

TEXAS TOPICS

Because of overwhelming modesty, it is a bit difficult for us to remind you of predictions here which have grown to fulfillment—and even beyond.

In a coy sort of way we'd like to get around to the point—without seemingly being a brag—to make mention of that day, many weeks ago when Pampa was cool for seven days in a row, when we said in this space that within a comparatively few hours a hot wave would set in that would make all other summers look like the cube tray of your refrigerator.

Well, tempus fugit and it got hot. No fooling, either. It has been hot ever since and is getting still hotter. Personally, we'd like to inform the element-makers that our prediction has been filled far beyond the running-over stage and it will be all right to turn off the heat. We're practically certain by now that everybody has concluded we knew our stuff when it was stated here in June that hum-dinger heat was on the way for July and August.

We dislike harping on the subject, but while we're at it, there's a word more we'd like to say about another forecast made on July 17—that something big would happen around the world before midnight of Aug. 31.

Within the next 24 hours the Spanish revolt was on in full blast. It's still on, but on Aug. 1 when deadline time was passed on the prediction, it was stated here that rebellion in Spain was big and within less than a fortnight Russia would assume proportions bigger than ever—even to the extent of international complications.

So now, under date of yesterday, Aug. 10, comes word that the war for which all Europe has been preparing may begin sooner than 1937, the time predicted by many observers. In fact, it would hardly be exaggerating the tense Spanish situation to predict that unless one side or the other dominates Spain quickly, a European war may be imminent.

Even before the Spanish revolt broke out, Europe had been divided into two warring camps. The Fascist allies, Germany, Italy and Japan on one side, and anti-Fascist France, Britain and the United States on the other. All of these nations are demanding non-intervention in the Spanish struggle.

Naturally, any pact between them would be meaningless since all Europe recognizes that peace and sympathy both pro and anti-Fascist have widened the breach and will induce a sufficient number of covert interventions to warrant national action.

In other words, the fire under the kettle is burning. It won't be much to poke it up and start the pot to boiling. The Spanish revolt, which filled our prediction, easily can be the poker.

Uncle Sam hopes to keep his fingers out of the pie, despite the \$80,000,000 American industrial money that is invested in Spain. He'd better keep out of it.

Steering, bronc riding and all that sort of thing will help keep the party lively at the Jaycee picnic this evening. A rip-roaring card is promised for the in attendance, says Charlie Maisel, one of the arrangers.

With the political what-nots getting hot under the collar, from now on music will be about as scarce on the radio as a cool spot in an Iowa cornfield.

We just found out today that there are only four poisonous snakes in North America, and you'll find all of them in Texas. We haven't met up with any of them yet, but understand each of the four is wriggling about in a snake display down at Austin.

The four snakes whose bites are poisonous are the coral snake, rattler, cotton-mouth moccasin, and the copperhead snake.

Give you the creeps? Well, perhaps it shouldn't have been mentioned. But speaking of the creeps—any of you with tender nerves are warned not to read the new horror-mystery novel, just brought out last week.

It's titled, "The Undying Monster," and was written by Jessie Douglas Kerrish. It's exciting from the first page to the last and will give you both the big and little chills, unless you can take it. Remind you a lot of Edgar Allan Poe and his Rue Morgue Murders. Brrr-r-r-r.

From Roswell, N. M., comes word that the phenomenon of gravity which amazed Isaac Newton centuries ago now confronts a scientist as he nears a conclusive test in his 20-year effort to unveil the mysteries of the stratosphere with an instrument-laden rocket.

He's aiming at a 40-pound rocket, and he expects to have it completed and ready to try out before September 1, with which he hopes to penetrate the stratosphere for 100 miles or more.

Should the distance be reached, the scientist feels that an automatic camera could photograph the spectrum of the sun, obtaining ultra-violet lines screened out by the atmosphere.

In addition to all that scientific See COLUMN, Page 8

THE NEW PAMPA
Fastest Growing City in
Texas—Panhandle Oil
And Wheat Center

STEEL WEDGE DRIVES INTO FASCISTS

POSTAL ROUTE OPENING WAITS NEEDED WALKS

MAIL SERVICE WOULD BE EXTENDED TO 350 HOMES

Mail delivery to upwards of 350 Pampa homes is ready to be established as soon as prospective mail recipients meet with the government regulation which requires a sidewalk in front of a house to which mail is delivered.

Postmen are not required to make deliveries at homes in front of which there is no sidewalk.

Postmaster C. H. Walker said today that plans have been completed for the establishment of an additional city route which will serve 335 additional houses.

The postoffice is ready to give the service. Postmaster Walker said, "but under our postal regulations this cannot be done until sidewalks are laid in front of the homes."

W. W. McDonald, superintendent of mails at the Pampa postoffice, said today that because of this government regulation, fully one-third of the houses in the city do not receive mail deliveries.

As a result of this condition the local postoffice has from 1,200 to 2,000 daily calls for mail at the general delivery window.

Every available postoffice box is now taken. Postmaster Walker said 1,467 business houses and individuals now get their mail in postoffice boxes here.

Pampa at present has four city mail routes, two rural routes, three star routes, and a full-time parcel post delivery service.

On the four city routes, mail is delivered to 1,700 business places and homes within the city limits.

The proposed new route, which cannot be established until prospective mail recipients meet the sidewalk requirement, would give service to nearly 350 homes scattered throughout the various sections of the city.

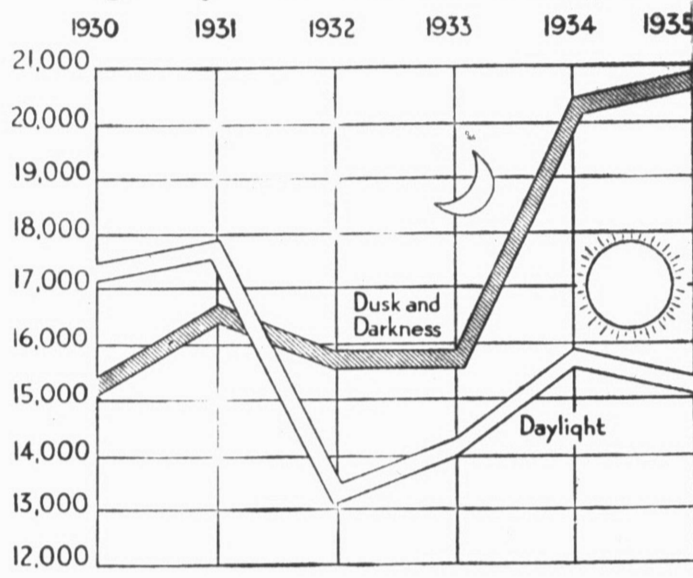

Most of the additional service would be extended to the west and south sides, with some in the east and north sections of the city.

When the time comes that sufficient persons have met the government requirement for mail delivery, an extra carrier will be put on duty to handle the new proposed route.

"We just want to make clear," Postmaster Walker stated, "that as soon as the home owners make the sidewalk improvement, we are ready to give them the service. Until that time there is nothing we can do."

Any kind of material which makes a passable sidewalk for the postman may be used, he said. The government does not specify the kind of sidewalk that must be put down.

Highway Toll Heaviest At Night

Under cover of darkness, even though traffic then is far lighter, Death now gathers his greatest harvest on the nation's highways, as the chart above, drawn from figures collected by the Travelers' Insurance Company, shows. Despite the almost continuous rise in traffic fatalities occurring since 1930, the daylight toll was 12 per cent lower in 1935 than five years before. But deaths during dusk and darkness increased by 37 per cent during that period. Daylight totals were 17,192 for 1930 and 15,128 for 1934. Those for dusk and darkness were 15,308 for 1930 and 20,974 for 1935.

Thermometer Goes To New High of 108

Continued Heat Sets Record Over All Of Texas

Heat broke the summer's record in Pampa yesterday when the mercury climbed to 107 degrees at 3:30 p. m. and remained there for two hours. The previous mark was 106 degrees early in June.

Scant relief came to the local district with a cooling breeze early today, but the temperature stepped up to 108 at 3 p. m. to pass its mark at the same hour yesterday.

Farmers in the area today reported that row crops are wilting and in many spots are burned out. Unless there is rain within the next week or ten days, it is feared crops will be seared beyond hope.

One Pampa woman really was concerned about the heat wave today.

She called the Pampa NEWS to say that she placed her thermometer out in the back yard sun. It climbed to 125 degrees, and then the bottom blew out.

"Is it really that hot?" was what she wished to know.

There has been less than an inch of rainfall in the Pampa district since June 1. There have been only four periods of rainfall in the past nine weeks. On June 4 there was .31 of an inch precipitation, on June 29 there was .55 of an inch, and on July 16, .11 of an inch, and .01 of an inch on July 28, making a total of .98 of an inch for the entire period.

The lowest the mercury has gone in the past 24 hours was 82 at 10 a. m. today. At 10 p. m., however, it had advanced 26 degrees and still was climbing.

Citizens were warned today to avoid strenuous effort during this second day of a new hot spell.

Heat sickness, it was pointed out, is cumulative, due to the fact that one day of terrific heat throws the system out of order, and the second and third days are likely to produce prostration. Only after several days does the body become inured to the condition, health authorities stated.

WORST HEAT WAVE
Mercuries mounted toward record breaking high temperatures today in Texas definitely establishing the current heat wave as the worst of the last twenty years.

Weather observers gave no promise of relief from the parching sun. Farmers in most sections looked fearfully at pale blue heat-ridden (See NO. 1, Page 8)

McLean Citizens Ballot On Postmaster

MAIL VOTE IS UNDER WAY AT JONES' BEHEST

CHOICE OF 3 HIGH APPLICANTS IS ASKED

Contest for the postmaster ship at McLean took an unexpected turn today when it was learned that poll voters of the town are engaged in a mail election to register their choice of three men certified as eligible for the job by the United States civil service commission at Washington.

The development came in the face of previous recommendation of Lee R. Wilson, high man on the eligibility list, by Siler Faulkner, Gray county Democratic executive chairman.

Other eligible candidates for the job are Marvin Davis and J. E. Lynch, who ranked second and third, respectively, in the civil service ratings.

Wilson, Davis and Lynch stood high in a list of ten or twelve persons who took the examination for the job early this year.

The mail election was asked in letters received yesterday by McLean poll tax payers from Congressman Marvin Jones, of Amarillo, asking them to mark their first and second choices on an enclosed ballot and to mail the ballot to the congressman's Washington office before Aug. 13.

Between 500 and 600 persons in McLean received the letters from Congressman Jones. A franked envelope was enclosed in each letter for return of the marked ballots.

County Chairman Faulkner's recommendation of Wilson for the postmaster job was made some time ago when the local Democratic leader was notified that Wilson ranked first among the three men certified by the U. S. Civil service commission as eligible for appointment.

Outcome of the McLean mail election will not be known until the appointment is announced from Washington.

The man chosen from the list of three eligible candidates will succeed John B. Vannoy, present postmaster at McLean.

LOST CRUISERS SAFE
GREEN BAY, Wis., Aug. 11 (AP)—Two large power cruisers, which craft on Lakes Michigan and Superior had been searching were safe in port today with their 26 passengers.

SCHOOL BUDGET IS BUT LITTLE LARGER DESPITE NEW NEEDS

Budget of the Pampa Independent School district for 1936-37 was approved at a meeting of the board last night. Despite the fact that salaries of teachers have been increased, a new janitor employed and local expenditures on the new auditorium included this year, the increase in appropriation over expenditure for 1935-36 is only \$6,696.

Salaries of white teachers last year was \$129,821. The amount set aside this year is \$139,000 which will absorb the increase due to salary hikes and leave an amount for additional teachers if enrollment is larger than anticipated.

Janitor salaries will be enlarged this year through employment of a new man for the auditorium and additional work at the ward schools where large additions have been constructed.

An increased amount was also set aside for transportation. The board set aside \$21,000 for its part in purchasing heating equipment, etc., for the new gymnasium, now under construction. The building cost more than anticipated which made the local cost greater. However a letter was received yesterday from Senator Morris Shepard in which he said that an additional amount might be available from the government.

Last year the board redeemed \$28,000 worth of bonds more than the budget called for.

SECOND CREW WILL WORK ON BORGER ROAD

BCD Hears Report From Committee; Names Lyons To Director's Post.

The latter part of the week is expected to see the second section of work on the Pampa-Borger highway under way, Jim Collins reported at a meeting of directors of the Board of City Development last night.

Work near Skellytown was set to begin on August 1 but at that time teams and trucks were not available. Many teams have been secured and trucks, which will transport 25 Gray county workers to the project, are being rounded up, Mr. Collins said. Work is now in progress near Borger.

James Lyons was named a director in the BCD, replacing Gilmore N. Nunn who has moved from the city. At the last meeting President John Roby appointed a committee of Tom Smalling, J. S. Wynne and Fred Cullum to present names of two men, one of which would be selected a director by the city commission, which is the procedure. The two names were placed before the city commission last night.

September 15 has been designated Pampa Day at the Fort Worth Frontier Celebration. President Roby named a committee composed of Fred Cullum, chairman, Guy MacTaggart and Jim Collins to complete plans.

Other matters to be acted upon later were also discussed at last night's lengthy meeting.

County To Sell Seized Liquor—To Dealers Only

Sheriff Earl Talley will go into the wholesale liquor business for a day on Aug. 21 when he is scheduled to conduct a sheriff's sale of 49 gallons of confiscated whisky.

Notice of the sale, which will be conducted from the courthouse door on that date, has been posted on bulletin boards in the courthouse corridors.

The whisky is made up of a stock consisting of 240 pints and 312 half-pints, forfeited by a local dealer because of insufficient revenue stamps.

However, individuals will not be permitted to participate in the bargain liquor sale. Bids will be accepted only from package store and wholesale liquor permit holders according to the notice of the sheriff's sale.

WATER BILLS ORDERED PAID BY EACH 15TH

Users Warned That Cut-Off Will Be Penalty

Pampa's waterworks department today sent a rigid business notice as official notice was given to consumers that service will be discontinued unless water bills are paid by the 15th of each month.

Delinquent water consumers will be a thing of the past, under the new ruling adopted at a meeting of the city commission in city hall last night.

"We are going to the put the waterworks business on a par with other utilities," City Manager C. L. Stine said today.

There is approximately \$2,000 to \$3,000 outstanding now in delinquent water bills, the records show.

Unless consumers make back payments by Aug. 15, water service will be discontinued, the city manager warned.

When service is discontinued by the city he said, before it can be resumed the delinquent bill must be paid and an additional charge of \$1 will be made to have the water turned on again.

Water bills are due on the tenth of each month. Five days grace will be given consumers in which to pay the bill. After that time the city commissioners last night, if the bill is not paid by the 15th, water service will be discontinued on the 16th.

LOYALISTS TRY TO SPLIT THE REBELS' ARMY

DESPERATE DRIVE TO SEA IS OPENED BY FASCISTS

BY RAMON BLARDONY
(Copyright, 1936, By The Associated Press)
MADRID, Aug. 11.—Spain's Loyalist troops played a trump card today in an effort to drive a steel wedge into Fascist forces in the south and halt Gen. Francisco Franco's march on Madrid.

Loyalist artillery sang a song of "reconstruction in the Cordoba area where heavy-booted Moroccan troops from the African continent battled their way northward with the capital city as their ultimate goal.

The strategic community of Adamuz, 21 miles northeast of Cordoba, was captured and fresh onslaughts against the provincial capital itself in an effort to deliver a crushing blow to Fascist forces were imminent.

(Coincident with this action, rebel troops on the northern seaboard opened what appeared to be a final desperate assault on a group of communities which barred their exit to the seashore and the opportunity to receive fresh supplies of guns and ammunition by water.

Northern government headquarters at Irun admitted the Fascists, under a pounding artillery bombardment had occupied the town of Tolosa, but insisted loyalists had fallen back in order to re-take the town by drawing the rebels into a trap.

The rebel offensive seemed to be general throughout the San Sebastian-Irun area. Many thousands of rebel troops had been withdrawn in the last few days from the relatively quiet Guadarrama front, a few miles north of Madrid, for the offensive in Spain's extreme northwest.

A recapitulation of victories and defeats showed the government held Madrid and about half the area of Spain. Strategically the government believed it was in an enviable position and predictions of early and complete victory were at no premium.

Short Ballot Is Ready For First Absentee Voters

Absentee voting began today at the county clerk's office in the Gray county courthouse.

Delay in marking absentee ballots for the second Democratic primary on Aug. 22, ended when Siler Faulkner, county Democratic chairman, received the certified list of absentee voters from the state election board at Austin in the morning's mail.

The list immediately was rushed to a printer and first ballots off the press were hurried to the clerk's office which had been assigned all Green county inquiries from persons anxious to vote before starting on vacations.

Many persons delayed trips out of the city until noon today in order to cast their ballots, according to County Clerk Charlie Thut.

Next Tuesday inquiries will be the deadline for absentee voting, the clerk stated. The second primary election will be held one week from next Saturday.

The certified ballot received here today is short, carrying only the right races in which candidates will bid for run-off votes. Six of these races are local.

The Gray county contests on the ballots are:
For District Clerk—Frank Hill and Miriam Wilson.
For County Judge—C. E. Cary and Sherman White.
For County Attorney—John Stuber and Joe Gordon.
For Constable, Prec. 1—Charles Buss and Henry Schoffitt.
For Constable, Prec. 2—Younger Cockrell and Otis Hendrix.
For Constable, Prec. 4—J. F. Hendrick and J. A. Darnell.

WEATHER

WEST TEXAS: Fair tonight and Wednesday; not quite so warm in the Panhandle Wednesday.

Rich and Reckless

Chapter I
It was the end of the season. Reason enough, Molly told herself, for feeling tired and rebellious and dissatisfied. Debut time was almost over. And what had it got her?

A lei of orchids, petals only slightly crushed by last night's weariness met her eyes. They had been placed on the window ledge through habit. Rita, her maid, would wear them some place tonight when she stepped out after serving hours.

There would be more orchids for Molly, arriving in glittering cellophane covering from Wick. Or garlands from Donald. Or perhaps yellow rosebuds from Brent. Or violets,

Rich and Reckless

somehow it did. Tremendously. All the famous families would open their arms to Donald's wife, Donald, arrogant, cocksure, correct, with his splendid old town house that was rightfully in need of redecorating, and his country place where he entertained frequently, keeping up a pretense of a comfortable income.

Donald had found it necessary to retrench for some vague reasons concerned with stocks and bonds.

Hubert Wallace was just a debutante rasher. This year he had picked Molly. Hubert was a good play-fellow, but perhaps after a time you

PRIMARIES TAKE ATTENTION FROM PRESIDENTIAL POLITICS

SENATORS ARE FIGHTING OVER PENSION PLAN

BORAH AND ROBINSON SEEK RETURN TO SENATE

WASHINGTON, Aug. 11 (AP)—Presidential politics went into temporary eclipse today as state primaries—in which two prominent senators sought renomination—attracted attention.

Townsendism was an issue in Arkansas as citizens there voted their choice from United States Senator down to constable. Joseph T. Robinson, Democratic leader of the Senate, seeking a fifth term, was opposed by Cleveland Holland, Fort Smith attorney, who bears the endorsement of the state. Townsend plan conventionist J. Rossor Venable, Little Rock attorney who criticized Robinson's legislative record.

The \$200-a-month old age pension plan also featured the primary campaign in Idaho, where Senator William Borah fought for the republican renomination toward a sixth consecutive term. His opponent was Byron Defenbach, former state treasurer who is supported by Townsendites.

C. Ben Ross, former cowboy and three times Idaho's governor, contested for the democratic senatorial nomination with U. S. Attorney John Carver.

Florida had a special primary today to settle a contest between former Governor Doyle E. Carlton and former Judge C. O. Andrews for the democratic nomination to succeed the late Senator Park Trammell.

Astor Diary Is Center Of Fight In Court Today

LOS ANGELES, Aug. 11 (AP)—The purple-penned diary in which Mary Astor, red-haired film beauty, philosphized, lamented, enthused and recorded her activities in detail was projected today as the all-important item in her custody suit.

Joseph Anderson, counsel for Miss Astor's ex-husband, said he would make strenuous efforts to introduce the combustible journal as evidence that she is not a fit parent for her four-year-old daughter, Marilyn.

Mention of the diary in the trial has generated fireworks. Anderson earlier tried to introduce a portion of it and Roland Rich Woolley, Miss Astor's attorney, protested vehemently.

The will-o'-the-wisp witness in the suit of Miss Astor to wrest custody of Marilyn from Dr. Franklin Thorpe, the handsome Hollywood physician who divorced her was still missing today.

He is George S. Kaufman, playwright and film scenarist for whom a bench warrant was issued yesterday after he did not appear in court in response to a subpoena.

Miss Astor has testified that Dr. Thorpe knew of and condoned her relationship with Kaufman, Anderson cross-examined the actress lengthily about it, eliciting sharp denials that she had told her husband she lived with the writer.

There were some of the other men in the life of Mary Astor.

John Barrymore, Bennett Cerf, New York publisher and former husband of Sylvia Sydney, film actress; Daniel Silverberg, New York banker; Dr. Mortimer Rodgers, New York physician; Carlos Paraga, Cuban tobacco magnate; John Elvidge, actor and brother-in-law of Fredric March; Count Alfonso Carpegna and George Oppenheimer, writer.

Parrots Won Before Locals Went To Denver

Pampa's first baseball game following the Denver Post tournament will be played here Friday night with the Phillips Parrots of Amarillo providing the opposition. The Parrots will be out to get revenge for a 7 to 1 defeat handed them two weeks ago tonight when they were enroute to the tournament.

Manager Sam Hale returned from the wars with only one pitcher on his staff—Carl Steward. Before the game with Amarillo, however, Carl will have some help, team officials announced this morning.

Lee Daney, star right-hander, tore muscles in his side in Denver and may not be able to hurl again this season. There is a chance, however, that the injury will suddenly leave.

The same old lineup will be in the field, Ben McLarry being back at shortstop, Bailly in left and McNabb in right.

Game time will be 8:30 o'clock with admission the same as usual, 25 cents for women and 40 cents for men.

On Sunday afternoon at 3 o'clock in Berger, the Road Runners will tangle with the Huber Blackfacs, one of the favorites in the Denver Post tournament, which could go to finish in the money.

Because of the baseball game here Friday, no games will be played in the Playground ball tournament, officials have agreed.

Hughes Ship Is Tested For Races

BROOKLYN, Aug. 11 (AP)—Howard Hughes landed his "flying laboratory" at Floyd Bennett Field at 8:20 a. m. CST today, completing a flight from Dayton, Ohio, in less than three and one-half hours.

The millionaire motion picture producer and sportsman encountered rough weather over the Alleghenies as he came east.

Attaches of the field said his time indicated he was conducting a test of the big transport ship which Hughes, holder of a number of air records, has entered in the coming Bendix races.

"The laboratory," so-called because of its technical equipment, has been converted into a racing plane with extra-power super-charges.

From time to time there have been reports that Hughes planned to "make a round-the-world flight in the ship," but fliers who know him well said they believed his immediate goal was to capture the Bendix prize.

Truce Is Urged In Police Complaint

LOS ANGELES, Aug. 11 (AP)—Police Chief James E. Davis prepared a reply today to Mexican Consul Ricardo Hill's complaint of manhandling by Detective Lieutenant Peter Delgado, but informally advised both men to "shake hands, forgive and forget."

Hill wrote to Chief Davis and Washington authorities that Delgado gave his rough treatment in a dispute over the itinerary of a visiting Mexican Tipica band. Delgado denied the charge.

Some of the Reasons Why Road Runners Defeated Monarchs

Above are pictures of one of the giant Negro, as he attempted to sparkling plays which saved the Road Runners in their game with the Denver Monarchs and of players who were stars in the days' play. At the top may be seen Floyd Lisle, veteran Road Runner catcher, staying off a rally by tagging Thompson.

U. S. Is Second To Jap Swimmers In Olympic Relay

BERLIN, Aug. 11 (AP)—Japan's crack combination won the Olympic 800-meter free style relay from the United States today after Dick Degener, Marshall Wayne and Al Greene had given America a clean sweep of the first three places in the springboard diving finals.

Despite a revised American lineup, the Japanese quartet of Masanori Yusa, Shigeo Sugiura, Shoji Taguchi, and Shigeo Arai captured the relay by a 15-meter margin.

The American combination, in order, was made up of Ralph Flanagan of Miami, Fla., Johnny Macdonis of Yale, Paul Wolf of Los Angeles, and Jack Medico of Seattle. Macdonis and Flanagan were replacements for Charles Hutter of Cambridge and Ralph Gilman of Alameda, Calif., who had teamed up with Wolf and Medico in yesterday's trials.

Rivaling the feats of the sons of Nippon, Hideko Maehata of Japan annexed the women's 100-meter breaststroke championship, beating Martha Genenger of Germany by one foot.

Yusa gave Japan a one-length lead over Flanagan on the first leg of the relay and his teammates added steadily to that advantage the rest of the way.

Clocked in eight minutes, 51.5 seconds, the Japanese clipped 4.6 seconds off the new world and Olympic record of 5:56.1 they set yesterday in the trials. The listed world and Olympic record, also held by Japan is 5:54.

America clocked in 6:03.2, never could threaten the Japanese ace but held second place easily from the challenge of Hungary, France, Germany, Great Britain, Canada and Sweden, which trailed in that order.

Setting a pace which the Americans never came close to matching the Japanese quartet swam the 200-meter legs in the following times: Yusa 2:13.4; Sugiura 2:11.9; Taguchi 2:13.0 and Arai 2:13.2.

YESTERDAY'S STARS

Dizzy Dean and Leo Durocher, Cardinals—Dizzy pitched 19th victory of season and Durocher had perfect day at bat with four hits as Cards beat Cubs, 7-3, to take first place.

Jimmy Doherty, Senators—held Yankees to eight hits and helped lead winning assault with double that drove in two runs.

Walker Gausman, Dodgers—his pinch single kept Brooklyn rally alive and he scored winning run as Dodgers cracked Giants' winning streak.

Wolf Takes Over New Job At N. C.

CHAPEL HILL, N. C., Aug. 11 (AP)—The University of North Carolina's new head football coach, Raymond Wolf, was getting his bearings here today.

Wolf, former Texas Christian varsity line coach and athletic director, arrived here yesterday. With him came John Vautig, former Texas Christian guard, who will be line coach, William Lenghe, the new backfield coach, is due Saturday.

FOREST FIRES ARE DYING IN SEVEN STATES

Uncounted Blazes In Northwest Being Fought

(By The Associated Press)

An army of men fighting forest fires in seven states reported progress against the flames today.

The damage was most extensive in the north woods of Minnesota and Wisconsin, but forestry officials regarded the crisis as past and hoped for fulfillment of a "possible showers" weather forecast.

Authorities in Minnesota and Wisconsin estimated a total of 23,000 men—CCC boys, federal and state workers and a horde of volunteers—were on the front in those states, and hundreds of others struggled with uncounted fires in Michigan, Idaho, Washington, Wyoming and California.

The third death blamed directly on forest fires occurred yesterday near Harrington, Wash., when Bert Zink, 53, was crushed by a large tree while fighting a small blaze. In Sparta, Wis., 16-year old Lester Brundum was answering a call for firemen when he fell dead with a heart attack.

Twelve persons were injured in a head-on automobile collision last night on a smoky road near Bennett, Wis.

Deaths and Crop Losses Recorded In Oklahoma Heat

OKLAHOMA CITY, Aug. 11 (AP)—All of Oklahoma was within the federal emergency drought area today and crop conditions were growing more serious as the state experienced another day of record-breaking heat in which five persons died.

Plans were made in Western Oklahoma by ministers of five churches to hold a county-wide meeting at Mangum tomorrow to pray for rain.

Total deaths from the heat since July 13 stood at 93.

July was the hottest month on record, with the exception of July, 1934, said Kenneth D. Blood, crop statistician, but yesterday saw the mercury climb to 118 degrees at Holdenville and Muskogee for new all-time highs.

Blood's crop report as of August 1 showed conditions of corn and grain sorghums declining but they had not yet reached the low condition of two years ago.

Midway Company Awarded Leases

OKLAHOMA CITY, Aug. 11 (AP)—A request for a new trial by the British American Oil Producing Co. was indicated today in a district court suit here which resulted yesterday in award of an undivided interest in the Midway Oil Co. in the Piersol and Russell oil leases of the north Oklahoma City field.

The leases are valued at \$2,500,000. The share of the Midway Co. will be determined later.

Trading dealings of the companies after a contract of May 21, 1935, Judge R. P. Hill held it to be a "breach of the good faith relationship" when the British American obtained the Piersol and Russell tracts independently.

The British American had assumed the obligation of Oil Co. in the lease matters, with the understanding the Midway would pay expenses, the court held.

"When the Piersol and Russell tracts were purchased," the court said, "the Midway Co. was not billed for those leases and when the Midway group tendered payment they were informed the British American Co. did not have any leases in the area for sale."

U. S. MARSHAL IS DEAD

ZIONCHECK TO HAVE MILITARY BURIAL ESCORT

RELIGIOUS RITES TO BE CONDUCTED THIS AFTERNOON

SEATTLE, Aug. 11 (AP)—The army, navy and marine corps prepared to pay military honors today to the memory of Rep. Marion A. Zioncheck, who plunged to his death from a fifth-floor campaign office window Friday evening.

Religious rites were arranged for this afternoon. The body has lain in state in a flag-draped casket, guarded by two marines.

Units in the military escort, Corporal Otto H. Mittelstadt said, will include a company of sailors, a detachment of soldiers including a color guard, and probably a detachment of national guardsmen.

Artillerymen will fire a 17-gun salute at Fort Lawton, Seattle, as the funeral cortege starts for the cemetery, Mittelstadt said. An army bugler will sound "taps" at the graveside.

The religious service will include a funeral address by the Rev. Fred

Missing Boats With 22 Aboard Sought In Lakes

GREEN BAY, Wis., Aug. 11 (AP)—Two large power cruisers with at least 22 persons aboard were hunted in Lakes Superior and Michigan today by coast guard vessels and volunteer private craft.

The missing boats were the 35-foot "Faith," which left Portage, Mich., last Saturday night with 20 persons, and the 42-foot "Betty Jean," which set out from Sturgeon Bay, Wis., last Sunday with Harry C. Kettelson, a Milwaukee, salesman, his wife, Maude, and possibly other passengers.

Ernie Crosby bought the uniforms for a girls' softball team. They're the "Crosbyites."

Welcome to a new telephone user

A brand new customer used the telephone today. Betty Sue called the little girl around the corner.

"Sally!" she gasped, a bit breathless at the wonder of it, "Sally, come over 'n let's have a tea party."

"Then she listened in round-eyed delight...

Every day, thousands of Betty Sues everywhere thus lip their first sentences into the telephone.

It is the privilege of the men and women who work for this company to see that the calls of these new users are as fast and as clear, in every way, as those of the most veteran subscriber.

It is likewise the part of certain other people in the Bell System to see that their service grows better year by year.

Experts at work on American Telephone and Telegraph Company's headquarters staff... research scientists at Bell Telephone Laboratories... workmen in the factories and shops of Western Electric, the Bell system supply organization...

Day in and day out these people are busy making tomorrow's telephone service better than today's.

To Betty Sue, telephone calls may soon sink into the commonplace.

Yet she will benefit, now and in years to come, from this never-ending search for ways to make her service faster, clearer and better, at prices that are reasonable to telephone users everywhere.

LEWIS' GROUP IGNORES ORDER OF AFL HEADS

FORMAL DEFIANCE IS ISSUED AFTER A MEETING

WASHINGTON, Aug. 11 (AP)—Formally defying an ultimatum from the leadership of the American Federation of Labor, John L. Lewis' committee for industrial organization went ahead today with plans to organize steel workers and other mass production employees into huge industrial unions.

At an unannounced meeting last night, the committee decided to ignore the recent "verdict" of the A. F. of L. executive council. The council had found 10 unions affiliated with the committee guilty of "forming insurrection" within the A. F. of L. and ordered them suspended from the federation September 5, unless they withdrew from the committee.

Soon after the verdict, Lewis, president of the United Mine Workers, announced informally that he and his associates would "carry on." This decision was affirmed by the committee itself last night.

In effect, the decision served notice that the committee would not disband, despite the demands of the A. F. of L. leaders. It emphasized anew the split between the Lewis faction, which believes that in general workers in each mass production industry should be organized into one large union, and the craft unionists dominating the federation's executive council.

Delay In Seeing 'Heart' Machine Irks Scientists

COPENHAGEN, Aug. 11 (AP)—In decision in setting the time for a demonstration of Col. Charles A. Lindbergh's invention, the "mechanical heart," irritated distinguished scientists today.

The demonstration was tentatively scheduled for this afternoon after a postponement yesterday. At noon, however, delegates to the International Congress of Experimental Cytology were still without definite word when the demonstration would be held and the American flier and Dr. Alexis Carrel, co-inventor of the heart apparatus had not arrived.

Deputy Named As Tarrant Sheriff

FORT WORTH, Aug. 11 (AP)—Deputy Sheriff A. B. Carter, 44, today took over the reins relinquished on the death yesterday of Sheriff Carl Smith, 48.

Tarrant county commissioners granted the request of 20 deputies asking Carter's appointment to fill out Smith's unexpired term. He was sworn in a few minutes later.

Capital Mourns For Centennial Manager

AUSTIN, Aug. 11 (AP)—Governor Alfred yesterday ordered capital flags at half mast in memory of William A. Webb of Dallas, general manager of the Texas Centennial exposition, who died Monday from a heart attack.

"A great loss was sustained by Texas," the governor said. "Webb took over the central exposition when its affairs were in a muddled state and did a wonderful job."

The Social CALENDAR

Wednesday
Circles of Central Baptist Missionary union will meet at 2:30 in homes of members.
The county Home Demonstration club fair exhibit committee will meet in the county agent's office at the courthouse, 3 p. m.
First Methodist Clara Hill class will entertain families of members with a picnic at Central park, 6:30.

Thursday
Mrs. Ralph Jones will entertain Eight Hearts contract club.
Rebekah Lodge will meet at the I. O. O. F. hall, 8 p. m.

Friday
Garden club will meet at city club room, 9:30 a. m.

Special Song To Be Heard During Revival Service

"Entrance into heaven does not depend upon education," was the statement of Evangelist F. H. Elliott in beginning his sermon last night at the First Christian church. "I care not how many degrees you may have, it is not education that will give you an entrance there."

Birthday Dinner Is Given Man, 84

Old friends of the J. H. Worthington family gathered at the L. W. Love home recently for a surprise dinner honoring Mr. Worthington's 84th birthday.

Present were Mrs. Kelly of Tahoka, Miss Estelle Baily of Spearman, Broughton Hardin of Canyon, Mr. and Mrs. J. H. Worthington, Mr. and Mrs. L. W. Love, and Mrs. C. A. Dysart, Mr. and Mrs. W. T. Beck, Mr. and Mrs. Ernest Beck and grandchildren, Mr. and Mrs. A. F. Rush, Mr. and Mrs. C. M. Scott, J. E. Jones, Paul Jones, Frank Worthington, Norman Dysart, Misses Adalee Love, Juanita Beck, Eddie Mae and Peggy Love.

Girl Scout News

Tenderfoot tests were completed by all Girl Scouts of troop one when they met at the Little House yesterday morning, and study of second class tests was started.

A picnic was planned for Thursday afternoon. Several women were visitors in addition to Mrs. Clarence Coffin, troop leader. They were Mrs. Claude Lard, Mrs. Roy Holt, Mrs. R. K. Douglas, and Mrs. A. A. Day.

Virgie Mae Myers was a guest. Troop members present were Clara Belle Jones, Annabelle Lard, Blanche Day, Mary Lou Douglas, Thelma Jo Thompson, Cleota Smith, and Maxine Holt.

Fred Whalen, former world's champion trick shot billiard player, is a movie character player now.

LIFE SAVING EXPERT WILL BE HERE FOR RED CROSS COURSE

RED CROSS LIFE SAVING EXPERT

According to C. A. Clark, chairman of the life saving service of the local Red Cross chapter, Earl C. Davies, representative of the organization's Midwestern Area headquarters at St. Louis, will arrive here August 19 to assist the chapter in its efforts to reduce the hazards of aquatic.

HAROLD C. DAVIES

During this visit the swimming expert will qualify new life saving examiners and give tests to local swimmers who already have successfully completed the rigid Red Cross examiner's course. Each year these examiners spread their knowledge of water safety methods to many others with the aim of holding casualties to a minimum.

In announcing the visit of Mr. Davies, the life saving chairman called attention to the appalling death toll from drowning. Each year, he said, about 7,400 persons are drowned. These fatalities exceed by hundreds the number of lives lost in many military accidents and explosions combined.

"In spite of the forward strides the National Red Cross has made in life saving," he added, "the annual loss of life from drowning continues to be staggering. The death rate from this cause climbed seven per cent between 1929 and 1930 because in more recent years additional millions have answered the call of the surf, lake or pool."

"The worst of it is that the majority of the deaths are avoidable and generally can be traced to lack of knowledge on the part of the victim. Aside from the tragedies involved, drowning, which is the second most important cause of death among men and boys is extremely costly to industry. The wage loss, medical expense and overhead insurance cost involved in accidental deaths and injuries in one twelve month period exceeded two billion dollars."

"Each year the accidental casualty list in America is much longer than the list of casualties this nation's armed forces suffered throughout the World War."

SISTER MARY'S KITCHEN

BY MARY E. DAGUE, NEA Service Staff Writer.
These hot August days are bringing—as they always bring—appeals for "something different" to serve. Perhaps you'd like to serve pineapple porkettes.

"The 'porkettes' are splendid for a summer luncheon or supper. Although they present the familiar combination of pineapple and ham, the result is entirely new. With this dish, serve salad Adolph in a tomato jelly ring and, for dessert, an ice cream layer cake with plenty of black coffee.

Pineapple Porkettes To Serve Eight Persons.
Three cups ground ham, 1/4 cup catsup, 1/4 cup evaporated milk, 1 teaspoon dry mustard, 1/2 teaspoon pepper, 3 slices pineapple, 4 cups mashed sweet potatoes, 4 tablespoons butter, 1-3 cup cream, 1 teaspoon salt, 1/2 teaspoon pepper, marshmallows.

Combine ham, catsup, evaporated milk, mustard and pepper. Mix thoroughly and form into small flat cakes the size of pineapple slices. Put a ham cake on each slice of pineapple. After cooking sweet potatoes, put them through a ricer to be sure they are perfectly smooth. Beat in butter, cream, salt and pepper and pile lightly over ham cakes. Place on a well-buttered baking sheet and put in a moderate oven (350 degrees F.) for 30 minutes to cook the pineapple and meat and lightly brown the potato. Then top each serving with half a marshmallow and return to oven for five minutes to puff and brown.

Sweetbread Timbales.
One pound sweetbreads, 2 tablespoons butter, 1 small onion sliced, 1 cup medium thick sauce, 1/2 cup stale bread crumbs, 1 tea spoon salt, 1-8 teaspoon white pepper, 2 eggs, bottled macaroni.

Parboil sweetbreads and chop very fine. Cook butter and onion five minutes over a low flame. Remove onion. Beat yolks of eggs until thick and lemon colored, and beat whites of eggs until stiff. Add white sauce, crumbs and seasonings to sweetbreads and combine with butter. Mix well and add yolk of eggs. Heat over a low flame, but do not let boil. Remove from heat and fold in whites of eggs. Line timbale molds with boiled macaroni, winding it round and round, beehive fashion. Fill with sweetbread mixture and place in a large pan of hot water. Cover with buttered paper and bake 30 minutes in a moderately hot oven (375 degrees F.). Unmold on a large chop plate and pour peas in cream around timbales.

Seven-Day Food Plan

If you're looking for an answer to that kitchen economy problem, try Mrs. Alexander George's planned week of menus and recipes, starting tomorrow in the Pampa Daily News. The author of "Menus of the Day" has worked out a seven-day food budget, with shopping list, that emphasizes the use of leftovers and the saving of time and energy. It will give you many a helpful hint.

MILITANT FRONT IS SHOWN AS TEXAS GOP CONVENTION OPENS

SAN ANTONIO, Aug. 11 (AP)—Texas Republicans stood squarely today and challenged Democracy to come out and fight.

In militant spirit delegates trooped to their state nominating convention, while leaders declared loudly that Texas was "going Republican" in November and the Democratic downfall of 1928 would be repeated. "The situation is not unlike that eight years ago when Texas landed in the Republican column," said R. B. Creager of Brownsville, Republican national committeeman.

He said the Republicans would conduct an active campaign, not only to carry Texas for Landon and Knox, Republican national nominees, but to elect several Republican congressmen.

"We have an especially good chance in San Antonio, where Maury Maverick is the Democratic nominee for Congress," he said.

KEYNOTE SPEAKS.
SAN ANTONIO, Aug. 11 (AP)—Orvil Bullington of Wichita Falls, delivering the keynote address at the Republican state convention, today excoriated the New Deal and called on Texans to help restore common sense government.

He charged that President Roosevelt had challenged the American system of government and repudiated the covenants "which he and his party so solemnly made."

"Never before in the history of the republic," he said in his prepared address, "has any President failed to make an honest effort to perform the promises of the political party which elevated him."

He asserted that the New Deal had formed a gigantic bureaucracy which "under his clever and demagogic leadership threatens even to destroy constitutional government and the human and property rights guaranteed thereunder."

"Subversive" Support.
Political gangsters and racketeers, he declared, have successfully conspired to loot the federal treasury and use the "substance of the people to form the costliest and most corrupt political machine ever set in motion."

"It is a fact that every dangerous and subversive element in American life is supporting the New Deal," he said.

"The Republican party, he continued, offered as a 'substitute for the foolish expenditures of the Democratic administration a program of common sense government,' including adoption of a pay-as-you-go policy.

"We would promote recovery by saving instead of spending," he said. "Institute government by Democracy instead of bureaucracy; withdraw government from socialistic experiments and from competition with private business; demand that public officials perform in good faith their party promises; substitute a program of abundance for one of scarcity; provide decent wages and standards of living by excluding competitive imports produced by pauper labor of the rest of the world."

Pledge a 'Return.'
"We pledge a return to the American system of liberty and freedom with government under the written constitution as against enslaving communism and fascism." While admitting Republicans had

Peru, Colombia Withdraw From Olympic Games

BERLIN, Aug. 11 (AP)—The entire Peruvian delegation will be withdrawn from the Olympic games and will leave for Paris tomorrow as a result of the dispute centering around Saturday's Olympic soccer game between Peru and Austria, it was announced today.

This decision was reached after a wireless telephone conversation between Peruvian Olympic officials and Oscar Benavides, president of Peru.

The Colombians, on instructions by their government, informed the Peruvians they also had decided to withdraw from the games.

They asked whether the Peruvians would play anywhere in Europe before quitting the continent but Michael Dasso, a member of the

New Leader To Greet Troop 4

Emmett Gee, who is to serve troop four as scoutmaster, will meet with Boys Scouts of that troop for the first time tomorrow evening at 7:30 at the Christian church.

Harry Clay will be assistant Scoutmaster and will also be present tomorrow. All members of the troop, boys who have been members in the past, and those who wish to join are invited to attend.

Harry Balogh, New York flier announced, won the plaudits of a London newspaper for his phrase "May the better man emerge victorious," instead of the usual "May the best man win."

For Now and Back-to-School Has White Linen Collar-Cuffs

By ELLEN WORTH

What about some back-to-school frocks for daughters? She'll be wanting them, sure thing!

This smart model cuts in one piece from neck to hem. Pin tucks fit it at the waist. The sleeves cut in one with the shoulders. You've only the collar, cuffs and pockets to add.

Another interesting new scheme is navy blue pique with white trim and red patent leather belt.

It would also be smart in a plaid wool finished cotton.

Style No. 1825 is designed for sizes 6, 7, 8, 9, 10, 11 and 12 years. Size 8 requires 2 yards of 39-inch material with 3/4 yard of 39-inch contrasting.

Our Illustrated Home Dress-making Book contains the latest fashions together with dressmaking lessons and the fundamental principles of sewing. Whether you are an experienced sewer or just a beginner, you will find this book helpful indeed in making your summer clothes. It is just full of ideas to enhance your own looks. You simply can't afford to miss it! Send for your copy today.

It is not the intention of this newspaper to cast reflection upon the character of anyone knowingly, and if through error it should, the management will appreciate having attention called to same, and will gladly and fully correct.

PAMPA'S PROBLEM

With its growing population, one of Pampa's crying needs of the moment is homes. Probably no city of its size in America is more in need of homes than this progressive center of activity in the Panhandle. Lack of available places to house the present population in an adequate manner, to say nothing of taking care of newcomers, presents a problem that must be worked out. Certainly there should not be a lack of faith in the city's future. The question then arises: why does Pampa not have sufficient housing facilities to care for its population?

Continued growth indicates a healthy condition. Persons do not go to a city which does not offer reasonable assurance that it will provide a livelihood for their families. And they ARE coming to Pampa. This fact, alone, should start the civic-minded wheels to clicking in Pampa. Something must be done to take care of a growing population.

With the present outlook, it appears that Pampa is destined for greater than average growth within the next decade. Certainly, there is none in Pampa who wishes to see this growth delayed by a shortage of homes. The problem is vital. It calls for collective thinking on the part of those who are in a position to attempt solution. It is something that should be foremost on the program of every civic organization.

Pampa probably has one of the most beautiful malls of public buildings in the nation. Its official homes are things of beauty. Its residential districts are filled to overflowing with persons who have come here to make their homes, persons who have faith in the future of Pampa and the vast surrounding area.

But, what of the newcomers who match that faith? Where are they to live when they come to Pampa, the city of promise? These are questions Pampa will have to answer. The problem may as well be faced now.

DAILY WASHINGTON LETTER

By Rodney Dutcher

WASHINGTON—State Department folks have been watching the Spanish revolution with the conviction that it has brought the threat of European war closer than in many years.

Not even the most critical days of the Italo-British tension in connection with Ethiopia were considered as likely to be fateful as those in which wire-pullings, precautions, and secret interventions of other nations in the Spanish warfare have been gradually and partially revealed.

It has been learned that the pre-Locarno conference at London July 23 concerned itself largely with the dangers arising from these complications.

Officially, the State Department only knows that the French charge Italian planes have been carrying munitions to the Spanish rebels and that this is denied by Italy. Actually it is aware of considerably more activity, on the part of the Germans as well as the Italians, than it has been publicly indicated.

The British are secretly reported to have between 40 and 50 war vessels in Spanish waters, only a few of which are needed for evacuation of foreign citizens. To Britain its continued domination of the Gibraltar straits is vitally important and the thought of a new Spanish government obligated and influenced by Mussolini is worse than unpleasant.

In France the natural sympathies of a left wing majority for the Spanish workers as opposed to the insurgent military Fascists are coupled with a great aversion to finding France bordered by a Fascist Spain, a Fascist Italy, and a Fascist Germany.

If the Spanish loyalists win, it is believed in Washington, it will be because Mussolini has been scared off from giving the rebels adequate support. One reason there has been hope of that rests in the department's confidential knowledge that Italian troops are having far more trouble in Ethiopia than the world knows.

The radius of pacification around Addis Ababa extends only a few miles and it is figured in the national capitol that Italy probably is unwilling to face an open showdown on the Spanish issue.

Nevertheless, the aspects of class warfare involved have contributed greatly to uncertainty in Washington as to the outcome.

Pilgrims returning from Kansas report that there's some chance of a replica of the Roosevelt-Al Smith feud developing in Republican ranks.

It is reported that ex-Gov. Clyde M. Reed of Kansas may decide to declare for re-election of Roosevelt as against election of Gov. Alf Landon.

Landon was manager of Reed's successful campaign for governor in 1928, when Reed defeated John D. M. Hamilton—now Republican national chairman—for governor. Landon subsequently handled distribution of state patronage for Reed.

But Reed lost out when he ran for renomination in 1930 and a coolness developed between the two men. Reed is generally progressive in Kansas politics—his friends even compare him to Senator George Norris of Nebraska.

Because a Polish family objected, Australian zoo officials hastily changed a bear's name from "Kosciusko" to "Polar," but it still seems named after a Pole.

"Executives in Hawaii take from one to three hours for lunch." Depending, of course, on which waiter serves them.

Paris now is featuring gored skirts. Since the revolt ended bullfighting, however, the young Spanish matador has ceased displaying gored knickers.

Since the Braddock-Schmeling fight will be held in the afternoon, those in the ringside seats won't have to wait for the morning papers to learn the results.

An Olympic star who has broken training the night before still can be useful on the morning after. The pole vaulter can practice soaring over her head.

ANSWERS TO QUESTIONS

Frederic J. Haskin. A reader can get the answer to any question of fact by writing The Pampa Daily News Information Bureau, Frederic J. Haskin, director, Washington, D. C. Please enclose three (3) cents for reply.

Q. How many broadcasting stations are there in the United States and Canada? A. The Federal Communications Commission says that at the present time there are 665 broadcasting stations in the United States. On May 30, 1936, there were 70 broadcasting stations in the Dominion of Canada.

Q. To what extent is travel by bus carried on? H. M. B. A. There are approximately 23,750 common-carrier buses in inter-city operation carrying more than 650,000,000 passengers and traveling more than 1,000,000,000 miles annually.

Q. How much do the American people pay annually in interest? N. M. A. It is estimated that the American people pay for the use of borrowed money \$10,000,000,000 a year.

Q. If a bill is not acted upon by Congress, will it hold over until the next Congress? P. J. A. At the end of a Congress all bills which had been introduced but not passed automatically die.

Q. Who is credited with having possessed the most remarkable memory on record? F. E. P. A. There have been many instances of what may be termed remarkable feats of memory. Justus Lipsius, Belgian scholar, is said to have committed to memory the whole of Tacitus; Macaulay learned "Pilgrim's Progress," and "Paradise Lost," Antonio Magliabechi, librarian to Cosmo III, Grand Duke of Florence, is said to have memorized and reproduced a manuscript that had been lent him to read. Lord Granville was able to repeat the New Testament in the original Greek and Euler, the mathematician, knew all the Aeneid from memory. Others noted for their excellent powers of memorizing were Wallis, also a mathematician, and Niebuhr. The ability to memorize has also been demonstrated in playing chess, notably by Philidor, Harry Pillsbury, and Backhouse.

Q. Dies the queen bee lay both fertilized and unfertilized eggs? W. L. A. The queen bee is able to lay either fertilized and unfertilized eggs according to the size of the cells in which they are developed. Fertilized eggs are laid either in small worker cells or in large irregular queen cells, and developed into queens or workers. Unfertilized eggs are laid in drone cells, and those that develop become drones.

Q. Mine the explorer used a submarine from the United States navy to take to the North Pole? A. G. A. The explorer who used a submarine in an attempt to travel under the North Pole some years ago was Sir Hubert Wilkins. It was the U. S. S. Albatross which had been built for the United States navy in 1918.

Q. What is the Rose Mary Crenshaw Prize in literature? H. M. A. This prize is awarded annually by the British Academy for the best historical or critical work on English literature by a woman of any nationality.

Q. Why do people who have reduced on a diet, gain back the flesh so quickly when the dieting period is over? H. W. A. A dieting period is never over. A wise person reduces slowly and cultivates different food habits. He does not return to the diet which caused overweight.

Q. How many trade associations are there in the United States? W. L. A. There are approximately 7,000 trade associations, of which about 2,500 are national or interstate, 500 are state or regional, and 4,000 are local.

Q. How many osteopaths are there in the United States? D. G. A. There are about 9,000 practicing osteopaths.

Q. When a state wins the Honor Flag for Red Cross membership, where is it kept? J. H. A. It hangs the banner in its capitol in token of victory for that year.

Working For A College Education. Every year thousands of youths abandon the ambition to enter college merely because they are without accurate information as to present-day minimum expenses, or because they fail to realize how many opportunities for financial self-help exist on every campus.

To assist ambitious and determined youngsters "over the hump" this season, the Pampa Daily News offers a timely, service booklet on How to Get a College Education. It carries the latest detailed tabulations on tuition fees, board and room, and incidental expenses in all the principal colleges and universities from coast to coast; scores of practical suggestions on ways and means of financial self-help on the campus.

This invaluable guide is available only through our Washington Information Bureau. Enclose ten cents to cover cost, handling, and postage.

Use This Coupon The Pampa Daily News Information Bureau, Frederic J. Haskin, Director, Washington, D. C. I enclose herewith 10 cents in coin (carefully wrapped) for a copy of the booklet How to Get a College Education.

Name..... Street..... City..... State..... (Mail to Washington, D. C.)

THIS CURIOUS WORLD By William Ferguson

WATER EXISTS IN THREE FORMS! (LIQUID, SOLID AND GAS) BUT WE CAN'T SEE IT IN THE LATTER FORM, SINCE IT IS INVISIBLE STEAM! THE VISIBLE LIQUIDS WHICH WE ERRONEOUSLY CALL "STEAM," REALLY ARE VAPOR.

PLANT STEMS ARE SAID TO BE "GEONEGATIVE" BECAUSE THEY GROW AGAINST GRAVITY, BUT THEIR ROOTS ARE "GEOPPOSITIVE" SINCE THEY GROW WITH GRAVITY. ANTS CARRY COMBS ON THEIR LEGS, WITH WHICH TO CARRY THEIR HAIRY COATS! COMBS SHOWN ABOVE, HIGHLY MAGNIFIED.

THE state in which water exists depends entirely on the temperature. Everyone is familiar with water in liquid form, and as ice, but in the form of gas it is invisible. What we choose to call "steam" is a cloud of fine globules of liquid water which are formed by cooling and condensing invisible steam.

NEXT: How far do bees fly to gather ingredients for one pound of honey?

MAN ABOUT MANHATTAN

By GEORGE TUCKER. Writing a column this year will be much simpler. Madame X has returned, and she is a mine of the sort of information that is looked upon as the lifeblood of New York.

Naturally she knows everybody, how or where she gets so much inside information is one of the exciting things about her. No one knows yet the fact remains that she can hatch legends and anecdotes to names that no one has thought of before.

Who is Madame X? This much am I privileged to tell you—and no more: "You have seen her on the avenue in the Easter Parade, and waving from the decks of the big liners, and climbing out of planes at the port across the river. You'll know her by her peculiar Titian beauty which prompted one producer to predict a glamorous career on the stage for her."

But after one play she inexplicably departed and never set foot on a stage again. At 29, it hardly seems possible that she has been a widow for five years—that she could have visited the places she has known, lost her husband in an airplane crash over the Alps, "returned" to the nightlife crowd she knew, and still look so fresh and delightful.

Madame X does not keep a diary. The record of her life is recorded in the minds of friends she has known here and abroad, and in the thousands of paragraphs which columnists have written with her blessing. A typical example of the careful existence that has led her into so many intriguing situations is a New Year's Eve party in Budapest several years ago.

Whirling delightfully about her was a group of friends from the States and waltzed her young man over to meet them. "This is Eddie, everybody!" she cried in her quick, excited way. "Everybody shake hands with Eddie!"

So everybody laughed and shook Eddie's hand—and Eddie who was then the Prince of Wales, later to become King Edward VIII.

Then there was the time a certain lord wanted to marry her and sent her crates of dozens of orchids. As fast as they arrived she sent them to some girls who worked in a London department store, "because I thought their beaux would be pleased with them." Madame X didn't want to marry the lord, although he was a nice enough fellow. She didn't want to marry anybody else, still she had to do it for the Christmas and also on her birthday, which is at Thanksgiving.

Yes, it is exciting to have Madame X back. More than her clothes or her jewelry or her manner of speaking, she herself is exciting. She is almost tall in her slender, five-foot-six way. She says: "There are Douglas Fairbanks and the former Lady Ashley at the table. Did I ever tell you about the time we went swimming at Monte Carlo? At 3 o'clock in the morning!"

And she tells you reams of trivia so fascinating you wish you were writing a book instead of a column. There are, however, personal little things that she never mentions unless you ask her for them. The answer such as, for instance, the book a well-known novelist dedicated to her, or the time she saved two lives when the yacht on which she was a guest became wrecked on a coral reef in the South seas.

HOW'S your HEALTH

Edited by DR. IAGO CALDSTON in the New York Academy of Medicine. The third molar, that is, the eighth tooth back counting from the middle of the jaw, is commonly called the wisdom tooth.

This appellation does not refer to the tooth, but rather to the years in age during which it erupts. The individual is present and grows up to the time the third molar has erupted.

The tooth itself is anything but wise. On the contrary, it behaves like a degenerate member of the dental family, is the runt of the set, and a trouble maker. Apparently the available space in the dental arches is commonly insufficient to provide room for all the teeth that erupt and since the wisdom tooth is the last to develop, it is denied space, with the result that it either falls to break through (is impacted) or is badly placed.

The complications arising from the abnormal eruption of the wisdom teeth are numerous. In general, the resulting symptoms may be divided into two main groups: first, those symptoms attributable to the pressure which the tooth exercises on the surrounding structures, and the resultant local or reflex irritation; second, those symptoms arising out of the wisdom tooth's special liability to decay.

The second molar bears the brunt of the pressure. The result may be irritation, toothache and facial neuralgia. On the upper jaw, the wisdom tooth may be a source of disease in the overlying sinus.

Because wisdom teeth are so likely to decay and because foci of infection, and because the extrusion of impacted wisdom teeth is a difficult and hazardous operation, leading dental authorities urge that they be extracted when still in the process of formation and before they erupt. It is possible, when the child is 11 or 12, to determine by X-ray the position of the bud of the growing wisdom tooth. If the tooth is badly placed, it is urged that it be extracted. This operation is much simpler and less troublesome than the one which might be necessary later on.

Talks to Parents Wrong Diagnosis By BROOKE PETERS CHURCH. The world has grown a little weary of the psychological patter of amateurs. The phrases, moreover, which were significant when new, have been so misused and abused that they have lost their force. The conditions which they were coined to uncover and overcome are as prevalent as ever. Nor do the people who know the pater best, ever diagnose their own cases correctly.

Rich and Reckless By Mary Raymond

(Continued from page 1) would become tired of a life that was an endless merry-go-round, and then where would you be?

"Golden girl? She could hear Hubert's caressing voice, now. 'Marry me, and you'll dine on strawberries and cream like the good little girl in the nursery rhyme.'"

"No thanks," Molly had retorted. "Strawberries give me indigestion and cream might make me fat. I'm not a good little girl, and I'm too old for nursery rhymes."

Brent Stuart, who had been listening in on one of Hubert's numerous and quite casual proposals, had queried, "What do you want, child? What kind of a girl are you?"

"Don't know, to both your questions," Molly had replied. "I want to find out."

Thinking about Brent's nice matter-of-factness stilled for the moment the tumult in her mind, a tumult started often these days by the sight of flowers and the small white cards with their scrawled messages. These raised interrogatory marks, these small white symbols of a decision she must make soon.

For, of course, every girl should end her debut with an announcement of her engagement. That was what debuts were for! In Hubert's case it was more urgent. It was two years now since her father's marriage to Donna, who was only five years older than herself, Donna was getting sick and tired of a stepmother role. It aged her a bit. Precise, subtle as it was, was being brought to bear on Molly toward a decision.

"Goodness, Molly," Donna had said. "What is the matter with you? Four of the season's most eligible men at your heels and you can't make up your mind. You could draw straws and win a husband any girl would be proud to get."

Molly stirred restlessly on her pillow. It wouldn't be Hubert, who babble things like "Golden Girl" at her. Nor Wick with his casual acceptance of her as a suitable wife. Nor Donald, with his suave flattery and appraising eyes. That, of course, left Brent. Brent, with his teasing, gray eyes, his good-looking, but not handsome face, his slinking manner, his shoulders. The thought of Brent both steadied and stimulated Molly. Strange, but Brent was like that.

There was just one thing wrong with choosing Brent. You couldn't accept a man who hadn't asked you to marry him. Donna didn't know that, and persisted in the theory that Brent was in a sort of delirium about Molly.

But all the time there was Brent with his big-brother-like devotion that might mean something and might mean nothing at all. It was she didn't want it to mean anything. Brent wouldn't call her "Golden Girl." But he'd be certain to call her "child," as he had done ever since Molly was 12 and he was a perfectly maddening and insulting little fellow. "You're going to be called 'child' all her life."

Strangely, he hadn't mocked at the name Hubert had suggested during an intermission at Molly's debut ball. "Golden hair, golden eyes with amber lights, golden skin," Hubert had said softly.

"Sounds Chinese," Molly had laughed. "Not yellow, Golden," Brent had corrected. "You have a sunny kind of skin and it's deeper than gold when you put on tan in the summer."

"Why, Brent? Molly had exclaimed. This from matter-of-fact Brent Stuart!

If he should ever propose and if Molly said yes, she would live in that fine old home of Brent's, with its mellow panelling and gracious air of dignity. A house that was the property setting for the son of a famous architect, who was making a name for himself in the same profession.

The telephone tinkled and she heard Rita, the maid, answering. "Anything better than going over the same ground and getting nowhere—nowhere beyond men and flowers and telephones... and security."

That was it! Molly wanted a dancing current in her life. Something to stir her pulses—not a smooth, endless succession of parties, leading finally to a brilliant wedding.

The voice over the wire was only Hubert's. "Sorry," Molly told him, trying to keep her face from turning red. "I don't feel up to luncheon today. Give me a rain check, won't you, Hubert?"

Just being polite. The conversation of their crowd was always polite and meaningless, when it wasn't spite and stinging. "Sometime I'll be so bored and bitter that the claws will come out. I'll be like Sophy and Barbara and Donna," Molly thought.

You couldn't help feeling sorry for Donna, who had gone hither and yon, after an unsuccessful debut, but had finally attached Dad and his millions. Though perhaps marrying one of the richest men in the country (that was what the newspapers and income tax people said), hadn't been a bad compromise for missing romance.

The telephone again. Molly answered and felt a pleasant, reassuring feeling surging over her. That couldn't mean anything more than devotion, since it lacked the strong, friends he might make, objects to his having interests and making contacts from which she would be excluded. He is not allowed to go to boarding-school or leave home even when he enters college.

She claims that it is all for the child's good. She is trying to build up his self-confidence, to make him feel that he has a place in the world. Actually she is preventing him from making the acquaintance with life, aging him emotionally before his time, cutting him off from companionship with boys and girls of his own age.

In this boy's case, as in so many others, amateur psychology proved a curse rather than a blessing. wind-in-your-ears sensation which any girl knew meant being in love!

"Hi, mutti! I'm coming out." "I won't be taken for granted this way," Molly thought, suddenly militant. Aloud she replied sweetly: "No, you aren't! I'm feeling no so top. Brent, cold and headache."

"Rebellion," declared Brent firmly. "I know the symptoms." Molly laughed. That was the nice thing about Brent. He understood, without being angry.

"Is it a headache, cold and rebellion that will continue until evening?" Brent inquired pleasantly. "Because it occurs to me at the moment that I'm taking you to Peggy Sariyle's dance."

"Good memory," Molly answered. "Your name's on my date book, too. As a matter of fact, Brent, I've decided to skip Peggy's dance."

"You can't do that!" Brent exclaimed. "Besides being a date, it's a special kind of date. You know I always spend your birthdays with you."

"Just an old childish custom," Molly replied coolly. "Anyway, I didn't say I wouldn't spend my birthday with you. I'm counting on your skipping the dance with me."

"Oh, you are," Brent spoke slowly. "Nature, you don't sound very enthusiastic."

"What's on your mind?" "I'm planning to celebrate differently," Molly explained eagerly. "Frances Carter was telling me about that new night club near Beechland—the 'Red Poppy.' Frances said it was terrific."

Retail Trade Is Up 30 Per Cent Over Last Year

WASHINGTON, Aug. 11 (AP)—The Commerce Department reported today a 30 per cent increase in retail trade during the first week in August over the same week a year ago was reflected in the Dallas Federal Reserve District.

For July, the report said, a majority of stores had 35 per cent more business than in the same month a year ago.

Bank clearings of \$40,000,000 represented a decline of 1.8 per cent under the preceding week, but increased 15.8 per cent over the first week in August, 1935.

July employment, the department announced, was 6.3 per cent higher than last year and payrolls increased 11.9 per cent. The statistics were furnished by the Bureau of Business Research.

The report said Texas cotton prospects were better than in 1935 and that bank debits, \$44,300,000, during the first week in August decreased 4 per cent under the previous week but increased 17.5 per cent compared with debits in the same week a year ago.

AROUND HOLLYWOOD

By ROBIN COONS. HOLLYWOOD—Unreal parade: Bing Crosby is a practically kissless romantic actor. Unless Frances Farmer, his latest leading lady, planted a kiss on his lips in his last film—I don't recall that she did—Carol Lombard is the only cinema lady to carry film romance with Bing that far. This was in "We're Not Dressing."

Directors of Bing's pictures say his film kisslessness is the result of bashfulness, not feeling at ease making love before a camera. "Give him an ardent love scene and he'll blush and stammer," one said. "He can be tender in his lines of a love scene to the point where the kiss comes in, then he becomes an awkward school boy."

Actor Now Stenographer. In the stenographic department of the Goldenwyn studio, Armand Claudet, 27, who admits that in European pictures he was Andres Michael, juvenile and player of second leads. In Hollywood after slight film work he became ill, and was up to his ears in hard times when an appeal to a passing executive for coffee coin won recognition and a job. His ambition now is to write, and to establish himself as a juvenile with a foreign accent. There are none now, he believes.

Among the foreign films in which Andres worked was "The Blue Angel" with Marlene Dietrich. Three years ago he tried to see Miss Dietrich but—

"It was not possible," he says. "So many people try to see the stars. Now I understand and do not try any more."

Catfish—New Model. In a scene of "Nantant Is the Word" for Carole Glady's George and Arline Judge were to converse while standing near some cows. They were supposed to speak softly, but the cows moored at the wrong time. Came forward Roy Krueger and Vernon Bain, prop men, to devise gadgets for placing in the bovines' mouths what caricatured taps. They called their invention "moo muzzles."

But earlier in the week these two had cemented their claim to fame. Some catfish were needed in a scene, and after having been brought from a northern river, were lost. And what did they do? These inventive geniuses? Well, they tell us they caught sculpin, and attached whiskers to them with invisible silk.

TRIAL DATE SET. PALESTINE, Aug. 11 (AP)—Authorities in the British mandate set for August 24 the trial of Clyde Hillman and Opal Pierson, Cherokee county men, indicted for the robbery of Isaac Nassis of Fairfield.

"Might as well be tagged 'Molly,' she said.

"Stay home, child, and amuse yourself with this small edition of night life," read Brent's card.

"Child!" Molly's soft, red lips closed firmly. "That's exactly what he thinks I am."

She put Brent's gift back in the big box and closed the top. After a moment she took the miniature theater set again and soon was deeply engrossed in making the tiny actors perform.

"But if he thinks for a moment I'm going to spend my birthday pulling strings, he's mistaken."

Another package followed within an hour. "Wanted to spend your birthday with you," Brent had written on the card. "Since I can't I'm sending a proxy." The package disclosed a photograph—of Brent, of course.

"Of all the conceited 'idiots!' breathed Molly. I suppose he thinks I'll put this on my dressing table where I'll have to look at it every time I powder my nose. Well, I won't!"

A third package arrived at 7. A beautifully bound and rare first edition. "Just to make up for those two terrible gifts, and also to carry you through a lonesome evening," Molly read.

"So he thinks," Molly said to herself, dusting powder on her face, and this time carefully avoiding Brent's steady gray eyes, looking at her from the dressing table.

Brent was a dear and the book was a gem. But she mustn't forget how stubborn and unyielding he had been. It was going to be even more fun tomorrow to tell that obstinate would-be protector about it. How she had not only seen wicked night life, but had rubbed elbows with it.

Wick had said: "Wait and see!" Well, she was waiting.

NO-HIT GAME PITCHED BY HAYS OF SKELLY IN TOURNEY OPENER

KING DEFEATS YOUNGSTERS IN 7 TO 5 GAME

LUMBERMEN ARE ONLY OUT-OF-TOWN WINNERS

Wimpy Hays of the Skelly-Schafer playground ball team opened the first annual Panhandle Playground Ball tournament here by hurling a no-hit, no-run game against the Texas company of Pampa in the opening game at Road Runner park last night as his team took a 6 to 0 victory.

Other victors for the night were Phillips Flyers, girls team, Phillips of Pampa, Cities Service of Pampa, King Oil of Pampa, Voss Cleaners of Pampa and Roberts-Oliver of Amarillo.

The schedule for tonight follows: At Road Runner Park 8:30—King Oil vs. Cities Service. 8:00—Cockrell-Lockey, Amarillo vs. Phillips.

At Smeety-Schafer 6:30—Texas Co. Pampa vs. Baptists. 8:00—Bordens, Amarillo vs. Gulf, Borger.

At Phillips Flyers had two big innings in defeating the Santa Fe Lassies of Canadian, 10 to 7.

Score by innings: Texas Co. 000 000 0-0 0 3 Skelly 122 010 x-6 3 2

At Smeety-Schafer 6:30—Texas Co. Pampa vs. Baptists. 8:00—Bordens, Amarillo vs. Gulf, Borger.

At Phillips Flyers had two big innings in defeating the Santa Fe Lassies of Canadian, 10 to 7.

Score by innings: Texas Co. 000 000 0-0 0 3 Skelly 122 010 x-6 3 2

At Smeety-Schafer 6:30—Texas Co. Pampa vs. Baptists. 8:00—Bordens, Amarillo vs. Gulf, Borger.

At Phillips Flyers had two big innings in defeating the Santa Fe Lassies of Canadian, 10 to 7.

Score by innings: Texas Co. 000 000 0-0 0 3 Skelly 122 010 x-6 3 2

OARSMEN ARE U. S. HOPE IN WATER SPORTS

SECOND BASKET IS DRAWN BY BASKETBALL TEAM

BERLIN, Aug. 11 (AP)—America's Olympic forces, shoved into the background by the Japanese and Dutch yesterday, turned to the oarsmen today for new support.

America's chances, however, were not too bright. The tall, be-spectacled U. S. single sculler, Dan Barrow, Jr., of Philadelphia, faced the Australian favorite, Cecil Pearce, Charlies Campbell of Canada, North American champion, and Gustav Schaefer of Germany, European champion, all in the second heat.

The American four-oared shell was drawn against Germany, the favorite, in its first preliminary heat. In view of yesterday's proceedings at the swimming stadium, Japan seemed almost certain to dominate the day's swimming events, though America had a monopoly on the diving situation.

The United States quartet of Charley Nutter, Ralph Gilman, Paul Wolf and Jack Medica qualified for the 800 meters relay but they were given little chance against a Japanese team which yesterday set a new Olympic record of 8:56.1.

The situation was virtually the same in the 400-meter free style semi-finals, for which the United States qualified, John Macdonald of Yale, Ralph Flanagan of Miami, and Medica.

Again, however, they had to face the Japanese. Shumpet Uto yesterday set a new Olympic record of 4:45.5 in the event and two other Japanese, Hiroshi Negami and Shozo Mankino, qualified in fast time.

Only in the spring board diving competition did the Americans stand out. Dick Degener of Detroit and Marshall Wayne of Miami appeared certain winners in this event.

The four Americans who got in the ring yesterday were still in the boxing competition, now in the second round. They were Louis Laurie of Cleveland, flyweight; Chester Retecki of Chicago, welterweight; and Jackie Wilson of Cleveland, bantamweight.

Women's Tourney Is Started With Close Play

Close matches featured play in the first round of the Women's golf tourney over the Country club course yesterday. Two matches went extra holes and another was decided on the final green.

Mrs. Art Swanson, defending champion, defeated Mrs. Bill Miskim in the 18th hole in a championship flight game. Mrs. Del Love, finalist, easily won from Mrs. Larry Padden, 6 and 5.

Mrs. Mark Heath took a first flight match from Miss Claudia Jeffries, 4 and 3. Miss Virginia Jeffries was forced to go 10 holes to defeat Miss Harriet Hunkapillar in another game.

The second flight saw the longest game of the day when Mrs. Joe Bowers went to the 12th hole to defeat Mrs. W. M. Murphy. Mrs. H. H. Hinkle over Mrs. N. Heiland, 2 and 1, in the other match.

Matches in the championship flight are over 18 holes. Play in other flights is nine holes. The champion will receive the Bill Jarvis trophy now held by Mrs. Swanson. She will play Mrs. Love for the cup. A win for Mrs. Swanson would give her permanent possession.

Winner of the first flight will be given a sweater fringed with consolation prize a pair of hose. The second flight winner prize will be a skirt with consolation a pair of hose.

Indians Win At Laketon After Disputed Play

PLAINVIEW, Aug. 11 (AP)—The first polo tournament conducted in this section will open August 14 and continue through August 16.

Six teams from Texline, Pampa, Lamesa, Lockney and Plainview have entered. The games will be played on a new field near Wayland college.

LAP IS GAINED BY STEERS IN TEXAS LEAGUE

DOUBLE VICTORY OVER INDIANS BOOSTS BIG LEAD

The Dallas Steers lapped the field in the Texas league race and moved nine and a half games in front last night, despite the heat and the Oklahoma City Indians.

The league-leaders applied the scalping knife to the Indians, taking the first game of a double bill 8 to 1, and capping it with a 4-to-1 victory in the afterpiece.

San Antonio continued its late season spurt. The Missions defeated Beaumont in fourth place night above San Antonio, 2 to 1.

Exporters tied the score in the ninth but Melvin Mazzera slapped one over the fence in the Missions' inning.

Houston did as well as it could to hold its second-place post, losing out Galveston 7 to 5. The cellar crows again found old Mike Cveugent too much for them, continuing the jinx he has applied to them in six games.

Fort Worth's Cats defeated Tulsa 12 to 4. In the fifth inning the Cats went berserk with an eight-run rally that snapped a 2-all tie.

Pampa Polo Team Enters Tourney

PLAINVIEW, Aug. 11 (AP)—The first polo tournament conducted in this section will open August 14 and continue through August 16.

Craze For Softball Hits In Southwest

Softball is gradually coming to the front over the nation. In the north and east and on the Pacific coast, softball has been received with open arms for several years.

This writer attended a game in Denver, Colo., last week where 12,000 fans were present. The score was 1 to 0 with the winning pitcher hurling no-hit ball and the loser giving up only two hits.

The Panhandle is now having its first big tournament in Pampa. The teams winning will go to the state tournament in Fort Worth.

George Sisler, former big league ball player, is an ardent fan. Seth Whitmore, well known sports writer, tells about Sisler's playground ball ideas in the following story.

By SETH WHITMORE. George Sisler, former major league baseball star and manager of the St. Louis Browns, sees softball as an established amateur sport that is here to stay.

Sisler became interested in softball a few years ago because he saw the need of a new form of recreation for men and girls—a game that could be played at a time when they do not have to hurry home from their work or school in order to play.

Sisler declares that softball must be run in an amateur way, because any attempt to promote it in a professional or semi-professional way will be disastrous.

"Softball, contrary to the opinion of some people," he continued, "should be a boost rather than a hindrance to baseball. Softball is an amateur game and a new sport, and while it favors baseball to some extent in its playing, it is certainly just a new sport. People who witness softball will become sports-minded, which is a fine thing for any sport."

If softball is kept in an amateur way, and is free from tricky promoters it should continue to increase in the interest of the people from year to year, and will certainly never die out," Sisler adds.

GRIMES SAVES DIZZY'S JOB --LOSES GAME

SPORTING GESTURE IN GAME DROPS CUBS TO SECOND

By PAUL MICKELSON Associated Press Sports Writer

Should the baseball fates give the St. Louis Cardinals the 1936 National league pennant by one game or less over Chicago's Cubs, Charles Grimm probably would go down in the frayed record book as the "good time Charlie" who gave away the flag.

The Cub plot made the sportsmanlike gesture yesterday of allowing Dizzy Dean to remain in the first game of the important Cub-Cardinals series after the pitcher was about to be chased out by umpires for fighting Tex Carleton.

Grimm talked the umpires into letting Dizzy stay, and the Red Bird state proved his gratitude by handcuffing the Cubs, 7 to 3, dropping them to second place.

Brooklyn snapped the Giants' seven-game winning streak, 6 to 5. New York's Yankees, riding along with a seemingly invincible margin in the American League race, absorbed one of their nearest killings of the year yesterday as Washington pounded three pitchers for 18 hits and a 13 to 4 victory.

The Boston Bees rallied sharply in the closing innings to hand the luckless, skidding Philadelphia Phillies their eighth straight setback, 9 to 7. Other teams were idle.

Ten months may elapse before an 82-inch pyrex mirror has been polished and made ready for use in a big telescope at the McDonald observatory in Texas.

Leslie Fenton and Ann Dvorak, his wife, handle their kitchen, Polaris, without other crew.

LET'S KNOW TEXAS AND TEXANS

By WILL H. MAYES

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people.

Q. Where can specimens from petrified forests of Texas be seen?
A. Large petrified forests have been found in the Big Bend section; also in Erath county near Thurber and Bluff Dale and in Starr and other Rio Grande Valley counties.

Q. What is meant by the term "Fishing rodeo"?
A. They are fishing contests rapidly attaining national notice at Texas coast points, notably at Port Aransas, the favorite game being tarpon.

Q. Where was Fort Graham and for what was it noted?
A. On the Brazos river in Hill county, established in 1849 about 14 miles from present town of Hillsboro on the site of the old Jose Maria village where a bloody battle had been fought with Comanche Indians in 1837.

for his leadership in the battle of Resaca de la Palma, May 9, 1846.

Q. What proportion of Centennial visitors are from other states than Texas?
A. Careful checking on several dates shows that approximately one-third of the automobiles at the various expositions are from out of Texas.

S. J. R. No. 18 A JOINT RESOLUTION

proposing an amendment to Section 48, Article III of the Constitution of the State of Texas, authorizing the establishment of Teachers' Retirement Systems, and making an appropriation for the election.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto immediately after Section 48, a section to be known as Section 48a, and to read as follows:

"Section 48a: In addition to the powers given to the Legislature, under Section 48 of Article III, it shall have the right to levy taxes to provide a Retirement Fund for persons employed in public schools, colleges and universities, supported wholly or partly by the State; provided that the amount contributed by the State to such Retirement Fund shall equal the amount paid for the same purpose from the income of each person, and that not less than five per centum of the compensation paid to each person by the State and/or school districts, and shall in no one year exceed the sum of One Hundred Eighty (\$180.00) Dollars for any such person, provided no person shall be eligible for a pension under this Amendment who has not taught twenty years in the State of Texas, but shall be entitled to a refund of the moneys paid into the fund.

S. J. R. No. 3-A A JOINT RESOLUTION

proposing an Amendment to Article 20 of the Constitution of the State of Texas, authorizing the Legislature to provide for local option on the question of the sale of intoxicating liquors for beverage purposes; providing that spirituous liquors, or liquors composed in whole or in part of the products of distillation shall not be sold for private profit, except to the State; providing that the Legislature shall pass laws relative to the sale, possession, transportation and manufacture of such spirituous liquors; providing for the establishment of State dispensaries providing for the manufacture, sale, transportation and possession of all liquors which are exclusively products of the fermentation process; providing that intoxicating liquors shall not be manufactured, sold, bottled, or exchanged for beverage purposes in any county or political subdivision wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws in force at the time of the taking effect of Section 20 of Article XVI of the Constitution of the State of Texas, until a majority of the qualified voters of such county or political subdivision shall determine such to be lawful at an election held for that purpose; providing for an election on the question of the prohibition or rejection of such amendment and making an appropriation therefor; providing for the proclamation and publication thereof; and prescribing the form of ballot.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article XVI of the Constitution of the State of Texas be amended by striking out Section 20 thereof and substituting in lieu thereof the following: "Article 20. "(a) It is hereby declared to be the policy of this State that the open saloon shall not be re-established. The sale of spirituous liquors, manufactured in whole or in part by means of the process of distillation or in whole or in part compounded and composed in part of such spirituous distilled liquors, for private profit, is prohibited within this State except when such sale is made to the State. The State of Texas shall have the exclusive right to purchase and to sell at retail such distilled spirituous liquors. Such sale shall be made only in unbroken packages and no liquors shall be consumed on the premises where sold. The Legislature shall pass laws to prescribe regulations relative to the manufacture, sale, transportation and possession of such spirituous liquors and relative to the establishment of State dispensaries; provided, however, the Legislature shall have the power to regulate the sale for private profit and possession of distilled liquors for medicinal, scientific and mechanical purposes.

"The manufacture, sale, transportation and possession of all liquors, the alcoholic content of which is entirely and exclusively the result of the fermentation process, is hereby authorized under such restrictions as may be authorized by law.

"(b) The Legislature shall enact a law or laws whereby the qualified voters of any county, justice's precinct or incorporated town or city, may by a majority vote of those voting, determine from time to time whether the sale of intoxicating liquors for beverage purposes shall be prohibited or legalized within the prescribed limits; and such laws shall contain provisions for voting on the sale of intoxicating liquors of various types and various alcoholic content.

"(c) In all counties, justice's precincts or incorporated towns or cities wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws of the State of Texas and in force at the time of the taking

publication and election; making an appropriation to pay for same.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article 3 of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as Section 59, to read as follows:

"Section 59. The Legislature shall have power to pass such laws as may be necessary to provide for Workmen's Compensation Insurance for such State employees, as in its judgment is necessary or required; and to provide for the payment of all costs, charges, and premiums on such policies of insurance; provided: the State shall never be required to purchase insurance for any employee.

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State on the first Tuesday after the first Monday in November, 1936, at which election all voters favoring said proposed Amendment shall write or have printed on their ballots the words:

"For the Amendment authorizing the Legislature to provide for the payment of Workmen's Compensation Insurance for employees of the State."

And all those opposed shall write or have printed on their ballots the words:

"Against the Amendment authorizing the Legislature to provide for the payment of Workmen's Compensation Insurance for employees of the State."

Sec. 3. The Governor of the state of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution.

Sec. 4. The sum of Five Thousand Dollars (\$5,000) or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of such publication and election.

The above is a true and correct copy.

R. B. STANFORD
Secretary of State.

REBELS' DRIVE ON CAPITAL IS CHECKED TODAY

Access To Sea Now Is Main Goal Of Fascists

(By The Associated Press)

Spanish loyalists laid down a deafening barrage of shells and bullets in the south today with a single objective which seemed at least partly achieved—stoppage of the rebel drive on the capital city of Madrid.

Apparently repulsed for the time being in the Guadarrama mountains, the doorway to Madrid on the north, the insurgents in turn concentrated a savage attack against loyalist-held communities on the peninsula's northern seaboard.

The deep-throated explosion of shells along the entire front abutting San Sebastian, the Bay of Biscaya seaside resort, and Irun, ostensibly betokened the opening of the rebel attack in the far north which was intended to consolidate rebel control from the Guadarrama to the ocean.

Days ago Gen. Emilio Mola, northern Fascist commander, withdrew troops from the Guadarrama front, where they were sorely needed, in favor of the drive on San Sebastian and other far northern communities.

The ultimate goal is ready access to the sea, which means arms, ammunition and incidentally a bolstering of rebel morale.

Government troops crumbled one section of the rebel lines in the south to capture the strategic town of Adamuz, 21 miles northeast of Cordoba, fresh onslaught against Cordoba, important provincial capital, was imminent.

Aiding the government in the south were leftist warships which have kept up a running fire against the troop transports of Gen. Francisco Franco's revolutionaries.

Corn Crop Will Be Lowest Since 1881 This Year

WASHINGTON, Aug. 11 (AP)—A government estimate that the 1936 corn crop will be the smallest in 55 years served as a guide today to federal relief moves in the drought area.

The yield of 1,430,135,000 bushels, estimated by the Crop Reporting Board late yesterday, is the lowest since 1881.

Secretary Wallace and other administration officials who had anxiously awaited the forecast immediately proceeded anew with relief plans.

There was some speculation as to whether President Roosevelt might use his powers under the tariff act to reduce the 25 cents per bushel tariff on corn imports or eliminate it on specific purchases for drought needs.

Another move included in the forthcoming tour of nine states by the great plains drought committee, Morris L. Cooke, chairman of the long range planning group named by the President, said the committee would leave the capital this weekend and would start a motor tour from Texas next Tuesday.

LATE NEWS

APPEAL IS MADE
WASHINGTON, Aug. 11 (AP)—A new appeal to Americans to leave the danger zone of the Spanish revolution was dispatched today by William Phillips, acting secretary of state.

FASCIST CHIEF EXPELLED
MEXICO CITY, Aug. 11 (AP)—The chief of the Mexican "Gold Shirts" Fascist organization, was expelled from Mexico today when he was put aboard an airplane bound for the United States. The veteran military man who headed the rightist group, General Nicolas Rodriguez, was arrested last night.

All South Is Hot
(By The Associated Press)

The deep south felt scant relief today from sweltering temperatures, blustery winds that caused property damage in scattered sections, thunderstorms and a roving tropical disturbance in the Gulf of Mexico.

The New Orleans weather bureau, in its latest advisory, said the disturbance was about 200 miles east-southeast of Corpus Christi, Tex., apparently curving southward, but was only moderate in intensity.

Baltimores were hit by a tornado that killed more than 200 persons earlier this year, were frightened by stiff winds which caused property damage of several thousand dollars. Winds also caused damage in the vicinity of Laurel, Miss. No injuries were reported in Mississippi.

SUMMARIES AT BERLIN

GRUNAU, Germany, Aug. 11 (AP)—The United States fourth with co-swin, made up of Harvard oarsmen, was badly beaten in the second heat of the Olympic regatta today, finishing tied with Poland for fourth place four lengths behind the Germans, who are defending the title.

The Teutons were clocked in 6:41.1 seconds, nine and four-tenths seconds faster than the Americans. France was second and Yugoslavia third.

The Americans were unable to match the powerful German crew's pace at any stage.

Consolation rounds which were scheduled for Thursday, will give the Americans another chance to reach the finals for which only today's winners qualified but they need to show much improvement.

Switzerland easily won the third heat, running smoothly throughout in 6:41.9, beating Italy by four lengths. The Italians were timed in 6:50.2; Hungary 6:58.8; Uruguay 6:59.8, Belgium 7:08.5.

BERLIN, Aug. 11 (AP)—Unofficial team point scores in Olympic swimming competition (on 10-5-4-3-2-1 basis):

Men's swimming, Japan 25; United States 25; Hungary 14; Germany 7; France 3; Great Britain 1.

Women's swimming, Holland 17 1/2; Germany 11 1/2; Japan 10; Argentina 5; Denmark 4; United States 1; Great Britain 1.

Hot Day Brings More Visitors To Centennial Ground

DALLAS, Aug. 11 (AP)—The Centennial exposition has found heat is a spur to attendance. The reason: many of the buildings are air-conditioned.

Yesterday 30,466, considerably above the usual Monday attendance, trooped into the grounds. Officials reported the air-cooled exhibits and lounge rooms drew the biggest throngs.

Officials and employees were to halt their activities for five minutes today in homage to the late W. A. Webb, general manager who piloted the Centennial to success. A memorial day will be set aside in his honor. It probably will be held in September.

Yesterday's attendance brought the grand total to 2,706,775.

Sports Roundup

Associated Press Sports Writer
NEW YORK, Aug. 11 (AP)—They say Joe Louis still is a sucker for a right hand punch . . . tops in excuses: Lalo Jamarillo, catcher in the Central New Mexico league, was unable to go behind the bat the other day . . . his manager explained Lalo sprained his back shooting dice.

The Brooklyn Dodgers may be sold any day . . . In Pete Sliques, young right-hander from Dickinson College, the Phillies think they have another Dizzy Dean in the making . . . Old Hugo Quist, who trained Paavo Nurmi (and who should know) still insists Ben Eastman can be developed into the greatest miler of all times . . . Vernon Kennedy of the White Sox was the first American League twirler to check in with ten straight victories.

One of the freak bets laid on Broadway yesterday was \$1,000 to \$15,000 that Lou Ambers will stop Tony Canzoneri in the first round, Sept. 3 . . . Shanty Hogan, former Giant and Boston "B" catcher, says Bill Terry would have been a greater home run hitter than Babe Ruth if he had trained himself to be a pull hitter . . . The pro footballers are taking a tip from the colleges: for the first time in years the New York Giants will use a tackling

dummy and charging the line when they begin training next Monday.

Frank Bassett of the Culberson-Smalling Chevrolet company underwent an emergency appendectomy at Pampa-Jarratt hospital last night.

Upsets Feature Women's Matches

RYE, N. Y., Aug. 11 (AP)—Two upsets marked the women's play in the eastern grass courts championships here today.

Miss Dorothy May Sutton Bundy of Santa Monica, Calif., eliminated Dorothy Andrus of Stamford, seeded sixth, to slay in the quarter final round. The score was 6-2, 10-8.

Mrs. Ary Lamme of Rye, winner last year, fell before Mme. Sylvia Henrotin of France by 6-2, 6-0, in the second surprise.

Another unlooked for result came when Dorothy Workman of Los Angeles defeated Norma Taubale of New York City, seeded seventh. Miss Workman, extended by the New Yorker, took the opening set, 6-3, and the second, 6-4.

CHICAGO GRAIN

CHICAGO, Aug. 11 (AP)—Late rallies in corn prices today carried the market up to an overnight rise of 2 1/2 cents a bushel, surpassing early top figures.

The renewed output of corn led, however, to a fresh outbreak of profit-taking sales. At the last, 500,000 bushels were in some cases off more than 1 1/2 cents from the top.

Corn closed nervous, 1/2 to 1 cent above yesterday's finish, Sept. 1.08 1/2-1.09, Dec. 93 1/2-94, wheat 2 1/2-2 3/4 down, Sept. 1.08 1/2-1.09, 1.08 1/2-1.09, oats unchanged, 70 1/2-71, higher and provisions unchanged to a rise of 12 cents.

GRAIN TABLE

Wheat	High	Low	Close
Sept.	1.08 1/2	1.08 1/4	1.08 1/2-3/4
Dec.	1.01 1/2	1.01	1.01 1/2-1/4
May	1.10	1.07 1/2	1.07 1/2-3/4

NEW ORLEANS COTTON

NEW ORLEANS, Aug. 11 (AP)—Spot cotton closed steady, 10 points up. Sales 221; low middling 11.00; middling 12.25; premium middling 12.85; receipts 1,175; stock 261,898.

Twenty-four students at Oklahoma A. and M. college made a straight A average in all their work during the past semester.

Eskimos Starve On Arctic Rim

BARROW, Alaska, Aug. 11 (AP)—Dr. Henry W. Greist, Presbyterian medical missionary, said today 500 Eskimos on the arctic rim were on the verge of "actual starvation." One native died of hunger.

Dr. Greist said the natives are eating shoes, boots, tundra, skin coverings from boats and animals that had been dead for a "considerable length of time."

Joe Arney, Dr. Greist said, died shortly after bringing his emaciated wife and children on a long, foodless trek from the interior to the coast where other Eskimos divided their bread with them.

Arney was too near death and could not be saved.

Washington Gets City Information

Information about Pampa and environs will be forwarded this week to Washington for inclusion in the U. S. Constitution Sesquicentennial Commission's plans for celebrating the sesquicentennial anniversary of the formation of the Constitution.

Postmaster C. H. Walker today was filling out a questionnaire sent to him by Sol Bloom, commission secretary.

The questionnaire will list Pampa officials, prominent citizens and contain a brief history of the community.

Nitro To Fight Blaze At Gusher

BEAUMONT, Aug. 11 (AP)—An attempt to stem the blazing Brooks No. 1 gusher near Silsbee with a shot of nitroglycerin will be made this afternoon.

Balders were being fired by two crews in order to have steam to play upon the well should the explosive method be successful.

The sinking of a "directional" hole from a location 750 feet away also was continued by the Republic Production company in another effort to choke off the oil and divert its course.

Chinders from the 200-foot level were blown by the wind 10 miles from the scene. Several residents of Woodrow, an addition of Silsbee, reported their water wells were being ruined by oil seepage.

The Brooks gusher blew in last Wednesday and caught fire Friday.

ALL RECORDS BROKEN

Heat broke all-time records yesterday at Paris, thermometers going to 115. W. B. Morris said cotton on thin land, feed, truck gardens and pastures were damaged.

San Antonio had a maximum of 103.6 and Austin the hottest night of the summer with a 104-degree

CRUDE OUTPUT UP

TULSA, Okla., Aug. 11 (AP)—The nation's production of crude oil increased 8,854 barrels daily during the week ending Aug. 8, the Oil and Gas Journal reported today. Total daily production for the week was 2,959,624 barrels.

Oklahoma's production decreased 8,775 barrels daily to a total of 532,300 while East Texas showed a decrease of 4,289 barrels daily to a total of 438,147 barrels.

Production in the total state of Texas was 1,161,111 barrels daily, an increase of 5,098.

California's increase of 24,840 barrels daily was the greatest of any of the major producing areas.

Kansas' production was 139,650 barrels daily, a decrease of 16,375 barrels, while in the eastern fields, including Michigan, increased 4,976 barrels daily to a total of 143,224 barrels daily.

The Rocky Mountain section produced 61,200 barrels daily, an increase of 1,420 barrels daily.

KIWANIS DIRECTORS MEET

Plans for the Kiwanis club safety program and underprivileged children's campaign during the school year fast approaching will be studied tonight at a directors meeting in the Schneider hotel at 8 o'clock. President W. V. Jarrett has issued a call for all directors to be present to discuss the important work.

COLUMN
(Continued from page 1)

stuff, looks like here's a splendid opportunity for a speedy, snappy vacation for someone who wishes to take a cool trip in a hurry.

By the way, the Boy Wonder of N. West street swallowed quite a bit of the Pampa Sunday News the other day while nibbling on Page One.

On checking up with a doctor, it was learned that he'd probably be all right soon unless it developed that what he swallowed was some of this column. The nerve of some doctors!

Taps Sound For Webb At Dallas

DALLAS, Aug. 11 (AP)—Three taps sent the plaintive notes of "taps" floating over the Texas Centennial central exposition grounds today when the family and close friends paid last respects to W. A. Webb, general manager.

At the end of the mournful toll the muffled reverberation of a bomb brought sighs and merrymakers to an abrupt halt. There followed for five minutes the tolling of bells from Socorro mission, the only sound on the grounds.

Street cars in all parts of the city halted for the period. Flags stood at half mast in all sections.

Wichita County Farmers Said Cotton On Dry Lands Was Seriously Damaged

Wichita county farmers said cotton on dry lands was seriously damaged by heat and drought, but in irrigated sections the crop was flourishing. Stockmen said ranges were suffering and they would be forced to begin feeding if rain did not fall within a few days.

At Corsicana farmers reported no damage. The San Antonio area was likewise unaffected.

County Agent G. F. Gray at Sherman, said he believed one-third of the cotton would not mature and late rains were ruined. Other areas reported deterioration, but conditions not as yet critical.

Fort Worth bureau heat was the highest in 29 years and Dallas set a record.

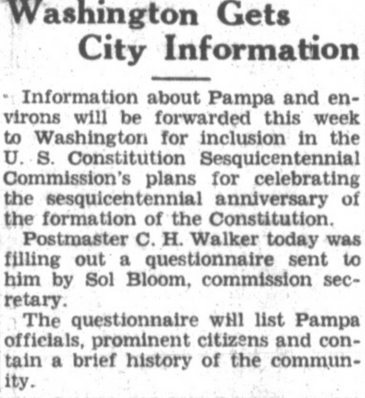

Wallace Lamar, 61, died of prostration near Grafrod. Cy Kennard, 26-year old negro janitor, died in a Fort Worth office building. Earl Marcus Barnes, 69, perished from heart trouble as he tried to revive his wife, who collapsed from the heat. A Dallas negro died from the heat.

All records broken

Heat broke all-time records yesterday at Paris, thermometers going to 115. W. B. Morris said cotton on thin land, feed, truck gardens and pastures were damaged.

San Antonio had a maximum of 103.6 and Austin the hottest night of the summer with a 104-degree

CHAMPION DIVER, Mickey Riley says: "Camels help my digestion. I enjoy them at my meals and afterwards. Boy, Camels have a great taste!" Camels never get on your nerves—never tire your taste.

WE QUOTE:
The Wife: "I like your hat; it looks nice."
The Husband: "I just had it cleaned."
