

Garbage Trucks More Important Than Radar

BALTIMORE, June 22. (AP)—Brig. Gen. James F. S. Devereux declared last night Wake Island's defense was handicapped by American commanders who considered "garbage trucks and the like... more essential than radar."

The slight, wiry figure, who commanded the Marine detachment at Wake at the start of World War II, related the events of the Japanese onslaught publicly for the first time in an address before the Maryland Volunteer Air Force Reserve.

He is a candidate for the Republican nomination to Maryland's second district seat in the house of representatives. It is his first try at politics.

He said his purpose in discussing the Wake campaign was "to point out what happened before," and to warn that "unless we are careful, it might happen again."

Radar assigned to the tiny Wake Island garrison was in Pearl Harbor before the Japanese attacked Dec. 8, 1941 (Wake Island time), he related.

"The only explanation as to why it wasn't sent in spite of the dire need for it that I have been able to determine is the fact that garbage trucks and the like for the Navy station were considered more essential than radar," he said.

He explained his mission on the island was to repel minor raids. His forces were not expected to withstand a full-scale attack.

Wake Island was attacked by the Japanese only a few hours after the Pearl Harbor attack on Dec. 8, 1941 (Wake Island time). The 118 Marine and naval officers and men held out until Dec. 23, 1941.

Devereux was interned throughout the war. After his release, he retired from the service and now lives on a large farm not far from Baltimore.

Potentate Sued By Police Sergeant For Stealing Former Wife's Love

CHICAGO, June 22. (AP)—A Chicago police sergeant has sued a Shrine potentate—now honeymooning and conventioning in Los Angeles—for \$100,000 damages, saying the potentate stole his former wife's love away.

Dr. Emmett L. Wright, 60, stole the former wife's love away. Sgt. Stephen J. Dunne, 45, said in his superior court suit yesterday, by furnishing her "with large sums of money, and apartment, expensive and costly automobiles and clothing..."

In Los Angeles, Dr. Wright said his bride was the former Mrs. Dunne, but called Dunne's suit "ridiculous."

Dr. Wright, potentate of Chic-

ago's Medinah Temple, revealed Monday he had eloped with "Mrs. Salley Kane" while en route to the Shrine convention.

Dunne asserted the woman is his ex-wife, Ada, 39.

Dunne's suit said Ada's divorce from him was obtained fraudulently in Pocatello, Idaho, June 12, and it would be void in Illinois.

Dr. Wright said he hadn't met Mrs. Dunne until 1947, and she and Dunne separated in 1946. "So how could I have any effect on the matter. I gave her nothing except what she earned — an apartment for managing my property and her salary. She was a hard worker and a good girl."

Majority Of Vets Aided By GI Bill

Today is the sixth birthday of the GI Bill, a law passed June 22, 1944 to help World War II veterans get back into the swing of civilian living.

A majority of the nation's 15,300,000 World War II veterans have benefited by one or more of its three major provisions, according to statistics released by the Veterans Administration.

The record includes the following: Some 7,000,000 ex-servicemen and women have attended school or trained on-the-job or on-the-farm under the law's educational provisions, at a cost so far of \$10 million for tuition, supplies and subsistence allowances.

Over \$11-million in GI loans have been obtained by 2,100,000 veterans, including 1,940,000 for homes, 121,000 for businesses and 57,500 for farms and farm equipment. Veterans have proved themselves good loan risks, with only seven-tenths of one percent defaulted to the extent that the VA was required to make good the guaranteed and insured portions. The loan program will remain in effect for seven more years.

Re-adjustment allowances for unemployment and self-employment the third major benefit provided by the bill, ended for most veterans on July 25, 1949, although a few applications continue from those who are still eligible. About 9,000,000 veterans drew re-adjustment allowances during the first six years of the bill. The allowances totaled \$3.8 million.

Statistics show that the average veteran found a job after a month and a half, despite the fact that benefits could extend for 52 weeks in most cases.

Cuban Bus Strike Off At Last Moment

HAVANA, Cuba, June 22. (AP)—Cuban bus operators have called off a nation-wide strike set for today, upon assurance from President Carlos Prío Socarras that he would solve their bitter dispute with taxicab drivers.

The bus operators demand that taxis be banned from picking up fares between cities. The government issued such a decree earlier this year, but never enforced it because of strong protests from the cab drivers.

SOVIET LANGUAGE POLICIES

New Parade Of Confessions Can Be Expected As Stalin Lays Down Law

By The Associated Press
NEW YORK, June 22.—Now that Prime Minister Stalin has laid down the law on Soviet language policies, a parade of new confessions can be expected in Moscow.

Stalin spoke in Pravda on Tuesday. Exactly what his words meant is a matter which is subject to broadly varying interpretations, but this appears obvious: He did lay waste, in no uncertain terms, the school of linguistics which long has ridden the crest of popularity in the Soviet Union.

Nikolai Yakovlevich Marr, the philologist hailed only recently as "inspired Soviet scientist and founder of the new materialist teachings on language," was not only wrong in many of his conceptions, but was un-Marxist, said Stalin. The Soviet leader thus entered—and probably ended—a long debate on linguistics which has been going on for several months in Moscow.

If the Communists run true to form, this will bring a parade of confessions in the form of "Bolshevik criticism and self-criticism" from persons like Academician I. I. Meshcheryakov, a leader of the Marr school, who in an academy discussion in April proclaimed Marr a model scientist "combatting hostile, idealist theories" of language. Others had joined joyfully in singing the praises of Marr, who died in 1934.

The first ominous portent that things might go awry for the dominant school of language study came a little more than a month ago. Pravda, official Communist Party paper, published an article criticising the Marr adherents. To western observers it looked like the beginning of a shift in policy.

Stalin made it official. He wrote

Privacy Right Of Murderess Is At Stake

FLINT, Mich., June 22, (AP)—Radio's "big story" of how a Michigan woman killed her husband and two children was told to a coast-to-coast airwaves audience last night despite legal moves to block it.

The "right of privacy" of a convicted murderess was at issue.

There remained today the possibility of a federal court suit on behalf of Mrs. Julia Kulnich, 34-year-old convicted slayer from Marquette, Mich.

The crime was re-enacted over the National Broadcasting Co. net work on a half-hour program entitled "The Big Story" and sponsored by the American Cigarette and Cigar Co.

Before it went on, Circuit Judge Clifford A. Bishop of Flint first granted and then dismissed a request by Mrs. Kulnich for an injunction to keep the drama off the air.

Judge Bishop said he changed his position upon learning that the broadcast would originate in New York rather than in Flint and would use fictitious names for the principals. He pointed out his court could not halt a national broadcast.

Joseph Charanowski, Mrs. Kulnich's lawyer, consented to the judge's action in dismissing the suit. But he indicated he might start action in federal court in New York and possibly in Chicago and Hollywood. He did not detail his contemplated legal moves.

Mrs. Kulnich, who is serving a life term in the Detroit house of correction for second degree murder in the 1941 triple-killing, claimed the radio drama invaded her "right of privacy" and would cause her "harassment, ridicule and humiliation."

Mrs. Kulnich's husband, Peter, her seven-year-old daughter, Helen, and her son, Nicholas, 5, were found dead in their farm home Sept. 15, 1941. At first the woman said her husband killed the children and then committed suicide. Finally she confessed to state police that she was the slayer of all three.

Sunray Merges With Barnsdall

NEW YORK, June 22, (AP)—A quick sale of \$9,468,000 of common stock paved the way today for the merger of Sunray Oil Corp. and Barnsdall Oil Co.

An investment banking syndicate yesterday offered 750,000 shares of Sunray common at \$12.625 a share. The sale was completed within two hours.

Stockholders of Barnsdall and Sunray voted Monday to accept their directors' plan for merging Barnsdall into Sunray. Both companies hold oil producing properties in the United States and Canada.

Proceeds of yesterday's sale will be used, together with \$80 million raised by the private sale of long-term promissory notes, to retire certain outstanding obligations of both companies in accordance with the merger plan. These include \$3,500,000 of Sunray's 3 per cent debentures due 1951, \$25,000,000 of Barnsdall's 3 3/4 per cent promissory notes and \$12,500,000 of Barnsdall's 2 3/4 per cent notes.

Housewives Seek Ingredients In Bakery Strike

LOS ANGELES, June 22, (AP)—Yesterday it was cookbooks. Today it's flour, cornmeal, yeast and prepared biscuit and muffin mixes that housewives are clamoring for at the corner groceries.

Crackers were selling well, too, as a strike of AFL bakers against wholesale bakeries which produce 90 per cent of the bread sold in markets locally went into its fifth day.

Negotiations were scheduled today. No progress toward agreement was reported yesterday. The union demands a 35-hour week with no cut in pay.

Judy Still Secluded At Hollywood Home

HOLLYWOOD, June 22, (AP)—Judy Garland is secluded in her hilltop home and is under sedatives, says Carlton Alcop, the actress' manager.

"In a day or two she'll be ready to talk," he said, about why she cut her throat with a broken water glass Monday night.

Miss Garland's doctor, who calls the wounds "minor slashes," said she has "been under great strain and I am administering to her general condition."

The star was suspended by her studio Saturday and reportedly slashed herself in a fit of despondency.

COMMUNISM TOO WEAK FOR WAR WITH WORLD

TOKYO, June 22, (AP)—John Foster Dulles' address came amid these world of communism is too weak to seek war now with the free world.

The Republican adviser to the State Department told the American Chamber of Commerce the immediate danger to free countries is that they may be taken over within by small, disciplined Communist minorities.

Dulles' address came amid these other rapid-fire developments involving the United States' positions in troubled Asia:

(1) Gen. MacArthur and Dulles conferred for 90 minutes. It was learned they were in virtually complete agreement on necessity for prompt American aid for Red-threatened Formosa and the need for a peace treaty for Japan.

(2) MacArthur, it also was learned, was pleased with the outcome of his conference Monday with Defense Sec. Johnson and Gen. Omar N. Bradley, chairman of the U. S. joint chiefs of staff. MacArthur advocated sending U. S. military equipment to the Chinese Nationalists on Formosa to be administered by an American military mission.

He maintained that American positions on nearby Okinawa and the Philippines would be threatened if the Chinese Reds took Formosa.

(3) Johnson, accompanied by Bradley, flew to Okinawa to inspect key air bases on that battle-famed island. Johnson commented the Americans were going to stay on Okinawa "for a long time." Later

Henderson, who was talking from South Lincoln, Mass., said however, that it was unlikely that both a Sheraton Hotel and a Statler Hotel would be built. Plans for building of a Dallas hotel were announced last Friday by the Statler directors.

"It is up to the people of Dallas as to which they want," Henderson said, "We don't want to come there unless the citizens want us."

Henderson said the Sheraton chain would stand the full cost of building its proposed Dallas hotel. He said he thought that Dallas citizens might choose Sheraton's offer, because the Statler proposal was dependent on the raising of a \$1,500,000 loan in Dallas.

Last Thursday the Hotel Adolphus here announced plans to build an addition of 550 rooms.

Dallas Must Choose One Of Two Hotels

DALLAS, June 22, (AP)—Dallas must choose between a \$9 million Sheraton Hotel of 650 rooms and a \$10 million Statler Hotel of 800 rooms.

Soviet Ridicules Reports U. S. Leaves Greenland

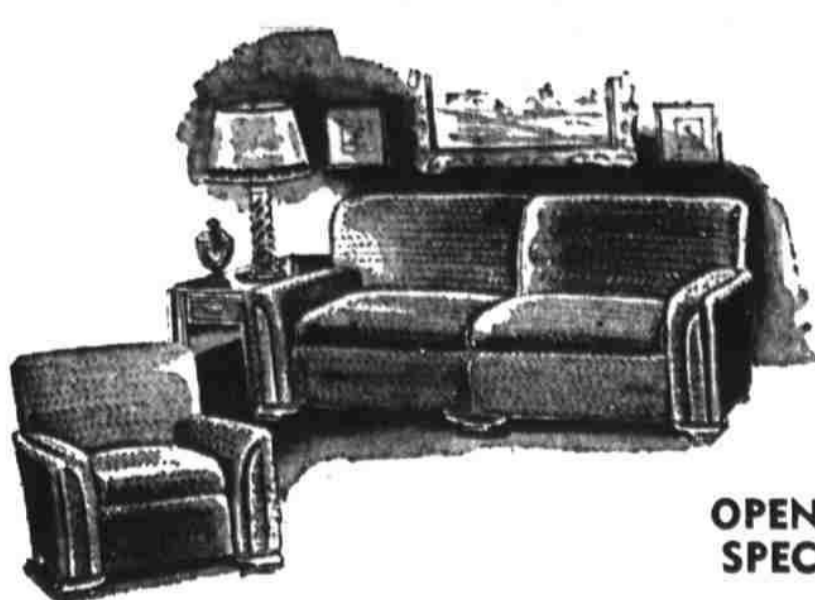

MOSCOW, June 22, (AP)—The Soviet Government newspaper, Izvestia today ridiculed Danish press reports that United States forces were preparing to evacuate their bases in Greenland.

Sources in Copenhagen reported last week that American forces would start leaving the North Atlantic island last week and U. S. Government was working out an agreement to permit an "indefinite" stay of American forces in Greenland.

Reports of the evacuation, the Soviet organ said, had been "deliberately planted in order to appease Danish public opinion which is becoming more and more anti-American."

Ohio's Governor Hasn't Made Up Mind About Senator Taft

WHITE SULPHUR SPRINGS, W. Va.,—The 48 governors began their conference about state problems today while the press proceeded with its unveiling of the presidential possibilities within their ranks.

would be unusual for the governor of a pivotal state to have no such ambitions. A Republican often mentioned as a presidential possibility, Gov. Alfred Driscoll of New Jersey, also accepted an invitation to meet the press.

En masse, saturated in politics and fortified by the special knowledge of the regional reporters among them, the press represents a formidable challenge to the ambitious governor who is thus tapped for a trial heat on the national course.

He, too, complained about the senator's methods but he had difficulty finding the right language to show how Communism was an issue against the administration.

For example, Gov. Frank Lausche, Ohio Democrat, will journey to Washington Thursday to lunch with President Truman widely advertised as a lone wolf whose sincere cooperation in the effort to defeat Senator Taft cannot be expected.

Another national story is building—the governors' reaction to administration defense of its foreign policy. ECA Administrator Paul Hoffman and Secretary of State Acheson are the big guns to whom the governors respond will be eagerly watched for clues to what their folks back home, to whom they are so much closer than Washington is, now think.

Congress Doesn't Have Power To Force Self-Incrimination

WASHINGTON, (UP)—EVERY TIME A man is called before a congressional committee, refused to answer questions, is cited for contempt, and lands in jail, an ancient question arises:
