PAMPA, GRAY COUNTY, TEXAS, TUESDAY EVENING, JUNE 7, 1927.

PRICE FIVE CENTS.

THREE HURT IN ACCIDENTS HERE

City Secretary Resigns As Salary Schedule Is Adopted

C. H. FISHER TO RETIRE JULY 1 UNDER PLANS

Declines to Accept \$150 Remuneration Per Month

CITY MARSHALL TO GET \$165

Engineer's Drawings For Improvements Are Discussed

Resignation of C. H. Fisher as city secretary followed immediately upon adoption of a new salary schedule for municipal employes last night.

The committee on salaries, after holding a separate session, brought in a schedule calling for \$150 per month for the secretary and \$100 for the assistant. Mr. Fisher immediately stated his unwillingness to serve at the salary suggested and adopted.

His resignation was accepted, upon agreement to remain in office until July 1 at the temporary salary of \$225 per month. He expressed a desire to help his successor learn the duties of the office. His services are much needed at this time because of the installation of a new bookkeeping system, entries in which are being made as of January 1.

Andrews to Get \$165
City Marshall John Andrews will be paid \$165 per month and allowed to keep the pound fees. Policemen will be paid \$125 per month. Mr. Andrews said that the pound is not self-supporting and intimated that while he did not wish to receive fees, the salary was low in proportion to the demands of the office, which make him subject to calls at all hours.

The water superintendent's salary already set, is \$200 per month, and his two assistants receive \$125 per month each.

Salaries for the mayor and city attorney were not named. The council had previously adopted the salary plan, but the salary schedule was not returned until last night, when coun-

(See FISHER—Page 4, Column 4.)

Tampa Slayer Admits Part In Another Murder

(By The Associated Press.)
TAMPA, June 7, 1927.—B. F. Levins, confessed slayer of Mr. and Mrs. Herman Merrill and three of their children, has admitted it was he who helped to kill Bee Rowell and three members of the Rowell family here last summer.

Officers announced that Levins implicated Leonard Thompson, who was arrested with him in connection with the Merrill case.

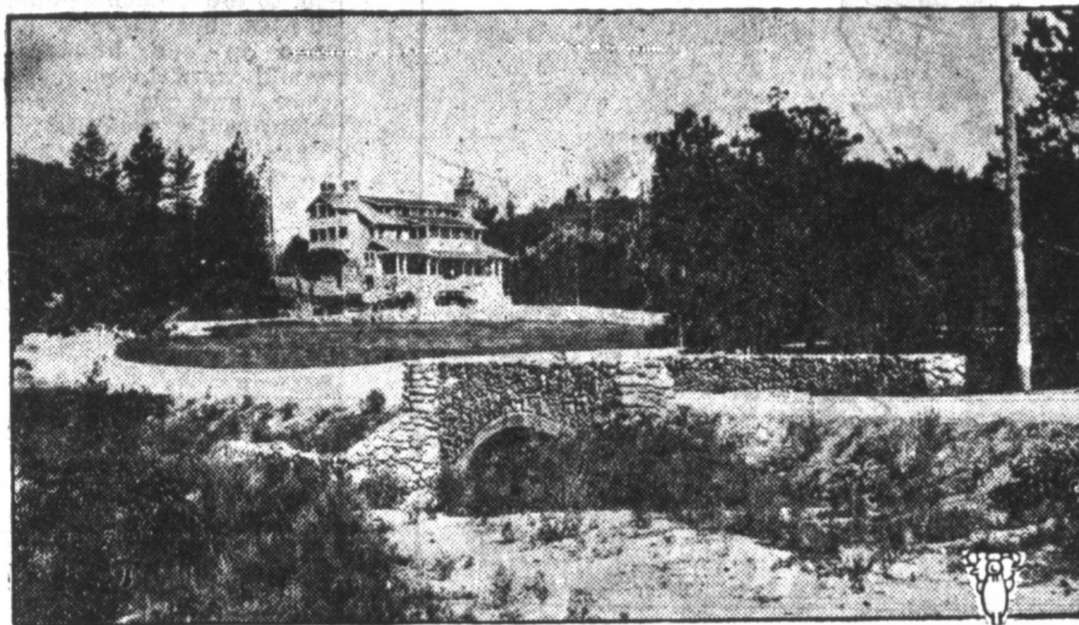

Police said Levins assumed responsibility for the death of six persons, but charged Thompson with clubbing to death the three Merrill children.

Man Is Charged With Delivering Beer To Hotel

H. W. Bratton is in jail charged with transporting liquor. Bratton is alleged to have been caught in the act of delivering bottled beer to a local hotel last evening.

The bottles were carefully wrapped in paper to keep them from knocking together and were placed in a sack and transported to Pampa from Roxana, county officers say. The sacks were cunningly concealed in the rear of a sport roadster with access by means of letting down the back of the seat, which worked on hinges.

SUMMER WHITE HOUSE

In the South Dakota state park in the Black Hills, where President Coolidge and his family will spend the summer, it will not be difficult for the executive to have complete privacy. The game lodge, which will be the presidential home, is visible from park highways only when the winding road comes immediately upon it. This closeup glimpse of the lodge is the first the tourist gets upon entering the park.

FLIERS LAND IN BERLIN AFTER LEAVING KOTTBUS

M. Levine, Pampa merchant, is a second cousin of Charles Levine, owner of the Columbia. The Levines in New York are motor boat and airplane builders.

(By The Associated Press.)
TEMPLEHOFFER AIR FIELD, Berlin, June 7.—Clarence Chamberlin and Charles Levine brought their trans-Atlantic monoplane Columbia down on Templehofer field at 5:51 o'clock this afternoon, completing their interrupted flight from Roosevelt field in New York.

They flew here from Kottbus, 70 miles southeast of the capital, and the Columbia was sighted from the field shortly before 5:30. There arose a great roar of welcome from the assembled thousands as Chamberlin circled the field. The American flag was run up the main flagstaff of the airfield.

After having made the initial appearance, the pilot swung over Berlin proper in order to give the people that had awaited him so eagerly all day yesterday and today a chance to catch a glimpse of the plane that had conquered the Atlantic. Then he headed back for the field and came down.

KOTTBUS, Germany, June 7.—(AP)—America's new aerial heroes, Clarence Chamberlin and Charles Levine, refreshed by their first night's sleep since leaving Roosevelt field last Saturday, were made honorary citizens of Kottbus today.

Shaved, bathed, and keenly alert, the fliers were conducted to Rathaus where the ceremony took place. The action of officials in conferring the honor was confirmed by a rousing demonstration from the crowd of about 5,000 inhabitants who packed the market place.

Chamberlin has been too busy since his arrival here to figure out the distance covered by the Columbia, but he estimates that the flight from Roosevelt field to Eisleben and Klingen totaled 4,400 miles.

Ambassador Schurman in welcoming Chamberlin on his arrival, hailed him as a messenger of good will and friendship from the American people to the German people, then invited him and Mr. Levine to be his guests at the American embassy.

LOTS OF BREAD
SAN ANTONIO, June 7.—(AP)—More than a quarter of a million dollars worth of bread is made by the army to feed San Antonio's soldiers every year, a check of the two bakeries of Ft. Sam Houston reveals. Most of it is made at the bakery school, but a great deal is produced daily by bakery company No. 1 at Fort Sam Houston.

Rev. Ferguson of Snyder preached at the Baptist church here Sunday.

Rotarians Will Recommend Buying Of Pedigreed Pigs

J. L. Lester, vocational teacher at the high school, and Scott Barcus, secretary of the Chamber of Commerce, made a trip to Groom yesterday to look at pedigreed pigs.

The Rotary club will co-operate with boys of this neighborhood in placing pure-bred hogs in this section. At the next meeting, Lester and Barcus will recommend that the club purchase some of the Poland-China pigs, which are pedigreed, and can be bought at a reasonable price from the owner at Groom.

Soviet Minister To Poland Slain

(By The Associated Press.)
WARSAW, June 7.—Soviet Russian minister to Poland, M. Wójcikoff, was shot by a young Russian monarchist today as he was about to leave for Moscow. The minister was taken to a hospital where he died. His assailant has been arrested.

Heavier Fines Are Suggested To City Officers

Heavier fines, and more discrimination in filing of charges was suggested to local officers last night at the city council.

Instead of making several charges and small fines, fewer charges and bigger fines were recommended by Baker Saulsbury, police commissioner of the council. This procedure, it was pointed out, will bring more money into the city treasury.

It also suggested that "home brew" offenses should be charged according to prohibition laws, not "vaged" as has been done occasionally heretofore.

OFFICER IS RELEASED

Joe Godwin, re-employed during the week to assist the city marshal, was released last night by the city council.

Salaries for policemen were set at \$125 per month, and when these men are employed an opportunity will be given for anyone to present an application, it was indicated. For the present, the status of the police department remains where it was two weeks ago.

He Presides at LeFors

Judge C. C. Small of Wellington is in charge of the LeFors session of the 84th District Court this week in the absence of Judge Newton P. Willis, whose urgent personal affairs prevented his opening the term yesterday.

Legislature Kills Everything Except Its Appropriations

(By The Associated Press.)

AUSTIN, June 7.—With the graves dug for the state civil service and highway and prison legislation—its three main objects in meeting, besides the appropriations—the Legislature went into its final days work today to ratify the conference committee's agreement on the Senate and House differences.

Since die adjournment is scheduled for sometime tonight, by agreement of both houses.

The Senate considered local bills today under suspension of rules to save otherwise doomed measures.

ROTARIAN HAS TRADE PLANS

OSTEND, Belgium, June 7.—(AP)—The trend in Europe today is toward higher barriers of trade but the pendulum will someday swing and the barriers will be levelled to smooth the way for progress, T. C. Thomsen of Aarhus, Denmark, declared today before the convention of Rotary International.

"The new diplomacy," he said, "must build bridges of international understanding, tolerance and good will across the frontiers of Europe—not only in arts and sciences but in commerce and industry."

"International peace is a wonderful program, but this aim cannot be accomplished unless better economic relations are established. International industrial ententes are forming. They should be encouraged, organized in the right way and in the right spirit."

"In Europe, with many nations all with their special culture, language and traditions, mutual understanding and friendship are not very prevalent today."

"But when Rotary grows strong, we can disclose through our members the hidden sources of national difficulties, and then educate public opinion and finally, by united effort in a spirit of friendliness and tolerance we can hope to solve our common problems."

"Rotary will help bring about that moral disarmament with which no material guarantees of peace and security will prove adequate."

OSTEND, Belgium, June 7.—(AP)—Harry H. Rogers of San Antonio, Texas, introduced King Albert of the Belgians at a luncheon here Monday in connection with the meeting of Rotary International.

"I trust your majesty will forgive me for taking advantage of this occasion."

(See ROTARIAN—Page 4, Col. 4.)

Congregationalists Asked to Meet Organizer Here

Lewis N. Tillson, a student at the Congregational college at Bangor, Maine, is in the city as a field worker of that denomination and may establish a church here.

Mr. Tillson has two years more to study before he graduates. He would like to meet anyone interested in the Congregational church. His headquarters will be at the Chamber of Commerce during his stay in Pampa.

MOORE FAMILY GATHERS FOR REUNION IN CITY

A reunion of several members of the family of Mr. and Mrs. D. C. Moore was held here yesterday.

Among those present were Morris Moore, who has returned from a four-year stay in Alaska gold fields; Mr. and Mrs. Zeb Moore of Memphis; and Mr. and Mrs. Horschler of Hedley.

Morris Moore has decided to make his home in Pampa with his parents. As a present to his father he brought a hand-carved gold watch charm, showing a gold panning scene on one side and a snow and sled scene on the other. The charm is made of three colors of solid gold.

SEVERE CUTS RESULT WHEN CAR CRASHES

Loose Earth Given As Cause of Overturning Near City

WOMAN, GIRL ARE BRUISED

Youth Is Run Over By Trailer—Shook Off Truck

Mrs. S. A. English, of Joplin, Mo., received severe facial injuries, a bruised arm, and fractured leg, and her grown daughter, Eva May, was cut about the face and severely bruised when their car turned over on the Miami road yesterday afternoon about 8 miles from Pampa. They were brought to the Pampa hospital.

Mrs. English, her daughter, and 9-year old grandson were on their way to Pampa from Joplin when the car struck loose dirt on the road and the driver lost control. The child was not injured in the accident.

R. E. Leslie, a son of Mrs. English, is working for an oil company in the Pampa field, but has not yet been located. If any reader knows of Mr. Leslie he is asked to notify the hospital.

J. W. Brannen, 22 years old, an employe of the Skelly Oil company, received severe abdominal injuries yesterday when he was run over by the trailer of a truck.

Brannen was riding on the truck when it passed over a pipe. The jar caused the young man to lose his balance. He fell off the truck and one of the wheels of the trailer passed over him. He was rushed to the hospital in an ambulance, and is expected to recover.

Full-Time Fire Employes To Be Stationed At Hall

What to do with the new truck, and getting men to operate it in case of fires, are problems facing the city council.

George Latus was employed temporarily last night to take care of the truck. It is planned to employ a fireman and an assistant, the latter to sleep at the station at night. The fireman, it was suggested, might have light clerical duties in connection with his fire duties. However, this plan is not looked upon with favor by the state fire commission, and it might result in a higher key rate.

Further action will be taken next Monday. The council has plans for enlarging the city hall and fire station.

Coolidge To Confer On Flood Relief—Water Spreads

(By The Associated Press.)
WASHINGTON, June 7.—President Coolidge will confer with Senator Smoot, Republican, Utah, tomorrow on the advisability of calling Congress in session before the regular session in December to take up flood relief and flood control legislation.

NEW ORLEANS, June 7.—(AP)—Flood waters now coming down the Mississippi will prolong the overflow in the Tensas and Atchafalaya basins of Louisiana well into July, it now appears.

Lower areas will not be clear of the flood water by the end of July, the weather bureau said today in a special bulletin.

ORGANIZED CRIME SHOULD BE SMASHED

Borger reports belief that a huge dope ring has been broken; Amarillo speaks of a hi-jacking ring cracked by the police.

If, as purported, these two crime organizations exist, Panhandle officers should take drastic steps to root them out to the last man.

The Panhandle was long fortunate in being free from organized crime. Although there were many violations of law, they were the inevitable type involving no clique or gang.

But taking advantage of the opportunity afforded to obtain shelter from residents of questionable character, gangsters and professional criminals have been drifting into the oil fields. It may be doubted that the movement has taken a serious hold upon the Panhandle, yet there are evidences that organized crime is operating in this section.

Above-board tactics mark Panhandle dealings, and the smaller towns and cities will quickly detect violations. And it may be assumed that officers will be on the alert in these communities. It is up to the officers in the bigger places to root out the evil where it best can find lodgment.

Organized crime must be kept out of this region, and we believe will be struck at promptly and continually by those in authority.

SERGEANT YORK STUMBLES

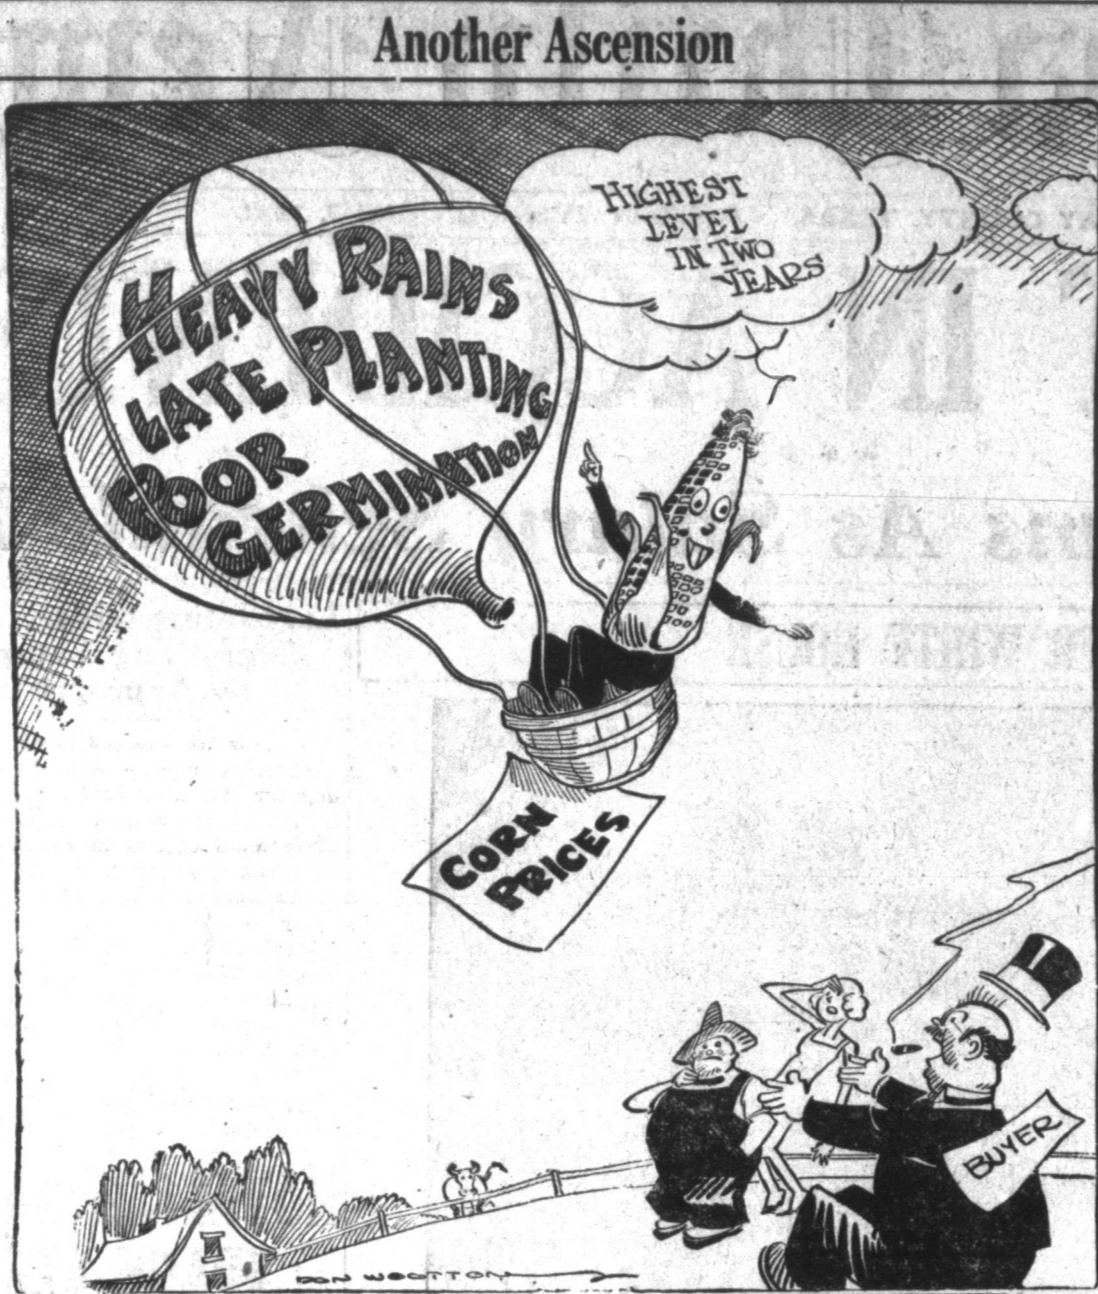

From the Birmingham News: Someone who may have his ear should take Sergt. York quietly to one side and admonish him. Care needs to be taken by him in letting fly his political innuendoes.

He might wisely be informed that this phrase "100 per cent Americans" that punctuates his address has become a term of derision rather than of dignity in this country by reason of the base purposes to which it has been too often put by none-too-admirable men since the Great War closed.

In his Birmingham address, Mr. York said that in 1928 would take place "an event" that would "necessitate demands for 100 per cent Americans." And he added: "I am sure you all know what I mean. If you don't, you ought to."

It would be more acceptable to persons wishing to help him in his work, if Mr. York should omit political allusions like this one from his education addresses. If, however, he must employ those political allusions it would be more in harmony with his reputation for heroism, that was deservedly won in the Great War, if Mr. York would be direct rather than indirect, open rather than furtive, in whatever he may have to say along this line.

If he is engaged in political propaganda in these talks of his, the sooner the country is made aware of the fact the more satisfactory will it be for everyone. Innuendoes are not the hall mark of courage, either

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer.

WASHINGTON. — Foreign economic oppression and drainage of the island's resources is the menace which has stirred up the people of Porto Rico.

Until recently, this menace has been the concern only of the Porto Rican labor party, a minority, but it now appears that the conservative leaders of this American possession have come to the conclusion that the welfare of the Porto Rican people is very seriously threatened.

The first evidence of this was apparent recently when the conservative speaker of the Porto Rican House of Representatives and the conservative president of the Porto Rican Senate protested the attitude of foreign-owned corporations to Secretary of War Dwight F. Davis at a dinner in his honor at San Juan.

Porto Ricans subsequently sent many pamphlets containing these speeches to the United States in an effort to tell their story to the American people.

A few days ago a delegation of island leaders called on President Coolidge. It included the speaker of the Porto Rican House of Representatives, Jose Tous Soto, and the Senate president, Antonio R. Barcelo. Most significantly, as indicating a united front, it included Santiago Iglesias, Senate minority leader, and Rafael Alonso, minority leader of the House.

This delegation had been inspired to come here by rumors that the sugar, tobacco and other big American interests in Porto Rico had been trying to persuade the president to replace Horace M. Towner, governor of the island. The Porto Ricans want the privilege of electing their own governor and Towner is not satisfactory to all of them, but privately they expressed the thought that if the corporations obtained another governor Porto Rico would be pushed

er physical or intellectual or moral.

Mr. York has a perfect right to talk politics if he wishes to do so. He has an equal right to his own political views, including his ideas about "100 per cent Americans." But it is not quite clear that he is justified in taking advantage of a distinctly non-political gathering to cast furtive aspersions like those let fall by him in a public address in Birmingham.

ed from the frying-pan into the fire.

The basis of Towner's present popularity with Porto Ricans and his unpopularity with the corporations is said by the former to be his advocacy of adequate taxation for the interests which are taking everything out of the country and not putting anything back in.

PRESS FORUM

From the Washington Star:

Mussolini, Italy's premier and dictator, believes in preparedness to the nth degree. Within the next dozen years he sees Italy in a position to mobilize a well equipped army of 5,000,000 men and with a strong navy and a huge air force. Then, he says Italy will be able to make her voice heard and to see her rights recognized. Apparently to talk disarmament to the dictator of Italy is an idle gesture. What hope under the conditions suggested by Mussolini is there for the League of Nations arms conference?

The Mussolini speech in the Chamber of Deputies on the budget of internal affairs effectively tore the veil, if there has been a veil, from the goal of the Fascist movement as directed by Mussolini. For two and a half hours the Italian premier talked of his aims for his country, declaring that "today, May 26, we bury solemnly all the lies of universal democratic suffrage." Strange language for a people's leader in the year 1927 A. D., language that will cause a smile perhaps in easy-going America, however it may be hailed in Italy.

The Italian dictator frankly stated that he expected to continue in power for the next 10 or 15 years, if necessary to carry out the program that he has fashioned. "Not that I am lustful of power, but because it is my duty."

This program, however, is not calculated to allay the fears and suspicions of the powers of Europe. Mussolini's near neighbors may well wonder what he proposes to do with an army of 5,000,000 trained and equipped men once they are his to use. Preparedness, yes. But preparedness for what? Dreams of world peace with a Mussolini on the one hand and a no less ruthless dictator in the shape of a communistic Soviet government in northwestern Europe on the other give little promise of fulfillment.

Italy has her problems, economic and social. She has a growing population in a comparatively small area. A desire to expand may be natural. But the speech of Mussolini smacks of what the French call "gloire"; indeed, it seems to be filled with dreams of a Roman Empire

that crumbled centuries ago. It remains to be seen, however, how long his powerful neighbors will permit these dreams to continue unchecked.

The girl who crosses her pretty lower extremities, leans back nonchalantly and puffs away at a cigarette should not entertain the delusion that men watching her think she is "clever" and "smart," if a questionnaire sent out by Miss Priscella Wayne of the Des Moines (Iowa) Register, is to be taken seriously. Answers to the questionnaire which was circulated among several hundred boys reveals that three only were not opposed to women smoking while the rest of them replied emphatic "No." We do not believe there are many girls in Lubbock who smoke cigarettes, but to the few who do there is some room for introspection.

Girls who smoke are by no means all immoral, but most immoral girls smoke. When a girl puffs her cigarette, laughs frivolously behind a cloud of smoke and thinks her modernity is appealing to men, she is deceiving herself. She has lost her femininity, her daintiness, and her charm. Perhaps she still has her share of dates, but she has destroyed the chivalry

and romance thereof. The men will not stop so readily to pick up her handkerchief, nor would one of them place his coat over a muddy path that her dainty pumps might not be spoiled.

We contend that men are fast losing the universal respect for women that they once had. It is not the man's fault. It is laid at the feet of the women. They have placed themselves in position that will not permit a man to show them the same respect that they would some 25 years ago. The general conversation of many women, and the profanity that some of them use, is to blame for the lowering of respect of the chivalrously inclined men of this day and time. There are those men, who will talk about not objecting to the women smoking cigarettes, but there is not one man in one hundred who would want to marry one of them, and we dare say that when wife took to puffing cigarettes that she lost a large portion of the love and esteem of that man—her husband. No young ladies, you are not playing to the men when you smoke cigarettes. We might grant that you have as much right to smoke cigarettes as boys, for we believe that men have no right to expect of women a more beautiful and clean life than they, but a woman is more delicately constituted, she is simply a finer texture, her lovely complexion and form, her beautiful and pretty features—the pride of man—is marred when she en-

TWINKLES

Is it going to become necessary to appoint a permanent "welcome home" committee for returning Yankee non-stoppers?

New York's latest interference is not another station, unless you call Washington by that name.

Civic note: Pampa has a well-defined public opinion, and it is going to be felt in the building of a real city.

Dean Heckel of the floating university reports that the students took his name as it sounds, with results not too pleasing to himself.

No bird or beast is safe these days; Paris fashion decrees call for reptile trimmings.

Governor Fields of Kentucky has passed a bar examination. He will learn, perhaps, the futility of some of the laws he is helping to pass.

A man has been arrested for rowing while drunk. He got on the wrong kind of water wagon.

ters into coarse, rough and vulgar language, and when she dresses uncomely and in the attire of man she lowers her fair name in the sight of the majority of men. — Lubbock Avalanche.

Texans, Back At Home, Will Try To Recoup Losses

AMARILLO, June 6.—The Texans, after a near-disasterous road trip, will tackle the tough boys of the Western league today.

There will be a big crowd of fans out—fans who want to know what is the matter with their team, and why.

Road trips have not served the Texans well, but on a previous return the fans boosted the morale up to the winning point. Tulsa, far in the lead, and playing with confidence that she can whip the new member on the latter's home field, will be a hard problem.

Oklahoma City will follow the Oilers, then the Texans will leave for 26 days on the road. President Tracy is very anxious to revamp the club before it starts the long journey.

SPORT TALK

Gober was at bat five times Sunday and got two home runs, two doubles and a single. Not bad for one game. "Hook" Shaw wasn't far behind with a double and two singles out of four trips to bat.

The Texans had a rest yesterday after losing two Sunday. They are fast slipping and all because of poor support. It takes more than a pitcher to win ball games.

Did you notice that the big "Bambino" has seventeen home runs to his credit this year? If the big train keeps on he will beat his own record.

The Amarillo tournament will be held July 24 to 31 and many teams have their eye on the big money. The Grays are in the list and intend to get some good material before the big event.

Five new poisons have been found more deadly than calcium arsenate against the boll weevil.

CANDLES STILL LIGHT GEORGE TAVERN ROOMS

LONDON, June 4. (AP)—The old George Tavern is about the only hotel left in London where a guest is shown to his bedroom by the light of a candle.

The ancient tavern contains many relics of Charles Dickens, and pictures and photographs of London as it appeared in his day. It is situated in a courtyard which is reached by turning up a narrow lane out of Borough High street, near London Bridge.

All bedrooms are furnished with huge old fashioned four poster bedsteads. It is the only remaining hostelry in England's capital with an open wooden balcony running along outside the bedroom windows.

Shelves behind its tiny bar are laden with old pewter quart pots, relics of the old coaching days when thirsts were big and capacities unlimited. Hung upon the walls are cumbersome pistols, which were carried by the old night watchman.

"INSIDE" INFORMATION

A good sized boy of about 14 requires about 2,700 calories of food per day, while his 8 year old brother needs only about 1,800 calories, and his 5 year old sister about 1,400. Since he is still growing, milk is particularly valuable for the boy in his teens. At least a pint a day is desirable. This may be used in vegetable and milk soups, in cocoa, bread puddings, and other ways, or taken as a beverage. The boy in his teens also needs eggs, cooked cereals for breakfast, breads made from whole grain flours, plenty of fruit, all kinds of vegetables—some of them served raw—a limited quantity of meat, and sweets only at the end of meals.

Do you budget your time as well as your money? Try making a list of all the regular daily activities, and then another list of those that come once a week or at other intervals. Estimate the time all these tasks usually require. Distribute the jobs that do not have to be done every day in such a way that the week will run most smoothly, and so that no day will be too heavy. Allow for a reasonable amount of leisure for each day, time for irregular activities and interruptions, time for rest. Time yourself at your tasks and make a sort of game beating your own record—always with the subconscious thought that you will then have more time free for pleasant things.

MAKES SNOW FOR SLIDES

BERLIN (AP)—Snow to order all the year around for skiing, tobogganing and other kindred winter sports has become a fact.

The Berlin Weekend Exposition introduced artificial snow as the outstanding feature, with a serpentine fantasy by young women on snow shoes. On an area of 4,000 square feet, over which \$6,000 worth of snow was spread, professionals and amateurs indulged in ski-jumping and skiing.

The artificial snow consists of soda that is prevented from becoming chalky by saturation in an acid solution, which is the inventor's secret.

Thomas Parrigue Masaryk has been elected president of the Czechoslovakia for the third time.

FUJI BOXER BRINGS HOME GREAT VICTORY

SUVA, Fiji (AP)—Many years ago before the inhabitants of Fiji became more or less civilized, the warriors of the neighboring Tonga Group of islands frequently invaded Fiji and swept up all opposing Fijians who stood in their path. Since then the Fijians have generally acknowledged Tongan superiority.

Great was the joy of the Fijians consequently when recently their champion boxer, Ratu Ba, met and trounced the Tongan boxer, Fakaua of Vaini, Tonga.

The fight occurred on a vacant lot in the centre of Nakualofa City. The stake was \$125, and the "gate" was evenly divided between the contestants after expenses were paid. The clash lasted 11 rounds and concluded, not from a knock-out, but from pure exhaustion. The Fijian won on points.

GOLD MEDAL FLOUR Kitchen-tested!

FOR SALE OR LEASE

Store building with two living rooms in rear. Lights, water and gas. Terms. Would consider one or two well located lots in Pampa as part payment. In Finley Banks addition, two blocks west of Hy-Way Service Station on Amarillo road. See owner, Charles Richeson, on premises.

Old Indian Treaty Valued Relic Of Fair Association

(By The Associated Press.)
 SAN SABA, June 7.—"Treaty Rock" commemorating a treaty between United States Army officers and depreeding Comanche, Cherokee Kickapoo and other warring Indian tribes, is in the possession of the San Saba Fair association.

The treaty was scrupulously kept, history records, and this section, once a sanguinary battle ground in the pioneer wars between the whites and Indian raiders, became comparatively peaceful.

Local records do not fix the date of the treaty but indicate it was entered into sometime between 1847 and 1850. Previously, in 1841, it appears, Chief Egg and Chief Bowl, long powerful leaders of the Cherokees went on the war path. They murdered men, women and children, burned their homes and pillaged their property. Aroused by the depreedations, the Texans gathered a band known as minute men and under the leadership of a Captain Lynch overtook them at McAnelly Bens on the Colorado River. In a battle of three days Chiefs Egg and Bowl were killed and the band practically annihilated. Many relics of this battle recently have been found, including rusted guns and knives.

Undeterred by the disaster of their warring neighbors, the Comanches, Kickapoos and other lesser hostile

tribes, continued to ravage the country hereabouts. They had killed many whites, including surveyors sent out by the German Emigration company which had purchased the San Saba valley from the Comanches. A company of Texas Rangers under Captain Ed Burleson was sent to subdue them. After several skirmishes an agreement was reached for a conference between the white men and the Indians at the head of Wallace Creek, 12 miles west of here, and endeavor to make a treaty of peace. United States Army officers entered the conference and after a pow wow the Indians agreed not to molest the whites or interfere with settlers and land surveyors.

One billion eight hundred million dollars is lost in the United States because of absence of workmen due to preventable disease, according to Dr. John H. Graves.

Only one case of beer or liquor may be purchased at a time by tourists in Ontario under the new provincial liquor control act.

Athletic Records Alike

VIC HANSON & BENNIE OOSTERBAAN

NEW YORK (AP)—Two of the best ends college football has had in years—Vic Hanson, of Syracuse, and Bennie Oosterbaan of Michigan, have carved out strikingly similar careers in two other major sports to establish unusual all-around records.

The receiving half of the famous Wolverine passing combination, "Friedman to Oosterbaan," has another season ahead in football, basketball and baseball before hanging up his competitive togs at Ann Arbor. Oosterbaan will captain the Michigan eleven next fall.

Hanson, graduating from Syracuse this June, has captained a team in each of these three sports. In his closet hang nine letter-sweaters, the maximum number his college could award in the three year period of eligibility. Oosterbaan is likely to equal this record.

Hanson was almost unanimous as an All-American choice, as Oosterbaan was in 1925.

Hanson has been the East's leading basketball scorer for two years in college ranks. He is understood to have accepted a proposal to return to his alma mater in the Fall as an assistant gridiron coach.

Hanson and Oosterbaan have met only on the baseball diamond, so that there is little opportunity for comparison of their all-around abilities. Syracuse and Michigan divided a two-game baseball series this spring.
