

# Clinton eyes idea to seek donations

EVERETT, Wash. (AP) — A \$1,000 check from a 14-year-old boy who waters trees and shrubs for cash gave President Clinton a novel idea to cut the budget deficit: Ask for donations.

Larry Villella, a high school freshman from Fargo, N.D., wrote Clinton a letter and enclosed a \$1,000 check, asking that \$900 go toward reducing the deficit. The other \$100 would be earmarked for several government programs, including AIDS, environment, defense and Social Security.

The check was still in the mail when Clinton got wind of it. He called Villella from aboard Air Force One.

"Citizens are not in the habit of sending money," the president told Villella. He called the youth "a symbol of what's best about this country."

Clinton also told Villella that his staff was researching whether the check can legally be accepted.

Ending a West Coast swing aimed at selling his bitter-pill economic package, Clinton was asked if he was considering asking for donations to reduce the deficit. "I want to take a look," he said.

"I want to be in position to do that, but this just happened," he said.

Villella owns ConServe Products, a company that markets a tree-and shrub-watering system he invented.

The youngster made the round of the morning television talk shows today.

He explained on "CBS This Morning" that he decided to send Clinton a check because he figured it would take some time for the president to get his deficit reduction plan through Congress and that "there had to be a way to get the economy stimulated before the plan is passed."

He said on NBC's "Today" that he was surprised when Clinton's call "actually came" even though "they had contacted us about 40 minutes before hand."

Asked whether any of his friends were thinking about following his lead and sending the government money, Villella said he had not talked with any of his friends about what he had done.

He also appeared on ABC's "Good Morning America," explaining that he wants to be a cardiologist and, as he did on the other shows, holding up his tree-watering invention — a hose-like device with holes in it that fits around the trunk of a tree.

Clinton's trip to the Boeing Co. on Monday was a homecoming for Air Force One. The 747 was built here then shipped to Wichita, Kan., for testing. President Bush first used the plane in 1990.

Speaking beneath a sign that read, "Welcome Home Air Force One," Clinton thanked Boeing workers for the plane.

"Everywhere I go in that airplane, I am the second most important celebrity. People really just want to see the plane," he said, drawing laughter.

"And I know that I can make all my friends and supporters happy, even my mother, just by taking them on the plane and letting them look at your magnificent work."

Clinton said the plane — complete with a full-size desk, advanced communications equipment and a bedroom — "enables me on these flights across the country and going across the world to continue work."

Larry Villella, 14, displays the \$1,000 check Monday in Fargo, N.D., prior to mailing it to the White House

with a full staff almost as if I had never left the office."

Clinton gave a Mountain View, Calif., audience a peek at his management style — and he was the first to admit it isn't always pretty.

He said his campaign staff operated without a formal chain of command, allowing practically anybody with a good idea to have input on major decisions.

It was the same last week in the Oval Office as the president finished his address to Congress.

Clinton said Vice President Al Gore compared the process to "making sausage. People were running in saying, 'Put this in. Take this out.' But it worked," he told employees of Silicon Graphics Inc., a high-tech company that prides itself in giving workers free rein to be creative.

# Bills would expand gambling in Texas

AUSTIN (AP) — Bills have been introduced in the Legislature to expand legalized gambling in Texas, with proposals ranging from charity "casino nights" to Indian-run casinos.

A spokesman for Gov. Ann Richards said Monday that her office is looking into an inquiry from the Tigua tribe, which has a reservation in El Paso, about conducting casino-type gambling.

"The governor's legal staff has entered discussions with the Tiguas," said Chuck McDonald, her deputy press secretary.

However, he said, "There has been no agreement on what the state allows with regard to gambling on Indian reservations."

According to a new study by the House Research Organization, federal law generally allows Indian tribes to engage in gambling activities on reservations, including casinos, if a state allows such gambling and other provisions of federal law are met.

The study says the Tiguas and Kickapoos, who have a reservation near Eagle Pass, contend "that by initiating the lottery Texas opened the door to ... Indian-run gaming operations."

A bill pending in the Legislature would authorize the governor to negotiate a state-tribal gaming compact, providing tribes adopted a resolution authorizing such gam-

bling and that the National Indian Gaming Commission approved.

McDonald said questions surrounding Indian casinos are complex.

"This is a national issue that's being contested in a number of states on what laws apply to Indian reservations and what jurisdiction the states have," he said.

Since 1981, the Legislature has legalized three major types of gambling — bingo games for charity, pari-mutuel wagering on horse and dog races, and the lottery.

Estimates are that tax revenue from those types of gambling will make up about \$1.2 billion of the state's \$36.4 billion General Revenue Fund over the next two years. Most of that money comes from the lottery.

Several bills and recommendations pending before the Legislature would modify the way the state runs its gambling operations. The comptroller has proposed merging regulation of all three types — now the job of separate agencies — into a single gaming commission, for example.

Other proposals call for dedicating lottery revenue to such purposes as school funding, prevention of juvenile violence and teacher development. Lottery proceeds aren't dedicated to any specific purpose now and go into the General Revenue Fund with other tax dollars.

# Television technician claims \$7.2 million Lotto prize

AUSTIN (AP) — Dick Shanklin has always preferred working behind the television camera rather than in front of it.

But after winning the \$7.2 million Lotto Texas jackpot drawn Feb. 20, he made an exception.

Shanklin, 47, called in sick from his job as a technician for a Dallas TV station to claim his riches Monday.

"I don't like being in front of the camera as much as being behind the scenes pushing the buttons," said Shanklin, who lives in Grapevine. "But for this two days of fame I don't mind it."

Shanklin collected \$365,983 on Monday and will receive a check for \$362,000 each of the next 19 years. He said he would quit his job today.

"With this kind of money, your time is your own," he said.

Shanklin said the winning numbers — 3-18-27-36-41-43 — came to him while watching the Teenage Mutant Ninja Turtles cartoon near the end of a 12-hour shift Friday.

"They kept popping into my head, and I kept writing them down," he said.

After watching the lotto drawing at 10 p.m. Saturday, Shanklin said he kept the news to himself and returned to work at KDFW-TV in Dallas for his midnight shift.

"I was just weird the rest of the night," Shanklin said. "I couldn't concentrate."

"I didn't want to say anything to anyone because until they verify it, you don't have the \$7 million," he added.

He says he will build a new house in Grapevine and add a 10-car garage for his collection of "old 1960s model cars."

One of the ports in the garage will house a new "Cadillac Sedan Seville."

Shanklin also wants to share his riches with friends and family.

"I want to give about \$10,000 each to some friends and two other brothers," Shanklin said. "I want to help them out and give them a little money to play around with."

Shanklin said he was still considering whether to buy season tickets to the Dallas Cowboys.

"I am definitely a (Dallas) Cowboys fan, and I am glad the coach is almost as rich as I am," Shanklin said.

Quick Way Food Store in Grapevine is also a winner. The store received \$72,440 for selling the winning ticket.

Shanklin said he will quit his \$5-a-week lotto habit.

"It's time to give someone else a chance," he said.

DOUGLAS B. LOCKE, A PROFESSIONAL CORPORATION, CERTIFIED PUBLIC ACCOUNTANT

For 45 years, we've been there when people needed us most

Over 300,000 times a year, someone calls on AMT ambulance service or one of our sister companies for help.

And we respond to those calls, quickly, professionally, and compassionately.

Just as we have been doing for 45 years.

Forty five years ago this month, AMT's parent company was formed when our founder — Lou Witzeman — couldn't get fire protection for his rural neighborhood.

So, Lou scraped together some money, bought a fire truck, and went door-to-door asking his neighbors to subscribe to his fledgling company for fire protection.

Today, that company has \$85 million in annual revenues, 1800 employees, and provides emergency services to six million people in five states. And while we got our start in fire,

ambulance service is now responsible for the majority of our business.

While our company has gotten a lot bigger since, Lou Witzeman showed initiative when no one else would, we still grow the business the same way Lou did ... one neighbor at a time.

When Lou retired in 1978, he turned the company over to the people he trusted most — his employees. And now, whenever you are served by an AMT employee, you are being served by an owner of the company.

And we all still have a little bit of Lou Witzeman in us: when we see a need, we go out and get the job done.

For 45 years, we've been there when people needed us most, with care you can count on. It's a record to be proud of. But it's just the beginning, for us and for the communities we serve.

# Grammy Awards facing a rock 'n' roll midlife crisis

By JOHN ANTCAK  
Associated Press Writer

LOS ANGELES (AP) — The realization that this year's top Grammy nominee is a graybeard rocker older than the president of the United States makes Garry Shandling's head spin.

"It's very odd to see the music of my generation become mainstream. I don't think this is the year of the woman. I think this is the year to call it quits. I've never felt older in my life," lamented the comedian, who will be host of Wednesday's 35th annual Grammy Awards show.

Eric Clapton, the 47-year-old guitarist who joined the Yardbirds three decades ago and formed the legendary trio Cream a quarter-century ago, has a leading nine nominations.

"I think we were sort of the anti-establishment, immature generation," Shandling said, "and now suddenly we have to really begin thinking of ourselves as our parents. I don't think we're prepared for it. I think that's why there's the sense of panic in the country."

If not panic, there's at least plenty to trigger a rock 'n' roll midlife crisis at this year's Grammy presentations.

Most of Clapton's nominations are for an album of acoustic music featuring a slow and bluesy — some might say wooden — version of "Layla," the rock anthem originally released in 1970 during Clapton's Derek and the Dominos days.

Three of Clapton's nominations are in the top categories of record ("Tears in Heaven"), album ("Unplugged") and song ("Tears in Heaven") of the year.

Competition in those categories comes from Billy Ray Cyrus; "Beauty and the Beast" and its singers, Celine Dion and Peabo Bryson; k.d. lang; Vanessa Williams; Annie Lennox; and U2.

Michael Greene, president of the National Academy of Recording Arts and Sciences, agreed that mainstream is the word for the nominees for the top honors. But he said that's not a fair character-

ization of the Grammys as a whole.

"There's several problems we have with this dinosaur of a show," he said.

"One is that we have well over 400 nominees in 80 categories and generally we only get to put about 13 performances on the air ... so many of the nominations that are showcased are what we call the popular categories."

All 7,000 voting members of the academy can vote on record, album

and song of the year as well as best new artist.

"That means you've got Latin, polka people, metalheads, rappers, classical jazz, big band, country — all of that whole amalgamation of creative and technical people — only (coming) together on those four categories," Greene said. "Consequently, the nominees that you get in those categories are far more mainstream."

For the 76 other categories, members are allowed to vote only

in those areas in which they have expertise.

Firing off names of nominees like Nine Inch Nails, Arrested Development, Red Hot Chili Peppers, Alice in Chains, Faith No More and Megadeth, Greene said, "You can't just look at record of the year and judge the academy. You got to look at all 80 categories."

The Grammys will be broadcast from the Shrine Auditorium on CBS at 8 p.m. EST.

## Mardi Gras madness peaks in New Orleans

NEW ORLEANS (AP) — New Orleans' Mardi Gras craziness climbed toward its peak today, with 11 splashy parades, a transvestite beauty contest and more boozy, bawdy revelry on tap.

Fat Tuesday festivities were to kick off early this morning, when jazz clarinetist Pete Fountain and his Half-Fast Walking Club were to swing down fashionable St. Charles Avenue.

At midnight, police and trash trucks sweep through the French Quarter, ushering in the austerities of Lent.

"We don't worry about how we'll feel on Wednesday," said one reveler, Maria Sawyer. "We have 40 days to get over it, all of Lent. And that's about how long it will take some people."

More than 2 million revelers were expected to swarm into New Orleans today. With postcard-perfect weather forecast, this Mardi Gras was expected to be a hedonist's delight.

Eleven parades roll in and around the city today. One of the most popular and well-attended annual events is a beauty contest for transvestites in the French Quarter.

After nearly two weeks of daily parades and parties, thousands of tourists and residents got a chance to slow the pace Monday at Lundi Gras, a day of music, food and fireworks along the Mississippi River.

"It's crazy and wonderful," said Dorothy Davis, 74, of Cleveland. "I've heard about it for years, but you can't know what it's like until you actually go through one. There's nothing like it in Cleveland, that's for sure."

Sharon Williams, 29, of Houston stood in the hot sun Monday wearing a short black skirt, long gold beads and a feather mask, bobbing and weaving to the sounds of Trombone Shorty and the Jazz All Stars.

"I've been here three days and gone to four parades. I've danced with people I don't know and kissed people I don't know for beads. It's wonderful," she said.

## Little hope for skiers

ASPEN, Colo. (AP) — Rescue teams on snowmobiles and skis found a backpack but no other sign of five skiers feared caught in an avalanche over the weekend, and with a new snowstorm on the way today, time was running out.

Sheriff Bob Braudis said Monday that he might call off the search if the skiers — who set out on Friday — were not found today.

"The probability after five days is nil," he said.

The cross-country skiers failed to return from a weekend trek in mountain back country and may have been caught Saturday in an avalanche near this exclusive resort town. A couple with them returned safely by a different route.

A backpack belonging to one of the skiers was found Monday near a hut in Taylor Pass where searchers had hoped the three men and two women had taken shelter from near-zero temperatures. But the sheriff said there was no indication the skiers had been in the cabin.

The search was called off at dusk Monday, but air and land searches were to resume this morning, weather permitting. A winter storm watch was in effect, with as much as 15 inches of snow expected in the region by tonight.

The sheriff said searchers would have to weigh the risks of extending the search. The risk of an avalanche is high.

Missing were Brigitte Schluger, 50, Dee Dubin, 40, and her husband Rob Dubin, 38, all of Denver; Ken Torp, 50, of Conifer, and Elliott Brown, 43, of Golden. Torp was chief of staff for former Gov. Richard Lamm.

The skiers left a ski resort on Friday, camped overnight and were to return Sunday. They had sleeping bags and some food.

Two other members of the group, Richard Rost, 34, and his girlfriend, Andrea Brett, 42, split off when Torp and Elliott, who are more experienced skiers, decided to return by a more difficult route, Rost said.

Schluger and the Dubins also are believed to have been separated from Torp and Elliott, Rost said.

"You never want to break up but when it comes down to a dispute what do you do — fight?" he said.
