

Saint Nick to Be in Pampa Tomorrow for Big Yule Parade

There'll Be Candy For All Children

Chambers Before Grand Jury 2nd day

Bringing up the rear, but far the most popular person in tomorrow's "Flight of Santa Claus" parade, will be jolly Old St. Nick himself. He will leave his reindeer at the North Pole, fly to Pampa and ride in one of the Pampa fire trucks during the parade given in his honor.

Santa is expected to arrive in Pampa early tomorrow afternoon. His plane, which was chartered from the North Pole directly to Pampa, will circle the city from 1:30 to 2 p. m., before he lands at the airport.

Fire Chief Ernest Winborne will meet Santa and bring him to town to be in the parade. He will fill his pack with candy at the North Pole to throw out to the children during the parade.

Committee Asks Right to Testify

NEW YORK—(AP)—Another day of questioning before a spy-hunting federal grand jury today confronted Whittaker Chambers, confessed courier for a pre-war Communist espionage ring.

Chambers testified before the grand jury at length yesterday and was closeted until early this morning with members of the House Un-American Activities Committee, who hastened here to talk with him.

Chambers' appearance before the grand jury coincided with the committee disclosure that the ex-Communist previously had accused Alger Hiss, former State Department official, of slipping him "restricted" documents for delivery to a Russian agent.

The New York Herald Tribune said today that Rep. Richard M. Nixon, (R-Calif.) chairman of the House Un-American Activities Subcommittee which came here, had disclosed he will ask the grand jury for permission to appear before it.

Nixon, the newspaper said, wants to submit information he and other members of the committee have about the controversy involving Chambers and Hiss.

If allowed to testify Nixon will ask the jury to urge appointment of a special assistant attorney general in the case, according to the Herald Tribune.

In Washington yesterday, Nixon told reporters that the committee received from Chambers three documents in Hiss' handwriting. He said they have been submitted to a government handwriting expert. (See COMMITTEE, Page 9)

TOMORROW'S THE BIG DAY

1. Santa's Parade at 2:30—starting at W. Foster at Ward, down W. Foster to N. Frost, on Frost to Browning, on Browning to Cuyler, south on Cuyler to Thut, west on Thut to Russell and north on Russell to Port Worth and Denver Station.

2. All schools will dismiss at noon and buses will run at that time.

3. Children may register for gifts at the FVW-Legion Hall until noon. Winners will be posted in store windows immediately following the parade.

4. The members of the Goodfriend Club have been elected. Look for their pictures in store windows tomorrow afternoon.

The Parade will start on W. Foster at approximately 2:30. It will go north on Frost to Browning, east on Browning to Cuyler, south on Cuyler to Thut, west on Thut to Russell, north on Russell to the Ft. Worth and Denver station where it will be conducted. Buses will be on hand at the station to take the participants back to town.

Two 20-inch jeweled bronze trophies on two-tone walnut and sycamore bases will be presented to the best floats. One trophy will be awarded to the Biblical class, the other to the other in the general Christmas theme class. Judges will be stationed along the route of the parade.

Roy Lewis will serve as parade marshal.

Forty-four entries in the parade will make this year's the biggest yet staged in Pampa. Entries will form at their respective places at 2 p. m. so the parade can get underway at 2:30 p. m. on the dot.

The first section of the parade will be the parade between W. Foster and W. Kingsmill. Under the direction of Zello Osborn, section one includes Police escort, led by Louise Allen, American Legion Color Guard, Harvesters Band, Girl Scout Troop 24, Home Demonstration Club, Amarillo Choir, Twentieth Century Clubs, Letors Choir and Girl Scout Troop 28.

Meeting on Purviance between W. Kingsmill and W. Francis will be section two of the "Flight of Santa Claus" parade, under the direction of Hueylyn Laycock. Included are Rainbow Girls, Catholic Auxiliary, Pampa High School Choir, American Legion, Spearman Choir, Boy Scout Troop 80, White Deer Band, Girl Scout Troop 24 and Sorority.

Under the supervision of Dale Pinson, section three of the parade will meet on Ward between W. Foster and W. Kingsmill. It will include Borger Band, Business and Professional Women, Girl Scout Troop 11, Pampa High School and K of P Junior High School. (See PARADE, Page 9)

33 Survivors of Crash Plane Rescued From Mid-Pacific

H. PARR ARMSTRONG, secretary and director of the Christian Church Laymen's League of Texas, will be the principal speaker at 7:30 p. m. today at the Pampa First Christian Laymen's League banquet. His headquarters are in Dallas. He was formerly secretary of the Oklahoma Laymen's League.

HONOLULU—(AP)—A Navy aircraft carrier last night rescued 33 exhausted survivors of a mid-Pacific plane crash, ending a dramatic 40-hour air-sea search.

The Air Force men were picked up in shark-infested waters from two overcrowded life rafts.

Four others were given up as dead.

Today the Navy issued a list of the 33 men picked up by the escort carrier Rendova in rolling seas. It did not include the names of those four men, previously listed as among the 37 passengers on the ill-fated Air Force C-54 transport.

Staff Sgt. Joseph L. Smith, Stockton, Kans.

Staff Sgt. William A. Colvin, Jr., Cross City, Fla.

Sgt. Robert C. Harrell, Milledgeville, Ga.

Sgt. Charles T. Millapaugh, Port Jervis, N.Y.

The survivors were all in an advanced state of exhaustion from 40 hours on or clinging to the life rafts. Two were unconscious and had to be hoisted aboard the carrier in a boat. Almost all the others had to be helped aboard the Rendova.

All 33 were crammed on or around two life rafts, each built to accommodate only seven men. Those two rafts were all they could find and inflate after the plane "ran out of oil and altitude" and crashed into the ocean 1200 miles southwest of Honolulu in the early darkness last Sunday morning.

Two rafts were lashed together. Lt. Col. William R. Calhoun of Birmingham, Ala., the plane's pilot, reported in a radio-phone interview from the Rendova.

While sharks circled them, the men took turns hanging on the outside of the rafts in the ocean, or resting on the crowded surface. At one time, the pilot said, 18 men were packed onto his raft.

All of the men got seasick. But they were always confident of rescue. Nevertheless, Calhoun issued rations gingerly, ready to stretch their supplies over five days.

Each man was limited to only three sips of water until rescue planes sighted them in mid-afternoon yesterday and dropped additional supplies.

The rescue plane found them (See SURVIVORS, Page 9)

'WANT-AD' BABY — Barbara Holt, above, treated for a cold in an Indianapolis, Ind., hospital while social workers tried to figure out what to do with her. Barbara's 16-year-old mother, Doris Holt, held in a juvenile detention home, said she gave the child a couple for adoption in answer to a newspaper ad, but they returned her when she became sick. The couple, however, claimed they returned Barbara because her mother kept asking for her. The nine-month-old baby appears none too happy over the situation.

PEARL HARBOR—(AP)—Hawaii was more interested in the rescue of 33 Air Force men from the mid-Pacific than it was in today's seventh anniversary of Pearl Harbor.

But from elsewhere came remembrances, and strange coincidences.

(In Tokyo today Prime Minister Shigeru Yoshida called on Parliament to support his government "for the rehabilitation and recovery of the Japanese empire.")

Three members of Parliament into a turmoil. And a Socialist rebuked him for use of the once familiar word "empire." It was the empire Japan was trying to expand when it bombed Pearl Harbor Dec. 7, 1941.

In Washington, Madame Chiang Kai-shek, wife of China's President, issued a statement in remembrance of "this sacred day" and the dead who "gave their lives for human liberty." She said:

"May we, the living, do everything we can to forestall another world war and to prevent further enslavement of mankind."

In San Diego, Calif., the newly formed "Veterans of Pearl Harbor" will meet. Adm. Frederick C. Sherman, retired, will be the main speaker.

Formal anniversary services in San Diego were scheduled aboard the seaplane tender Cordia, a veteran of the 1941 attack.

But in Pearl Harbor itself, seven years have dimmed the memory and the scars of the attack.

Tie Broken To Save 7 Jap Warlords

WASHINGTON—(AP)—A dramatically broken Supreme Court tie gave seven former Japanese warlords a new lease on life today—the seventh anniversary of the day of infamy they helped plot.

Splitting five to four, the tribunal agreed yesterday to consider whether it can pass on the findings of the international court in Tokyo which doomed the men to hang as war criminals.

Justice Robert H. Jackson, who took leave from the bench in 1945 to prosecute Nazi Germany's war criminals, cast the deciding vote because, he said, "the issues here are truly great ones."

In earlier appeals to the tribunal from war crimes sentences meted out by American military courts in Germany Jackson held aloof because of his role at Nuremberg as chief allied prosecutor. In those cases the Supreme Court divided 4 to 4 and because a tie vote denies an appeal—the sentences never were reviewed by the tribunal.

In no event will the court pass on the guilt or innocence of the (See WARLORDS, Page 9)

3 of Stolen Fur Coats Recovered

PANHANDLE—Three fur coats, part of the loot from the Sept. 19 burglary of the Santa Fe station at Skellytown, have been recovered in Denver, Kansas City, and Chicago, Carson County officers said.

More than 37 burglaries have been attributed to a ring of 11 persons who have operated in a number of the smaller communities of Kansas, Texas, Oklahoma, and Colorado during the past two years.

One of the ring is alleged to be Frank C. Donovan, now being held at Tulsa. His wife, Mrs. Martha Eliza Donovan is being held in the Carson County Jail here.

Acting on a tip from Mrs. Donovan, Sheriff Clarence Williams went to Denver to make a recovery in the Skellytown burglary.

In Denver, he called on a fur dealer and fight promoter who showed a bill of sale of \$400 for the five Skellytown coats. The transfer was signed by one of the alleged gang.

The coats had already been disposed of, Williams learned. Two had been given to wives of fight promoter friends in Chicago, the other in Kansas City. The other three had been sold to a Denver ladies' clothing store.

One of the coats had already been sold to a young lady in Denver, who had to return it to the authorities. It was her first fur coat.

The other two women mailed their coats to Denver, where they are now being held as evidence by the FBI. The fur dealer faces federal charges of concealing interstate stolen property.

Doctor Advises Parents Not to Lie to Children

DALLAS—(AP)—Don't tell your children little white lies about Santa Claus, a psychiatrist advised parents yesterday because you may be planting the seeds of juvenile delinquency.

Dr. Rudolf N. Bollmeier of Hot Springs, Ark., presented a paper at the annual meeting of the Southern Psychiatric Association here Monday.

Truths about Christmas or the Easter bunny or the facts of life can cause Junior to lose his trust in Mom and Dad and that can have tragic consequences, said Dr. Bollmeier.

He isn't for tossing Santa Claus out in the cold altogether.

"Let your child in on the true spirit of Christmas from the start. Let him help you trim the tree. Tell him that we pretend there's a Santa Claus but let him know we're just pretending."

Dr. Bollmeier said the questions a youngster asks—and the answers he gets—are immeasurably important.

"One of my neurotic patients believed until she was 10 years old that her parents got her at the grocery store, as a premium with a pound of coffee," he said.

Rites Today for F. Walter Nickell

PANHANDLE—(Special)—Funeral services will be held at 2 p. m. today at the First Baptist Church here for F. Walter Nickell, 67, who died unexpectedly Sunday afternoon while working under his house. He was a victim of heart attack.

Mr. Nickell died a few minutes after city firemen had cut a hole in the floor and removed him. His plight was discovered when a member of his family got no response from him when he was called.

A resident of this city since 1926, he and his family came here from Fort Worth. He had been grade school custodian for 16 years.

Besides his widow, he leaves one son, Melvin, Borger; three daughters, Mrs. Nell Beat, Hereford, Mrs. J. B. Bennett, Warren, Ind., and Mrs. Walter Dittberner, Panhandle; one brother, George, Lawton, Okla.; and four grandchildren.

Services will be under arrangement of Blackburn-Shaw, Amarillo.

Gray Co. Shows Interest In New Water Authority

Representatives of 10 Panhandle counties, including one from Gray, took the first step in an Amarillo meeting yesterday in reactivating the Board of Panhandle Water Authority. The Pampa City Commission, meeting with the Gray County representative, Reno Stinson, was expected to take action on the Amarillo meeting in a noon session today.

The county is interested principally in effecting repair of the spillway at Lake McClellan, one of several lakes constructed during the late '30s when the board was active.

Stinson was at the Amarillo meeting as a Gray County alternate director of the defunct board. County Judge-elect Bruce Parker is active member, but it was not possible for him, on incumbent Judge Sherman White to attend the meeting yesterday.

The directors at Amarillo set a general meeting date for Jan. 11, when new officers will be elected and action on the following five-point program will be taken:

1. Urge the building of a dam on the Canadian River, near Sanford.
2. Or on the south part of the Red River, near Memphis. (A site at each location has been under study.)
3. Confine the board's program to the conservation of surface water.
4. Seek out new dam sites.
5. Improve and repair existing dams.

Besides passing resolutions implementing those five points into a working program, the directors agreed to write the U. S. Army Corps of Engineers requesting that an impending unfavorable report on the Canadian River dam proposal be withheld permanently. This action is being pleaded on the ground that there is progressive need for municipal water supplies by various cities in the Panhandle, principally Amarillo, Borger and Lubbock.

The Board of Panhandle Water Authority was created by action of the Legislature May 3, 1937. It was very active in the late '30s, during which Lake McClellan and other reservoirs were constructed.

Trophies Merit of Much Hard Work

The four trophies, now on display in Zale's window, to be awarded to the best floats in tomorrow's parade, best commercial window display and best decorated home, merit much hard work.

The commercial trophy must be won by a local business establishment for three consecutive years in order to become a permanent possession. However, the other three trophies become permanent possession after this year's judging.

Three of the trophies, that will go to the two classes of the parade and best commercial window display, are 20 inches in height from the two-tone walnut and sycamore bases to the tip of the Winged Victory jeweled bronze statues. The plaque for the best decorated home is 14 inches tall and has embedded upon its genuine American walnut base a Supremacy statue.

Red Cross Chapter Plans to Reinstate Home Nursing Plan

The Pampa Chapter of the American Red Cross will attempt to put the home nursing program back into operation. Mrs. W. R. Campbell, chairman, said this morning.

The local chapter of the Red Cross has not had any activity in the home nursing program since the war. Mrs. Campbell said there have been many requests for this program to get underway again.

"Many of the new mothers have a great need for this training and we hope to be able to arrange a nursery for those young mothers to attend, even if they do not have someone to leave their children with," Mrs. Campbell said.

Three graduate nurses have volunteered to teach these classes. Mrs. Paul Hill, executive of the local chapter, said.

"We hope there will be other volunteer nurses if there is need for additional classes," she said.

The classes will be held in the mornings, afternoons and evenings to give the young mothers chances to attend. Classes will have only ten members so the students may learn by doing, as well as by seeing each step covered. The training period will be 12 hours.

Also, the new nursing enrollment chairman, Mrs. Minnie Groves, R. N., has asked all registered nurses in the county to enroll with her so she will have a complete list of graduate nurses. With the list completed, she will know how to contact the nurses if there should arise a need, such as an epidemic, or local disaster.

Mrs. Groves encourages young women to enter training in the nursing profession, for Gray County does not have nearly enough nurses to serve its needs.

"There will be a graduate nurse here from St. Louis to aid in this training program," Mrs. Hill said. "We would appreciate hearing from all women who would like to attend these classes."

Marshall Has Operation at Walter Reed

WASHINGTON—(AP)—Secretary of State Marshall was operated on for a kidney ailment today at the Army's Walter Reed Hospital. Hospital authorities reported the operation was successful.

The eventual results of the operation may determine whether the 67-year-old Marshall will remain very much longer as President Truman's secretary of state.

The State Department announced that the operation was performed and the hospital then reported:

"The operation was successful. The secretary is doing excellently. No complications are anticipated."

Both the State Department and hospital called it a "kidney operation." Neither would say specifically what the trouble was or how serious the operation was considered.

With typical thoroughness, the secretary had laid down exactly the arrangements for handling news of the operation. Under the plan the State Department could give no information except that it had been performed. All condition reports had to come from the hospital.

Marshall will be 68 years old Dec. 31. He has been secretary of state since January, 1947. Before that he ran the American Army as chief of staff and helped plan this nation's global strategy against the Axis.

His most intense years of work (See MARSHALL, Page 9)

YULETIDE SNOOPING

Notice the 22-foot Christmas tree on the City Hall lawn is tilting a little to the east. Let's hope we don't have any more strong winds until after Christmas or our leaning tower of Pisa," will bite the dust.

City Tree Erected

Notice the 22-foot Christmas tree on the City Hall lawn is tilting a little to the east. Let's hope we don't have any more strong winds until after Christmas or our leaning tower of Pisa," will bite the dust.

Messiah Rehearsed

Enil F. Myers, general Messiah conductor of six Panhandle towns, instilled much enthusiasm in the local group last night. He came to Pampa to direct last night's rehearsal and from the way it sounded, he can count the 1948 Messiah performance superior.

Kiddies Register

Seems there are now 133 local firms participating in the children's free Christmas gifts. The largest groups to contribute are Madeira School of Dancing, Pampa Office Supply and Mitchell's Grocery. Kiddies may register until 5 p. m. today and from 9-12 noon tomorrow. Winners will be determined at noon tomorrow and their names placed in downtown windows immediately following the parade.

Dec. 31 Last Day to Pay City Taxes

December 31 is the last day or city taxpayers to take advantage of the discount allowed on the first quarter's payment of 1949 taxes. Aubrey L. Jones, city tax collector, said today.

The first quarter's payments become delinquent on Jan. 1, he said.

After each payment becomes delinquent the 2 percent discount allowed for early payment is cancelled and a penalty of 5 percent is added. After Feb. 1 an interest charge of 6 percent, in addition to the penalty, will be charged.

There are two tax payment plans available to city taxpayers, designed to make paying taxes as convenient as possible, Jones explained.

Under the first plan, the total tax may be paid at one time, in which case a discount of 2 percent will be allowed if the tax is paid before Dec. 31.

Should the taxpayer decide that it would not be convenient to pay his tax in a lump sum, he may elect the payment plan.

Under the second plan, if the total tax amounts to \$4 or more, it may be paid in four equal installments, the first of which must be paid before Dec. 31. The second installment is due before Feb. 28, the third by May 31, and the fourth by July 31.

If these four payments are made on or before these deadlines, a discount of 2 percent will be allowed on each installment.

Should the taxpayer fail to pay his tax by the deadline, each of the four installments becomes delinquent on the first of January, March, June, and August, 1949, the day after the deadline.

As each payment becomes delinquent, a penalty of 5 percent is added for late payment plus an interest charge of 6 percent per year, computed from Feb. 1, 1949.

No split payments are allowed if the total tax bill is less than \$4. These small tax bills become delinquent on Feb. 1, 1949, and (See TAXES, Page 9)

Girl Scouts Play Christmas Early

Girl Scouts of Troop 22 are showing Christmas spirit early. Mrs. E. Thornton, executive of the Pampa Girl Scout Association, said today.

The Scouts recently have sent three friendship kits to Europe. Leaders of Troop 22 are Mrs. Harold Osborne and Mrs. W. E. Moore.

FIND 'STARTLING NEW EVIDENCE' IN HISS-CHAMBERS CASE—Investigators of the House Un-American Activities Committee are shown in Washington as they examined microfilm records from a hollowed-out pumpkin on the Maryland farm of Whittaker Chambers, ex-Communist spy and now a senior editor of Time Magazine. These records were said to provide "startling new evidence" of leakage of State Department documents to a Red spy ring prior to 1938, and are expected to rebuke the argument between Chambers and Alger Hiss, former State Department official accused by Chambers of engaging in prewar spying activities. Seated (left to right) are: William A. Wheeler, Ventura, Calif.; Robert Gaston, Passaic, N. J.; Donald Appell, Baltimore, Md., and G. B. McKillip.

Million Dollar Fire

COPPER CLIFF, Ont.—(AP)—Fire Monday night destroyed the main Canadian Industries Limited chemical building at the International Nickel Company smelter. Damage was estimated at \$1 million.

ROOMY MODERN WATERFALL DESK 4495
Extra big—extra practical! Sturdy hardwood; matched Walnut veneer top.

ELSIE'S MILK TRUCK!

Priced at just 149
"Beau Regard" bangs on bell as truck is pulled along. Two milk bottles in truck.

METAL ADDING MACHINE

Priced at 159
Lots of fun for the young accountant! Easy to operate. Numbers to 9,999!

COLORFUL 4-PIECE PYREX BOWL SET 295
Bright red, blue, green, yellow bowls. For mixing, storing, serving, baking!

SPOTLIGHT THROWS 1500' BEAM 1395
Chrome plated throughout! Head adjusts to almost any angle! Inner control.

WARDS PORTABLE ELECTRIC FAN HEATER 995
Fast, auxiliary heat in any room! Compact, lightweight, sturdy! AC only.

"JOHNNY LUJACK" PASS-MASTER FOOTBALL 319
Endorsed by the Bears' star! Pebble-grained Texhide cover; official sz., wt.

SIX-PLAYER CROQUET SET 495
Complete, full-size set. Six polo style mallets, enameled wood carrying rack.

SPARKLING G-MAN MACHINE GUN

198
Gun goes "rat-a-tat," shoots harmless sparks! Wood & metal, clockspring motor.

COMICAL BUMBLE TOTS!

139
Bright clown, chicken or "Freedom Doll"... plastic dressed. With bubble pipe, soap, dish!

FREE! **RUDOLPH** THE RED-NOSED REINDEER **MAGIC TOY** WITH A NOSE THAT REALLY LIGHTS UP THE DARK! (In Wards Toyland)

Fair Enough - - by Westbrook Pegler

In a letter to Jimmy Powers, the sport-side polemicist, the Rev. Francis A. Moore, a young Jesuit priest, presents a study of the standard players' contract in organized baseball and further says, "I am looking for objective truth on this problem."

If I were loyal to the absolute truth, I would have no choice but to say that I incurred from several of his faithful departed elders in the society, I could not grant that Father Moore exists, not having met him, nor that he is a priest without his diploma, nor young without his birth certificate.

Indictment of World's Outlook

Without doubt, the saddest and most notorious story of mankind is that of wars. The fact is not worthy here on Dec. 7—the anniversary of the attack on Pearl Harbor—or noteworthy on any day, for that matter, that this nation first settled by those who were tired of Europe's wars and auto-revelry, has since been settling the debts of a war, preparing for one or fighting one.

We manage usually to forget wars—that is, as a society we forget them, though they will live always in the hearts of those who lost loved ones or are now caring for those ruined in mind and/or body.

What are war and foreign entanglement costing us besides lives and money? We'll answer that one: They are costing us in untold millions of man-hours of planning for the day when we might be attacked as we were on this day in 1941, and we are spending more millions trying to pull other peoples' chests out of the fire.

Right now, the ever-present threat of invasion is costing the American people such sums of money as they never before conceived would be spent for what are believed to be preventive measures and preparedness. Our readers see where another 10 or 15 billion dollars has been allocated for this and that—mostly attending to war—little realizing that it all has to come out of their pockets.

It is difficult to believe that 31 cents of every dollar now goes for taxes—some of them hidden taxes, but, nonetheless, taxes. An article in the December issue of American Magazine declares that the authority of people who are supposed to know, that there are 502 taxes imposed on just the leather in a single pair of shoes.

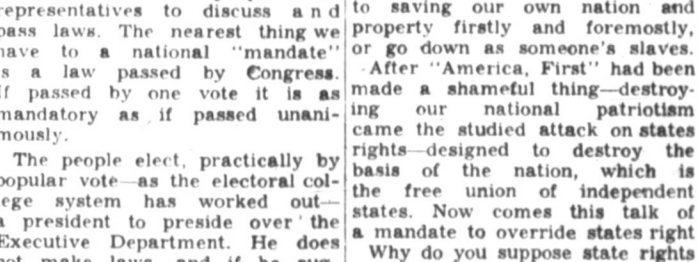

All this is not meant to say that there should be no money spent on military preparedness. It is, though, an indictment of the world's outlook. Men may by nature be good, as the saying goes, but "men" also manage to place into power the men who either foster war or fall into its trap.

There is no point in forgetting what happened at Pearl Harbor seven years ago. Equally true, there is no point in forgetting that if the world does not mend its ways, this may be along with all others, will find itself bankrupt trying to stave off attack.

Taxation can drive a nation into atrocity with the same suddenness as a continental conflict. The least that can happen for our people to lose their standard of living, causing degeneracy and spiritual stultification. Hitler whom we vanquished, accused us of being both degenerate and stultified. He must have been speaking to all mankind.

To say that the Chinese situation is hopeless is to say that Asia is hopeless, that the future of the free nations of the world is hopeless.

MOPSY by Gladys Parker

MY FORTUNE JUST SAYS "TSK, TSK..."

Common Ground by R. C. HOLLES

A Letter Attacking Defense Of Tax-Supported Schools

Here is a letter received by the "Common Ground" editor of this publication from Atty. Cook, Wink, Texas. My answer follows the letter.

Gentlemen: I am somewhat of the opinion that the article under the heading "Common Ground" by R. C. Holles is a syndicated column; but does not sound greatly of an experienced writer or balanced thinker, and believe it should be answered. It is possible his article might rouse up wrongly those who do not read references, nor analyze the facts.

I do not know, nor know of, Rev. Busdiecker, of Santa Ana, California. It is altogether possible that a minister of the gospel should avoid too many law activities and too much lay authority, and that often powerful ministers will weaken their power to draw men by taking a leading part in activities not directly pertaining to the church. If Mr. Holles' complaints are correct, it might be worthy of consideration; but when he goes so far as to connect tax supported schools with tending to promote war, he does and can appeal only to demagogues and "frable rousers" of the South.

Mr. Holles indicates that tax-supported schools cannot be harmonized with the Declaration of Independence and the Ten Commandments. I have carefully read the Declaration of Independence and the Ten Commandments which clearly connects up with the reasons for tax-supported schools.

As to the Ten Commandments (and, since Mr. Holles quotes Scriptures other than the Ten Commandments, I will quote the same), Mr. Holles, as so many, fails to quote the Commandment which clearly connects up with the reasons for tax-supported schools—

Now let us first look at the scriptures. Atty. Cook seems to think justified and sanction tax supported schools. They are "Thou shalt love thy neighbor as thyself" and "Thou shalt love one another; as I have loved you, that ye also love one another. By this shall all men know that ye are my disciples."

I am glad Atty. Cook quoted these scriptures. I should have quoted them for Rev. Busdiecker to study. Atty. Cook implies by these that I am against love that loves people to help others get an education. I want this kind of education. I am only against any person, group, or the State, having the legal right to use force to compel others to support an education they believe harmful. It degrades the character of those using force, and it makes it more difficult for the pupil to get a real moral education.

Would Atty. Cook regard it as being loved to be forced to pay for an education that he thought would breed more and more force? If he so contends, he is talking nonsense. Compulsory education is the opposite of love. Love is always voluntary. It cannot be forced.

Does the Atty. think that working and paying for the education of one's own children, instead of voting to have some one else pay, is not loving thy neighbor as thyself? He is using love to have the same meaning that every dictator uses. They always say it is for the persons own good that he is forced.

Will Atty. Cook tell where Jesus ever initiated force as a demonstration of his love? He cannot point to throwing the money changers out of the Temple as an example, because, that was not Jesus' own initiative. It was the money changers who were initiating force by occupying the Temple that was not their property.

Would Atty. Cook contend that he is for the right to use force on another to make another support his ideas of education? If it is immoral for one man to initiate force, then how many would there have to be to initiate force? How can anyone transfer the right to initiate force to another? If he himself has no right to initiate force, by what impersonal rule of human conduct does Atty. Cook think a subdivision of the State has a moral right to do what no individual has a moral right to do?

All Atty. Cook says he cannot find anything in the Declaration of Independence that is even remotely in line with his position. He evidently does not understand the meaning of this part of the great document: "That to secure these rights, (Life, Liberty and the pursuit of Happiness) Governments are instituted among Men, DERIVING THEIR JUST POWERS FROM THE CONSENT OF THE GOVERNED." Do you contend, Atty. Cook that a man has more liberty when he is forced to do something he does not believe in than when he is not forced? Does Atty. Cook contend that he can give any person's consent but his own? Does he contend that the majority can give any individual's consent. Does he contend that the government has a moral right to force a man to support something that the forced man believes will injure him? If he contends that the State has such a right then what is the difference, other than degree, between his ideologies of such a government and that of Stalin's?

If Atty. Cook thinks the State can educate, then let him define stealing according to the 8th Commandment and see if he does not convict himself of believing in stealing. Would Atty. Cook think it would be possible to have children educated from a moral standpoint by teachers who would not dare define stealing according to the 8th Commandment?

Does not Atty. "know that Germany had the highest literacy of any nation? Does Atty. Cook contend that compulsory "education" in Germany "tended toward reasonable discussions" by the German government with the rest of the world? Or did it lead to war?

The columns of this paper are open to Atty. Cook if he will answer these questions without evasion.

clearly a policy of annering to the injunction to "love thy neighbor as thyself," to the injunction to "love one another," and to aid one another. For such reasons, public educational systems which must be supported through taxation, clearly harmonize with and follow the fundamental teachings of the greatest of the Ten Commandments and the true teachings of the Son of God. Mr. Holles seems to favor the direction and coercion of the majority by the minority. Public education does not lead to war; history shows it leads in the opposite direction, and that the thinking man does not want war. Unrestricted immigration has led to downfall of nations including ancient Egypt, and will do it again; but all other reasonings of Mr. Holles being directly contrary to history, are passed by without comment other than that Mr. Holles should take Nature's hint—two eyes, two ears, and only one mouth—until such time as his education is broader. His article would not be noticed except for the reason that some of those who might have not had the benefit of public education might be led to wrong conduct by such unreasoning expressions. If there be abuse in a particular school or system, our ballot boxes can correct that.

Sincerely yours, R. C. Cook, Attorney at Law, Wink, Texas

CC-Rev. George Busdiecker Santa Ana, Calif.

My Answer to Atty. Cook: I am glad that Atty. Cook has the conscience and courage to attempt publicly to defend tax supported schools. He shows more sincerity, and thus honesty, than Rev. Geo. Busdiecker does.

His letter was the result of a former "Common Ground" article quoting scriptures that Rev. Busdiecker, member of the Santa Ana Board of Education, should study.

Now let us first look at the scriptures. Atty. Cook seems to think justified and sanction tax supported schools. They are "Thou shalt love thy neighbor as thyself" and "Thou shalt love one another; as I have loved you, that ye also love one another. By this shall all men know that ye are my disciples."

I am glad Atty. Cook quoted these scriptures. I should have quoted them for Rev. Busdiecker to study. Atty. Cook implies by these that I am against love that loves people to help others get an education. I want this kind of education. I am only against any person, group, or the State, having the legal right to use force to compel others to support an education they believe harmful. It degrades the character of those using force, and it makes it more difficult for the pupil to get a real moral education.

Would Atty. Cook regard it as being loved to be forced to pay for an education that he thought would breed more and more force? If he so contends, he is talking nonsense. Compulsory education is the opposite of love. Love is always voluntary. It cannot be forced.

Does the Atty. think that working and paying for the education of one's own children, instead of voting to have some one else pay, is not loving thy neighbor as thyself? He is using love to have the same meaning that every dictator uses. They always say it is for the persons own good that he is forced.

Will Atty. Cook tell where Jesus ever initiated force as a demonstration of his love? He cannot point to throwing the money changers out of the Temple as an example, because, that was not Jesus' own initiative. It was the money changers who were initiating force by occupying the Temple that was not their property.

Would Atty. Cook contend that he is for the right to use force on another to make another support his ideas of education? If it is immoral for one man to initiate force, then how many would there have to be to initiate force? How can anyone transfer the right to initiate force to another? If he himself has no right to initiate force, by what impersonal rule of human conduct does Atty. Cook think a subdivision of the State has a moral right to do what no individual has a moral right to do?

All Atty. Cook says he cannot find anything in the Declaration of Independence that is even remotely in line with his position. He evidently does not understand the meaning of this part of the great document: "That to secure these rights, (Life, Liberty and the pursuit of Happiness) Governments are instituted among Men, DERIVING THEIR JUST POWERS FROM THE CONSENT OF THE GOVERNED." Do you contend, Atty. Cook that a man has more liberty when he is forced to do something he does not believe in than when he is not forced? Does Atty. Cook contend that he can give any person's consent but his own? Does he contend that the majority can give any individual's consent. Cook think it would be possible to have children educated from a moral standpoint by teachers who would not dare define stealing according to the 8th Commandment?

Does not Atty. "know that Germany had the highest literacy of any nation? Does Atty. Cook contend that compulsory "education" in Germany "tended toward reasonable discussions" by the German government with the rest of the world? Or did it lead to war?

The columns of this paper are open to Atty. Cook if he will answer these questions without evasion.

BITTER MEDICINE

NATIONAL WHIRLIGIG news behind the news

WASHINGTON, (AP)—As a direct result of the Truman election, the United States has become the world leader of every nation save Russia and her satellites in a way that not even Franklin D. Roosevelt dreamed of in his most expansive moments.

It is no longer a question of whether the U. S. wants to play such a role, with its heavy financial, military and diplomatic responsibilities. The task has been washed and forced upon us by the erstwhile great powers and by the latest member of the international family — the new State of Israel.

Whereas this country was once only the arsenal of democracy for the anti-Axis alliance, it has now become the treasury house and the diplomatic high command and the military rock of the anti-Communist universe.

BURDEN—foreign nations have already begun to staff their embassies and legations here with their ablest diplomats, financiers and army-navy-air brass. An honor and responsibility once reserved for London in the halcyon days of the empire.

Washington has taken on a far more solemn duty than even the imperialistic Kipling conferred upon the England of fifty years ago. He said that London had taken up "the white man's burden."

The United States has taken the burden of all humanity outside the "iron curtain," without regard for color or creed. To back out now from Truman and Marshall commitments would be to create world chaos, as our State Department belatedly realizes.

There was no such expectation when the secretary of state made his historic June, 1947, address at Harvard University, which was then not recognized even by the experts as a statesmanlike declaration, the Monroe Doctrine, the Open Door policy, or Woodrow Wilson's League of Nations.

FRIENDS—The Truman triumph over Dewey signaled the assumption of our new role, according to European spokesmen who have arrived at Washington since November 2 with latest word of the foreign reactions. Conservatives overseas, especially in England and France, consider themselves closer to the Republican Party than to the Democrats, especially as the Truman administration advocates many of the projects sponsored by Atty. DeWine.

Barney Balaban, president, Paramount Pictures; "Self-announced prophets are asserting that television will empty the theaters because television will make a theater out of every man's living room. It takes more than a show to make a theater, it takes an audience."

N. I. Blumberg, president Universal-International Pictures: "UI is convinced that motion picture film will be television what the transcription is to radio."

Nicholas Schenck, president, MGM: "It remains to be seen how extent television will take audiences away from the motion picture theater. To date television has presented programs that compete, not with movies, but with nighttime radio."

Lewis Allen Weiss, chairman, Mutual Broadcasting System: "Film is a vital part of television."

The Nation's Press

AN ALLIANCE IN WHICH SAVES NINE (The Vancouver, B. C. Daily Province)

Any quains we may feel about this continent's participation in North Atlantic defense pact should be quieted by a commonsense examination of the alliance.

Most of us, particularly the Americans are not fond of alliances. They usually require a military treaty, an entanglement that finally becomes an instrument of war.

But our North Atlantic compact may be our best bet for preserving peace. Twice within living memory we have seen what happens when a great power decides it can safely overmaster the whole continent of Europe without the rest of the world intervening. Both the Kaiser and Hitler believed the British Commonwealth and the United States would remain indifferent. Both were wrong.

Not many historians believe the Kaiser or Hitler would have marched if they knew, beyond doubt, that the democracies and their industrial might would enter against them.

But for the third time in half a century, a great European power is going through the old, familiar, aggressive motions. But this time we hope we may be able to remove any delusions about what the democracies will do in case of war.

The North Atlantic alliance will tell Russia, or any other aggressor, that Western Europe is not alone, that it is not a plum ripe for picking. It will advertise how unprofitable any war would be.

Undoubtedly the pending alliance will involve great military expenditures, expenditures that will cost the taxpayers money. But if it prevents war it will be cheap at the price.

It is difficult to believe that sustained high employment with rising living standards can evolve basically from the economic consequences of a great and destructive war.

—General Eisenhower, vision programming and each year the demand for it grows as the number of our daily telecasting periods increases. This is not the day of the million-dollar film epic for television, but modern, intelligent low-budget pictures are in demand.

Wayne Coy, chairman, FCC: "Television must look to Hollywood for one of the most substantial contributions to its programming structures."

Samuel Goldwyn: "Television itself will never be other than a good friend of motion pictures. Each medium will complement the other, although television technique needs the resources of the films more than the films need television."

"SUPPLEMENT EACH OTHER" David Sarnoff, board chairman, RCA: "Television and motion pictures can supplement each other, each contributing to the other's usefulness and popularity. I believe that motion pictures will play an important role in television; how important will depend on the quality, cost and availability of films."

Frank Stanton, president, Columbia Broadcasting System: "Today, films contribute as much as 50 percent of the overall programming of the average television station. And for some time to come, these stations will continue to depend upon celluloid."

Mark Woods, president, American Broadcasting Corp.: "We in television know that some of the larger motion picture producers look at television in alarm. Certainly there is no reason for their alarm. Today the television industry looks to the motion picture field for a large part of the vast quantity of entertainment needs."

Klaus Landsberg, West Coast director, Paramount Television: "A screen is a screen, whatever its size or location and the basis of all screen entertainment is the motion picture."

A certain glamor gal, reports Jack McCauley, was getting ready to go on the set and she asked her maid: "Are my seams straight?" "Which ones," replied the maid, "the ones in your stockings or the ones in your face?"

FUNNY BUSINESS

BY HERSHBERGER

DeWey victory, according to these spokesmen, would have cheered the Communists everywhere. Despite the agreement on a bipartisan foreign policy, Stalin's agents were ready to interpret a Republican return as an "imperialistic and capitalist" gesture. They would have boasted that the United States, more particularly the voters themselves, had deserted the "little people" of the world.

INTERPRETATION—A Dewey administration would probably have pursued the same basic foreign policies as the Truman regime. But it was a key fact to European peoples and politicians that the Missourian had fallen heir to the mantle of Roosevelt, still a magic name overseas, and that he had made himself the champion of the "little people" even more than Roosevelt had.

They sensed, as somebody has said, that F. D. R. was with the common men, but that Truman was of them.

Rightly or wrongly, that is the interpretation which the world, including Moscow, places upon our national election, especially the defeat of numerous Republicans by isolationists and conservatives.

IS THERE A MANDATE by Upton Close

Americans like guessing games, as radio programs show. It's good thing they do, for they are now in the greatest guessing game of recent history.

It is: "What will happen to us under Harry Truman?"

I've been traveling through the Southern states and I find a lot of Southerners shamefully thinking that Harry Truman will show his conservative Southern upbringing and call off the civil rights and racial equality dogs.

But an Alabama congressman, who told a local service club that Harry told him just what has been rebuked, and has cast a crowd. The word from the White House is full steam ahead on "civil rights" legislation. The word in the columns of radical columnists who are close to the "liberal" leaders who claim to have elected Truman is like the following quote:

"...the next administration and its new Congress, charged by the election mandate to put through the social program which was made the issue by President Truman."

Nothing is more un-American and outrageous than the interpretation that a presidential elec-

Common Ground

A Letter Attacking Defense Of Tax-Supported Schools

Here is a letter received by the "Common Ground" editor of this publication from Atty. Cook, Wink, Texas. My answer follows the letter.

Gentlemen: I am somewhat of the opinion that the article under the heading "Common Ground" by R. C. Holles is a syndicated column; but does not sound greatly of an experienced writer or balanced thinker, and believe it should be answered. It is possible his article might rouse up wrongly those who do not read references, nor analyze the facts.

I do not know, nor know of, Rev. Busdiecker, of Santa Ana, California. It is altogether possible that a minister of the gospel should avoid too many law activities and too much lay authority, and that often powerful ministers will weaken their power to draw men by taking a leading part in activities not directly pertaining to the church. If Mr. Holles' complaints are correct, it might be worthy of consideration; but when he goes so far as to connect tax supported schools with tending to promote war, he does and can appeal only to demagogues and "frable rousers" of the South.

Mr. Holles indicates that tax-supported schools cannot be harmonized with the Declaration of Independence and the Ten Commandments. I have carefully read the Declaration of Independence and the Ten Commandments which clearly connects up with the reasons for tax-supported schools.

As to the Ten Commandments (and, since Mr. Holles quotes Scriptures other than the Ten Commandments, I will quote the same), Mr. Holles, as so many, fails to quote the Commandment which clearly connects up with the reasons for tax-supported schools—

Now let us first look at the scriptures. Atty. Cook seems to think justified and sanction tax supported schools. They are "Thou shalt love thy neighbor as thyself" and "Thou shalt love one another; as I have loved you, that ye also love one another. By this shall all men know that ye are my disciples."

I am glad Atty. Cook quoted these scriptures. I should have quoted them for Rev. Busdiecker to study. Atty. Cook implies by these that I am against love that loves people to help others get an education. I want this kind of education. I am only against any person, group, or the State, having the legal right to use force to compel others to support an education they believe harmful. It degrades the character of those using force, and it makes it more difficult for the pupil to get a real moral education.

Would Atty. Cook regard it as being loved to be forced to pay for an education that he thought would breed more and more force? If he so contends, he is talking nonsense. Compulsory education is the opposite of love. Love is always voluntary. It cannot be forced.

Does the Atty. think that working and paying for the education of one's own children, instead of voting to have some one else pay, is not loving thy neighbor as thyself? He is using love to have the same meaning that every dictator uses. They always say it is for the persons own good that he is forced.

Will Atty. Cook tell where Jesus ever initiated force as a demonstration of his love? He cannot point to throwing the money changers out of the Temple as an example, because, that was not Jesus' own initiative. It was the money changers who were initiating force by occupying the Temple that was not their property.

Would Atty. Cook contend that he is for the right to use force on another to make another support his ideas of education? If it is immoral for one man to initiate force, then how many would there have to be to initiate force? How can anyone transfer the right to initiate force to another? If he himself has no right to initiate force, by what impersonal rule of human conduct does Atty. Cook think a subdivision of the State has a moral right to do what no individual has a moral right to do?

All Atty. Cook says he cannot find anything in the Declaration of Independence that is even remotely in line with his position. He evidently does not understand the meaning of this part of the great document: "That to secure these rights, (Life, Liberty and the pursuit of Happiness) Governments are instituted among Men, DERIVING THEIR JUST POWERS FROM THE CONSENT OF THE GOVERNED." Do you contend, Atty. Cook that a man has more liberty when he is forced to do something he does not believe in than when he is not forced? Does Atty. Cook contend that he can give any person's consent but his own? Does he contend that the majority can give any individual's consent. Does he contend that the government has a moral right to force a man to support something that the forced man believes will injure him? If he contends that the State has such a right then what is the difference, other than degree, between his ideologies of such a government and that of Stalin's?

If Atty. Cook thinks the State can educate, then let him define stealing according to the 8th Commandment and see if he does not convict himself of believing in stealing. Would Atty. Cook think it would be possible to have children educated from a moral standpoint by teachers who would not dare define stealing according to the 8th Commandment?

Does not Atty. "know that Germany had the highest literacy of any nation? Does Atty. Cook contend that compulsory "education" in Germany "tended toward reasonable discussions" by the German government with the rest of the world? Or did it lead to war?

The columns of this paper are open to Atty. Cook if he will answer these questions without evasion.

Don't Sniff at Dr. Kilgore's Job; He Wants to Make It Smell Better

By DOUGLAS LARSEN
NEA Staff Correspondent
WASHINGTON (NEA)—Work of Dr. Lowell B. Kilgore's most sniffs.

That's because he has dedicated his life to making this world a better place in which to smell. He contends that civilization's progress has not only ignored the nose but has increased the offenses against it.

There's Betty Grable for the eyes, ice cream for the palate, cashmere sweaters for the touch and Bing Crosby for the ears. But all there is for the nose is gasoline fumes from the automobile, smoke in the night clubs, B. O. in the buses and subways and cheap perfume to add to the generally unpleasant olfactory environment of the modern world.

Dr. Kilgore's first major contribution in this field was Indalone, a synthetic chemical with an odor that repels insects but not humans. It is used by the Army and Navy for the men in the tropics. He now is working on a substance called metazene which he claims will neutralize all smells by spraying it into the air.

Actually, he says, scientists know relatively very little about the whole business of smelling. They're not even sure what's a good smell and what's a bad one. Garlic is one of the strongest odors that exists. Most persons think it is bad. Natives of Africa, however, and Italians generally regard garlic as a very pleasant

IF YOU THINK this is a smelly situation, you're wrong. Smell Expert Anthony Haas can read his paper in peace, despite the black cigar, skunk, and jars of garlic and onion. But he's sitting in Dr. Kilgore's odorium, where all the odors have been killed with a substance called metazene.

The work in his Washington laboratory has been made possible by two devices he has developed: One is a snifferometer, which aids in the identification

of odors, and the other is the odorium, which has many uses in the study of smells.

The snifferometer is a glass jar with a rubber pump at one end and an opening at the other end. Various odors are sucked into the jar for tests of strength and composition. The odorium is a six-

SNIFFING on his snifferometer, Lowell B. Kilgore, smell doctor, sees if the aroma is dead.

foot square chamber from which all other odors can be exhausted and pure odors tested for their effect on animals, insects and humans.

Cigar smoke, mustiness, and the smell of cooking garlic, cabbage, cauliflower and brussels sprouts are the hardest to kill in the home, Kilgore has discovered. Stale cigar smoke and mustiness tend to last the longest. A musty smell is caused by a mold usually found in damp places.

Musk is the strongest odor that is known. It is a substance exuded by the Asiatic male deer. A very tiny amount can be detected for miles. It is this scent which attracts the female deer to the buck. Musk is used in the manufacture of perfume.

The smell of skunk, although extremely obnoxious to the human nose, is not among the strongest smells, Dr. Kilgore says. It takes a less powerful neutralizer to kill skunk odor than it does an equal amount of cabbage or garlic odor. The stench of dead fish is close to the top of the list of potent aromas. It and garlic are used in measuring the strength of deodorants.

Dr. Kilgore believes his line of research is unique because he has set out to kill odors rather than to disguise them.

Newspapers Plan Training Program

DALLAS (AP)—Texas newspaper and journalism school representatives plan to expand their "intern training plan."

Ward C. Mayhew, publisher of the Sherman Democrat, said Sunday that 11 daily newspapers used many junior journalism students on their writing staffs last summer to give them practical experience.

Mayhew is chairman of a committee representing the Texas newspaper publishers, which cooperated with schools in the plan. He is credited with originating the idea in Texas.

Paul J. Thompson of the University of Texas journalism department said that journalism schools could furnish as many as 50 "interns" next year. They would work on weeklies as well as dailies.

Walter R. Humphrey, editor of the Fort Worth Press, agreed to work out a plan for newspapers to send non-writing specialists to talk to journalism classes. Schools participating in the training plan are Baylor, Hardin-Simmons, North Texas State College, Sam Houston State College, Southern Methodist University, Texas A & M, Texas State College for Women, Texas Tech, University of Houston and Texas.

Rites Held For Victim Of Blast

THROCKMORTON, Tex. (AP)—Funeral services were held Monday at Stanton, Texas, for Roger Towery, 31, killed when his nitroglycerine-laden truck exploded near here Saturday.

Willis Buchanan, 65, Throckmorton rancher who was killed when the explosion shattered his pickup truck, was buried here Sunday.

The nitro truck disintegrated with a great roar about 2 p.m., four miles south of here.

Buchanan was driving along the highway when Towery's nitro truck ran into a ditch and exploded. A huge trailer truck, also close by, was blown off the

highway. Its driver, Jack King of Wichita Falls, was thrown from the cab of the truck and his arm badly mangled. Yesterday he was reported in a satisfactory condition at an Olney, Texas, hospital. He suffered from loss of blood from a deep gash in his left arm.

Marion Gibson, manager of the DuPont plant at Stanton and a brother-in-law of Towery, said he had been told there was no question that Towery was the driver of the truck.

Towery was resident manager of E. I. DuPont de Nemours and Company at Bartlesville, Okla.

CHENNAULT MOVES OUT

Search Narrows For Hijackers

City Police and sheriff's deputies were narrowing the field of suspects today in the Saturday night hijacking and dragging of L. E. Elyea near the General Supply Company store on S. Cuyler.

Elyea, who described his assailants as Negroes, was robbed at gunpoint of \$5, and some change, and the keys to the company store.

Since the original capture of two Negroes who attempted to flee police cars, others have been brought in for questioning, one still being held.

No statement had been secured by officers up to this morning. The pistol and the loot were still missing.

MARSHALL

(Continued from Page 1)

He began seven years ago today with the Japanese attack on Pearl Harbor. He retired from the Army at the end of 1946 and thought he was out of public life for good. But within a few days President Truman asked him to undertake a special mission to China where he spent 13 months. He took over the State Department post on his return.

During much of the time he has been secretary there have been rumors about his health. Last summer he spent about two weeks undergoing examinations and tests at Walter Reed. Later he held a news conference he was in good health. He had had a minor operation—removal of a small growth from his back.

There was no hint at that time that his condition required an operation. In the fall he went to the United Nations meeting at Paris. On his return here two weeks ago, he again began taking "tests and examinations," as his aides put it.

PERKINS DRUG STORE
ROSE BUILDING PAMPA

Motorists in Klamath Falls, Ore. are getting a break this winter. A snow-melting highway is being built on a steep stretch of road. Iron pipe coils, which will be heated by natural warm springs during the snow and ice season, are being installed along the highway.

SNOOPING

(Continued from Page 1)

A donkey and three shepherds to display on their float. Girls singing on the float will sing Christmas carols during the parade.

Tree for Scouts

Troop 26 of the Girl Scouts, Mrs. J. B. Ayres and Mrs. Nellie Sharp, leaders, will furnish a Christmas tree for the Scout House. We hear nearly all of the troops are planning Christmas parties this and next week.

Goodfellow Club

Guests who the goodfellows are. If you mosey around after tomorrow's parade, you can find them pictured in practically every store window in town.

Toys Repaired

Stopped in the Fire Station this morning. Those firemen seem to be distant relatives of Santa. With red, blue, and silver and green paint, firemen are making old toys as good as new. By the way, they have their wives making up the head of the Communist underground.

Amarillo Seniors Will Visit Here

Several of the Amarillo choruses of SPEBSQSA will come to Pampa to attend the 8 p.m. meeting of the local group at the Sam Houston School.

Sunday, the entire Pampa delegation of SPEBSQSA will go to Amarillo to present the charter to the Amarillo group.

Driver Fined for Reckless Driving

Charles Whelby, Shamrock, driver of the car that on Nov. 26 rolled over three miles east of Pampa on Highway 60, injuring two of the occupants, was assessed a fine of \$50 plus costs yesterday by Justice of the Peace D. R. Henry.

Whelby pleaded guilty to reckless driving charges, lodged by State Highway Patrolmen, before Judge Henry.

Both Whelby and Rex Helton, near Twitty, were hospitalized because of the accident. Whelby was first considered the more seriously injured, but was on his feet before Helton who suffered a severe fracture of the jaw. Raymond Hunt, also of Twitty, another passenger in the car, was uninjured.

TAXES

(Continued from Page 1)

penalty and interest is charged from that date.

Jones cautioned all taxpayers who pay with check or money order by mail to be sure that their payments are mailed in time to be postmarked before the deadline. The postmark date, and not the date on the check or money order is taken to determine if a payment is delinquent.

Modern Iraq is ancient Mesopotamia.

SURVIVORS

(Continued from Page 1)

because its navigator—Ensign L. R. Johnson of Minneapolis—wanted to make "just one more try." Johnson asked for the extra thirty hours on a raft in the G. Kona of Hammond, Ind., ordered his searching privater to turn back to his Johnston Island base. In six minutes on the extra search the life rafts' green dye marker was sighted directly beneath the privater.

Calhoun reported his men saw sharks circling them from the time they "ditched" the plane until they were picked up.

He said to the best of his knowledge everybody got out of the plane when it hit the ocean 1200 miles southwest of Honolulu. But Capt. James M. Lane of the Rendova radioed that two men went down with the plane. He said another died Sunday night and a fourth jumped overboard Monday after more than a thirty hours on a raft in the shark-infested waters.

All survivors were "well and happy" when rescued. And Calhoun sounded calm as he told the story over the radiophone from the Rendova.

"We didn't decide to ditch," Calhoun said. "We just ran out of altitude" after two of the planes' four engines failed on a flight from Okinawa. Everything possible had been jettisoned to keep the plane in the air as long as possible.

The plane sank in 12 minutes. Sunday night a B-17 search plane piloted by Capt. Allen H. Stotts saw flares fired from the life rafts and dropped a rescue boat. Calhoun said they knew the plane was circling over them but did not know it dropped a rescue boat.

Monday morning searches found no sign of the life rafts.

More than a score of Air Force and Navy planes, aided by four naval surface craft, criss-crossed the area for nine hours before a privater spotted them.

The Rendova was ordered to take the survivors to Kwajalein, about 900 miles away.

The C-84 was one of a flight of five ferrying Air Force personnel from Okinawa to their base at Spokane, Wash. Aboard the four-engine, land-based craft was a crew of seven and 30 members of the 98th bomb ground personnel who had been training for three months on Okinawa.

Calhoun concurred in the recommendation of Lane that search for the four lost men be abandoned.

Garner Services Set Tomorrow

Mr. James Edgar Garner, 56, died yesterday afternoon at his home, 910 S. Osborne, after a two-year illness.

Garner, who had lived in Pampa for two years, came here from Wheeler, Tex., when his health became bad and he retired from farming. He was a native of Texas, born and reared in Grayson County.

He is survived by his wife, Bertha; three sons, Ray, Joe and Vernon, Pampa; five daughters, Mrs. Aubrey Buice, Elsa, Tex., Mrs. Orville Gaines, Wheeler, Mrs. Tom Smith, N. Mex., Mrs. J. D. Futch, Pampa, Mrs. Billy J. Darnell, Wheeler; one brother, Bud Garner, Oregon; two sisters, Mrs. Ida Gooch, Idaho, Mrs. A. N. D. Johnson, Perryton; and nine grandchildren.

Funeral services will be held tomorrow at 10 a.m. from the Harrah Methodist Church. The Rev. C. E. Armstrong will officiate.

Palbearers are: Orvil Haggerman, Leonard Haggerman, Fred Harris, Bailey Whitley, Foster Whitley and Marvin Webster. Funeral arrangements are under the direction of Clegg Funeral Home. Interment will be in Fairview Cemetery.

WARLORDS

(Continued from Page 3)

Japanese. But it will hear arguments Dec. 16 on (1) whether it has any power to intercede and, if so, (2) whether the 11-nation war crimes tribunal at Tokyo was legally set up.

In the case before it yesterday, the court actually dealt with only two of the seven men sentenced to hang and only five of the 16 who drew prison terms.

The doomed men who appealed from their Nov. 12 convictions are Gen. Kenji Dohara, 54, an undercover agent for the Japanese army in China and Manchuria, and Koku Hirota, 70, former premier who sat in on pre-Pearl Harbor strategy talks.

Former premier Hideki Tojo and four others sentenced to hang asked no intercession.

In a soul-searching, six-page memorandum explaining his decision, Jackson said he decided to break the tie at a court conference last Saturday. His hope, he said, is that "fuller argument and hearing will convert one or more of the justices on one side or the other from the views that have equally divided them in the German cases."

He added the hope that it will not be necessary for him to vote in the final decision but he specifically reserved the right to do so.

PARADE

(Continued from Page 1)

Choir, Girl Scout Troop 17, Harrah Methodist Church and Pampa Junior High Band.

Section four of the parade will meet on Ward between W. Kingmill and W. Francis. It will be under the direction of Russell Cartwright. Included in the final section are Boy Scout Troop 14, Phillips Choir, IOOF, Pampa Elementary Schools Band, La Rosa Sorority, Borger Choir, McCullough Methodist Church, McLean Band, Cub Scout Pack 14, Groom Choir, BGC Sorority, Girl Scout Troop 25, AAUW, Canadian Band, Girl Scout Troop 19, Girl Scout Troop 7, Amarillo College

Latex Foam Cushions Make Easy Work for Amateur Upholsterer

To simplify the task of re-upholstering this old chair, latex foam is used to make the new cushion. The model outlines a paper pattern of the chair seat on the smooth-surfaced side of the foam sheet, top right. After cushion is cut out with scissors, she turns pad upside down and trims cored edges at a slant so that pad will fit more smoothly into seat frame, bottom right. At left, the new cushion has been rubber-cemented in place and the model tacks upholstery fabric over the seat.

By KAY SHERWOOD
NEA Staff Writer
If you need to re-upholster old chairs, you can simplify the job and achieve more professional looking results by using cushions of latex foam rubber. Because this resilient material which comes in sheets ready to be cut to size is so easy to use, the woman who must do her own upholstering needn't be afraid to tackle the job.

Latex foam is available in sheets of various thicknesses to suit different upholstery needs. A sheet of one-inch thickness is suitable for the average chair upholstering job.
To give a chair a comfortably cushioned seat for example, first remove the old upholstery fabric. If the old padding is a hair-filled cushion placed over burlap-covered springs or webbing, pull out the old cushion out of the frame but leave the burlap-covered base intact.
Make a paper pattern of the seat by holding paper over the

wood frame and outlining with a pencil the space to be cushioned. Cut out the pattern and trim to fit the seat. Then trace pattern on the smooth surface of the sheet of rubber foam with a grease pencil. Now cut out the cushion with a pair of sharp scissors or a razor.
To insure a smoother fit of fabric over the new chair cushion, bevel the edges. This is done by flipping the cushion upside down and by holding scissors at a slant against the edge of the cushion by slicing off a thin tapered strip of rubber.
If your chair has a burlap-covered frame, dot rubber cement around the edge and center of the burlap and press cushion firmly in place. If you are padding a solid wood seat, cement the foam cushion to the wood.
With the cushion in place, all that remains to be done is to tack the upholstery fabric around the wood frame of the chair. Some professional upholsterers recommend that a thin piece of cotton felt be placed between rubber cushion and fabric. This extra pad absorbs some of the wear and prolongs the life of the fabric, say these experts.
A similar procedure for upholstering a chair seat is followed for padding a chair back or the top of a kitchen stool, or a dressing table bench or a window seat. Leftover scraps of latex foam may be cemented together and used to make smaller pads for footstools or for stuffing decorative pillows.

- SATURDAY
 - 2:30-4:00 Children's Fun Hour, First Methodist Church.
 - 7:30 Delta Kappa Gamma, City Club Rooms.

Baptist WMU Observes Lottie Moon Prayer Day

First Baptist WMU held its Lottie Moon Day of prayer Friday at an all-day meeting which included a program, prayer and giving for the Baptist foreign missions.

Mrs. R. L. Edmondson, Sr., led the program for the entire day. The theme of the program was "The Saviour and a Song." Each speaker told some facts about a country and explained how Christmas is celebrated there. Mrs. Lee Newsome and Mrs. Harold Cradick sang special songs.

Lottie Moon, it was explained, was a missionary in China who gave her life for the Chinese people. She died of starvation aboard ship, coming home to America after some 30 years spent among the Chinese.

Arthritis Pain

For quick, delightfully comforting help for aches and pains of Rheumatism, Arthritis, Neuritis, Lumbago, Sciatica, or Neuralgia try Vicks Vapo-Rol through the blood. First dose usually starts alleviating pain so you can work, enjoy life and sleep more comfortably. Get Remind at druggist today. Quick complete satisfaction or money back guaranteed.

Never Wait Till a Cold Gets Worse

Get right after stuffy head-cold distress where trouble is! Put a few drops of Vicks Vapo-Rol in each nostril and feel relief start instantly! Vicks Vapo-Rol's fast-acting medication relieves stuffy distress, helps clear clogging mucus, opens stuffed-up nose and lets you breathe again. If used in time, it helps prevent many colds from developing! Try it. Vicks Vapo-Rol Nose Drops.

Annie Zeporia Hall Has Birthday Party

Annie Zeporia Hall, daughter of Mr. and Mrs. Roy M. Hall, 1103 Frederic, was honored on her sixth birthday with a party in the home of her grandmother, Mrs. Roxie Hall, Iowa Park, Tex.

The afternoon was spent in playing games and taking pictures of the group. Favors were Christmas stockings filled with candies. Refreshments were served to Edward and Shirley Theral, Larry, Don and Linda Robertson, Barbara, Carolyn and Evelyn Holder, Tiny Keningham, Quana Gayle and Janina Hamilton, Larry Jean and Bobby Carol Hall, Mrs. W. J. Hall, Mrs. Roy Hall, Martha and Zeporia, Pampa.

MACARONI BURNS OAKLAND, CALIF.—(AP)—A fire which "swallowed" destroyed the West Coast Macaroni Manufacturing Company's East Oakland plant at an estimated loss of \$800,000 was brought under control early today.

Waltz into Darkness

BY WILLIAM IRISH

THE STORY
 Times, 1900. Place, New Orleans.
 "Well-to-do Louis Durand comes on a correspondence courtship with a Miss Julia Russell, whom he has never seen. When she finally comes from St. Louis to marry him, he is amazed to find her young and so refreshingly beautiful—entirely different from what he had been led to expect. Certain behavior of hers puzzles him from the first but not until a letter arrives from her supposed sister—Miss Russell's sister—does he realize the woman he married is an impostor. Before he can face her with it, she disappears with \$50,000, withdrawn from his bank account. The police advise him to go to St. Louis to see what he can find out. He does so, calls on Julia Russell's sister. Comparing notes, they realize that something must have happened to Julia Russell on the trip to New Orleans. They call in Walter Downs, private investigator. Downs suggests that he and Durand in the same boat back to New Orleans that Miss Russell traveled on."

it back. "No, I've never seen this old maid—this woman."
 DURAND thumbed the pushbutton in the little cabin cubbyhole he shared with Downs, and a shuffling steward appeared.
 "Not you," Durand told him. "Who takes care of the ladies' cabins?"
 A stewardess appeared in dilatory turn. He gave her a coin.
 "I want to ask you something. See if you can remember. Did you ever come to one of your ladies' cabins of a morning, and find the bunk undisturbed, no one had been in it?"
 She nodded readily. "Sho' lots times. We ain't full up every trip."
 "No, I'll have to ask it another way, then. Did you ever come to one of your ladies' cabins which had had someone in it first, and then find the bunk untouched?"
 She wasn't sure she scratched and strove, but she wasn't sure. He tried to help her. "With somebody's clothes in it, perhaps with a birdcage in it?"
 She ignited into recollection, like tinder when the spark strikes it square. "That's right, that's now it was! How you know that? Cabin with a birdcage in it, and I didn't have to tech the bunk now?"
 He nodded darkly. "No one had been in it the night before."
 She drew up short. "I ain't say that. The lady fix up her berth herself before I get there."
 "How do you know that?"
 "She in there when I come in. The prettiest little lady I ever done see; blon' like an angel and fit like a child."

XIX
 THE captain of the CITY OF NEW ORLEANS was named Fletcher. He was deliberate of speech; the type of man who thinks well before speaking.
 "Yes," he said at long last, after hearing Downs' exhaustive description. "Yes, I do recall a little lady such as you describe. The breeze caught up her skirt just as we were both coming along the deck from opposite directions. And she quickly held it down with her hands. But for a moment— He didn't finish it his eyes, however, were reminiscently kind. "Then as I passed, I tipped my cap. She dropped her eyes and would not see me—" He gave a little chuckle.
 "And now this one," Downs said. He offered in assistance a small photograph of Julia, supplied them by Bertina, much similar to the one once owned by Durand. The captain studied it at length, but with no great relish.
 "No," he said at last, handing

over and said to him simply: "Watch this. Watch me do this a minute."
 Then he took out a pocket handkerchief, spread it flat on the table top. Into it he put a small scrap of lettuce that had decorated his plate as a garnish, folded the corners of the handkerchief over toward the center, like a magician making something disappear.
 "Did you ever see anyone do that, at the end of a meal?"
 The waiter nodded. "I seen a lady do that, one trip. I wondered what she— It wasn't meat or nothin' just a little ole—"
 Downs held up his finger in admonition. "Now listen carefully. Think well. How many times can you remember seeing her do that? After how many meals?"
 "Just once. On'y once. After on'y one meal. That was the on'y time I ever seen her, just at that one meal."
 "I can't get the two of them together," Downs said to Durand under his breath afterward. "One ends before the other begins. But it happened sometime during the first night. At suppertime the waiter saw the real one flich a scrap of lettuce for her bird. At 8 in the morning the stewardess found a blonde 'like an angel' had already made up her own bunk in that cabin where the birdcage was."
 THE first stop, at 8 the following morning, Durand found Downs already making his preparations for departure.
 "You're getting off here?" he queried in surprise. "So soon? Already?"
 Downs nodded. "If she is anywhere," he said, "she is back there somewhere, along the stretch we have covered this past night. If she ever floats ashore—or has already, unrecognized or maybe even unseen—it will be back there somewhere."
 "Good luck to you," Durand said, as they walked to the landing plank together.
 "And to you," Downs answered. "You will see me again some day, sooner or later. I can't say when, but you will surely see me again some day."
 (To Be Continued)

Leaves From a Correspondent's Life Note Book

By GEORGE TUCKER
 (For Hal Boyle)

NEW YORK (AP)—Have you got a grudge against cats? You'd better get rid of it.
 It indicates a lack of discrimination that will forever bar you from the company of great popes, kings, philosophers, writers, composers and leaders of men who have loved these charming creatures down through the centuries. The Chinese are very blunt about it. They say people who dislike cats are really rats in another incarnation.
 I wouldn't go that far, but I do recommend that you familiarize yourself with the influence cats have exercised on the lives of great men and women. Mohammed had a cat. Its name was Muezza. The French poet Loti wrote that he never really understood Mohammed's compassion and greatness until he understood his relationship to this animal.
 Edgar Allan Poe, Lafcadio Hearne, Leo II, Henry James, Thomas Hardy and Samuel Butler were celebrated cat lovers. Antonio Sacchini, the Italian composer, wrote operas with his favorite cats sitting on his shoulders, and Henry James, the writer, worked the same way.
 Gautier, Baudelaire, Aola, Byron and Dumas were others who openly delighted in the company of cats.
 In more recent times the Actor James Mason has made cats a cult and has delighted people from Britain to the 48 United States with his tales and reminiscences of their behavior. He will not travel without them. This recalls Florence Nightingale, who owned more than a half hundred of the animals and would go nowhere without them.
 More unfortunate even than people who fail to understand cats are purists who claim for cats virtue to the exclusion of all other animals. I have in mind those who regard the honest tail-wagging of dogs as a vulgar manifestation of affection. This is ridiculous. There ought to be room in the human heart for both.

expected, agents for shipping firms here said.
 However, more time was needed to assess complete damage.
 Frost topped the vegetable crops Lower Rio Grande Valley are Monday and Tuesday nights. Citrus orchards escaped damage.

Vegetable Losses Run Very High

BROWNSVILLE (AP)—Losses to frost-bitten vegetables in the Lower Rio Grande Valley are considered higher than at first

Government Nets \$10 Million on Loans to Farmers

WASHINGTON (AP)—The government got a \$10 million dividend on \$200 million it advanced in 1934 to help save thousands of farms from foreclosure.

New Mex. Drops Another Custom

SANTA FE, N. M. (AP)—New Mexico is dropping another of its bilingual customs. After Jan. 1, legal notices will no longer have to be published in Spanish.

Texas Girl Named Dimes Poster Child

NEW YORK (AP)—Pretty Linda Iris Brown of San Antonio, who will be four years old Jan. 13, has been named poster child for the 1949 March of Dimes campaign.
 Her birthday will be the day before the campaign starts. The National Foundation for Infantile Paralysis announced the selection Sunday. It said Linda was a victim of infantile paralysis in 1946.
 She is the only child of Mr. and Mrs. Leonard Brown, Jr., of San Antonio.

It Turns Out-- Burros Plentiful

SAN ANTONIO (AP)—Mrs. H. L. Tripp, Homewood, Ill., apparently will be able to get that burro as a Christmas gift for her children.
 H. L. Rhodus, chairman of the Municipal Advertising Commission, who received a request from her as to where a burro could be purchased, reported here his office had been swamped by callers with burros for sale.
 He has been supplying each caller with her name and address.

This Is Sinbad

With a look of innocence on his face, this 9-month-old baby gorilla greets interviewers at Chicago's Lincoln Park Zoo. Recently arrived at the zoo, he was named Sinbad—and doesn't seem to mind.

Mystic Potions of Jungles Studied for Helpful Drugs

AUSTIN (AP)—Locked somewhere in the voodoo inspired mystic potions brewed deep in South American jungles by head-hunting Jivaro tribesmen may be cures for many of man's ailments.

Dr. Wilburn H. Ferguson, a robust, research-minded physician of Quito, Ecuador, speculated there may even be a cure for cancer.

He came to Texas to urge Texas scientists and philanthropists to take on a long-range laboratory search into the hundreds of drugs known to the Jivaro Brujo (medicine man) since the dawn of history.

At the University of Texas President T. S. Painter and professors said they were interested.

From a leather suitcase Dr. Ferguson brought half a dozen human heads shrunk monkey-sized. Only the skull had been removed from the head and then everthing else dwarfed—features, skin, bones, and cartilages.

In a small vial he displayed a potion he said the savages used in the head shrinking process.

"This mystic solution has intrigued me for years with the possibility that there might possibly be some specific drug that would stop the wild run-away growth of cancer and might even reverse the pathological process," he said.

For 17 years Dr. Ferguson said he traveled from one side of the Amazon Basin of South American to the other without even a

Nearly One-Third Area of Texas Is Leased for Oil

single hint of a medicine man who would give him some of the potion. Finally he found one who prepared not only some for the doctor but gave him one of the ingredients and promised to supply more for the experiments.

"We feel that the few drugs that already have been adopted from the Jivaro medicine—quinine, cocaine, ipecac, caffeine, curare and others of world-wide importance—are only a few of several hundred drugs used by the Jivaro that can be utilized to provide new weapons against pain and disease in modern therapeutics," he said.

The first obstacle to block scientific inquiry into the drugs has been the difficulties and hazards of penetrating into dense jungles to obtain them in enough quantities for research. Dr. Ferguson said he now has native boys to go in after the plants and keep them in supply.

They'll be coming to the University of Texas, where Dr. Painter said study of the drug plants would help build a strong research program in pharmacy. Twenty-five jungle plants heretofore unstudied will be first on the list.

The dean of pharmacy, Dr. Henry Burlage, said such research will be an unmeasurable contribution to medicine if only one new compound is discovered.

THIS MAP INDICATES the Texas counties which were producing oil and gas as of Jan. 1, 1948. The petroleum industry spends about one-third of a billion dollars annually in 254 counties for leases, bonuses and royalty payments.

DALLAS.—About 58,000,000 acres of Texas land, nearly one-third the state's area, has been leased for oil and gas exploration and production, a report published by the Texas Mid-Continent Oil & Gas Association indicates.

Land has been leased from landowners in each of the 254 counties, the report showed, and there is oil and gas production in 175 counties at the first of 1948. Ten more counties have had production but are now producing now. During 1947, Kenedy, San Augustine, and Sterling Counties produced oil for the first time.

The Texas petroleum industry during 1947 paid Texas landowners scattered over 254 counties, a total of \$331,738,000 for leases, rentals, bonuses, and royalties.

Landowners last year received more than \$89,348,000 in lease and bonus payments. The report said this sum was "a considerable income in view of the fact that only a portion of these leases will ever become productive."

"When the property is productive, the landowners receives royalty payments which average slightly more than one-eighth of the oil or gas produced," the report stated. "These payments in Texas during 1947 were \$242,390,000."

TOO MUCH DRAMA
VICTORIA, B. C.—(AP)—Student dramas and card playing are henceforth banned at Victoria College. The faculty says the students spent too much time playing cards and arranging plays—stage plays that is.

Swiss Try 'Copters'
ZURICH (AP)—Swiss postal authorities are experimenting with helicopters as a means of speeding up air mail from principal postoffices to airports.

Tests already have been made in Zurich and further experiments are planned in Lausanne and Bern. In Bern, flights will be made from the roof of one of the post office buildings to Thun and Biel.

Indian Barbers Battle With Blurbs
MADRAS (AP)—Three Madras barbers who had made a fortune in Malaya returned home and started shops of their own in one of the busiest streets of the city.

The first called his: "The best saloon in India." And the second, to excel his rival, called his: "The best saloon in the world."

The third simply styled his shop: "The best saloon on the streets."

In India, saloon means barber's shop.

U. S. Government
'Way Overdrawn'
WASHINGTON (AP)—In the last five months, the government has spent \$1,430,000,000 more than it has taken in.

The Treasury said expenditures, totaling \$15,548,000,000, exceeded income by that much through November of this fiscal year which began July 1.

Castle Clock to Get Face Lifting Job
MONTREUX, Switzerland (AP)—The old clock on the tower of the famed castle of Chillon, which has been ticking away for four centuries, is about to get a new face.

The clock was installed by the master clockmaker, Andre de Morges, in 1543 and is the oldest clock in this part of the country. With a little tinkering now and then, it has been kept going ever since. It has been decided that its appearance could be improved by restoring the face.

Fancy Sitter Service
MIDDLESBROUGH, Eng.—(AP)—Can't go to the movies? No baby-sitter? That's no problem here. The movie house will provide one, deliver her in a taxi and then drive you to the show. When it's over, they'll take you home and pick up the sitter.

A Middlesbrough movie house has hired 30 girl sitters and is footing the bill for the first week.

ZURICH (AP)—Swiss postal authorities are experimenting with helicopters as a means of speeding up air mail from principal postoffices to airports.

Tests already have been made in Zurich and further experiments are planned in Lausanne and Bern. In Bern, flights will be made from the roof of one of the post office buildings to Thun and Biel.

RECORD COFFEE PRICE
Folger's pays highest price of century

GUATEMALA CITY, Guatemala, Nov. 12—Coffee sold here today for what was said to be the highest price paid in the twentieth century.

Sanchez-Latour, acting for Folger's Coffee Company, bought 12,000 bags of Antigua Coffee practically the entire production of this famous coffee region.

Coffeemen said the record-breaking prices were due to the United States consuming more coffee now than the entire world did fifteen years ago.

LIONEL SANCHEZ-LATOURE
Folger Coffee buyer in Guatemala.

Why Folger's Pays the Highest Price to get the World's Best Coffee for You

The Folger Flavor is not an accident. It is a carefully guarded combination of certain quality coffees to produce one very distinctive coffee flavor. This flavor cannot be produced from inferior coffees.

Since the difference in coffees is essentially a matter of flavor, that difference is a real measure of the worth of your purchase.

On a flavor and enjoyment basis Folger's Coffee at today's price continues to be the biggest bargain on your table.

THERE'S A MOUNTAIN OF FLAVOR IN EVERY SPOONFUL!

Red Danger on the China Front

The surging Communist tide in China is a threat to the rich southeast Asia colonies areas of France, Great Britain and the Netherlands, without which those nations "can't survive and we will only bleed ourselves white trying to keep up the home countries," declares Rep. Walter Judd, of Minnesota. "If China loses the Yangtze valley," says Judd, "then a line must be established through the mountains from Fukien westward. That is our frontier." Map, above, illustrates the situation, with Communists in control of north China, the mid-China defense line, and the perilous location of the southeast Asia colonies.

American Military Aid to China Much Less Than That to Greece and Turkey

WASHINGTON—(AP)—American military aid to China is running somewhat under one-third of that to Greece and Turkey. This became known with estimates from government sources that fighting equipment valued at about \$63 million has been delivered to Chiang Kai-shek's hard-pressed armies in the last year and a half. During roughly the same period, the United States shipped arms and other military supplies worth \$230 million to Greece and Turkey under the Truman doctrine pledging to keep those nations out of Communist clutches. How successful China may be in its desperate efforts to narrow the ratio of American aid to the two Communist-menaced areas remains to be seen. Those efforts currently are being pressed by Mme. Chiang, wife of the generalissimo, who flew here last Wednesday. China's first lady is due to meet President and Mrs. Truman early this week to voice her informal appeal for greater help from this country. Chinese authorities here say the program she is proposing would cost the United States about \$1 billion a year over the next three years. That would be a big jump from the \$400 million Congress voted for China earlier this year and would far outstrip the \$250 million Greek-Turkish program. Of this year's China fund, \$276 million was earmarked for economic assistance and \$125 million was made available for arms help. While most of this military fund has been spent, actual deliveries have lagged. Chinese authorities say they have received about \$25 million worth. Presumably this includes some naval equipment, plus \$16,800,000 in army equipment started on its way to China since Oct. 1. Two major shipments, one of 5,000 tons several weeks ago and another of about 4,000 tons on Dec. 1, were composed primarily of small arms ammunition. Records show that the Chinese government also has bought about \$45 million worth of equipment from surplus stocks in Hawaii and the Far East. These purchases apparently included captured Japanese ammunition because one of the calibers mentioned—7.92 millimeters—is for Japanese weapons. Chinese forces use a variety of weapons, including former Japanese arms. The \$45 million purchases were aside from either the present \$125 million aid program or wartime lend-lease equipment. As for this country's economic aid to China, food, oil and cotton valued at \$102,200,000 already has been delivered, the Economic Cooperation Administration reported Monday. It said another \$26 million worth of food and about \$10 million worth of petroleum will arrive by year's end, and cotton worth \$15,000,000 will be delivered during the January-March quarter. That adds up to \$152,200,000 of the \$275 million aid fund, intended to last until next June 30. But of that amount, nearly \$75 million is being used for reconstruction purposes rather than commodity purchases.

CAP Meets for 7th Anniversary

DALLAS—(AP)—Nine high-ranking members of the Civil Air Patrol met here yesterday to observe the organization's seventh anniversary. Maj. Gen. Lucas V. Beau of Washington, head of the CAP, Col. D. Harold Byrd of Dallas, vice chairman of the CAP's National Executive Committee and regional commander, and eight state commanders arrived Sunday. General Beau said a network of amateur radio stations is being formed throughout Texas to work with the CAP in guarding the nation and in preparing for disasters. He said the CAP plans to use ham radio operators in the U. S., Hawaii, and Alaska to help watch for enemy attacks, assist in search and rescue missions and aid in other emergencies. State commanders who came here are Col. L. E. Farnsworth of West Virginia, Col. Paul D. Threlfall of Kansas, Col. William A. Brewster of Louisiana, Col. J. D. Dowd of Mississippi, Col. W. H. Shockey of Oklahoma, Col. Rudy C. Mueller of Nebraska, and Col. Raymond L. Bowen of Texas. ATOMIC RESEARCH—(AP)—The American Chemical Society announced today that the American Tobacco Company has invested \$100,000 in the University of Chicago atomic research program, it was announced today.

4 Major Issues Are Storm Warnings for Legislature

By DAVE CHEAVENS
AUSTIN. (AP) Four major issues already loom like big black thunderheads over the 81st Legislature: finance, education, election law, and the public school system. Storm warnings are already flying on these questions: finance and taxation; reorganization of the public school system; election law reform and revision; overhauling of the prison system. The 81st will be a Legislature unique in Texas history in that it will have more money—certainly more ready cash to spend than ever before. It is impossible to say just now what the precise amount will be, but the fiscal experts believe it will be in the neighborhood of \$240 million. The last session spent every cent in sight. Some of the hardest feelings growing out of the 80th Legislature were an aftermath of the additional appropriations that died because there was not enough money on hand or in sight to pay for them. Wherever there is a large chunk of change lying around, the competition among those who want it is bound to be fierce. It could result in a struggle falling only a point or two shy of mayhem. Nearly all the issues faced by the 81st are linked directly or indirectly with the allied questions of finance and taxation. The cry for election law revisions is an exception. This should not cost much in money. All it would take would be conscientious application, work and brains. The latter should include a healthy portion of horse sense, if the result is to be practical. If the Legislature spends all the ready cash, then almost surely the agitation for new taxes will be revived. It may not wait for that. The Fort Worth Democratic Convention came up with some talk favorable to increased taxation of natural resources. That might get somewhere in the House but hard going can almost certainly be predicted for any move in that direction in the Senate. The new Legislature, incidentally, includes 10 of 31 senators serving for the first time in that branch, and there will be 51 new faces in the 150-member house. Perhaps the biggest job faced by the 81st Legislature is to digest then act upon the report of the Gilmer-Aikin Education Committee. This 41-page printed document, with revolutionary proposals close-packed in every chapter, cannot be grasped in one quick reading, and it actually is only an outline of the committee's ideas. A conscientious legislator would have to read it plus the entire minutes of the committee's work to have a sound notion of what it undertakes to do in revamping the public school system. Complete overhauling of the prison system as proposed by its new management and the Prison Board would be a big job for any body of lawmakers. Gov. Jester has promised to give this undertaking, particularly the need for immediate four million appropriation, emergency status to help ram it through. These are only the immediately apparent major issues. There will also be demand for modification of the labor control legislation that swept through the 80th session, opposed by sentiment that those laws be allowed to stand. This will produce thunder and lightning. New water laws will be proposed, as well as the usual measures labeled as promoting oil and gas conservation. Plenty of differences will develop in these fields. Also a cinch to produce a season-long battle will be renewed efforts to give the Game, Fish and Oyster Commission full regulatory powers, and for universal state hunting and fishing license law. Many legislators will be reluctant to give their power over local game regulations into the hands of any commission, even if the size of the commission is increased to give all sections of the state representation. A big segment of the House especially will be yelling for more and better rural roads, and this could touch off the fight on taxation. Whether or not the school-teachers will be satisfied with the Gilmer-Aikin Committee's recommendation for minimum \$2,400 annual salaries (compared with the present \$2,000) is highly questionable. The school teachers generated much of the last Legislature's fireworks. This only hits the high spots. Here are some specific proposals for legislation that have been announced: Abolition of the poll tax is a prerequisite to voting. A real legislative redistricting bill following adoption of the constitutional amendment providing for automatic redistricting if the Legislature does not act. Broadening of the basis of taxation by municipalities to help ease their growing pains. A "loyalty bill" by Rep. Marshall O. Bell of San Antonio, designed to curb communism. A bill to unify and simplify the state's fiscal system under a budget bureau. A bill to protect migratory workers and perhaps a new effort to write some kind of a law making racial discrimination a criminal offense. A bill to make a life sentence mandatory upon the second conviction of sex offense. Several dozen different starches are made for the paper maker, textile mill, salad dressing manufacturer, laundry, and other uses.

Blasts Insurance

Rep. Emanuel Celler, New York Democrat, who is slated to become chairman of the House Judiciary Committee, has called for an investigation of the "big five" insurance companies. Terming them "a menace to the nation's economy," Celler charged they are "able now to formulate a financial policy stronger than the policy of the national government itself."

"FRENCH TWIST" RUGS
Modern colorful rugs for every room. Thick pile, longer wear, easy to wash; won't kick up, very smart new colors. All sizes.
\$2.98 to \$9.98

Jousting and Knights Are Not Confined to Storybooks

By JACK DAVIS
BALTIMORE.—(P)—The horse-man shifted the lance to his other arm and gave his mount a reassuring pat. Then a voice blared: "Charge, Sir Knight!" The rider wheeled his horse and charged. Sounds like a tale of old, doesn't it? Sure, but it's just as much at home in some parts of the country today as it was during medieval times. Today's jousting isn't blood-thirsty. And it's a lot more fun for the participants. Here's the way it goes: A "knight" armed with a sharp steel-tipped lance, rides at full gallop toward a series of three cross-bars from which metal rings dangle. As he rides underneath, he tries to spear the rings, which slip off the holders when "pierced" correctly and slide down the shank of the lance. The rings vary in diameter from an inch-and-a-quarter to one-half inch. There are two schools of thought on the derivation of present-day jousting. One, and the most popular, is that it was brought over from England by the first settlers of Southern Maryland in the early 1600s. The other, advanced by a Maryland historian, discards this theory. He says research fails to provide written mention of ring tournaments earlier than the 1840s. Even then, it was described as "an innovation."

He traces the origin of the sport to a tournament at Eglington Castle, Ayrshire, Scotland, on Aug. 29, 1839. Included on the program was "riding-at the rings." Among those present at the tourney, he continues, was William Gilmore, Sr., of Baltimore. The next year Gilmore returned to Maryland and held a similar tournament on his estate.

Wherever it came from, the ring tournaments still receive enthusiastic support. Most popular in Southern and Western Maryland, where a dozen or more are held every year. Its popularity extends into Virginia, West Virginia, North Carolina and Pennsylvania.

The "sir-names" stay with "knights" through their jousting career. The older participants frown on the flippancy titles chosen by some of the younger knights—such as Knight of Vanilla or Knight of Night before Last—but a definite trend toward the more ribald titles has developed. The tournament has its flair for pageantry. When a knight makes a perfect charge, speaking all three rings, a band strikes up with a suitable air. Two girls, mounted on spectacular horses, race to greet the knight at the end of the course and escort him—ones on either side—to the judges' stand. The jousters take their sport seriously. They accept the unknown spectator's remarks of—"it looks so easy"—with a smile, and a pat comment: "You try it."

Of the world's states, Russia is the largest with 8,349,600 square miles.

Two men sought for robberies
CORNICANA.—(P)—Two men believed to be responsible for a series of robberies in East and East Central Texas were sought in this section today following the robbery of the Mayfield filling station here of \$10.25 at 3 a. m. Elbert Brown, attendant, said two armed men forced him to open the cash register at the station and then ordered him into a rear room. Sheriff David Castles and H. E. Tucker, State Highway Patrol, were in Ennis this morning following a report that Ellis County officers and highway patrolmen had forced two men to leave a car in which the robbers were believed to be traveling. Police Chief Bruce Nutt said officers are of the opinion that the persons wanted here may be responsible for similar robberies in Athens, Palestine, Terrell, Willis Point and other towns.

Buttermilk Diet Turns the Trick
Raised to pink-skinned plumpness on a diet of buttermilk, "48 Model," a 300-pound Chester White hog, won the grand champion award for barrows at the International Livestock Exposition in Chicago. Kneeling behind the ribbon-bedecked beauty is co-owner Donald Brown, of Tip Top Farms, Flora, Ind.

Soviet Trims Tank Output, Says Journal

NEW YORK.—The Soviet Union has very quietly started to cut back its tank production which has been reaching somewhere around 65,000 annually, according to Business Week. The magazine says that this information has leaked out despite the best efforts of the Kremlin's secret police. "Coming at a time when there is talk of a 'Russian peace-offensive,'" the article observes, "it could mean that the Soviets really have decided that there isn't going to be a war soon." On the other hand, the article adds, it could mean that the

Red Army has stocked up on tanks and is turning to other vital material. The United States did the same thing at one point during the war. The article notes that even during the war years, the United States did not manufacture as many tanks as Russia has been producing during peacetime. The peak production year in this country was 1945, when just short of 30,000 were manufactured. "The Russian tank—no mean weapon itself—now incorporates the best of German research, with a little 'lend-lease' American design thrown in," the article says. MOSCOW.—(P)—A Tass dispatch from Leningrad said 700 adopted resolutions assailing Premier Marshal Tito of Yugoslavia, who currently is in a dispute with the Cominform over Communist policies.

3,800 Nurses Are Needed

AUSTIN.—The Army and Air Force have announced that they are short 3,800 nurses in military hospitals, Colonel Oscar B. Abbott, senior Army instructor for the Organized Reserves in Texas, announced here. The need for the nurses has risen because of the recent passage of the Selective Service Act. The act specifically states that no draftees will be inducted until there are sufficient hospitals to provide adequate medical care. The American Nurses Association is cooperating with the Army in stimulating the procurement of professional nurses on extended active duty. The American Nurses Association emphasizes that the procurement program will not

further aggravate the crisis in civilian nurse service which currently faces the country. The Army has asked the American Nurses Association, largest professional membership organization of nurses in the country, to prepare a plan for procuring nurses on a quota basis by states in order that no area in any part of the United States will be stripped of its nursing force. Any professional nurse wishing to join the Army Nurse Corps will be required to serve a tour of duty of at least one year, it was announced. She may request an extension of her time of service within the last six months of her tour of duty, but she cannot reduce the time. Resignations are accepted, however, for justifiable reasons. Commissions will be granted up to the rank of captain, depending upon the individual qualifications of the nurse.

Basket Weavers Find Prosperity

LONDON.—(P)—British basket weavers, whose trade on the banks of the Thames goes back before the birth of Christ, are regaining prosperity after a between-the-wars slump. After World War I, the 9,000 acres of willow beds divided into 2,000 acres. Floods of cheap imported baskets drove many basket makers out of business. Aerial warfare during World War II brought them back in business. Thousands of willow baskets were used for "air drops" of supplies. Now to conserve funds, Britain is using its own baskets instead of importing them. The present labor force of about 7,000 is ex-

Sheep Raisers Hold Annual Convention

SAN ANGELO.—(P)—The 8th annual convention of the Texas Sheep and Goat Raisers Association opened here yesterday. Registration, committee meetings and warehouseman's banquets were on the first day's schedule with a general session scheduled for Tuesday morning. The convention site for 1950 convention and officers will be elected today. San Antonio is expected to make a strong bid for the convention. Read The News Classified Ad

Explanation of New Rule Changes Given to Aid Fans

WARREN'S WARMUP

By Warren Hassel—News Sports Editor

QUESTION: Who is the present holder of the Professional Golfer's Association championship?

SINCERE COACH: The resignation of head coach Lon Darling of the Oshkosh All-Stars of the National Professional Basketball League comes as a complete surprise to Warmup.

Trade Winds Blow Hot at Minneapolis

MINNEAPOLIS—(AP)—Baseball's trade winds, just gentleephy up to now, blew hotter today as the diamond's great and near-great prepared for the opening gavel of the annual minor league meeting.

Just what was in the works was a big, dark secret among the owners and managers, but a few words here and there indicated things were moving along. For instance, the Chicago White Sox sold a first baseman yesterday, and Frank Lane, the new general manager, said he has offered \$100,000 in cash and three players for third baseman Bob Dillinger of the St. Louis Browns.

The Sox, too, there was word the Browns were dicker with the New York Yankees over Dillinger and that the White Sox had some sort of negotiations on with the Yankees for third baseman Bill Johnson. Lane also is reported to be interested in some pitchers.

And so it went. Little remarks dropped here and there over the past three days could develop into a transaction, sign, sale and ready for delivery. Late arrivals of the men who gave the final say on such things gave impetus to the feeling that some pretty important deals were just about ready.

A meeting of league presidents and the presidents' dinner were all that remained before the 47th Annual Convention of the National Association of Professional Leagues opens formally tomorrow morning. It will end Friday.

In the meantime, many of the leagues were conducting meetings to determine sentiment toward proposed amendments to the association's constitution and the major-league agreement.

The Texas and Western Leagues met yesterday and three more leagues planned last minute get-togethers today. They are the American Association, the International League and the Three-I League.

Lefors Mothers Honor Football Team at Banquet

LEFORS—The presentation of Bobby Jean Hedrick as Sweetheart of the 1948 Pirate Squad was the "kick-off" for the football banquet sponsored by the Football Mothers' Club in the school cafeteria on December 3. Bobby Jean was escorted to a place of honor by Captains Tom Hinks and Fred Newsom. Her attendants, Rachel McCool, Lou Deane, Cotten, Jo Alice Tubbs, and Wanda Richardson were escorted by other members of the football squad.

The traditional Sweetheart locket and a bouquet of "mums," gifts from the squad, were presented to Sweetheart Bobby Jean by the two captains. The Pirates and the members of the Pep Squad, who were also guests, sang the school song, "Lefors High," after which Sup't. E. R. Reeves gave the invocation.

The boys' quartet, Joe Rice, Isaac Doon, Don Stokes and Joe Ray Brock sang "Margie" and "Whispering." The school cafeteria, the scene for the banquet, was decorated in black and orange, the Pirate colors, and the table appointments carried out the football motif. The banquet, which was prepared and served by the mothers of the football squad, was furnished by local "Football Fans."

Special guests were Sup't. and Mrs. E. R. Reeves, Coach and Mrs. James Love, Coach and Mrs. Mack Winter, Mr. and Mrs. Lawson Shaw, Mr. and Mrs. H. L. McCarty, and Mrs. A. W. Bruggemann.

After the banquet the honorees and guests danced in the cafeteria.

Basketball Results

Hamilton to Pitt
PITTSBURGH—(AP)—Captain Thomas Hamilton, director of athletics at the U. S. Naval Academy at Annapolis, today accepted a similar position at the University of Pittsburgh. Pitt officials said Hamilton will report here Feb. 1.

Malcolm Douglass to Lead Harvesters for This Season

Tonight the Harvesters will open up the 1948-49 basketball season in Pampa when the meet Stratford at the Junior high gymnasium. The feature game will get under way about 8:30, with the Guerrillas and the Stratford B team playing a preliminary game at 7:30.

The Harvesters will definitely be without the services of Jack Sutton, rangy pivot man, who underwent an emergency appendectomy Saturday night. The rest of the squad should be at full strength.

And quite a bit of strength it should be. The starting lineup, laid end to end, would reach out 30 feet, six inches. The starters will be, at the forwards Jim Gallemore, 6 feet 3 inches and Bill Bond also 6 feet 3 inches tall. At center will be the only veteran and letterman, Derrald Davis, 6 feet 4 inches. At the guard posts will be Jimmy Howard, 5 feet 10 inches and Ed Jones, 5 feet 10 inches tall. Douglass was named captain for the year by his teammates this weekend.

In addition to these boys, others sure to see action include Tommy Allison, Tom Frauf, Mickey McCray, Jimmie Bryant, Dwan Reno and Max Robbins. Several of these boys tower over the six foot mark, so the team shouldn't be lacking in height at any time.

Officials for tonight's game will be Tolpogden and Tucker. The boys worked out yesterday afternoon in the Junior High Gym to get the feel of the court. It is a strange court to them, too, as they do all of their practicing in the High School Gymnasium.

Friday the team travels to Hollis, Okla., for the first of a home and home match. Coach John Bond's Guerrilla team will play in a tournament at Berger this coming weekend, and tomorrow night are scheduled to play at McLean.

Letters to sports writers BEFORE games are played often don't look so good AFTER they are played. In fact, they often resemble predictions. We can't say sports writers before the game.

Last week I had a letter from Maurice Stelzer calling for a correction in my forecasts in which I had picked El Campo to win the state championship and mentioned Mount Vernon as a top team. "Probably you haven't heard of the small town in West Texas of Post, Texas," he wrote. "With their Post Antelopes they have won 11 straight games and are undefeated this season." We can't correct predictions but in this case there would be no correction necessary as regards Post. Saturday Phillips beat Post 41-0 in the quarter finals. What we'd like to do is to take back what we said about El Campo. El Campo, you know, was beaten by Aldine 20-0. Mount Vernon was eliminated in the first round.

Then we had this telegram from M. Stern of Wichita Falls Dec. 2: "Back to Tyler, Darrmouth; Jackson, Yale; Van Buren, Louisiana State; Buchanan, Mississippi; Arthur, Ohio Northern, and Jefferson, Muskingum."

VOICE OF EXPERIENCE: The Yankees were playing the convict team at Sing Sing an exhibition game. Babe Ruth was playing one of his best shows, kidding around, and everybody was enjoying himself, including the prisoners.

The boys' home team boys got on base and the rare sight made a prisoner in the stands perhaps unduly optimistic. "Hey, Izzy," he yelled loudly, "steal second base."

"You'd better not, Izzy," admonished another well-wisher, but with a different outlook on life. "If you could run you wouldn't be here."

YESTERDAY'S ANSWER: It seems yesterday's answer got misplaced in the scrap pile, so here it is again. The cow that stopped baseball from being played was the one that kicked over the lantern to start the Chicago fire. It burned down the park. Chicago was represented in organized ball in 1871, but had to drop out for two years while new parks were being built and new clubs organized. They have been represented ever since.

Coach of Year
NEW YORK—(AP)—Sennie G. Oosterbaan, serving his first year as head coach at Michigan, was voted "Coach of the Year" today in the World Telegram's annual poll.

Oosterbaan, who led the Wolverines through a perfect season to a second straight Western Conference championship, succeeds Herbert O. (Fritz) Cramer, who received the honor last year.

City College of New York's basketball team has set a new CCNY scoring record each season for the last three campaigns.

By HAROLD V. RATLIFF

DALLAS—(AP)—The game of basketball has few noticeable changes this year. There are some changes, two of them being beneficial to the spectators, but nothing that could be called revolutionary.

The two changes that the spectators will like are not even rules but suggestions. They are eventually become rules. One of them suggests that a player raise his hand when he has committed a foul. The idea is to give the fans the information and also to facilitate the work of the scorekeeper. Some coaches don't like the idea because they say the players often don't think they have committed a foul and holding up their hands just admits it. There is no penalty for failure of a player to thus signal a foul but it is expected that the rules committee will put one on. They want the players to adjust themselves to the idea first.

The other suggestion is that the players wear no numbers with digits higher than five. In other words, all numbers would stop at five, such as 14, 25, 35. It is easier for the officials to signal fouls to the scorekeepers and easier for the fans to keep up with the players. An official can signal a foul with one hand. This also is likely to be made a rule but not this year.

Last season the teams tried out the idea of taking the ball to the nearest circle instead of the referee pitching it up where the tie-up occurred. The idea was that by using a circle the area already was restricted and there would be no necessity for the officials having to check to make sure all players were six feet away. The plan was successful and this year it has become a rule.

Another rule allows the players to come to the bench on each time-out. Heretofore they were instructed to the bench anyway.

The rule which allows players to get instructions from the coaches is just taking away the mystery. It makes legal what has been going on all the time.

Another reason for this rule also is that it gets the players off the court during time out and thus prevents them huddling and getting the floor wet with perspiration. It is calling for clean-up measures before play can be resumed.

Letters to sports writers BEFORE games are played often don't look so good AFTER they are played. In fact, they often resemble predictions. We can't say sports writers before the game.

Last week I had a letter from Maurice Stelzer calling for a correction in my forecasts in which I had picked El Campo to win the state championship and mentioned Mount Vernon as a top team. "Probably you haven't heard of the small town in West Texas of Post, Texas," he wrote. "With their Post Antelopes they have won 11 straight games and are undefeated this season." We can't correct predictions but in this case there would be no correction necessary as regards Post. Saturday Phillips beat Post 41-0 in the quarter finals. What we'd like to do is to take back what we said about El Campo. El Campo, you know, was beaten by Aldine 20-0. Mount Vernon was eliminated in the first round.

Then we had this telegram from M. Stern of Wichita Falls Dec. 2: "Back to Tyler, Darrmouth; Jackson, Yale; Van Buren, Louisiana State; Buchanan, Mississippi; Arthur, Ohio Northern, and Jefferson, Muskingum."

VOICE OF EXPERIENCE: The Yankees were playing the convict team at Sing Sing an exhibition game. Babe Ruth was playing one of his best shows, kidding around, and everybody was enjoying himself, including the prisoners.

The boys' home team boys got on base and the rare sight made a prisoner in the stands perhaps unduly optimistic. "Hey, Izzy," he yelled loudly, "steal second base."

"You'd better not, Izzy," admonished another well-wisher, but with a different outlook on life. "If you could run you wouldn't be here."

YESTERDAY'S ANSWER: It seems yesterday's answer got misplaced in the scrap pile, so here it is again. The cow that stopped baseball from being played was the one that kicked over the lantern to start the Chicago fire. It burned down the park. Chicago was represented in organized ball in 1871, but had to drop out for two years while new parks were being built and new clubs organized. They have been represented ever since.

Redskins Draft Goode of Aggies

WASHINGTON—(AP)—The Washington Redskins Monday disclosed their No. 1 choice in the football draft, and the announcement came as quite a surprise.

For the Redskins passed over the more highly advertised players to pick Robert Goode, a 210 pound 6 foot 4 halfback from Texas A & M.

Goode, an all-around track star—he has run the 100-yard dash in 9.8 seconds—and has averaged 55 minutes of playing time in each football game this year. He played four years of football at A & M.

The Redskins are convinced that Goode went unnoticed in the press notices only because A & M had such a poor record this year: 9 losses, 1 tie.

Goode signed a 1949 contract last week, and was here yesterday to watch his future teammates take a 41-13 drubbing from the Los Angeles Rams.

Ted Kleinhaus, Syracuse University baseball coach, formerly was a member of the New York Yankees, Cincinnati Reds, and Philadelphia Phils, as a left-handed pitcher.

Savold Loses Through Foul

LONDON—(AP)—Bruce Woodcock won the fight but lost the big prize—any hope for a world title match with heavyweight boxing champion Joe Louis.

Lee Savold lost the bout but showed himself a better man and worthier foe for Louis than the winner.

That sums up the slant of expert ringers on the scheduled 10-round go here last night that had been plugged as an elimination for a world championship contest.

Woodcock, the British heavyweight champion, was pronounced the winner in the fourth round when the referee disqualified Savold on the grounds he had hit below the belt.

Savold, veteran ex-Minnesota non billed from Paterson, N.J., was going strong at the time and many onlookers had been expecting him to win.

Booses at the decision went up from among the crowd of 11,000 in Harrington Arena while Woodcock writhed and mugged on the canvas in a show of pain.

London fight writers took exception to the outcome in this morning's papers, and almost to a man they agreed Woodcock is not championship material.

The News Chronicle quoted promoter Jack Solomons as saying he'd fly to New York tomorrow to try to talk the 20th Century Sporting Club into a match between Louis and Woodcock in London next summer.

Solomons couldn't be reached for a check on that today, and all he'd say of his plans last night was that he'd like to rematch Woodcock and Savold.

Savold weighed 188, Woodcock 191.

Heavyweight Scrap
CLEVELAND—(AP)—Heavyweights Jimmy Bivins and Joe Maxin trade punches in a 10-rounder at the arena tonight with the winner becoming a strong candidate for a bout with champion Joe Louis next June.

It's almost a certainty that the victor will fight Jersey Joe Walcott here next month in one of a series of eliminations to find a suitable opponent for Louis.

Sports Round-Up

By HUGH FULLERTON, JR.
NEW YORK—(AP)—National Football League managers, who claim they discount attendance figures and count only the cash that comes in at the gate, say their receipts are off only five to seven percent this season. In contrast, amusement enterprises report drops of 25 percent and up.

While the Oklahoma Aggies football team is playing William and Mary in the Delta Bowl New Year's Day, the Aggie track team will compete in the Sugar Bowl meet, an Oklahoma Indian team will appear in the Memphis Carnival and the Aggie basketball team will return from an eastern tour for the Oklahoma City tournament. Doesn't anybody stay at home? All five regulars on the Cornell basketball team, and a couple of subs, belong to one fraternity, Psi Upsilon.

Solomons couldn't be reached for a check on that today, and all he'd say of his plans last night was that he'd like to rematch Woodcock and Savold.

Savold weighed 188, Woodcock 191.

BETTER BOWLING

By BILLY SIXTY

ACROSS THE ALLEY: Before we get into specific problems of making a spare, let us emphasize again that the secret of successful spare bowling is a full swing-through for direction. Guide your swing-through naturally, but don't try to steer the ball with your wrist or hand. Make your pendulum swing for the target, and then get a full swing-through. Keeping in mind that the position of the feet changes with the pins still standing on the alley, the No. 8 and No. 9 pins in the No. 8 and No. 9 pins in the alley should be used as a guide in determining the angle which the feet should be pointed (see illustration).

The guiding pin in making allowance for the right-to-left break of the ball, or hook, should be No. 8. With a straight ball, the aim should be right at the center of the alley, and the body will be in perfect discrimination.

For the No. 4, the No. 7, or the Nos. 4-7 pin spares, the stance or starting position is well to the right of the center of the alley. The toes are pointed at the pin or pins, so that when the ball is swung through the body will be in perfect discrimination.

Once again, the big thing to remember in good spare bowling is a full swing-through for better direction. Guide it like a pendulum, and you can do this by lining up carefully and starting the swing accurately. Don't try to steer it, because that tends to hamper the forward swing, reduce its speed, and kill control, which means everything in spare bowling.

Golfer of Year
NEW YORK—(AP)—Ben Hogan has been named professional golfer of the year.

Fred Corcoran, editor of the Official Golf Guide, announced the selection of Hogan as the best play-for-pay golfer yesterday.

Corcoran named Frank Stranahan of Toledo, Ohio, the men's amateur of the year; Grace Lenzyk of Newton, Conn., women's amateur, and Mrs. Babe Zaharias of Denver, women's professional of the year.

The aply-named Rearmed will make his racing debut in the famed Calumet colors this winter at Hialeah. He is a full brother to Armed.

Chiang Kai-shek: A Chinese Puzzle

One of Communism's Most Constant Foes Was Helped to Power by Reds Who Now Threaten End of His Rule

By NEA Service

Communism helped Chiang Kai-shek become the master of China 20 years ago.

Since then, he has been one of communism's most persistent enemies. In the long war with Japan, when the Reds and the Nationalists were two enemies lined up together against a third, terrible skin disease, but communism... a cancer.

BARE-LIPPED Chiang was a world figure in 1932, but unknown to many of China's little people.

Only a miracle, the experts agree, can save him from defeat—or from being tossed out by his own Nationalist government.

Chiang's military career began at 19 with a scholarship to the National Military Academy, with which the decaying Manchu dynasty was trying to build a modern Western-style army. After a year, he was sent to Japan's war college, where he met revolutionary leader Sun Yat-sen.

When he returned to China in 1911, Chiang tasted the leisurely life of the old-line Chinese official, and played the stock market.

CHIANG'S SECOND MARRIAGE made him a member of China's famous Soong family. Here he poses in Chungking in 1942 with the three Soong sisters, Madame Chiang Kai-shek (left), Madame H. H. Kung and Madame Sun Yat-sen (right), widow of the founder of the Chinese Republic.

for winnings variously estimated anywhere from \$1,000,000 up to \$8,000,000. These profits he gave to Dr. Sun's Republican cause against the Manchus.

He had already married (his two sons by his first wife are Nationalist Army officers), and in one of her two sisters. For four years, Chiang courted Mei-ling, Wellesley-educated and daughter of wealthy "Old Charlie" Soong, in open defiance of Chinese tradition that calls for an intermarriage in such affairs.

He met Mei-ling Soong in 1923, when Dr. Sun was married to Dr. Sun favored the courtship, and they were married two years after Dr. Sun's death. Chiang's first wife went back to her village on a pension.

The marriage gave Chiang tremendous political and financial advantages. Mei-ling's other sister was already the wife of the powerfully rich banker, Dr. H. H. Kung. All three Soong sisters, and their brother, T. V., were educated in America, and Chiang thus gained a valuable tie with the U. S. and the Western world.

Now 61, nearly bald, he often wears a cap indoors to keep his head warm, and frequently wears a smile that is as inscrutable as the normally expressionless Oriental face.

Although he has travelled as far as Cairo and mingles Eastern and Western ways in his living, Chiang has never been to the United States. But since he married Mei-ling Soong, he has never been without an adequate personal representative to plead China's cause in America.

Chiang was a world figure while he was still virtually unknown to the little people of China. And he has always been a world enigma, particularly to Russia, which gave him his start as a military strategist and organizer.

Even the stories of his early association with Russia are conflicting. Some historians claim that Soviet observers, Michael Borodin and General Blucher, in China

PRELUDE TO A CRITICAL MOMENT in his career, Chiang (right) and Marshal Chan Huch-lian (left) were close friends when this picture was made in 1936. A year later Chan held the Generalissimo captive, released him on advice of the Reds.

to work with President Sun Yat-sen while they organized the Communists, regarded Chiang as a future Chinese Red leader and built him up in the eyes of Sun. Others insist Dr. Sun himself discovered Chiang and made him

CHIANG KAI-SHEK at 61 is nearly bald; the smile is inscrutable.

In the two weeks he was held captive, Chiang refused to give in. He demanded that he be returned to Nanking—or shot. Marshal Chang finally invited the advice of the Chinese Communists he was supposed to be fighting.

That advice—purportedly on instructions from Moscow—returned Chiang Kai-shek to Nanking. Now, 11 years later, he may have to flee any day as the Reds close in on China's capital.

The state of Pennsylvania's motto is "Virtue, Liberty, and Independence." Rhode Island's is "Hope." South Dakota's is "Under God The People Rule."

Here's How They Make The Movies

By BOB THOMAS

HOLLYWOOD—(AP)—"How do they make movies?" asks a gentleman in the audience.

A good question. And here, in general, is the answer. We start with a story. The studio may pay a fabulous price for a hit play or a best-selling novel. Or it may buy more cheaply an original story idea over which a film writer has sweated many an unemployed week.

The studio boss hands it over to one of the dozen or so producers on the lot. Let's call our picture "The Pismo Beach Story." The producer, Jack Benimble, calls in one to three studio writers. He tells them what line the story should take and they retire to pound out their deathless prose.

The script is done, and redone, and redone, often to the point of insensibility. Meanwhile, producer Benimble is lining up a cast and budget.

Benimble is instructed by the studio to bring "The Pismo Beach Story" in at one-four, which means it shouldn't cost more than \$1,400,000.

He then consults with the production staff and plans the shooting. Benimble picks a director, cameraman and other key posts. He tends to the 1,001 details that go into the making of a picture.

The sets are built, the cast set and enough of the script written to give "The Pismo Beach Story" the green light. Now the director takes over. Even the greatest director can't

'Quite Ancient' Ape Skull Found

NAIROBI, Kenya Colony, Africa—(AP)—The British Kenya Expedition has reported discovery of an ape skull 20,000,000 years old, bearing important human characteristics.

The nearly intact skull was found in the Lake Victoria area. The characteristics similar to those of human beings are the formation of the forehead and the structure of the eye sockets. The specimen is believed to be the first skull of the Lower Miocene Period ever found. It upsets existing theories that the characteristics in question did not emerge until millions of years later.

The skull has been flown to London for further examination.

make a hit from a bad script. But a good director can mean life or death to a mediocre script, which class of writing predominates in Hollywood.

Finally it is finished. Then it is handed over to the film editor, who fashions the tangle of celluloid into a feature picture.

With the release date set, the publicity and exploitation barrage bursts forth. Ads and stories appear in the newspapers and magazines. Miss Highwater endorses Puffo cigarettes and Mr. Downe appears on the "Truth or Mayhem" air quiz show, both of course mentioning their latest picture.

The movies go out to the studios exchanges throughout the U. S. and the world and thence to the theaters. It finally reaches you, the customer.

What's that? You say you didn't like "The Pismo Beach Story," even if they did go to all that trouble? You think it stinks? Well, that's show business.

Atomic Energy Commission Concerned Over Contract Covering Gas Supply

WASHINGTON—(AP)—The Atomic Energy Commission voiced concern that the piping of an additional 400 million cubic feet of gas daily out of New Mexico and Texas might jeopardize fuel supplies for the Los Alamos weapons center.

Its position was outlined at a power commission hearing on the applications of El Paso Natural Gas Co., San Juan Pipe Line Co. and the Pacific Gas and Electric Co. to build new pipelines into the San Francisco Bay region.

Attorney Lloye Bayer of the AEC said its Los Alamos, N. Mex., plant and an Atomic Energy Laboratory at San Diego, N. Mex., depend on gas from San Juan Field in San Juan County, N. Mex. He said the commission has no opinion at this time on the adequacy of gas reserves in the field, but "wants to make sure" that the gas supply for the atomic energy installations is safeguarded for at least 25 years.

Paul Kayser, president of the El Paso and San Juan companies, said El Paso has contracted to deliver to PG&E at Topoc, near Needles, Calif., 150 million cubic feet of gas a day by Jan. 1, 1951, another 150 million by Jan. 1, 1952, and another 100 million by July 1, 1953.

Kayser said 300 million cubic feet daily will come from the Permian Basin of Texas and New Mexico, and the remainder from the San Juan Field.

R. W. Duval, attorney for PG & E, told Power Commissioner Examiner George T. Liddell his company will show that California gas supplies are "entirely adequate to meet the ever in-

creasing demands of domestic industrial and commercial users of gas in Northern California."

Senator Chavez (D-N.M.) said in a statement he fears the proposed pipelines would jeopardize the existing and future industrial and domestic needs of Santa Fe, Albuquerque, the Atomic Energy Commission project at Los Alamos and other areas in New Mexico.

Chavez, now in Argentina on a vacation trip, instructed his office to notify the commission of his opposition.

City Editor Finds Self The Sheriff

Savannah, Ga., old and faded port, now is faced with the Atlantic Ocean and Bill Harris. Harris, 41, is a newspaper man who ran for sheriff and, as he observes with some surprise, "I won."

Anyhow, now that he is the chief law enforcement agent for Chatham County, or will be Jan. 1, Harris comments, "I'm honestly horrified at the thought of putting anybody in jail."

Harris has another thought. "I made five handshakes with the Marines in the last war without getting shot at. I hope I do as well as sheriff."

While he was secretary for Congressman Hugh Peterson, the war broke out. Harris tried to enlist in the Marines, but they said he was too old. They Navy offered him a commission befitting his age. Bill said he would rather be a private in the Marines. He used his influence with Peterson to use his influence with Gen. Thomas Holcomb, then commander.

The commandant agreed to waive Bill's age and made him a private. He rose to staff sergeant. When Bill decided to run for sheriff he was angry at the treatment he, as city editor of the Morning News, had been getting from the incumbent sheriff.

"You know I'm the only candidate in the last 100 years to defeat an incumbent sheriff. Mostly by the die of old age in office, or retire."

Bureau Believes Peak In High Prices Passed AUSTIN, (AP)—The University of Texas Bureau of Business Research believes the peak has been passed in high prices. For two months the bureau's charts have shown a downward trend.

Dr. John R. Stockton, statistician for the bureau, said this "gives some support to the thesis that the peak has been reached and passed."

The bureau's index dropped three percent in October. In September it declined one-half of one percent from the post-war high reached in August. It is estimated that some 18 million Americans have some degree of hearing impairment, but only one-third or less need hearing aids.

The individuals manning this equipment had no fear of the storm and showed no hesitancy in combating the cherties unprotected and on foot. The Highway Department modestly assured him "these men were only doing their duty." There are 35 such snow pushers in a home town operated by the state in "sunny" Texas.

AND A HAT TIP TO MRS. KUHN. 118 WATKIN TERRACE, ROCHESTER, N.Y.

Cooper Has 20th Year In Movies

By BOB THOMAS
HOLLYWOOD—(AP)—This year marks the 20th that Gary Cooper has been a top film star and I found him in a rare reflective mood about his long success.

In 1928, the lanky Montana lad sauntered across the screen in "The Virginian." It was his first starring role, although he had already made a hit in "Wings" and "It." For two decades he has clung to the list of top stars. Naturally, I wanted to know how.

"Darned if I know," he answered. But as an explanation, he offered some history.

"After the 'Virginian,' Paramount worked me like a son of a gun. I was at the studio 16 hours a day, sometimes working on two pictures at a time."

Finally, in 1931, my health broke down. I had asthma and was down to 158 pounds. The doctor said unless I rested, I'd be susceptible to pneumonia and other things.

I was slowing down whether they knew it or not. I was put off salary and I went to Africa for a year.

"When I got back, I told Paramount I wouldn't work in anything I didn't think was going to be good. They took me at my word, and I began to get important pictures like 'A Farewell to Arms,' 'Destiny and the Deep' and 'Lives of a Bengal Lancer.'"

A few years later, Cooper waded into the free-lance field. "You have to read through a lot of trash to find what you want," he said, "but the freedom is worth it."

One factor in his success, he added, is that he usually follows an occasional bad picture with a good one. "I'm a great come-backer," he smiled.

State Electors Meet In Austin Monday

AUSTIN—(AP)—Texas Democratic electors will meet here Dec. 17 to cast their votes for president and vice president.

Secretary of State Dan Brown notified electors by registered mail Monday. The meeting was set for 10 a. m. at the Capitol Senate chamber.

His White Hands Betrayed Him

By A. Richard Stevens, 38, flushed from hiding when betrayed by his smooth, white hands, was convicted of second degree murder in the slaying of his wife the other day in Welch, W. Va.

A jury required only an hour to reach its verdict.

Judge G. L. Counts deferred sentence until after arguments are heard on a new trial motion. The conviction calls for a sentence of from five to 18 years' imprisonment.

Stevens was a coal company policeman at nearby Bartley and his attorney sought to show he was temporarily deranged at the time of the shooting.

Stevens fled to Pikeville, Ky., and got a job as carpenter at a coal mine. The other workers became suspicious when they noticed his smooth white hands.

Veteran Buys Light House for Lumber

DALLAS—(AP)—A World War II veteran paid \$140 for a light house but hasn't any need of using it to start lighthouse keeping.

Nathan V. Boddie of Gulfport, Miss., plans to tear down the lighthouse on Cat Island off the Gulf Coast for its lumber.

He bought the lighthouse Monday from the War Assets Administration.

Hyde Park Will Have an Inn

This is an artist's sketch of an inn which will be built at Hyde Park, N. Y., to house visitors to the Franklin D. Roosevelt estate. It will be constructed on land leased from the late president's son, Elliott, who, with other members of the family, will keep partial control of the enterprise. The five-story inn and restaurant will open next spring.

Governor's Ardor for Flying Not Cooled Off by Emergency Landing

AUSTIN—(AP)—Gov. Beauford H. Jester's ardor for flying apparently was not cooled by the emergency landing of the plane in which he and Mrs. Jester returned from Mission to Austin yesterday.

The Governor said he will go to an Austin airport to the International Compact Commission meeting at Wichita, Kans.

Neither Jester nor his wife was injured when pilot Glenn Darnell of Houston brought a twin-engine plane in for a belly landing yesterday afternoon. Jester said Darnell did a "magnificent job."

The plane's landing gear would not lock in down position. The difficulty was discovered shortly after takeoff from Mission, where the Jesters spent the weekend with Lt. Gov. and Mrs. Allan Shivers.

The municipal airport at Austin was notified, and firetrucks and an ambulance were ordered to stand by.

Austerity Brings Out Masterpieces

LONDON—(AP)—Owners of many of Britain's finest art collections are lending their pictures to public galleries throughout the country to escape increasing maintenance costs. Some of the collections contain masterpieces never before seen by the public.

One of the reasons for this new trend is that owners, unable to face increasing maintenance charges for their mansions, have moved to smaller quarters where suitable hanging space is not available. Others have found that fuel allocations are too small to provide a correct temperature for the pictures. Rather than store them and risk deterioration they prefer to have them properly rehanging in the galleries.

The Duke of Devonshire is one of the latter group.

"We are faced with the problems of light and heat," his assistant librarian at Chatsworth House said. "The pictures would be better off in galleries because in a few years of conditions here they would deteriorate seriously."

About 20 of the Chatsworth collection are already on loan to museums. Another 60, the best, will be exhibited here soon, then rehanging in museums. They will include Holbein's cartoon of Henry VIII, never before publicly exhibited.

The Earl of Eglintoun sold Bridgewater House, Piccadilly. Part of his collection has been loaned to the Scottish National Gallery, Edinburgh. Tapestries from two valuable sets, loaned by the Duke of Buccleuch to the Ministry of Works, are now hanging in the official residence of Foreign Secretary Ernest Bevin. Four others are at the British Embassy in Rome. The remainder, now being repaired, will be allocated shortly.

Los Angeles Growing Steadily Each Month

LOS ANGELES—(AP)—The population in Los Angeles County is still steadily rising, naturally and by immigration, at about 5,000 a month, the Regional Planning Commission reports.

Director Arthur H. Adams says the city of Los Angeles population is now 2,068,580 and that of the county 4,089,742.

Hungary Convicts Envoy of Treason

LONDON—(AP)—Victory Osornoky, son-in-law of former Hungarian president Zoltan Tildy, was executed by the Hungarians today for treason, the Yugoslav news agency Tanjug reported in a dispatch from Budapest.

Osornoky, 29, formerly was Hungary's envoy to Egypt. He once was stationed in Washington.

A people's court sentenced him Nov. 15 to be hanged, noting that he had engaged in "traitorous activities" with U. S. and British agents. He also was convicted on charges of crimes against the people and black market currency dealings.

Smuggling Won Honor For Thos. Jefferson

FLORENCE, S. C.—(AP)—A smuggling job on rice gained Thomas Jefferson an honorary membership in the Agricultural Society of South Carolina. Attorney W. Marshall Bridges, a student of Jefferson's life, reports that the 1797 ambassador to Great Britain found rice there superior to that grown in South Carolina.

He looked into the matter, and found that the superiority derived from the rice, grown in Piedmont, Italy, being of a different strain than that grown in the United States. In one of his notebooks Jefferson wrote that an Italian mulester "will smuggle a sack of rough rice for me to Genoa; it being death to export it in that form." The smuggler was successful, and the new rice thrived in this country. In recognition Marshall says, Jefferson was accorded the membership.

Court Refuses Ruling on Act

WASHINGTON—(AP)—The U.S. Supreme Court Monday refused to rule on the validity of action by Texas state police in seizing an automobile load of liquor being transported from Shreveport, La., to Oklahoma City.

The liquor was purchased in Shreveport for Roy R. Rainey, Oklahoma City holder of a federal retail liquor dealer's stamp. Rainey won from a U. S. district court in Texas an order requiring Texas police to return the car and liquor to him. The district court order was set aside.

Musician Buys Famed Stradivarius Violin

PHILADELPHIA—(AP)—A New York violinist who is preparing to make his debut today was the owner of the world-famous "La-mouroux" Stradivarius.

David Barser purchased the instrument, which had been estimated to be worth \$85,000 Monday.

MEDICAL GROUP MEETS

HOUSTON—(AP)—A three-day post-graduate medical assembly opened here today and 1,500 South Texas doctors attended. Fifteen medical specialists will be among the instructors.

Sensationally advanced NEW 1949 STUDEBAKER TRUCKS

- Most easily maneuvered trucks that ever wheeled a load.
- No wheel fight when making turn-arounds or parking. The extra leverage you want—and plenty of it—thanks to Studebaker's unique variable ratio steering.
- Low cab floor saves a lot of tough climbing.
- New sure-footedness in bad weather—the steps are enclosed inside the doors.
- Automatic "hold-open" door stops.
- A new kind of "lift-the-hood" accessibility. Engine and ignition—and instrument panel wiring—are within easy arm's reach.

New one-and-one-half ton Studebaker truck—available in four wheelbases for 9 foot, 12 foot, 14 or 15 foot and 17 or 18 foot bodies. Shown above in 15 1/2 inch wheelbase with 12 foot platform. There's a new 2-ton model also in the same four wheelbases.

Streamlined style and wide-range vision distinguish all the new 1949 Studebaker trucks. Pictured here—the one-and-one-half-ton 15 1/2 inch wheelbase chassis with 12 foot closed van. Half-ton, three-quarter ton and one ton models are also available.
