Yes, there are already too many laws, but we'd like to see just one more squeezed in to prohibit a woman from suing her husband for alimony before the last installment is paid on the wedding ring.

The sphere of influence of the average town has been greatly increased by the development of the automobile. Where in years past it required a day off to travel 15 or 20 miles to town, it now is a matter of small moment. This was attested to many times last week when people from surrounding towns and communities attended the shows here, coming 30 miles and more. It is up to every town which wishes to be a live one to manage in some manner to bring the people to town from as long a distance as is possible.

The National Industrial Conference Board, Inc., finds that the American wage earner is the best paid worker on earth. On a chart showing what labor will buy of all the comforts of life, the wage scale of Philadelphia was taken as 100 per cent. On this basis wages in foreign cities and countries are as follows: Philadelphia, 100; Sydney, Australia, 70; Ottawa, Canada, 69; London, 45; Copenhagen, Denmark, 41; Oslo, Norway, 38; Amsterdam, Holland, 37; Stockholm, Sweden, 36; Paris, 33; Berlin, 29; Prague, Czechoslovakia, 29; Brussels, Belgium, 28; Lodz, Poland, 27; Rome, Italy, 23; Vienna, Austria, 23; Warsaw, Poland, 23; Milan, Italy, 21.

In the honors accorded to the late William Jennings Bryan there is a lesson for every young man who is looking forward to success in life. The homage the great in all parts of the world paid to the Commoner, was the honor that thinking men extend to sincerity. Most people disagreed with many of the causes that Bryan championed. He was too forcible in his statements, too firm in his convictions to win general agreement from others. Throughout his 30 years in public life we find him uncompromising in his position on great issues. He cared little whose toes he trod upon. He was true alone to his own convictions. But he was always sincere. He fought for reforms he felt would benefit the great majority of his fellow countrymen. He never hesitated to take an extreme position once convinced that the welfare of the greatest number of his own citizens was at stake. For this sincerity and courage and for the ideas and causes he advanced the great and near great throughout the world with one accord united in doing honor to his memory. This gives the lie to the philosophy that says success is achieved through hypocrisy, insincerity, and mental dishonesty.

We shudder at the thought of a hanging. It seems barbarous, a relic of a more brutal age. This causes us to lose sight of the true issue at stake in an affair like the Russell Scott case in Chicago. Capital punishment is the law of Illinois. It is the extreme price paid for the crime of murder. When a criminal is found guilty after due process of law and sentenced to hang, why then should the reformers, the sentimentalists, and the meddlers immediately set up a wail for the protection of the condemned man? If capital punishment is wrong the wail should be presented to the state legislature, and then the law might be changed. But so long as hanging is a penalty prescribed by Illinois, criminal codes, just that long hanging should be the price of murder. Chicago's crime rate is abnormally high. More than 150 murders occur in that city every year, and the crime rate is increasing. The sentimentalists and meddlers instantly never consider the barbarousness of the situation? The sympathy should go out to the family of the victim instead of to the murderer. More strict enforcement of the law is needed in Chicago as elsewhere.

Among Our Exchanges

Spearman Reporter: An Ohio college professor makes the statement that people could not get along at all without lying. We have never tried to get along without lying a little occasionally, but we believe the professor is correct.

Randall County News: "We promised you rain, so here it is," the Wellington Standard told its readers recently. Thus has another newspaper demonstrated real leadership in its community. With a little luck and lots of nerve, almost any enterprise can be put over.

McLean News: It is easy to tell the merchant who does not believe in advertising by visiting his store, observing the old goods on his shelves and listening to his hard luck story. Regardless of one's opinion of the merits of advertising, the fact remains that the man who advertises is the man who enjoys the trade and stays in business after his non-advertising competitor is forgotten.

Panhandle Herald: Senator Burkett, of the State Highway Commission, thinks the Plains country the ideal part of the State for highways of the highest class and predicts that the Panhandle will be the mecca for thousands of tourists in the summer because of the fine highways and the usually delightful summer climate.

Higgins News: Leopold Schepp, an eastern philanthropist, wanted to give away several million dollars to worthy causes, and to aid him in the distribution of his money he called on the general public for suggestions. As might be expected, he got so much advice that it would take a Philadelphia lawyer to carefully weigh it all and come to a sane and sober conclusion. And now it is up to Mr. Schepp to devise ways and means of getting rid of his surplus wealth. Free advice may be of value sometimes, but as a general rule it is worth what it costs—nothing.

Chillicothe Valley News: We would rather meet a drunk man driving an auto, than just a plain dumphop. The latter tears by you at 50 miles an hour, his car swaying from side to side, endangering the lives of all those who happen on the road with him, and there seems to be no relief from his work. There is no manner in which he can be reached. Of course he will, in the course of time, meet death in his reckless racing, but the trouble is that he will probably take several souls with him on his journey to the other world. That is the pity of it.

Memphis Democrat: Again the newspapers are taking up the slogan, the "Green Belt," and as usual is likely to cause criticism or claims in other parts of this country. In the early days when Indians roamed this country they found a fertile section of country which they named the Green Belt, because at all times it was covered with green vegetation and many times when other parts of the country were parched and which they called the "white belt." This "green belt" covers Hall, Donley, Gray, Wheeler, Collingsworth and Childress Counties, or a part of most them and all of some of them. One can not blame all the other counties of the country for wanting to be included in the Green Belt—the best section of Texas; but some old Indian may come along and tell them about the White Belt.

A few years ago the secretary of a commercial organization in Columbus, Miss., began to wonder how many times a dollar changed hands in his community in a single year; so he took a number of dollars, pasted a slip of paper on the back of each, and started them out through the regular channels of trade. On these slips appeared instructions to pass the dollar along in the usual way and check it when it went to the next party. At the end of the year each of these dollars was returned to the secretary by the local bank, and it was found that on an average each dollar had passed through 220 different hands during the course of 12 months. If one could interview one of those dollars he would have received about such a travelogue as this: "After I left you I went directly to the grocer's till. My visit there was brief, however, for a farmer entered the store with a crate of eggs, and the grocer turned me over in exchange. I thought I was going to get a little trip to the country, but I never left Columbus, for my farmer friend took me down the street a short distance, and turned me over to the shoe dealer. Well, I can't take time to tell you about all of the fine people I visited during the year, but I remember that one was the minister, another a workman helping to build the new pavement through the city, another a school teacher, who received me in exchange for instruction given to your children. I also visited a doctor, a lawyer, and a man working on the new community house. I spent some time in the bank and earned a little money while there for some of my friends. I feel that I have brought a considerable amount of happiness to the people of Columbus during the year, and I am ready to go out now and put in another strenuous year helping to build up worth while things in the community."

When the Brotherhood of Locomotive Engineers went into the banking business about five years ago, it was regarded by many bankers as an experiment in socialism. The Brotherhood now controls banks in ten cities, with \$68,600,000 resources and six investment corporations with \$17,000,000 paid in capital. Instead of rapidly expanding the number of banks, it is the policy of the Brotherhood to build up those already controlled. Experience has made the members highly conservative. In their combined capacities of workers and bankers, owning in many cases the securities of the corporations whose trains they run, the Brotherhood members have had a look at both sides of the labor and capital question.

It is a recognized fact that moderate surtaxes would be more productive of revenue than the present schedules. Productive business is discouraged by exorbitant surtaxes and capital is driven into tax-exempt bonds. There was a time when the small tax payer did not understand that the general prosperity of the country was diminished by imposition of these excessive surtaxes, and welcomed a still levy on incomes in the higher brackets. The average citizen is now better informed and knows that general business conditions are not improved by driving productive business into tax-exempt securities. The capital is kept out of productive enterprise by excessive taxation, this unnatural diversion yields no revenue to the government and is costly to industry. A man is not interested in risking his money and energy in an enterprise where, if he wins, the government takes a great part of the profits in taxes, and if he loses he stands the whole of the loss. Initiative and new ventures are penalized by such a policy.

CITY ORDINANCE NO. 49

An Ordinance prescribing rules regulating the use of vehicles upon the streets, avenues, alleys and highways of the City of Pampa, Texas, and regulating the driving of motor vehicles in the City of Pampa, Texas, and providing that vehicles shall not be permitted to obstruct the streets, avenues or alleys of the City of Pampa, Texas, except as herein provided; and declaring a violation of any of the provisions of such ordinance to be a misdemeanor and providing a penalty therefor, and repealing all ordinances or parts thereof in conflict therewith.

Be it ordained by the City Council of the City of Pampa, Texas:

Section 1. It shall be the duty of persons driving or operating or having charge or under their control or custody any vehicle upon the streets, avenues, alleys and highways within the city limits of the City of Pampa, Texas, to observe and conform to the following rules and regulations:

(a) The word "vehicle" as used herein shall include every wagon, buggy, carriage, omnibus, pushcart, automobile, tractor, motor bus, motorcycle, bicycle, side car, motor truck and every other conveyance, in whatever manner driven, operated or propelled.

(b) Every person operating or driving a vehicle within the corporate limits of the City of Pampa, Texas, shall operate same in a careful and prudent manner and at a rate of speed not greater than is reasonable and proper and having due regard for the traffic and use of the streets, avenues and alleys of said city; and no person shall operate, drive or pass any other motor vehicle, person or thing, on any street, avenue or alley in the corporate limits of the city of Pampa, Texas, as such rate of speed as to endanger the life or limb of any person or the safety of any property; provided that it shall be unlawful for any person to operate or drive a vehicle upon the streets, alleys or avenues, or upon any street, avenue or alley in the corporate limits of the City of Pampa, Texas, at a rate of speed in excess of 18 miles per hour.

(c) The regulations as to the driving of vehicles in the City of Pampa, Texas, contained in paragraph (b) of section 1 of this ordinance shall not be held to apply to fire patrols or motor vehicles operated by the Fire Department of the City of Pampa, Texas, responding to calls, nor to physicians responding to emergency calls.

(d) No vehicle shall be placed upon any sidewalk and left standing thereon so as to obstruct the free use of such sidewalk.

(e) Abandoned motor vehicles, or motor-driven vehicles or tractors out of repair and not in condition to be operated, or motor vehicles while being repaired, shall not be left standing upon any street, avenue or alley of the City of Pampa, for a longer period than six hours; and any motor vehicle left standing on the streets, avenues or alleys for a longer period than that specified in this section, is hereby declared a nuisance, and any person owning or having charge of or under his control or custody who shall violate the terms of this section shall be guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than one dollar nor more than fifty dollars.

(f) Motor vehicles shall always keep to the right hand side of the center line of all public streets, avenues, alleys and highways in the City of Pampa, Texas, relative to the direction in which said vehicle is proceeding, except when passing or overtaking another vehicle.

(g) All vehicles stopped or left standing must be headed in the direction of traffic on that side of the street.

(h) All vehicles meeting shall pass to the right; all vehicles overtaking another shall pass on the left side, and shall not pull over to the right until entirely clear of the vehicle so overtaken, and shall not attempt such passage unless there is a clear way of at least 100 feet in advance of the left.

(i) Vehicles shall not be driven abreast nor stopped abreast.

(j) Vehicles turning a corner to the right into another street shall turn on the near side of the intersection and as close as practicable to the curb; vehicles turning a corner to the left into an intersection street shall pass to the right of and beyond the center of the intersecting street before turning.

(k) No vehicle shall cross from one side of the street to another except at a street intersection and shall pass beyond the center of the intersecting street before turning to the left, and shall then head in the direction of traffic on that side of the street.

(l) In turning corners or in crossing to the opposite side of the street, as herein provided, the driver shall make observation both in front and rear, for approaching vehicles and shall, as speedily as possible, not to exceed the speed limit herein allowed, regain his position on the right side of the street.

(m) No vehicle shall pass or attempt to pass at any intersection of streets another vehicle going in the same direction.

(n) No vehicle shall stand within ten feet of the side of a fire plug.

(o) Unless in an emergency or to allow another vehicle or pedestrian to cross its path, no vehicle shall stand in any street intersection, nor in any street unless same shall be parked as hereinafter provided.

(p) All persons riding horseback on any street of said city shall conform to and observe these rules and regulations as to keeping to the right side, turning corners and crossing from one side of the street to the other.

(q) All vehicles parked on the streets and avenues of the City of Pampa, Texas, shall be parked with the body of such vehicle forming an angle of 45 degrees with the curb line on the right side of such vehicle, and with the right front wheel of such vehicle not more than two feet from such curb or curb line, and no vehicle shall be parked in the middle of any street in said city, except trucks with trailers attached, which shall park in the center of the avenues, and in an easterly and westerly direction, and trucks with trailers attached shall never park on Cuyler or Main street.

(r) No person or persons operating a garage or automobile storage house shall use Cuyler street, (commonly known as Main street) to park surplus automobiles, trucks or tractors for a period longer than thirty minutes at a time.

(s) No person having control or charge of a motor vehicle shall allow such vehicle to stand upon any of the streets, avenues, highways or alleys within the city limits of the City of Pampa, Texas, unattended, without first effectively setting the brakes and stopping the motor of said vehicle.

(t) No person or persons shall ride bicycles upon the sidewalks or curbs within the business section of the

City of Pampa, Texas.

Section 2. The word "street" as used in this ordinance shall apply to and include all streets, avenues, alleys and highways in the City of Pampa, Texas, unless a specific street is mentioned.

Section 3. The word "curb" as herein used signifies the lateral part of any portion of the street designated for the use of vehicles, whether marked with a curb stone or not.

Section 4. Any person who shall violate any of the provisions of section 1 herein, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than one dollar nor more than fifty dollars.

Section 5. The invalidity of any section or part of any section shall not invalidate any other section or portion of section or provision thereof, but the invalid part shall be separated by the court holding the same invalid from the remainder of the ordinance, and the remainder shall be effective.

Section 6. All former ordinances of the City of Pampa, Texas, affecting or relating to the regulation of motor vehicles on the streets of said city and all ordinances or parts inconsistent herewith are hereby repealed, except ordinances No. 39 and No. 40, which relate to traffic during fire, and the same are not repealed.

Section 7. This ordinance shall be in force and effect from and after its passage by the City Council of the City of Pampa, Texas, and its approval by the Mayor of said city, and after its publication as provided by law.

WHY BAKE CAKE?
PAMPA BAKERY
FRED SCHAFFNER, Prop.
PAMPA, TEXAS

Six Reasons Why

- 1—It has more power to start a stiff engine;
- 2—It requires less recharging;
- 3—It suffers less from over-heating in summer;
- 4—It saves you a \$10 or \$12 bill for re-insulation;
- 5—It lasts much longer;
- 6—It gives more all-around satisfaction.
