TURISTS ROBBED OF \$2,250 NEAR GROOM

HOFFMAN HITS BACK AT FOES IN STATEMENT

HAUPTMANN TAKEN TO NEW YORK FOR CREMATION. By DALE HARRISON. Associated Press Staff Writer. TRENTON, N. J., April 4 (AP)—

Yes, your eyes are deceiving you, but don't blame them. Even Will Rogers once said to A. A. Trimble, above, Cleveland, O., map salesman, "Doggone if you don't remind me of myself!" Because of his remarkable resemblance to the famed cowboy humorist, Trimble was cast to play the role of Rogers in a new motion picture.

EVIDENCE OF 2 WITNESSES THROWN OUT

Judge Instructs Jury To Regard Ace Testifiers As Murder Accomplices. EASTLAND, April 4 (AP)—Jurors were instructed to disregard uncorroborated testimony of the state's two principal witnesses today in Raymond Henry's trial for the "hanging skeleton" slaying of H. L. McBee.

Italian Bombing Planes Terrorize Addis Ababa PAMPA'S CENTENNIAL PROGRAM ANNOUNCED

GERMANY AND ITALY WILL GO TO TRIAL SOON

LEAGUE WILL CONSIDER CRIMES OF BOTH NATIONS. ADDIS ABABA, April 4 (AP)—Five Italian airplanes terrorized the capital of Ethiopia today, spraying the local airfield with machine gun bullets, destroyed an antiquated airplane, and then retired over the mountains.

Chopin or Blues, Miss Wagner Can Play Everything

Should the gentleman like to hear Chopin's Nocturne in D minor, or "Mama don't lo' no piano-playing in our house." Miss Cara Wagner, pianist de luxe at radio station KPND can "render" either one with equal dexterity.

JAMBOREE OF SCOUTS TO BE ON FIRST DAY

MANY NEW FEATURES OF CELEBRATION OUTLINED. Now swiftly taking form is the Panhandle Centennial celebration to be held here June 2, 3, 4, and 5, together with a pioneer roundup and oil men's reunion.

Will, the Farmer, Preps to Battle Nudes Via Peekers

LONG VALLEY, N. J., April 4 (AP)—Sap is flowing again, birds are lifting spring arias, and farmer Will Searies, reminded that summer is on the way, prepared today for another campaign against the folks who like to romp in the nude on the rolling fields adjoining his farm.

AUTO-RIDING BANDIT'S STRIP, ILLINOIS PAIR

PISTOLS BRANDISHED NEAR RECENT HOLD-UP SCENE. Highway robbery almost as dramatic as in the Wild West days was repeated on Highway 66 near Groom yesterday when a pair of auto-riding thugs took money, jewelry, travelers' checks, and clothing valued at \$2,250 from Mr. and Mrs. A. Van Nevers of Rock Island, Ill.

FAITH IN HIGH PLAINS URGED IN DUST PLAY

Black Duster Drama To Be Produced Monday Night. There are not many people in the Panhandle who do not hopefully believe that some day the dust will cease to blow and sufficient rain will fall.

Pauper's Oath Is Unnecessary For Pension Pay

AUSTIN, April 4 (AP)—Orville S. Carpenter, Texas pensions director, said today a pauper's oath was not necessary to qualify for old age assistance.

TODAY IS DOLLAR DAY in Pampa—when your dollar really does its duty. Some of the hundreds of special values are described in advertising in The NEWS today.

McLean Leads in Literary Events Of County Meet

McLEAN, April 4.—Ten Gray county schools entered contestants in the interscholastic League meet held here Thursday, Friday and today. The meet was conducted in four divisions, class A high school, class B high school, ward school and rural school. McLean won the senior high school section with 151 points, defeating LeFors, only other competing school, with 110 points. McLean led in literary events but trailed LeFors in track and field. Alantied took the class B high school division with 45 points. Hopkins No. 1, competing in that division in athletics only, made 10 points. The ward school section was won by McLean with 157 points. Hopkins No. 2 nosed out LeFors for second place, 102 to 100 points. Alantied placed fourth. Hopkins No. 1 took the rural division with 80 points. Laketon was second with 54 points and Grandview placed third with 80 points. Webb, Bell and Keplinger finished in that order. Results of the meet will have to be checked and changes may result, so close was competition. Returns given at the close of the events were hastily compiled and errors might have been made.

PAMPA TOPICS OF OUR CITY

Moves to Community J. E. Mitchell of Floydada has joined the Bourland-Williams company and is stationed at the Kingsmill whole sale and retail oil station, where Bell products are dispensed. His family will join him soon. Mr. Mitchell is the father of J. Odus Mitchell, athletic coach at Pampa high school. Attended Banquet Dick Hughes, Jim Collins, C. A. Clark and Mr. and Mrs. L. L. Sone attended a Lions zone meeting in Borger Friday evening. Mr. Hughes was invited to the banquet to tell of the Panhandle Centennial celebration and oil men's reunion here June 2, 3, 4, and 5. This he did in dramatic form which was much applauded. About 175 persons attended from a number of cities. Executive Active Scout Executive C. A. Clark spent Monday and Tuesday of last week at Memphis and Thursday and Friday in Borger. He reported much work under way in the districts visited. This week will largely be spent in Gray county, although he will go to Panhandle Tuesday evening to attend an adult leader training course. The following troops and Scout officials on the north plains. Warrantly Deeds Dorothy F. Williams to Walter J. Young, lots 33 and 34 block 25, Wilcox addition. A. P. Gray to R. R. Robinson, lot 29 block 35, Wilcox addition. L. A. Walker to Walter J. Young, lots 35 and 36 block 25, Wilcox addition. Mrs. Mattie Cole to A. J. Crocker, lot 18 block 2, Cole addition. Ledrick Appointed H. L. Ledrick will be manager of the municipal election Tuesday, in which a mayor and two commissioners are to be elected. He will name his assistants. The polls at the city hall will be open from 8 a. m. to 7 p. m. About 1,500 or more votes are expected to be cast. Mel B. Davis and W. A. Bratton are candidates for mayor and Bert Curry and Marvin Lewis for Commissioner No. 2. W. T. Fraser is unopposed for Commissioner No. 1. Bratton and Lewis also are incumbents. License Issued A license to wed has been issued here to Grover J. McLean and Ruth Langfitt. New Automobiles Dodge sedan, Aurbra Bowers; Ford coupe, Phillips Petroleum company; Chevrolet sedan, Marvin Harris; Buick sedan, Geo. H. Beasley; Chevrolet coach, T. B. Bliss; Plymouth coach, L. B. Warren; Chrysler sedan, R. H. Nestell; Chevrolet truck, Pampa Milling company; Chevrolet sedan, M. M. Andrew; Pontiac sedan, Continental Supply company; Chevrolet sedan, W. M.

Mrs. Bradford Dies of Brief Illness Here

Mrs. Paul Bradford, 27, died late yesterday afternoon in a local hospital after a brief illness. She had been a resident of Pampa for seven years and resided at 513 Nelson street. Mr. Bradford is with the General Atlas Carbon company west of Pampa. Survivors are her husband, two daughters, Ruby Lee and Julia Ann, a son, George Bradford, at home, her father, H. Stan, two sisters, Mrs. Hazel Rheinhardt and Mrs. Julia Stebbins, and two brothers, George Stan and Lester Stan, all of Garber, Okla. The body will be sent to Garber at noon today by the G. C. Malone Funeral home. Hoffmann (Continued from page 1) arisen in New Jersey, the governor replied. "I have filed my petition as a candidate. . . and I will stand on that candidacy if I only receive ten votes." The governor already has been selected by the republican state committee as one of its choices for the convention, but former Representative Franklin Fort has announced he will oppose Gov. Hoffmann at the May 19 primaries solely on the issue of the Hauptmann case. "When a governor makes a mockery of our courts and juries, and draws his high office into the mire, I cannot remain silent," Fort said. The juniors will also have their endeavor at this hour. Junior choir rehearsal at 5:50 p. m. We have the nursery again beginning Sunday. Mrs. Butler will be in charge during the morning worship hour, 11 to 12 o'clock. The public is most cordially invited to worship with us. NEGRO DIES HERE Abe Orr, 47, died at his home on Oklahoma avenue on Friday afternoon following a brief illness. He had been a resident of Pampa for several years. Surviving are his wife, two daughters, Mrs. Revie Williams and Emma Orr, and a brother, Will Orr of Louisiana. Dudley Steel underwent a tonsillectomy at Pampa-Jarratt hospital yesterday morning.

cerning introduction of a resolution, already drafted, calling for the investigation, his press aide said. A decision as to who shall receive the \$25,000 reward which the state posted for the arrest and conviction of the person responsible for the Lindbergh crime will be made soon, the governor indicated, as he called upon the head of the state police, Col. H. Norman Schwarzkopf, for recommendations. The governor also directed the state police superintendent to keep intact all records, evidences and exhibits, in view of the likelihood of a sweeping inquiry. Among the exhibits is the \$14,800 in ransom bills which Col. Lindbergh, through Dr. John F. Condon as intermediary, paid to a man Condon identified as Hauptmann just four years ago last Thursday. The money is in a safety deposit box at a Trenton bank. When the case is finally closed, the money will be returned to Col. Lindbergh, now resident in England to which he fled to escape the notoriety that whirled down about him, his wife and his small son, Jon, as a result of the Hauptmann case. Last Minute Call Col. Mark O. Kimberling, the prison warden who with other officials has been under a severe strain because of the frequent surprising developments of the Hauptmann case, said today that a few minutes after eight o'clock last night he received a frantic telephone call from a man who said he had "hot" information, and asked that the execution be delayed. "I'm surprised," the warden commented, "that I didn't get more of them." There were 200 or more persons loitering around in Third street outside the prison walls when the luxuriously-lined motor hearse pulled up at the steel doors. It had come down the street at high speed, flanked on either side by a traffic officer. USE That Good GULF GASOLINE "At Your Favorite Gulf Station. ."

McPherson And Pictures Team In Cage Finals

NEW YORK, April 4. (AP)—Thirteen players from the McPherson team and the Universal Pictures team of Hollywood assured themselves of a trip to Berlin tonight when they shot their way into the finals of the Olympic basketball tournament at Madison Square Garden. The Oilers turned back the University of Washington 48 to 30 after the Universals had eliminated the Wilmerding, Pa., Y. M. C. A. 42 to 29. The Universal Pictures shot its way into the finals of the Olympic tournament at Madison Square Garden tonight, defeating Wilmerding, Pa., the Y. M. C. A. champions, 42 to 29. Lubin, six foot, four inch center, dropped in seven field and four free throws for a total of 18 points as the "Movie" boys, runnersups for the A. A. U. championship, bounded into a 17-6 lead at the half and then left the Y. M. C. A. title holders still farther behind in the closing session. Jack Van Beber returned yesterday from a business trip to Lubbock. Read the classified ads today.

GERMANY (Continued from page 1) manifestos on Addis Ababa during today's attack on the Ethiopian capital's airbase, notifying the populace of the latest Italian successes. Simultaneous with the expected aerial assault, Gen. Rodolfo Graziani, informed persons said, probably will launch an offensive near Sessa Bahneh on the southern front, with the ultimate objective of occupying the triangle formed by the eastern Ethiopian cities of Harar, Jijjha and Direddaa.

REHEARSAL (Continued from page 1) The place is always crowded. Meanwhile, Cecil Hunter, radio operator known to some as Elmer, program manager of KPDN, is shaping the opening program which should be heard the latter part of this week. Merchants are jumping nimbly and anxiously to sign up for time before it is all gone. Scores of out-of-town concerns have bought opening program time.

INJURED IN BLAZE GAINSVILLE, April 4. (AP)—One fireman was injured when a 20-room apartment house belonging to Dr. C. T. Hughes was destroyed by fire here this afternoon. Jack Sims, volunteer fire fighter, sustained burns and bruises when floored by an explosion during the blaze.

FIRST PRESBYTERIAN CHURCH First at Evening L. Burney Shell, Pastor. Sunday school, 10. Morning worship 11. The pastor will speak. There will be baptism of children at this service. Mrs. Andrews will sing. Vespers, 5 p. m. Pastor will preach again at this service. Children's hour with Mrs. Hodges in charge. The juniors will also have their endeavor at this hour. Junior choir rehearsal at 5:50 p. m. We have the nursery again beginning Sunday. Mrs. Butler will be in charge during the morning worship hour, 11 to 12 o'clock. The public is most cordially invited to worship with us.

Investigation Asked Taking up the gauntlet thrown down by those who have demanded that his interest in the Hauptmann case be inquired into, the governor said today he would push for a thorough legislative investigation of the whole case, including his own activities as well as his charges that the trial of Hauptmann at Flemington early last year "reeked with unfairness, passion and prejudice." The governor will confer with Assemblyman John Kerner, Union county republican, Monday con-

PHILLIPS' VETERAN EMPLOYEES ARE HONORED FRIDAY AS MANY ATTEND BANQUET AT CHURCH

Business Men Here Guests of New Paper

Nearly one hundred members and guests of the Phillips 66 club honored the two senior employes in this area Friday evening at a banquet in the dining room of the First Methodist church. W. E. Reno presided as toastmaster.

RUSH ESTES

Sales Tax Talked By Lions Members

Pampa Lions Thursday heard a discussion of the sales tax, with Judge Ivy Duncan presenting points favorable to its adoption by Texas and Clyde Fatheree offering rebuttal arguments.

Entertainment included numbers by the Phillips 66 male quartet and a humorous sketch by LaVerne Courson, Fred Vandenburg, Keith Davis, Ray Enochs, and Ben Day of the Scout troop No. 18 of Phillips camp. R. L. Jones led the group singing.

Judge E. J. Pickens and Mrs. Pickens of Canadian are week-end guests of Judge and Mrs. W. R. Ewing.

Lee R. Powell of White Deer was admitted to Worley hospital yesterday afternoon.

Plainview Dairy Show to Begin Monday Morning

PLAINVIEW, April 4. (P)—Dairy cattle breeders of the Panhandle-plains area begin competition Monday for \$2,000 premium money in the ninth annual Panhandle-plains dairy show.

The show will continue through Thursday, Ed Bishop of Plainview is manager and W. W. Evans is general superintendent.

While Jerseys predominate in entries, Guernseys, Holstein Friesians and milking shorthorns will play a prominent part in the exhibition. W. L. Stangel of Lubbock will judge cattle.

A rodeo, horse show and rabbit races are scheduled as special entertainment features, and nightly dances will be held. A queen of the show will be selected Tuesday night and princesses from fifty cities in this area will participate.

Dairy products will be demonstrated and judged. Vocational agriculture students have entered the cattle judging contest, and a production contest is scheduled with preliminary tests tomorrow.

H. B. Hales of Amarillo will preside at the annual meeting of the Panhandle-Plains Dairy Show association, of which he is president, Wednesday night. The banquet which will be held in connection with the meeting will have Mason King of Amarillo as toastmaster.

Former students of Texas A. and M. will have a banquet Monday night.

Mrs. Fay Gray left Saturday for a three month visit with relatives in Memphis, Tenn., Tupelo, Miss., and New Orleans.

British Guiana's sugar production last year was the greatest on record, totaling 170,000 tons.

BRUNO ON INSIDE MUSCATINE, Ia., April 4. (P)—The Muscatine Journal, which in February started a policy of keeping crime news off its front page, today carried the story of Bruno Hauptmann's execution on an inside page. Previous recent developments in the case likewise have been carried inside.

WIN POETRY CONTEST TEMPLE, April 4. (P)—The state teachers' college of Edmond, Okla., won first prize in the Sigma Tau Delta poetry contest today at Bel-

ton and was awarded the Texas Christian university cup. The contest was held at the divisional conference of Sigma Tau Delta at Mary Hardin-Baylor college.

Joe Gordan made a business trip to McLean yesterday afternoon.

Forrest Linquist of LeFors was a business visitor here Saturday.

Goldwyn Girls Are Chosen From Thousands

Every summer, when Samuel Goldwyn begins production of his annual Goldwyn screen musical—"Strike Me Pink"—showing now at La Nora theater, is the sixth—the call goes out for girls—hundreds and hundreds of girls—to vie for the honor of entering that charmed circle known as "The Goldwyn Girls."

A special representative is sent to New York. He views the choruses of musical shows and night clubs; scans the ads in newspapers and magazines for lovely faces; sends to agencies for artists and photographers' models, never knowing where he may run into a possible beauty candidate.

At the same time, in Hollywood, thousands of hopefuls are flocking to the United Artists Studios for interviews and screen tests. They come in droves and are turned away in droves. Usually only one out of several hundred has a chance of being selected for the first group, which is later cut down to the final number of Goldwyn Girls from the small towns of the middle west, from the south, from Canada, flock to Hollywood on the slim chance that they may be chosen. Hundreds of girls send letters and photographs from all over the world, hoping that their pictures may be attractive enough to warrant the studio's sending for them. They are, unfortunately, invariably disappointed.

When Goldwyn made "Roman Sandals" a few years ago, one girl begged automobile rides from Montgomery, Alabama, to Hollywood, a trip of over a thousand miles, to apply for a job. Because she happened to be extremely beautiful, she got it. But actually, most of the girls are found right in Hollywood, where the cream of America's feminine youth gathers, waiting for that elusive chance to "break into the movies."

If a girl is selected in New York, her photograph, with full details, is sent to Goldwyn in Hollywood. If the candidate seems likely, Goldwyn wires his man to make a final test of her. When that is received, if the girl meets requirements, she is put under contract and given a ticket to the film center.

The hundreds of applicants who storm the studio are first weeded out by the casting director and perhaps twenty of them will be asked to report on one of the stages on the lot. Goldwyn, his casting director and his dance director, carefully review the girls as they parade by one at a time and they are either immediately rejected or asked to remain for a photographic test.

The girls must be not over 18 or 19. If they have stage experience, so much the better. But primarily Goldwyn wants young, fresh, beautiful faces and shapely figures. Dancing experience helps but is not essential.

The final selections are made by Goldwyn himself, but the acid test is the camera. A girl may have seemingly perfect features—and yet screen badly. On the other hand, she may have what appears to be a slightly imperfect nose or mouth, but on the screen, made up by experts and lighted correctly, her face may be beautiful and flawless.

This season's beauty crop is made up of Gail Sheridan, Vicki Vann, Kay Hughes, Elaine Johnson, Eugenia Falkenberg, Gail Goodson, Eleanor Huntley, Dorothy Dugan, Marcia Sweet, Mary Gwynne, Charlotte Russell, Blanca Vischer and Anya Taranda.

The "Goldwyn Girls" are not a chorus in the strictest sense of the word. The producer watches each girl closely and helps those who show talent to get ahead. Many of them are given individual close-ups and perhaps a line or two of dialogue. Usually, two or three girls out of each year's group have definite screen personality. Goldwyn will groom these for better parts, sometimes lending them to other studios for more important roles.

Gail Sheridan, Seattle, Wash.; Vicki Vann, Philadelphia, Pa.; Kay Hughes, Chicago, Ill.; Elaine Johnson, Salem, S. D.; Eugenia "Jinx" Falkenberg, Barcelona, Spain; Gail Goodson, Denver, Colo.; Eleanor Huntley, Ft. Smith, Ark.; Dorothy Dugan, Denver, Colo.; Marcia Sweet, Huntington, Pa.; Mary Gwynne, Trenton, N. J.; Charlotte Russell, Woodland, Calif.; Blanca Vischer, Guatemala City, Guatemala; Anya Taranda, New York City.

Brazil supplies about 70 per cent of the coffee used in the United States.

LOCAL THEATER PROGRAMS

LA NORA THEATER
The Pampa theater program for this week follows:
Today, Monday, Tuesday, and Wednesday—Eddy Cantor and Ethel Merman in "Strike Me Pink"; short subjects: "Bottle," "Sun Chaser" and News.
Thursday only, Margot Grahame, Walter Abel and Paul Lukas in "The Three Musketeers"; short subjects: "Pictoral No. 7" and "Grand Siam Opera."
Friday and Saturday, Joan Bennett and Cary Grant in "Big Brown Eyes"; short subjects:

"Lucky Corner" and newreel.
Rex Theater
Today, Monday, and Tuesday, Fred McMurray and Joan Bennett in "13 Hours by Air"; short subjects: "White Hope" and newreel.
Wednesday and Thursday, Warren Hull and Margot Lindsay in "Personal Maid's Secret"; short subjects: "Caught in the Act" and newreel.
Friday and Saturday, William Boyd, in "Call of the Prairie"; short subjects: "Alpine Yodler" and "Miracle Rider No. 1".

State Theater
Sunday and Monday, Charles Laughton, Clark Gable and Franchot Tone in "Mutiny on the Bounty"; short subjects: "Seeing Stars" and "Life Hesitates at 40".
Tuesday and Wednesday, Carol Stone and Tom Brown in "Freckles"; short subjects: "Pictoral No. 3" and "Hot Paprika".
Thursday only, Herbert Marshall and Jean Arthur in "If You Could Only Cook"; short subjects: "Molly Moo Cow and Indians" and "Broadway Ballyhoo."
Friday and Saturday, Richard Dix in "The Arizonian"; short subjects: "King of Mardi Gras" and "I Don't Remember."

ESCAPE JAIL
DICKENS, April 4. (P)—Tommy Russell, 17, and Morgan Peacock, about 30, who saved their way from the Dickens county jail here late last night, were sought today by West Texas peace officers. The escape, believed to have been perpetrated about 11:30 o'clock last night, was discovered early today.

FINLEY BEATS BEARS
DALLAS, April 4. (P)—Big Bob Finley, accurate football passer from Corsicana, carried his prowess to the diamond today and hurled three-hit baseball as his Southern Methodist university mates trimmed Baylor's Bears, 4 to 1. It was the first Southwest conference victory for the Mustangs.

Former Deputy Sentenced for Slaying Baby

SAN ANGELO, April 4. (P)—A jury today sentenced Mack Shipley, 38, to three years in prison for the fatal shooting of Woodrow Willingham, 2, here last July.

Shipley, former Reagan county deputy sheriff, heard the sentence without apparent emotion. His wife wept bitterly.

Shipley was convicted of murder without malice. He testified he accidentally shot his pistol into the rear of the automobile of J. W. Willingham, the child's father, and did not know the baby was in the rear seat.

The shooting followed an argument between Willingham and Shipley at a roadside resort.

Rome's Holy Week Emptiest in Years

VATICAN CITY, April 4. (P)—The emptiest holy week Rome has seen for many decades begins tomorrow when Pope Pius receives the decorated palms from the Bressa family of San Remo.

They have supplied the Pontiff's palms for the Sunday before Easter since 1888.

The Easter period, which always has been a favorite time for tourists and pilgrims, finds the eternal city with few visitors this year.

One of the reasons is that the Italians are busy with their war against Ethiopia and equally concerned with resisting the sanctions imposed by the league of nations.

News Of Interest From Nearby Towns

L. R. Conner, president of Ochiltree County Wheat Control association, states that supervisors will be in the field next week to measure lands for compliance on the fulfillment of the 1936 AAA contracts. The government will proceed to carry out its part of the 1936 contract, just as though the AAA program had not been declared unconstitutional, and allotment checks will be paid just the same as in previous years. Mr. Conner's office is mailing letters to all contract signers and he urges that strict compliance will be required of the instructions contained in the letter.

School Census Completed
J. K. McKenzie reports he has completed the annual school census and registered 282 this year against 287 last year. There are 158 boys and 124 girls within the scholastic age in the Miami Independent school district. There are nineteen six years of age.

Shamrock high school again won the high school class A division of the Wheeler County Scholastic league meet which was held in Wheeler last Friday and Saturday. In the high school division Shamrock made 157 points, Wheeler 147 1/2 points, and Mobeetie 87 points, while in the ward school division Mobeetie made 110 points, Wheeler 75 points, and Shamrock 62 points.

Old Spinning Wheel
The old spinning wheel in the parlor may be a curiosity to the youngsters but it's a friend to Mrs. Edith Carver, pioneer Texan, who spun thread and knitted socks and stockings for her whole family back in the days when cooking was all done over a fireplace.

Now residing at Twitty, Mrs. Carver is the mother of 12 children, eight of whom are living. She makes her home with a son, C. C. Carver, well known Twitty farmer.

Mrs. Carver has had much enjoyment from demonstrating spinning at a Shamrock store for several weeks, on a wheel belonging to M. Reynolds, that is over 100 years old. Only a few women are still living in this vicinity who can really spin. It is, indeed, almost a lost art.

This "real" Texan, was born in Rusk county, Texas, in 1859, and obtained her education from subscription school.

Clarendons Wins
The Donley County Interscholastic league meet closed a week ago night after two days of participation in the various contests. Clarendon high school won first place in Class A division with 200 points against Hedley high and ward school with 170 points. Lelia Lake high and ward schools captured Class B honors over Clarendon Junior high and south ward with 139 points against 125. In the rural school class Golden was first with 117 points, Martin had 97, Asholia 85, Chamberlain 83, Jericho 28, Skillet 22 1/2, Midway 17 1/2, Windy Valley 16 1/2, Hudgins 12 1/2, Bairfield 10, Glen-

COURT HOLDS COUNTY MAY BE LIABLE TO ANOTHER FOR TAXES

AUSTIN, April 4 (AP)—The supreme court held today that a county may be liable to another for delinquent taxes on public lands under certain conditions.

The ruling was in a suit by Cochran county for taxes on land therein granted by the state to Childress county. It answered certified questions by the Amarillo court of civil appeals.

Childress county sold the land to private persons and re-acquired it on default of payments. Cochran county assessed the private owners for taxes in 1931 and 1932 and Childress county for those in 1933, the land having been reacquired in February 1933.

The court said the tax lien for the period of private ownership was valid and Childress county could pay the taxes for 1931 and 1932, to protect its title, or allow the property to be sold for taxes.

It ruled the land still was in private ownership on Jan. 1, 1933, when property must be rendered for taxes, but Childress county was not bound for taxes for that year, unless it had legally obligated itself for them.

The court declined to review litigation in which B. E. Quinn of Beaumont unsuccessfully sought an injunction restraining Jefferson county commissioners on an allegation they used county cars for personal benefit.

Quinn, a member of the legislature, also attacked constitutionality of a special road law for the county. The court of civil appeals decision, which the high court declined to review, upheld validity of the act and sustained a lower court in denying an injunction.

The court reversed and remanded a case from Lamar county in which Ben H. Sharpe sought to cancel a mineral lease held by Lamar owners. Oil association on tracts of 75 and 172.15 acres in Lamar county. The court overturned the trial court decision for

Facts Concerning Your City Government

The undersigned citizens of Pampa, believing that the people should know the record of achievement as made by the present City Commission, composed of W. A. Bratton, Mayor, and W. T. Fraser and Marvin Lewis, Commissioners, respectfully submit for the consideration of every person interested in the welfare of the City, the following facts and information, taken from the public records at the City Hall:

1. The present City Commission has purchased \$32,000.00 of outstanding City of Pampa six per cent bonds before their maturity, thereby effecting a saving in interest on said bonds of \$51,840.00.
2. The present City Commission has refunded \$135,000.00 of outstanding City of Pampa six per cent bonds and issue in lieu thereof four and one half per cent interest bearing bonds, thereby effecting an interest saving on said bonds of \$67,925.00.
3. The amount of bonds purchased and interest saved as above indicated being the total sum of \$151,765.00.
4. The interest and sinking fund required by law to meet the outstanding bonded indebtedness of the City has been brought up to the legal requirement for the first time in five years.
5. The present administration collected delinquent taxes due the City of Pampa during the years 1934 and 1935, in the sum of \$38,607.97.
6. The present administration operated the fiscal affairs of the City in 1934 at a net profit of \$20,432.01.
7. The present City Commission has expended in improvements to the water system, water wells and lines in the past two years \$13,649.75, has expended in improvements to the sewer system of the City \$603.60, has expended in additions, improvements and new equipment, such as graders, trucks, etc., the sum of \$4,641.02, and has expended in the purchase of real estate for public park and play ground purposes \$9,690.00, as well as improving all other municipal parks.
8. The cash balance on hand of the City of Pampa, on March 30, 1936, was \$52,780.11.
9. The present City Commission required, for the first time in the history of the City, security of all of its funds on deposit, such funds being deposited with the First National Bank in Pampa, secured by municipal and county bonds of Texas, held in escrow by the First National Bank of Dallas, Texas, to secure the deposits of the City of Pampa.
10. The present City Commission has worked and cleaned the City streets by hand labor rather than by machinery in order to give money and labor to those in need of it.
11. The present City Commission has not confined the purchase of city supplies to one firm or group of firms, but city funds expended for necessary city supplies have been equitably distributed among the merchants and dealers of the City.
12. The present City Commission has secured WPA Funds to construct a concrete bridge on Cook Avenue near Sam Houston School, at a cost of \$9,000.00; and to construct five double tennis courts on the parks and play grounds of the City, and has secured WPA and other federal funds to assist in the construction of improvements on the newly acquired city park and fair ground.
13. The present City Commission has invited the views, advice and suggestions of all of the citizens in the management of the City's affairs, and has been open to such suggestions, regardless of the rank or station of such person or persons making the same.
14. The present City Commission has handled the affairs of the City looking to the welfare of the entire City and citizenship, and not to the satisfaction of any particular group to the exclusion of others.

The present City Commission has worked together only during the past two years and the record of this Commission as shown above being a conservative yet progressive administration, we feel, should be continued for the benefit of the entire City.

WHEELER NEWS

WHEELER, Apr. 4.—Miss Ferrol Ficke was hostess to a group of friends in her home Tuesday evening, when games were enjoyed and refreshments served.

Guests were Bonnie Adams, Martha Alice Wiley, Louis Cain, O. D. Connor, Ocie Pace, Dippy Norman, Rutha Faye Garrison, Carlisle Robinson, Dorothy Tolliver, Estelle Scott, Herbert Whittiner, Orveta Puett, Wallace Pendleton.

Revival to Start
An all-church revival will start Sunday in the Methodist, Baptist, and Church of Christ congregations. Morning services will be at 10 o'clock in the Rogue theater, and each church will have a separate meeting at 8 p. m. Everyone is invited to be present. The meetings will close on Easter day.

Wheeler boys and girls won first places in the county tennis matches, both singles and doubles, for class A schools.

Miss Bonnie Adams, Wave and Farrell Wallace spent last Sunday in Wellington.

Misses Nadine Lawrence, Ferrol Ficke, and Aline Buchann motored to Mobeetie Sunday.

Grady Dodd, Elmer Hammer, and

wood 10, Sunnyview 6, McKnight 5 1/2, and Giles 5.

Douglass Club Organized
More than a hundred citizens from every community in Carson county met at Panhandle, Thursday evening of last week and organized the No. 1 "Douglass for Senator" club.

Following the selection of M. B. Welch as chairman, C. P. McCollough as secretary, the following executive committee was elected: Panhandle—Mike Purvins, Frank Paul, Jack Griffith, J. L. Graham, and Ralph Randle.

White Deer—W. W. Simmons (Editor), L. M. Bischei, and T. H. Haiduk.

Skellytown—H. H. Rumph and L. Ellsworth.

Lark—Mark Anderwald, Cuyler—M. B. Pickens, Conway—Ray Callham.

Groom—Max Wade (Editor), Mike Britten, and P. E. Johnson.

West side—Wm. Randall, Gulf Camp—G. W. Hackworth.

To Present Play
The one-act play, "Bishops Candelsticks," will be presented for the approval of Panhandle citizens at the high school auditorium Monday night at 8 o'clock before the students begin their series of contests in quest of the state championship.

The cast will consist of Erby Davidson as the thief, Mary Ruth Connor as the maid, Frank Paul as the Bishop, Geraldine Claycomb as the

bishop's sister and Connie Sparks as the Magistrate.

To Get Trip
Three hundred school children of Collingsworth county will be given a trip to the Texas Centennial Exposition in Dallas, June 13, with all expenses paid, according to Logan O. Cummings, county superintendent. The children will take part in a Mass Chorus presentation, which will include 50,000 voices and will be broadcast from coast-to-coast.

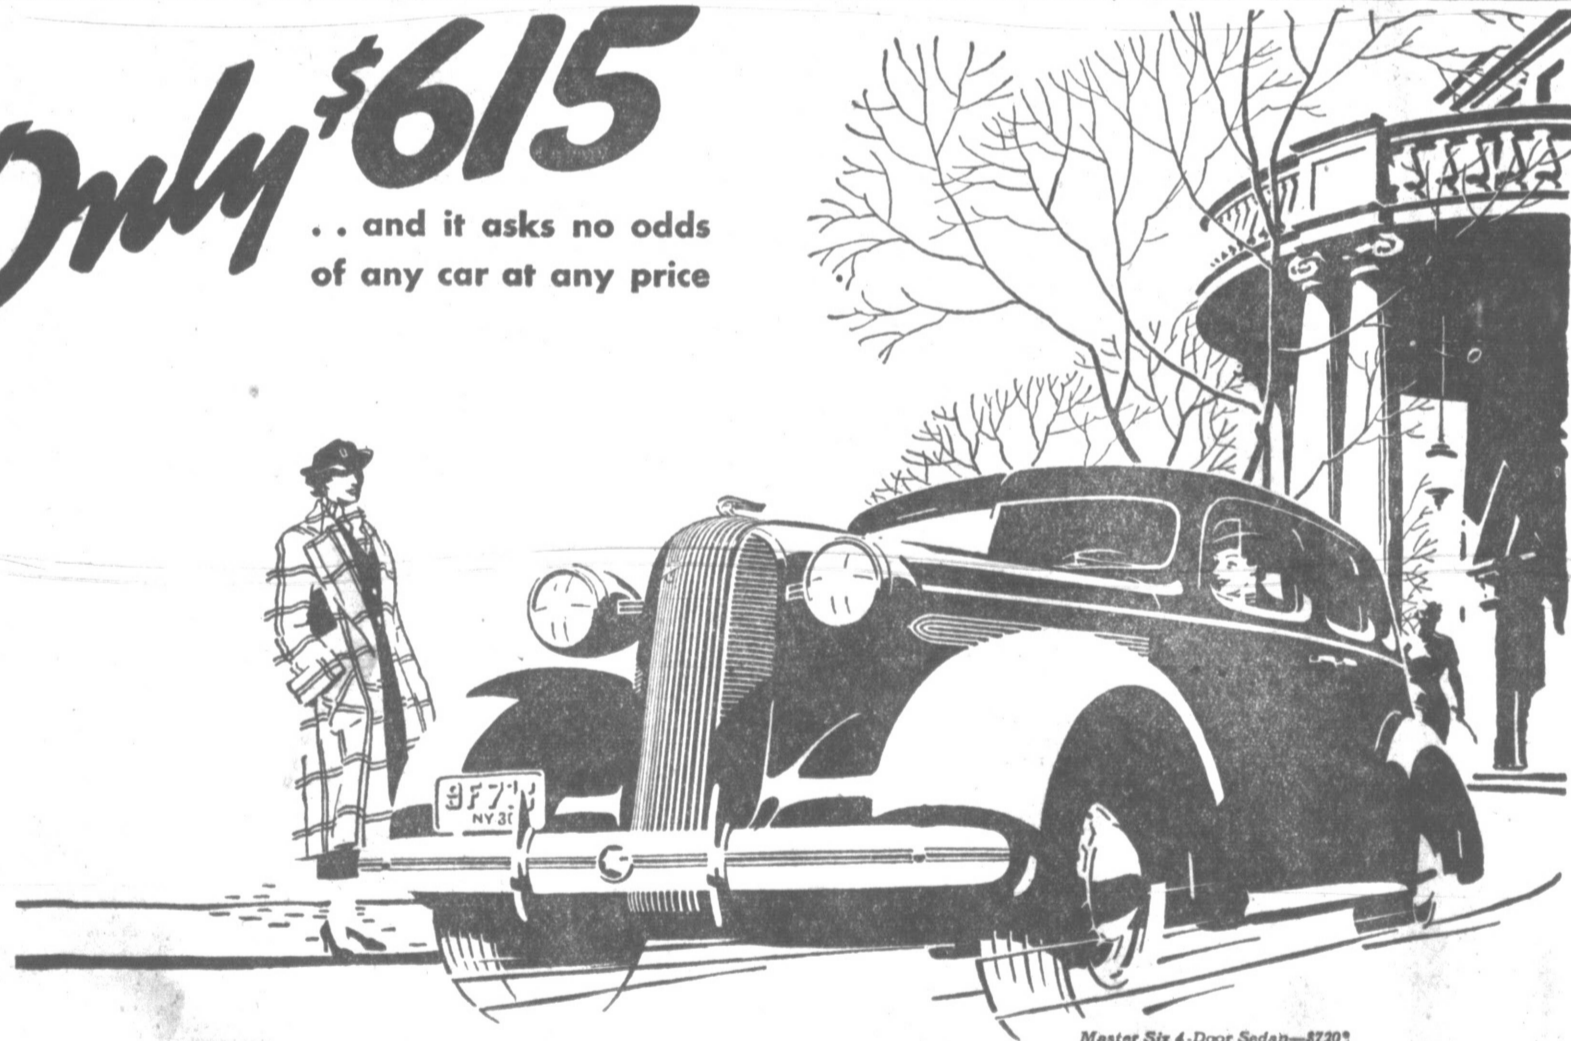

The Wellington Kiwanis club will sponsor an Easter egg hunt in Wellington, Saturday, April 11, announcements stated today. The hunt will be similar to that staged here for the past two years, and will include thousands of eggs.

Approximately 250 Carson county citizens journeyed to the polls last Saturday and with a sweeping majority decided that Carson county should be incorporated into a wind erosion district according to unofficial information released by county officials.

The Shamrock chamber of commerce will sponsor sale of ten-gallon Texas Centennial hats in Shamrock, it was decided at a meeting of the directors Wednesday night in the chamber of commerce office.

About 8,000 tons of silk thread are produced in the world each year.

OIL NEWS - From Panhandle and Other Southwest Fields

CENTRAL AND WESTERN OIL REGION HAS BECOME OF FAST IMPORTANCE TO INDUSTRIES OF NATION

CALIFORNIA CRUDE IS GROWING LESS IN DEMAND

AUSTIN, April 4.—The place the petroleum industry occupies in the changing world picture is discussed by Elmer H. Johnson, regional economist for the University of Texas Bureau of Business Research, in his latest survey of this industry. "It is more than a coincidence that the recent events in the German Rhineland came shortly after Hitler declared in effect that Germany was capable of meeting her requirements for oil products through her chemical industries using coal as the raw material," he said in part. "It was the world war which, more than anything else, crystallized the significance of the oil industry in the consciousness of mankind. After that the 'struggle for oil' became more than a struggle between oil concerns; as oil became a necessity to national security, it became a struggle between nations, which, of course still goes on."

FAMOUS SUIT ON OIL WELL IS UP AGAIN

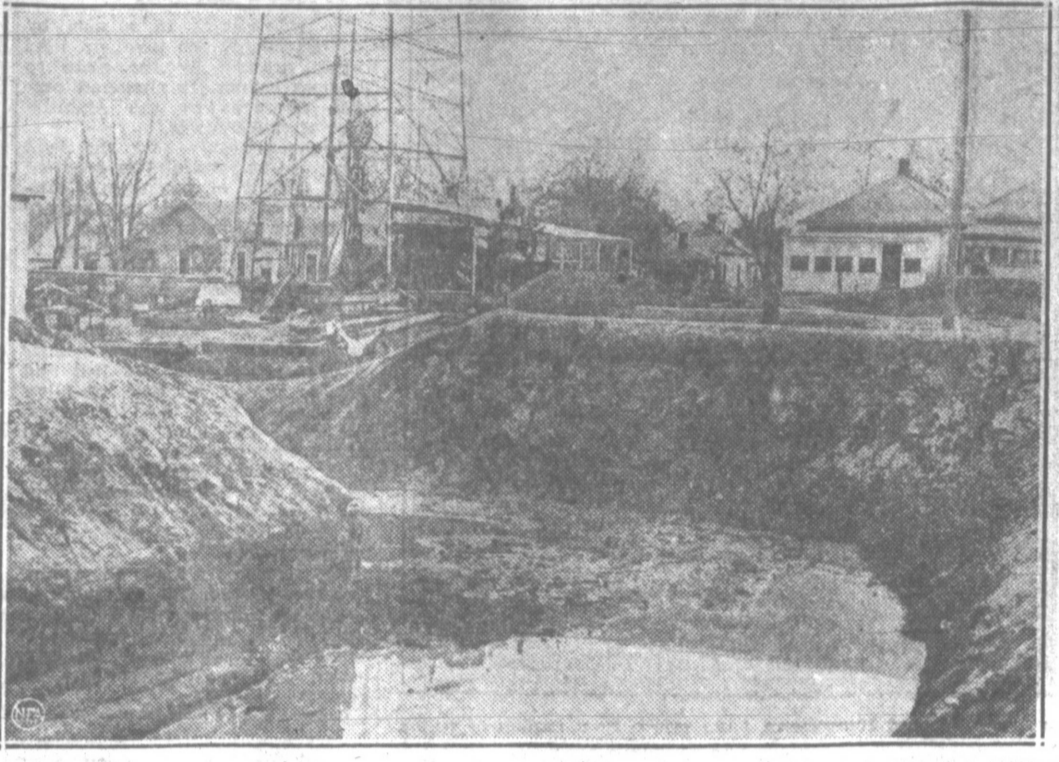

Brown vs. Humble Again Is On Way to Supreme Court From Austin. AUSTIN, April 4. (AP)—The case well-known to oil men, Brown vs. Humble, again is being argued in district court. Last year it got before the supreme court and there stated its opinion and gave every indication points to it repeating the trip once, and maybe twice, more. A number of matters are involved, but the case mostly simmers down to whether C. H. Brown has a right to produce an oil well on a tiny tract in the Great Gulf field. Brown and the Railroad Commission say he has; the Humble Oil & Refining company, which owns nearly by large acreage, says he hasn't. The courts have differed in the past but have plenty of opportunities to form new opinions. Long months ago the commission granted a permit for the well, drilled on a sub-divided tract, and the Humble promptly sought to close it down by injunction. The trial court refused the injunction but the court of civil appeals granted it and the supreme court backed up the appeals court. There the fun started. In passing the matter of an injunction, which really was only a preliminary to the issue of whether Brown had a right to well at all, the highest court made some remarks about proration in East Texas which upset the oil men more than anything happening in a long time. Some of the big oil companies interpreted the remarks as meaning the court thought the commission should consider acreage in prorating the production of oil in East Texas. The little oil men, who haven't much acreage, were in a lather over it. There was much ado on both sides, before the commission and elsewhere, with a suggestion from some that the supreme court had done too much talking and ought to have acted on the injunction without extraneous comment. Finally the court wrote a second opinion interpreting the first, saying the commission could regulate the field as pleased, provided its orders were not unreasonable or arbitrary. Meanwhile, just what the original feud was between the Humble and Brown was clearly forgotten by most persons. If they ever had known, it is clear that it has been dug up again. The matter of a temporary injunction to close the well and the powers of the commission to regulate spacing within limits of reason having been settled, the issue is whether the commission acted reasonably in granting Brown's permit to drill. Which ever way the trial court decides the other side will appeal, so the supreme court will confront Brown vs. Humble again. A competing attorney says he believes he knows a way to repeat the process all over again but he won't tell how.

TWELVE NEW WELLS WILL BE DRILLED

Gray County Well Ahead With 9 - 3 Others in Three Counties.

Intentions to drill oil or gas wells totaled 12 during the last week in the Panhandle field. Of these, 9 were in Gray county and one each in Moore, Wheeler, and Hutchinson counties. The first announcements filed were as follows: Empire Gas & Fuel company (Me.) I. H. Cunningham No. 8, 330 feet from the west line and 990 feet from the north line of SE 1/4 of section 128, block 3, I&GN survey, Gray county. Empire Gas & Fuel company (Me.) I. H. Cunningham No. 7, 330 feet from the east line and 990 feet from the south line of SE 1/4 of section 128, block 3, I&GN survey, Gray county. Danziger & Pearson, Greenfield No. 1, 330 feet from the north and east lines of E 1/2 NE 1/4 of section 186, block 3, I&GN survey, Carson and Gray counties. The Shamrock Oil & Gas Corporation Robertson No. 1, 1,320 feet and 1,320 feet south of the northwest corner of W 1/2 of section 401, block 44, Moore county. Pampa Production company, Lee Harrah No. 4, 990 feet from the east and 330 feet from the north of the NW 1/4 of section 150, block 3, I&GN survey, Gray county. Smith Bros. Refining company and Hanlon-Buchanan Inc., D. E. Johnson No. 5, 330 feet from the north and 2,310 feet from the west of section 34, block 24, H&GN survey, Wheeler county. The Kewanee Oil & Gas company Rest No. 20, 990 feet from the south and west lines of the SW 1/4 of section 149, block 3, I&GN survey, Gray county. Drick Oil company L. C. McConnell No. 4, 330 feet from the west line and 990 feet from the north of the W 1/2 of the SE 1/4 of section 187, block 3, I&GN survey, Gray county. Concho Oil & Gas company J. T. Hodges No. 1, section 14, block X 2. L. A. Patillo survey, Hutchinson county. (This location was made some time ago.) Southern Petroleum Exploration Inc. Hughey No. 1, 330 feet from the south and west lines of NW 1/4 of section 3, I&GN survey, Gray county. Gulf Oil Corporation of Pa., Gulf Production division, R. B. Thompson No. 1, 990 feet from the north and 990 feet from the west of SW 1/4 of section 126, block 3, I&GN survey, Gray county. Gulf Oil Corporation of Pa., Gulf Production division, E. G. Barrett No. 1, 330 feet from the north and west lines of SW 1/4 of section 126, block 3, I&GN survey, Gray county.

Oil Wells Spout in Oklahoma City Yards

This scene—a new oil well beside a slush pit in a back yard in the Oklahoma City residential district—is being multiplied daily as citizens rush to take advantage of the decision, reached in a recent vote, to open for drilling 70 blocks of city property. Since adjacent state-owned tracts were excluded from the vote, Governor E. W. Marland threatened to lease these lands and call troops to protect bidders right, rather than risk drainage of state pools by whistocking (drilling on an angle) tactics of drillers on adjoining tracts.

FIELD'S LARGEST GASSER IS ONE OF FOURTEEN WELLS FOR PANHANDLE AREA LAST WEEK

BLOCK 24, WHEELER COUNTY, STILL SPURTS

Fourteen wells, including the largest gas well ever drilled in the Panhandle field, were included in the increased activities of the last week. Ten oil wells added 8,887 barrels daily to the potential production of the field, and the gassers were good for 226,044,000 cubic feet daily. Largest oil well of the week was the Smith Bros. No. 4 Johnson in prairie block 24 of Wheeler county, which did 3,217 barrels on test. The huge gasser is in Moore county, on the Moore lease of the Phillips Petroleum company, section 106, block 3-T, T&NO survey. The official Railroad commission test gave it 171,680,000 cubic feet, corrected. Gas pay was from 3,005 feet to the total depth of 3,270 feet. With all movable parts of the derrick out of the way of the terrific blast, the derrick rumbled and rocked but the well was put under control without mishap. Gray county took the lead for the week with 5 wells good for 2,640 barrels daily. Wheeler county had larger production in two wells, however, which did 4,429 barrels daily. Hutchinson followed with two good for 1,263 barrels daily and Carson with one making 636 barrels. Commission tests of the last week included: Carson County. Gulf Production company No. 12 E. Cooper, section 4, block 9, I&GN survey, tested 536 barrels daily. Total depth was 3,097 feet in time. Pay was from 2,990-3,037 feet. Gray County. Gulf Production company No. 13 Thompson, section 126, block 3, I&GN survey, tested 425 barrels daily. Total depth was 3,278 feet in time. Pay was from 3,210-78 feet. Southern Petroleum Exploration company No. 6 Noel, section 138, block 3, I&GN survey, tested 431 barrels daily. Total depth was 3,223 feet in time. Pay was from 3,180-3,205 feet. Claude Drilling company No. 1 Gorenflo, section 178, block 3, I&GN survey, tested 173 barrels daily. Total depth was 3,280 feet in granite wash. Pays were at 3,191-3,200 feet, 3,242-49 feet, and 3,269-72 feet. Empire Gas & Fuel company No. 11 Culler, section 164, block 3, I&GN survey, tested 691 barrels daily. Total depth was 3,255 feet in time. Pays were at 3,150-70 feet and 3,190-3,215 feet. Kewanee Oil & Gas company No. A-5 Adams, section 3, block 28, I&GN survey, tested 320 barrels daily. Total depth was 2,645 feet in time. Pay was at 2,505-45 feet. Hutchinson County. Cy Reiger No. 3-B Ware, section 21, block M-21, TCRB survey, tested

587 barrels daily. Total depth was 3,165 feet in time. Pay was at 3,123-65 feet in lime. Standin Oil & Gas company No. 1-B Watkins, section 10, block M-21, TCRB survey, tested 695 barrels daily. Total depth was 2,908 feet in lime. Pay at 2,638-2,903 feet was shot with 810 quarters. Wheeler County. Smith Bros. Refining company No. 4 Johnson, section 34, block 24, H&GN survey, tested 3,217 barrels daily. Total depth was 2,556 feet in granite wash. Pays were at 2,350-85 feet and 2,490-2,525 feet with 11-700 cubic feet of gas. Smith Bros. Refining company No. 3 Williams, section 49, block 24, H&GN survey, tested 942 barrels daily. Total depth was 2,556 feet in granite wash. Pay was at 2,465-60 feet. Gas wells tested included: Wheeler County. Palmer No. 1 Grimsley, section 103, block 23, H&GN survey, tested 17,665,000 cubic feet of gas at 270 pounds rock pressure. Moore County. Texhoma Natural Gas company No. 2-P Sneed, section 19, block 67, T&NO survey, tested 22-179,000 cubic feet of gas with 408 1/2 pounds rock pressure. Phillips Petroleum company No. 1 Moore 66, section 166, block 3-T, T&NO survey, tested 171,680,000 cubic feet of gas with 385 pounds rock pressure. Gray County. Salsbury No. 1 Husted, section 116, block B-2, H&GN survey, tested 14,522,000 cubic feet of gas with 380 pounds rock pressure. KANSAS CITY LIVESTOCK KANSAS CITY, April 4. (U. S. Dept. Agr.)—Trade in slaughter steers and yearlings at midwestern markets was on an uneven, steady to 25 and more lower basis. Choice 701 lb. heifers realized 8.85; butcher cows were 4.75-5.00. Replacement cattle trade was slow. Choice-light stockers cleared at 6.60, feeders 5.50 and steer calves up to 8.75. Choice fed wooled lambs cleared up to 10.65 in Chicago. A fair showing of spring lambs was available with bulk at 10.50 to 10.75; a few natives up to 12.50. Shearing lambs topped at 9.85.

MARKET BRIEFS

NEW YORK, April 4. (AP)—Led by steel, rail and motor stocks today put on one of the fastest rallies in several months. Many issues bettered their highest marks for the past five years or longer with gains ranging from 1 to around 4 points. A late profit taking wave did little more than shade extreme advances. Brokers attributed the buoyant recovery partly to an apparent turn for the better in the European situation and to a highly optimistic brand of domestic industrial news. GRADUAL IMPROVEMENT IN BUSINESS IS PREDICTED

Early Year Recession Well Behind as Charts Show Upward Trend in Texas. AUSTIN, April 4.—Coming months should bring gradual improvement in business conditions, Dr. F. A. Buechel, assistant director of the University of Texas Bureau of Business Research, predicted in his monthly review of the business picture and forecast for the future. "Early March apparently witnessed the turning point in the moderately downward trend in general business activity which has prevailed since last December, and although industry and trade receded in December, there is now expected a gradual upward tendency which should continue at least a month or two," he said. "Even during these months there still remained a fair margin of improvement over the corresponding period last year. This margin is expected to widen substantially between now and June, although a temporary setback may be experienced in certain industries in the flood stricken areas of the Middle Atlantic and New England states. "Practically all indexes of business and industrial activity are beginning to show an upward tendency. The capital goods index published by Iron Age showed a slight gain for the week ended February 14 after a sharp gain the week before and now stands at 25.9 percent above the comparable 1935 level. Of the parts that make up this index, rail shipments of forest products, automobile production, heavy construction, and productive activity in the Pittsburgh district, all but the last one is currently showing an increase. The sharp increase in production is accounted for by abnormal weather conditions. "Despite the improvement which has taken place during the past year in this index, however, it still stands at 25 per cent below the base period, which is the average for the years 1925-27 when the population of the country was about ten million less than it is now. Moreover, we are in the seventh year of subnormal activity in these lines and during four of these years activity was only about 50 per cent or less of the base period. These facts indicate a strong potential force making for sustained business recovery as confidence in the future gradually develops. "Another industry in which great potentialities exist for additional improvement is construction, both residential and commercial. Residential construction expressed in dollars amounted to only one-tenth as much in each of the years 1932-1933 and 1934 as it did in 1926 in the states east of the Rocky mountains. Even after the sharp improvement which occurred in 1935 residential construction in these states was still only one-sixth that of ten years ago, and if this year it again doubles last year's rate it will total only one-third that of 1926. Moreover, residential construction was on the decline even before the depression began, the volume in 1929 having dropped one-third from the high point reached in 1928. "The foregoing facts seem to indicate that we are in the beginning stages of a new building boom which may continue many years. It will be retarded, however, if costs of building rise more rapidly than general buying power. The experience during the last half of 1933 and the year 1934 when costs advanced sharply without corresponding increases in general income should serve as an example, and it is to be hoped that this error will not be repeated. "The important role that building activity will play in carrying forward the recovery through the spring and summer is shown by the Dodge figures for contracts awarded during the first two months of this year in comparison with a year ago. Total contracts in all classes show an increase of 98 per cent over a year ago. Residential contracts increased 76 per cent, non-residential 141 per cent, and public works and utilities 73 per cent. Although these percentage increases are highly encouraging it should not be overlooked

COUNTY JUDGES Asked to Help In Mineral Survey

The Texas Planning board is asking for the cooperation of all county judges and commissioners' courts in Texas in the compilation of data on the mineral resources of this state. Letters have been sent out to the county judges and to the County Planning boards. Each letter contains a map of a county and a list of the known mineral resources in that county. To bring this list up to date and to obtain the benefit of local information, the county judges are invited to add all the information that is not known on the list or on the map. In this way the Texas Planning board believes that many mineral resources that are not ordinarily reported can be found. Information derived from any other source is also welcome.

Oil Scouts to Meet in Dallas

Dallas has been selected as the meeting place of the 1936 convention of the National Oil Scouts' Association of America Inc. by the executive committee. Dates of the convention were set as May 29, 30 and 31. Although it had been originally intended for the association to meet during the Centennial exposition, impossibility of hotels assuring of accommodations for the 400 or 500 persons expected to attend forced the earlier date. Dallas was chosen because of its central location for scouts from all midcontinent and gulf coast fields. For the first time, Oklahoma oil scouts will participate. About 100 Oklahomans are expected at the 1936 meeting, Lee Adams of the Sinclair Prairie of Shawnee told committee members. To make it possible for the Oklahoma scouts to attend more conveniently, Dallas was chosen as the convention city and the dates were set after the International Petroleum Exposition at Tulsa May 16 to 23. The Hotel Baker was chosen as convention headquarters, with plans discussed for business and discussion sessions and a dance there for scouts and their wives or friends.

Shamrock Hearing Set for April 14

Whether present methods of calculating allowables on broadhead gas wells will be uniformly continued will be the subject of a hearing in Austin April 14 before the Railroad Commission. The hearing was requested by the Shamrock Oil & Gas corporation. The issue of American industry—the Southwestern oil region. As a consequence of comparative growth of the oil industry in Texas and the other states of the Gulf Southwest, as well as of the prospects of further development in the near future it is to be expected that the importance of California oil in the markets of the eastern seaboard will gradually decrease.

OFFICERS A. Combs, Chairman of the Board DeLea Vicars, President, J. R. Roby, Vice-President, Edwin S. Vicars, Cashier, J. O. Gillham, Asst. Cashier, B. D. Robison, Asst. Cashier, F. A. Peek, Asst. Cashier, E. Bass Clay, Asst. Cashier

Study Course of Baptist WMU to Be Held Tuesday

First Baptist Missionary Union will send representatives to a mission study institute sponsored by the W. M. U. of the Palo Duro association, in Amarillo Tuesday.

Mrs. E. E. Leach of Pampa will teach one of the classes, that on work with intermediates. Mrs. C. E. Lancaster of Pampa is scheduled to give the opening prayer at the afternoon assembly, and Mrs. Tom Rose to play a piano solo at a later assembly program.

Mrs. J. B. Tidwell of Waco, state chairman of mission study, Mrs. D. A. Grundy of Memphis, and Mrs. Guy Owens of Amarillo are to be the other teachers.

Each visitor will take a lunch of sandwiches, and the First Baptist W. M. U. of Amarillo will serve salad and coffee to complete the noon meal. Mrs. J. M. Crain of Amarillo will be in charge.

Legion Auxiliary Is Assisting With Flood Relief Work

An active part in relief work in all of the regions devastated by the spring floods is being taken by the American Legion Auxiliary. Auxiliary units in the flooded communities are working in close cooperation with the Red Cross, the American Legion posts and local authorities in caring for the homeless and rehabilitating the communities. Organized and on the ground, these units were able to supply relief workers as soon as the disaster struck.

Auxiliary units outside of the flood areas are cooperating with the Red Cross in raising relief funds. Mrs. Melville Muckleston, national president, made a personal appeal to all departments to give their aid to the Red Cross. Joining The American Legion in this work, Mrs. Muckleston sent the following message to department presidents:

"The National Commander has tendered Admiral Grayson, chairman of the American Red Cross, the Legion's cooperation in assisting the Red Cross to raise funds necessary for the relief of suffering in the flood districts. I appeal to you to contact your units and urge that they work out with their posts details for obtaining relief funds. I know that I can count on you to exert your utmost effort in fulfilling our pledge of service in alleviating the sufferings of the victims of this catastrophe."

Twenty-one hundred dollars from the Auxiliary's national emergency relief fund was rushed to the support of Auxiliary workers in the states most severely struck by the floods, \$500 going to Pennsylvania, \$300 to West Virginia, \$300 to New York, \$300 to Massachusetts, \$300 to Maryland, \$200 to Ohio and \$200 to Connecticut.

SKELLYTOWN

(Continued From Page 7)

Jones law, and Mrs. W. Lott the floating prize. Mrs. Patchett received a guest prize.

The Easter theme was stressed in packages, favors, tallies, and the refreshment course of salad, sandwiches, and lemon chiffon pie. Mrs. Ed Hughes and Mrs. Patchett were guests of the club.

Members present were Meses. Bill Campbell, W. Lott, L. R. Jones, L. R. Serber, Gene Dixon, S. C. Dickey, The Higgins, Jack Probst, Wesley Black, Bill Price, and the hostesses, Mmes. Ed Hughes and Serber will be hostesses next week in the latter's home.

W. M. S. Study Hour

The Women's Missionary society met Wednesday afternoon in the home of Mrs. W. W. Hughes in Skelly camp. Mrs. George Allen was in charge of regular Bible study from the first 15 chapters of Numbers.

Delicious refreshments were served to Meses. Allen, Black, Burt Shaeff, A. C. Carroll, W. E. Freeman, I. P. DeLong, C. Tiffany, R. Marlar, Joe Carroll, Allen, and Hughes. The next meeting will be with Mrs. Tiffany.

Personals

Mrs. Bethel Taylor was called to Bowie Wednesday to the bedside of her mother, who is quite ill.

Mrs. Burt Schaeff and daughter, Clarice, returned Tuesday from Oklahoma City after a week with relatives.

Mrs. Min Smith of Roxana left Wednesday for North Dakota to visit relatives.

Harry Chase of El Paso is visiting in the home of Mr. and Mrs. Charles Henshaw.

Mrs. Raymond Neice is in Worley hospital at Pampa, where she underwent an operation Friday.

Emil Hutto of Merkel visited Wednesday here Saturday.

Mrs. Joe Miller and Mrs. Harry Sherriff left Sunday for Detroit and other places in that vicinity, to spend about 10 days.

Mrs. O. L. Smith left Thursday morning for South Dakota to take her parents, Mr. and Mrs. Polyak, home after spending the winter here.

Mrs. C. C. Henshaw and small son, Robert Fred, shopped in Pampa Thursday.

Franklin Montgomery, member of the Skellytown faculty, has been ill at the home of his parents in Pampa the past week.

Mr. and Mrs. E. E. Gilbreth of O'Donnell spent last week-end in the home of Mr. and Mrs. Carl Richter.

Mr. and Mrs. Otis Cook of El Paso have been guests in the home of her parents, Mr. and Mrs. G. C.

Story of Monkey Delights Pupils

Appearance of Jocko, a pet monkey, at the end of a story about a monkey was the high spot on the assembly program for primary grades at Horace Mann school Friday. Oliver Bishop, Lesma McClellon, Floella Bullock, and Reba White read the story from a first reader.

First grade pupils of Miss Mary Reeve's room were in charge of the program. Songs and Bible quotations by the children opened the program, and Mrs. B. A. Tuske gave the invocation. Bobby Tucker, 4-year-old visitor, gave a reading.

The rhythm band played a number and 24 children presented a play, Little Gardeners. Mrs. Lance Webb, another program guest, entertained with a group of readings.

Mothers Outline Health Program

Room mothers of B. M. Baker Parent-Teacher association met at the school Friday to plan the annual health roundup for pupils. This year the room mothers will be responsible for this project, through which they hope to start all pupils to school next term without remediable defects.

Slips were written to be sent home by pupils, signed by parents, and returned to the school. Miss Llewellyn Shelby, school health director, spoke on care of the teeth as related to child health.

Mothers present were Meses. L. H. Anderson, G. R. Riggs, R. C. Taylor, Herring, Homer Proper, H. T. Cox, and Roy Holt.

FIRST BAPTIST CHURCH

Regular services will be conducted Sunday, with the pastor preaching at 11 a. m. and 7:30 p. m. Sunday school at 9:45, B. T. U. classes at 9:30 p. m. Everyman's Bible class will meet at the city hall auditorium at 9:45 a. m.

Henshaw, Mr. Cook returned to El Paso Monday.

Jack Thurlow left last Thursday to take a position at Sunray.

Mrs. M. L. Roberts is ill with flu.

Mr. and Mrs. Herbert Campbell and daughter, Mary Ann, spent last week-end visiting relatives in Canyon.

Mr. and Mrs. A. B. Corley were guests Sunday of Mr. and Mrs. W. G. Corley in Borger.

Mmes. Henry Parker, E. R. Austin, and E. W. Meadows shopped in Pampa Tuesday.

Mr. and Mrs. E. W. Meadows and children spent last week-end in Amarillo in the home of Mrs. Meadows' parents.

Bill Carroll has been ill with flu the past week.

WINNERS

(Continued From Page 7)

Lois Covey of Hopkins No. 2, third. Spelling, sixth and seventh grades—Robert Wilson and Marie Rudy of McLean first, Jona Batson and Dolores Bailey of Hopkins No. 2 second, June Scott and Vera Pruitt of LeFors third.

Spelling, fourth and fifth grades—Vera Lee Brownlee and Ernest West of LeFors first, Marcella Campbell and Marion Wilson of McLean second, Lois Brock and Elaine Johnson of Alameda third.

Rural Division

Winners in the rural division follow: Number one—Georgia Nell Browning and Anna Beth Gating of Webb first, J. D. Campbell and Jack Badcock of Grandview second.

Three-R contest—Gwendolyn Coups of Hopkins No. 1 first, Mary Frances Jones of Laketon second, Billie Breeding of Laketon third.

Ready writers—Billie Breeding of Laketon first, Gwendolyn Coups of Hopkins No. 1 second, Alvin Lewis of Grandview third.

Music memory—Hopkins No. 1 first, Laketon second, Grandview third.

Declamation senior boys—Alvin Lewis of Grandview first, Fred Vandenberg of Hopkins No. 1 second, Senior girls—Lois Crossman of Hopkins No. 1 first, Gwendolyn Coups of Hopkins No. 1 second.

Declamation junior girls—Maxine Milton of Bell first, Margie Babcock of Grandview second, Mary Frances Jones of Laketon third, Junior boys—Jack Stevens of Grandview first, Bernice Holland of Grandview second, Felton Webb of Webb third.

Spelling, sixth and seventh grades—Elmer McLaughlin and J. D. Paris of Laketon first, Elvey Clark and Arlene Ritter of Grandview second, Cleo Lee and Olive Marie Crossman of Hopkins No. 1, third.

Spelling, fourth and fifth grades—Helen Breeding and Hugh Terry of Laketon first, Leonard Brummett and Glen Day of Hopkins No. 1 second, Clyde McCracken and Curtis Babcock of Grandview third.

Spelling, eighth grade—Lois Crossman and Frances Tidwell of Hopkins No. 1 first, Billie Breeding and Mary Frances Jones of Laketon second, Bobbie Guy Andis and Alvin Lewis of Grandview third.

LEFORS NEWS

LEFORS, April 4—The Rev. Fay Hinton preached at the Baptist church here Friday night.

The Rev. and Mrs. W. H. Cobb and children of Itasca visited here this week.

Mr. and Mrs. W. S. Wilson and Marian Wilson visited in Alameda last Sunday.

Mrs. Van Winkle and daughter of Borger were guests of Mr. and Mrs. E. Baehus Wednesday.

Coach Bill Bronson and Mrs. Bronson were called to Nebraska, Thursday morning because of the death of her sister.

A women's chorus from federated clubs here went to Lubbock Monday to sing at the district federation meeting.

The Rev. Mr. Lawrence of Magic City preached at the Baptist church last Sunday.

ANNOUNCING OUR . . .

ANNUAL ICE COUPON BOOK SALE

BUY NOW SAVE WITH ICE

TO THE ICE TRADE:

Effective at once to April 21 inclusive, a SPECIAL DISCOUNT of 10% on ice coupon books will be available. Those of you wishing to take advantage of this very low price may buy books now to take care of your entire season's requirements of ICE. Simply call our office—Phone 184, or secure them from our ice salesmen.

NO COUPON BOOKS WILL BE SOLD AT THIS SPECIAL PRICE AFTER APRIL 21

We have completed improvements in our manufacturing plants and you may be assured of an ample supply and continued courteous service.

Since establishing our ice business in Pampa it has been our pleasure to serve the good people of this community with an unbroken service—every day in the year. It will be our continued policy to serve you at the lowest possible price at all times and still continue to manufacture and deliver to you with the highest possible degree of service.

YOU CAN NOT AFFORD TO BE WITHOUT ICE. TIME-TRIED AND TROUBLE-FREE. "THE WELL INFORMED CHOOSE ICE REFRIGERATION."

DON'T BUY ANY REFRIGERATOR UNTIL YOU HAVE SEEN THE LATEST DEVELOPMENT IN MODERN HOME REFRIGERATION. IT IS THE NEW McKEE EVERCOLD ON DISPLAY AT OUR PLANT. THE PUBLIC IS CORDIALLY INVITED TO INSPECT OUR NEW DISPLAY ROOM, AND SEE THE LATEST LINE OF AIR CONDITIONED REFRIGERATORS.

DIAPERS

\$1

Dozen to Package
Size 27x27 diapers, packed one dozen to a package. These are nice soft quality. Buy them tomorrow.

Twin SWEATER SETS

\$1

A close out of 18 of our \$2.95 sets. Better be at Levine's early for this extra special.

300 New Silk and Synthetic DRESS LENGTHS

These Silks Come in 3 1/2 & 4 1/2 Yd. Pieces **\$1.95** Each

Each length is sufficient for a full dress!

Famous Palm Certified Lengths from the Palm Fabric Corporation. The materials are the same that have been produced in dresses selling up to \$19.50.

WASH FROCKS

\$1

Our regular \$1.98 wash frocks, fast color materials, neatly tailored to fit perfectly.

CURTAIN SETS

3 FOR **\$1**

Our regular 69c to 89c quality curtain sets that we are closing out at this remarkably low price.

LACE PANELS

3 FOR **\$1**

Decorate the home with fresh new panels... it can be done now at a great savings. Buy tomorrow.

WASH SUITS

\$1

Peter Pan wash suits assure you of longer wear, and they launder like new each time.

SILK REMNANTS

5c

1/2 to 1 yard lengths... you couldn't buy cotton cheaper than this. Be at Levine's tomorrow morning.

LADIES' HOSE

2 PR. **\$1**

Ladies' full fashioned hose in two or three-thread chiffon. New shades to wear with your new clothes.

CHILDS ANKLETS

8 PR. **\$1**

New lighter shades for Spring and Summer. Dress up the kiddies for less money at Levine's.

36 Inch PRINTS

12 YARDS **\$1**

Fast color prints, full 36 inches wide. Buy plenty tomorrow and start your summer sewing at once.

NEW SILKS

2 YDS. **\$1**

Plain and printed silk in 40 inch widths... these are all good patterns to use in your Spring garments.

SILK DRESSES

\$1

Twenty-one silk dresses to close out Monday at only \$1.00 each... they're good dresses, but they won't last long at this price... be at Levine's first tomorrow morning.

DRESS SHIRTS

1,000 Men's No-Wilt Collars

An immense stock to select from in newest spring patterns. Sizes 14 to 17. Our price for Monday is only—

CHOICE \$1

LADIES' SHOES

\$1

500 PAIRS AT THIS PRICE!

Whites, browns and blacks in all sizes! You can well afford to buy the shoes you need right now, or shoes that you'll want this summer, at Levine's tomorrow.

Curtain SCRIM

10 YDS. **\$1**

Eccu colors only... ideal for those new curtains! At this price you can buy enough for every window.

LACE CLOTH

4 YDS. **\$1**

A full range of colors to select from. It's a Levine special that will bring the thrifty buyers.

KNEE-HI HOSE

4 PR. **\$1**

Pure silk knee-hi hose in the correct shades for this season. You'll want at least 4 pairs.

JOHNSON PRINTS

7 YDS. **\$1**

The standard of quality in fast color prints. New Spring designs in all colors and combinations.

QUADRIQUA PRINTS

6 YDS. **\$1**

It's time to start your summer sewing and we are ready with new Quadriqua prints in all colors.

PRINTED ORGANDIES

6 YDS. **\$1**

Cool new organdies for those sheer summer dresses. Nice selection in the season's best patterns.

LINEN BLOUSES

\$1

Exciting colors in the most wanted materials for the spring season. You'll save money at this price.

SPRING WOOLENS

YARD **\$1**

Full 54 inches wide... regular \$1.59 to \$1.95 quality. It's a day of savings at Levine's tomorrow.

Summer Materials

4 YDS. **\$1**

36 inches wide... suitable for smart street frocks that you'll want as the warmer days approach.

"PRICES TALK" LEVINE'S

LINENE SLACKS

\$1

What would summer be without a pair of these smart slacks. Sizes 14 to 20... get yours tomorrow.

TURKISH TOWELS

10 FOR **\$1**

Sizes 17x34 Turkish towels. Extra absorbant quality... and the right size. Buy towels tomorrow.

ELECTRICAL REFRIGERATOR SHOW HERE WILL OPEN ON MONDAY

TWO KINDS OF PAYMENTS TO BE MADE TO FARMERS UNDER SOIL CONSERVATION-ALLOTMENT ACT

Two kinds of payments will be made to farmers for land use under the new soil conservation and domestic allotment act that has replaced the old crop reduction plan in the government's agricultural program, according to Ralph Thomas, county agent.

Those payments, it has been announced by Texas Extension Service headquarters, from which the new program will be administered, will be all conserving and soil building payments. Money for both, however, will be forwarded in one check and these payments will be made only after the farmer has actually put in to effect certain specified practices for conservation of the soil on his farm.

Details of the new program as it affects Texas were explained at extension staff conferences by R. H. Rogers, senior agricultural economist of the planning division of the AAA. Rogers came to Texas with A. L. Smith, who represented the Texas Extension service staff in drafting the plans at Washington.

A high point of the new program is that all crops are divided into three classes — soil depleting, soil conserving, and soil building crops. Rates established on old reduction contracts will be taken as a guide for establishing the base for 1936 in the soil conservation program, with, of course, due allowance for crops not included in former contracts.

Since the entire acreage of every farm must be listed on work sheet in planning for soil conservation work a neutral classification has been set up as well as the three crop classifications.

Soil depleting crops are for the most part row crops while the soil conserving and building crops are the legumes, grains and grasses that are used for cover crops and to turn under as green manure. The neutral classification includes yards, lanes, roadways, vineyards and the like.

About twenty per cent of the base acreage in soil depleting crops must, in 1936, be classified as soil conserving or soil building crops in order for the farmer to qualify for participation in the program. For example, on a strictly cotton farm of 100 acres, no more than 80 acres may be planted in cotton, the other twenty acres to be given over to soil conserving or soil building crops. On farms other than strictly cotton farms, the ratio of soil conserving or soil building crops to soil depleting crops would probably be less than twenty per cent.

The maximum cotton acreage on any one farm that can be diverted to soil conserving or building under the new program is fixed at thirty-five per cent.

No payment will be made for acreage taken out of food and feed unless the base acreage in such crops was in excess of the actual needs of the family and stock on the farm.

Corn interplanted with peas will be considered as fifty per cent corn and fifty per cent peas in calculating base and performance.

The division of payment between landlord and tenant will be arrived at in two ways. Division of the soil conserving payment is 37 1/2 per cent to the producer who furnishes the land; 12 1/2 per cent to the producer who furnishes the work stock and equipment; and 50 per cent to be divided among the producers as the crop is divided.

The soil building payment will be made to the producer who has incurred the expense entailed in the soil building crops or practices.

The soil conserving payments will be based on the productivity of the land. For cotton it will be 5 cents a pound for the yield of land taken out of cotton and given over to soil conserving crops, for peanuts 1 1/2 cents a pound, for rice 20 cents for each 100 pounds of the producer's domestic consumption quota, subject to certain specified agreements; and for the other soil depleting crops the rate an acre will vary among the states and counties, depending upon productivity of the land.

With regard to wheat the situation is different, since wheat growers had signed applications for contracts with the Government for a 1936 wheat program. Congress has voided the existing applications and to be considered as obligations and are to be carried out and payments made on them. Wheat farmers may arrange their fall plantings in 1936 to be included in the new program later.

Organization of farmers to administer the program will be under way in many counties before the end of March. The farm demonstration councils or other key farmers are dividing the counties into communities of approximately 500 farmers. Each of these communities are electing three committeemen. These community committeemen constitute county soil conservation and allotment board. The county board will elect three of its members to serve as a county committee. The county agent will represent the secretary of agriculture in the county.

At the Extension Service staff meetings here, emphasis was placed on the point that the new program is a program for positive performance and it was brought out that farmers will need to know that the program is intended for long time improvement of their land as well as to increase their immediate incomes.

Director H. H. Williamson of the Extension service stressed the need for complete understanding of the program by cooperating farmers and the public. "It is a big program intended to hold on both to the soil and some of the gains the farmers have made in the last three years," he said.

LeFors Cage Team Awarded Sweaters

LEFORS, April 4.—Ten members of the LeFors girls' basketball team were awarded sweaters Monday. Three-stripe sweaters were given to Lois Godwin, captain, and Floy Lee Hill, Dorothy Lee Strong was the only two-year letterman.

One-year lettermen were Loraine Wilson, Maxine Archer, Opal Godwin, Ora Smith, Louise Williams, Helen McGinnis, and Oma Lee Nolan.

The girls' volleyball team made a trip to McLean Tuesday and won 10 out of 11 games.

Second Annual Refrigerator Show

Monday and Tuesday, April 6 and 7 Showroom of Southwestern Public Service Company, Pampa

The public is invited to see finest Electric Refrigerators ever displayed.

Flowers complimentary to the ladies.

LEADING BOXES WILL BE SEEN BY THOUSANDS

CHEAPER AND BETTER UNITS BOASTING NEW FEATURES

Always an event of outstanding interest to housewives of the Pampa community is the annual electrical refrigerator show—and this year it is set for Monday and Tuesday, April 6 and 7, in the showroom of the Southwestern Public Service company, 209 North Cuyler street.

One to four of the shining new wonders for the kitchen will be shown by each of ten Pampa dealers.

For the first time this year, housewives will have the opportunity to see all the leading models and to see them in the same room or comparison of price, design, conveniences, and size.

The display room will open at 9 a. m. and close at 9 p. m. on Monday and Tuesday. Every person will be asked to register.

As usual, the show will be free to the public, with everyone invited to see the 1936 refrigerator lines and to register on one of the two days. Ladies who register will be given flowers.

Although last year's models seemed near the peak of beauty, economy, and convenience, dealers say that the 1936 lines are surprisingly superior in a number of points, including long life and freedom from service costs.

Among the models to be shown are the Leonard, by Tarpley's Music store; the Westinghouse, by White's Auto Store; Montgomery Ward models; the Frigidaire, by Bert Curry; the Norge by Post and Neaves Norge Store; the General Electric, by E. L. King and Co.; the Shelvador, by Hutchins Inc.; the Grunow, by Texas Furniture, and the Kelvinator, by Pampa Hardware and Implement Co.; and the Gibson by Johnson Hardware.

A new lower rate soon to be quoted will reduce the cost of operating electric refrigerators. Details of the new rate will be announced this week.

NEW CROSLY MODELS ARE TO BE SEEN

Unique Space Savers to Be Displayed at Show By Hutchins' Store.

Greatly increased usable space will be found in the Crosley Shelvador electric refrigerators which will be on display by Hutchins Inc., Monday and Tuesday at the Southwestern Public Service company's show.

Only in the Shelvador can be found such welcome features as more space, knee action feather-weight touch door handles that releases at the slightest pressure, extra ice cube capacity and other conveniences.

The Crosley slogan, "This much more in the Shelvador," refers to the many added advantages and conveniences of the shelves in the door, providing ample storage space for butter, eggs, bacon, and other small articles of food always wanted at the fingertips. An orange, for example, only occupies as much space as it should, but on the Shelvador shelf it takes up as much space as a bottle of milk.

Although only five years old, the Crosley is one of the greatest commercial successes of the generation. The storadrawer feature has been a sensation. The sliding drawer is in the bottom of the refrigerator and is ideal for potatoes, onions and other bulk items. Crosley is also equipped with a new ventilated front, allowing the refrigerator to be placed in any position and location.

Additional space has been set aside for freezing of ice cubes in the new Crosley. The glass jars in Shelvadors are appreciated by every woman. They are ideal to keep food tid-bits, left-overs, etc. Heavy bar shelves make it possible to set glasses on all shelves and not just in the bottom of the box. The new hermetic unit with over-side condenser and suction fan is responsible for extremely low current consumption.

Crosley believes in national advertising and in more than fifty-one million copies of national magazines are copies of Shelvador advertising. This sales program is the greatest that Crosley has ever undertaken.

Women Do Women's Work NEW YORK, (AP)—Entrance of women into painful occupations has not displaced men, according to a study issued recently by the National Industrial Conference board. The increase in women workers in the past 50 years, the board finds, was primarily due to development of new types of work for women.

GOAT-GETTERS

Favorite Recipes

Frozen Crabmeat Cocktail
1 cup flaked crabmeat or other seafood, 1 teaspoon gelatine, 2 tablespoons cold water, 4 tablespoons tomato catsup, 1 tablespoon lemon juice, 1 teaspoon Worcestershire sauce, 4 teaspoons French dressing, salt, paprika.
Soak gelatine in cold water and dissolve over hot water. Add catsup, lemon juice, other seasonings, and fish. Turn into freezing trays, or place in paper or silver individual freezing dishes in trays and freeze. Serves four to six.

Frozen Tomato Cream
1 tablespoon gelatine, 1-4 cup cold water, 2-1/2 cups tomatoes, 3 pepper-corns, 1/2 teaspoon salt, 1 cup whipping cream, 2 cloves, 3 allspice berries, 1/2 teaspoon celery seed, 1 tablespoon minced onion, few sprigs parsley.
Cook tomatoes and seasonings together for 10 minutes. Strain, add gelatine which has been dissolved in cold water, and stir until completely dissolved. Cool, add 1 tablespoon vinegar. Pour into tray and partially freeze. Remove to chilled bowl and beat until light, fold in cream and finish freezing. Cut in squares and serve on beds of crisp cucumbers and surround with tomato circles.

Deviled Crabs
One cup finely flaked crab meat 1-4 cup mushrooms, chopped fine; 2 tablespoons butter, 1 tablespoon chili sauce, 2 tablespoons flour, 2-3 cup milk, 2 egg yolks, 1 teaspoon parsley, chopped fine; 1 teaspoon horseradish, salt and pepper.
Make a cream sauce of the butter, flour and milk; add to the egg yolks the seasonings, crab meat, and the mushrooms, omitting the parsley. Add to cream sauce and cook for

three minutes, add parsley and cool mixture. Fill crab shells with mixture, rounding off top, sprinkle with stale, buttered bread crumbs. Crease on top with a case knife, making three parallel lines across shell and three short lines branching out from each of the parallel lines. Chill. May be stored for several days if kept covered with oiled paper. Bake in a moderate oven (375 degrees F) until crumbs are browned.

Chilled Corned Beef Loaf
1 pkg. lemon flavored gelatine, 1 cup boiling water, 1 cup meat stock, 1 tablespoon Worcestershire sauce, 1-4 teaspoon paprika, 3 cups corned beef, 1 tablespoon prepared mustard.
Dissolve gelatine in boiling water. Add meat stock, Worcestershire sauce and paprika. Chill. When slightly thickened fold in corned beef, which has been chopped very fine, onion and mustard. Turn into refrigerator tray and allow to stand two hours. Cut in squares and serve on crisp lettuce leaves, with a tablespoon of mayonnaise in a lettuce cup on each plate. Note: Meat stock may be made by adding 1 cup of boiling water to 2 bouillon cubes.

Tomato and Frozen Cheese Salad
2 pkgs. (6 oz.) cream cheese, 2 tablespoons mayonnaise, 6 firm, red tomatoes, paprika.
Cream the cheese and season with the mayonnaise and paprika. Pack one inch deep and two and one-half inches wide in freezing tray and freeze.
Dip tomatoes in hot water and then in cold and remove skins. Turn stem-end down and cut three times crosswise a little more than half way through, once in the center and once half-way toward each end. Cut wedge shaped pieces from the frozen

cheese and force down into the cuts in the tomato. Cut corners even and shape to fit. Chill thoroughly and place on crisp lettuce. Pass mayonnaise.

Fruit Soup
1/2 cup cherry juice, 1/2 cup pineapple juice, 1/2 cup orange juice, 2 tablespoons lemon juice, 2 1/2 tablespoons sugar, few grains salt, 2 tablespoons gelatine, 1/2 cup cold water, 1 1/2 cups boiling water.
Soak gelatine in cold water and dissolve in boiling water. Add fruit juices, sugar and salt and place in refrigerator to chill. Be sure serving beat with a fork, then turn in to tall thin glasses or bouillon cups. Serves four.

Butterscotch Parfait
2-3 cup brown sugar 2 tablespoons butter, 1/2 cup water, 4 egg yolks, 1 pint whipping cream, 1-16 teaspoon salt, 2 teaspoons vanilla.
Combine sugar and butter. Heat until melted. Cook for one minute. Add water. Cook until butterscotch is melted. Add syrup mixture slowly to beaten egg yolks. Cook in double boiler until light and fluffy. Chill. Add whipped cream, salt, and vanilla. Pour into refrigerator freezing tray or individual cups. Freeze without stirring.
Freeze and hold until serving time.

Chocolate Ice Cream
six to eight servings
1/2 cup granulated sugar, 2 tablespoons cocoa, 1-16 teaspoon salt, 1-3 cup hot water, 1 1/2 pints coffee cream, 2 teaspoons vanilla.
Mix sugar, cocoa and salt thoroughly. Add hot water. Heat until sugar is thoroughly dissolved. Remove from fire and partially cool. Add cream and pour into refrigerator freezing tray and allow to freeze firmly. Remove to chilled mixing bowl. Add vanilla and whip with electric or hand beater until mixture becomes light and creamy. Re-

TARPLEY'S TO SHOW PUBLIC NEW LEONARD

Many New Features in Boxes Made By Old Well-Known Firm.

The new Leonard Refrigerator, one of the year's most heralded values in electric refrigeration, will be placed on display by Tarpley Music Store at the Southwestern Public Service company's show Monday and Tuesday.

Every Leonard carries a five-year protection plan on compressor mechanism parts. The 1936 model consumes 40 per cent less current than any other refrigerator Leonard has ever built. New features have been added yearly in the 35 years Leonard has been building ice boxes but never before have so many practical improvements been added in one year.

Equipment in the Leonard includes rubber grids, vegetable drawer, sliding shelves, a re-arranging shelf, foot pedal to open door, lighted interior, added ice capacity, utility basket, and other innovations. Things that should be considered before purchasing a refrigerator are outlined by Leonard.

machine welded construction, for greater strength and greater efficiency. Rounded corners and sweeping lines emphasize their sturdy construction. Increased insulation reduces power consumption. Leonard cabinet finishes are a result of 55 years experience. The porcelain on 1936 models is the finest this world's largest porcelain plant has produced. Not content with the fine lacquer used in other years, Leonard has developed Permalain, a gleaming white baked enamel finish that is tough, wear-resisting, and can be easily polished to restore its original luster. This fine finish is used on all L and LS models. Stronger, more rigid shelves have rubber covered supports. New hinges, twice as strong, rich and heavy in appearance. A trigger action door handle opens with a light touch, and takes a positive hold when the door is closed. A wider food compartment provides an actual increase of usable space and greater accessibility. Machine unit in top of cabinet is quiet and efficient. Centered freezing units allow plenty of bottle space. All porcelain freezing units are as clean as a china dish. Regardless of the model you choose, a 1936 Leonard will give years of service. Convenient placement plans make ownership easy.

COPS TOO BUSY
CHARLOTTE, N. C. (AP)—Charlotte motorists who were delinquent in purchasing 1936 auto license plates were not arrested because "we're too busy writing annual reports," Inspector K. E. Koonce explained.

Feeds Cows Hedge Apples
FULFON, Mo. (AP)—Hedge apples, supposedly worthless, have taken on a new value as cow fodder for C. D. Stroud, farmer near Auxvasse, Mo. During drought he decided to feed the hedge balls to his cows and reported excellent milk production qualities.

NEW ECONOMY IS ACHIEVED IN FRIGIDAIRE

"Meter Miser" Is Seen As Milestone—Temperature Indicator Is Included.

A newly developed mechanical refrigeration unit that will cut household refrigerators to the bone will be shown tomorrow and Tuesday at the display room of the Southwestern Public Service Company by the Bert Curry Refrigeration company, local agent for Frigidaire refrigerators.

The mechanism, simple in its construction and with only three major moving parts, has been termed the "meter-miser" and is incorporated in most of the new models to be sold by Frigidaire dealers this year.

The "meter miser" is being hailed as a milestone in the spectacular and rapid development of the refrigeration industry and economists predict it will widen the use of electric refrigerators sensationally by making it possible for even those in the lower income brackets to pay the hitherto unheard of low electric current costs that will prevail with their use.

"Frigidaire definitely throws down the gauntlet to many other refrigerators by being the first to contain a Food-safety Indicator to prove that safety zone temperatures always are maintained, regardless of how hot the weather.

"Faster freezing and greater ice freezing capacity are demands made upon modern refrigerators by the buying public. We have a thermogauge in our display room that demonstrates beyond all doubt the fact that Frigidaire will freeze larger quantities of ice more quickly.

"The modern home manager, with her broader knowledge of menus, requires greater usability in her appliances. The new Frigidaire has more usability than any of its predecessors. It is wider, roomier and in every way more convenient. Instead of mere gadgets, it gives the housewife the practical, usable advantages that save time, work and worry."

Able to cap its challenge to the world, according to Bert Curry, Frigidaire's scaled-in mechanical unit—outstanding in its engineering and design—is protected for five years against service expense.

The 1936 lines of household Frigidaire consist of a number of sizes to meet all home requirements, from the smallest kitchenette apartment to the largest mansion. Some are finished in lifetime porcelain. Others are finished in dux, the finest non-porcelain finish ever developed. All are built to the same exacting

DR. HILL, FAMED GEOLOGIST, IS NOW LIVING QUIETLY IN TEXAS

DALLAS, April 4 (AP)—More than a half century ago a young man eager to penetrate the secrets of nature, was studying and pounding the rocks "round about Comanche" then a Texas frontier settlement. The result of that study forever linked the name of Robert T. Hill with the "Comanche series" in the geologic column of Texas—a link in the earth's formative record that did not fit in any known textbook.

Dr. Hill, nearing his seventy-eighth birthday and ripe in honors and scientific achievement, now lives quietly here but actively engaged upon a correlation of the geology and settlement of Texas with the geology of the area, which, he said, "historians somehow have overlooked."

"The bent for study of geology," he said, "ran in my family." A doctor-uncle participated in a survey of Tennessee in 1822, the second geological survey to have been conducted in the United States.

His initial interest in the science was in a measure, accidental. He found the hammer-like kingbolt from an artillery train dropped during the fortification of Nashville, Tenn., his birthplace, in the Civil war and, with boyish industry, used it to hammer the outcropping rocks during playtime.

"One day," he recalled, "I broke the corner off a rock and discovered a fossil shell."

An orphan of the Civil war at five, young Hill turned toward Texas at 15 and stopped at Comanche, "the last town of the frontier and the roughest and toughest of that age." He was at Fort Griffin when Gen. MacKenzie brought in the last Comanche Indians and was present at the killing of the last great herds of buffalo in West Texas, in 1874-77. He set type on his brother's weekly paper, the Comanche Chief, which still exists, drove cattle up the Western, or Dodge City, trail, "to borrow a phrase," he said, "for seven years seldom saw butter, ice or a bathtub."

Meanwhile, he found time to study the geology and topography of the region, which was "different from any other than recognized in America," but couldn't find an explanation for the rock formation of the region. This study, however, led to the identification of the link in the geologic column which he named the "Comanche series."

"Incidental to this principal," he explained, "was the discovery of artesian water in Central Texas, at that time more important than anything else."

Study of rocks inspired an urge to standards of engineering and manufacturing technique for which Frigidaire has been known for so many years.

to college and supplement his six grades schooling. A Swiss barber at Comanche "who always was ready to start an argument about the fourth dimension of space," told him there should be schools, as in his country, "where a man wanting an education could get one. He persuaded me to inquire of the New York Sun, for which I had written articles.

"A reply by postcard from Garrett P. Service, science writer for the Sun, suggested I write to Dr. Andrew D. White, president of Cornell university. I received a lovely letter from Dr. White and I packed my specimens that were to make history in geology and went to Cornell. It took me a year to make conditions but I spent four happy years there. I worked in the print shop, made fires—I had not seen an anthracite stove until I reached Ithaca—and at other tasks to pay my way."

Upon being graduated, Major Powell, founder of the United States geological survey, sent for him and he remained with that government bureau more than 30 years as principal geologist, his services including an examination of the proposed Panama canal route.

Meanwhile, opportunity was given for broader study of the science and, in association with Dr. Alexander Agassiz of Harvard university, conducted explorations in the American Caribbean region.

In this connection, Dr. Charles Schuchert of Yale university, his said: "The father of Antillian Isthmian geology undoubtedly is Robert T. Hill, whose work in Jamaica in 1899 forms the broad foundation on which all subsequent geological work on the Antillian region must be based."

Dr. Hill, among those distinctions is that of first professor of geology at the University of Texas, is reluctant to discuss his distinguished attainments in his chosen field.

"I am just another geologist, perhaps among the elders," he remarked.

The veteran geologist has not been active in oil geology, but says that the discovery and description of Cretaceous (chalky) rocks in the Texas area, one of his major contributions to the science, "proved of great service to the development of oil."

"This discovery," he explained, "controlled the principle of oil occurrence in East and Central Texas."

What's NEW in REFRIGERATION

Electric Refrigerators will be on Parade Apr. 6-7

A parade of the new Electric Refrigerators will greet you at the Refrigerator Show of the Southwestern Public Service Company in their building. . . Here is one spot you can see all the best known makes of Electric Refrigeration and compare the advantages of each. Representatives will be on hand, to point out the special features of the various makes.

Summer weather is near, and with it will come an increase of food spoilage in homes with inadequate refrigeration facilities. Buy your electric refrigerator now and start the summer knowing that perishable food for your family will be kept fresh and wholesome . . . even in the hottest weather.

WHITE'S AUTO STORE SELLS WESTINGHOUSE REFRIGERATOR

White's Auto store is presenting the Golden Jubilee Westinghouse refrigerator—a product of an organization more than 50 years old. Models will be seen at the Pampa Electric Refrigerator show at the Southwestern Public Service company showrooms Monday and Tuesday.

Making sure that the values of its products will stand the constant checking and re-checking has become a habit with Westinghouse. And because it is a habit, millions of users have found that Westinghouse electrical equipment for homes proves its extra value by the constant check and re-check of long continued daily performance. Westinghouse electric refrigerators are an outstanding example. Ever since their introduction they have continued to prove their value to a steadily increasing list of users who tell their friends, "If you're getting a refrigerator . . . Westinghouse is the buy."

White's, in presenting the Westinghouse, asks you not to miss a single one of its features, beginning with exterior values, and taking the others in turn. They suggest that your Westinghouse Golden Jubilee refrigerator is something you will live with for a long time, and you will always get a thrill of satisfaction from its graceful proportions and beautifully rounded corners. Distinctive and individual touch has been given to the decorative panel below the door so that in every line this is unmistak-

Big Seal Aves Mexicans
AUSTIN, Tex. (AP)—A big gold seal and six inches of red ribbon are now attached to letters of introduction from the Texas governor to Mexican officials. "You'd be surprised how a document like that helps to get out of tight spots," said one man who crosses the border frequently.

India Seeks Texas Learning
AUSTIN, Tex. (AP)—Stating that several of his agents wish to take extension courses from the University of Texas, J. S. R. Acharya of the city college of Madras, India, has applied for application forms of the state school.

Land - Sharer

IRA M. FINLEY

A stubby, energetic Irishman, Ira M. Finley, 49, gradually is becoming a power in midwest politics. Missouri-born, one-time section hand and state legislator, Finley heads V. I. A. (Veterans of Industry of America), an effective Oklahoma farm-labor organization, and is busily promoting a "share-the-land" movement designed to break up big farms and divide ownership among tenants. Though he has a third-party set-up tied in with that of the Wisconsin LaFollettes, and is a caustic critic of federal relief handling, Finley plans to support President Roosevelt this year. At the same time, he will seek to wrest the Democratic nomination from Senator Thomas P. Gore.

Campfire Girls Ready for Jubilee

In anticipation of the Campfire Girls' Silver Jubilee celebration next year Solicitor General Stanley Reed furnished the organization with a copy of the original incorporation in 1912. He is shown presenting the document to Helen Scott of Washington, in costume of typical 1936 Campfire Girl while Mrs. Arthur Vandenberg and Ruth Margaret Ledig, dressed as 1912 member, look on.

HISTORICAL SOCIETY TO HEAR REPORTS OF YEAR'S PROGRESS

CANYON, April 4.—The Pampa Historical society meeting April 10 is the most interesting event of the coming week to hundreds of Northwest Texans and to at least one world citizen—Miss Susan J. Allen who is hurrying from Bermuda and New York to Canyon to visit the museum of which she has been a generous patron.

To the Texans a change in the constitution, and discussion of plans to enlarge the museum will be the most interesting feature of the business session which will be held Friday afternoon at 2:30. At this time officers will give brief reports of the work of the last year. These will include Prof. L. F. Sherry, the secretary, Floyd V. Studer, and Prof. C. Stuart Johnston whose work in discovering and excavating fossil and pre-historic artifacts have attracted attention throughout the entire nation.

Senator B. G. O'Neal of Wichita Falls tells that he hopes to attend the annual meeting this year. J. Frank Dobie, Historian and story teller of the University of Texas will arrive Friday morning after having lectured in Childress the night before. He will stay in Canyon until Sunday and will visit prehistoric habitations and fossil beds before he returns to Austin. He will be the principal speaker at the banquet, "Traditions of the Cattle Country" being his subject. He is the author of Coronado's Children and A Vaquero of the Brush Country and other books on Texas subjects.

ABANDON MANAGER PLAN
ANN ARBOR, Mich. (AP)—Five cities, one town and one village in

the United States abandoned the "city manager" plan of government from 1931 to 1935, while 48 voted to continue it, according to a survey made by the University of Michigan.

3,000,000 MILES AT THROTTLE
NEW YORK (AP)—Bob Butterfield, senior engineer of the New York Central railroad, who will retire next year, has traveled 3,000,000 miles at the throttle of a locomotive—a distance equal to 120 times around the world.

TRAPS WHITE 'POSSUMS'
CHANUTE, Kan. (AP)—Albert Briley, veteran hunter who says he has seen a thousand or more opossums, caught two white ones, the first he ever had seen.

POST-NEAVES FIRM TO SHOW NORGE BOXES

New Refrigerator Firm Is Showing Models Which Get Severe Tests.

The Norge refrigerator, handled by Pampa's newest firm, Post and Neaves, will be displayed at the electric refrigerator show in the Southwestern Public Service company showroom Monday and Tuesday.

Norge has been constantly striving for perfection that produces outstanding values and the 1936 Norge has reached that point of efficiency. The box has been subjected to the most grueling factory tests that engineers could conceive, and it has withstood them all.

This year Norge has introduced the 10-year warranty on rollator compression units. Many new distinctive features have been added to the new Norge. An improved adjustable shelf makes extra space available when needed, in the larger Deluxe models.

The gold control and defrosting switch has been conveniently placed in the panel above the freezer door, on all models. The "laz-latch" opens the door at the slightest touch, causing the door to swing wide open. The defrosting tray provides convenient space for extra cold storage.

Secretary of Governor Will Publish Book

DALLAS, April 4.—Seven Song, a book of verse by Pat Moreland, secretary to Governor James V. Allred, will be issued in April by Doubleday-Doran, New York. Contents of the book will extol the beauties of Texas, as they will be depicted in exhibits of the Texas Centennial exposition, which opens here June 6.

The volume will contain collected works of Moreland that have appeared in Harper's Magazine, the New York Times, Literary Digest, Kaledograph, Carillon, Dallas Morning News and in various anthologies. Moreland, who spent his boyhood in Claremore, Okla., home town of the late Will Rogers, first gained literary prominence when he won the 1931 award of the Poetry Society of Texas for his book of verse, "Arrow Upset." In 1934, he won the Kaledograph book publication award with his "Slumber at Noon."

He is co-author of a book, "Six of One," and in 1933 was awarded the Old South prize for his poem, "Bathsheba."

TRANSIENTS FINGER PRINTED HUTCHINSON, Kan. (AP)—Transient who apply for a night's lodging at the city jail are rare since the police adopted the policy of fingerprinting all "guests."

SEE THE NEW 1936 Grunow SUPER-SAFE REFRIGERATOR

Gorgeous

BY LAURA LOU BROOKMAN

CHAPTER VIII. Ben Blake said, "Do you mean you've changed your mind or you haven't the money?"

Toby met his gaze. "I haven't the \$25," she said. "Even if I had a job, a regular one—and I haven't—it would take months for me to save that much. I'll just have to forget about it. I'm sorry."

"Wait a minute," Blake interrupted. "Maybe we can do something about this."

"But, Mr. Blake—"

He did not seem to hear her. Picking up the telephone, he said to the operator, "Get Marty Hiatt on the wire for me."

Toby exclaimed insistently, "Oh, I couldn't ask him—"

"Blake raised one hand, silencing her. 'You let me handle this,' he said. 'Sit down.'"

Toby obeyed. A minute later Blake was speaking into the telephone again. "Marty?" he said. "How're you? Yes—yes, I've been talking to her. She's here now. For several moments he listened, now and then making monosyllabic answers. Presently, he said, 'Listen, Marty, are you doing that Worthingale job? You are? Well, here's what I was thinking about. How about using Miss Ryan on that job and, instead of paying her, let her have some of the photographs? Could you do that? Well, I thought—yes, sure. Yes. Wait a minute; I'll ask her—"

"Blake turned to Toby. 'Marty says he can use you on a job this afternoon. He's willing to let you have some of the pictures instead of paying you. Is that all right?'"

"Could you go over to his studio this afternoon?'"

"I can go any time."

Blake spoke into the telephone again. "It's all right, Marty," he said. "She'll be there. What time do you want her? Four o'clock. Okay. Marty. I'll be seeing you in a day or so. Yes—goodbye."

He put down the telephone, pushing it aside. "That's that. Hiatt will make the pictures and turn them over to me. Of course I can't promise that we're going to be able to get you work as a model. It all depends on how well you photograph. The pictures will be the test."

Toby said, "I don't know how to thank you—"

"Never mind about that," Blake cut in. "Wait until you see how those pictures turn out. Hiatt wants you at his studio at four o'clock." He glanced at his wrist watch. "You've a little time yet. Maybe there're some questions you want to ask about this business."

"There are," Toby admitted. "You see, I don't know anything about it at all. I didn't even know there was a place like the Model's League until Mr. Hiatt told me."

"Well," Blake crossed one knee over the other and settled back comfortably. "In the first place, the regular price for modeling is \$5 an hour. That's for photographic work. Artist's models pose three hours for \$5. That's why most of the girls would rather work for photographers. Some girls—the ones most in demand—are paid three and four times the regular rate. We have six on our lists who have yearly contracts with a cigaret company that pays them \$1,000 not to pose for any other cigaret manufacturer. Besides the \$1,000, the girls are paid for all the modeling they do, and they can work for as many other advertisers as they please—but no other cigaret company. Some of these girls earn as much as \$5,000 and \$6,000 a year. Of course there aren't many of them. I believe I forgot to tell you that we charge 10 per cent of all fees for our services."

He reached for a large leather-bound book on the corner of his desk, and handed it to Toby.

"Here," he said. "Is our model book. Maybe you'd like to look through it."

Toby opened the book and turned the pages. Each was made up of reproductions of photographs. There were girls of all types—blond and brunette; tall and aristocratic-looking; small and vivacious; girls who looked like "the outdoor type" and girls who were like orchids; girls posing in evening wraps, in bathing suits, in riding habits. Beneath the pictures were descriptions of each girl, giving the color of her hair and eyes, her height, weight, and the sizes of dresses, hats, shoes, gloves, etc., she wore.

"What do these letters mean?" Toby asked, pointing to a line that read "A-B-E-H-L-M-N-O-P."

"That's the code," Blake told her, "for convenience. 'A' means 'Camera experience.' 'O' means that particular girl has beautiful legs. Some models are willing to pose in bathing suits, lingerie and so on, and others are not. Some will do medicinal advertising and some won't. The code tells. These books go to photographic studios and advertising agencies. From it they select the models they want and telephone us. We get in touch with the girls, make appointments and do the rest. See how it works?"

Toby nodded. "I'm beginning to," she said. "Mr. Blake, do you really think I can do it—pose, like these other girls—"

"I'll tell you after I've seen those photographs," he said. "But you'd better be getting along now. Know where Hiatt's studio is?"

She said she did not and Blake told her how to reach the place. The address was within walking distance. Toby hurried away and 15 minutes later was stepping from another elevator into another hallway.

She found the studio and entered without hesitation. A girl sitting at

a desk, looked up and asked, whom she wished to see.

Toby said, "I want to see Mr. Hiatt. I'm Toby Ryan."

"Oh, yes, Miss Ryan," the girl said quickly. "Go right on in. He's expecting you."

Toby entered a large room, unfurnished except for a curious assortment of chairs, a bench and table at one end. There was a camera, facing a small raised platform. On either side of the platform were lights such as those Toby had seen when she posed for the photographer at Bergman's. A tall basket of artificial flowers, an iron railing and several strips of linoleum were the only other objects in the room.

A tall young man was working away over one of the lights. He raised his head and Toby asked hesitantly, "Is Mr. Hiatt here?"

The tall young man motioned toward a door. "Back there," he said. "He'll be out in a minute or so."

Toby waited. Presently Marty Hiatt, coatless, his sleeves rolled to the elbows and his red hair somewhat ruffled, appeared. "Hello," he said, addressing Toby. "So you got here."

"I hope I'm not late—"

Hiatt said, "You're on time all right." He went on, "Marty'll show you the dresses you're to wear. There are three of them. It doesn't make any difference which you put on first. We're to shoot all of them. Oh, Marty—"

The girl from the outer office entered and led Toby to a tiny dressing room. Across one end of the room, on bars, several dresses were hanging.

"You wear size 12, don't you?" Marty asked. "Here they are." She pointed out three light-colored summer frocks, hanging side by side.

"Anything else you want, let me know," Marty added and then disappeared.

Toby surveyed the dresses. There was a green and white checked seersucker, a printed voile and a two-piece, bright blue linen with a round white collar and bow tie.

With no hesitation Toby slipped

TWIN FEATURES IN WARD'S REFRIGERATOR ATTRACTIVE

A bird in the hand may be worth two in the bush, but two lights in a refrigerator are worth more than one any day, especially if it's a dark day and the housewife is in a hurry. This is what the engineers who designed Montgomery Ward's new refrigerator thought, according to a statement made by company officials announcing the new model.

Twin features are found throughout the refrigerator from the twin lights at the top to the twin cylinder compressor at the bottom. They include twin cocktail trays for ice cubes which do away with the need of spilling a large trayful when only a few cubes are needed; twin hydrated storage chests to keep vegetables garden fresh; a twin position frost-storage tray which serves as a defrosting tray and then, by changing position, as a storage tray for various articles; twin lift shelves which provide extra shelf space.

Not stopping with these twin features, the engineers have designed a quintuple cold—that is five different kinds of cold—one for food preservation, one for fast freezing, one for frozen storage, one for moist cold. "Every housewife will realize, after examining this refrigerator, that all these kinds of cold are needed in every day use," the engineers say.

Among the exclusive features of the Ward refrigerator are the automatic ice tray releases. These patented releases free the tray at a touch, ending pulling, prying and tugging. The push-action door release, enables the housewife to open the door at a touch even with both hands full. A folding rearrangement tray on the door adds to convenience and the special acid-resisting porcelain interior gives the refrigerator long life. The defrosting switch which automatically re-

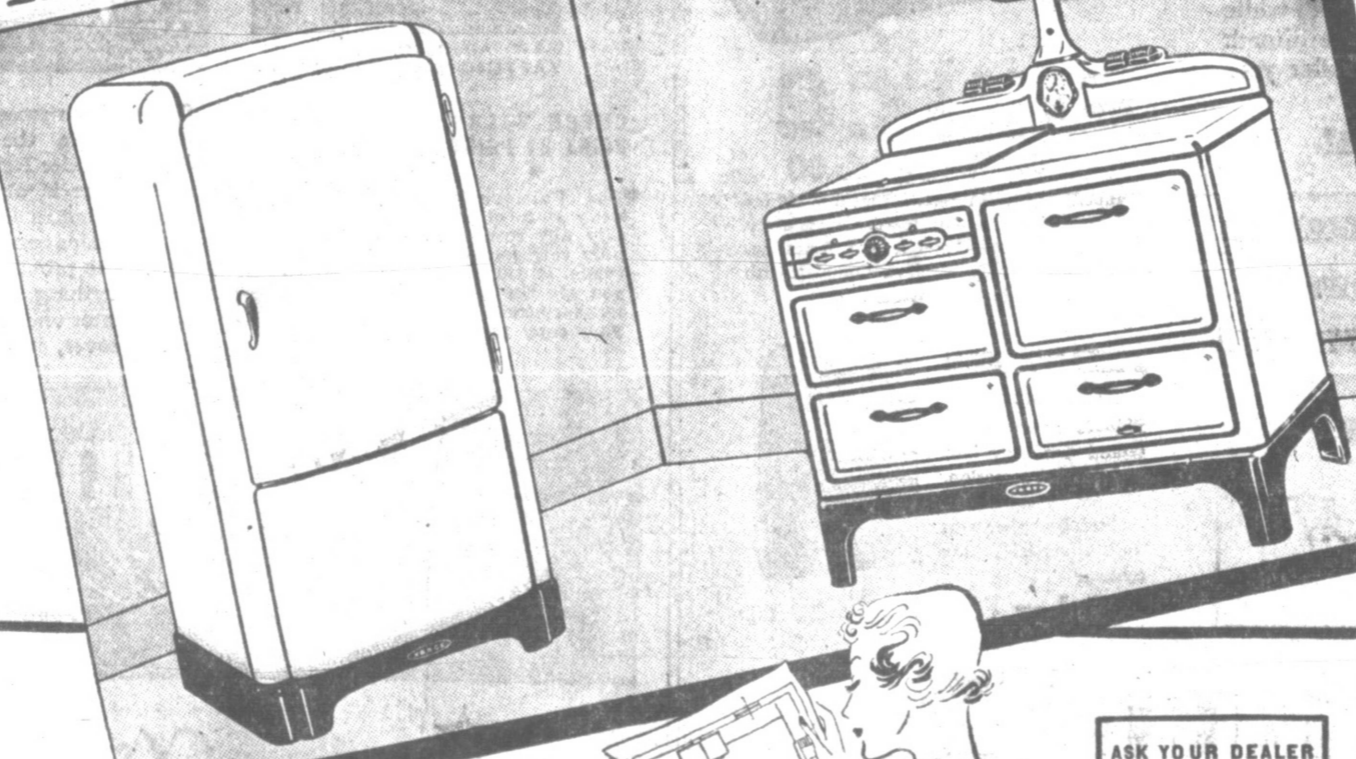

turns to "normal," the extra fast freezing compartment and the split section shelf which provides extra height on the lower shelf are among the more prominent features according to engineers.

This is one of the six most expensive refrigerators to build yet

customers save up to 40-per cent because it costs Wards so little to sell, it is stated.

Models will be seen at the Pampa Electric Refrigerator show at the Southwestern Public Service company showroom Monday and Tuesday.

NORGE MATCHED KITCHEN UNITS

Bring your kitchen up-to-date for as little as 19¢ a day

Rich, simple beauty combined with maximum practical money-saving utility—that's the modern idea. And nowhere will you find it better exemplified than in the Norge Matched Unit Kitchen.

Norge beauty is the lasting beauty of smoothly flowing lines, correct proportions, rich and lustrous finish. Norge utility is a matter of saving in time, effort, expense—better meals more easily prepared at less cost per meal.

When you see the 1936 Norge Rollator Refrigerator, you will see the greatest Norge of all time. You will see a Norge improved in design and finish, improved in flexible interior arrangement, improved in convenience features, improved in economy of operation.

The Norge Concentrator Range too will be a revelation to you. It also has been made richly beautiful—more efficient in performance—more convenient to use. All of its superior features have been retained, refined, improved. It is worthy of its place beside the Rollator Refrigerator.

Home modernization begins in the kitchen. With a Norge Matched Unit Kitchen—which may be bought on amazingly easy terms—your home is modern in its most important part. Get acquainted with the Norge dealer near you. Learn how easily you can modernize your home the Norge way. Certainly, see the Norge before you buy.

CAPITOL CHATTER

BY CHARLES E. SIMONS

AUSTIN, April 3 (AP)—The highway commission has signified intention to open roads, wherever the limited money available permits, to favored hunting, fishing and scenic spots.

The commission has authorized a location survey for a proposed road connecting Fort Lavaca and Port O'Connor in Calhoun county with instructions that it be routed to open coastal waters to fishermen and tourists. The road would go through Indianola, one of the oldest points of historic interest in the state.

The state has also agreed to take over for maintenance a county road leading south from highway 3 in Brewster county to Terlingua and the Grand canyon of Santa Helena on the Rio Grande. The road starts at Marathon and traverses the beautiful Chisos "Ghost" mountains.

Please eventually call for construction of a modern highway through the sector but for the present the state will direct its efforts at making the road passable to tourists desiring to penetrate the heart of the Big Bend country.

The Grand Canyon of Santa Helena is looked upon as one of Texas' greatest natural wonders. Sheer walls, rising nearly 2,000 feet, separate the United States from Mexico. The rocks are beautifully covered and contain lava formations. The region now is accessible only on horseback from below Terlingua to the river.

"We have some of the nation's best scenery and recreation grounds," Harry Hines, chairman, said. "We should seek to make them available to both Texas citizens and tourists."

Motion pictures taken by a West Texas division engineer portraying intimate glimpses of the Big Bend area convinced the commission the road project was feasible. The engineer virtually "sold" the route with his camera, developing some of the outstanding views in color. He obtained some especially good shots of the vari-colored rock formations in the Chisos mountains. The camera also disclosed plenty of local material for use in constructing the road.

The engineer was primed with information about the country and explained it interestingly as he conducted the commission on the motion picture tour. His show lasted nearly two hours and so completely convinced the commission of the merits of the project that an order taking over the road for maintenance was passed immediately.

Reports reaching Austin state that Rep. R. W. Calvert of Hillsboro may run for a third term in the house and again be a candidate for speaker. Colleagues close to Calvert are urging him to make the campaign despite a pronounced indication on his part to the contrary.

Calvert was defeated by Stevenson for the speakership in a hot campaign last year. His initial decision was to let some one else have a chance at the honor but his friends say he is weighing aspects of the situation and now is undecided.

Should the Hillsboro representative get into the race he doubtless would be a major factor in the outcome.

Announcement of Coke E. Stevenson of Junction he would be a candidate for re-election to the house of representatives caused some comment but members, generally, believed Stevenson would not again seek the speakership.

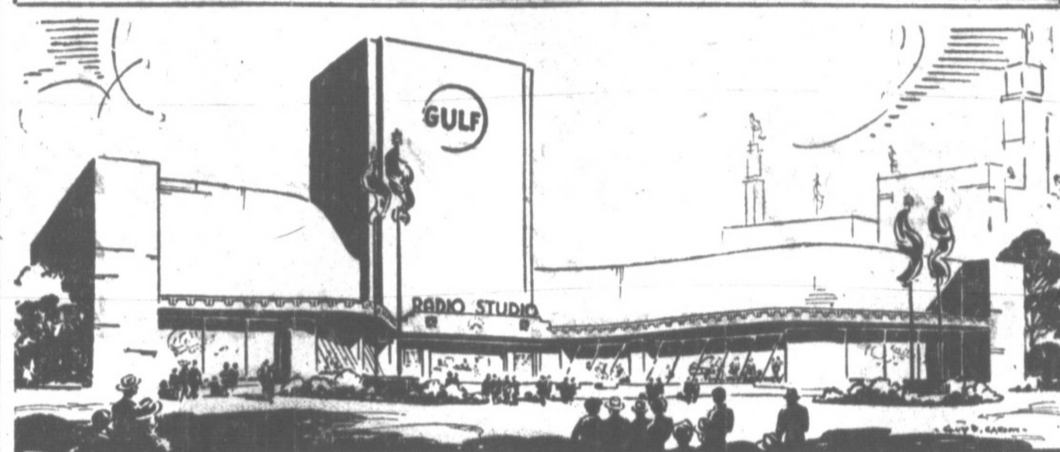

Stevenson's friends report he would be content to play a minor role in the proceedings of the next legislature after having served two consecutive terms as presiding officer of

Closeups of Talented Quintuplets Emoting

Cecile Marie Emilda Yvonne Edouilda Marie Marie Reine Alva Emilie Marie Jeanne Annette Lillianne Marie
Even if the Dionne quintuplets had not already achieved screen fame, it's easy to tell, from these pictures, that sooner or later they were destined to reap thespian laurels, for their ability to "emote" is just another of those remarkable quia traits. Could any Hollywood ingenue portray surprise any more accurately than Cecile Marie Emilda Dionne, shown at left, or eagerness, as expressed by Yvonne Edouilda Marie, right, portray shyness, thoughtfulness, and glee in a manner any experienced cinema star might envy.

Radio Studios Started at Texas Exposition

This is an architect's sketch of the Gulf Oil radio studios, being built at the Texas Centennial Exposition, the \$25,000,000 World's Fair opening in Dallas June 6. Here all programs from the grounds will originate for chain and local broadcasts. Glass-front studios line the court of the U-shaped building so visitors may watch the broadcasts. The largest public address system of history also operates from here.

NEW REFRIGERANT USED IN GRUNOW IS SAFETY FACTOR

Grunow started it! Just a few years ago the public became safety conscious. Insurance companies compiled statistics about the number of accidents that occur

in the home. His intimates say he was not anxious to serve another term and was somewhat wearied by the arduous task of keeping order in the assembly.

It was admitted, even though he chose a voluntary minor role, Stevenson would have large influence in the lower chamber. Several of his close associates wanted him to smash all precedents by running for a third term as speaker but Stevenson would not permit the movement.

It was pointed out that Stevenson, by keeping in the political inner circle as a member of the house, could maintain valuable contacts should he decide to enter a statewide race in 1938. Incidentally the 1938 races for governor and attorney general, in the opinion of observers, are taking on the appearance of a free-for-all.

Stevenson has been prominently mentioned as a candidate for the democratic nomination for both offices but the "Sage of the Llanos" has kept his counsel.

means lower running costs and much lower up-keep costs during the long life of a Grunow. It means the Grunow is quiet and stays quiet.

Grunow also believed that refrigerators should be as modernly, as thrillingly beautiful as the modern automobile. And the Grunow is. Just take one look at the new Grunow models. Notice the flowing lines.

There's more than just beauty in the new Grunows, too. There's convenience. The rounded all-in-one top and side — the beautifully designed, gleaming chromium-finished fingertip latch and hinges. See the new flush-type door — beautiful and saving of electric current.

FAMOUS GIBSON LINE WILL BE SEEN AT SHOW MONDAY

"All the other features plus the Freez'r shelf," is the claim made for the Gibson refrigerator by Johnson Hardware company. A Gibson will be on display tomorrow and Tuesday at the Second Annual Pampa Electric Refrigerator show in the Southwestern Public Service company building on North Cuyler street.

Gibson is one of the oldest names in the refrigerator business. More than 4,000,000 boxes have been sold by this firm in its 60 years of existence.

The new models of the electric and kerosene-operated Gibson feature custom-built boxes, hermetically sealed units guaranteed for 50 years, which must be oiled only one time in three years, and a price

GIBSON \$129.50 UP

Never Such a Value Before!
5 year GUARANTEE OPTIONAL
Come to our show-rooms, see the new GIBSON models. . . One by one, check the features they offer you and you will agree that never was there such a value before.

Some refrigerators offer a twin cylinder unit, others feature a hermetically sealed unit . . . but GIBSON leads with both a hermetically sealed and a twin cylinder unit for greater smoothness and efficiency.

THE MAGIC Freez'r Shelf
The refrigerator you buy should have the Freez'r Shelf because this remarkable improvement will give you more ice cubes (9 1/2 lbs. at one freezing in the smallest model) more usable storage room, faster cooling of foods, faster freezing, greater accessibility to the contents of the cabinet, slower but more efficient circulation of air that cools the foods quickly but will not dry them out.

The Freez'r Shelf is the greatest improvement since a compressor replaced the calk of ice and only GIBSON has the Magic Freez'r Shelf.

Now On Display at the Refrigerator Show

LEONARD

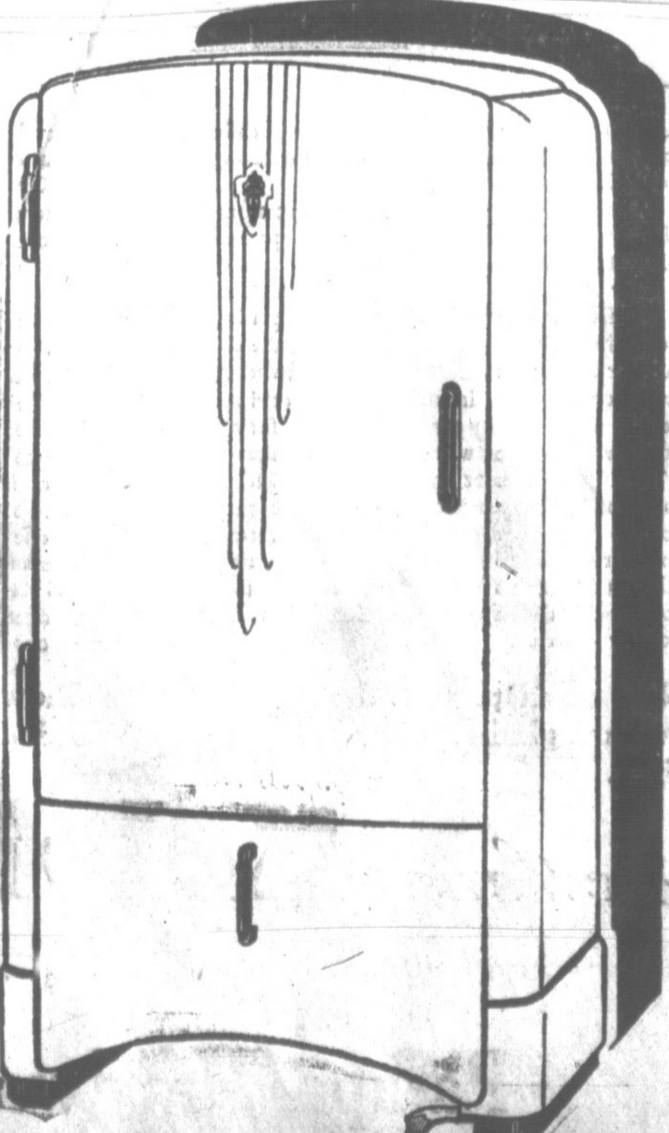

THE REFRIGERATOR SENSATION OF 1936

Uses 40 Per Cent Less Current and Carries Service Protection For 5 Years!

Your needs and your household budget dictated the design of the 1936 Leonard. The engineers who shaped that design aimed particularly at two things—economical operation and long life. They created new standards of value in refrigerators. The 1936 Leonard consumes 40% less Electric Current than any other refrigerator Leonard has ever built.

Leonard followed up the good work of its engineers with a 5-YEAR PROTECTION PLAN that insures your investment. Its coverage is two-fold: in addition to the usual one-year warranty, the plan provides four extra years of protection.

Fifty-five years of experience enabled Leonard engineers to achieve the sensational in Leonard's 1936 product. Although Leonard has pioneered more of the features used on refrigerators than any other manufacturer, it has never offered so many striking improvements at one time. Leonard, through extensive field research work, went into thousands of kitchens to learn your refrigerator requirements. Leonard engineers examined, analyzed and tested every refrigerator built today. Then they designed the new Leonard, a refrigerator that meets every demand and surpasses all existing standards.

TARPLEY MUSIC STORE

C-R-O-S-L-E-Y

Offers This Much More In A Shelvador

PRICES ON ALL MODELS INCLUDES 5-YEAR PROTECTION PLAN

The Greatest Invention Since Electric Refrigeration. Only CROSLY HAS IT

THE WORLD'S MOST BEAUTIFUL REFRIGERATOR

Just think of the many added advantages and conveniences of these shelves in the door. Providing ample storage space for eggs, butter, bacon, lemons and other small articles, food is always at your finger tips. Open the door and THERE it is, instantly findable. With the Shelvador, the usable capacity of the refrigerator is greatly increased. An orange, for example, only occupies as much space as it should, while on the refrigerator shelves it would utilize as much space as a bottle of milk. The Shelvador saves space, time, effort and current and has new Hermetic Compressor Unit.

KELVINATOR IS OFFERING FINE NEW FEATURES

Air Conditioning and Filter Remove Odors—Separate Temperatures Provided.

In its 1936 models, Kelvinator has produced a revolutionary advance in electric refrigerators.

The Kelvinator is handled in Pampa by the Pampa Hardware and Implement company, which will have a display at the refrigerator show at the Southwestern Public Service company office on Monday and Tuesday.

Presented will be one of the new Super De Luxe models which has caused much excitement in electric refrigeration.

Probably the wonder feature is the two sections. The top of the interior is divided for making ice cubes, deserts, ice cream, etc.

Kelvinators, all models, carry the five-year protection plan which provides for free replacement of any necessary parts in the compressor mechanism over a five-year period.

Pampa Hardware and Implement company can furnish any of the 11 standard models from the four-foot capacity to the largest size on the market.

A few of the features of this year's model are the larger freezing unit, extra bottle space, vegetable crisper, sliding shelves, below freezing storage, and many other improvements.

Beer and Wine Sold on Sunday

AUSTIN, April 4 (AP)—Authority for hotels to sell beer and wine on Sundays was upheld by the attorney general on the principle that the control act clearly intended to discourage hard liquor drinking.

A conflict arose because regulations were contained in the two articles of the act, one of which was intended to regulate liquor sales and the other beer and wine.

Article one, beer and wine permits, for hotels, prohibited Sunday sales. Article two, regulating sale of beer principally, permitted Sunday sales under certain conditions.

Attorney General William McCraw advised the liquor control board that "in my opinion it was clearly the intention of the legislature to encourage, as far as possible, the drinking of beer and wine instead of hard liquor and provided that hotels and cafes operate under a permit obtained from the county judge for the authority to sell beer and wine."

Even though the law governing beer and wine permits was covered in article one, he said, "it refers to article two as to the procedure to take in obtaining said permits.

On that reasoning, he held, "the sale of beer and wine should be governed by article two of the Texas liquor control act and such hotels and cafes whose principal business is not that of selling beer and wine should be permitted to sell wine and beer on Sundays, as well as other days."

HAS \$8 BILL SPARTANBURG, S. C. (AP)—W. L. Padgett daily has offers to buy a rare eight-dollar bill he owns, but he doesn't intend to part with it. The note has been handed down in his family for 100 years.

"Greatest Eye" Is Coming Through Pampa Soon

(UPPER LEFT)—Dr. George V. McCauley, physicist in charge of disc making, Corning Glass Works, and Dr. J. C. Hostetter, director of development and research, contemplate successful result of fifteen months' labor in creating greatest telescope lens.

(ABOVE)—Dr. McCauley sights through a polariscope to detect any possible strain in the inner structure of giant disc.

(LOWER LEFT)—150-ton crane placing huge steel-enclosed package in special well-car for shipment to Pasadena, Calif.

One of the most unusual freight shipments ever handled by the Santa Fe railroad will pass through Pampa probably today on its way to the Pacific coast.

It's only a piece of glass, but the train carrying it across the continent is about as carefully guarded as if a president or royal personage were a passenger.

Of course it is a big piece of glass—the largest ever turned out—and its making has taken more than a year. It is the perfect disc which will become the lens of the world's largest telescope at the Mount Palomar astronomical observatory after it has undergone a year of careful polishing and grinding in a specially constructed shop at Pasadena, Calif.

Railroad men of half a dozen of the country's great traffic systems spent several months in figuring out the safest and most satisfactory routing for the unusual shipment.

Bridge and viaduct clearance, curves and other physical and mechanical features of various railroads were studied carefully before the routing was finally determined.

The New York Central railroad took the shipment from the Corning Glass company at Corning, N. Y., to St. Louis, the Burlington nursing it carefully on from there to Kansas City. From Kansas City the great lens, insured for \$100,000, takes the last and longest stage of its journey to Pasadena, via the Santa Fe. The trip to the coast, in all, will require nearly two weeks, a special slow schedule having been arranged for the car.

The glass disc is 202 inches in diameter and 26 inches thick. It has been packed in a solid crate, made of braces and plates of structural steel, completely insulated with felt and with cork blocks and pads. The disc weighs 20 tons and the steel crate 10 tons. Days were consumed in loading and testing at the shipping point.

A gondola type well-car was specially prepared with brackets, braces and other means of fastening the big crate securely, but suspended in somewhat the same manner as "floating power" automobile engines. The car and its cargo require a clearance of 17 feet 6 1/2 inches for all overhead obstructions.

Every precaution is being taken to guard against vibration, bumps, and jars. The car is placed next to the engine and the train is run on a special schedule with its speed

A master mechanic and mechanical department representative ride on the train on each division and special care is used in passing all tight clearance points. Special police guards are furnished in terminals.

When the lens reaches Pasadena it will be turned over to the artisans who will finish it. The polishers and grinders can work only a few hours a day because of the danger to the lens from heat generated by friction and also from the bodies of the workers.

When the lens is finally installed in the California Institute of Technology Observatory, 45 miles north-east of San Diego, astronomers believe they will be able to photograph stars 1,500,000,000 light years distant. The moon will appear as only 25 miles from the earth and Mars and Venus will be brought to within a few thousand miles.

Hollywood Sights And Sounds

By ROBBINS COONS HOLLYWOOD—The many-winged house in which Al Jolson, Jr., recently celebrated his first birthday is a product of evolution.

It began 18 months ago when Papa Al first bought a 5-acre orange grove in Encino, 12 miles out

in the valley, and announced that he and Ruby Keeler would keep the simple five-room house already on the premises. "We may add a room or two and a second bath—but we'll keep it small, and simple," said the mammy-singer.

But an architect changed their minds. They decided to tear the old house down, replacing it with a cottage, still "small and simple."

It was Ruby who thought of possible guests. That was how the east wing began—two guest rooms, two dressing rooms, two more baths. So, with that settled, the Jolsons went east vacationing.

Then Came a Nursery Al Jolson, Jr. came back with them—at least with Ruby, for Al had been called east again. When Al got back, Ruby already had planned the nursery—"on the sunny side of the house," she explained, "with plenty of window space, and a room for the nurse is right beside it."

"And with the baby and all," she went on, as Al approved, "we'll have to keep more help. We'll need at least two more rooms in the service wing on the west."

All that was arranged, too. Then Jolson, with memories of oldtime hotel life, suggested: "Let's have a kitchenette upstairs, near our room. A place to get a snack late at

night without disturbing the kitchen." The architect worked that in, easily.

One morning Al had another idea. "I want a lot of sunporches, never did get enough sun," he announced. The house has sun porches.

How The Pool Happened Things were going along swimmingly by now. And that reminds me—it was about this time Jolson decided on a swimming pool. "Put it here," he ordered.

Ruby thought that was a grand idea. "But if you have a pool, Al," she suggested gently, "you'll want a bath house beside it."

"Sure," said Jolson. "And while we're doing it, we can have a play-room built at the same time."

"The cars," said Ruby reflectively, "can't sit out in the weather."

The house has a five-stall garage, with living quarters for the chauffeur and for Frank Holmes, Jolson's long-time "dresser" on stage and screen.

About this time Jolson went east again on business, and Ruby thought maybe that five-acre lemon grove adjoining their place would be nice to have. She bought it.

And today the house that Al and Ruby built, the house that just evolved, is—quite a house!

ELECTRICAL EXPERTS MAKE FAMED G. E. REFRIGERATOR

Two outstanding General Electric refrigerators—the familiar monitor top and a new streamlined box—will be displayed at the Pampa Electric Refrigerator show Monday and Tuesday at the Southwestern Public Service company showroom.

Officials of the company in discussing the show said that G. E. boxes had stood every test, including water, ice, and fire in testing the sealed units, and added:

"General Electric is built by the largest electrical manufacturing company in the world. This company was the first to ever offer a sealed in steel mechanical unit, the first ever to offer the two year guarantee, again leading in offering the subsequent guarantees of three and four years, and this year led in the five year guarantee. This guarantee is complete, being offered on the unit including the chilling unit, and if for any reason service should fail, the entire unit is replaced with a complete new unit."

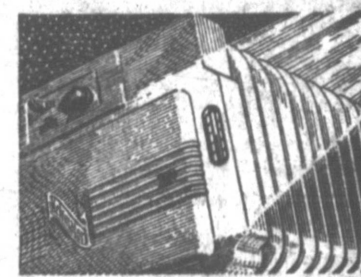

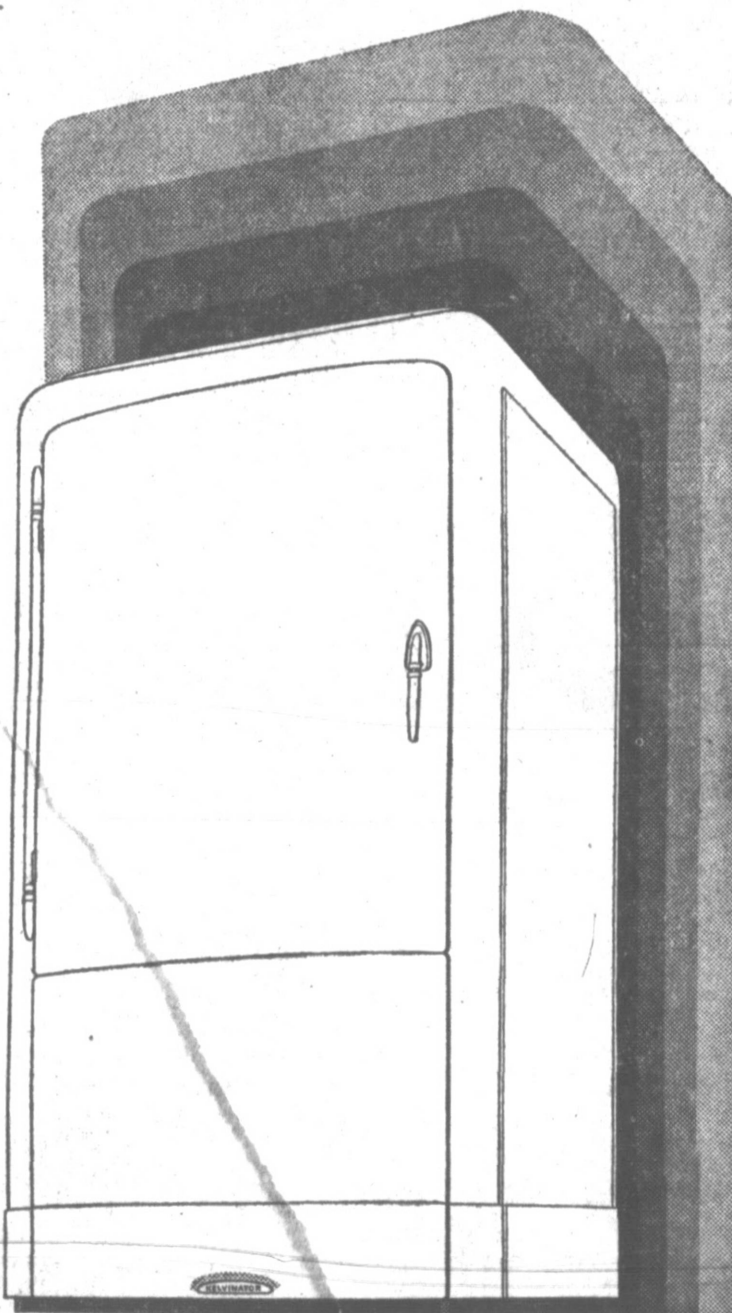

The very widest range of electrical experience in General Electric's. The outstanding electrical

wizards of modern times have been General Electric men, Edison, Steinmetz, Coolidge, Langmuir, Whitney, all the host of the electrical immortals. There are the men who invented the electric light and developed the Mazda lamp. These men have made nearly all the really important contributions to the science and practical application of electricity. The genius of men like these produced the new General Electric Refrigerator.

Today's new General Electric is the peak of mechanical excellence achieved through half a century of electrical research. The new 1936 G. E. Refrigerators are more beautiful than ever, more efficient, more economical, finer in every respect! There's an auxiliary foot pedal door opener on the cabinet. There's automatic interior lighting, handy temperature control, sliding shelves, and a defrosting switch that operates without interrupting your refrigeration service. The new stainless steel super-freezer gives faster freezing and will not chip off or tarnish.

The News' Want-Ads bring results

Big things have happened since you or your friends bought refrigerators

Visible COLD The controls of the 1936 Kelvinator keep food compartment temperatures ideal, regardless of how hot it is in the kitchen. And you can see what the temperature is, because a Built-In Thermometer tells you that food is being kept surely, safely, dependably cold.

Visible ECONOMY Today, for the first time in the history of the industry, Kelvinator provides you with a Certificate of Low Cost of Operation. The 1936 Kelvinator uses one-half or one-third as much current as many refrigerators now in use. This saving alone may justify replacing your old refrigerator.

Visible PROTECTION You may know today, beyond a shadow of doubt, that the refrigerator you buy will give you long years of service. Because the 1936 Kelvinator is backed by a 5-year Protection Plan, written and signed by the oldest company in the electric refrigeration industry.

IN EVERY city and town in America—in clubs and homes and on the streets—people are talking about Kelvinator—the new refrigerator.

Those who have put off buying any electric refrigerator—who have waited for new developments—have found in the 1936 Kelvinator the answer to every question a conservative buyer could ask.

Owners of automatic refrigerators are replacing them with new Kelvinators, not because the old ones are worn out, but because new developments, new discoveries, new inventions now offered for the first time have, by comparison, made former refrigerators obsolete, wasteful and old-fashioned.

The 1936 Kelvinator gives you Visible Cold. It maintains low temperatures in the food compartment to a new and amazing point of accuracy. And, for the first time, a Built-In Thermometer tells you in unmistakable figures how cold it is. You know food is being properly preserved, health properly protected.

It gives you Visible Economy. Many refrigerators now must be considered wasteful of electric current, for Kelvinator uses a half or even a third as much current as many now in use. And there can be no doubt about economy, for every Kelvinator is sold with a Certificate of Low Cost of Operation.

And it gives you Visible Protection. Every Kelvinator is backed by a 5-year Protection Plan signed by the oldest company in the business.

The 1936 Kelvinator gives a new meaning to the word "convenience." There are flexible rubber grids in every ice tray, automatic defrosting switch, sliding shelves, interior light—everything to lessen the burden of housekeeping.

If you are one of the 7 million owners of automatic refrigerators, or if you have not yet bought, see the 1936 Kelvinator, get all the facts about this new refrigerator, learn how easily you can own one by our liberal Deferred Payment Plan.

Now on display at the Refrigeration Show at Southwestern Public Service Company. We are glad to show you the complete line of Kelvinators on our sales floor at any time.
