

Relief Bill Is Forwarded To White House

Senate Votes 100 Million, Rejects 50 Million Hike

WASHINGTON, April 12 (AP)—A \$100,000,000 emergency relief bill was on its way to the White House today assured of presidential approval, although it is \$50,000,000 less than Mr. Roosevelt requested.

No Descent

The senate passed the measure without dissent last night after rejecting an amendment by Senator Pepper (D-Fla.) to increase the sum of \$50,000,000.

The fight over Pepper's proposal brought a sharp split in administration ranks. Democratic Leader Barkley supported the \$100,000,000 allocation, and told the senate he had agreed on that figure with a group of administration followers, economy-minded democrats, and republicans.

If he lacked courage to bear his share of responsibility for the undertaking, Barkley said, senate democrats should choose another leader.

"I think my record of the last six years shows that I'm not frightened at federal spending," the Kentuckian shouted. "If I had it in my power, I would order that \$100,000,000 be appropriated."

But, Barkley continued, he had information the house, which already had approved the \$100,000,000 fund, would not accept an increase.

Barkley told the chamber that although the amount was "unsatisfactory" to the president, he was authorized to announce Mr. Roosevelt would sign the \$100,000,000 bill.

Mr. Roosevelt reaffirmed his desire for a \$150,000,000 appropriation in a letter to Pepper shortly before the vote. The president said it was a matter of arithmetic that between \$60,000 and \$40,000 fewer WPA jobs would be provided if \$100,000,000 was appropriated.

Barkley disclosed the president shortly would ask congress for a \$1,500,000,000 WPA appropriation for the year beginning July 1.

Judge Linked In McKesson-Robbins Case Resigns

WASHINGTON, April 12 (AP)—President Roosevelt today accepted resignation of General Judge Edwin S. Thomas of Connecticut.

A presidential secretary announced Thomas had resigned in a letter dated April 6 and that the president accepted the resignation, effective immediately, in a letter today.

Officials recalled Thomas sometime ago had been summoned as a witness in connection with the McKesson and Robbins drug company case.

Attorney General Murphy issued this statement:

"It is well known that for a number of weeks the financial affairs of Judge Thomas, and his action in certain cases, have been under investigation by John T. Cahill, U. S. attorney for the southern district of New York, and a special grand jury. The nature of the evidence adduced has not been made public.

"Due to a recent attack of illness, Judge Thomas is at present under the care of a physician. The resignation has made it unnecessary to give further consideration to the question of impeachment. The grand jury will continue its investigation."

DAMAGE SUITS

Three damage suits were filed by Carl Sewall, E. O. Greer and C. H. Davis against Earnest Odum in 70th district court Wednesday. The suits grew out of a car collision on mile east of Odessa on Dec. 30, 1938. It was brought here on pleadings.

Colorful Career Of Ira Yates Ends In Death At Austin

Victim Of Pneumonia; Was Mule Trader, Butcher, Ranchman Before Oil Made Him State's Wealthiest Man

AUSTIN, April 12 (AP)—Ira G. Yates, 78-year-old oil millionaire whose full and picturesque life embraced periods as a peanut digger, mule trader, ranchman and butcher, died here today.

Yates, on whose land was discovered the state's most prolific oil pool, died in Seton Infirmary at 9:31 a. m. after battling pneumonia for days. His condition became hopeless last night when uremia developed.

A little over 12 years ago Yates' discovery well came in, smearing oil over several hundred yards of the rocky hillside of his Pecos county, West Texas, ranch. Yates became Texas' richest man.

Today the Yates field has more than 550 wells with a total daily potential of 8,221,850 barrels, and has produced more than 240,000,000 barrels.

On the morning of Oct. 29, 1926—the 57th birthday of Yates—he and his son stood talking on the rugged land of his ranch, watching a drilling rig punch a wildcat well into the tough soil.

Suddenly the father exclaimed: "John, we'd better get away from here, something is coming out of there pretty soon!"

Father and son moved away a half mile, then Yates' prediction was realized.

"There was an awful rumbling down the hole," Yates related. "Oil came with a rush mixed with rocks and gas, and the hillside for several hundred yards was smeared with black oil. We did not know very much about oil but we knew we had something."

Yates was born in Hopkins county, Oct. 29, 1858, the son of Ira G. Yates, who came to Texas from Missouri in 1843. His public school education was compressed into three weeks, but he said his schooling was obtained from the saddle of a cow pony.

At 11 he dug peanuts in Wilson county at 50 cents a day and at 12 became a cowboy, working with one outfit until he was 19. Then he went into business for himself, buying fat cattle in South Texas and driving them to market at San

Harmony Pledged In City Commission

Cooperation The Keynote Voiced As Robinson Takes Place On Board

The city commission entered into a new year with changed personnel Tuesday evening, as T. J. A. Robinson assumed his place on the council as successor to Harvie Clay. Various routine matters in connection with the change over and with the start of a new fiscal year were transacted.

Returns of the April 4 election were canvassed, to show that Robinson and Grover C. Dunham were elected over Clay and Cecil Long of the commission.

Mutual pledges of cooperation and harmonious working for the good of the city were exchanged as all members of the commission and City Manager E. V. Spence made brief talks. Compliments were paid Clay's work on the commission and he in turn expressed appreciation for cooperation. Robinson and other commissioners voiced the hope that the next year would see a continuation of smooth municipal operations.

Spence, in renewing a desire to carry out in full the commission's desires and to follow the will of the people, emphasized that every department and every office of the city is open at all times to any citizen. "Our books and records are available to anyone," he said, "and we want the people to come to us when they have a problem to be solved or a suggestion to be made. Our principal aim is to see that Big Spring's business is transacted the way Big Spring people want it transacted."

Spence explained that work of reamping water lines at the cemetery was going ahead, and that all taps would be available soon. Water was cut off temporarily, he said, when it was found some of the old lines leaked. Free water is available at taps where people want to carry it to their lots in containers. Private taps will be installed for those wishing to install a meter and pay the customary rate, although there is no meter deposit required of those who have

M'Daniel Sells Store Interest

After 41 years of service as a hardware merchant, C. H. McDaniel, manager of the Big Spring Hardware Co., Wednesday prepared for a well earned rest.

He announced that he had disposed of his holdings in the company to other interests in the firm and that he would retire, continuing to make Big Spring his home.

Dewey Martin, for many years an employe of the company, will serve as the new manager of the concern. Expressing appreciation for support accorded him, McDaniel urged "continuance of such with the new management."

On Oct. 10, 1921 McDaniel came to Big Spring to assume charge of the store which was then Stokes-Hughes. Shortly thereafter it became the Big Spring Hardware Co. and he continued in charge of its affairs.

Prior to coming to Big Spring, he had been in the hardware business for 23 years at Abilene. In the 41 years he was in business McDaniel never missed a day from his health. Three years ago when ill health beset him, he refused to leave his post.

McDaniel and Mrs. McDaniel are well known in this area and are the parents of four sons and a daughter. B. J. McDaniel, city engineer, Hank McDaniel, dairy operator, and Ollie McDaniel, who is leaving the hardware firm with his father, and Otis McDaniel of Dallas, and one daughter, Mrs. J. H. Tompkins of this city.

MUSEUM PROGRAM ON KBST THURSDAY

A program centering on interesting details of the West Texas Memorial Museum at the city park will be heard over radio station KBST at 11:30 p. m. Thursday.

Mrs. Mary Bumpass, associated with the museum from its inception, invited all persons interested in the museum to listen in on the program.

13 ARRESTED IN NARCOTICS DRIVE

KANSAS CITY, April 12 (AP)—The federal government smashed today a coast-to-coast narcotics ring with coast-to-coast ramifications radiating out of Kansas City, where a government official said the narcotic situation is "unbelievable."

H. J. Anshlinger, U. S. commissioner of narcotics who came here from Washington to head the roundup, announced the arrests of 13 suspects in Kansas City, New York, Oklahoma, and Missouri.

Pension Bill Is Altered By Lower House

Division Of Recipients Into Two Classes Is Eliminated

AUSTIN, April 12 (AP)—The house today drastically revised a senate bill proposing to pay pensions to every aged person with an income of less than \$30 a month.

Would Increase Rolls

By a vote of 63 to 53, it struck out a provision which would have divided pensioners into two classes and given equal amounts to all members of a class.

Rep. Ross Hardin of Prairie Hill, the bill's author, estimated it would increase the pension rolls from their present 115,000 to around 215,000.

The provision dividing pensioners into two classes was eliminated on motion of Rep. J. Bryan Bradbury of Abilene.

Backers of the provision admitted privately its purpose was to permit smaller pensions to be given than to whites. Bradbury warned, however, that it probably would lead to a situation in which persons with the most political influence would be placed in Class A.

Chief purposes of the bill were to enlarge pension grants and put local administration of pensions in the hands of the county commissioners' courts instead of investigators for the state organization.

A state set-up would be retained for general supervision but investigations of applicants would be made by the county commissioners' courts.

"One of the main things I want to do," said Hardin, "is to dispose of these investigators that are harassing the old people all over the state."

Rep. Robert H. Wood of Marshall contended if persons were liberalized to the extent proposed by Hardin the federal government would cease matching state grants.

"I favor eliminating consideration of the ability of children to support applicants but I believe that's as far as we should go," Wood said.

Hardin replied that the federal social security board approved Texas' original pension law and his bill was only slightly more liberal than that statute.

Rep. Lonnie Aispop of Carthage obtained printing in the house journal of communications intended to show the federal government would not approve the Hardin plan. Rep. Eugene Worley of Shamrock said, however, the federal government would not pass on any plan until it had been officially submitted.

Appellate Court Holds For State Again In Gas Rate Case

32 Cents Termed 'Just, Reasonable And Valid'

AUSTIN, April 12 (AP)—The Austin court of civil appeals today again held for the state in the railroad commission's suit to reduce the gas rate of the Lone Star Gas company.

The court held a rate of 32 cents per 1,000 cubic feet set by the commission was "just, reasonable, nonconfiscatory and valid in every respect."

It reversed a judgment of the trial court and dissolved an injunction against the commission.

The case has been in litigation for years. Approximately 370 cities and towns are affected.

Last year the court of civil appeals took the same action and was reversed by the United States supreme court.

"We conclude the validity of the 32-cent city gas rate prescribed by the commission is one conclusively established as a matter of law," the appellate court said, "and factually from so overwhelming a weight and preponderance of the evidence as to require a reversal in the interest of justice."

The opinion was written by Associate Justice M. B. Blair.

October 14, 1932, the railroad commission launched an eight-month investigation to determine whether the 40-cent gas rate of the Lone Star company was reasonable. The reduction to 32 cents was ordered in September 1933, and was reversed by the supreme court.

Hold Parley On Land Use

Howard and Sterling county men and women associated with institutions directly interested in agricultural programs took another step toward formulating a comprehensive land use planning unit at a meeting here Wednesday morning.

Details of the projected program of combining efforts, outlined broadly in a previous sub-district meeting here, were developed at the Wednesday session, which the extension service, farm credit agency, experiment station, schools, Farm Security administration and agricultural conservation association were represented.

Preliminary steps were taken toward grouping the county under general soil types and toward formulating an organization within these areas with common problems. Soon work will be started on a comprehensive inventory of human, material and land resources within the soil divisions of the county as the foundation for setting up an intelligent program

CLUB BUYING PIGS FOR 4-H FEEDERS

The Kiwanis club is cooperating this year in the 4-H club livestock program by purchasing pigs for distribution to boys over the county.

Four sows will be bought by the club and are due to arrive Friday from the H. G. Lucas farms near Brownwood. They are pure bred Hampshire sows of the John Tarleton college stock. A boar is due to be bought from the Lillard line at Arlington.

TEXAS TRIAL FOR STOCKTON

CHICKASHA, Okla., April 12 (AP)—T. H. Williams, Jr., Grady county attorney, said today he was informed by Texas authorities that L. C. Stockton would not be returned to Oklahoma for trial on a murder charge in the slaying of Joe Ball, Oklahoma City mail carrier.

Williams pointed out that court was not in session here and that Stockton could not be given the immediate trial demanded by Texas as a condition for the surrender of Stockton, one-legged former Oklahoma convict, is held at Palo

VOTE TO TIGHTEN HOT CHECK LAWS

AUSTIN, April 12 (AP)—A senate committee last night unanimously voted out a bill to tighten "hot check" laws.

The action was taken on a bill already passed by the house which would make it a felony to give a hot check with criminal intent.

ALBANIAN ASSEMBLY OFFERS CROWN TO KING EMANUELE OF ITALY

TIRANA, April 12 (AP)—The Albanian national assembly today offered crown of this Adriatic kingdom to King Vittorio Emanuele of Italy for a "personal union" of the two nations.

The assembly, which was convoked to set up a new regime under the Italian military occupation of Albania, adopted a four-point program providing for a new organization of the country. The points were:

1. The former regime of King Zog I, has fallen and its constitution is abrogated.
2. The new government is to be named by the assembly.
3. Albania and Italy are to be "associated more intimately."
4. The crown is offered to Vittorio Emanuele for his majesty and for his loyal descendants.

Thus the appearance of outright annexation of Albania by Italy was avoided, leaving the little kingdom some vestige of independence.

However, the transfer of the crown from Zog to the Italian king-empire and acknowledgment of "a personal union" brought Albania effectively under the fascist rule of Premier Mussolini.

If an Italian troops occupied points at Albania's Yugoslav and Greek borders.

"The assembly declares that all Albanians, remembering and grateful for the constructive work by Il Duce and by fascist Italy for the development and prosperity of Albania, decides to associate more intimately the life and destiny of Albania with the life and destiny of Italy."

A detachment of Italian troops in trucks reached the Yugoslav frontier at Koplik, north of the Albania Adriatic port, Scutari, as the Italian foreign minister, Count Galeazzo Ciano, arrived by airplane to represent Premier Mussolini at the assembly.

'Appeasement' Is Britain's Aim For Mediterranean

'OUR SEA' DOTTED WITH PLANES, GUNS, SHIPS

Italy had a force of more than a million men along the Mediterranean, some in Spain, others in the Dodecanese Islands. Britain, up until now, had bottled up the sea by control of Malta and Gibraltar, with France utilizing this control to build an empire in North Africa. Italy threatens this arrangement by control of Dodecanese archipelago, Rhodes and Libya.

FD'S WAR STATEMENT CALLED 'IMPERTINENCE' BY GERMANS

BERLIN, April 12 (AP)—Propaganda Minister Paul Joseph Goebbels' newspaper Der Angriff today characterized as "impertinence" President Roosevelt's "I'll be back in the fall if we don't have a war," farewell to friends in Warm Springs, Ga., Sunday.

The newspaper said the president's remark was "coarse barking up the wrong tree and impertinence."

The newspaper published statements attributed to the president with banner lines and used the whole front page, with the exception of the short daily editorial, for five news stories from the United States, three of them concerning Roosevelt.

Advocate Road In Family In Oil Fields Found Slain

Big Spring, Chalk and Overton men—some 150 of them—applauded entertainment features, talked about good roads and oil problems as the third of a series of good will meetings was held in the Forsan auditorium Tuesday evening.

It was announced that a second meeting would be held at Forsan in October with men of the Forsan community as honor guests.

Ben LeFevre sounded a keynote for road discussions in pointing out the need of an improved loop through the Chalk, Snyder and East Howard pools. R. M. Brown, Bob Schermerhorn, who formerly resided in the oil field area and who is a past president of the local chamber of commerce, endorsed the idea and Ted Groebel, vice-president of the chamber, added a note for cooperation.

Sam Goldman, alluding to the drastic allowable cut of two weeks ago and the subsequent restoration of part of the production, said that "I think that the proration trouble is over for awhile, but we might look for a cut sooner or later." He added that "we unfortunately seem to be in West Texas in regards to our operations." Harold Bottomley

HEARING ON WEST'S APPOINTMENT TO BE SCHEDULED

AUSTIN, April 12 (AP)—Senate committee on governor's nominations probably will meet tomorrow to set a hearing on Gov. W. Lee O'Daniel's appointment of J. M. West, Sr., of Houston as chairman-member of the state highway commission.

Senator Allan Shivers of Port Arthur, chairman, said today West had communicated with him, informing him he could appear at the committee's convenience.

West is the governor's third selection for the post. The chief executive first chose Carr P. Collins of Dallas when the senate rejected. His second nominee, N. J. Hunter of Abilene, asked that his name be withdrawn because of opposition of East Texas senators who contended a man from their section should get the appointment.

LAST TRIBUTE PAID J. HAMILTON LEWIS

WASHINGTON, April 12 (AP)—The senate paid final tribute today to courtly James Hamilton Lewis of Illinois, its democratic whip, who died Sunday of a heart attack.

With President Roosevelt and other top ranking dignitaries of the government invited to attend, attendants arranged to seat 600 persons on the senate chamber's floor level.

A guard of honor of two senate policemen stood stiffly at attention before the flower decked bier as the hour neared for beginning of the state funeral services, first to be held in the senate since the death of Democratic Leader Joseph Robinson of Arkansas, in July, 1937.

VILLAGES IN EGYPT ARE DESTROYED

CAIRO, April 12 (AP)—Fire, fanned by a gale, was reported today to have destroyed three villages in lower Egypt, killing 21 persons and injuring 63.

The fire started yesterday from a spark blown from an open oven onto the thatched roof of a native dwelling.

Mobilization Of Armies Is Continued

'Loophole Guaranteed' Being Drafted For Greece And Turkey

LONDON, April 12 (AP)—British foreign office experts reported by reliable sources today to have drafted a British "loophole guarantee" on the integrity of Greece and Turkey.

Forces Mobilized

The pledge was drafted as Prime Minister Chamberlain prepared to apply "appeasement oil" to troubled Mediterranean affairs at the south end of the Rome-Berlin axis, and as the calling of additional troops by France, Italy and half a dozen smaller countries brought Europe's armed forces to a post-war level peak.

The new guarantee, which Chamberlain was expected to read in an extraordinary session of commonsense tomorrow, was reported to state in broad terms that any act of aggression in the eastern Mediterranean, and particularly against Greece and Turkey, would be considered by Britain as an "unfriendly act."

The Turkish ambassador, Tevfik Ruusu Aras, called at the British foreign office this morning and was reported to have advised his government was ready to accept any guarantee England was willing to give.

At a meeting this afternoon the cabinet's foreign affairs committee will decide whether the guarantee will be directly to Greece and Turkey, or will be a statement.

The cabinet must pass on the final draft at a special session tomorrow morning.

It was understood, though not officially confirmed, that the Greeks also had expressed willingness to accept a British guarantee.

Some diplomatic circles believed all countries bordering the Mediterranean would be partially covered by a statement that Britain "cannot remain indifferent" to any attempt to change the status quo there.

Chamberlain was expected to condemn Italy's invasion of Albania, but it appeared definite that the Anglo-Italian friendship pact of last year would not be denounced.

AUTHOR FAMED AS S. S. VAN DINE DIES

NEW YORK, April 12 (AP)—Willard Huntington Wright, 51, who became famous as "S. S. Van Dine," author of numerous detective novels, died here last night.

Wright, native of Charlottesville, Va., turned to detective fiction after a nervous breakdown. Prior to that he had earned a kind of esoteric fame as a writer of the German philosopher, Nietzsche, and on modern painting.

He was educated at St. Vincent's College, California, at Pomona College in the same state, and at Harvard. From 1907 to 1913 he was literary editor of the Los Angeles Times.

Roses and verbenas decorated the rooms and serving provided diversion. Plate favors were miniature fruit skillets filled with peaches and candy corn. Guests were Mrs. J. A. Pruitt, Mrs. W. S. Satterwhite, Mrs. B. C. Barron, and Mrs. Ralph Toler. Members present were Mrs. A. M. McCleod, Mrs. Garner McAdams, Mrs. R. L. Pritchett, Mrs. H. V. Crocker, Mrs. Webb, Mrs. M. S. Beale, Mrs. John Davis, and Mrs. Glen Hancock.

One Who Has Never Seen A Rodeo Is In A Hurry For June To Come

Every time I see a poster or a license plate with the picture of a cowboy and notice advertising "Rodeo, June 23, 24, 25," I positively curl my toes up in excitement. Poor soul that I am, I have never seen a rodeo and can't hardly wait for June to begin.

I've seen movies, of course, of how it is done and am familiar with the expression "bull-doggin'" but to actually witness a rodeo will be a brand new experience. There are a lot of things in Texas that I thought were just Hollywood's version of the west and an honest-to-goodness rodeo is one of them. Imagine my delight when I found that they really did happen, that Big Spring really was going to have one, and barring a broken leg, I was going to get to see one.

Who's Who In The News

Frigidaire's 'Cold Wall' Principle Called Major Basic Change In Automatic Refrigeration

In these days of modern research, with engineers and chemists working night and day in their efforts to create new products for public consumption which will aid in bringing greater happiness to millions, as well as helping to raise the standard of living, a new product has been developed by the engineers of Frigidaire division of General Motors Sales corporation which may revolutionize the entire electric refrigeration industry. The first basic forward step in the fundamental principle of food preservation by mechanical refrigeration since the first lectrical household refrigerator was placed on the market years ago, has been taken with the introduction of a new refrigerator known as the Cold Wall type. In all electric refrigerators, the fundamental practice was always the same in that a mechanical freezing unit was used as a cooling medium. This freezing unit was always placed in some location at the top of the cabinet inasmuch as cold air falls and warm air rises, creating circulation of air within the food compartment, and thus distributing "cold" throughout the area.

"Two-Story" Type However, refrigeration research engineers found that too much of this circulation, whether in mechanical or non-mechanical refrigerators, caused drying and discoloration of many foods which were directly exposed. The development of this Cold Wall Frigidaire resulted from exhaustive studies and tests made in this field. The Cold Wall Frigidaire is a kind of "two-story" refrigerator, divided in the center by a solid glass tray or partition which constitutes the floor of the upper section and the ceiling of the lower. This divider is known as the "dew-free" seal. There is no connection between the top and bottom sections and there is no circulation of air from one to the other, the glass shelf providing a tight seal on all four sides.

A standard Frigidaire freezing unit is installed in the center of the top section, providing refrigeration means in the conventional type of air circulation. In freezing, dessert freezing and the below-freezing functions of previous refrigerators thus remain available and unchanged. Ample food storage space is provided in this upper section for all types of foods not susceptible to drying or discoloration when placed in solid circulation air; and these, of course, include all foods in containers, bottles or cans, of which a great variety are usually included in the modern domestic "stocks."

Rebekah Lodge No. 284 Plans Initiation

Two New Members Join Lodge At Tuesday Meet Mrs. Clara Zack and Mrs. Chloe Stuteville were two new members present when Rebekah lodge No. 284 met Tuesday at the I. O. O. F. hall. "Old Member Night" will also be held then and each member is to bring a former member. Attending were Mrs. Ella Lloyd, Mrs. Eula Pond, Mrs. Hazel Lamar, Mrs. Della Herring, Mrs. Lena Evans, Mrs. Mabel Glen, Mrs. Ruth Wilson, Mrs. Grace Major, Mrs. Lodie Lykins, Mrs. Dorothy Adams, Mrs. Maggie Richardson, Mrs. Julia Witherson, Mrs. Etha Mae Martin, Mrs. Nova Ballard, Mrs. Dorothy Pike, Mrs. Myrtle Morrow, Mrs. Cosie Rowland, Mrs. Alma Crenshaw and Mrs. Josie McDaniel. Ben Miller, Hollis Lloyd, James Lamar, W. S. Morrow and A. Richardson were also present.

Texas Women Agree With 15 Other States

The Query among women now takes in 2011 cities, including our Dallas. In each city, 100 users were asked: "Were you helped by CARDUI?" Averaging replies of all 20 cities shows 95 of each 100 users helped! Of 100 Dallas users, 88 declared they were benefited. CARDUI stimulates the appetite, aids digestion and assimilation; helps build physical resistance. In this way, it helps many women avoid headache, nervousness, cramp-like pains, and other symptoms of functional dysmenorrhea due to malnutrition. Many users also say that, in larger doses, CARDUI helps allay pain "at the time."—adv.

WARNING!

Don't be fooled. Before you buy any refrigerator, analyze what you are getting for your money... learn how much you are actually paying for what you get. Remember, the true measure of a refrigerator is how well it protects your family's health and purse. Ask yourself: "Is it a 1939 model?" "Will it give me the convenience, performance, economy, and dependability I want?" "How much does it actually cost?" Get all the facts. Compare any refrigerator's value and cost with the new 1939 Frigidaire. Frigidaire gives you many advancements found in no other refrigerator. And, model for model, the actual net cost of a Frigidaire, after trade-in, is frequently less than any other leading make. Investigate Frigidaire's offer now!

France Plans Statement On New Crisis

PARIS, April 12 (AP)—The French government decided suddenly today to make a formal statement to the world of its position in the international tangle as most of France's Mediterranean fleet sped to a secret destination.

The mission of the fleet which slipped out of Toulon naval base last night was not disclosed, but it was believed the warships were operating under a joint French-British command.

The same cabinet meeting which unanimously adopted extraordinary military measures reinforcing the French army and navy approved a frank declaration which Premier Daladier will issue tomorrow. In conference at the war ministry after the cabinet meeting Daladier ruled against broadcasting the statement. The premier declared it would be a very brief communique, defining the French position exactly.

Sources close to the government, however, underscored it as "exceptionally important" and emphasized that it would be made the same day as Prime Minister Chamberlain's statement to the house of commons on British policy.

Aside from adopting decrees "made necessary by the international situation" to reinforce the army and navy, the cabinet devoted most of its session to an explanation of the foreign situation by Foreign Minister Bonnet, particularly as it applied to the declaration Daladier would make.

The foreign minister made arrangements to receive William C. Bullitt, United States ambassador, and Sir Eric Phipps, British ambassador.

YOUTHFUL SUSPECT RETURNED TO FACE MURDER CHARGE

CORPUS CHRISTI, April 12 (AP)—Haskell Woody, 16, charged with murder in the death last October of Henry Franklin, mattress salesman, was brought here today from Baton Rouge, La., by local officers. Woody surrendered Monday night to Baton Rouge police officers. Joe W. Bates, police chief there, said Woody told him he confessed to the murder because his conscience was troubling him. He is held in the city jail pending transfer to the county jail.

To Ask Congress For Uniform Truck Law

DALLAS, April 12 (AP)—The Texas Co-Operative Farmers association, in convention here yesterday, resolved to ask congress for a uniform truck load limit if the Texas legislature does not increase the 7,000-pound load limit. Other resolutions were directed against an export subsidy for cotton and for use of cotton bagging as far as possible, more federal money for pink boll worm eradication and for redemption of the old Bankhead cotton certificates.

FARLEY FAVORED BY NEW YORKERS AS DEMO NOMINEE

ALBANY, N. Y., April 12 (AP)—New York democratic leaders, launching a drive for the state's 47 electoral votes in 1940, veered toward Postmaster General James A. Farley today as their presidential candidate—if President Roosevelt does not run again. The national and state chairman's name was most frequently mentioned among state and county leaders here for last night's \$25-a-plate Jefferson dinner to reduce the state organization's deficit of \$80,000.

SEED INSPECTION SERVICE APPROVED

AUSTIN, April 12 (AP)—Seed inspection service under the department of agriculture is provided under a bill passed yesterday by the senate. The measure which would permit the department to inspect facilities of out-of-state growers offering for sale in Texas registered cotton, sorghum and alfalfa seed, was branded by opponents as likely to jeopardize a movement to wipe out restrictions against free trade among states. Proponents, however, contended the bill would protect Texas farmers against inferior seed. The measure now goes to the house.

Favor Compensation Insurance Measure

AUSTIN, April 12 (AP)—By unanimous vote a house committee last night recommended passage of a bill to set up a state workmen's compensation insurance system. The state treasurer would be custodian of a fund to be administered by the industrial accident board. Every Texas employer with two or more employees would be required to give the board information concerning the number of employees, kind of employment and the aggregate amount of wages to employees.

Employees injured while in performance of duties would receive 65 to 75 per cent of their average weekly wage, provided in no case the weekly payment would be less than \$7 nor more than \$20. Death benefits also are included in the act.

Agricultural economists report the number of milk cows in the United States is on the increase.

OIL ROYALTIES ARE RELEASED AS COURT FIGHT SETTLED

DALLAS, April 12 (AP)—Approximately \$15,000 in oil royalties, held by major companies pending litigation, was released yesterday to the heirs of William McGeorge, Jr., Philadelphia capitalist.

A 17-year dispute over ownership of Texas holdings of the estate was settled in 44th district court here yesterday when title was transferred to Royal McGeorge, recently appointed administrator for the Texas properties, which included 27 producing oil wells in East Texas and real estate in various counties. Legal title to the oil property had been held for the last three years by George H. Boynes, janitor for a Philadelphia, Pa., trust company.

The Sports Parade

By HANK HART

Bert Boyd, a local business man, told us recently of the events that led up to Big Spring gaining a franchise in the old West Texas league in 1929. The club originally was in Hamlin and thriving. Hamlin fandom, said Bert, backed the team amazingly well and financially the organization was doing all right but the elements took a hand suddenly and tragically when early in the season for no less than 25 straight days violent sand storms made play impossible, stripped the club's cupboard bare.

The organization was tottering on the brink of financial disaster with players' salaries mounting regularly, expenses playing havoc with the bank book but the townsmen rallied brilliantly to the cause, completed arrangements to move a series of three Hamlin games to Wichita Falls, a very good baseball town which at that time did not boast a professional team. Wichita responded unexpectedly well at all three games, in fact so well that one of the Hamlin leaders took it upon himself to shoulder the responsibilities guarantee the "take", start back the wrong way for Hamlin. They're still waiting for him, says Bert, had to surrender the club to Big Spring when no immediate assistance was available.

Fuzzy Gentry's Texas crew, which will be seen in action here Sunday afternoon against Tony Rego's first edition, is "all there," decidedly. Never let grandmothers tell you they're not some punks.

They play a great game in the Permian Basin loop and for consistency the Oilers top the league. Remember last year the Texonians plastered the all-powerful Halliburton Cementers of Duncan, Okla. the day after that bunch of red shirted crusaders smothered the Furman Continental Oilers in the local plant, 16-5. Halliburton, you know, went on to gain championship honors in the Houston Post tournament.

Custodian of the initial sack for the Oilers will be Big Spring's own Tommy Hutto who enjoyed a highly successful season against Permian Basin league pitching last

Weiland Stated To Hurl Opener Against Bucs

By the Associated Press
CHATTANOOGA, Tenn.—South-paw Bob Weiland appears to be the choice of Manager Ray Hader to pitch the St. Louis Cardinals' opening game against the Pirates at Pittsburgh next Tuesday. If he starts and is successful, Blades figures to continue with lefties Clyde Shoun and Tom Sunkel against the Bucs, then lose in right-hander Len Warneke and Curt Davis against their old team, the Cubs, when the Cards get home.

WALKER, BACK IN STRIDE, STARS AGAINST PIRATES
PARAGOULD, Ark.—Gerald (Gee) Walker, who has been playing poorly for weeks, both on offense and defense, rapidly is hitting his stride in the Chicago White Sox outfield. He got four hits against the Pirates yesterday and appears ready for a good start when the season opens next week.

JOHN LAW ALMOST WINS BATTLE WITH INDIANS
GREENVILLE, Miss.—Although they're jubilant over their new-found hitting punch and hope Bob Foster's hurling will give them another victory over the Giants, Cleveland's Indians still are slightly jittery after a near defeat by John Law at Fort Smith yesterday. A scout who claims they owe him some money for discovering a player threatened to attach the gate receipts and the legal department had to work fast to save the game.

Skirmishing Underway At Four Points In Texas League Today

By WILLIAM T. RIVES
Associated Press Staff
In the old familiar atmosphere of "bigger" and better than ever, the Texas league stirred itself from a winter hibernation and plunged into the 1939 season today with games at Dallas and Shreveport. Fifty-two years is a long time to be around, but the league, revitalized with new owners, players and managers, confidently looked forward to a great year.

Opening the chase were Fort Worth at Dallas and San Antonio at Shreveport in day games. Tonight Beaumont invades Houston and Oklahoma City plays host, in a cutthroat sort of way, to the Tulsa Oilers.

Dallas' hopes of a victorious opener were dimmed slightly by absence of peppery Jimmy Levy, shortstop who suffered a finger injury Sunday. He will be out of the lineup at least ten days.

His place will be taken by Francis (Salty) Parker, obtained by the Rebels—that's their new name—from the Shreveport Sports on a look-see basis.

New Interest
Dallas was bidding for the attendance trophy. Fans have shown vast interest in the club since George Scheppe, the beer baron, became president and principal rigger of the cash drawer for the purpose of buying Grade-A players.

Too, Nap Morris, an old favorite, was back in the managerial post. Morris named Hal Gillette, little right-hander, as his choice to oppose Stanley Corbett, Fort Worth 1938 holdover, in the opening mood duel.

Fort Worth, also sporting a new manager—Catcher Bob Liston—and new but unproven talent, hoped to demonstrate the critics have been wrong in placing the Cats deep in the second division in pre-season forecasting.

Big Ed Linka, former St. Louis Browns hurler showing evidence of regaining his best form, straddles the hill for San Antonio in the Shreveport clash. The Sports depended upon Vallee Hayes, right-hander.

Shreveport, another team with a new manager, Homer Peel, does not have this year, as last, the burden of entering the league with little or no preparation, and consequently hopes to make a brave and effective showing. Last year Shreveport jumped into the breach when Galveston left the loop.

Leo To Start
Beaumont, the champion, wheels out Quinn Lee to do mound chores against Houston, favored to win the pennant, and its Ted Wilks. Beaumont is once more a team of youngsters, including Virgil (Fire) Trucks, organized baseball's strike-out champion, and the fans will be watching to see if Al Vincent, who has turned ugly duckling into prize prospects for the Detroit Tigers, can do it again.

It should be a pitching battle at Tulsa, with Jack Brillheart curving 'em over for Oklahoma City, and either Max Thomas or Verne Olsen, left-handers extraordinary, working for Tulsa.

Angles were plentiful as the scramble started. Dallas had a new manager, a new owner, and new hopes; Houston had Eddie Dyer, Rice Institute product, as manager, and Marion Abell, hometown boy, in the outfield; Beaumont, youngsters bidding for money league tryouts and Fire Trucks seeking to show he can go in fast company; San Antonio, young Johnny Lucadello bidding for the post left by Johnny Berardino, brilliant second-sacker of last year.

Color aplenty and a balanced team—that's the setup for the Texas league this season.

Baylor Depends On Fine Today
WACO, April 12 (AP)—Coach Morley Jennings said he would depend upon Tommy Fins, Baylor hurler, in today's important Southwest conference tilt with the Texas University Longhorns.

Fins pitched the Bears to a double win over the Texas Christian Frogs last Saturday.

The Bears are in second place and a win today would put them within one game of the conference-leading Longhorns.

CHESAPEAKE IS REAL TEST FOR DERBY HOPEFULS
BALTIMORE, Mr., April 12 (AP)—The 20th running of the Chesapeake stakes at Havre De Grace April 22 looks like one of the big three-year-old races of the spring.

The list of 34 nominees includes a great many of the outstanding Kentucky Derby and Freshman candidates, among them: Gladia, Challender, Fort's Mito, Eight Thirty, Voltant, Day Off, Roll and Toes, Impound and Dell.

The Chesapeake, a mile and one sixteenth race for a \$15,000 purse, always has been regarded as a real test for the derby.

He Couldn't Be Backing Mack's Team To Win
CHICAGO, April 12 (AP)—The last American league holdout—President William Harridge—refuses to come to terms.

Pressure is being brought to bear. Within his own office members of his staff are dropping shy, persuasive bids which they hope will convince Mr. Harridge of the error of his way.

But the resolute Mr. Harridge won't concede the pennant to the New York Yankees.

"Look at those," he chuckled today, pointing to a sheaf of newspaper clippings which Henry P. Edwards (the league's publicist) had just slipped noisily on the desk and then, with an I-told-you-so glance, stalked out of the door. "Every writer, every fan seems to agree the Yankees will have a walk-away. But I'm not going to agree with them—just yet."

Harridge brought himself up sharply. Could it be that he was whistling in the dark? Could it be that he was convincing himself anew with the same arguments which led him to believe the Yankees would not win the pennant in 1936, 1937 and 1938?

"Everyone is telling me what a great race they're going to have in the National League," continued President Harridge, this time on a new track. "Our race is going to be good, too. Of course it might not be as close. You see (he winked and grinned) any league with no outstanding team is certain to have a close race."

Rego Troubled With Mound Weaknesses

Leaf's Now Have Backs To Wall
TORONTO, April 12 (AP)—It's the Toronto Maple Leafs who have their backs against the wall now in

hockey's final playoff series for the Stanley cup and the championship of the hockey world.

They came home two days ago after an even break on Boston ice and figured to triumph on their home rink. But last night the Boston Bruins skated to a decisive 3-1 victory in the third game of the series.

The teams meet again here tomorrow night, but even if the Leafs win, they'll only be even again and two of the three games scheduled after that will be played at Boston.

Hurlers Have Worked But Very Little
Swartz And Hobson May Be Used In Texon Games

Finding a pitcher capable of working against the big bats of the Texon Oilers this weekend is the major worry of Tony Rego as he sends his big squad of baseball recruits through their training paces at Baron park daily.

The Oilers have been in training only three days and the little manager well knows that none of the flingers, save Dixie Swartz, has been around long enough to bear down. And he can fear the Texon Oilers who have been working for the past three weeks, who only two weeks ago handed a merciless beating to Jimmy Kerr's Midland crew.

Rego could feel decidedly better if his two star right handers, Johnny Soden and Willard Ramsdell, would get into town. Soden was due in Thursday but Ramsdell has not been heard from.

Swartz will probably draw the starting assignment against the Oilers in the Saturday fracas at Texon. Just who will work when the two teams return here Sunday Tony hasn't figured out yet. George Holter, the giant brother of Richard, a well advanced and the job may go to him. Frank Jacot and Clarence Trantham are sure to see some action. Rego is expecting plenty of A. J. Walker, a left hander.

The season's second serious casualty resulted in field practice at the park Tuesday when Jack Cons, a Fort Worth boy who is competing with Richard Baughman for the first basing post, turned his ankle in stepping on the bag. Monday Ford Green had suffered a bad ankle bruise when he turned his foot on a rock in going after a foul ball.

SECOND ANNUAL FORSAN GOLF TOURNAMENT SET APRIL 23

Cactus League Opens Tomorrow
By the Associated Press

Arizona-Texas league clubs wind up their training activities today and swing into the 1939 campaign tomorrow with Albuquerque invading Tucson and Bisbee entertaining the El Paso Texans.

Manager Bill Delaney of the Cardinals and Skipper Carl Dittmar of the Bees both have expressed enthusiasm over the strength of their pitching staff. Bill Salkeid, Tucson manager, has kept silent over his team's chances as he whips a band of rookies into a team which he hopes will be a pennant threat. Little information has come from El Paso regarding the Texon's chances.

Predictions of a successful season have come from R. E. Souers, Bisbee, circuit president. He pointed to installation of lights at Tucson for night games, new managers at Bisbee, Tucson and El Paso, and the new rule governing distribution of gate receipts with road teams as indicating the campaign would be successful.

Rainey Beaten By Morgan In 1938 Finals
FORSAN, April 12—The second annual Forsan invitational golf tournament will be staged here Sunday, April 23, Manager L. B. Barber recently announced.

Jake Morgan, Big Spring, sacked up the championship laurels in the 1938 inaugural show over the 3,288-yard nine-hole course, defeating Guy Rainey, Forsan, in the finals.

The entry field is expected to better that a year ago when 27 entered into competition.

Flights will consist of eight players each with half the entrants falling into the consolation round at the end of nine holes of play, the second nine serving as an elimination round and the third nine deciding the champions of all flights.

This year's play differs from last in that the championship round will consist of 18 holes of match play.

Entry fee has been established at \$1. Qualifying round may be played over any nine-hole 36-par course. As was the custom last year meals will be served for the players near the course. Appropriate prizes will be offered winners and runners-up of all flights.

Entries may be mailed to Barber, P. O. box 688, Forsan. Committee in charge is composed of Guy Rainey, George Johnson and Barber.

S'western Meet Gets Underway
EL CENTRO, Calif., April 12 (AP) A field of outstanding golfers of four states, headed by Ralph Petty, Carrizozo, N. M., defending champion, teed off here today in quest of the qualifying medal in the 25th annual Southwestern tournament.

The top 22 qualifiers will win places in the championship flight and start match play tomorrow.

Petty, the little-headed performer who scored an upset in winning the title a year ago, has been installed as one of the favorites because of his almost faultless play in practice rounds.

The defending titleholder toured the tricky Barbara Worth Country club course for a 69, two under par, yesterday.

Golfers are competing from Arizona, New Mexico, California and West Texas.

Meet Draws To Close
CHICAGO, April 12 (AP)—The world's three cushion billiard championship tournament, the winner already decided, ends Friday after three months of competition among 10 of the country's ranking stars.

Joe Chamaco, the Mexican ace, clinched first place last week.

Dad's never the "Old Man" to him

Why should he be? What is there about this father that is old? His face may be lined, yes—with the crinkles of good humor. His eyes have seen much, but they're merry—mirrors of a youthful heart. How did he get that way? He didn't! He stayed that way . . . youthful and unafraid . . . unskilled in the aimless art of worrying. He remembered that nothing worth while is given away—excepting Time—and Opportunity of which every American has an abundant share. At all costs, he kept the spirit of youth—Confidence, Courage, Vision, Action. It worked for him. It kept him young. It made America.

More than an oil-change

Drain Refill and OIL-PLATE

It's more than the Old Spring Tale about draining murky Winter "leavings" out of the crankcase and refilling with Conoco Germ Processed oil...

Jumping way ahead in the story—weeks later—your engine's gauge-stick is saying happily, "Still no need of adding to your Germ Processed oil"...

Who'd skip any part of a story like that? Here's the gist of it: The minute your car rolled out of Your Mileage Merchant's station, the rare patented substance in Germ Processed oil caused engine parts to attract a rich coat of OIL-PLATING.... Just try and get it off!

Ha, even the old grindstone would have a job removing OIL-PLATING. So it certainly won't drain down, no matter how long your car is parked. Never absent—always ready to lubricate in advance of the fastest oil-circulation—OIL-PLATING plainly ends "dry starting."

That ends Engine Enemy No. 1. And that's one big reason your engine lives happy and snappy ever after you get it OIL-PLATED... the oil-change plus!

You're doubly happy with all your plus mileage from Conoco Germ Processed oil. Change today... to Your Mileage Merchant. Continental Oil Co.

ations on the infield have apparently gone for naught. The diamond, according to the boys, is in worse shape than it was last year. Directors will attempt to remedy the faults by putting a heavy roller to work. The roller should serve to eliminate all rough spots by pushing the pebbles back into the dirt.

Despite the questionable surface Rego managed a good look at his "varally" infield, seemed impressed with the work of Billy Capps, Richard Hobson and Bobby Decker at third, short and second, respectively. Homer Wynn is competing at the keystone with Decker but the little New Yorker dedicated the base tossed playing one of his better field games. He was scooping up everything in sight and tossing with amazing accuracy.

Capps' competition at third is Joe Raparito, a reformed outfielder who cannot approach Capps in tossing across the infield. Joe may come around although he has played in the gardens most of his two years in professional baseball.

Hobson has no rival. He gave a four-star performance his first time out and the major competition faded. He is throwing with all the old time vigor. His ability to cut loose at the "rall-birds" to chinning favorably.

The manager may be depending on a force of gardeners who hit 'em from the south side of the diah. Thus far George Quigley, Chick Greer and Pat Stacey are showing to major advantage. Roy Allen, the Fort Worth sandlot recruit, is improving. Elias Gamboa, an orthodox hitter, may prove to be the best fielder of the entire group.

Rego was scheduled to send the entire squad through a long batting drill today, at the same time "bull-penning" his hurlers for an extended examination.

Help may yet come from a club of higher classification. Rego was inclined to feel optimistic in his dealings with Pie Traynor and the Pittsburgh Pirates, indicated a deal may be worked out within the immediate future.

SPORTS ROUNDUP

NEW YORK, April 12 (AP)—Scoop parade: Pittsburgh hears Jock Sutherland has turned over his little black book of football prospects to Wallace Wade of Duke. Take a long distance tip and don't bet too much Henry Armstrong will pit Lou Ambers' ears back next August. Marshall Goldberg is talking terms with both the National League Chicago Cardinals and the New York Yankees of the American pro loop.

One New York writer was so astounded when the Dodgers got Baron Cletus Pufenberg, he could only gasp: "Cletus pray."

They say the Phils are so terrible they won't even burn up the National League cellar. Mr. Tom Yawkey dropped into a night spot here and was quoted: "We expect Lefty Grove to get 20 games."

Today's guest star. Stah Henhon, Newport News (Va.) Times-Herald: "Galento should be easier for Louis than Roper because Tony will carry three chins into the ring for Joe to shoot at."

Larry MacPhail officially confirms yams the Dodgers offered the Cards \$300,000 for Joe Medwick and \$60,000 for Don Padgett. Suppose you've noted the entry lists in the girls' golf tourneys have thinned considerably since the U. S. G. A.'s "No Favors Allowed."

Today's luff. Mike Jacobs on the coast: "All that's worrying me about this fight (Louis vs. Roper) is these reports that Louis isn't looking so good in training."

For a guy who is supposed to be down in the dumps, Lou Gehrig taken as the Yanks head home. Four members of the Norwalk (Conn.) High football team which went like a house afire last year are on the ineligible list for passing the 20-year age limit.

Larceny dept. Max Beer's theme song: "I Got It De It for the Kid," has been swiped in order by (a) Tony Galento (b) Lou Nova and (c) Jake Wade II of the Boston Red Sox.

Hyman Appleman Speaking At First Baptist Church Tonight, 8 o'Clock YOU ARE INVITED!

Says Glenn To Be Beaten By Wooderson

By GAYLE TALBOT NEW YORK, April 12 (AP)—It will be a great surprise to me if Sidney Wooderson, the scatter-footed little Englishman, does not run the legs off Glenn Cunningham, our top miler, in their long-awaited race at Princeton on June 17.

It has been my unimportant opinion for about four years that the frail-looking Londoner was the greatest miler in the world, capable of beating either Cunningham or Jack Lovelock, the great New Zealander, any time he met them in a special race.

I still think he would have won

the 1900-meter in the 1926 Olympics at Berlin had it not been for an injured ankle, even though Lovelock raced to a record in that event.

Wooderson came up the hard way, and I happened to be there to watch it happen. Lovelock already was famous when Wooderson, running for an obscure club team around London, first challenged the great Oxford sprinter.

The crowd at White City that day scarcely could credit its eyes when Wooderson, the unknown, came up in the stretch to pass Lovelock. "Why, Wooderson wasn't even a 'public school boy.'"

So they passed that one off as an accident. The mishap might soon have been forgotten, except that the next time they met on the same track Wooderson lit out and did it again.

Lovelock nor any other runner has since beaten Wooderson when he had the full use of his thin legs. The records he has since set offer substantial proof of those victories

over Lovelock when strictly on the level, little credit as he received for them even in England.

In the days preceding the Berlin Olympics I frantically saw the London papers chattered about Lovelock after he had finished a training run, but never saw them approach Wooderson. Later it came as a surprise to most of them to learn Wooderson had run in the 1900 meters with a bad ankle.

I guess maybe Wooderson remembers all this, the way he has defied the British amateur track body and insisted upon coming over to meet Cunningham in the Princeton invitation mile. They are several years late in making a race over him.

ROPER EXPECTS TO WEIGH 197 AT FIGHT TIME

LOS ANGELES, April 12 (AP)—Heavyweight champion Joe Louis having decided to take the day off to rest, dignitaries of the fight game adjourned today for a visit to challenger Jack Roper's training camp 25 miles north of Los Angeles.

Headed by Mike Jacobs and Tom Gallery, co-promoters of the Louisville Roper championship engagement in Los Angeles Monday night, scores of interested parties, including members of the California Athletic commission, experts, relatives and what not, journeyed into the sun baked hill country near Ojai for a peep at the 26-year-old aspirant to the heavyweight crown.

Jacobs, newly arrived from his New York headquarters, watched Louis work out yesterday and came

away none too impressed with the Detroit negro's condition. Fears Roper might be over-trained were scouted by the challenger himself, who declared he felt "better than I ever did in my life." Roper weighs around 200 pounds, and expected to go into the ring at about 197.

Prep For Dallas

DALLAS, April 12 (AP)—More than 20 amateur boxers prepared today for first-round matches tonight in the Southwestern AAU tournament.

Among last-minute entries was Alex Parrish of Abilene, state Golden Gloves featherweight champion. Participants include fighters who survived district competition at Dallas, Amarillo, Midland, Colorado City, Abilene, San Angelo, Wichita Falls, Waco and Tyler.

At least two of the winners at the regional meet here will go to the National AAU junior tournament in Philadelphia April 15-19-20.

Don Meade Is Reinstated

NEW YORK, April 12 (AP)—Because he has convinced the Jockey Club stewards his good intentions won't be used as paving blocks, and possibly because of his influential friends, Don Meade will ride again in New York.

Suspended in Florida some three years ago on a charge of betting on horses other than those he rode, in races in which he had a mount, Meade was reinstated there last winter. He booted his way back to become the nation's leading jockey at the Hialeah meeting, although young Johnny Ocas had passed him in the victory totals since then.

Yesterday he was granted a license to ride in New York and will return to the saddle on Mrs.

W. Plunket Stewart's Early Delivery in the Pomona Handicap when the metropolitan season opens at Jamaica Saturday.

THE AMERICAN SYSTEM

Theme for the convention of East Texas chamber of commerce at Beaumont will be "Private Enterprise Built This Country." Secretary of Commerce Harry Hopkins said at Des Moines, "Preservation of the American system of free enterprise... is imperative."

Harrison says: "This principle has guided and inspired business men and farmers, individually and in organizations, since America was founded. The same principle must guide us to greater heights of achievement in agriculture, industry, commerce, education and in all lines which make life more wholesome and more prosperous."

Counting Chicks Before They Hatch Is One Way Of Boosting Egg Output, U. S. Proves

Some very strange things are happening on the modern farm front—and some things that are just plain interesting. This is the first of six weekly stories keeping you in touch with the agricultural revolution.

WASHINGTON—Your grandpa may have thought he could tell how good a hen Hanna was by the number of eggs she laid.

On this experimental flock they expect to raise average production to 200 eggs a hen, possibly by the end of this year. That's twice the estimated average for U. S. farm flocks.

They started late in 1933 with 38 Light Sussex hens (a breed with white bodies and black neck and tail feathers) and three roosters introduced from England and Canada.

Results began to show on the second year's returns. Egg production increased from 129.3 average in 1934 to 135.3 in 1935. The scientists repeated the procedure, each year saving the best parents.

By JACK THOMPSON AP Feature Service Writer

Here's a battery of trap nests. The dark rectangle in front of the hen is an open door. When she enters, the door shuts, like the one at her right. She can't get out until the attendant (left) opens the trap, takes her egg and numbers it.

What's more, the eggs are above standard weight. They average 24.4 ounces a dozen compared with the standard 24 ounces.

REBIRTH AT EASTER

The two general staffs consulted in Innsbruck, and immediately action followed. Mussolini chose Good Friday, the day commemorating the crucifixion of Christ, to bomb defenseless towns and machines guns to smash the people.

There is an unconscious symbolism in all this. Or is it unconscious? Christianity is being done to death in this world. All that has flowed from Christianity in the centuries is being done to death: chivalry; respect for human rights; reverence for the human soul; democracy; which is the result of this concept; freedom, which is part of this concept; law; truth; education; civilization; honor.

Britain knows it at last. And France, quickly, quickly they move to build up a system for mutual protection. It is very late. Did you think Poland would be attacked? Not this week. Not so far. Poland is dangerous since the new treaty with Britain. Rumania is still questionable. But there are gaps in the non-aggression front.

Chapter 64 THE LAST BILLINGS "He could have changed 'em," Hamilton voiced Assey's own thoughts.

Assey sat down in a chintz-covered arm chair. "Do, this is sort of mixed up in my mind. Just what happened here?"

"Ask Win," Cummings said. "Maybe he'll talk for us. He won't for us. You'd think he'd taken a vow, or something. Not a peep out of him."

Assey looked over at Win. "Lane," he said, "you can't do clear out for a few minutes, will you? Maybe I can settle this."

"I don't trust him," Lane said. "I'm going to stay. He's playing possum. He's not anywhere near as weakly as he looks. And he's sober."

"But along," Assey said, "I tried to," J. Arthur said, "but well, I was afraid. I've never liked fire when there you were poking me in the stomach with that gun!"

"Who said anything about Brinley? Come into the house and take a look," he mechanically, as though he had been wound up with a key. Assey followed Lane into the living room of the Randall house.

On the couch lay the haggard figure of a man; he was muggy and dirty, and his clothes were torn and his hair in wild disorder.

"I don't trust him," Lane said. "I'm going to stay. He's playing possum. He's not anywhere near as weakly as he looks. And he's sober."

Court Holds

(Continued from Page 1)

Litigation started shortly thereafter.

A jury in district court here decided the 25-cent rate was unjust and unreasonable, and the state appeared to the Austin civil appeals tribunal. The appellate court held for the state and the state supreme court refused to set the opinion aside.

The Lone Star sells to distributing companies in Dallas, Fort Worth, Waco, Sherman, Denison, Denton, Wichita Falls, Abilene, Sweetwater, Temple, Bryson, Georgetown and many other widely scattered Texas cities. Railroad commission officials estimated reduction of the rate rate would mean a saving of around \$1,490,000 per year to 200,000 gas consuming families in these cities. The higher rate has been in effect pending termination of the litigation.

The chief point at issue in the controversy has been the value of the Lone Star's properties. The commission decided it was \$46,246,818 whereas the company had contended it exceeded \$70,000,000. The opinion said evidence showed the company had earned an average rate of return of 6.92 to 8.68 per cent on its investment over a seven-year period and that the commission had found an annual return of 6 per cent to be fair and reasonable.

"We are clear in the view," it said, "that the rate order is based upon substantial evidence, and that the gas company did not produce clear and satisfactory evidence that it was not based on substantial evidence, or that it would not afford a reasonable rate of return on the fair value of the properties used or useful in the public service."

The civil appeals court interpreted the United States supreme court judgment as requiring that any holding of the former in the case be based on consideration of all the evidence.

It said the supreme court had reversed the case on grounds the appellate court had held the company had not sustained its burden intrastate properties.

The new judgment of the court of civil appeals was made, therefore, after considering the "overall evidence."

Dinner

(Continued from Page 1)

ended the chamber's action in seeking to restore part of the lost dues.

Jess Slaughter, in the shortest address of the evening, boosted the rodeo with the invitation to "come up on June 23-24-25." Otis, who spoke briefly included Bob Schermerhorn, Burke Summerville, Mrs. R. E. Blount, Matt Lawrence, Dan Hudson, Joe Schick, Edith Gray and J. H. Greene, chamber manager, who pointed out that the purpose of the meetings was to promote fellowship and better understanding.

Cliff Wiley served as master of ceremonies for the affair and Mrs. Carl Phillips, home demonstration council head and until recently president of the Overton club, extended the welcome. J. H. Collins, president of the clubs of Chalk and Overton served plates piled high with good food.

Entertainment, which proved highly popular with the men, was furnished by the West Texans Trio composed of Mrs. Alma Blount, Mrs. Willard Read and Ruby Bell, and the Sunny Side quart made up of Vernon Payne, Woody Casey, Ray Nance and Timsan Bryant. Miss Jeanette Barnett accompanied the West Texans.

Mrs. H. R. Houser underwent a sinus operation Wednesday morning at the Hall and Bennett clinic. Her condition was reported as satisfactory.

Advertising Values Discussed Before Luncheon Club
Dual benefits of a well organized and intelligent program of advertising of all types were cited to the Lions club Wednesday noon by Martin T. Garrison and Whitney Anderson, members of the Texas university extension staff, who are offering a course for employes and employers in Big Spring.

Anderson, explaining that the object of the course was to assist businessmen and their workers in developing and improving display methods, show card writing and advertising, said that it made the employe more qualified and thus benefited the employer. Garrison laid stress on the importance of advertising—well planned advertising whether it be show cards or newspaper inserts.

Cecil C. Collins was presented with his Lions key for membership enrollment by Dr. P. W. Malone. Rev. J. O. Haynes and E. F. Blintz were introduced as guests.

The name of Dr. J. E. Hogan was entered as a presidential nominee for the club's April 26 annual election. Attendance honors for the day went to the group headed by Lawrence Robinson.

AVIATION GROUP TO MEET THURSDAY
Aviation committee of the chamber of commerce will hold a breakfast meeting at the Crawford hotel at 7:30 a. m. Thursday. On the committee are Dr. P. W. Malone, Al Groehl, R. V. Jones, A. S. Darby, R. F. Schermerhorn, Glenn Golden, Joe Richer, E. V. Spence, Hudson Landers, R. W. Whippley, W. R. Hardy, C. E. Blomfield, and Howard Barrett.

SOLONS BACK STATE HIGHWAY MEASURE
Support of a house measure to require the state to bear the expense of construction of roads through cities when same are used primarily for state highway purposes have been pledged by Sen. G. H. Nelson and Rep. Dorsey B. Harleman, who represent this area.

Nelson, in a letter to the city, went on record in favor of the bill as did Harleman, who added that the measure had been placed on the house's uncontented calendar.

TWO RELEASED AFTER INVESTIGATION IN FROME SLAYINGS
EL PASO, April 12 (AP)—Police Chief Edmundo Herrera of Juarez, Mexico, said today two men arrested in Juarez Sunday for questioning in the murder of Mrs. Hazel Frome and her daughter, Nancy, had been released. He said he was satisfied they knew nothing of the slayings of the two Berkeley, Calif. women a year ago in the West Texas desert.

"We believe they knew something of the women's movements in Juarez the day before they were killed, but we were mistaken," he said.

Chief Herrera has been co-operating with Texas rangers and investigators of the Texas Department of Public Safety on the case. Mrs. Frome and her daughter, who were brutally slain in the desert in Culberson county while driving from Berkeley to Paris Island, S. C., had dinner in Juarez, Mexican border city, the night of March 19, 1938. They were killed the next day. Chief Herrera has been trying to learn identity of two men with whom they were seen talking that night.

YOUNG WIFE GIVEN SUSPENDED TERM FOR EXTORTION
ABILENE, April 12 (AP)—Frankie Adams Franklin, 17-year-old wife of a holiday farmer, was given a four-year suspended sentence yesterday by U. S. District Judge T. Whitfield Davidson, who conducted a hearing on charges of extortion lodged against her.

Mrs. Franklin was charged in connection with sending a letter to W. D. Hinson, Weinert high school principal, which demanded \$250 upon threat of injury to his reputation.

The hearing was conducted under provisions of a new federal juvenile law that allows disposition of such cases without indictment.

NEW YORK, April 12 (AP)—The urge to sell stocks in fear of war diminished in Wall Street today and the market climbed briskly for a time.

At the peak of the rally many shares were one to four higher but gains were whittled in late dealings as many traders returned to the selling side on the assumption the comeback was merely a "technical" turn.

Corporate bonds participated in the recovery turn and some commodities which had been sold on the war threat improved also. Most staples held to a narrow zone.

Ira Yates
(Continued from Page 1)

Antonio, succeeding in this, he speculated in horses until 1933 when he married and moved to Tom Green county, then an area larger than any of several states.

He established himself in the ranching business at Crow's Nest, 16 miles northeast of San Angelo, subsequently directing the John R. Navarthy ranch on the Concho river five years and, as partner of Navarthy, remained in the cattle business until 1936, the next year he was successfully butcher, every keeper and contractor, then returned to dealing in horses and mules, trading these animals with northern and eastern dealers for cattle which he brought into the San Angelo region.

In 1939, Yates bought a ranch three miles east of San Angelo, but in 1937 lost the property and went to work for the National Livestock Commission company, but again lost his capital in the 1937 money panic.

Yates said when he traded a store he owned at Rabin for the ranch across the Pecos, "friends were certain 'I was going broke.' They said even 'buffalo knew better than to cross the Pecos—that a crow would not fly over it and that it was not worth taxes.'" "It was tough over there in 1916, '17 and '18, but I fenced it, dug tanks and put up wells and thanked God the Pecos did not dry up through those long parched years."

After the Pecos oil strike was made in 1928, lease buyers came in and Yates began dealing with them. Mid-Kansas Oil and Gas company drilled the discovery well in the Yates field on a block Charles A. Hill, then in charge of the Transcontinental Oil company, and O. H. Kilpatrick, his assistant, leased from Mr. and Mrs. Yates two days before Christmas, 1923.

The discovery well was a rank wildcat. It showed oil at 975 feet and gas at 955 feet. The hole filled with oil. Two feet more brought a flow, initial yield was 95 barrels and hour at 1,500 feet in sand and lime and later increased to 2,100 barrels hourly when deepened to 1,150 feet. The well has produced more than 2,000,000 barrels and still has a high daily potential.

Jan. 26, 1933, Yates married Mrs. Annie Schokey Brooks, native Texas and daughter of the Rev. Aquila Schokey, Methodist minister and ranchman. The couple had eight children. A. F. Yates of Van Horn; Ira G. Yates, Jr., of Jackboro; Louis and John Yates of San Antonio and Mack H. Yates of San Saba—all ranchmen; Mrs. Beale Yates Hudson of San Antonio; Mrs. Tom Rhodes of San Saba and Mrs. Ann Yates Cornelius of El Paso. Mrs. Yates died May 15, 1936.

The note hailed a "new period of cordiality" in Italian-Greek relations, even as foreign diplomats expressed concern over the Italian purpose in getting Italy on a virtual wartime basis.

Competent foreign observers put at 1,200,000 the likely total of men under arms, the greatest number since the World War.

The Greek minister, Pietro Metaxas, called at Chigi palace with a note replying to the Italian communication delivered in Athens Monday by the Italian charge d'affaires.

The Greek note, in the aftermath of the Italian conquest of Albania on Greece's northwest frontier, expressed confidence that the "traditional friendship" of Greece and Italy would continue.

TORRIO ASSESSED 2 1-2 YEAR TERM
NEW YORK, April 12 (AP)—John Torrio, former notorious Chicago underworld leader, was sentenced today to serve two and a half years in federal prison for income tax evasion. Judge John W. Clancy first sentenced Torrio to three years but reduced it by six months at the request of the U. S. attorney.

Torrio pleaded guilty Monday to an indictment charging he evaded payment of \$86,000 in income taxes.

Before Torrio, a former crony of Al Capone in the early and profitable days of prohibition, was sentenced, his counsel, Max D. Steuer made a 45-minute plea for leniency.

ELECTRIFICATION MEETING SLATED

A meeting of persons interested in a rural electrification administration unit for the Knott area had been called for 8 p. m. in the Garner school Wednesday.

Report of a committee which last week visited a R.E.A. project in McCullough county will be heard at the meeting.

12:00; 100 lbs. paid for weighty Indian fat bullocks; best meat 13.75; seven loads steers sold at 11.50-12.25; best heifers 10.50; weighty sausage bulks up to 1.55; vealers, mostly 10.25 down.

Antonio, succeeding in this, he speculated in horses until 1933 when he married and moved to Tom Green county, then an area larger than any of several states.

He established himself in the ranching business at Crow's Nest, 16 miles northeast of San Angelo, subsequently directing the John R. Navarthy ranch on the Concho river five years and, as partner of Navarthy, remained in the cattle business until 1936, the next year he was successfully butcher, every keeper and contractor, then returned to dealing in horses and mules, trading these animals with northern and eastern dealers for cattle which he brought into the San Angelo region.

In 1939, Yates bought a ranch three miles east of San Angelo, but in 1937 lost the property and went to work for the National Livestock Commission company, but again lost his capital in the 1937 money panic.

Yates said when he traded a store he owned at Rabin for the ranch across the Pecos, "friends were certain 'I was going broke.' They said even 'buffalo knew better than to cross the Pecos—that a crow would not fly over it and that it was not worth taxes.'" "It was tough over there in 1916, '17 and '18, but I fenced it, dug tanks and put up wells and thanked God the Pecos did not dry up through those long parched years."

After the Pecos oil strike was made in 1928, lease buyers came in and Yates began dealing with them. Mid-Kansas Oil and Gas company drilled the discovery well in the Yates field on a block Charles A. Hill, then in charge of the Transcontinental Oil company, and O. H. Kilpatrick, his assistant, leased from Mr. and Mrs. Yates two days before Christmas, 1923.

The discovery well was a rank wildcat. It showed oil at 975 feet and gas at 955 feet. The hole filled with oil. Two feet more brought a flow, initial yield was 95 barrels and hour at 1,500 feet in sand and lime and later increased to 2,100 barrels hourly when deepened to 1,150 feet. The well has produced more than 2,000,000 barrels and still has a high daily potential.

Jan. 26, 1933, Yates married Mrs. Annie Schokey Brooks, native Texas and daughter of the Rev. Aquila Schokey, Methodist minister and ranchman. The couple had eight children. A. F. Yates of Van Horn; Ira G. Yates, Jr., of Jackboro; Louis and John Yates of San Antonio and Mack H. Yates of San Saba—all ranchmen; Mrs. Beale Yates Hudson of San Antonio; Mrs. Tom Rhodes of San Saba and Mrs. Ann Yates Cornelius of El Paso. Mrs. Yates died May 15, 1936.

The note hailed a "new period of cordiality" in Italian-Greek relations, even as foreign diplomats expressed concern over the Italian purpose in getting Italy on a virtual wartime basis.

Competent foreign observers put at 1,200,000 the likely total of men under arms, the greatest number since the World War.

The Greek minister, Pietro Metaxas, called at Chigi palace with a note replying to the Italian communication delivered in Athens Monday by the Italian charge d'affaires.

The Greek note, in the aftermath of the Italian conquest of Albania on Greece's northwest frontier, expressed confidence that the "traditional friendship" of Greece and Italy would continue.

Pinto, Tex., on a charge of robbing the Graford, Tex., bank last Saturday.

The night before the bank was robbed, Ball and Mrs. Grace Lutka, Oklahoma City, were kidnaped at Oklahoma City and taken to Grady county, where Ball was shot and stabbed and left in a ravine.

Mrs. Lutka identified Stockton in Palo Pinto yesterday as the man who kidnaped her. A murder charge in the kidnap-slitting of Ball has been filed here.

Meanwhile, Under Sheriff J. W. Hite announced he had found two empty revolver shells near the scene of the Ball slaying and would check them with bullets found in Ball's body and in Stockton's gun.

In which all forces would cooperate.

"The idea," said G. P. Griffin, county agent, "is to devise a planned program which will make agriculture more profitable for all concerned. Such a program, he explained, would set up an as to coordinate the efforts of all the various agencies and to arrange the county into units where problems and conditions are similar.

Campus Favorites at Hardin-Simmons

These seven coeds, named by fellow students at Hardin-Simmons University, in Abilene, Tex., as popularity and beauty queens, have places of honor in the beauty section of the thirty-second annual edition of the HSU Bronco, university yearbook published each spring. They are: Jeannell Green, Abilene, university queen; Kathleen Nunnally, Anson, Bronco sweetheart; Doris Surlis, Cisco, summer queen; Jane Gracey, Roscoe, senior favorite; Nell Cox, Abilene, junior favorite; Clarine Marsh, Eastland, sophomore favorite; and Anita Jo Simmons, Haskell, freshman favorite.

LIFE SENTENCE IS UPHOLD BY COURT
AUSTIN, April 12 (AP)—The court of criminal appeals today made final its decision George Jackson of Harrison county must serve a life sentence for conviction of fatally wounding his son, Oscar, and seriously wounding his wife.
It overruled Jackson's motion for rehearing. The conviction was affirmed by the appellate court last March 1.
The state charged Jackson shot his son and wife, March 14, 1938, and then set fire to his house in which his son's body lay.
"We have gone over the entire record and see no reason to recede from our original decision," the opinion said.

MODERATOR OF PRESBYTERY NAMED
MINERAL WELLS, April 12 (AP)—The Rev. Gus J. Craven, assistant pastor of the First Presbyterian church of Fort Worth, was elected moderator of the Fort Worth Presbytery here yesterday.
Clifford Williams, of Fort Worth, senior in the Austin seminary, who was examined today for the ministry, has been called to the Presbyterian church at Haskell, it was announced.

Baptist Revival Gains Interest
The First Baptist revival is gaining interest, enthusiasm and crowds. The evangelist, Hyman Appelman, arrived from Jacksonville, Fla., last night, with the report that 346 people had united with the Main Street Baptist church of that city in the two weeks revival. The gospel singer, "Texas" Carroll opened the service with an inspiring song service. Appelman, who is one of the state evangelists of the Texas Baptist convention, preached on "The God That Answers by Fire."
In his sermon, he pointed out that all over our country God has been dethroned, Christ denied, America depressed, souls destroyed. The only remedy for the situation was a visitation from God, an answer by fire. Pointing to the promises of God, the evangelist showed how God has answered fire before and how he stands ready to answer by fire now. Passionately he pleaded with the people to give themselves to earnest prayer, to sacrificial endeavor to bring Big Spring as a gift to Christ.
Tonight the sermon subject is

LAND DECOVERY JUDGEMENT UPHELD
AUSTIN, April 12 (AP)—The supreme court today approved a judgment by which Mrs. Fannie V. W. Heard recovered strips of land claimed by the town of Refugio. Mrs. Heard instituted the suit to try the title and remove a cloud from several strips which she alleged had been projected by the town as projected streets on farming land.
The trial court awarded her title and the San Antonio court of civil appeals affirmed the judgment.
The supreme court dismissed the case for want of jurisdiction and approved the previous judgments.

Waterways Projects Listed
WASHINGTON, April 12 (AP)—Waterways improvement projects along the Texas-Louisiana coast with a total estimated cost of \$21,000,000 were listed today by Chairman Mansfield, (D-Tex) of the house rivers and harbor committee, in a program he said should be authorized by congress.
From his bed in the Naval hospital here, Mansfield wrote a letter to Representative Parsons (D-Ill) predicting a rivers and harbors bill would be reported out of his committee within the next few days. He listed a large number of projects recommended favorably by the army engineers and likely to be included in the measure.
Projects included in the list were:
Increasing depth and width of Intracoastal canal from New Orleans, La., to Corpus Christi, Texas, \$5,200,000; canalization and other improvements on the Guadalupe river in Texas, \$8,500,000; enlargement of Houston, Texas, ship channel and turning basin, \$3,000,000; and dredging a channel 10 feet in depth and 60 feet wide in Buffalo bayou near Houston behind Brady Island, \$21,000.
All of the projects except that of the Houston ship channel and turning basin proposed improvements have already been submitted by the army engineers to congress with their recommendation for authorization; it has been approved by the board of army engineers but not yet forwarded to the capitol.

HAIRCUT-PRICE BILL GOES TO GOVERNOR
AUSTIN, April 12 (AP)—Senate adopted today a conference committee report sent to the governor a bill permitting barbers to establish minimum prices for haircuts by agreement.
The governor has 10 days in which to approve or veto the measure which permits barbers in cities of more than 1,000 population, by a vote of 85 per cent, to set a minimum price which cannot exceed 40 cents. It could be any price below that level. Barbers in rural areas by the same method could establish a minimum price of not more than 30 cents.

LIBERTY BELL
Cast by Thomas Lister of Whitechapel, London, the Liberty Bell arrived in Philadelphia in August, 1752. It was placed in the State House steeple in June, 1753, where it was first to ring out in celebration of the Declaration of Independence by the Continental Congress, July 4, 1776. It was tolled annually on that date until it was cracked while being rung in memory of Chief Justice Marshall in 1835. Weighing 2,080 pounds, it now hangs in Independence Hall, Philadelphia, immortalizing the birth of our great nation.

No other beer duplicates the Flavor, Body and Quality that make PEARL Famous!

Because of the event it symbolizes in the memory of every American, the Liberty Bell has an eternal value which cannot be duplicated. Because of its richer, more robust flavor and palate-pleasing tang, Texas' Own PEARL Beer has a taste value that can't be matched. Part of Texas hospitality for fifty-three years, it's winning more friends every day. The reason is in the bottle. You'll enjoy it when you say, "Bottle of PEARL, please!"

This brewery is completely air-conditioned and air-refrigerated to insure the purity of PEARL BEER.

Enjoy that "EXTRA SOMETHING" that has made PEARL BEER the "Third Choice" of Texas.
