

THE PAMPA NEWS

VOL. XIX.

PAMPA, TEXAS, FRIDAY, SEPTEMBER 11, 1925

NO. 24

ITEMS OF INTEREST FROM OVER THE STATE

Brownsville.—The Rio Grande was in two feet of the flood stage here Tuesday and was slowly rising, following a tropical storm which Sunday and Sunday night brought an 11 inch rain and marooned motorists on flooded roads.

Longview.—Sunday evening as Miss Ollie Mallicoat and Frank Wheeler were motoring on Moberly avenue, the girl dropped an automatic pistol, which was fired, the ball striking her in the left leg, breaking the bone above the knee.

Austin.—The State of Texas and branches of the Federal Government here officially mourned the death of Lieutenant Commander Lewis Hancock of Austin, killed in the Shenandoah wreck, during his funeral in Arlington cemetery Tuesday morning.

San Antonio.—Max Postell, 17 years of age, painter's apprentice, was still alive Tuesday night following his five-story fall to the brick pavement when he stepped from a fifth story window at the new Lanier Hotel annex to a cable scaffold. He is not expected to live.

Temple.—When a 40,000 gallon tank built of wood on a tower collapsed without warning, the village of Little River, 10 miles south of here, lost its water supply. The pumper and his mother were swept a short distance by the water, but were not injured.

Wichita Falls.—An unsuccessful attempt was made to rob the Continental State Bank, Petrolia, during the Sunday-Labor Day holiday. The knob was knocked off the vault door, but an entrance was not effected.

Dallas.—Obliging yeggs who cracked the safe at the Lessor Store Sunday night and took more than \$5,000 Tuesday returned to the store \$15 in checks taken from the strong box. The checks were inclosed in a letter mailed to the concern.

Cebu.—Hidden in the cedar brakes along the Brazos River, about 18 miles southwest of here, an automobile and accessory "graveyard" was discovered by Deputy Sheriff Joe Crawford and J. Bankston after an all-night search Tuesday. Two stolen cars and a large quantity of parts, together with much other loot, was seized. One man was arrested and jailed.

Floydada.—Sheriff Maddox' famous jail quartet is no more. It broke up suddenly Tuesday night. One of the jail boys suddenly appeared at his office and announced that he had better hurry down else all of his singers would be gone. When Maddox reached the jail he found both the inner and outer doors wide open and only two of the five inmates present.

Waco.—Alleging that he was arrested here March 12 of this year and carried to the Stephenville jail, where he was locked up for two days in the bad company of various felons, all on a warrant calling for the arrest of another man with a slightly similar name, T. J. Griffin of this county fled out Tuesday in district court against Sheriff D. M. Hamler of DeWitt County, and his bondsmen, asking for the sum of \$25,000.

San Antonio.—While they sat engaged in the motion picture at a local theater, a pickpocket Monday afternoon stole \$2,400 from Mr. and Mrs. Chas. Richards of Los Angeles, as it lay in a paper wrapped money sack in the lap of the latter. The Richards arrived in the city Sunday from the Pacific Coast. The money, representing their life savings, could not be deposited in a bank until Tuesday owing to Labor Day.

Temple.—The first conviction in Bell County under the fraudulent check law was secured in County Court when a jury found W. S. Chiffin, a farmer, guilty of issuing a check on a bank without having sufficient funds to his credit to cash the same. He was fined \$5 and costs and given 30 days in jail. Motion for a new trial was filed. The conviction was affirmed on appeal. Chiffin had been when he pleaded guilty. A fine of \$5 and costs and one day in jail was assessed him.

TRI STATE FAIR OFFERS VARIETY

With a dozen counties of the Panhandle already volunteering exhibits at the Amarillo Tri-State Exposition, and more known to be coming, officers of that institution are now being assured of what they have heretofore predicted for the 1925 dates of Sept. 26 to Oct. 1.

Agricultural exhibits and livestock showings are now practically assured the best ever attempted in this section of the Southwest, attention to the attractions and amusements is now being asked by U. N. Oliver, president.

"Fair time is also fun time," he says, "and while development of this section and its resources is the prime object, father and mother, as well as Jack and Jill, wish entertainment mingled with the more serious side of life. In the 1925 showing exhilaration as well as studious absorption is sought, and for this purpose it is believed, the best, the most elevating, as well as amusing, has been secured."

For the height of excitement there will be the races. Horses, motorcycles and automobiles figure in these events. For the first mentioned three days have been set aside, Tuesday, Wednesday and Thursday. Prizes amounting to \$3200 have been set aside, which added to those offered on the same circuit by Hutchinson, Topeka, Wichita Falls and Dallas, will bring the best horses from the best known trainers and owners.

Saturday and Monday the automobile races will be run. A purse of \$3,000 has been hung up for these events, and four time trial races and two automobile races, sanctioned by the "Three A" association will be run.

On the midway will be shown the great Clarence A. Wortham Shows; These will stretch from the entrance to the grandstand and to the agricultural hall. As a guarantee against rain and mud, sidewalks will be laid so that they will be accessible to all.

Before the grandstand there will be a number of features between the races—free to all entering these gates. Among these will be the Chicago Cadets, an 18-piece band; Dave Darden's all-professional band; the Clifton Girls, an acrobatic and dancing feature; the Mounters, chair and table artists fresh from overseas; and Perezoff & Co., jugglers.

To cap each day will be the fireworks at night. This is a mammoth attraction staged by World Amusement Company of Chicago. Of special interest will be the Old Fiddler's Contest, which coupled with the Harmonica, and choral societies and drum corps events will be staged in the tent pavilion on Wednesday night. It is said the fiddlers are coming in herds to portray their music of other days.

Approximately 20 bands have already signified their intention of entering that event. Prizes amounting to \$1250 are divided as follows: Five year bands, \$400, second \$200; 4 year bands, \$200; second \$100; two year bands \$150, second \$75; and one year bands \$75.

This one can step from the serious study of the latest ideas of farming, stock raising and improvement in general, almost directly and daily into an atmosphere of "Coney Island," and the music world.

LOCAL EMPLOYE NAMED MANAGER

Announcement was made Saturday afternoon by officials of the Southwestern Public Utilities Company that Theo. Tiggs of this city had been selected as manager of the company's light plant recently purchased in Pampa.

Mr. Tiggs has been employed by F. W. Grogan, former owner of the local plant for the past two years, and is familiar with the business in every detail. He is in Knoxville this week studying the new system which is being installed relative to the management of the several plants of the company, and upon his return the last of the week will take charge of the local office and plant.

Mr. Tiggs' many friends are extending congratulations on his good fortune in securing this responsible position, and predict that he will make the company an efficient manager.

Mrs. Joe White and son, Ted, and Mrs. Ed. White and son, Jim, and daughter, Edith, returned from the fair at Wichita Falls, where they will spend some time in a vacation there for the benefit of her health.

WORK UNDER WAY ON GAS SYSTEM

Five carloads of pipe have arrived thus far to be used in the installation of the gas system in this city.

Three-inch pipe has been strung in the alleys of the business section of town, and is now being hauled out on the streets running east and west.

Mr. Woodward states that some ditching will be done Friday and Saturday, but that the work will be started in earnest Monday morning.

Application blanks for service lines and for meters will be available next week, probably by Saturday, and those who intend to tie onto the gas lines at once should fill out the applications at once, so that lines may be run to their property, and preparations made for setting a meter.

The mains in town will be laid first, and when that is finished the line to the Dancinger Bros. well six miles south of town will be started, and while it is under way service lines in town will also be run.

Three-inch pipe is to be used for the main lines in town and also to lay the high pressure line to the well. The system will be built on the belt plan, which will insure even feed and uniform pressure.

It is thought that with good weather the system can be installed and patrons be using the gas by Nov. 1.

PRIZE OFFERED FOR FIRST BALE GINNED

The grower of the first bale of cotton in this trade territory will be a lucky man this year, provided he is the first one to get the cotton into town and ginned.

The Pampa Chamber of Commerce has decided to pay a premium of \$50.00 in cash for the first bale of cotton ginned here. The offer is open to every cotton grower in this trade territory, and there are no strings attached to the offer.

It is just a matter of the first one getting a bale of cotton picked and having it ginned will be \$50.00 ahead.

INSTANTLY KILLED IN AUTO ACCIDENT

C. M. Bryan, 55 years of age, a resident of Clayton, N. M., was instantly killed Saturday afternoon about 4 o'clock, when his automobile overturned on the Southwest Trail, three miles this side of Panhandle.

Mr. Bryan was on his way from Clayton to Canadian when the accident happened. He turned out to go around a truck and met an oncoming car. While trying to miss the car also he ran his car in the ditch, turning it over several times. An ambulance was summoned from Amarillo, but he was dead when they arrived.

Bryan was the owner of the Excelsior hotel at Clayton.

AT THE METHODIST CHURCH

Sunday school at 9:45 a. m. Lee Harrah, Superintendent.

Praying at 11 a. m. Text—Romans 12:15.

League at 7 p. m. Lillian Wallinax, president.

Woman's Missionary Society—Mrs. R. J. Osborn, acting president.

Choir practice Wednesday at 8 p. m. Miss Julia Miller, director.

There will be no service at 8 p. m. next Sunday, as I am called away to preach a special sermon at Golden.

We want every member of the church to be present Sunday morning. We cordially invite anyone who can, to come and worship with us. We shall try to have a message for you. Come and find how welcome you will be. We really want you to come.

E. J. OSBORN, Pastor.

McKinney, Jr. W. A. Green, chiropractor here, was found guilty and given a jail sentence of 90 days and fined \$100 by a jury in county court Tuesday on a charge of violating the medical practice act.

Mr. and Mrs. Chas. Thomas, Mrs. W. L. Ledrick and Rev. James Todd attended the district convention of the Christian church at Cleveland Wednesday and Thursday of last week.

Mrs. L. W. Collins left Sunday for Fort Worth, where she will spend some time in a vacation there for the benefit of her health.

SCHOOL TO OPEN MONDAY MORNING

The 1925-26 term of the Pampa public schools will open next Monday morning, when a short program will be rendered, beginning promptly at 8:45 o'clock.

The teachers are attending the Institute at Canyon this week, but will return here Saturday and be ready to assume their duties Monday morning.

The program for the opening exercises includes the following numbers: Song, America, by all.

Invocation—Rev. H. R. Whatley. Song—Male quartet. Reading—Miss Rorex, vocal and expression teacher.

Scripture reading and comment—Rev. B. J. Osborn.

Piano solo—Mrs. Tom Rose, piano instructor.

Song, Onward Christian Soldiers—By all present.

Short talk by B. Q. Green, principal and coach.

Short talk by Supt. R. C. Campbell. Benediction—Rev. James Todd, Jr.

The faculty this year will be composed of the following teachers:

High School
Superintendent—R. C. Campbell.
Principal and Coach—B. Q. Green.
English—Miss Bernice R. Whiteley.
History—Miss Lola Posey.
Spanish and Latin—Miss Addie Lee Smith.

Vocational Agriculture—G. E. Voss.
Domestic Science and Home Economics—Miss Leah Amend.
Commercial Department—Mrs. W. F. McCracken.

Grades

Primary—Mrs. Grace Meador.
Second grade—Miss Tinitis Allred.

Overflow of first and second grades—Miss Laura McQuirk.

Third grade—Mrs. C. W. Stowell.
Fourth grade—Mrs. Annie Daniels.

Fifth grade—Miss Nellie Bird Rich-ey.

Sixth grade—Mrs. Maud Hall.

Overflow sixth and seventh grades—Miss Wilma Behrends.

Seventh grade—Mrs. Ada L. Ferguson.

Voice and dramatic art—Miss Lella Rorex.

Piano instruction—Mrs. T. E. Rose.

Kingsmill school—Miss Susie Pipkin.

Hoover school—Miss Monta Caruth.

Patrons and all others interested in the school work are cordially invited to attend the opening exercises Monday morning.

SHOTGUN FIRED INTO CAR OF YOUNG FOLKS

Shamrock, Texas.—Five young people were wounded, three of them dangerously, about 2 o'clock Wednesday morning when a charge from a shotgun was fired into the automobile in which they were riding.

Perry Cooney, a farmer living 17 miles northwest of Shamrock, is in jail at Wheeler in connection with the affair. The victims of the shooting are Mattie, Mabel and Mary Embler, sisters; Hick Embler, their brother, and Cecil Rook. Mabel and Mattie Embler and Rook were the most seriously wounded, and were taken to the Northwest Texas hospital in Amarillo Wednesday.

Reports are that they have a good chance to recover, but are expected to have their eyesight impaired.

It is said that the Embler young people drove by Cooney's awakening him, and later came back by and were fired upon when they passed. They are alleged to have had trouble previously. Cooney lives near where the Embler family lives, and has a wife and several children.

CHRISTIAN CHURCH

Attendance and interest at the Bible school and both preaching services were good last Sunday.

If you do not attend elsewhere we urgently invite you to attend the services of the Christian church Sunday.

JAMES TODD, Jr., Minister.

Mrs. Helen Huggins of Wichita, Kan., arrived this week to visit her mother, sister and brother. Mrs. Huggins is accompanied by her son, Mrs. E. L. Stables, who will spend the winter here.

Mrs. Roy Wall and Mrs. Brown of No. 100 were guests of Mrs. C. F. Hockstetter and family Monday. They were on their way to visit the Institute. Mrs. Roy Wall accompanied them to Canyon Monday afternoon.

Mrs. M. A. Craig and daughter of No. 100 were guests of Mr. and Mrs. J. L. Whaley Tuesday. They will spend the winter here and will be accompanied by Mrs. M. A. Craig, who will teach the Kindergarten school this year.

Mrs. M. A. Craig and daughter of No. 100 were guests of Mr. and Mrs. J. L. Whaley Tuesday. They will spend the winter here and will be accompanied by Mrs. M. A. Craig, who will teach the Kindergarten school this year.

INSPECTION MADE FOR ELECTRIC LINE

A party of engineers and officials of the Southwestern Public Utilities Company was in this city Saturday afternoon, while on an inspection trip of the proposed high-line route from Amarillo to Pampa.

The party included C. M. Einhart of Roswell, president of the company; Henry Sellick, also of Roswell, high line superintendent for the company; Harvey Einhart of Roswell, electrical engineer, and Walter Foster, construction superintendent of the Amarillo Light Company.

Mr. Sellick recently supervised the construction of the high line from Roswell to Artesia, N. M., and was brought over this section of the company's holdings to investigate the Amarillo-Pampa high tension line, which the company intends to build and hopes to have in operation by the first of the year. Panhandle, White Deer and Pampa will be served from the Amarillo plant over the new line and there is a possibility of its going on east to Miami and Canadian provided the company secures the light plants in those towns.

Materials are being purchased at this time for the construction of the line from Amarillo to Pampa.

OIL FIELD ACTIVITY IN THIS LOCALITY

Good oil showings were encountered this week in the Anderson et al Beavers-Bradford well in section 124 block B-2, eight miles south of town. Enough oil accumulated in the hole to be bailed out, and reports are that after standing over night several additional gallons accumulated Wednesday night. The well is now down 3075 feet, and it is expected that more production will be picked up momentarily. Drilling is going forward at this time.

Another cave developed in the Wilcox No. 1 Combs & Worley this week, and after cementing it off the crew is waiting for the cement to set before resuming operations.

Drilling is going forward on the Young & Patrick No. 1 Allie Byram, in section 188 block 3, six miles west of town. This well was spudded in last week, and is being drilled with standard tools.

Dancinger Oil & Refining Co., well, section 85 J. B. Bowers land, is still drilling in an extremely hard formation said to be black lime. The well is slightly less than 3,000 feet.

Drilling is continuing at the Phil Engel well on the Ledrick ranch 25 miles north of here, the depth Tuesday afternoon being 3782 feet. The formation is lime, and is said to carry some oil traces.

County Agent P. E. McMeans was here Tuesday and stated that he is getting his products pretty well lined up for the exhibit booth at the Tri-State Exposition. He had some excellent millet and other products he had secured on this trip over the county.

Mr. McMeans states, however, that if anyone has any product of crops, fruit or vegetables which he believes worthy of a place in the exhibit, to please leave same with C. P. Buckler, secretary of the Pampa Chamber of Commerce, so that same may be inspected and compared in order to secure only the best in the county.

Bundled wheat is one of the articles needed most at this time.

Mr. McMeans expects to bring home a nice prize from the Exposition with the Gray County exhibit, and to do so needs the support and co-operation of all.

Mr. and Mrs. C. B. Barnard returned Sunday from Kansas City, Mo.

Mrs. Maud Hall returned Sunday from Illinois, where she spent the summer vacation. She was accompanied home by her son, Mrs. E. L. Stables, who will spend the winter here.

Mrs. M. A. Craig and daughter of No. 100 were guests of Mr. and Mrs. J. L. Whaley Tuesday. They will spend the winter here and will be accompanied by Mrs. M. A. Craig, who will teach the Kindergarten school this year.

Mrs. M. A. Craig and daughter of No. 100 were guests of Mr. and Mrs. J. L. Whaley Tuesday. They will spend the winter here and will be accompanied by Mrs. M. A. Craig, who will teach the Kindergarten school this year.

Mrs. M. A. Craig and daughter of No. 100 were guests of Mr. and Mrs. J. L. Whaley Tuesday. They will spend the winter here and will be accompanied by Mrs. M. A. Craig, who will teach the Kindergarten school this year.

Mrs. M. A. Craig and daughter of No. 100 were guests of Mr. and Mrs. J. L. Whaley Tuesday. They will spend the winter here and will be accompanied by Mrs. M. A. Craig, who will teach the Kindergarten school this year.

Mrs. M. A. Craig and daughter of No. 100 were guests of Mr. and Mrs. J. L. Whaley Tuesday. They will spend the winter here and will be accompanied by Mrs. M. A. Craig, who will teach the Kindergarten school this year.

Mrs. M. A. Craig and daughter of No. 100 were guests of Mr. and Mrs. J. L. Whaley Tuesday. They will spend the winter here and will be accompanied by Mrs. M. A. Craig, who will teach the Kindergarten school this year.

KANSAS CITY STOCK MARKET

CHAS. M. PIPKIN, Market Correspondent
Kansas City Stock Yards.—Some of the better classes of cattle were 15 to 25 cents higher Monday and most classes sold more readily than last week. The general tone in the trade was improved. Receipts were below expectations, and the cooler weather may give pasturemen a chance to hold for a general rain. Hogs broke sharply, the largest loss being in the light weight classes that have been selling at a big premium over other weights. Sheep and lambs were quoted weak to 25 cents lower.

Monday's Receipts
Receipts Monday were 21,000 cattle, 8,500 hogs, and 10,000 sheep, compared with 28,000 cattle, 7,000 hogs, and 12,000 sheep a week ago, and 49,475 cattle, 5,865 hogs, and 17,150 sheep a year ago.

Beef Cattle
Trade in fat cattle Monday showed a better tone than late last week and in a few cases sales were considered higher. Receipts were materially less than expected, and with most trade activities closed for the Labor Day holiday the light runs were in keeping with the best interests of the market. Some prime 979 pound yearlings brought \$14.75. These are the first full fed steers offered in two weeks. Short fed steers sold at \$9 to \$12.50; wintered steers \$8.50 to \$9.75, and grass fat steers \$4.50 to \$8.50, mostly \$6 to \$7.50. Cows and heifers were quoted steady to 15 cents higher and in active demand. Cannery and cutters continued to sell readily. Most killing cows sold at \$3.75 to \$5; canners and cutters \$2.85 to \$3.50 and heifers \$4.50 to \$7. Veal calves were steady, top \$11.

Stockers and Feeders
Cooler weather, showers in some sections and more expected tended to stimulate the demand for stockers and feeders. Prices ruled stronger. A general rain would increase the demand materially.

Hogs
Hog prices were 15 to 35 cents lower. Light lights broke 25 to 35 cents, and medium and heavy weights were off 15 to 25 cents. At the decline the light weights still maintained a big premium over other weights, but the margin narrowed some. Choice light lights sold at \$12.50 to \$12.90; light weights \$12.35 to \$12.75; medium weights \$12 to \$12.40, and heavies \$11.50 to \$12.25. Packing hogs sold at \$10.25 to \$10.50 and stock hogs and pigs \$12 to \$12.75.

Sheep and Lambs
Sheep and lamb prices were quoted weak to 25 cents lower. At the decline trade was active and a good clearance was reported. Western lambs sold at \$15 to \$15.40; native lambs \$14 to \$14.50; feeding lambs \$14 to \$15. Few sheep were offered.

Horses and Mules
The fall movement of horses and mules is getting under way and demand is increasing in keeping with the supply. Prices were firm.

PROBABILITY OF MORE ORNAMENTAL LIGHTS

The Southwestern Public Utilities Company recently installed a white-way light standard on the north end of the business section in front of the dome park, in order that local citizens might see the advantages that might be had from such a type of street lighting.

This week the company sent three additional standards down from Amarillo to be installed at various points on Caylor streets, but as yet have not found satisfactory places to set them. The trees along Caylor street are in the way of the lights, preventing them from lighting up any appreciable amount of street and sidewalk. It is not known now whether the company will install these additional new lights or not, in view of the above objections.

All trees were recently moved from the business section at Panhandle when the paving was started, and the utility company is now installing eight light standards there.

Superintendent E. C. Campbell left Monday morning for Canyon to attend the teachers institute there this week, instead of at the teachers' camp at Fort Worth and are at the teachers' camp there.

F. H. Moody is in Canyon this week in the interests of the Texas Young Growers Association.

Drive carefully—you may meet a fool any time.

Mustapha Kemal Pasha and his wife have just been divorced—and still some people speak of Turkey as a backward country.

When an Iowa farmer complained that the pheasants were eating his corn, the game department killed two of the birds, examined their crops, and found 299 cutworms—and no corn. Almost without exception, when the scientists investigate such cases they find the same result. The farmer owes his crop to the feathered police that keep down the bugs, insects and worms. With continuing slaughter of every form of bird life, the insect loss will be heavier and farm work harder. The nation could train an army of riflemen in a comparatively short time, but it couldn't in a century restore the bird armies that are the farmers' allies in raising food to feed the country.

On a general showing of facts as they are leaking out in many cities, it doesn't look as if the street car was a back number. Questionnaires have been sent out in a number of cities like Philadelphia, Buffalo, Baltimore, Boston and Washington, showing that quite the contrary is the case. Statistics show that 99 per cent of the people who live in the larger cities use street cars regularly. Inquiries in 21 principal cities, over 25,000 busy people taking the trouble to report that 89 per cent of motor car users ride on the street cars regularly. In the large cities named, 75 per cent of the owners of high class automobiles used street cars on an average of 28 times a month.

Most of America's first railroads were financed by English capital. For well over a century after we had won our political independence, we remained financially dependent. But now the tables have turned. A recent news item announces that American engineers and American capital is back of the construction of \$160,000,000 freight subway system for the city of London. It is true to say that America has become the financial and business capital of the world. Not in spite of this, every city, every county, and every corner of the nation is filled with people who lack faith in the future of the nation. Every change they think is a change for the worse. Because business is bad this year, they imagine it will be bad next year, and the following year. Instead of plunging actively into their own business affairs they wait about conditions, and blame the times for their own failures. It was J. Pierpont Morgan who said that no one ever made money without faith in the future of America, and Morgan evidently knew something about the art of accumulating wealth.

Some of the most fertile land in the world is almost worthless, while the most fertile south of Chicago are being valued at fabulous figures. What is the reason? Population. People make land values. Land in the best west section of a good city runs into the thousands of dollars a front foot. Simply because it is accessible to a great number of people. Chain stores determine location by the number of people passing the corner. For people make business, and business makes land values. A farm located one mile from a good town is worth many dollars more per acre than a farm located ten miles from any center of population. Because the farmer near town has a short haul to market, can send his children to the best schools, and does not have to work long shopping trips. Property owners profit as the community grows ahead in direct proportion to the amount of business people keep at home. For this reason and many others equally as important, it is up to all of us to do our utmost for the upbuilding of our own town and community.

Among Our Exchanges

Spearman Reporter: By carrying out a program of intensive and diversified farming, the Panhandle can be made into the foremost agricultural region of the world, says R. Q. Lee, president of the West Texas Chamber of Commerce.

Sayre Journal: Carrying a goat on a flivver to insure a supply of fresh milk is an innovation of the tourist motorist. The one grave risk is that during the night the goat might eat the flivver.

Claude News: "Wellington has some of the worst streets of any town in the Panhandle," says the Wellington Leader. Editor Desklin Wells never drove a car around the court house square at Claude, for if he had he never would make that statement again. The main streets of Claude are worse on an automobile than any part of the C.G. Highway from Fort Worth to Denver, and should be leveled down and dragged at every opportune time.

Higgins News: A woman who lets her children roam about the streets until way past bedtime is sowing trouble for herself and her children. It is a pity to thus spoil the life of a perfectly good child by letting it form bad habits learned on the streets. Put the boys and girls to bed early and give them a fair start in life. Plenty of sleep insures good health and by being at home in bed away from temptation will give the children a chance to grow up with no bad habits to drag them down.

Panhandle Herald: Bell county, one of the drouth stricken counties down in the famous black land of the State, will need 1,500 carloads of feed to tide the farmers of that county over until they can reach the 1926 harvest season. Many other counties in that section of the State are similarly situated. As a result of the drouth many people will suffer severely in a financial way, but a way will be found to meet the necessary wants of the people and next year will find bountiful crops produced in all those sections where there have been such complete failures this year, and the people will soon have forgotten the effects of the 1925 drouth.

Randall County News: The individual who thinks he is bigger than the game he plays is riding to a sudden and decisive fall. Babe Ruth has considered for two years that he is bigger than baseball, and as a result of the kind of life he leads has suffered a severe setback in his playing this season, and now is expelled from his club for an indefinite period by the manager. Ruth considers that baseball should be remade to suit his whims. He will not play the game. Dempsey is another example who is suffering in the public eye. He is a champion who refuses to fight. Sooner or later Dempsey is going the Ruth route because he considers he as champion can do as he pleases. It pays to play the game according to the ethics of the game.

Wellington Leader: J. E. Leggett is different from some business men. He doesn't always buy where he can get the cheapest price, but his business has prospered exceedingly. While paying his bill on the first, he remarked that the representative of an out of town concern called on him for job writing. Mr. Leggett told him that "he was not interested, and that he had rather pay a premium and have his printing done at home than send it out of town. We said he could not see who would take care of the business people of a community if these people did not take care of each other. He did not mean this policy should be used to further the charging of exorbitant prices, but he believes in it, for he has found that local buying really makes him money in the long run."

STOP THAT ITCHING

If you suffer from any form of skin diseases such as Itch, Eczema, Tetter or Cracked Hands, Poison Oak, Ring Worm, Old Sores or Sores on Children. We will sell you a Jar of BLUE STAR REMEDY on a guarantee. It will not stain your clothing and has a pleasant odor.

him. He says individual service and quick work are worth paying for.

Clarendon News: Recently Armstrong County, to the west of us, through its commissioners' court, voted to suspend the home demonstration work. Mrs. Vaden, who has made such a wonderful record in that county, is therefore soon to leave Armstrong county for some other field of labor in her line, and the people of Armstrong and other Panhandle counties are much the loser. We don't know the condition of the finances of our neighboring county but we'll bet they are spending money that falls far short of the returns, dollar for dollar, as that expended for the home demonstrator work under Mrs. Vaden's direction. In last week's Claude News there was letter after letter from the farmers and farm women of that county deploring the loss of the agent and bearing open testimony to the value of Mrs. Vaden's labors among them. Donley county has never been the same since we lost our home demonstrator by the same route, and we deeply sympathize with the Armstrong county folk in their loss—for it is a loss.

William Allen White, editor of the Emporia, Kansas, Gazette, closes newspapers as public utilities. "A newspaper," he says, "is affected with a public interest as much as the street car, the telephone, the gas or electric plant and all other utilities."

"An editor is really a trustee entitled to his profits, if they are clean and decent, to the fullest extent that he may make them, but not entitled to make his profits at the community's loss."

"Unless he can give the public some valuable thing—information, guidance or entertainment—he has no right to his profits."

He concludes that "a newspaper is certainly a public utility."

The old notion that advertising increases the cost of merchandise has been pretty well exploded by this time, but there are still some people who believe the man who says: "That company puts the stuff in the goods and not in advertising." The real reason that advertising has grown by leaps and bounds in this country within the past few years is simply because manufacturers and progressive merchants have found it the cheapest known method of selling. One can reach a thousand people through the columns of a newspaper at the cost of reaching one by personal solicitation. Newspaper advertising is the cheapest known method of placing a message in a great number of homes. Direct mail advertising is effective in some things, but it is far more expensive. Personal salesmanship is of course extremely effective but it is tremendously expensive. Naturally the merchant or manufacturer who uses these expensive methods of selling, must put the cost into the price of his goods. For every business man is conducting his affairs so as to net him a substantial profit. All this, of course, is to say nothing of the matter of advertising and turnover. But that is a fit subject for another editorial.

This is the season of the year when a man decides his house needs more paint and his daughter less.

Jacob Factor got his training in a barber shop. For many years he shaved the faces, shampooed the heads, and cut the hair of young and old, male and female. He was an outstanding success at his work. It is said that the man who entered his place for a hair cut left with a shampoo, a tonic, a singe, and a bottle of hair restorer guaranteed to grow curls on a billiard ball. Naturally Jacob came to the conclusion at last that his great persuasive talent was not being put to its highest and best use; so he organized a land promotion company. This organization has not been in existence long, but the extent of its operations to date put to shame the achievements of Koretz, famous bank artist. With offices in Chicago, Factor's company has sold a few thousand dollars worth of Florida swamp land for nearly \$2,000,000. Patrons of such enterprises are still being born at the rate of one per minute.

Pacifists used to urge that all nations agree to wait a year after a controversy before starting war. During that time, they argued, both sides would cool down and there would then be no fight. Mr. Dempsey has evidently applied this theory to himself. He now says he will fight Willis in a year.

Some New Yorker might finally get elected president if he didn't think the United States was a suburb.

A good many girls, instead of being brought up to become useful and worthy women, are being trained for an alimony career.

It isn't so much that marriage makes men meek, but that the meek men are easily caught.

Daddy's Evening Fairy Tale

MARY GRAHAM BONNER

WISHING TO ESCAPE

When all the people have gone home the animals in the zoo talk to each other, sometimes they talk about the times they were free, sometimes they talk of what they like best about the zoo and about their own family ways—and sometimes they talk about the people who come to visit them, and laugh at the different ways people have.

"People say," remarked the Rocky Mountain Bear, "that we don't get any chance to do as we please when we're in the zoo. They say we aren't free. But I fooled them yesterday."

"You did, indeed," said Muff and Ruff in chorus. Muff and Ruff were two Russian bears who were neighbors of the Rocky Mountain Bear.

"And you gave me away," said the Rocky Mountain Bear. "But no matter, I had my little outing."

"I couldn't bear it when I saw you bend your wires and manage to escape," said Muff.

"And so we both growled as hard as we could," said Ruff.

"That was what made the keeper see what had happened," said the Rocky Mountain Bear. "He didn't know whether I was down in my cave or not."

"But we kept on growling," said Muff, "and he came back once more to see what had happened. My, we were envious."

"Oh yes, I had a fine walk and stroll around the park," said the Rocky Mountain Bear, "and when they came to catch me and bring me back they said that they were so frightened when they heard I had escaped."

"For they said my temper wasn't always as perfect as it might be, and so they were afraid! Ha, ha, growl, growl, I frightened them when I had my walk!"

"I didn't do any harm, but I did what I pleased. I walked where I wanted to walk. I enjoyed myself. I fooled them yesterday, all right."

"It took eight of the creatures they call men to bring me back again. That was something for a Rocky

"Oh," said Mr. Gray Fox, "I wish I had got out."

Mountain Bear to boast about—eight men to bring him home!

"And so, Muff and Ruff, though you were so envious you made my walk shorter yesterday by letting the keeper know something was up, or rather, out, still I had a fine, free time, and I fooled the keeper."

"You frightened them, too, you lucky bear," said Muff and Ruff.

"Oh," said Mr. Gray Fox. "I wish I had got out of the zoo. I'm going to try. I'm going to climb up the side of my cage, and I'll escape. I will."

"I don't believe you will," said Mr. Red Fox. "The keepers weren't on the lookout for the bear doing this, but they are on their guard about you. They know that a gray fox will try to get away by climbing and climbing over the top of anything he can, a tree, a fence, or anything."

"Now we would try to escape through one of the entrances to our home. We always have three entrances so we can get out of one doorway in our hole-home if we are attacked from one of the other two. You don't care about digging and burrowing—you would rather climb. You're not as clever as we are. You are not nearly so foxy."

"Oh," said Mr. Gray Fox. "I know that you are very clever and tricky and deserve that name, but I am worse than you are! There! As I said before, I don't care about anything. If I were free I would only think of myself. Here I only think of myself."

"I don't think of Mrs. Gray Fox or the little ones. I only think of myself. I hate the keeper. I hate my family."

"No, I'm the gray fox, the sly, treacherous gray fox. Just now I don't believe I will try to escape for I am sleepy."

"But if ever I do you can think of me as out in the great world, perhaps back from my own old home—being as cross and selfish as I was here in the zoo, and not feeling sorry about it in the least."

In and Out

A father took his son of four years to the incubator in the cellar to see the eggs hatch.

Said the son, "Impressively: 'Don't you know how the little chicks get out of the shell?'"

"Well," replied the youngster, "what you see is how they get in there."

The Progressive Grower.

WRITER MAKES OWN "DISCOVERIES" IN EVOLUTION THEORY

Santa Ana, Calif.—Thos. E. Pickering, widely known writer and humorist, made public recently his discoveries in the theory of evolution. That there can be no shadow of doubt man came from the lower animals is disclosed from researches this writer has made in the archives of the English and American languages and by excavation of innumerable idioms, similes, metaphors and other figures of speech. He says:

"Certainly man came from the animal. The facts are indisputable, irrefragable. Darwin didn't know half of it. Darrow is but a superficial thinker and Huxley's prognostications fade into insignificance when the facts are revealed. Take our language. It all points to animal life of the lower order. In the first place man is born by the stork; then he crawls and wiles and before long he is a regular little pig. He grows up like a weed.

"Later on in life he is a poor fish and a sucker, but often acquires horse sense. Road-hogs flourish and end-seat hogs obstruct, and the early bird gets the worm. People look sheepish, act callish, crawlfish, growl, snap and bite the hands that feed them. Women are butterflies and vampires; some husbands are insects. Both men and women are bull-headed, and some are snakes in the grass. Occasionally one meets a consummate ass. Wise old owls, sly old foxes and eagle eyes prey upon their fellow-men. Sometimes a dirty dog runs amuck. Kangaroo courts are common. Clodhoppers hop and jaywalkers walk. All of us get stung without a bee in sight, and the female is more deadly than the male.

"Aviators hop off and fly. Old maids get catfish, and maids that are not so old are kittenish. Men are sharks, old bears, wolves in sheep's clothing, and pull the wool over our eyes. Some folks are 100 per cent bull. We lionize heroes. Who is not acquainted with some old crab or silly goose? Men are lobsters, they shut up like clams and some crawl in their holes. Every county seat has its court house rats; every town has its chickens and old hens. The whole world is infested with parasites.

"We develop elephantitis, horse's neck and a whale of a lot of other things. We are land-lubbers, sea-dogs, turtle doves and otherwise fine birds such as lame ducks. We are dark horses, hunks of cheese, shrimps, and often wiggle out of things. We do the goose-step, the turkey trot, and the camel walk while we get a hump on ourselves. We have our bear cats, ham actors, and jack-leg lawyers. We sing like canaries, laugh like hyenas, shed crocodile-tears and hound and buffalo one another. We are stubborn as mules, slick as eels, but often have to pony up. We are big frogs in little ponds and little frogs in vice versa ponds. We make 'em pigeon-toed, walrus-toothed, pug-nosed, monkey-faced, chicken-hearted and cock-eyed; and all of us are more or less cuckoo. Finally we sing our swan song and croak; still the half has never yet been told. But it's all monkey-business and it gets our goat. Ain't science the snake's hips!"

Back seat drivers—darn them! Who of us hasn't, at one time or another, been driven nearly crazy by their supposedly helpful advice? And why is it that these pests, who, usually knowing nothing whatever about automobile operation, take it upon their shoulders to tell us what to do, or, the person who does know how to drive, insists upon directing or criticizing the way we handle our machines?

And now, reader, when you pass my little story along to friend wife my advice is to duck—because you're due for a bawlin' gout. (Me, too, if my better half reads it.) But here goes.

You are about to roll your bus across a street car line. A block away a trolley is approaching, but there is sufficient time for you to cross. But friend wife yells, "John, stop! A car is coming!"

And because you are a married man her "stop!" registers immediately upon your old sub-conscious mind before the conscious mind has a chance to analyze the situation. It is only because you are an old timer at the driving game that a serious accident is averted.

With all courtesy due the wife, we realize that she didn't intend to place you or herself in danger, but merely neglected to take into account the fact that a car traveling 20 miles an hour requires 30 feet to come to a stop.

And, twisting the tale about to the male of the species, what wives could say about their funny husbands would be plenty. In many cases the husbands have taught the wives to drive, hence their oft repeated—"watch yourself!"

So—to husbands and wives, and all other back seat drivers—keep still or get out!

Stick together and fight this deadly disease, or sooner or later we will be doing our own back seat driving under the influence of ether.

And to those of you who don't drive or understand the workings of a gas wagon, bear in mind that a driver knows his car, that distance is judged differently from the driver's seat; that confidence in the driver and a little individual self control will give you and the other occupants of the car an enjoyable ride.

Ignore this philosophy and sooner or later you will be told to—keep still or get out!—Ex.

BIG NEWSPAPERS USE TELEPHONE OFTEN

The important played by the telephone in getting out a large city newspaper is shown in one case where an average of 22,506 telephone calls is made for one day's issue of the paper, says the Texas Public Service Information Bureau.

Not only is the telephone of the greatest value to editorial workers, the reporters and the city desk, where it is a vital time-saving factor, but it is equally important to the advertising department. On a recent Friday and Saturday one big newspaper received as many as 2,963 want ads entirely by telephone. To handle the immense amount of telephone traffic which this single newspaper requires, a special machine switching system was installed this year.

Today, in all the important cities, there is a corps of newspaper reporters who never, or hardly ever, write a single line of copy. Their duty is to secure the news and get it to the newspapers. They telephone the facts to the city desk, which assigns a writer—usually known as a "re-write man"—who jots down the facts and prepares his "story" in his own way, but the man in the field is no less a news writer than is the man at the desk who takes the points as they are telephoned, and weaves them into newspaper copy.

The problem facing the Democratic leaders is to make two Democrats vote where but one has voted heretofore.

One objection to the expression, "used out," is that the adjective is so darned inadequate.

BACK SEAT DRIVERS SHOULD BE MADE TO KEEP STILL OR GET OUT

Back seat drivers—darn them! Who of us hasn't, at one time or another, been driven nearly crazy by their supposedly helpful advice? And why is it that these pests, who, usually knowing nothing whatever about automobile operation, take it upon their shoulders to tell us what to do, or, the person who does know how to drive, insists upon directing or criticizing the way we handle our machines?

And now, reader, when you pass my little story along to friend wife my advice is to duck—because you're due for a bawlin' gout. (Me, too, if my better half reads it.) But here goes.

You are about to roll your bus across a street car line. A block away a trolley is approaching, but there is sufficient time for you to cross. But friend wife yells, "John, stop! A car is coming!"

And because you are a married man her "stop!" registers immediately upon your old sub-conscious mind before the conscious mind has a chance to analyze the situation. It is only because you are an old timer at the driving game that a serious accident is averted.

With all courtesy due the wife, we realize that she didn't intend to place you or herself in danger, but merely neglected to take into account the fact that a car traveling 20 miles an hour requires 30 feet to come to a stop.

And, twisting the tale about to the male of the species, what wives could say about their funny husbands would be plenty. In many cases the husbands have taught the wives to drive, hence their oft repeated—"watch yourself!"

So—to husbands and wives, and all other back seat drivers—keep still or get out!

Stick together and fight this deadly disease, or sooner or later we will be doing our own back seat driving under the influence of ether.

And to those of you who don't drive or understand the workings of a gas wagon, bear in mind that a driver knows his car, that distance is judged differently from the driver's seat; that confidence in the driver and a little individual self control will give you and the other occupants of the car an enjoyable ride.

Ignore this philosophy and sooner or later you will be told to—keep still or get out!—Ex.

70 PER CENT OF PRICE GOES FOR DISTRIBUTION

More than 70 per cent of the price paid by consumers in Boston for Connecticut Valley onions in the season 1920-21 was absorbed in handling costs between the producer and consumer, and less than 30 per cent went to the grower. Retailers' margins absorbed 54 per cent of the price to the consumer and wholesale and jobbing margins 3 per cent. County dealers' margins accounted for 8 per cent.

These figures are cited by the Department of Agriculture in a discussion of distributing costs in the onion business. It is also noted that distributing agencies do not always make a profit. In 1922 the margins of country dealers handling Texas Bermuda onions averaged zero. These distributors not only failed to make any money out of the crop but lost their expenses. In other recent years, however, the margins of country dealers handling Texas Bermudas have ranged from 10 per cent to more than 20 per cent.

Many factors tend to widen the spread between the producer prices and the retail price of onions. Country dealers who assemble and ship onions, wholesalers who receive and sell onions in carlots, jobbers who supply the retail trade and other distributing agencies have to be reimbursed for expenses incurred. They also expect to make a profit. Necessary charges include grading, packing, transportation, storage, labor, display space, and commercial risk. When dealers take a loss on one consignment they endeavor to recover it by extra profits on others.

These cost factors together with others vary in importance according to season and crop, business conditions, and numerous other influences, all of which must be considered before the amount charged by any distribution agency can be judged fair and adequate.

Some of the men who howled loud-out of individual drinking cups in times past are now ready to take a "short" out of any old fruit jar.

The Philippine Islands have again doubled their debt. They will soon be qualified for high finance if this sort of thing keeps up.

A New York newspaper describes Great Britain as "a pioneer in the funding of war debts," a pioneer being an early settler.

DOINGS IN WEST TEXAS

Furnished by W. T. C. of C.

Cisco.—R. Q. Lee, president of the West Texas Chamber of Commerce, has just returned from the second tour of the Plains country. Mr. Lee was received with much courtesies at all points and the business men and farmers were well pleased with his diversified talks.

Pecos.—Recent rains in the Pecos river section has made the grazing range of the Southwestern part of Texas one of the most attractive in years and the only regret is that there is not at this time sufficient livestock here to take care of the splendid crop of luxurious grass that is covering all the mountains and valleys as well as all water holes and tanks, are overflowing with water. Cotton prospects are far above the average.

Brownwood.—This city will be able to truthfully boast of the most attractive as well as modern tourist camp. The landscape gardener will lay out the grounds and new camp houses will be given special attention during the fall and winter.

Childress.—A farmer near here has reported that his cotton has matured and is opening in 31 days. This is a good record for any section of the country.

Haskell.—Dirt was broken for the new hotel here recently and it is hoped that the structure will be complete by Jan. 1. The hotel will be very modern and the foundation will be sufficient for the third floor when the demand is sufficient to require the addition.

Stamford.—Porter A. Whaley, manager of the West Texas Chamber of Commerce attended the Southern New Mexico Association at Ruidoso. He reports a fine meeting and states that many things of importance were discussed concerning both Texas and New Mexico.

VAST FORESTS IN NEW MEXICO

According to statements made by J. D. Jones of New Mexico at the meeting of the Southern New Mexico Association held at Eagle Creek Lodge Aug. 27-29, New Mexico has one-fifth her acreage covered with fine forests and around Cloudcroft as much as 50,000 feet of lumber can easily be cut per acre; more than 100,000 horses and cattle graze in the national forests and 250,000 sheep roam over these forests lands. The revenues derived from the grazing under the National Forest Control amounts to hundreds of thousands of dollars and about one-fourth of this applicable to building National Forest roads.

Many young doctors are now completing their study of anatomy at the bathing beaches.

From 8:30 P. M. To 12:00 Midnight

Lower Rates Are Charged

Lower rates are charged for Station-to-Station calls when placed between the hours of 8:30 P. M. and 12 Midnight. The rate during that time is about one-half the Station-to-Station day rate, and is known as the Evening Rate.

This class of service is very popular for social calls. The charges cannot be reversed, however, on Station-to-Station calls. Neither is the evening rate effective when the day rate is 25c or less. On such short haul messages, the day rate applies.

—AN ADVERTISING MEDIUM OF MERIT—

THE PASSING DAY

By WILL H. MAYES
Department of Journalism, University of Texas

Successful County Fair
I didn't go to the county fair at Fredericksburg, but I liked the newspaper reports of it and want to pass something from those reports on to the many other counties that are going to have fairs this fall. The characteristic feature of the fair was the friendly feeling shown all the visitors by the people of Fredericksburg and Gillespie county. There was not only an atmosphere of good will among the home folks, but it was extended to all visitors from out of the county. They were made to feel that they were the guests of the county people and not that they were there just to be separated from as much money as possible. Somehow when one enters most fair gates he instinctively feels that he has to guard against being fleeced in a small way. People at the Fredericksburg fair felt that they were with friends that were genuinely glad to have them see what the town and county could do in the way of a fair.

Valuable Farm Lesson
This has been an unusually dry year in Gillespie County, it being in the Texas drought area of the year. At least one farmer over there showed how to defeat a drought. Ben Hagel and his family displayed 250 different kinds of home-grown farm products, and said that if the season had been favorable he could have shown 350. He showed that even in the driest of years a farmer who works hard and exercises good farming sense in caring for what he makes can live on the luxuries of the land without having to go in debt. He has his living safely housed and is not worrying about hard times.

He would not be so comfortable, however, if he had grown only cotton or corn, or any other single crop. A movement to Ben-Hagelize Texas should be started by some philanthropist.

Teacher With a Hobby
Alfred Nefendorf is a Fredericksburg school teacher with a hobby. It isn't golf or tennis or fishing. It is canning. He has an idea that a teacher should try to help the people to live now as well as to teach children how to live after awhile, so he started a small cannery four years ago. He op-

erates the cannery in the summer and fall months and will can anything that Ben Hagel or any other farmer grows. He will can their products himself for a specified sum, or for part of the products, or will show the people how to do it and let them can their own produce. He has doubled the business every year and hasn't been fired yet by the school board for doing something useful when not teaching. Nefendorf is doing something of which Fredericksburg should be proud and the town should give him a public dinner or do something to show that it appreciates him and his work.

San Saba to Profit From Drouth
It is said that there is full compensation to be found for every adversity if only we will seek it eagerly enough. San Saba, with a great abundance of water going to waste, is suffering from drouth. The people have organized to dam the water and to irrigate the fertile valleys. If their ardor is not dampened by the next good rain, the drouth will prove a great blessing to them. The productiveness of the soil of San Saba county is marvelous when plenty of water is provided, but as in most other parts of Texas, the rains are seldom seasonable, even though plenty may fall during a year. Almost every stream in Texas has numerous places where its waters may be impounded without extraordinary cost in comparison with the returns, and we know that we can not depend on rains to make maximum crops even in the most favorable years, but most places are too shortsighted to vote bonds for irrigation.

Following the Lead of Others
If San Saba's irrigation project is carried through to completion, it will not be a year before neighboring counties will follow its example. Most people are ready enough to follow the lead of others, but few are progressive enough to initiate movements or to favor them where they have no personal knowledge of their operation. This is true as to all kinds of improvements, and applies everywhere. Having seen the great irrigation construction at Wichita Falls, people of Amarillo and surrounding country are now holding meetings to plan even a greater irrigation movement.

GREATEST SHOW ON EARTH AT AMARILLO

Rumer Now Confirmed. Biggest Circus, Ringling Bros. and Barnum & Bailey Headed This Way

Bringing more than 800 of the world's premier men and women stars, 350 performing horses and many big, new foreign features, the Ringling Brothers and Barnum & Bailey circus is to give performances at Amarillo Sept. 25.

Here is a partial list of its wonders: One hundred railroad cars. Five rings in place of the three heretofore used. Six arena stages. One hundred and fifty trained horses presented at one time in a magnificent "Equine Ballet." High-wire acts introducing no less than nine of the world's most famous dancing, somersaulting and bounding-wire artists in a single display. Five herds of trained elephants. A troupe of leaping and long-distance jumping horses, and many other imposing acts and features.

Among the host of noted performers are the Australian Colleano, the Spanish wizard, Mijares, Maximo, Naldia Miller and Berta Beeson who head the congress of high-wire artists. May Wirth, the George Hannaford troupe, "Phil, the marvel," the Ernest and the Rieffenach sisters are among the 70 bare-back riding champions. Lillian Leitzel, Mlle. Fillis, the Clarkton-Nelson troupe, the Siegrist-Silbons and the Rooneys lead the aerial displays.

Entire families of famous gymnasts are being presented. These include the Colleano family of 11 remarkable athletes, the Nelson family, world's greatest acrobats and tumblers, the Picchianis troupe who have come from Italy to astound with their gymnastic feats, the Medinis who perform upon ladders as high as the tent-top, the Junetro troupe, acrobats who wear tall stilts, and a host of others.

The addition of two more circus rings has been effected by setting circular curbs on two of the elevated stages. This makes it possible for Ringling Brothers to present for the first time in history, five separate companies of performing horses at one time.

Georgious pageants, 100 clowns and a menagerie of over 1,000 rare animals are a part of what is the biggest and most amazing circus ever on tour in America.

ELEVEN STATES ESTABLISH TUBERCULOSIS-FREE COUNTIES

During the period Jan. 1 to June 30, 1925, eleven States either established their first county-wide area-free-of-bovine tuberculosis or increased the number of such areas previously established. This noteworthy progress in a six months' period is shown in a report just issued by the Bureau of Animal Industry, United States Department of Agriculture.

The States which established one or more areas, recognized by the department as free from the disease, were as follows: States establishing their first tuberculosis-free areas were California, Minnesota, Nebraska, Oregon, and Utah. States increasing the number already recognized as free were Indiana, Iowa, Kansas, Michigan, North Carolina, North Dakota and Pennsylvania.

During the six months' period North Carolina made the greatest progress of any State with respect to modified accredited areas, increasing the number so designated from 25 to 37. Records of the Bureau of Animal Industry, however, show that a great many states have completed preliminary tests in many counties, with the view of having them admitted to the tuberculosis-free list as soon as infection has been reduced to within the permitted maximum of one-half of 1 per cent.

Health and Home

CAMPING AND PROBLEM OF FOOD

There is no healthier sport than camping. During the warm and balmy spring and summer days, it is real recreation. To get out in the fresh air and sunshine, free from worry and care, enhances the health of anyone, be he office man, salesman or what not.

But due to the entirely inadequate means of food preservation and refrigeration found in the majority of camps, there is the ever-present danger of sickness from infected foods. The utmost care must be taken in order that this may be avoided. Butter and eggs should be bought only as used. The milk is a problem in itself. Perhaps the solution lies in the use of a milk other than market milk, in order that purity and sterility may be assured. For such use, evaporated milk is ideal. Many people are wont to confuse evaporated and condensed milk but there is no similarity between the two. Condensed milk is a combination of sugar and milk and can be used only when both of these substances are desired. Evaporated milk is merely pure, fresh milk with about sixty per cent of the water removed and the nutrient content left intact. It is absolutely sterile and pure, having been sterilized before leaving the factory. The water, removed by evaporation, may be replaced very easily and the milk returned to its original volume. Evaporated milk may be obtained in small cans, containing six ounces or in larger ones containing sixteen and can be taken to the camp in quantities sufficient for the needs of the entire period, thus assuring a constant supply of pure, fresh milk without the worry or the danger attached to the use of the market product.

Following are recipes for a few dishes that are best adapted for camp consumption because of ease of preparation, purity and food value.

Tomato Soup.
1 pint tomato pulp 1 1/2 cups water
or canned tomato soup salt and pepper to taste
1 1/2 cups evaporated milk 1/2 tsp. soda
Bring tomato pulp or soup to the boil, add the seasonings and soda. Heat the milk and water and combine slowly with the tomato mixture.

Stirred Eggs.
1/2 cup evaporated milk 1/2 tsp. paprika
1/2 cup water 5 eggs
1/2 tsp. pepper 2 tbsp. fat
1/2 cup grated cheese
Beat the eggs, add the milk, water and seasonings. Melt the fat in a frying pan. Add the egg mixture and stir until the mixture is creamy. When almost done, sprinkle with grated cheese. Serve on slices of bread, toast or crackers.

Ten Santa Fe Years

How the Santa Fe has grown in ten years and what that growth means to Santa Fe patrons. Better service at reasonable rates, due to efficiency of operation and millions spent for improvements.

That Santa Fe freight moves promptly, that Santa Fe journeys are enjoyable—doesn't just happen.

Wise economies, 284 million dollars spent between 1914 and 1924 on track and equipment, and the co-operation of patrons and employes—these have helped to build up a great transportation machine which is at your instant service for a most reasonable charge. And this in the face of heavy increase in costs of operation without corresponding increase in rates.

In these ten years the Santa Fe and the Southwest have grown together. The Santa Fe's growth has been not only in mileage and facilities, but also in ability to serve patrons better.

This decade has been a period of expansion. In it the Santa Fe's operated mileage has increased 922 miles. Each locomotive now hauls 54 per cent more. Nearly 14,000 more Santa Fe freight cars are available. There has been an increase of 15 per cent in passengers carried one mile and 79 per cent in revenue tons carried one mile.

Other important items have grown, too. Such as expense of maintenance of the railroad, which increased 121 per cent, or \$1,700 a mile. Maintenance of locomotives showed an upward trend of 137 per cent, or \$6,141 each. Passenger cars 85 per cent, or \$999 a car. Freight cars 155 per cent, or \$161 per car. All operating expenses combined jumped 114 per cent. Taxes advanced for each mile of track 196 per cent, or \$993. Total taxes in 1924 were \$17,730,961 or \$1,499 per mile.

Yet Santa Fe freight rates have gone up only 28 per cent and passenger fares only 47 per cent.

Freight loading carried by each car has increased 3.12 tons, or 14 per cent. Freight loading carried by each freight train has increased 226 tons, or 54 per cent. These are gratifying marks of progress.

The Santa Fe hopes to keep on growing and to keep on giving satisfactory service.

W. B. STOREY, President
The Atchafalaya, Tule and Santa Fe Railway Systems

FUNNYGRAMS

Not Where He Thought
"Where am I?" the invalid exclaimed, waking from the long delirium of fever and feeling the comfort that loving hands had supplied. "Where am I—in heaven?"
"No, dear," cooed his wife; "I am still with you."

Husband's Luck
"Oh, why did I ever marry you? Five times you proposed and then I weakened."
"You mean then my luck gave out!"—Judge.

Wife's Barbs
"Alas! alas! Our child has torn up my last poem."
"Gracious! I didn't know that the child could read."—American Legion Weekly.

His Apology
A preacher who had prepared his sermon very carefully, and had typewritten it on many pages, arrived at the church and discovered that he had left his notes at home. He began his sermon like this: "As I have forgotten my notes for my sermon this morning, I will rely on the Lord for guidance. Tonight I will come better prepared."

In a Rising Market
"Yes," said the old man to his visitor. "I am proud of my girls and would like to see them comfortably married, and as I have made a little money they will not go penniless to their husbands. There's Mary, 25 years old, and a really good girl. I shall give her \$1,000 when she marries. Then comes Betty, who won't be 25 again. I shall give her \$3,000, and the man who takes Ellen, who is 40, will have \$5,000 with her."
The young man reflected a moment and then asked: "You haven't one about fifty have you?"

Couldn't Be Weighed
Mr. Newbyred: Good gracious, dear, what a lung job! It is surely too big for just two.
Mrs. Newbyred: I am sorry, Cecil, but I couldn't get any shorter clothes anywhere.

She Was Weakly
"My wife is one in a million. She gets up in the mornin', milks seven cows, and gets breakfast for ten hard-workin' hungry men before 6 o'clock."
"She must be a very robust woman."
"That's the funny part of it. She is sickly and delicate-like. If that woman was only strong I don't know the work she couldn't do."

Beat No Job at All
A weary looking fellow who had tried everywhere looking for work happened to see a huge police advertisement, headed: "Murderer wanted!"
"Well, he said, scratching his head, "it's better'n nothing, anyhow. I'm going in and ask for the job!"

Wadn't Forgotten
"Have you forgotten that \$5 you owe me?"
"By no means. Didn't you see me try to dodge into that doorway?"—Boston Transcript.

Efficiency Plus
Deciding to put more efficiency into the operation of his railroad, the president of a southern railroad delved into the records of the various employes and discovered that in a small division there was a man who had been with the company for over 20 years and who had never missed a day at work.

Getting in his special car, he went down to the town and found the employe, who was a negro.

"Is it true," asked the president, "that you have been employed by this company for 20 years and haven't missed a day's work?"
"Yas, sah," replied the negro. "An' I ain't been late for work either all during that time."

"That's just fine," replied the president, "and what do you do?"

"Well," said the negro, "every time train comes in, I takes a little ham—or and goes around and hits all de wheels on de train. I don't miss a wheel."

"That's certainly fine," said the president. "Why do you do that?"
"Danged if I know," replied the negro.

- Address—B. Q. Green, principal.
- Business meeting
- Social hour

HONORING BIRTHDAY

Mrs. H. L. Ledrick honored the 78th birthday of her mother, Mrs. Marion Walstad last Friday at the Ledrick home, by delightfully entertaining a number of Mrs. Walstad's friends. After a pleasant afternoon the guests repaired to the dining-room, where the table was beautifully decorated.

In the center was a large birthday cake adorned with 78 candles. Bouquets of nasturtiums were given as favors, and delicious ice cream and cake served by the granddaughters, Misses Cassie and Vera Ledrick. The honoree received many nice birthday gifts. Those invited included Mesdames I. N. White, J. B. George, J. S. Wynne, C. L. Mullen, Henry, J. N. Duncan, H. J. Lippold, Lard, Garretson, Todd, G. C. Walstad, J. C. Ledrick and Mrs. J. D. Lard, the latter of Miami.

Mrs. James Todd, Jr., composed the following poem in recognition of Mrs. Walstad's birthday:

Across the Northern Sea, far away,
In the village of Dramen, Norway,
In the good year 1847
There came a baby girl, it seemed
From heaven.

In the Anderson home she came to stay,
With brothers and sisters, there to play.
They wondered what her name should be;
At last they called her Marion, you see.

She grew, but while yet a girl,
About her, boys were in a whirl;
Among them young Walstad came
And asked she help him on to fame.

Miss Marion then his name did wear,
And with him did life's burdens share.
They came to this free man's land,
To rear their cherished band.
In the passing of the years
Have come both joy and tears,
And so today the joy we share
Akin to that from Heaven fair.

As the long years you go through,
Joy, peace and happiness be with you.
May God be ever by your side
On this, your happy birthday tide.

PICNIC FOR CLASS
The Sunday school class of Mrs. B. J. Osborn went to Lettors Tuesday evening where a picnic supper was enjoyed. The occasion was honor of Mr. and Mrs. A. B. Tanner, who will leave soon for Amarillo. A pleasant time was reported by those present.

FORTY-TWO PARTY
Mrs. V. E. Fatheree was hostess Thursday night of last week with a forty-two party honoring the young ladies of this city who will teach school this year. The rooms were decorated with fragrant flowers, and punch was served throughout the evening. At a late hour delicious refreshments of ice cream and cake were served. Those enjoying the occasion were: Misses Eunice and Alma

Barnard, Wilma Chapman, Flora Williams, Wilma Behrends, Annie Laurie Sawyer, Mabel Davis and Margaret Schmidt, and Mesdames J. E. Chapman and T. H. Barnard.

HONORED BIRTHDAY

Mrs. W. Purviance honored the sixth birthday of her little daughter, number of the latter's small friends. The time was spent playing various games. The color scheme of blue and white was effectively carried out, and favors containing prizes were given each little guest, as well as small baskets filled with candy and nuts. Janice received a number of birthday gifts. Delicious refreshments of ice cream and cake were served the following: Charlotte Ray Malone, Elizabeth Mullinax, Jeanne Murfee, Flora Dean Finley, Mary Belle Crawford, Harriet Hunkapillar, Odessa Winkler, Lucille and Jeanette Cole and Phyllis Smith.

BAPTIST CIRCLES

Circles Nos. 1 and 4 of the Baptist church will hold an all-day meeting Friday at the church, when the hours will be spent quilting.

Circles Nos. 1 and 4 of the Baptist church met Wednesday afternoon at the home of Mrs. Ed Cobb. Devotional was led by Mrs. W. B. Henry and mission study lesson, "In Royal Service," conducted by Mrs. T. B. Solomon. A business session was also held with the chairman, Mrs. Cass Phillips, presiding. Cream and cake were served the eight members present.

Circles 2 and 3 met with Mrs. Harvey Haynes, the devotional was led by Mrs. J. H. Ayres, and the mission study conducted by Mrs. S. L. Anderson. Mrs. John McKamy presided at the business session. Ten members, 12 visitors and eight children were present. Next Wednesday all the circles will meet at the church for the general monthly meeting.

CHRISTIAN MISSIONARY

The Womans Missionary Society of the Christian church met with Mrs. V. E. Fatheree Sept. 2. In the absence of the president, Mrs. H. L. Ledrick, and vice president, Mrs. DeLea Vicars, Mrs. James Todd presided at the business session. Mrs. J. F. Meers was leader of the lesson, "Spanish Speaking People in the United States." Devotional theme: "Birds."

The song, "I'll Go Where You Want Me to Go," was followed by prayer by Mrs. Chas. Tignor.

Talk, "Spanish Speaking People in the United States"—Mrs. Todd.
A true story, "Two Little Girls and a Sunday School"—Mrs. Fatheree.
Hidden answers by all.
Prayer—Mrs. Todd.
The hostess served delicious refreshments to the twelve members and three visitors present.

EL PROGRESSO CLUB

El Progreso Club held its first meeting of the fall season with Mrs. C. P. Buckler as hostess, on Tuesday, Sept. 8. The only program for the day was vacation reminiscences by the various members. In response to a call, these proved to be both entertaining and to cover a surprisingly varied range of activities. After the all-out president, Mrs. V. E. Fatheree, gave a most entertaining

and worthwhile talk on the subject of the duties, responsibilities and possibilities of the modern club woman in restoring something of the old ideals of home life to the modern home. She emphasized her own remarks by reading some very interesting excerpts along this line from the addresses of Mrs. Sherman, president of the National Federation of Clubs, and of Mrs. Redmond, president of the Texas Federated Clubs. Following the program the hostess served delicious refreshments to the following members: Mesdames Cook, Fatheree, Faulkner, Hobart, P. C. and H. L. Ledrick, McMurtry, Pope, Thompson and Walstad.

MISSIONARY SOCIETY

Several ladies of the Methodist church met at the home of Mrs. B. J. Osborn Wednesday afternoon and spent the time quilting. When the work was finished ice cream and cake were served. Next Wednesday the Missionary Society will meet at the church for Voice program, when a good attendance is desired.

BIRTHDAY PARTY

Little Miss Alma Watson celebrated her eighth birthday Wednesday afternoon by entertaining a number of her small friends. Games of various kinds were indulged in and later a delicious ice cream and cake were served the following: Leah and Edith Lane, Madge Tieman, Odessa Winkler, Katharine and Ruth Sullins, Wayne Winkler and Phyllis Smith. Alma received a number of nice birthday gifts.

LEAGUE PICNIC

The Intermediate League of the Methodist church entertained the B. Y. P. U. of the Baptist church Thursday evening of last week, with a picnic. The young people met at the Walstad home and went in a body to Mrs. Greene's pasture, where games of various kinds were enjoyed and later a picnic lunch consisting of fried chicken, watermelon and other delectables, was served. Several out of town guests were present, about forty young people in all enjoying the occasion.

CELEBRATION CALLED OFF

On account of the lack of co-operation and interest shown by the Historical Society and the general public, the Canadian Chamber of Commerce has decided that it is best for all concerned, to call off the celebration which was planned for Sept. 12. Canadian Chamber of Commerce, W. A. Miller, Secretary.

Mrs. R. C. Campbell and daughters arrived Saturday from Crowell.

CITATION BY PUBLICATION

The State of Texas.
To the Sheriff or any Constable of Gray County—Greeting:

You are hereby commanded, that you summon, by making publication of this citation in some newspaper published in the County of Gray if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County to Gray County, for four consecutive weeks previous to the return day hereof, J. P. Balley, whose residence is unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be held in the County of Gray, at the court house thereof, in Lefors, Texas, on the 28th day of September, A. D. 1925, then and there to answer a petition filed in said court, on the 24th day of August, A. D. 1925, in a suit numbered on the docket of said court No. 1282, wherein Clyde B. Adams, is plaintiff and J. P. Balley is defendant.

The nature of the plaintiff's demand being as follows to-wit: Plaintiff Clyde B. Adams who resides in Hemphill County, Texas, complaining of J. P. Balley, whose residence, if alive, is unknown, and if dead, then the unknown heirs of said J. P. Balley, whose residences are unknown, hereinafter styled defendants, for cause of action plaintiff respectfully represents to the court as follows: That on or about the 15th day of August, 1925, plaintiff was lawfully seized and possessed of the following described land and premises, situated in Gray County, Texas, all of lots No. 6, in block 33, in the original town of Pampa, in Gray County, Texas, as same appears from the recorded map and plat thereof on file and of record in office of County Clerk of said county. That on the day and year last aforesaid defendants entered upon said premises and ejected plaintiff therefrom, and unlawfully withholds from him the possession thereof to his damage of \$2,500.00. Plaintiff claims title to said land and premises by warranty deed executed by said J. P. Balley conveying said land to John Skaggs, which said warranty deed is lost and was not placed of record in Gray County, Texas; and by warranty deed from John Skaggs and wife conveying said land to J. A. Fry by deed dated Sept. 15, 1910, recorded in Vol. 15, page 127, deed records of Gray County; and by warranty deed from said J. A. Fry and wife conveying said land to A. K. Brown, by deed dated May 20, 1916, recorded in Vol. 19, page 164-165 deed records Gray County; and by warranty deed from said A. K. Brown and wife conveying said land to G. C. Tabor by deed dated March 6, 1918, recorded in Vol. 20, page 30-31 deed record Gray County; and by warranty deed from G. C. Tabor conveying said land to J. W. Woodworth by deed dated August 8, 1922, recorded in Vol. 27, page 491, deed records Gray County; and by warranty deed from said J. W. Woodworth and wife conveying said land to Clyde B. Adams by deed dated April 16, 1925, recorded in Vol. 28, page 25, deed records Gray County.

Wherefore plaintiff prays judgment of the court that defendant be cited by publication to appear and answer this petition and that plaintiff have judgment for the title and possession of said above described land and premises, and that writ of restitution issue, and for his rents, damages and costs of suit, and such other and further relief, special and general, in law and in equity that he may be justly entitled to.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in Lefors, Texas, this, the 26th day of August, A. D. 1925. 21-4t

You are hereby commanded, that you summon by making publication of this citation in some newspaper published in the County of Gray, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, once in each week for four consecutive weeks previous to the return day hereof, C. C. Slavin, who resides in the State of New Mexico, to be and appear before the Honorable District Court, at the next regular term thereof, to be held in the County of Gray on the 28th day of September, 1925, at the court house thereof in Lefors, Texas, then and there to answer a petition filed in said court, on the 26th day of August, A. D. 1925, in a suit numbered on the docket of said Court No. 1281, wherein Vera Lee Slavin is plaintiff and C. C. Slavin is defendant.

The nature of the plaintiff's demand being as follows, to-wit: A suit for divorce on the ground of three years abandonment and cruel treatment on the part of defendant, rendering the further living together of plaintiff and defendant as husband and wife insupportable, and for the care, custody and education of plaintiff's children by said marriage, to-wit: Clyde Charles Slavin, Jr., and Ryan Patrick Slavin.

Herein fail not, and have you before said court, on the said first day of the next term thereof, this writ with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in Lefors, Texas, this, the 26th day of August, A. D. 1925. 21-4t
(SEAL) CHARLIE THUT,
Clerk District Court, Gray County, Texas.

Half of greatness is grit. When intelligence is backed up by the determination not to back down, the only thing under the sun that is impossible is something that can't be imagined.—Herbert Kaufman.

Why Bake Cake

—when you can buy as good a Cake made from pure, wholesome ingredients and light as a feather for less money than you can bake it, to say nothing of the work you save—so

WHY BAKE CAKE? PAMPA BAKERY

FRED SCHAFFNER, Prop. PAMPA, TEXAS

Six Reasons Why

- you should own a Willard
- 1—It has more power to start a stiff engine;
- 2—It requires less recharging;
- 3—It suffers less from over-heating in summer;
- 4—It saves you a \$50 or \$100 bill for re-charge;
- 5—It lasts much longer;
- 6—It gives more all-around satisfaction.

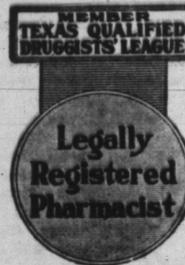

8 HOUR SERVICE
Keep your battery charged. Better lights, quicker starting, more power, better mileage; come from using our 8 hour charging service. Results guaranteed.
