VOL. 1, NO. 93.

PAMPA, GRAY COUNTY, TEXAS, MONDAY EVENING, JUNE 27, 1927.

PRICE FIVE CENTS.

ACCIDENTS TAKE DEATH TOLLS

DEVICE THAT FINDS OIL IS INVENTED HERE

W. J. Conaway Claims Best Production Not Yet Tapped

VITEK WELL IS BIG PRODUCER

Wildcats Interesting People of Many Places

W. J. Conaway, Pampa oil operator, has perfected a magnetic device with which he claims to have tested the Gray county oil field and to have found the major oil pools yet untouched.

Conaway, whose device has been tested by several Panhandle oil men, believes that Pampa is due for a large and immediate growth on the basis of both better general conditions and heavy nearby production.

The inventor declares that wells drilling a mile east of the big Saunders producer will make 5,000 barrels or more, and that two completions should equal the present output of the Witcox pool. He claims to have experimental data indicating that Pampa is underlaid with oil, though not as great a strata as that southeast of the city.

Conaway has been working on his device four years, and has been in the oil business 17 years.

A big new producer in the Roxana pool of the Pampa field came in at 5:30 p. m. Sunday afternoon when the Vitek Oil company's No. 1 C. R. Garner, section 113, block 3, was shot with 200 quarts of nitroglycerin. The flow started at more than 55 barrels an hour and when the four-inch line could not handle the production some of it was turned into the pit. Storage is being rushed. This well had been shut down at 4,240 feet. Heavy gas was picked up at 2,840 and 3,070 feet. A show of oil was found at 3,040.

The Vitek company has skidded the rig at its No. 1 J. H. Eller, section 200, block three, and will spud in this new location.

In Gray county, the Operators' Oil company will drill in the northeast corner of section 85, block three, half a mile north of the big Danger gasser.

M. J. Delaney and others have started a cellar on the William Jackson estate, section 88, block B-2. A test will be drilled in the northwest corner of the east one-half of the southeast quarter.

Key wells in Panhandle wildcat areas continue to attract much attention. This section's deepest well, the Big Bed Oil company's No. 1 Mrs. H. Ledrick and sons, section 7 block 5-A of Roberts county, is waiting for a liner. It had an oil show at 5,992 feet, and the pressure is so great at the extreme depth that use of ordinary type is not considered advisable.

The Dees well in the southwest part of Panhandle City is being deepened after having been shut down because of quicksand. It is down to 4,210 feet, with 15-inch pipe still being used.

Hogver No. 4, of great interest to Canadian people, is below 4,515 feet and has a good showing of gas. This is in Hemphill county. The Ozark Drilling company has a cellar dug for the No. 1 Frass, in the northeast of the southwest of section 104, block 20.

The Morton well in Moore county is shut down in a sandy lime from which three heads of oil flow daily, and this extension of the Panhandle well looks like a good one.

Judge Ben S. Baldwin was in Fort Worth over the week-end.

L. L. Foster, the young man who received severe knife cuts in an affray on the south side Thursday night, is recovering at the local hospital.

Dan Chats With "By Williams"

Dan Moody, governor of Texas, talks over life in the great southwest with Jim Williams, cartoonist, who draws the famed "Out Our Way" strip. The Texas governor (at the right) met Williams while in Cleveland, O., with the All-Texas Special Goodwill Tour. Williams' home is in Cleveland, where he draws for the NEA Service, of which this paper is a member.

Big Fishing and Sporting Resort Will Be Constructed Near LeFors

BANK ROBBED 2 Bandits Get \$1,700 At Truscott This Noon

(By The Associated Press.)
WICHITA FALLS, June 27.—Two unmasked men held up the First State bank at Truscott, Knox county, today at noon. They locked two employes in the vault and escaped with approximately \$1,700 according to information received here.

Posses of Wichita Falls officers left here immediately after receiving the report.

Citizens Military Training Camps Are Very Popular

FORT SAM HOUSTON, June 27.—The increased popularity of C. M. T. Camps this year is shown by the fact that over 90 per cent of the young men ordered to camps at Fort Logan, Colorado and Fort Sam Houston, have reported at the camps upon their opening.

Last year only about 55 per cent reported at all camps, so that, averaging numbers reporting at all camps since their inception in 1920, 40 per cent more than the numbers desired for these two camps were ordered to report.

The result was that more than 1,500 instead of 1,000 reported at Fort Sam Houston and nearly 600 instead of 400 reported at Fort Logan, and had to be received at these two camps, leaving out of 2,700 authorized by Congress to be trained at the five camps, only about 600 vacancies to be divided between the camps at Fort Sill, Fort Bliss and Camp S. D. Little.

This unusual popularity, therefore, means a cut in numbers at each of the three camps, which, at Fort Sill, will amount to more than 50 per cent, only 500 vacancies being open, instead of 1,025, as at first contemplated.

Those who applied first will be served first and the rest advised to apply earlier for 1928 camps.

Mayor F. F. Reid and Jess Wynn spent Saturday in Amarillo.

One of the biggest swimming, fishing and boating resorts in West Texas is being formed by M. B. Davis on his ranch two miles east of LeFors. A large dam, which will allow several acres of land to be flooded to a depth of about 50 feet, has been completed.

The lake is situated on the east side of the river and is fed by two springs. There is about 12 feet of water in the lake at the present time as the result of emptying two smaller lakes into the large basin. The smaller lakes had been stocked with fish and Mr. Davis plans to procure spawn from the state hatcheries to completely stock the pond.

Sixty memberships in the enterprise will be sold and the privileges will be open to memberships only and will include fishing, boating and swimming.

A large picnic ground will also be available that members of the club with their families may enjoy the privileges.

Plans are under way to erect a club house, boat house and bathing quarters. At some later time Mr. Davis may set out a large golf course on his land adjoining the lake.

Several members have used the club privileges and report excellent fishing.

All Present Paving Will Be Completed By Next Sunday

One block of the paving on West Foster avenue is open to traffic, another will be open tomorrow morning, and the entire length will be ready by Thursday.

Sunday will see all of the first program of paving completed, and the company will be ready to commence the second paving program.

The Stuckey Construction company commenced work here March 4 with the wrecking of the old curb. Lack of material held the work up, and rain also cut off about 26 working days.

INJURED MAN BETTER

Jack Griggs, an employe of the Sun Oil company, is reported to be out of danger at the local hospital. Griggs' skull was fractured when a rig block fell on him while at work around the well Friday noon.

Sparrow Lunches As Whistle Blows

AUSTIN, June 27. (AP)—An English sparrow here is observing the law of supply and demand, and giving observers something to think about.

Every morning about 9 o'clock the bird systematically deposits a small piece of bread or the like on the second floor balcony just outside Judge J. L. Beler's law office window.

When the noon whistles blow, the bird returns to lunch, and mystifies those of the judge's friends who have watched the procedure and tried to account for its singularity.

Governor Moody Is Not First of Line To Get Into Politics

(By The Associated Press.)
AUSTIN, June 27.—Governor Dan Moody was not the first of his line to get into politics.

Judge Daniel Moody, father of the governor, was the first mayor of Taylor, Williamson county, when it was incorporated in 1883, with the city limits extending half a mile around the public square plat donated by the Texas Land company for public buildings.

Governor Moody still calls Taylor his home.

Prisoners Sarcastic As Jails Are Aired And Cleaned

Today was clean-up day at the county and city jails. Under the supervision of one of the deputies, the prisoners aired the small amount of bedding and washed and cleaned the interiors. One wise-crack heard was that several other places in the city needed the same kind of treatment.

WADE DUNCAN MAKES GIFT TO TENNIS CLUB

Wade Duncan of Wade's Variety store has made a gift of two sets of marking tapes to the Pampa Tennis club and these will be used to replace the lime-marker which has been in use for several weeks.

The gift completes the main equipment of the club, and the courts are in good condition for the summer's play. Recent rains have improved the courts, which have been dragged to level them. The ground is being used through the courtesy of the White Deer Land company.

Joe Bowers Sr., Out On \$500 Bond

Joe Bowers, Sr., charged with driving a motor vehicle while intoxicated, has been released on a \$500 bond. J. S. Shelton, who received a broken arm and leg when struck by Bowers' car late Saturday, was resting well at the Pampa hospital today.

Floods Develop At Opposite Sides Of the Continent

(By The Associated Press.)
BROWNSVILLE, June 27.—A second rise in the Rio Grande, which Rio Grande City reported yesterday and caused more apprehension than the first because it comes with the lower part of the river already bank full, failed to develop into threatening proportions today, reports indicated.

Levees on the American side of the river are holding, some breaks are reported on the Mexican side of the stream.

EDMONTON, Alberta, Canada, June 27. (AP)—A thousand acres of land in the region of Grouard was flooded today, and several score families were driven from their homes.

Residents of the district are unable to explain the unusual condition, except that it may be from a cloudburst in the Swan hills, 200 miles northeast of Edmonton.

World C. of C. Meeting Opens In Stockholm Today

STOCKHOLM, June 27.—The fourth general conference of the International Chamber of Commerce, which is being attended by about a thousand business men of 44 nations, opened today in the presence of King Gustave.

The American delegation is headed by Owen Young.

"Rosetime" Ready For Presentation

"Rosetime" is ready for presentation at the high school auditorium tonight at 8 o'clock by an all home talent cast. The play will be repeated tomorrow evening at the same time.

The play, a musical comedy, centers around the love affair of Jerry Hunter and Rose Perkins, small town sweethearts. All is serene and they are to be married, when a movie troupe arrives to take a picture in the old garden at the Perkins home. Rose signs a contract and leaves for Hollywood, where she becomes a star.

Jerry Hunter finds oil on his place and buys the film company Rose is connected with and goes to Hollywood. He returns to the old home town with Rose.

Ma and Pa Perkins are typical small town people and the movie troupe the regular live-wire bunch of Hollywood.

The choruses are well chosen and are composed of young people from the city.

C. M. Lyon and family, of Fort Collins, Col., are in the city and may make their home here. Mr. Lyon has oil interests in the Shamrock with his associate, A. F. Diehl, and may locate here to be near the field of operation.

Fourteen Planes Take off In The 1927 Air Tour Sponsored by Ford

(By The Associated Press.)
DETROIT, June 27.—Taking off at one-minute intervals, fourteen airplanes of various types got away from the Ford air post today on

AUTO CRASHES ACCOUNT FOR MOST TRAGEDY

High Speed One Factor In Week-End Events

AMARILLO BOY DROWNS IN LAKE

Four Sisters Die As Their Boat Is Capized

(By The Associated Press.)
COLEMAN, June 27.—Mrs. Emma Knowles was instantly killed and Charley Keeney is reported dying in a Santa Anna hospital with a fractured skull as the result of an automobile accident there Sunday.

Both were residents of Coleman.

FORT WORTH, June 27. (AP)—Woodson Nelson, 15-year-old son of Mrs. A. Nelson of Wellington, met death Sunday when struck by an automobile driven by G. H. Norman.

Norman told police that Nelson ran from behind another automobile.

AMARILLO, June 27.—After an all-night search in the waters of Lake Palisades, the body of Loren Francis, 16-year-old youth who was drowned Saturday night, was recovered by the use of a specially made hook.

The boy, who could not swim, lost hold on a row boat by which he was being towed.

TEXHOMA, June 27. (AP)—The collision of a truck with their car late Saturday killed Miss Lucille Hodges, and Conrad Kugle, her escort was seriously injured.

The car was traveling at a high rate of speed.

JACKSONVILLE, Fla., June 27. (AP)—Four sisters died by drowning here Sunday when their boat turned over in a lake.

They were Mrs. Frances Norton, 18; Mary Silcox, 14; Dora Silcox, 13; and Anna Silcox, 9.

Paving Will Be Celebrated With a Big Street Dance

In observance of the completion of the West Foster paving project, merchants with businesses along this pavement will give a street dance and celebration Thursday evening.

These merchants met this afternoon and formed an organization to plan and direct the big entertainment, to which the entire community will be invited.

Two jazz orchestras, horns, confectionery, novelties—all of these factors will contribute to the big event. The street will be reserved for the occasion, and there will be an orchestra at each end of the end blocks. It is expected that the entire length of the paving will be needed.

Another meeting of the plans committee will be held at 9 o'clock tomorrow morning at Lavender's real estate office.

Weather Still Delays Take-Off Of Byrd's Plane

NEW YORK, June 27.—Very little prospect for a take-off by the monoplane America is seen today by the weather bureau.

The first leg of the 1927 air tour. Thirteen planes are contesting for the Ford trophy. The first stop of the tour, which will take the planes to all sections of the country, will be at...

TYPICAL INSTITUTIONS OF CITY ARE ESSENTIAL

Pampa has quickly grown from a prosperous small town to a little city. This means that many businesses and institutions locating here need the patronage of an even larger city to be as prosperous as desired.

Some firms feel the need for a greater population more keenly than others, but practically all would like to see the city increase in size. The possibilities for seeing this hope realized are so good that Pampa is the envy of every city of the Plains.

It should mean, moreover, that those institutions which have come to the city a little ahead of the actual demand are to be congratulated and supported heartily. Pampa hospital is an example. This institution, it may be seen from an inspection, is one which would grace cities of much greater population.

Such organizations are of broad public interest. They mark the dividing line between the town and the city. Apropos of this, too, is the Daily News. As the daily newspaper is one of the most typical of city institutions, the Daily News stands as a monument to the New Pampa, typical of its new size and importance.

CHANGE CONDITIONS OFFER OPPORTUNITIES

Cattle censuses are of much importance to the industry, and West Texas range conditions should be watched not only by the ranchman—whose interest naturally turns that way—but also by the smaller farmer.

Dry grazing has caused considerable shipping in parts of the Panhandle this spring, some ranchmen being unwilling to risk feeding even over large areas. But marketing is even more encouraged by the good prices available. With

His Busy Day

beef bulls selling at \$6 to \$7 per hundredweight, a heavy animal went far toward paying the cost of another and aided a better breeding program.

The 11 western states had 9,876,000 cattle on the farms and ranges January 1, representing a decline of 327,000 over 1926 and a million less than there were in 1926.

But despite this decrease, the value of the animals remaining was \$396,233,000, being nearly 20 million dollars greater than 1926 and 55 millions over the value of all cattle in 1925.

The sales tendency is further reflected in the slaughterhouse statistics. There were 10,180,146 beef cattle killed in 1926, or an increase of 250,000 over 1925. Feeding, or finishing in the corn belt did not reflect such an increase, which means that more finishing is being done in the western states.

WASHINGTON LETTER

BY RODNEY DUTCHER, NEA Service Writer.

WASHINGTON. — Latest figures show that the Caterpillar club, that organization of flyers who have saved their lives by parachute jumps and of which Lindbergh is one of the most prominent figures, now has 46 members, an increase of five in about a month.

The army air corps lists Capt. Hawthorne C. Gray, Lieut. George G. Finch and B. M. Bridget and Sergts. Clyde M. Taylor and Fred P. Miller as the new members. Finch was a passenger with Lieut. David M. Ramsey, whose plane burst into flames in mid-air over Edwards, Miss. Finch went over the side with his parachute, but Ramsey

managed to make a safe landing. Captain Gray after setting a new altitude record with his balloon, found at 8,000 feet that his ship was dropping too rapidly for safety and was forced to resort to his "chute."

Brereton, Bridget, Taylor and Miller all jumped at or about the same time when the plane they were riding in near Columbus, O., broke her propeller and gasoline feed line, setting the plane on fire. Lieut. Bridget was injured in the drop and Private Yeager, a fifth passenger, failed to jump and was killed.

At last reports, Secretary of the Navy Curtis D. Wilbur was still referring to the hero of the New York to Paris flight as Lindbergh.

Whether this was Wilbur's error or just his own little joke is difficult to say. It might have been either.

Even the most serious dramas usually have some comic relief in them, and Wilbur often serves this purpose in the present administration. President Coolidge has had his troubles with Wilbur, but the latter is now pretty well trained and no longer makes embarrassing political or international breaks.

If the Mississippi river is the father of waters, it's a pity mother doesn't make him behave.—Alva Review-Courier.

We cannot help but think that President Coolidge is making a mistake in going to the Black Hills to spend the summer instead of coming to Horse creek.—Afton American.

PRESS FORUM OUR CHANGING SOCIAL ORDER

If we may believe some of the industrial "surveys" made public from time to time, the phenomenon of growing non-employment in America is one to challenge the attention of economists and sociologists. We are told that only 37 per cent of the country's population are now gainfully employed. Sixteen years ago, in 1910, the percentage was somewhat in excess of 41, from which point it had by 1920 gone down to 39.

this country A further "survey" would no doubt reveal the fact that those gainfully employed are working on a declining scale of hours employed. In brief, fewer people, proportionately are working for incomes and the workers are putting in fewer hours. Labor-saving machinery and a labor-saving social order are bringing these re-arrangements.

It is to be noted also that those who are gainfully employed are maintaining better standards of living than in former years. The real "sufferers" today are the so-called aristocrats who have been driven off the highways by the multiplicity of cheap cars and who are being driven out of the cities by the multiplicity of flat buildings and apartments houses.—Thrift Magazine.

Cahill To Meet Fast Opponent Here Tonight

Tonight at the Pampa Athletic club, Pampa's favorite mitt artist, "Rusty" Cahill, will go 10 rounds with Dick Bryant, El Paso boxer, who has just returned to Texas after a record season on the coast. Bryant is fast and clever and outweighs Cahill, but will meet a hard hitting, shifty-footed boxer who can take and give.

The semi-final bout should also be a fast affair with Young Walker, a Pampa boy, mixing with Toughy Graham from Kansas. Both boys weigh about 160 pounds and are fast for their weight.

Dutch Hust will box an unknown and there will be 10 rounds of preliminaries. Newsboys will do battle to amuse the numerous fans that attend the boxing club bouts.

HIGH JUMP CHAMPIONS CHICAGO (AP)—Two of the greatest high jumpers developed in years in the Western Conference wound up their intercollegiate careers in the Big Ten track and field championships at Madison. They are Captains Anton Burg, of the University of Chicago and Charles McGinnis, of the University of Wisconsin. Burg and McGinnis were rivals throughout most of their Big Ten competition but they ended the last year with all honors square. In the indoor championships at Northwestern, McGinnis leaped himself over the bar at 6 feet 5 1/2 inches and won against Burg. At Madison Burg lopped the Badger captain with a leap of 6 feet 5 inches.

Amarillo Takes Second Game Of Double-Header

LINCOLN, June 26.—With Kelly pinch-hitting timely in the eighth, Amarillo was the victor in the second game here Sunday but the plainsmen dropped the opener. The scores were 5 to 7 and 3 to 10.

The Texans had to use four pitchers in the last game, but heavy hitting won the affair.

The box scores:

Winning pitcher, Morgan. Losing pitcher, Pott. Umpires, Clarke and Crooke. Time, 2:24.

Oilers Lose Close Game To Claude By 10-9 Score

Pampa Oilers lost a close game of ball to the Claude nine in the small town park yesterday afternoon by a 10 to 9 score. Errors were numerous on both sides and caused the loss of the game to the local team.

Led by Dutch Hust at bat with a homer, two triples and two doubles, and Herndon with two triples, the Oilers had their eye on the ball. Hust also played a real game in the field, as did Thompson and Ray.

Voss started the game for the Oilers but was wild, and Robinson finished the game. Pegram, the Claude ace, was off yesterday. He walked five and allowed nine hits while on the mound. Stewart relieved him and pitched great ball, but was wild, walking six batters.

There were six home runs, five triples, and four doubles during the game and the local team had the majority of them. In a larger park, the homers would have gone for easy outs.

Batteries: Oilers, Voss, Robertson and Sherrod; Claude, Pegram, Stewart and Tucker.

ALBANIA MAKING ATHLETES.—TIRANA, Albania, (AP)—Young Q. Kastrati, a senior in the American Vocational School here, ran 140 yards in 13 5/8 seconds on the last field day of the school, thus establishing a record on this side of the Adriatic. The boys admit that this is rather slow when compared to Charley Padlock's performances, but they explain that comparisons in this case are odious, since Kastrati's training, up and down the mountain side, instead of on a cinder path, made him too high a stepper.

The school staff is trying to develop

Bambino of Sally Loop

Here's the home run king of the Sally League, Bill "Jumbo" Barrett, catcher for the Knoxville, Tenn., club. Barrett slammed out 22 home runs in the first fifty games of the season while clipping the ball for an average of .432.

op the liking for sports, which was unknown before the advent of the Americans. The Tirana football team has developed some promising talent, while the "Thunderers," the leading team of the Albanian baseball league (two teams), are terrors with the

stick, though their pitchers may be a little inexperienced.

Hack Miller slapped out another home run Saturday. That leaves him just two behind Babe Ruth, and tied with Gehrig.

SPORT TALK

The Oilers lost a close game in Claude yesterday but played heads-up ball. They were lost in the small park, but figure another game will get them used to it.

Borger won the two-game series from Shamrock, the first game by a 9 to 5 score, and yesterday's battle 5 to 0. Lefty Fuller was "on" again yesterday and his support could not have been better. Gober and Shaw from the Grays were in the Borger line-up and Clayton was with Shamrock. Clayton was hitting the ball and so was Shaw, but the Shamrock pitcher was shy on pitching to Gober in the pinches.

The Grays expect to get going by the end of the week. The Chamber of Commerce is to meet and discuss the baseball situation. Gober has two good men ready to step into a uniform as soon as positions can be secured for them. Then look out, Borger!

The Texans split a double-header yesterday but couldn't make it two in a row. Four new men in the line-up seem to strengthen the team, as no errors were made.

A German editor was fined \$125 the other day for writing an article in which he made disparaging remarks about professional soldiers and attempted to discourage the manufacture of tin ones.

Bigger Bounties For Wolf Kills Will Be Paid

MENARD, June 27.—The days of the sheep-killing wolf of the plains, which for many years caused sheep and goat raisers losses amounting to thousands of dollars yearly, are numbered, if indications of the wolf's demise in Menard county, in the heart of the Plains region, are criteria for judging the rest of the affected area.

Two and one half years ago, the depredations of wolves reached such proportions that the Menard county wolf club was organized, and a fund of \$3,100 was raised from ranchmen to be used in paying bounties on wolves and other predatory animals, such as wildcats and foxes.

The decreasing number of wolves in this territory is shown by the action of the club recently in raising bounties on wolves. The first year, the wolf bounty was \$25, the second year it was raised to \$50, and this year it will be \$100, with \$12.50 for small wolf pups.

Charles Lindbergh has been requested by the General Federation of Women's clubs to appear in a motion picture under club auspices for the purpose of arousing interest in American home life.

Students of Los Angeles high school have directed and produced a film of their own, "Merrill of L. A."

Tox Mix is owner of one of the largest ranches on the picturesque Hassayampa river in Arizona, a tract comprising 12,000 acres. Seven thousand head of cattle are on its ranges. "Tumbling River," his next picture, will be made at this ranch.

In a private showing, newspaper men of Germany voted for the showing of "The Big Parade" in that country.

Films with a labor bias, to be used for socialistic propaganda, will be made soon in Germany.

Golleen Moore is recovering from an attack of pleurisy and will sail for Europe soon.

In China, movies showing kissing scenes, revolutions, defiance of law, or use of deadly weapons are taboo.

City Officers to Make Houston Man Next President

(By The Associated Press.)
FORT WORTH, June 25.—Selection of the 1928 convention city and election officers made up the program for the final day of the twenty-first annual convention of police chiefs and city marshalls. Houston and San Antonio were the only cities seeking the next meeting. W. F. Kessler of Houston is slated to be elevated to the presidency.

The Christian Endeavor will go to LeFors Tuesday night on a weiner roast and picnic.

Baptist Church Has 7 Additions At Sunday Meetings

There were seven additions to the membership of the First Baptist church at the services Sunday, six of them by letter and one for baptism.

Rev. Leonard Seigle preached at both services in the absence of Rev. Trahitte, the pastor. Rev. Seigle's subjects for the morning and evening services were "Harvest Help Needed in Pampa," and "The Three Crosses." In the morning service there were three additions, and at the evening service there were four.

Sunday marked the beginning of two B. Y. P. U. study classes, on in "Advanced Methods in B. Y. P. U." taught by Rev. Seigle, and the other "What Baptists Believe" taught by T. B. Solomon. The classes will continue until Friday. Friday night the examination in the two books will be given, then there will be a social for those who took the courses. The study hour will begin at 7:15, and at 8 o'clock there will be a devotional attended by all those taking the courses, and others who care to come. A large attendance is desired by those teaching the books and by the pastor.

PLANS UNDER WAY FOR DE MOLAY DANCE

De Molays, former members of that organization, and Masons are looking forward to Wednesday evening, when they will enjoy a De Molay dance here.

The dance will be held in the new Danceland hall in the basement of the Brunow building. Tickets are on

Kimes Spirited Away Today By State Officers

(By The Associated Press.)
FLAGSTAFF, Ariz., June 27.—Matthew Kimes, Oklahoma outlaw captured here last week, was spirited out of the county jail here today by Sheriff John Russell of Okmulgee, Okla., and started for the scenes of his alleged banditry in Oklahoma, by automobile.

Texans In Boston Visit a Governor

(By The Associated Press.)
BOSTON, June 27.—Governor Fuller today greeted Governor Moody and 125 men composing the goodwill delegation from Texas which is touring the east.

A visit to the State house and a call upon the Governor were high spots of the day. The forenoon was largely taken up with a sight-seeing trip about Boston after a welcome at the city hall.

More Than 150 Visit Hospital At Opening Yesterday

More than 150 persons visited the new Pampa hospital yesterday at its opening. They were greatly impressed and surprised that such an institution was being supported in Pampa.

Although not fully equipped, the hospital is caring for 20 patients at the present time, many of whom have had operations. A large quantity of furniture and other necessary equipment is in the freight sheds here ready to be delivered as soon as funds are available.

The doctors and nurses are working under difficulties, but hope to have a fully equipped hospital in a short time. The institution is open to all doctors and patients. It is not, as many people think, a private institution.

Siren To Sound Each Friday Noon

Friday evening's fire alarm, which got out a big crowd to watch the three trucks "make" an imaginary fire on the north side. It was practice night.

Hereafter, according to Fire Chief Ben White, the department will test the siren at noon each Friday. The big noise must be tested once each week, and this set time will be used so that local people may understand there is no fire.

The siren also will serve notice on members of the department that it is the day of the evening practice.
