CERTIFIED TO JUVENILE COURT — Alice Richard, 14, (left) sits in a car with Sheriff's Lt. J. W. Ripperdan after her arraignment in court at Fresno, Calif. She is being held in connection with the fatal shooting of her twin sister, Sally. (AP Wirephoto).

HIGH SCHOOL GIRL IS ARRAIGNED IN FATAL SHOOTING OF TWIN SISTER

FRESNO, Calif., March 21. — Sally Richard, 14, will be buried today. A little later, psychiatrists will be court appointed to ask her twin, Alice, why she shot Sally in a fit of hatred.

Alice told officers she has no desire to attend her sister's funeral. She said she had hated Sally four years and "I would kill her again."

Clothed in a plain cotton dress and with no makeup, Alice was arraigned before Justice Leonard J. Myers yesterday.

She was defiant as she heard the charge: That she wilfully and with malice shot Sally early Sunday.

A high school sophomore, she had the air of a pupil called before a principal for some infraction of the rules.

She seemed to have a notion of the gravity of the crime — but no worry as to its consequences. Asked if she realized what might happen to her, she shrugged.

"I guess they'll put me in an institution for a while and then execute me."

Under California law she is too young for execution but could be sent to a girl's school of correction or a mental institution.

Stop Worrying About Skin Itch

Use gentle, swift acting and delightfully soothing Gray's Ointment with mentholated medication to help nature fight external conditions that cause persistent itching and smarting of rash, letter, poison, simple ringworm, pustules, chafing, facial blemishes, innocuous insect bites, between toe, athlete's foot, "itching gut," and other such annoying itchy skin troubles. Gray's Ointment spreads easily, allowing wholesome mentholated medication to comfort tender affected areas. Famous for over 100 years. A 50c package often lasts for weeks.

SMALL RANCH

2 section ranch on highway, 1 mile from good town with fine school system. 961 acres deeded, rest leased. 3 room modern home, gas, electricity, 2 wells. A fine place for \$35 per acre for deeded land - 320 cheaply leased.

Britons Asking Return Of Lash As Crime Grows

LONDON, March 21. — A wave of brutal crimes has brought growing demands for the return of legal flogging with the dread "cat o' nine tails."

Britons of all classes—even some of the old-time professional thugs and burglars—are getting more and more incensed at the sickening violence of Britain's postwar "kid gangs". Worse still, to the average Briton, is the fact that more and more criminals are carrying guns—and this in a land where ordinary policemen traditionally are not armed.

Spurred by public indignation, by headline protests in the nation's press and pressure from law bodies throughout the land, the House of Lords today discusses the growing use by jittery youngsters of the gun, the broken bottle, the lead pipe and the straight razor.

Heading the list of suggested measures for curbing this is the possibility of making legal once again the use of the lash—mere mention of which makes the most hardened British criminal wince. The House of Commons is slated to discuss it later on.

Britain abolished the use of the "cat" in prisons two years ago, when the government revised its laws on criminal procedure.

But so vicious have become some of the dark-street muggings and robberies in recent times that old magistrates are demanding the right to impose flogging as well as jail terms.

Lord Chief Justice Goddard, sentencing two teen-aged boys last February for nearly killing an elderly lady with a lead pipe because they were just looking for somebody to slug, declared:

"The amount of violence that is going on is shocking. I believe it is largely due to the fact that men know they can no longer be whipped for it."

Police authorities blame the new violence in crime on the pasty-faced kid with the gun who gets jittery when he pulls a job. Generally, he's a product of the war—either having gotten the thrill of wartime commando raids in his blood, or having been neglected in adolescence by his parents who were overworking in the war effort.

Films Exhibited At Meet Of Local Cub Scout Den

Movies of previous meetings and several cartoon films were shown at a Saturday meeting of Cub Den No. 3 Pack 13 at the home of Mrs. Obie Eristow, den mother.

Members of the den played games following the movies. Present were Jerry Graham, Bill French, Gordon Bristow, Robert Stripling, Claude Renick, Bill Elliott, George Peacock, Bobby Kiser, Tommy Richbourg, Bobby Dillon, Tony Hampton, Lee Denton, Danny Brownlee, Kenneth Morrow and Vance McCright.

Leaders attending were Mrs. Omer Elliott, Mrs. Robert Stripling, assistant den mothers, Mrs. Bristow, and Bill Dillon, assistant den chief.

Ward Will Attend Dallas Meeting

C. P. Ward is to be in Dallas Wednesday where he will attend the annual convention of National Cleaners and Dyers organization. Discussions of new methods of cleaning and dyeing, synthetic fabrics, and new cleaning, dyeing and pressing equipment will be held during the three-day convention, Ward said.

Ward is operator of Perfecto Cleaners here. He will return to Big Spring Friday.

HEARING ALREADY PENDING New Charge Filed Against Sander

MANCHESTER, N. H., March 21. — Dr. Hermann N. Sander has a new hurdle to clear before he can return to good standing in New Hampshire's medical profession.

Dr. Lloyd L. Wells, secretary of the Hillsboro County Medical Society, disclosed last night that a charge had been filed with the organization against the young country doctor.

The State Board of Registration in Medicine already has a hearing pending to determine Dr. Sander's right to continue the practice of medicine. The hearing will be held April 12.

Local Recruiters Visit Sub Stations

Two staff members of the Big Spring Army and Air Force Recruiting Main station are visiting sub stations in the Big Spring district this week.

Col. John F. Taylor, commander of the Big Spring area, is making an inspection tour that will carry him to substations at San Angelo, Marfa, Del Rio, Odessa, Midland, and Monahans. He is to return to the Main station Thursday.

Sgt. Ernest E. Runyan, public relations officer, is at the Marfa station instructing personnel in public information procedure.

NEWSMAN TELLS PAPER FIRST

HARRISBURG, Pa., March 21. — Reporter George Fox called his newspaper, the Harrisburg Patriot, last night and informed the city desk: "I have a holdup story."

"Is that so?" commented the rewrite man. "Who was the victim?"

"Me," said Fox. Then Fox told how two men held him at gunpoint, forced him to hand over \$40.

His story phoned in, Fox reported the robbery to police.

Chiropractic For HEALTH

The disclosure that a charge had been filed with the county society came a few hours after two Catholic hospitals announced Dr. Sander had been banned from practicing in the institutions.

The 41-year-old physician was acquitted March 9 of murder in the death of Mrs. Abbie C. Borrota, 59, a cancer-ridden patient.

In announcing that the county society had been called upon to take action, Dr. Wells said:

"A charge has been made against Dr. Hermann N. Sander. The Hillsboro County Medical Society's constitution and by-laws govern all procedures. No further official comment will be made until these procedures are completed."

The nature of the charge was not disclosed.

The county group's constitution provides that charges may be preferred "by reason of (1) criminal offense, (2) gross misconduct as a citizen or physician, or (3) violation of the society's by-laws."

Dr. Sander was not available for comment. Members of his legal staff had nothing to say.

Under the society's rule of procedure, the next step would be submission of the complaint to the group's board of censors.

The board of three doctors can recommend (1) Dr. Sander be reprimanded, (2) that he be exonerated of the charge, or (3) that he be expelled from the society.

Big Spring (Texas) Herald, Tues., March 21, 1950 11

PLANS TO BE MADE

Martin-Howard Soil Meet Set March 24

The supervisors of the Martin-Howard Soil Conservation District are holding a called meeting in Big Spring Friday, March 24...

The supervisors are making plans to buy a few grass planters, drills with fertilizer attachments and other needed equipment...

Wind erosion in the Martin-Howard Soil Conservation District has not become critical during recent blow spells...

Local blowing is aggravated by occurrence of repeated dust storms from the northwest and will likely become worse until general rains come...

Level borders have been laid out on most of the area and ditches and turn rows staked. Construction is expected to start soon...

Level borders have been laid out on most of the area and ditches and turn rows staked. Construction is expected to start soon...

31 Howard County Men Join State's Manpower Pool

A total of 31 Howard county men were added in February to the state's pool of manpower available for military service in case of war or emergency...

The Howard county total constituted a part of the 2,454 men added to the pool throughout the state...

This brings the acceptable group of manpower within the county to 2,309 and to \$3,888 within the state...

In all, the local board has on file the names of 285 youths who have not yet attained their 19th birthdays...

Local blowing is aggravated by occurrence of repeated dust storms from the northwest and will likely become worse until general rains come...

Middlecoff Is \$2,000 Richer

JACKSONVILLE, Fla., March 21.—Carry Middlecoff may have started another run of red-hot golf with his victory in the Jacksonville Open yesterday...

The 29-year-old National Open champion ended a series of high finishes with the top \$2,000 in this event last year...

Shooting a 69 on final day here, Middlecoff scored 279 for the 72 holes. The three-under-par round stood out among a flock of awesomes as a treacherous wind gust crossed the 6,508-yard Hyde Park course...

Jack Burke of White Plains, N. Y., the youngster who is second to Sam Snead in money won this year, saw his 54-hole lead vanish with a sad 78. At the 285 the best could do was a sixth place finish...

Snead also slipped. He came in with 74 for 284 and a fourth place tie. George Fazio of Washington, D. C., added 71 to three rounds of 70 for 281 and second money of \$1,400...

Snead and Jim Ferrier of San Francisco got \$750 each for 284's Burke. Al Bessink of Detroit, Bob Hamilton of Landover, Md. and Skip Alexander of Knoxville, Tenn., collected \$487.50 apiece at 285.

Eighteen boys were listed as members Monday evening as the Cub pack at Forsan was activated. O. C. Chapman was announced as Cubmaster with F. C. Tate as assistant Cubmaster...

Listed as den mothers and assistants were Mrs. H. G. Starr, Mrs. W. C. King, Mrs. A. O. Jones, Mrs. Sam Starr, Mrs. G. D. Kennedy, Mrs. M. Bailey and Mrs. A. J. Smith.

Registered as Cubs were Burney B. Chapman, George A. White, Jimmie B. Cranley, William G. King, Gary Don Starr, Ronnie Baker, Gerald W. Kennedy, Frank C. Tate, Jr., Muri Bailey, Jr., Malvin Bryant, Travis Dale Schafer, Jerry Warren Bardwell, Milton Dean Bardwell, Thomas Edward Gilmore, Loy Dean Pike, Jerry Pike, Henry George Starr, Jr., and Lewis Leon Hand.

Homesly Rites Set Today in Angulo

Last rites for James Edward Homesly, 72, killed in a highway accident east of here Sunday night, were to be held at 2 p. m. today in San Angelo.

Burial was to take place in a San Angelo cemetery, near his mother's grave, who passed away some 18 years ago. The body was taken overland by a Nalley carrier.

Survivors include three daughters, Mrs. John B. White of Pampa, Mrs. Cecil R. Bookout of El Paso and Mrs. R. A. Johnson of Corvallis, Ore.; one son, Sterling Homesly, a student at West Texas Teachers college in Canyon; two brothers, George Homesly of Alice and Walter Homesly of Hanger; and two grandchildren.

H-BOMB

(Continued from Page One) off an explosion in some form of hydrogen, using the explosion of an ordinary A-bomb as the trigger.

While you could theoretically use an infinite amount of hydrogen in the H-bomb — and theoretically make a bomb 1,000 times more powerful than the A-bomb — in practice it might have to be far smaller, just for convenience. Dr. Louis Ridenour of Illinois University has observed:

"To say the fusion bomb would be 2, 7, 10, 100 or 1,000 times as devastating as the conventional fission bomb (the A-bomb) is to speak from ignorance. The effective size will depend upon the intentions and skill of its designers."

If a bomb were 1,000 times more powerful than the Hiroshima A-bomb, it would cause almost complete destruction up to a 10-mile radius, and fatal flash burns up to 20 miles or more. Such a bomb could obliterate almost all of greater New York or Moscow or London.

Scientists today know the basic H-bomb theory, but cannot be sure until they try that it will work. Dr. Hans A. Bethe, one H-bomb architect, has predicted that completing it will take "several years."

Other estimates have been shorter — the time may depend on how hard we labor. The H-bomb, if it works, could easily dwarf today's A-bomb in deadly radioactivity, just as its blast power. For the H-bomb reaction would eject millions of the penetrating particles called neutrons.

The neutron shower would turn some of the nitrogen in the air into Carbon 14, a radioactive form of carbon that lasts thousands of years. This will be absorbed by plants and get into all forms of life.

The effect on human genetics alone — the way the radiation could alter our genes and affect future generations — might be terrible. It is true, Albert Einstein now says, that "radioactive poisoning of the atmosphere, and hence annihilation of any life on earth has been brought within the range of technical possibilities."

On a broadcast by the University of Chicago Round Table last month, four important scientists raised the possibility of "rigging" an H-bomb to produce even more radioactivity than normal.

One, Dr. Leo Szilard of Chicago University, also raised the issue of national dispersal-moving people and industries from fat, easy targets. He said that to move 30 to 60 million people from big cities might cost 15 to 25 billion dollars a year for 10 years. (The entire defense budget today is 15 billion dollars.)

One of his fellows, said we must realize that the cost of building H-bombs, then, could be "not only the cost of the bomb, but the fantastic cost of proper dispersal, which would protect cities from blast effects if not from radioactivity — and permit us at least more security than we would have" otherwise.

David E. Lillenthal, former U. S. Atomic Energy Commission chairman, accused these four scientists of creating "growing hopelessness and helplessness" and arousing "emotions that play into" Communist hands.

"What we said we did not say to scare people, nor did we say it for lack of restraint," replied Szilard. "The reason for speaking up is rather this: neither the President nor the Atomic Energy Commission has explained to the American people what the decision to develop hydrogen bombs will involve, what the meaning of the 'hydrogen bomb' is, or what the cost of the indispensable defense measures must be. Yet these are things the people must know."

"It might very well be true that the people will decide against relocation, and that Congress will not vote funds for it," he added. "But if that happens, and the atomic arms race continues, and the cold war goes on and on, there may be a price. It is the people who will pay the price, and it must be their decision to pay it, and they will have to discuss it before they will be able to decide."

Many scientists, while horrified by devastation and war, fear we may be facing a war of survival, and that the question to ask is "Is this bomb practical?" — not "Is it moral?"

Anti-Bookie Law Upheld

TALLAHASSEE, Fla., March 21. — The Florida Supreme Court today upheld the state's so-called anti-bookie law.

In a unanimous decision, the court said the state has full power to prohibit use of private or leased telephone and telegraph wires for distribution of gambling information.

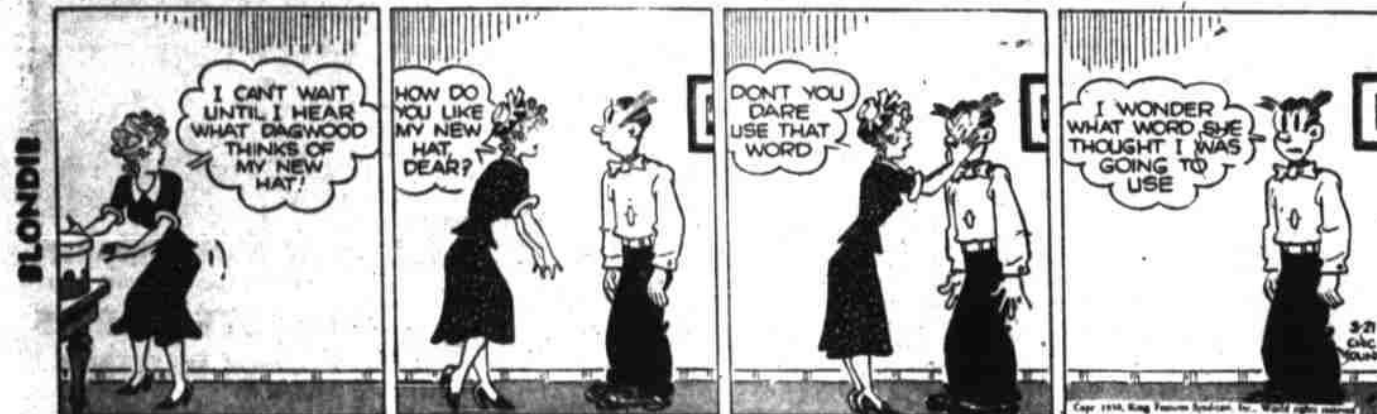

The law has been under attack almost from the time it was passed, amid legislative bribery charges, in 1949.

Justice Glenn Terrell, writing the court's opinion, said the law did not violate the state and federal constitution clauses guaranteeing free enterprise, did not restrict interstate commerce and was well within the police powers of the state.

Validity of the law was challenged by radio program Press of Baltimore and Walter M. Hagerty. Hagerty is the owner of Intra

Braves Best Kansas For Playoff Berth

Unruh Shines In 59-57 Win

By SKIPPER PATRICK
AP STAFF

KANSAS CITY, March 21. — Just plain know-how and All-America Paul Unruh today had the Bradley University Braves back in the running for a national basketball championship.

Bradley earned the fifth district spot in the Western NCAA Playoffs by trimming the University of Kansas Jayhawks, 59-57, on a late drive before 10,500 fans in Municipal Auditorium last night.

Bradley's victory over Kansas completes the western field which also includes UCLA, Baylor and Brigham Young. The western playoffs will be held here Friday and Saturday.

The Braves were beaten in the finals of the National Invitational Tournament at New York by City College of New York last Saturday.

Bradley's opponent Friday will be UCLA, beginning at 10:45 (EST). Baylor and Brigham Young start the program at 9 o'clock. The western champion will meet the eastern playoff winner for the national crown in Madison Square Garden next Tuesday.

Unruh, a 6-foot 4-inch senior from Toulon, Ill., came through with three field goals in 45 seconds of the closing minutes to get Bradley over the hump in a game that was tied 24 times.

Unruh's goal on the dead run lifted Bradley into a 56-54 lead with three minutes to go and that was curtains for Coach Phog Allen's sophomores Jayhawks. Kansas had led most of the second half after trailing 31-28 at the intermission.

Clayton Clyde Lovellette, Kansas' 6-foot 9 1/2-inch sophomore, who led the scoring with 21 points, and his teammates got the jitters in the last minute of play, twice throwing the ball away and once blowing a set-up shot.

The 64-year-old Allen blamed the Jayhawks' defeat on Unruh and the inexperience of his sophomore-dominated club. Unruh hit 8 of 12 field goals attempts and got two free throws.

"Unruh's shot was absolutely unguardable," Allen said. "We are just kids now, see us later, perhaps next year."

Bradley Mentor Forrest (Fordy) Anderson, who at 36 years of age is a national figure in the coaching game, agreed with Phog—especially on the Unruh angle.

LOOKING 'EM OVER

With Tommy Hart

Victoria high school, in deep South Texas, will probably form the grid opposition for the Big Spring Steers next Sept. 22.

Coach Carl Coleman of the locals had one open date on his schedule and preferred that the game be staged elsewhere than Big Spring. However, the Victoria people expressed a desire to "play away from home" and that meant bringing the contest here.

If the Big Spring-Victoria contract jells, then the Steers will be seen in six home games. Since the Victoria engagement is for one year only, Coleman will be free to deal for an equal ratio of home and road games in 1951.

Victoria is a member of District 1AAA, which has Austin, Corpus Christi and Kerrville as other schools.

The nation's No. 1 non-professional baseball team this year will represent the Western Hemisphere in the first officially sanctioned world series in Tokyo, Japan, next September.

That means the winner of the 10th annual National championship tournament at Wichita, Kansas, Aug. 18 through 31, will be named as the US representative.

Area promoters have an opportunity to stage NBC-approved district tournament simply by writing to the organization at Wichita and gaining its approval.

PUERTO RICANS GO CRAZY OVER BASEBALL

Baseball fans would probably refer to Puerto Rico as a "real some place".

The diamond sport is not only the national sport there, but outside of cock fighting, it's practically the only one.

When this writer was there several years ago, one could see a baseball game of some sort going on just about anywhere he went.

Now, they say, new parks are going up all over the island. The biggest plant, the one at San Juan, seats about 12,000. A stadium with a seating capacity of around 9,000 is being built at Ponce, which is across the island from San Juan.

You can look for more and more scouts to head down that way in the future. The island will produce ball players who can cut the butter with our own professional teams.

Forsan's sand lot baseball team, which has spent around \$2,000 for expenses the past couple of years, is planning to outfit its team with new uniforms this year.

Look for San Angelo high school to field a crackerjack sprint relay team in the Big Spring Relays next week.

The quartet is composed of Buddy Goode, Pat Hall, Clifford Rowland and Buzz Mills and all can move in a hurry.

Goode and Hall will also be rough in the 100-yard dash.

Incidentally, Pete Sykes, the new Angelo football mentor, had his troubles in spring training.

He finished the work with only 18 boys suited out, after starting with 50.

JOE DIMAGGIO IN FOR GOOD YEAR, SAYS RICE

Granny Rice, the veteran sports writer, predicts Joe DiMaggio will be the American league's most valuable player this season while Stan Musial will win the honor in the senior circuit.

Rice also looks for Luke Easter, the Negro boy now with Cleveland, to lead the American league in home runs while Ralph Kiner will again be the best power hitter in the National League.

Garvin Beauchamp Succeeds A. M. (Tonto) Coleman As ACC Coach

ABILENE, March 21 (AP)—Garvin V. Beauchamp, line coach at Midland high school, today was named head football coach at Abilene Christian university.

He succeeds A. M. (Tonto) Coleman, who resigned yesterday to become head freshman football coach at the University of Florida.

Don Morris, president of Abilene Christian, announced Beauchamp's appointment.

Morris expressed regret at Coleman's decision to go to Florida.

"He is one of the very best coaches that we know and he fits into the program of our institution in an unusually fine way," Morris declared.

Both Beauchamp and Coleman are graduates of ACC.

Coleman had been head football coach five years. His teams won 28 games, lost 15 and tied two. After the 1948 season, Texas sports-writers named him "Texas conference coach of the year."

Beauchamp, 30, captained the 1940 ACC football team. He served in the Navy during World War Two and went to Midland high school as line coach a year ago. He is married and has two children.

Coleman said he would report to Florida April 1. Beauchamp expects to arrive at ACC April 15.

NBC APPROVES NECHES LEAGUE

WICHITA, Kan., March 21 (AP)—The Neches Coast League was chartered by the National Baseball Congress today—first of a series of affiliated non-professional circuits to be formed in Texas for 1950.

The league affiliation, approved by Jerry Felle of San Antonio, NBC Texas commissioner, will assure leading team of July 1 standing a berth in the Texas qualifying plans for the state non-pro title.

Teams already accepted in the league, according to O. G. Geisendorf of Port Neches, secretary-treasurer, are Woodville, Silsbee, Spurger, Sour Lake and Port Neches.

The league will open its schedule April 2.

M. I. Bailey of Woodville is president.

All players in the league will be under NBC nationwide player contract system, unable to transfer to other teams or leagues without release.

Prohibiting a basketball team from competing in more than 24 non-conference games, exclusive of games allowed in three invitation basketball tournaments and games played that count on league standings in the district.

Aggies Romp

COLLEGE STATION, March 21 (AP)—Texas A&M's undefeated team racked up its third victory of the season yesterday, trimming the University of Colorado, 5-1.

Tribe Certain It Will Win AL Pennant

YUCON, Ariz., March 21 (AP)—The Cleveland Indians are convinced they are going to win the American League Pennant. And they expect to do it largely with the same men who finished third last fall.

Better physical condition and improved hitting are supposed to bring about the change.

The new owners who took the club over from Bill Veeck are sticking by the Tribe's veteran infield, the oldest in the major leagues.

General Manager Hank Greenberg isn't worried over the fact that First Baseman Mickey Vernon, Second Baseman Joe Gordon, Shortstop Lou Boudreau and Third Baseman Ken Keltner average 33 years of age.

"It's a question of playing ability, not years," Greenberg insists.

Vernon was the only one of the quartet that hit up to average in 1949. He has shaken off the challenge of rookie Luisocino (Luke) Easter from San Diego and is expected to have another good year.

Chief challenger for his job is Conyers, a rookie from Oklahoma City.

This may be the last year in the majors for the great "Flash" Gordon. Earlier in the year he asked for his outright release to League so he would be able to spend most of the summer at his Portland, Ore., home.

Mexican-born Roberto Avila and rookie Bobby Wilson are being trained to take over Gordon's job.

Boudreau is 10 pounds lighter than at the start of last season. He's still the master of the shortstop position and hopes he can remain there. But he is prepared to move over to third base if Keltner falters.

Ray Boone played in 96 games last campaign and is ready to take over the shortstop chores.

Keltner slipped after a great season in 1948 when the tribe won the World Series but is expected to bounce back this season. Al Rosen is the top challenger followed by Leo Thomas, a newcomer from Portland.

Between them the four veterans have been in the majors for 46 years with only a wartime break.

Once again there are signs of improvement. Jim Hogan's hitting. Rogers Hornsby didn't have much luck three years ago. Now Manager Boudreau and General Manager Greenberg are trying to give him help. Ray Murray is the No. 2 candidate.

Easter is the big question in the outfield. For four years in a row he hit well over .300 in the colored league and for San Diego. This is the year he was supposed to hit long balls for the Tribe. But he apparently has trouble hitting pitches in close to his chest, and has not nailed down the right field starting assignment. Boudreau says this is the only position on the team that is wide open. Bob Kennedy, Orestes Minoza, the Cuban Negro, and Thurman Tucker are all making a bid for the job.

Larry Doby is set in center and Dale Mitchell in left field. Both are expected to hit above the .300 mark.

Cleveland claims to have the strongest pitching staff in the league. It expects Bob Lemon, Bob Feller and Mike Garcia to each win 20 games. Gene Bearden is expected to regain the control that deserted him last season and be much more effective. The veterans Early Wynn, Steve Gromek, Al Benton and Sam Zoldak are expected to help.

Odessa Favored In Own Relays

ODESSA, March 21 (AP)—The West Texas Relays will present a top-flight field for the first presentation of a university division.

Five Southwest Conference teams and Texas Tech will match strides Saturday in the one-day track and field meet.

Some 33 high schools are expected to enter this division, with Odessa a solid favorite to capture its third title in as many weeks.

The University of Texas which passed up the Southwestern Exposition meet last week, is an early favorite to cop the first university division of the relays. Texas A&M, Rice, Southern Methodist and Texas Christian are the other Southwest Conference teams entered.

Amarillo is the defending high school champion.

Four meet records may fall in the high school division.

Odessa's Joe Childress is a good bet to better the 100 yard dash mark of 19.2 and the 220-yard dash record of 22.6 seconds.

Galen Fowler of Amarillo is figured to better the 440-yard dash record of 52.3 seconds and Roy Morris, Odessa discus thrower, seems likely to better the 116 foot meet mark.

SAN BERNARDINO, Calif.

March 21 (AP)—Thanks to the 9-4 defeat the New York Giants handed them yesterday, the Pittsburgh Pirates now sport a record of five and five for their 1950 exhibition baseball season.

The Buccos head north today for a week in the San Francisco area. They'll play three games with the Giants up there and another three with San Francisco of the Pacific Coast League. Murry Dickson and Cliff Chambers are listed to lead the Bucc in their bay area opener today against the Giants at Fresno.

CLEARWATER, Fla., March 21

AP—It looks more like every day as though Eddie Waitkus will be the Philadelphia Phillies' varsity first baseman when the National League season opens.

Waitkus has been waging a spirited battle to regain the position taken over by Dick Siler last summer when Eddie was shot by a deranged girl in Chicago.

In yesterday's game with the St. Louis Cards—won by the Red Birds 15-4—Eddie banged out a double in two trips to the plate and was the Waitkus of old in his defensive play.

LAKELAND, Fla., March 21 (AP)

The luck is running bad again for Charley Keller.

The former New York Yankee slugger is on the Detroit Tigers' casualty list and may be out for three weeks. His foot slipped on a throw and he tore muscles in his left side.

Keller, trying a comeback after injury with the Yanks, brooded. He said "A lot of hard work and high hopes just went out the window."

RACER HURDLES FELLOW DRIVER'S CAR — John Miller's automobile (top) climbed right over that of Skimp Hershney when the two collided in a stock car race at the Jacksonville, Fla., speedway. The top of Hershney's white helmet can be seen protruding from the window of the bottom machine. The drivers escaped serious injury. (AP Wirephoto).

BASEBALL BRIEFS

Giant Catchers Have Bad Time

FRESNO, Calif., March 21 (AP)

There seems to be a jinx on New York Giant catchers lately.

With first string receiver Wes Westrum resting a sore, swollen right thumb, Veteran Roy Meulier was sent in behind the bat yesterday against the Pittsburgh Pirates at San Bernardino, a game the Giants won, 9-8.

In the third inning, a foul tip broke the nail off Mueller's right index finger. Sal Yvars caught the remainder of the game.

VERO BEACH, Fla., March 21 (AP)

The chances for a spring trade involving the Brooklyn Dodgers' Catcher Bruce Edwards looked slim today.

Here's why: Rookie Catcher Steve Lembo, up from Montreal, had been considered the possible No. 2 received behind Roy Campanella should Brooklyn get a solid pitcher in a trade for Edwards.

But Lembo yesterday was sent back to Brooklyn for a rest and checkup, victim of an extended flu attack. So Edwards looks like the second catcher indefinitely.

SAN FRANCISCO, March 21 (AP)

Gus Zernial, pegged as the Chicago White Sox' heaviest hitter, has been benched.

"The big fellow is overtrained," Manager Jack Onslow said. "He has been physically active all winter getting his arm in shape and he's been hustling all spring. Now he's stale."

Zernial, who broke a collar bone last May diving for a fly ball in Cleveland, matched only four hits in six games, struck out nine times and drove in two runs. Prior to his injury in May he was leading the American league in batting with .355.

TAMPA, Fla., March 21 (AP)

The Cincinnati Reds got back into the victory department of the spring training grapefruit league yesterday—but they didn't have much to cheer about.

The Reds licked the Boston Braves, 13 to 7, but their slugging was done against three second line hurlers.

Today the Reds will entertain the Philadelphia Phils on their "home" field here and Manager Luke Sewell said he would start Howard Fox on the mound and let him go six or seven innings. He'll finish off with Frank Smith.

LAKELAND, Fla., March 21 (AP)

The luck is running bad again for Charley Keller.

The former New York Yankee slugger is on the Detroit Tigers' casualty list and may be out for three weeks. His foot slipped on a throw and he tore muscles in his left side.

Keller, trying a comeback after injury with the Yanks, brooded. He said "A lot of hard work and high hopes just went out the window."

LONGSHOT FIRST

Hy Dale Runs Second In Carlsbad Event

Johnny Dale a lightly regarded horse owned by Elmer Hepler of Carlsbad, N. M., won the Carlsbad Futurity Sunday, according to information received here.

The colt with R. Straus up, covered the quarter mile in 23.5 seconds. The win was worth \$1,000 to Hepler.

A close second was Hy Dale, owned by Pinky Hodges of Big Spring and ridden by Pete Domingo. Cheri-Mac, another Big Spring horse, was third while Drifters was fourth and last.

Eight horses qualified for the finals but three of them, including the highly regarded Legat Tanager, was scratched and Hy Dale, a Roden nominee had to be withdrawn when he bolted the gate and raced into an adjoining pasture.

Hy Dale earned \$340 for Roden while Cheri-Mac's cut of the \$2,800 purse amounted to \$200.

There were 24 nominees for the first annual Carlsbad race and 12 starters participated in qualifying heats.

Hy Dale, Hy Pink and Cheri-Mac are nominees for the Big Spring Futurity next month.

Softball Game Carded Tonite

Softball teams of Radio Station KTKC and Texas and Pacific will play a softball exhibition at the city park, starting at 7:30 o'clock this evening.

Cotton Mize and Hawk Daylong have been named the KTKC hurlers and the slabmen for the Rail-roads have not been announced.

Both teams are members of the newly formed YMCA softball league.

Steers Invade Lubbock Field On Wednesday

The Big Spring Steers will be out to avenge an earlier 6-4 defeat when they tangle with the Lubbock Westerners tomorrow afternoon at Lubbock in an exhibition baseball game.

Floyd Martin and Billy Tubh will probably form the starting battery for the Steers. Game time is set for 3:30 p. m.

Date for the return match with the Westerners has been changed three times. It was originally scheduled for next week, but was changed to Thursday. This morning the game was moved up to Wednesday.

The Lubbock team defeated the Big Springers here last week, 9-4, in the season's opening game for the Steers.

The locals were to play the Odessa nine here this afternoon in their second 1950 game.

A Bible Thought For Today -

Twenty-five hundred years after Isaiah died his prophecy is taking form. At long last God has His way. "Instead of the thorn shall come up the fir tree." Is. 65:13.

Wonderful Spring Is Here, The Quickening Resurrection Time

By the calendar, Tuesday will usher in the vernal equinox, though winter has shown recent signs of lingering in the lap of spring. It is the time of year when editors erect breastworks, throw out picket lines, build tank traps and otherwise fortify the citadel against budding spring poets whose obsession with the season is equalled only by their burning desire to be published.

pretend to be scared of everything, and young calves to hilt their tails and run stiff-legged every which way, and for lambs to jump magically straight into the air as if propelled by some secret spring.

Careful Study And Teamwork Will Help Better Than Snap Judgement

Situated as we are at the crossroads of two great highways, we catch an unusually large volume of traffic. It is inevitable that out of all these visitors there will be some who have unpleasant experiences. These may be real or fancied, and sometimes they crop up in the news as complaints before the Good Neighbor commission.

It may or may not have been, but the operator of the store here had not heard of the matter until asked about it by a reporter. If no one had taken the trouble to tell him about it, how could the facts in the case be developed fully? After all, he is the one to whom most of us would go first of all with any sort of complaint. But apparently not in this case.

Affairs Of The World-DeWitt MacKenzie

Creation Of New Dominions In Caribbean Would Be Beneficial

ONE OF THE MOST DRAMATIC POLITICAL developments of our day is proceeding among both the British and the Dutch colonial possessions in the great Caribbean area but with such little fanfare that thus far it has attracted small attention.

and the British islands in the leeward and windward groups.

"DURING THE PAST 20 YEARS IT has been recognized more and more that a group of neighboring colonies can gain economic and social advantages by co-operating and by sharing their resources; and in some areas the results of administrative centralization, particularly in the technical fields have been very encouraging.

IN TOTAL FIGURES THIS MEANS AN area of 99,988 square miles with a population of 2,968,000.

Around The Rim-The Herald Staff

City Clubhouse Might Be Step Toward Real Community Center

We have a suggestion to make. Now suggestions are not very important unless one of two things happens: one, someone takes the suggestion to heart and makes an honest attempt to carry it out, or two, they think over the suggestion and come to a better conclusion than the one offered in the original suggestion and go to work on their conclusion.

Let's think about this, too. It wouldn't hurt a thing for the museum to be housed in better quarters, for the library to have more room, for the youth of our community to have a place to spend a little of their leisure time.

The Nation Today-James Marlow

Proposed Change In Natural Gas Act Would Cut FPC's Authority

WASHINGTON, D.C. - THE SENATE IS debating a change in the natural gas act to cut down some authority of the Federal Power Commission.

such a way that for a long time a lot of people, including a majority of the five-man FPC, thought the FPC had no right to regulate the rates of the independent producers.

There are about 13 million consumers of this gas, the people who use it for home or commercial use, in cooking or heating or in other ways.

A SENATE COMMITTEE HELD HEARINGS on this last year and finally recommended that Congress amend the Natural Gas Act of 1938 to say—so clearly that there'd be no more argument—the FPC does not have the right to regulate producers' rates.

There's no argument about the right of the FPC, under the law, to control the rates charged by the transporters. The FPC has no control over distributors of natural gas. That's up to the states. So there's no argument about that, either.

OTHER SENATORS - FOR EXAMPLE, Langer, North Dakota Republican, and Myers, Pennsylvania Democrat - joined with Douglas in charging the bill would mean higher gas prices at the expense of the consumer.

Today And Tomorrow-Walter Lippmann

Paramount Issue Of Cold War Still Is Future Of Germany

Of Secretary Acheson's seven points to "relax tension," the first is fundamental to all the others. This was his call for peace treaties with Germany, Austria, and Japan, and most particularly Germany.

There are indications from both German states that many men in Germany are thinking of elections before the Germans themselves have an agreement on unification. That would mean that the elections would not settle anything. They would be the election not of a government but of a constituent assembly which would then become the arena of the struggle for the mastery of the all-German state.

Only, therefore, by an acceptable German settlement is there any chance that the two great conflicting systems could find a way to co-exist peacefully.

Club House Prospects Discussed At Federation Meeting On Monday

Prospects for a clubhouse in Big Spring were discussed at length when the Big Spring Federation of Women's Clubs met in the Girl Scout hut Monday night. Mrs. James T. Brooks and Mrs. G. G. Sawtelle were the main speakers. After considerable discussion, Mrs. R. A. Eubank recommended the city federation ask each club to make a decision concerning a \$200 donation per club to be applied to a building fund which the 1935 Hyperion club has started. Members voted to carry out the recommendation. Plans were also discussed concerning the Town Hall 1935-36 membership drive to be launched soon.

Mrs. Wendel Parks Is Named Honoree

Mrs. Wendel Parks was named honoree at a stork shower given Monday afternoon in the home of Mrs. C. Bell, 511 East Park. Hostesses were Mrs. N. C. Bell, Mrs. Preach Martin, Mrs. Mary Ezzell, Mrs. Brown Rogers and Mrs. Bill Earley. As guests entered the entertaining rooms, they were given materials to make baby caps. After completing the caps, a style show was held with each person modeling their creation. Mrs. J. D. Benson, Mrs. Harry Lees and Mrs. George Dabney won prizes in the series of games and contests. They presented the prizes to the honoree. Gifts were unwrapped and displayed. Refreshments were served. Plate favors were miniature storks made from safety pins by Mrs. F. M. Purser and Mrs. H. L. Bohannon. Those present were Mrs. J. D. Benson, Mrs. James Wilcox, Mrs. H. L. Bohannon, Mrs. V. H. Cowan, Mrs. J. H. Stiff, Helen Wolcott, Mrs. Bob Parks, Mrs. Harold Parks, Mrs. F. M. Purser, Mrs. Harry Lees, Mrs. George Hall, Mrs. R. J. Michael, Mrs. G. W. Dabney, Mrs. J. R. Crests, Mrs. C. A. Murdock, Jr., Mrs. Arthur Caywood, Mrs. J. B. Parks, Mrs. F. M. Robinson, Mrs. Cliff Wiley, Mrs. Wacil McNair, Mrs. Bill Bonner, Mrs. Lloyd Thompson, Mrs. N. C. Bell, Mrs. Preach Martin, Mrs. Mary Ezzell, Mrs. Brown Rogers, and Mrs. Bill Earley.

Baptist Circles Meet On Monday Afternoon

First Baptist WMS circles held regular sessions Monday. Members of the Christine Coffee circle met in the home of Mrs. Beulah Bryant, 900 Abram. Hostesses were Mrs. Beulah Bryant, who gave the opening prayer, and Mrs. G. H. Hayworth, who reviewed the book, "Living And Buried." After the minutes were read and approved, Mrs. Lee Jenkins was elected circle chairman and Mrs. J. T. Culppepper, secretary and reporter. Those present were Mrs. R. C. Hatch, Mrs. J. E. Brown, Mrs. J. L. Haynes, Mrs. H. H. Hayworth, Mrs. J. T. Culppepper, Mrs. Lee Jenkins. Mrs. Irvin Daniels, 705 East 15th, will hostess to the Johnnie O'Brien circle. After the opening prayer by Mrs. Roy Odum, Mrs. A. E. Underwood presided during the business session and gave the study lesson from the mission book, "Ring In The New." It was announced that the next meeting will be held in the home of Mrs. W. R. Puckett, 510 East 16th. Members present were Mrs. C. T. McDonald, Mrs. C. E. Richardson, Mrs. W. R. Puckett, Mrs. V. W. Fuglaar, Mrs. A. E. Underwood, Mrs. Ray Odum, Mrs. Irvin Daniels and Mrs. A. L. Hobbs. Maybelle Taylor circle members met in the home of Mrs. J. B. Langston, 1407 Wood, for a mission study. After the meeting opened with a prayer by Mrs. Melvin Boatman, the minutes were read. Mrs. Hammond C. Mobley gave a devotional entitled "Jesus, The Light Of The World," and based on John 12:36 and Matthew 5:26. Mrs. Troy Goodwin was in

Mrs. Cecil Wasson Gives Devotional

Mrs. Cecil Wasson brought the devotional from the Book of John at the meeting of the Woman's auxiliary at the First Presbyterian church Monday afternoon. Mrs. L. B. Edwards and Mrs. R. Gage Lloyd presented the program, "World Missions." Mrs. T. S. Currie pronounced the benediction. Attending were Mrs. E. L. Barack, Mrs. F. H. Talbot, Mrs. A. Ruhup, Mrs. Jack Wilson, Mrs. I. Broadus, Mrs. Ralph McKenzie, Mrs. P. Marion Simms, Mrs. Wasson, Mrs. R. G. Lloyd, Mrs. T. S. Currie, Mrs. L. G. Talley, Mrs. G. A. Barnett, Mrs. Dalton Mitchell, Mrs. A. D. RC Meet Called To Plan Completion Of Fund Campaign

Plans for pushing the organization's fund drive to completion will be discussed at a meeting tonight of the Howard-Glascock Red Cross chapter advisory board. Jack Smith, chairman, has called the conference for 7:30, promised a short session, and urged all Red Cross leaders to be present. Champ Rainwater, general chairman of the fund campaign, will attend the meeting to make a report on status of the solicitation. Money in the bank Tuesday amounted to almost exactly one-half the Red Cross quota for 1935. This total was \$5,542.50, against a goal of \$11,000. Major share of the Red Cross money goes to the local chapter, enabling it to serve veterans and their families, and particularly setting it up to handle welfare work in conjunction with the veterans administration hospital. Rainwater expressed confidence that the goal will be met with renewal of solicitation effort which will be mapped tonight.

Oklahoma Rector To Be Honored

The Rev. Mr. Boyd of Oklahoma will be honored at a tea to be given by the Woman's Auxiliary of St. Mary's Episcopal church Saturday evening at 7:30 o'clock. Plans were announced at the business meeting of the Auxiliary Monday afternoon. Mrs. M. B. Bennett served as hostess at the meeting. Discussion was held on the organization of a Young Woman's Auxiliary of the church. Those attending were Mrs. T. C. Thomas, Mrs. Irwin, Mrs. John Hodges, Mrs. E. B. McCormack, VanGieson, Mrs. Charles Kobers, Mrs. B. G. Jones, Mrs. R. B. G. Cowper, Mrs. M. H. Keith, Mrs. Verd VanGieson, and Mrs. Lee Harris.

Lloyd Connel Leads Bible Class Monday

The 17th and 18th chapters of Luke served as the basis of the minister at the meeting of the Ladies Bible class at the Church of Christ, 14th and Main, Monday evening. Connel discussed the dual personality of each man, who has both the existence of the flesh and the existence of the spirit or divine. He said that the death of the wicked and unbelieving results in a state of punishment; while the death of the righteous results in a state maintained in the presence of God. Connel further said that the spirit of the deceased righteous man is immediately joined with God, but that the body of the righteous dead is not raised until the resurrection. Approximately 45 members attended the meeting.

Roundup Dance Club Entertains Guests

Garner McAdams served as master of ceremonies at the guest night meeting of the Roundup Square Dance club at the Legion clubhouse Monday evening. Hosts for the affair included Mr. and Mrs. O. O. Craig and Mr. and Mrs. C. C. Bell. Callers during the evening were Jack Arrington of Stanton, Oscar Nabors, Jimmie Felts, Charles Hutchison, George Amos, Tommy Whately, Dan Greenwood, Garner McAdams, Dan Houston, M. E. Heald and Jane Thomas. Approximately 100 persons attended the dance.

John A. Kee Rebekah Lodge Meets Monday

Grace Martin, noble grand, presided during the regular meeting of the John A. Kee Rebekah lodge 153 at the WOW hall Monday evening. Those attending were Leta Metcalf, Mr. and Mrs. Gould Winn, L. L. Stevenson, Mr. and Mrs. W. C. Cole, Eula Lea, Delores Williams, Vilva Cormas, Delphis Gordon, Jo Baker, Ben Miller, Frank George, Mr. and Mrs. R. H. Unger of Knot

Local Draft Office Hours Are Changed

Office hours of the Selective Service system here have been changed. New hours will be from 8 a.m. to 3 p.m., effective immediately, said Joyce Sewell, clerk for local board No. 71. Heretofore, the office in the post office building has been open from 2 p.m. to 6 p.m. The new arrangement is operative Monday through Friday. Board No. 71 serves Mitchell, Howard and Martin counties.

Want A Free Cook Book?

WASHINGTON, March 21, (AP)—Need a cook book? Your congressman has 3,000 free copies of a new one put out by the Department of Agriculture. Besides telling how to cook and plan meals, it offers advice on buying food and counting calories in a diet. Congress voted \$150,000 to prepare it and gave the government printing office \$150,000 to print it.

RIBBON RAMBLINGS By Mildred Young

Just how far can we carry this business of a social register? There must be a stopping place, even the cows who are anybody these days belong to special cow clubs. You don't believe it? Well, the Agriculture Department proudly reported last Saturday that more than a million cows are now enrolled in dairy-herd-improvement associations. These represent the 4.4 percent of the nation's cow population who are considered the cream—as well as the milk and butter—of the crop. The Department's Bureau of Dairy Industry keeps a social register and "blue book" lists show the club's strength in every state. In Texas, for example, there are 32 dairy-herd-improvement associations, with 377 herds registered. Exactly 14,401 Texas cows belong to the club. With more than a million members enrolled at the beginning of 1935, things aren't quite as exclusive in the club as they used to be. But, it seems to mean a lot to be the daughter of an association member. To prove this, we quote from the department's report: "In 1949, the 5,000 sires that were proved, according to the records furnished the Bureau of Dairy Industry, had daughters that averaged 391 pounds of butterfat. About 600 of these sires were used in artificial-breeding associations, and their daughters averaged 436 pounds of butterfat."

Westside Baptists Have Social Monday

Members of the Westside Baptist WMS met in the church parlour Monday afternoon for a social hour. Refreshments were served to five members on their birthdays. Mrs. Odell Buchanan, Mrs. Leroy Brooks, Mrs. Guy Simmons, Mrs. Stella Yates and Mrs. Jimmy Ellison. Mrs. J. R. Phillips presented a Bible quiz. Members voted to devote their meeting time next Monday to visitation. Refreshments were served to the following: Mrs. Roy Hogard, Mrs. Jimmy Ellison, Mrs. Jake Trantham, Mrs. Leroy Brooks, Mrs. Odell Buchanan, Mrs. Estella Yates, Mrs. Vera McCuistain, Mrs. C. L. Kirkland, Mrs. Fred Winn, Mrs. J. R. Phillips, Mrs. B. N. Borough, Mrs. O. G. Ward, Mrs. E. O. Sanderson, Ruby Rutledge, Mrs. Cecil Rhodes, Mrs. J. T. Gros, Mrs. J. C. Madry and Mrs. T. E. Saunders.

Tramp Party Tonight

Members of the Alpha Chi Chapter of the Epsilon Sigma Alpha will entertain with a Get-Acquainted tramp party at the Girl Scout hut this evening at 7:30 o'clock. All those attending will wear tramp clothes and will bring their food in a paper bag. Coffee pots and tin cups will also be furnished by the group. Jenova Smith was presented with a farewell gift from the troop. Miss Smith is moving to Childress to make her home. Those attending were Annette Boykin, Londa Coker, Carol Ann Dehner, Sylvia Mendoza, Delores Clark, Beverly Gilliam, Glenna Harmon, Patricia Rudd, Claudia Marie Nichols, Janel Young, La

Boleto suit with a youthful air in its casual sweep of pockets, little boy jacket, and buttons parading down the back. Ideal for navy beige, pastels and those important checked worsteds. No. 2028 is cut in sizes 11, 13, 15, 17 and 19. Size 13 requires 2 1/2 yards 54-inch or 3 1/2 yards 39-inch fabric.

Send 25 cents for pattern with name, address, style number and size. Address PATTERN BUREAU, Big Spring Herald, Box 42, Old Chelsea Station, New York 11, N. Y.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern. Every home sewer should have the Spring 1935 Fashion Book, just off the press. It shows a wide variety of the season's popular fashions; designs for all the family—tiny tots, little girls, growing girls, juniors and misses, mature and larger-size women. It's the most complete collection you'll find in any pattern book. Per copy price is 25 cents.

Shine And Mrs. Phillips Have New Granddaughter

Shine Phillips, Big Spring's author-druggist, and Mrs. Phillips became grandparents last night. Tiffany Nan Jones, who weighed seven and a half pounds was born at 11:30 p. m. at Florence Nightingale hospital in Dallas. The parents are Mr. and Mrs. Garth Jones. Mrs. Jones is the former Nancy Phillips.

Colorful Potholders

Design No. 109 Here are two attractive potholders which are easy to crochet and will be inexpensive gifts. Pattern No. 1096 contains complete instructions. Patterns Are 20 Cents Each. An extra 15 cents will bring you the Needlework Book which shows a wide variety of other designs for knitting, crocheting and embroidery; also dolls, quilts, etc. Free patterns are included in book. Send orders, with proper remittance in coin to Needlework Bureau, Big Spring Herald, Box 228, Madison Square Station, New York, N. Y.

First Methodist Woman's Society Circles Continue Study On Monday

First Methodist Woman's Society of Christian Service circles met Monday afternoon to continue their current study, "Women In The Scripture." Members of the Mary Zinn circle met in the home of Mrs. N. W. McCleskey. After the meeting opened with prayer, Mrs. McCleskey and Mrs. G. W. Chownes presented the lesson. Mrs. C. R. Moad presided during the business session. Refreshments were served to the following: Mrs. Lee Warren, Mrs. H. F. Taylor, Mrs. D. C. Sadler, Mrs. A. F. Johnson, Mrs. J. T. Baird, Mrs. C. R. Moad, Mrs. C. E. Johnson, Jr., Mrs. M. E. Ooley, Mrs. W. F. Cook, Mrs.

Irene Blackwell, Mrs. G. W. Chownes, Mrs. C. E. Talbot and Mrs. McCleskey. Mrs. R. E. Satterwhite was hostess to the Fannie Stripling circle at a meeting held Monday afternoon. Mrs. S. R. Nobles, Mrs. Bernard Lamun and Mrs. Howard Stephens presented a program based on the fourth chapter of the study book. Theme of the chapter was "Across The Boundaries of Race" and concerned Rahab, Naomi, Ruth and the woman whom Jesus met at the well. Mrs. Clyde Johnston gave a devotional concerning races which was taken from Matthew.

Mrs. Howard Stephens presided during the business session. Refreshments were served to Mrs. V. E. Jones, Mrs. M. A. Cook, Mrs. Howard Stephens, Mrs. Bernard Lamun, Mrs. R. E. Satterwhite, Mrs. J. D. O'Barr, Mrs. T. G. Adams, Mrs. Clyde Johnston, Mrs. J. R. Chaney, Mrs. S. R. Nobles and Mrs. Frank Powell. Mrs. W. A. Underwood was hostess to the Madeline Morris circle. Mrs. Clyde Thomas, Sr. and Mrs. H. N. Robinson presented the lesson "Women And The Text Of The Bible." Attending were Mrs. R. D. McMillan, Mrs. Joe B. Pickle, Mrs. Clyde Thomas, Sr., Mrs. H. N. Robinson, Mrs. C. E. Shive and Mrs. W. A. Underwood.

Girl Scout Troop 7 Observes Birthday

Members of Girl Scout Troop Seven held a candlelight ceremony in observance of the 38th birthday of Girl Scouting in the United States at their meeting Monday afternoon. Juliet Lowe of Savannah, Ga., founded the Girl Scout organization in the United States March 12, 1912. Mary Nell Cates, field director of Colorado City, and Virginia Burgess, area director from Abilene, served as guests at the meeting. Announcement was made that an instruction course for all Girl Scout leaders will be held beginning today and continuing through Thursday at the Scout hut at 9:30 a. m. PEGGY TOOPS, was named Girl Scout aid. She will assist the troop leader, Mrs. R. C. Nichols, in the direction of Troop Seven. Reports were heard concerning two school bags packed by the girls to be sent to their school mates overseas. Sylvia ... and La Juan Carraway reported on the Troop tour through Nat Shick's private collection and through the state hospital Friday, March 17. A Girl Scout handbook was presented to Roberts Hipes for being the first Scout member to sell her Girl Scout cookies during the recent drive; Margaret Morgan, patrol leader, and her patrol will be honored with a social for winning first place in selling the most cookies.

Juan Carraway, Earnestine Gibbs, Margaret Morgan, Dorena Carpenter, Roberta Hines and Sharon Jacoby.

Wesley Methodists Entertain At Tea

Members of the Wesley Methodist Woman's Society of Christian Service entertained the Women of the Church with a program-tea Monday evening. A prelude of musical selections was played by Mrs. Jerry Odum. Members of the WMSCS presented the playlet, "The Ghost," during the program hour. Discussion was held concerning the organization of the Guild, a young woman's branch of the WMSCS.

Refreshments were served. Those attending were Mrs. Cecil Nabors, Mrs. Ray Echols, Mrs. T. L. Lovelace, Mr. and Mrs. H. Henley, Mrs. B. E. Reagan, Mrs. Jerry Odum, Mrs. E. A. Piveash, J. T. Morgan, Mrs. C. C. Hardaway, Mrs. L. F. Shivers, Mrs. J. L. Wright, Mrs. H. M. Smith, Mrs. Joe Williamson, Mrs. W. Barr, Mrs. E. R. Cawthron, Mrs. Frank Franklin, Mrs. Bill Spier, Mrs. Ted Darby, Mrs. G. T. Baum, Mrs. Don Thornton, Mrs. Herman Stokes, Mrs. John Garrison, Mrs. G. H. Briden, Mrs. Arthur Pickle, Mrs. J. M. Saunders, Mrs. J. I. Lowe, Mrs. Vera Bumgarner, Mrs. Raymond Hamby, Mrs. W. W. Coleman, Mrs. Cora Shelton and Mrs. N. L. Childress.

Mrs. J. E. Foote is visiting her mother, Mrs. Emma Allmon, in Mansfield.

Factory-Type Work Done At Quality Shop

The best features of more than a dozen different types of paint chambers and combined in the dust-free paint room at the Quality Body Works shop on the Lamesa highway.

Don Scott, Quality manager, personally inspected scores of different paint rooms in all parts of the state before starting construction of the dust proof room at Quality. He and other Quality workmen personally built their own room, incorporating the outstanding features Scott had observed.

The paint room opens directly into the Lo-Bake paint drying oven so that customers' autos may be moved directly into the drying compartment without danger of exposure to dust, smoke, or other foreign matter.

Paint is baked on by heated air in the Lo-Bake oven. It is completely dried within an hour after the car is driven into the chamber.

The Lo-Bake factory method of auto refinishing dries the paint smoothly, effectively, rapidly. The paint will not crack, chip, or fade after being given the Lo-Bake treatment which follows the factory principle of drying and sealing, Scott stated.

Baked on paint jobs are only one of the top quality auto services available at Quality Auto Body Works.

Skilled metal workmen qualified to perform all sorts of body or fender work are on hand to maintain the new look on cars. Battered fenders, tops, or side panels can be straightened, resurfaced, and painted to look like new. If metal sections are too badly damaged for repair, Quality maintains stocks of accessories for all popular makes of cars, and may obtain others.

Best or broken grills, bumpers, and chassis parts can be repaired or replaced by Quality workmen.

Wheel Alignment Saves Auto Tires

Front end alignment and frame work are two of the many automotive services available at the Quality Auto Body Works on the Lamesa highway.

"Save expensive tires as well as add pleasure to the operation of your car by having these front wheels given the proper camber and toe-in," Dan Scott, Quality manager, advises.

NEW STOCK OF SEIBERLINGS — Reuben Creighton (left) and his brother, Charlie, who own and operate the Creighton Tire Co., 293 West Third, inspect part of their supply of new Seiberling automobile tires. Seiberling's premium Safe-Air tires and Puncture-proof tubes, retailed in this area by Creighton's, have met with particular favor with auto owners. The local Seiberling dealers also carry a full stock of tires for trucks and tractors, as well as other automobile accessories. (Hugh Mathis Photo).

Brooks Appliance Co. Local Servel Center

Quiet as the tiny flame which has become famous as an identifying mark, Servel refrigerators are as durable as they are quiet.

Lloyd Brooks, owner of L. M. Brooks Appliances company, delights in the opportunity to show the record of prolonged service by Servel units.

For silence and durability are not accidental; rather they are logical. Servel has no moving parts—hence there is nothing to wear, nothing to vibrate or contribute noise. By a sound principle, Servel gets around the conventional refrigeration methods by mechanical power. A tiny gas flame, consuming practically nothing in fuel, does the work.

Of course, for best results, Servel ought to be adjusted periodically. In this respect, it is like your automobile or any other machine. The high pitch of efficiency is reached and maintained when adjustments are properly made.

Having had 14 years of experience servicing Servels, Brooks certainly is qualified to see that this is properly done. Those who purchase Servels from Brooks Appliances and turn maintenance over to the company have a box that lasts practically indefinitely.

In the season ahead, there will be increasing interest in refrigeration, and Brooks will be eager to discuss merits of Servel with anyone. The same goes for cooling and ventilation problems, as well as for cooking and conditioning of heating systems during the off months.

New Hudsons Plus Expert Servicing Offered By Dealer

Regardless of whether it's a new, modern automobile or first class repair work on a machine now in use that you desire, the Eaker and Neel Motor Co. can fill the bill.

That establishment, which is located at 419 Main (corner Main and Fifth) is the Big Spring dealer for Hudson automobiles.

In addition it boasts one of the most modern and respected service departments in West Texas. The service force includes a wheel alignment and front end expert, two mechanics who specialize in Buick and Cadillac repair and service and other thoroughly qualified technicians. They have the best tools and equipment available to use in performing their work.

The 1950 Hudson automobiles, which boast many unique features, are offered in three classes, including the Super-Eight, the Super-Six and the new Pacemaker, all with high-compression engines.

The Hudson has gained fame for its new "Step-down ride," and it has the lowest center of gravity of all automobiles manufactured. The Hudson also has the greatest width in the automobile world, with seats measuring 66 inches.

These modern machines are available in a variety of colors and with a wide selection of upholstery patterns.

Cordiality Is O'Brien Trademark

A neighborhood business establishment that combines the quantity of goods and service found in any of the nation's largest stores with the friendly, wholesome atmosphere so evident in small community concerns is the O'Brien Grocery, located at 1201 11th Place in Big Spring.

Cordiality of the help toward customers, new and old, has helped "sell" the store to its visitors. Those who like to shop in comfort will find the establishment a welcome haven during the summer months, when a mammoth cooling system keeps the heat outside.

If shopping for groceries has become a chore for the average housewife, it needn't be. The customer will find the establishment handy to most sections of Big Spring. When they arrive, they will find plenty of parking space around the store, with no traffic problem confronting them in and around the establishment.

For the benefit of those persons who like to place orders for groceries via telephone, the O'Brien store maintains a delivery service to any point in the city and at any hour of the day.

Nationally advertised canned goods, fresh meats, fresh vegetables (from the lush fields of Southern California and the Texas Valley) and breads, rolls, and all kinds of pastries are among the items stocked in quantity at the O'Brien store.

Business telephone number of the concern is 1622.

12,000 POUNDS OF HORSEMEAT IS SEIZED IN CHICAGO

CHICAGO, March 21. (U.P.)—Information from Texas led to the discovery of 12,000 pounds of horsemeat stored here as beef tallow.

Dr. Herman N. Bundesen, president of the city health board, yesterday announced seizure of the meat here. An additional 6,000 pounds of horsemeat was confiscated at a packing plant in South Bend, Ind.

Thousands of pounds of horsemeat, labeled beef tallow, were found recently in Dallas and two other Texas cities—Fort Worth and Houston.

Dr. O. W. Seber, inspector in charge of the Chicago Federal Meat Inspection Station, said the horsemeat was shipped to Chicago from South Bend by truck, in boxes marked "tenderloin." He said it was stored as "beef tenderloin."

Authorities said it was repacked in South Bend from boxes bearing the government stamp and labeled "horsemeat." The shipment was believed to have come from Kansas City, Kan., authorities said.

Dr. Seber said information from Dallas led to the confiscation here.

Water Group To Meet Again At Wichita Falls

AMARILLO, March 21. (U.P.)—The Texas Water Code Committee today had moved on to Wichita Falls for another session to consider what the state's water laws should be.

It left here after a day-long meeting in which a parade of High Plains farmers and lawyers defended present underground water conservation laws.

The committee was created by the legislature last year to study and recommend changes in the state's surface water laws.

But underground water supplies came in for a good deal of attention at the meeting here.

Four witnesses told the committee and the several hundred farmers and ranchers attending the session that they favor the measure adopted by the legislature last year. They said it authorizes optional control on the local level.

L. A. Howard, farmer and lawyer in both Lubbock and Amarillo, said the underground water decline is not serious enough to warrant regulation by a "remote central agency in Austin dealing with something it knows nothing about."

Rogers Kelley, state senator from Edinburg and chairman of the committee, and Rep. Douglas E. Bergman, Dallas, said witnesses before the committee at El Paso and Pecos had declared the present law a disadvantage and ineffective.

The measure was termed a "good law" by Arthur Duggan, attorney for the High Plains Water field. He said it was satisfactory.

"How does the law allow for conservation if there is no agency to prorate the output?" asked former Collins County Judge J. C. Cantrell of McKinney.

"Spacing of wells takes care of that," replied Sam Aldridge, Farmer County attorney.

"Only if you have a district," Cantrell said.

"Yes," Aldridge agreed. "Only if you have a district."

Kelley said the committee had learned that the surface water problem is inseparably interrelated with underground water.

The proposed Canadian River dam came in for much discussion at a morning session of the committee.

Rodeo Arena Will Honor Victim Of City Shooting

ABILENE, March 21. (U.P.)—A \$10,000 rodeo arena is to be erected in the memory of a Hardin-Simmons University student killed in a Big Spring shooting last summer.

The arena will be built by Hardin-Simmons and George S. Anderson, a member of the board of trustees, said it would be named the Carl Myers Memorial Arena.

Myers was fatally wounded when struck by a bullet from a rodeo contestant's gun at the Big Spring Rodeo Arena last August. A rodeo judge was killed.

Myers was one of the founders of the Hardin-Simmons University Rodeo Association and was a charter member and organizer of the National Intercollegiate Rodeo Association.

The new arena will be completed in time for H-SU's fourth Intercollegiate Rodeo April 27-29.

Louis To Tell Plans Saturday

ODESSA, March 21. (U.P.)—What appears to be probably the worst kept secret of the year will "leak out" at Waco Saturday.

Joe Louis, who "retired" as heavyweight boxing champion of the world, is giving every indication that he will announce a comeback.

The Brown Bomber appeared here last night in an exhibition. He has two more before finishing a national tour. Tomorrow night he will be at El Paso, then Saturday at Waco. There, he says, he will decide whether he will return to the championship fighting line.

All along the way Louis has shown he's preparing for another title fight. He is carrying only 230 pounds—15 above the weight he assigned himself. He has had more than 20 fights since Feb. 2, including three that went the full ten rounds.

He estimates it will take him about two months to get ready for a title bout.

The 35-year-old Louis says he did not need the money, but not to be surprised if he agrees to a bout with Ezzard Charles, the current champion. If it comes off it'll be next September in New York.

"My punch is just as good as it ever was," Louis said. "I hit as hard as ever, but my legs aren't as good as they used to be. Still I can go 15 rounds without them bothering me."

Louis said he was waiting to hear from James Norris, one of his two partners in the International Boxing Club, which holds Charles' contract, before he makes his announcement. "He'll have to O. K. the financial arrangements before we can hold a fight," Joe explained. Norris is president of the IBC.

He professed great respect for Charles, the Cincinnati Negro recognized as champion by the NBA.

Louis will be winding up a 26-bout exhibition swing at Waco. Then he plans to go to South America for 10 more exhibitions.

"I scheduled this exhibition tour to find out whether or not I could get in shape for a championship fight," he said. He apparently answered that before mentioning it.

Discoverer of Penicillin Honored

LEEDS, England. (U.P.)—Sir Alexander Fleming has a new gold medal for his discovery of penicillin. Lord Mayor N. D. Vine presented it to him at a civic dinner.

The famous London specialist received it for "the most successful

Big Spring (Texas) Herald, Tues., March 21, 1950

ful discovery for the relief of human pain and suffering" under the will of Hoffman Wood, a Leeds architect. Wood, who died in 1933, left \$80,000 for scholarly purposes and for three medals for achievements in art, medicine and invention.

Teacher Charged With Pawing Girls

EUFULA, Okla., March 21. (U.P.)—A grand jury will be called April 3 as a result of charges that a country school teacher snapped the garter of girl pupils' panties.

District Judge W. A. Lackey ordered the county grand jury yesterday after receiving a petition bearing 180 names. It asked an inquiry into "the official acts of Jimmy Whiteley, county attorney, and other violations of the law."

The petition was circulated by friends of W. E. Dickey, 53, the teacher whom Whiteley has charged in both misdemeanor and felony complaints with lewdly pawing the bodies of girls at the two-room Cathey school near here.

Dickey is continuing to teach, free on \$3,000 bond. He has pleaded innocent to the charges.

Harris Resigns as Justice of Peace

HOUSTON, March 21. (U.P.)—Thomas I. Decker, indicted last week by the Harris County grand jury in connection with a missing \$190 of a \$200 fine assessed in his court, yesterday quit as Justice of the Peace, Precinct 2.

Poisoned Alcohol Is Fatal to Four

CLEVELAND, March 21. (U.P.)—Four men have died in the past two days from what police believe was the drinking of poisoned alcohol.

Three of the victims died last year. The earlier deaths already had been blamed by Coroner Samuel E. Gerber on wood alcohol.

Held by law agents today was a 50-year-old vagrant who police think brewed the fatal mixture. Two policemen, disguised as two bearded bums, arrested him yesterday after paying him 91 cents for two pints of "smoke," a cheap alcoholic mixture.

STUDEBAKER TRUCKS CUT COSTS!

Studebaker trucks come in a full range of sizes and wheelbases—streamlined 1/2-ton, 3/4-ton and 1-ton models—powerful 1 1/2-ton and 2-ton models in four wheelbases.

New Studebaker designing assures extra gas mileage...fewer repairs!

- Modern designing puts amazing performance into the Studebaker Power-Plus and Econ-o-miser truck engines. They bring real mileage out of gas.
- Modern designing reinforces every rugged inch of the Studebaker truck structure. A "plus" of frame length for maximum load space. An exclusive twist-resistant K-member up front.
- Check up on Studebaker trucks now—see for yourself why they're America's stand-out trucks in cutting hauling costs.

THE 1950 NASH AMBASSADOR Presents

AN ENTIRELY NEW IDEA OF LUXURY

Completely new comfort never possible before, awaits you in the 1950 Nash Ambassador.

Here alone is an Airliner Reclining Seat... the spaciousness of a Sky-Lounge. Here is the smoothest ride with super-soft coil springing on all four wheels.

Drive it and listen. In this car of best aerodynamic design, wind-noise is hushed. And with Airlyte Construction, body-bolt squeaks and rattles are ended.

Here is new Turbo-Head high-compression power—a revelation in performance and economy. In the 1950 Grand Canyon Economy Run, the Nash Ambassador averaged 26.4 miles to the gallon!

Yet the Nash Ambassador, even the luxurious Custom model, costs as much as \$1,000 less than other cars of comparable size and quality. See it today. Hydra-Matic Drive is available at new low price.

Now Available in All Nash Ambassadors:

- HYDRA-MATIC DRIVE, AUTOMATIC OVERDRIVE OR STANDARD TRANSMISSION

Malaya Seeks To End Red-Led Rebellion

SINGAPORE, March 21. (AP)—Malaya is going all out to end its Communist-led rebellion in the face of a new Red menace looming on the borders of Indochina. Field gun bombardments and heavy aerial bombs break the stillness of the jungle as British, Gurkha and Malay soldiers strike deep into the wilderness to rid this little country of its terrorists. Every day for a year and a half

they have been killing a handful of insurgents, burning down jungle camps and capturing materiel. Now they are being reinforced by thousands of uniformed police and troops hitherto detached on non-combatant duties behind the lines.

More than 300,000 Malayan civilians are taking over for them in the drive to deliver a knockout blow at the outlays. During "anti-bandit month" civilians are manning the desks, telephones, hospitals, road blocks and patrols. Women staff canteens, drive trucks and deliver dispatches.

WORTHWHILE EFFORT
Many government departments have been drapped of staff to the point of closing down, but authorities consider the effort worthwhile if it achieves the expected result.

In the last 18 months Malaya has spent about \$100,000 (U.S.) daily to quell the rebellion. Security forces killed 980 rebels and captured 590 while smashing 1,240 guerrilla camps and seizing 6,222 weapons. But the campaign and the stran-

gle (to Malaya) expense apparently brought little results. Criticism poured from all quarters until the anonymous author of "anti-bandit month" proposed his new weapon.

After a year and a half there is evidence the position of the outlaws is deteriorating. The rank and file of the Communist Army at the beginning of the drive to seize power in Malaya received pay of \$5 (Singapore) per month. In many units this pay has been stopped. Food is scarce. As security forces destroy their camps the insurgents are thrown farther and farther from regular sources of supply. Lower ranks now live on Tapioca roots.

Surrendered terrorists vouch for the fact that Japanese soldiers of the former army of occupation are operating with them in the jungles. Up to the end of December only about 200 terrorists gave themselves up despite the government offer of terms to all who surrendered, showered in pamphlets over the jungles.

The Red guerrillas eke out a precarious existence by banditry and terror. They maintain "agents" in the villages and small towns who extort from shopkeepers and merchants, mostly Chinese. Small bands lie in wait at road junctions or on lonely highways. They hold up buses, trucks and cars. Sometimes they burn the vehicles and shoot the passengers. Food foraging parties prey on small farmers. Rice mills are their chief target.

For a time the insurgents turned to rubber trading as a source of income, forcing tappers on some estates to seal rubber and pass it to them, or commandeering estate trucks loaded with latex. To counter this the government banned the movement of rubber in any form during the night hours.

Official estimates put the number of terrorists still in the jungles at 4,000. More than 4,000 persons were deported in 1949 and 214 banished for helping in the rebellion.

With Chinese Communists armies peering over the borders of Indochina Malaya must clean up its rebels as soon as possible. The added potential contributed by the 300,000 civilian volunteers of Malaya's five million population will be formidable.

Pressure Stops Certain Bacteria

LA JOLLA, Calif., (AP)—Bacteria usually die when put for very long in pressure some much different from their own, says Dr. Claude E. Zobell of the Scripps Institution of Oceanography.

He put 53 species of bacteria under pressure up to 5,000 pounds per square inch. None were injured by a few minutes of such pressures. Nor were they hurt by sudden release of the pressure. But after a few hours or days most of them died. On the other hand bacteria taken from the deep sea where pressure is high lived and multiplied under such pressures.

GUBITCHEV DEPARTS — Valentin A. Gubitchev is joined by his wife in their stateroom on the Polish liner Batory in New York for his journey back to Russia. The suspended United Nations engineer departed under the agreement that his 15-year prison sentence on spy conspiracy conviction be suspended if he would leave this country immediately. Handcuffs were removed after he boarded the liner, but U. S. officials remained on the Batory until the ship reached Quarantine. (AP Wirephoto).

Poland Sets Up New Government Along Red Lines

WARSAW, Poland, March 21. (AP)—Poland has abolished its old form of local government and set up a new system of centralized councils along Soviet Russian lines.

Parliament yesterday unanimously voted an act eliminating the local organs, assigning their property to the state and creating new national councils on village, district and state levels responsible to the highest bodies of the central government.

Although they are titled "national" councils they will be subordinated to the council of state, the council of ministers (cabinet) and individual ministries of the national government.

Western diplomats said parliament, in passing the act, had voted away such authority as it possessed and would henceforth be a mere "rubber stamp" giving formal approval to legislation presented by the Communist government on behalf of the ruling Polish United Workers (Communist) Party.

Students Testify In Trial Of Bednasek

IOWA CITY, Iowa, March 21. (AP)—A beautiful University of Iowa coed died on the second floor of an old frame rooming house early last Dec. 31 while a group of students across the hall discussed "be-hop" music.

This was disclosed yesterday when residents of the "Empty Arms" men's rooming house near the campus, testified in the trial of Robert E. Bednasek, 24, a psychology student. He lived at the rooming house.

The state charges Bednasek strangled pretty Margaret Anne ("Gee-Gee") Jackson, 20, also a psychology student, early that Sunday morning because he was afraid of losing her. They had once been "plumed" (campus term for "engaged").

The good-looking defendant and Miss Jackson had a private wine and lobster supper at the rooming house before attending a formal fraternity dance. They returned after midnight for a nightcap and to dance to a record player.

Seven students who were in the three-story house the night Miss Jackson died testified for the state yesterday. They described events leading up to the discovery of the body of Miss Jackson, which was still clad in a white evening gown, an early-morning "bullfest" by students in a room across the hall. Participants told of Bednasek coming to the open door of their room and asking if he might close it. A short time later, they testified, the discussion ended when police arrived and found Miss Jackson's body.

Zale's QUALITY DIAMONDS COST LESS!

Because:

1. Zale Diamonds are imported DIRECT from our own Antwerp Belgium buying offices. (No importer, exporter or wholesaler fees to boost the price.)
 2. Zale Diamonds are bought in large quantities for 30 stores. (This lowers the cost to us, lowers the price to you.)
 3. Zale Diamonds must conform to a strict, high standard of quality in Clarity, Cut and Brilliance.
 4. Zale Diamonds carry a "Protected Purchase Guarantee" of COMPLETE SATISFACTION to you or your money refunded in full within 30 days.
- You can "SEE" the difference! That's why Zale's sell more diamonds than any other jeweler in the Southwest.

2 YEAR TO PAY • NO INTEREST • NO CARRYING CHARGE

\$314,000 STOLEN FROM PHILOSOPHER RECOVERED AS POLICE ARREST YOUTH

HOLLYWOOD, March 21. (AP) — Two detectives acting on a tip, early today arrested a "scared" Boston youth and recovered \$314,000 in bonds, stocks and jewelry stolen from the home of philosopher Will Durant.

George B. Rhoden, 22-year-old recent Navy discharge, was arrested in his room. Detectives T. T. Belcher and Raymond Keeley said the

foot was found in the back of an overstuffed chair. They did not disclose the source of the tip.

"It scared me to death when I saw all that I had," Roden told the detectives. "I was afraid someone would bump me off for it."

The officers asked him how he happened to choose the Durant mansion for a safe-cracking job.

"I just happened to be going by and saw the people leave. I got in the house by taking a glass out of a window."

Police counted \$278,000 in bonds and \$36,000 in stocks, all non-negotiable. Also found was \$300 in jewelry belonging to Mrs. Hattie Sturz of New York City, a house guest in the 15-room Durant mansion.

Earlier police had reported the value of the jewels at \$38,000 but later listed the \$36,000 figure as applying to stocks.

Mrs. Ariel Durant, wife of the 65-year-old writer, discovered the wall safe jimmied and standing open when she awoke yesterday. She told police then that the robbers took place Sunday night while the Durants were visiting Mrs. Sturz husband, Louis, a hospital patient.

Static Blamed for Plane Explosion

SAN ANTONIO, March 21. (AP) — Air Force officials blame static electricity for the explosion in one engine of the world's largest land-based plane, the XC-99.

Eight men were injured in the explosion yesterday, none seriously.

Workmen were spraying carbon dioxide gas into the left inboard gas tank when it exploded. The blast ripped out a section of the left wing.

COOL WELCOME GIVEN TO SPRING

By The Associated Press
Spring got a wet, cool and windy reception in many parts of the nation today.

Snow fell over many parts of the central states when the spring season officially arrived last night at 11:38 p. m. (EST). A light band of snow extended from Kansas and Missouri northward to the Canadian border. A fresh fall measured up to six inches in Eastern Nebraska.

Rain mixed with snow was in prospect for much of the central part of the country. Rain fell in the East Central states and also in the Pacific Northwest. One to four inches of snow was on the ground in Western Maryland.

Temperatures were on the cool side over much of the Midwest but they moderated over most of the rest of the country. Warm weather was reported over most of Texas and Florida and in the extreme Southwest.

Heavy winds kicked up dense clouds of dust yesterday across the Texas Panhandle and the Southern Plains. Winds reached a velocity up to 54 miles an hour at Amarillo and dust stirred up by 49 mph winds threw a screen over Lubbock that reduced visibility to one mile. Visibility in some areas was cut to three-quarters to one mile.

The winds were expected to diminish today except along the Gulf Coast, where small craft warnings have been hoisted from Brownsville to Morgan City, La.

Price Supports For Wool Talked

WASHINGTON, March 21. (AP) — Price supports for the 1950 wool clip are being discussed by Texas sheepmen and government officials.

Fred Earwood of Sonora, who is among the participants, predicted last night the supports will net growers an average of 44.8 cents a pound, grease basis, compared to 42.3 cents on the 1949 clip.

A detailed schedule of the government loan rates will not be ready for about 10 days.

The commodity corporation is directed by law to support the price of wool up to 90 per cent of parity as long as annual domestic production falls below 360,000,000 pounds.

Parity is a formula used to give a producer a fair purchasing power on his commodity.

Noting that the 1949 clip had amounted to only about 220,000,000 pounds, Earwood estimated that the CCC would probably be making full 90 per cent of parity loans for several years.

Earwood is chairman of the wool and marketing committee of the Texas Sheep and Goat Raisers Association. Here with him is Frank Roddie of Brady, first vice president of the association.

TCU Prof Dies

FORT WORTH, March 21. (AP) — The former head of the fine arts department of Texas Christian University, Dr. Henry David Guelick, 72, died last night after an illness of several months.

Two National Football League backs—Steve Van Buren of Philadelphia and Tony Canadeo of Green Bay—gained more than 1,000 yards in 1949.

Texas Oil Allowable Up 130,376 Barrels

AUSTIN, March 21. (AP) — Texas oil wells next month will get their first allowable increase of the year.

The Railroad Commission yesterday ordered permissive production for April increased to 2,088,722 barrels daily, 130,376 barrels per day higher than in March.

All of the increase was distributed among 124 fields which had been cut back this month under a new commission proration formula. All the fields will remain on the March 17-day production pattern.

The April order will also permit the flowing of 306,647 barrels daily of natural gasoline and distillate, bringing total permissive flow of all petroleum liquids to 2,395,369 barrels daily.

The U. S. Bureau of Mines had forecast that demand for Texas crude next month would be 329,389 barrels less than the commission will allow.

Assignment of all of April's increase to fields which had been cut in March followed profits to the commission at last week's statewide oil hearing. Producers told the commission that the new formula worked harshly in some fields particularly those with high maximum efficiency ratings or with wells of 10,000 feet or deeper.

The new formula based the March allowable on well depth and acreage with the maximum efficiency rate of production as the ceiling. For several years previous the only proration basis used was the maximum efficiency rating.

A commission spokesman said the April order restores about 45 per cent of the March cut to those 124 wells that had felt the axe.

The next statewide oil proration hearing was set for April 14 in Austin.

April daily allowables, by districts, compared with those of March 11:

1. Southwest Texas, 29,528, up 228.
2. Southeast Texas, 126,054, up 4,501.
3. Gulf Coast, 286,731, up 40,183.
4. Southwest Texas, 183,256, up 5,506.
5. East Central Texas, 28,142, up 4,420.
6. East Texas (outside), 32,031, up 4,788.
7. East Texas Field, 208,227, up 7,433.
8. West Central Texas, 29,596, up 1,287.
9. West Central Texas, 21,564, up 1,580.
10. West Texas, 69,283, up 2,500.
11. East Texas, 149,316, up 1,225.
12. Panhandle, 180,497, up 4,000.

Flying Saucer Fells Staffer

LOS ANGELES, March 21. (AP) — Not only has S. K. Bennett seen a flying saucer, but he's also been felled by one.

A staff member of Angeles Temple, Bennett was helping set the stage there yesterday for an illustrated sermon on "Flying Saucers and Men from Mars."

A stage prop "saucer" got out of control, slid down a wire too fast and knocked Bennett down. He was treated for a gashed leg.

Eight Persons Killed In Car-Truck Crash

ROCKFORD, Ill., March 21. (AP) — Eight persons, including a family of four, were killed last night in a head-on crash between their 1950 automobile and a heavy oil truck. The truck driver was not hurt.

The scene of the accident, near Rockton, was "Wagon Wheel Curve," also known as "Death Curve."

The dead included Mr. and Mrs. Robert Rinehart and their two daughters, 5 and 1 years old, and Rinehart's brother, Raymond. Others killed were two women and a man.

Bentley Named to Foundation Post

GAINESVILLE, March 21. (AP) — Max Bentley, former Abilene and Houston newspaperman, has been named executive secretary of the Sweeney Diabetic Foundation at Gainesville.

Bentley yesterday accepted the post after ten years as organizational director of the West Texas Chamber of Commerce. He was formerly managing editor of the Houston Chronicle and Abilene Reporter-News.

A&P Is Charged With Concealing Facts About Suit

WASHINGTON, March 21. (AP) — Rep. Patman (D-Tex.) has accused A&P grocery chain of "deliberately concealing the facts" about a civil anti-trust suit filed against it by the Justice Department.

In a speech in the House, Patman, chairman of the House Small Business Committee, yesterday said:

"A&P is telling the American people that the charge made against it is false.

"A&P knows full well, as does every member of this House, that this propaganda is a complete fabrication. A&P knows the charges made by the Justice Department in this civil suit are no longer open to dispute.

"A&P is therefore seeking, by means of its propaganda campaign, to bring pressure to bear upon the Department of Justice and the court so that this civil suit will be abandoned or so weakened as to be ineffectual.

Arnold May Run For U. S. Senate

HOLLYWOOD, March 21. (AP) — Actor Edward Arnold says he's considering running for the Republican nomination as U. S. senator.

When asked to comment on the coincidence that his current role in the movies is that of a senatorial candidate, Arnold gave forth with "huh, huh, huh."

Already in the race are Sheridan Downey, incumbent, and Congresswoman Helen Gahagan Douglas, both Democrats, and Rep. Richard Nixon, Republican.

Here Is Why You Should Let Us
FIGURE YOUR CONCRETE
1. You don't need an architect on our jobs. We know our concrete.
2. We not only specify washed sand and gravel designed to meet certain specifications, but we use materials that are washed clean and will meet the most rigid specifications.
3. With grades of materials specified, we can save you money per cubic yards poured in your home or farm by contract for finished concrete.
4. We are not connected with any kind of gravel business. We buy our material on the open market; therefore it is only logical that we use the best material.

The men had drifted for seven days after explosions and fire wrecked the ill-fated Elder. Fourteen men who stayed aboard the Elder were also rescued. (AP Wirephoto).

Citizen Groups Seek National Defense Setup

Civil Agency to Prevent Panic in War Recommended

WASHINGTON, March 21. (AP) — Lawmakers today weighed fresh demands from citizen groups for a national program of civil defense against atomic attack.

The demands backed up testimony to the Senate-House Atomic Energy Committee that the American people are fearful of the future, and are looking to the federal government for action.

"If war strikes now, we would have panic and hysteria," Dr. Walter S. Cronin, disaster coordinator for Cambridge, Mass., told the committee yesterday.

He recommended that a civil defense agency be set up in the Defense Department immediately.

American Legion officials earlier had said that the Legion has repeatedly requested that responsibility for civil defense be placed in the defense establishment.

They also took occasion to prod Congress for action on a Legion bill to create a national security training corps.

The committee has been inquiring into the state of U. S. civil defenses against atomic attack in a series of high-level closed door sessions. The hearing yesterday was the second in a limited number of public meetings on the problem. Dates of future open hearings have not been set.

President Truman has placed responsibility for civil defense in the hands of the National Resources Planning Board. The board March 1 set up an agency headed by Dr. Paul J. Larson, to handle defense planning.

House Panel Okays Huge Money Bill

Half Of \$29 Billion To Go For Defense

WASHINGTON, March 21. (AP)—A \$29,045,030,164 deficit-boosting government spending bill — representing a \$200 outlay for every man, woman and child in the nation — was approved today by the House Appropriations Committee.

Grim reminder of the cost of war, more than half of its total is composed of items for national defense, including charges growing out of World War II. The bill carries \$13,911,127,300 for the Defense Department, \$5,801,782,795 for the Veterans' Administration and \$947,970,000 for the Atomic Energy Commission.

There were no deep cuts in any major programs, the average reduction under President Truman's requests being five per cent. But there is a move in the House to send the bill back to the committee for a further \$1,000,000,000 cut or more.

Slated for House debate next week, the bill wraps into a single measure for the first time in modern history the appropriations of more than 40 federal agencies. Not included are foreign aid and military assistance funds and so-called permanent and indefinite appropriations, aggregating \$11,592,751,053.

The bill's total is \$1,567,500,500 less than the President requested and, if approved by Congress would result in an estimated federal deficit of \$4,153,662,312 for the 1951 fiscal year, starting next July 1. The appropriations provided are for that year.

In actual cash, the bill appropriates \$27,265,463,664, which is \$1,385,377,504 less than the President requested and \$832,014,180 less than was provided for comparable activities this year.

In addition, it provides authority for government agencies to enter into contracts totaling \$1,778,626,500. This sum is \$182,523,000 less than the President sought and \$1,877,408,128 less than was provided this year. Future appropriations normally are necessary to finance these authorizations.

The appropriations committee pointed out that the cash cuts would mean a reduction of \$973,489,000 in planned government spending in the fiscal year 1951.

The difference between the actual cut in appropriations and the estimated cut in spending is due to the fact that disbursements of many types of appropriations frequently are delayed beyond the end of the fiscal year, and some spending during a year comes from funds carried over from a previous year.

President Truman's budget estimates of expenditures in fiscal year 1951 were \$42,438,737,406. The committee said its cuts will hold the planned spending to \$41,459,268,346.

Republicans in the House are organizing a drive to make further cuts when the bill is ready for amendment. They say they want to reduce the government's planned spending to a figure within \$1,000,000,000 of the \$37,265,463,664 in anticipated revenues next year.

The committee recommended budget cuts for almost every agency financed by the bill. Among the rare exceptions was the Federal Bureau of Investigation, which was allowed funds for 325 new agents and for a \$4,900-a-year raise for J. Edgar Hoover, who now receives \$16,000.

The Defense Department was cut \$203,322,700 in cash. It asked for \$13,028,675,000 cash and \$1,885,785,466 in contract authority. For the present year it received \$15,035,562,408 in cash and \$2,636,301,000 in contract authority.

The Veterans' Administration was allotted \$5,801,782,795, a cut of \$205,823,205 from what it wanted and \$328,738,205 less than it received this year. The bulk of this money is for veterans' pensions, hospital facilities and benefits under the GI Bill of Rights.

The Atomic Energy Commission was put down for \$947,970,000, or cash and \$390,150,000 in contract authority. It asked for \$709,960,000 cash and \$333,500,000 in contract authority. This year it received \$702,930,749 cash and \$468,975,628 in contract authority.

SOCIALISTS PROTEST RETURN OF KING

Political Situation In Belgium Darkens As New Strikes Loom

By The Associated Press
The political crisis in Belgium heightened today as Socialists planned further widespread strikes in protest against attempts to return exiled King Leopold III to the throne.

Acting Premier Gaston Eyskens tried in vain to form a new cabinet to replace the one which fell Saturday in a dispute over the royal question.

Eyskens heads the Social Christian Party, the biggest in parliament but without an overall majority. The Liberals in his coalition

cabinet have balked over the return of Leopold, precipitating the crisis.

The Socialists have threatened to call a series of 24-hour protest strikes until the monarch gives up the throne in favor of his 18-year-old son, Prince Baudouin.

Hong Kong dispatches said attempts to evacuate 2,000 nationals of the United States and other countries from Shanghai have been given up temporarily. It had been planned to send two shallow landing craft up the mine-sown approaches to transport the evacuees to the liner General W. H. Gordon.

But Chinese Communist officials refused entry to the smaller vessels. So the Gordon has cancelled her voyage to Shanghai.

On Formosa, Nationalists talked of launching further Communist raids against the Communist-held mainland. The capture of Sunghmen, 200 miles south of Shanghai, seized last Wednesday in a daring raid, gave rise to speculation the Nationalists would continue to nibble at the Red coastline.

Nationalist airmen reported spotting strange planes over Communist China which are considered the forerunners of a new Communist air force.

In Stockholm, O. John Rogge, a top policy planner in Henry Wallace's American Progressive Party, said he is leaving today for Yugoslavia where he hopes to help patch up the feud between Premier Marshal Tito and the Soviet Union. Rogge, former U. S. assistant attorney general recently spoke in Moscow as a delegate to the Communist-sponsored world committee of peace partisans. He has said before Communist groups that the United States does not want war and is anxious to build an enduring peace as any nation.

He said the mission to Yugoslavia is "to help keep the world at peace."

In Rome a spokesman for Italy's Communist labor leaders said today they had decided to call a nationwide general strike to protest

government police measures. It appeared that it would be a "token" strike of only a few hours duration.

The government announced Sunday it was increasing the size of its police force to cope with violence stemming from demonstrations for distribution of land to peasants wage increases and other economic complaints.

President Truman has placed responsibility for civil defense in the hands of the National Resources Planning Board. The board March 1 set up an agency headed by Dr. Paul J. Larson, to handle defense planning.

The House Committee on Executive Expenditures on Proposed Reorganizations in the National Labor Relations Board.

Chairman Dawson (D-Min) said Church was giving the group his views when he apparently suffered a heart attack.

Dawson said that in the midst of a sentence Church gasped for breath, then slumped in his chair.

Church, a lawyer whose home was Evanston, Ill., was elected to the House seven times to represent the 13th Illinois district.

At today's committee hearing, Church was fighting a proposal from President Truman to end the independent status of the general counsel to the National Labor Relations Board and transfer the counsel's functions to the NLRB itself.

Church had told the committee "this is nothing more than a device or scheme to destroy the Taft-Hartley law. The opponents of this law are attempting to accomplish indirectly what they are unable to do directly."

He was arguing in this vein when seized with the sudden attack.

Several committee members, including Democratic Leader McCormack (Mass) and Representatives Mack (Mass) and Representatives Franklin D. Roosevelt (D-N.Y.), Turelle, (D-N.Y.) and Blatnik (D-Minn), rushed to his aid.

They eased him onto a carpet and sought to revive him, while physicians were summoned.

Fort Worth Rapist Gets Execution Stay

AUSTIN, March 21. (AP) — A 30-day stay of execution was granted by Gov. Allan Shivers yesterday to William R. Ray, sentenced to die in the rape of a nine-year-old Fort Worth girl in a public park two years ago.

Gov. Shivers said in granting tacitly that the governor's power to grant one 30-day reprieve in any capital case has been so regularly granted in the past that it has now become a precedent. The power is provided by the constitution.

BULLETIN POINTS OUT PERIL TO AMERICA

H-Bomb Isn't Secret Weapon

EDITOR'S NOTE
This is second of a series of six stories prepared by the American Society of Newspaper Editors' Committee on Atomic Information in collaboration with the Bulletin of the Atomic Scientists. The articles digest the significant contents of the March 20 "Hydrogen Bomb" issue of the Bulletin, published by top-ranking scientists in this country. The articles contain a summary of basic popular information about the H-bomb and

of the questions of national policy arising from it.

BY THE ASSOCIATED PRESS
There is no hydrogen bomb "secret" any more than there was ever an American-held basic secret of the atom.

Nor is it a secret to Generalissimo Stalin that the hydrogen bomb is a weapon particularly suited to destroying America's civilization.

A hydrogen bomb, when and if one is built, may be able to demolish New York or Washington

in a split second. The United States has many such targets some within reach of a bomb-carrying submarine or freighter.

The Soviet Union has but few; its industries are scattered and its major cities land-locked and well ringed by defenses.

There are some of the open secrets about the hydrogen bomb discussed in the current issue of the Bulletin of the Atomic Scientists.

The Bulletin was founded four and a half years ago by scientists

men who helped make the A-bomb then became concerned with helping master it. The March issue is an H-bomb issue, dedicated to the proposition that Americans have not debated the issues exploded by this and other new weapons.

When it comes to the H-bomb's basic scientific facts, the fact is there are no facts to hide.

It is now common knowledge that top scientists believe you can set

BAO DAI GETS U. S. BACKING — Vice Admiral Russell Berkeley (left), U. S. Seventh Fleet commander, talks with former emperor Bao Dai, chief of the French-sponsored Indochinese government, during an official visit at Saigon, March 16. Seventh Fleet units visited Indochina as a demonstration of U. S. support for Bao Dai. Communist-led rioters battled police four hours in Saigon protesting American backing for Vietnam's pro-French government. The rioters tore down U. S. and French flags hoisted to honor American destroyers Stickle and Anderson, and ripped them to pieces. (AP Wirephoto by radio from Paris).

MITCHELL TEST FLOWING

New Discovery Well In County Reported

Another discovery well in the Pennsylvania reef straddling the Howard-Borden line was reported today.

While this development, approximately 18 miles north and slightly east of Big Spring, was taking place, another exploration in extreme northwest Mitchell kicked off and flowed from the Canyon. Barnard Oil No. 1 W. L. & B. G. Wilson, 600 feet of the north-east corner of section 18-37, R2TC, flowed out from a Pennsylvania formation for 40 minutes Monday evening before being shut in. The rate was estimated from 10 to 30 barrels per hour with about 20

The formation, tentatively identified as the same reef which produced in Vealmore and Good pools of northern Howard and Southwest Borden, was topped at 7,410 (datum minus 4,929). The venture drilled 15 feet and then opened the tool for 53 minutes. After three minutes, oil in 13 minutes. Three and a half minutes, the tool was closed. Drill pipe was to be pulled and broken 'down this morning.

The wildcat is approximately 10 miles east of the Vealmore pool and six and a half miles south-west of the Livermore No. 1 Reinecke, recent Canyon discovery in southeastern Borden. It is about four miles east of the Gall road and barely over the line in Borden.

Almost written off by some observers as a failure, Thomas Dowell, et al No. 1 G. N. Solomon loomed as a northwest Mitchell discovery Tuesday. It had drilled past 8,220 him ahead of developments plugged back to 7468. The section from 7,448-68 was treated with 5,000 gallons of acid. It swabbed Monday afternoon, then reportedly kicked off with a flow estimated at

40 to 50 barrels per hour into pits. This rate, however, was not verified. Reports said that the test was shut in for storage. It had recovered 200 feet of oil and gas-cut mud on a test from 7,400-85 a month ago.

Location is 660 feet out of the northwest corner of section 78-97, R2TC, 14 miles northwest of Colorado City and one mile west of the shallow Coleman Ranch pool.

Ohio Oil announced location of its No. 1-A-F. W. Market, an 8,000-foot wildcat 13 miles north of Colorado City. The north Mitchell wildcat is on the company's China Grove block, held for a number of years. A seismograph high has been shot for the area.

In southeastern Borden, Livermore No. 1 Whitaker, south offset to the discovery No. 1 Reinecke, drilled to 6,026. Hyster & Heard No. 1 Holly, west offset to the discovery, was at 6,420; Castleman & O'Neill No. 1 Griffin, half a mile west of the discovery, was 5,200; C. H. Sweet, three quarters of a mile northeast was at 1,900 feet.

HST Enjoying Halcyon Days On Florida Key

KEY WEST, Fla., March 21. (AP) — A tanned and relaxed President Truman pursued his favorite vacation "hobbies" today in the company of favored pals while his staff kept him abreast of developments at Washington.

Members of his party said he is more relaxed than he has been in several weeks.

Long "bull sessions" with Chief Justice Fred M. Vinson have become almost as much a part of his vacation routine as his daily trips to the beach for a swim and a sunbath, nightly music concerts and occasional poker games.

Vinson flew down Saturday with Clark M. Clifford, former special counsel to the President, for what Presidential Secretary Charles G. Ross called a "social visit." The chief justice and Clifford are returning to Washington this week.

The President works on official documents every day. John R. Steelman, presidential assistant and Charles S. Murphy, special counsel, keep in constant telephone contact with the White House and the departments.

A Navy courier plane arrives every other day with reports and correspondence requiring Mr. Truman's attention.

The absence of the daily round of callers gives Mr. Truman more time to relax than he has at the White House.

He has some prize recordings of piano classics he plays for members of his party, Sunday he gave them some readings of his favorite poetry.

The arrival of Donald Dawson, an administrative assistant who handles personnel and appointment problems, likely will pave the way for an early appointment of a chairman of the Atomic Energy Commission as well as chairman of the National Security Resources Board.

Close associates of the President said he is nearing a decision on both. Dawson postponed a scheduled trip here yesterday and may fly in today.

QUICKIES — Ken Reynolds
