

## MANY LOCATIONS NEAR PAMPA

### FOUR INJURED WHEN CAR SKIDS ACTION FAST AROUND PRAIRIE M'CONNELL IN ROXANA FIELD

#### Pampa Production Co. Has Favorable Showing

Officials of the Pampa Production Company state that they are practically sure of a good well in their test on the Leopold place four miles northwest of Pampa. The Gray County Petroleum Company hit the big time at 2395 feet in their test on the Herndon farm about a mile and a half further out than the Pampa Production well.

According to Oil men connected with the company, the obtaining of the big time at this depth means that the 600-foot contour line shown on most maps of that immediate territory, must be raised to from 750 to 800 feet in order to make them accurate.

Carl C. Adams, geologist for the company, is making changes on his maps of the particular territory to correspond with the formations struck by the nearby wells.

#### USEFUL ARTICLES MADE BY PUPILS

#### Material Furnished At Cost And All Work Is Done Free

The department of Vocational Agriculture of the Pampa High School under the supervision of J. L. Lester, made many and varied useful articles in shop work during the first semester of school. The department has a well equipped workshop with practically all of the tools that are found in the average rural workshop. The idea of the department is to train the boys how to make useful articles that are used on the farms and ranches.

"Persons who live in the country cannot run to a blacksmith shop or repair shop every time they need something like the city folk do," says J. L. Lester, instructor in the department.

A record is kept of each article that is made by the students. Many persons, organizations and firms, furnish material for articles and leave the specifications at the school workshop and the students turn out the finished product. The actual cost of the materials used is the only charge made for such articles.

The following is a list of articles and the work completed during the first school semester:

Installed 470 school desks; made 6 sand tables for use in the primary department; built 7 reading tables; chalk rails for six rooms in the school, including installation; 6 sets of book shelves for the school; 2 song book racks for use in chapel; mail racks for school including 12 pigeon holes for the members of the high school faculty; question box for English department; 18 rulers and 1 down box for the English department; paper and magazine rack for high school; repaired 7 chairs and several desks; repaired cleaned and varnished desk in superintendent's office; made 3 small stands for Methodist Sunday School; 1 small house to cover large gas meter, material furnished by Pampa Gas Company; soldered and repaired tanks and radiators on cars of citizens and patrons; the following were made for various homes of the students, ironing boards, sleeve boards, milking stools, bowser stands, nail holders, tool carriers, strap ladders, etc.

The class work in connection with the department is given equal emphasis with the practical work.

Miss Mrs. J. D. Burns and Mrs. W. H. Hodges of White Deer attended the funeral services of Mrs. I. W. Heare here last Sunday.

Mrs. Jack Montgomery, Mrs. James Johnson, Mrs. Marvin Darty, Mrs. G. C. Springer and Mr. and Mrs. Clement of Miami attended the funeral services of Mrs. I. W. Heare last Sunday.

#### ALL OF OCCUPANTS PAMPA RESIDENTS

#### Cut And Bruised When Auto Turns Over On Miami Road

Four people were injured Sunday evening when a Studebaker Sedan turned over at a corner two and a half miles northeast of here on the Miami road. The persons injured were: Miss Golda Jameson, Mrs. Cooley, Mrs. Noey Meadows and the driver of the car, Gordon Salisbury.

All of the occupants of the car are suffering from body cuts and bruises, and Mrs. Cooley sustained a broken hip. Miss Jameson suffered a severe cut on the leg. Temporary bandages were placed on her leg at once which probably saved her from bleeding to death. Mrs. Meadows was badly bruised, and medical authorities have not yet determined to what extent she was injured.

Salisbury is suffering from an injured hip. He was in another automobile accident about two weeks ago and received minor injuries.

All of the persons were thrown out of the car. The auto skidded as it went around the corner, and it is thought that Miss Jameson grabbed the steering wheel while the car was spinning.

The party was going to the home of D. H. McPeck, grandfather of Miss Jameson. Mr. McPeck has been seriously ill, and he sent for his relatives to come to his home. He is the father of Mrs. I. S. Jameson.

#### Funeral Services Held Sunday For Mrs. Heare

Mrs. Olive Irene Heare died at 7 o'clock Saturday morning at the home of her parents, Mr. and Mrs. F. P. Reid. Death was due to pneumonia. Funeral services were conducted by the Rev. F. E. Hicks, assisted by the Rev. James Todd Jr., at the home of Mayor Reid at 2:30 o'clock Sunday afternoon. Burial was in the Fairview cemetery.

Besides her parents, she is survived by her husband, I. W. Heare, and two small children, F. P. Jr. and Mary Belle; and three sisters, Mrs. S. P. Cox of Mobeetie, and Mrs. G. C. Crocker and Mrs. Otto Use, both of Pampa.

She was born in Glen Williams, Ontario, Canada on March 22, 1895. She moved with her parents to Mobeetie, Texas in 1897. On April 1, 1919 she was married to I. W. Heare of Mobeetie. She and her husband lived on a ranch near Mobeetie for a few years and then moved to Pampa.

Mrs. Heare was united to the Methodist Church when she was 12 years old. She was active in church and Sunday School work. She was a member of the Eastern Star Lodge.

#### NO SMALL POX IN SCHOOL DISTRICT

#### New Pupils Entering Required To Be Vaccinated

There is not a case of small pox within the entire Pampa Independent School District, according to a survey that has just been completed. More than half of the children in the schools of this district have been vaccinated, and others will be vaccinated at once.

All children entering the school that have moved from out of the district have to be vaccinated before entering school here, or else present a certificate showing that they have been vaccinated within a specified time.

The small pox epidemic gained the greatest headway in Amarillo, but it is reported to be under control there now.

#### Alanreed Merchandise Store Robbed Saturday

The general merchandise store of W. J. Ball at Alanreed was robbed of merchandise valued at from two to three hundred dollars Saturday night. No trace of the thief or thieves has been found.

Marks on the door show that entrance was first attempted by boring in at the door. Entrance was made through a rear window with the aid of a pinch bar. A typewriter and an adding machine were taken besides the merchandise.

#### SCHNEIDER HOTEL TO BE FIRE PROOF

#### Only Steel Furniture To Be Used In 110 Rooms

The brick and steel work on the new Schneider Hotel Building has been completed to the first floor. The brick work on the kitchen, which is annexed on the west side, has been completed on the first and second stories. The kitchen will be only two stories high but the main part of the building will be five stories.

The contractor was delayed about two days on account of material. A carload of stone to be used above the doors and windows, was delayed in a wreck near Quannah last week. Unless further delay is encountered, the contractor estimates that the work is running according to the schedule so that the building will be completed by May 1, which is in accordance with the contract. Steel framework and metal laths are being used throughout the building, making it as near fireproof as is possible. The only wood or other inflammable material being used in the construction is in the window frames and doors.

The rooms will be equipped with steel furniture, including beds, dressers and tables. The elevator shaft is being constructed a story ahead of the rest of the building so that it can be used to hoist material that is used in the construction work.

#### SEASON SCHEDULE OF SCHOOLS MADE

#### Pampa Teams To Have Fast Basketball Contests

The Pampa High School basketball teams will play the first games of the season on the regular schedule Thursday with the Canadian teams. The boys and girls teams will play on the same schedule this year. The game will be played on the Pampa court.

The schedule for the season is: Canadian at Pampa, Feb. 3. Pampa at Miami, Feb. 4. Miami at Canadian, Feb. 5. Pampa at Canadian, Feb. 9. Canadian at Miami, Feb. 11. Miami at Pampa, Feb. 12. Other games that have been scheduled as "extras" and will not count in the tournament are: Pampa at White Deer, Feb. 1. Alanreed at Pampa, Feb. 2. White Deer at Pampa, Feb. 3. Pampa at Shamrock, Feb. 25. Panhandle and Wheeler will both play practice games here, but the date has not yet been determined.

Season tickets for the games to be played at Pampa are on sale at one dollar.

Superintendent Golden of the Miami Schools, called R. C. Campbell, superintendent here, by wire Saturday and completed a basketball schedule for the season. The Miami teams are being trained by Coach Stovall.

#### OPEN SEASON ON DUCKS IS CLOSED

#### Most All Wild Game Under Protection For 6 Months

The open season on wild ducks and geese closed last night at midnight. No law protected game of any kind can be lawfully killed for the next six months. The open season on prairie chicken starts September 1 and lasts for ten days. The dove season also opens on September 1 and continues open for two months.

Hunters from various parts of Texas and other surrounding states visit the country surrounding McLean, Shamrock, Wheeler and Mobeetie every year while the season on prairie chickens is open. The birds are usually plentiful in this particular section.

More than 900 hunting licenses were issued to persons living within the city limits of Pampa during the past hunting season. Many hunters went from here to New Mexico on hunting trips. The bulk of the hunting in this particular territory was for quail and deer.

E. R. Turman, special deputy game warden with headquarters in Pampa, reports that there were but few violations of the game laws in the county during the past season. The state law protects all of the specified animals and birds except in open season.

#### NEW POST OFFICE FOR KINGSMILL

#### Building Complete And Fixtures Are Being Installed

The building for the Kingsmill Post Office has been completed and the fixtures are being installed this week. Everything will be modern in the building, and 584 lock boxes are included in the equipment. The quarters are located in the North Kingsmill Addition.

W. W. Massey, postmaster, has been in Pampa cooperating with Postmaster W. A. Crawford as to the proper installation of the new equipment. The population of Kingsmill has grown to a sufficient number to warrant a new building and fixtures, according to the schedule of the federal authorities.

Three clerks will be employed as soon as the new post office is open for business. Roxana and Skelly both have applications in for a post office now. Word is expected from the federal authorities within a few weeks as to the action that will be taken. Box offices will be routed out of Pampa if they are established.

#### Time Expired On All 1926 Auto Licenses

The time for obtaining 1927 automobile licenses expired last night at midnight. Many applications were turned in yesterday and last night. Between 2500 and 3000 license plates have been issued to date this year. Last year, at this time, less than 1000 plates had been issued.

All persons found operating a motor vehicle without displaying 1927 license plates will be arrested and charges filed against them, according to Sheriff E. S. Graves. The regular time expired about thirty days ago, but an extension of time was given due to the large number of persons that had failed to get new tags. No further extension will be granted, according to the Sheriff.

Mayor F. P. Reid made a business trip to Mobeetie and Wheeler yesterday.

#### Several Completions In The Field South Of Pampa Are Expected To Make Increase When Deepened

Numerous locations have been made during the last few days around the Prairie Oil Company's McConnell number 1. This well came in Thursday evening for a production of 100 barrels per hour, and increased to 3600 barrels per day by Friday morning. The well is still maintaining the high production with a natural flow.

The material for six or eight new derricks was on the ground near the McConnell well Saturday morning. The attitude of the leading oil operators is that this particular area will be given some of the fastest play that has been evidenced in the entire Panhandle. The McConnell well is located about eight miles west and one and one-half miles north of Pampa. It is four or five miles east of Roxana.

Most of the land in the Roxana territory is cut into small tracts and is owned by various companies.

A pipeline for the new gusher is being run into Kingsmill. Only a small amount of storage was available when the well came in, and it had to be capped while the line is being run.

More 55,000 barrel steel storage tanks are being built at Kingsmill west of here all of the time. The first tanks were erected on the south side of the Pampa road, but the building has moved over to the north now. The Texas company has two sections of land practically covered with the huge tanks. Oil valued at millions of dollars is now stored in the several tank farms.

Oil field supply houses here report that material is moving faster every day to both of the fields west and south of Pampa.

The number 1 Percival has been spudded in six miles due west of Pampa. It is in the trend of the Roxana pool from northeastern Carson County to northwestern Gray County. The well is owned by R. R. Osborn.

The Prairie Oil and Gas Company's number 1-B Merten in the field south of Pampa made 27 barrels an hour after a 60 quart shot at from 3200 to 3,22 feet. It is located in section 81, block 3. The Empire Gas and Fuel Company is fishing in the number 1 Huey in section 129, block 3 at from 3120 to 3150. The well came in for a production of 50 barrels before the tools were lost.

The number 1 Chapman in section 10, block 1, of J. G. Lane and W. A. Goforth is drilling at a depth past 3,100 feet. Several wells in the south field are expected to increase in production as soon as they are deepened.

#### BAND COMMITTEE REPORT SUCCESS

#### Meeting Of Applicants To Be Held First Of Next Week

More than 50 names have been turned in to the committee here that is completing plans for the organization of the Pampa band. A meeting called the first of next week for all of the applicants that have turned in their names.

Laverne Lavender is chairman of the committee that was appointed at a recent meeting of the Chamber of Commerce. The other committeemen are J. D. Sugg and W. C. Upton. Everyone that can play an instrument, or is willing to learn, is asked to leave their name at the office of Lavender and Lavender at 265 West Foster Avenue, or at Frasers and Upton's office in the Sharp Building, or at the News office or at the Gray County Printing Co.

A practice meeting will be scheduled at the meeting next week, and tryouts will be held. Several experienced band men have assured their assistance in making the Pampa Band one of the best in the Panhandle.

#### C. OF C. TO HOLD SOCIAL MEETING

#### Program Scheduled For Thursday Night Complete

The first of a series of programs will be given at the Chamber of Commerce meeting Thursday night at the White Deer Land Building. The organization plans to have a meeting every two weeks, and a business meeting every two weeks. Special numbers will be arranged for each social meeting.

The program scheduled for Thursday night is:

Orchestra Selections.  
Piano Solo—Mrs. Rose.  
Quartette Numbers.  
Vaudeville Number—Grand Theatre Special.  
Song and Dance—Mr. Potts.  
Special Attractions.

Everyone is invited to attend the program. No admission charges will be made at any of the entertainments, all of which will be sponsored by the members of the Chamber of Commerce. The program will begin at 8 o'clock.

The members will hold the next business meeting a week from Thursday night. Several important matters are scheduled to come up at that time.

#### BROTHER OF BERT HOWELL LOCATED

#### Lives Here But Hadn't Heard Of Brother's Death

Funeral services for Bert Howell, who was found dead in a cabin here last week, were held at 6 o'clock Sunday evening. Burial was in the Fairview Cemetery. Services were conducted at the grave by the Rev. James Todd Jr.

A. C. Howell, brother of the deceased man, was located here Saturday. A wife to Miss Velma Howell, step sister of Bert Howell, was sent Saturday, and she sent information back to Pampa stating that a brother was working here for one of the oil companies. Officials made inquiry here and located A. C. Howell. He stays at the Otson Rooms, and is employed by the Gulf Company. He had not yet heard of the death of his brother.

Howell's body was found last Tuesday afternoon in a cabin operated in connection with the Schaffer Hotel. Mr. and Mrs. Schaffer went to the cabin to change the linen in the room when they discovered the dead man. The officials here were notified, but no trace of relatives was found until Saturday. G. C. Malone, funeral director took charge of the body until the relatives were located.

N. A. Dickson, manager of the Grand Theatre, has been confined to his home for the past few days suffering from an attack of influenza.

**Mother's Cook Book**

Not by the size of their houses or lands,  
Or their golden coin in the bank;  
The number of servants that come at  
their call,  
And not by their titles or rank;

Not by their acres of waving grain,  
Or their animals prized in the pen;  
Not by the riches of forest or mine  
Do I reckon the wealth of men.  
—W. Howay.

**PUDDINGS AND SAUCES**

**COTTAGE** pudding is one of the easiest desserts to prepare and one that is usually well liked. The advantage of a pudding in this form is that what is left over may be served for tea cake.

**Cottage Pudding.**

Cream two tablespoonfuls of butter, add one cupful of sugar and when well mixed the yolks of two beaten eggs. Mix one and one-half cupfuls of flour with two teaspoonfuls of baking powder and one-half teaspoonful of salt. Add the dry ingredients with one cupful of milk alternately to the egg and sugar mixture, beat well and pour into a shallow pan. Bake 15 minutes; serve with any desired sauce.

**Lemon Sauce.**

Take one tablespoonful of corn starch or two of flour, one-half cupful of sugar, the grated rind of a lemon, a pinch of salt and one cupful of boiling water; after the dry ingredients have been well mixed, add the juice of a lemon and cook, adding two tablespoonfuls of butter and a dash of nutmeg just before serving.

**Golden Cream Sauce.**

Beat one egg until light, then add three-fourths of a cupful of sugar. Add one cupful of stiffly whipped cream, and lastly two tablespoonfuls of orange juice and one of lemon. Served on brown betty, this sauce is especially delicious as well as on tapioca.

**Hard Sauce.**

Cream one-fourth of a cupful of butter, add one and one-half cupfuls of powdered sugar, the grated rind of half a lemon and two tablespoonfuls of lemon juice. An egg may be added, using more sugar, making a richer sauce. This hard sauce will keep in a cold place for a long time.

**Cows Produce Milk According To Feed**

Many owners of dairy cattle fail to give the good cow sufficient feed above that required for carrying on her bodily functions, says the United States Department of Agriculture. The highly specialized dairy cow returns in the form of milk practically all of the digestible nutrients in the feed given her except those for body maintenance. Nearly all highly specialize milk producers lose weight in the early part of the lactation period, but the normally regain it toward the end of the milking period. The dairyman can well afford to feed such cows liberally.

**The Hotel Stenographer**  
By Rose Fulkerson

**SOME** peach." The Hotel Stenographer looked after a woman passing through Peacock Alley.

"I don't think women are as good looking as they used to be." The House Detective shook his head.

"Nothing is," agreed the girl, succinctly.

"Nothing is what?"  
"Nothing is as good as it used to be," she answered. "Your liver is not; that pair of pants you have on are not; the electric tower at Luna Park is not; you are not."  
"But they still make new models of silvers that are as good looking as your Lizzie ever was, the tailors turn out new spring models of pants as snappy as those were when you first bought 'em, and architects build better looking electric towers today than that one at Luna Park ever was and there is a new crop of young Irishmen coming into the world every year, better looking than you were the day you went on the force."

"Kelly, green apples do not taste as good to you as they did when you were a small boy, but the boys of today get from them the same delicious flavor and the same tummy torture they had when you were a kid."

"All old times were good times, Kelly. That is because memory retains only the happy things. The first sign of age is the disposition to think that things now are not as nice as they used to be. We generally disapprove what we no longer can enjoy. Because that woman passed you without giving you the once over, is no indication she is not all I said she was. Your peevish indicated you are getting old and all the unattractiveness you think you see is in your eyes and not in the people you see with 'em. If that doesn't hold you for the rest of the morning I don't know how."  
(© by the McNaught Syndicate, Inc.)

A. C. Converse was in Pampa yesterday on business

since they will return the feed in the form of milk when they again freshen.

**NEWSPAPER ADVERTISING**

By J. W. CRAIG  
The merchant who looks upon advertising as a business proposition rather than an expense, and puts time and thought in his advertising is the one who profits most. Advertising is a business, just as essential to the handling of good merchandise as employing competent help. It requires knowledge to write effective advertising. Some merchants do not know how to advertise—therefore they have not seen the results from it they expected. Instead of analyzing the situation and trying to find the cause of failure they have decided advertising didn't pay. All advertising has a reason for its success or failure. It may be circulation, poor copy, unseasonable merchandise or other reasons why some advertising has not paid. It takes time to build a business, and it takes time to build confidence through advertising. All the advertising in the world won't sell inferior goods over a long period of time. Soon, people will not believe the advertising statements of this store, no matter how alluring the advertisement.

Therefore, good merchandise and truthful advertising are most essential to the building of a business. To slight advertising is to slight business for there are opportunities every day in the way of advertising and a merchant can avail himself of these many opportunities if he will look about him. Advertising is the show window of your store, presented to the prospective customer through the newspaper. No merchant who is progressive would think of slighting his show window. He takes special pride in it, but only those who pass the window see it. On the other hand the newspaper carries its show window to the homes, and the word picture will attract people to the store instead of a glance at the window as they pass hurriedly by. Advertising has been responsible for every advancement of modern times. Several millions of dollars more have been spent in 1926 for display advertising than in 1925 and as long as advertising continues to excel prosperity will not come to an end.

**It's Quality You Want**

**AND QUALITY AS WELL AS PRICE IS WHAT WE ARE OFFERING YOU**  
The Designing, the construction and the Finish of the Furniture we sell gives it a distinctiveness which can not be surpassed. In our immense stock may be found complete furnishings for the modest home or the home of the well-to-do, and we guarantee to please the taste of the most critical.

**PRICE—QUALITY**  
While we are offering unusual quality, we haven't overlooked the fact that in furnishing a home one must buy as economically as possible and still get the desired effect. And that is where we render a real service by giving low prices on high quality.

**THE REASON WHY**  
Of course there is a reason—Quantity buying. We are operating three busy stores, and there is a continual flow of high grade furniture going through these three outlets to the buying public. Buying for these three big stores enables us to get quantity prices and the public saves the difference.

Come in at once and let us help you plan that new home or refurnish the old one. There's satisfaction in Malone Furniture and Malone Service.

WHAT IS IT

Is it "are" or are it "is". The Burlington Railroad wants to know. This argument started when the road sought to tell the world through advertising space that along its right-of-way "is" or "are" produced two thirds of the oats, more than half the corn, etc., in the United States.

The advertising agency wrote "is" in the copy. The passenger traffic manager changed it to "are" and the traffic vice-president changed it back with a caustic remark about the grammar of the passenger department, if any.

Then the passenger traffic manager called members of the faculty of the University of Chicago into conference. They told him he was right. The vice-president asked members of Northwestern University's faculty. They said he was right, positively. Then while the traffic manager dashed off a letter to Harvard, the vice-president wrote to a lexicographer. One said "is" the other said "are". Yale says "are", Princeton says "is".

So there the matter stands.

THE FUTURE MAN

The National Physical Education Association is of the opinion that the man of the future will be ultra intellectual but perhaps baldheaded toothless and spindle-legged.

If this should be true, coming generations may look back on the modest beauty of today as fondly as we now dream of the "glory that was Greece."

This prophesy is probably exaggerated and yet it is not altogether gymnasium propaganda. It criticizes the educational system which keeps children busy with home work during their out-of-school hours and favors a regular business-day schedule in the schools so that home work will not be necessary. It speaks of "spectator athletics" as working contrary to "the greatest good to the greatest number." It ridicules the popular profession of "reducing." In short, it suggests that physique is fully as important as brains, business, entertainment and culture.

The drastic description of the future man should at least be a hint to the too wise to remember that "a thing of beauty is a joy forever."

SHE TELLS THE STORY OF MANY OTHERS

Dr. W. C. Rountree, Tarkenton, Texas. Dear Doctor—About 8 years ago I was taken with a bad case of stomach trouble. I got better in Winter and worse in Spring and Summer. I suffered untold agonies, took many kinds of medicine and found no relief. After four years I broke out with something that looked like sun burn. At first it appeared on my hands, later on my face and neck. My mouth got sore, feet burned and swollen until I could hardly walk. My heart beat too fast and I had a burning in my chest. Some one sent you my name and you sent me one of your little books and Questionnaire, but I did not order your treatment at first. I wanted thinking I would get better, but instead I got worse. Finally I got so bad that I could not walk 30 steps without resting. I ordered your Pelagra treatment and on the 20th day of July 1925 I began taking it. I soon saw that it was helping me and by the time I had taken one treatment the rash and many of the other symptoms had disappeared. I have taken four treatments and am entirely relieved of all symptoms of Pelagra. I appreciate the honesty and kindness with which you have dealt with me, for I have found everything that you told me about the treatment to be just like you said. I want to tell all who have this disease to get out ordering your treatment like I did for while they are waiting this terrible disease is stealing their life away. (Signed) Giovanni Taylor, Rt. 1, Box 105, Tarkenton, Texas.

BREAKS JAIL IN WHEELER COUNTY

Second Occurrence In Mobeetie During Two Months

Mobeetie, Texas—Crawling thru an opening six and one-half inches wide and fourteen inches high, J. H. Graham, an army deserter who had been lodged in the Wheeler County jail Sunday, escaped and left for parts unknown.

The escape was made about four o'clock Tuesday morning. The story of his escape as shown by the evidence he left behind him is something like this:

From the time he was lodged in jail he started the hunt for a means of escape. He discovered a place where one bar had been sawed out of the window some time ago. An attempt had been made to weld this section back in with an acetylene torch but the weld was not a good one and only a very small portion of the bar had actually been welded.

Graham had not been confined in a cell but was loose in the run-around. He was sleeping on a cot about six feet from the window, through the bars of which he escaped. He had spread his quilts on the floor so he would make no noise in going from the cot to the window through the bars of which he escaped. He had spread his quilts on the floor so he would make no noise in going from the cot to the window. Blankets were tied together to form a rope from the window to the ground over the front porch of the jail.

The portion of bar which is dislodged is missing. Graham must have taken it with him as a souvenir as he is said to have been a jail breaker, his record since his escape tending to support that theory.

How he managed to wedge himself through the small opening is hard to understand when it is remembered that he was a man weighing between 140 and 150 pounds.

A bundle of clothing which apparently he had wrapped to take with him was left behind on the jail porch.

Graham stopped at the home of Gus Laquey near Kelton early Tuesday morning and inquired about breakfast but he did not wait for it to be prepared.

Graham talked to his wife over the phone Monday and it is thought that he will head for the place where she lives.

Officers are confident that he will be apprehended before he can reach Fort Sill. He had said that he was going to turn in and take his medicine.

This is the second jail break here in recent months, three prisoners escaping the last time before this. —The Mobeetie News:

S. J. Spears, manager of the Malone Furniture Store No. 2, has returned from Kansas City where he has been purchasing stock for the store.

**Radioed From USDA**

**Test Of Cream**  
The sweetness or sourness of cream has nothing to do with its test. However, if you will let a small sample stand exposed to the air for several days before testing, it will test more because some of the water has evaporated.

**Safety Through Pasteurization**  
Pasteurizing, or heating milk to a certain temperature, kills the bacteria which sometimes cause disease in people—and also the milk to go sour, etc. Disease-causing bacteria aren't present in the milk when it comes fresh from the cow—unless the cow herself is diseased. But they get in from other sources such as contaminated water in which the milk utensils are washed. Don't take a chance.

**Proper Pails**  
Never use galvanized iron pails for milking because the acids in milk act on this metal and they're also hard to clean. Avoid wood and other porous buckets, too. Dairy utensils should always be made of material that is non-absorbent, easily cleaned, and not readily affected by milk. Buckets made of sheet metal, heavily tinned, are satisfactory—but be sure the tinning is always in good condition. Rusty utensils give a bad flavor to milk.

**More Work For The Cow**  
The big increase in butter production is explained by increases in population and in per capita consumption. In 1918 the average consumption of butter per person in the United States, was 14 pounds. In 1925 this had increased to 17 pounds. Cheese consumption increased during the same period also from 3 pounds to 4 1-4 pounds per capita, and ice cream for ms little over two gallons to almost three gallons per individual. There was a large increase in the per capita consumption of milk. It jumped from 43 gallons in 1918 to 54 3-4 gallons in 1925.

**Facinating Youth Up-to-the-minute**

"Facinating Youth", with the highlights in the lives of the younger generation, will show at the Crescent tomorrow night. To describe it briefly, it is a zippy, up-to-the-minute comedy of glorious youth.

Richard Barthelmess in "Ranson's Folly," will show Thursday night. As a lieutenant, the star is a rollicking, dare-devil young officer on the Western frontier during the Indian Wars.

Red Grange in "One Minute To Play" is coming to the Crescent over the week-end. A thrill for all is promised in this popular picture.

Many persons paid their poll taxes on the night of the 31st.

The Adams Hotel will hold its formal opening soon.

Interior work has started on the Brunow Building.

Work on the oil field road to Roxana will begin as soon as the equipment is assembled.

**WHEN I WAS TWENTY-ONE**  
BY JOSEPH KAYS

At 21—Richard Bennett Worked in a Factory.

"AT TWENTY-ONE I found myself in Chicago during the summer when many actors have to take a vacation, whether they can afford it or not.

"I couldn't afford it so I went to work in a factory until I could get a vacation engagement. After five months in the factory I went to see a performance of an old melodrama when the manager, whom I knew, saw me between the acts and told me that the juvenile of the company was about to quit and I could have his part. Of course I jumped at the chance but I had to rehearse at night, after I came home from the shop.—Richard Bennett."

TODAY—Richard Bennett is beyond the reach of such vicissitudes of fortune. He is one of the most noted players on the American stage. An Irish-American himself, he has the remarkable talent of being able to assimilate himself into any European type, especially the Italian, and this has played no small part in his success. Mr. Bennett recently achieved a huge success in "He Who Gets Slapped."

**Years Required To Adjust Inventions Of Alexander Bell**

In 1875, Alexander Graham Bell said: "If I can make a current of electricity vary in intensity, precisely as the air varies in density during the production of a sound, I should be able to transmit speech telegraphically." His prophecy became a fact with the following year.

Two years later, when the telephone was still regarded as a toy, Bell prophesied that cables of telephone wire could be laid underground or overhead and connect cities, towns and country. His prophecy is a reality.

"Fortunately for the country," says Arthur Pound, in his book, "The Telephone Idea," "the five men who nursed the infant telephone along had more than the average share of courage, faith, honesty and persistence. Chance brought them together; yet, considering the unity of the group and its well-rounded character, they could hardly have been better chosen if years of thought had been given to the combination. Bell, Sanders and Hubbard each owned three-tenths of the original Bell telephone stock; Watson, one-tenth.

"Bell, the handsome young inventor, third of his line who had taught the art of speech to the deaf, loved Gardner G. Hubbard's deaf daughter. Here is one of the most exquisite of American romances awaiting a novelist, a tender love

story lasting from youth to age, and proceeding delicately, yet with rugged faith, from poverty to riches, from ridicule to fame, from insignificance to honors. Bell was trying to make the deaf hear long after he had passed as a creative influence from the telephone scn.

"The docket of patent law history is not without cases in which inventors have been euchered out of fame and wealth by more practical or intriguing minds. No such unworthy heritage hangs over the history of the telephone; instead, from the first moment of association each of the original telephone pioneers stodd ready to risk everything in order to make the telephone "go."

About 1875, Theodore N. Vail was drawn into the telephone venture with the four pioneers. Thereafter the foundation and structure of the present American telephone system was laid, and it has stood the test of half a century, and given to America the greatest telephone system in the world.

If Vail, whom his associates relied upon to put the telephone business upon a solvent basis, had been crafty, greedy, narrow-minded or limited of vision; if he had been "a money grubber, or a financial buccaneer, or a cold offish person with a small sense of his public responsibility," the telephone business would never have been developed as it has. That Vail was broad-minded and recognized the public interest in this new business, and developed it with this sense of responsibility, is evidenced by the universal use of the telephone in Am-

erica. The story of these telephone pioneers is worth repeating as an inspiration to struggling industries, and to show that honesty and square dealing will build a stronger structure than sharp practices.

**THE GRAND HOTEL**

By DOUGLAS MALLOCH

WISH I were a boy again.  
(How many men have wished the same!)

I would not be as poor as then;  
I have no fine contempt for fame,  
Men do not learn to hate their gold,  
However much we have been told,  
And yet I'd like again to stand  
And have the Grand Hotel seem grand.

I wish I felt the boyhood awe  
With which I used to look within,  
I wish I saw the things I saw  
That made bright silver out of tin,  
Gold out of brass, that made the stair  
A most magnificent affair—  
I wish the clerk looked handsome and  
I wish the Grand Hotel seemed grand.

We lose illusions as we pass  
Along through life, we learn the truth,  
We find the gold is only brass;  
Perhaps we dream too much in youth.

But when some old illusion dies  
I sometimes think we grow too wise,  
And this would be a happier land  
If still the Grand Hotel seemed grand.

With envy how I used to run  
To see the city drummers then,  
And dream of days I might be one  
Myself, a prince of traveling men  
Well, here I am; it all came true;  
And here I'm stuck a day or two—  
The reason now you'll understand  
I wish the Grand Hotel seemed grand.

(© by McClure Newspaper Syndicate)

**WHAT THE GRACIOUS HOSTESS SAYS:**

By DELLA THOMPSON LUCES

**SAYING "NOT AT HOME"**

THE phrase, "not at home" is merely a social one, meaning, perhaps, that the mistress of the house is busily engaged, indisposed, or otherwise unable to see callers. The phrase, however, should be used with discretion. In the city where women's lives are full of varied activities and where the formal caller expects to find one at home, the expression is understood and accepted without feeling. In smaller places the phrase "not at home," when one is at home, has been criticized and condemned. If, as in many small-town homes is the case, a child may answer the door, he should not be asked to say that his mother "is not at home," when she is, unless he may say, "Mother is not at home to callers today." The mind of a child is literal, and he is not always able to distinguish between what words say and what they mean. If a hostess is indisposed or engaged, it is better to say so, politely adding that she will be very sorry, and will the caller come again soon.

There is just as much need for observance of social customs in the small town as in the big city, and, indeed, people living in smaller places are often more truly polite, more gracious and considerate than those who live in the cities. The same rules and principles apply to both, and it is quite essential that the mistress of the town or country home acquaint herself and her family with correct usage.

By persons always accustomed to social phrasings and social ways, this will doubtless seem like being over-scrupulous, but mothers with small children have to be over-scrupulous in teaching the principles of truth-telling. It would seem that whoever answers the door, if the mistress does not wish to see callers, might give some other politely expressed phrase which would answer quite as well as the "not at home," and at the same time not be open to criticism.

At any rate, and whatever method is used, the caller at the door should never be allowed to feel rebuffed. This is rude and discourteous, an evidence of bad manners.

(Copyright by the Eastman Syndicate)

"The influence of heredity is strong," says Retrospective Retta. "The woman who used to jerk her skirts to her knees at sight of a mouse now has a daughter with a permanent jerk."

**Plans Being Made By Wheeler C. Of C. To Span Red Rived**

Wheeler, Texas.—A very enthusiastic meeting of Wheeler Chamber of Commerce was held at the Legion Theatre at seven-thirty Monday night. A good number of the business men of the town were present.

The first subject brought up for discussion was the appointment of delegates for the meeting in Shamrock when delegates from the eastern part of the Panhandle meet to discuss the proposed rail extension through this section from Memphis to Spearman.

A. B. Crump, H. M. Wiley and Worth Beal were appointed on this committee and one or all of them will attend the meeting.

The principal subject of the evening was the discussion of ways and means of obtaining a road to and across the North Fork of Red River between the oil field and the north part of the county.

The route which met with greatest approval was to follow the highway west from Wheeler four miles turn south for one mile, and then two miles west in roads already opened. From that point the road would run practically due south along the section lines to a crossing near the high bluffs. This is the narrowest part of the river. The land to the river would be donated provided the fencing was paid for.

It would be several months before the road could be opened by the county according to those acquainted with the legal steps to be taken. For that reason it was proposed that a fund should be raised to pay for fencing and grading of the road, the county to furnish the grading equipment.

This project was explained at length by A. B. Crump in a snappy well founded speech.

Mr. Crump also explained how offers for the construction of a toll bridge had been made to the county officials and to other individuals. The toll bridge proposition was discussed but no action was taken by the Chamber of Commerce commending the project or opposing it. Favorable discussion was heard on the toll bridge idea while others opposed the idea.

More than six hundred dollars was pledged Monday night toward a fund of two thousand dollars which will

be false do put the road in shape to the crossing. A. B. Crump, H. M. Wiley and H. E. Nicholson were appointed as a committee to solicit funds for this purpose.

The Directors of the Chamber of Commerce, A. B. Crump, Bob Jones and H. M. Wiley agreed to put aside one-hundred dollars from the Chamber of Commerce Treasury to be expended on the road.

Worth Beal, Norwood Hall, Floyd Pennington and J. D. Merriman, Jr. were appointed on a committee to build up the membership of the Chamber of Commerce.

It is thought that this crossing will meet with the approval of all those living north of the river and all who live in the southwestern portion of the county. This crossing will be equally accessible for Mobeetie people. It is proposed to build a road from the highway one mile west of Corn Valley School House to the corner where the proposed new road turns south. The route will accommodate all the traffic from the other portions of the Panhandle Oil Field to the Wheeler County Area. Wheeler will not get any benefit from this traffic as it will not pass through Wheeler. Wheeler will be placed within eleven miles of the field.

People living in the southwest part of the county will be in the neighborhood of thirty miles closer to the county seat. It is thought that the entire Commissioners Court will be favorable to the establishment of such a route when it is shown that the total expense will be paid without touching tax money. —Wheeler News.

**Colonel Goodnight Is To Live In Clarendon**

After living for nearly half a century on the historic Goodnight Ranch on the Palo Duro, Colonel Charles Goodnight has moved to Clarendon to make his home and is now living in an apartment on East Fourth Street. He has brought the furnishings from the ranch home and will probably buy a residence in the near future. His niece, Miss Corrinne Goodnight from Butte, Montana, has been with him for the past several months and will keep house for him here.

Commenting on Colonel Goodnight's move to Clarendon, The Southwest Plainsman had the following to say:

When Colonel Goodnight sold his ranch, several years ago, a provision of the sale was that the Goodnight home was his to occupy as long as he should live. However, in recent years, keeping up the big old establishment has become burdensome as well as unnecessary.

Severing ties of fifty years standing is a heart-breaking process and it has been a difficult matter for Colonel Goodnight to make up his mind to take this step. However, he will be much more comfortably

situated and he has many old time friends at Clarendon who are much pleased to have him with them. —Clarendon News.

**Fluctuations Of 1926 Weather About Normal**

The weather fluctuations of 1926 in general differed in no important particular from normals established by more than 50 years of record, with the tendency to slightly warmer conditions than usual, says the Weather Bureau of the United States Department of Agriculture. In most of the country the growing season was also slightly longer than usual. Such variations, however, are expected by meteorologists, and during the period since the Weather Bureau records began many years could be selected showing greater

variations than were observed in 1926.

Tracy Carry, manager of the Malone Furniture Store No. 3, at Roxana, spent the week-end in Pampa visiting his parents, Mr. and Mrs. D. W. Carry.

ARTHUR BRISBANE  
A HOME-FOLKSY BANK

It is a logical conclusion that friends and neighbors will be more likely to understand each other and each other's problems than would be the case with strangers, they are, therefore, more likely to be useful to each other.

Ours is a home-folksy bank, ready to serve home-folks first.

We hope all our homefolks will so consider it.

**Thoughts in an Old Churchyard**

By DOUGLAS MALLOCH

SO MANY years they have been sleeping,  
So many years they have been keeping  
Their trust with death; and now, I wonder,  
Of the hearts that lie hereunder,  
How many now are wept for, sighed for,  
Yet, even some by some they died for?

What matter? What has ever mattered?  
Those roses fade, their petals scattered,  
But, oh, how fair they made the summer!

What matters now if not a comer  
Shall speak their names, eye, names remember?  
Who talks of roses in December?

This matters, this, and this thing only:  
In their own season hearts were lonely  
And needed help and needed roses,  
And then it is the heart uncloses,  
Though winter now lies all about them,  
Some summer could not do without them.

In their own time, in their own season,  
They lived, they died, for some good reason,  
They lived, they loved, they did their duty,  
And filled one summer full of beauty;  
And though their petals now are scattered,  
What matter? What, has ever mattered?

This matters, this; the time we live in,  
Our time to love in, pray in, give in,  
Whatever years may follow after,  
If our own years we filled with laughter,  
Survived well the world while in our keeping,  
What matters more when men lie sleeping?

**Donates Books To School**  
Arthur Smith, a student in the Pampa High School, has donated an encyclopedia of reference books to the school. Most of the books are ones that were needed by the school. "I represent the entire student body in thanking Arthur for the books," says R. C. Campbell, superintendent.

W. W. Massey of Kingsmill was here on business Monday.

Dr. J. M. Hyden in charge  
7th and Polk Streets, Amarillo.

**VALUE OF HIDES VARIES BY CARE**

**Proper Skinning Nets More Profit From Animals**

Preparatory to skinning farm animals clean the hide as thoroughly as possible, suggests the United States Department of Agriculture. The use of the old-fashioned curry-comb with its sharp, and usually rusty, jagged teeth may result in serious damage particularly to calf-skins. A more recent style of comb with dull teeth or a fiber brush and water, preferably from a fountain attachment, is much safer.

Always bleed cattle by sticking the throat lengthwise instead of crosswise unless religious requirements prevent. Cutting the throat crosswise mars the pattern of the hide and lowers the market value. Make the ripping open cuts straight with smooth edges, and in the proper places and directions. If a hide is not opened up correctly it will not be of proper pattern and consequently less valuable for leather. The butt, belly, and shoulder portions of the hide will not properly distributed so that the tanner can not divide the resulting leather according to the quality and value of these different sections.

In skinning a keen edge works best. Use the skinning knife carefully and only when absolutely necessary. Keep the hide taut to avoid gashing it, and also guard against cutting out chunks of the carcass in an effort to save the hide. Meat left on the hide not only is a waste but may cause rotten spots.

Where the hide is very tight, as over the rump and round, particular care must be taken to avoid cutting it. This is the most valuable part of the hide, and it is almost impossible to remove it with a knife without making cuts and scores. It is best to start the hide with the knife and then beat of pound it off with the fist, butt of a knife handle, or the back of a cleaver while pulling on it. A properly removed hide or skin is of correct pattern to trim and free from cuts, meat, sinews, bag, tail-bone, horns, and dew-claws.

**THE YOUNG LADY ACROSS THE WAY**

The young lady across the way says the bank ought to be more careful and its monthly statements hardly ever agree with the stubs in her check-book.

(© by McClure Newspaper Syndicate.)

Mrs. Walter Key of Mobeetle attended the funeral services of Mrs. I. W. Heare here Sunday.

**"Inside" Information**

Egg yolk is unusually rich in iron. It is very valuable as a food for anemic children.

Green oysters are perfectly wholesome. The greenish color is due to little green plants the oysters eat.

Tomatoes are rich in all three vitamins—A, B, and C. Tomatoes keep the vitamins even when cooked or canned.

Give the children a variety of flavors in their foods early in life. In many cases the foods people think they do not like are foods they have never tasted.

A deposit of lime in a tea kettle can be removed if not too heavy by using a hot solution of vinegar or commercial muriatic acid, one part to five parts of water. Handle the acid solution carefully, as it is corrosive.

Before washing a sweater, measure it, and write down the dimensions. After it is washed and rinsed, spread it, back side down, several flat thicknesses of clean soft material. Shape it according to its original dimensions. Turn occasionally until dry.

Curtains of unbleached muslin are practical for the bathroom as they do not look limp or sleazy when dampened by steamy air, and as they may be frequently laundered. Brighten them up with a border or appliques of colored checked gingham, cretonne, or plain chambray.

For light sandwiches to serve with tea at a club meeting or sewing circle, chop or grind watercress

**Cotton Wrappers Aid In Solving Low Price**

Probably the greatest single opportunity to widen the market for cotton lies in the substitution of cotton for jute as a covering for cotton bales and for other articles, says the United States Department of Agriculture. This country imports annually, chiefly from India, more than 75,000 tons of jute and more than 900,000,000 yards of jute cloth. Some of the manufacturing problems incident to fabricating cotton coverings for cotton bales and processing them against decay have apparently been solved, and with cotton and jute at their present relative prices the cotton is cheaper.

## BUREAU TO KEEP PEOPLE INFORMED

### West Texas Chamber Giving Legislative Information

The West Texas Chamber of Commerce is maintaining an informational and legislative bureau in Austin during the session of the legislature with manager Homer D. Wade in charge. This bureau is located at 218-219 Littlefield Building and is at the service of all West Texans. Those desiring information on legislative matters or desiring service of the West Texas Chamber of Commerce in legislative matters are invited to write the bureau concerning their needs.

Manager Wade is issuing each week a legislative letter concerning activities in the state legislature. He will keep West Texans informed of the matters of legislation concerning West Texas, and will undertake to give a weekly digest of the proceedings in Austin. This letter will go to all chamber of commerce secretaries in West Texas, will go to all officers and directors and unit directors of the West Texas Chamber of Commerce, and will be sent to all members of the West Texas Chamber of Commerce who will write to the general offices at Stamford, Texas, that they would like to receive same. There will, of course, be no charge for the service.

West Texas fared well in the organization of the legislature and in committee assignments for the past week. Hon. R. L. Bobbit of Laredo was elected speaker without opposition. Another West Texan, Carl P. Phinney of Brownwood, was selected as chief clerk of the House West Texas was signally honored by the appointment of committee chairmen, Dewey Young of Wellington became chairman of the committee on revenue and taxation, Lee Satterwhite of Amarillo chairman of the Penitentiary Committee, Cecil Storey of Vernon is chairman of the Oil Gas and Mines Committee.

Chairmanship of the Committee on Municipal and Private Corporations fell to E. S. Cummings of Abilene; George Kemble of Fort Worth was made Chairman of the Insurance committee; Grady Woodruff of DeCATar was appointed Chairman of the Committee on Eleemosynary In-Criminal Jurisprudence will be headed by Alfred Petsch of Fredericksburg. The chairmanship of the Committee on Commerce goes to M. H. Hagaman of Ranger.

Mr. Wade in his first report declares that the West Texas group in the legislature is recognized as one of the strongest contingents in the state law making body. They stand together for the good of West Texas and work as a unit on

legislation affecting this section of the state. He reports that the hopes of both houses are filled with a mass of bills seeking to regulate everyline of human industry in Texas. However this is customary for the first week of a new legislature. Some bills die in the committee rooms. Others fall in the houses. Within a fortnight the matters of legislation to be considered by both houses will begin to take shape and the attitude of the West Texas Chamber of Commerce concerning the different bills will be announced as they take form.

In the opinion of Mr. Wade, the present session of the Texas legislature is fair to be a constructive session, and he is optimistic of the outlook.

### Rig Men To Berger Attending Meeting

Most of the rig builders that have been working in the Pampa fields, went to Berger today to attend a joint meeting of the rig workers, oil men and rig contractors. A definite settlement as to the wage scale is expected.

Several of the crews here have not worked for the past week, and have demanded an increase in pay of \$2 per day. Nine rig crews working out of Berger are reported to be drawing \$16 and \$18 per day. This amount is being asked by the workers here. The present scale here is \$14 and \$16 per day.

### Diamond "C" Manager To Eastern Markets

O. W. Ferguson, manager of the Diamond "C" Store here, departed Sunday night for St. Louis where he is buying new spring merchandise for the Pampa Store. He met the buyers from the other Diamond "C" stores and the general purchasing agent in St. Louis. They will visit other Eastern markets for additional stock before returning.

The buyers visit the Eastern markets several times each year in order to purchase stock and keep in touch with the market conditions and style changes.

**STAR PARASITE REMOVER**  
A GREAT POULTRY REMEDY

Keeps flocks in drinking water or mixed in feed. Thoroughly rids them of all blood-sucking lice, all mites, flies and lice bugs, destroys in them all intestinal worms and parasites. Its formula is superior and other ingredients known remedies for improving the appetite, purifying the blood, toning the system and preventing disease. Better prevent than try to cure. Contains no alcohol or poison. Can be given to all ages of chicks, old fowls and turkeys. Any kind of weather with good results.

It costs very little—a one dollar bottle will last 100 fowls more than 100 days. The manufacturers are anxious for all poultry raisers to try it 30 days at their risk on the following conditions: After using 30 days if your flock has not improved in health, produced more eggs—quit that flock stronger and healthier young chickens—come back to your dealer and he will refund your money.

### Colquitt Returns From Denver With Auto

J. O. Colquitt has returned from Denver, Colorado with his Chrysler Roadster which was stolen from in front of the Methodist Church two weeks ago last Sunday. Three men who are charged with the theft of the car are being held in jail in Denver. They will be returned to Pampa, as soon as requisition papers are secured, and executed.

Colquitt left his car parked in front of the Methodist Church two weeks ago Sunday night, and when he came out of the building about an hour later the car was gone. The Sheriff's department was notified, and wires were sent out which led to the arrest of the three men and the recovery of the car.

### No Admittance To Children Under 12

Rex, the wonder horse in "The Devil Horse" will show at the Rex tomorrow night. The horse is at his best in this picture, portraying almost human stunts.

The kiddies will be missing at the Rex on Friday when "The Popular Sin" will be shown. No one under twelve years of age will be admitted to see this picture. Something out of the ordinary in the line of movies is promised for the Rex-goers in this picture.

The picture includes an all-star cast.

Lloyd Thomas spent the weekend in Elk City visiting friends.

Several of the streets have been graded this week.

A band for Pampa. Send your name in for a free membership.

The audit of the city books will be completed this week.

### Okla. Man Charged With Tire Theft Back

Representatives of the Sheriff's department returned from Sayre, Oklahoma, Saturday with a man charged with stealing some tires at the Texan Hotel a week ago Saturday night. He is being held in the county jail here now. He admitted taking the tires, according to Sheriff Graves, but he was unable to make bond for release.
