Pampa, Gray County, Texas, Friday, May 28, 1926

\$2.00 PER YEAR

Empire Well Shot Monday Night; Is Now Spraying Oil

TWO MEN KILLED IN PREMATURE EXPLOSION SAT.

700 Quarts Used in Effort to Bring Well in.

Heltholt No. 1 three and one-half miles west of Pampa was shot Monday night of this week at 8:50, a 700 quart shot of nitroglycerine being exploded in the hole.

The well is now spraying oil and gas at the rate of 30,000,000 cubic feet per day. The first oil showing was struck at a depth of 3240 and the well is standing in about 200 feet of oil, officials state. The depth of casing in 3268 feet.

The well is being drilled by the Empire Oil and Gas Company and officials state that it is expected to make a good well. The well is on the Henry Heltholt property. Mr. Heltholt is now living in Billings, Oklahoma.

The escaping gas can be heard for several hundred yards, and the danger of the well being ignited is being closely guarded against.

Paul Wright and Wayne Williams are dead and W. V. Cheatwood is in a serious condition at a local hospital as a result of the premature explosion of a time bomb that was to have been used in shooting the Empire well west of Pampa last Saturday morning.

Exactly what caused the explosion may never be known. The well had been planted with 500 quarts of nitroglycerine and the bomb had been connected and made ready to lower into the hole when the explosion occurred.

Mr. Wright, shooter for the Independent Torpedo Company of Panhandle, was killed instantly, while Wayne Williams of Eldorado, Kansas, died an hour later. Cheatwood is reported as being improved very much today.

This is the first accident of this sort that has occurred in the Panhandle field.

Paul Wright was buried in Amarillo Tuesday. The body of Wayne Williams was sent to El Dorado, Kansas Saturday for burial.

PROMINENT YOUNG COUPLE MARRY

Miss Vera LeRick and Frank Shriver were quietly married Tuesday evening in Amarillo. They left there Wednesday morning for Tulsa, Oklahoma, where they will spend a week after which they will return to Pampa. They will make their home in the new Carson duplex in the north part of town, which they have completely furnished and will be ready to move into immediately upon their return.

Mrs. Shriver is the daughter of Mr. and Mrs. Lee Ledrick of this city and is well known here. She attended Clarendon College one year after graduating from Pampa High School. Mr. Shriver is tool pusher in the Wilcox field. He has been in Pampa about two years and numbers his friends by his acquaintances.

The news joins the many friends of this happy young couple in wishing for them the greatest happiness.

W. DUNCAN GETS RESULTS FROM NEWS WANT AD

Wade Duncan advertised in the Classified section of the News a canny case for sale and states that he sold the case after the ad appeared the first time.

Many others are getting similar quick results from News Want Ads every week.

News Want Ads cost very little per insertion.

IN WEST TEXAS

West Texas Chamber of Commerce Miami—The White Lumber Company of Miami has shipped out four cars of sand to White Deer for use in the construction of the several large buildings now being constructed there. The Company has also been sending truck loads of lumber to Pampa.

Plainview—A group of fifty students of Texas Technological College at Lubbock including an orchestra and male quartette entertained Plainview High School Students with a short program. The Tech students are touring this part of the country.

San Saba—The membership committee of the local chamber of commerce reported excellent results during the past week, having secured a 15 per cent increase of new members to the organization. Many activities are being planned for San Saba by the Chamber of Commerce.

Leuders—The Leuders Baptist Encampment Association expect to spend between \$3,000 and \$4,000 on its grounds on the Clear Fork of the Brazos before the encampment opens in July. Cottages for speakers, teaching pavilions and a bridge across the Clear Fork are some of the planned improvements. The encampment will be held July 13 to 22 inclusive.

Harlingen—Among the entertainment features announced for the state firemen's convention to be held here June 8 to 11, are an old fashioned barbecue and automobile trips thru the Lower Rio Grande Valley of Texas. \$7,000 necessary for the entertainment of these firemen has been raised.

Hereford—Building in Hereford is now on the upward trend. The Kemp Lumber Company has under construction a new lumber yard also work is moving rapidly on the erection of the office building for the company.

Amarillo—W. W. Flenniken has been named general chairman of the committee in charge of the staging of the West Texas Chamber of Commerce in Amarillo, June 21-23-25. The housing committee is busy preparing to care for 50,000 visitors. Large sums of money are being collected for the entertainment of the convention crowd.

Merkel—All material and supplies necessary to erect a derrick and begin drilling an oil test have been placed near Merkel by the Phillips Petroleum Company. More than 5,000 acres of land have been leased by this company.

Midland—According to R. A. Baker, district Road Engineer, the new state highway from Midland to Sterling City via Garden City will be officially designated the first of July and maintenance will begin immediately.

Plainview—The Plainview band is working hard and giving concerts to get in shape for the 8th Annual Convention of the West Texas Chamber of Commerce, Amarillo, June 21-23-25.

Comanche—The contract for the sedimentation plant for the Comanche water system was let by the city council recently. The building of the sedimentation plant is the last unit of the work to be done to get the water from the reservoir ready for use by the city.

Slaton—A House Numbering and street marking plan worked out by the Slaton Chamber of Commerce, is being carried forward to a rapid conclusion. The street markers will be erected at every main corner in the city.

Prosperity Items

A. Scheider and H. K. Brown were business visitors in Claude last week. Mr. Brown attended commissioners court.

Wheat is looking better this year than it has for the past six years, according to farmers here. H. J. Lippold and J. R. Henry have some of the best wheat east of town. Mr. Lippold states that a part of his wheat will make thirty bushels to the acre if it is harvested properly.

TIRE THIEVES ACTIVE HERE THIS WEEK

Weatherford Crawford Motor Company report the loss of two tires and a wheel to a Franklin automobile this week. The tires were taken Monday night off a Chevrolet touring car and a Franklin sedan parked in the east part of Pampa.

Sheriff Graves states that other thefts of tires have been reported to him this week, and recommends that automobile owners take more precautions in protecting their property. The sheriff suggested that it would take a special officer with a car in the residential districts to prevent the recurrence of such thefts.

HEREFORD BEATS OILERS EASILY

Pampa met Hereford her last Sunday and went down in defeat, 5-1. Herrington knocked a homer in the fifth with the bases empty for Pampa's only marker.

Sam Douglas got three one base hits, Wilson a two bagger Eoff a hit for the six hits Pampa received. Hereford got one home run in the first and four hits during the remainder of the game.

The Pampa nine looked like a Sunday School class that had been on a picnic the day before. Swanner walked half way to first to get to strike at slow curve balls; after L. Douglas walked and Sam Douglas got a single, sending L. Douglas to second, William took three balls in a row and then decided he'd have to hit the ball or walk, making a nice little double play for Hereford.

The resemblance between the Pampa baseball nine and a bunch of goats was the only thing brought out in last Sunday's exhibition, according to Manager John Hash. Hash states that the reason for the exceptionally poor playing displayed Sunday was a lack of practice, and that hereafter regular workouts would be held every afternoon beginning at 5 o'clock.

Pampa meets Spearman here this Sunday.

VERE FINCH OF ENGLAND VISITS OLD FRIENDS HERE

Vere Finch of England visited M. K. Brown and C. P. Buckler and other friends last week. Mr. Finch is known to many of the old timers here having ranched on land now owned by the Joyce Cattle Company. Mr. Finch was here on a visit two years ago and his surprise at the development in the oil fields was marked. His remarks upon his return from the fields was to the effect that the development was "boonless". He is very much interested in the development in the Panhandle and states that he would like to live here.

CLIFFORD BURLESON PAINFULLY INJURED

Clifford Burleson was painfully injured Sunday afternoon at the Empire well three miles west of Pampa, when his right hand became entangled in the machinery, cutting three fingers off and crushing his left arm. It was thought at first that it would be necessary to amputate the left arm, but that will not be necessary provided no infections set up. He was rushed to the local hospital immediately following the accident.

People are beginning to wonder if there is a jinx in connection with this well, this being the second serious accident, the first happening Saturday, when two were killed and one seriously injured.

144 NEW LOCK BOXES FOR POST OFFICE

Postmaster William Crawford states that the post office department has notified him of the shipment of 144 new boxes for the Pampa post office department has notified him of the shipment of 144 new boxes for the Pampa postoffice.

The new boxes will be installed in the near future and the entire office rearranged in order to make room for the addition.

The postoffice here has been computered for several months on account of lack of boxes and assistants for Postmaster Crawford.

PAMPA GETS FIRST AIR MAIL DELIVERY

Pampa received her first air mail delivered on May 22. A certain brand of cigarettes were asked for at the Fatheree Drug Store, but was not carried in stock. It was found that the cigarettes could be obtained in New York and an order was mailed for them.

The packet left New York at 8 a. m. May 20 and arrived in Wichita Falls on the 22nd of May, maintaining a schedule of approximately 150 miles per hour.

Postage on air mail is ten cents per ounce above the regular postage rate.

FATS TO BATTLE LEANS HERE FRI.

The rats and leans of Pampa and surrounding country were scheduled to tangle bats on the local diamond Friday afternoon of this week, but it seems Juppe has other plans for the boys.

Mayor Reid expressed the intention of proclaiming Friday afternoon a half holiday for the occasion and the proclamation will be issued Friday morning.

Sheriff Graves, in spite of much opposition, has expressed the intention of calling the game. Otto Studer and Chas. Cook will be the main counsel for the fats and leans respectively in all disputes that may arise. It is understood that other arrangements have been made by both sides to settle all arguments, but the News has sworn not to divulge the plans of one side and can't find out those of the other.

The starting batteries will be:

Fats—
Toad Adair, pitcher
Dick Culpepper, Catcher
Alex Schneider, Pig tail
V. E. Fatheree and W. W. Henry water boys.

Leans—
Toad Arrendell, Pitcher
Ray Wilson, Catcher
G. C. Malone, Pig tail
C. T. Hunkapillar, Water boy.

But more than likely the Fats will pitch Pat Murfee, while it is hinted that the leans are secretly working out DeLea Vickers. B. E. Finley will probably catch Pat, and Sam Crawford will catch DeLea.

Others who will appear for the fats will be: John Haggard, Tom Lane, Ernest Reynolds, Casin Spurlock, Bill Graham, Jack Elliott, Tom Hendricks, R. S. Hendricks, Harry Sullins, R. C. Campbell, Dave Osborne, Pete Reid, A. B. Kenney, C. C. Dodd and a dozen or so more.

In the ranks of the leans will be found W. H. Doyle, Joe Smith, L. C. McMurry, W. P. Davis, I. S. Jameson, Scott Vincent, Bratton, Boyd, Neal McCullough, Porter Malone, Frank Davis, John Studer, Emmett Dorman, Donnie Rose, M. K. Brown, J. W. Keithley, P. O. Sanders, Wade Durcan, and a few barbers.

There is some talk of the winners in this tilt meeting the Oilers, giving the Oilers, of course, a ton run lead to start on.

THIRD CITY WATER WELL WILL SOON BE COMPLETED

City Engineer A. H. Doucette announces that he third water well for the city is being completed this week, but that he pump bought by the city has not yet arrived. The last well is 349 feet deep.

It is thought the pump will be installed and working within the next two weeks. It is thought the new well will make at least 80 gallons per minute, which will give the three wells a regular capacity of 240 gallons per minute. The new pump has a capacity through the present six inch line of 325 gallons per minute.

Mr. Doucette states that it is expected the daily consumption this summer will reach as high as 125,000 gallons per day, as compared with 75,000 gallons per day last summer. The ice plant, and other industrial uses as well as the increased population account for this increase.

The city now has storage tanks holding 175,000 gallons of water, and it is thought that with the new pump the city will not be put to any inconvenience this summer from a water shortage.

Two Inch Rain Falls Over Gray Co. Wednesday

PROSPERITY ITEMS

O. A. Hund is driving a new sport model Chrysler Roadster.

C. T. Hunkapillar now owns a new Hudson Brougham.

Grundy Morison recently bought a new sport model Chrysler roadster.

V. E. Fatheree is driving a new Studebaker sedan.

Carson Loftus is driving a new Studebaker Sedan.

H. W. Jones has a new Chrysler Sedan.

Mr. and Mrs. H. A. Gilliland visited in Amarillo Tuesday of this week.

A. Holmes is driving a new Hudson Brougham.

G. H. Saunders purchased a new Hudson Brougham this week.

Construction work was started Wednesday on the Davis building across the street from the News building on Foster Avenue.

P. O. Sanders was seen on the streets this week with a haircut, shave, shine, new shoes, and a new suit, and it is rumored that he is going to buy a new car. He's in the abstract business.

AUTO REGISTRATIONS SHOW BIG INCREASE FOR YEAR 1926

Deputy Sheriff Ray Wilson reports 1199 automobile licences issued during the first five months of 1926 as compared with only 1000 for the entire year 1925 and 700 during 1924.

It is possible that the total for this year will exceed 1500 in Gray County, which in a measure indicates the growth of the county's population during the past few months, but is not a true guide as a large number of people have come in since the first of the year with automobiles registered elsewhere.

HOSPITAL NOTES

Mr. W. V. Cheatwood—who was seriously injured in the explosion at the Empire well last Saturday is much improved.

Mr. Clifford Burleson, whose arm was crushed and three fingers cut off in an accident at the Empire well Sunday is getting along nicely. It was feared at first that the arm would have to be amputated, but there is a good chance now to save it.

Mrs. J. P. Devore was operated on at the hospital Wednesday morning. She is resting fairly well.

Mrs. Hendricks had her tonsils removed Thursday, May 20.

Mrs. W. L. Davis had her tonsils removed Friday, May 21st.

Miss Florence Jones of Miami had her tonsils removed Monday of this week.

Henry Lewis, who was operated on last week for appendicitis was removed to his home Tuesday of this week.

STORK SPECIAL

E. R. Nunnally, Jr., arrived at the home of his parents, Mr. and Mrs. E. R. Nunnally, Sr., in Pampa Wednesday morning of this week. The young man weighs eight pounds. Mr. Nunnally is manager of the Tulsa Rig and Reel Co., in the South part of Pampa. Mother and son are getting along fine.

Mr. and Mrs. Emory Noblitt announce the arrival of a boy, born Tuesday, May 25th.

Mr. and Mrs. G. O. Carrouth are the proud parents of a baby girl born Monday, May 24th.

RAINFALL HALTS BUILDING, BUT HELPS CROPS

Wheat is Best in Many Years, Farmers Say

Gray county and surrounding territory received one of the heaviest rains of the spring and late winter Wednesday night when more than two inches of rainfall was recorded.

Farmers are considering plans for planting rice and sugar cane if the deluges of the past two months continue. The heaviest rains of many years have fallen during the last two months, and have provided an abundant season for wheat and row crops.

Reports from various sections of Gray county show that the rain of Wednesday night averaged about two and one half inches over the entire county.

Wheat is looking better than it has since 1919 when a bumper crop was made. A number of farmers are expecting an average yield of thirty bushels per acre barring ill luck in harvesting.

The frequent rains have retarded development in all lines since April 1, but more especial has it interfered in the construction of business houses and homes.

OIL FIELD NOTES

The Texas well, Cooper No. 1, Carson County, located 15 miles west and 7 miles north of here, has been abandoned. The piping and rig have already been moved.

The Brown well west of Pampa and the Empire well are both now connected with the Kingsmill storage tanks by a four inch pipe. The Empire well was connected this week.

The Clark Harbin and Baldrige well on the Merten land four miles south of Pampa has a good quantity of gas and a fair oil showing according to officials of the company, who state that the well is drilling around 2050 feet this week.

The surface elevation of this well is 2222 feet above sea level.

Work has already started on a well on the C. W. Bradford property 8 miles south of Pampa, the contract for which was made several days ago between C. W. Bradford and Blackman and McGee of Amarillo.

A water well is being drilled and other arrangements made to put the test well down as rapidly as possible.

Summers No. 2 southeast of here being put down by the Texas Company is down to 2820 feet with a good oil showing according to information received at a late hour Thursday. A flow of 30,000,000 cubic feet of gas was struck at a depth of about 2600 feet, but has been shut off and drilling continued in an effort to get an oil well.

The well is now spraying oil and it is expected that it will come in a gusher at any time.

Brown No. 1, Texas

Brown No. 1, put down by the Texas Company three miles west of Pampa is being put on the pump this week. The sucker rod and pipe was put in Wednesday, but the pump failed to operate and was drawn out. It is expected that the pump will be put into operation the latter part of this week.

This well was shot April 25 and flowed for several hours over the derrick Monday morning. The oil has stood several hundred feet deep in the hole, but the gas pressure is so low that the well flows only intermittently. It is expected that this will be one of the best wells in this section.

If all the candidates for governor of the State of Texas have all the qualifications claimed by them, Salt Creek will be a political paradise one of these days.

In this issue of the News will be found a column of clippings from papers over the State pertaining to the present political situation. The News is strictly a non-political newspaper, and believes it can better serve Pampa and Gray county without imposing the personal view of an individual upon its readers. For this reason the editorial columns of the News will continue strictly non-political.

For the benefit of its readers, the News is publishing, after a careful survey, the status of the various candidates in this vicinity; D. Velopment, first; Pete Rollum, Second; Forty Bushel Wheat, Third; and Dan, Lynch, and Jim tied for fourth place.

TEXAS PRESS COMMENT

Governor Ferguson has been informed that here are still 3,569 prisoners in the Texas penitentiary system, which shows that they are coming in faster than she can pardon them.—Lufkin News.

Mr. Ferguson proved himself an adept at juggling figures when he attempted to "explain" the American Road Company contracts which were cancelled as a result of the Attorney General's suit. But the product of Mr. Ferguson's mathematical labors in that instance does not compare with his suggestion that bonds be issued against the permanent fund of the University.—Brownwood Bulletin.

"If the Ferguson administration is subject to criticism, who of the present candidates for governor was it that developed the facts and gave you the information?"—Fredericksburg Standard.

It is not a fact that Jim has bolted his party every time in his political life. He was not on the ticket of did not get what he wanted? Let's run back over the record—1 mean Jim's record.—Sabinal Sentinel.

"Jim" ought to run for the legislature and put his proposed legislative reforms into effect, and then run for governor. He could do the people of Texas a lot more good in the Legislature and would stand a much better chance of being elected.—Coolidge Herald.

Mrs. Ferguson is inclined to pat den everybody except the fellow that against her.—Henderson News.

We may be mistaken, of course, but we rather think that the Governor would rather have an adverse ruling from the Attorney General on the proposed bond issue move than a favorable one, and we think she will

get it.—Hillsboro Mirror.

"Jim" might want the people to fight for the support of the government and on that account the urge will not come to him to run.—Throckmorton Tribune.

Jim Ferguson is consistent at least in naming Mrs. Edith Wilkins of Dallas, as his second choice for governor.—Throckmorton Tribune.

The people need have no fear that Mr. Moody will forget that they are paying him to act as their attorney general. Whatever time he may find necessary to laying his case before the voters and to meeting the attacks of his opponents will not be allowed to encroach upon his official duty. Dan Moody's public career has identified him as that kind of man.—La Grange Journal.

If Ma Ferguson is defeated for Governor it will be the first time a governor has been refused a second term, but she proclaimed that she only wanted one term to vindicate Jim, and it looks as if the public might be trying to take her at her word.—Glimmer Mirror.

Visibly Mrs. Ferguson sympathized with the poor unfortunate who had been locked up in a burglar proof prison merely because they had murdered somebody, stolen somebody's property or peddled poison in the guise of liquor. Poor Prisoners! Poor Mrs. Ferguson! Poor Texas!—Brownwood Bulletin.

Just a few weeks ago a bank was robbed and at least one of the men identified as participants in the robbery was an ex-convict who had been pardoned a short time before by Governor Ferguson. Not long ago a hickacker shot while committing a crime, was found to be paroled convict. Week after week the news indicates that indiscriminate pardoning is promoting crime in Texas.—San Benito Light.

It's going to make political history—the battle between the seasoned veteran and the gallant young attorney general. And our guess is that the occupants of the stage will be those two and no others.—Ablene Reporter.

CONSIDER RUSSIA

We must all agree that when it comes to the question of occupation or profession, the character of either should be far greater importance than considerations of priority.

A doctor, an architect and a bolshevik were discussing the priority

SPORTS

Followers of the wrestling game of this city will be given a real treat Friday night, May 28th, when the boys who have been matched by Dow King go into action. King who has been a resident of Panhandle for seven years, has quite a number of friends here. He is now in the field to promote first class wrestling bouts, and will try to give the fans the money's worth at the matches planned for this city.

The first show will bring together a quartette of men well known in different parts of the country. Ervin Henneshot better known as the "Flying Dutchman" will grapple with Carl Ince of Amarillo to a finish. Both men have appeared in numerous combats in Amarillo and other cities. Both men claim the welterweight championship of the Panhandle and it is said that Friday night's engagement will settle the argument.

The second star bout will bring together Bear Cat Nelson of St. Paul Minn., 154 pound champion of the northwest, vs Billy Clark of Borger, formerly welterweight champion of East Texas.

The show will probably open with a battle-royal.

Arrangements have been made with the management of the new skating rink to conduct wrestling there during the entire summer. The rink is located one and a half blocks from the main square of Pampa. Tickets for the show can be obtained at the Pampa Drug Store.

"John, here is that new 'Household Guide' for painting and decorating that we read about in the Saturday Evening Post. Let's see what it tells about decorating the bath room."

If you have read about it you know what this score has done for you by securing the new Sherwin-Williams "Household Guide." We have brought to you the means for selecting the exact product that is expressly made for the surface or article you want to paint, varnish, stain or enamel. Reproduced is a cross section on walls—other surfaces and articles are similarly treated.

Panhandle Lumber Co.
PAMPA, TEXAS

No one paint, varnish, stain or enamel can give equally good protection or beauty to all surfaces or articles. Each surface, woodwork or masonry, has characteristics peculiar to itself that demand a special kind of paint, varnish, stain or enamel.

PANHANDLE OIL FIELD BECOMES LARGEST IN TEXAS; PRODUCTION INCREASED WITH NEW GUSHERS

The Panhandle oil field now appears to have the largest production of any single field in the State, according to reports received by Judge H. E. Bell, chief supervisor of the oil and gas division of the State Railroad Commission at Austin.

With two 10,000 barrel wells reported since May 14, when the production was 25,000 barrels for the field, and allowing for decreases, the field is producing approximately 40,000 barrels, Judge Bell said.

Reagan County has been the largest producing field for several months, with an average of about 30,000 barrels per day and production there is steadily increasing.

Judge Bell said that his division is confronted with a serious problem in conserving the gas from the Panhandle field, as five or six gas sands are struck before the oil sands are reached and millions of cubic feet of gas are wasted during the drilling operation.

Because of the formation which crowds into the holes, making them lose their drills, and because of the numerous caves encountered, use of rotary rigs is not feasible in the field and the gas can not be shut off when the standard rigs are used. However, after the wells are brought in as oil producers, the gas is shut off, Judge Bell explained.

Only one gas line taps the vast gas resources of Hutchinson and Carson Counties, Judge Bell said. He predicted that hundreds of miles of pipe line will be laid into the field in order that this gas can be used. He said that it was reported a concern has planned to lay a pipe line from Denver, Colo., into the Texas field.

A STRENOUS CAMPAIGN

Plainview Herald: Now that the candidates for public office are making a vigorous campaign and will be doing so until the primary election in July the experience of the Arkansas candidate for sheriff which has been going the rounds of the press for the past several years is in order. It must come in season just as the "swat the fly" copy in the spring, "shop early" at Christmas "pay your poll tax, only—days left," etc. They are inevitable and their omission a gross oversight.

The story has gathered various and sundry additions in its march down the corridors of time, the latest version following:

"Lost four months and twenty days canvassing, lost 1,360 hours of sleep thinking about the election, lost 40 acres of corn and a whole lot of sweet potatoes, lost two front teeth and a lot of hair in a personal encounter with an opponent; donated one beef, four shoats and five sheep to barbecues; gave away two pair of suspenders, five calico dresses, five dolls, and 13 baby rattles, kissed 126 babies, kindled 14 kitchen fires, put up eight stoves, cut 14 cords of wood; carried 24 buckets of water, gathered 7 wagon loads of corn, pulled 475 bundles of fodder, walked 4,060 miles, shook hands 9,080 times, told 10,001 lies and talked enough to make 9,487,298 volumes, attended 26 revival services, was baptized four times by immersion and twice some other ways, contributed \$50 to foreign missions, made love to nine grass widows and got dog bit 39 times and then got defeated."

POULTRY BUSINESS GROWING

Wellington Leader: Working quietly but steadily economic forces are developing a new source of revenue in Collingsworth County. A few years ago the poultry business of Collingsworth County was con-

sidered only a side line on the farm, and that was all it could be called. But it is growing now. This year thousands of dollars will be made by the farmers and housewives of this community from poultry. Next year the total money received from poultry will be much greater. Some day the amount of money received from poultry in Collingsworth County will be second only to cotton and there is a chance that it might eventually rival the king as a revenue producer.

Poultry growers have an advantage over cotton producers. They can market some of their produce at any time of the year and thereby secure money when it is tight while the cotton farmer receives no money until the fall. If too much poultry is grown for national consumption, a probability that is much less likely to occur than over-production of cotton, the poultry grower can use considerable amount of his produce for home consumption. These advantages in connection with the low cost of growing chickens, turkey, etc., is causing this business to assume greater importance in this county.

NECESSARY

Husband and wife have been having a heated argument over some household matter.

Mr. said to Mrs. "Don't forget I'm head of the house, my dear."

Mrs. sweetly, to Mr. "Yes, dear, but I'm the neck, and without the neck the head cannot turn around."

NICE PET

FOR SALE—Milk Goat, Saanan reed. Gentle. Fond of children, bedroom slippers, linen napkins and stove polish. Price sixty-five dollars to good home. Telephone 236J. Box 665, Bozeman—Ad in the Bozeman (Mont.) Chronicle.

WITHIN BOUNDS

While making a visit to New York a man was knocked down by a motor car. A crowd instantly surrounded him with condolence and questions. "Are you hurt, my friend?" kindly asked a man, who was the first among the rescuers as he helped the stranger to his feet and brushed the mud and dust from his clothes.

"Well, came the cautious reply of one evidently given to brevity of speech, "it ain't done me no good."

"Z" ENGINES are Quality-Built Through and Through

WHEN we say that the "Z" Engine is one of the finest built small stationary engines on the market, we are basing our statement on actual facts. If we could take you through the huge modern plant and let you see for yourself the extremely careful workmanship that is put into these engines you would realize that every part is built so carefully on the parts in your automobile. No slipshod methods are permitted. Working parts must fit to within a fraction of the thickness of a hair. Has fewer parts subject to wear ... and

those parts are carefully made ... are drop forged and especially heat treated.

All this means longer life, more power and freedom from trouble, as over 500,000 users will gladly tell you. Every "Z" engine delivers more power than its rating calls for—and it will do it year in and year-out without "time off." Your money goes further when invested in a "Z."

Let us show you this engine. Compare it part for part and you will note at once its greatly superior quality. 1 1/2 to 20 h. p.

SENIORS ENTERTAINED BY FORMER CLASSMATE

The members of the 1926 graduating class were royally entertained last week by a former class-mate who two years ago quit her pursuit of higher education for the more interesting game of matrimony. Mrs. Delbert Hughes of Spearman, the former class-mate, was the hostess at the home of her mother, Mrs. Shackleton. She was assisted by Miss Naida Talley. Dancing was enjoyed throughout the evening, during which time punch was served to the guests. Miss Elsie Lard furnished music for the dances.

Those who enjoyed the evening were Misses Zelda Patton, Lula Peters, Bonnie Carr, Vera Kretzmler, Susie Mae Meador, Fannie Faye Wright, Gracie Russell, and Carrie Watson and Messrs. Jack Ellis, Jack Hank, Wade Green, Arthur Rankins, Clarence Cobb, Alfred Gilliland, and Jeff Lenter.

MISSIONARY SOCIETY

The Methodist Missionary Society met Wednesday afternoon at the home of Mrs. Jackson. There were ten members and four visitors present. The afternoon was spent in a social meeting, there being no business to transact. Refreshments of ice cream and cake were served by the hostess. The next meeting will be a Bible study at the church. All members are urged to be present.

HORN-DICKENS MARRIAGE ANNOUNCED

Announcement was made Sunday of the marriage of Miss Anna Horn of White Deer and Henry T. Dickens, of this city. The marriage took place April 8th, but was not announced until the above mentioned date.

The bride is the charming daughter of Mr. and Mrs. Horn of White Deer. She is well known in this vicinity, having frequently visited here with her sister, Mrs. Walter Coffee.

Mr. Dickens is employed in the Wilcox field and has many friends in and around Pampa. Mr. and Mrs. Dickens will make their home in Pampa.

L. T. D. CLUB ENTERTAIN HUSBANDS

Wednesday evening, May 19th, at the home of Mrs. M. Hopkins, Mesdames B. A. Lippold and Ewing Williams delightfully entertained the membership of the L. T. D. Club, their husbands and guests. The enjoyable game of "42" was enthusiastically played throughout the evening. Ladies' high score being won by Mrs. J. Wade Duncan and the men's by Mr. Frank Catterton.

At a late hour a delicious salad course and ice cream and cake were served the following: Messrs and Mesdames John Williams, J. Wade

Duncan, Frank Catterton, P. B. Carlson, W. E. Coffee, S. C. Pearson, Raymond Harrah, Carson Loftus, Roger McConnell, Floyd McConnell and H. T. Darby.

Miss Mary Siltan, County Home Demonstration Agent, Childress County, Miss Leah, Amend, County Home Demonstration Agent of Armstrong County, Miss Gille Terry County Home Demonstration Agent, Wheeler County, Mr. Brown, County Agent Wheeler, County, and Miss Bess Edwards, assistant State Home Demonstration Agent, attended the Rally Day of Women's Clubs of Gray County, held at Lefors last Saturday.

The El Progreso Study Club met at the home of Mrs. Silas Faulkner Tuesday afternoon at 3 o'clock. The meeting was called to order by the president, Mrs. V. E. Fatheree. Roll call was responded to by nine members with an interesting current event. After a short business discussion the meeting was turned over to Mrs. Dave Pope as leader for the afternoon. The Texas Viewpoint, or articles taken from the Texas Viewpoint being the lesson for the afternoon. Mrs. Geo. Walstad as one of the assistants gave an interesting

article on the Southwestern Ozark Chautauqua of Sulphur Spring, Arkansas. This is the only Chautauqua in existence that is originated and controlled by women. Mrs. Chas. C. Cook, as the other assistant gave "If you ask me", by Robert Guillen from the American Magazine. Mr. Guillen implores the American people to not try to make your child in your own image. Mrs. Pope concluded the lesson with an article on Mrs. J. U. Fields, of Hoskell, Texas, the new Federation President. Mrs. Fields is at the head of fifty thousand club women.

At the conclusion of the program refreshments of ice cream and cake was served the following: Mesdames, Dave Pope, Geo. Walstad, James Todd Jr., V. E. Fatheree, Chas. C. Cook, Carson Loftus, Lee Ledrick, R. B. Thompson and the hostess, Mrs. Silas Faulkner.

Air pressure and suction

...the one right method of washing clothes

The only washing method that gets everything clean and handles fine dainty pieces more gently than human hands

IT isn't necessary to rub clothes to get them clean. You can get the dirt out by rubbing, of course, but you always grind away some of the fabric along with the dirt.

The modern scientific way to clean clothes is to use air pressure and suction. This method is employed in the Easy Washer's famous Vacuum Cup Principle. The Easy removes all the dirt from the very heaviest, grimeiest things such as overalls and bath mats. Yet at the same time it cleans the finest, daintiest undergarments more gently than human hands.

REMOVING THE DIRT—GENTLY

Three rotary vacuum cups move up and down inside the Easy's solid copper tub. As they go down, the air pressure flushes soap, air and water through the clothes. As the cups go up the suction draws the soap, air and water back again. This happens sixty times a minute, taking out all the dirt without the slightest harm to the clothes.

BUILT TO LAST FOR YEARS

No pains or labor are spared to make the EASY a smooth-running, silent, efficient machine that will last for years. In both workmanship and material it is patterned after the finest automobiles on the market.

It is easy to keep clean and sanitary (an occasional swish of a cloth takes care of that) and simple to operate.

All you have to do is press a button and move a lever and both the washing and wringing are done for you.

THE CONVENIENT GAS HEATER

Underneath the Easy's tub is a special gas heater. This unique feature renders invaluable service in keeping the water hot all through the washing. Even with an extra large family, you can do a wash in no time, for the Easy washes ten single sheets at one time. And while you wash one batch, you can wring, rinse and blue another. The tub of the Easy, by the way, has a big, round, full-size opening for your convenience when handling the clothes.

FREE DEMONSTRATION IN YOUR HOME

We want you to get better acquainted with the Easy and know what it will do for you. For this reason we will arrange to do your week's washing free, in your own home. This won't cost you a cent. If you wish to buy the Easy you can leave a small deposit and pay the balance monthly. But whether you buy or not, we will gladly send an Easy and a demonstrator to your home on your regular washday. Just phone the nearest Easy dealer, or write us—today.

GROWING OLD GRACEFULLY

To grow old gracefully should be the ambition of everyone, but not all are able to achieve this very desirable goal in life. Worn out by the almost constant strain that frail human beings, many of us are unable to see much except the dark side of the picture that old age provides.

In every community many can be found who go down the slope of life happy and contented, whereas others are in frequent friction with their neighbors and see no good in anything.

Joseph G. Cannon, former speaker of the house of representatives, who recently celebrated his ninety-third birthday, and Chauncey Depew, who lately passed his ninety-second milestone, are outstanding examples of men who have grown old gracefully.

Cannon voluntarily retired from public life in 1923 after a hectic career of fifty years, content to bask in the glories of the past and refusing to be perturbed by any of the problems that are facing the new generation.

Depew, likewise retired, is an optimist of parts and while in the last decade of a century on earth, possesses an outlook on life that would do credit to the average college graduate.

The world would be a vastly improved place if there were more Cannons and more Depews—more men and women satisfied with their lot after they have had their fling in life. Living on the shady side is much more pleasant when there comes a realization that new generations bring new conditions and they can not be viewed in the light of past experience.

THE LIGHT WENT OUT.

Columbia Missourian: The newspaper is often criticised by those who receive their copies with un-falling regularity, and who have had no reason to consider the part journalism plays to human affairs. It is interesting to note the reaction of the British people to the suspension of the press during the strike in England.

"Henceforth, forever, the British people will appreciate newspapers," cables a correspondent to the Detroit News. "The appalling silence that falls when the press ceases cannot be imagined by one who has not experienced it."

"All Britain is like a group of children left alone in the dark. People stop each other in the streets and question about rumors. Here and there a bulletin board is posted and immediately is surrounded by an eager crowd."

Realizing the imperative need for accurate distribution of news, the British government began publication of an official Gazette. This paper in its first edition said editorially:

"Nearly all the newspapers have been silenced by violent concerted

How's Your Vent?

A YOUNG woman was singing. Her voice sounded flat and dead. A friend said, "The trouble is the oboe." The young woman gasped. "Law, I didn't know I had such a thing!"

Maybe you don't know you have a vent—in your plumbing system? But you have. And unless your vents are good, your plumbing is bad.

All plumbing fixtures must be vented. A vent is an outlet—an outlet for foul odors and disease-breeding waste.

If you have old plumbing—old fixtures—chances are your vents are old and bad and out-of-date. Get rid of the old vents. Have new ones installed.

The better your vents, the better your health. The best is always the cheapest.

TANNER PLUMBING CO.

Phone 37 Pampa, Texas

action, and this great nation, on the whole the strongest community which civilization can show, is for the moment reduced in this respect to the level of African natives, dependent only on rumors which are carried from place to place.

"In a few days, if this were allowed to continue, the rumors would poison the air, raise panics and disorders, inflame fears and passions together, and carry us all to depths which no sane man of any party or class could care even to contemplate."

Modern social order, being based upon informed public opinion rather than upon authority of the few, is dependent upon thorough and rapid dissemination of facts to a remarkable degree. In spite of the marvelous progress of transportation and wire and wireless communication, the place of journalism continues to be the most important adjunct to

democracy. The newspaper, like the church and the government and the schools, has its limitations; but like other institutions it is providing the basic necessities in its field and keeping pace with the times.

Moore to Preside Over Methodists of This Section

Bishop John M. Moore will preside over the Fourth Episcopal District, which includes the Central Texas Conference and the North Texas Conference of the Southern Methodist Church, it was decided at the general conference in Memphis, Tenn., a few days ago.

Other conferences in Bishop Moore's district are: New Mexico, to meet Oct. 6; West Texas, to meet Oct. 27, and Northwest Texas to meet Nov. 10.

Bishop Sam R. Hay, formerly pastor of Polk Street Methodist Church, Amarillo, was sent to the twelfth district. His conferences and dates are: Northwest, Corvallis, Ore., Sept. 1; Arizona, Phoenix, Oct. 13; Pacific, Los Angeles, Oct. 20; North Texas, Wichita Falls, Nov. 3; Texas, Orange, Nov. 17.

Bishop James E. Dickson, who for several years has had charge of the Central, West and Northwest Texas conferences and the New Mexico conference, has been assigned to the eleventh district. He will have charge of Illinois, West Virginia, Kentucky and Louisville conferences.

Bishop H. A. P. ... formerly of Fort Worth, and who spent most of the past four years in foreign fields, was given the fourteenth district, which includes the Indian Mission, West Oklahoma, East Oklahoma, Little Rock and North Arkansas conferences.

The conference voted \$40,000 for the Southern Methodist University School of Theology at Dallas. Notable progress has been made by the university during its 11 years' existence, Dr. C. C. Seelman, president, reported to the conference.

THE REASONABLE EXPLANATION

A negro laborer had just fallen from the heights of a tall building being constructed. Head first and like a projectile he crashed downward and disappeared through an opening in the sidewalk connecting with the basement. The foreman rushed down, expecting to find a mangled corpse, but instead discovered Jazzbo responding in a mass of waste paper.

"Man!" gasped the foreman, "how did you manage to escape being killed?"

"Dunno, boss," groaned Jazzbo, rubbing his head. "Ceptin dat cement sidewalk must er broke mah fall."

AUTO-MANIA

Here lies the body of Jim Lake. Tread softly all who pass; He thought his foot was on the brake, But it was on the gas.

—Typo Graphic.

Mr. and Mrs. H. S. Williams are the proud parents of a 7 lb boy. He was born Thursday, May 29.

CHEVROLET

Replacing a disabled railway motor coach, a Chevrolet truck is scoring a decided success daily in the difficult role of a locomotive on an Alabama railroad.

The Sumter and Choctaw Railroad owned and operated by the Allison Lumber Company of Bellamy, Alabama, is using their Chevrolet utility express truck as a locomotive with gratifying results, according to Sednew Corbett, manager of fleet sales and truck division, Chevrolet Motor Company.

Formerly a gasoline motor railroad car was used by the railroad to transport passengers and freight, making a round trip, 52 miles daily. During a recent breakdown of the motor in the "huddle-bug", as railway men termed the gas-driven coach, it was decided to attach the Chevrolet truck to the disabled car and haul it over the route on regular scheduled trips until repairs could be made to the coach. The truck had been operated for some time by the company in its ordinary capacity as a rubber tired vehicle.

The truck was equipped with flanged wheels and attached to the coach with a steel cable. On the first trip it handled the load with ease over the entire run—and instead of the 12 gallon of gasoline required by the motor coach, the Chevrolet made the round-trip on four gallons of fuel. This saving led to the adoption of the truck as standard equipment on the railroad, and the old motor coach was discarded.

In addition to economy of operation of the truck as standard equipment on the railroad, and the old motor coach was discarded.

In addition to economy of operation, the Chevrolet truck offered another advantage. The truck body provided extra space for freight transportation, and extra passenger seats were available in the coach on removal of the motor.

So well pleased were the officials of the lumber concern with the performance of the truck in its sphere that they purchased another for the use of the logging crew. Then a Chevrolet touring car was bought for the personal use of A. L. Gill, the company's superintendent. The automobile-locomotive will remain permanently on the active list of the firm's locomotives, officials said.

REAL ESTATE, FARM LOANS, LEASES AND ROYALTIES

List your city property with me. I have calls for residence property, large tracts of land and exchanges for farms.

Good connections with oil firms and real estate dealers over the United States.

"EVERY HOME A BEAUTIFUL HOME" IS HEREFORD'S SLOGAN; CITIZENS CONCENTRATE ON ATTRACTIVENESS

Hereford, May 19.—"Every home a beautiful home," is Hereford's slogan, and judging from the number of attractive residences in this city, the slogan is being put into practice. The Hereford citizenship is justly proud of her attractive lawns, with their variety of plants and trees. Almost all kinds of flowers are grown with a large range of color, and tourists who pass through here during the summer are attracted by the rare beauty of the landscape. Hereford has come to be known as the "Canna City" of the Plains on account of the large number of Cannas that are grown here.

Hereford is located in the center of the famous Hereford shallow water belt, and with an unlimited supply of pure water the lawns are kept fresh throughout the growing season. Much blue grass and clover is being grown here with satisfactory results. Some grow the Bermuda grass, but not so extensively. No ground is allowed to be wasted. Otherwise unattractive backyards are transformed into regular "Garden of Eden", with flowering garden truck. Thus not only are the looks of the premises improved, but profitably so, and fresh vegetables and fruit for summer as well as winter are assured.

This city probably has more shade trees for its size than any city in the Panhandle. A great many people who think the plains are void of trees discover how very much uninformed they are when they come to Hereford during the spring or summer and enjoy the rest and refreshments that her trees afford.

The Hereford Nursery has played

an important part in the building of a more beautiful Hereford. For the past twenty-five years the nursery has been testing out numerous varieties of plants, trees and shrubs. Over three hundred varieties of fruit and shade trees have been tried for the Panhandle and a large number of shade trees have been tried for the famous Hereford shallow water belt.

The local chamber of commerce is fostering a "Home and Garden" movement for Hereford, and will offer attractive prizes for the best kept home and garden. Tree planting, better lawns and more flowers are being fostered. The city of Hereford owns a number of park sites, and several of these have already been beautified. Plans are under way to transform the other tracts into beauty spot, which will attract the eye of the visitors.

This phase of attractive lawns and productive premises is not confined to Hereford alone. People living in the rural districts also take great pride in their home grounds. It is not an uncommon sight to visit rural homes with well kept lawns and an abundance of flowers and foliage. Many of these people enjoy fresh fruit in the summer time from the family orchard.

"Nature is a cure for all ills", and the Hereford plan of "making your home in a large bouquet" is no exception to this rule.

SPRING POEM BY LEM FRISBY

When a man gets married
He thinks he's the boss,
But the woman soon shows him
It's all apple sauce.

FOR A GOOD MEAL

When you are really hungry and want a Square Meal, or if you just want a light Lunch, you will be satisfied if you come here.

NOTICE TO GRAY CO. VOTERS

On account of serious illness in my family, I have been unable to canvass for the last thirty days, but hope to see all the voters in the county before election. If I fail to see you, it will be unintentional. (9-1c) A. R. (Cal) CALLAWAY.

Gene Fatheree is spending the week in Canadian with his brother, Clyde Fatheree.

WITH THE CHURCHES

Methodist Church
Sunday school 9:45 a. m. Lee Harrah, superintendent.

Preaching at 11 a. m. and 8:30 p. m. League, 7 p. m. Lillian Mullinax, president.

Woman's Missionary Society meets Tuesday at 2:30 p. m. Mrs. W. Purviance, president.

REVIVAL AT BAPTIST CHURCH IN PROGRESS

The revival meeting at the Baptist Church began last Sunday and will continue through next week. Mr. J. B. Christian of Dallas is directing the music. The choir and congregation are co-operating with him in a very gratifying way. The singing is fine. Prayer services have been organized and a religious census of the town has been taken. Good crowds are already attending the meeting.

The day services begin promptly at 10:00 a. m., and close at eleven. The evening service begins at 8:30. The

pastor is doing some plain preaching to the church members this week. There are church members these days that never darken the church door. Are you one of these kind of members? Your presence is needed in the services. Come to the meeting and bring your unsaved friends. We shall have all of our regular services Sunday. We want 250 in Sunday School. Visitors and strangers have a big welcome with us.

F. A. TIPPEN, Pastor.

NOTICE TO SCHOOL CHILDREN

All pupils who wish to take summer courses see me at the school building Saturday morning. A teacher for the grades and one for the high school will be provided if the number of pupils reporting justify it. It is important, therefore, that every pupil wishing to do summer work report Saturday morning.

SUPT. R. C. CAMPBELL.

The BULL'S EYE

Editor and General Manager
WILL ROGERS

Another "Bull" Durham advertisement by Will Rogers. See full folios and screen star, and leading American humorist. More coming. Watch for them.

No Governorship For Mine

My good old friend the Governor of Oklahoma was in to see me at the theatre the other night. I had just had humorous mention as a candidate for that position, as they wanted to revive the Populist Party with me as the Standard Bearer.

Well, the Governor showed me what had happened to a friend of his who had been defeated for Governor in our state, so he discouraged me. I won't accuse him of doing it purposely, but he did. His friend's campaign expenditures were as follows:

"I kissed 6,000 babies; helped 42 voters thrash wheat; shook hands with the entire State; smoked 3,000 sacks of 'Bull' Durham; cut 22 cords of wood; helped brand 8,000 calves; spayed 4,000 of them; was sprinkled 8 times in Methodist Churches; totally immersed in cold water in muddy creeks three times by the Baptist; went to confession in every Catholic Town; paid dues to 11 Synagogues; charter member of the Holy-Rollers; listened to 800 get-together Kiawanis, Lions, and Rotary speeches; bought sheet and pillow slip in every Ku Klux Klan in the State; and then I was defeated.

"'Bull' Durham was my sole satisfaction not only during, but after election. It is the only thing that stayed with me."

Will Rogers.

P.S. There will be another piece in this paper soon. Look for it.

PROSPERITY ITEMS

The streets of Pampa were scratched and graded just in time for the rain Wednesday as usual.

An advertisement carried by a prominent furniture dealer recently in the News has caused quite a bit of comment. The ad read: "Eight Homes furnished complete this week", and was run two successive weeks. The ad was run the second week through a misunderstanding, but as a matter of fact, Mr. Malone actually did furnish eight homes the second week.

PUBLIC NOTICE OF DISSOLUTION

Notice is hereby given that the partnership between J. E. Murfee Jr. and H. T. Baird, doing business under the firm name of J. E. Murfee & Company, at Pampa, Texas, was dissolved by mutual consent on May 8th, 1926. J. E. Murfee Jr. will continue the business at the same location, and all debts due to or by said firm will be settled with him.

Signed this 10th day of May, 1926.

Fine Steel Explains The Car's Long Life

This fact should be read and remembered by everyone who ever expects to buy a motor car.

In the percentage of costly Chrome Vanadium steel used, Dodge Brothers Motor Car outranks every other car in the world, regardless of price.

Chrome Vanadium is the ideal motor car steel. Its remarkable toughness and strength account for the fact that more than 90% of all the motor cars Dodge Brothers have built are still in service.
