VOL. 1. NO. 116.

PAMPA, GRAY COUNTY, TEXAS, SUNDAY MORNING, JULY 24, 1927.

PRICE FIVE CENTS.

## BORGER ASKS RANGER RECALL

### Streets Are Flooded With Light as White Way Opens

#### 78 LAMPS ARE IN LIMITS OF LOCAL PAVING

Installation of Present System Made For Permanency

#### SIRENS SOUND FRIDAY NIGHT

#### Property Owners To Pay Operating Cost To January 1

Persons driving into Pampa from any direction Friday night were impressed by the flood of light which was released within the limits of the paving.

Pampa's white way of 78 lamps was turned on by the Southwestern Public Service company at 8:30 p. m. and the occasion was heralded by the sounding of the siren and the screaming of the fire trucks.

The modern system, wired under ground with a separate circuit, has been built at a cost of approximately \$15,000. Although now reaching the limits of the present paving, the system likely will be extended about January 1, or possibly before.

Under an agreement between the city and the utilities company, the cost of operation will be borne by the property owners until January 1, when the city will take over this expense. The operating cost is \$5 per 100 curb foot, and this is to be apportioned on that basis to the property owners.

The standards and lamps are owned by the service company. The big lamps, similar to those on Tenth street in Amarillo, will be burned from sundown to sunrise. Illuminating the paving and adjacent streets, the white way is regarded as a great civic asset, and one which is sure to impress visitors favorably.

Motorists are warned not to strike the standards, as a heavy jar will break the globes, which cost \$6.75 and the lamps, whose cost is \$2.75. Striking the standards will also tilt them at an unsightly angle, it is pointed out.

The old lamps, eight in number, have been replaced by the fine modern system, which is centrally controlled from a separate switchboard in the power station.

All overhead light, which are in use in the alleys and intersections in the residential sections, and which will be extended immediately. Thirty-seven overhead intersection lamps are to be placed at once. These overhead lights are on a separate circuit, also centrally controlled.

#### Base Is Laid For 2 Blocks of Paving

The Stuckey Construction company completed the first two blocks of base in the second paving program Friday night. It just took the company one day to lay the base.

Indian Jim will get into action about Thursday morning laying the brick on Russell street from Atchison avenue to Foster avenue in front of the new Schneider hotel, and from there he will go to work on Frost street from Atchison avenue to Kingmill avenue.

#### Dempsey and Tunney Formally Matched

NEW YORK, July 23.—Tex Rickard announced today that Jack Dempsey has been formally named as Gene Tunney's opponent in the world's heavyweight title boxing match to be held some time in September.

## PANHANDLE PRODUCTION OFF 4,002 BARRELS

### Aw! Yes, Monocles Tell 'Em Apart

Beth and Betty Dodge of Los Angeles have found a new study—monocles. The Los Angeles twins, who recently returned from England with a fine collection of the eye-pieces, insist that the wearing of the semi-windshields is more than a hobby, it's a science. The twins are identified by the monocles. Beth wears hers only in the left eye, while Betty concentrates on her right.

## Statue of Washington Is Bombed In Buenos Aires—All American Buildings Under Heavy Guard

BUENOS AIRES, July 23.—All important American buildings in Buenos Aires, including the United States embassy and home of the Charge d' Affaires, H. L. Cable, are under heavy guard today as a result of an explosion of a bomb at the statue of George Washington last night.

The blast was attributed to Sacco-Vanzetti sympathizers.

Police this afternoon raided several radical centers and arrested several men for examination. The chief of police, however, said it would be most difficult to find the guilty men, as attempts at bombing are usually conducted at the utmost secrecy.

He added that nothing would be left undone to discover the perpetrators. An unexploded bomb which was found in front of the Ford automobile agency was wrapped in newspapers printed in Italian, and containing articles concerning Sacco and Vanzetti.

The United States embassy, the American consulate, and other American institutions have been receiving threatening letters, which have increased in number during the last few days, it was stated.

## Change of Venue Desired In Flogging Cases at Marshall

MARSHALL, July 23.—There is every indication that the defense will seek a change of venue when the case of Cain Anderson and Dewitt Osborne, indicted on eight counts by the special grand jury investigating the flogging of four persons near here on June 8 is called for trial Monday.

This belief is based on the fact that the defense has requested 64 witnesses to be on hand when the trial starts.

## Crippled Cutter Towed Into Port

GALVESTON, July 23.—The coast guard cutter Comanche, which drifted helpless in the Gulf Friday with engines crippled by a blaze in the fire room and her radio out of commission, was being towed to Galveston today by a tug, according to a message received from the tanker S. B. Hunt.

## GRAY COUNTY HOLDING PAGE

### Millions Being Spent To Carry Gas To Other States

Panhandle crude oil production took another big drop during the last week, reaching the low point of 113,973 barrels.

This figure represents a loss of 4,002 barrels compared with the previous week. Nine new completions failed to offset the decline.

Carson county produced 1,189 barrels from 154 wells.

Gray county, showing the smallest loss of any Panhandle county, declined 25 barrels despite completions.

Hutchinson county's 1,005 wells made 91,097 barrels; Moore's two made 122 barrels, and Potter's lone producer is still good for 35 barrels.

Wheeler county, which has 35 producing wells, made 2,677 barrels.

Posting of a 10-cent premium on Gray county crude, which is now sold on a gravity test schedule, was a high point of the week.

The Empire Gas and Fuel company is placing the machinery for its booster station southeast of the city, and pipeline activities make up much of the work of the week. The gas construction work, says the Oil and Gas Journal, represents the greatest similar activity in any single field in the country.

Five major trunk lines, to serve six states, will when completed cost upwards of \$50,000,000. The sixth line proposed will raise this figure, which does not include gathering lines within the field.

Present construction programs include about 620 additional miles, and 400 miles are in new proposals. The total mileage of the five systems will be 1,400 miles.

Northern Texas Utilities company of Wichita Falls built the first transmission line—175 miles of 16-inch line from Wheeler county. The Lone Star company of Dallas followed with a 200-mile, 18-inch line from Wheeler to its system connections at Petrolia. West Texas Gas company is building a 217-mile line from northeastern Potter county to the South Plains. The Empire company is well started on its 400-mile line from the Pampa field to Kansas City. The Colorado-Interstate company is shaping plans for the 400-mile line into Denver. The first line was completed in February of 1927.

No exhaustive study of the Panhandle gas area has been made, but geologists have traced the probable area from northwestern Moore county through Carson, Gray, and most of Wheeler county. The oil strata roughly covers most of this district, although proven territory is by no means exhausted.

## Officers Get Much Beer From Negro

Officers of the sheriff's department met a negro in South Pampa Friday night carrying a pail, the contents of which clinked together when he walked. Upon investigation, the pail was found to contain a few bottles of home brew which the man is said to have had for sale.

A visit to his house netted the officers 71 pint bottles of choc beer, an outfit for the making of the beverage, a bottling outfit, and a capper with a large supply of caps.

## JURY AT WORK

BENTON, Ill., July 23. (AP)—Twelve jurors late today were deliberating on the fate of Charles Birgir, gang chief, and two former henchmen, Art Newman and Ray Hyland, accused of slaying Joe Adams, mayor of West City, December 12.

## Gives Air Party

Theater parties and dinner dances are quite antique these days. Miss Helen M. Walker of Detroit, recently treated her friends to a flying party over Detroit in a Ford plane. Oh, yes! A good time was had by all.

## CATHOLICS TO BUILD CHURCH

### Brick Structure To Be Started On W. Browning

Immediate construction of a substantial brick church is contemplated by Pampa Catholics, who met at the New Schneider hotel Thursday evening and perfected plans for a drive among members of the church.

Three lots have been purchased on West Browning avenue across from the site of the proposed Episcopal church.

Contributions are already being received, and Father M. G. French of White Deer, who also serves the Pampa church, intends to have construction work under way here soon.

There are about 60 Catholic families in Pampa, and services are being held regularly in the Chamber of Commerce rooms. As their numbers grew the desirability of building a church was discussed, and the recent coming of Father French led to definite plans taking form among the members.

## PRISONERS ESCAPE BY SKYLIGHT IN DALLAS

DALLAS, July 23. (AP)—While more than a score of policemen and plain clothes men were about their duties in various parts of the building Saturday afternoon, three prisoners escaped from the city jail by smashing a skylight and climbing through the roof.

## Mystery Is Solved As "Hotshot" Mayes Appears—He and Another Man Pay Fines In Assault Case

The mystery of the disappearance of "Hotshot" Mayes from his boarding place in the Wilcox area was solved by the sheriff's department late yesterday.

Until the young man appeared in person the officers worked on the theory that he might have met foul play. Yesterday morning they caused the arrest at Memphis of W. O. Starr, with whom Mayes was living south of Pampa and with whom he disappeared at 2 a. m. more than a week ago.

Starr was brought here in connection with the case and held in jail for a short time pending the arrival last night of Mrs. Starr and Mayes.

## MASS MEETING DISCUSSION ON MATTER HELD

### Grand Jury Returns Indictment Against DeGraffenreid

### BANKER NAMED TO SEE MOODY

### Business Men Ask for a Petition on Question

The Hutchinson county grand jury in special session has returned an indictment charging Ranger Jack DeGraffenreid with assault with intent to murder in connection with a shooting affray involving a deputy sheriff.

BORGER, July 23.—Borger is tired of Texas Rangers.

Friday evening about 1,500 local business men held an open air mass meeting and decided to make an emphatic plea to Governor Moody to recall all Texas Rangers. There are four stationed here now.

Numerous citizens spoke, and all agreed that Borger has cleaned house well and that local officers are able to enforce the law satisfactorily.

Asa Ramsey, Borger banker, was appointed to head a committee which will take a petition to Austin and appeal to the governor.

The matter has never been officially laid before Moody, although Mayor Pace made a trip and saw Robertson, adjutant-general. Robertson was of the opinion that a large petition, if laid before the governor, would obtain the action desired.

The citizens' action followed the altercation this week between Rangers and county officers, in which Ranger DeGraffenreid fired several shots and during which the clothing of a deputy sheriff was perforated.

## Gasoline Thrown In Jest Results in Man's Death

BORGER, July 23.—A bucket of gasoline, mistaken for water and thrown playfully on W. A. Stevens yesterday at the Marland Machine shop, resulted in his death when it ignited at a nearby fire.

Stevens died of burns today. Harry Smith and Elmer Gaston were badly burned trying to extinguish the flames.

The gasoline was thrown on Stevens in retaliation for his turning the hose on fellow workmen during play. Stevens leaves his widow and two small children.

Mrs. F. A. Cary had her tonsils removed at Pampa hospital Saturday.

# Speaker Crowds Cobb Out of Leading Ten Sluggers

## GEHRIG LEADS NOW IN HOMERS

### Blaeholder Adds Two More Victories To Record

(By The Associated Press.)  
 CHICAGO, July 23.—Tris Speaker, the last of the batting kings of former years to reach the heights this season, bobbed up among the first ten hitters of the American league today. Ruth, Hellmann and Cobb all reached the top ten ahead of the ex-Cleveland manager, but Speaker's heavy hitting on the Senator's western invasion has crowded Cobb out of the select circle.

Cobb, however, is represented on the pinnacle of the league in his pupil, Al Simmons, who has a firm hold on first place, eight points ahead of Columbia Lou Gehrig. Following these two youngsters is a pack of keen eyed veterans of many campaigns.

Speaker gained twelve points this week, in averages compiled today including Wednesday's games. In his last five games he combed out eleven hits to assist Washington to victory in their first two western series.

#### Gehrig Leads Ruth

The home run honors, switched back and forth between Ruth and Gehrig, rested with Gehrig Thursday, at 31, one more than the Babe had achieved. This total was considerably short of Ruth's record year of 1921, but the combined Yankee total of circuit clouts is more than double the next team's total, 40 for the Athletics. The Yanks have scored 97 homers, within one of the combined total of the last five teams of the league.

George Sisler took the base stealing lead away from Tavener, the Tigers' sparkling shortstop, again adding two to score eighteen.

Dutch Reuther still leads the regular boxmen of the league, with a score of ten victories to two defeats. Ted Lyons and Al Thomas, the Sox room-mates who lead in total victories with fourteen and thirteen respectively, went down to defeat in all their attempts this week. George Burns, the Indian's first sacker, has reached 41 in his effort to set a new two bagger record. He holds the title himself now at 59.

Leading American League batters are: Simmons, Philadelphia, .398; Gehrig, New York, .390; Meusel, New York, .373; Schang, St. Louis, .371; Hellmann, Detroit, .368; Neun, Detroit, .367; E. Miller, St. Louis, .366; Ruth, New York, .360; Bennett, St. Louis, .358; Speaker, Washington, .355.

Not for long could the Pittsburgh trio, who have dominated the National league batting list since early in the race, be kept apart, even by such a determined stickler as Frankie Frisch. For a few days only, Frisch crowded Clyde Barnhart out of third place but the Pirate fly chaser bounded back with vigor this week while Frisch struck a slump.

The whole National league list of leaders is ten to twenty points below the American league's percentages. The explanation may lay in part in the pitching performances of the elder circuit's leaders, Lee Meadows, Carmen Hill, Jess Haines, and Charley Root. Meadows and Hill, the expected pair of the Pirates, are at the top, all by themselves.

Jess Haines has a couple more defeats than these two, while Root has more defeats and more victories than both. Root's mark of 16 victories is the top figure for both leagues.

#### Frisch Still Stealing

Frisch gathered up his usual two stolen bases, and now has 28, in figures compiled today, including Wednesday's games. At the same rate, he would approach the marks of the old timers before the days of the rabbit ball and the welter of home runs.

Leading the National league's home run department is a veteran of the days when circuit drives were a real sensation, Cy Williams. The Phillies' long home stay, with short fences, has enabled him to run his string up to 20. Hornsby and Hack Wilson, Cy's principal rivals, have only six teen apiece.

Today's newcomers in the top ten of the league are Chick Hafey of St. Louis and Pie Traynor, the Pirate captain, both of whom have been hovering on the border for some time. In team batting Pittsburgh pushed its mark four points upward to .315 in this week's games.

Leading National League hitters are: P. Waner, Pittsburgh, .378; Harris, Pittsburgh, .377; Barnhart, Pittsburgh, .370; Frisch, St. Louis, .358; Harper, New York, .358; Farrell, Boston, .346; Hornsby, New York, .355; Farrell, Boston, .346; Hornsby, New York, .342; Traynor, Pittsburgh, .342; Hafey, St. Louis, .335; Mueller, New York, .333.

## WORLD'S DISTANCE SWIMMERS ENTER \$50,000 ONTARIO CONTEST

TORONTO, Ont., July 24. (AP)—The wide waters of western Lake Ontario are beckoning to a host of the world's best long-distance swimmers. Preparations are well under way for a 21-mile course to be held here in connection with the Canadian National Exposition on August 31.

From a half dozen countries of the old world and from practically every state of the United States and every province of Canada have come more than 100 applications for entry. The event bids fair to take its place with the English channel and Catalina Island swims. Veterans of those waters are entered in large numbers, with others who will be seeking fame and for tune for the first time.

Among those who have registered are George Young of Toronto, and winner of the \$25,000 Catalina Island event early this year; Ernest Vierkotter of Hamburg, one of the conquerors of the English Channel; Ishak Helmy, Egyptian contender for channel honors; and Jane Sion of Brussels, another unsuccessful

#### Orwoll Bats .400

Ossie Orwoll, who pitched two victories for the Brewers and chased flies in four others, this week is still on top in the American association's batting list today. He has the only genuine .400 mark in fast company now. Meanwhile, Dewitt Lebourveau, the customary batting leader of the association who has been sold to Connie Mack, is still slipping.

Ollie Tucker, the Millers' new outfielder, couldn't quite hold the pace in second place and Ivy Winge's latest find, Kirkham, took his place. Every body but Orwoll lost a few points this week, in figures compiled today including Wednesday's games.

Lebourveau can still steal the bases though, gaining two more to hold his lead of eighteen, with Bruno Haas of the Saints keeping step at the same total.

The Millers have a corner on the leading four base knockers, Earl Smith and Frank Emmer, the demon shortstop, ranking first and second with a big lead on the rest of the heavy clouters. Smith has sixteen and Emmer fifteen.

#### Milwaukee Climbing

Milwaukee's gradual gain with the bat has put them just four points back of the hard hitting Blues, and but one point behind the second ranking Mudhens. The figures are Kansas City .319, Toledo .316, Milwaukee .315.

Both Zinn's starts were victories this week, and his mark of fourteen wins to five defeats puts him way above the other regulars. Orwoll also has won twice but is six victories back of the Kansas City star's total.

Emmer is also nearest the century mark in crossing the plate. He has 90 runs now, a gain of eight this week and at the present pace should cross the line in about ten days.

Leading American Association hitters are: Orwoll, Milwaukee, .400; Kirkham, Columbus, .387; Grimes, Toledo, .383; Tucker, Minneapolis, .379; Russell, Indianapolis, .377; Duncan, Minneapolis, .372; Lebourveau, Toledo, .369; Veach, Toledo, .363; Heving, Toledo, .363; J. Kelly, Toledo, .362.

#### Cunningham a Whiz

Cunningham, the fly chaser Des Moines purchased from Amarillo, who started in his new uniform with a batting mark of around .500, has settled down to a steady gait at the

George Young, winner of the Catalina Island swim, is shown at the left. Ernest Vierkotter (above) will try his channel-conquering stroke in fresh water. Below is Ishak Helmy, Egyptian swimmer.

channel swimmer but holder of many women's records in European swimming.

Miss Sion will have plenty of companions of her own sex. Attracted by prizes of \$5,000, \$2,500 and \$500, for the first, second and third places for women contestants, a dozen have entered their names. Neither are Miss Sion, Vierkotter nor Helmy alone in representing foreign lands. Italy and Sweden also have entries.

Both the start and finish of the event will be at the Canadian National Exposition grounds on the lake shore just west of this city. The 21-mile course will be rough-

top of the Western league with a mark of .390 today. Pete Casey, the Tulsa home run king, is still on the bench from a bean ball of several weeks ago, leaving his batting figure at .424.

Munson, Casey's home run companion on the Oilers, is keeping up the pace, though, with his weekly brace of four-base knocks. He now has 22, while Casey's 17 is still second high.

Comorosky, the future Pirate outfielder performing for Wichita, lost his leadership with a slump of five points and Langford, of Des Moines, passed him for second place.

Joe Rabbit, the fleet Omaha outer gardener, gathered in three more stolen bases and is now eight ahead of Griffin of Des Moines. Rabbit has 34 steals to his credit, but he dropped three points in his batting figures in games including Wednesday. He is far in the lead in runs scored with 94.

#### Denver Slumps

The Denver club dropped out of the 300 class as hitters by a single point, while Tulsa and Des Moines held their own at .328 and .302 for first and second places.

George Blaeholder, the Tulsa wizard is back on another pitching streak, two more wins this week making his string of victories this season total 19. His comrade, Black, in the relief role, has credit for seven wins without a defeat, proof of an able job of relieving.

Davenport of Des Moines is Blaeholder's nearest rival with a score of 13 victories and three defeats. Davenport won his only effort this week.

Leading Western league batters are: Casey, Tulsa, .424; Cunningham, Des Moines, .390; Langford, Des Moines, .382; Comorosky, Wichita, .381; Bennett, Tulsa, .376; Wingfield, Tulsa, .363; Bliss, Wichita, .361; F. Griffin, Des Moines, .361; Reagan, Denver, .360; Munson, Tulsa, .360; Rabbit, Omaha, .359.

#### ALPINE BOOMING

ALPINE, July 23. (AP)—Since the report that the Orient Railway would build from Alpine to Fredslo, a great deal of Alpine property has changed hands, and a number of real estate deals are pending.

Prices of property are increasing, and at this time the town is overflowing, each hotel room or apartment

## SPORT TALK

The Pampa Grays had their last big workout Friday afternoon in preparation for the Amarillo tournament. The boys looked good and took the Oilers on for a nine-inning battle and scored several runs to the Oilers' four scattered tallies. Allred and Fuller were on the mound for the Grays and is just too bad for some of the teams who think they have an easy time when they hit the Grays.

Jack Gober had another homer, while the slugger, Red Gaither, was hitting them all over the lot. The other boys had their batting eye and the infield worked like a million dollars. When the Grays hit Amarillo there is sure to be some fun.

The big fight moguls are still up in New York arguing about the fight. Sharkey and his backers still argue that he was fouled, but so far the pictures haven't showed it.

The National league lead changed again yesterday when the Pirates hopped into the front seat. Chicago, and St. Louis are close behind and the race looks interesting from here till the close of the season. Friday afternoon Hack Miller be-

## Washrites Look Like Champs, Taking A Game On Friday

The Washrites took a stronger hold on third place in the city league standing Friday night when they defeated the Rig Builders at Magnolia Park, 11 to 1. Joe Vincent pitched nice ball, allowing the Merten boys only four scattered hits while the laundrymen were collecting ten.

Hust and Talkington were the hitters for the Washrites, while Steel got two of the Merten boys' four hits. The fielding was good and the large crowd got their money's worth out of the game.

Batteries: Washrites, Vincent and Hust, Rig Builders, McClunford, Edeland, and Lunford.

The league standing, including Friday's game:

Team	G	W	L	Pct.
Oilers	6	5	1	.333
Magnolia	5	3	2	.600
Washrites	5	2	3	.400
Rig Builders	6	1	5	.166

came a member of the home run kings. Miller pounded his thirtieth homer in the fourth inning of Friday's game and became tied with Babe Ruth and Lou Gehrig for the top of the list.

### FEATURES FROM OTHER LANDS

**PRICES OF ANTIQUES SOAR AT PARISIAN AUCTIONS**  
PARIS, July 23. (AP)—Sky-high prices for fine old furniture at important auctions have turned the antique business into something like big-business speculation.

More than a half million dollars was obtained in a recent three-day sale of only part of one woman's private collection. Chairs of the Louis XV period sold at \$1,000 and \$2,000. One inlaid cabinet was bought in for a government museum at about \$30,000. Prices of \$10,000 and \$15,000 for single pieces of furniture have been frequent of late.

The big sales sometimes are almost social events. First inspection of the articles is often by invitation. Prospective bidders buy reserved seats at auctions.

#### OCTOGENARIAN ARTIST PAINTS HINDENBURGH

BERLIN, July 23. (AP)—An octogenarian painting an octogenarian is the unique spectacle offered at the German president's palace almost daily.

Max Liebermann, 80 years old, who is perhaps better known at home and abroad than any living German artist, puts in an hour or two each day at the executive palace on Wilhelmstrasse, painting the almost 80-year-old soldier-president, Paul von Hindenburg.

Liebermann is not the only painter for whom President Hindenburg finds time to pose. Prof. Hugo Vogel, who was Hindenburg's official painter during the war and as such was the only civilian in the field marshal's entourage at grand army headquarters, is also doing a portrait of the president.

The third painter for whom the aged field marshal is sitting is Prof. Conrad von Kardorf of Breslau. He is a brother of Siegfried von Kardorf, people's party deputy in the Reichstag, who recently married Katharina von Oheimb.

#### EXPLOIT OF U-BOAT PUT INTO MOVIE

BERLIN, July 23. (AP)—Capt. Paul Koenig's daring exploit of taking the merchant submarine "Deutschland" into Baltimore harbor and back to Bremen during the war, despite the vigilance of allied submarine destroyers, has been put into a movie. The film, which bears the title, "U. Deutschland," was twice interdicted by the board of film censors, but has finally been released by the chief censor.

Capt. Koenig was on the welcoming committee which greeted Clarence Chamberlin and Charles A. Levine at Bremen on behalf of the North German Lloyd, when the two ocean fliers came to Bremerhaven to meet their wives.

#### FINDS FEWER NEURASTHENICS AMONG GERMAN ARTISTS

BERLIN, July 23. (AP)—Homer Saint-Gaudens, director of fine arts at Carnegie Institute of Pittsburgh, finds that the neurasthenic in German art has practically disappeared.

Saint-Gaudens is touring Europe to select pictures by prominent artists to be exhibited at Pittsburgh, beginning October 14. In Berlin a luncheon was given in his honor by the cultural division of the foreign office.

"Immediately after the war," Saint-Gaudens said, "Germany, like many other countries, produced a number of neurasthenics in art, whose productions were of a decidedly freakish nature. I find that now, after stable conditions have been established in the republic, the neurasthenics are rapidly disappearing. There is much earnest, sincere

endeavor by well-balanced artists. "German present-day art differs from French or Spanish in that apparently greater emphasis is laid upon the manner of execution. In Spain and France, matter is supreme, manner secondary."

#### "FRAEULEIN BEROLINA" TEMPORARILY EXILED

BERLIN, July 23. (AP)—"Fraeulein Berolina" has been banned to the suburbs.

"Berolina" is a heroic female figure adorning the Alexander Platz in the heart of the city. It symbolizes the City of Berlin, and has for many years towered far above the turmoil and confusion of this busy square.

Excavation in the building of a new subway station made necessary the temporary removal of the gigantic statue. "Berolina" was taken out into an obscure suburb, where she is being "parked" until she can resume her old stand opposite the office of the chief of police.

#### GERMAN TOWN UNVEILS TABLET TO BEETHOVEN

BERLIN, July 23. (AP)—Bad Mergentheim, one of the most popular spas in Germany, has unveiled a tablet to Ludwig von Beethoven.

The only town in Germany outside of his native city of Bonn, in which Beethoven lived and worked, was Bad Mergentheim. Vienna, while a German speaking city, belonged to Austria even then.

#### FRENCH SAY U. S. TOURIST SPENDS \$1,000 IN FRANCE

PARIS, July 23. (AP)—Every fourth tourist in France is American, statistics show, but that one spends about as much as the other three.

France had something over a million tourists here last year, says

Pierre Audigier, secretary-general of the 700 associations trying to attract foreign money. This year, however, he looks for a good increase in numbers if not in dollars. The average American, his records indicate, spends about \$1,000 in France. This is more than four times as much as travelling Spaniards, and more than tourists of other nationalities spend.

A little more than two-thirds of all Americans who cross the Atlantic come to France.

#### WRITER SEES DECLINE IN FRENCH AVIATION

PARIS, July 23. (AP)—French aviation is in a state of decline, writes J. M. Amiot, basing his assertion on interviews he says he had with the principal technical men here.

The trouble, he adds, is that French aircraft are "brilliant the first few days but lacking in permanent worth." He gives the life of most French planes as under 100 hours of flying while American and German airplanes are good for 1,000 hours. As proof of this discouraging statement he says statistics show French army planes last year were replaced 1 1-5 times. The army, he comments, offers no objection to this policy because the pilots like new planes and the builders like the business.

Amiot considers French pilots superior in ability and training to all others, but says that the government spurns new ideas and does nothing to encourage the development of solid, durable, reliable flying machines.

Amiot is one of a number of writers who recently have bemoaned what they consider the aviation engineering stagnation in France, brought out vividly, they say, by the success of American trans-Atlantic fliers and the failure of most French attempts at records of late.

Application for transfer of automobiles for sale at Pampa News.

#### PARIS TAKES UP SHAWLS AT BIG FASHION PARADE

PARIS, July 23. (AP)—An "Evening of Shawls" at the Grande Palace, the government's exposition building, has stimulated the vogue for them.

Mannequins from dressmaking shops paraded with modern shawls, but also all forms and varieties were displayed. Many dated from the time of Napoleon, when the beautiful Madame de Bourrienne, wife of the great Emperor's private secretary, started the fashion by wearing a "cashmere."

### Dotson To Meet Chase Tomorrow

Tomorrow night at 8:30 o'clock at the Pampa Athletic club on South Cuyler street Pampa's wrestling blacksmith, Oscar Dotson, will meet Leo Chase, now residing at Roxana but formerly of Oklahoma City. Both these men have men and defeated Tony Proffilo, and should put up a fast bout tomorrow night.

For a semi-final Dick Bryant, of boxing fame around Pampa, will tangle in a mat go with Brent Ford, former San Angelo mat artist, who is living in Pampa. Bryant is considered to be a pretty fair wrestler and Ford is known all over this section.

The preliminaries will be picked newsboy bouts and should provide excitement for the crowd.

Let a want ad work for you.

The rage for shawls lasted several generations. Persons frequently had large collections, regarding them as excellent investments. In 1860 the shawl "went out." Until recently they were used for all sorts of decorations, even to wall coverings.

FACTS AND OPINION ABOUT AMENDMENTS

Opposition to the proposed tax amendment has pretty clearly defined its dangers, which overwhelm the good intentions of its author. In expressing disfavor of this proposal the News has definitely outlined the ways in which Gray county would suffer and Pampa, especially, would be endangered.

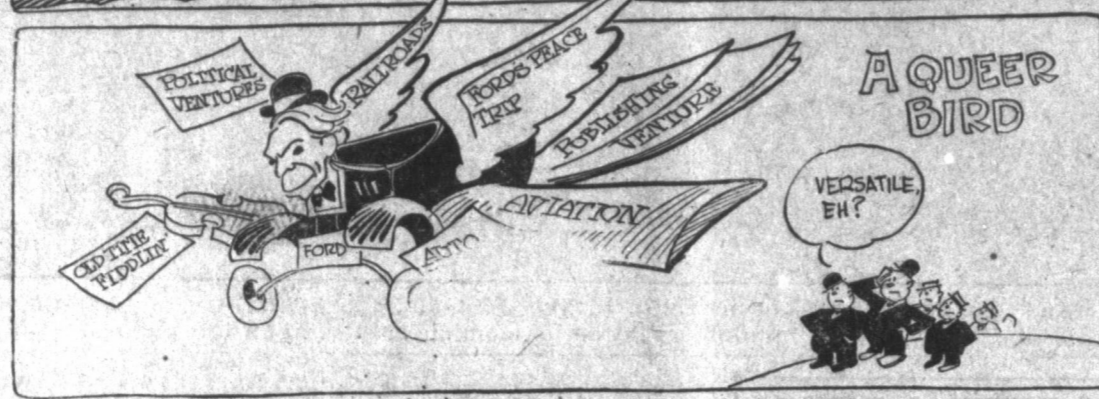

The second amendment relates to the change in the judiciary, and is favored by most lawyers. It abolishes outright the commission of appeals, a semi-official authority which was intended as a makeshift and is itself an evidence of the need for revising the judiciary.

In a similar manner, the commission aiding the Court of Civil Appeals would be abolished and two additional judges with full powers would be substituted instead.

The Supreme Court would have the power to equalize work of district judges, shifting them about to relieve congestion and removing the territorial limitation.

Those who are opposed to the amendment center their attacks upon the possibility of there being a multiplicity of judges and courts. The measure provides, however, that there shall not be more than 12 Courts of Civil Appeals.

News Views

not limit their number. It would seem, therefore, that the judiciary amendment should pass.

First in order of printing is the amendment proposing to raise the governor's salary from \$4,000 to \$10,000 a year, and fixing the remuneration of "officers and members of the Legislature" at not more than \$1,500 per year, exclusive of actual traveling expenses.

The last of the amendments provides for the abolishment of the fee system as it applies to district attorney, county judge, county attorney, sheriff, county clerk, district clerk, county tax assessor and county tax collector, and fixes a salary as compensation in each instance.

The fee system has drawn more fire than almost any other phase of state government, and should be abolished. The amendment gives the Legislature power to set the salaries, and that body should be able to work out a satisfactory schedule.

PAMPA'S CHURCHES ARE ESSENTIAL IN COMMUNITY

Pampa, because of its unusual growth and resultant denominational possibilities, is getting much attention from church groups. Its pastorates are filled with able men who have strong community interests.

Indeed, it may be said as a matter of course that no city of this size in West Texas has more able ministers. And theirs is no easy task, because rapid growth means loose organization and much effort is necessary to enlist the incoming peoples.

But Pampa churches are active and growing and should be largely supported. The News stands for the ideals of the church, and while it has no denominational bias or opinion, it advocates church life for the community and opens its columns to the church as to any other Pampa organization.

It may be expected that Pampa churches will soon undertake to muster their numbers and their capital to erect buildings equal to the needs of the city. Their building programs should be welcomed by members and non-members alike.

Pampa's church life should be encouraged by attendance, participation in activities and financial support.

In Meridian, Miss., a sheriff fights a mob to prevent the burning at the stake of two negroes. Twenty-five miles south of Tulsa, Okla., a sheriff's posse closes in on a spectacular bandit who had kidnaped a town marshal and roped him to a tree with a pistol belt.

the bandits so close to him. Life today is soft, over-civilized, without chance for adventure or heroism? Look again.—Duncan Banner.

That news dispatch about Al Smith and McAdoo stopping at the same resort hotel last month in New Jersey could have gone ahead and said that although this single hotel was big enough for the two, the Democratic party is not.—Altus Plain-Dealer.

PRESS FORUM

How times change even in the unchanging east. They are now getting ready for another war between Japan and Russia. When the last Japanese-Russian war was in its initial stages, everybody sympathized with Japan.

On the other hand, Japan regards this as a good time to "exclude Manchuria and Mongolia from the whirlpool of Chinese disturbances and keep them in peace."

The above is the language of the "all-Manchurian Japanese conference" just closed. Keeping these mighty provinces "in peace" means locating them in Japan.

As a starter, the conference urges that Japan shall "open railways, land, mines, forests and other resources in Manchuria and Mongolia and safeguard lives and enterprises in these territories."

Japan is well fortified by leases, treaties and agreements to inaugurate such a policy in Manchuria, but Mongolia is still claimed by Peking, though it actually is "independent" under the control of the Russian soviet.—Wichita Beacon.

Carol wants the throne; he is aging, and the easy street is more enticing than he formerly thought.

TWINKLES

Now, looky here Uncle Sam, if you must raise some helium we figure Gray county is just as good as Potter, and a good deal better.

And it's just too bad these sooty, smoky carbon black plants are not nice things to have right up at the city limits.

We have our coffee drinkers, but the flag poles are hardly suited to sitting and no Panhandler will have any desire to complete with the Oregon man who dug up 22 bushels of clams in one day.

These stop signs are mighty plentiful, and somehow we can't trust 'em like we can those in the big cities. But folks are taking to them fast, very fast.

Let there be light, somebody said Friday night, and there was light and to spare. Aviators of the future will welcome our white way, and we predict a landing field all lighted for night use will be needed here in less than five years.

We ought to be thankful that the oil world wants less of Seminole and more of Gray county oil. And our gas surely is tickling the anticipatory glands of the Kansas Citizens.

The price of cream is not so high now as it was a few weeks ago or last winter. Poor producing cows are losing money for their owners in spite of the cheaper feed pastures. But there is still a profit in milking good producers and the man who is milking that kind is not having to worry about the grocery bill when he fails on the crop.—Geary Times-Journal.

## International Sunday School Lesson

BY DR. J. E. NUNN

General Topic—David and Goliath.

Scripture Lesson—I Sam. 17:31-37, 4-42, 48-51

31. And when the words were heard which David spake, they rehearsed them before Saul, and he sent for him.

32. And David said to Saul, Let no man's heart fail because of him; thy servant will go and fight with this Philistine.

33. And Saul said to David, Thou art not able to go against this Philistine to fight with him; for thou art but a youth, and he a man of war from his youth.

34. And David said unto Saul, Thy servant was keeping his father's sheep, and when there came a lion, or a bear, and took a lamb out of the flock,

35. I went out after him, and smote him, and delivered it out of his mouth; and when he rose against me, I caught him by his beard and smote him and slew him.

36. Thy servant smote both the lion and the bear; and this uncircumcised Philistine shall be as one of them, seeing he hath defied the armies of the living God.

37. And David said, Jehovah that delivered me out of the paw of the lion, and out of the paw of the bear, he will deliver me out of the hand of this Philistine. And Saul said unto David, Go, and Jehovah shall be with thee.

38. And he took his staff in his hand, and chose him five smooth stones out of the brook, and put them in the shepherd's bag which he had, even in his wallet; and his sling was in his hand; and he drew near the Philistine.

39. And when the Philistine looked about, and saw David, he disdained him; for he was but a youth, and ruddy, and withal of a fair countenance.

40. And it came to pass, when the Philistine arose, and came and drew nigh to meet David, that David hastened, and ran toward the army to meet the Philistine.

41. And David put his hand in his bag, and took thence a stone, and slung it, and smote the Philistine in his forehead; and the stone sank into his forehead, and he fell upon his face to the earth.

42. So David prevailed over the Philistine with a sling and with a stone, and smote the Philistine, and slew him; but there was no sword in the hand of David.

43. Then David ran, and stood over the Philistine, and took his sword and drew it out of the sheath thereof, and slew him, and cut off his head therewith. And when the Philistines saw that their champion was dead, they fled.

Time—B. C. 1073, David being about nineteen years old. Place—Ephes-Dammim, near Shochoh, about sixteen miles southwest of Jerusalem on the road to Gaza.

Golden Text—Jehovah is the strength of my life; Of whom shall I be afraid?—Ps. 27:1.

Introduction

Not long after the anointing of David, which we studied in our last lesson, the old enemies of the Israelites, the Philistines who held the seacoast on the west, made an inroad, pitching their camp near a valley. On the western slope of this valley the Philistines were encamped, and on the eastern slope the Israelites were ranged against them, while a little stream or brook ran through the valley between them.

The Philistine Champion

While the two armies faced each other, neither wishing to open the battle, forth from the camp of the Philistines strode a portentous figure. He was named Goliath, and he came from the Philistine capital, Gath. He was probably one of the ancient race of giants called Anakim, who had so terrified ten of the twelve spies, and who Joshua had driven out of Judah westward toward the sea. He was about ten feet three inches tall. He wore bronze (or copper) armor, a great helmet, a coat of mail weighing about 157 pounds, greaves protecting his legs and feet, and a bronze javelin slung across his shoulders, while he carried a tremendous spear whose head alone weighed nearly nineteen pounds.

David Arrives at the Camp vs. 12-20

David's coming to the Israelitish camp is described in vivid, picturesque language. We can observe the interest and wonder of the young shepherd when he found himself in the midst of the turmoil. Promptly, modestly he became the hero. Nor is he put out by the contemptuous remarks of his brother Eliab. One of the attractive things about David's conduct here is that he dropped into the fight so naturally, so willingly, so eagerly. We admire the volunteer. We may suppose that many appeals for a champion had gone forth to the

army of Israel, but in vain. The adventure and need appealed to David. The single combat is ever one of God's methods of winning victory. The need of most righteous causes is not an army but an individual. There are many evils in the world today that could be over come, if only Davids would step forth as their champion.

David's Faith v 37

David's faith that he could conquer the giant with God's help was strengthened by his remembrance of the way God had helped him to conquer the lion and the bear. "Some saints have very short memories. It has been well said that we write our benefits in dust and our injuries in marble, and is equally true that we describe our afflictions upon brass, while the records of the deliverances of God are written in water. It ought not so to be. If our memories were more tenacious of the merciful visitations of our God, our faith would often be strengthened in times of trial."—C. H. Spurgeon.

David's Weapons v 40

"And he took his staff in his hand." This staff was not a shepherd's crook, but a stout walking stick which David proposed to use if he was forced into hand-to-hand combat. "Thy rod and thy staff they comfort me" (Ps. 23:4). "And chose him five smooth stones out of the brook." The five little stones were almost absurdly inadequate missiles with which to attack a giant in full armor. To this day the traveller finds many round water-worn pebbles in the bed and along the banks of this brook. The bag in which David placed his pebbles may have been his usual sling equipment, or it may have been his ravelling scrip, used to carry his provisions on his walk from Bethlehem. "And his sling was in his hand." Syrian shepherds have always been skillful with slings. David during his lonely watch over his sheep, had often amused himself with sling practice, and now he found it extremely useful. Every skill that one can gain is likely to prove profitable to him at some time.

How God Saves

God saved through David's use of the most unlikely weapons. "Are not all the battles of the Lord fought so? Did you ever hear of one true struggle for God that was waged with the common armor of the world? It is the base things of the world, and the things that are despised, with which God brings to naught the things that are (1 Cor. 1:28). Mohammed took the sword when he went out. But Jesus took the foolishness of preaching. And by that sling and stone, which men would ridicule, great David's greater Son has won the day." "David did not trust in his sling. He tells us he trusted in God, but he went to work with his sling as if he felt the responsibility to be his own. Such is the true philosophy of a Christian's life. You are to do good works as zealously as if you were to be saved by your good works, and you are to trust in the merits of the Christ as though you had done nothing at all."—C. H. Spurgeon.

David's Victory Over Goliath vs. 50, 51.

"So David prevailed over the Philistine with a sling and with a stone, and smote the Philistine, and slew him." This is a summary of the entire story, with the lesson to be drawn from it, namely, the power of God's champion to conquer, even with the most unlikely and apparently inadequate weapon. It was an added indignity that Goliath's own sword should be used to complete David's

## Sets Air-Mark

Lieutenant Byron J. Connell of the Pacific battle fleet aircraft squadron took a FN-30 seaplane into the air the other day, carrying a weight of 4500 pounds and remained aloft 11 hours, 7 minutes and 18 seconds, covering a distance of 947.58 miles. It was a new air record, shattering the old mark held by an Italian pilot who remained aloft 5 hours, 41 minutes and 7 seconds under the same conditions.

triumph, the sword with which the giant has so confidently expected to slay the young Hebrew. Though Goliath was probably dead already, yet he might have been merely stunned, and David took no chances of his re-creating. "And cut off his head therewith." It would be a valuable trophy of the great victory.

Special Lessons

1. "David seemed no match for Goliath with only a sling and a stone, but he knew his weapon, he had proved it."

2. "The man who dares to be right; who asks, not what men are pleased to think or say, but what he ought to think and do; who feels this short life to be his only opportunity for glorifying God on this side of eternity—this man is a host. Witness the striding David."

3. "The devil is our Goliath; we have to fight Satan, who is far more fearful and powerful than ten thousand giants, and who would to a certainty destroy us were not God with us."

4. "The faith that secures a victory like David's, or indeed any life victory, whether it be over evil habits, laziness, or natural difficulty, is a faith that speaks in the imperative mood. It does not permit the subject of it to doubt or retreat. It simply impels him like a gale on the seas, on and on, in a mighty and resistless course."

## Underwood Returns With Fine Model of New Buick Car

T. K. Underwood returned yesterday from Oklahoma City, where he inspected the New Buick models and brought one back with him.

The new models, Mr. Underwood believes, are truly "better Buicks," and are sure to please his patrons.

Scores of people inspected the New Buick at the showrooms here yesterday.

There is no marked difference in appearance between the shorter and longer wheelbase models of the 1928 Buicks. Both have the same radiator shell and the same stylish low contour.

The gear shifts in all 1928 models

## Diplomat's Daughter Weds

LONDON, July 24. (AP) — Sir Austen Chamberlain, Foreign Secretary, played an important role at the wedding of Miss Matilda Houghton, daughter of the American Ambassador to the Court of St. James, who became Mrs. Chandler P. Anderson Jr., at St. Margaret's, Westminster. Lady Chamberlain was also present at the ceremony.

After the services Sir Austen was

the first to wish the bride happiness and to extend his congratulations to Mr. Anderson, whom he had known for several years while the bridegroom was private secretary to Mr. Houghton.

Mr. and Mrs. Anderson left after the wedding for a tour of England and Scotland by automobile. They planned to return to New York City early in August, where they will make their home.

are standard.

The headlamps are entirely new and cast the same quantity of light when turned on dim as when bright however, in the dim position, the light is depressed to the road directly in front of the car where it cannot inconvenience approaching drivers.

New rigidity is assured in the front fenders on the new models by the use of a one-piece tie rod which also supports the headlamps. Two brackets instead of one as formerly give the fenders additional strength.

A combination tail, stop, and backing light entirely automatic in operation is additional refinement in the new cars. Besides adding to the car's distinction, it increases the factor of safety.

The radiator shell on the 1928 cars is deeper. It is heavily nickled and has an improved radiator emblem which resembles last year's, but is more graceful and typifies, in a greater degree, the speed and luxury which are Buick's.

The ignition distributor adjustments on Buick for 1928 are greatly simplified, due to a new accessibility of the adjusting screw.

Improvements in the famous vibrationless six-cylinder, valve-in-head motor lend Buick for 1928 a speed, get-away, and hill climbing ability never before achieved.

The scientific design of Buick's cylinder head in light of engineer's long study of combustion problems, has increased the portion of fuel transformed into useful power, thereby bettering performance. The new head is of the spherical type and is non-detonating.

Tighter seating of the valves and consequent saving of power, result from a new head design whereby the valve seats are more evenly cooled. Still further power increase is assured by the enlargement of the entire exhaust system.

Special equipment includes a quick-acting warm-air heater which delivers pure heated air to the car's interior at the touch of the dash control.

T. D. Hobart is expected home today from the J. A. Ranch.

## Local Ice Plant Has Big Business During First Year

About a year ago the Pampa Ice Manufacturing company built the first ice plant between Amarillo and Canadian. This first project was of ten-ton daily capacity.

From its inception, business was better than had been hoped for by the owners. This spring the plant was increased in size, new machinery was installed, and the capacity was brought up to forty tons daily. Today even this size plant is at times taxed to keep up with the demand for the product.

Wednesday of last week was one

of the biggest days, according to George Custer, local manager, when 54,540 pounds of ice was delivered within the city of Pampa. In addition to this, 4,337 pounds was consumed by the oil field camps close to town, and several tons additional were sent to Miami, LeFors, Noelton, Kingsmill, and other points in this territory.

The company owning the local plant have four other ice factories in the Texas Panhandle, and if the others are doing a business comparable with the Pampa factory, they are dispensing much "hard water" during these hot days.

**Seminole District Reaches High Peak, Making 496,929 Bbls.**

(By The Associated Press.)  
SHAWNEE, July 23.—The Morning News reported Thursday morning's gauge of the Seminole district at 496,929 barrels, which is five barrels more than the peak of last Monday from 625 wells. The increase of 4,237 barrels in Earlsboro produc-

tion, to a new high of 168,917 barrels, carried the field with It. Bowlegs declining 1,223 barrels.

Bowlegs, 161 wells, 190,875 barrels, Earlsboro, 111 wells, 168,917 barrels, Seminole, 306 wells, 91,937 barrels, Searight, 46 wells, 33,098 barrels, Little River, one well, 12,102 barrels.

Three new wells reported Thursday in the Earlsboro field added 4,976 barrels and three other wells, two of them shot, added 13,104 bar-

rels more to the 24 hour gauge, to absorb declines in the five pools for a net increase of 3,956 barrels.

The Tidal Oil company shot its Watkins number one with 20 quarts and it started flowing 153 barrels an hour, gauging 1,512 barrels in 12 hours. Wilcox sand 4,290 to 4,305 feet. The location of the well is northeast corner of northwest of section 9-9-5, a south offset to Amerada's number one, that made 10,000 barrels after a 20 quart shot and a west-

offset to Barnsdall's Gibson number two that gauged 10,252 barrels after a 30-quart shot.

In the southwest 20 acres of the southwest of northwest of section 9-9-5 J. E. Crosbie, et al., shot their number two Bryant with ten quarts and it made 7,580 barrels. Number one had been shot several days previous, completed last March for an initial production of 6,870 barrels and flowing 4,000 barrels when shot. The two wells gauged 12,000 barrels

Thursday morning.

An important completion is Anderson number one for the Mid-Continent Oil and Gas company, northeast corner of section 14-9-5, south edge of Earlsboro production. Finding the Wilcox sand at 4,291-4,302 feet, the gauged production was 4,137 barrels. It is in the first indication except Davis number three for the Prairie Oil and Gas company half a mile east in section 13-9-5, that the Wilcox sand has been found high enough

to make a south extension probable. In eastern Earlsboro Barnsdall Oil company shot its Wasatke number two with 30 quarts and it started flowing 140 barrels an hour, not flowing before the shot, in section 12-9-5. Skelly Oil company shot its Spencer number one with 25 quarts but after flowing 670 barrels it bridged, production before shot 3,870 barrels.

**FARM LOGIC**  
Dairy cows should have all the salt they want. The quantity consumed will vary with the kind of feed and size of the animal. Experiments have shown that ordinary cows in milk will require about 1 ounce of salt a day. Heavy producers should get more. Many dairymen mix salt with the grain mixture, incorporating from 1 to 2 pounds of salt with each 100 pounds of concentrates. In addition, salt is provided so that the cows can have access to it and take more if they desire. Stock salt can be purchased in several forms. In cake form, salt may be kept in each feed box in the barn where the animal can lick it, or it may be placed in a convenient place in the lot or pasture. It should be placed in some sheltered place to prevent the rain from dissolving it.

If cutting timber is done on farm woodlands according to established forestry principles, nature will take care of the next crop, says the Forest Service of the United States Department of Agriculture. On an experimental plot of hardwood timber near Berea, Ky., mature trees were marked for cutting in 1923, and the cutting was completed before the following Spring. Forest officers found that natural reproduction had increased the number of young trees on the plot from 3,254 in 1924, following the cutting, to 15,643 in 1926. Seventy-five per cent of the new growth consisted of valuable timber species—maple, ash and yellow poplar, compared with about 50 per cent right after the cutting.

**Pampa Folks See Many Upsets In Auto Polo Match**

Small cars driving like mad, collisions, crashes, vehicles overturned, players mixed up like in a football scrimmage, mallet men clambering over their drivers to get in a blow—all this made up Pampa's first auto polo match, played Saturday before a large crowd.

The gold clad team defeated the Blues, 24 to 12.

Thrills and spills featured the game as first a gold clad mallet man would fly into the after two cars had collided and then a blue figure got tangled up with his driver and a crash was the result. No one was seriously injured but several minor bruises resulted from spills and collisions.

Hod Johnson and Hobby Hobson showed the crowd why they are classed as America's premier polo drivers when they would drive a car on top of another and then stop, back around it and take the ball with a swing of the mallet and up the field for a score.

Today at 3:30 o'clock the same teams will tangle for their last appearance in Texas before leaving for California to fill a contract there.

**"King Carol" Rumor Was Mistake, and Friend Gave Title**

(By The Associated Press.)  
PARIS, July 23.—The stir created in foreign courts by the words of "King Carol" of Roumania in a statement to newspapers, which were taken to indicate that the banished prince considered himself a successor to King Ferdinand, had subsided today.

The alarm appears to have been premature, one newspaper declaring that inquiry showed the title was added to a statement by a friend, who gave it to the newspapers.

As originally issued, the statement contained nothing which could possibly be construed as a claim to the throne.

**Oil Commissioner Says Body Rules Only On Waste**

(Special to The News.)  
OKLAHOMA CITY, July 23.—The corporation commission has no authority to curtail production unless there is actual waste of petroleum, C. C. Childers, a member of the commission, believes.

Childers declared today he would not sign the temporary restraining order issued by the Commission Thursday, which prohibits shooting of wells in the Seminole field and restricts drilling in remote sections of the area.

**Dave Warren Passes Out Box of Cigars**

When Dave Warren of Panhandle paid the Daily News force a visit Saturday he came prepared.

A seven-pound addition to the Warren family, a girl born July 19, was the cause of Mr. Warren's smiles—and the cigars.

He also distributed the second issue of The Warrenite, a wee publication devoted to the "society editor of 20 years hence." The first issue was printed when Mr. and Mrs. Warren were married. The daughter was born on the father's birthday, but the mother's was only a day off, so the family was happy.

**Fog Holds Back Lindbergh, and He Wanders 5 Hours**

(By The Associated Press.)  
CONCORD, July 23.—A New England fog accomplished what the Atlantic failed to do and disrupted the schedule of Colonel Lindbergh.

It blocked the path of the flying youth on a short 100-mile flight from Boston to Portland, forcing him inland to Concord where he landed after five hours of wandering in the murky air.

He will resume his flight to Portland tomorrow.

BORGER, July 23.—While preparing to bury one son, the father of Earl Pritchard, 4 years old, was compelled to delay the funeral while he rushed the younger son to a hospital. Earl Pritchard fell off a tower and cut a deep gash in his knee, necessitating many stitches.

**Highway Association Sponsors Show**

Ladies will be admitted free to the Merry Madcap stock company show here Monday night. The company will arrive today after playing in Hereford and Clovis recently.

There are 30 people in the company, all talented in their line of entertainment. A band and orchestra accompany the show. A feature is the saxophone six. Another big feature is Miss Jennie Gladstone, the dancing violinist and leading lady.

The orchestra is comprised of members of the Texas Tech at Lubbock and the vaudeville is of high class.

The Merry Madcaps show is being presented under the auspices of the Fort Elliott Highway association.

**Texans Organize To Carry Mails**

(By The Associated Press.)  
FORT WORTH, July 23.—First steps in the formation of a Texas Airways corporation, which, it is believed, will be awarded the contract to carry mail from Fort Worth to South Texas cities was taken at a meeting of business men here today.

According to the plans outlined by Howard Talbot, a committee member, the Texas Airways corporation will be a holding company, while a subsidiary company would operate the mail lines.

**Wales and Baldwin Embark for Canada**

(By The Associated Press.)  
SOUTHAMPTON, England, July 23.—The Prince of Wales and Prime Minister Baldwin and their party sailed for Canada aboard the Empress of Australia this afternoon.

**Counterfeit Plant Found in Houston**

(By The Associated Press.)  
HOUSTON, July 23.—Charges were filed here today against three men following a raid by officers upon a well equipped plant for making counterfeit bills, officers said.

**Spanish Students Stage Rebellion**

(By The Associated Press.)  
MADRID, July 23.—Undisciplined elements exist among students at the Artillery Academy, says a note issued by the government today.

It adds that energetic action will be taken against them.

Mayor F. P. Reid was a visitor in Mobeetic Friday.

**Thousands Greet Fliers at Boston**

(By The Associated Press.)  
BOSTON, July 23.—Countless thousands reversed their usual weekend program and converged on Boston to roar a welcome to America's eight armmen of the hour.

Hundreds of thousands yesterday jammed the streets to shout greetings to Colonel Charles Lindbergh, Lieutenants Albert Hagenberger and Lester Matland, Comander Richard Byrd and companions, and Clarence Chamberlin, all of whom arrived here today.

Mr. and Mrs. Foster Estes of Grandfield, Okla., are visiting with Mr. and Mrs. J. L. Nance. They are returning home after visit to Salt Lake City, Denver, and Colorado Springs.

**100 American Boys Off to See How Denmark Boys Live**

(By The Associated Press.)  
NEW YORK, July 23.—One hundred American boys slid their feet beneath a ship's table Saturday as the first step toward a better understanding between boys of this country and of Denmark.

The lucky hundred, guests on the steamer Hellig Oiaf of the American Scandinavian line, made their way with good understanding through an entirely foreign meal, then bade good-bye to their parents as the ship pulled out for Copenhagen.

The boys are supposed to be representative of this country and have been chosen to stay as honorary guests in homes of Denmark.
