

BLASTS RAIN FROM RIPENING FRUIT—Flying at tree top level, an Army helicopter is pressed into service in an effort to save the Santa Clara, California, county cherry crop after an unseasonable rain. The down draft from the rotor blades blasted the rain from the ripening fruit, keeping it from splitting. Paul Mariana, spokesman for 50 orchardists, said the effort apparently saved the \$250,000 crop. (AP Wirephoto).

# Old Man Winter Working Overtime In County Area

A breath of winter chilled baseball fans, sent householders into storerooms for stoves and damaged fields in spotted areas of Howard county Wednesday.

Minimum reading was 43, far above the 31 degrees at Dalhart, but it was enough to retard crops as well as giving residents the shivers.

Strong winds which shifted from the southeast to the west, from whence came a 25 mph blow at 3 p. m., caused damage to crops in sandy areas between Big Spring and Coahoma, around Knott and Elbow. Gusts were reported from 29 to 36 mph. As this wind began to subside, a gale blew in from the north at 28 mph, with substantially stronger gusts, to add to discomfort and damage.

Some fields were completely blown out, that is seed was blown away or left too near the surface. In other instances sand covered middles several inches deep.

No serious effects on germination were anticipated, although growth, needing warm weather, will be retarded. There will be from three to six days lost in instances of wind erosion, plus fuel, seed and labor, according to members of the Soil Conservation Service.

At the Big Spring-Odessa baseball game last night, many shirt-sleeved fans finally gave up in the face of cold that moved in at 8:45 p. m. so that the stands were thinned before the end of the game.

# State, Federal Offices, Banks To Close Friday

State and federal offices, together with banks, will close Friday in observance of Memorial Day, but in general business activity will be uninterrupted.

The postoffice will observe a full holiday, Postmaster Nat Shick, said. Both banks will be closed and federal agencies will take off for the day as well state office personnel with the exception of law enforcement agencies.

Only formal observance of the day here will be at 6 p. m. when the American Legion Auxiliary has 2,000 poppies dropped from a plane over the city cemetery.

City and county functions will go on without interruption and with the possible exception of a few individuals, private offices and commercial houses will continue activities. The day is not booked as a holiday on the community calendar.

# Truman Back In Washington

WASHINGTON, May 29.—President Truman returned to the capital today from a 12-day visit with his ailing mother, Mrs. Martha Truman, in Grandview, Mo.

The president's plane the "Sacred Cow" landed at the National Airport at 12:09 p. m. CST after a flight from Kansas City. Before leaving there at 8:06 a. m. Mr. Truman had received assurances that the condition of his 94-year-old mother is improved.

Secretary of the Treasury Snyder and top White House officials were on hand to welcome the president, Mrs. Truman and their daughter, Margaret.

# COLONEL GIVEN 10 YEARS FOR TAKING DIAMOND SOUVENIRS

YOKOHAMA, May 29. (P)—Edward J. Murray, a colonel of infantry who won his decorations in combat, heard an Army court martial sentence him to ten years imprisonment for misappropriation of a fortune in diamonds he had taken home as "souvenirs of war."

Murray stood silent, shoulders sagging, as the sentence was read.

The Palo Alto, Calif. officer was convicted of all six specifications filed against him—covering misappropriation of the stones and failure to declare them or pay customs on them. In addition to serving ten years at hard labor, he was ordered dismissed from the service with forfeiture of all pay and allowances.

Although the jewels he was charged with taking during his custodianship of the Bank of Japan vaults were valued at first at \$210,000, the court reduced this to \$92,000.

Murray himself, in the only statement he made to the court, said he was ignorant of the diamonds' value until after he had taken them home in March, 1946, and a diamond broker offered her a price which astonished her by its size.

"To the best of my knowledge," his written statement asserted, the diamonds "were never in the custody of the United States" until he himself handed them over to customs officials who had challenged and searched him in San Francisco.

# Corn Belt Field Work Is Delayed

CHICAGO, May 29. (P)—Field work in the nation's corn belt, already long delayed by spring rains, was near a standstill today because of rain, snow and sleet and farmers were warned a late spring frost may sweep across sections of the midwest tomorrow.

A mass of cold air from the Mackenzie basin in Canada extended over the area and temperature dropped to near-freezing in many sections and below 32 degrees in parts of the Dakotas and Minnesota.

Snow fell to a depth of 12 inches in Nebraska, to more than five inches in Wyoming and measured four inches in Iowa. Snow and sleet also swept over parts of Colorado, Minnesota, South Dakota and Wisconsin. The lowest temperature in the cold belt yesterday, was 15 above at Eckman, N.D.

While the midwest shivered in unseasonal temperatures, a prolonged hot spell in western Washington created critical forest fire conditions. The weather also has delayed wheat and non-irrigation crops.

The weather bureau reported Laramie, Wyo., with 12 above, was the coldest spot in the nation today, followed by Cheyenne with 16.

# TOTEM POLE'S FACE LIFTED

The city park's totem pole, which has been wearing its original "faces" since it was embedded there eight years ago, is getting a new coat of paint.

Postmaster Nat Shick, who cared the pole and supervised its installation, has assumed the job of painting the pillar and has an assistant, Acie Hobbs. They expect to complete the job next week.

# Girl, 14, Wins 20th National Spelling Bee

WASHINGTON, May 29. (P)—Mattie Lou Pollard, twelve year old, today won the 20th national spelling bee.

The 14-year-old Thomaston, Ga., girl correctly spelled "maggoty" after the runner-up, Sonyo Rodolfo, Chicago, a native of the Philippines, missed the word by ending it with the letters "ey."

Mattie Lou then successfully spelled "chlorophyll" to clinch the championship.

# Bugs Assault Army Ordnance Depot

ORDNANCE, Ore., May 29. (P)—The insect assault on this Army ordnance depot strengthened today, and an Army officer called for more defense equipment.

Mormon crickets, which began threatening this region's rich farmland last week, were reported thicker than ever west of the depot, now filled with war surplus goods.

# Ad Valorem Tax Goes To Counties

AUSTIN, May 29. (P)—A proposed constitutional amendment which would transfer collection and use of the state's general fund ad valorem tax to the counties today had Gov. Beauford H. Jester's signature.

Jester made no recommendation either for or against the proposal, which would have been submitted to popular vote in the next general election either with or without his signature.

He made only these observations: "The \$3,000 residential homestead exemption is preserved by the committee amendment."

H.J.R. 24 (Legislative designation of the proposal) will not become effective unless the people of Texas adopt the constitutional amendment.

"If the constitutional amendment is passed, it does not go into effect until 1951."

If adopted at the polls, the constitutional amendment would abolish the state general fund ad valorem tax and empower counties to increase their ad valorem tax up to an additional 30 cents per \$100 valuation. Revenue so collected would have to be used for road and floor control projects.

# Mrs. Goering Jailed, To Go On Trial

MUNICH, Germany, May 29. (P)—Dr. Alfred Loritz, Bavarian Nazification minister, announced today the arrest of Mrs. Hermann Goering to face trial as a Nazi party member. He said he would demand ten years in jail for the former actress.

# First Step Taken To Re-Establish United Germany

Britain, US Agree To Establishing Economic Council

BERLIN, May 29. (AP)—United States and British occupation authorities agreed today upon the establishment of an all-German economic council—first step toward a united German self government—to speed reconstruction of their economically merged zones.

This agreement, subject of weeks of discussion, was announced by the American military governor, Gen. Lucius D. Clay, and the British deputy military governor, Lt. Gen. Sir Brian Robertson.

The exact size of the economic council was not announced, but American informants said it would be approximately 54 members. This would represent a compromise between the British desire for as large a body as possible and the US leaning toward a smaller group.

German state assemblies will select the council members in accordance with population and the proportionate strength shown by political parties in the last election. In other words, the most populous states and the largest parties will have the largest representation.

The British zone has 22,386,000 inhabitants against the American zone's 16,680,000. This would appear to give the British zone a dominant voice with a slightly socialist quality. The social democratic (socialist) party, predominant in the British zone, last April polled 3,130,127 votes against the conservative Christian democratic union's 2,747,775.

# Nazi General Leaps To Death

NUERNBERG, Germany, May 29. (P)—Gen. Franz Boehme, indicted for war crimes allegedly committed during the German occupation of Yugoslavia, died early today of a skull fracture suffered in a suicide leap from Nuernberg prison.

Boehme eluded guards while walking in a corridor in a third-floor tier of cells last night and hurtled over a rail. His fall was broken by a catwalk two tiers below.

American prison officials said he died two hours later.

Boehme was one of the principal defendants in a case prepared by the United States against 12 German military leaders in the Balkans and Norway. He was indicted May 10 on charges that he rounded up hostages and issued orders for their execution.

Indicted with him were two field marshals, List and Von Weichs, and nine other generals.

Boehme was the fifth important prisoner to commit suicide in the American-guarded Nuernberg prison. Three, including Hermann Goering, were defendants before the International military tribunal.

# Eisenhower Cool On May's Alibi

WASHINGTON, May 29. (P)—Gen. Dwight D. Eisenhower testified today at Andrew J. May's trial on wartime bribe charges that he knew "nothing at all about" reported efforts to seek expanded shell production in 1945.

May, former Kentucky congressman, has testified that because Eisenhower was "screaming" for more artillery shells in Europe he protested a cutback that year in a shell contract with the \$78,000,000 Garsons munitions combine.

Henry and Murray Garsson, key figures in the combine, are co-defendants with May, who is accused of accepting \$55,000 in bribes from the Garssons while chairman of the House Military Committee.

Charles J. Margiotti, defense attorney, showed Eisenhower a telegram sent to Henry Garsson under signature of an army officer. Margiotti asked if it were not true that Eisenhower was seeking expanded shell production in April, 1945.

"This could have nothing to do with the European theater, because our war was so nearly won this could not have been sent under my authority," replied Eisenhower, who was supreme Allied commander in Europe then.

"I know nothing at all about it," the army chief added.

# Methodist Bishops Hit Pastor Changes

AMARILLO, Tex., May 29. (P)—The requests of both preachers and congregations for frequent changes of pastors drew the fire of Methodist Bishop Charles C. Seelman of Dallas yesterday.

The bishop, who spoke at the opening session of the Northwest Texas Methodist conference here, also criticized what he called the tendency to measure preachers by the dollar mark.

# MISSING HEIRESS RETURNS SAFELY

RACINE, Wis., May 29. (P)—Lieut. Walter Sieb of the Racine county sheriff's office said today that Mrs. Patricia Ann Pettit Kelley, 28, grand granddaughter of the founder of the J. I. Case Farm Implement Manufacturing Co., who had been reported missing since Tuesday morning, had returned to her home.

# 'IRREDUCIBLE MINIMUM'

WASHINGTON, May 29. (P)—The Army's 1948 military budget was cut 8.3 per cent by the House Appropriations Committee today despite testimony from General Eisenhower and Secretary Patterson that "irreducible minimum" of men and money they had requested.

If Congress upholds the committee, the Army will receive \$5,240,980,423 in new appropriations for the fiscal year starting July 1. President Truman had asked \$5,716,791,500 for the Army's military activities exclusive of foreign relief and other civil functions to be financed in a later bill. For

# Stanton Woman Dies In House Fire

Russ Accuse Minister Of Hungary

BUDAPEST, Hungary, May 29. (P)—A high Hungarian source said today that the Russians, in an official note, had accused Prime Minister Ferenc Nagy and two other officials of complicity in a recent plot to overthrow Hungarian "democracy."

This informant identified the two other officials as Foreign Minister Janos Gyongyosi and Bela Varga, speaker of the house.

All three men are members of the anti-Communist Smallholders party.

A government announcement on May 14 said Nagy would leave that day for a three-week vacation in Switzerland and that Deputy Premier Matyas Rakosi, a communist, would be left in charge. Private sources in Budapest said Nagy probably would stay longer than three weeks.

The government announcement followed by two days reports that Nagy was planning to leave for Switzerland and Paris to stall off another communist-inspired "crisis" in his coalition government.

The informant said Bela Kovacs, former secretary-general of the Small Holders party who was arrested by the Russians recently on a charge of espionage, had implicated Nagy, Varga and Gyongyosi in a deposition given the Hungarian government.

UNUSUAL WEATHER?—Boosters insisted "very unusual" and cynics said "it always happens in May" when a brisk snowstorm covered spring flowers and foliage in Denver and over much of the Rocky Mountain area. Here Barbara Eisenhand tries to dig some blooms from a white blanket. (AP Wirephoto).

# Income Tax Cut Of Four Billion Okayed

WASHINGTON, May 29. (P)—Senate and House conferees agreed today on final terms of a \$4,000,000,000-a-year income tax cut to take effect July 1.

The measure provides for individual slashes ranging from 10.5 per cent to 30 per cent.

The Senate bill was accepted by the conferees except for one change in rate reduction brackets.

The area of 15 per cent cuts was made effective from \$136,720 of taxable income of \$302,400.

The Senate had provided for a 15 per cent reduction between \$72,750 and \$302,000.

Senator Millikin (R-Colo.), head of the Senate conferees, said both houses would expedite final action on the legislation.

It is expected to come up in the House Monday, and possibly later the same day in the Senate.

The big question remaining is whether President Truman will sign or veto the tax cuts. He has maintained that the present is not a suitable time for reducing government revenue.

Millikin estimated the change in the 15 per cent reduction bracket will add \$62,300,000 to the cost of the bill, in terms of lost federal revenue.

Senate Democratic Leader Barkley was the only one of the five Senate conferees who did not sign the conference report. He voted against the bill yesterday when it passed the Senate 52 to 64.

If both houses act finally Monday the bill will be speeded to the White House.

# 43 War Plants To Be Kept On Standby Status

WASHINGTON, May 29. (P)—The War Department, as part of an industrial mobilization plan, intends to keep 43 of its war plants in standby status for quick use in the event of a national emergency.

Undersecretary of War Kenneth C. Royall told the House subcommittee in charge of War Department appropriations that the Army hopes to retain title to 29 ordnance plants, 13 chemical plants and one quartermaster corps station.

These plants, according to the printed record of the hearings made public today, are government-owned establishments designed primarily for the production of military goods.

However, Royall told the committee, some of the plants or some parts of some may be adaptable, with a minimum of alteration, to the production of civilian goods. These, he said, will be leased, if possible, so that the government can get back some of its maintenance costs.

The others will be maintained, under guard, to be used only if world conditions warrant.

The 43 standby plants include: Dickson Gun Plant, Houston; Longhorn Ordnance Works, Marshall (Karnack); Red River Arsenal (Lone Star Ordnance Plant), Texarkana.

# Army's Military Budget Cut Eight Per Cent By House

WASHINGTON, May 29. (P)—The current year military activities appropriations totaled \$7,263,542,400.

The committee thus slashed \$475,809,077 from next year's requests and cut \$2,022,559,977 below current year funds.

It did, however, approve the Army's full request for \$280,000,000 in contract authority to buy new airplanes.

In addition to the budget cuts, the committee cancelled \$1,100,000,000 of money appropriated for the current and prior years but not spent. The Army concurred in the cancellation. Its finance officers explained that (A) the money was not included in the

# Methodist Bishops Hit Pastor Changes

AMARILLO, Tex., May 29. (P)—The requests of both preachers and congregations for frequent changes of pastors drew the fire of Methodist Bishop Charles C. Seelman of Dallas yesterday.

The bishop, who spoke at the opening session of the Northwest Texas Methodist conference here, also criticized what he called the tendency to measure preachers by the dollar mark.

# Mrs. Nancy Crow Trapped Trying To Save Money

Granddaughter, Three Children Escape Blaze

STANTON, May 29.—Mrs. Nancy Crow, 80, long time resident of Martin county, burned to death in a fire which destroyed her home about a mile southwest of Stanton at approximately 6 o'clock this morning.

Mrs. Joe Sherman of Stanton, a granddaughter of the deceased who had spent the night in the Crow home along with other members of the family, said the explosion of a kerosene stove caused the blaze. The house was completely destroyed.

Mrs. Crow had arisen earlier to light the fire and returned to bed, according to Mrs. Sherman.

Mrs. Sherman along with three of her children escaped unscathed after having been alerted by Mrs. Crow. Sherman had departed the house a short time previously to begin his day's work as a farmer.

According to Mrs. Sherman, Mrs. Crow also escaped from the house but later returned to retrieve some money she had left behind. Her body, burned almost beyond recognition, was found just inside the door of the back porch. She apparently had been overcome immediately after entrance.

Mrs. Crow had been living in that particular location for the past two decades. Her husband preceded her in death by two years, nine months.

Scheduling of funeral services await word from children on the West coast. The body is being prepared for burial by the Nalley Funeral home of Big Spring.

# Okay On Natural Gas Bill Urged

AUSTIN, May 29. (P)—The House today formally urged the Senate and Gov. Beauford H. Jester to approve the House-passed natural gas tax bill for rural roads.

Representative adopted, 69 to 40, a resolution by Rep. E. O. Chapman of Sulphur Springs urging "the Senate and the governor to cooperate . . . by putting into operation a rural road program, by passing and signing House Bill No. 44."

HB 44 is the natural gas gathering tax measure, designed to raise an estimated \$29,000,000 a year for construction of farm-to-market roads. The controversial bill passed the House several months ago and has since been dormant in the Senate.

Approval of the resolution came as House tax proponents staged what appeared to be a last-ditch fight for a new natural resources tax measure. Their hopes of pushing another tax bill through faded last week when State Comptroller George Sheppard revised upward by \$32,000,000 his estimate of state revenue and knocked the props from under arguments that the state would need more money for its major functions.

The resolution declared that rural roads in Texas are in a "deplorable" condition and that rural areas are fast becoming depopulated because of bad roads.

# Army May Ask New Bonus Plan

WASHINGTON, May 28. (P)—The Army may ask Congress soon to approve a new bonus plan to keep men in uniform.

The plan, was disclosed to the House Appropriations committee during hearings on the 1948 war department supply bill sent to the House floor today.

Maj. Gen. St. Clair Streett said the Quartermaster Service said it calls for a re-enlistment bonus of \$100 for each year of a new enlistment and a bond bonus of \$1,000 for each five year hitch up to a maximum of 30 years, or a top bonus of \$8,000.

Streett said the Army also favors better living quarters for enlisted men and their dependents and more liberal quarters' allowances

LEGISLATURE ROUND-UP—

**KLEANITE the Brushless Way**

Get KLEANITE today at Collins Bros., Cunningham & Phillips, Settles Drug Store and all good druggists.

AUSTIN, May 29. (AP)—A biennial appropriation of \$27,313,052 for the state's eleemosynary institutions today awaited only House approval in order to be sent to the governor's desk.

The appropriation, recommended by a conference committee of members from both Houses, received quick approval from the Senate yesterday. The House, however, refused to consider the bill until 48 hours after its printing in the House Journal.

There was a slight possibility that the House might change its mind today and bring the big mon-

ey bill up for consideration.

As reported out of conference committee and approved by the Senate, the appropriation is an increase of \$11,609,076 over that of the current biennium.

It is \$4,141,166 more than the figure recommended by the House.

While the House and Senate spent most of yesterday stalling action on various bills, the House appropriations committee took decisive action by approving a resolution calling for an interim investigation of the Texas prison system.

Sent to the House by a 6 to 4 vote, the resolution by Rep. Jimmy Horany of Archer City authorizes appointment of five representatives and five senators by the House Speaker and the Lieutenant Governor, respectively, to make a complete and thorough investigation.

The committee is instructed to report its findings to the House and Senate, the governor, and the chairman of the State Prison Board at the next legislative session.

An appropriation of \$5,000 for expenses of the investigation is included in the resolution.

Horany advised the appropriations committee that State Auditor C. H. Cavness was present to answer questions concerning the prison system's business office procedure, but committee members did not indicate a desire to ask questions.

At one point in discussion of the resolution, Rep. Claud Gilmer, appropriations committee chairman, commented that the prison system's methods of business operation probably should be studied by the investigating committee.

The state auditor later told a reporter that his office would complete a report on business procedures of the prison system in about two months.

Prison conditions with respect to prisoners were recently limelighted in a legislative committee report which said some inmates of the Texas penitentiary system are "treated worse than animals." The report was filed with the speaker of the House by Rep. Sam Sellers of Waco, chairman of the House penitentiaries committee.

Rep. George Parkhouse opposed Horany's resolution, arguing: "We've been told what's wrong down there, but we just sit around and don't do anything about it."

He suggested that until some buildings were built to house prisoners properly, there was no use for further investigations.

## College Fails To Pay Water Bill

AUSTIN, Tex., May 29. (AP)—The Texas State College for Women at Denton has not paid for its water in nearly two years, the report of state auditor C. H. Cavness, showed today.

Due to the controversy with the city of Denton over water rates, the college has not paid a water bill since July, 1945, the report said.

Bills rendered by the city for the 13-month period ending Aug. 31, 1946, amounted to \$19,852.85. The college has set up an account payable only the volume consumed at the old rate—which amounts to \$8,683.26, Cavness reported.

The college showed an excess of revenues over operating expenditures of \$201,053 for the fiscal year ending Aug. 31, 1946. The revenues for the year totaled \$1,956,106 and total operating costs were \$1,755,052, the report said.

Cavness recommended that certain changes be made in procedures for accounting for cash received. He said similar recommendations had been made previously, but that they had not all been put into effect.

## Cattle Market Here Steady

The cattle market was steady at the Big Spring Livestock Auction company Wednesday and receipts showed a slight gain over last week.

A total of 850 cattle and calves and a few hogs went through the ring.

Butcher yearlings ranged up to 15.50; butcher yearlings, 23.50; bulls, 16.00; canner sand cutters, 10.00-12.00.

Light stocker calves brought 22.00, while plain cows and calves varied from \$100 to \$125 a pair with a few choice consignments hitting \$150.

Hogs sold at 24.50.

**DIPHTHERIA ON INCREASE**  
CHICAGO, (U.P.)—Dr. Franklin Top, Detroit, reported to the Illinois State Medical Society that a slight rise in diphtheria cases has been noticed around the world. He said the success in preventing the disease during the last 20 years "has had a lulling effect on some communities with a resultant lukewarmness in prevention."

The Memorial Day service at Friendship Cemetery at the graves of the Union and Confederate soldiers inspired the poem, "The Blue and Gray."

J. M. Barrera was found not guilty by a jury in a corporation court trial involving a charge of drinking during prohibited hours this morning.

### Hurt, Jr., Completes Training Course

Midshipman Hugh Harry Hurt, Jr., son of Mr. and Mrs. H. H. Hurt, 1511 Runnels, has completed Navy primary flight instruction at the NAT Base as Corpus Christi and is to enter basic-instrument flight course in another step toward winning his Navy wings.

### Myra Bigony Gets McMurry Degree

Myra Lee Bigony, daughter of Mr. and Mrs. D. F. Bigony, was among the 57 seniors to receive degrees Tuesday at McMurry college in Abilene. Ray Nichols, Vernon publisher, was commencement speaker. Miss Bigony has been one of the campus leaders in her four years at McMurry and frequently has been on the college's honor roll.

### Extends Remissions

AUSTIN, May 29. (AP)—Gov. Beauford H. Jester today signed a bill extending the period for tax remissions to Hidalgo county. The remission act was extended from 1948 to 1954 under terms of the bill by Sen. Rogers Kelley of Edinburg.

### Weather Forecast

Dept. of Commerce Weather Bureau BIG SPRING AND VICINITY—Partly cloudy this afternoon, tonight and Friday. Warmer Friday. Expected high today 68, low tonight 44; high Friday 72.

NEIL G. HILLIARD CERTIFIED PUBLIC ACCOUNTANT ANNOUNCES THE REMOVAL OF HIS OFFICES FROM STATE NATIONAL BANK BUILDING TO 602 PETROLEUM BUILDING BIG SPRING, TEXAS GENERAL ACCOUNTING AUDITING INCOME TAX

### Junior College Commencement Speaker Change

A change in the commencement program for the Howard County Junior College will bring Gordon Worley, Austin, director of supervision and instruction for the state department of education, here as speaker.

Senior sermon for approximately eight seniors and 10 members graduating from the academy will be held at the First Baptist church Sunday evening. Commencement activities, first in history of the young college, will be held the evening of June 6 at the First Methodist church.

### Public Invited To See Documentary Film

The public is invited to see a documentary film, "Seeds of Destiny," at 8 p. m. today at the St. Mary's Episcopal parish house. The picture, still tragically up to date in depicting fruits of war in devastated countries although it is a year old, is shown in connection with a cooperative effort by Protestant churches to raise relief in funds and commodities. Ministers and wives are to be guests at a dinner at 6:30 p. m., which precedes projection of the film.

### CONSISTENT APPLICATION OF DDT RECOMMENDED FOR MOSQUITOS

Thorough and consistent applications of DDT sprays have been recommended by health department authorities for control of an increasing number of mosquitos which have appeared in the area recently.

### Negro Electrocuted For Holdup Slaying

HUNTSVILLE, May 29. (AP)—Oscar Allen, 45-year-old Negro, was electrocuted last night in the state penitentiary for the holdup killing of Joe Enna, Dallas liquor gettceobtr.

V. A. Cross, typhus control director, said most of the mosquitos are different type from those noted here last year. They are dark in color and do not usually transmit disease, although they can be dangerous in case of infection.

### Fined \$75 On Driving Charge

Frankie Lee Davidson, charged with driving while under the influence of intoxicants, entered a plea of guilty and was fined \$75 and costs in county court Wednesday afternoon.

**CASH DEPOSITS TOTALLED—**

# Negro Orphanage Case May Not Reach Jury Immediately

BROWNSVILLE, May 29. (P)— Brownsville's longest federal court trial in 35 years, the Santa Rosa Negro Orphanage mail fraud case, entered its tenth day of testimony today with opposing attorneys reorganizing their attacks.

A surprise defense witness late yesterday affected testimony of earlier government witnesses and caused predictions the trial may not reach the jury for several days.

Until A. G. Acker, assistant cashier of the First National Bank at Mercedes, appeared on the witness stand, attorneys had expressed a belief closing arguments might begin late today.

Acker, however, told the court it would be impossible for anyone to determine the amount of cash and checks involved in a large portion of the Santa Rosa Orphanage deposits made at the bank since 1944.

The government has based much of its testimony in support of its charges against Mathes and Ruth Coleman, negro operators of the orphanage, on a comparison of cash deposits made at the Mercedes bank with similar deposits made at a San Antonio bank from 1941 until 1944.

L. O. Taylor, postal inspector from Fort Worth, testified Monday that a check of deposit slips on the orphanage's Mercedes account revealed cash deposits of \$7,693.16

or 8.7 per cent of total deposits of \$88,879.67.

Another inspector, W. D. Main of Houston, last week said an analysis of the South Texas National Bank of San Antonio account showed 71.72 per cent cash deposits in a total amount of \$75,203.21.

US Dist. Atty. W. R. Eckhardt, after calling the witness' attention to the difference between the two percentage figures, asked Taylor to assume the Mercedes cash percentage to be the same as that of San Antonio and tell the jury what Mercedes cash deposits would total if such an assumption were correct.

Taylor told the court that if cash deposits at Mercedes were 71.72 per cent, such deposits would total \$198,766.67, and that all deposits, cash and checks, would total \$279,943.48.

Acker was called to the witness stand by former Governor James V. Allred, chief defense counsel, who had obtained special permission to temporarily withdraw Coleman from cross-examination.

Judge Allan B. Hannay granted the request after Allred assured the court the surprise witness would present "important" testimony.

Coleman, who spent most of the day answering questions for Allred and Eckhardt, broke into tears shortly before noon when Allred asked him to explain why he had

# Seized Ship Reverts To US

HOUSTON, May 29. (P)— A federal court decision setting a precedent in litigation involving an estimated \$35,000,000 to \$50,000,000 worth of foreign vessels seized by the United States just prior to the outbreak of the last war was handed down here yesterday by Federal Judge T. M. Kennerly.

In his decision, Judge Kennerly forfeited to the United States all rights to the Navigazione Alta Italia, Italian shipping company, claimed to be the former Italian steamer, Mongolia.

Similar suits involving 32 other vessels are pending in other federal courts, according to J. K. Smith, assistant United States district attorney here, who represented the government in the Mongolia suit.

The Mongolia was seized by the Coast Guard here on March 30, 1941, on suspicion that the vessel was about to be sabotaged by its crew. The suspicion was well founded, the coast guardsmen discovered when they boarded the vessel and found her already extensively damaged.

The former owners, the Navigazione Alta Italia, brought suit to recover \$800,000, the estimated value of the vessel, and the case was heard here last January 28. In his decision today, Judge Kennerly denied the plea and assigned all rights in the vessel to the United States Alien Property Custodian.

# FINAL VOTE ON BILL TO ABOLISH CORPORAL PUNISHMENT POSTPONED

AUSTIN, May 29. (P)— Final vote in the House on a Senate bill to abolish corporal punishment at state correctional institutions for juveniles has been postponed until next Wednesday.

Opponents succeeded in delaying final House decision for the second time in two weeks. The vote to postpone came yesterday after two hours' debate on the Senate-passed measure.

Rep. Phil Willis of Kaufman labeled the people of Gatesville, where a boys' reformatory is located, as a "bunch of durn fools" for opposing the measure.

He said he had received letters from two employees at the Gatesville institution saying: "Won't you, for God's sake, please come back up here and do something about the situation? Conditions are worse than ever. They gave a boy 25 licks and kicked his teeth in."

Rep. Sid Gregory of Gatesville hotly denied charges that the boy-inmates had been struck with fists or whipped until they bled. He declared that stories of brutality had been exaggerated throughout debate on the bill.

A direct attempt to kill the bill

# Wet Fields Slow Texas Planting

AUSTIN, May 29. (P)— Wet fields during the past week held field work to slow progress and further delayed both planting and cultivating, the US Department of Agriculture reported today.

Heavy rains with some wind caused slight damages to row crops and small grains while the oats harvest in central Texas counties was halted by rains.

Light hail damage to wheat was reported with wheat harvest expected to be underway in northern and northcentral areas around June 1.

Cotton made good growth in extreme southern areas where rapid fruiting and only scattered insect damage was reported. In central and north central Texas, most early cotton was chopped while late cotton was generally up to a stand.

Corn made excellent progress in central and southern counties, with limited damage by high winds reported.

Grain sorghums planting was underway in the southern high plains with some fields up and growing well. Wet weather caused poor stands on the low rolling plains, making replanting necessary when weather permits.

Rains halted the harvest of commercial vegetables in most southern counties, and winds caused some damage in the Rio Grande valley.

Latex, the raw material of rubber, obtained from hevea trees is not the sap of the tree, but a separate fluid.

# Imperial Potentate Of Shrine Elected

ATLANTIC CITY, N.J., May 29. (P)— Karl Rex Hammer of Pittsburgh, 62-year-old food executive and a 33rd degree Mason, yesterday was elected as Imperial Potentate of the Ancient Arabic Order Nobles of the Mystic Shrine, succeeding New York State Supreme Court Justice George H. Rowe of Buffalo, N.Y.

Other officers elected at the Shrine's 73rd annual session included Galloway Calhoun of Tyler, Texas.

# CONTINUED PROSPERITY FOR TEXAS THIS SUMMER SEEN

AUSTIN, May 29. —A prediction of continued prosperity for Texas during the summer, coupled with a statement that Texas employment will not be drastically hit should recession strike the national economy, came from the Texas Unemployment Compensation Commission today.

New industries, lowered freight rates and a small but steady rise in employment indicate that Texas will remain prosperous in the summer months, the TUCC said.

Employment opportunities improved generally during April with the increase in spring hiring and forecasts for June from the 17 principal labor market areas show a continued uptrend in employment. In addition to the seasonal rise in construction and agricultural employment, the TUCC said it expected more workers will be needed in food processing, lumber, stone-clay-glass, machinery and aircraft industries.

Texas is also continuing its upward swing towards industrialization, the TUCC reported. During April 112 new industries were established, creating jobs for an additional 3,350 persons.

Construction led the way in increased job openings, but the expected building boom failed to materialize. Home construction is slowing down because of high costs, but commercial and industrial building has speeded up, the TUCC said.

Other major employment gains during April were in manufacturing industries, particularly oil field machinery, ship-building, glass, lumber and chemicals. Only meat packing employment showed a sharp downward trend.

In line with the employment increase, a total of 41,020 job openings were listed with the Texas State Employment Service during April. Some 34,000 Texas workers were placed on jobs during the month, showing an increase of several thousand job placements over

March. Of these, 13,278 were veterans.

The TUCC said that fewer than one-half of all Texas veterans have applied for readjustment allowances, and all but six per cent of the total discharged are now in full-time employment. Of the 730,000 veterans, only 20,000 have exhausted their unemployment benefits under the GI Bill of Rights.

**Pantry Shelf With Home Made Jam  
 Summer Months Time To Stock-Up**

By CHARLOTTE ADAMS  
 Associated Press Food Editor  
 EVEN though you haven't all the sugar you want yet, you can surely spare some to make jam this summer. Jam has so many uses during the winter months. It makes beautiful Christmas presents for friends. And summer is the time you must make it. Here are a few good jam recipes to spur you on your way!

**Spiced Rhubarb Jam with Orange**  
 3 1-3 cups prepared fruit.  
 8 cups sugar  
 1 box powdered fruit pectin  
 To prepare fruit, trim and slice fine (do not peel), about pounds of small red-stalked rhubarb. Add 1 cup sugar, mix and let stand 15 minutes. Add 1 teaspoon each cinnamon and cloves and grated rind of one orange.  
 Measure 4 cups sugar into dry dish and set aside until needed. Measure prepared fruit into a 5 to 6 quart saucepan, filling up last cup or fraction of cup with water if necessary.  
 Place over hottest fire. Add powdered fruit pectin, mix well, and continue stirring until mixture comes to a hard boil. At once pour in sugar, stirring constantly. (To reduce foaming, 1-4 teaspoon butter may be added.) Continue stirring, bring to a full rolling boil, and boil hard one minute. Remove from fire, skim, and pour quickly. Paraffin hot jam at once. Makes about 7 glasses (6 fluid ounces each).

**Strawberry Marmalade**  
 3 cups prepared fruit  
 4 cups sugar  
 1 box powdered fruit pectin  
 To prepare fruit, remove skins in quarters from 1 medium orange and 1 medium lemon. Lay quarters flat; shave off and discard about half of white part. With a very sharp knife, cut remaining rind into fine shreds. Add 3-4 cup water and 1-16 teaspoon soda. Bring to a boil and simmer, covered, for just 10 minutes, stirring occasionally. Cut off tight skin of peeled fruit and slip pulp out of each section. Add pulp and juice to cooked rind and simmer, covered, 15 minutes longer. Crush completely or grind about 1 quart fully ripe strawberries. Combine fruits. Measure sugar in dry dish and set aside until needed. Measure prepared fruit into a 3 to 4 quart saucepan, filling up last cup with water if necessary. Place over hottest fire. Add powdered fruit pectin, mix well, and continue stirring until mixture comes to a hard boil. At once pour in sugar, stirring constantly. Continue stirring, bring again to a boil and boil gently two minutes. Remove from fire, skim and pour quickly. Paraffin hot marmalade at once. Makes about 7 glasses of 6 fluid ounces each.

Would you care — or dare — to do strawberries in the sun the way our grandmothers used to? If you would — here's how:  
**Sun Preserved Strawberries**  
 Wash and stem sound large berries. Measure for every cup or bowl of berries 1 cup or bowl of sugar. Let this stand for half a day or until the sugar soaks through and the juice comes out. Then put into a pot on the stove and let boil three minutes or until the berries are just ready to break. Then pour them into a shallow pan and set them in the sun for 2 or 3 days, depending upon how thick you want the syrup. Stir occasionally each day while in the sun. When the syrup is thick enough and hot from the sunshine put into sterilized jars or glasses and seal. (Cover pans with gauze while out of doors!)

**TRAFFIC LESSON**

OKLAHOMA CITY, May 28. (AP) Police held a traffic safety school and only one man showed up. He listened intently, took notes and asked questions. Five minutes after class was dismissed, he returned to police headquarters escorted by two officers. He was charged with running a stop sign.

# 'Too Close' Alliance Between Britain, US Rapped At Meet

MARGATE, England, May 29. (AP)—Opponents of a "Too Close" alliance between Britain and the United States launched a heavy attack on the policies of Foreign Secretary Ernest Bevin in the annual labor party conference today. Bevin, listening intently, prepared to reply later in the day. Konni Zilliacus, outspokenly pro-Russian Laborite member of Parliament, led off by moving approval of a resolution—the longest yet presented to the conference—which urged close cooperation between Britain and Russia.

"We believe that subservience to Capitalist America will inevitably draw us into an anticipated slump and that the only way to avoid this is to cooperate with Socialist economies," the resolution said. Although several other labor rebels against Bevin's foreign poli-

city spoke in support of the motion, party leaders expressed confidence that Bevin would win approval for his course by a large majority after he makes his reply. Bevin was cheered when he took his place on the platform at the start of the foreign affairs debate, a highlight of the conference. Zilliacus ran into heckling at one point when he commented, in an aside, "I am not an expert in foreign affairs."

There were loud, ironic cries of "Hear! Hear!"

Zilliacus said modification of Britain's foreign policy so as to smooth relations with Russia would make it possible to reduce the size of Britain's armed forces.

"It is going to be very difficult," he declared, "to convince the housewives and workers of this country that it is really necessary to put up with more austerity and

# Hunt Pressed For Ex-Sailor Who Assaulted Retired Minister, Wife

GROTON, Conn., May 29. (AP)—A contingent of US Marines from the submarine base here today joined state and local police in the search for Cedric Carpenter, Jr., 27, of Mystic, for whom a warrant charging assault with intent to commit murder has been issued.

The former sailor is charged with having viciously assaulted the Rev. Nicholas Shepler, 55, retired minister, his wife, Flora Shepler, 50, and a daughter, Evelyn R., 16, in their Groton home yesterday. The minister and the daughter are on the serious list at Lawrence Memorial hospital in New London while Mrs. Shepler is reported to be critically injured at the same institution.

The Rev. Shepler and the daughter, Evelyn, told police that the attacker whom they identified as Carpenter, wielded a 15-pound furnace shaker, striking the father and mother while they were lying in bed. When the daughter awakened and screamed for help, they

said, the attacker struck her over the head with the same weapon. Police say that Carpenter, a former navy boxer knows the territory in which he is hiding thoroughly. They describe him as an experienced woodsman who has spent most of his life in this vicinity.

Concentration of the search in the Groton Center area followed a report that Carpenter had appeared at a store at Burnett's Corner, purchased a newspaper and some jelly beans and a bottle of soda which he drank while reading an account of the crime.

Immediately after the police had been notified a bloodhound was flown here from the Bethany barracks of the state police. The hound picked up the scent several times but lost it when it reached the main road.

The average journey for a Pullman car passenger in 1946 was 797 miles compared with 866 miles in 1945.

## Safeway Following Market With Prompt Price Reductions

Its established policy of "following the market down" by reducing prices according to manufacturer's or supplier's cost is being reiterated by Safeway Stores, Inc.

A bulletin has gone out this week through division and zone managers to all retail store managers, reminding them of the Safeway practice of reducing prices promptly with market trends.

Store managers were advised to "check and see that items are so reduced and the customers notified."

## Lawler Elected Head Of Restaurant Group

DALLAS, May 29. (AP)—Carlton Lawler of Dallas was elected president of the State Restaurant Association of Texas yesterday. New directors included Leland Petty, Lufkin, and Ernest Winkler, Waco.

Fred Leser, Austin, was elected chairman of the board of trustees of the Texas Restaurant Foundation, succeeding C. A. McAden of Austin.

The Hopi Indians used lignite a form of coal for burning pottery as early as 1000 A.D.

## Official Picnic Season Begins With Decoration Day, May 30

By CHARLOTTE ADAMS  
Associated Press Food Editor

DECORATION DAY is the first really official picnic day, though of course by this time the rushers-of-the-season have picknicked frequently.

In case Decoration Day should be on the chilly side this year, I suggest that you plan a picnic with at least one hot dish. You can make this dish at home and carry it to the picnic if you aren't going too far away.

An oven-proof glass dish will keep food hot for a remarkably long time, especially if you put the top on it and wrap it up well for the trip in your picnic basket.

**Baked Lima Beans**  
2 cups dried lima beans  
1 quart water  
1 tablespoon salt  
1-2 teaspoon dry mustard  
4 tablespoons fat  
1-2 cup molasses  
1-2 cup grated cheese  
1 cup tomato juice  
2 tablespoons chopped green pepper  
6 onion slices  
5 green pepper strips

Wash and look over lima beans, rejecting poor ones. Soak beans overnight in a quart of water. Add salt to beans and cook for one hour in the same water in which they were soaked. Remove from heat, drain, and stir into beans the mustard, fat, molasses, cheese, tomato juice and chopped green pepper. Arrange onion slices and green pepper strips on top of beans. Bake in moderate oven (350 degrees) for about an hour in a heat resistant glass casserole dish.

With that dish you can serve sliced meat sandwiches if you want to, though they really aren't needed. A green salad is a fine addition, and some fruit to eat from the hand. Some families just have to have a sweet. Bake them a cake, like the one below, and take it to the picnic in its pan. Again, a heat resistant glass one is good, because it looks trim and neat to take to the picnic.

**Graham Cracker Picnic Cake**  
Cake:  
1-2 cup shortening  
3-4 cup granulated sugar  
1 teaspoon vanilla extract  
2 eggs  
1-2 cup graham cracker crumbs  
1 1/2 cups sifted flour  
2 1/2 teaspoons baking powder  
1-2 teaspoon salt  
1 1/2 cup milk  
Cream shortening and beat in

Among the teen age set, the last word in sandwiches is a double or triple club affair featuring every filling available in the ice box. Some queer concoctions can result too, as any mother can testify.

Though the youngsters may carry this kind of thing too far, there's a good idea in their scheme. What's wrong with making a club sandwich that's both sandwich and salad? It can be delicious — it can be filling — it can provide lots of nourishment, plenty of greens, most everything a growing boy or girl needs and likes to fill that empty pance between lunch and dinner.

To provide this super sandwich, the larder must provide plenty of bread, American cheddar cheese, crisp cabbage, mayonnaise and catsup. For each sandwich, three slices of bread, toasted, are required — a generous slice of cheddar cheese — and the salad makings.

**Vote Of Confidence**  
MARGATE, England, May 29. (AP)—Foreign Secretary Ernest Bevin won a vote of confidence from Britain's ruling labor party by more than two to one in a preliminary skirmish on foreign affairs at the party's annual conference yesterday.

sugar gradually. Beat in vanilla. Add two eggs, one at a time, beating well. Stir in graham cracker crumbs. Add 1 1/2 cups flour, baking powder and salt, sifted together, alternately with milk. Pour batter into a well greased heat-resistant glass square cake dish—eight inch size. Bake in 350 degree oven for about 40 minutes.

**Topping:**  
2 tablespoons butter or margarine  
1 cup brown sugar  
2 tablespoons flour  
1 egg  
16 walnut meats

Melt butter in saucepan. Add brown sugar, flour and egg, well beaten. Mix well. Cook over low direct heat about six to eight minutes, stirring constantly. Remove from heat and pour over top of cake. Arrange walnut meats on topping. Return cake to 350 degree oven for about five to seven minutes or until topping is firm.

## Howard County Marketing Committee Discusses Wise Consumer Buying

By MARGARET L. CHRISTIE  
County Home Demonstration Agent.

The marketing committee of Howard county have prepared a list of things to look for when buying canned foods.

The following are three types of information to be found on canned food labels: 1) mandatory or required by the Pure Food Law; a Brand, b. the name of the product and the ingredients — such as sweet peas, sugar and salt added, c. naming of canning or distributing company; 2) the US grade such as Grade A — fancy, Grade B — choice, and Grade C — standard. The US grade shield means the food has been under continuous factory inspection by the US Department of Agriculture; 3) the voluntary information as to the size, maturity, number of cups, servings, recipes, etc. Code numbers that you find stamped on the tops of canned foods, designates where the food was canned where, what day, what

shift, and the recipe. The following three things enter into wise consumer buying: 1) The consumer must judge the product (whether canned foods, clothing or household supplies) in terms of her own needs; 2) She must consider the cost of the article in terms of its quality and the amount of money she has to spend; 3) She must compare the product (both on the basis of quality and price) with similar products.

### PLENTY ELIGIBLE FOR REEL PERMIT

SYRACUSE, N.Y., May 29. (AP) The elderly man who applied for a fishing license under a new state law granting free permits to applicants of 70 or over will have to wait until July 1 — effective date of the law. Otherwise, he is plenty eligible. Arthur Ashmore, information clerk at the court house, said the man gave his age as 95.

## From where I sit... by Joe Marsh

Want to Run a "Collective" Farm?

Was reading the other day about the "collective" farms they have in certain countries. It seems the folks who run them have plenty of help . . . good hours . . . and the best equipment.

Sounds pretty nice — till you learn that the "farmer" doesn't own his land, or even farm it, in our sense. He takes orders from the state; produces whatever they want him to produce, at prices they set. Even his off-hours are spent according to state regulations.

No, that would never go here.

# Kicking Props From Under Us

The debate is warming in Congress over the drastic cut in the agriculture department appropriations. These proposed economies would sharply curtail various programs, virtually emasculating the AAA, crippling Soil Conservation Service, and hobbling support activities.

time when we can ill afford jeopardizing the productivity of agriculture. Another reason is that the criticisms against subsidizing agriculture frequently represent half-baked presentations of half-truths. We have yet to see any farmer who would object to losing agricultural subsidies if other industries also lost their subsidies. The only difference is that many others do not enjoy direct governmental subsidy but receive it indirectly through protective and restrictive tariffs. It is a subsidy nevertheless.

What we object to is not the kicking out of stults from industrial economy, agriculture included, but to kicking out agriculture's props and leaving others undisturbed. This is an old Southern melody, and we think the refrain should be joined anew.

# Ducking Problem Creates Another

Back in March when The Herald carried an account of the destruction of a dog, gone wild in a sheep pasture, an anonymous reader sent in a scorching letter against inhumane method of destroying the dog.

held under reasonable control by a continuous county-sponsored trapping program. But when it is aggravated by domestic pets permitted to go wild, it is particularly vexing.

The ironical part of it is that there is little or no reason why domestic pets should become marauders. Usually it results from people lacking the heart to destroy unwanted pets. They just drive out a country lane, put them out of the car and drive on. The pet doesn't starve. He becomes clever in the ways of getting food. Dogs turn to sheep as well as small game. Cats prey on game birds and even domestic fowls. Instead of solving the problem, unthoughtful people who abandon dogs and cats in the country are creating far bigger ones for someone else. It's not a very nice thing to do.

The Nation Today—James Marlow—

# Why Destroy Carloads Of Potatoes?

WASHINGTON, (AP)—Millions of people starve abroad but here the government destroys carloads of potatoes. Why? Just too many potatoes. Many of them, for various reasons, can't be shipped abroad. Why too many potatoes? That's this story: During the war Congress passed a law telling the agriculture department to encourage farmers to grow potatoes.

livestock feed, and some were sold abroad. That was in 1945. All in all, the government lost \$15,000,000 that year on its potato deal. Foreseeing a repetition in 1946, the government asked farmers that year to cut down on potato growing. They did, by 100,000 acres. But 1946 was an unusually good year for potatoes and, in spite of the cut in acreage, the crop was a record. Once more the government stepped in. It brought up \$7,000,000 surplus bushels of potatoes and, in the end, lost about \$80,000,000 on the deal.

After all that, the government still had 22,000,000 of the \$7,000,000 surplus bushels on its hands. It destroyed them. Why couldn't those 22,000,000 bushels have been shipped abroad to starving peoples? The agriculture department explains it this way: Flour, which can be bought for five to six cents a pound, is far cheaper than potatoes to ship abroad. The cost is about 18 cents a pound to de-hydrate potatoes, which are 90 per cent water, so they can be shipped in a space-saving way.

Affairs Of The World—DeWitt MacKenzie

# Rehabilitation Delay Laid To Russ

Former President Herbert Hoover opens up a wide avenue for serious reflection when he charges that Moscow is delaying rehabilitation of the former Axis nations, and adds that "the reasons for continuous obstruction by Russia to every effort which would restore production have at least some expression in the Russian press as a method by which the United States can be bled white by relief measures."

of the Muscovites, Mr. Hoover doesn't dilate on the subject perhaps for the reason that the answer is fairly obvious. If that is what the Soviets have in mind, the purposes clearly must be one or both of these: 1. To reduce America from her position as the world's greatest power to one of such economic weakness that she no longer would be dominant in global affairs. In this connection we must note Moscow's repeated allegations that the United States has imperialistic designs and is trying to encircle the Soviet Union.

that the present plan of a temporary centralized German government in the American and British zones of Germany be carried out immediately, subject to our military direction. In a subsequent press conference the former president said he wouldn't regard a separate peace with Germany and Japan as a violation of any international agreement. Many observers will agree that much could be achieved in the way of rehabilitation if, say, America and Britain should make an early peace with Germany and Japan. However, it's clear that nothing like completed recovery could be accomplished without the cooperation of Russia. The question of France's attitude also arises, and in this connection Mr. Hoover expresses the belief that if Moscow and Paris would cooperate, world economic recovery could come in two or three years.

In Hollywood—Bob Thomas

# Film Stars Can Really Spout, Too

HOLLYWOOD, (AP)—When it comes to spouting old faithful gets some heavy competition from some of Hollywood's loquacious stars. And along comes Walter Brennan with the hint that many of them are mere drips. Brennan claims to be expert on one subject only—acting, and his expertise is affirmed by his craft. Three times he has been slipped an academy award for his supporting roles. He is constantly in demand to bolster film casts. The actor from Swampscott, Mass., has been around Hollywood more than 25 years and is one of the few to rise from extra ranks.

he has seen the stars come and go. "I see 'em get the big car and the big house and the big head," he said. "Then they lose the big car and the big house and all they've got left is the big head." Brennan lives quietly and does only two or three pictures a year. Hollywood's actresses are dehydrating themselves into an early old age. This comes from Paul Seabrooke, the guy in charge of faces at Ann Meredith's salon in Beverly Hills. He sees the stars' faces in their bare skin, and often they aren't pretty, says he.

diet. The result: premature lines, itching, sallowness, dry skin, large pores. "Their skin is impoverished for lack of natural oils," he declared. "They're all nervous, complaining, weary and brain fagged." Seabrooke said he can "vacuum" off lines. But he added he would be out of business if his patients would drink their quota of liquids daily—eight glasses of water, two of milk and one of orange juice.

The trouble, he told me, is that the camera makes a person look wider and shorer.

"The skinny, bony type of female, like Loretta Young, Constance Bennett, Ida Lupino" are fortunate, he said, but the healthy, curvaceous gals have to train their weight down like jockeys. The method: "Dehydration and eliminating essential fats and carbohydrates from the

Diplomatic Shift

WARSAW, (AP)—Clifford C. Taylor, economic counselor to the United States embassy, is leaving Poland for New Delhi, India, to assume a similar post there. Taylor, regarded as one of the state department's outstanding economic experts, is a former resident of Fort Collins, Colorado.

# "NOW I'LL ROLL YOU FOR NEXT YEAR'S PAY"

Hal Boyle's Notebook

# Midwest Vs. Manhattan

KANSAS CITY, Mo. (AP)—Coming back to the Middle West, I always wonder why, people ever emigrate from here to New York. I did it myself ten years ago, and I still can't make up my mind whether it was a good idea. For the advantages that living in Manhattan once had over life in inland towns and cities have pretty well disappeared. The difference used to weigh heavily in favor of New York. Now the balance tends to swing the other way.

Life is expanding and breaking old bonds in the Midwest and throughout the rest of the country. It is becoming richer and fuller. In New York this isn't true in the same manner. The slums clear very slowly. Life rides to the subway's grind, and the concrete wilderness presses more heavily upon the spirit. But it would be unfair to New York to say it has nothing to compensate for the lost spaciousness of living you leave behind when you come to it from the American heartland. There is a throbbing pulse about Manhattan that, once felt, you can never forget. It is a sense of being part of the craziest, most wonderful, biggest and noisiest sideshow in history.

# Washington Merry-Go-Round—Drew Pearson

# Wool Lobbyists Weave Their Way

WASHINGTON.—When Congress passed its very controversial wool bill—which will raise the tariff on wool—two men operated backstage to help write the legislation. They were: Clinton M. Hester and M. M. Kearney, who represent the Boston Wool Trade and the National Wool Trade Association. However, despite the fact that Kearney and Hester acted as lobbyists in the ordinary understanding of the word, the strange thing is neither of them registered as lobbyists.

among the best kept and beautiful in the world. However, most relatives have elected to have the bodies returned. The War Department had worked out a schedule for the shipment of caskets, but now strikes have occurred in two key companies manufacturing parts for caskets—Goodyear Aircraft and the Warren City Stamping Company. "The outlook is most pessimistic," John H. Fanning, labor relations expert for the Judge Advocate General's office, has reported to Gen. Herman Feldman, deputy quartermaster general, the union are being adamant. The attitude of the companies is that they are the only ones who make caskets and whether they are delayed a week or a month isn't particularly bad, because they don't have the commercial incentive.

long-distance between Washington and Berlin. It is over the rebuilding of Germany. Finally, last Tuesday, Secretary of War Patterson ordered his assistant secretary, Howard Peterson, to fly to Germany to settle an argument face to face with General Clay. Clay and the War Department do not agree on the program for reviving Germany. The War Department plans to spend \$750,000,000 additional to rebuild German industry. But General Clay is afraid rebuilding German industry also means rebuilding the German military. The big question-mark is where to draw the line between civilian industry and war-making industry. Once you build up German steel, for instance, you have the basis for a German war machine.

# BATTLE OVER GREECE

A significant battle is going on backstage over how to handle Greek aid. Two cabinet members, Secretary of Labor Schweikert and Secretary of Treasury Snyder, have been adamant that the Greek government drop its reactionary cabinet and restore civil liberties before we start pouring in the dollars. In various inter-cabinet discussions, they and their representatives have stood pat on this. However, the State Department's Loy Henderson says this would be interfering with Greek sovereignty. The matter is still being debated.

# LEWIS DICKERS

Biggest stumbling block in current negotiations between John L. Lewis and coal-mine operators is the health and welfare fund. Under a contract with the government, five cents is paid into the miner's welfare fund for each ton of coal mined. Approximately \$20,000,000 has been paid in so far, and the money is administered by a board of three—miner, an operator, and a representative of the public. Lewis is now demanding that the welfare-fund assessment be increased from five to 10 cents on each ton as of June 30,—the date mines are returned to the operators. It's suspected Lewis actually hopes to get five cents, the present assessment, but is demanding 10 cents for bargaining purposes.

# REBUILDING GERMANY

One of the most significant arguments affecting the peace of the world has been going on

# TEXAS TODAY—Jack Rutledge

Texas is rough and tough and woe-betide the man who flips a wrist at a Lone Star Stater. But you'd be surprised how important a part flowers play in the life of Texas. There is, for example, San Antonio's Battle of Flowers. And Palestine's Dogwood Trails. The Lower Rio Grande Valley has its Bougainvillea Trail. Timely comments could be made about Bluebonnets. In fact, we will comment: Old timers say this year's crop of Bluebonnets is the heaviest in years.

# TEXAS TODAY—Jack Rutledge

There are setbacks to the flower program, though. Down in Laredo, the Laredo Garden Club, assisted by other organizations, decided to beautify the entrance to the border city. They set out Oleander plants and Palms along San Bernardo Avenue. Just after they had finished their difficult job, a gang of hoodlums made a midnight swoop, pulled up and destroyed over 100 plants. A wave of indignation swept the town, says our Laredo agent.

# Flowers Important In Life Of Texas

Timely comments could be made about Bluebonnets. In fact, we will comment: Old timers say this year's crop of Bluebonnets is the heaviest in years. Marlin holds one of the state's unique celebrations, an annual Texas Bluebonnet Photo Fiesta. It is usually held late in April. Hundreds, sometimes thousands of photographers gather there to take pictures of the gorgeous Bluebonnets. And Marlin provides charming young models to post amid the blossoms.

## Exchanges Close On Memorial Day

By The Associated Press  
All the nation's security and commodity exchanges will close Friday in observance of Memorial Day and all but a handful of commodity markets will be recessed until Monday, as the majority start a summer schedule of Saturday closings.  
The Chicago Board of Trade and other US grain exchanges will be open this Saturday, and all other Saturdays, but the Chicago Cotton and Securities Markets will close Saturdays through September.  
New York Stock, curb and wool exchanges will also close on Saturdays through September, as will all out-of-town stock exchanges.  
The New York and New Orleans Cotton Exchanges will close Saturdays through August.

## Farmers Urged To Plant Better Cotton Seed

AUSTIN, Tex., May 29. (AP)—Texas cotton farmers were urged today to take advantage of the Smith-Doxey act to induce planting of better cotton seed by Commissioner of Agriculture J. E. McDonald.  
"This service is now offered... absolutely free of charge and can be obtained by all cotton farmers who are to use the service," McDonald said.  
The commissioner explained that two or more farmers should organize and request their ginner, who will be put under a federal bond, to cut samples from both sides of their bale and send it to one of the branch offices.  
McDonald said cotton farmers could obtain the service by applying to the following classing offices located in Texas for blanks on which to make application for the service:  
Austin—John W. Doremus; El Paso—Hughes Butterworth; Corpus Christi—H. J. Matejowski; Galveston—L. E. Dowd; Dallas—D. E. Earle; Abilene—Robert R. Hardin, Jr.; Lubbock—L. O. Buchanan.

## Aggies To Graduate

COLLEGE STATION, May 29. (AP)—Edward S. Boyles, Houston attorney, will deliver the commencement address to over seven hundred Texas A&M college graduates at 6 p.m. Friday in the Kyle Field stadium. This is the second largest class to graduate in any one semester.

## Bill On Weighing Fruit Is In Senate

AUSTIN, MAY 29. (AP)—A bill requiring citrus growers to weigh their fruit was in a Senate subcommittee today, with little prospect that it could be reported out to the Senate floor in time for passage before the end of the session.  
Already passed by the House, Rep. Kilgore's bill received a two-hour public hearing before the Senate State Affairs Committee yesterday.  
Austin Anson of Harlingen, executive manager of the Texas Vegetable and Fruit Growers association, supported the bill on the ground that weighing was essential for the correct accounting of citrus fruit.  
Keys made at Johnnie Griffin's adv.

## US 'FIRM POLICY' TOWARD RUSSIA CALLED RUDENESS

MOSCOW, May 29. (AP)—One of the sharpest references yet made here with respect to the United States "firm policy" toward Russia appeared today in Pravda, which published a bitter attack on Gen. Mark W. Clark, former American military governor in Austria.  
David Zaslavsky, one of the Soviet Union's best known publicists, declared that Clark belonged "to that number of unwise politicians who declare that in relations with the Soviet Union one should maintain a 'firm policy'."  
The Pravda editorialist said that by this they really meant deliberately getting tough and being rude "because they do not want agreement."  
"Their task is hamstringing peace and provoking war," he said.  
Zaslavsky's article was headed, "the triumph of Gen. Clark which has not taken place."  
He said Clark had hoped to return to the United States like a "conquering Caesar" with an Americanized Austria behind him but instead arrived "with empty hands" and "could not hide his bitterness and disappointment."  
(Clark reached the US last week en route to his new Sixth Army command in San Francisco. To reporters and in a radio speech, he

criticized Russian policy in Austria.)  
"He relied on laying at the feet of Wall Street an Americanized Austrian politician."  
"It should be recognized," Zaslavsky continued, "that Clark did everything in Austria in order that Austria should look like a 'democracy' as Greece resembles one."  
Zaslavsky said that "Clark added to the defense of the sovereignty

of Austria by proposing that it be made into a colony of the United States." He accused US occupation authorities in Austria of holding onto gold stocks and plants and other enterprise in their zone.  
"Clark really showed a stimulated interest in some enterprises," he said, "but only those in which American capitalists are interested."

## GOP Economy Drive Still Rolling, But Beginning To Develop Squeaks

WASHINGTON, May 29. (AP)—The Republican congressional economy drive was still rolling along today, but it was beginning to develop some squeaks.  
By a slim six-vote margin, and only after a \$40,000,000 compro-

mise, the GOP leadership shoved an \$847,601,976 Agriculture Department appropriation bill for 1948 through the House last night and over to the Senate.  
This brought to slightly over \$2,100,000,000 the claimed savings in the House drive to cut \$6,000,000,000 from the President's budget for the year starting July 1.  
With only five more 1948 supply bills to be handled, there were signs that the going may be tough if the goal is to be reached.  
For the bills which make up the balance of the President's overall \$37,500,000,000 spending estimate are for local rivers and harbors projects and the Veterans' Administration, in addition to the War Department, and some assorted federal agencies.  
The appropriations committee may have trouble keeping Republicans in line when it comes to cutting funds for veterans and rivers-harbors projects.  
Twelve of them joined a solid Democratic front last night in a futile effort to add \$50,000,000 for the school lunch program, \$25,000,000 for the Rural Electrification Administration's lending fund, and \$134,385,710 for soil conservation payments. The appropriations committee had ordered all three reductions.  
Each move to make those increases failed by a roll-call count of 180 to 174, as Republican leaders exerted their best efforts to get their votes to the floor.

## Oil Man Gets 15 Million Loan

DALLAS, May 29. (AP)—Rogers Lacy, Longview oil man who last August negotiated a \$10,950,000 loan with the Republic National Bank of Dallas and associated banks, has completed a new \$15,000,000 loan with the Republic Bank and the Prudential Insurance Co. of America as the joint lending institutions, it was made known today.  
Lacy, contacted by telephone at his office in Longview, confirmed the fact that the deal was completed for the new 10-year loan, and explained that the proceeds will be used to retire the five-year \$10,950,000 loan and for additional development of his oil properties, mostly in Texas.  
At the time of the previous loan, Fred Florence, president of the Republic Bank, said that so far as was known it was the largest oil loan ever made by an organization headed and handled by a southwestern bank. This was made on an amortization basis with final maturity at the end of five years.  
Lacy intimated that the chief purpose of the new loan was to extend the period of maturity for the old.

miss, the GOP leadership shoved an \$847,601,976 Agriculture Department appropriation bill for 1948 through the House last night and over to the Senate.  
This brought to slightly over \$2,100,000,000 the claimed savings in the House drive to cut \$6,000,000,000 from the President's budget for the year starting July 1.

For the bills which make up the balance of the President's overall \$37,500,000,000 spending estimate are for local rivers and harbors projects and the Veterans' Administration, in addition to the War Department, and some assorted federal agencies.  
The appropriations committee may have trouble keeping Republicans in line when it comes to cutting funds for veterans and rivers-harbors projects.  
Twelve of them joined a solid Democratic front last night in a futile effort to add \$50,000,000 for the school lunch program, \$25,000,000 for the Rural Electrification Administration's lending fund, and \$134,385,710 for soil conservation payments. The appropriations committee had ordered all three reductions.  
Each move to make those increases failed by a roll-call count of 180 to 174, as Republican leaders exerted their best efforts to get their votes to the floor.

## CLEAN

When looks count, get the Mufti bottle, clean those spots! Mufti gives you not 1, but 4 tested cleaning ingredients... cleans so many spots from so many fabrics—in a jiffy!

## Chemical Company To End Contract For Atomic Plant

WASHINGTON, May 29. (AP)—The Monsanto Chemical Company, which has operated the atomic energy project at Oak Ridge, Tenn., for the last two years, will terminate its contract with the Atomic Energy Commission.  
A joint statement by the commission and the company yesterday disclosed that a difference between the two over the company's proposal to transfer some research to company laboratories at St. Louis, Dayton and Springfield, O., was the major reason for the decision not to renew the contract expiring next June 30.  
The commission said it "will announce at an early date" new arrangements for the operation of Oak Ridge. It was explained informally that the commission undoubtedly will contract with another private concern rather than operate the Oak Ridge project itself.

## High School Is Fixing Yard

Big Spring high school is dressing its front yard.  
Terraces on the 10th street front are being spaded and reshaped. Under the direction of Bill Olsen, superintendent of buildings and grounds, the slopes likely will be seeded.  
The work was delayed until the end of the school in order to afford the ground an opportunity to become sodded before heavy traffic by children begins.  
Beautification work on the lawn represents another step being taken by the school board in following up on the findings of the evaluation committee here more than a month ago.

## DOCTOR'S DISCOVERY FOR BACKACHES DUE TO KIDNEYS

• If excess acidity of your urine makes your back ache so you groan... so you get up 3 or 4 times a night to pass water, now be of good cheer.  
Three generations ago a famous doctor noticed that hundreds of his patients had this backache. He compounded a medicine made of 15 herbs, roots, vegetables, balsams—truly Nature's own way to relief. Millions have used it. The medicine is Dr. Kilmer's Swamp-Root. Instantly you take it, it starts to work flushing out those excess acids that may cause your backache... increasing the flow of urine to help ease that burning sensation when you pass water... and that bladder irritation that makes you get up nights. Caution: take as directed. You'll say it's marvelous.  
For free trial supply, send to Dept. V, Kilmer & Co., Inc., Box 1255, Stamford, Conn. Or—get full-sized bottle of Swamp-Root today at your drugstore.

## Tonsils Tender? SOS-SIC!
