

PROVEN AREA ENCLOSES PAMPA

C. OF C. ADDS FOUR NEW OFFICERS

E. Herlacher To Head 1927 Football Team

E. Herlacher has been elected to head the football team of the Pampa High School next season. Several of the boys that played on the team the past season expect to enroll and be out for football during the next school term.

The Pampa team was ineligible to win the conference this year, if they had won every game played. Two or three of the players failed to keep their grades up to the standard required by the school. The school officials plan to keep every member on the basketball team eligible so that the school can enter the district finals if a sufficient number of games are won.

BODY OF SLAIN MAN IDENTIFIED

Found Under Bridge Near Memphis Last Week

The body that was found in a state of decomposition under a bridge near Memphis last week, has been identified as that of Jack Morgan. His wife was notified as soon as the name was determined, and she went to Childress where the body was buried.

Morgan left Borger on November 12, and had not been heard from until a telegram found on the body revealed that he was known by F. A. Nave of Borger. Morgan's wife knew nothing of her husband's whereabouts until after the burial at Childress.

Morgan was employed as a line-man for the Southwestern Public Service Company at Panhandle for some time. He then moved to Borger where he worked for F. A. Nave of that city. He is survived by his wife and a small son.

It is believed that robbery was the motive for Morgan's assailants to have killed him. Two deep gashes were cut in his forehead and his clothing was torn.

First National Bank Officers Are Elected

B. E. Finley was re-elected president of the First National Bank at a meeting of the stockholders last week. Other officers re-elected are J. R. Henry, vice president; DeLea Vicars, cashier; E. S. Vicars, assistant cashier. The members of the board of directors elected are: P. C. Ledrick, H. J. Lippold, J. R. Henry, T. H. Lane, B. E. Finley and DeLea Vicars.

Routine business was transacted at the meeting following the election of officers. The entire bank building is being remodeled. The work will be completed in about five or six weeks.

Trash Cleaned From Curbs And Gutters

The city streets have been covered by cleaners this week and all trash and paper was cleaned from the curbs and gutters. Barrels have been installed at various corners so that citizens can throw papers and other material in them.

"We will have our city noted more than ever for cleanliness," says Mayor Reid. "If the people will cooperate with the officials in keeping the trash off of the streets. The trash is not only unsightly, but it is a nuisance when it stops the water from flowing freely in the gutters."

Grand Theatre Adding Machinery

A new picture machine is in shipment for the Grand Theatre and it will be installed as soon as it arrives. A new motor generator set will also be installed. The generator will be used to regulate the electric current that is used by the machine so that a constant steady light can be obtained.

MORE DIRECTORS ADDED TO BOARD

Members Unanimously Endorse The Movement

Four more members were elected to serve on the board of directors in the Chamber of Commerce at a meeting last night. The new members are: F. P. Reid, Neil McCullough, P. E. Boyd and W. P. Peters.

The other seven members that were elected at the meeting last week are: J. M. Dodson, M. K. Brown, M. W. Jones, O. K. Baker, W. L. Woodward, C. C. Cook and J. N. Nalley.

Charles Cook, president, appointed a committee composed of C. P. Buckler, J. D. Sugg and O. K. Baker to redraft the by-laws so that the election of eleven members instead of seven on the board of directors would be constitutional.

The members of the organization discussed the matter of paying poll taxes, and decided to make an extensive campaign to get as many persons as possible to pay the taxes so that the number of eligible voters will be increased. A committee composed of W. L. Woodward, W. A. Taylor, F. P. Reid, J. D. Sugg, J. N. Nalley, J. H. Lavender and M. K. Brown was appointed by the president to sponsor the campaign.

J. H. Lavender, one of the committeemen appointed at a former meeting to sponsor a membership drive, reported that four of the lumberyards that he had visited had taken out a membership and will pay \$250 a year toward the support of the Chamber of Commerce. He reported that other lumberyard officials have written to the main offices of the companies and are waiting for a reply.

The next meeting of the organization will be held next Thursday night. C. P. Buckler acted as secretary of the meeting last night in the absence of M. A. Turner.

Iowa Contractor Here Looking Over Pampa

C. B. Campbell of Creston, Iowa is in Pampa looking over the city. He is in the contracting business and has built several large buildings in various states.

Campbell came to the United States from Africa following the Boer War in Africa. He and M. K. Brown who came here from England when Pampa was but little more than one or two houses, were both engaged in the war at the same time.

City Secretary To Wichita Wednesday

C. H. Fisher, city secretary, departed for his former home in Wichita Wednesday morning. He motored down but expects to return via train about Saturday or Sunday.

Fisher was recently appointed city secretary here, and his appointment was unanimously approved by members of the city council. As soon as he has completed his business in Wichita he will leave his home permanently in Pampa.

Classes Re-Organized At Pampa High School

The examinations at the Pampa High School ended last Friday and the grades have been averaged. The students have been classified according to the grades they made, and new classes have been organized.

The new courses that are being offered now that were not offered the first part of the year are: commercial arithmetic, commercial geography, physical geography and economics.

PAMPA DAILY NEWS WILL BE STARTED IN SHORT TIME

The Pampa Daily News will become a reality shortly after February First. The publishers have had this step in view for some time, and are pleased to announce that Pampa will soon have a daily publication.

More equipment has been shipped from Wichita, Kansas, Chicago and Pittsburg. With the arrival of this equipment, The News will be ready to expand from a semi-weekly to a daily. In addition to publishing The Daily News, a weekly Pampa News will be published.

Associated Press service will be received by The News, which will be published every afternoon except Saturday, and Sunday morning. NEA feature service and comics have been obtained.

Subscription rates will be announced in a few days, and the subscription books will be opened. With the development in the Gray county oil field, the management believes that the time has come to become a daily and hopes that the paper will warrant the patronage of the public both as subscribers and as advertisers.

Considerable remodeling has been made this week at The News office. More remodeling will be made in order that the daily newspaper may be started.

AUDIT OF CITY BOOKS STARTED

Statements To Date Back To Bond Issue

G. D. Webb and R. B. Bagnell of the R. T. Robertson and Company of Amarillo, started work on the auditing of the city books yesterday morning. A complete audit of the books dating back to three years ago will be made.

The city has had but one bond issue which was made in 1923 for the expansion of the water works. A complete statement as to the condition of the city is expected within the next few weeks.

The councilmen voted to have the books audited at a meeting last week. R. T. Robertson met with the council and was awarded the contract. The auditors are being paid according to the time required to complete the work. The senior accountant receives twenty dollars per day and the junior accountant fifteen dollars per day. The city is paying all transportation and hotel expenses.

Gray County State Bank Election Held

The following officers were elected at a meeting of the stockholders of the Gray County State Bank last week: C. L. Thomas, president; C. B. Thomas, vice president; J. M. Dodson, active vice-president; W. H. Doyle, cashier; F. A. Penn, assistant cashier and A. J. McAllister, assistant cashier.

The officers declared a five per cent semi-annual dividend at the meeting. Other routine business was disposed of.

The bank building has been remodeled and redecorated and new fixtures have been added. The lobby has been enlarged and the bank rooms extended so as to enlarge the entire bank room. A built in vault has been completed and new safety deposit boxes installed.

City Tax Collections Are Reported Good

The collection of city taxes is increasing daily. Notices were mailed to taxpayers recently, and the response is reported to be good.

John V. Andrews, tax collector, has offices in the rear room of the city hall. He is assisted by Mrs. F. N. Shriver.

Mr. and Mrs. Curtis Greek visited in Borger Sunday.

REID ENDORSES JUDGE C. SMALL

West Texas C. of C. To Elect President For 1927

Mayor F. P. Reid is in receipt of a letter from E. S. Shoaf, secretary and manager of the Wellington Chamber of Commerce asking that he endorse Judge Clinton C. Small as president of the West Texas Chamber of Commerce.

A part of the letter includes: "We believe that you are familiar with the work of Judge Small in the West Texas Chamber of Commerce in the years past, and that you know that he is thoroughly capable and qualified to fill the position with credit to himself and to the organization."

Mayor Reid says that he has sent a letter of endorsement to Shoaf. Mayor Reid is a member of the Executive Board of the West Texas Chamber of Commerce and is Pampa's representative in the actions of the West Texas organization. Judge Small is a personal friend of Reid. "I'll back the judge to the limit," he says.

Funeral Services For Cox Infant Yesterday

Funeral services for the infant son of Mr. and Mrs. Will Cox were conducted by the Rev. James Todd Jr., at the grave yesterday afternoon. Burial was in the Fairview Cemetery.

The baby died at the home of the parents about 9 o'clock Wednesday night. Mr. Cox is employed by one of the oil companies here.

Insurance Commission Sent Favorable Word

R. C. Campbell, superintendent of the Pampa schools, has received a notice from the State Fire Insurance Commission stating that work done on the subject of fire prevention by pupils of the schools here are fully meeting the requirements of the state department.

By complying with requirements, the schools are given a three per cent discount on the fire rates, which means a saving of approximately \$1,000 a year to the tax payers here. If the requirements are not complied with, no reduction is given, and the schools must pay a flat rate.

W. J. Todd of Canyon was visiting friends here yesterday. He is one of the leading cattlemen of the Panhandle.

EXPANSIONS BEING MADE BY PRACTICALLY EVERY COMPANY

Supply Houses Report That Operators Are Not Hesitating To Play The Fields South And Northwest

Operations in the field south of Pampa and in the field northwest are increasing after a few weeks of general standstill. The number of new derricks in both of the fields has increased to a noticeable extent in the past two weeks.

Operators say that, with fair weather conditions, completions will be fast and regular for months. The Humble Oil and Refining Company has 500 feet of oil in the hole in number 5, Merten in the south Pampa pool. The well is drilling at 3150 feet. It will be cleaned out and shot within the next day or two. Workmen at the well say it has indications of being a big producer. It is located in section 87, block 3.

New locations were made yesterday in the northwest corner of section 199, block 3, by the McMann Company. The Osborn Company made a location in the same section and block with a direct diagonal offset to the Parks-Noel well that came in recently for a good production.

The Humble Oil and Refining Company's number 3 Worley and Reynolds in the northeast corner of section 83, block 3, made an initial flow of 60 barrels from the granite wash at 2934 to 2952 feet. The number 6 Worley and Reynolds swabbed 400 barrels the first 24 hours it came in. It has drilled to 2948 to 2946 feet.

The McMann Oil and Gas Company number 6 Worley and Reynolds in the same section and block, swabbed 300 barrels. It hit the granite wash at from 2977 to 2983 feet and the sandy lime from 2983 to 3000 feet. The Prairie Oil and Gas Company's number 6 Merten-A, section 82, block 3, swabbed 45 barrels from the lime at 3173 to 3226 feet. The well has been given a 200 quart shot and the present total depth is 3231 feet.

The Sun Oil Company's number 3 Worley and Reynolds located in section 83, block 3, was shot with 10 quarts at a depth of 3007 to 3023 feet. The well swabbed 35 barrels at a total depth of 3095 feet. The same company's number 4 Worley and Reynolds swabbed 230 barrels from a depth of 3068 to 3078 feet during the first 18 hours. The well is making around 150 barrels a day now.

The Wilcox-Pampa Oil Company's number 15 Worley and Reynolds in the northwest corner of section 61, block 3, made 150 barrels from the granite wash at from 2952 to 2959 feet. The company's number 16 Worley and Reynolds in the northwest corner of section 84, block 3, is making 100 barrels at a depth of from 3020 to 3060 feet.

The supply companies here report that sales and orders show that there is no hesitation from any of the companies in making preparations for immediate and fast work in the fields south and northwest of Pampa.

The proven area has practically surrounded the city, and a gradual close in, as well as further expansion of the proven area is certain now.

Citizens Urged To Pay Taxes At Once

Effort is being made by the Chamber of Commerce to have as many persons as possible pay poll taxes. The taxes are payable at the office of the sheriff anytime before January 31.

No one is eligible to vote here unless they have resided in the state for at least a year, and in the city for six months, and have paid poll taxes. Authorities here say that there will be but a small percentage of legal voters in Pampa unless the poll taxes are paid.

New Diamond "C" Employee

A. L. Burge of Cordell, Oklahoma, has been employed at the Diamond "C" Store here. He has been connected with the Diamond Stores for the past seven years. Although experienced in the dry goods line, he is especially trained in the shoe line.

BASKETBALL TEAM TO BE ORGANIZED

Season Schedule Will Include Several Games Here

A girls' and a boys' basketball team will be organized at once at the high school and a season schedule will be determined. Ten boys have been out for practice for the past week, and a first team will be picked according to the showing made by the individuals. The boys' team will be coached by Oscar Dick-ey, assisted by Oscar Dial.

The girls' team will be under the supervision of Miss Bernice Whiteley. As soon as the team is organized games will be scheduled with other high school teams. The present plan is to schedule games for both the girls' and boys' teams with other high school teams for the same dates.

New suits for both of the teams have arrived. Practice will be held regularly if the condition of the outdoor court will permit.

Negotiations for a game with the Alameda High School teams are being made now, and a game is expected to be scheduled with them for Friday, January 28, to be played on the Pampa court.

Season tickets went on sale today at the drug stores. They may also be obtained from the various members of the school. The tickets will sell for twenty-five cents for individual games. The season tickets will sell for one dollar, which will include all of the games played at Pampa during the season. About six or eight games will be played here, according to the present plans.

MEXICAN CASE TO TRIAL AT CANYON

Plea Of Insanity To Be Put Before Jury

Canyon, Texas—District court has been largely occupied with the State of Texas vs. Rual Morales, a Mexican charged with murder and transferred here from Claude. The case was called Monday, but owing to mistakes in the papers, had to be continued until yesterday.

The question of insanity was raised yesterday by the defense, and resulted in a trial before a jury. If the jury finds the defendant insane, he will likely not be tried on the murder charge.

The murder case has been set for trial Friday at which time it is hoped that all witnesses will be on hand to testify.

F. K. Williams was found not guilty Tuesday when tried on a liquor charge, following an indictment of the grand jury.

Judgement was entered against Charlie Hull and T. B. Jones in forfeiting Hull's bond. He was convicted on a liquor charge and the case affirmed on appeal. He has disappeared, and the state will seek to collect \$32,000 bond.

Anna M. Sipe was given a divorce from Walter Sipe.

NOTICE OF ELECTION
THE STATE OF TEXAS
CITY OF PAMPA,
COUNTY OF GRAY.

Notice is hereby given that an election will be held on the 19th day of February, 1927, at the American Legion Hall in the City of Pampa to determine whether a majority of the legally qualified voters of said city desire to adopt the commission form of government and to elect two commissioners to serve until the first Tuesday in April, 1927, following such election.

All persons who are legally qualified voters of said city shall be entitled to vote at said election. All voters desiring to support said proposition to adopt the commission form of government for said city shall have written or printed on their ballots the words "For Commission", and those opposed shall have written or printed on their ballots the words "Against Commission".

C. O. Busby and T. H. Lane have been appointed officers for said election, and the said C. O. Busby has been designated as the presiding judge, and D. W. Osborn and W. R. Campbell are also appointed clerks to assist in holding said election, and they shall within five days after said election has been held make due return thereof to me as Mayor of the City of Pampa as is required by law for holding a general election.

Said election was ordered by me as Mayor of the City of Pampa by order made on the 10th day of January, 1927, and this notice is given in pursuance of such order.

Dated this the 10th day of January, 1927.

F. P. REID
Mayor of the City of Pampa.
(SEAL) 51-3-5-7

Notice of Publication in Probate.
THE STATE OF TEXAS.

To the Sheriff or any Constable of Gray County, GREETING:

You are hereby commanded to cause to be published in a newspaper of general circulation, which has been published continuously for a period of not less than one year in your county, at least once each week for ten days previous to the day hereof, copies of the following notice:

THE STATE OF TEXAS: To all persons interested in the Estate of

T. W. Henry, deceased; S. O. Henry has filed an application in the County Court of Gray County, on the 11th day of January, 1927, for the probate of the last will and testament of T. W. Henry, deceased, which is filed with said application, said cause being No. 194, on the Probate Docket of the County Court of Gray County, Texas, which application will be heard by said Court on the 21st day of February, 1927, at the Court House of said County, in Lefors, at which time all persons interested in said Estate are required to appear and contest said application, should they desire to do so.

Herein fail not, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

WITNESS my hand and official seal, at Lefors, Texas, this 11th day of January, 1927.

CHARLIE THUT, Clerk,
County Court, Gray County, Texas
(SEAL) 51-53

Citation by Publication
THE STATE OF TEXAS,

To the Sheriff or any Constable of Gray County—GREETING:
You are hereby Commanded, that you summon, by making Publication of this Citation in some newspaper published in the County of Gray if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County to said Gray County, for four consecutive weeks previous to the return day hereof, Rosa Weiss, a non-resident of this state to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Gray, at the Court thereof, in Lefors, on the 28th day of Febru-

ary, same being the Fourth Monday of said month, then and there to answer a Petition filed in said Court, on the 13th day of January A. D., 1927, in a suit numbered on the Docket of said Court No. 1663, wherein A. L. Weiss is plaintiff and Rosa Weiss is defendant.

The nature of the plaintiffs demand being as follows, to-wit:

Suit for divorce, plaintiff alleging to be a bona fide inhabitant of Texas and that he has resided in Gray County 6 months next preceeding filing of suit. That plaintiff and defendant were married about 12 years ago and lived together until about 4 years ago; that plaintiff had always been a dutiful husband but that defendant was guilty of cruel outrages to plaintiff and his mother who lived with them that

said treatment continued to the extent to render their living together insupportable. That they have no children and their property has already been divided. Plaintiff prays for decree of divorce and general and special relief.

Herein fail not, and have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Lefors this, the 13th day of January, 1927 A. D.,

CHARLIE THUT, Clerk,
District Court Gray County, Texas.

NOTICE
By making publication of the herein set out ordinance notice is given of all matters and facts therein contained, which said ordinance is as follows, to-wit:

ORDINANCE DETERMINING TO ASSESS A PART OF THE COST OF IMPROVING PORTIONS OF CUYLER STREET AND SUNDRY OTHER STREETS IN THE CITY OF PAMPA, TEXAS, AGAINST ABUTTING PROPERTY AND THE OWNERS THEREOF, AND AGAINST RAILWAYS AND THE OWNERS THEREOF, ADOPTING ENGINEER'S ROLLS, PROVIDING FOR NOTICE OF HEARING AND HEARING, AND DECLARING AN EMERGENCY.

WHEREAS, the City Council of the City of Pampa has heretofore ordered that the following portions of streets in said City be improved by raising, grading and filling, and installing concrete curbs and gutters, and paving with three inch Vertical Fibre Brick on 5 inch Concrete Base, with necessary incidentals and appurtenances, and in accordance with the plans now on file with the City and in accordance with the specifications therefor attached to the contract between the City and Stuckey Construction Company hereinafter referred to, said portions of streets being as follows, to-wit:

CUYLER STREET from its intersection with the North property line of Brown Avenue to its intersection with the North property line of Francis Avenue, known and designated as Unit or District No. 1.

KINGSMILL AVENUE from its intersection with west property line of Cuyler Street to its intersection with the East property line of the alley between Cuyler and Russell Streets, known and designated as Unit or District No. 2.

KINGSMILL AVENUE from its intersection with the East property line of Cuyler Street from its intersection with the North property line of Brown Avenue to its intersection with the North property line of Francis Avenue known and designated as Unit or District No. 1.

intersection with the East property line of Cuyler Street to its intersection with the West property line of Alley between Cuyler and Ballard Streets, known and designated as unit or District No. 3.

FOSTER AVENUE from its intersection with the West property line of Cuyler Street to its intersection with the East property line of Summerville Street, known and designated as Unit or District No. 4.

FOSTER AVENUE from its intersection with the East property line of Cuyler Street to its intersection with the West property line of the alley between Cuyler and Ballard Streets, known and designated as Unit or District No. 5.

ATCHISON AVENUE from its intersection with the West property line of Cuyler Street to its intersection with the East property line of alley between Cuyler and Russell Streets, known and designated as Unit or District No. 6.

ATCHISON AVENUE from its intersection with the East property line of Cuyler Street to its intersection with the West property line of the alley between Cuyler and Ballard Streets, known and designated as Unit or District No. 7.

WHEREAS, contract was let and entered into with Stuckey Construction Company for the making and construction of such improvements and the City Engineer has prepared and filed rolls or statements concerning the improvements and assessments therefor in each unit; and same have been examined and all errors found therein by the City Council corrected; and

WHEREAS, the City Council has determined to assess a portion of the cost of such improvements against the owners of property abutting thereon, and against such property:

NOW, THEREFORE, BE IT OR-

DAINED BY THE CITY COUNCIL OF THE CITY COUNCIL OF THE CITY OF PAMPA, TEXAS: THAT,

I.
The City Council of the City of Pampa, Texas, does hereby determine to assess a portion of the cost of said improvements on said portions of the streets against abutting property thereon and against the owners of such property, and against the owners of railways using or occupying any portion of same, said assessments to be levied in exercise of the powers granted by the Charter and by Articles 1086 to 1096, both inclusive, and Articles 1104 and 1105, of the Revised Civil Statutes of the State of Texas, of 1925, heretofore adopted by this City.

II.
Said rolls or statements, as corrected, be and the same are hereby adopted and approved.

III.
Assessments when levied shall be and constitute the first enforceable lien and claim on the property against which such assessments are levied, superior in all respects to all other liens and claims, except state, county and municipal taxes, and shall also be a personal liability and charge against the real and true owners thereof. The descriptions of the parcels and tracts of the abutting property, the several amounts proposed to be assessed against such parcels of property, and the owners thereof, the total estimated cost of the improvements in each district, the amount to be assessed against railways for work between rails and tracks and two feet on the outside thereof, the total amount proposed to be assessed against each parcel property, and other matters and things as shown on said rolls or statements being as follows, to-wit:

of Cuyler Street to its intersection with the West property line of the alley between Cuyler and Ballard Streets known and designated as Unit or District No. 3.

IV.
A hearing shall be given by and before the governing body of the City of Pampa, Texas, on the 2nd day of February, 1927, at 10:00 o'clock, A. M., in the City Fire Station of Pampa, Texas, in the regular meeting room, to the owners of the respective parcels of property and of such railways and to all others in any wise interested, whether they be named herein or not, all of whom are hereby notified to be and appear at the time and place herein named and fixed, and said hearing shall be continued from time to time and from day to day, if necessary, until all desiring and presenting themselves to be heard shall have been fully and fairly heard, and at which hearing any mistakes, irregularities, or invalidities in any of the proceedings with reference to the making of said improvements or assessments therefor may be corrected, and the benefits by means of the said improvements, and the amounts of the assessments, and the apportionment of the cost of the said improvements, and all other matters shall be determined, and the real and true owners of the property abutting upon the said streets to be improved and of railways using or occupying any portion of same, and any and all others in any wise interested, their agents and attorneys, shall be and appear at said hearing at said time and place and present and make any protests or objections which they, or any of them may have as to the said improvements, as to the benefits therefrom, as to the cost thereof, as to the amounts of such assessments, or as to any mistake, irregularity or invalidity in any proceedings with reference to said assessments, such improvements, or the contract therefor, and as to any matter or thing in any wise connected, either with said improvements, contract or proceedings, and after all desiring and presenting themselves to be heard, either in person or by agents, attorneys or representatives, have been fully and fairly heard, the said hearing shall be closed and assessments will be levied and in accordance with the ordinance and in accordance with the proceedings of the City Council and the proceedings of the City Council shall be levied against the respective parcels of abutting property and the owners thereof, and against such railways, whether such owners be named herein or not, and whether the property be correctly described

herein or not. At such hearing any one in any wise interested or affected may subpoena witnesses and introduce evidence, and has the right to appear and to be heard.

V.
The improvements in each district or unit constitute an entirely separate, distinct, and independent unit, and the proposed assessments for the improvements in each unit are in no wise affected by any fact or circumstances in connection with any other unit; all to the same extent and as fully as if entirely separate and independent contracts had been made for each Unit and separate proceedings had, separate hearings, and separate notices thereof ordered.

VI.
The City Secretary of the City of Pampa is directed to give notice to the owners of property abutting upon the said portions of streets named to be improved and to the owners of railways using and occupying same, and to all others interested, of the time, place, and purpose of such hearing, and of all matters and things, by causing a substantially correct copy of this ordinance to be published at least three times in a newspaper published in and of general circulation in the City of Pampa, Texas, the first of which publications shall be made at least ten days before the date for such hearing, and by such publication all owners of property abutting upon said portions of said streets, and all owners of railways using or occupying any portion of any such streets and avenues, whether named herein or not, and whether the property be correctly described herein or not, as well as all others in any wise interested therein, or to be affected thereby, shall be and are duly notified, and no error or mistake in the name of any property owner, or in the description of any property, or in the amount of any proposed assessment shall in any wise affect or invalidate such notice or any assessment levied pursuant thereto, and the real and true owners of such abutting property shall be and are by such notice duly and fully notified. The City Secretary is further directed, but not required, to give further notice of such hearing by causing a substantially correct copy of such published notice to be mailed to each owner of property abutting upon such portions of said streets, and to the own-

ers of railways, but all such notices by mail shall be only cumulative of such notice by advertisement, and publication, and said notice by advertisement and publication shall in all cases be sufficient and binding whether or not any other kind or character of notice be given.

VII.
The present condition of said portions of said streets and avenues endangers health and safety, and it is necessary that the improvement thereof be proceeded with at once and while the weather will permit, and such facts constitute and create an emergency and an urgent public necessity requiring that the rules and provisions providing for ordinances to be read more than one time or at more than one meeting be suspended, and requiring that this ordinance be passed on and take effect as an emergency measure and such rules and provisions are accordingly suspended and this ordinance is passed as and shall take effect as an emergency measure and shall be in full force and effect from and after its passage.

Passed and approved this 13th day of January, 1927.
F. P. REID,
Mayor, City of Pampa, Texas
ATTEN:
C. H. FISHER,
City Secretary.
Done by order of the City Council of the City of Pampa, Texas,
(SEAL) C. H. FISHER,
City Secretary.

Texas Ranks Second In Livestock Production

Texas ranked second in the production of livestock for the year of 1926, with a total valuation of \$361,000,000. Farm crops including cotton, have increased in value from \$300,000,000 in 1925 to \$310,000,000 in 1926.
Petroleum production has increased from 117,000,000 barrels in 1922 to 155,000,000 barrels estimated for 1926. Forest products have increased \$10,000,000 in value over 1

DELINQUENT TAX RECORD

Of lands and lots, or parts of lots, returned delinquent or reported sold to the State of Texas, and not redeemed for the years 1935 to 1936, inclusive; situated in Gray County, Texas. Compiled as provided for in Chapter 16, Revised Civil Statutes of 1911, and as provided for in Chapter 15, R. S. H. B. 11, Acts of second called session of the Thirty-Eighth Legislature.

Plenty Of Grazing For Reindeers In Alaskan Country

From 40 to 60 acres are required to furnish grazing the year around for one reindeer in Alaska, according to studies made by the Bureau of Biological Survey, United States Department of Agriculture. Yet at this apparently high rate the area available for grazing should amply support 3,000,000 reindeer, says the bureau. There are only about 350,000 head owned in Alaska at the present.

Lichens are not necessary for reindeer feeding because of any natural or nutritive qualities, but because they present a readily accessible winter forage they are the chief factor that makes reindeer grazing possible in Alaska. With out this ready source of food for winter use the reindeer could not be maintained on the coast range the industry would not exist. The lichen forage crop should therefore be carefully guarded in order to continue the yield, says the department, and to that end it has been conducting investigations and studies on grazing requirements. Great care must be taken to furnish enough acreage to prevent over grazing and consequent destruction of the natural range. Overuse of the range is prevented by putting the range to practice a scheme of deferred and rotation grazing.

The reindeer herds in Alaska are rapidly increasing in size, so that better and proper methods in management are more important. Former methods of handling applicable to small herds are no longer sufficient; better and modern methods to conform to the larger herds must now be adopted. Under proper management and organization the reindeer industry has a promising future, but a decided change toward better methods must now take place if full progress is to be maintained.

Special Study Clubs For Older Farm Boys

After the farm boy has out grown the smaller enterprises he enjoyed in his pig, corn, or calf club as a youngster, and before he has a farm of his own and can carry on adult farm demonstrations, he may get in touch with the progressive methods of agriculture. It is this

between the ages of 16 and 20 whom extension workers cooperatively employed by the United States Department of Agriculture and the State colleges are interesting in a program of better farming.

Among the most effective of these organizations for young men on the farms are the young farmer's clubs in Connecticut, successfully carried on for the last four years. These young farmers are working for a standard of living on the farm that will compare well with the opportunities offered in other lines of business, and are not content with mastering only the production side but are studying the marketing and economic side of farming as well. Each member keeps a complete set of farm accounts, which serve as a basis for study of the farm business and the working out of plans for improvement. They analyze the business on successful farms in the State, and study business conditions in their relation to agriculture. A junior fair in Middlesex County, where there was no other fair, has been a successful project, with most of the responsibility borne by the young folks. Next year they plan to take entire charge of the fair.

The farm record clubs of Iowa and the farm account clubs of Oregon are helping to meet this need of young men of the farm. Wisconsin is this year organizing forestry clubs

for boys between the ages of 14 and 21, while Maryland's program aims to keep in touch with the older boys clubs and get them ready to enter business for themselves at 21 years of age. Redwood county, Minn., last year developed an organization for these rural young people in which the boys decided to take up advanced projects in swine, dairy, and corn, and studies of the business side of farming.

NOTICE OF MECHANICS SALE
Notice is hereby given on the 7th day of February, A. D. 1927, I will sell at public auction to the highest bidder for cash at the J. A. Pearson Service Station in the Town of Pampa, in the said County of Gray, State of Texas, between the hours of 10:00 A. M. and 11:00 A. M. the following property, to-wit:
One Essex Roadster Automobile, 1920 Model, Motor No. 23828, Car No. 61020.

This sale is for the purpose of satisfying a Mechanics Lien for labor performed and parts furnished in the sum of \$30.75 performed by J. A. Pearson for Jack Anderson at his special instance and request. Sixty days has elapsed after the charges and same has not been paid. (Signed) J. A. Pearson, Mechanic 52-2tp

PUBLIC NOTICE

To the merchants, news boys and citizens of Pampa: The city has paid for having the paper and trash cleaned from the gutters and curbs so as to keep the streets clean. Barrels have been provided so that all trash can be emptied into them, thus enabling us to keep the streets cleaner. Strangers who come to the city will note the cleanliness if we do not let the trash accumulate. If the persons living in the outskirts of the city will keep the yards and streets clean, we will maintain the name of the Clean City.

HONESTY

Honest boys are growing scarce, and may become as obsolete as side whiskers, according to some pessimists who deplore the errors of modern youth.

Those who are well acquainted with the boys do not seem to think so. Here is Cameron Beck, for instance, personnel director of the New York Stock exchange, who should know. He said in a recent address that the present generation of boys is the finest in history, and exceptionally honest.

Of course there are all those smart youths who get out with guns and take our money away on dark streets. Many of them are half wits, unable to comprehend that jails and prisons are not considered desirable as permanent boarding places. Their number is far too large, yet in proportion to the total population of boys, it is rather trifling.

The business men of Pampa and elsewhere would be apt to say that the average boy is as honest now as formerly, and probably more so. These boys have heard too many tales of men who were invited to resign because they were a little too smart for their jobs. There seems no special reason now why the men should worry about the dishonest boys, but the boys may well feel alarm on account of the many men who turn yellow and swindle-guile people out of their savings.

THE CALL FOR A MAN

WANTED—A man who can find things to be done without the help of a manager and three assistants.

A man who gets to work on time in the morning and does not imperil the lives of others in an attempt to be the first to quit at night.

A man who is neat in appearance and does not sulk for an hour's overtime in emergencies.

A man who listens carefully when he is spoken to and asks only enough questions to insure accurate carrying out of instructions.

A man who moves quickly and makes as little noise as possible about it.

A man who looks you straight in the eye and tells you the truth every time.

A man who does not pity

NEW METHOD FOR GROWING HAIR

Mrs. Dr. Nicholas returned last week from Amarillo where she took a course of instruction in the Hair-Again method of making hair grow, and is now prepared to give this treatment at the Georgette Beauty Shoppe and the Blue Bird Beauty Parlor.

It Makes Hair Grow

himself for having to work. A man who is cheerful, courteous to everyone, and determined to "make good". A man who, when he does not know, says "I don't know," when he is asked to do anything, says, "I'll try."

PENNIES AND NICKELS

Our old friends Mr. Penny and Mr. Nickel seem to be coming back. The United States government during the last fiscal year coined 249,000,000 pennies and 52,000,000 nickels, a record exceeded only once before.

It has been said that the American people have become such free spenders that they look with contempt on those on that red faced one that bears the likeness of Abraham Lincoln.

But these figures show that there are still plenty of people who find them helpful. When a few cents will buy a newspaper with the story of human progress in whatever field interests you, these little coins are not to be lightly regarded. They are the foundation on which many great fortunes were built.

WOMEN'S BUSINESS AIMS

Women often complain that they do not get equal pay with men for the same work. The National Industrial Conference board has been investigating such alleged discrimination, also why relatively few women hold salaried business jobs.

These investigators remark at young women commonly look at a job as a temporary expedient until they get married, consequently they do not prepare adequately for it and do not hustle so hard for promotion. But they think it is not proved that women lack initiative.

Did you ever watch women folks manage a big fair or supper? If so, you must have noticed the turmoil of crowded kitchens filled with hurrying cooks and waitresses, and in thronged parlors buzzing with confusing social hubbub, they somehow produce swift and clock-like service. They have administrative capacity.

Or take the girls in the schools, and note how often they excel the boys in scholarship. They can see into things. Or watch the women buying in the stores of Pampa and see how far they can make a dollar go. They have perception and judgement. And they have a certain suavity of manner which men often lack, and

which is a wonderful help in business.

The women may not fare so well yet in high positions, but the field of ordinary enterprise is open to them, just as to the many ambitious men who climb up that way. To sell things to the public, or please business heads, they must come near putting their whole thought in business hours on their job, just as a man has to. The public which buys, and the bosses who pay, care little about sex in business, provided they get results.

It may be said that such ambitions accomplish nothing toward preparing a girl for woman's most normal sphere of wifehood and homemaking. But the business girls meet many fine men, who admire achieving women, and their chances of a successful marriage should be good.

WHAT'S DOING IN WEST TEXAS

Stamford—Manager Homer D. Wade of the West Texas Chamber of Commerce has gone to Austin to establish the legislative bureau of the regional organization there during the session of the Fortieth Legislature, and to watch legislation of general interest. Member towns of the West Texas Chamber of Commerce are free to call upon the bureau upon any matter which they consider of interest to West Texas.

Spearman—Contracts for 24,397 yards of pavement to be constructed on the principal streets of Spearman has been signed by the city. The contract calls for a pavement construction of 2 1-2 inches of Vitri-fied Brick on a four inch concrete base. The price agreed upon is \$3.47 per yard, the deal representing an expenditure of approximately \$104,000.

Clyde—A five mile extension is to be made by the West Texas Utilities Company to serve a number of farm houses southwest of Clyde with electricity. Some 25 houses have agreed to wire for electric lights.

Jacksboro—The home beef canning movement inaugurated by the County Home Demonstration Agent is showing increased interest on the part of farmers in Jack County communities. The Shannon Community came out 25 strong with halves of two beeves for a canning program. A number of rural citizens, in addition to those already served are planning to can beeves.

Fredricksburg—Construction work on "The Nimitz", Fredricksburg's new \$125,000 hotel is well under way. The structure is to have 60 guest rooms, a 100 capacity dining room, a ball room that can be converted into a 350 capacity banquet hall, several sample rooms, and free garages for guests. All modern conveniences and equipment will be included in the building.

San Saba—A. W. Woodruff, pecan expert, and E. E. Risten & Son, nurserymen, of this place have contributed six fine pecan trees to the West Texas Chamber of Commerce for planting in front of the new headquarters building. The trees scientifically grown by Risten, the world's only pecan breeder, are the "highest of highbrow" pecans, according to Woodruff. They will be set in front of the regional chamber's new building with fitting ceremony at an early date.

Stanton—Representatives from more than twenty-five Texas towns are expected to attend the first West Texas Chamber of Commerce convention of 1927 to be held here January 255. Delegates will be members from the Central West Texas District, large delegations coming from Big Spring, Midland, Colorado, Snyder, and Post. B.

Reagan of Big Spring will be master of ceremonies. A number of prominent speakers have been secured for the convention, with the general trend of the program along agricultural lines.

Wichita Falls—W. B. Hamilton, well known oil man and city builder of Wichita Falls, has been appointed general chairman for the annual convention of the West Texas Chamber of Commerce to be held here May 16 and 17. Hubert Harrison, secretary of the Wichita Chamber, is now en route for New York and Washington to do work in the interest of the convention. He will try to interest the National Geographic Magazine to devote an issue to the convention, and will undertake to secure a staff representative of the National Geographic Society to attend the big pageant, "The Congress of Nations."

SCENES OF LIFE

By Jack Harris, 5th Grade, Pampa Schools. Mrs. Hunter's Room.

Let him who lives for pleasure's fun,
Be not too grieved when pleasure's done.

Let him reflect at trouble's sting,
"Well, anyhow, I've had my fling."
Too oft we find that those who play
Groan loudest when their sky is gray.

Who plays with life its thrill to earn
Should never whimper at a pain.
Not toes, but Folly's hands prepare
Most of the hardships we must bear.
Who knows the cost and toys with shame

Has but himself alone to blame.
Take what you will; there's no restraint;
But pay the bill without complaint.

"A postage stamp is licked before it starts, but it always finishes."

SOCIETY NOTES

W. M. U. Members Hold Meeting.
W. M. U. met at the Baptist church Jan. 19, with 17 ladies present in the regular business meeting. They will continue to support a native Missionary in China another year.

On the afternoon of Jan 20th, we will have a food sale at the Pampa Poultry Produce Association.

Mrs. Ledrick And Mrs. Walsted Entertain With Parties

Mrs. P. C. Ledrick and Mrs. George Walsted were joint hostesses to two delightful forty-two parties last week at the home of the former. The persons playing Thursday night were: Mr. and Mrs. L. C. McMurry, Mr. and Mrs. C. T. Hunkapillar, Mr. and Mrs. A. Cole, Mr. and Mrs. W. Purviance, Mr. and Mrs. S. Faulkner, Mr. and Mrs. Lee Ledrick, Mr. and Mrs. Ed Corson, Mr. and Mrs. Charles Thomas, Mr. and Mrs. DeLeon Vicars, Mr. and Mrs. Edwin Vicars, Mr. and Mrs. B. E. Finley and Mr. and Mrs. Frank Shriner.

The Friday afternoon guests were Mesdames James Todd, D. Pope, W. M. Craven, Joe Smith, I. B. Hughey, C. P. Buckler, J. Brown, S. Thomas, L. Ledrick, H. Kingsbury, C. T. Hunkapillar, Tom Rose, C. C. Dodd, A. H. Doucette, G. Shaktleton, Neils Walberg, T. D. Hobart, H. L. Lippold, Joe White, R. C. Campbell, H. Haynes and John Chapman.

Delicious refreshments were served at both parties.

Mrs. Edwin Vicars Hostess At Bridge

Mrs. Edwin Vicars delightfully entertained a number of friends Tuesday afternoon with bridge as the favored diversion. High score was won by Mrs. Leerlight.

The guest personnel included Mesdames A. H. Doucette, J. E. Murfee, Clyde Fatheree, Neil McCullough, Henry Thut, Bob Morris, W. M. Craven, Charles Cook, Bert Isbell, Joe M. Smith, S. Faulkner, John Andrews, Walter Coffee, Pribble, Dees and Leerlight.

A delicious salad course was served to the guests.

AT THE THEATRES

Happy Jack Jenks' company will play at the Crescent Theatre all next week. The various acts include music, singing, and high speed comedy with plenty of laughs for all. The manager announces something entirely different in the way of theatre entertainment.

The season's hit in comedy, "The Monnaie Flapper," will open the week Monday night. The play is scheduled to reveal fifty minutes of rapid-fire amusement.

The Happy Jack Jenks' Company has been showing with success, and all arrangements are being made to make the week at the Crescent one of the best.

Bert Humphries Brovities are scheduled for the Box next week. Bert is known for her clever comedies and original humor. All the acts are written by herself, and comprise a series of songs and skits guided by original music.

Some of her outstanding hits include "Washboard Blues," "Brovities," "Sure Cure For The Blues," etc. Various clever stage interpretations will be mingled with the original songs.

Mrs. P. C. Ledrick is visiting her sister, Mrs. Winnett, at Higgins.

Radioed From USDA

Pruning Flowering Shrubs
Pruning Flowering shrubs will depend upon the time of flowering. Those which blossom in the spring should not be pruned now, but after their flowering, when all the shoots that have bloomed should be cut back or cut out at the base of the plant. If these shrubs are pruned now, all the flowerbearing wood will be removed. On the other hand summerflowering shrubs like hydrangeas and hibiscus should be pruned early in the spring, removing the oldest canes at the base and shortening the remainder at least one-third.

Strong Fertilizer
A concentrated fertilizer differs from the ordinary mixed fertilizer in being richer in those constituents which increase the growth of crops. In the ordinary fertilizer these constituents amount to only about fifteen per cent on an average. When the amount present is increased to between fifteen and thirty percent the mixture is called a "high analysis" fertilizer. In a concentrated fertilizer the fertilizer constituents amount to thirty percent or more.

Grounding Radio Set
In grounding a radio receiving set the soil below the outdoor antenna should be a good conductor of electricity. This is especially necessary near the pipe or other metal used to make contact with the ground. If pipes or rods are driven in the ground, the soil near them should be watered when dry and common salt added to the water.

For Chicken Lice
Poultrymen who have tried both sodium fluoride and blue-ointment for chicken lice say the fluoride is better. You can use sodium fluoride in any season of the year. Fluoride may be used as a dip, in the summer time—or in cold weather, if you take care to prevent the birds catching cold after the dipping. Blue ointment should always be used sparingly—especially on chicks. Also be careful with sodium fluoride when you dust chicks with it. The poison sometimes proves too much for very young chicks. It's a good idea to clear the lice out before the hatching season begins.

"Inside" Information

If building or remodeling a kitchen, make it oblong rather than square, to save steps in doing the work, and to distribute the equipment advantageously.

Soaking any kind of fresh meat before cooking is a mistake. It draws out the juices which give the characteristic flavor and add to its food value. If the meat needs cleaning, wipe it off with a damp cloth or trim it.

To make a soup more interesting or festive, as well as improve its flavor, add to each plate at the last minute, a little minced parsley or a half slice of lemon, or both, if it is a meat soup. A spoonful of unsweetened whipped cream is good on many kinds of soup. Toasted squares of buttered bread (croutons) farina balls, and other garnishes often seen in restaurants are easily made at home.

Too much water in a washing machine can cause excessive splashing and often reduces the efficiency of the machine. Observe where the water line is, and also be careful not to overload the machine with clothes.

In making quick breads and cakes allow in general 1 to 1 1/2 teaspoonfuls of baking powder for each cup of flour. Butter cakes that have a great deal of egg white may, however, need less. Pop-overs and sponge cakes are the exception and require no baking powder at all.

Any homemaker can become a good cotton picker at the white sales these days. Send to the United States Department of Agriculture for the bulletins on "Selection of Cotton Fabrics" (1449-F) and "Principles of Window Curtaining" (1516-F). These tell how to judge weaves, finishes, and dyes in cotton fabrics for many uses.

The kitchen is, above all else, a place to prepare and serve food. Limit it to this use if possible, and arrange for laundering, and such work to be done in another place.

NEWS WANT ADS PAY

City Of Detroit Loses Million Year On Cars

In May 1922 the city of Detroit purchased and began to operate the electric street railway system of the city. The Detroit United Railways Company, former owner, was unable to operate the system at a profit at the then current fares—seven tickets for 25 cents.

By payment of \$19,850,000 the city acquired 273 miles of track, 1029 street cars, two power stations, and real estate valued at \$8,000,000. Fares were placed at five cents with transfers one cent additional. Straight fares are now six cents.

At the end of the first year of municipal operation it was stated that the city had made a profit of one million dollars. At the close of 1925, with three years of municipal operation, financial reports indicated an annual net surplus of more than \$500,000.

An audit of the traction system's books, however, revealed that the three years of city ownership and operation had caused an actual deficit of more than \$1,000,000. The reserves carried on the books had not been put aside from income. They existed only on paper.

During that period the city had enjoyed unusual advantages. The street railway was exempt from federal taxation, income tax, park tax, taxes on franchise, cars, poles, tracks and street lights, state corporation tax and many others that privately-owned companies must pay. The

city did not have to operate suburban line that did not pay and its lines operated in a city with no hills and densely populated.

Defective Fences Cause Quarrels And Diseases

Success in hog raising depends in large measure upon the proper management and suitable equipment, says the United States Department of Agriculture. Defective fences are responsible for considerable annoyance, disagreement among neighbors, damage to gardens and crops, and often for the appearance of disease. The average farm fence is more unsatisfactory because of faulty construction than on account of unsuitable materials. Woven wire is regarded by the department as the most practical hog-tight fence.

Eight Years Usage Is Four Months Testing

Crowding the normal usage of eight years into four months is one

of the tests given certain types of telephone transmitters before they are considered fit for service, comments the Pennsylvania Public Service Information Bureau.

When the different types of transmitters are ready to be tested they are arranged on racks and a phonograph is placed in front of them the phonograph shouts "one, two, three, four, five" for a protracted period and under this test the transmitters are subjected to usage that would require much longer under ordinary conditions.

The type that best stands the test is selected for manufacture, about 1,500,000 being made each year for the Bell system. Tests are made for all kinds of treatment, even for the jar the transmitter might receive if the receiver were slammed down on it.

Another test that must be passed by the transmitters before they are released for service consists of placing them in a sealed and air-tight room which is then made hot and steamy. In this steam the transmitters are subjected to several special tests for damp climates.

School for oil field Children! Breaking Ground at Skelly!

So that the children in the new Roxana Oil Pool district north of White Deer might go to school, the townsite company at Skelly donated a site, and public spirited citizens are building the school free.

In three months Skelly has grown from nothing to a thriving oil town. The new city, which is located at the crossroads of the Borger-Pampa Highway and the road from White Deer to the new oil field, has scores of buildings already up, graded streets, gas and water piped to every lot, and also gas street lights. The new school house will also be used for a church.

CITATION BY PUBLICATION TO THE SHERIFF OR ANY CONSTABLE OF GRAY COUNTY, TEXAS—GREETING:

You are hereby commanded, That you summon, by making publication of this citation in some newspaper published in the County of Gray if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County to said Gray County, for four consecutive weeks previous to the return day hereof, E. F. Simmons, the unknown heirs of E. F. Simmons, the unknown heirs of W. H. H. Stephens, William H. Stephens, the unknown heirs of William H. Stephens, C. L. Maple, the unknown heirs of C. L. Maple, Lillian Maple, the unknown heirs of Lillian Maple, A. J. Lee, the unknown heirs of A. J. Lee, W. H. H. Stephens, the unknown heirs of W. H. H. Stephens, Cordelia A. Stephens, the unknown heirs of Cordelia A. Stephens, William A. Jackson, and the unknown heirs of William A. Jackson, whose residences are unknown, to be and appear before the Honorable District Court at the next regular term thereof, to be holden in the County of Gray, at the Court House thereof, in Lefors on the 28th day of February, A. D. 1927, then and there to answer a Petition filed in said Court, on the 30th day of December, A. D. 1926, in a suit numbered on the Docket of said Court No. 1653, wherein L. H. Webb is

plaintiff and E. F. Simmons, the unknown heirs of E. F. Simmons, William H. Stephens, the unknown heirs of William H. Stephens, C. L. Maple, the unknown heirs of C. L. Maple, Lillian Maple, the unknown heirs of Lillian Maple, A. J. Lee, the unknown heirs of A. J. Lee, W. H. H. Stephens, the unknown heirs of W. H. H. Stephens, Cordelia A. Stephens, the unknown heirs of Cordelia A. Stephens, William A. Jackson, and the unknown heirs of William A. Jackson, are defendants.

The nature of plaintiff's demand being as follows, to-wit:

Suit by plaintiff, L. H. Webb, against the defendants above named in two counts, the first in trespass to try title, and in which count plaintiff alleges that on August 30th, 1916, he was in quiet and peaceable possession of the following described lands and premises, owning, holding and claiming the same in fee simple, said lands being described as follows, to-wit: All of Section No. 43, in Block No. 25, Certificate No. 12-2526, issued to the H. & G. N. Ry. Co., situated in Gray County, Texas, containing 640 acres of land, more or less. Plaintiff further avers that on the date above mentioned the defendants herein unlawfully entered upon the above described premises and dispossessed plaintiff thereof and that they now unlawfully withhold from the plaintiff the possession of

said premises. Plaintiff prays judgment for the title to and the actual possession of the above described lands and premises as against each and all of the defendants.

In the second count of said petition plaintiff pleads in the alternative and in subordination to his rights under the first count, that he and those under whom he claims title to the above described property have been in the actual and peaceable possession thereof, holding and claiming the same under a chain of title emanating from the sovereignty of the soil, the State of Texas, all of same being duly registered, for a period of more than three years preceeding the institution of this suit; also that plaintiff, and those under whom he claims

title to said land have had the actual, notorious and peaceable possession of said land, owning, holding and claiming the same under deed or deeds duly registered in the office of the County Clerk of Gray County, Texas, and paying all taxes thereon, cultivating, using and enjoying said lands, for a period of more than five years preceeding the institution of this suit; plaintiff also alleges that he and those under whom he claims title to said land have had the actual, notorious and peaceable possession of said land for a period of more than ten years preceeding the institution of this suit, claiming the same under a muniment of title duly registered in the office of the County Clerk of Gray County, Texas, in which the boundaries of said tract are fully described and that during all of said period of ten years plaintiff and those under whom he claims title to said land have cultivated, used and enjoyed the same.

Plaintiff prays judgment against the defendants, in the alternative, for the title to and the actual possession of the above described lands and premises, together with general and special relief, legal or equitable.

HEREIN FAIL NOT, And have you before said Court, on the said first day of the next term thereof, of this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Lefors, Texas, this 30th day of December, A. D. 1926.

Charlie Thut, District Clerk, Gray County, Texas.

Many Black Bears

An unusual number of black bears were imported from Canada during the past year, chiefly for exhibition purposes, according to the Biological survey of the United States

Department of Agriculture. May and June were the months when most of them were shipped. Ninety-seven permits for shipment were issued to persons in four different Provinces. The bears were consigned to widely scattered points in 10 States.

Investigate This Newest Oil Town and Oil Pool

SKELLY

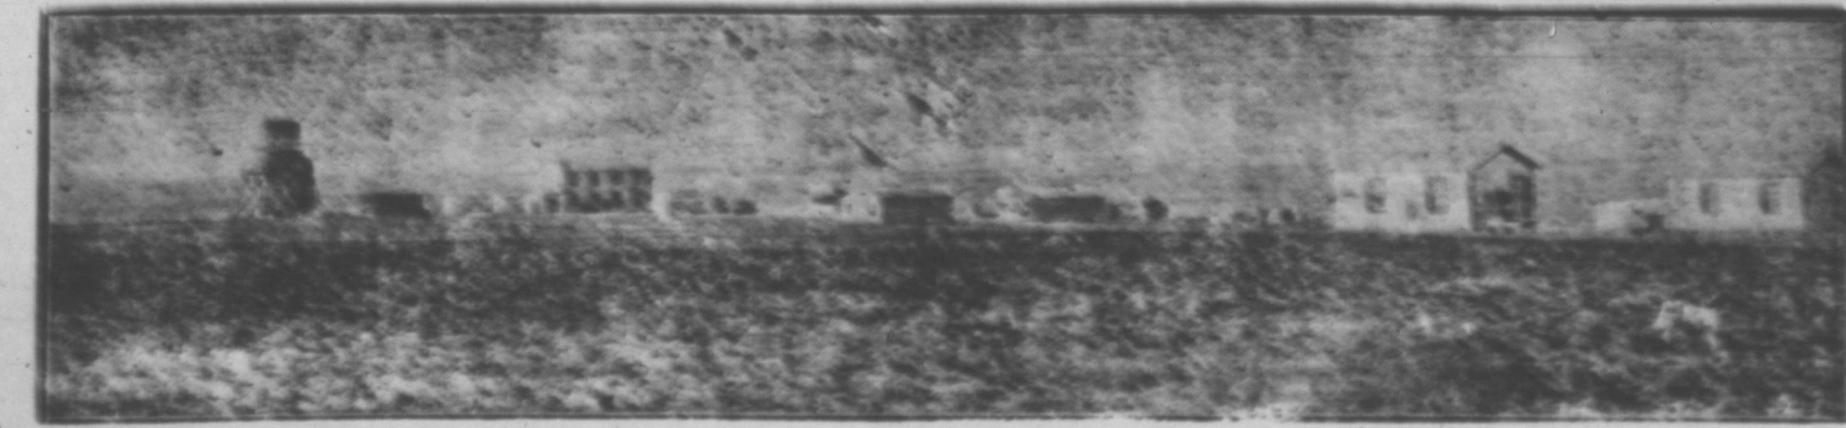

Where Oil Highways Cross

The scores of derricks that went up around the Roxana discovery well are now striking the pay—and coming in as big wells. The Nunn-McCauley is one of the best producers in the Panhandle—3,500 barrels a day—and Skelly is the great new oil town that serves this new Panhandle oil pool!

More than \$50,000 worth of building sites have already been purchased in Skelly—practically all of them by business men and investors who know oil towns. And a tremendous additional investment is being made in improvements!

Piped water, graded streets, gas, a good school and church are accomplished facts. Yet excellent building sites may still be obtained at the low pre-development prices, \$75 up, only 25% down, and 5 months on the balance. Warranty deed with every lot, only the mineral rights being reserved.

Business and investment opportunity is awaiting you at Skelly! Drive out and see this new oil town and oil pool today.

May Use Airplanes To Control Against Blueberry Maggot

Large-scale growers of blueberries in Maine are interested in the possibility of applying arsenical dusts by airplane for the control of the blueberry maggot. The blueberry pack in Washington County alone is said to be valued at more than a million dollars annually. The crop is the most important agricultural product of the county. When the blueberry maggot is abundant it is found in the blueberries after canning, rendering them unsuitable for food. Control of this pest has therefore become a serious problem which is under investigation by the Bureau of Entomology of the United States Department of Agriculture. It has been the practice to burn a portion of the acreage every third year to destroy puparia of the insects in the soil, but results have been doubtful. There may be an indirect benefit from the burning of large acres through reduction of the food supply of the insects during the following two seasons. Further study is needed on this point. Experiments are also being conducted with calcium arsenate and arsenate of lead dusted over the plant to poison the adult flies while feeding. This method of maggot control has proven of considerable value in orchards. If it is found that dusting plants with arsenicals during the period of emergence of the flies is a satisfactory remedy various practical details will require attention since much of the blueberry barrens are lowlying lands, paying very small returns. For this reason the airplane is being considered.

Ivan Bridges of Clovis, New Mexico was a Pampa visitor Monday.

NOTICE OF BIDS WANTED

The State of Texas, County of Gray: Notice is hereby given that the Commissioners Court of Gray County, Texas at its February Term, A. D. 1927, will receive proposals from any Banking Corporation, Association or Individual Banker, in said county of Gray, that may desire to be selected as the Depository of the Funds of said County.

Any banking Corporation, Association or Individual Banker in said County, desiring to bid shall deliver to T. M. Wolfe, County Judge of Gray County, Texas, on or before the 14th day of February, A. D. 1927, a sealed proposal, stating the rate of interest that said Banking Corporation, Association, or Individual Banker, offers to pay on the daily balances of the funds of said County, payable every 30 days, for the term between the date of such bid, and the next regular time for the selection of a Depository.

Said bid shall be accompanied by a certified check for not less than Two Hundred and no-100 (\$200.00) Dollars as a guarantee of the good faith on the part of the bidder, and if his or its bid should be accepted, he or it will enter into a good and sufficient bond as provided by Article No. 2547 of the 1925 Revised Civil Statutes of the State of Texas; and upon failure of the said Banking Corporation, Association or Individual Banker, that may be selected as a Depository, to give bond as required by law, the amount of such certified check shall go to the County of Gray as liquidated damages, and the County Judge shall re-advertise for bids. The Commissioners reserve the right to reject any and all bids.

Given under my hand and seal of office, at Lefors, Texas, this the 17th day of January, A. D. 1927. T. M. WOLFE, County Judge, Gray County, Texas

PUBLIC NOTICE

Every able bodied man between the ages of 21 and 45 years are subject to a street tax if they have resided here for a period of ten days or longer and have not paid a street tax elsewhere in the state. The tax is payable to John V. Andrews, city tax collector. The tax amounts to \$3 if paid before January 31. After that date the tax will be \$5 with a penalty added.

Balkan Capitals To Be Linked By Telephone

Attempts are being made to link the capitals of several Balkan states into one long distance telephone system. Greece wants her capital, Athens, connected with Sofia and Belgrade. Through the latter city Athens could then reach Bucharest, Budapest, Vienna, Rome and Paris. Although the distance between Paris and Athens is far less than many of the distances spanned by the American continent-wide network, no telephone communication is as yet possible between them.

City Manager Says No Parking Good

There is only one way to get full use of the streets in congested traffic districts, says Clarence C. Sherrill, city manager of Cincinnati, Ohio. That is to prohibit the parking of cars in such districts.

"When we consider the exceedingly small number of cars that can be parked in the congested area of any city," says Mr. Sherrill, "it will be apparent that certain motor car owners are a specially privileged class to be allowed to occupy so large a percentage of street area with such a small percentage of the motor cars.

"In Cincinnati the congested district has been estimated to provide parking space at the curb for approximately 3,000 motor cars. There are registered in the city approximately 100,000 motor cars, and in the metropolitan area directly tributary not less than 150,000. Parking privilege therefore is granted to from two to three percent of the car owners at the expense of the ninety-seven or ninety-eight percent or some 5000 persons are given this privilege at the expense of some 400,000 residents who suffer from traffic congestion."

KNOW TEXAS

Texas railroads built 1,005 miles of track in 1926 which is far more than was built in any other state. Florida was second.

Texas produces five million pounds of honey a year.

When the Republic of Texas was organized all the land within its boundaries was public domain except about 25,000,000 acres previously granted by Spain and Mexico for colonization purposes.

Texas produces about \$9,000,000 worth of cement every year.

Clay products, brick and pottery produced in Texas are worth more than \$6,000,000 a year. amounts to approximately \$4,000,000 a year.

The gypsum output of Texas 000 a year.

Graphite, quicksilver, salt, sulphur, and silver produced in Texas bring \$7,000,000 a year.

The sand and gravel produced in Texas every year is worth \$3,500,000.

Sweet Clover Sown With Winter Wheat

Where winter wheat is grown an excellent way to obtain a stand of sweet clover is to sow unscarified or even unhusked seed on the wheat about the middle of February, says the United States Department of Agriculture. It is not advisable to sow any kind of sweet clover seed much earlier than this date, because it is likely to germinate during a warm period in mid-winter and the seedling be killed later by freezing weather. On the other hand, unscarified seed should not be planted much later than the middle of February or it will fail to come up that season. One advantage of sowing in February is that if one does not get a stand there is still time to sow some scarified seed in March or early April. Scarified seed is seed that has had the hard coat scratched so that it will germinate more readily.

Photographers Divide The Year By Pictures

This is the season of snow pictures and other winter scenes, according to Fred Moss, photographer. "The season for portraits is best for a month preceding Christmas," he says. "This is the time that we photographers call the snow season. In the spring and summer we are busy finishing pictures that are taken on picnics and vacation outings."

In a little studio, sealed from the outside world, the photographer reveals the history of others as he develops the films from the various cameras.

Very few persons understand the mechanical parts and adjustments of their cameras, according to Moss. Many pictures, he says, would be better if the operator knew how to make adjustments according to the time of day the pictures are snapped. "The best pictures are those taken between 10 o'clock in the morning and 4 o'clock in the evening," says Moss. The sun should be bright, and the photographer should have the sun shining from the back or side so as to shade the camera.

Moss has been in the photography business for the past eight years. He came to Pampa from Los Angeles about six months ago.

"It's not what a picture is worth now," he says, "but what the picture will be worth fifty years from now."

Chapel Services At P. H. S.

Chapel services were held at the Pampa High School Monday morning. The Rev. F. A. Tippen made a short talk to the student body.

Dr. W. Parviance Ill

Dr. W. Parviance was taken ill with influenza at his office yesterday afternoon. He is confined at his home now.

Care Of Horses In Winter Important

The condition of the farm work horse that has been wintered in the open is usually better at the end of the winter than that of the stabled horse. Weather conditions in some sections, however, will not permit this practice. When the horse must be kept indoors the stable should be made as sanitary and comfortable as possible, and have an abundance of light and proper ventilation throughout the year.

A system of ventilation with floor outlet ventilators will tend to carry off foul air and regulate the temperature, especially in colder climates. Where windows are relied upon for both light and ventilation they should be high up from the floor and open inward from the top, in order to protect the horses from direct drafts.

Stalls should be well bedded and cleaned daily. Clay floors are doubtless the best if correctly built and properly attended to. They must be kept smooth, with slightly more slope for drainage than for other types of floors.

In connection with the stable, a large paddock or inclosure, especially a sodded one, helps considerably to keep in fit condition horses that are worked irregularly. Thorough grooming is a further aid to the health of the horse.

Lettuce Proves To Be Favorite Salad Crop

California leads in volume of lettuce production, followed by Colorado, New York, Arizona and Florida. The order of importance changes each season due to weather conditions, although California always takes first place. Last year, these five states shipped about 99 percent of the total car lot lettuce supply.

Shipments are made up chiefly of the compact, substantial head lettuce of such well known types as the Iceberg from the West, and the Big Boston from the eastern shipping region.
