## TEX'S TOPICS

Everybody has a deep-rooted longing of some kind. What's yours? Ours is to drift, drift and drift in a free balloon. Why, one should wish to do this is a bit difficult to explain—but, the urge is there and there seems nothing can be done about it.

We've mesed with airplanes, speed boats, dirigibles and hydroplanes, but never have been able to climb aboard a career balloon that didn't know when it started just where or how it was going to finish.

Maybe it's the uncertainty of the thing that has such an appeal. There's something wholly fascinating about it, sort of like the feeling you get when you stand beside roaring Niagara Falls. It invites you to come on in and shoot the rapids.

Many have been unable to resist Niagara's appeal. You read of them and they are called suicides. This is not necessarily true. Niagara has the power to beckon and draw one in before realization clicks. There is something beautiful, unearthly and so utterly magnificent that it is overwhelming—making it entirely possible for some who venture too near the brink to be overcome by the majestic grandeur of it all.

Magnetic power of natural wonders many times is underestimated. Particularly, do we believe this to be true about mighty Niagara. It is our opinion that not all persons who go to their deaths at Niagara, do so because they plan to put an end to their lives.

Above the roar of the Falls there is an overpowering serenity in the calm, blue-green waters as they drift slowly to the edge and fall gracefully down, down, down to rise again in beautiful, white mist before they leave the bottom to join the mad, tumbling and boiling rapids of the Niagara river.

Those of you who have stood there and watched that grand natural spectacle, have leaned on the bridge rail at the very edge, or have observed the night scene when varicolored lights make of Niagara Falls a veritable wonderland, will understand just what we're getting at.

But, back to our desire to drift in a free balloon. The old urge came again as we learned today that a German balloonist is out to make his drift, drifting, drifting, just drifting.

The German balloonist wants to conquer the 3,700 odd miles between Casablanca and the mouth of the Amazon by about the only way left to conquerors, outside of swimming the stretch. The airplane and the dirigible tamed the winds over that span of water long ago.

By utilizing Northeast trade winds, he hopes to be the first human to float across. . . . Inasmuch as this is right up our alley of hidden desire, we'd like to stow away and become the first human to drift over with him.

The German, Dr. Karl Zinner, now is trying to raise \$12,000, necessary before the venture can take place. He wants a bag that will hold 5,000 cubic meters of hydrogen. It would have a basket of inflatable rubber so that it would float in case it came down on water, and he plans to take radio and meteorological apparatus along.

Dr. Zinner also believes it is possible to cross the North Atlantic from North America to Europe by free balloon.

This was actually tried twice around 1875 and both times the enterprise ended in disaster long before open water was reached. Of course, the science of ballooning then wasn't anything to what it is today. Ah, to drift, drift, and drift in the basket of a free balloon.

Today's startling fact: Growers have not, to this day, been able to produce yellow sweet peas.

And do you know that it took 44 days to make the first cross-country trip in an auto in the U. S. ? That was back in 1903.

This space is informed that a shady story is about to break in Pampa. . . . "Shady" in this instance could mean that the con-

## PURGE LAUNCHED ON SYMPATHIZERS IN LOYAL RANKS

Spain's northern seaboard was the focal point today for the government's drive to crush the Fascist revolution in the face of a smashing attack by the rebels to break through to the sea.

Madrid looked upon prospective capture of the rebel stronghold of Oviedo, in the northwest, as the beginning of a "great turn" in its efforts to crush the rebellious forces.

Immediate attacks afterward on Cordoba and Granada, in southern Spain, were scheduled. The government said rebels in Cordoba, Granada and Seville had been without electricity and water for 24 days.

The rebels, attempting to install a Fascist-complexed regime in Madrid to replace the present communist-socialist government in the infant republic, were not idle.

Dispatches from Tangier indicated the troops of the rebel generalissimo, Francisco Franco, were under orders to begin their major drive on Madrid from the south today.

Twelve thousand Moroccan soldiers were expected to participate in the advance.

The most bitter fighting between the two sides was reported from the mountains of the Sierra Nevada.

## THIRD DAY OF RECORD HEAT IS UNDER WAY

## WINDS, CLOUDS, AND RAIN COOL SOME OF TEXAS

At 2 o'clock this afternoon the Santa Fe Railroad thermometer had climbed to 109 degrees, equaling the high mark of the summer reached at 3 p. m. Tuesday.

Blistering heat rays of a blazing sun continued today to beat down on Pampa and vicinity, threatening to surpass the seasonal record of 109 degrees set on the Santa Fe thermometer at 3 o'clock yesterday afternoon.

With the third day of the new heat wave, the Santa Fe reading at 1 p. m. today was 108, compared with 102 at noon Tuesday.

The hot weather is general over Texas. Unless the weatherman's promise of variable winds is fulfilled, indications were that another record mark for the year would be chalked up this afternoon.

Old time Pampa residents report that the weather of the last few days has been the hottest in a score of years.

After climbing to 109 yesterday afternoon the mercury dropped back to 87 at 11 o'clock last night and had gone down still farther to 74 at 5 a. m. today.

Within the next six hours, the sun blazed from a clear sky to boost the mercury reading 30 degrees to 104 at 11 a. m., and then jumped four more degrees to 108 at 1 o'clock this afternoon.

Row crops continued today to wilt and shrivel with little hope left for them unless there is rain in the next two or three days.

The sky over Pampa was clear this afternoon with little indication of any relief in sight.

Worst In 20 Years  
(By The Associated Press)

Scattered showers, variable winds and thick cloud banks gave promise today of breaking Texas' worst heat wave in a score of years.

Government forecasters predicted "not quite so warm" conditions for east and west sections.

Final relief will come, they said, only when a low barometer area now over Texas moves eastward.

Clouds today reached from Dallas to the Oklahoma border, and were catered to the gulf coast. Light rains fell over widely separated areas of north and east Texas.

The state counted its death toll for three days of record-breaking warmth at nine. Authorities agreed much crop damage had been done, but said rains soon would eliminate the major portion. An estimate, they said, was impossible at once.

## Third Break Of Cade From State Prison Effected

HUNTSVILLE, Aug. 12 (AP)—Prison officials announced today the escape yesterday of two prisoners, both ex-convicts of Oklahoma, from the Retrieve state prison farm in Brazoria county.

Henry Hill, 32, of Ada, Okla., escaped during the morning on a horse belonging to Captain George Arnold, assistant farm manager. He was serving 15 years for robbery from Tarrant county. Jack Cade, 27, made his third escape from prison.

He was serving 25 years in two cases of robbery with firearms and one case of assault to rob from Dallas county.

Mr. and Mrs. Roy Bourland and daughter, Sarah Frances, and Marjorie McColm returned yesterday from Denver and other points of interest in Colorado.

## Senate Veterans Renominated

WASHINGTON, Aug. 12 (AP)—A stream of primary ballots sweeping two nationally prominent senators to commanding leads for renomination and a burst of clashing arguments in the presidential campaign featured today's politics.

Senator Joseph T. Robinson of Arkansas, democratic leader, and the veteran republican senator William E. Borah of Idaho built up big majorities over opponents with Townsend's votes in Florida.

C. O. Andrews, bearing Townsend endorsement, won a democratic senatorial nomination.

## REMAIN, SAYS EXILED CHIEF

Mexican Gold Shirt Head Denounces Government

EL PASO, Aug. 12 (AP)—Exiled Gen. Nicolas Rodriguez today forecast able leaders stepping to take his place at the head of Mexico's Fascist gold shirts in their fight against communism.

"Driving me from the country will not break the organization," the gold shirt ex-leader said. "There are many leaders able to take my place."

Gen. Rodriguez bitterly denounced the Mexican government for its "high-handed" tactics in placing him against a plane and taking him to Juarez, across the border from El Paso. He reached the border yesterday and was held in Juarez two hours before being escorted to the international bridge.

## Alfonso Considers Flying Back To Spain

Copyright, 1936, By The Associated Press

DELACH, Austria, Aug. 12—Former King Alfonso may try to fly back to war-torn Spain.

He called his two sons, Jaime and Juan, into family council today to decide their course.

What the three agreed to do, the exiled monarch would not say. "As long as the disturbances continue," he told the Associated Press, "I cannot discuss my plans."

The one-time monarch, stripped of his regal prerogatives in the revolution of 1931, seemed perturbed when told that an airplane flown to him in Czechoslovakia by an English pilot was confiscated at Innsbruck yesterday.

It was rumored that the machine, nevertheless, would be taken to Venice to fly Alfonso to Spain at the moment such a move appeared to be propitious.

Mr. Graham still has his Stinson monoplane but he expects to dispose of it soon. Arrival of the new ship brought to 12 the number of privately owned airplanes in Pampa, recognized as one of the most air-minded cities in the nation.

Preliminary statistics being prepared show that Pampa has more planes than any city its size in the country.

## Townsendites Lose In Two States; Win A Seat

WASHINGTON, Aug. 12 (AP)—A stream of primary ballots sweeping two nationally prominent senators to commanding leads for renomination and a burst of clashing arguments in the presidential campaign featured today's politics.

Senator Joseph T. Robinson of Arkansas, democratic leader, and the veteran republican senator William E. Borah of Idaho built up big majorities over opponents with Townsend's votes in Florida.

C. O. Andrews, bearing Townsend endorsement, won a democratic senatorial nomination.

In the slowly mounting Arkansas returns, Robinson obtained a better than two-to-one margin over the combined votes of two rivals. They are Cleveland Holland, advocate of the Townsend old age pension, and J. Ross Venable.

Making the "political fight of a lifetime" at the age of 71, Borah was outdistancing his Townsendite opponent, Byron DeFenbach, former state treasurer. The Borah lead on the face of partial returns was three to one.

Down in Florida, former Governor Doyle E. Carlton conceded victory to Andrews, a former circuit judge. They contested in a special primary for nomination to succeed the late Senator Park Trammell.

## Faster Pension Payment Asked By Commissioners

## Many Applicants In County Now Are In Dire Need

Gray county commissioners' court today mailed an appeal to the Texas Old Age Assistance Commission in Austin, urging the speeding up of pension payments to Gray county applicants.

The request followed discussion of the matter at the regular meeting of the county court at the instance of County Judge C. E. Cary, who informed the court of pleas from applicants which had been made to his office.

The court adopted a resolution which reads as follows:

"There are now within Gray county a considerable number of applicants for old age pensions who have not yet received their pensions. It has come to our attention that a majority of these applicants are in immediate need of assistance and many of them are at this time on the verge of distress."

"Since there is no adequate way of preventing or relieving such distress, except by the immediate payment of the pension, and since our citizenship generally in the county recognizes that further delay in placing these applicants in position to receive their payments immediately, would be contrary to the welfare of such applicants and to the community as a whole, our citizenry further recognizes the obligation the state and society owe to these worthy old age applicants, and believe that payments should be made immediately, therefore,

"Be it resolved by the Commissioners Court of Gray county that we as a representative official body, request and urge the Texas Old Age Assistance Commission to use every

## DISMISSAL OF DIRECTOR TRIO IS ANNOUNCED

## 'ORGANIZATION SOLD TO LEMKE AND COUGHLIN'

CHICAGO, Aug. 11 (AP)—Dr. Clinton Wunder's charge that Dr. F. E. Townsend "sold the organization down the river to Coughlin and Lemke" reverberated today in the wake of a widespread shakeup in the old age pension movement.

Dismissal of Dr. Wunder, eastern leader; J. B. Kiefer, central regional director at Chicago, and William Parker, eastern regional director at New York, was announced here last night by Gilmour Young, national secretary.

"The specific reason for which they were discharged was inefficiency," said Young. "Their general conduct in office wasn't satisfactory to the organization, or rather the Doctor (Townsend) felt it wasn't satisfactory."

The national secretary said there had been complaints that Dr. Wunder injected "politics and political personalities" into his speeches instead of concentrating exclusively on the pension issue.

Dr. Wunder rejoined in a formal statement issued in New York. "I am fired because I objected to Dr. Townsend and Gerald Smith doing the very thing they now accuse me of," he stated. "They have sold the Townsend organization down the river to Coughlin and Lemke."

No Agreement Is Result At Astor Trial Conference

LOS ANGELES, Aug. 12 (AP)—With the attorneys for both sides to the Mary Astor-Dr. Franklin Thorpe marital dispute saying that no agreement has been reached, the lawyers went into conference with Superior Judge Goodwin J. Knight at noon today, the time set for the resumption of the trial.

The attorneys, without saying what was the point preventing an agreement which involves the custody of the couple's four-year old daughter, Marylyn, indicated they were still hopeful for a settlement.

They are prepared, however, to continue the trial of the case if we do not get our terms," said Joseph Anderson, attorney for Dr. Thorpe.

Judge Knight yesterday expressed hope that an agreement between the attorneys could be reached, and warned that unless they speed up trial of the suit and stopped asking "irrelevant questions," he would take the questioning of witnesses into his own hands.

Judge Knight locked himself in his chambers with Anderson and Roland Rich-Woolley, the latter Miss Astor's attorney.

"We definitely have not reached an agreement," said Woolley. "However, we have not given up hope."

Miss Astor brought the suit a month ago, attempting to break the court order, obtained by Dr. Thorpe when he divorced her in April, 1935, giving him complete custody of the baby.

"For the child's benefit, Dr. Thorpe is willing to concede partial custody of Marylyn to Miss Astor," said Joseph Anderson, counsel for Dr. Thorpe.

# BREAKFAST AND SHOWER AT CONLEY HOME COMPLIMENT MRS. J. H. GALLIHER, BRIDE

## FORMER MISS COOK IS HONOREE AT PARTY

Complimenting Mrs. J. H. Galliher, Jr., the former Miss Christine Cook whose marriage to the Washington, D. C. man was recently announced Mrs. Don Conley was hostess at her home on Christine street with a breakfast yesterday morning.

Coffee was served by Mrs. Arthur Swanson, coffee cake and mints by Mrs. E. L. Turner of McLean, from a table centered with pink amaryllis and shasta daisies.

After breakfast, Mrs. Galliher was presented with a spectacle case in which she found glasses and this note:

"With these specs take a peek into the back bedroom. There you'll find packages wrapped so neat. Perhaps they'll make your cheeks bloom. And make up for your absence from the groom."

The packages held an array of lovely gifts which were admired by the guests.

Those present included Misses H. H. Hicks, D. D. Cochran, R. G. Allen, C. P. Buckler, LeRoy Miller, Clyde Fatheree, Siler Faulkner, W. A. Bratton, R. M. Bellamy, W. J. Smith, Clarence Barrett, John Ewers, B. C. Low, Tom Rose, Swanson, and Turner.

Gifts were sent with regrets by Mrs. Tom L. Wade and Mrs. Jess Patton.

## Children Are To Open Program To Public On Friday

The children's daily Bible drills which are being conducted every morning at 9 o'clock at the First Christian church, are proving interesting and helpful to the large number of children who are taking advantage of the course that is being offered.

The work includes not only the Bible studies, but story telling, a study of the standard hymns and singing. After the class lessons the children are doing Indian beadwork.

They are planning on a short program of Indian games and stories at the close of the Bible drill. Friday night the children will give their public Bible drill as one feature of the evening. This will be free to the public.

The music has been one of the strong features of the meeting. Under the direction of R. L. Allston, the large chorus choir has been doing some very fine work. Special musical numbers are given at every service which include selections on the piano and vibraphone, solos, duets and quartets. To night the crayon picture will be "Day is Dying in the West."

## Families Meet In Olsen Home

Mrs. Ethel Olsen's home was the scene of a reunion of the Jeffrey and Reedy families over the week-end. Guests began arriving Friday, and at dinner Sunday 25 were present. A cousin, Henry Hoger of Ansley, Neb., came the greatest distance.

Others who enjoyed the reunion with "Mother" Jeffrey, pioneer of Nebraska, Oklahoma and New Mexico who is nearing her 86th birthday, were Mr. and Mrs. Henry Jeffrey, Louise and Emma Jean, of Raton, N. M.; Mrs. J. V. Martin and Mamie, Lucile and Edith of Tyrone, Okla.; Mrs. E. L. Martin, Mattie Mae and Artie Lee Reedy, of Dahlart.

## WAKE UP YOUR LIVER BILE—Without Calomel—And You'll Jump Out of Bed in the Morning

The liver should pour out 100 pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sick and the world looks pink.

Laxatives are only snake-oil. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 50c.

# MISSES JACKSON ANNOUNCE THE ENGAGEMENT OF THEIR SISTER WITH AUG. 22 WEDDING DATE

Ruthanna Jackson Is To Wed Man From Albuquerque

An announcement luncheon was given by Misses Irene and Florence Jackson yesterday at their home east of Pampa, revealing that their sister, Miss Ruthanna Jackson, will be married on Aug. 22 to Robert S. Cox of Albuquerque, N. M.

A three-course luncheon was followed by bridge games. All decorations were in a Centennial motif. At each plate was a wedding ring holding a scroll with the announcement. Miss Nita Vay Heard entertained with an appropriate reading.

In bridge, Mrs. John Lawler made high score and Miss Lois Johnson low. Other guests were Misses Erdine Benton, Marie Farington, Edna Turcotte, Lucille White, Loretta Hogan, Donnie Lee Stroope, and Miss Marie Kitchens of Clinton, Okla.

The marriage is planned at the home of the bride's brother in Amarillo. She is a member of a pioneer Gray county family.

## Revival Is Both Modern And Old, Says Evangelist

An invitation to everyone to attend the open air revival in progress under auspices of the Church of God is made by the Rev. H. W. Pugh, evangelist. Meetings are conducted each evening just off S. Cuyler behind the Alamo hotel.

"The up-to-date religion is the old-time kind," said Mr. Pugh in his invitation. "We truly welcome you all and desire your presence and your prayers. Remember, we are all striving to go to the same place; so there will be no division there, let us join hands and hearts in an old-time revival."

## Birth Day Party Is Given As Surprise

Mack McCullum was surprised at a birthday party planned by Mrs. McCullum at their home recently. After games of cards, a large birthday cake was served with ice cream.

Guests who enjoyed the evening and presented gifts were Mr. and Mrs. E. G. Stark, Mr. and Mrs. R. S. Bennett, Mr. and Mrs. B. G. Clarke, Mr. and Mrs. Ray Black.

## Seven-Day Menu Plan Is Offered As Kitchen Aid

By MRS. ALEXANDER GEORGE A SEVEN-DAY PLAN

Stressing economy of money, labor, time and fuel, a series of menus and recipes for a week has been arranged for this column. Each day, ways of using leftovers will be given, based on the main order list.

This plan has been worked out the average family of four—one more or less can be easily worked in.

The order list includes only fresh foods. It is assumed that staples are replenished when needed.

The wise housekeeper shops carefully during summer months for perishables. It is better to make several trips to market for fresh foods than have wilted ones on hand.

Store Away Greenery Promptly

As soon as supplies are received, they should be carefully stored. Discard unusable parts of vegetables and fruits, wash well and put away. Remove meat from wrappings and store as flatly as possible. Discard outer coverings as pasteboard or heavy paper as they are liable to absorb moisture as well as prevent proper circulation of air in the refrigerator. Store eggs in open meshed basket. Cover butter, milk and other mild flavored foods to prevent flavor absorption. Wrap melons and other strong flavored foods in waxed paper. Rinse milk bottles in water before storing. Promptly store staples in their respective containers.

The refrigerator should be used to capacity as cooked and fresh foods keep better when stored in a cold place.

**Order List**  
For Double Duty Recipes  
2 pounds onions  
1 bunch celery  
2 heads lettuce  
10 pounds potatoes  
3 pounds sweet potatoes  
12 large carrots  
8 large turnips  
6 green peppers  
2 cucumbers  
1 can asparagus  
2 pounds green beans  
2 pounds unshelled lima beans  
8 ears corn  
8 beets  
10 pounds apples  
1 watermelon  
1 quart berries (fresh or canned)  
4 pounds peaches  
1 pineapple  
4 grapefruit  
1 lemon  
12 oranges  
1 pound dried prunes  
3 pounds butter  
14 quarts milk  
6 pound pot roast

## To Defend Title

Helen Jacobs, looking a bit thinner than when she sailed to the tennis wars in Europe last spring, returns with the Wimbledon title to train for defense of her American championship in the Forest Hills tournament, in which Helen Wills Moody, her arch-rival, also is expected to play.

3 1/2 pound chicken  
2 pounds beef liver  
2 pounds fish  
1 quart buttermilk  
1 pint cottage cheese  
9 loaves bread  
3 dozen eggs  
1 pound lard

If there are two children in the family, an additional quart of milk a day will be required.

If the family uses much cream, buy an extra quart of milk or 1/2 pint of cream every other day.

## PLANNED DATE FOR WEDDING IS ADVANCED

### CAMP-SMART MARRIAGE READ SATURDAY AT MIDNIGHT

A surprise wedding at midnight Saturday united Miss LaVerne Smart, daughter of Mr. and Mrs. F. S. Smart, and Paul Camp, son of Mr. and Mrs. Leon Camp. After today the couple will be at home at the Murphy apartments for several weeks.

Planned for the first of next month, the wedding surprised families and friends of the couple when it was solemnized without the formality they had expected. The Rev. L. Burney Shell, Presbyterian minister, read the ceremony after officials had been called from bed to issue the license.

The bride wore a white flannel sports suit instead of the more elaborate gown that was awaiting the ceremony. Witnesses were Miss Faye Smart, Miss Elouise McWright, James Goucher, and Charles Bourland.

Mr. and Mrs. Camp plan to leave early in September for California, to make their home for a time while he studies. Both have lived in Pam-

## Pioneer Is Host At Canadian On 76th Birthday

CANADIAN, Aug. 12—J. A. Chambers entertained with a lawn party at his home on Fifth and Purcell streets Tuesday night, the occasion being his 76th birthday. He was born in Hood county, Texas, August 11, 1860.

Mr. Chambers spent five years as a cowhand in pioneer days earning the sobriquet of "the whistling cowboy." He was a pioneer merchant

in Canadian, having been in business here for 40 years. Since then he served six years as county treasurer.

Mr. Chambers has an unusually large collection of early day photographs. He has written articles for magazines and is working on an autobiography.

## FIRE DOES DAMAGE

# FULL STATE TICKET AND PLATFORM PRESENTED BY GOP

## HARRIS NAMED FOR GOVERNOR AT CONVENTION

### FERVENT CHARGES ON NEW DEAL GO INTO PLATFORM

SAN ANTONIO, Aug. 12 (AP)—Texas Republicans bid for popular support today with a platform denouncing the New Deal and demanding broad changes in state and national governmental policies.

They also presented a ticket for state offices headed by C. O. Harris of San Angelo and Carlos Watson of Brownsville, nominees for governor and United States Senator, respectively.

Platform and nominees were approved at the state convention yesterday after fervent speeches by leaders charging that President Roosevelt sought to undermine the constitution and was surrounded by corrupt politicians bent on wrecking the government.

Chief planks declared for a "pay as you go" policy; recovery by saving, not spending; government by a democracy, instead of a bureaucracy; withdrawal of government from socialistic experiments in competition with private business and substitution of a program of abundance for one of scarcity.

"We pledge a return to the American system of liberty and freedom in government as against the enslaving communism and fascism of most of the world," resolutions said.

Other nominees were: Lieut.-Gov. R. W. Humphreys, Galveston county; attorney general, S. D. Bennett, Jefferson county; chief justice of the supreme court, C. W. Johnson, Jr., Young county; associate justice of supreme court, Joe Ingraham, Harris county; judge criminal court of appeals, E. G. Fletcher, Van Zandt county; commissioner of general land office, R. H. Smellage, Ellis county; treasurer, S. J. Gross, Dallas county; superintendent of public instruction, Mrs. George B. Jackson, Hunt county; commissioner of agriculture, A. W. Orr, Polk county; comptroller, H. S. Frady, DeWitt county.

T. P. Lee of Houston and Hugh Exum of Amarillo were re-elected chairman and vice chairman of the executive committee.

**LIQUOR LICENSES EXPIRE**  
AUSTIN, Aug. 12 (AP)—The Texas Liquor Control Board today urged dealers to file their applications for license renewals as soon as possible so as to be able to sell liquor on Sept. 1, the first day of the state fiscal year. Applications should be returned before Aug. 20.

## AAA HELP FOR NEGRO FARMER IS REVIEWED

### Status Is Improved, Leaders Are Told At Meeting

PRAIRIE VIEW, Tex., Aug. 12 (AP)—C. A. Cobb, southern division director of the agricultural adjustment administration, told a meeting of negro farm leaders in an address prepared for delivery here today that new deal agricultural policies had improved the economic status of the negro farmer.

Declaring the administration's farm program had been administered for the benefit of negro and white farmers alike, Cobb said improvement in farm conditions resulted in an increase in the number of negro farm owners and a corresponding decrease in the number of negro tenants.

Praising the race for cooperating in the emergency farm program, Cobb declared the "problems of the white farmers and the colored farmer are the same problems. A policy which helps one helps another. There is no place for race prejudice in any national program for the welfare of agriculture."

Cobb said the number of negro farm owners declined steadily from 1929 to 1930 but increased between 1930 and 1935 from 182,019 to 186,065.

"The period from 1920 to 1930 was a period of inequality of opportunity for all farmers and of general decline for agriculture," Cobb said. "In reality, the movements which resulted in the AAA programs had their beginnings in that period as hard-pressed farmers, white and colored, realized their helplessness as individuals to cope with relentless world-wide economic forces."

Saying it was obvious agricultural progress had been made under the AAA program, Cobb said the nation had a "yardstick with which to measure the improvement that has taken place since 1933. We can place that improvement against the sweeping statements of critics."

## Landon Rests In Colorado Resort

DENVER, Aug. 12 (AP)—Gov. Alf M. Landon of Kansas, as a private citizen, returned to Colorado today to rest and work on his speeches for the presidential campaign.

He spent 15 minutes in Denver, and then left for Estes Park, via Boulder; by automobile. Charles R. Enos, Republican state chairman, and a few other Republicans greeted him at the station.

At Estes Park he will rejoin his wife and children. He planned to remain there until August 20 when he will open his speaking campaign with a trip into the east.

## OIL NEWS AND NOTES

### Panhandle and Other Fields

#### 'BUSINESS IS GOOD' BY ALFRED WALL

Associated Press Staff Writer.

TULSA, Okla., Aug. 12 (AP)—The cheering knowledge that business is good—never better, in fact—served as a ready antidote today for what ever distress the oil industry might be having as the result of the government's intensive inquiry into its practices.

Reports to hand here were of ever increasing consumption of petroleum products. The volume of current business swelled to unprecedented proportions.

Reports from government and oil association sources were that in June the demand for motor fuels and lubrication oils was increased 17 per cent and that July would be as big when all the statistics were in.

The demand during the first week of August was unusually good and it was noted that August in the past always has been a month of heavy consumption than either June or July.

The natural gasoline market was rising.

While the industry's leaders in the mid-continent wondered just how much further the government would press its inquiry into marketing practices when the Madison, Wis., grand jury convenes Aug. 19, indications continued that the firms and individuals already indicted would organize a strong defense.

Counsel for many of the defendants met in conferences at Chicago with Ralph Horween who apparently will be chief of defense counsel.

Horween refused details or to name the attorneys with whom he had conferred, said he "hoped to be able to make a statement in aday or two."

Twenty-three concerns, 61 individual oil executives and three oil trade-papers stand indicted for alleged violation of the Sherman anti-trust law through manipulating the price of gasoline in marketing pools. The case will come to trial Dec. 1 at Madison.

One heartening factor in the petroleum picture was the indication that most companies were showing the best earnings in the first half of 1936 for any comparable period since 1929.

In the field, the operators found themselves handicapped by the drought and resultant shortage of water. The Pitts-Jesse pool was comparatively inactive because of the drought but J. E. Crosbie, Inc., completed the No. 1-B Harden in SW NE of 30-2-7 Pontotoc county. Completed in the Sylvan shale at 3,631 feet, the well flowed 361 barrels in 30 minutes through casing.

Also in the Pitts pool the Magnolia Petroleum Corporation brought in the Metropolitan Life Insurance Co. No. 16 in SW NE SE of 22-2N-7E, Pontotoc county, which was given a potential of 1,917 barrels of oil an hour and 2,992,000 cubic feet of gas. Drilling operations in the mid-continent generally were strictly on the decline during the hot weather.

More than a score of wildcat's classed as important tests were to start up in Oklahoma during September.

Three new producers were com-

pleted in the new definitely limited "manifold" area of the Oklahoma City field.

**NEW METHOD DEVELOPED**  
WASHINGTON, Aug. 12 (AP)—The Bureau of Mines said today it had developed a method for determining inflow characteristics of Texas Panhandle gas wells which bureau officials said should provide a means for operators to plan gas-injection programs for conservation of natural gas resources.

The bureau said operators in the Panhandle field had been confronted with the problem of handling gas supplies above ground in excess of market requirements, and proposals had been made to return this excess to the reservoir. They said, however, information regarding the intake capacities of gas well systems were lacking and it was necessary to determine them.

The bureau determined the output characteristics of six gas wells in the Panhandle area using back-pressure data. It also made tests of the wells for a basis of comparison.

Officials said the close relationship thus determined furnished a means of calculating gas delivery into a well based upon outflow data.

**STATE WELL COMPLETED**  
OKLAHOMA CITY, Aug. 12 (AP)—The eighth well on state-owned land near the capital was completed today for a 13,718-barrel producer. It is the Sunray Oil and Phillips Petroleum No. 9 State, near Twenty-first street and Lincoln boulevard, which was drilled to a depth of 6,445 feet. Gas volume was 17,000,000 feet daily.

**Medica Is First Men's Swimming Victor For U. S.**

BERLIN, Aug. 12 (AP)—A record smashing performance by Jack Medica of Seattle gave the United States her first Olympic men's swimming victory today as the husky Pacific coast star captured the 400-meter free style championship in four minutes 44.5 seconds after a year-old Marjorie Gestrings of Los Angeles and her two teammates swept the springboard diving championship.

The "Seattle Seal" came from behind to overtake Japan's crack Shumple Uto in the last 20 meters and clip one full second off the former Olympic mark hung up by Uto in the preliminary trials.

Medica's time, however, was considerable slower than the world record of 4:38.7 he made two years ago.

Shozo Makino of Japan, who raced Medica to a dead heat in 4:38.4 in yesterday's semi-finals, was third with Ralph Flanagan of Miami, the only other American finalist, taking fourth.

**Ethel Barrymore Looking Forward To Country Life**

NEW YORK, Aug. 12 (AP)—Ethel Barrymore, who came of a family rich in the traditions of the drama, but who attained fame in her own right on the stage and screen, looked forward today to a life of retirement in the country.

"I have made up my mind that I'm never going to appear in another play again," she said last night during a radio broadcast.

"I live in the country and I never want to live anywhere else.

The actress will observe her 57th birthday Saturday, is a sister of John and Lionel Barrymore of the movies. She has a home at suburban Mamaroneck.

**Air-Cooled Spots At Centennial Are Lure To Visitors**

DALLAS, Aug. 14 (AP)—Air-cooled spots at the Texas Centennial exposition continue their lure for heat-ridden visitors.

Yesterday another above-normal crowd of 39,884 took in the big show, and not failing to make use of the air-cooled buildings on the grounds.

Part of the crowd came from Denison, Jacks:ville and Garland, celebrating their special day. Other groups came from Angelina, Sabine, Howard and Jefferson counties in Texas, and from Cordell county, Okla.

**School Heads Take Contest To Court**

DALLAS, Aug. 12 (AP)—A court battle to test a state board of education decision favoring L. C. Proctor in Temple school superintendent's salary dispute appeared probable today.

The board, meeting here yesterday, upheld a decision by State Superintendent of Public Instruction L. A. Woods favoring Proctor in his dispute with R. H. Hawkins for the post. Hawkins' attorney said he would take the case to court.

Proctor, superintendent at Temple for 15 years, held a three-year contract with Temple school trustees. It was said at the meeting, it was revoked last May by the city commission and Hawkins was given a contract.

Proctor's counsel told the board the commission acted illegally in voiding the contract.

## PRIMARY PUTS BORAH AGAINST DEMO COWBOY

### BEATEN TOWNSENDITE IS NOMINATED BY NEW PARTY

BOISE, Idaho, Aug. 12 (AP)—William E. Borah's lead in the race for the republican senatorial nomination lengthened steadily today, returns from 498 of 850 precincts in yesterday's Idaho primary showing he had polled 26,593 votes to 7,945 for Byron Diefenbach.

In his march toward renomination, the 71-year old veteran of 40 years in politics apparently pushed aside Townsend-endorsed Diefenbach, former state treasurer, Borah's only opponent.

The total state vote in the primary — involving only democrats and Republicans — was expected by election officials to reach 105,000.

Despite the trend, Diefenbach, scholar and historian, flatly said: "I am making no statements. I am conceding nothing."

Idaho's cowboy governor, lean C. Ben Ross, who has said he hopes to meet Borah in the November 3 election, built up a growing lead over his sole opponent for the democratic senatorial nomination—blind John Carver, U. S. District attorney.

An eight-sided democratic race

## U. S. Policy In Spain Is Defined As "Hands Off"

WASHINGTON, Aug. 12 (AP)—The United States government tacked up a "hands off" motto today at its policy toward the Spanish civil conflict, but there was no hint of any plan to participate in any international compact for neutrality.

The first official expression of policy since the opening of the Spanish rebellion came last night when acting Secretary William Phillips made public instructions he said had been sent to all United States government representatives in Spain.

Phillips emphasized that the government will "scrupulously refrain from any interference whatsoever in the unfortunate Spanish situation."

He disclosed that the entire statement of policy had been read to unidentified aviation company representatives who had sought the state department's advice on the question of selling planes to Spaniards.

The inference was clear that while the United States neutrality law does not ban the sale of implements of war to forces involved in a civil conflict within one nation, the government intends to discourage such activities.

**PIONEER LAWYER DIES**  
CORSONA, Aug. 12 (AP)—Judge J. F. Stout, aged 90 years, pioneer Corsicana attorney, died at his summer home in Manitou, Colo., early today. The body will arrive here sometime Friday for interment. Surviving are his widow, a daughter, Mrs. W. A. Wright, and three granddaughters.

## Third Of India Is Inundated; Other Areas Are Parched

BOMBAY, Aug. 12 (AP)—Four thousand villages were submerged by raging floods today which ruined 20,000 homes.

The torrents struck approximately one-third of India while another third of the country was offering prayers and sacrifices for relief from drought and famine.

The floods destroyed roads and crops as dams burst. Authorities opened refugee camps in the United Central provinces and at other points.

## LET'S KNOW TEXAS AND TEXANS

By WILL H. MAYES

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquirers must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q. How did the village of Paha, Fayette county, get its name? E. W. West.

A. The thrifty Czech community, first known as Mulberry, received a large contingent of Czechoslovakians between 1850 and 1880 and through their influence the place became known as Praha, for Praha, Bohemia.

Q. Who was the first Negro to reach Texas? A. H. Landonia.

A. "Estebanico," a black Moor, who was shipwrecked with Cabeza de Vaca in 1528.

Q. Were the towns of Texarkana, Tex. and Texarkana, Ark., established at the same time? F. F. Camden, Ark.

A. The first sale of town lots in Texarkana, Tex., was on Dec. 8, 1873, which both cities now recognize as the date of founding. A town lot sale was held on the Arkansas side in January, 1874. The Texas city was incorporated in 1874, the Arkansas city in 1880.

Q. Was the building we call the Alamo the main part of the old Spanish Mission or was it just the

church of the Mission? G. B. Edinburg.

A. The fort, where the main battle was fought, was inside the walls of the church structure, that is now generally recognized as the Alamo. An effort is now being made, led by Miss Adam de Zavala, granddaughter of the first vice president of the Republic of Texas, to restore the walls of the old fort.

Q. When was the town of San Felipe de Austin established? B. M. Baird.

A. July 26, 1823.

## Senate Nominee In Florida Will 'Push' Pensions

JACKSONVILLE, Fla., Aug. 12 (AP)—Charles O. Andrews of Orlando, Townsend pension advocate, won today the democratic nomination for the post of the late U. S. Senator Park Trammell.

Nearly complete unofficial returns gave him a lead of approximately 5,000 votes over Former Governor Doyle E. Carlton, who conceded defeat.

Democratic nomination in Florida generally is the equivalent of election. Andrews issued a statement thanking his supporters and promising to "push the Townsend plan" in the Senate.

## New Type Motor Is Revolutionary Inventor Claims

BROWNSFIELD, Aug. 12 (AP)—C. D. Gregory of Brownsfield says a compressed air machine he created "will revolutionize the motor industry from washing machines to steamboats."

"I'm sure I have something—they laughed at Edison," is his challenge to doubters.

"It is not perpetual motion," he explained. "It is really two motors, one to pull and one to compress, and two pressure tanks, one to start the motor and the other to operate it. All exhaust is captured." The motor, he says, can be equipped with any number of pistons, odd or even.

"It will replace any type of motive power—steam, gas, or electricity," he says. "A motor weighing 750 pounds could be supplanted with this one which weighs 170 pounds. There is no vibration and no noise since friction is minimized, and there is no exhaust. Only a small hand pump to replenish the starter tank is required and maybe that would not have to be used."

Gregory says he began work on the motor in 1913, "and I guess I have changed it 100 times. My first workable model was completed in 1928. It was better in 1931, and this year I'm not afraid to put it against any kind of motor," he says.

"I guess I'm sorta funny about my invention," Gregory said, explaining why he did not announce it sooner. "I've worked hard on it most of my life and I want to be sure it isn't taken away from me."
