Loyalists Prepare To Evacuate Madrid As Fascist Forces Continue To Advance

Rebel Troops 22 Miles From Capital City

Govt. Plans Counter Attack, Hoping To Recapture Toledo

MADRID, Sept. 30 (AP)—Evacuation of the Spanish capital has begun. The minister of the interior announced today that facilities had been placed at the disposal of citizens wishing to leave for eastern coastal cities.

Meanwhile, insurgent headquarters reported their armies had reached Illesca, 22 miles from Madrid. The Spanish government denied the insurgent claims, but mobilized additional militiamen and planned a counter attack to repel the fascist attack across central Spain, and recapture Toledo.

The government claimed a turn in the war tide was imminent, maintaining that the farther the insurgents stretched out their lines the weaker they became.

The rebel leaders declared their armies were circling Madrid.

The government forces apparently were making a last stand and the rebels have every chance of driving the loyalists back and marching into Madrid on the one side, while cutting the capital's rail communications to the coast on the other.

The loss of Toledo was a severe blow to the loyalists. It was their main source of munitions. The jubilant rebels were in no hurry, carefully consolidating their lines.

Madrid, apprehensive.

In the action along the Madrid highway yesterday and today, the rebels made no appreciable advance, but did stand against a furious loyalist counter-attack.

Madrid was plainly apprehensive. Government communiques made the most of such military successes as could be claimed but the people were uneasy.

Anarchist and communist leaders, heading a powerful faction, demanded universal conscription to create a people's army in which service would be mandatory. They also demanded immediate creation of a workers' national defense committee to direct the defense of the capital.

Only desultory action occurred on fronts other than the Toledo, although renewed blasting of Oviedo on the north coast may be expected at any time. The government said loyalist planes dropped 2000 bombs on the city yesterday. Malaga, on the south coast, was bombed by rebels.

Officials In Alteration

Winlow, Garlington Trade Blows; Judge Demands Fine Off Foe

J. S. Winlow, county commissioner, entered a plea of guilty in justice court to a charge of affray and County Judge J. S. Garlington was demanding that the county clerk enter an order on the docket of the county court fining the commissioner \$100 and costs for contempt as a result of the second alteration in which the judge was a party within the past six months.

The judge made no attempt to enter a plea in the court of J. H. Hefley, justice of peace, for his part in the fight. He examined the justice court docket to see if the plea had been entered by Winlow.

COLORADO CAPITAL CITY MANTLED IN WHITE

An 8-inch snowfall, heaviest for September in years, embroidered Denver, Colo., streets early with a mantle of white. The state capital, shrouded by falling flakes, appears in the background. The snow menaced life and property and damaged communication lines in the Rocky Mountain area. (Associated Press Photo.)

Urges Effort To Eliminate Fire Hazards

Fire Prevention Program Discussed Before Club

Observance of fire prevention week by exercise of care in the elimination of hazards was suggested to the Lions club today by E. B. Bethell, city fire marshal. Bethell listed smoking material second only to exposure as chief causes of fires which last year imposed a loss of \$1.95 per man, woman and child in the nation.

Losses in Big Spring for 1935 amounted to \$7,945.50 on premiums of \$87,726.42, or about a 50 cent per capita loss as compared with \$12,381.00 on premiums of \$72,663 in 1934 or little less than a \$1 per capita loss, Bethell disclosed.

Big Spring, by virtue of its good fire record, now receives a 15 per cent credit on the key rate. Building of a non-regulation structure within the fire limits has threatened a two cent loss on the credit unless corrected, he said, and added that "no one person or half dozen persons has the right to violate building codes at the expense of the rest of the people."

Fires, said the fire marshal, constitute a double loss. It is a governmental as well as a private loss, he said. Every time a building burns, it means that much less taxable property and an addition to the tax burden of remaining real property. In this way, if no other, every one feels the loss from a fire, he asserted.

Fire prevention week, Bethell recalled, was instituted on the 4th anniversary of the disastrous Chicago fire of 1871. It has been observed nationally as a week since 1923 and will be observed this year during the week of Oct. 4-10.

Greaver Dunham announced that contributions were being received for a flood relief fund to be dispatched to San Angelo. Pascal Suckner, president, urged club members to do their part in swelling the fund.

At the suggestion of John Hutto, the club went on record as requesting city support in curbing the practice of dumping refuse near the club park site in Mexico town. It was voted to erect several signs and have them backed up by police measures.

W. C. Blankenship, city superintendent, told of plans for a school day for this district at the Centennial, of a proposed exhibit and of attractive rates offered to children for a Centennial trip.

OPPONENTS OF TAX PROGRAM EXPECTING SOME CONCESSIONS

NEW ORLEANS, Sept. 30. (AP)—Several thousand "luxury" sales tax oppositionists cancelled their march on Baton Rouge today to allow Governor Richard Leche to discuss the tax, which becomes effective tomorrow, in a state-wide broadcast tonight.

George Puglia, leader of the state-wide attack on the levies, following a conference with the governor, indicated he expected Leche to announce "certain concessions."

Allowable Boosted For Howard Fields

1172-Barrel Daily Increase Granted Two Areas In New Commission Order

Daily crude allowable for fields in the immediate Big Spring area during October was boosted 1,172 barrels, in a new proration schedule authorized Tuesday by the state railroad commission. Daily allowable for both the Howard-Glasscock and Istan-East Howard fields was increased.

The Howard-Glasscock quota was increased by 454 barrels to 17,941 daily; and the East field figure was set at 7,644, an increase of 708 barrels.

Increases were general for West Texas fields, as the commission set a state daily allowable of 1,179,948 barrels, an increase of 54,274 barrels over the September basic allowable and 73,048 barrels more than the federal bureau of mines estimated demand for Texas oil in October. The new figures are effective October 1.

The factor of 2.32 per cent of the hourly potential, on which production of the big East Texas field is figured, was left unchanged. On September 26 allowable production was 495,281 barrels daily, having increased slightly from the 434,000 barrels authorized on September 1. Ernest O. Thompson, chairman of the commission, said the bureau of

School Rolls Near 2,800

Total At End Of Month Well Above That For October, 1935

Enrollment in Big Spring schools at the end of September is above the total at the end of October a year ago, W. C. Blankenship, superintendent of city schools, revealed in a report today.

Wednesday the eight local schools reported a combined enrollment of 2,774, as compared to 2,719 at the end of October, 1935. This also compares to the first week total of 2,497 in 1935.

In strange contrast to other years, said Blankenship, the enrollment has practically all been received at the start of school where in former years it was slow in being listed.

The Kate Morrison (Mexican) ward school was to close Friday until the last week in December to permit children joining their families in cotton picking. John R. Hutto, principal, will finish requirements for his degree at Hardin-Simmons at Abilene, while Bob Bassett, one of the teachers, will leave tonight for New York and the national training school of the boy scouts.

The enrollment figures released by Blankenship are as follows by schools: West ward, 357; North ward, 114; East ward, 218; South ward, 325; Kate Morrison, 238; junior high, 808; senior high, 717; and negro, 60; total, 2,774.

CCC WILL ENROLL OVER 7,000 TEXANS

WASHINGTON, Sept. 30. (AP)—The Civilian Conservation Corps plans to enroll 1,181 Texas men during the first two weeks of October to replace those who have dropped out to enter private employment or who are leaving the corps today at the conclusion of its seventh period.

Announcement of the new enrollment quota was made today by Robert Fechner, director of emergency conservation work.

Winners Pile Up Four Runs In 8th Frame

Rainy Weather Cuts Crowd At Polo Grounds And Slows Up Playing

POLO GROUNDS, NEW YORK, Sept. 30.—The New York Giants made a complete runaway of their half of the eighth inning in the first game of the World Series here today, routing the Yankees, 6 to 1.

Only 48,000 spectators witnessed the game, played in a heavy rain. Leading 2 to 1 up to the eighth, Manager Bill Terry doubled to right field and Ott followed with a sharp single. Rippe sacrificed, advancing both men. Mancuso was passed, filling the sacks and Rippe walked. Whitehead, forcing in Terry and leaving the bases loaded.

Jackson hit a hard fly ball to Di Maggio but Ott romped home on the play with another Giant run. Hubbell, who pitched a masterful game, hit to Lazzeri who let the ball get away from him and Mancuso scored. Crosetti came in for the ball and threw wild to Dickey and Whitehead dashed home with Run No. 6.

The Yankees took the lead in the third inning when George Selkirk, first man up, drove a terrific home run into the upper right field stands.

The Giants tied the count in the fifth when Dick Bartell drove a four base knocker into deep left field.

FIRST INNING YANKES—Crosetti grounded out, Jackson to Terry. Rolfe grounded out to Terry. Di Maggio grounded out, Bartell to Terry, retiring the side. No runs, no hits, no errors.

GIANTS—Moore filed out to Powell in left field. Bartell filed out to Powell. Terry singled, to center field. Ott walked, sending Terry to second base. Rippe filed out to Crosetti, retiring the side. No runs, one hit, no errors.

SECOND INNING YANKES—Gehrig grounded out to Hubbell who covered first. Dickey grounded out, Whitehead to Terry. Powell singled to left field. Lazzeri struck out, retiring the side. No runs, one hit, no errors.

GIANTS—Haskell singled to center field. Moore struck out. Bartell singled to right field sending Hubbell to third. Terry filed out to Dickey. Ott walked, filling the bases. Rippe struck out, retiring the side. No runs, two hits, no errors.

THIRD INNING YANKES—Selkirk homered in to stands in right field on the first pitch. Ruffing grounded out, Hubbell to Terry. Crosetti filed out to Whitehead. Rolfe singled to right field. Di Maggio singled to right field, sending Rolfe to second. Gehrig grounded out, Hubbell to Terry, retiring the side. One run, three hits, no errors.

GIANTS—Hubbell singled to center field. Moore struck out. Bartell singled to right field sending Hubbell to third. Terry filed out to Dickey. Ott walked, filling the bases. Rippe struck out, retiring the side. No runs, two hits, no errors.

FOURTH INNING YANKES—Dickey struck out. Powell smashed a sharp double against the left field barrier. Lazzeri walked. Powell caught stealing. Selkirk struck out, retiring the side. No runs, one hit, no errors.

GIANTS—Mancuso popped out to Rolfe at third base. Whitehead struck out. Jackson grounded out, Crosetti to Gehrig, retiring the side. No runs, no hits, no errors.

FIFTH INNING YANKES—Ruffing struck out. Crosetti filed out to Mancuso in left territory. Rolfe filed out to Whitehead, retiring the side. No runs, no hits, no errors.

GIANTS—Hubbell grounded out to Lazzeri to Gehrig. Moore filed out to Di Maggio. Bartell homered in to left field stands. Terry grounded out to Lazzeri to Gehrig, retiring the side. One run, one hit, no errors.

SIXTH INNING YANKES—Di Maggio struck out. Gehrig struck out. Dickey

grounded out to Terry unassisted, retiring the side. No runs, no hits, no errors.

GIANTS—Ott doubled against left field barrier. Rippe sacrificed Ott to third. Mancuso singled to left, scoring Ott. Whitehead popped out to Rolfe. Jackson filed out to Di Maggio, retiring the side. One run, two hits, no errors.

SEVENTH INNING YANKES—Powell singled over shortstop. Lazzeri struck out. Selkirk grounded to Terry and Powell forced out at second. Ruffing struck out, retiring the side. No runs, one hit, no errors.

GIANTS—Hubbell filed out to Gehrig in foul territory. Moore filed out to Di Maggio. Bartell filed out to Dickey, retiring the side. No runs, no hits, no errors.

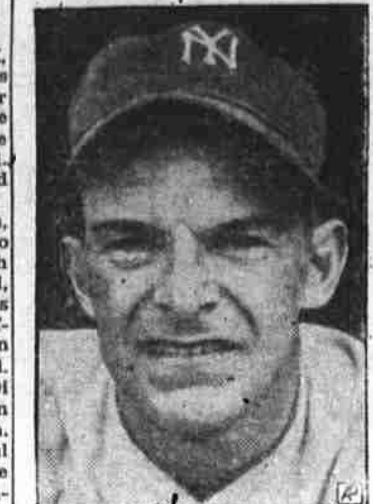

EIGHTH INNING YANKES—Crosetti doubled down third base line. Rolfe sacrificed Crosetti to third and Hubbell charged with an error on the play. Di Maggio hit into double play. Crosetti still on third. Gehrig hit by pitched ball and took first. Dickey grounded out to Terry unassisted. No runs, one hit, one error.

GIANTS—Terry double to right field. Ott singled along first base line. Rippe sacrificed Terry to third and Ott to second. Mancuso walked, filling the bases. Whitehead walked, forcing in Terry and leaving sacks filled. Jackson filed out to Di Maggio. Ott scoring on the play. Hubbell hit to Lazzeri but the ball got away and Mancuso scored. Di Maggio threw past Dickey and Whitehead scored. Hubbell went to third. Moore grounded out Crosetti to Gehrig, retiring the side. Four runs, three hits, two errors.

NINTH INNING YANKES—Powell grounded out to Bartell to Terry. Lazzeri grounded out to Terry. Selkirk grounded out to Whitehead to Terry. No runs, no hits, no errors.

GET HOMERS IN FIRST GAME

GEORGE SELKIRK—George Selkirk of the Yankees made his team's only score in the World's Series opener by knocking a circuit blow. Dick

DICK BARTELL—Bartell tied the score—before his teammates went on to win—by getting a homer of his own.

BOX SCORE

Table showing box score for Yankees vs Giants in the first game. Columns include AB, R, H, PO, A, E. Yankees score 6-1, Giants score 1-6.

Table showing box score for Yankees vs Giants in the second game. Columns include AB, R, H, PO, A, E. Yankees score 1-7, Giants score 7-1.

Summary—Home runs, Selkirk, Bartell. Two base hits, Crosetti, Powell, Ott. Runs batted in, Selkirk, Bartell, Mancuso, Whitehead, Jackson, Hubbell 2. Sacrifices, Rippe 2, Rolfe. Double play, Whitehead to Terry. Hit by pitched ball (Gehrig) by Hubbell. Left on bases, Yankees 6. Giants 6. Caught stealing, Powell by Mancuso. Earned runs, Yankees 1, Giants 4. Bases on balls, off Huffing 4, off Hubbell 1. Struck out, by Ruffing 5, by Hubbell 7. Time of game 2:45. Umpires, Pfirman (National) behind plate; Giesel (American) first base; Magerkurth (National) second base; Summers (American) third base.

Rate Change Expected

School district rolls, while not totaled, will amount to around \$7,000,000, perhaps a slight increase over last year. City rolls are expected to show a small gain and county rolls are due to jump more than a million dollars.

A change is expected in the city rate while it is probable that the county rate will remain about the same, 50 cents.

Tuesday the Midway trustees voted to cut that common school district rate from the maximum of \$1 to 75 cents for this year. The district's bond issue is paid off and a delinquent payment by Couden refinery will boost the balance to the district's credit by \$4,679.69. However, Couden's payment of \$17,500 in payment of an agreed judgment settling \$34,702.99 back taxes was not accepted by the tax collector when the oil corporation attempted to satisfy a "cash" agreement with \$10,000 and the rest before the end of October. The court which approved the agreed judgment frowned upon the attempt to split the payment as did the collector.

Weather

BIG SPRING AND VICINITY—Fair, somewhat warmer tonight; Thursday fair.

WEST TEXAS—Fair, somewhat warmer in north and east-central portions tonight; Thursday fair, warmer in south portion, cooler in west.

EAST TEXAS—Cloudy, somewhat warmer in north portion tonight; Thursday generally fair, warmer.

TEMPERATURES

Table showing temperatures for various locations in Texas and Oklahoma. Columns include location, high, and low temperatures.

A dance has been announced at the Crawford hotel for Friday night of this week. Thomas Brooks and his orchestra will furnish music, with dancing starting in the ballroom at 9 o'clock.

Carpenter To Be Called As First Witness

Numerous Tax Proposals Offered As Session Gets Under Way

AUSTIN, Sept. 30. (AP)—The house of representatives today adopted procedure and rules for an investigation of the old age pension situation, ordered yesterday. Members prepared to launch the investigation with Orville S. Carpenter, state pension director, as the first witness.

The resolution ordering the inquiry provided that it should not last longer than one week.

Tax Measures

New bills offered at the special session today include a proposal to raise the horse race tax, by Reps. Taylor Russell of Mount Pleasant and Eugene Worley of Shamrock; and a proposal that auto license revenues be transferred from the highway to the pension fund, by J. F. Lindsey of Amon.

Other bills offered included: To increase sulphur tax from 75 cents to \$2 a ton, by Rep. Franklin Spear, San Antonio.

To tax oil ten cents a barrel, by Rep. R. L. Reader, San Antonio.

To tax oil six cents a barrel, by Rep. Jasper Reed, Texarkana.

Omnibus tax bills by Reps. T. J. Dunlap, San Marcos, and Stanford Payne, Del Rio, and Rep. Jesse James, Cameron.

To require payment of taxes on reduced valuation prior to court contest of increased valuation, by Sen. Gordon Burns, Huntsville, and Rep. Harry Graves, Georgetown.

Transfer Proposal

To transfer money in the permanent old age assistance fund to the available fund, by Rep. Edgar S. Koefer, Frankston.

To transfer \$4,600,000 from the highway fund to old age assistance, by Rep. Jap Lucke, Athens.

To transfer \$25,000 from money accumulated under the securities act to old age assistance, by Rep. Dero D. Cowley, Hillboro.

To set up a state system of unemployment insurance, by Rep. Geo. Davison, Eastland.

To tax natural gas one cent a thousand cubic feet, a fourth to go to school and three-fourths to old age assistance, by Rep. E. E. Quinn, Beaumont.

To fix franchise taxes and create the office of franchise commissioner, by Rep. Herman Jones, Decatur.

To tax gross receipts of privately-owned utilities according to population of area served, by Rep. Joe Caldwell, Asherton.

Flood Covers Farm Lands

Brazos Falling At Waco As Points Downstream Are Inundated

HEARNE, Sept. 30. (AP)—The flooded Brazos river continued to inundate farm lands today as Valley Junction reported a 40-foot stage. The Trinity and Cedar rivers were rising at Midkoff, while other flooded rivers were steadily receding.

There was no reported loss of life, farmers taking no chances on being caught in the muddy torrent of Texas' longest and most dangerous river. Herding their livestock, residents of the flood area evacuated the threatened area well in advance of the high water.

The Brazos fell to 20 feet at Waco after reaching the highest stage on record, at least, and destroying homes and other property valued at more than half a million dollars in the city proper.

Around And About

The Sports Circuit

By Tom Beasley

WITH HIGH hopes of victory the high school griders left today for Brownwood where they will meet the Lions Thursday night in a district game.

The Steer-Lion game will dedicate the new Brownwood stadium, said to be an imposing structure.

WOODROW WILSON, former College of Mines (El Paso) football star, is being groomed to replace flashy Monk Meyer at West Point.

SCHOOL OFFICIALS will try an experiment this week. The Devil-Cochran football game here Friday, the first contest of the season for the juniors, will be played Friday night instead of Friday afternoon.

THIS IS interesting news, coming on the eve of the world series—Lou Gehrig of the New York Yankees and Carl Hubbell of the Giants were accorded "most valuable player" honors in their respective leagues in a poll of baseball writers conducted by a baseball magazine.

THIS IS interesting news, coming on the eve of the world series—Lou Gehrig of the New York Yankees and Carl Hubbell of the Giants were accorded "most valuable player" honors in their respective leagues in a poll of baseball writers conducted by a baseball magazine.

WORRIED BY a small crowd at last night's wrestling arena show, Manager Herman Fuhrer announced that there would be no more matches this year at the outdoor arena.

JAKE MORGAN made Qualifier No. 10 yesterday in the Mundy golf tournament. Jake posted a 93.

WE MIGHT as well crawl out on a long limb and pick the Giants to win the series. We always liked to pick the underdog.

DEAN DETTON, heavyweight wrestler and brother of Dory Detton, middleweight who has "ruffled" here this year, won wide recognition recently by defeating Dave Levin, a Jewish boy who ranks as one of the country's outstanding bone-benders.

Run All Year 'Round—AUBURN, Ala., Sept. 30. (AP)—Three members of Auburn's championship mile relay team of the Southeastern conference are valuable griders. They are Wilton Kilgore, fullback; Hamp Williams, end; and Bill Ellis, halfback. Kilgore won the conference 440-yard dash.

When Wesley L. Fry, Kanasa State mentor, was head coach at Classen high school, Oklahoma City, his teams won 41, lost 11 and tied 1.

Pig Sandwich TRADE MARK Registered 510 EAST 3RD ST.

STEERS LEAVE FOR BROWNWOOD DISTRICT BATTLE

TRAINER IS SHIFTED TO TACKLE

With the full squad of 23 players, high school Steers and Coaches George Brown and Carmen Brandon departed early this afternoon for Abilene. A workout on the Eagle practice field was on the slate for this afternoon, and early tomorrow morning the Longhorns will arrive in Brownwood, eager for their second district test of the season with the Lions under the lights Thursday night. Coaches are hoping for a dry field.

All players were reported in good physical condition with the exception of Louie Madison, who has a broken right hand. That, however, will not keep the stocky signal barker out of action. The starting backfield will probably be Madison, Henninger, Bigony and Woods. If Madison does not start the fracas, Henninger will go to quarter and Settles in at halfback. Settles is a neat ball lugger.

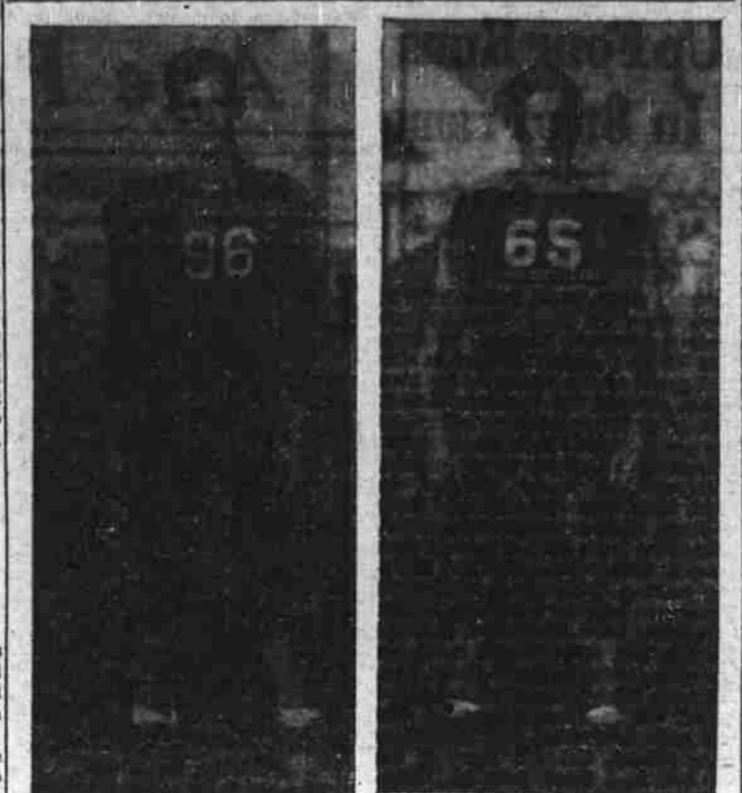

The major change of the week saw Trainer, 189 pounder, go from the backfield to a tackle position. He turned in a brilliant performance in a brick scrimmage yesterday afternoon and may judge out Kasch for a regular tackle berth.

Another fine looking lineman is Rayburn, center. In the Eastland game Rayburn was shifted to end for a pass play and Chock Smith went to the pivot post.

Friday night Coach George Brown will scout the San Angelo Bobcats in their game with Eastland, and Coach Brandon will scout Abilene and Ranger. Ranger plays here next week.

These boys are two good reasons why George Brown's Steers will be in for a tough evening Thursday in Brownwood when they take the field against the Lions in a district 3 conference game. Laxon is a halfback and Thomason a hard-driving 180-pound fullback.

Pat Malone Hopes For World Series Win Before Retiring

LAXON JAMES THOMASON These boys are two good reasons why George Brown's Steers will be in for a tough evening Thursday in Brownwood when they take the field against the Lions in a district 3 conference game.

'OLD BLUB' MAY GET A CHANCE

NEW YORK, Sept. 30. (AP)—For weeks—ever since the Yankees had the Yankees had the American league pitcher within their grasp—Pat Malone dreamed of starting a game in the world series between the Giants and his teammates. 'Old Blub' has been saying over and over again that he can lick the Giants.

Malone is 34 years old and his chances of getting into the series as a starting pitcher have grown slimmer with the passing years. He wants to score at least one series victory before he hangs up his glove. His record up to this year shows only a pair of defeats. He had a fling at the Athletics in 1929 as a member of the Cub pitching staff, and tried again in 1932 when Chicago hooked up with the Yankees, but lady luck refused each time to smile on him.

Pat believes that the success which eluded him as a National leaguer is due to come to him now that he is pitching for the American league entry. He feels that his knowledge of the Giants' tactics while striking against them in National league championship games, gives him a decided edge over his fellow moundmen of the Yankees.

McCarthy Gets Revenge The Cubs signed McCarthy as manager after his Louisville team had won the American association pennant in 1925. He led the Chicago team to a pennant in 1929 but went down to defeat before the Athletics. His failure to win that series had much to do with his departure from Chicago in September of the following year.

Big fellows are abundant but apparently not of the class required by the quick-hitting Bierman system. Two sophomores, Marty Christensen and Phil Bellori, are being mentioned and Vic Spadaccini, a smashing junior, will be on hand.

Any of these athletes has 25 pounds on Gmitro and almost six inches in height. But Gmitro, tow-headed and unorthodox, pays no attention to the handicappers.

Lowell (Red) Dawson, now Tulane's head mentor, when he was backfield coach at Minnesota, predicted the little fellow was destined for stardom. "The first day he came out, I played him in every backfield position. He never made a mistake. He's an instinctive football player. Watch him," Dawson says.

Glenna Vare Through With Big-Time Golf

Six Times Nat'l. Champ. Quits After 20 Years Of Campaigning NEW YORK, Sept. 30. (AP)—After 20 years of campaigning, during which she won the national women's title six times, Glenna Collett Vare has decided to retire from big-time play permanently. She has been tired of tournament play for quite a while and only went into the national last year to show the younger girls (who devote just about all their time to golf) that she could come back after having taken time out to raise two lovely children. Her successful comeback was one of the big thrills of 1935.

With Mrs. Vare out of competition it looks very much as though America will have to depend on the younger crop to keep the national trophy on this side of the Atlantic. Patty Berg, the Minneapolis mite who was runner-up to Mrs. Vare at Interlachen last year, is one of the outstanding American entrants. Beatrice Barrett, also of Minneapolis, is another strong contender.

McCarthy Gets Revenge The Cubs signed McCarthy as manager after his Louisville team had won the American association pennant in 1925. He led the Chicago team to a pennant in 1929 but went down to defeat before the Athletics. His failure to win that series had much to do with his departure from Chicago in September of the following year.

Lowell (Red) Dawson, now Tulane's head mentor, when he was backfield coach at Minnesota, predicted the little fellow was destined for stardom. "The first day he came out, I played him in every backfield position. He never made a mistake. He's an instinctive football player. Watch him," Dawson says.

And it is no less an authority than Dawson who opines that Gmitro, despite his lack of size, will play fullback in 1936.

WOMEN'S GOLF TOURNAMENT OPENS ON THURSDAY

The annual golf tournament of the women's golf association will get underway Thursday morning on the country club course with eighteen-hole qualifying rounds. The tournament was postponed from last Thursday because of inclement weather. There will be two flights of eight players each, and match play will start Friday morning. Eighteen-hole finals will be played Sunday.

Deviils Lose Five Players Injuries, Ineligibility Hurt Junior Football Aggregation The failure to meet scholastic requirements has almost ruined the Devil football team, junior aggregation coached by Ben Daniels.

Georgia Tech Is Back Among Football Greats ATLANTA, Sept. 30. (AP)—After seven lean years Georgia Tech is back among the Southeastern conference football "big shots."

GOPHERS GO FOR 'POCKET' BACKS MINNEAPOLIS, Sept. 30. (AP)—Minnesota, producer of giant line crumblers, may go in for a "pocket back" this season as Bernie Bierman's gridiron goes to extend their record of three years of undefeated play.

FROG FLASHES FORT WORTH, Sept. 30. (AP)—"Centennial" is sort of a keynote word in Texas this year, so some historians on the T.C.U. campus has dug up the information that the Horned Frogs played their first football just 40 years ago in 1896.

Carnegie Tech May Show Old Scoring Punch

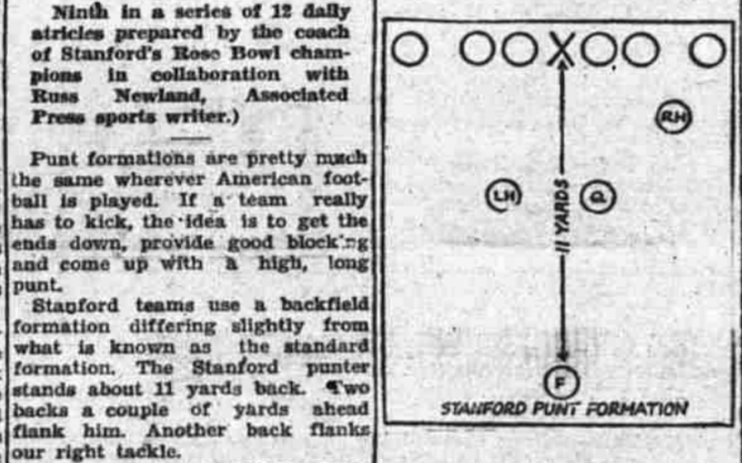

PITTSBURGH, Sept. 30 (UP)—There are two reasons for the optimism that has gripped the Carnegie Tech campus this year in connection with the Tartan's football team. One is the return of Judge Wally Steffen as head coach, after a three-year absence, the other is the large number of candidates.

Line To Be Formidable The Tartans will show a veteran line in the opening game against Notre Dame October 3. This bulwark is expected to give Tech as good a defense as it has had in years.

Freshmen Show Twice ATLANTA, Sept. 30. (AP)—Southern conference regulations limit freshmen teams to two games per season.

Continued from page 1. Sales, in estimating demand for the country, had discriminated against Texas, which stood in a fair way to lose some of its foreign as well as national markets.

"This is a burning question which will come up at the meeting of the interstate compact commission in Oklahoma City next Friday," he said. Thompson said the bureau of mines had figured a reduction of 21,700 barrels daily for the nation, of which it allocated 17,000 barrels to Texas.

"This despite the fact Texas produces 43 per cent of the nation's crude," he said. He said stocks had been reduced to the long-desired point where current production meets "current consumption" and the industry has only 36 days' supply on hand.

France

Continued from page 1. Revised bill will be submitted to the upper chamber and, if as predicted, the measure is passed, it will have to go back to the chamber of deputies before devaluation of the franc becomes law.

Sources close to Blum said the cabinet would make no immediate attempt to fix the exact value of the cheapened franc, but that it would be pared between 24 and 33 per cent.

BRITISH FLIER SETS ALTITUDE RECORD

LONDON, Sept. 30 (UP)—An official announcement today credited Squadron Leader F. D. R. Swain of the Royal Air force with having set a world altitude flight of 49,967 feet, bettering the old record of 48,698 feet by 1,269 feet.

The previous record was set by a French flier, George Detre, at Paris, on August 17. Officer Swain flew a Bristol-138 equipped with a special Pegasus engine. He took off at the R. A. F. airfield at Farnborough, in Hampshire, at 7:30 a. m., and landed at 10:30 a. m. at Netheravon, Wiltshire.

BROWDER ARRESTED TO PREVENT TALK IN INDIANA CITY

TERRE HAUTE, Ind., Sept. 30 (UP)—Earl Browder, communist presidential candidate, and two companions were arrested today as they stepped off a train here. They were held on vagrancy charges pending an investigation. James C. Yates, chief of police, said the Browder was held to prevent his making a speech here tonight; and that he would not allow anyone belonging to the communist party to make a speech in Terre Haute as long as he was chief of police.

WAKE UP YOUR LIVER BILE—

Without Calum!—And You'll Jump Out of Bed in the Morning!—It's So Good! The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks pink.

ITALY CHANGES ADDIS ABABA FROM SLEEPY HUT TOWN INTO TEEMING ROMAN-TYPE CITY

ADDIS ABABA, Sept. 30 (UP)—Quiet, placid Addis Ababa has lost the oriental flavor which characterized it in the past year and is rapidly becoming a swarming metropolis decidedly European in character.

The lazy donkeys, haughty camels, smelly sheep and goats and thronging natives which used to ramble along and block traffic on the narrow streets now walk fearfully at the side while an endless procession of camions, autos and motorcycles roar along the streets and make pedestrians leap nimbly to avoid being hit.

Everyone is in a hurry in Addis Ababa now and the lethargic pace of the old city is no more. The old "Makonnen Cafes," "Menelek Bars," etc., have given way to Caffes d'Italia, Roma, Genoa Barber Shop, etc. The Imperial Hotel, which served bad food to the natives during the old regime, is doing the same during the new, its proprietors have found no necessity of changing either the name or the customs of his hotel.

Sing Fascist Anthems. School children who once roamed the streets looking for an odd coin now parade proudly in their new uniforms lustily singing fascist anthems. Head carriers who formerly carried anything anywhere in town for a penny now have entered the realm of high finance and demand anything from six-pence to a shilling for their services, most of them having found regular work with the Italians or having left the city to squander the wealth gained during the days of looting.

Addis Ababa has become a busy town and the usual crowds of idlers are not to be seen. Beneath the bustle of activity the serious purpose is clearly seen. It is evident that the Italians are determined to show the world a miracle of speedy civilization and reform. Electric lights now light the streets, more road building has been done during these few months than during the five years since the coronation and modern telephone service, sewage disposal, and electricity for homes are in immediate prospect.

Unsettled native tuktels are to be displaced with modern European homes. It means of course that the typically African city of Addis Ababa is no more and in record time a modern European city is to take its place.

Air Mail Planned. There is evidence that the Italians have become annoyed with the slow communications as the foreigners who have lived here. Air mail and air passenger service are certain to give a body blow to the railroad. Exorbitant rail rates undoubtedly will be lowered. It is understood that truckers soon will haul freight quicker and cheaper from Asmara than the railroad does from Djibuti and that the days of the railroad domination are almost over.

The question of the time required to subdue the country, which a month ago loomed large, is rapidly vanishing. One by one the major chieftains are being corralled and are coming in to submit. It is erroneous to think that the common people will resist long after their leaders have deserted them.

Mission Situation in Doubt. A question widely commented upon in religious periodicals is that of protestant missionary activity. The answer has not been made and missions have been given no indication whether they may or may not continue their activities as of old. The viceroy has stated that there is religious freedom in the land but no specific statements have been made to the missions. Mission hospital and school work continues much as usual but evangelistic work virtually is at standstill.

Due to the rainy season, colonization work has not yet begun, but extensive preparations are being made and there is no doubt that the end of the rains will see the beginning of a vast immigration movement. Workers are arriving but land outside Addis Ababa has not yet been possessed for colonization purposes nor will homes be built until fair weather returns. The dream of a modern nation built upon the high plateaus of Ethiopia enthralled the minds of the new conquerors. They are doing all within their power to make that dream come true before the eyes of the world. The task of setting up the tremendous organization required for their vast projects is their work of the moment and it is being expedited in every possible way.

The sleepy nation of Ethiopia which ambled along at the same old pace is becoming alive. Roads, schools, modern improvements of all kinds are the order of the day. The changes will be painful to many of the old natives who prefer the old order, and who never have had to work. But in record time a new nation is being built by the Italians.

Flood

Continued from page 1. Three feet of water. The Leon river, spilling its torrent into the Little river south of Gatesville, was on a 20-foot rise and had flooded a vast section of farming country. Coryell county's loss was estimated at \$100,000 and all other counties along the Leon, Little river and Brazos were suffering similar damage.

Forest Fire Danger Fades

Fog and Wind Help To Curb Blaze; Relief Work Started. MARSHFIELD, Ore., Sept. 30 (UP)—The weather and the wind helped to curb the forest fire that raged in the Brazos, with the possibility that its rise would reach the larger streams about the same time the Waco crest moves past Fort Sullen.

LABOR SHORTAGE IS FACED BY FARMERS ALL OVER COUNTRY

CHICAGO, Sept. 30. (UP)—Farmers in widely scattered sections of the country have another problem. One they have not experienced for six or seven years—a farm labor shortage.

A survey shows thousands of farm jobs available in Mississippi, where the labor problem in the cotton harvest is described as acute. Arizona, New York, Michigan, Indiana, Pennsylvania, South Carolina, Illinois, Massachusetts, New Hampshire and Connecticut.

A majority of the jobs are temporary during the harvest season, but there are reports of need for good "hired hands" in some sections outside the drouth area.

Wages for farm labor have increased 20 per cent in the last two years, according to the United States department of agriculture.

WPA projects in some states, including Massachusetts, Connecticut and Indiana have provided work for some men who ordinarily would be employed on farms, the survey disclosed.

Raymond L. Clapp, manager of the Middlesex county, Mass., Farm Bureau, reported: "A lot of farmers complain so many men are working on the WPA, it is difficult to find men to do farm work. Also there are probably a few more farm jobs this year because of good crops. The farmers say those on WPA get two days off a week and don't have to work the long hours required on the farm."

Crop Damage Less Than At First Thought

Contributions were being received here today for a fund to be sent to San Angelo for administration to flood sufferers. While many had made donations to committee workers, only the names of B. Resgan, W. C. Blankenship, Bob Cook, Cecil Collins and Pascal Buckner had been turned into the chamber of commerce as donors.

Chief Loss To Cotton Will Be In Lowering Of The Grade

Continued fair weather, and gradually rising temperatures today had softened crop loss estimates by farmers and many were beginning to admit that they were not damaged as badly as they had thought.

Cotton, it developed, was not hit as hard as was feared. Chief loss to cotton will be in cutting of the grade, most farmers agreed. On the basis of a hurried survey, it appeared that considerably less than 500 bales of production was lost by being knocked from the burr to the ground by hard rains. Mist and a slow drizzle stuck most of the lint securely into the burr before the harder downpours came.

While fair weather was improving the grade of cotton steadily, it was still off about 1.35 on the month, bringing an average of 10.80 here. Seed dropped off one dollar to \$30 a ton. New Orleans closed Wednesday at 12.20 bid for October, 12.15 for December and 12.13 for January. New York closed at 12.23 for October, 12.16 for December and 12.16 for January.

Ginnings were accelerating by leaps and bounds and gins gave prospect of becoming the busiest they have been all year by the end of the week.

A check Wednesday showed that bundle stuff already in shocks was

First Donations To Flood Fund Reported

Contributions were being received here today for a fund to be sent to San Angelo for administration to flood sufferers. While many had made donations to committee workers, only the names of B. Resgan, W. C. Blankenship, Bob Cook, Cecil Collins and Pascal Buckner had been turned into the chamber of commerce as donors.

New Scout Troop Is Organized Here

A new scout troop, which likely will become known as Troop No. 6, was formally organized Tuesday night in a meeting at the West Side Baptist church.

The troop will be sponsored by the American Business club, interested primarily in under privileged boys work.

Pat Adams conducted the Tuesday meeting as scoutmaster with Darold Wilson, field executive, John R. Hutto and Bob Bassetti, Troop No. 7 leaders, assisting. Rev. B. G. Richbourg and Henry Richbourg will serve as assistant scoutmasters.

Thomas E. Pierce, chairman of the local cubbing program, announced that he will call a meeting of a committee to select a cub master shortly for a southeast Big Spring cub pack. George Miller, Sam Atkins, and Goldie Miller, scouts, were named as den leaders.

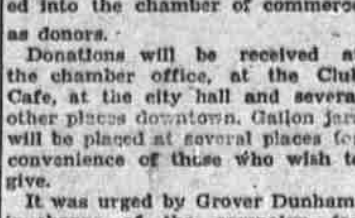

Wilson left Wednesday afternoon for Pecos where he will open a training school for scouters on October 5. While here he was the guest of Mr. and Mrs. Pierce. He is Mrs. Pierce's brother.

MOTORS DAMAGED

Fire Wednesday morning damaged the motors furnishing lifting power for the Petroleum building elevator. The motors stalled two weeks ago and Wednesday started out, causing the blaze. Amount of damage was not ascertained.

### Beauty and the Fish—Big Fish

Women anglers of Port Isabel begin training for the annual tarpon rodeo to be held at the tip of Texas October 7 to 11. Deep-sea fishermen and women, too, from many parts of the nation will compete for prize awards, as well as for the Silver Tarpon trophy and plaque awarded each year to the one "hooking" the greatest number of points. The rodeo is one of Texas' Centennial Celebrations. Last year over 75 of the big fish were caught. Catches now being made indicate that participants in this year's rodeo will have a lively time. From left to right the girls are Regina Nunnink, Dorothy Rotan, Juanita Baker and Barbara Boswell, all of the Rio Grande Valley.

### REBELS VICTORIOUS AT TOLEDO

This is the famous Puertade Arch in Toledo, Spain, captured by rebel forces in fierce battle with government defenders. The Fascist insurgents freed their comrades, besieged in the Alcazar for more than two months by leftist militia, and pressed toward Madrid, seat of the Communist government. (Associated Press Photo)

### Janet Olcott To Wed

Pretty Janet Olcott (above), daughter of Mrs. Chauncey Olcott and the late noted actor, will marry Count Philippe de Montaligu of Paris. The count is an auto racer and airplane pilot. The announcement was made at New York. (Associated Press Photo)

### A CLUE TO MISSING JURIST?

J. A. Bush (left), Leavenworth, Kas., undertaker, and Deputy Sheriff Fred Frey are shown examining the shoes worn by a man fatally burned near Leavenworth in March who they believe was Justice Joseph F. Crater, missing New York judge. Information on the body was sent to New York for checking. (Associated Press Photo)

### A KHAKI SALUTE TO THE GRAY

Harry W. Colmery (right), of Topeka, Kas., newly elected national commander of the American Legion, is shown at Cleveland as he saluted Harry Lane Lee, 57-year-old Confederate veteran of Nashville, Tenn., at the legion's closing convention session. (Associated Press Photo)

### His Hat Tours World

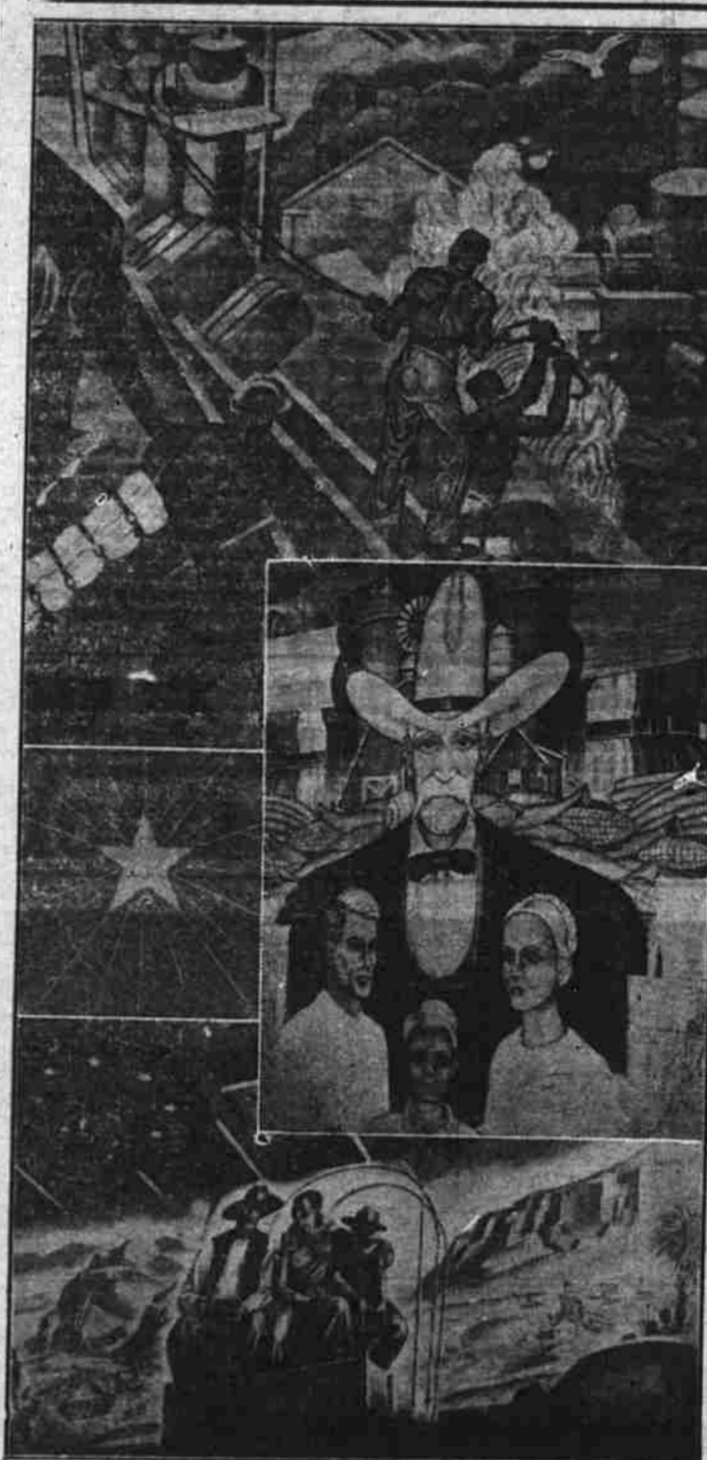

"Wickey the Hat," a green fedora belonging to Albert E. Wickey (above), retired St. Louis railway express worker, is touring the world while its owner stays at home. Friends started the hat last spring on the tour Wickey would have liked to have taken himself, and it's still going. Wickey has been besieged by telegrams and long distance calls telling of the hat's progress. (Associated Press Photo)

### A Jail 'Jinxed' Him

Albert Pitzer (above), told Denver police that life in the Rockport, Mo., jail, where his father was sheriff, "jinxed" him when he was arraigned on a confidence game charge. He asked the judge to show leniency because he intended to marry a Phoenix, Ariz., girl and didn't want the ceremony in jail. (Associated Press Photo)

### Murals Portray Texas Life

Expressive of the four sections of Texas, their beautiful natural resources and historical background are the elaborate murals which adorn the walls of the \$1,200,000 Hall of State, the dominating building of the Texas Centennial Exposition at Dallas. At the top a section of one of the giant murals found in the great hall portray two of Texas' foremost natural resources, oil and cotton. On the extreme left may be seen the prow of a sea-going freighter, representing the vast shipping industry of East Texas and the lower Gulf Coast. In the center mural, which hangs in the North Texas room, Old Man Texas is the predominant figure. The lower is unmistakably typical of the hazy West. The paintings adorning the walls of the Texas Building's great hall are reputed to be the largest in the world. They portray the story of Texas, both in the days of the republic and after statehood. Although opened but a few weeks ago, the magnificent Hall of State has won a place as one of the nation's foremost memorial edifices.

### POLITICS OVER A FENCE RAIL

Gov. Alf M. Landon (left), is shown chatting over farm problems with former Gov. Frank O. Lowden of Illinois at the latter's Sinsissippi farm near Oregon, Ill. The Republican presidential nominee spent a day at the Lowden farm during a campaign tour. (Associated Press Photo)

### ELEANOR HAS KICK FOR BRUNDAGE

Eleanor Holm Jarrett (center), backstroke star dropped from the American Olympic swimming team, said she would like to give Avery Brundage, chairman of the American Olympic committee and president of the A. A. U., a "wood swift kick." She's shown tuning up with Zella and May Wynne, sisters, at a Philadelphia theater where she is appearing with her husband. (Associated Press Photo)

### FERRY 'BUDGED' BY REDHEAD

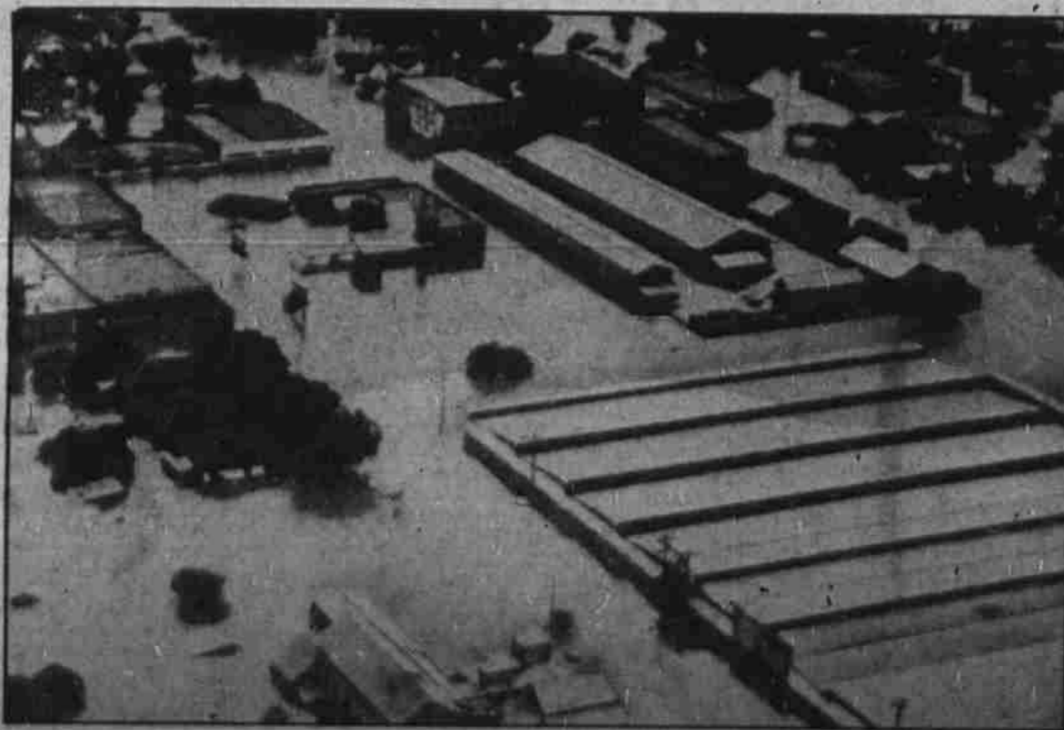

Donald Budge, Oakland redhead, is shown at Los Angeles as he fought his way to victory over Champion Fred Perry, of England, in the men's singles finals of the Pacific Southwest tennis tournament. Four thousand fans, including numerous film stars, saw Budge win 6-2, 4-6, 6-2, 6-3. (Associated Press Photo)

### 'THIS WILL BUTTER MANY A SLICE OF BREAD'

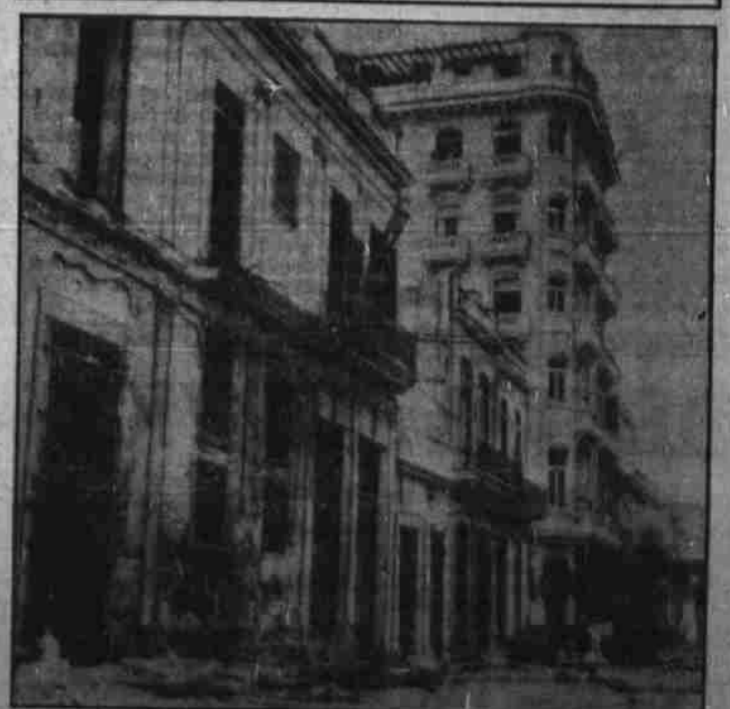

A bushel containing 10 pounds of Minnesota butter presented to Gov. Alf M. Landon on one of his stops near Minneapolis brought a broad smile to the face of the Republican presidential candidate. It was given the Kansas by J. W. Myers. David Hinshaw, Westown, Pa., is holding the gift. (Associated Press Photo)

### WHERE TEXAS FLOOD LEFT 2,000 HOMELESS

Two thousand persons were left homeless when surging waters of the Brazos River broke a levee and swept over residential and business sections of Waco, Tex. The city was placed under martial law. Ravages of the flood waters is depicted above. (Associated Press Photo)

### TRUCKLOAD OF DYNAMITE WRECKS HAVANA NEWSPAPER; 3 KILLED

A truckload of dynamite exploding in midtown Havana destroyed the newspaper plant El Pals (left) and Monserrate church, killing three, wounding scores and heavily damaging hundreds of residences. Official estimated damage at \$1,000,000. (Associated Press Photo)

### Cut Railway Rate Given Pupils To Texas Centennial

DALLAS, Sept. 30, (AP) — Texas school children were given a special rate of one-half cent a mile today for educational trips to the Centennial, a movement for which special district holidays were declared by Gov. James V. Alfred.

The rate, set by the General Passenger Agents' association after an appeal for lower rates from state school authorities and Centennial officials, will be given for delegations of 25 or more school children and their sponsors. The tickets will be for day coaches only.

The official visits of the state's school boys and girls are scheduled to begin Thursday with the arrival of children from the Panhandle counties, with Carl G. Cliff, Amarillo, superintendent of Potter county, as director of the tour. The children from that district, No. 1, will give special programs in the auditorium of the Hall of State at 11 a. m. Thursday and Friday.

The dog's-head butterfly has an almost exact likeness of a dog on each front wing.

## We Have Stated Before

—the aims and policies of this bank in respect to loans.

WE repeat them here in the light of what we believe to be changing business conditions,—which do not, however, change the basic principles of sound banking.

- Understanding of local business conditions
- Experience, efficiency and devotion to duty on the part of its staff
- Close contacts with the strength and progress of the American banking system
- Access to the best sources of general business and investment advice
- Operating policies free from selfish or narrow motives

With these aims constantly in mind this bank seeks active employment for its loanable funds.

FIRST NATIONAL BANK IN BIG SPRING

## Cole Bros.-Clyde Beatty Circus Will Show Here Oct. 14; Parade A Feature

Clyde Beatty and One of His Animal Performers.

Get ready—the circus is coming! The Cole Bros.-Clyde Beatty show, one of the major attractions of its kind in the country, will exhibit in Big Spring on Wednesday, October 14, at the show grounds on West Third and Bell streets.

One of the features of the circus will be the street parade, the Cole Bros.-Beatty show being the only big-time attraction that still makes the downtown review.

The famous Clyde Beatty menagerie, declared to be the finest and most complete traveling zoo in the world, is one of the major attractions of the show. The trained animal displays are headed by Beatty himself, considered the world's No. 1 wild animal trainer. His wife, Harriet Beatty, also appears in an animal act. Many new and costly specimens of the wild animal kingdom have been garnered from all corners of the globe for the circus display.

There are, of course, numerous other featured acts. A spectacle, "Serenade of Spain," is the prelude, with more than 1,000 people and all the show animals taking part. Recognized stars in all lines of entertainment are to be seen. Among the equestrians will be the famed Zavatva troupe; Cyse O'Dell is an intrepid aerialist; the Imperial Harolds make up another aerialist act; there is the famous Zoeppe family of equilibrist; 60 clowns will furnish fun for the little folks.

## Organizers, Not Orators, Swing Vote

### Noise On The Surface Has Little Importance In Campaign

By MYRON PRICE (Chief of AP Bureau, Washington) Probably nothing in politics is more deceptive than the shouting and tumult which marks the closing days of every national political campaign.

Then, after weeks of intermittent activity, the gyrations of the candidates and their chief spellbinders become constant. Day and night the flood of oratory rolls on, while rallies and torchlight parades whip the faithful into a state of exalted emotionalism.

To the uninitiated, it might appear that everything depended on which side out-shouted the other in these crucial final weeks. Actually, there are many practical politicians who wonder how often this outward noise and excitement really has had much to do with the result.

There are at least two good reasons for doubting the value of the final pre-election crash of drums and brass, in terms of votes.

One is the demonstrated fact that, under present-day conditions, only a small percentage of the voters remain open to conviction in the last weeks of the campaign. The other is the practical truth that in any close election it is not the noise on the surface but the organization work underneath which wins.

Decided Before Campaign Looking back over the past quarter-century, it is quite apparent in retrospect that every presidential election in that period save possibly one was decided no later than the

beginning of the campaign. The loser in each instance was a defeated man before he began the race, and the best he was able to do was to reduce somewhat the margin of his loss.

Yet not one of these defeated candidates failed to have rousing campaign meetings toward the end. Each stirred his listeners to noisy demonstration, but mostly they turned out to be listeners who were for him before he started to speak.

The unfluctuating character of the various polls of 1936 would indicate that this year is no exception. In almost every case the change in standing from week to week has varied only in such degree as might result from natural accidents.

The polls do not agree with another, being based on different methods and different principles; but that is beside the point. They do show roughly that nose-counts taken under a given set of circumstances or in a given locality have turned out about the same whether they were conducted early or late in the campaign.

They indicate little shifting ground, which in turn indicates that nearly all of the voters made up their minds long ago.

Work Important This Year Nor do the practical men of politics put great faith in the potency of public campaigning among that minor percentage of voters who still remain undecided.

It is the enthusiasts who pack political meetings. The more in-different stay at home from the parades, and they also stay away from the polls in great numbers on election day. By and large, they can be reached only by private persuasion and individual attention.

To capture that elusive percentage requires close organization down in the precincts, rather than oratory. Rather than frenzied shouting beforehand, it requires a definite assurance that every favorable vote can be brought to the ballot box. The public ballyhoo may be more exciting, but no competent political manager will let it divert his attention from the more serious work down in the underground tunnels.

In 1936, especially, this serious business will be undertaken with increasing intensity as election day nears. For in an unusually large number of states both sides expect privately that the result will be closer than usual; the submerged percentage of indifferent voters might provide just the margin which would tip the scales.

## Probe Fatal Train Wreck

### Officers Seek To Fix The Blame In Derailment On L&A Line

SHREVEPORT, La., Sept. 30, (AP) Officers searched for fingerprints today in their efforts to fix the blame for the Monday night wrecking of the "Huster," southbound fast passenger train of the Louisiana & Arkansas Railroad company, which ran through an open switch and killed two trainmen at Moore's Station eight miles south of Winnfield.

Aided by railroad special agents, state and local officers also adopted similar methods in their attempt to identify a group of men who seized fares from a truck and burned a 25-foot wooden bridge on the railroad a mile north of La-place four hours later.

The bridge was burned about 4 a. m. yesterday, Percy Bradford, driver of a New Orleans truck which was broken down near the scene, told officers.

Bradford said the men threatened him to "keep your mouth

shut," took his burning truck fares, which he had lighted for his own protection, fired the train with the use of kerosene from the metal containers and left the scene. Transportation workers of the L. & A. have been on strike since Sept. 19 under call of the four railroad brotherhoods which set out a list of grievances on wage claims and working conditions. Those killed in the wreck were H. H. Vaught, of Reanoke, Va., 33, an engineer in training for the run, but not in charge of the train, and J. T. Dempsey, of Texarkana, a railroad special agent. They were crushed to death under the overturned locomotive.

Big Spring Daily Herald

Published Sunday morning and each weekday afternoon except Saturday, by BIG SPRING HERALD, Inc. Publisher JOE W. GALBRAITH...

The Daily Washington Merry-Go-Round

By DREW FEARSON and ROBERT S. ALLEN (EDITOR'S NOTE: The most column that today pinches for the vacationing Merry-Go-Rounders, Drew Fearson and Robert S. Allen, is a letter to them from Mrs. Florence Fray...

By FLORENCE P. MAHN Congresswoman from California Dear Boys: I thought I had a great idea: a Pinch-Hitters' league composed of those stars, writers, actors, singers, noted and notorious, who have been doing all columnists' work while you cagey birds lolled on the beaches.

And I was going ahead at a great rate about shortstops and fullbacks when the family censor in the person of the son said: "You certainly are mixing metaphors. Shortstops are baseball players; fullbacks, football players. Why not write about something you know something about, if anything?" In the home a patient child chides an erring parent.

I used to look up at the press gallery and wonder what you fellows were paid for, anyway. Dash off a few words and draw a salary. Apologies. Now I know. Did you ever try to write a column in the middle of a campaign, a fight to the finish? Or rather, did you ever try to run a campaign in the midst of writing a column?

Have you any idea in these days of complicated living, unpaid war debts (and others), drought, conservation, taxes, trouble in Spain, and a real election fight, what running for office means? And you ask me for something light and humorous. Just can't be done. Ain't anything funny about it.

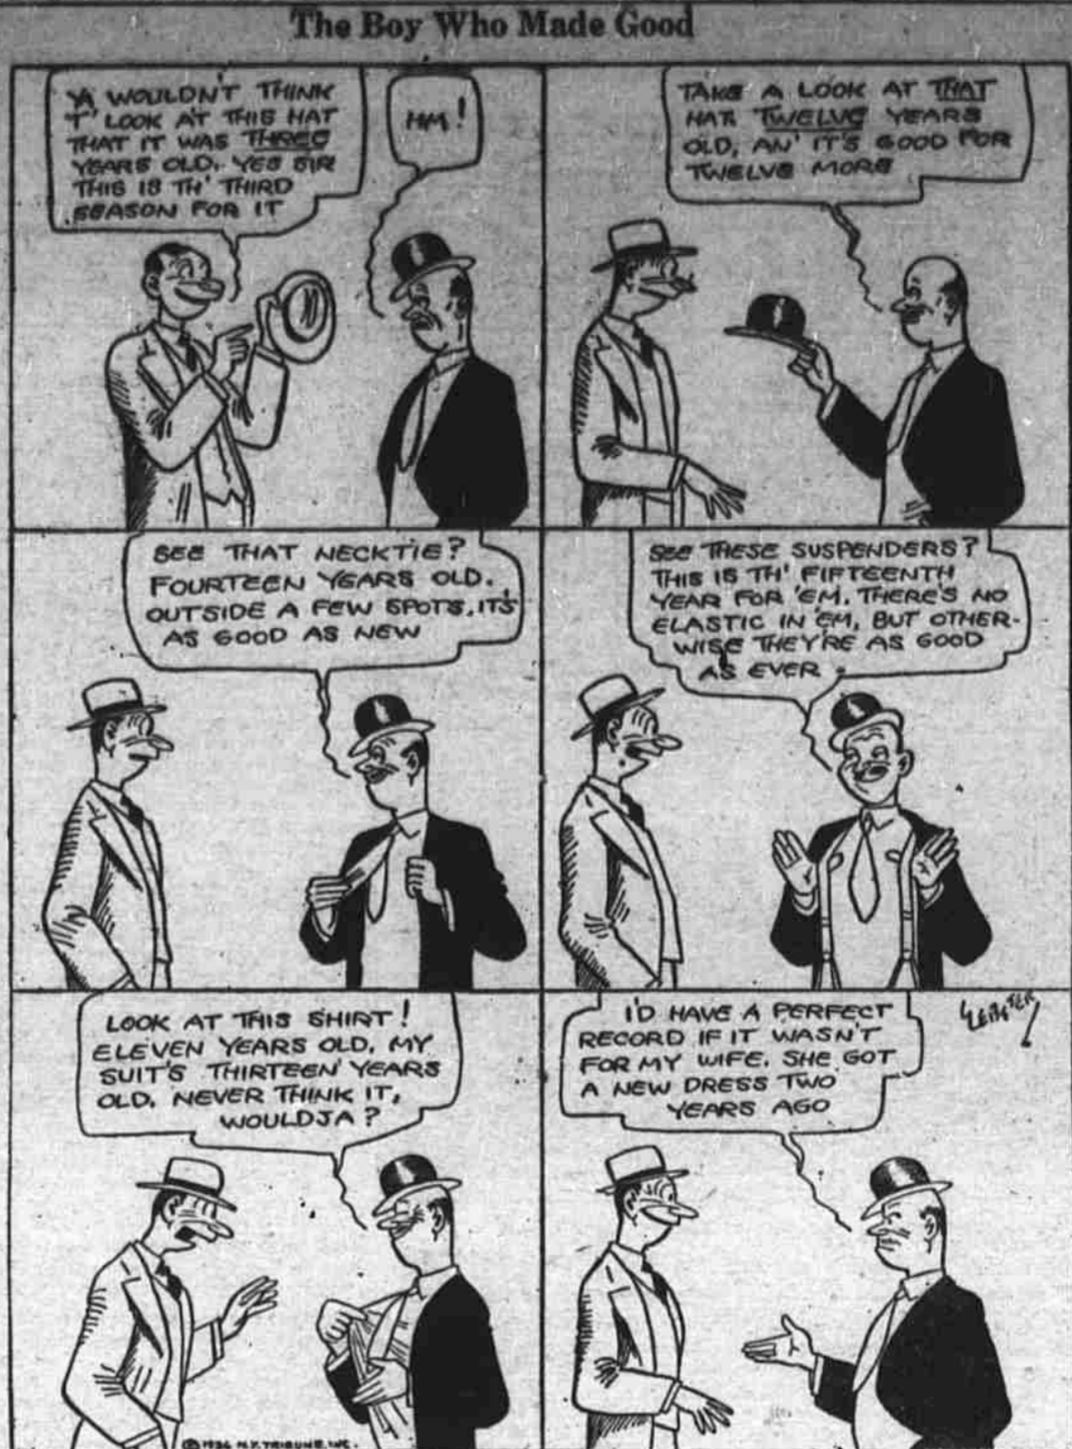

You know, boys, it is so much easier to write to you than for me to do for obvious reasons. I never realized before how one-tracked my mind can become; for all I think, eat, sleep, talk and dream is campaign. Hoping, hoping, wondering, working and now trying to convey that on this is almost too much even for me, as this open letter proves.

But without, this campaign is vital, and it is interesting. And one realizes the cosmopolitan character of San Francisco more than ever. A dinner in Chinatown, a meeting with the Slavonians, a most fascinating entertainment by the Russians, a dance given by the Russians.

As my son says: "During the campaign we eat in every language." How would you enjoy it. Sometimes it is hard to believe one is not in a foreign land; but under it all is a real Americanism. The great trans-hypan bridge is almost completed, and will be open to automobile traffic on November 12. Really, it beggars description, as it hangs 'twixt heaven and earth suspended, an everlasting monument to man's genius. And I saw circling over it the "China Clipper" taking off to Manila.

No words can describe the thoughts surging through one's mind 'nour the thrill at the sight of these two greatest of man's triumphs over nature, the realization of two great dreams. To me the plane is greater... off into the distant west, the man at the command, Captain Musick, quiet, modest, unassuming, loath to talk of his accomplishment as all real heroes are! It won't be long now before we will be "week-ending" in Shanghai or hopping to Honolulu to dinner.

I wonder if the youth of the nation are taking hold elsewhere as they are in the San Francisco political situation. Not only taking hold, but building organizations for future control, developing a real leadership. The enthusiasm, the earnestness, the willingness to work and to sacrifice are the most encouraging signs I have seen in many moons. What does it matter what political philosophy they are following, what economic theories they are deducing? They'll come out right in the end.

DAILY CROSSWORD PUZZLE

properties abutting on said portion of said street will be \$2.60; and the City Commission has determined to assess a portion of the cost of said improvements against the owners of property abutting on said portion of said street and against such property, and finds that the fair and reasonable and proper amount per front foot to assess against said owners of property abutting on said street, and against such property, is the sum of One and 23-100 Dollars per front foot of such property. It is, therefore, ordered that a hearing of such owners of abutting property and other interested persons be held on the 13th day of October, A.D. 1936, and it is further ordered that notice shall be given to the owners of property abutting on such portion of said street proposed to be improved, by advertisement inserted at least three times in the Big Spring Daily Herald, a newspaper published in Big Spring, Texas, the first publication to be made at least ten days prior to the said 13th day of October, 1936; said notice shall describe in general terms the nature of the improvements proposed to be made to said portions of said street, shall state the portion of said street to be improved, shall state that the estimated sum of One and 23-100 (\$1.23) Dollars per front foot is proposed to be assessed against the owner or owners of abutting property and against such property, and shall also state the estimated total cost of the improvements of the said portion of said street to be improved; and such notice shall state that a hearing will be held in the Corporation Court Room at the City Hall in Big Spring, Texas, on the 13th day of October, 1936, at 7:30 o'clock p.m., at which time and place the owners of property abutting on said portion of said street and all other persons interested therein will be heard as to any and all matters pertaining to said improvements and assessments proposed to be made against owners of property abutting on said portion of said street and against such property. The fact that the above described portion of said street is badly in need of improvements and it is important that same be improved as quickly as possible in the interest of economy in cost, constitutes an emergency necessitating the suspension of the rule requiring an ordinance to be read at three readings before passage, and such rule is hereby suspended and such ordinance shall become effective from and after its passage and approval as provided by law. PASSED AND APPROVED at a meeting of the City Commission this 28th day of September, A.D. 1936, all members present and voting for passage of same: C. E. TALBOT, Mayor.

PLACES FOR SKILLED LABOR

Like all other calamities that burst upon people unexpectedly, there is some exaggeration of the unemployment situation, as compared with ordinary normal times. Varying estimates of the number of unemployed are made, the census bureau giving one figure, the labor unions another and candidates for office, through their publicity agents, still other totals, none of which can in the nature of things be absolutely correct.

There is one feature of it however that is beginning to be pretty well settled, and that is that there is little unemployment of skilled labor over the country as a whole. That does not mean here in this county or this state, but the entire country. And this is evidenced by statements of employers of certain classes of labor that a shortage of skilled labor in many trades exists.

What is known as common labor—the man not trained to a trade requiring a greater or less degree of skill—has always had its seasons of unemployment. Thousands of the people who have been doing the work of the alphabetical agencies are men who were seasoned workers yet who were put at these works as being unemployed at times when their unemployment for a season always existed. There will never be a time in this country or any other when what is known as common labor has no periods of idleness.

Man About Manhattan

There is this situation whereby Harry Salter's apartment has become a "gambling hell!" Nevertheless it seems important to point out that the young maestro never takes anybody's coin. It's the hobby urge, followed for years, and now he has a collection of gambling equipment that makes Monte Carlo look like a cheap shell game. One of his most exciting possessions is an old roulette wheel that was used in a Tombstone, Arizona, gambling den. Then there's a cage containing three large dice. This "chuck-a-luck" or "bird-cage" game comes from Tia Juana, and is reputed to be over 100 years old. From carnivals and circus friends, Salter has gathered several "monte" games, of both the "shell" and card variety, and occasionally amuses friends by demonstrating their workings. He owns several pairs of dice used by western sharpers years ago. Some of which are "miss-outs" or dice with which it is possible to make a point, others which contain all sevens or eights. Coins with two "heads" or two "tails," playing cards from various parts of the world, and "cold" decks with which the old-time river sharks used to mulct the innocent, comprise the remainder of Salter's interesting selection.

Morton Bowe now has a collection of miniature ships that numbers 58 boats of varying shapes and sizes. Mort's hobby has always run to things marine, and in addition to the boat collection he possesses 30 plaques and bronze pieces depicting scenes of the sea. Then, too, his apartment is decorated with sketches, water colors and black and whites, all studies of ships or the ocean. Mr. Bowe has been gathering his collection since he was a child in New Jersey, and he continues to add to it by attending auctions and picking up pieces of merit. Phillips Lord has a collection of dime novels that might well be the envy of minors everywhere. Lord has over 400 of these "blood and thunder" stories and picks up the paper backed "literature" at book stores that feature second-hand departments. He has almost the entire "Frank Merriwell" output, and the adventures of Frank's brother, Dick Merriwell. These comprise some 120 individual books. The "Nick Carter" series is almost 100, and the adventures of "Jesse James" and "Diamond Dick" come in about 150 books.

Frank Black's hobby is one that the musical executive has been interested in for 20 years. He has collected hundreds of phonograph records, which range in type from classical music to "swing." Among them are many of the old style Edison records, garnered when Black was with a recording company, and a lot of piano rolls made as far back as 1910. Black himself used to make these piano rolls, and gets a big kick out of listening to his early efforts, which still reproduce quite clearly. It used to be that when a band or a dance team went on the road they were billed "Direct from sensational road on Broadway." But it's in reverse now. Ray Noble's orchestra, for instance, is now in the ritzy Rainbow Room, and the billed, "Direct from their triumph at the Texas Centennial Exposition." It works both ways, even on Broadway.

Table with 11 columns and 15 rows, containing numbers 1 through 46, representing the crossword puzzle grid.

The Lemke-Coughlin people made all sorts of overtures to that lone-some voter, to permit them to go on the final ballot as the Commonwealth Party, thus saving them the trouble and expense of going on by petition. California was among the first states to adopt a primary election law, and this year for the first time there is a real desire to amend it so that there will be again a definite party responsibility. Some people I've met on my Merry-Go-Round: an Irishman without a sense of humor... A woman who won't vote for me because I was instrumental in having the Bay bridge built... A man whose given name is Diodemus Socrates... A radical, simply infuriated at 100,000,000 people because he got a dirty deal from two or three thirty-cent deals through his own stupidity... A young communist who apologized for driving an expensive car by saying: "You know, my fortune is all in a trust fund, so all I can do to the interest of my party is to spend the income"... Finally—a chap who offered to vote for me if I'd pay his way through college. Honestly yours, FLORENCE P. MAHN.

LEGAL NOTICE

AN ORDINANCE OF THE CITY OF BIG SPRING, TEXAS, ORDERING A PORTION OF ELEVENTH PLACE IN THE CITY OF BIG SPRING TO BE IMPROVED, ORDERING A PORTION OF THE COST OF SAID IMPROVEMENTS TO BE TAXED AGAINST THE ABUTTING PROPERTY OWNERS AND SUCH PROPERTY, SETTING DATE FOR HEARING OF SUCH PROPERTY OWNERS, ORDERING NOTICE TO BE GIVEN OF SUCH HEARING, AND DECLARING AN EMERGENCY. BRAMLETT RECEIVES 50-YEAR SENTENCE

CARTHAGE, Sept. 28. (UP) - Silent and unsmiling, Terrance R. Bramlett, 21-year-old Jefferson, Tex., youth was arraigned before District Judge T. O. Davis yesterday to receive a 50-year sentence for killing Marie Childs, husband of Bramlett's sweetheart. The youth was convicted last week of killing Childs, crippled, wealthy former treasurer of Shelby county. Mrs. Reable Childs, wife of the slain man, was given a 25-year sentence. The tall, dark-haired youth who had accused Mrs. Childs of "pursuing" him and of herself firing the shot through a window of her home at Center that killed her husband, made no comment as he heard the sentence.

Appeal Is Renewed For Demo Funds

A renewed appeal for contributions to the democratic national campaign fund has been issued by Sam Richardson of Lamesa, democratic state executive committee-member of the 20th senatorial district. Richardson said in a communication to The Herald that his home county, Dawson, had gone over the top with its quota of \$638, and that most counties of the district have completed organizations and are raising funds. He urged that Howard county democrats mobilize forces to make their allotted contribution to the party's war chest.

SHIPPING TIE-UP ON WEST COAST FEARED

SAN FRANCISCO, Sept. 30. (UP) - An attempt to avert a Pacific coast shipping tie-up by mediation a few hours before the crisis, appeared today to be moving too slowly to accomplish its purpose. At midnight tonight, contract relations, arrived at after the industrial warfare in 1934, will end between western shippers and the powerful maritime unions. Unless deep-rooted disputes can be settled by that time, a partial or complete cessation of work on docks from Seattle to San Diego was believed inevitable.

Streamlined Music Next

PASADENA, Cal. (UP) - Streamlined music will be the next successor to "swing" music, according to professors of the Pasadena Community Dance. They have not yet defined just what it will be.

It is estimated that the average man shaves 20 square miles of face during a life time.

"Sandogs" appear when sunlight shines through a thin cloud of ice crystals floating in the air.

# Mrs. M. H. Bennett Is Hostess Tuesday For Luncheon Club

The Tuesday Luncheon club met at the Settles hotel for the regular meeting with Mrs. M. H. Bennett as hostess.

In the bridge games that followed luncheon Mrs. J. Y. Robb was high scorer.

Others who attended were Mrs. M. K. House, who will entertain the club on Oct. 13, Mrs. C. S. Blomshield, Mrs. E. V. Spence, Mrs. Harry Hurt, Mrs. R. V. Middleton and Mrs. W. W. Inkman.

# School Strike In 2nd Week

Children Kept From Classes Until Teachers Unionize

JASPER, Ala., Sept. 30. (UP)—A school strike, sponsored by union miners in an effort to force teachers of Walker county to unionize, continued today while a grand jury and state officials sought means of ending the controversy.

The strike, in its second week, approached a climax as parents joined their sons and daughters on the picket line, determined to close the schools unless teachers join the Federated Teachers Union and A. S. Scott, county superintendent of schools, resigns.

In summoning the grand jury R. L. Blanton pointed out state law made it a misdemeanor for a parent to keep a child away from school. Some observers saw in the judge's charge the possibility of wholesale indictments as at least 3,000 children were kept out of school yesterday by their parents.

The Cordova school reported rocks were thrown at the school building but that no damage was done. Teachers at the Summit school, an isolated rural mining section, reported parents had threatened to "horsewhip" them unless they stopped teaching or joined the teachers union.

# 4 BURN TO DEATH IN CRASH OF AIRPLANE

NAPERVILLE, Ill., Sept. 30. (AP)—An airplane carrying photographers to take pictures of a streamline train plunged beside the railroad tracks last night and burned four persons to death.

The dead: Oscar Harold, 28, Chicago, the pilot of the ship; Wilma Schaefer, a young girl passenger, Chicago.

Howard Adams, film director of a Chicago commercial picture taking firm (Widding Pictures Corporation). Ralph Biddy of Chicago, cameraman for the same firm.

A bascule bridge is one of one or two leaves which can be raised to a more or less vertical position. Delius was the name given to Apollo, supposed to have been born on the island of Delos.

# Teachers Are Complimented By Parents At Reception Tuesday

Approximately 100 people attended the reception for teachers given by the Parent-Teachers association at the high school Tuesday evening.

Guests were received by Mrs. H. W. Smith, association council president, Mrs. Hayes Stripling, council vice president, Mrs. Joyce Fisher, Mrs. King Barnett, and Mrs. R. D. McMillan, presidents of the school organization.

Mrs. Hayes Stripling, in charge of the program, introduced the following who took part in the entertainment: Women's quartet, Mrs. Victor Fawcett, Mrs. Fred McGowan, Mrs. Howard Thomas and Miss Edith Gay, accompanied on the accordion by Mrs. L. C. Graves; talk on parents' appreciation of teachers by Garland Woodward; talk by W. C. Blankenship, school superintendent; songs by Ira Powell, accompanied at the piano by Mrs. Powell.

Introduction of teachers to parents was made by the means of a Paul Jones arrangement. Teachers formed one circle and parents another. The music was played by Mrs. Harry Hurt, who also furnished piano selections throughout the evening.

Following the entertainment tea was served from a beautifully decorated table with Mrs. Kin Barnett and Mrs. H. W. Smith pouring.

New teachers who were introduced at the affair were Miss Opal Douglas, Miss Doris Thomas, both of south ward; Miss Milton Powell of east ward; Miss Esta Henderson of north ward; Miss Elwyn Wall-

ing, Miss Wilma Kendrick, Miss Eleanor Byary, Miss Dorothy Vandergriff, and James Cunningham of junior high; Miss Mary Joy Odum of west ward, and Miss Hazel McKaughn and Carmen Brandon, who teach at high school.

# Rebekahs Hold Business Meet Tuesday Night

Mrs. Fern Burleson, noble grand of the Rebekah lodge presided at the meeting Tuesday when the group met at the L.O.O.F. hall for the regular meeting.

Mrs. Hazel Lamar, funeral marshal, announced that she had received a funeral drill book and said that it was desired that members be present for funeral drill work Tuesday evening.

The box supper recently announced will be held Thursday evening from the hall at 7:30. The lucky party which was to have been held in connection with the supper has been called off.

Beginning with the first meeting in October, all future meetings will be held at 7:30 instead of at 8 o'clock.

Present at the meeting were Mrs. Nora Gulley, Mrs. Ora Martin, Mrs. Hazel Lamar, Mrs. Fern Burleson, Mrs. Willie Nell of Midland, Mrs.

# Children Eat Glass

PORT ORFORD, Ore. (UP)—Three Port Orford children believed it glass was good for chickens it should aid their digestion too, so they had broken glass for lunch. Lawrence Churchill, 8, and a son, 6, and a daughter, 4, of Mr. and Mrs. G. B. Ragsdale have showed no ill effects of their diet.

# Another Question About CARDUI

MOTHERS RECOMMEND IT "Why do so many MOTHERS recommend Cardui to their daughters?"

Isn't it but natural that any good mother should tell her daughters about Cardui if the mother herself felt that she had been benefited by this medicine?

It is impressive that so many women report having taken Cardui on the advice of their mothers. Cardui has been found to benefit women when weakened by malnutrition (poor nourishment); it helps to relieve much discomfort at monthly periods. Thousands of women testify Cardui helped them. Of course, if it does not help you, consult a physician.—adv.
