To Parent-Teacher Council. DEAR LADIES: I see that you have opened a thrift room where needy school pupils may apply for clothing.

To Pampa Goodwillers. DEAR FELLOWS: I am proud of the turnout you gave on Friday for the trip to McLean to attend the Jericho Gap celebration.

To Fire Chief Ben White. DEAR CHIEF: We fire prevention week is gone and I want to take this means of expressing my appreciation to you and other city officials for the splendid educational program of fire prevention methods carried out through the schools and luncheon clubs in the city.

To the City Commission. DEAR BOYS: Glad to see that you held the city budget to the same figure as last year and that there is no advance in the city tax rate.

To the New York Giants. DEAR BOYS: Siler Faulkner, back from an air jaunt to New York after watching you play in the World Series, tells me that as a ball club you are good to see.

To Robbers. HI-JACKERS: Don't you think you were a bit rough with one of my citizens the other night? If you must break into some place, I beseech you not to use violence.

To Misguided Youths. DEAR BOYS: I see in the paper where the law caught up with a couple of you this week and you are now in jail accused of stealing whiskey from a package store here some time ago.

To the North Wind. MY CHILLY FRIEND: Boy, can you cut the buck! I suppose you must feel pretty shivery for that you've been getting away with in my city lately.

To Unemployed. DEAR POLK: Wonder if you noticed in the paper during the past week that there is room for you in the cotton fields around Memphis and Lubbock.

People You Know. By ARCHER FULLINGIM. The old pioneer sat proudly in the backboard as it rattled down the street of McLean, but his mind was not on the gay celebration of the city's centennial. His mind's eyes held no houses, no modern machines. He was thinking of the old days when he was happiest. He was thinking that the October sun and the plains wind were most enjoyable when they blew through a horse's ears.

Dawes and Lanham charged that the ordinance was adopted illegally in that the city commission failed to appoint a zoning commission to draft the provisions of the ordinance, that it was not advertised in the newspapers according to law, and that no public hearing ever was held on the measure.

They further assert, in their petition, that the ordinance is void and unenforceable and never has constituted a valid ordinance. PANHANDLE GAS OUTPUT DECREASES IN AUGUST

ANSTIN, Oct. 10 (AP)—The Railroad gas production in Texas districts outside the Panhandle increased in August an average of 4.8 per cent. Panhandle production, which increased during the preceding two months, dropped 2.1 per cent, an daily.

Total state production was 1,334,117,000 cubic feet daily of which 967,000. The July total was 1,340,321,000 cubic feet.

An increase of slightly more than two per cent in volume of gas utilized by carbon black plants in the Panhandle reflected an increased demand for that commodity. The plants produced 872,756 pounds daily, using 674,963,000 cubic feet of gas per day.

Gasoline plants processed greater volumes of gas during August than in July. The figure for August was 1,751,900 millions daily as against 1,680,497 in July.

day afternoon. At 3 p. m. Friday it was reported that the jurors were dead-locked 8 to 4, and at 10 a. m. yesterday when the final ballot was taken, it stood the same way.

Whether the vote favored acquittal or conviction was not made known. Indictments Saturday were that, although the Deuran case is to be called for trial again tomorrow morning, it is likely that the trial of Bryan Combs will be started at that time and the Deuran case will be continued until a later date.

Justice Ewing also expected to set a date tomorrow for the trial of the case against Sam G. Dunn, indicted jointly by the grand jury with Deuran on gambling charges.

The gambling trials of Slaughter and Deuran consumed the major portion of the last week in district court and were featured by two night court sessions in order to speed them to conclusion.

The jury which convicted Slaughter was out only one hour and fifteen minutes. Four of the jurors in the Slaughter case also were chosen to serve on the Deuran jury.

Members of the Deuran jury which failed to reach an agreement were: Otto Pate, H. A. Smith, C. E. Humphries, J. W. Angel, Lester Day, H. N. Dixon, J. T. Hughes, J. M. McCracken, R. C. Converse, J. H. Montgomery, W. E. Wilson, and H. D. Pettit.

MINERS TOSS DYNAMITE TO TAKE REBEL POST

OVIEDO, Spain, Oct. 10 (AP)—Besieged insurgents fought grimly tonight to hold a few scattered buildings as dynamite tossing Asturian miners blasted their way into the heart of the city.

The miners, advancing steadily in a pouring rain, drove the main body of General Aranda's troops into their last redoubt—thick-walled buildings in the center of town—in some of the worst fighting of Spain's civil war.

The defenders' position seemed hopeless. The miners, aided by socialist militiamen, wiped out one machine gun nest after another in their drive through streets strewn with hundreds of dead.

In one charge, the assaulters took a wall defended by 35 men armed with eight machine guns, blowing up the wall and killing the insurgents with bombs.

The young man's father, Fred Bonfield, 51, and brother, S. T. Bonfield, 17, also were charged in the case. They pleaded nolo contendere, throwing themselves on the mercy of the court and were sentenced to 90 days in jail and fined \$100 each.

Judge Vaughn granted the brother probation and promised to consider probation for the father.
