgement of a gift or favor; a birthday or anniversary letter—all single you out for your thoughtfulness and good taste, and if you choose a paper with character and quality, the compliment is fully paid.

**TAILOR MADE TO "SUIT" YOU . . .** from the finest selection of fabrics at ELMO WASSON'S. Nobody can deny that suits tailor-made to his own personal measure, detail and styling are a mark of distinction in any man's wardrobe. The soul of a suit lies in the fabric, and Elmo has an almost unlimited selection for you to choose from . . . soft wools, long wearing gabardines and tweeds, his favorite flannels . . . that will be especially made up by Avon Park or Society Brand. Such suits are so right for the man who wants selective styling, tailor made to his own individual tastes, and remember, it's not expensive to be exclusive when it's the finest money can buy.

**BRIGHT IDEA IN BEAUTY . . .** right idea in practicality. The brightest, most practical idea ever to delight a "designing" woman is the discovery of the many uses for a Samson card table in her home. At MARGY STREET FURNITURE you'll find the most wonderful selection of Samson card tables in a scintillating spectrum of colors. Their well known strength and sturdy construction will please your pride at a moderate price. You'll be proud of the way they look, and if you take the wisdom in choosing such well-built pieces, you'll choose from the conventional size as well as round or double size rectangular shapes, and they all have that lustrous and beautiful finish that's so easy to keep clean. They're priced at \$5.95, \$9.95, \$12.95, and \$13.95.

**IT'S THE LOOK OF YOUR HAIR . . .** which suddenly makes your new clothes look right . . . your old clothes look new, and there's no better way to be assured of lovely tresses than a weekly washing with Breck . . . "the shampoo for beautiful hair". At HARDESTY DRUG you'll find this amazing shampoo that's especially made for normal, dry or oily hair, and if you take advantage of it now, there's a special offer of a \$1.50 value of Breck shampoo and Breck Hairdress together for only \$1.00 plus 7c tax. With Breck, beauty goes to your head and stays there, in the form of a shining cap of hair, so soft and easy to manage, and it will mean fashion-right grooming for any season.

**JUST ARRIVED VIA RCA VICTOR . . .** the new "personal" radio, and it's available at THE RECORD SHOP. Now you can own or give the latest, most modern in portable radios as conveniently as a small camera. This radio is the product of years of engineering experience. It incorporates new features for superior all-round performance, and the camera-thin case with easily accessible batteries, has a sleek, modern design unmatched in anything you've seen before. You'll also find other fine portables by Sentinel and Emerson, for top entertainment wherever you go . . . perfect for vacations or college bound scholars.

**WIVES ARE AWARE . . .** that Sunday is a day for rest and relaxation, so when church is over, rather than going home to a hot kitchen, what could be better than a well planned and delicious dinner at the DOUGLASS COFFEE SHOP! You and your whole family will enjoy the pleasant atmosphere and efficient service, and you're bound to be more than pleased with the taste-enticing selection of foods. Whether you order a dinner or choose from the many appetizing a la carte dishes, you'll find it's a feast you won't forget. Today, why not take a holiday from the kitchen, without having to plan, prepare, or serve your dinner, and with no drudgery of dishes to dampen your spirits.

**"THE EYES" HAVE IT . . .** when they're aided by one of the large magnifying glasses from the BIG SPRING HARDWARE. This is the companion you need for reading fine print or maps. If you're a coin or stamp collector, it will be of invaluable assistance in determining the tiny markings, so important for identification of rare stamps or coins. These are only a few of the many uses you'll find for having such a handy item around the house . . . it's a new and different idea for a gift item too. The frame and handles of the glasses are fashioned from sturdy plastic in three colors . . . black, ivory, or maroon, and the price of \$3.75 is certainly small in comparison to the big difference they make in "eying the situation".

## HI-TALK

By Margie McDougale

A slumber party was given in Narrell Dene Choates' back yard Sunday night. Those spending a slumberless night there were Mary Lou Lepard, Margie McDougale, Monaha Holley, Diane Laughman, Frances McClain, Lynelle Martin, Mary Sue White, Ann White, Janice Boardman, Myrna Talley and Sharon Choate.

Some of the kids seen taking in the midnight show Wednesday were Libby Jones, John Lawrence, Betty Wright, Ray Todd, Mary Lou Lepard, James Phillips, Margie McDougale, George McGann, Bobby Adams, Jackie Jennings, Jean Brooks, Dewey Byers, Mary Sue White, Doyle Mason, Diane Laughman, Gerald Scott, Joy Williams, Ronnie Sanders, Carolyn Miller, Bobby Phillips, Julie Rainwater, Dickie Millam, Doris Jean Brown, Merlin Peterson, Joyce Edwards.

Frosty Robinson, Sandy Swartz, Richard Prahm, Joyce Welch, Norman Dudley, Charlene Wilson, Jim Farmer, Sonja Washington, Billy Swindell, Gayle Price, Buddy McDaniel, Kay Ribbours, Robert Merworth, Ann White, "Punkin" McGeehee, Gay Nell Lane, Jimmy Harper, Anna Mae Thorpe, Roger Brown, Mary Smith, Hollis Harper, Lila Turner, Robert Angel, Nancy Wallace, Louis Stipp, La Rue Casey, David Ewing, Glenda Adams, Ray Shaw, Lavelle Wasson, Doyle Maynard, Janice Anderson, Junior Suter, Bea Vaughn, Savoy Kay, Claudette Harper, Russell Green.

A new engaged couple in town is Betty Wright and Ray Todd. Betty is a 1952 graduate of BSHS, and Ray is a senior.

The USO sponsored a picnic and dance on scenic Friday night. The girls attending furnished the food. This is one of the many social events sponsored for the boys at Webb Air Force Base.

Wednesday afternoon nine girls enjoyed a swimming party. They were Mary Lou Lepard, Narrell Dene Choate, Lynelle Martin, Shirley Wheat, Diane Laughman, Frances McClain, Doris Jean Brown, Sue Robinson, Jody Miller.

The cheer leaders elected Mary Lou Lepard head cheer leader for the coming school year. The girls have really been hard at work planning their uniforms. Due to the ineligibility of one of the senior cheer leaders we will have only four this year.

Thursday night John Lawrence gave a dance on scenic for his visiting cousin, Betty White. Betty is from Beaumont. The kids enjoying it were Doyle Mason, Carolyn Miller, Bobby Phillips, Lila Turner, Robert Angel, Mary Smith, Gerald Scott, Doris Jean Brown, Ronnie Sanders, Anna Mae Thorpe, Roger Brown, Libby Jones, John Lawrence, Shirley Burnett, Freddie Black, Louis Stipp, Junior Suter, J. W. Thompson, Charlene Wilson, Jim Farmer.

Jody Miller is vacationing in Western Canada. She plans to make it a two week's trip and tour all the western states on her way.

On trips this past week were Bill and John Dorsey to Colorado, Janice Anderson to Rudosa, Mary Ellen Hayes to Alexandria La., Marie Wallace and Elouise Carroll to Stephenville, and Don Anderson to Oklahoma City.

### Mrs. Jack Johnson To Have Brothers Here For Reunion

Members of the family of Mrs. Jack F. Johnson, 212 Dixie, will arrive Tuesday for a family reunion and a week's visit.

They are her brother, B. H. Seabolt, and family of Hagerstown, Md.; another brother, Edgar Seabolt, and his wife of Beeville; and a nephew, J. T. Splawn Jr., and Mrs. Splawn of Fort Worth, where he is stationed at Carswell Air Base.

Mrs. Johnson has not seen her brothers in two years.

### Mrs. Tucker Is Feted With Party

Mrs. C. T. Tucker was honored with a farewell and birthday party in the home of Mrs. William Dehlinger Friday evening.

Mrs. Tucker will move to San Angelo soon.

A gift was presented the honoree and refreshments were served to Jewel Barton, Mrs. Nellie Barton, Fred Hyer, Mr. and Mrs. Martin Dehlinger, Martin and Arthur.

177  
Formal Cardigan

Beautiful white, pastel or black easy-to-knit formal cardigan sweater trimmed with separately-made crocheted gold and pearl trim makes this one of the really exciting "glitter" bits of elegance in a season when "glitter" is a fashion byword! You can also use the separate trim of gold thread to pretty up an off-the-shoulder blouse, a slip-on sweater or even a party dress. Actual size detail of trim is given for 12, 14 and 16 and are all included in pattern.

Send 25 cents for the DRESS UP SWEATER with Separate Gold Trim (Pattern No. 177) complete knitting instructions, crocheted gold trim instructions, sketches of all details, YOUR NAME, ADDRESS, PATTERN NUMBER to CAROL CURTIS

Big Spring Herald, Box 228, Madison Square Station, New York 10, N. Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

### All-Day Quilting Party

Busy with needles, thread and lots of conversation are, left to right, Mrs. Ernest Rainey, Mrs. Foster Shirley, Mrs. E. G. Rainey, Mrs. W. O. McClendon, Mrs. H. Reeves and Mrs. R. C. Stocks.

### Old-Fashioned Quilting Bee Fast Passing From Scene

In the days before fancy-toned woolen blankets and the even more recent innovation of electric sheets and blankets, the old-fashioned quilting bee not only served a useful purpose but was a popular form of entertainment as well.

The women of the community met often with one of their neighbors to spend the day quilting and passing along the news of the moment. They took along the children, too, and it became a gay occasion for all.

Quilting, now almost a lost art, is passing from the scene and with it the all-day quilting bee. A few church and lodge groups still hold quilting parties to make the covers for orphanages or for sale for funds for their favorite charities.

One such party was held this week by members of the Mollie Phillips Circle of East Fourth Baptist Church to make a quilt for Buckners Orphan Home.

The women met in the basement of the church and the morning was spent putting the quilt together and attaching it to the frames. For

the uninitiated, this means spreading a layer of cotton between the pieced coverlet and the lining, and whipping the edges to the wooden frames with heavy cord.

The quilters brought sack lunches, stopped only long enough for the snack. By late afternoon they were richer by a day of fellowship and the children of the home had a new quilt for next winter.

### Entertain Easily With Buffet Party

A good way to entertain in hot weather is to ask friends to "Come over for dessert" and then serve an Ice Cream Buffet. Have several flavors of ice cream and several sauces for guests to choose from. Fill an attractive bowl ahead of the guests' arrival with scoops or large spoonfuls of the ice cream and place it in your refrigerator freezing compartment—if it's roomy enough—in your freezer. Then you can bring it out at serving time.

If any of the ice cream is left over—rare chance, but it's been known to happen—place it in a refrigerator at its coldest setting. Freeze until firm, occasionally stirring from the edges and bottom. Return control to normal setting when ice cream is at the desired stage.

Just to glid your Ice Cream Buffet a bit, you might have some small containers of nuts, coconut, and cherries so guests can help themselves to garnishes.

### Prepare Own Brown Bread As Taste Treat For Family

1/2 cup rye meal or 1 1/2 cups corn meal  
1 cup corn meal  
1 cup coarse entire wheat flour  
1/2 teaspoon soda  
1 teaspoon salt  
1/2 cup molasses  
2 cups sour milk

Mix and sift dry ingredients. Add molasses and milk, stir until well mixed, and fill well-greased mold not more than 2/3 full.

Cover closely and place mold on trivet in kettle containing boiling water, allowing water to come half-way up around mold. Cover closely and steam 3 hours, keeping water at boiling point. Add more boiling water as needed. If baking powder boxes are used, steam 1 1/2 to 2 hours.

Rock lobster tails vary in size from 4 to 16 ounces. A half-pound tail will be a generous serving for one person.

### Forsan Workers Appointed In Chest X-Ray Campaign

FORSAN, (Spl)—Workers in the chest X-ray campaign were named Thursday morning at a called meeting of the Forsan Home Demonstration Club in the home of Mrs. J. D. Leonard.

Jewel Barton, county health nurse, briefed the group on the X-ray program. Mrs. C. V. Wash presided and named the workers, who will attempt to contact all persons in the community over the age of 15 to solicit their co-operation in reaching a 100 per cent goal in Howard County.

Appointed were Mrs. C. C. Suttles, Sunray Camp; Mrs. D. M. Bardwell, Cadden Camp; Mrs. Dan Fursie, Amerada Camp; Mrs. J. D. English, Sun Camp; and school campus; Mrs. E. A. Grissom, Humble Camp; Mrs. J. D. Leonard, east and west Continental Camps; Mrs. D. L. Knight, Magnolia and Royal Oil and Gas Camps; Mrs. M. M. Fairchild, Phillips and Standard Camps; Mrs. Henry Park, Fred Hyer lease and vicinity; Mrs. J. B. Anderson, vicinity of Rust's store; Mrs. H. H. Story, Chalk; Mrs. Sammie Porter and Mrs. W. B. Dunn, Forsan.

Date for the HD Club family picnic was set for Friday, Aug. 15, with the place to be designated later.

Following the business session a coffee was given in honor of Mrs. Ray Shortes, immediate past president. Mrs. Shortes, who is now living in Big Spring, was presented a gift from club members and friends.

The serving table was laid with a white linen drawn-work cloth and centered with an arrangement of summer flowers in a crystal bowl on a reflector.

Mrs. Fairchild poured coffee and Mrs. G. G. Green assisted in serving.

Others attending were Mrs. Eugenia B. Toland of Big Spring, Mrs. Eli Jacobs, Mrs. W. O. Averett, Mrs. E. E. Everett, Mrs. A. J. Smith, Mrs. C. L. Gooch, Lucie Jacobs, Peggy Knight and Carolyn Everett.

### Webbs Have Guests

Mr. and Mrs. A. D. Webb have had as their guests their son and daughter-in-law, Mr. and Mrs. James D. Webb of Midland. The younger Webb recently received his Bachelor of Science degree in Geology from the University of Texas.

'One Cent A Glass, Mister'

The weather was hot Friday and this quintet went into the thirst-quenching business in the 1900 block of Runnels with little more than an orange crate, a pitcher of fruit drink and unbounded enthusiasm for their enterprise. Left to right are Joe Frank, David Young, Gary Jones, Butch Jones and Dennis Young.

### Betty J. Dean To Marry Royce Griffith Aug. 10

FORSAN, (Spl)—Mr. and Mrs. A. Z. Dean of Forsan have announced the engagement and approaching marriage of their daughter, Betty J., to Royce E. Griffith of Kermit, son of Mr. and Mrs. D. L. Griffith of Desdemona.

The single ring ceremony will be read Aug. 10 at 9 a.m. in the parsonage of the Forsan Methodist Church, with the Rev. R. L. Bowman, officiating.

BETTY J. DEAN

Mr. and Mrs. G. G. Green, Ann and Barbara left this week end to spend their vacation in Evening Shade, Ark.

Mr. and Mrs. J. B. Hicks Sr. and the Rev. and Mrs. J. B. Hicks Jr. are vacationing at Brownwood Lake.

Mr. and Mrs. Johnny Soules and Herace Dale have been transferred to San Angelo by the Plymouth Oil Co.

Mr. and Mrs. O. D. Smith Sr. have moved to Uvalde, where they will be employed by the Junior College.

Mrs. Alvin Duffer of Tulsa, Okla. and Mrs. Lloyd Kliek of Big Spring were recent guests in the L. N. Duffer home.

The Rev. and Mrs. R. L. Bowman were called to Comanche Friday by the death of a friend. The Rev. Bowman conducted the funeral services.

Mr. and Mrs. J. T. Wright of Dickens are guests of Mr. and Mrs. Joe Ratliff and family.

Mr. and Mrs. J. H. Cardwell are spending the week end in Odessa with Mr. and Mrs. T. D. Breithaupt and family. Their granddaughter, Beverly Jo, will return home with them for a visit.

Mr. and Mrs. V. L. Bennett have had as their guests, his brother and family, Mr. and Mrs. E. C. Bennett and Wanda, and their daughter, and family, Mr. and Mrs. N. G. Hallmark Jr. and Nancy, all of Hobbs, N. M.; Mr. Bennett's brothers and their families, Mr. and Mrs. R. L. Shipman and Rhinard Lee of Eunice, N. M., and Mr. and Mrs. J. Y. Shipman, Denis Wayne and Susan of Jal, N. M. and Mrs. Bennett's mother, Mrs. R. L. Shipman of Doole.

Virgil Bennett is a week-end guest of Burl McCoy in Merkel.

## A Bible Thought For Today—

The Man of Sorrows was not embittered by the most outrageous injustice and cruelty. He was concerned solely with faithfully finishing his life task. "When then Jesus had received the vinegar, he said, it is finished, and he bowed his head and gave up the ghost." — John 19:30.

## Considerable Road Development Appears In Offing For Vicinity

Considerable highway improvement planning and construction appears in the offing for Howard County. The major end of it concerns U. S. 80 where the indications are that the ultimate goal is freeway status (divided highway) for it.

One project, roughly \$150,000, is up for bids soon for widening of U. S. 80 and shaping shoulders from the Air Base west to the Martin County line. Planning authorization has been given the green light for around \$500,000 for approaches to and the route through Big Spring. In general terms, this would mean divided highway for the city and opening of a new route (probably Fourth Street) through the city. Previous speculation is to the effect that Fourth and Third then would become one-way streets.

All of this is most encouraging and gives some hope of reality to several years of planning and working by local interests, the Commissioners Court, Chamber of Commerce and the Highway Department.

Ultimately, the broad plan may need to include a loop around the north edge of town to divert heavy truck traffic away from the heart of the city. We still think there is a logical crossing point somewhere near Cosden's plant for a road that could swing just north of town and perhaps ride the Andrews highway out to a point where it could be diverted back into U. S. 80 west of the over-pass area.

This, like other phases of the road development, may come in time.

Meanwhile, there are some facets of the problem which warrant current attention. One is the cut-off between U. S. 87 and U. S. 80 around the base of Scenic Mountain. District highway authorities have indicated that there is still time to get this job done before winter if prompt action is taken. The hitch now is down to getting a deed on some estate property. This deed likely could be rewritten so as to be entirely satisfactory to all concerned, and the Highway Department might supply the initiative on this. The other involves right-of-way which the T&P railroad is willing to give. However, the old standard form has become, for some reason, unacceptable and now is subject for negotiation between the State Highway Department and the railroad.

We have a feeling that if the Commissioners Court will militantly press for action, both on its part and for the State Highway Department that this urgently needed route can be put up for construction soon. It is urgently needed, and action to accomplish it ought to be pushed with an urgency paralleling the need.

## Gallup Poll

### 10 Decisive Factors Listed In Eisenhower-Stevenson Race

PRINCETON, N. J.—Here are the 10 decisive factors in the Eisenhower-Stevenson election—the things to watch as the campaign progresses.

Institute interviewers will be talking face-to-face with voters regularly between now and election day to find the answers to each of these 10 points:

- 1—What are Eisenhower's chances in the South?
- 2—Are the big cities as strong for Stevenson as they were for Roosevelt and Truman?
- 3—Cities over 100,000 normally vote 60 per cent Democratic, 40 per cent Republican, on the average. Of the 106 cities with 100,000 population or more, 85 went Democratic in 1948, 96 went Democratic in 1944 and 87 in 1940.
- 4—Can Stevenson, who starts the campaign as a candidate relatively unknown to the public, roll up the same big city vote majorities as Truman and Roosevelt did?
- 5—Will Stevenson make as great an appeal to the nation's 14 million independent voters as Eisenhower?
- 6—Independent voters have been partial to the Democratic party, by a ratio of about 3-to-2. In the last three presidential races.
- 7—Will Stevenson carry the labor vote by as great a margin as Roosevelt and Truman did?
- 8—Since 1936 members of labor unions have voted Democratic by better than 7-to-3. The Republicans have never succeeded in

- 9—Will the Midwest farm vote go Democratic again as in 1948?
- 10—The shift of the farm vote toward Truman in the closing days of the 1948 campaign was one of the decisive factors in his election. The Democratic candidate this time comes from the heart of the Middle-west—Illinois.
- 11—Will Stevenson and Sparkman command the northern Negro vote majorities which previous Democratic tickets had?
- 12—In 17 Northern states there are more than 3 million Negroes of voting age. They are concentrated principally in states having a large number of electoral votes, such as New York, Illinois, Pennsylvania, Michigan, Ohio and California.
- 13—Will Eisenhower be able to break the hold of the Democratic party on young voters?
- 14—Voters under 30 years of age have favored the Democratic party by about 3-to-2 in the last four presidential elections.
- 15—"First voters"—those reaching voting age for the first time—have been even more Democratic in their leanings.
- 16—This "new blood" pouring into the Democratic ranks has been a great advantage to the party on election day. Can Eisenhower and his youthful runningmate, Richard M. Nixon, reverse the trend?
- 17—Will Eisenhower run ahead of his party?
- 18—The Republican party is the minority party. Its chances for victory lie in the hope that Eisenhower can run a better race than the party as a whole.
- 19—Will Stevenson's divorce hurt him with Catholics?
- 20—Before he was nominated an Institute survey found only 14 per cent of voters saying that the fact a candidate was divorced would make a difference in their attitude toward him. Now that he has won the nomination, will the divorce issue be a serious handicap?
- 21—Which party will gain the most votes on the key issues?

## Uncle Ray's Corner

### Sunday Talk: Answering Questions

James Ely, a boy who lives in an Ontario village, has sent me a letter with this question:

"Do you know anything about Magellan?"

Some years ago I wrote several articles about Ferdinand Magellan, and I may take up his life again at a future date. Right now I should like to set forth an important fact about him.

Some persons say that Magellan was the first man to sail around the earth. That is a mistake. Magellan failed to circle the globe. He died when he was only half way around.

The death of Magellan took place while he was on an island in the western part of the Pacific Ocean. One vessel in his little fleet sailed on and completed the trip back to Portugal.

Another reader, Mr. W. R. Krummel, asks me to touch on "the subject of how languages began to form."

Here, again, the subject is big. Many theories have been brought forward in an effort to explain the origin of language. I should need at least a dozen articles to give a fair idea of all these theories.

There is one, however, which seems to me to have a good deal of sense in it. This relates to early people imitating the sounds made by animals when they gave names to them.

If we were doing that system today, we might call a dog a "bow-wow." A cat might be called a "meow."

We have several names of birds which came from their songs or cries. There is the bobwhite, for example, which calls out "Bob-white!" Another name of this sort is whippoorwill.

In the insect world we have the katydid. It makes sounds which seem like "Katy did," also like "Katy didn't."

There are a number of words which sound like the actions described by verbs. One of these is "splash," which gives a hint of splashing water. Another is "his," which seems to be "slap" and "clap."

This theory explains some words, but there are a vast number which fail to fit the pattern. Other theories are needed to explain most of our words.

"Do They Say 'Ike' Or 'Adlai' On Them?"

## Merry-Go-Round—Drew Pearson

### Steel Decision Means That Truman Will Lose His Price Administrator

WASHINGTON—During the early days of the long-drawn-out steel-strike negotiations, Assistant Secretary of Defense Anna Rosenberg was urging that the crisis be solved by giving the steel industry a price increase. She wanted to know why this wasn't practicable.

"You can increase prices all right," replied Price Stabilizer Elia Arnall. "You can increase 'em if you want to wreck the country."

"Yes, you can increase 'em all right," he added very softly, "but you'll have to get yourselves a new price administrator."

Last week steel prices were increased as a "bribe" to the steel industry, and, as a result, Mr. Truman is going to have to get himself a new price administrator.

Arnall will carry out his threat without any shouting or bombast—in fact, just as softly as he gave his reply to Assistant Secretary Rosenberg. He doesn't blame the President for coming in to the steel companies in view of the desperate arms situation, and he doesn't want to embarrass anyone. Nevertheless, Arnall has concluded that you can't control prices, if you yield every time you get in a tight corner.

"Under the present law there are just two things left for the price administrator to do," Arnall told a friend recently. "If the price is too low he can remove a commodity from price control, or if the price is too high, he can cave in."

Arnall is tired of caving in as a result of pressure from above, so about the end of the summer he will unobtrusively go back to Georgia.

The person who has more influence on Harry Truman than anyone else, told him just before the convention that she would not be too much opposed if he ran again. Hilda Bess Truman had been one of the chief reasons why HST hadn't wanted to run. Another was daughter Margaret. Mrs. India Edwards, vice chairman of the Democratic National Committee, received an offer from the Eisenhower camp to come over to the Republicans. She declined. She wasn't interested personally, and besides, the Republicans didn't even give the ladies a nominating speech for the vice presidency, where the girls had quite a fling at the Democratic convention.

Both Mrs. Edwards and Judge Sarah Hughes of Dallas had their names put up, in addition to which one whole day was devoted to the ladies. Stanley High, who ghost-wrote FDR's famed speech on "Economic Royalists," is now ghost-writing speeches for Eisenhower defending the economic royalists. Truman is really burned up at Eisenhower. Once a great Ike fan, the President now privately calls him an ingrate. He is particularly sore at Eisenhower's claim that he had nothing to do with carving up Germany. Real fact is that the Pentagon has some papers signed by Eisenhower showing that Ike did have a lot to do with carving up Germany. These will be used—and when the campaign gets really hot.

It looks as if President Truman might repeat his propensity for picking the wrong candidate in Missouri. So far he hasn't picked a winner.

First he bet his money against Congressman Roger Slaughter of Kansas City and lost. Later he bet against ex-Congressman Tom Hoagins for the Senate and lost.

Now he is betting against his old assistant, Stuart Symington, who is

## Killingsworth Leaves For Home In Waco

E. L. Killingsworth, former city engineer, left Big Spring Friday for Waco where he is to make his home.

Killingsworth resigned his city job July 15 for reasons of health. However, he remained on duty in an advisory capacity through the last two weeks of July to assist Clifton N. Bellamy, new city engineer.

## Bible Words to Live by

I have no single favorite Bible verse. There are, of course, a great many which make a special appeal to me, but of these I cannot single out one and say that I place it above all the others.

A verse to which I find myself constantly turning is:

MARK 12:30—"And thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind, and with all thy strength; this is the first commandment."

There is a place in religion for the exercise of the intelligence. God wants our heads as well as our hearts. To think, and to think hard, is a religious duty. Devoting one's mind to the service of God is every bit as necessary as private prayer or public worship. When God claims a man, He claims the whole man, his brains included. How one wishes that more people would give their brains to the service of religion and do it with something like the diligence and devotion that fill their days from Monday to Friday.

Dr. Robert J. McCracken  
Riverside Church  
New York City.

### Uncle Wobbly Tells A Story That Has A True Anniversary Date

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note.

If you children have got on your nites, and will cuddle up here and be still as a mouse, Uncle Wobbly is gonna tell you a story—a sort of birthday story.

You know what day this is? We-ell, the calendar says it is August 3, and do you know what, it was on August 3, just 460 years ago, that a feller name of Colombo—yass, that's right, somebody else put the "bus" on him later—taken off from a place called Palos, Spain, a-lookin' for Indians.

"How do you know it was 460 years ago, Uncle Wobbly?" asked little Clay. A-cause, child, don't you know that verse that says "In fourteen hundred ninety-two, Columbus sailed the ocean blue?" Now what other year could you have that would make such a nice verse, and then you put your arithmetic to work. Anyway, as I was a-sayin', Colombo started off. He had had one heck of a time a-gettin' anybody to agree with him that some Indians were across the waters, but he was so-scappin' hungry that he kept a workin' until he got himself some boats and some sailors together.

Seems that these boats were named Shadrach, Meshach and Abednego—

"Are you SURE that were their names, Uncle Wobbly?" asked little Buddy in awakened interest. "I thought Shadrach and those others were people in the Bible."

Ye-s-s, ye-s-s, mebbe you're right. Mebbe them ships was called the Pinta and the Nina and the Santa Claus—or at least something like that. But if you don't quit interruptin', we ain't gonna get Colombo started, and we ain't gonna have no birthday story. Now be quiet....

Well, as I was tellin' you, Chris—that was his first name—got these ships out of the harbor and got 'em to chuggin' across the ocean....

"Chuggin', Uncle Wobbly?" quizzed a youngster. "I thought they only had sails in those days."

All right, all right, he got 'em to sailin' across the ocean. Seems like, on those three ships he had about 120 men, and they began to get worried. They never had seen so much salt water afore, and I suspect they got a little sea sick, too.

Anyhow, they threatened to take Chris and chuck him overboard, and go right back home. He had to do some tall persuadin'. "Bout that time a dove showed up with a twig in its mouth and that made everybody feel better, most of all Chris. "Why, Uncle Wobbly, I thought the dove with the twig was in the Bible, too," said a listener.

"I told you to quit buttin' in. They was some birds flew out to meet Chris, too. Anyway, this got him over the rough spot, and before you could say 'Ferdinand and Isabella' he had landed one o' them ships. And now it's time for you to hike to bed."

"But, Uncle Wobbly, did Chris find any Indians, and did he scalp them?" asked Buddy.

We-I, he found the Indians, all right, but don't know as he scalped anybody, he was so happy to find the place he was lookin' for. So he named the place Indiana, the same state your great-grandpappy was born, and smack in the middle of Indiana they started a town and called it Columbus.

"Why, Uncle Wobbly, the books say Columbus is in Ohio," said a youngster.

All right, if you know so much about it, maybe it is. What I been tryin' to tell you all the time is that Chris would had a lot better place to start the new world, if he had landed in Texas in the first place.

Now, good night. —BOB WHIPKEY.

## Today And Tomorrow—Walter Lippman

### Several Factors Dictate The Need For A Change In Party

In his acceptance speech Gov. Stevenson referred to Gen. Eisenhower as "a leader whom we all respect." There was more than politeness to that remark. The Democratic managers showed how much they respect Gen. Eisenhower by doing everything they could think of to reorganize the party for a contest specifically against Eisenhower.

They knew that the contest with Eisenhower would not be a repetition of 1948. They knew that after twenty years of the New Deal they are no longer fighting Hoover, and that after all that has happened abroad they are no longer fighting the pre-Pearl Harbor isolationists.

They did not allow themselves to forget that the man they must beat is Eisenhower, who is not only famous and popular but is free of the past and has the opportunity, therefore, to lead the Republicans out of the wilderness of defeat. The Democratic leaders have treated Eisenhower's candidacy with respect that comes from a full appreciation of how formidable he could be if he understands and works from his own true strength.

The Democratic leaders saw clearly that the force of the Eisenhower movement lies in the fact that he has stood apart from the domestic strife of the past twenty years—and that he offers the prospect that he can raise the nation above its sectional, racial and class division in the face of the danger abroad. The Democrats set themselves to meet this challenge. They resolved every conflict against the sectional and factional extremists and in favor of the moderates. As a result they have no Dixiecrats and no Wallace Progressives to worry about this time. Then they drafted a candidate who, though a conspicuous Democrat, has never held high office in Washington.

Gov. Stevenson went straight to the heart of the matter in his acceptance speech. He recognized that the basic issue between Eisenhower and himself turns on the need for a change. The Governor did not deny that there is need for a change. The President, we must remember, was on the platform with him when he asked this question: "Do you doubt the power of any political leader, if he has the will to do so, to set his own house in order without his neighbors having to burn it down?"

That was a good and brave beginning. But it is no more than the beginning of a discussion which may well decide the outcome of the election.

The question of "change" is now, as I see it, defined in about this way: Eisenhower offers a new party and Stevenson offers a new administration.

There are powerful considerations in favor of a change of party. The first, I would say, is that if, as seems most probable, new decisions will have to be taken which call for additional sacrifices on the one hand and for diplomatic flexibility on the other, Eisenhower should be able to carry the country with him better than Stevenson. He is less vulnerable than any Democrat can be to the charge that he is wasting our substance abroad or to the charge that if he uses diplomacy he is an appeaser.

The second consideration, in favor of a change of party is that this is the surest way to retire the unchosen beneficiaries of twenty years of patronage and to open up the offices of responsibility to the new political generation. A Democratic President, even one as independent as Stevenson, will find it very trying indeed to be ruthless enough to remove all the loyal and deserving Democrats who need to be removed.

There is a third consideration which, plainly enough, the Democrats cannot be expected to worry about publicly—which nevertheless cannot be dismissed lightly.

## Time For Hobby

COLUMBUS, O.—The average person has about 2,000 hours a year which he can use to follow a hobby, says R. Bruce Tom, extension rural sociologist at Ohio State University.

"A hobby is something you do because it makes a worthwhile difference in your life," Tom says. "A fad is something you do because everyone else is doing it."

## Pictorial Menu

NEW YORK (AP)—Now there are pictorial menus. They are being tried by a local hotel (Edison). Pictures in natural color show restaurant patrons what the dish they order will look like.

CHARLES NUDELMAN

**Designs Blouse And Skirt For Your Wearing Pleasure**

For your fall and winter evenings: this skirt and blouse from the great American fashion house of Charles Nudelman.

Mr. Nudelman, like others who have arrived at greatness through long years of dedication to their art, has been known—and is known—for his artistry of design. He has always been very popular with those who like fine things, and some of today's great names of fashion had their beginnings under Nudelman label.

Although today's two-piece designs may look on the novelty side, it is anything but that. Remove the gossamer of trim and you'll find one of the most practical skirts that ever came out of a designing room.

In the original, the skirt was made of felt and trimmed with a fringed lace-like braid. And it is felt that we recommend for your wearing pleasure.

The blouse is one of those delightful separates that can be made of anything and can be worn with any skirt of your choice. Personally, we think it is perfect for a fall evening at home. Its plain, high neckline is designed for your best costume jewelry—and its three-quarter sleeves are the ultimate in comfort and charm.

Size 12 requires 2 yds. of 36-inch material for the blouse, and 2 1/4 yds. of 72-inch felt for the skirt with the apron effect. Pattern 1108 is available in sizes 10, 12, 14, 16, 18. To order Pattern 1108 send \$1 to Spades Syndicate, Inc., Dept. 164, Box 258, Madison Square Station, New York 19, N. Y. For air mail handling, enclose 25 cents. To order pattern booklet, VII, send 15 cents.

Mr. and Mrs. P. D. Ausmus and son, Paul Dean, have just returned from an extended trip through the Pacific Northwest and Canada. Their trip took them through eight states and up to Vancouver, B. C. by boat from Seattle, Wash. via Victoria, B. A.

They also visited the Royal Gorge and Pike's Peak in Colorado, Yellowstone National Park in Wyoming and places in Montana, Idaho, Washington, Oregon and Utah.

Mrs. J. T. Culppepper and Jack, 1508 Scurry, have returned from a visit with relatives in Texarkana, Tex. and Atlanta, Ga.

**It Happened On Broadway**

Tony Martin and Janet Leigh take the starring roles in "Two Tickets to Broadway" playing at the Jet Drive-in tonight and Monday. The picture is a musical with color by Technicolor.

**Spectacle Of The Century**

The story of the Roman rule during the time of Nero and the prosecution of the Christians is the theme of "Quo Vadis," the great Technicolor production playing at the Ritz Tuesday, Wednesday and Thursday. Robert Taylor and Deborah Kerr star in the M-G-M production.

**HIGHLIGHTS ON KBST**

**Political Lineups To Be Discussed**

Three political authorities will discuss the question "What Changes Should There Be Within Our Political Parties" on America's Town Meeting of the Air, scheduled over KBST Tuesday evening at 8 o'clock.

Speakers on the program will be Judge Samuel L. Rosenman, former Justice of the New York Supreme Court, who was special counsel to the late President Roosevelt, and is now advisor to President Truman; Norman Thomas, Socialist Party leader, and Henry J. Taylor, author, foreign correspondent and ABC commentator. Quincy Howe, associate professor of journalism at the University of Illinois, will be moderator of the session.

**"PIANO PLAYHOUSE"**

An entertaining study in musical contrasts will be offered over ABC network this afternoon when a concert pianist, Eugene List, and a jazz impresario, Ralph Sutton, are heard on Piano Playhouse. The program is on KBST at 3 p. m. Margaret and Forrest Perlin, regular duo-pianists on the program, also will be heard. The program will include: "Shall We Dance," "Fireworks," "Love Me Or Leave Me," "Tenderly," "Sonata," and "Dinah."

**JACK BERCH SHOW**

**Almost Noon**

Gary Cooper and Lloyd Bridges with Grace Kelly, star in "High Noon," the western drama showing at the Ritz Theatre today and Monday. Cooper plays a marshal who, single handed, meets four gunmen in the deserted streets of a small western town at the stroke of 12 noon.

**'HIGH NOON' AT RITZ**

**Gary Cooper Stars In Top Western**

A man who was too proud to run, Gary Cooper, stars in "High Noon," a United Arts production opening at the Ritz Theatre today.

Cooper portrays the marshal of a frontier town, Hadleyville, and heads a cast that includes Thomas Mitchell, Grace Kelly, Lloyd Bridges, Katy Jurado, Lon Chaney and Ian MacDonald.

"High Noon" is based on John W. Cunningham's short story, "The Tin Star," and the entire time involved in the film, 85 minutes, is the length of time needed to view the picture.

A murderer, MacDonald, who Cooper caught and sent to prison for life has been pardoned and three of his henchmen arrive in town with the word that MacDonald will arrive by train at high noon.

Miss Kelly, as Cooper's wife of only a few minutes, tries to per-

suade the marshal to leave town and let Lloyd Bridges, Cooper's deputy and new sheriff handle the problem.

Cooper refuses and in the next few minutes tries to round up a posse to deal with the four men.

He falls in his purpose and 10 minutes before high noon—10 minutes before the climax—he walks out into the silent street of the town to meet the gunman single handed.

**Texan Tackles Murder Case In England**

A "private eye" from Texas in a murder case in London, England sets the stage for "Whispering Smith vs. Scotland Yard," the mystery that plays at the State Theatre Thursday.

Richard Carlson portrays an American sleuth who goes to England for a vacation. While there he yields to the entreaties of Rona Anderson to investigate the mysterious death of a woman—a death the authorities have called suicide.

He traces the dead woman's best friend, her fiance and her lawyer, and his interviews with them convince him that the case is one of murder, not suicide.

Included in the cast are Greta Gynn, Herbert Lom, Reginald Beckwith and Daniel Wherry. Francis Searly directed the picture, with Steve Fisher writing the screenplay.

"Whispering Smith vs. Scotland Yard" was partially filmed in England and some of the backgrounds include Windsor Castle, the fields of Runnymede and the town of Bray.

Proudly Jack cites Mrs. Haugild, who at the age of five traveled by covered wagon from Iowa to Minnesota, raised 13 children, has been a grandmother 67 times and also has 64 great-grandchildren.

**Big-Spectacle, 'Quo Vadis', Opens At The Ritz Tuesday**

One of the greatest motion picture spectacles of all time comes to Big Spring Tuesday, Wednesday and Thursday in the form of "Quo Vadis." The picture will be playing at the Ritz Theatre.

The movie portrays life in Rome and the persecution of the Christians during the ruthless reign of Nero. It was filmed entirely in Rome, where the action took place.

Robert Taylor and Deborah Kerr head a cast of over 30,000—119 of whom have speaking parts. The film required over 115 sets and took over three years to film. Fourteen years were needed to plan, prepare and film it.

Included in the 115 sets were the Great Circus of Nero and Rome when it burned.

Peter Ustinov takes the role of the evil, greedy Nero and Leo Genn acts his faithful, favorite deputy, Petronius. Both actors are English as well as several other members of the cast.

Taylor portrays an average pagan warrior of the time, Marcus Vinicius, and Miss Kerr plays a Christian hostage in Rome, Lygia, who Vinicius falls in love with.

every language in the world. This is the fourth time the novel has been made into a movie but

**New Orleans Is Background For Fighting Film**

With New Orleans' colorful night life, its underworld and its prize-fight sector as background, "Glory Alley" comes to the State Theatre today and Monday.

Starring Ralph Meeker and Leslie Caron, it is the story of a prizefighter who turns yellow on the eve of his championship bout, subsequently becomes a hero in the Korean fighting and then slips downhill again when he tries to make a meal out of his Congressional Medal of Honor.

Meeker plays the prize fighter, Socks Barbarossa and Miss Caron, Sock's fiancee.

Adding to the New Orleans' atmosphere of the picture are Louis Armstrong and Jack Teagarden and his orchestra, playing Dixieland Jazz. The musical score includes "Glory Alley," "St. Louis Blues," "That's What the Man Said," "Jolie Jacqueline," and "South Rampart Street Parade."

pany, the first time as a talkie the first time by a Hollywood company and the first time as a Technicolor production.

The first movie was produced in 1902, the second in 1912 and the third in 1925.

Included in the cast of 23 principals are Patricia Laffan, Finlay Currie, Abraham Sofaer, Marina Bertl, Buddy Baer and Felix Aylmer.

The movie is directed by Mervyn LeRoy and produced by Sam Zimballist.

"Quo Vadis" plays here as a roadshow attraction at advanced prices. The pass list is suspended for this engagement.

**Honored At Bridal Shower**

Shown at the refreshment table at the bridal shower honoring Doris Jean Morehead in the home of Mrs. W. L. Mead Thursday evening are Mrs. G. G. Morehead, mother of the bride-elect; Miss Morehead and Mrs. Mead. Miss Morehead is to marry Doyle McCullough of Luling, Aug. 16 at the First Baptist Church.

**Mrs. Fowler Has Party; WMS Prepares For Pastor**

**FORSAN, (Sp)**—Mrs. C. L. Fowler entertained with a demonstration party in her home Thursday afternoon. Mrs. C. B. Nunley of Big Spring was the demonstrator. Winner of the "early bird" prize was Mrs. H. G. Starr, and Mrs. R. L. Bowman was the "lucky lady."

Others attending were Mrs. C. C. Suttles, Mrs. D. L. Knight, Mrs. E. M. Bailey, Mrs. L. T. Shoultz, Mrs. C. L. Draper and Mrs. J. P. Kubecks.

Instead of having their regular meeting, members of the Baptist WMS met at the parsonage Wednesday afternoon to get it ready for the new pastor and his family, the Rev. and Mrs. J. M. Stagner and Mike, who were expected to arrive Friday from Anson.

Mr. and Mrs. J. W. Griffith and family left Friday morning for Frazier, Colo., to spend their vacation.

Monday guests of Mr. and Mrs. W. O. Averett and Sue were Mr. and Mrs. Foy McClelland and sons of San Angelo.

Ott King and C. R. Martin are fishing this week end near Eola.

Diane Knightstep of Odessa spent the week with Madge Anderson. Her parents, Mr. and Mrs. Elmo Knightstep, and family are Sunday guests of Mr. and Mrs. John B. Anderson and family. Diane will return with them.

Mr. and Mrs. J. D. Martin and family left this week end to spend their vacation at Corpus Christi.

Royce Griffith of Kermit visited Mr. and Mrs. Burt Griffith the later part of the week.

Mrs. Joe T. Holladay was admitted to a Big Spring hospital during the week for surgery.

Mrs. Ray Crumley underwent major surgery in a Big Spring hospital Saturday.

Mrs. Etta Bradley has been dismissed from a Big Spring hospital and is reported improving in the home of her daughter and family, Mr. and Mrs. O. W. Fletcher.

Mrs. Ace Alton and children have had as their guests her parents and an uncle from Tennessee.

Mr. and Mrs. Tom Sherrill recently returned from a vacation

trip to Southern California.

Mrs. Jim Snelling was called to Fort Worth Wednesday by the illness of her granddaughter, Pamela Rogers.

Mr. and Mrs. Roy Klahr and daughters visited Orville Creelman Sunday in Odessa.

Janet Gooch is visiting relatives in Abilene.

Mr. and Mrs. Burt Griffith were fishing at Brownwood Lake the first of the week.

Albert Oglesby and Johnny Baum spent several days in San Angelo recently with Mr. and Mrs. Donald McAdams.

Henry Park and son, Freddie, were in Mentone on business during the week.

J. R. Oglesby of Westbrook is visiting in the A. P. Oglesby home. Johnnie Park and Harold Hicks were among those attending the 32nd annual Baptist Encampment at Falsano.

Mr. and Mrs. Charles Hall of Iranan are visiting in Forsan this week end.

James Suttles and Roy Klahr were in Odessa Wednesday on business.

**Circle Meeting**

The Mollie Phillips Circle of East Fourth Street Baptist Church will meet Monday at 2:30 p.m. in the home of Mrs. Ernest Rainey.

**Mu Zeta Meeting**

Mu Zeta chapter of Beta Sigma Phi will meet Monday at 8 p.m. in the home of Mrs. Billie Marie Knopp, 1010 E. 20th. The program will consist of pledge training and a discussion of "Friendship."

LIL ABNER

BY AL CAPP

SHIVERLY!!—WHERE'S THE PICTURE OF THE SOCIETY LEADER OF DOGPATCH, FOR OUR 'SOCIETY LEADER' ADS?

W-WELL CHIEF—THERE'S SOME QUESTION AS TO WHO IS THE SOCIETY LEADER—

THE STAID, CONSERVATIVE, OLDER SET IS BACKING THE—UGH!—DONAGER MRS. YOKUM!!

WE FANCY PANSY!!

THE OLD GRAY MARE (MEANIN' MAMMY YOKUM) AIN'T WHUT SHE USED TO BE!!

IT'S TIME FOR A CHANGE!!

WELL, HOW ARE THEY GOING TO SETTLE IT?

THE WAY THEY SETTLE ALL SOCIETY MATTERS IN THE HILLS—WITH BARE KNUCKLES!!

THAT'S GRUESOME!!

YOU DON'T REALIZE HOW GRUESOME!! THE SOCIETY LEADER HAS TO FIGHT HER OWN DAUGHTER—IN-LAW!!—BRRR—THOSE PEOPLE HAVE NO HEARTS!!

MEANWHILE IN DOGPATCH—

BUT—GOSH—AH JEST CAIN'T TRAIN!!—TH' THOUGHT O' SLUGGIN' MAMMY YOKUM BREAKS MAH HEART!!—

BUT—WE BET OUR HOMES ON YO'!!

YO' GOTTA GIT MORE VICIOUSNESS—MORE CROOLTY INTO YORE WALLOPS!!

—SO WE WHOMPED UP A LI'L DUMMY O' MAMMY YOKUM FO' YO'!!—PERTEND IT'S HER!!—HATE IT!!—SLUG IT!!—MURDALIZE IT!!—

AH'LL T-TRY T'DO LIKE YO' TELLS ME!!

FUST—AH GOTTA PERTEND IT'S HER—

IT—ALMOST SEEMS LIKE—IT—IS HER!!—

OH, GOSH—AH LOVES YO'!!—

(OH!!—WHUT A TRAGEDY THIS IS GONNA BE!!—THEM TWO, WHAT LOVES EACH OTHER SO, GOTTA SLUG IT OUT—UNTIL ONE OF 'EM DROPS!!—W-WHICH ONE WILL IT BE??)

**Prince Valiant**  
IN THE DAYS OF KING ARTHUR  
By R. Foster

**Synopsis:** SIGURD HOLEM LAUGHED SCORNFULLY WHEN PRINCE VALIANT LAID SIEGE TO HIS STRONGHOLD WITH ONLY TWENTY WARRIORS. HE WAS PREPARED TO DEFEND HIS WALLS, BUT NOTHING HAS HAPPENED. THE SILENCE IS LIKE A THREAT.

BACK IN THE FOREST MEN ARE BUSY SHAPING TIMBERS.

UNDER COVER OF DARKNESS THEY ARE BROUGHT TO THE TUNNEL TO SHORE UP ROOF AND WALLS.

LIKE MOLES THEY BURROW UPWARD UNDER THE FORTRESS, REACHING TOWARD THE BROOK AT THE FAR SIDE.

VAL LEADS THE WAY TO ENCOURAGE, BY EXAMPLE, HIS FRIGHTENED WORKERS, FOR THEY FEAR THIS DARK, UNDERGROUND WORK. THEN IT HAPPENS! IN THE FLICKERING LIGHT OF THE TORCH A THIN STREAM OF WATER IS OZZING FROM THE CLAY..... VAL SHOUTS A WARNING!

VAL AND HIS MEN TUMBLE OUT INTO THE FRESH, COOL NIGHT. BY MORNING A STREAM OF THICK MUDDY WATER IS POURING FROM THE TUNNEL'S MOUTH.

SIGURD GOES TO LOOK AT THE STRANGE BEHAVIOR OF THE STREAM. NO LONGER DOES IT FLOW AROUND HIS HOUSE..... IT IS DISAPPEARING INTO AN EVER WIDENING HOLE UNDER HIS WALLS!

AS THEY WATCH THE WATER EATING AWAY UNDER THE FORT, VAL SAYS TO RUFUS, "LET US PUT AN EDGE ON OUR WEAPONS. TOMORROW WILL BE A WORKING DAY!"

NEXT WEEK!—'The House Built on Sand'

No **GRIN** and **BEAR IT** *Li Cutty*

"Duh! ... stop yelling you can lick anybody in the house Mr. Figby...you're home now!..."

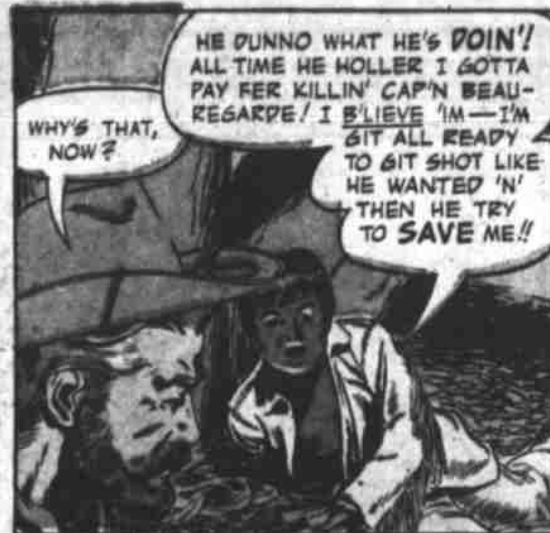

"Does it have to represent anything? ... it's just stuff to sell to the tourists..."

"As spokesman for our minority group, I protest such rank discrimination..."

"I found it safer to move my collection... what with guests arguing politics..."

**TARZAN**

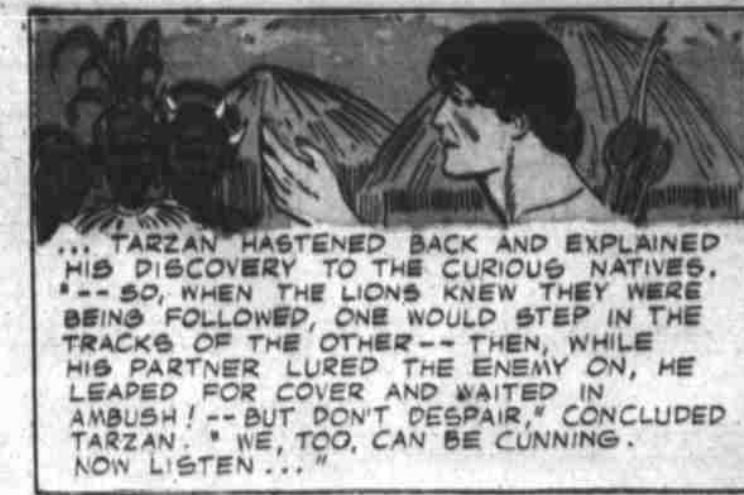

By Edgar Rice Burroughs

HOPING TO GET SOME CLUE AS TO HOW HE WAS STRUCK FROM BEHIND, THE APE-MAN BACK-TRAILED THE LION'S SPOOR.

AND THEN HE PAUSED, GAPING. THERE IN SOME SOFT DIRT, BARELY DISCERNIBLE, WAS ONE PAW PRINT ON TOP OF ANOTHER-- EVIDENCE THAT TWO LIONS HAD CLEVERLY DISGUISED THEIR TRAIL AS ONE!

"... TARZAN HASTENED BACK AND EXPLAINED HIS DISCOVERY TO THE CURIOUS NATIVES. "-- SO, WHEN THE LIONS KNEW THEY WERE BEING FOLLOWED, ONE WOULD STEP IN THE TRACKS OF THE OTHER-- THEN, WHILE HIS PARTNER LURED THE ENEMY ON, HE LEAPED FOR COVER AND WAITED IN AMBUSH! -- BUT DON'T DESPAIR," CONCLUDED TARZAN. " WE, TOO, CAN BE CUNNING. NOW LISTEN..."

"... MEANWHILE, FROM A HIGH BLUFF, TWO GREAT, WHITE LIONS ROARED IN HIDEOUS UNISON -- AS IF IN DEFIANCE TO ANY SCHEME CONTRIVED BY THE PUNY MAN-THINGS!"

**OZARK IKE** BY RAY BOTTO

SO, RED ROSIE, TH' "GLAMAZONS" MASCOT CAUGHT YOU SPYING ON THEM?

BUT ONLY THE DOG SAW ME... SO DINAH AND SAL ARE STILL UNAWARE THAT THEIR OLD RIVAL WILL BE PITCHING AGAINST THEM TOMORROW WHEN THEY PLAY TH' "RANGERETTES"!

AND I'VE DISCOVERED HOW WE CAN BEAT THEM... WITH SIMPLE PSYCHOLOGY!

AND HERE IT IS IN PRINT, RIGHT ON THIS SIGN!

ONLY THREE LITTLE WORDS! WELL, WELL!

WELL, HERE IT IS, GALS... TH' "RANGERETTES" BASEBALL ORCHARD!

LET'S GO GET 'EM, GANG! WE'VE GOT AN UNDEFEATED RECORD TO PROTECT!

HOW CAN WE LOSEZ?

WITH OUR LUCKY MASCOT "ROMA" ON TH' FIELD, NO TEAM CAN BEAT US!

(MOAN) WE'RE LICKED!

YOW! LOOK AT THAT SIGN!

**NO DOGS ALLOWED**

Produced by Stephen Slesinger, Inc. Copyright 1952 by King Features Syndicate, Inc.

DO YOU BELIEVE... IN REINCARNATION, MISS STARR?

I... I DON'T KNOW. WHY DO YOU ASK?

IN THE OLD MANUSCRIPTS I FOUND WITH THE ROWENA THERE WAS A STRANGE AND TERRIBLE STORY OF A BEAUTIFUL RED-HAIRED PRINCESS WHO WAS OFFERED TO THE HIGHEST BIDDER BY HER CRUEL AND GREEDY FATHER, THE KING.

"GO FORTH ON THE SEVEN SEAS. TO THE ONE WHO CAN OFFER THE GIFT OF GIFTS, I WILL GIVE MY DAUGHTER IN MARRIAGE."

HEARING OF THE SAD TIDING, PRINCESS ROWENA RUNS WEEPING TO PRINCE ORLOT.

AND IT CAME TO PASS THAT PRINCE HUGO, WITH MANY HERALDS, PRESENTED THE ROWENA AS THE GIFT OF GIFTS FOR THE HAND OF THE BEAUTIFUL PRINCESS.

"NO! THE GIFT MUST NOT BE OPENED, BECAUSE IT CONTAINS ALL THAT MY LOWLY TWIN BROTHER, ORLOT, COULD GIVE TO WIN A KING'S DAUGHTER—HIS LIVE AND BEATING HEART!"

AND, AS THE LEGEND GOES... ROWENA WENT MAD AND SOON DIED, LEAVING A FEARFUL CURSE ON THE GIFT OF GIFTS.

AS SECOND BORN TO THE THRONE OF LAMOLOT, I WILL LOSE YOU TO MY EVIL TWIN BROTHER, PRINCE HUGO.

"AH! A KING'S RANSOM IN THE WRAPPINGS ALONE. ROWENA, OPEN IT SO ALL THE COURT MAY SEE A GIFT MORE FABULOUS THAN GOLD AND JEWELS."

ADVERTISMENT

**A Lift... for Life!**

At 10, 2 and 4 o'clock!

Here's a sparkling drink that's more than just a flavor sensation—it's a different kind of "pick-up drink" that "lifts" your energy within 2 to 8 minutes! Dr. Pepper is as wholesome as it is delicious—so enjoy it every day at 10, 2, and 4. Chill an extra carton for your family, today!

Drink **Dr Pepper**

# RUSTY RILEY

**Panel 1:** I'M A COAST GUARD OFFICER... ARE YOU MEMBERS OF THE CREW OF THIS FREIGHTER? WHAT ABOUT THESE YOUNGSTERS?  
I BELONG TO THE CREW, SIR.  
THE BOYS AND I... I GUESS YOU'D CALL US SUPERCARGO... WE'RE LOOKIN' AFTER A SHIPMENT O' YOUNG HORSES!

**Panel 2:** HOW DO YOU HAPPEN TO BE ABOARD? CAPTAIN CRUMP SAYS HE GAVE ORDERS TO ABANDON SHIP!  
HE DID, SIR... AND, ALL HANDS TOOK TO THE BOATS... WE THOUGHT WE WERE GOING ON THE ROCKS, SIR, SINCE CAPTAIN CRUMP SET OUR COURSE STRAIGHT FOR 'EM!

**Panel 3:** THAT'S A LIE!... OUR RADIO WAS OUT OF COMMISSION AND WE HAD NO STORM WARNING! WHEN THE GALE HIT US AND DROVE US T'WARD THE ROCKS WE COULDN'T EVEN SEND AN S.O.S!  
WHAT COULD CAPTAIN CRUMP DO? HIS ONE THOUGHT WAS FOR THE LIVES OF EVERYONE ABOARD! HOW COULD HE KNOW THE SHIP WAS MERELY GOING AGROUND ON A SAND BAR?

**Panel 4:** EXCUSE ME, SIR... I'M THE RADIO OPERATOR OF THIS SHIP... I WANT TO REPORT THAT WE DID GET STORM WARNINGS AND THE REASON WE DIDN'T SEND AN S.O.S. WAS BECAUSE MY TRANSMITTER WAS DELIBERATELY WRECKED BY THAT MAN KIRK!  
IT'S SPARKS! HE DIDN'T DROWN, IT'S ALL UP WITH US NOW!  
FOLLOW ME, WE CAN GET AWAY IN THE COAST GUARD LAUNCH.

**Panel 5:** OH, NO, YOU DON'T... YOU TWO ARE UNDER ARREST, PENDING AN INVESTIGATION!  
LOOK! HERE COME THE TUGS TO PULL US OFF THE SAND BAR!

**Panel 6:** GOLLY! JUST THINK! EV'RY SINGLE ONE OF THE HORSES IS SAFE! OUTSIDE OF A LITTLE SCRATCH ON THE FETLOCK OF THIS CHESTNUT COLT, NOT A BIT OF DAMAGE!  
HERE COMES TEX BACK FROM THE COAST GUARD STATION! WHAT HAPPENED, TEX?

**Panel 7:** BY JINGO, IT'S HARD TO BELIEVE! THOSE ORNERY VARMINTS BROKE DOWN AND CONFESSED THAT THE WHOLE THING WAS A SCHEME TO COLLECT INSURANCE ON THESE HORSES!... THEY HAD THE WHOLE TWELVE OF 'EM INSURED FOR A PILE O' DOUGH AS "MILESTONE FARM THOROUGHBREDS!"

# Joe PALOOKA

McNough Syndicate, Inc. **by HAM FISHER** REG. U.S. PAT. OFF.

**Panel 1:** NOW LISTEN, HUMPHREY I-WON'T FIGHT YOU SO YOU MIGHT AS WELL GO BACK TO BLACKSMITHING!  
YORE GONNA PROVE YORE TH' HEAVYWEIGHT CHAMPEEN... AN' I MEAN PROVE IT!

**Panel 2:** HUMPHREY... IT'S NO PLACE FOR YOU... PLEASE LISTEN TO REASON.  
ARE YA AFRAID A ME LIKE ALL THEM PEOPLE ARE SAYIN'?

**Panel 3:** I'M SURPRISED AND SHOCKED... I DIDN'T BELIEVE IT... YOU OF ALL PEOPLE... WELL... SO LONG.  
I'LL SEE YA IN TH' RING.

**Panel 4:** HUMPHREY... I HEARD THAT... YA'VE HURT OUR DEAREST FRIEND... OH... I WOULDN'T OF B'LIIVED IT.  
IT... IT HURT ME WORSE THAN HIM, PRUNEY... THEY'RE SAYIN' HE'S AFRAID ME...

**Panel 5:** BUT YOU KNOW HE AIN'T... AN' HE DON'T WANT CHA T' FIGHT BECUZ YA DON'T B'LONG IN FIGHTIN'!  
SHORE... SHORE... I KNOW IT TOO... BUT I GOTTA MAKE ALL THEM PEOPLE KNOW HE AIN'T A COWARD.

**Panel 6:** A FEW DAYS LATER HUMPHREY LEAVES FOR NEW YORK.  
HEAR YOU'RE GONNA FIGHT PALOOKA.  
YOU'LL MAKE A GREAT CHAMP.  
WISH'T THEY'D SHET-UP?  
GOOD LUCK!

**Panel 7:** TH' UNGRATEFUL SLOB... TH' PAPERS ARE FULL A TH' FACT HE'S COMIN' T' FIGHT... AN' WE GOTTA GO THRU WITH IT.  
I CAN'T FIGURE HIM OUT... SOMEONE MUST HAVE WORKED ON HIM.

**Panel 8:** HUMPHREY STOPS AT ALBANY FOR A BITE.  
SAY... YOU AIN'T GOT NO MANAGER HAVE YOU?  
NOPE!... GIMME THREE DOZEN HOT DOGS AN' FOUR DOZEN HAMBURGERS.

**Panel 9:** NICE OF YOU T' GIVE ME A LIFT T' N'DO YORK, YA KNOW WOT I'M GONNA DO FER YA... I'M GONNA BE YER MANAGER!  
BOY? YER SURE LUCKY?  
H... HUH?

**AND, FAB WASHES CLOTHES CLEANER THAN ANY SOAP ON EARTH!**

**New FAB washes clothes WHITER WITHOUT BLEACHING than any other product with bleaching!**

**WASHABLE COLORS LOOK BRIGHTER, TOO!**

**IT'S AMAZING - BUT TRUE!** New Fab washes whiter *without* bleaching than any soap, any other "no-rinse" suds or any washing product known *with* bleach in the wash water. And freshly rinsed Fab clothes are *cleaner* than you can get them with any soap because Fab washes out dirt and leaves no dulling soap scum. What's more, with Fab, you'll get the world's *sweetest-smelling wash!*

**SAVE CLOTHES!** Fab alone washes so dazzling white you don't need to bleach! Clothes last longer with no bleach to harm fabrics or fade pretty washable colors.

**SAVE WORK!** New Fab immediately loosens dirt and keeps it floating in the wash water. No soaking needed! Also, you can stop rinsing!

**SAVE HANDS!** New Fab is wonderfully mild to hands... safe for baby's clothes. And Fab is kind to your own pretty washables!

**IF YOU PREFER NOT TO RINSE,** Fab gives you the cleanest possible, sweetest-smelling no-rinse wash!

**CUT DISHWASHING TIME IN HALF!** Fab soaks dishes, glasses, pots, pans shiny clean! It's a bit of food cling, which it rinses away with your dishcloth! Just a quick rinse and dishes drain sparkling clean. No hard scrubbing and no wiping!

**Buy the economical GIANT SIZE!**

**AMAZING WHITER BRIGHTER WASHES**

**SAVE HALF Your Work NO RINSING NEEDED!**

**A COLGATE-PALMOLIVE-PEET PRODUCT**

YOU'RE LATE, SLAT! NEARLY ALL THE MEN ARE IN CAMP.

MY HORSE WENT LAME. I HAD TO STEAL THIS ONE.

WHAT IF THE OWNER OF THAT HORSE TRAILS YOU? HE WILL FIND OUR HIDE-OUT IN THE BAGIN--AND ALL THE BAR X CATTLE WE'VE STOLEN.

SID, YOU HIDE BEHIND THAT ROCK AN' STAND. GUARD. SHOOT ANYONE WHO LOOKS LIKE HE'S FOLLOWIN' MY TRACKS.

HERE FRESH MARKS OF HORSE. WE STILL ON TRACK OF HORSE THIEF.

I HOPE WE OVER TAKE HIM BEFORE DARK!

TWO MEN ARE TRAILIN' SLAT! I'LL WAIT TILL THEY'RE CLOSE BEFORE I OPEN FIRE. I GOTTA GET 'EM BOTH WITH THE FIRST SHOTS!

YOU SEE SHADOW OF BIG ROCK AHEAD?

YES, TONTO. SOMEONE'S HIDING BEHIND IT! NOW LISTEN TO ME--HERE IS WHAT WE'LL DO!

ME NOT LIKE!

CHARLES FLANDERS

WHAT'S UP?--THEY'RE FIGHTIN' EACH OTHER!

# LITTLE ANNIE ROONEY

By BRANDON WALSH and DARRELL McCLURE

YEP-AS A SHOWMAN I THINK YOUR BASIC IDEA IS SOUND AND PRACTICAL- WHAT THIS COUNTRY NEEDS IS A GOOD TEN-CENT HAMBURGER- AND THE NAME "BABYBURGER" IS AN EYE-CATCHER-

THE NAME AINT MY IDEA- I'LL INTRODUCE YOU TO THE LITTLE LADY WHO DESERVES ALL THE CREDIT-

NO, SIR- I DIDN'T THINK ABOUT IT- IT JUST CAME- ALL KIDS LOVE HAMBURGERS, BUT KIDS CAN'T BUY BIG HAMBURGERS- BUT IF THEY COULD GET A LITTLE ONE FOR A DIME-???

UM-M-M- THIS BABYBURGER HAS GOT WHAT IT TAKES- AT A DIME A COPY, THE CUSTOMERS WILL GO FOR THEM- BIG!

GEE- WILLVA- LOOK AT ALL THE MEAT AN' ROLLS AN' PICKLES AN' ONIONS AN' RELISH AN' STUFF-

**BABYBURGERS**  
MADE FROM THE BEST BEEF

I AM SO NERVOUS- AND HAPPY- EVERY CENT WE HAVE IS INVESTED- IF WE FAIL-???

FAIL? HOW KIN YOU FAIL WHEN YOU SELL BABYBURGERS FOR A DIME AN' YOU MAKE 'EM GO SWELL??

NINE O'CLOCK- TIME TO LAUNCH THE GOOD SHIP BABYBURGER- I'LL TURN ON THE ONE-TUNE JUKE BOX-

THERE'S A BIG CROWD LININ' UP ALREADY-

OH, GOLLY- THEY'RE SELLIN' JUST LOTSA BABYBURGERS- I'M SO HAPPY I DUNNO WHAT TO DO!

# GRANDMA

GRACIOUS, WHERE DO THEY ALL COME FROM? THAT'S TH' FIFTH TRAMP WHO HAS ASKED FOR FOOD THIS MORNING-

MY LAND, THERE ARE DOZENS O' HOMES ALONG THIS STREET-

BUT FOR SOME REASON, THIS IS TH' ONLY HOUSE WHERE YOU FELLERS STOP!!

COME TO YOUR BACK GATE, GRANDMA, AN' I'LL LET YOU IN ON A SECRET-

THIS LITTLE ODD MARK ON YOUR FENCE MEANS GOOD COOK AN' CONTAINS ALL TH' LETTERS T' SPELL GOOD COOK !!

TH' LINES ABOVE AN' BELOW MEAN THAT YOU ARE TH' BEST IN TOWN!

THAT'S ALL THERE IS TO IT, GRANDMA / AMONG TH' HOBOS YOU ARE FAMOUS AN' KNOWN FROM COAST T' COAST AS SERVING TH' BEST FOOD IN THESE PARTS-

THAT'S WHY WE ALL COME T' YOUR HOUSE! 'BYE, NOW! SEE YA IN TH' FALL !!

HECK, IF THAT LITTLE DESIGN MEANS I'M TH' BEST COOK IN TOWN-

THERE'S NO BLAMED SENSE IN KEEPIN' IT SUCH A SECRET !!

# VEL\* MAKES DISHES SHINE WITHOUT WASHING OR WIPING!

Vel cuts grease better than any liquid detergent... any soap!  
Yes! Package for package, Vel cuts grease better than the leading laundry detergent, liquid detergents or soaps. Compare Vel in your dishes... on your hands.

**"VEL SOAKS DISHES CLEAN - SAVES YOU ALL THE HARD WORK!"**  
says Mrs. Eleanor Ormerod, mother of 2

**DON'T WASH - JUST SOAK**  
Dishes soak grease-free in seconds! No washing is needed. If food clings, a touch of the dishcloth gets it off. There's no greasy dishwater with Vel - no ring around the pan!

**DON'T WIPE - JUST RINSE**  
Yes! Just soak and rinse. Dishes dry streak-free without wiping! Even heavy grease in pots and pans is so completely dissolved no hard scouring is needed!

## No "Detergent Burn" to hands with VEL

PROVE IT YOURSELF - THIS "HAND-HEAT TEST" SHOWS WHY.  
Dip hands in water. Then put a tablespoonful of any leading laundry detergent in one hand - put a tablespoonful of VEL in the other.

FEEL THE HEAT from laundry detergent, indicating presence of irritating alkalis and laundry chemicals that cause "Detergent Burn"!

FEEL NO HEAT FROM VEL because Vel contains no irritating alkalis nor harsh laundry chemicals to cause "Detergent Burn"!

# MARVELOUS FOR DISHES AND FINEST FABRICS!
