TEX'S TOPICS

An airplane dive into the roof of a house with the plane's motor wide open and its pilot strapped into the cockpit will climax a program of death-defying stunts next Saturday at the Texas Centennial Exposition in Dallas.

Captain F. F. Frakes, former test pilot for the Curtis-Wright Airplane company, will pilot the plane. This will be only one of 10 hazardous acts presented by the Frakes-Deluca dare devil troupe...

Miss Jean DeLuca, 21-year-old speed demon, will drive a regular stock car over 50 sticks of dynamite, depending on her uncanny ability to escape from a wrecked car to get away quick enough after the explosion to save her life.

Then Miss DeLuca will attempt to break her own world's record for an automobile hurdle at a speed of a mile a minute. She jumped a car 51 feet from the ramp last May at the World's Fair.

Two of the hell drivers will play automobile polo. A ball five feet in diameter will be placed in the center of the bowl and the drivers will attempt to push it between goal posts with the bumpers of their cars.

For five years this team of barn stormers and hell drivers has been risking death to thrill audiences in the largest cities and fairs of the country. Newsreel cameramen follow the show around to keep a living record of the team whose motto is, "Thrills without regard to death or danger."

Following ten thousand miles of travel through the United States during which he toured all principal centers and resort areas, Joe N. Thompson, National Travel Bureau director, predicts that tourist expenditures for 1936 will surpass the anticipated four and one-quarter billion dollars.

Increases, some as high as 55 per cent, will be shown in the number of tourists who visited the western national parks, Thompson stated. The average increase over last year for these parks will approximate 29 per cent, he estimates.

Conclusions arrived at during the personal survey are supported by reports from official sources in the east and south from the Texas Centennial Exposition and the Cleveland Exposition and from statistics on travel to Mexico, all of which greatly exceed pre-season estimates. Moreover, early figures from Florida and Gulf Coast resort areas indicate that winter tourists will create a record boom in the districts.

First among many causes which is attributed to this rapid growth in tourist travel is today's improved economic condition of the nation as a whole. Other factors are better highways opening new motor car and airplane routes, the Soldier's Bonus. All of these, he believes, may together make 1936 the greatest tourist travel year in history.

Another factor, he believes, is the permit of statistical agencies, which Thompson regards as of great fundamental importance, is the social trend toward travel by the masses. "It may well be," Thompson stated, "if the present trend continues, that travel will become our foremost national pastime."

All this political talk about red herring may start a vague of tian tresses in Hollywood.

FOOTBALL'S BIGGEST THRILL
BY Ted Husing
FAMOUS SPORTS ANNOUNCER

THE GREATEST THRILL IN FOOTBALL IS A PERFECT SCORING PLAY. MINNESOTA PULLED A BEAUTY LAST YEAR IN THE MINNESOTA-NEBRASKA GAME.

MINNESOTA HAD ADVANCED DOWN THE FIELD FOR A FIRST DOWN ON NEBRASKA'S 9-YARD LINE. NOW HERES WHERE FOOTBALL BRAINS COME IN. HERES WHAT TO WATCH FOR AT THE NEXT GAME.

UNDEFEATED, MINNESOTA FACES TOUGHEST TEST

MINNESOTA IS IN SINGLE WING-BACK FORMATION WITH AN UNBALANCED LINE. THE QUARTER-BACK, #3 BACK, TAKES THE PASS FROM CENTER. #2 DOES A HALF SPINNER AND TOSSES AN UNDERARM LATERAL TO THE RIGHT HALF-BACK #2 BACK #2, WHO FEINTS AT THE LINE, THEN THROWS A SECOND LATERAL TO THE LEFT HALF-BACK, THE TAIL-BACK #2 WHO HAS BEEN COMING OVER. THE TAIL-BACK PIVOTS QUICKLY AND CUTS OFF TACKLE... FOR A TOUCHDOWN!

9 TEAMS OUT OF 10 WOULD UNCORK THEIR SCORING PLAYS NOW, BUT NEBRASKA EXPECTS THIS. MINNESOTA HAS TO USE DECEPTION FOR THE THIRD TIME THEY CRASH THE LINE. THE BALL IS ON THE 9-YARD LINE. MINNESOTA GOES INTO A HUDDLE.

MEANTIME EVERY MAN ON THE NEBRASKA TEAM WHO CAN STOP THE PLAY IS TAKEN OUT. THANKS TO THE THREE PLAYS JUST PRECEDING, THEY ARE OFF-BALANCE AND OUT OF POSITION. THIS MAKES IT EASIER TO STRETCH THEM DOWN FLAT AND OUT OF THE RUNNING. THE ACTION PICTURE SHOWS THE PERFECT MINNESOTA BLOCKING.

LET ME GIVE YOU ANOTHER GOOD POINTER THEN: SMOKE CAMELS BETWEEN COURSES AND AFTER EATING. CAMELS HELP EASE STRAIN FOR ME AND BRING ME A FEELING OF DIGESTIVE WELL-BEING.

I COVER A GOOD SECTION OF THE COUNTRY—SEE PRACTICALLY ALL THE TOP-NOTCH ATHLETES—CAMELS ARE THE FAVORITE EVERYWHERE. THEY SET THE ALL-TIME HIGH FOR MILDNESS AND FLAVOR, AND CAMELS DON'T GET ON YOUR NERVES.

TOUCHDOWNS LIKE THAT SEND CHILLS UP AND DOWN MY SPINE. I GET SO WORKED-UP AT A BIG GAME I CAN'T ENJOY MY FOOD AFTERWARDS.

SMOOTH AWAY THE DAY'S UPS AND DOWNS. LET DIGESTION GET OFF TO A GOOD START. JUST ENJOY CAMELS AT MEALTIMES AND AFTER. SMOKING CAMELS SPEEDS UP THE FLOW OF DIGESTIVE FLUIDS—INCREASES ALKALINITY—BRINGS A SENSE OF WELL-BEING—SO FOR DIGESTION'S SAKE SMOKE CAMELS. CAMELS ARE MADE FROM FINER, MORE EXPENSIVE TOBACCOS—TURKISH AND DOMESTIC—THAN ANY OTHER POPULAR BRAND.

sell at the same price as butyl and is stronger in substance.

On these comparisons U. S. Industrial Alcohol stands out as the better of the two issues. There are only 39,221 shares of stock outstanding. Of that amount Air Reduction owns quite a block. There is no funded debt or preferred stock. In good times, on alcohol and limited chemical business—net share can be as high as \$11. Insiders say the company has yet to start growing although competition will be hard to fight.

Recent buying of the U. S. Industrial Alcohol shares is based on the belief that they have unusual long-term merit—although near-term earnings will not make as favorable reading as might be expected. In any event there is switching of Commercial Solvents into U. S. Industrial Alcohol shares.

SPECULATIVE

Speculative bond trading circles are active in South American obligations. The securities of Brazil, Peru, and Colombia are being given preference. There are two reasons for the buying. The first is that these nations are showing marked recovery progress. The second is that many Southern Hemisphere nations are taking steps to provide for debt payments. But current buying is purely of speculative character.

REPORTS ARE THAT

When Standard Oil of New Jersey's new "ethyl plant" at Baton Rouge is completed price of ethyl gasoline will be cut. Southern Railway insiders say RFC debts will be reduced. Tinkin Roller Bearings' 1936 net will better those of 1935 by at least 50 cents a share—\$3.10 shown last year. New Eng-

land interests like Powell & Alexander because of dividend return—priced to yield over 6 per cent.

Goodyear Tire & Rubber preferred holders accepting recapitalization plan. Kelsey-Hayes Wheel taking active interest in all-steel home production. National Biscuit plant dividend throughout the depression years. Philadelphia Company preferred bought for income—semi-investment risk. E. W. Bliss common being avoided—preferred dividend accumulations large. Young-Spangue & Wires third quarter net above 31 cents a share shown for like period last year. Analytical quarters say this issue is being discounted better than their attendance—tape doesn't agree. Standard Oil of Ohio insiders expect substantial dividend extra this year. International Agricultural preferred—speculative—common being avoided. There will be no Devoe & Reynolds dividend extra this year even though \$4 a share will be netted—company's fiscal year ends November 30 which leaves it out of 1936 tax rules. Union Tank Car has a long pull following. And that machine tool manufacturing organizations are far behind in deliveries.

GRIDIRON HEROES

ONE of the greatest forward passers ever to grace a gridiron was "Blick" Muller, California star back in 1920-21. Possessed of a great pair of hands, Brick averaged 63 yards on his tosses in 1920, and was the talk of the country the following year, when Ohio State went west to engage the Bears in the Rose Bowl game. In that famous inter-sectional clash, Muller, although hounded by Buckeye forwards all afternoon, got off several tosses, climaxing his performance by nailing the pigskin for a touchdown pass that traveled a distance variously estimated at from 65 to 75 yards, and sending the Bucks home on the tail end of a 23-0 score. In addition to being rated the best end of the country in 1921, Muller also was a marvelous blocker and pass receiver.

TRANSFORMATION

Commercial Solvents shares are being compared with those of the United States Industrial Alcohol. Our term investors have looked into the matter quite thoroughly, and favor the latter. There are reasons. Back in 1924 Commercial Solvents had only 60,000 share of stock outstanding. It sold as low as \$33. Subsequently it was split on a 2 for 1 basis. After that the new stock was sold on a 1 for 1 basis. On shares of about \$17, a share for the present stock it represents \$34 for the shares that sold at \$33 back in 1924.

AMARILLOAN TO GIVE REVIEW OF BOOK SATURDAY

Altar Society To Present Dr. Mauch At Cif Club

A review of "Gone With the Wind," best-seller which is eclipsing even the remarkable "Anthony Adverse" in popularity, will be presented at the city club room Saturday at 3 p. m. by Dr. Eugene Mauch, O. S. A., of Amarillo, in a program open to the public and sponsored by the Altar Society of Holy Souls Catholic church.

Dr. Mauch, serving his second year as dean at Price Memorial college at Amarillo, came to Texas from Villanova college of Villanova, Pa., where he was dean of the school of arts for several years. He is a member of the Augustinian order, famous over many centuries for its learned scholars.

The book he is to discuss has become the most widely read and most talked of novel of the year, and its popularity promises to keep growing. A copy recently secured by the public library here is in constant demand. The author is Margaret Mitchell.

Mrs. W. H. Davis, is chairman of the committee arranging for the program. A nominal admission charge will be made, and the committee is telephoning special invitations this week to all club women of the city.

MONEY'S CONDITION IS GREATLY IMPROVED

Condition of Ben Money of near Miami, critically injured Sunday morning by the accidental discharge of a shotgun, was greatly improved in Pampa-Jarratt hospital today. The charge entered his shoulder and he lost much blood before recovering medical attention.

Money, with a young companion, Melvin Compton of near Mobeetie, were driving across the C. W. Bowers ranch, where Money was employed, when the accident happened. It is believed the gun discharged when the truck struck a rut.

Mr. Money's mother, a resident of the Lubbock community, arrived here yesterday.

AMARILLO, Oct. 20 (AP)—Texas oil production was reduced to meet the market demand as reflected by the Bureau of Mines estimate. Col. Ernest O. Thompson, chairman of the Texas Railroad Commission, said today.

There are two methods of determining allowable. One is on nominations and the other by Bureau of Mines estimates, he said.

"The Bureau of Mines at present is making a thorough study, I understand, of the basis of forecasting demands," Col. Thompson said. "This study, as I understand it, is to be completed in time for the December estimate."

Col. Thompson declared that nominations were called for six months and that they averaged about as at present, indicating a steady market during the winter.

"The little fellow will be helped by the six months forecast," Col. Thompson said.

pain with her finger-tips. A miracle of education and patience later gave Miss Keller the power to speak, even to read, as she became one of the most famous women of the past decades.

But this morning time rolled back again. Miss Keller sat at the bedside of her benefactress, Mrs. Macy was in a coma, as she had been for four days following a sudden heart attack. This time it was Miss Keller's turn to try desperately to awaken recognition through her fingertips, as Mrs. Macy had taught her. But the aged woman died without rallying.

Heartbroken, Miss Keller, now 56 years old, said as she left the bedside:

"My teacher is set free at last from pain and blindness. I pray for strength to endure the silent dark until she smiles on me again.

"My teacher has gone from me a little while but I shall feel her presence anew when my eyes are blessed with light, my ears saved unto harmony, and my imprisoned light set free."

3 CIVIL SUITS SET FOR TRIAL THIS WEEK

First civil trial of the week for Judge H. E. Hoover, of Canadian, who is acting district court jurist in the absence of Judge W. R. Ewing, is set for 1:30 p. m. Wednesday when the case of The Continental Supply Co. vs. Vulcan Petroleum Co. is scheduled to be opened.

Two other cases are set for Thursday. They are the compensation lawsuit of W. F. McDaniels against The Maryland Casualty Co., and the Continental Supply Co. vs. P. T. McNamara, et al.

After some difficulty rounding up jurors yesterday Judge Hoover asked a list of 20 persons and asked them to report for duty Thursday morning.

The jury list is made up of the following men: G. E. Gatlin, Jack Goldston, Sam Hale, J. D. Cobb, A. L. Flynn, Toll Moore, George Thut, Alton Moore, M. Maness, Cecil Shirley, C. G. Williston, M. C. Doss, M. R. Howell, A. L. Bell, L. C. O'Neal, R. R. Watson, and C. C. Franks.

Judge and Mrs. Ewing left Sunday to visit the Texas Centennial in Dallas and Fort Worth. Judge Ewing will return to the bench next Monday morning when several criminal cases are to be assigned for trial during the remainder of the term.

Grand jurors continued in session today after resuming deliberations Monday following a two-week recess.

NO. 6 —

Alfred to say whether he had intended to submit the subject of amending the old age pension law to the current special legislative session. The vote was 67 to 53.

The resolution, defeated after sharp debate, also would have asked the chief executive to give his views on making the pension act more restrictive.

Representative Kenneth McCalla of Houston, its author, said his purpose was to eliminate an apparent conflict between the houses. Lieut. Gov. Walter Wood ruled the pension statute was subject to revision, and the Senate adopted an amendment to "deliberate" it. Coke Stevenson, speaker of the House, had not passed on the questions since the Senate action but his previous holdings led many to believe he would strike down the Senate amendment on a point of order.

The House and Senate of the Texas legislature appeared ready to agree on one of the issues presented in special session by Governor Alfred and just as ready to disagree on the other.

Rep. George Davison of Eastland and Sen. Allan Shivers of Port Arthur both expressed gratification at the work of a conference committee on unemployment insurance bills. They said the finished act would be ready for a vote either today or tomorrow and that slight changes in both pieces of legislation would not bring serious objection to passage from either body.

The houses, however, were at a wide variance on the main proposal to provide revenue for old age pensions.

Speaker Coke Stevenson yesterday indicated he might not allow consideration of a proposal to "deliberate" the pension law which was inserted into the House omnibus bill now receiving the attention of the Senate. Sponsors claim the bill will yield \$8,000,000 annually.

The Senate also added a amendment imposing additional revenues on insurance companies and proposed tax rates 10 cents on each \$100 above \$200.

Mrs. Harry E. Hoare and son, Robert, and Mrs. E. W. Voss were Amarillo visitors today.

E. Z. Dennard was a Lubbock visitor over the week-end.

Hartman, Green Making Good on Schreiner Team

(Special to the Pampa News)

KERRVILLE, Tex., Oct. 20—Two Pampa boys, Stokes Green and Fred "Moose" Hartman, are among the freshman luminaries on Coach H. C. "Bully" Giltrap's 1936 edition of the Schreiner Institute Mountaineers.

Hartman, a 210-pound lineman, is probably the most outstanding of all freshmen prospects reporting for the current season. He has been a starter in all games to date and has the makings of a potential All-Conference man.

Green, who also counts on his size to carry him through, is usually one of the first men to get into the line-up after the first-stringers have played out, and usually gives a good account of himself.

To date, the Mountaineers have played three games, winning two and losing one. In the season opener the Mountaineers defeated the N. T. A. C. 6 to 0, and in the second took San Marcos Teachers for a 26 to 0 cleaning. Last week, the Texas A. & I. Javelins eked out a 19 to 7 victory. The game was much closer than the score indicates.

The Cadets, who last year won the state championship of the Junior College Conference, are out to repeat. Their first conference game is on Armistice Day with Victoria Junior College. For their second league game, they tangle with the Lamar Cardinals, which will complete their district schedule. Should they win both games, they will then meet the winners of the other state junior college division in the championship game.

Carl Brashears, who underwent an emergency operation last night at Worley hospital, was holding his own today and physicians gave a slight chance to recover. The former Pampa trucking contractor and service station operator, was stricken at his ranch home between Pampa and Miami Sunday night. He was brought to Pampa yesterday morning.

TALKING MOVIE SHOWN AT SAFETY MEETING

"Death takes no holiday," was the theme of a talking picture shown at a Texas company safety meeting in city auditorium last night when 350 employees and their families from the Panhandle field were present. W. I. Gilbert, chairman of the safety committee, presided.

The picture was presented by O. E. Foster of Waco, chief engineer of the Maryland Casualty company. In a brief talk following presentation of the picture, Mr. Foster discussed safety on the streets and highways. He urged drivers to always have their cars under control even though they have to drive at reduced speed.

George Christopher, member of the Pampa fire department, spoke on safety in the home. He described many common hazards which are overlooked and urged regular inspection of homes and property for fire hazards.

The president's award, the 1935 property of the West Texas division of which Pampa is a part, was on display last night. Dan Gribbon, Panhandle superintendent, congratulated the employees on their excellent record in helping win the award for last year.

Entertainment was by the sons of Mr. and Mrs. William Simmons and Mr. and Mrs. W. W. Bratcher who played stringed instruments.

El Escorial, 24 miles northwest of the capital, and Navalcarnero, on the Maqueda-Madrid road to the southeast of El Escorial, stood as the last two bulwarks in the government defense on the western front. Navalcarnero is slightly less than 20 miles from Madrid.

Priceless art treasures in El Escorial, Spain's "Pantheon," faced a doubtful fate.

In the south, the fascists, again within 20 miles of Madrid, mopped up around Illescas and laid plans for new attacks on Torrejon de le Calzada. In the north, the insurgents solidified their occupation of Oriedo. Southeast of Illescas, 3,000 Moors formed a shock troop battalion for attack on Aranjuez, vital rail center on the Madrid-Valencia road.

Spain's president, Manuel Azana, rushed to loyal, autonomous Barcelona with thirty ministers from his besieged capital. Officials said the trip was the first of a "series of tours" to rally government-dominated territory. Back in Madrid, the high command warned the situation was "grave," and newspapers blazoned: "Danger at the city gates will mean the shooting of 100,000 workers!"
