### Acreage Control Experiment To Be Continued

WARM SPRINGS, (AP)—President Roosevelt left here Wednesday firmly committed that the New Deal acreage control experiment will bring the farmers' party together he is convinced, little opportunity of measurable surplus of American agriculture surplus abroad, because of synthetic processes there. He believes the production adjustment to demand is the American farmer's way out. Future vigorous pursuit of the policy is likely. The policy is a result of the president's extensive study and surveys.

### Ledwig Speaks To Lions Club

Rev. Francis J. Ledwig sounded the keynote of a demand for character education to members of the Lions club in weekly session. Future social maladjustments superimposed upon already appalling conditions only serve to accentuate the demand, he told the club. In the past, said Rev. Ledwig, the individual of our civilization, though he stood apart from the rest of humanity, thus becoming egocentric and building up a wall which prevents the radiating of good influences. "We were worshipping the dollar and we erected a pagan god," he declared, "and it fell because it had feet of clay." Society is made up of woof and warp and in "each of us is interwoven a cross section of our civilization," said the speaker in pointing to the tremendous teaching value of influence. He added that society was trying to place upon the teacher the entire responsibility of teaching when the most vital teaching can be done only by examples men set for those to come after. The hope of society in the future lies only in the character of its education," said Rev. Ledwig. The club was feted to several special numbers by Brunks entertainers. Announcement of the visit of Lions International President Vincent C. "Stub" Haschall to the Big Springs December 13, was made. Upon every member was urged the importance of attending that meeting.

Cattle buying in Howard county will be completed here within the next few days. Only a few head remain to be bought. Wednesday 859 head of cattle had been bought out of the 1,000 quota fixed for this county. It was estimated when buying was completed that only 900 head would have been bought. County Agent O. P. Griffin said Wednesday that he had been requested by the Amarillo drought area office to give an estimate of the number of additional cattle which need to be sold by farmers and ranchers in this area because of lack of feed due to drought. Griffin said he would estimate another 1,000 head if all kind of cattle were taken.

#### W.T.C.C. Asks Consideration Of Principles

#### Request Received By Local Chamber From Rix, Assistant Manager

The Big Spring Chamber of Commerce has been requested by the West Texas Chamber of Commerce to consider the declaration of principles of the All-State Council of regional chambers of commerce adopted at the Waco meeting of the council in October, with a view to adopting the principles as the local chamber's policy also. The request was received by B. Reagan, the West Texas Chamber of Commerce director for Big Spring, and C. T. Watson, secretary of the local chamber. It was sent by J. A. Rix, assistant manager of the West Texas Chamber of Commerce in charge of organizational activities at the direction of President James D. Hamlin. The principles which the local chamber have been asked to adopt are as follows: First: We stand for a championship of private business, industry, and ownership of property as the road to recovery, to which end we shall sponsor all federal and state measures, which tend to lend encouragement and confidence to private business and shall oppose all measures and administrative acts which have or will destroy the confidence of business and capital and retard its welfare. Second: We call for a rapid balancing of the federal budget; for a reduction of the government's extraordinary expense and for a drastic curtailment of existing and proposed government bureaus. Third: We shall oppose every effort of the federal and state governments to go into business in competition with private and semi-private business. Although granting to the government the right of regulation of public utilities, we oppose the government destroying private investments by competing with utilities. Fourth: With local and state governmental lens already existing against a great portion of the tangible private property of the state, with local public debts burdening property for many years to come and with greatly decreased property values and earnings, we believe that something must be done to relieve tangible property from a portion of the ad valorem tax—otherwise the private ownership of property will cease to be the cornerstone of American civilization and prosperity. We, therefore, call upon our legislators to study the question of the burdens

#### Foreign Club Is Closed In Mexico City

#### President Cardenas Orders Famous Resort On Outskirts Of City Closed

MEXICO, D. F.—Inaugurating a crusade for the "moral uplift" of Mexico upon the fourth day of his regime, President Lazaro Cardenas closed the ritzy \$500,000 foreign night club, "La Selva" located on the outskirts of the capital. Rivaling the famous casino at Agua Caliente, the club was built not long ago with a view to profiting from American tourists, but instead it became an almost irresistible attraction for low-salaried white collar workers. Many embezzlements and suicides in recent months were traced by police to losses suffered at the fashionable club, which had played to capacity crowds nightly. President Cardenas plans to convert the casino into a hospital for lepers. James Crofton, Agua Caliente's impresario, sold out his heavy holdings in the club one week before President Cardenas was inaugurated.

### Special Train To Leave Friday Night For El Paso; Many To Make Journey

Coaches and tourist-Pullman cars have been ordered for the Herald-Steer special train to El Paso Friday evening. Definite assurance that the train would actually be on hand came with the order Wednesday when it became very apparent that more than the necessary 300 persons, upon which a \$3 round trip rate is dependent, would make the trip. Included in the order were three Pullman cars, one of which will be utilized Friday morning by the football team. The squad will leave Friday morning in the special car attached to train No. 7. They will be counted as part of the 300 necessary for the rates. Should as many as 500 take advantage of the low rates, an entirely special train will be arranged, it was said. Otherwise, the coaches and sleepers will be attached to the Sunshine Special 9:15 p. m. Friday. Wednesday no accurate check had been made on actual ticket sales but from authoritative sources came again reassurances that more than 300 persons would go on the train. Those wishing reservations are urged to contact the Herald or if they wish Pullman reservations, contact both the Herald and the ticket office. The train will be decorated appropriately with signs and an effort is being made to obtain a silver steam whistle for the baggage car. El Paso is arranging a full program of entertainment for the Big Spring visitors and everything possible toward a gala occasion. Rates for the train follow: Three dollars round trip El Paso and return, leaving Big Spring 9:15 p. m., Friday, December 7, returning leaving El Paso 9 o'clock on the evening of December 8. The railway company has Pullman rates as follows: Lower berth, \$10.65 round trip for one person, including train fare. Two persons may occupy lower or upper berths, \$9.15 for two persons each. Upper berth, \$10.65 for one person or \$8.35 for two persons (each). A minimum of twenty-five persons is required for each Pullman (tourist) car.

### Manufacturers' Association To Aid Government

NEW YORK (AP)—C. Bardo, president of the National Association of Manufacturers, offered the industry's "whole-hearted" cooperation to the government to drive business doldrums out of the country. The association opened a two-day congress here. He said: "Industry will continue cooperation for restoring sound economic conditions and give work to millions of unemployed. We must correct evils of NRA without destroying a good NRA at the forks of the road. One branch of the road tends toward more federal government interference in private enterprise, encourages restraint, paternalism and bureaucracy and tends to unsettle business capital's confidence. It definitely is a contradiction of Americanism." \$750 BOND POSTED Mike Marcus, charged with assault with intent to murder, has posted bond of \$750 in connection with the shooting of Francisco Jaura following an argument Saturday night.

# STEERS PRIME ATTACK FOR MARTIN'S TIGERS

## Bengals Drill On Smashing Line Plays

In keeping with the spirit of the bi-district clash between Big Spring and El Paso Saturday, Mrs. R. E. Flourent has turned out these lines to the tune of Washington and Lee Swing: Come on let's go you fans of Big Big Spring high. Let's back the Bristowmen, make them feel spry. The Tiger's growl will turn into a howl. When Big Spring brings the victory to Steer corral. The Steers have won the district championship. If you don't think we're proud, you're off your zip. We'll trail the Black and Gold on up the line. And root for Big Spring high.

With only one more day remaining for a full work-out to smooth down the wrinkles and perfect an attack, Steer coaches will drive their charges hard tomorrow. Friday morning they will embark for El Paso, and will make a light work-out immediately after arrival there. Bristow and his boys are fully optimistic, but not over-confident. All of the squad is in good shape both physically and mentally, and hours have been spent both indoors and outdoors in figuring ways and means by which they will be able to stop the Tigers. Also, Bristow has been working on some trick plays which he figures will give the locals a potent offense.

**MAKE RESERVATIONS ON THE SPECIAL NOW!**

Although sale of tickets on the special to El Paso hasn't measured up to expectations, it appears that there will be a great last minute rush. A number of fans from Midland, Andrews and Forsan have signified their intentions of making the trip.

**MAKE RESERVATIONS ON THE SPECIAL NOW!**

Paul Coburn, hefty Steer tackle, upon whose shoulders much will depend Saturday, requests that his No. 45 playing jersey be returned. Paul says some sneak-thief managed to make away with it.

**MAKE RESERVATIONS ON THE SPECIAL NOW!**

Oble Bristow, the gigantic, jovial Steer mentor, is an exponent of the colors red and white. Ever since his college days in Oklahoma, Oble has had leanings toward red. Result is that his team is outfitted in red sweat shirts.

**MAKE RESERVATIONS ON THE SPECIAL NOW!**

Here are the results of the final games since 1920 in the Texas Interscholastic league's annual high school football championship races. The teams listed on the left were the champions for those years, except in 1920, when no championship was awarded when neither Cleburne or Houston was able to score. The games now are decided by penetrations of the opponents 20-yard line or if they are even on first downs.

- 1920—Cleburne 0, Houston 0.
- 1921—Bryan 35, Oak Cliff 13.
- 1922—Abilene 3, Waco 0.
- 1923—Oak Cliff 21, Waco 0.
- 1924—Waco 20, Forest 0.
- 1925—Waco 20, Oak Cliff 7.
- 1926—Waco 20, Abilene 14.
- 1927—Waco 21, Port Arthur 0.
- 1928—Abilene 28, Port Arthur 0.
- 1929—Breckenridge 0, Port Arthur 0.
- 1930—Tyler 25, Amarillo 13.
- 1931—Abilene 13, Beaumont 0.
- 1932—Corsicana 0, Masonic Home 0. (Corsicana won on penetrations.)
- 1933—Greenville 21, Dallas Tech 0.

At least five new managers will make their debut in the Texas league next season. Here is how the clubs are lined up at present: Dallas—Byrne James. Fort Worth—John A. Heving. Houston—Johnny Gooch. Galveston—Jack Mealey. San Antonio—Hank Severeld. Beaumont—Dutch Lorbeer.

**Versatile Backs**  
 Martin plans on having his versatile backs smash the Big Spring line to pieces, and the locals realize that they must develop a powerful defense to stop such players as Kenneth Heineman, 140-pound quarterback; Armando Cisneros, 150 pounds; or Craah Davis, 160 pounds.

In spite of the fact that the Steers will have a slight advantage in weight in the leather lugging department, the Tiger backs are rated potential all-star material. Martin figures his passing attack may not work, so has been drilling his backfield corps on smashing line plays, such as Bowie used to good effect against the Steers earlier in the year. The El Paso mentor believes that if his team carries out blocking assignments well the backs will be able to gallop through the Big Spring forwards for many lengthy gains.

**Benefit by Rest**  
 Since they trounced Austin's Panthers, 18 to 2, to clinch the district four crown, the Tigers have benefited by almost two weeks' rest from actual competition, and member of the Bengal squad will be in top shape. Word came from El Paso that Mike Carrasco, stellar blocking fullback and line backer, who has been bothered by a shoulder injury, would be ready to go as well as Ed Bruner, hard hitting halfback, and H. C. Weinsinger, relief signal caller.

**MAKING RESERVATIONS ON THE SPECIAL NOW!**

Severeld and Lorbeer are sure to be back at the helm of the Missions and Exporters, respectively. Atz is expected to be retained by Tulsa, but no action has been taken yet. The other clubs will have new faces. Byrne James replaces Fred Brainard, who has retired. Bert Niehoff, former manager of Mobile and Atlanta in the Southern Association, comes to Oklahoma City to replace Red Harvel, who was traded to Dallas as a player. Niehoff was manager of the Mobile team in 1922 which succeeded in defeating Fort Worth in the only Dixie Series the club lost during the pennant-winning spree from 1920 through 1925. Niehoff managed the Atlanta team which lost to Fort Worth in 1925.

**MAKE RESERVATIONS ON THE SPECIAL NOW!**

Johnny Gooch, a well known player in his day, is expected to get the job vacated by Carey Selph at Houston. Jack Mealey, former Dallas catcher, has been named to succeed Billy Webb at Galveston. Webb has gone to the White Sox as coach. Fort Worth's new pilot is John Heving, who was obtained from Toronto where he was a catcher the last two seasons. Although he is 34 years old, he also will serve as the Cats' first string catcher.

Here is Texas News Photos and United Press 1934 All Southwest-Conference Team

Coaches and sports writers throughout the Southwest Conference selected this team by ballot for Texas News Photos and the United Press, and it is the official 1934 team of these two news-gathering organizations. Rice, conference champion, placed four men on the team, Texas and Southern Methodist three each and Texas Christian two. Three members of the conference—Baylor, Texas A. and M. and Arkansas—failed to place a man on the first team, although each made several strong bids. Bill Wallace of Rice was the only man to receive unanimous choice for the first team, but his running mate, John McCapley, was right behind him, receiving all votes but one. No first team player received less than half the total votes cast for each position, in itself an indication that the 1934 team is one of outstanding ability. Wallace of Rice, Lester of T. C. U. and Wilson and Carter of S. M. U. have all made All-American first teams this year, a further indication of stellar material on this team. (Texas News Photos)

**of the Border team is hailed as one of the state's best tossers. Other ace in the Tiger aerial combination are "Jug" Cryler, Armando Cisneros, Carrasco.**

**As to how the Big Spring forwards will be able to handle the enemy is a matter of conjecture. In Sam Flowers, Bristow has one of his outstanding players. Sam plays center, and he loves to rock 'em as they come through the line.**

**Out-Weighted But Not Out-Fought**  
 The Steer line may be out-weighted, but it's not likely they will be out-fought. James Vines and Jack Wilson will take care of the guard posts. Vines is finishing up his football career this season. He is fast enough to pull out of the line and block exceptionally well, and is fairly consistent.

**Wilson is the freshman of the ball team, earning a starting berth his first year. The outstanding thing about Wilson is his hard fighting and sheer determination. He is a short, stocky built boy, but they seldom take him out.**

**SPECIAL LICENSES FOR VETS**

**AUGUSTA, Me. (UP)—** Those who are Yankee Division members will be given special 1935 automobile registration plates. They were issued at the request of Y. D. officials.

**famous in Big Spring football annals.**

**Rangy Tackle**  
 Jack Darwin, a rangy 170-pounder, handles the other tackle position. At the beginning of the year he was not regarded by the fans and coaches as likely to make even the traveling squad, but he pulled through. Against Bowie high school he turned in one of his best games of the year.

**Big Spring's wingmen may not quite measure up to El Paso's on the dope chart, but they have been improving a lot within the past few weeks.**

**Bobby Mills, end, is small but very aggressive. He plays a "smart" game, is a good pass receiver, and battles hardest when the going is roughest.**

**Clinton (Sleepy) Jones, was a very mediocre player until last in the season, but has put on a big spurt in the last couple of games. He has great natural ability but is hard to fire up, hence the name "Sleepy." If he is in form he should play a great game.**

## Tulane To Play Warner's Owls

**NEW ORLEANS (UP)—** Tulane, co-champions of the Southeastern Conference with Alabama and conquerors of Huey Long's Louisiana State team, will meet Pop Warner's Temple Owls in the first Sugar-Bowl game New Year's Day. Decision on the team to be invited was made shortly before midnight and both immediately accepted.

**Tulane's squad, which had been disbanded immediately after the Louisiana State game, voted unanimously to play in the Sugar-Bowl game and will return to practice within a week.**

**In announcing its selection of teams, the Midwinter Sports Association, sponsors of the event, declared the two teams were representative of the South and North. "Both teams are among the strongest in the land," Warren V. Miller, president of the association, said, "and we expect a great battle."**

**Tulane was beaten only by Colgate this season, while Temple was unbeaten, but tied by Indiana, 6-3 and Hucksell, 0-0.**

## Is This Too Good for Your Cough?

**Cremulose may be a better help than you need. It combines seven helps in one. It is made for quick relief, for safety. Mild coughs often yield to lesser needs. No one can tell. No one knows which factor will do most for any certain cough. So careful people, more and more, are using Cremulose for any cough that starts. The cost is a little more than a single help. But your druggist is authorized to guarantee it, so it costs nothing if it fails to bring you quick relief. Coughs are danger signals. For safety's sake, deal with them in the best way known. ### "Payday", Topic Of Sermon By Evangelist Gilbert Wilson In First Sermon At Fundamentalist

REV. GILBERT WILSON

Rev. Gilbert Wilson, evangelist who is conducting a revival at the Fundamentalist Baptist Church, brought an inspiring message from the sixth chapter of Romans Tuesday night. His subject was taken from the last verse, "For the wages of sin is death, but the gift of God is eternal life through Jesus Christ our Lord." He said in part: "There is a pay day coming for all. We all look forward to our earthly pay days, the result of our labor, so should we look forward to our life's pay day. Pay day will be paid for those who have spent a life in sin. Ever since Adam and Eve sinned in the Garden of Eden there has been the evidence of sin on every hand, so there is coming a great pay day, some day.

#### STARTLING FIGURES SUPPORT THE O. A. R. PLAN

By Rev. Will H. Lynn  
According to the last U. S. census there are 122,000,000 persons in the United States. It is estimated that the government is caring for 17,000,000 persons through the relief offices. The processing tax is the method by which the government creates the revenue necessary to feed this great army.

States is placed at twelve hundred billion dollars annually, or one hundred billion every month. It would require only a 2 per cent nation-wide retail sales tax on this amount of retail business to produce two billion dollars in revenue each month with which to meet the requirements of the pension law. This tax will be low on necessities and high on luxuries. All would pay this tax because all will receive benefit from the circulation of the pension money. This national pension based on a low rate of sales tax will take the place of old age pensions in 28 states of the union, and automatically eliminate the state tax necessary to pay those state pensions. It will remove the present need for government relief, and also eliminate the high rate of processing tax necessary to create the revenue with which to meet the requirements of the relief roll, as the following figures will show:

In Howard county there are 685 families now cared for through the relief office at an approximate cost of \$17,175 per month. A conservative estimate of the number of old age people in this county may be placed at 1,000 persons. Now pay these old people a monthly pension of \$200 and you have \$200,000 in circulation as against \$17,175 through relief.

In Mitchell county there are 1,000 families on relief at a cost of \$25,000. But that county only has 600 old age persons and \$200 cash would put into circulation in that country \$120,000. According to these figures the national pension would go far toward stopping the depression by putting the buying power into the hands of the general public by first putting it in the hands of the old age people of the land. Literally thousands of petitions are being prepared to send to congress early in January. Near 4,000 has been sent in already from Big Spring. Congress has its ear to the ground and it is hearing plenty from all over the United States.

## Use the Right Winter Oil... To Get Positive Starting, Improved Gasoline Mileage and Utmost Motor Protection

You save money the year 'round by using New and Improved Conoco Germ Processed Motor Oil. But, during the cold months, especially, the low cost operation of your motor car demands the proper Winter grade. You'll get—

1. POSITIVE STARTING. These lighter grades permit your motor to reach higher "cranking speed." You save your battery. You choke less—waste no gasoline.
2. DEFINITELY MORE MILES PER GALLON OF GASOLINE. This free-flowing oil never thickens and "drags."
3. UTMOST MOTOR PROTECTION. Conoco's "Hidden Quart that never drains away" protects vital parts from starting wear.

New and Improved Conoco Germ Processed Motor Oil in all grades, including 10W and 20W—in refinery-sealed cans or in bulk. Drive into a Conoco Red Triangle Station today and get ready for Winter.

Chapter Three  
TEA SHOP

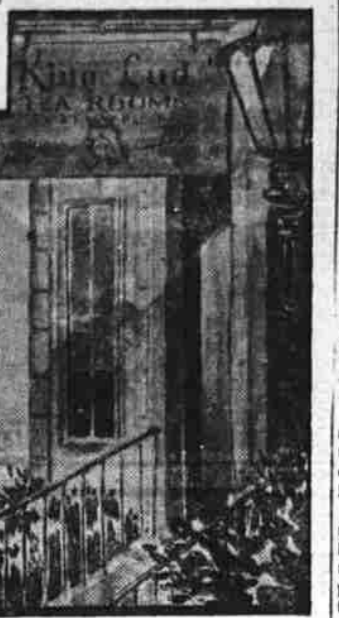

A mellow September sun shone down into the street, lighting up the windows of the opposite warehouse. From somewhere close by came the rumble of buses, and the insistent hooting of cars. Two or three pigeons were strutting about in the roadway, while a deputation of clerks, porters and office boys hurried or sauntered by on their respective errands.

None of them paid the smallest attention to me, and rousing myself

I was nearly at the end of the street when a decorative sign, jutting out from one of the doorways, attracted my attention. On it in green letters, were painted the words "King Lud Tea Rooms, First Floor," and underneath was what appeared to be a fanciful portrait of that venerable monarch, pointing encouragingly up the stairs.

I hesitated a moment, then went in from the kind of semi-trance into which I had fallen. I started off along the pavement. Where I was going to I hadn't the least idea; all I wanted was to find some quiet place close by where I could sit down, and where no newspaper reporter was likely to discover me.

I hesitated a second, and then coming to the conclusion that this would probably serve my purpose as well as anywhere else, I turned in at the entrance.

After a short climb I arrived at my destination—a discreet and restfully lighted apartment, set around with comfortable chairs and small spindle-legged tables. Each table was divided from its neighbor by a Japanese paper screen, the privacy of customers being further ensured by the presence of artificial palms set in pots down the centre of the room. Just inside the door a tall young lady with honey-colored hair was presiding over a desk.

It was precisely the type of place that I was looking for, and walking across to the extreme end, I turned into a vacant compartment. Except for a stout man with a bald head, whom I passed on my way along, I appeared to be the solitary patron.

A waitress arrived as I was settling myself down, and having given her an order for tea and toast, I pulled out Seymour's letter from my pocket and began to read it through for a second time. It was the only communication I had had from him since the day of my arrest—for all these four grim weeks not so much as a word of sympathy not even a brief line of encouragement.

Knowing him as I did I had not been altogether surprised. I could well imagine how bitterly he must have resented the unpleasant publicity thrust upon him by our newspaper, and how anxious he must have been to dissociate himself in every way from a man accused of a peculiarly brutal and heinous murder.

Before reading me even this belated message he had evidently considered it more prudent to wait in all I was actually acquitted. His letter, for all its expressions of good will and offer of assistance, was not least a month too late, and in spite of Mr. Cresswell's charitable

advocacy, I felt no particular gratitude stirring inside me as I ran my eye down its stilted and characteristic phrases.

I was just wondering why he should be in such a remarkable hurry to see me when the waitress reappeared with my order. She presented me in addition with a little pencilled slip stating the amount of my bill and, putting Seymour out of my head for the time being, I proceeded to turn my attention to the more congenial subject of hot buttered toast.

It was while I was in the act of helping myself to a second slice that I heard sounds on the farther side of the Japanese screen. Some fresh arrivals—a young man and a girl to judge by their voices—were entering the compartment next to mine. They gave their instructions to the waitress with what seemed to me an unnecessary amount of noise, and not feeling in the most amiable of moods I annihilated them silently for disturbing my peace.

Chairs creaked, followed by a rather common female giggle. "I don't know how you can stand it, Perce. It would give me the creeps."

"There was the scrape of a match, course. It's always been a sporter hobby o' mine goin' to murder trials. I wouldn't have missed this one, not for a fiver."

My hand, which was conveying the bit of toast to my mouth, stopped short in mid-air.

"What was it all about?" inquired the girl's voice. "I did see something in the Sunday paper, but I couldn't be bothered to read it. 'The Holland Park Mystery'—wasn't that what they called it?"

"That's right. Case of a chap being found lying in his study with his head bashed in. They arrested his bloke Trench some time ago, but the trial only came on last Monday. I been there every day— not missed a blooming word of it."

"Was it excitin'?"

"Not half. You ought to have

come along with me. Better than the pictures and nothing to pay into the bargain."

I replaced my toast on the plate, and taking out my handkerchief wiped my fingers. This dialogue seemed to require my full attention.

"What was the trouble?" demanded the girl. "Anything to do with a young lady?"

"Nothing of that sort. Question o' money according to the prosecution, but I shouldn't be surprised myself if there was a bit more behind it."

"How do you mean?"

"Well, Osborne, the chap who was done in, was an old schoolfellow of this chap Trench. Been in America for some years and come over here for a visit. Odd sort of a cove—least that's how it struck me. Instead of staying at a hotel, like you'd expect, goes and takes a furnished house—one of those quiet little places with a garden up behind Ladbrooke Square."

Border City Scribe Says Big Spring Not Invulnerable On Running Game

EL PASO—A spinner through the center of the line made big midfield gains for Bowie when the Bears met Big Spring at the El Paso High stadium in October. Just why the best ground-gaining play of the Bears for the day was not called when Bowie advanced near the goal line still remains a mystery here. Second guessing on the strategy of the southsiders, it appears probable that Bowie might have at least scored on Big Spring and perhaps won the game had the play been called more often.

El Paso High School will not pass up any such bets Saturday when Coach Otho Martin sends his Tigers against the Steers in a game that will settle the bi-district championship.

One of Martin's instructions to his backs will be to hit the guards and center of the Big Spring line hard. He believes the running attack of the Tigers will be more effective than their usual aerial game. But he doesn't mean Kenneth Heintzman, ace Bengal passer, will not throw a few footballs at his receivers.

Records of both teams show that each has a strong defensive club. Big Spring opponents have scored only 45 points against the Steers this season. The Tigers have had 55 points counted against them, but they played 10 games to Big Spring's nine.

The Tigers in their 10 games have scored 209 points to 221 for Big Spring's nine games.

After a chalk board talk by Martin, the Tigers engaged in a hard work-out Tuesday. Indications to date were that Mike Carrasco, back who was injured in the Austin game, will be at his regular position Saturday.

The game will start at 2:30 p. m.

All of the daughters were in Sweetwater to attend the funeral services. His son was unable to attend the rites because of injuries received in an automobile accident en route there.

Some of the grandchildren were unable to attend on account of serious illness.

**Vienna Choir Boys Appear Here Dec. 14**

Organization Booked Under Auspices Of High School Pep Squad

There is no organization in the world quite comparable to that unique company of boys, the Vienna Saengerknaben—or the Singing Boys of Vienna—who will engage the attention of Big Spring on Friday, Dec. 14 in the Municipal Auditorium.

They are members of a musical hierarchy that was founded in 1498 by the imperial decree of Emperor Maximilian, when a group of boy singers were ordered to sing a daily mass under the auspices of the Court Orchestra of Vienna. For nearly five hundred years, up to the present time, the traditions of this organization have been kept intact and their ideals inviolate. Under the care and tutelage of the State, their reason for being has been to sing fine musical works—choral, operatic and religious—without professionalism or a need for glory.

The members of the Saengerknaben live today—as always—in the ancient Imperial castle, the Vienna Hofburg where once Hapsburg royalty tread its venerable corridors. Here these boys work and study, eat, play and sleep. They pay nothing, but they have dedicated their boyhood to music. It is the dream of countless thousands of Austrian boys to be invited to join the Saengerknaben.

But few are called, the many years. Only forty of them are housed in the castle, after rigid competitive examinations. Twenty-two of these are the company that will perform here, under the direction of their rector, tutor and musical director.

When their voices change, an inevitable event, the choir boys are assigned to duties about the house, and are maintained for three years and future employment secured for them.

Crowned heads and presidents of nations have invited and listened with admiration to these little songbirds in their charming costumes, white wigs and curly chignons. Recently, his Holiness, Pope Pius XI, called for them and after their performance in the Vatican were awarded a parchment testimonial proclaiming their voices "so flute-like and sweet, like angels' voices in paradise."

Haydn, Schubert, Mozart and other illustrious composers received musical training from the Saengerknaben Institution. Every year they are invited to sing with the entire Vienna State Opera and the Vienna Philharmonic Orchestra. The average age of the company is twelve years.

The Choir Boys are booked here under the auspices of the high school girls' pep squad. Tickets will go on sale late this week at Cunningham-Phillips Drug No. 1.

Dublin, R. V. Middleton, Bob Parks, E. O. Price, V. V. Strahan, Ira Thurman and Tom Helton.

Mrs. Thurman will entertain next.
