WAY YOUR RIGHT TO BE WRONG

By DeWitt Emery (Editors Note: DeWitt Emery is president of the National Small Business Men's Association.) In sportsmanlike America if a runner falls in a race, he can get up and run again. The crowd will cheer him on.

So it is in the game of private business in Am-erica. If a fellow tries and fails as a plumber, he can square him-self and try again in the bus-iness race with a hardware store or something

else. Between tries he can tackle any sort of job he chooses. By such trial and error he can seek out the best possible application of his talents, his wits and his choice of a livelihood. He has a precious right to be wrong.

Because of this right both we as individuals and free society as a whole benefit enormously. In-deed, no system for bringing out the most productive results or the most human satisfaction has ever existed before in recorded history to compare with our simple rightwrong technique. The chief trouble is that there seems to be constant temptation by some people to tinker with it.

Russia has eliminated the private citizen's "trial and error" rights entirely and the left-wingers are constantly trying to sell

out these rights in this country. In the name of worshipful "efficiency" they suggest that the omnipotent State should decide what every man should be or do. "From each according to his ability and to each according to his needs" is one of their catch phrases. It listens good till you ask who decides

what you shall need or what your abilities are best suited for. This sort of malarky goes over best with people who are either improverished or frustrated, and feel they have little to lose. Hence the communists seek to encourage unemployment by any means and social strife of all kinds. Nothing would please them more than a whopping depression in America On the other hand, probably nothing annoys the communists more than prosperity among the "poor exploited down-trodden victims of free enterprise"-unless perhaps it

is to see a new little enterprise be ing started. Small business is the bane of communism for several reasons, all of them painful to the red boys In the first place, practically every

American worker nurses a private "be his own boss." Every urge to time he sees another try it, it tickles his own urge a little. If the attempt is a success the commies have definitely lost a potential recruit, and maybe more. Nothing will chill a man's tempted interest in "sharing the wealth" faster than to achieve a stake of his own in something worth sharing.

As the Newschart above shows, President Truman failed to poll a majority of votes on election day. The figures are from a United Press tabulation, based on the official count of 42 states and unofficial count of six others adding up to a total vote of 48,682,679. Mr. Truman was 282,146 votes short of a majority, but had a plurality over Gov. Thomas E. Dewey of 2,138,129 votes. Note that States' Rights candidate Gov. J. Strom Thurmond polled 20,443 more votes than Henry A. Wallace.

# Work Asked **Of Legislature**

AUSTIN -(AP)- Texans shovelled up new mountains of work last week for the 51st Legislalast ture which meets just one month hence.

Requests for legislation ranged from a price-fixing bill for hair-cuts to suggestions that the elec-tion laws be revised and the Constitution be rewritten.

Some of them were not specific, but they all represented a lot of potential work for the lawmakers who can usually think up enough legislation on their own to keep fairly busy for four months every two years. Whether or not the Legislature will choose to consider many of the suggestions which are accumulating is a wide open ques-tion. Frequently it ignores such semi-official calls for action as Democratic platforms. Occasional-

## Last Week's Dust Storms Leave **3 Million Acres Ready to Blow**

FORT WORTH -(P) - Dust storms of the past weekend were among the most damaging storms in recent years, the soil conserva-tion service regional office re-ported here on the basis of in-formation of blow conditions com-piled in a survey of Texas and Oklahoma.

High winds ranging in velocity up<sup>s</sup> to 55 miles an hour, killed with cutting sand or blew out young wheat and other soil pro-tecting cover crops in plains areas

Oklahoma

Dust-laden winds and tinuing drouth of the past two weeks have nearly doubled the acreage of blowing lands in Texas and Oklahoma and have 'added approximately a half-million acres to the areas without enough plant cover to prevent blowing.

Reports from the so il con-servationists show that 933,000 acres in West Texas and Western Oklahoma are giving up dust to winds and that the acreage now without enough plant cover to prevent blowing has increased to 3,869,000 acres. Of these totals, all but '50,000 of the blowing acres are in Texas, and the Texas areas without sufficient plant cover to prevent blowing amount to 3,-99.000 acres.

By HAL BOYLE NEW YORK -(P)- There is en unusual young man from Hollywood in town.

He's been here a week and hasn't kicked a pigeon in the shins—let alone a policeman. He hasn't put his fist against any-body's face in a burst of bourbonborn exuberance. Nor has he been accused of being the life of a reefer party.

There are negative virtues, mayhap, but Jerome Courtland, who bears the heavy responsibility of having given Shirley Temple one of her first grownup screen kisses, has positive virtues as well. The shy, gangling, six-foot-five

inch young actor is the most refresh ng ambassador the movie moguls have sent here in years. Jerry, a 22-year-old ex-sergeant who has been in five pictures, came to town without wearing the dark glasses with which many film visitors announce their calling. He's been to only one night club. He doesn't drink or smoke. his favorite beverage is and milk.

## **Houston Mayor Apparently Wins**

Mayor Oscar HOUSTON - (AP) -Holcombe apparently won his ninth term as mayor of Houston Monday when an estimated 2500 to 3000 Houston residents cast ballots in a city general election.

Only one slate of candidates appeared on the ballots. Holcombe said there had been reports of a write-in-campaign in East Houston precincts in behalf of Councilman Glyde Fitz-

gerald defeated for mayor by Holcombe in the November Demoeratic primary. Holcomb said the write-in campaign was designed to re-turn Fitzgerald to the council.

that it is trying to locate the typewriter on which the Chamdocuments were written. Mundt said last night that the group has some pretty good clues to the machine's whereabouts, but has not located it.

(In Philadelphia, the Eyening Bulletin said a private detective who said he was working for Alger Hiss' lawyer had touched off a search there for a Wood-stock typewriter believed to be an important clue in the case. (The bulletin said the machine

in question had come from the office of Mrs. Hiss' father. Thomas L. Fansler who died in 1940.)
