

President Signs Revised OPA Bill, With Reluctance

WASHINGTON, July 25 (AP)—President Truman "reluctantly" signed into law today the OPA revival bill. He announced also at a news conference he would make public its three-member price decontrol board shortly.

Except for rents many of the agency's wartime powers will be curbed or removed.

But on Capitol Hill, virtually no one expressed any real doubt that the president will sign the extended bill which the senate passed a few minutes after midnight, 53 to 26, and sent to the White House.

The house previously had approved the measure, 210 to 142.

When signed by Mr. Truman, the bill automatically will re-establish rent and many of the price ceilings which lapsed July 1. OPA's plans are to follow quickly with a number of temporary adjustments on prices, pending calculation of new and higher ceilings required under the measure.

College Student To Stand Trial For Murders

True Bills Returned In Degnan Case, Ex-Wave Slaying

CHICAGO, July 25 (AP)—True bills charging William Heirens, 17, University of Chicago student, with murdering Suzanne Degnan, 6, and a former Wave, Frances Brown, 33, were reported today by the Cook county (Chicago) grand jury.

Suzanne, daughter of James Degnan, a former OPA official, was taken from her north side home early Jan. 7, slain and her body dismembered in the laundry room of an apartment building nearby. The body was recovered from five sewer openings in the surrounding area.

Miss Brown was found slain in her hotel apartment Dec. 10, 1945, some three weeks before the Degnan killing. She had been shot and stabbed repeatedly by an assassin who left this vivid message scrawled on the living room wall:

"For heavens sake, catch me before I kill more. I cannot control myself."

Arkansas, Saratoga, Seven Ships Sunk In Underwater Atomic Blast

Tons Of Water Shoot Upward; Battleship Disappears In Ocean

SUBMARINE ATOMIC BOMB CHURNS WATER—A water column a half mile wide shoots up nearly a mile above Bikini Lagoon as a submarine atomic bomb explodes. Photo was made from the USS Mt. McKinley 11 miles away. The circular disc (top) was not exploded. Photo radioed by the Navy to San Francisco. (AP Wirephoto).

ABOARD USS APPALACHIAN, Bikini Lagoon, July 25 (AP)—The first underwater atomic bomb, exploding with an awesome roar that thundered upward into a beautiful cloudy geyser, destroyed the battleship Arkansas and sank the old aircraft carrier Saratoga and seven lesser vessels today.

First to go in the mighty plutonium blast that was the second chapter of the Army-Navy "operation crossroads" was the old 26,100-ton battleship Arkansas. She and the small craft, a yard oiler and a tank-landing ship, simply disappeared in the pink-fringed mist at 8:35 a. m. (3:35 p. m., CST, Wednesday).

Seven hours and 32 minutes later, at 4:07 p. m., the 33,000-ton Saratoga, war-worn old carrier, settled protestingly to the bottom of the Bikini lagoon. Her prow nosed upward as if her stern were resting on the bottom, then disappeared.

A little later five submarines of the six that had been submerged in the lagoon were found to be resting on the bottom. Whether they were crushed or had sunk through some defects in their air lines was not known.

Probably the most powerful man-made force ever loosed—perhaps even stronger than the bomb that razed most of Nagasaki last August—the atomic bomb did not immediately sink as many of the 75 target vessels as observers had expected.

The true extent of the damage is still unknown, however. Ships still were "hot" with radioactivity many hours later. Navy men and scientists edged ever closer and re-entered the lagoon with sensitive instruments, trying to determine the danger and ascertain the full damage as soon as possible.

The battleship New York and the Japanese battleship Nagato were listing, evidently damaged, as were the battered carrier Independence, the destroyer Hughes, the transport Fallon and the heavy cruiser Pensacola.

When the bomb went off, observers had their glasses on the mast of a small landing craft that was above the submerged atom bomb.

An almost incredibly white dome of water rose where the slim mast had stood. It glowed momentarily. Then it spread, at first wide and flat, to perhaps half a mile in breadth. Suddenly it shot upward with lightning speed.

At the top of the dome, the water spread in a great wide column with a rounded top. In two seconds the top widened like a grotesque mushroom, whose thick stem by that time was nearly a half-mile wide at the base, which in turn was boiling upward.

The air mushroom spread out to more than a mile wide. All this time the entire display was dazzling white.

Then from the widening edges of the mushroom umbrella poured white points of water, v-shaped, began streaming down toward the ships. Many of these sprays were far larger than any of the big battleships.

At this moment must have been occurring one of the most incredible phenomena of atomic energy. Water thrown against the Saratoga crushed her massive stack, knocking half of it to the flight deck.

A series of waves spread from the spot where the bomb was detonated. They raced out toward the ships outside the lagoon and some poured over a small island off Bikini's shore.

Ships rocked. The hot force of (See ARKANSAS, Pg. 4, Col. 2)

Lack Of Freight Cars Threatens Production

NEW YORK, July 25 (AP)—Lack of ample freight-carrying space threatened today to clamp an undeclared but nonetheless rigid ceiling on the nation's productive effort.

Why produce more goods than you can expect to ship? Was a

question already confronting some industries.

The shortage of freight cars was so acute there were reports in railroad circles that the office of defense transportation would recommend further steps to speed deliveries of new units.

One proposal discussed was for the Reconstruction Finance Corp. to finance purchase of 50,000 cars for lease to the carriers, with priorities on scarce materials for quick construction. Few cars were built during the busy wartime years.

The car building industry points to a drop from 2,814 deliveries in May to 2,094 in June as emphasizing a need for assistance in obtaining materials, principally steel and lumber.

Carnegie-Illinois Steel Corp., a US Steel subsidiary, cut its Chicago area operations 25 percent this week because of a car shortage; Pittsburgh manufacturers running out of storage space anticipated steel mill curtailments within a week; in northern states grain was piled on the ground at bulging elevators and on farms. Some coal mines were reported closed.

Forsan Girl Is Fatally Hurt In Plane Crash

Miss Dora Jan Thompson, 25, formerly of Forsan, died Wednesday as the result of injuries sustained in the crash of a light plane Wednesday at 5:30 p. m. 12 miles south of Dallas.

Miss Thompson had done civil service work for three years in Washington, D. C., and at the time of her death was employed by Mr. Clay of Dallas, with whom she was riding in the plane. He was killed instantly.

Witnesses said that the plane flew low over the Federal Correctional Institution near Dallas and failed to come out of a steep bank made at about 100 feet altitude.

Formerly of Forsan, she was the daughter of Mr. and Mrs. James E. Thompson. The body was scheduled to arrive Friday morning from Dallas for funeral services and burial here.

Besides the parents, survivors include a sister, Mrs. Maxine Carlson of Grand Prairie, a brother, James Thompson of Lubbock and a nephew and niece.

Services have been scheduled for 5:30 p. m. Friday in the Eberley chapel, with Rev. Aubrey Short and Rev. Burl Clark in charge of services.

Ex-Marine On Trial For Slaying Sister And Brother-In-Law

SAN BERNARDINO, Calif., July 25 (AP)—Trial continues today in the case of Emmett E. Patterson, 30, ex-marine, accused of bludgeoning to death his sister and brother-in-law, then burying their bodies in shallow desert graves in California and Arizona.

Yesterday two doctors testified that the man's skeleton found near Ludlow, Calif., showed fractures from blows on the back of the head and the skull of a woman's body found near Kingman, Ariz., showed multiple fractures from blows with a narrow flat-edged instrument.

However, the state failed to identify the dead.

The state charges that Patterson killed his sister, Alene, 33, and her husband, William E. Cole, 47, formerly of Amarillo, Tex., while the trio was enroute to Los Angeles. Missing, the state contends, is \$7,000 which Cole received from sale of a Texas hotel.

Comparatively Cool Weather In Store

By The Associated Press

Coastal breezes off the Gulf of Mexico were keeping Texas temperatures bearable today but most of the state continued to hit around the 100 mark.

Seymour, where 108's were reported several times within the past week, turned in the state's high yesterday with 102, as did Henrietta.

Mission followed with 101. Childress, Dilley, Haskell, Llano, Quanah and Uvalde had 100.

Three Churches Report Blazes In Houston

HOUSTON, July 25 (AP)—Three churches here were damaged by fires, one declared by officials to be of incendiary origin, within less than 24 hours today.

Blazes of unexplained origin broke out this morning in the First Baptist Church and the Negro Trinity Methodist Church, while police were still seeking several small boys seen near the South Main Baptist Church last night about the time a fire was discovered there.

Approximately \$4000 worth of material damage was done to the South Main structure and one person was injured. Fire investigator Lester Gross said. The blaze there was definitely started intentionally, he added.

Suspicious circumstances have surrounded an unusually large number of hotel, apartment house and public building fires here in recent months.

A three-alarm fire at the 46-year-old Trinity Methodist Church about 10 a. m. today was confined to the attic and roof. The fire department massed 20 pieces of fire fighting apparatus around the two story frame structure.

While firemen were still fighting the Trinity blaze, an alarm came from the First Baptist church six blocks away.

Within an hour the blaze was extinguished except in a small area on the fourth floor of the five-story building.

Last night the third fire in three months at the South Main church was detected while 250 persons were in the building.

Gross said baptismal robes had been piled in the middle of the floor of the second-story dressing room where the fire centered.

Australia Records Bomb Disturbance Death Toll Mounts

ADELAIDE, Australia, July 25 (AP)—Repercussions believed to have resulted from today's atom bomb explosion at Bikini were recorded by the seismograph at Adelaide observatory.

Government astronomer George F. Dodwell said the recording on the graph was most noticeable 16 minutes after the actual explosion which would correspond with the secondary wave of disturbance.

He added the reading "differs in character from the usual earthquake recording and it seems definite it was caused by the explosion of the bomb."

Seismographs at Sydney, approximately 700 miles nearer Bikini, failed to record any disturbances.

US Troops Called Out In German-Jewish Riot

FRANKFURT, Germany, July 25 (AP)—One Jew was killed and at least six persons were injured last night in fighting between Jewish displaced persons and German police near Munich, the US Third Army announced tonight. American troops were called to restore order.

Scores of German civilians and

Inquest Slated In Perry Death

LAS VEGAS, N. M., July 25 (AP)—An inquest will be held today in the death of Percy Ralph Perry, 42, of San Angelo, Tex., who was shot to death yesterday at the mountain resort of El Provenir, west of Las Vegas.

District Attorney Jose E. Armijo said Perry was shot in the chest with a .22 caliber rifle as he sat at a table with Mrs. Frank W. Kerchline of San Angelo.

No charges have been filed. Armijo said the woman's estranged husband, 40, of San Angelo, arrived at El Provenir while Perry and Mrs. Kerchline were horseback riding. He inquired about "my friend Perry" and waited until the couple returned.

Armijo said Perry and Mrs. Kerchline were seated at a table when Kerchline entered Perry's cabin. The shooting followed and Perry died 20 minutes later.

Perry's wife was reported living in Detroit. Perry was recently discharged from the army. He served as a major at San Angelo.

Flames Devour Arnold Garage; Coal Pile Burns

City firemen had a heat wave of their own Thursday with a record of five alarms in less than 24 hours.

Worst of the blazes consumed the Arnold Garage, operated by Joe Arnold at 201 NW 2nd street, and destroyed four automobiles at 1:40 a. m. Thursday.

Fire Chief H. V. Crocker said the building and contents were a total loss. Insurance covered \$5,000, but Crocker thought the loss might substantially exceed this figure. The garage had been closed for five hours when flames were discovered, and firemen fought for two hours to prevent the conflagration from spreading. A 1939 Pontiac, 1935 and 1937 Fords and 1941 Dodge pickup were lost in the blaze.

Firemen battled a fire in the interior of an 80-ton coal pile at the Charlie Morris Salvage Yard at 403 E. 1st at 7:00 a. m. and were called back during the morning. Workmen were moving the stack in an effort to get at the fire.

A call was made to the Merle Smith home at 80 E. 14th at 11:50 a. m. Wednesday when an alarm was sounded mistakenly. Smith burned the small structure purposely to destroy insects. Children playing in a vacant two-room house belonging to Moore Salgado at 605 NW 5th were credited with starting flames that damaged the walls and roof of the structure.

London Jews Deny British "Evidence"

LONDON, July 25 (AP)—London members of the Jewish agency for Palestine denied today receiving any of the telegrams cited yesterday in a British government white paper as "evidence" linking Jewish acts of violence in the Holy Land.

A statement issued by the agency's London office declared "before entering into the matter first, the Jewish agency will have to consult their colleagues in Palestine, some of whom are still under detention . . ."

Light Vote Forecast In Arkansas Primary

LITTLE ROCK, Ark., July 25 (AP)—No more than about one half of the state's qualified electors will cast votes in Arkansas' preferential "state" democratic primary next Tuesday, political observers here predicted.

They forecast a light vote of between 140,000 and 180,000 due to a lack of interest in that only three state races are involved.

Orange Housing Unit Turned Over To Navy

WASHINGTON, July 25 (AP)—National Housing Agency officials announced today that the 500-unit Orange, Tex., public housing project will be turned over to the Navy.

The transfer from control by the Orange Housing Authority is subject to provision that ex-servicemen and persons engaged in war work who now are living in the development will not be evicted before Dec. 31, 1947.

No Amateur Program Scheduled For Friday

Because many people may wish to attend rallies or listen to last minute political appeals, the regular amateur hour series at the amphitheatre will be suspended Friday evening.

Next program at the amphitheatre is scheduled for Aug. 2. It has been announced.

Civilians Will Control Atom, Conferees Say

WASHINGTON, July 25 (AP)—Senate and house conferees agreed today that the proposed atomic energy control commission should be composed exclusively of civilians.

They agreed also that the director of the division of military application should be a member of the armed forces.

The agreements, announced by Senator McMahon (D-Conn.), head of the senate conferees working with a house group to adjust differences over atomic energy legislation, represented a compromise.

The house had insisted that at least one, and not more than two, members of the commission should be members of the armed forces. The senate had insisted that all be civilians.

However, the house won its argument that the director of military application should be a military man instead of a civilian as recommended by the senate.

The decisions of the conferees, however, are not binding on the senate and the house and must be approved by both chambers before becoming effective.

No agreement was reached over the controversial patent section and a provision in the house bill authorizing the president to direct the atomic energy commission to permit the armed forces to produce atomic weapons.

McMahon told reporters the conferees would meet again this afternoon in an attempt to reach final agreement.

Palestine May Keep Railroad Shops

WASHINGTON, July 25 (AP)—The city of Palestine, Tex., was assured yesterday by the house that its railroad house and shops would be retained under a 75-year-old contract.

Shortly before the railroad reorganization bill was passed, the lawmakers adopted an amendment by Rep. Pickett (D-Tex) which provides that nothing in the act shall be construed to authorize a change in existing contracts between rail carriers and cities such as that between Palestine and Anderson county, Tex., with the Missouri Pacific railroad.

Pickett explained that the city and county entered into a contract in 1872 with the Houston & Great Northern railway that the roundhouse and shops in Palestine should be permanent there, either by the H. & G. N. or its successors.

Candidates Attack Other Platforms, Supporters

By The Associated Press

Communications from the Texas political battlefield show no indication of an armistice before "E Day" on Saturday.

There appears to be no shortage of ammunition—or targets.

Last night candidate Grover Sellers continued his offensive against the state democratic executive committee. He again challenged the committee officials to affirm or repudiate the statement of a New York newspaper that Texas democratic party machinery is supporting Homer P. Rainey.

Jerry Sadler also bombarded Jester and Rainey. "The people of Texas are awake to the wealth behind Jester's campaign and they are not going to let the special interests dominate the governor's office any longer," he said at Hillsboro. Sadler said Rainey was "in the same boat."

John Lee Smith joined Sellers in the attack against the state democratic executive committee.

Rainey charged in Houston last

night that "big newspapers who own radio stations" were discriminating against him in reporting his campaign.

Jester, in Lufkin, leveled a barrage at such political methods as "for-men-only" meetings. He promised that women would have a prominent part in the state government when he is governor.

Caso March casually tendered a warning to one of his opponents last night. He said he would be in Thrackmorton, hometown of candidate John Lee Smith, today and intended to "take Smith apart, piece by piece."

In Abilene last night, Larry Mills, candidate for lieutenant governor, assailed the Texas Regulars and W. Lee O'Daniel, whom he described as a puppet of special interests.

In Dickinson, Jo Ed Winfree, candidate for lieutenant governor, urged Texas voters to "turn the light of examination upon my in-

terests. . . ."

John Lee Smith joined Sellers in the attack against the state democratic executive committee.

Rainey charged in Houston last (See CANDIDATES, Pg. 4, Col. 4)

Help The Judges In Saturday's PrimaryVOTE EARLY

Mrs. R. B. G. Cowper Heads Organization Of Clubs

A called meeting of all three of the Hyperion clubs in town was held in the St. Mary's church parish house Wednesday morning, in which the units, the 1905, 1930 and 1946 clubs elected officers for a general organization.

Mrs. R. B. G. Cowper was named president of the federation; Mrs. J. H. Greene was named first vice-president; Mrs. Morris Patterson, second vice-president; and Mrs. R. E. McKinney, third vice-president.

Mrs. John A. Coffey was selected recording secretary, Mrs. H. M. Jarratt will be corresponding secretary, Mrs. B. L. LeFever will act as treasurer, and Mrs. J. G. Bristow will be parliamentarian.

A nominating committee was named, with two members representing each of the three organizations. The members are Mrs. V. VanGelson, Mrs. J. T. Brooks, Mrs. J. H. Stipp, Mrs. Wayne Prather and Mrs. Seth Boynton. Mrs. Morris Patterson was made program chairman, and Mrs. H. M. Jarratt was named social chairman, serving with Mrs. VanGelson and Mrs. M. H. Bennett.

Mrs. Rogers Hefley was named federation counselor.

The organization will have three meetings yearly. The individual clubs will begin regular sessions in October.

Penny Race Plans Are Completed

Final plans for the mile-long penny race Saturday were drafted at the Wednesday meeting of the High Heel Slipper Club at the home of Mary Gerald Robbins.

The race, to be held on the downtown block on Main Street between Third and Second streets, will seek to build a mile of pennies, laid end to end, and donated by passersby. Half of the proceeds will go into the charity fund for use here in Big Spring, the club decided.

Joyce Worrell, president, presided at the meeting at which Earlyne Wright, Nancy Lovelace, Sue Nell Hall, the hostess and the sponsor were present.

Order Of Rainbow Has Initiation Meet

Jean Slaughter and Dorothy Edna Christian were initiated in the Order of Rainbow when members met Tuesday evening at the Masonic hall.

After the regular opening, initiation ceremonies were conducted by Mamie Jean Meador.

Guests attending included Mrs. T. J. A. Robinson, Mrs. Bonnie Allen, Mrs. Gladys Dalmont, Mrs. Beba Meador, C. B. Kirk and Mrs. Adele Roberts.

Other weekly shows are slated for August 3 and 10. On this week's program will be such features as the Mighty Mouse, Donald Duck, Goofy, Pop Eye, Little LuLu, the Three Stooges and a Merrie Melody cartoon.

CLASS TO HAVE PARTY
The Bluebonnet class of the First Christian church will have its monthly party Friday at 8 p. m. in the home of Mrs. Harvey Clay, 1602 Rannels, with Mrs. Brown Rogers as co-hostess.

Saturday Matinees For Children Slated At The Ritz Theatre

First of a series of "Kiddie Matinees," designed for Saturday morning leisure attraction of the youngest set, has been scheduled for this Saturday by the Ritz theatre. The show, an hour-and-a-half presentation of cartoon shorts, will start at 10 a. m. Manager Arthur Caywood announced, and admission price will be nine cents.

THEY'RE OFF! Three New York models arrive at airport, each with complete travel wardrobe sufficient for six months aboard, within trans-Atlantic plane luggage limitations of 55 pounds. All three are wearing black gabardine coats of the same material used for Navy officers' uniforms during the war. Coats are rainproof, wrinkleproof, can be used for casual or dress wear.

Visits and Visitors

Mrs. W. M. Garrison had as her guest this week Ira Horner of Sacramento. Mrs. Garrison and Horner are cousins and had not seen each other for 31 years. He was accompanied on the trip by Mrs. Mike Gentry and daughter.

Mrs. Robert Wilson received a telephone call this week from her husband, Sgt. Robert Wilson, that he had landed in the States after serving in Manila. He will be transferred to William Beaumont hospital in El Paso and will proceed home on furlough.

Mrs. H. W. Smith is visiting in Fort Worth.

Mrs. J. B. King and children are vacationing at Brownwood.

Guest in the Johnnie Green home this week is his sister, Mrs. L. L. Latham of Morton. Visiting there last week was her father, J. W. Lindsey of Winters.

Mr. and Mrs. L. E. Hutchins and Bobby returned over the weekend from a several weeks vacation trip which carried them to points in Arizona, California and Oklahoma.

May Intervened With Eisenhower In Garsson Case

WASHINGTON, July 25 (AP)—The war department said today that Rep. May (D-Ky) twice intervened with Gen. Dwight D. Eisenhower during the court martial of Capt. Joseph H. Garsson, son of a mid-western munitions maker under congressional investigation.

In response to inquiries, the department said the house military committee chairman sent two letters to Eisenhower in behalf of young Garsson who was court-martialed on a charge of willfully disobeying a lawful command of a regimental commander.

The letters went to Eisenhower in the European theater. They were handled in the "routine manner," the department said, and had "no influence whatever in the disposition of the case."

Garsson is the son of Murray Garsson, one of the promoters of the mid-western munitions combine whose war profits are under scrutiny of the senate war investigating committee. May, who has acknowledged intervening with the war department in behalf of the combine, is scheduled to appear before the committee tomorrow.

Capt. Garsson was brought to trial last April 2 in Europe. The war department said the court found him guilty and sentenced him to dismissal, but recommended clemency. Garsson eventually was "relieved from active duty" last Jan. 22.

Kiwanis Queens Picnic To Be Held Monday

Kiwanis Queens will entertain with a picnic Monday evening at 7:30 in the city park. Not only Kiwanis Queens and their families were invited, but all Kiwanians were urged to attend and bring their families. Each family was asked to bring its eating utensils as well as a picnic lunch. Hostesses will be Mrs. S. M. Winham, Mrs. J. A. Coffey and Mrs. L. E. Hutchins.

Simmons Family Meets For Reunion

The J. L. Simmons family met for a reunion Sunday at the Simmons home in Seagraves.

Those attending were Mr. and Mrs. Lewis Atkins and Mrs. Basil Buett of Big Spring, Mr. and Mrs. Jim Bruton and Peggy, Mr. and Mrs. Sam Simmons and family of Sterling City, Mrs. Elmer Simmons of Fort Worth and Mrs. Mary Sheppard of Seagraves.

Social Calendar

THURSDAY
THURSDAY BRIDGE CLUB will meet with Mrs. Horace Garrett at 2:15 p. m.

ROYAL NEIGHBORS will meet at 2:30 p. m. in the WOW hall.

FRIDAY
WOODMAN CIRCLE will have a regular session at 8 p. m. in the WOW hall.

Gleaners Plan Visitation Series

Plans for the month's visitation were made when members of the Gleaners class of East Fourth Street church met Wednesday afternoon at the church parlor.

Mrs. R. I. Raley gave the devotional and Mrs. J. R. Clark led the opening prayer.

Refreshments were served to Mrs. R. I. Raley, Mrs. James Roy Clark, Mrs. J. W. Williams, Mrs. Walter Grice, Mrs. C. A. Tonn, Mrs. R. Y. Cloud, Mrs. Monroe Gafford, Mrs. Dick Davis, Mrs. A. F. Gilliland and Jimmy Cloud.

Mrs. Jack Lightfoot Hostess To Club

Mrs. Jack Lightfoot was hostess to Sew and Chatter club Wednesday afternoon when members met in the home of Mrs. C. M. Weaver.

After a period of sewing, a sandwich plate was served. The entertaining rooms were decorated with arrangements of sinias.

Attending were Mrs. W. M. Gage, Mrs. R. F. Bluhm, Mrs. G. L. James, Mrs. Ted Phillips, Mrs. H. V. Crocker, Mrs. Garner McAdams, Mrs. Clayton McCarty, Mrs. C. M. Weaver, Mrs. Ches Anderson and Mrs. Lewis Murdock.

Mr. and Mrs. Troy Gifford had as their guests his cousin and family, Mr. and Mrs. Clyde Latimer and Lina-Joy of Leuder. The Latimers were en route to their home after a vacation trip to Ruidoso, N. M., and other points.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing, how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Barconate (formerly called Barcol Concentrate). Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonful twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloated disappears—how much better you feel. More alive, youthful appearing and active.

the bomb's concussion was felt by some observers outside the lagoon. Parts of target ships' equipment, mattresses and the like, undulated on the waves.

Slowly the mist began to clear. Some of the target ships became visible again.

Men who had expected many of the ships to be gone were amazed to see them floating where they last had seen them.

But all efforts to find the Arkansas, a concrete yard oiler, a tank landing ship and the medium landing ship over the bomb, were futile. They simply had disappeared.

Smoke began pouring from the Saratoga. It was possible to see that she was listing by the stern.

Hours later a plane reported that the Saratoga was going down. Admiral Blandy, boss of the crossroads operation, sent tugs into the lagoon to try to beach her, but in vain.

Claude Harland Dies At Home

Claude B. Harland, 66, died Wednesday at 6:15 p. m. at his home 17 miles northwest of Big Spring.

Born in Bosque county on Jan. 4, 1880, he had been a farmer in this area for 35 years. He was a member of the Church of Christ. He had been ill for four years and had been bedfast for three months prior to his death.

Survivors included the widow, Mrs. C. B. Harland; seven daughters, Mrs. T. L. Free of Big Spring, Mrs. W. G. Trout of Fort Worth, Mrs. G. A. West of Donna, Mrs. W. B. Fryar of Big Spring, Mrs. J. W. Fryar of Lamesa, Mrs. Donald Allred of Knott and Miss Nelda Jo Harland of Big Spring; three sons, Grady Harland and Delbert Harland of Knott, and J. A. Harland of Fort Worth; a sister, Mrs. H. J. Henderson of Tahoka; 14 grandchildren and other relatives.

Funeral services will be conducted Friday at 3 p. m. in the Knott Church of Christ, conducted by Lloyd Smith of Abilene and Herbert Newman of Big Spring.

Funeral services will be in charge of arrangements.

Weather Forecast

BIG SPRING AND VICINITY: Partly cloudy with widely scattered thundershowers this afternoon, tonight and Friday. High today 96, low tonight 70, high tomorrow 95.

WEST TEXAS: Generally fair this afternoon, tonight and Friday, except mostly cloudy in Panhandle tonight and Friday.

EAST TEXAS: Partly cloudy this afternoon, tonight and Friday, scattered thundershowers near middle and upper coast. Gentle to moderate southerly winds on the coast.

Livestock

FORT WORTH, July 2 (P)—(USDA) — Cattle 3500, calves 1600; most classes cattle and calves steady, cows strong to 25 or more higher. Common and medium steers and yearlings 10.00-15.50, few good yearlings to 16.00 and higher; medium and good beef cows 10.00-14.00; common 9.00-10.00; bulls 8.00-13.00; good and choice fat calves 14.00-16.50, common and medium 10.50-14.00; stocker calves and yearlings 11.00-15.25.

Hogs 400; butcher hogs to packers mostly 50 higher than Wednesday's average, sows and pigs steady. Good and choice 180 lbs. up mostly 21.00, good and choice 150-170 19.50-20.50; sows largely 18.00.

Sheep 8500; killing classes mostly, cull and common lambs dull. Good spring lambs 16.50-17.00, medium and good spring lambs 14.50-16.00; cull and common springers 5.00-12.00.

Markets

NEW YORK, July 25 (P) — Further selective recoveries, led by rails and steels, gave the stock market a little better appearance today although purchasing was notably timid.

Better performers included Southern Railway, Great Northern, Chesapeake & Ohio, Northern Pacific, Southern Pacific, U. S. Steel, Bethlehem, Youngstown Sheet, International Harvester, Douglas Aircraft, Electric Power & Light, Union Carbide, Westinghouse, Kennecott, Montgomery Ward and Johns-Manville.

Transportation bonds improved. **KIMBLE NAMED DEPUTY WASHINGTON, July 25 (P)** — Brig. Gen. Frederick Van Harten Kimble of Galveston, recently returned from commanding the American garrison on Guam, has been appointed air inspector of the Army Air Forces.

MONTY NEW STAFF CHIEF—Field Marshal Viscount Montgomery, new chief of the Imperial General Staff, scans a world globe in his office at Whitehall, London.

Argument With Gendarmerie Gets Him Nowhere, Faces An Assault Complaint

Elmo Mora Barrera surrendered himself to the gendarmerie last night to answer to a charge of aggravated assault but not before he had a technicality of the law explained to him by perspiring members of the city police force. Authorities moved in on him at his domicile after Mrs. Barrera claimed he had thrashed her following a family row. He resisted momentarily, claiming they had

Mrs. Rupert Dies Here Wednesday

Mrs. Bessie Katherine Rupert, 80, resident of Big Spring for the past 11 years, died in a local hospital Wednesday at 10:25 p. m.

Mrs. Rupert had been ill for six months. Her home was at 1614 E. 15th.

Services will be held at the Nalley Chapel at 4 p. m. Friday with Dr. P. D. O'Brien, First Baptist pastor, officiating. Burial will be in the city cemetery.

Survivors include her husband, Clarence Rupert, Sapulpa, Okla.; two sons, Elmer Schollosser, Kermit, John Schollosser, Big Spring; one daughter, Mrs. Goldie Brown, Big Spring; two brothers, Goedie Colbert, Tulsa, Okla., and George Colgett, Great Bend, Kans.

Funeral services will be held at 10:30 a. m. Saturday at the Nalley Chapel, officiated by Dr. P. D. O'Brien, First Baptist pastor.

As Railroad Commissioner

Texas Quality Network

WFAA - WBAP

9:15 Thursday, July 25 (Paid Pol. Adv.)

To The Voters Of COMMISSIONERS PRECINCT NO. 3

All of the people of Commissioner's Precinct No. 3 know that I am a candidate for re-election in this primary. All of you know me. I have lived in Howard County forty years and have been right here in Howard County all that time except two years that I spent in the Army in World War I. Eighteen months of my service in the Army was spent in France and Germany. Therefore, you know me and know what I have done.

I am running for this office upon my record as a County Commissioner. If I have made you a good Commissioner in the past, I think I can make you a better one in the future.

Much has been said about the County Library. This library was established by the present Commissioner's Court about two years ago. We told everyone at that time that we would have to start on a small scale, and that the space for a library would be limited for the reason that we have been furnishing offices for six Government agencies, including the American Red Cross. We hope that in the future, additional accommodations can be furnished to the library, and we also anticipate that in the future we can give them additional funds.

The County has had to bear many different unexpected expenses during the war, and who would deny that our war efforts should have come first? We have expended \$30,000 as our contribution to the purchase of grounds for the Veterans Hospital that is to be constructed in Big Spring, and I think that the construction of this hospital in Big Spring is a great thing for our town and county and for the welfare of our veterans of both World War No. I and No. II.

The highway and lateral roads question is not a new question to be considered by the Commissioner's Court, for we have done everything that could be done to further both highway and lateral roads, and as actions speak louder than words, I invite you to get in your car and ride over the roads of Precinct 3, and then vote as you find the facts to be.

If I am elected as your County Commissioner, I shall continue to do my duty to our Nation, State and County, as I have tried to do in the past.

Upon this basis, I am asking you for your vote.

R. L. "Pancho" NALL

COMMISSIONER PCT. 3 (Paid: Pol. Adv.)

License Office Will Be Closed Saturday

The Department of Public Safety's drivers license bureau, which ordinarily operates here Mondays and Saturdays, will be shut down July 27 due to the election.

C. B. Strain, in charge of the local office, made the announcement following receipt of orders from state headquarters.

Cotton

NEW YORK, July 25 (P)—Cotton sold off the daily permissible limit of \$5 a bale for the second successive day under pressure of heavy liquidation. Uncertainty created by prospect of restoration of the price control program and the better than expected government reports on cotton crop conditions were unsettling factors.

LOOKING 'EM OVER

With TOMMY HART

Half the pitchers in the Muni softball league are throwing illegally and some of them violate every rule in the book. Official regulations for 1946, as put down by the Hillerich & Bradley company, Louisville, Ky., arrived at this desk recently. We reprint excerpts from them for the information of all concerned:

"(a) Preliminary to pitching, the pitcher shall come to a full stop, facing the batsman, with the ball held in both hands in front of the body, and with both feet squarely on the ground and in contact with the pitcher's plate, for not less than one second before taking one hand off the ball at the start of the windup or back-swing, x x x

"(d) A legal delivery shall be a ball which is delivered to the batter underhanded and with a follow through of the hand and wrist past the straight line of the body before the ball is released.

"NO PITCH"

"No pitch shall be declared whenever the pitcher pitches during a suspension of play or when he attempts a quick return of the ball before the batsman has taken position or is off balance as the result of a previous pitch.

"An illegal pitch, entitling the base-runner or runners to advance one base, shall be called by the umpire as follows; and in each of the cases cited a ball shall be

called in favor of the batsman: x x x

"x x x 2. If the pitcher takes more than one step before releasing the ball.

"3. Final delivery of the ball to the batsman with the hand above the hip and the wrist of the pitching arm farther from the body than the elbow.

"4. Failure to follow through with the hand and wrist past the straight line of the body x x x

The umpire is vested with the authority to warn the pitcher against violation of the rules. If the player does not make the necessary corrections, then the arbiter had the right to forfeit the game to the opposing team.

Roy Chandler, brother to the sensational Eddie Chandler of the Fort Worth baseball club, has signed on with the Dallas Rebels. He's 22 years of age, weighs 170, and is an outfielder.

He was stationed at the Great Lakes Training Station during part of the war.

Al Vance, coach of the six-man football team at Eldorado high school, has informed the ABC club here he'll be on hand for the Aug. 31 coaching school but wants to know why the clinic can't be held around Aug. 15.

Ted Phillips, one of the spokesmen for the sponsoring organization, said he thought the appointed date would be more popular due to the fact that it was nearer the football season.

Vance will bring several coaches of that area with him for the indoctrination.

Extra Inning Games East Texas Feature
By The Associated Press
Two 11-inning battles by Sherman vs. Lufkin and Jacksonville vs. Greenville turned up as feature attractions in the East Texas league last night.

Sherman outlasted Lufkin to win 7-6 over cellar club Lufkin. Greenville paraded four pitchers to the mound and finally defeated Jacksonville 8-7.

League-leading Henderson took a 7-4 loss from Texarkana. Tyler, in second place shutout Paris 5-0.

The first statue of George Washington—and the first public memorial of its kind in this country—was erected on the state capitol lawn in Raleigh, N. C.

Ford Loss Enables Cosden To Claim Muni Leadership

The "dog eat dog" attitude of Muni softball league teams has supplied the high-ball for the Cosden Oilers' rush toward the second half flag.

Big Spring Motor was riding high, wide and handsome at the top of the heap until the Fordmen ran into Big Spring Hardware in Wednesday evening's feature.

Johnny "Hawk" Daylong and the Spartans fought the Motorists tooth and nail all the way and finally escaped with a 4-3 win in a contest that had the onlookers balancing on the edge of their seats.

Daylong, as spirited and colorful a campaigner as can be found in local circles, was deserving of the victory. He pitched himself out of several bad spots and left two runners stranded on the base paths in the fifth and last round to stop the Fordmen cold.

He limited the foe to two hits and went to the fore when Teddy Gross hit for the circuit with a runner up front in the fourth inning.

Dr. Eddie Strauss had a chance to cut the lead away in the last round when he approached the plate with runners on first and second but Daylong forced him to pop up into the infield.

The victory enabled the Spartans to pull within half a game of the Cosdens.

YFW had an equally tough time in disposing of the Coahoma Oilers in the second set to but won out, 5-4, on the strength of a two-run uprising in the last round.

A Coahoma misplay on Tom Davis' ground ball enabled Billy Womack, who had singled, to score the tying run and Elliott followed up with a bingle that sent Davis all the way home.

The Coahomans had come back into the ball game with a two-run outburst in Round Four.

Elliott limited the opposition to four hits and struck out eight while K. C. Grantham, Stanolind hurler, surrendered five safeties and whiffed seven.

Davis, Hal Battle, LeRoy Wood and Johnny Burns received base hits, along with Womack.

Abilene Evens Lamesa Series With 12-6 Win

ABILENE, July 25—Abilene's Blue Sox evened the series count with the Lamesa Lobes here Wednesday evening by registering a 12-6 victory.

Bill Werbowksi gave up only six hits in notching his 10th victory but had trouble in the fifth and seventh rounds when the Lobes collected five of their six runs.

Ed Krage hit two home runs for the winners while Manager Hayden Greer had one four macter.

Bobby "Pepper" Martin drove in two of the Lamesa runs with a double and shared hitting honors on the visiting club with two safeties.

Medalist, Others Halted

Aces Fall By Wayside In Publinks Matches

DENVER, July 25 (AP)—The headliners of the qualifying rounds had wilted under the pressure of match play as the National Public Links golf tournament moved dimly into the third round today.

Medalist Jimmy Clark of Long Beach, Calif., who qualified with 134, lowest medal score ever shot in a U.S.G.A. tournament, was knocked out in his first match by Marshall Holt, a teammate he had always beaten easily on Long Beach's home courses.

Into the discard with Clark went the next six lowest medal shooters—Robert Silvestri of San Francisco; Ralph Hall of Oakland, Calif.; Buck Gann of Tulsa, Okla.; Tal Smith of Alameda, Calif.; Carl Dezern of Durham, N. C., and Jack Koennecker of Denver.

The defending champion, William Welch of Spokane, Wash., fell too.

Some of the first-round conquerors of the hotshots were beaten themselves in the second round and except in a few instances the 16-man third round bracket was populated by a bunch of Joes who went virtually unnoticed through the first days of play.

There were exceptions, like William E. Doll, Louisville, Ky., shipping clerk who went to the semifinals of the last Public Links tournament at Spokane in 1941 before losing to Welch. And Smiley Quirk of Los Angeles, who shot a course record of 64 at Park Hill here last week in a warm-up for the big event.

Cards' Failure To Quiet New York Rebellion Costs Them Loop Lead

By The Associated Press
Those who have started to count the Brooklyn Dodgers out of the National league pennant race because of their recent near-disastrous road trip, have done so without taking into account Brooklyn's amazing home record at Ebbets Field where they still have 38 games to play this season.

Forced to share the National league's top berth with the St. Louis Cardinals for four days after leading the parade for more than two months, the Dodgers wasted little time upon their return home yesterday to regain undisputed possession of first place.

This they did by the simple medium of notching their 30th victory in 30 home games, at the expense of the third place Chicago Cubs while the Cardinals were thrashed by the New York Giants.

The Dodgers eked out a brilliant 1-1 triumph over the Bruins, principally on the fine hurling of southpaw Joe Hatten.

The Giants shoved the St. Louis aggregation one full game behind the Brooks when they beat the Cards for the ninth time in 14 meetings this season by a 3-1 score on the strength of Johnny

Mize's 20th home run in the ninth inning with one mate aboard.

In the American league, the pace-setting Boston Red Sox maintained their 1 1/2-game margin over the runner-up New York Yankees by taking advantage of a pair of miscues to defeat the Chicago White Sox 4-1.

The Yankees kept pace with the Red Sox by coming from behind to defeat the St. Louis Browns, 5-3.

Cleveland's Bobby Feller racked up his 18th win and seventh shut-out of the campaign in pitching the Indians to a 1-0 triumph over the Philadelphia Athletics.

The Tribe fireballer fanned nine to raise his season strikeout total to 220.

Bobo Newsom, veteran Washington righthander, duplicated Feller's feat by outpitching Detroit's Dizzy Trout, 1-0.

A pair of former American leaguers collaborated to give the Philadelphia Phillies a 2-0 victory over the Pittsburgh Pirates. Veteran right-hander Schoolboy Rowe, former Tiger ace, limited the Bucs to seven scattered safeties to notch his tenth victory with Jim Tabor, former Red Sox infielder, accounting for both Philly runs with his sixth home run in the third inning.

Cincinnati shaded the Boston Braves, 2-1.

SEITZ, SEEDS NAMED PILOTS
LUBBOCK, July 25 (AP)—The North meets the South here tomorrow night in the West Texas-New Mexico league's own civil war—an all-star game in which the managers picked the players and the players in turn selected the managers.

Grover Seitz of Pampa will manage the North all-stars with Bob Seeds of Amarillo skipper of the South squad.

Sherman Fans Plan To Honor Stratton
SHERMAN, July 25 (AP)—Friday night will be "Monty Stratton Night" when the Sherman twins meet the Lufkin Foresters in an East Texas league game here.

The big pitcher, who has won 13 games for Sherman although playing with an artificial leg, will be honored at a brief ceremony prior to the game. Judge R. C. Siegel will be master of ceremonies.

MURDER VERDICT
PORT ARTHUR, July 25 (AP)—Police Chief Claude Goldsmith and Justice of the Peace Fulton Lee said W. E. Bodle, 33-year-old auto mechanic, fatally shot his 32-year-old wife yesterday as she fled from her home and then shot himself. Bodle is in a critical condition.

Greeks Slain
ATHENS, July 25 (AP)—One Greek officer and seven enlisted men were reported to have been slain from ambush yesterday by a leftist band near Volos.

Barons To Play Midland Sunday

Frank Miller's Big Spring Black Barons, who cuffed Sweetwater into submission with a 16-5 triumph here last week, take on the Midland Cowboys there Sunday.

Red Howard, an importee from El Paso, will probably climb the knoll for the local contingent.

The Barons punished the Shepards with an 18-hit attack, which included home runs by Harry Dooley and Wallace Ringo. Dooley succeeded Howard on the hill last Sunday after Red was hurt sliding into second base.

TRACTOR OWNERS

FREE!

★ Saves you repair bills!
★ Helps you get more work out of your tractor, at less cost!

Complete 60-Page Tractor Guide

Want to make your tractor last longer... get more out of the fuel you buy for it?

Then, get Gulf's FREE Farm Tractor Guide. This 60-page, illustrated book, is a complete manual on tractor operation.

Check-full of practical information
It tells you how to care for air cleaner, cooling system, ignition, valves, power transmission, vital engine parts, steering assembly, tires, battery, all parts of your tractor.
It contains an easy-to-use, trouble-shooting guide to tell you quickly what's the matter when your tractor balks or doesn't work properly.

It has complete, large-scale lubrication diagrams, detailed lubrication charts.
You should have a copy of Gulf's Farm Tractor Guide if your tractor is one of these makes:

Allis-Chalmers	Huber
Baker	International
Case	John Deere
Caterpillar	Massey-Harris
Cletrac	McCormick-Deering
Co-op	Minneapolis-Moline
Eagle	Oliver-Hart-Parr
Ford	Silver King
Graham-Bradley	Walls

TRACTOR OWNERS! Get your FREE copy of Gulf's 60-page, illustrated Farm Tractor Guide at the Gulf Warehouse. Drop by today!

Allies Ban Italian Demonstration

ROME, July 25 (AP)—The Italian news service Ansa said in a Trieste dispatch that the Allied military government had banned a demonstration scheduled for today by the Italo-Slav anti-fascist union, a pro-Yugoslav organization, because of "present disturbed conditions" in the Adriatic city.

Ansa said the AMG had explained that all demonstrations would be prohibited until conditions became more settled. The ban was criticized bitterly by the left wing press.

AMG policies in Trieste also were criticized in Rome last night, when Palmiro Togliatti, leader of the Italian communist party, told the constituent assembly that Allied seizure of locked-out ship yards at Monfalcone "did not help Italo-Yugoslav relations."

A dispatch to Il Messaggero said that police at Gorizia used tear-gas bombs and clubs yesterday to break up an unauthorized demonstration there of approximately 1,000 Slavs who gathered for a send-off to a delegation enroute for Ljubljana.

Twenty persons were treated for slight injuries, the dispatch said, while ten were arrested.

Judge E. J. Miller, candidate for the court of civil appeals, will speak over KBST tonight from 8 to 8:15 p. m. (adv.)

Prosecution Delays Summation In Trial Of Nazi Criminals

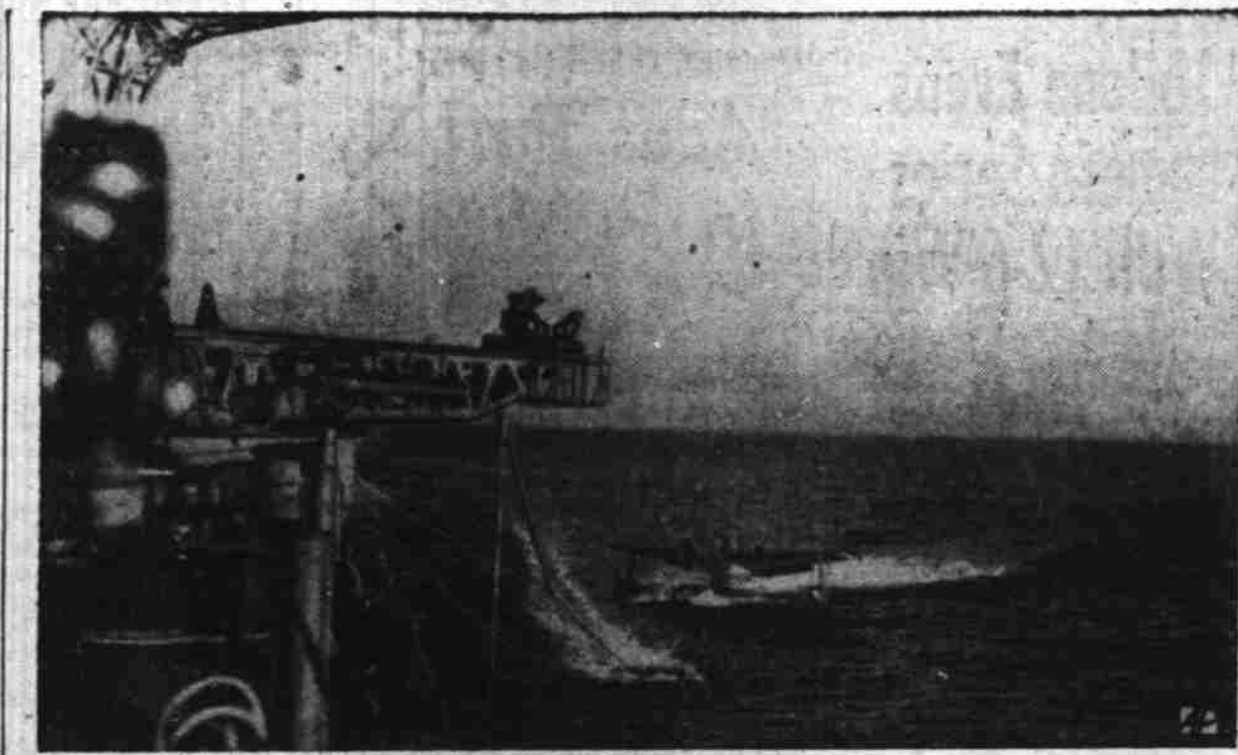

NUERNBERG, July 25 (AP)—The international military tribunal hearing war crimes charges against 22 top-ranking nazis sat in closed session until almost noon today and it seemed apparent that the scheduled opening of prosecution summations by Justice Robert H. Jackson would be delayed until tomorrow.

Jackson, chief prosecutor for the United States, has indicated that he does not want to start his summation one day and finish the next.

At the conclusion of its closed meeting, the tribunal announced that Dr. Alfred Seidl's rewritten defense summation on behalf of Rudolf Hess, onetime No. 2 nazi, would be accepted only after certain relations had been made.

The tribunal said the rewritten version, like the original one which was rejected early this month, contained unauthorized references to the Versailles treaty, unauthorized quotations and subject matter irrelevant to the present trials.

The Hess summation was expected to be heard later in the day, at the conclusion of the final plea for Hans Fritzsche, former deputy propaganda minister.

PLANE TAXIS TO SLED—In a Navy demonstration showing how scout planes are recovered, this plane taxis to a sled before being hoisted aboard the USS Denver. In this method, a sled is allowed to stream behind the ship; the plane taxis to the sled; the sled is then reeled into position under a crane waiting to hoist the plane aboard.

Bolivian Prohibits Army In Government

LA PAZ, Bolivia, July 25 (AP)—Members of the Bolivian army and air corps were prohibited today from holding public office under an order issued by Lt. Col. Humberto Torres Ortiz, chief of staff.

The ruling was designed to keep the country's new government, established after the assassination Sunday of President Gualberto Villarroel and the overthrow of his military regime, in the hands of civilians.

Business operations in La Paz have returned to normal and order was reported restored throughout the country.

Lamesans Resolve To Equalize Taxes

LAMESA, July 25 (AP)—At a mass meeting of approximately 200 Lamesa tax payers here yesterday resolutions were adopted asking the city commission and school board "to equalize taxes but not unnecessarily raise them this time."

The meeting was in protest of an increase in city property and school taxes.

The group petitioned the two groups "to take tax payers into confidence on every expenditure hereafter contemplated."

Gray Elected Head Of Rural Carriers

WACO, July 2 (AP)—Oran T. Gray, Florence, Texas, was elected president of the Texas Rural Letter Carriers Association at the final session of the annual convention here yesterday.

Other officers were W. A. Reddell, Tahoka, first vice-president; Walter Merriman, Throckmorton, second vice-president; Harvey E. Fisher, Dublin, secretary-treasurer, and Lee Barry, Briscoe, and Albert Hansey, Victoria, trustees. Mrs. Glenn H. Rennels of Avoca was elected auxiliary president.

Inflation Feared By Paris Papers

PARIS, July 24 (AP)—Paris food prices, transportation fares and advertising rates jumped today and Paris newspapers, fearing a run of inflation, blared the news in bold, black headlines.

Although the basic price of meat had not been established, bread went up from about 6.72 cents to 11.76 cents for two pounds and milk from about 7.5 cents to 9.2 cents per quart.

The increases generally were attributed to 15 to 30 percent salary boosts which are going into effect throughout the country.

In the newspaper field, where a 30 percent payroll increase was made retroactive to June 1, advertising rates are going up about 20 percent.

Railroad fares have been increased 10 percent and freight rates 30 percent, while hotel rates went up 50 percent last month.

Thunderstorm Causes Panic In Brussels

BRUSSELS, July 25 (AP)—A violent thunderstorm caused near panic last night in parts of Brussels, where some persons linked it up with the Bikini atomic bomb test.

Lights were put on and neighbors held excited conversations until doubters finally won the day—or night—and everybody went back to bed.

BOYCE HOUSE
FOR
LIEUTENANT GOVERNOR
(THIS AD PAID FOR BY FRIENDS)

TO HOWARD COUNTY VOTERS

A few people have been told that I have not resided here long, and some have confused me with another Stovall. I would very much like to correct this impression. I moved to this county with my family in 1907 and have always considered Big Spring and Howard County as my home since.

Most everyone knows my mother, Mrs. Lou Ella Stovall Edson, who resides at 511 Gregg St., and has been an employe of the Big Spring Postoffice for more than 20 years. Dewey and Rube Martin are my uncles, Anne Martin is my aunt.

If you should be among those voters who do not know me personally, I would appreciate your inquiring of these relatives or their friends as to the above statement.

Sincerely,
W. C. (Charles) STOVALL

E. J. MILLER
Brown County

25 years active private practice in State and Federal Courts. 12 years as District Judge with a record above the average, asks promotion to
THE COURT OF CIVIL APPEALS
Two members of the court are from the north and west part of the district, which might suggest that distributive fairness would be served by having one member of the court from the south and east part of the district.
Unanimous Endorsement
of the Brown County Bar
We have known Judge E. J. Miller, both as Judge of the 25th District Court, where he served for twelve years, and as an active lawyer in private practice, in which he was engaged for many years. He was an able judge, diligent, industrious, learned in the law, and painstaking in his consideration and decision of the matters involved. We commend him as having the qualities that eminently fit him for the position which he seeks, that of Associate Justice of the Court of Civil Appeals.

STATE NATIONAL BANK

I JUST PUT A WEEK OF LOAFING IN THE SAFETY DEPOSIT BOX!"
No—I'm not kidding. That's how I figure the money I save through U. S. Savings Bonds—
one bond equals one week of loafing ten years from now when I'm retired.
You see, in my case, \$25 a week is all I'll need. So the \$18.75 bond fills the ticket perfectly. But you could do it with any size bond, knowing every time you add one, you add a week of leisure to your life. And subtract one of work.
And, say—best way to handle getting the bonds is through the Payroll Savings Plan where you work. That's regular and automatic—you can't miss.
Your U. S. Savings Bonds pay fat interest—
4 dollars for every 3 put in—after 10 years. And all the resources of the United States Government are behind them.
Boy—is it ever fun to count 'em over, realizing each bond means a week of loafing. Better keep your Payroll Savings Plan in force—and maybe even boost the ante just a little!
SAVE THE EASY WAY... BUY YOUR BONDS THROUGH PAYROLL SAVINGS
The Big Spring Daily Herald
This is an official U. S. Treasury advertisement—prepared under auspices of Treasury Department and Advertising Council

Navy Needs Men Technically-Trained

Men with necessary educational background and experience in scientific research and development of technical equipment are in demand by the US Navy, according to W. D. VanPelt, CM, USN, recruiter in charge of the San Angelo station.

Among fields covered in research are design of aeronautical, mechanical, electronic and electrical equipment, chemical products, metals and alloys, physics, testing laboratories. Those who have qualifications in these fields should be able to qualify for electronics technician mate training with rapid advancement and minimum terms.

VanPelt also answered the question of whether the navy would waive objections to juvenile delinquency records. The navy maintains its policy against such enlistments in order not to take the chance of jeopardizing a high type of personnel.

REWARD INTEGRITY
Continue a constructive, cooperative administration

Farm And Ranch News

By **WACIL McNAIR**

Hub Phillips was in town Wednesday afternoon making a last minute check on the itinerary for today's 4-H club steer tour, and he confirmed reports on the crop situation in the Lomax community. Cotton is holding up well, Phillips said, but it is just a question of time—without a rain it can't possibly go on. Phillips has 170 acres, which he said is up to a good stand and is in above average condition for the season. However, it is heavily loaded and he expects it to begin suffering soon if additional moisture isn't received. Indicating that the moisture supply there is nearing exhaustion, a few acres of early feed already is showing signs of damage from the mid-day sun.

An hundred pounds of rodent poison mixed with grain has been received at the county agent's office. Farmers needing it may get fresh supplies there now.

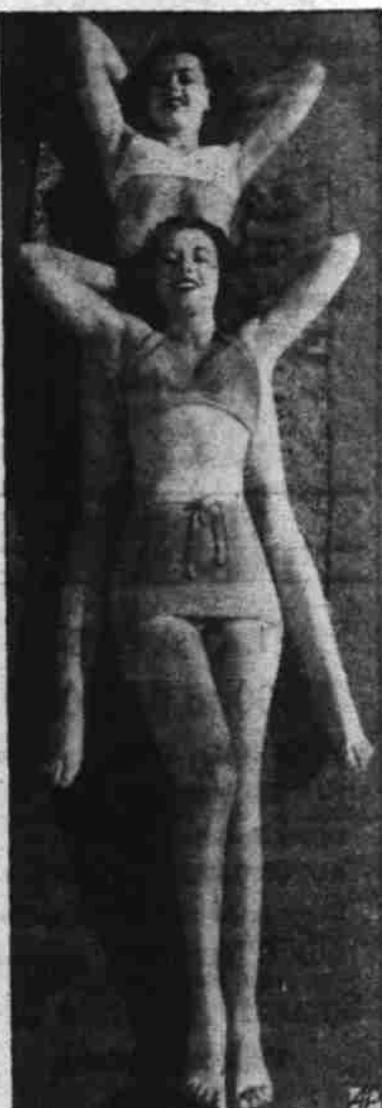

Mowing sagebrush has become an increasingly popular practice in North and West Texas, and stockmen should mow it immediately for best results, the extension service recommends. The US Southern Great Plains Field station at Woodward, Okla., has been conducting date-of-mowing tests for nine years now, and they recommend mowing during late June and July, since at that time sagebrush roots have less food stored in them. With this factor in mind, this should be a good year for ridding the sagebrush from ranges in this area, with the current drought on.

Studies show that mowing of sagebrush for two successive years, when combined with de-

ferred grazing from June to Sept., has these advantages: 1. Most of the brush is killed. 2. Other weeds are controlled. 3. Vigor of the surviving brush is reduced. 4. Vigor and stand of grass are doubled. 5. Carrying capacity of the pasture is increased 80 percent. 6. Gain of yearling steers is increased by 16 percent—336 pounds on mowed pasture and 306 pounds on unmowed. 7. A better grade of feeders is produced.

Three artificial breeding associations have been established in Texas and several others are in the process of organization, according to G. G. Gibson, dairy husbandman for the extension service. Membership in the association totals 50 dairymen who own more than 2,500 cows. First artificial breeding association to be organized in the state is in Cooke county. This group has been operating for nearly a year, and its first calves were dropped in February, 1946. Since then, associations have been formed in Wharton and McLennan counties and now are in operation.

A new variety of black-eyed peas, Early Ramshorn, is being introduced to Knox county by 45 4-H club boys who have demonstrations in nine communities. One hundred pounds of the new variety were planted. The new variety, which has been tested experimentally at College Station for two years, produced 4,692 pounds of green pods per acre, as compared with 1,866 pounds per acre of the common variety, according to R. O. Dunkle, county agricultural agent.

AT EASE—Lynn Walker (top), Chicago, and Mary Ellen Gleason, Hollywood, relax on Atlantic City's steel pier.

SAY YOU SAW IT
IN THE HERALD

Crude Output Shows A Gain

NEW YORK, July 25 (AP)—Crude oil production increased 2,700 barrels to 4,937,000 barrels in the week ended July 19 compared with 4,944,250 barrels a year ago, the American Petroleum Institute reported today.

The weekly summary said reports from refining companies owning 85.8 per cent of the estimated daily potential refining capacity and which operated at 86.8 per cent of potential indicate that the industry as a whole ran to stills 4,826,000 barrels of crude oil daily. The daily average for the previous week was 4,875,000 barrels and 87.8 per cent of capacity, and a year ago 4,947,000 barrels.

Big Spring (Texas) Herald, Thurs., July 25, 1946

Heavy fuel oil production was estimated at 8,271,000 barrels for the week compared with 8,459,000 in the previous week, and 9,175,000 last year, and light fuel oil output at 5,296,000 barrels compared with 5,416,000 the preceding week and 5,167,000 a year ago. Finished and unfinished gasoline stocks totaled 89,326,000 barrels against 90,753,000 in the previous week, and 85,980,000 a year ago, while unfinished gasoline stocks were 8,632,000 barrels, against 11,375,000 a year ago. Total estimated gasoline production amounted to 13,988,000 barrels, against 4,716,000 last week.

In ancient Greece it was believed that it grew warmer and warmer as you went south, and that if you went far enough you would die from the heat.

Brooke Medical Unit Being Expanded

SAN ANTONIO, July 25 (AP)—Further expansion of Brooke medical center to Fort Sam Houston to include a medical training center at Camp Folk, La., was announced here by Brig. Gen. John M. Willis, commandant.

The new training center, which was activated July 1, will have a strength of approximately 15,000 troops. The Camp Folk center will give eight weeks of basic military training, after which some of the trainees will be transferred to Brooke for specialized medical department instruction.

LOCAL ATTORNEYS ENDORSE

Judge Albert S. Mauzey

for

COURT OF CIVIL APPEALS

The Big Spring Bar gladly joins with the many Bars over the twenty-three counties of the 11th Court of Civil Appeals District in the endorsement of Honorable Albert S. Mauzey for Associate Justice of that Court.

People of Howard County who have lived here ten years or more remember when Judge Mauzey was our District Judge, when Howard County was in the 32nd Judicial District. He is still the Judge of the 32nd District, but some time ago Howard County was transferred by the Legislature from the 32nd to the 70th District, so we are no longer in the 32nd District, but are in the 11th Court of Appeals District.

Judge Mauzey has made an outstanding record as a District Judge, and is considered one of the finest Judges in all Texas. We think he is the man to be elevated to the High Court of Civil Appeals.

(Pol. Adv. Paid for by Members of Big Spring Bar)

Facing Squarely A Program Of Improvement For Our County

BEN L. LEFEVER for Pct. 2

To The Voters of Precinct 2:

During the past several weeks, I have tried to outline in public messages some of those things which I think would help our county. I have presented those topics as among the things I will work for as a member of your County Commissioners' Court. I have mentioned:

1. Further improvement and expansion of the County Library.
2. Establishment of a rest center for accommodation of shopping visitors in Big Spring.
3. Promotion of complete cooperation between all local governmental agencies on projects affecting all citizens.
4. Establishment of a long-range, integrated program of improving county roads, with this program to be carried forward continuously under supervision of a competent road engineer.

I have not hesitated to give my endorsement of these propositions. The people of the Precinct and the County are entitled to know what a Commissioner proposes to do as a public official. I base my appeal for support on these proposals, and make a pledge that, if after a term in office I have not served the people to their satisfaction, I will be willing and ready to step aside.

Howard County, with a total taxable valuation of \$16,700,000 is a big business. Nearly 40 per cent of this total is in oil valuations. The County's business is entitled to and should have a business administration. As a business man and oil operator, I feel qualified to assist in handling the county's business affairs.

I want to serve Howard County and her citizens. I promise to do my best, if the people of Precinct 2 favor me with their votes on Saturday.

Yours sincerely,

Ben L. LeFever

"FOUL" DINNER TO FETE SHAW

NEW YORK, July 25 (AP)—The cry of "foul" was raised today over the selection of "breast of chicken" as the main dish for the Saturday review of literature's 90th anniversary birthday dinner in honor of George Bernard Shaw.

The dinner will be held tonight at the Hotel Waldorf-Astoria.
Simon Gould, associate editor of the magazine American Vegetarian, declared that Shaw's "astounding longevity is due in no small measure to his abstinence from flesh, fish and fowl for a period of over 55 years."

Alabaster is used in the manufacture of modern dishes, lampshades and powder boxes.

Missions Move In On Felines

By The Associated Press
The Dallas Rebels slipped back into third place last night after making a challenge at San Antonio's second place in the Texas league.

The 7-3 win by the Houston Buffs over Dallas and a San Antonio 2-1 victory over Fort Worth put the Rebels two full games behind the Missions.

Oklahoma City copped a 6-5 triumph from Beaumont. Shreveport handed the Tulsa Oilers a 2-0 defeat.

In the opener of a four-game series between Dallas and Houston, the Buffs collected 13 hits, 10 of them off Hank Oana. Five Houston runs were unearned.

Roman Brunswick pitched the full distance for Houston and had the Rebels' number in all except the seventh inning when Bob Moyer hit his 16th home run of the season with two aboard.

Lefthander Clarence Iott, San Antonio, outpitched Lefthander John Van Cuyk, Fort Worth, for five hits as compared to three for the Missions' win. Iott yielded Van Cuyk but fanned 15 compared to 10 for the Fort Worth south-paw.

Both San Antonio runs were unearned, resulting from misplays on balls thrown to bases by Van Cuyk.

In a wild ninth inning the Oklahoma City Indians punched over two runs and captured the series opener from the Beaumont Exporters. Beaumont had racked up four runs in a hectic seventh inning rally to take a 5-4 lead.

The Shreveport Sports bunched their hits off Lefty Ande Steinback in the first three innings to give the Tulsa Oilers a shutout defeat.

Today's schedule:
Houston at Dallas, two games.
San Antonio at Fort Worth.
Beaumont at Oklahoma City.
Shreveport at Tulsa.

"Gee, maybe we oughta investigate—After all, that's last Friday's paper on him!"

LOTS OF SPIRIT DUE AT "PARTY"

TULSA, Okla., July 25 (AP)—Sheriff A. Garland Marrs, defeated in a runoff primary, plans to throw a \$50,000 whisky "party" before his successor, W. V. Caffey, takes over Jan. 1.

The sheriff explained his party wouldn't be the cocktail variety. For under Oklahoma law he must destroy the 10,000 pints of seized liquor now in his custody.

"I have held on to it a long time, in hope some day the legislature would enact a law permitting sale of this liquor so that funds could be returned to the taxpayers," said the sheriff ruefully.

AN UNUSUAL PET

PEACEDALE, R. I., July 25 (AP)—There was some growling and a few catcalls at the blue ribbon winner of the Neighborhood Guild's Pet Show. Passing scrubbed pups and trimmed kittens, judges gave the "most unusual pet" award to a 14-month-old boy, Billy Bouchard. Billy was the entry of his cousin, Betty Gadow.

PROJECT STARTED

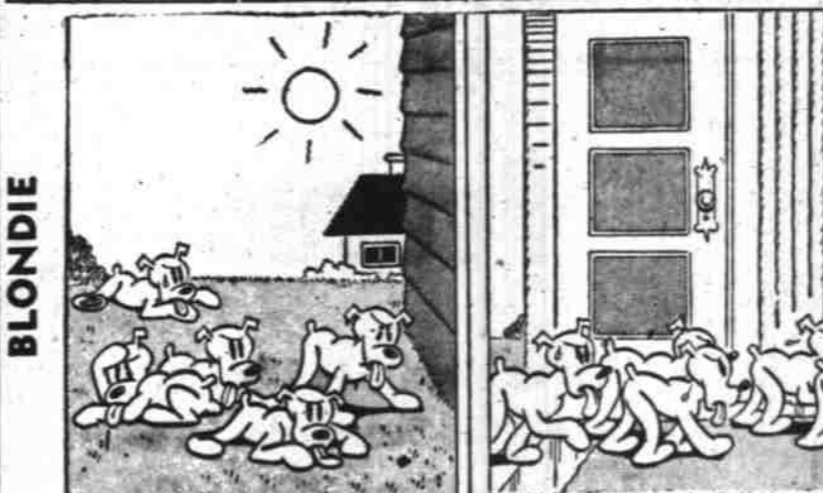

COLUMBUS, July 25 (AP)—Rep. Mansfield (D-Tex.), chairman of the Rivers and Harbors Committee, announced that a crew from the Galveston office, would move to Victoria today to start work on the Guadalupe project. The project was held up during the war.

Specs Breakage Less After Oven Bake Cure

LIKE boiling an egg, lens oven operation is simple

AP Newsfeatures
ROCHESTER, N. Y. — Hardening of eyeglasses so that they will stand much rougher treatment is made possible by a new automatic electric furnace announced by the Bausch & Lomb Optical Co. The process will harden a lens in about the same time required to hard boil an egg, company officials say.

The hardening process, previously used principally for industrial goggles, has been a matter hitherto of skilled work with hand-operated furnaces. The new furnace, suitable for installation in dealers' shops and lens grinding plants, can be operated without highly skilled technicians and will permit a customer to have his spectacles hardened while he waits, the company says.

Tests indicate that the hardened lenses are about 16 times stronger than ordinary lenses. In the new 264-pound electrical unit developed by the optical firm, the lens is pre-heated for about three minutes so that it will withstand the thermal shock of the furnace, then automatically is raised into the furnace at 1,330 degrees, lowered and cooled in two to four minutes.

Joe L. Matthews, Abilene, district supervisor of the Federal Crop Insurance corporation, visited Big Spring Tuesday to confer with J. G. Hammock, local adjustor.

Make Cookie Jar Trek Interesting

With the youngsters home and vacation days stretching ahead there's likely to be a well worn path from the back door to the cookie jar. Bike riding, roller-skating and swimming are exciting and swell fun but when tum-tums are empty, it's a fast trot to Mommy for a hand-out — a treat to tied 'em-over 'till dinner time. There'll be no mad scramble in the kitchen if you plan a little in advance. Be wise and make up a batch of crunchy peanut brittle cookies and be ready for the mid-meal onslaught this summer. The young 'uns will hail them tops.

PEANUT BRITTLE COOKIES
1-2 cup shortening
2-3 cup sugar
2 eggs, well beaten
1 3-4 cup sifted flour
1 1/2 teaspoon baking powder
1-2 teaspoon salt
1-4 teaspoon allspice
1-2 teaspoon cinnamon
1-4 cup milk
1 cup finely chopped peanut brittle.

Cream shortening, add sugar continuing to cream. Beat in eggs. Then sift together flour, baking powder, salt, allspice and cinnamon. Add alternately with milk to first mixture. Stir in peanut brittle. Drop by heaping teaspoons on greased cookie sheet. Flatten slightly with spatula. Bake in moderate oven of 375 degrees (F.) for 10 minutes or until cookies are golden brown. Make about 8 dozen cookies.

Thornton Wilder, winner of the Pulitzer Prize of 1938 for the play "Our Town," attended a boarding school for missionaries' sons in China.

ACTRESS—This is a recent photo of Eibel Barrymore, long famous as an actress of stage, screen and radio.

The dragonfly folds its six spine-fringed legs together to form a net when in flight.

Mark Wentz Insurance Agency now in new location, 407 Runnels.

Local Schools Need Housing Listings To Obtain Teachers For Next Term

Schools do not open until Sept. 3, but that doesn't prevent Superintendent W. C. Blankenship from fretting.

His current problem—and an omnipresent one since the outset of the war—is completion of the faculty.

At the moment, there are some 20 places to be filled.

By no means this many places are going begging, for several can be filled with substitutes, or with teachers lacking on degree requirements. Moreover, the system has several applications, some of which look promising.

Two primary obstacles retard progress on filling vacancies, however. They are housing and salary levels. Considerable progress has been made in remedying the salary situation, but while Big Spring has been doing something about the pay level, other Texas communities have not been exactly asleep. Nevertheless, Big Spring is in a sounder position, relatively speaking, than at any time in recent years.

Housing is a prime consideration. Some applicants, satisfied on salaries and working conditions, have been reluctant to fight the house-hunting battle. Residents could be helpful in this respect by listing apartments and rooms with the superintendent so that he can answer this question.

Financial position of the schools promises to be improved, temporarily at least. Prospects are that the system will finish the year well under its budget. In addition, it is probable that a \$6 supplemental appropriation may be paid on the 1945-46 roll. Next year's appropriation has been fixed at \$35, which will help the situation.

The Royal Canadian Mounted Police was organized in 1873, when it was known as the North West Mounted Police.

In ancient China, when a guest entered a home he was given a leather glove as a symbol of welcome.

Tigers Prepare For Angelo Club

With a 15-8 victory over the Midland Colts Sunday to pep them, Elias Gamboa's Tigers are hard at work in preparation for their encounter here Sunday against the strong San Angelo team.

The San Angelo Greyhounds bested the Tigers 6-1 in an encounter the latter part of May, and Gamboa indicated he will pitch Rod Roman against the invaders.

Originally, the Tigers were scheduled to have met the Anson team here Sunday, but switched to Midland when the Jones county team could not come. Cha Mendoza was on the mound for the Bengals, outlasting his former teammate, Cha Montanez, who the previous week had bested the Tigers, 14-2. Montanez, who was belted hard, had to retire in the fourth. In all, the Tigers collected 13 hits to seven for Midland, every member of the club collecting at least one safety.

Midland grabbed the lead with a four run outburst in the first, but the Tigers came back with a tally in their half. Midland picked up another in the second and then gave up the ghost in the wake of a seven-run uprising by the Tigers in the second. Thereafter, Big Spring scored in every inning, except the sixth.

Frozen Salad--Antidote For Warm Summer Days

FROSTY DELIGHTS ... Ice-box salads ...

By CHARLOTTE ADAMS
Associated Press Food Editor

Did you ever freeze a salad for summer? Doesn't it sound cool for a scorching day? It is, and you ought to try it. Below we give you some recipes to serve eight because we think these are such nice partyish coolers that you'll want to serve them to friends.

Frozen Water Cress Fruit Salad
½ cup evaporated milk or cream
1 teaspoon unflavored gelatin
2 tablespoons water
½ cup (3 ounces) cream cheese
3 tablespoons lemon or lime juice

¼ teaspoon salt
¼ cup mayonnaise
2 cups white grapes
¼ cup maraschino cherries
1 bunch water cress

Chill evaporated milk in refrigerator tray until almost frozen. Soften gelatin in cold water, place over hot water until entirely melted. Mash cream cheese at room temperature. Stir in lemon juice, salt and mayonnaise. Place milk in chilled bowl and whip until stiff. Stir in melted gelatin. Add milk to cheese mixture. Cut grapes in half, maraschino cherries in quarters and fold in. Add water cress, stems cut in 1/16 inch lengths, leaves cut medium fine. Place in individual paper cups or molds. Freeze in freezing compartment of automatic refrigerator or in a freezer.

Pineapple-Nut Frozen Salad
¾ cup evaporated milk or cream
1 teaspoon unflavored gelatin
2 tablespoons water
¼ cup (3 ounces) cream cheese
3 tablespoons lemon or lime juice

¼ teaspoon salt
¼ cup mayonnaise
1 cup canned pineapple, crushed
¼ cup pecans, finely chopped
1 bunch water cress

Chill milk in refrigerator tray until almost frozen. Soften gelatin in cold water, place over hot water until entirely melted. Mash cream cheese at room temperature. Stir in fruit juice, salt and mayonnaise. Place milk in chilled bowl and whip until stiff. Stir in melted gelatin. Drain pineapple and crush. Chop pecans fine, fold in pineapple and nuts. Add water cress, stems cut in 1/16 inch lengths, leaves cut medium fine. Place in individual paper cups and freeze in freezing compartment of automatic refrigerator or in a freezer.

Avocado Salad
1 bunch water cress
2 cups avocado
¼ cup lime juice
¼ teaspoon salt
½ cup (6 ounces) cream cheese
2 teaspoons unflavored gelatin
¼ cup water

Cut water cress stems in 1/16 inch lengths, leaves medium fine. Mash avocado. Add lime juice and salt. Mash and add cream cheese. Mix thoroughly. Soften gelatin in cold water, place over hot water until entirely melted. Stir into avocado mixture. Add water cress and stir it in lightly. Pack in individual paper containers and freeze in freezing compartment of automatic refrigerator or in a freezer.

McDaniel Discusses City Water Supply At Lions Luncheon

Lions were told Wednesday about water problems in West Texas and more specifically in Big Spring.

Giving a talk he had presented before other service groups, B. J. McDaniel, city manager, reiterated his belief that the ultimate anticipated population of any city or group of cities would determine the point of source.

In the past, he said, the city supply has been expanded by necessity through growth, and if present rates of growth are maintained, further expansions will have to be made.

The city is planning on developing wells in Glasscock county and a small surface supply between Moss and Powell Creek lakes to put another half to three-quarters of a million gallons daily in the reserve, he said.

One long range development which has been proposed, he continued, is the creation of a lake on the Colorado River with the objective of furnishing up to 30,000,000 gallons daily for five cities (Snyder, Colorado City, Big Spring, Midland and Odessa). This, the speaker explained, possibly would be undertaken as a district project and financed through water revenue bonds so that tax rates would not be affected.

In any event, he concluded, water supplies must be adequate for growth, and the solution of the problem should be based on realistic study of facts.

Mrs. Bill Greise and Helen Duley favored with two piano duet selections. Harold Steck presided.

Boren Asks Vets To Obtain School Certificates Soon

Veterans planning to attend school this fall were urged today to obtain their certificates of eligibility and entitlement, by Ray Boren, local contact representative for the veterans administration.

"In order to draw subsistence checks and have books paid for by the government, veterans must have these certificates," Boren said. "The certificates show that the veterans are entitled to certain educational benefits under the GI Bill of Rights."

Boren advised veterans to secure their certificates now to be sure that they will be available by registration time this fall. The local contact office, room 206, Petroleum building will assist veterans in filling out proper forms. Photostatic or certified copies of discharge are required with the application for certificates. These and any other recorded documents

BROTHERLY KISS—The Bramlett twins, Donald (left) and Ronald, of Detroit, Mich., give each other brotherly kisses as they prepare to celebrate their second birthday.

necessary will be required by the contact office without cost to either the veteran or VA, Boren said.

Tantalum, an inert, heavy metal, is unaffected by most acids, melts only at 2900 C., and is as hard as steel.

Camp Wallace Slated To Close On Sept. 1

WASHINGTON, July 25. (AP)—Among the 29 separation centers to be closed by the navy on Sept. 1 will be the separation center at Camp Wallace, Texas.

Any remaining demobilization will be handled by naval stations and hospitals.

Highway Is Closed
McALLEN, July 25 (AP)—The international highway between McAllen and Reynosa, Mexico, will be closed, effective today, during construction work on two bridges over the federal floodways near the Rio Grande, J. W. Puckett, division engineer for the State Highway Department, said.

Gulf-To-Africa Sea Routes Are Sought

WASHINGTON, July 25. (AP)—Two steamship companies have asked the maritime commission for authorization to establish a permanent peace-time route between gulf coast ports and South Africa and East Africa.

Ben M. Bloomfield of Houston, Texas, head of the newly organized Bloomfield Steamship Co., of Texas, told the commission there was ample commerce through Texas and Louisiana ports and destined for Africa to justify the proposed service.

He said his company would buy three and possibly four new C-2 type cargo ships, which have a speed of about 71 knots compared with 10 to 12 knots for a Liberty ship, if it is authorized to establish the service.

Lykes Brothers Steamship Company, which operates various routes over the world, was the other applicant for contract to operate permanently from the Gulf of Mexico to Africa. It has been operating monthly service on the route since January, 1941, under war time arrangement.

A forerunner of the internal combustion engine was a French model which ran by "inflammation of spirit of tar," as benzene was known in 1809.

WAITING FOR AN OWNER—These two attractive young women are getting a first-hand view of the 1946 Buick 4-door sedan, one of three Buicks heading the list of 653 prizes in an essay contest sponsored by Robin Hood flour. Prizes totaling \$37,000 in value include radio-phonographs, mechanical refrigerators, home freezers, washers, electric mixers and toasters and electric irons. Entries must be mailed before midnight, August 10.

San Quentin Movies Crowded, Too; They're Big Events For Prisoners

By HOWARD C. HEYN
HOLLYWOOD, July 25. (AP)—Bob Hope marched into the death cell at San Quentin. And Warden Clinton Duffy was on hand to see that the proceedings were authentic.

Mr. Duffy was invited by Paramount to supervise prison sequences in "My Favorite Brunette." It was his first trip to a movie studio, although he has advised many companies on such scenes.

The handsome middle-aged warden was intensely interested in the photographic proceedings and more than willing to report on the movie situation in his prison. "We show our 4,000 inmates movies on Saturday," he reported. "There are three showings: Noon, three p. m. and seven p. m. "Movies are big events for the prisoners," he said, "and they stay on their good behavior lest they lose their privilege cards, for without those cards they see no movies. "Their favorite types of films are, in order, drama, comedy, musicals, and westerns. "No crime pictures are shown, and the westerns are not the "shoot-em-up" variety. "I asked whether he would sanction the Hope picture for the inmates, since it depicts the prison and death-row. "The men have asked to see it," he said. "And Bob Hope suggests that it be premiered at the

prison. I think it will be o. k." In case you have any notions about moving to San Quentin just for the movie, forget it. Warden Duffy has a housing problem too. The number of inmates is nearly double the designed capacity.

Water Projects Approved, But Have No Funds

WASHINGTON, July 25. (AP)—Two bills authorizing about \$2,000,000,000 in flood control, navigation and water power projects were signed yesterday by President Truman but he emphasized he would be slow to signal for a start on the work.

Funds have not been set up for the projects and Mr. Truman said he would request none this fiscal year. He took the bills as primarily to help plan future programs with "no expectation of early appropriations."

Furthermore, the president said in a statement, the new projects offer "many unanswered questions." We won't approve their fund allocations, he said, until they are answered and all federal agencies concerned are agreed on technical features.

The government now has "a shelf of projects that will take us many years to complete," the president said "the program must be re-examined annually."

"Financing, whenever made, must be based on budgetary requirements for that period," Mr. Truman said. He repeated his recent declaration that federal expenditures "will be reduced and deferrable construction and public works projects using federal funds will be studied with a view to saving strategic materials and to diminishing inflationary pressures."

Bellarius, famous general of the later Roman Empire, smeared hogs with oil, ignited them, and drove the blazing porkers into the ranks of the enemy.

PIGGLY WIGGLY We Reserve the Right to Limit

Congress Needs More Like Mahon

The Herald has been interested in the campaign of George Mahon for re-election as representative from the 19th congressional district.

This interest has been based upon the qualifications which we believe public servants should possess. These include ability, integrity, energy and character. Beyond this, we believe that the people should examine the finished product as reflected in the record.

If a man measures up well on these points, then the matter of seniority should be taken into consideration.

Taking all these attributes into consideration, we do not know where the people could turn to find a man who measures and has measured up so effectively as George Mahon. We are persuaded that the House would be a more effective instrument if all its members were of the calibre of George Mahon, and that the best way to progress toward this goal is to keep good, experienced men on the job.

The other day when Rep. Luther A. Johnson, Texas, resigned his position in the House to accept a federal judgeship, he pointed out that "the member who comes here to serve only a short time cannot do justice to himself, his constituents and his country."

"Service in congress, to be at its best,

should in the nature of a career . . . Seniority may have its abuse and objections, but it is necessary to encourage and require length of service which is highly desirable for the country's good."

Because he has not sought out the spotlight, there may be those who labor under the misapprehension that our congressman has not achieved, yet the record will bear out the fact that George Mahon, for his length of service, has accomplished an outstanding and constructive service for his district and nation.

It is to be noted that he has been able to be most effective in recent years as his experience and seniority placed him in new and responsible places. Under the system of rules in the House, he is just now attaining the rank which will unfold new and great opportunities for service. To undo all of this in the face of a record for ability, energy, integrity and courage, would be, we believe, a regrettable and costly mistake.

It is not the intention of The Herald to tell anyone how to vote. It is our intention, however, to speak out on matters that concern us as a community, district, state and nation. It is in the spirit of seeking to discern those things which will serve us best that we point to the man and the record, without apology and with great pride, in looking toward the return of George Mahon to congress.

The Nation Today—James Marlow

Hundred Million Dollars For Cancer

(Editor's Note: This is the second of two stories on the cancer problem and a congressional proposal to do something about it.)

WASHINGTON, (AP)—There's a bill in Congress to have the government put up \$100,000,000 to find the cause and cure of cancer. Nothing may happen. Congress is in a hurry to go home.

Briefly, here's the story:

A good deal of cancer research is being done by specialists, by private hospitals and laboratories, and by the government's research center, the National Cancer Institute.

Total money to be spent this year for cancer research by private sources and the government's cancer institute will be about \$4,500,000. The institute's share roughly is \$1,000,000.

If Congress voted the \$100,000,000, the government could use the money for coordinating the work being done in the field and starting new work—in this country and in other countries.

President Truman is authorized in the bill to start the program by calling upon the outstanding specialists of the world to throw all their efforts into the search for a cancer cure.

The money would not all be spent in one year. There's no time limit on when it could be spent. More money might be needed later.

The problem is so huge that Dr. Thomas Parran, surgeon general of the U. S. Public Health Service, says:

"Barring some unusual, and certainly unforeseen, combination of circumstances, a vast amount of new knowledge must yet be acquired before the problem can be solved, xxx"

For the information of anyone who might feel that \$100,000,000

is too much money to throw into the cancer problem, a Senate subcommittee which approved the bill said:

"Estimates presented to the committee indicate that the minimum cost of care in the last year prior to death (from cancer) is about \$1,000 per patient. "The total cost of medical care in any particular year for all suf-

fers from cancer would probably be around \$600,000,000. The economic loss, one witness testified, would amount to as high as \$900,000,000 a year."

Cancer research requires the teamwork of biologists, chemists, physicists, pathologists, bacteriologists, diagnosticians, surgeons, radiotherapists, and other professional people.

Hal Boyle's Notebook

Heat Wave, Sweet Wave

NEW YORK — I rarely blink at things, however surprising they may appear, but when Gene Krupa started sounding off in favor of sweet music, as opposed to the shattering rhythms with which he has bombarded listeners for a pair of decades, I'm afraid I was guilty of a definite double-take.

"Nope," said Gene. "I'm not going mushy. The era of blatant swing is passing. Bands are putting their emphasis on sweet, danceable melodies. I've changed my band around a little. Now I'm just another drummer in a very good band. Of course, I'll do a few exhibitionistic drum acrobatics for the convinced jitterbugs. They pay our salaries, too. But I think audiences are getting away from the purely orgiastic stuff."

The way this converted hot-jazz practitioner explains things, it looks as if dance bands may go back to their original purpose—to play music for dancing. For a good many years, swing orchestras played practically in concert, with a few antic members of some sort of dance-floor track teams doing leaps and jumps on the edges of things while the rest stood hun-

dreds deep in some cases just listening.

Gene says that the jazz tunes aren't done, though. "The best jazz tunes are good music basically, with excellent chords, interesting intervals and bright and surprising changes, like 'Blue Skies,' he says. "They can be turned to good melodic advantage just as they formerly were turned to exciting and interesting rhythmic ends."

Gene thinks the old emphasis on live helped educate the public, particularly youngsters, to appreciate jazz. It is exciting as played in the old style, and brought the kids into the swing fold to follow music with a fascination which made Hamelin's Pier Piper take a second-balcony seat. The sweet stuff is a natural pendulum-swing, but he doesn't think the trend will be overly sticky-sweet; a sort of concerned jazz, with strings and such instruments as oboe, bassoon, flute and French horn to add color and breadth to the formerly constricted styles, is a natural next step.

After a deep understanding and appreciation of the arrangements of David Rose, Paul Weston and Alex Stordahl, leaders in the rising interest in symphonic swing, the erstwhile swing bugs who once stood pop-eyed at a Krupa drum solo might even work up an interest in Bach instead of the narrow confines of Boogie-woogie; in Beethoven instead of the more basic bombast once practiced by the Krupa cult; and instead of the choked and strangled saxophone solos, maybe even a little Chopin will be more decently appreciated.

But it still sounded a little like heresy, coming from Krupa.

Telegraph communications between the Soviet Union and foreign countries increased from 32 million words in 1940 to 82 million in 1944.

THE ROAD TO PEACE

Broadway—Jack O'Brian

Bolger Likes New York

NEW YORK—"A lot of people think I'm nuts, knocking myself out in all this New York summer heat, capering through a show, but I'm having the time of my life," Ray Bolger told me the other night as he was getting a rub-down in his dressing room after a performance of his revue, "Three to Make Ready."

"New York actually is an ideal town to spend a summer in," explained the gracefully gangly dancer. "I wouldn't do it, of course, if I didn't like it and it didn't pay good dough. Of course I could get more money in Hollywood. But then I wouldn't have live audiences and wouldn't hear real laughs. I guess I'm still a ham at heart."

Ray took a drag on a cigarette and went on to explain why he likes New York in this torrid weather. Fifth Ave. at night, says Ray, is cool. And he likes to look in store windows.

"Where in the world can you see such windows? Not Paris or London any more."

"And I get a boot out of ball games afterwards, and a little golf," he went on.

"Sure, the pavements are hot in the day. But I'm a night worker and I sleep late. "I like good music, all kinds, sweet, hot, classical. I can't get to ball games nights, but I have a radio backstage for between scenes while I'm dressing or just waiting. The kids in the show and the stagehands hang out in my dressing room to hear the music and cut up touches, and I like crowds like that. It's a regular coffee klatch each night."

"But to get back to New York as a vacation spot, I don't know why so many people chase out of town every summer. Good beaches are close by and there are all sorts of indoor pools. I'm no longhair, but I do like to go to the Modern Museum and the Metropolitan Art

Museum occasionally. And I love having friends from all over the country dropping in on me. They all eventually get to town and when I'm playing in a show it's easy for them to find me."

"Sometimes I sound like a real tourist," Ray said. "I like to take that Staten Island ferry ride at night, sometimes real late so I can see the Statue of Liberty at dawn. And I catch a few Thursday matinees and do a lot of walking."

"It's nighttime normal living at its best, and I'm a nighttime guy, take it easy in the day and work after dark—that's normal for an actor. Yes, I like New York in the summer. And there always are the air conditioned joints if the heat really gets too tough."

At which point Ray was all rubbed down, dressed and ready for his night's fun, like a kid out of school looking for his pals.

Drainage Channels For Valley OK'd

MALLEN, July 25. (AP)—Three hundred miles of drainage channels, for protection of the Rio Grande Valley's \$200,000,000 citrus orchard investments, and the route for a proposed gravity irrigation canal from Zapata county to the gulf were approved by a board of review of the U. S. Bureau of Reclamation.

Wesley Nelson of Amarillo, regional bureau director, said the size of the drainage channels remains to be determined but estimated the system will cost \$10,000,000. Costs for the channels and the canal were estimated at \$63,000,000.

Washington Merry-Go-Round—Drew Pearson

Company Praised After Fraud Known

WASHINGTON — The Mead committee, which has done such an excellent job of probing Congressman May and war profiteering might do a little further digging into phony E-wards and possible connections with the Kentuckian who still chairs the house military affairs committee.

Specifically, they might examine an E-award given to General Tire and Rubber company, the very same company which got May's nephew out of the army after he had been in only nine days, and is still paying him a juicy salary.

If the Mead committee should probe deeply enough they would unearth the following amazing facts:

General Tire and Rubber had a contract with the army to make pneumatic floats for the army engineers. These were big rubber bags which were inflated with air and used to hold up pontoon bridges. The famous crossing of the Rapido river in Italy and almost every military crossing of water was done by pontoon bridges supported by rubber floats. These rubber floats, of course, had to be absolutely airtight.

Fraud on Army

However, when General Tire floats were tested by the army engineers—in advance of acceptance—it was discovered that General Tire employees would deliberately pump up the floats during the night, thus deceiving army inspectors.

The floats were required to maintain a certain pressure for 24 hours, and when the pressure would go down, General Tire people would pump them up while army inspectors weren't around. This fraud finally was discovered, and a report very critical of General Tire was filed by army engineers. The army also secured confessions from about 20 General Tire employees.

Despite this discovery of deliberate fraud, General Tire later was awarded the much coveted E, supposed to go only to companies performing the highest war service.

Furthermore, not only was the fraud hushed up, but afterward, General Tire and Rubber company was given a lush contract at Huntington, W. Va., where Congressman May's nephew, William H. May, occupied a mysterious but very profitable role, working for General Tire.

How much, if anything the chairman of the military affairs committee had to do with this is not known. However, the whole thing would bear investigation. In another case, it is known that May pulled wires to get an E for his friends, the Erie Basin company, overriding the recommendation of army officers who opposed the E.

In the case of General Tire, several army engineers who knew the real truth about the rubber pontoon floats, were vigorously opposed to the E award. But their recommendation also was overridden.

Truman's Support Backfires

Old-line democrats back in Jackson county, Mo., are dead certain that President Truman's public endorsement of Enos Axtell coupled with CIO-PAC support has virtually assured the renomination of Kansas City's Roger C. Slaughter in the Missouri primary

August 6. They are equally certain that a republican will defeat Slaughter in the final elections.

Albert L. Reeves, Jr., republican son of a Harding-appointed federal district judge in Kansas City, is the man expected to win out next November.

Truman's old friends back home are really sore. They say he injected the nation's highest office into the dirtiest political fight Missouri has had in 10 years, at a time when democratic leaders were attempting to promote harmony among the various factions.

For years FDR tried to purge his home congressman, GOP Ham Fish, and finally accomplished it with republican and Tom Dewey support. Truman, therefore, felt he had a right to intervene in Kansas City home politics.

Here's how the whole thing happened: Shortly after Jerome Walsh, former OPA attorney, announced he would oppose Slaughter, CIO-PAC of Kansas City and other local labor unions indicated they would support Walsh's campaign. No public endorsement was made, however.

Truman, apparently figuring PAC support would do more harm than good, sent word back home to dig up another candidate. It was his brother, J. Vivian Truman—who has a habit of balling things up—who selected Axtell, virtually an unknown in county politics. Axtell is from rural Jackson county and once served as an assistant county prosecutor. Truman pressured James Pendergast and the powerful democratic machine in Kansas City endorsed Axtell's candidacy.

This turn of events and the ditching of the PAC pleased the president—that is, until PAC voted 14 to 6 to drop Walsh and hop on the Axtell bandwagon. Which it did.

Note—Support for Rep. Slaughter is terrific among women's organizations. Mrs. Nell Donnelly Reed, wife of the late Senator Jim Reed, is leading the Roosevelt-hater, a bitter

Group Inspecting Club Steers On Feed

A group of Big Spring businessmen joined farmers and 4-H club members today in a tour to inspect club steers on feed in Howard county.

Leaving the county agent's office this morning, the day's itinerary was expected to include stops at 34 farms, where the visitors were to see about 80 club steers. Despite difficulties in securing feed supplies, Howard county club members are feeding 98 steers in preparation for the fall and winter livestock show season, County Agent Durwood Lester said.

AUSTIN, July 25. (AP) — Dr. James Blanton Wharey, 74, University of Texas English professor since 1912, died yesterday in Davidson, N. C. He had been in ill health for a year.

Governors Of Texas—

Ross' Terms Quiet, Progressive, Marked By Prohibition Struggle

(This is the seventeenth in a series of articles based on the lives of the governors of Texas.)

By PAUL BOLTON

AUSTIN—Except for one incident, the two administrations of Texas seventeenth governor, L. "Sul" Ross, were remarkably quiet to have been a part of Texas history before the turn of the century. However, the life of Governor Ross was by no means quiet. When Texas elected Ross as governor in 1886 they returned to the soldier-statesman type of man. Ross is better known for his military prowess than for his two terms as governor of Texas. There was never much doubt about whether Sul Ross would become governor after his nomination. He had two well known opponents, D. C. Giddings of Brenham and Marion Martin of Corsicana but opposition to the "Little Cavalryman" was useless. He was re-elected in 1888 and held the office until Jan. 1891. T. B. Wheeler was his lieutenant governor.

Ross had two administrations that are best described as "the era of good feeling" in Texas. Taxes were at their lowest point since the Civil war. The frontier was

A. L. "SUL" ROSS

quiet and relatively safe for the first time in the history of the state. Ross himself was an old Jeffersonian democrat, and like Jefferson, believed that government is best which governs least. He believed strongly in free enterprise and thought that governmental paternalism lead to the end of personal liberty and the decay of democratic institutions.

That's why he took the stand he did when the one "hot incident" of his administration broke out. A prohibitionist movement set the state to boiling in 1887. Ross took no part but he's known to have opposed the movement because he felt that prohibition legislation was a case of too much government interference in personal liberties.

Texas voted down prohibition with a flourish, by more than 100,000 votes, but some feelings were pretty badly mangled. A noted Baptist, Dr. B. H. Carroll of Waco, led the prohibition movement. Senator Roger Q. Mills of Corsicana headed the opposition. When Dr. Carroll and Senator Mills tangled in a debate in Waco, the senator said, "Hell is so full of preachers like Carroll that their legs are sticking out the windows."

Except for the prohibition battle, the Ross administration was one of progress. The state capital building was finished, and Texas educational institutions were given plenty of aid. The only new measure Governor Ross instituted during his two terms were such "homey" things as having the legislature declare an "Arbor Day" to encourage the planting of trees and the study of forestry.

Ross was one Texas governor who grew up in Texas. He came to Texas from Ohio at the ripe old age of a few weeks. His father, Shapley Ross, settled at a spot where the city of Cameron now stands. Later he moved to Austin and then to the "proposed city of Waco," once the principal village of the Waco Indians. Ross almost didn't grow up to be governor of Texas. He was twice captured and held by Indians and once his father carried him on his back while outrunning a group of Comanches. The elder Ross managed to reach his cabin safely with the boy on his back. After receiving an education in Austin and in Alabama, Ross gave way to his ambition to be a Ranger. He fought with Col. "Rip" Ford's famous Ranger forces on the border. He gained fame as an Indian fighter in the bloody battles of Antelope Hills, Wichita mountains and Pease River.

When the Civil war began, Governor Ross enlisted as a private and in the course of 135 battles and engagements worked his way up to brigadier-general. Ross had more fighting to do during Reconstruction times. Most of the desperate men in the US poured into Texas following the close of the Civil war. In 1873, Ross was petitioned by the people of McLennan county to serve as sheriff. He did and cleaned out the "six-shooter lawmakers" in that Texas county.

Before his election as governor, Ross served in the Texas senate. At the close of his second term in 1891, he was made president of Texas A&M. He died on Jan. 4, 1898, while head of Aggeland. He is buried in Waco where he grew up when that city was "the proposed city of Waco."

Dairymen Assemble

TUPELO, Miss., July 25 (AP) — More than 750 dairymen from Mississippi, Tennessee and Alabama were expected to participate in the Mississippi Jersey Club's field day today.

Herman Heep, president of the American Jersey Cattle Club and owner of the Heep Jersey Farm at Austin, Tex., will speak at the dairy assembly.

On KBST

Curley Bradley, above is the star of KC Baking Powder's newest feature, "Westward Ho", heard Mondays through Fridays from 6:55-7:00 a. m. on KBST. In each of these five minute programs, Bradley gives a song story of the West, singing one of the best loved western songs. He is accompanied by the famous organist, Irma Glen, with just enough guitar accompaniment added to give the tang of the campfire.

Bradley, nationally known actor-singer, is also known for his portrayal of "Tom Mix", and for his appearances on the "Breakfast Club", "K C Jamboree" and many other similar programs. (adv.)

Propose New Study Of Livestock Quarantine

LOS ANGELES, July 25 (AP) — The Mexican-United States agricultural commission recommended today that veterinary experts of the two nations investigate animal disease conditions in Mexico and that if no evidence of hoof and mouth disease is found, the United States revoke its livestock quarantine against the southern neighbor nation.

The commission recommended that in future, the two governments require that all cattle, other ruminants and swine from infested territories be entered through an international animal quarantine station to be established by the United States on Swan Island, in the Caribbean, or another mutually acceptable location.

Bigger Sugar Supply Sighted Next Year

WASHINGTON, July 25 (AP) — Secretary of Agriculture Anderson told President Truman today there'll be more sugar on grocer's shelves early next year as a result of the sugar contract he negotiated with Cuba.

Just back from Havana, Anderson went to the White House to report on the deal for purchase of the 1946 and 1947 Cuban crops. In talking to reporters later, he would not forecast how much longer he thought sugar rationing would be necessary.
